charged-particle energy-loss distributions in thick absorbers, (T), 21:46128 (RHEL/R-146)
charged-particle reactions at 0.04 to 1200 MeV/nucleon, computer program for generating range and stopping power tables for, 22:33668 (AD-661796)
charged-particle reactions in small thicknesses of, formula for most probable energy loss by ionization in, 24:4990
chemical composition of superdense, in neutron stars, (T), 25:40202
compact states of cosmic, (T), 21:46078
composition near nuclear density, (T), 22:15319
composition near nuclear statistical equilibrium at high density, (T), 22:15319
composition of interplanetary, (T), 22:15275
composition of primordial, (T), 25:40314
condensation into galaxies in early Universe, (T), 23: 51353
conference on extra-terrestrial, 23:46156
configurations near endpoint of thermonuclear evolution in stars, (T), 22:15320
content in early universe, inhomogeneity of, 22:22334
content of model universes, blackbody radiation and, (T), 24:37169
contractions of, method of measuring relativistic gravity-induced, 23:37008
cosmic nuclei reactions with interstellar, (T), 21:3712
cosmic-ray energy losses in interstellar, (T), 22:17427
cosmic-ray interaction with intergalactic, x- and γ, (T), 24:4981
cosmological models containing radiation and, open, (T), 23:1145
cosmological models containing, classification of, (T), 24:32607
coupling with radiation in supernova envelopes, relativistic covariant equations for, (T), 24:15031
creation in closed world model, (T), 22:4987
creation in Friedmann universes, continuous, (T), 23: 41891
creation in infrared sources of galaxies, (T), 24:19677
creation in Universe, (T), 22:31574
densities in neutron stars, (T), 24:23548(R) (NYO-3962-2)
density fluctuation in nuclear and supernuclear, (T), 21: 31156
density fluctuations in Universe, (T), 24:19700
density in early Universe, (T), 21:33092
density in intergalactic space, (T), 24:46982
density in intergalactic space, (T), 24:46983

density in interstellar space, (T), 22:21962
density in the Universe, (T), 22:34203
density in the Universe, (T), 22:29110
density in Universe, 25:22339
density in universe from guasar observations, (T), 21:33078
density in Universe, (E), 24:39807
density in Universe, (T), 22:17248
density in Universe, at late evolutionary stages, (T), 24:23724
density in Universe, lower bound to, (T), 25:35811
density in Universe, upper limit on mean, (T), 21:31128
density of intergalactic, (E), 22:43950
density of intergalactic, (T), 24:10335
density of, in galaxies, (T), 25:33031
density perturbations in anisotropic homogeneous Universe, (T), 25:30223
density perturbations in cosmological models, (T), 22:34169
detection of intergalactic, in Coma Cluster, (E), 25:55782
deuteron stopping power at extreme relativistic energies, calculations, 24:25951
dispersed states of cosmic, (T), 21:46078
distinction between antimatter and, absolute, 24:15535
distribution in empty background of inhomogeneous, spherically symmetric, (T), 24:12622
distribution in Goedel universe of charged-incoherent, 21:9685
distribution in Universe, (T), 24:19695
distribution in Universe, Newtonian hierarchical, (T), 25:30226
distribution of cold, in Universe, (T), 25:30227
distribution of superdense, cosmological constant modification of system of generalized field equations in general relativity theory for study of, (T), 25:31004
dynamics and structure of, ultrasonic excitation of superradiative state for studying, (T), 23:5503
dynamics of interstellar, (T), 22:49953
dynamics of pressure-free, in general relativity, 21:40132
effects on galactic red shift of intergalactic, (T), 22:19686
ejection by pulsars, (T), 25:24779
ejection in binary stellar systems, (T), 22:34176
elasticity of, upper limit to, (T), 22:52426
electromagnetic momentum in, Abraham—Minkowski controversy on, (T), 22:41719
electromagnetic radiation reactions with interstellar, impurity effects on, 21:28938
electron energy loss spectra in, (E/T), 22:52492
electron range in, 25:47609
electron reactions with, at 6 GeV, measurement of electromagnetic and nuclear cascades from, 22:39147
electron reactions with, effective density of, 22:52489
electron reactions with, secondary neutron yield from, (T), 25:7131
electron transmission through thick layers of, fast, 22:41636(T) (ANL-Trans-608)
energy deposition by electron beams in, formulation of, 22:31609
energy of partially ionized, (T), 25:1009
equation of state at ultrahigh densities, (T), 24:28068
equation of state for cold neutron, (T), 25:49615
equation of state for cold neutron-star, hyperonic, (T), 24:19598
equation of state for cold ultradense, bootstrap, (T), 25:52530
equation of state for hadron, (T), 25:32934
equation of state for neutron, (T), 24:44851
equation of state for, at subnuclear densities, (T), 24:8263
equation of state of degenerate Fermi gas of hard spheres, (T), 22:8964
equation of state of high-temperature high-density, shell structure and Thomas—Fermi, 23:1178
equation of state of neutral, and fluctuations, (T), 23:39283
equation of state of superdense, in neutron stars, (T), 25:40202
equation of state of, in neutron stars, (T), 25:55715
equation of state of, in neutron stars, (T), 25:45170
equations of state at very high density and zero temperature, (T), 24:39743
equations of state for, relativistic, (T), 21:37647
equilibrium properties of, at very high temperatures and densities, (T), 22:17239
equilibrium state of, at high temperatures and densities, (T), 23:41786
existence and separation of antimatter and, cosmological model for, 21:20651
existence between components of binary systems, observational evidence for, (E), 24:42353
existence of super-dense, in neutron stars, (T), 23:12463
expansion in very early universe, 21:41730
forms of superdense, in stars, (T), 25:58520
fragmentation in turbulent early Universe, (T), 22:36592
gamma-ray interactions with cosmic, (E), 25:22214 (N-71-11415)
generation of negative, in quasars, 21:6965
gravitational coupling of negative-mass, 23:46822
hadronic structure of, Dirac field with nonlinear coupling for, 24:49442
heating of, in expanding Universe, (T), 24:46987
helium ion energy losses at 0.5 to 8 MeV/amu in, Z dependence of, 22:50020
hydrodynamics of mixture of antimatter and, (T), 25:30204
hydrogen ion energy losses at 0.5 to 8 MeV/amu in, Z dependence of, 22:50020
inertia of particles in Universe, Hoyle—Narlikar theory of, (T), 24:28056
infrared emission from cold, in Universe, (T), 25:30227
interaction with electromagnetic radiation in Universe, gravitational, (T), 25:13948
interaction with radiation in hot model of Universe, (T), 24:32596
interaction with radiation in hot-model Universe, (T), 23:41894
interactions with antimatter, atomic effects on annihilation rates for particle—antiparticle interactions in, (T), 25:1455
interactions with antimatter, slow, intermediate-energy, direct-annihilation, and radiative-recombination, 24:3139
interactions with gravitational and electromagnetic fields, invariance properties of spinor Lagrangians for, 23:36999
interactions with gravitational and electromagnetic fields, invariance properties of spinor Lagrangians for, 23:37000
interactions with radiation, semirelativistic statistical description of, 21:31513
intergalactic, effects on fluctuations of cosmic microwave background, (T), 25:30236
ion penetration at high energy, inclusion of Coulomb, nuclear, and stochastic effects in calculation for heavy, (T), 23:1508
ion reactions in GeV range, calculation of range energy, stopping power, flux curves, energy spectra, and Bragg peaks for superheavy, 22:31600
ion reactions with, 200-keV accelerator for studying heavy, 23:7102(R) (NYO-2962-7)
light interactions with, separable potential Hamiltonian for, 22:52905
magnetic universe with uncharged, 21:22955
mass distribution with quadrupole moment, exact metric for nonrotating, 24:3758
mass formula and properties of, at subnuclear densities, (T), 25:55678
mass spectrum of clouds of interstellar, (T), 21:20718
microwave interactions with, cosmic background, (T), 24:39804
model of superdense, properties of short-range field, (T), 25:55689
model of Universe containing blackbody radiation and, (T), 25:45277
model of, statistical basis for many-body, 24:45447
motion in evolving Universe, 23:51350
motion in expanding Universe, (T), 23:20651
motion in mixmaster universe, (T), 25:52590
neutrino motion in superdense Volkoff spheres, (T), 21:26934 (NP-16738)
neutrino motion in superdense, massive, (T), 21:5027 (NP-16400)
neutron propagation in, computer program using age theory, 21:7641(T) (ORNL-tr-1377)
neutronization of, at high densities, (T), 23:41785
nuclear abundances of, on neutron-star surfaces, (T), 24:42350
nuclei in neutron, calculations of amounts of, (T), 25:27311 (CERN-70-30(Vol.2), pp 759-68)
nucleon clustering in low-density neutron-star, (T), 25:13819
nucleon pairing interactions in, charge- and spin-independent, 21:38418
nucleon penetration in, analysis using free-nucleon target model, (T), 24:6603
origin and transformations of, mass equations for elementary particles for, (T), 25:36426
origin of, (T), 25:16735
oscillating states in superdensity, (T), 24:19699
pairing effect due to L—S force in neutron, (T), 24:48945
particle reactions with, Monte Carlo calculation of high-energy, (T), 25:36816 (JINR-P2-5719)
photoionization of intergalactic, by quasar uv radiation, (T), 25:13939
photometry of intergalactic, in Coma Cluster, (E), 24:28052
photon interactions with, radiative transfer with scattering, 22:52477 (LA-4006)
positronium existence in, possible 2^3S_1, 24:49010
positronium pickoff annihilation rate in condensed, (T), 24:47013
presence in universe of, test for, (T), 21:33066
pressure and temperature of, in Universe, (T), 25:58520
production and annihilation in Universe, (T), 22:52463
production in an expanding Universe, (T), 23:39285
properties at high temperatures, review of USSR research on, 24:50510(T) (AEC-tr-7162)
properties at supernuclear densities, (T), 24:10263
properties of cold dense, (T), 22:923
properties of degenerate, (T), 22:15319
properties of dense, in intense magnetic fields, (T), 22:38679
properties of intergalactic, (T), 22:45876
properties of interstellar, (T), 21:36959 (ESRO-SP-6, Paper 1)
properties of low-density neutron-star, (T), 25:40203
properties of neutron gases, (T), 25:45178
properties of superdense, (T), 25:16627
properties of superdense, in white dwarfs and neutron stars, (T), 25:22245
properties of ultradense, (T), 25:58432
properties of very dense states of, (T), 23:14484
properties of, comparison with antimatter, 23:39774
properties of, higher-dimensional field theory for relating macroscopic and microscopic, 24:26475
quantum theory of, (T), 22:41715
radiation dosimetry in inhomogeneous, electron, 23:50512
radiation interaction with, kinetic equation up to order lambda^4 for, 23:36815
radiation interaction with, kinetic equations for, (T), 23:25483
radiation interactions with, dynamical description of, 23:15217
radiation interactions with, energy-loss fluctuations in, 22:30868 (UCRL-17751, pp 53-80)
radiation reactions with, anomalous equilibrium properties of, (T), 22:949
radioinduced, in barley, x, 21:34818
scalar interaction in superdense, (T), 22:45845
separation from antimatter at very high temperatures, (T), 25:22339
separation from antimatter in blackbody radiation, effect of annihilation of nucleon—antinucleon pairs on, 24:26432
separation from antimatter in Universe, (T), 25:11661
separation of antimatter and, during metagalaxy development, 22:9305 (N-67-22498)
separation of antimatter and, model of anti N + N interactions above 350 MeV for, (T), 23:34596
solidification pressure of neutron-star, (T), 25:45174
solution for, in electromagnetic field, (T), 22:7076
solution of Einstein—Maxwell equations for infinite charged dust cylinder, 21:23301
sound propagation in ultradense, causality violation in correlated tachyons for, 23:42736
space—time for, curved, 23:25698
spectral redshift of distant, in Universe, (T), 23:41885
stability of continuously created, against gravitational decay, (T), 23:8427
stability of system of charged particles, 21:27263
stability of, (T), 22:5446
stability of, (T), 23:5510
stability of, as system of charged point particles, 22:42120
stability of, under gravitational forces, (T), 25:22337
state of, under very high pressures and temperature, (T), 23:34432
states in neutron and white dwarf stars, (T), 22:5027
structure in n-dimensional space, (T), 25:36362
structure of, microcalorimetric study of, 21:30406
structure of, review of application of waves and particles in study of, 23:39344
studies using neutron diffraction, lecture on, 21:46640 (BNL-50059)
superdense in the Universe, bibliography on, 22:15324
superfluid state in neutron-star, (T), 25:55714
surface layers of, in general relativity, 23:21163
temperature in early expanding Universe, (T), 22:43751
temperature of decoupling from radiation in primeval plasma, (T), 22:41233
theory of saturation using density-dependent forces with hard cores, 21:38404
thermal conduction by electrons in stellar, (T), 23:34157
thermal perturbation in stellar degenerate, propagation of, (T), 21:28914
thermodynamic properties of, 21:18411 (UCRL-50001-66-1, pp 41-53)
thermodynamic properties of stellar, (T), 22:15316
thermodynamics of white-dwarf, (T), 25:11549
transformation to antimatter in black holes, (T), 25:35820
transport coefficients of degenerate stellar, (T), 21:6936
turbulence in hot Universe dominated by, (T), 24:28067
x-agent reactions with, 21:40128
MATTER, ANTI-
abundance in early Universe, (T), 24:12620
abundance in Milky Way, (E), 24:12614
abundance in Milky Way, (T), 24:8298 (AD-694383)
abundance in Milky Way, (T), 24:10331 (P-4198(RAND))
abundance in Universe, 22:34218
abundance in Universe, (T), 22:52552
abundance in Universe, (T), 24:32596
aggregations of, in the Universe, (T), 25:27426
annihilation in atmosphere of, evidence for Tungus meteorite being, (T), 21:15047
annihilation in solar system and the Earth's atmosphere, (T), 24:4953
annihilation in the Universe, (T), 23:30288
annihilation of meteorites containing, as source of ball lightning, (T), 25:30329
annihilation of, at interface with regions of matter, (T), 25:33027
annihilation radiation from, in meteor streams, (E), 25:58836
annihilation with cosmic bodies, element and isotope emission in, (T), 21:37040
astrophysical consequences of, (T), 25:33027
attraction to matter, potential for particle—antiparticle gravitational interactions for, 24:3551
condensation into galaxies in early Universe, (T), 23:51353
confinement in the Galaxy, (T), 25:22378
creation in infrared sources of galaxies, (T), 24:19677
data processing methods for determining, nature of meteor streams, (T), 21:37045
density in Universe, (T), 23:22942 (N-68-36900)
detection in primary cosmic radiation, (E), 25:30327
distinction between matter and, absolute, 24:15535
distinction between matter and, from $K_2^0(K_1^0) \rightarrow 2\pi$ decays, 21:44340
distribution in Universe, (T), 24:42497
effects of sizes of, on high-energy cosmic primary flux, (T), 25:16858
emission of, from white holes in antiuniverse, (T), 25:35820
equation of state of neutral matter containing, (T), 23:39283
evolution in universe, (T), 21:20610 (N-67-16094)
existence and separation of matter and, cosmological model for, 21:20651
existence in universe, cosmological implications of, 21:18402
existence in universe, theory, 23:46236
existence of, evidence for, (T), 24:3139
existence of, in the Universe, (T), 23:14575
existence of, slow, intermediate-energy, direct-annihilation, and radiative-recombination interactions of matter with antimatter as indication of, (T), 24:3139
gamma emission from, in meteor streams, (E/T), 25:13951
hydrodynamics of mixture of matter and, (T), 25:30204
instrumentation for determining the, nature of meteor streams, (E), 21:34996

interactions of meteors of, with earth's atmosphere, (T), 21:44226
interactions with matter, slow, intermediate-energy, direct-annihilation, and radiative-recombination, (T), 24:3139
motion in evolving Universe, 23:51350
occurrence in primary cosmic radiation, (T), 25:22378
production in nuclei of galaxies, (T), 24:6335
properties of, (T), 22:37067
properties of, comparison with matter, 23:39774
relation to neutron stars, (T), 25:22378
research in Soviet Union, 25:14544
role in early evolution of Universe, (T), 25:16731
role in symmetric cosmology, (T), 25:19463
separation from matter at very high temperature, (T), 25:22339
separation from matter in blackbody radiation, effect of annihilation of nucleon—antinucleon pairs on, 24:26432
separation from matter in Universe, (T), 25:11661
separation of matter and, during metagalaxy development, 22:9305 (N-67-22498)
separation of matter and, model of anti N + N interactions above 350 MeV for, (T), 23:34596
size of regions containing, lower limit on, (T), 25:40323
theory of particles, 21:42229

MEATS
analysis by neutron activation, 23:4557
analysis for lipids by fast neutron activation, in vitro and in vivo, 23:11444 (BNWL-481-2, pp 1-126)
analysis for strontium-90, 21:32081 (AAEC/TM-377)
availability in postattack environment, 21:24456 (USNRDL-TRC-67-3)
beef, analysis for mercury by neutron activation methods, 22:30502
beef, cesium content in Italian, July to Dec. 1966, 22:23165 (PROT.-SAN.-12/67)
beef, cesium-137 content of chopped, sodium iodide scintillation method for measuring, 25:23818
beef, cesium-137 content of Florida, 23:6220
beef, cesium-137 content of, in Germany, use of spectrometry for determining, 24:34314
beef, cesium-137 content of, in Italy in relation to milk during 1961 to 1965, 23:29489
beef, cesium-137 content of, in Italy, Jan. to July 1967, 24:20891 (PROT.-SAN.-6/68)
beef, cesium-137 content of, in Italy, July through Dec. 1967, 24:20892 (PROT.-SAN.-12/68)
beef, cesium-137 content of, in Norway, 23:12067 (NYO-3364-46)
beef, cesium-137 content of, in Norway during 1964 to 1967, seasonal variation in, 22:38259 (NYO-3364-42)
beef, cesium-137 content of, in relation to fallout levels and type of dietary ration, 24:34312
beef, cesium-137 content of, in Sofia, 24:36757
beef, cesium-137 monitoring of feed-lot, in Florida in relation to geographic pattern for milk, 23:35712
beef, cesium-137 removal by pickling in brine, roasting, or steaming, 25:24137
beef, determination of muscle mass of steer, use of potassium-40 whole-body counting for, 23:22209
beef, effects of freezing and refrigeration on oxidation of lipids in, 21:24309
beef, effects of gamma irradiated, on lipid and protein metabolism of rats, 25:55367
beef, effects of seasonal diet on cesium-137 content of, 21:43413
beef, γ radiation effects on lipid oxidation in, 21:24309
beef, identification of radiation processed, by chromatography of radioinduced protein fractions, 25:49327 (EUR-4618)
beef, iron-55 content of, in Finland during 1961 to 1967, 23:6443 (NYO-3446-11, pp 1-15)
beef, radiation effects on chemical structure of mixtures of cephalins and fats of, effects of dose and oxygen on γ, 22:40989
beef, radiation effects on lipids of, 21:20454(R) (NYO-3499-2)
beef, radiation effects on sulfomyoglobin formation in, 21:26354
beef, radiation processing effects on color of, effects of packaging on γ, 25:49337
beef, radiation processing effects on color of, γ, 25:27139
beef, radiation processing effects on deamination of myoglobin in, low-dose γ, 25:42756
beef, radiation processing effects on organoleptic properties and storage life of fresh, γ, 25:49326(R) (COO-1689-6)
beef, radiation processing effects on storage life and wholesomeness of, γ, 25:42744(R) (COO-2038-2)
beef, radiation processing effects on storage life and wholesomeness of, 21:30937 (CONF-670202, pp 9-13)
beef, radiation processing of beef, effects of temperature on dialdehyde formation during γ, 21:24705
beef, radiation processing of beef, effects of, on lipid oxidation and pigmentation, 21:41529
beef, radiation processing of cooked and packaged, in IAEA member states, 22:33998
beef, radiation processing of effects of, on survival of Clostridium botulinum, γ, 24:9979
beef, radiation processing of freeze-dried or fresh, effects on cysteine and cystine contents, effects of temperature on, 25:24526
beef, radiation processing of fresh and packaged, in Asia, Europe, and North America, 22:31304
beef, radiation processing of fresh, bacteriological and organoleptic evaluation of, 23:18166 (CONF-681006-, pp 161-6)
beef, radiation processing of fresh, economic evaluation of, 22:49670
beef, radiation processing of high-quality ground, effects of temperature on storage life following low-dose γ, 25:49341
beef, radiation processing of minced hamburger, effects of dose and temperature on, 24:44642
beef, radiation processing of minced, effects of, on shelf life, γ, 23:8103
beef, radiation processing of pre-cooked, and its gravy, method for, 25:42759(P)
beef, radiation processing of prepacked, organoleptic properties following, 25:24520
beef, radiation processing of virus-infected, effectiveness of, 22:17063
beef, radiation processing of, colorimetric dosimeters for gamma, 23:703
beef, radiation processing of, economic studies of commercial, 23:21863 (TID-24058)
beef, radiation processing of, effects of sodium tripolyphosphate and dose rate on color stability following electron and γ, 25:27162
beef, radiation processing of, effects of storage temperatures on composition after electron, 21:24700
beef, radiation processing of, effects of temperature on survival of Clostridium botulinum spores following, 25:29734
beef, radiation processing of, effects of, on amino acid composition of proteins, γ, 24:6157
beef, radiation processing of, effects of, on color and storage life, γ, 22:23703
beef, radiation processing of, effects of, on enzyme proteolytic activity, 24:6162
beef, radiation processing of, effects of, on enzyme activity and organoleptic properties, 23:12251(T) (ORNL-IIC-14, pp 33-66)
beef, radiation processing of, effects of, on flavor, γ, 22:8672
beef, radiation processing of, effects of, on lipids and proteins, 22:8673
beef, radiation processing of, effects of, on organoleptic properties, γ, 22:26016 (NYO-3499-3)
beef, radiation processing of, effects of, on refrigerated storage life and wholesomeness, electron and γ, 24:32284(R) (COO-1689-5)
beef, radiation processing of, effects of, on toxicity of Clostridium botulinum, γ, 24:48768
beef, radiation processing of, effects of, on toxicity of Clostridium botulinum, γ, 23:38896
beef, radiation processing of, effects of, on wholesomeness, α, γ, and neutron, 23:32007
beef, radiation processing of, for control of Cysticercus bovis, γ, 24:34831
beef, radiation processing of, in relation to degradation of amino acids, effects of dose rate and energy level on electron beam and γ, 22:8684
beef, radiation processing of, in relation to flavor, effects of dose and temperature on γ, 22:8674
beef, radiation processing of, in relation to liquid retention, effects of dose and time on γ, 22:15129
beef, radiation processing of, methods for inactivation of proteolytic enzymes prior to γ, 25:27163(P)
beef, radioactive contamination of, in relation to fitness for human consumption, 23:48064
beef, radioactivity content of, effects of fallout contamination of cattle on, 22:38263 (TID-24459)
beef, radioisotope contamination of, from airborne fallout, 23:22299
beef, radioisotope content of, in Netherlands during 1963, cesium-137 and strontium-90, 22:33817 (RA-32)
beef, radiopreservation of economics of, 21:10504 (NP-16382)
beef, use of potassium-40 for determining composition of, 21:36530
caribou, cesium-137 content in Alaska, 1965, 21:14558 (BNWL-280, pp 97-8)
caribou, cesium-137 content of Alaska, federal surveillance network for measurement of, 22:51570 (NP-17401)
caribou, cesium-137 content of, in northern Canada during 1963 to 1965, 22:28491
caribou, radioisotope content of, in Alaska during 1969, 25:11001
caribou, radioisotope content of, in Alaska, lead-210 and polonium-210, 24:19309
cesium-137 contamination of, by fallout, maximum permissible levels for, 21:28463
cesium-137 content in Germany, 21:26445
cesium-137 content in Norwegian, 21:6403 (NYO-3364-24)
cesium-137 content in Polish, during 1965 to 1966, 25:37775 (CLOR-71/D)
cesium-137 content in, effects on content in man, 21:14559 (BNWL-280, pp 98-100)
cesium-137 content in, from Canadian North during first half 1966, 21:10870(R) (NP-16383)
cesium-137 content in, from cattle and sheep, 21:26409(R) (COO-1171-62)
cesium-137 content of bovine, in Italy during 1966, 22:49327 (PROT.-SAN.-01/67)
cesium-137 content of caribou and reindeer, in Alaska, sampling program for determining, 23:6451 (PHS-PUBL.-1224)
cesium-137 content of Danish, 1967, 23:9571 (RISO-180)
cesium-137 content of, during 1964 to 1965, IAEA data on, 21:45615 (NP-16900, pp 14-27)
cesium-137 content of, from animals grazing on podzolic turf soils, 22:25799 (A-AC-82/G/L-1187)
cesium-137 content of, from cattle, goats, lynx, horses, reindeer, sheep, swine, and wolverines in Norway during 1965 to 1967, 23:50468
cesium-137 content of, from cows and sheep, in Norway during 1962 to 1968, 24:4588 (NYO-3364-50)
cesium-137 content of, in Colorado during 1967, 22:21460(R) (COO-1171-82)
cesium-137 content of, in diet of adolescents and children in Poland during 1965 to 1966, 24:29742
cesium-137 content of, in Netherlands during 1964, 22:4616
cesium-137 content of, in Netherlands during 1966, 22:15001 (RA-30)
cesium-137 content of, in Norway, 21:6491 (NYO-3364-26)
cesium-137 content of, in Norway, effects of radioisotope content of diet of cattle on, 22:6801 (NYO-3364-37)
cesium-137 content of, in Poland during 1962, 21:10858 (CLOR-55)
cesium-137 content of, in Soviet Union during 1965 to 1968, 25:39851(T) (AEC-tr-7232, pp 1-26)
cesium-137 content of, in Soviet Union during 1966, 23:17999(T) (AEC-tr-7030, pp 1-13)
cesium-137 content of, in Sweden, 22:28469
cesium-137 content of, in U. S. during 1961 to 1967, 22:21496 (HASL-184, pp I.11-52)
cesium-137 removal from, evaluation of methods for, 21:34665
cesium-137 transport from forage to, of beef cattle, transfer coefficient for fallout, 23:38553 (COO-1171-103)
content in meat—fat sample, design and use of radiation scatter gage for determining, 22:384 (ORNL-IIC-10(Vol.2), pp 870-902)
deer, cesium-137 content of in USA, relation of mushroom consumption to, 25:11003
dielectric properties of, 21:24834 (NP-16700)
diffusion of radon-220 and radon-222 in, 23:6268
effects of irradiated, on ascorbic acid content in organs of whole-body irradiated rats, 25:46987
effects on strontium-90 sorption by gastrointestinal tract of rats, 25:23973(T) (AEC-tr-7195, pp 220-5)
elk, iron-55 content of, in Finland during 1967 and 1968, 23:6444 (NYO-3446-11, pp 16-22)
fish, analysis for platinum by neutron activation and radiochemical separation, 23:4547
fish, carbon-14 contamination of, tracer study of, 22:25837
fish, cesium-137 content of flesh in brown trout in British Isles during 1961 to 1966, effects of potassium content of surface waters on, 22:28460
fish, cesium-137 content of, in northern USSR, 1959 to 1967, 23:49954
fish, cesium-137 content of, relation of, to content in man, 25:16063(T) (AEC-tr-7214, pp 1-8)
fish, conference on commercial production of freshwater, 22:12221
fish, contamination by bacteria, radioisotope-labeled bacteria for tracer studies of, 24:31897
fish, element content of, in vicinity of Atlantic-Pacific interoceanic canal, 24:34190
fish, polonium-210 content of, in Soviet Union, 23:18004(T) (AEC-tr-7030, pp 163-70)
fish, preservation by freezing, conference on, 25:55362 (LFEN-NL-56-a)
fish, radiation effects on lipids of, 21:20454(R) (NYO-3499-2)
fish, radiation effects on proteins in, immunoelectrophoretic and starch gel electrophoretic studies on, 25:26631
fish, radiation effects on shelf life of, effects of temperature on cesium-137 γ, 24:2855
fish, radiation processing effects on organoleptic properties of smoked whitefish, γ, 25:49336
fish, radiation processing effects on organoleptic properties and shelf life of pike and saithe, effects of dose on γ, 25:32634
fish, radiation processing effects on shelf life and taste of gwyniad, 10-MeV electron, 25:27146
fish, radiation processing effects on shelf life of, 25:24491 (TID-25544)
fish, radiation processing effects on storage life of, 25:52278 (A/CONF.49/P-136)
fish, radiation processing effects on survival of Salmonella species in smoked lake whitefish, γ, 25:55365
fish, radiation processing effects on taste and shelf life of trout, 10-MeV electron, 25:27148
fish, radiation processing effects on toxin production by Clostridium botulinum type E in packaged fillets of haddock, γ, 25:47071 (TID-25750)
fish, radiation processing of Bombay duck, effectiveness of, 22:17063
fish, radiation processing of Bombay duck, effects of pre-dip treatment in sodium tripolyphosphate on drip loss following γ, 25:13618
fish, radiation processing of Bombay duck, effects of dip treatment on textural stability and storage life of, γ, 24:23414
fish, radiation processing of Bombay duck, for extension of fresh storage life, dose required for, 22:4722
fish, radiation processing of Bombay duck, in India, effects of, on storage life, 24:32337
fish, radiation processing of Bombay duck, survival of spoilage bacteria following γ, 25:19163
fish, radiation processing of carp, gwyniad, and trout, effects of dose on bacterial count, shelf-life, and taste following electron, 25:24500
fish, radiation processing of cod and haddock, botulinum toxin production following γ, 25:16391 (MIT-4049-2)
fish, radiation processing of cod, effectiveness of ionizing and microwave, 22:8668
fish, radiation processing of cod, effects of, on Clostridium botulinum, 22:4714(R) (COO-1183-23)
fish, radiation processing of cod, effects of, on storage life, γ, 22:17062(R) (MIT-3343-28)
fish, radiation processing of cod, haddock, and smelt, economic and nutritional value of shipboard irradiators for cesium-137 or cobalt-60 γ, 22:31302

fish, radiation processing of cod, in relation to dose, pH, spore load, temperature, and toxin production, 22: 6930(R) (COO-1183-24)
fish, radiation processing of cost-benefit analysis of, 23: 18171 (CONF-681006-, pp 195-200)
fish, radiation processing of dried, effects of, on organoleptic properties, 23:12250(T) (ORNL-IIC-14, pp 20-32)
fish, radiation processing of fillets of Bombay duck, effects of storage temperature on spoilage rate following 0.1 Mrad γ, 25:52287
fish, radiation processing of fillets of cod, effects of temperature on γ, 22:43499(R) (TID-24256)
fish, radiation processing of fillets of fresh water perch, combined effects of atmosphere and temperature on shelf life following γ, 23:18140 (CONF-670945-, pp 1-86)
fish, radiation processing of fillets of ocean perch and sole, effects of packaging and post-irradiation temperature on effectiveness of, 22:17064
fish, radiation processing of fillets of, effects of packaging and handling and storage conditions on effectiveness of γ, 23:18140 (CONF-670945-, pp 1-86)
fish, radiation processing of fillets of, effects of, on organoleptic properties, cobalt-60 γ, 23:38915
fish, radiation processing of fishmeal, combined effects of sanitation and temperature on effectiveness of cobalt-60 γ, 22:28726
fish, radiation processing of flounder, effectiveness of ionizing and microwave, 22:8668
fish, radiation processing of fresh and packaged, in Asia, Europe, and North America, 22:31304
fish, radiation processing of fresh cod, effects of, on bacterial count, odor, pH, and type E toxin, 22: 49660(R) (COO-1183-26)
fish, radiation processing of haddock and perch, effects of, on toxin production by bacteria, γ, 22:17062(R) (MIT-3343-28)
fish, radiation processing of haddock, effectiveness of ionizing and microwave, 22:8668
fish, radiation processing of haddock, effectiveness of, 22:17063
fish, radiation processing of haddock, effects of oxygen abundance on, 22:26020
fish, radiation processing of haddock, effects of special handling on shelf life following, 22:52115
fish, radiation processing of haddock, effects of, on Clostridium botulinum, 22:4714(R) (COO-1183-23)
fish, radiation processing of marinades for herring, γ, 21:26722
fish, radiation processing of marine, efficiency of γ, 22: 6931
fish, radiation processing of minced, effects of, on stability of antibiotic additives, γ, 22:21421
fish, radiation processing of Pacific Coast, effectiveness of shipboard γ, 25:55366
fish, radiation processing of packaged, in relation to bacterial growth, effects of dose and dose fractionation on, 24:2846 (RLO-1730-3)
fish, radiation processing of perch, effects of, on proteolytic bacterial flora, γ, 22:23698
fish, radiation processing of rainbow trout, effects of, on organoleptic properties, and shelf life, electron, 24: 25618
fish, radiation processing of salmon, effects of, on survival of bacteria, γ, 24:2858
fish, radiation processing of steaks of halibut, effects of packaging and post-irradiation temperature on effectiveness of, 22:17064
fish, radiation processing of trout, effects of bacteria type and storage temperature on germ count following, 25: 24527
fish, radiation processing of trout, effects of, on organoleptic properties and shelf life, ionizing, 24: 48791
fish, radiation processing of trout, effects on flavor and shelf life, electron, 24:48778
fish, radiation processing of yellow perch, effects of, on bacterial content, γ, 22:34003
fish, radiation processing of yellow perch, effects of temperature on, 25:4734 (TID-25467)
fish, radiation processing of, botulinum toxin hazards in, 25:16395
fish, radiation processing of, conference on, 24:2852
fish, radiation processing of, conference on, 25:55362 (LFEN-NL-56-a)
fish, radiation processing of, design and performance of shipboard x-ray irradiation facility for, 23:2491
fish, radiation processing of, developments in U.S.A. for, 21:30939 (CONF-670202, pp 29-37)
fish, radiation processing of, developments in U.S. during 1967 for, 21:30944 (CONF-670202, pp 67-9)
fish, radiation processing of, economic aspects of, 24: 2865
fish, radiation processing of, effectiveness of γ, 25: 6821(R) (TID-25545)
fish, radiation processing of, effects of controlled atmosphere storage on shelf life following γ, 23: 12256(R) (TID-24776)
fish, radiation processing of, effects of dose on content of volatile compounds and spoilage patterns following γ, 22:43499(R) (TID-24256)
fish, radiation processing of, effects of dose, packaging material, and storage temperature on survival of bacteria following, 25:24498
fish, radiation processing of, effects of inosine monophosphates on flavor change during γ, 22:49668
fish, radiation processing of, effects of packaging on refrigerated storage life of haddock fillets, 21:1858
fish, radiation processing of, effects of packaging on effectiveness of, 21:24697
fish, radiation processing of, effects of pretreatment with sodium tripolyphosphate on storage properties following γ, 22:52117
fish, radiation processing of, effects of prior cooking and vacuum sealing on storage life following, 21:26736
fish, radiation processing of, effects of, on activity of proteolytic enzymes, 24:6011
fish, radiation processing of, effects of, on count of microorganisms, γ, 23:35958 (AAEC/TM-502)
fish, radiation processing of, effects of, on count of microorganisms, γ, 23:35958 (AAEC/TM-502)
fish, radiation processing of, effects of, on development of Dermestes, 24:9978
fish, radiation processing of, effects of, on enzyme activity and organoleptic properties, 23:12251(T) (ORNL-IIC-14, pp 33-66)
fish, radiation processing of, effects of, on enzyme proteolytic activity, 24:6162
fish, radiation processing of, effects of, on formation of ammonia, formaldehyde, dimethylamine, and trimethylamine, γ, 24:2579
fish, radiation processing of, effects of, on growth characteristics of Clostridium botulinum, 22:52061 (CONF-670945)
fish, radiation processing of, effects of, on growth of salmonellae, γ, 22:49673
fish, radiation processing of, effects of, on growth and toxin synthesis of Clostridium botulinum spores, γ, 24: 2832(R) (TID-25178)
fish, radiation processing of, effects of, on nutritive value and organoleptic properties, cesium-137, 23:41526
fish, radiation processing of, effects of, on organoleptic and physico-chemical properties, γ, 21:34841(T) (JPRS-41012)
fish, radiation processing of, effects of, on organoleptic properties, γ, 23:16451 (THAI.-AEC-9, pp 20-2)
fish, radiation processing of, effects of, on organoleptic properties, 24:2853
fish, radiation processing of, effects of, on organoleptic properties, shelf life, and wholesomeness of, status of research on, 24:2861
fish, radiation processing of, effects of, on organoleptic properties and storage life, γ, 21:34842
fish, radiation processing of, effects of, on organoleptic properties, γ, 22:26016 (NYO-3499-3)
fish, radiation processing of, effects of, on organoleptic properties, 22:52123
fish, radiation processing of, effects of, on organoleptic properties, ionizing, 23:48292 (ORNL-IIC-25)
fish, radiation processing of, effects of, on production of Clostridium botulinum toxin, γ, 23:50976
fish, radiation processing of, effects of, on shelf life, 24: 2859
fish, radiation processing of, effects of, on storage life, 22:52061 (CONF-670945)
fish, radiation processing of, effects of, on storage life, 21:41523 (AECL-2873)
fish, radiation processing of, effects of, on thiaminase activity, γ, 22:52116
fish, radiation processing of, effects of, on wholesomeness, electron and γ, 23:26979
fish, radiation processing of, effects on bacterial flora, 21:20457(R) (RLO-1730-5)
fish, radiation processing of, effects on toxicity in rats, 25:58162
fish, radiation processing of, effects on wholesomeness of γ, 21:20460
fish, radiation processing of, evaluation of methods for, 21:45859
fish, radiation processing of, facilities in U.S. for, 21: 26742
fish, radiation processing of, facilities on ship and shore for, 21:26721
fish, radiation processing of, factors affecting, 22:2559
fish, radiation processing of, health hazards from ingestion following, 22:52123
fish, radiation processing of, in Europe, feasibility of, 24: 2862
fish, radiation processing of, in Iceland, program for, 22: 43512
fish, radiation processing of, legal aspects of, 24:2690
fish, radiation processing of, patent for process for, 23: 50972(P)
fish, radiation processing of, review of, 24:29898
fish, radiation processing of, review of ionizing, 25: 27166
fish, radiation processing of, review of progress in Canada, England, France, Soviet Union, and United States on, 25:49338
fish, radiation processing of, status of U.S. Army program on electron and γ, 23:26978
fish, radiation processing of, status of USAEC sponsored facilities and research for, 23:26417
fish, radiation processing of, storage life following, 25: 24519
fish, radiation processing of, storage life following, 25: 24492(R) (TID-25546)
fish, radiation processing of, use of electrical conductivity for evaluation of, 21:26724
fish, radiation processing of, vapor reactions during storage in relation to flavor changes following cobalt-60 γ, 23:16457
fish, radiation processing of, volatile radiolytic compounds from γ, 25:42753
fish, radioactive contamination during nuclear warfare, calculation of, 21:20233 (NP-16462)
fish, radioactivity in Savannah River Plant area, 24:2654 (DPST-69-30-2)
fish, radioisotope content of, in Faroe Islands during 1969, cesium-137, strontium-90, 25:4476(R) (RISO-221)
fish, radioisotope content of, in Richland Area, Washington during 1967, 23:33702 (BNWL-983(App.))
fish, radioisotope content of, taken from Columbia River during 1968, 25:521 (BNWL-1341(App.))
fish, radiopasteurization effects on organoleptic properties and shelf life of, γ, 25:52276 (A/CONF.49/P-115)
fish, radiopasteurization of, 21:9035 (CONF-661017)
fish, radiopasteurization of fillets of, effects on amino acid and vitamin contents of γ, 21:14781
fish, radiopreservation in Israel, use of large sources for, 21:41150 (NP-16994)
fish, radiopreservation of fin, cost—benefit study of USAEC program on, 21:19853 (NYO-3666-1)
fish, radiopreservation of, economics of, 21:10504 (NP-16382)
fish, radiopreservation of, effects on refrigerated storage life of perch fillets, 21:14785
fish, radiopreservation of, effects on refrigerated storage life of sole fillets, 21:14783
fish, radiopreservation of, feasibility of, 21:446
fish, radiopreservation of, nutritional and technological aspects of, 21:9045
fish, radiopreservation of, review of research on, 21: 12557
fish, radiopreservation of, use of shipboard irradiator for, 21:10549 (TID-23398)
fish, radiopreservation of, using γ rays, 21:6739(R) (COO-1283-40)
fish, strontium-90 content of carp, 24:31974
fish, strontium-90 content of carp, caught in Mecklenburg ponds during 1961 to 1962, 25:4427
fish, strontium-90 content of flesh in brown trout, in British Isles during 1961 to 1966, effects of calcium content of surface waters on, 22:28460
fish, strontium-90 content of, calculation of, 25:55156
fish, strontium-90 content of, in Armeniya from 1963 to 1967, effects of fallout on, 24:25472 (A-AC-82/G/L-1297)
fish, strontium-90 content of, in Denmark during 1968, 24:21101 (RISO-201)
fish, strontium-90 content of, in northern USSR, 1959 to 1967, 23:49954
fish, strontium-90 content of, in Soviet Union during 1959 to 1967, 25:39853(T) (AEC-tr-7232, pp 45-56)
fish, strontium-90 sorption during cooking, 21:24433
fish, use of freshwater, as protein source for human population in postattack environment, 22:12861
fish, zinc-65 content of, 22:8491
fission product uptake by dry, fallout, 24:4614
goat, cesium-137 content of, in Norway, 23:12067 (NYO-3364-46)
goat, radiation processing of virus-infected, effectiveness of, 22:17063
growth and toxin production of Clostridium botulinum type F in cooked, effects of spore-inoculum size and temperature on, 23:24779 (TID-24881)
growth and toxin production of Clostridium botulinum types B, E, and F on cooked, comparison of, 23:24779 (TID-24881)
ham, radiation processing effects on storage life of, in cellulose and plastic bags, 25:49329
horsemeat, evaluation of colorimetric and gas chromatographic methods for detection of irradiated, 21:32084 (AERE-R-5461)
iodine-131 content of, 21:43412
iodine-131 transport through, to man, 22:8496
lamb, fat content in, γ attenuation method for measuring, 25:26571
lamb, radiation processing of virus-infected, effectiveness of, 22:17063
lamb, radiation processing of, effects of, on organoleptic properties and shelf-life, effects of temperature on, 23: 35968
lamb, radioisotope content of, in Faroe Islands during 1969, cesium-137 and strontium-90, 25:4476(R) (RISO-221)
methods of preserving, in Thailand, 23:16454 (THAI.-AEC-9, pp 31-4)
moisture content in, gamma radiometric measurement of, 23:50201
mutton, cesium-137 content of, in Norway, 23:12067 (NYO-3364-46)
mutton, cesium-137 content of, in Norway during 1964 and 1965, 22:51649
mutton, cesium-137 content of, in Sofia, 24:36757
mutton, radiation processing of, effects of, on lipids and proteins, 22:8673
ox tongue, radiation processing of, effects of, on organoleptic properties, γ, 24:44647
oysters, analysis for various metals by atomic absorption spectrophotometry, 23:19626
pesticide residues in, use of radioisotopes for detection of, 21:20029 (STI/PUB-123)
phosphorus-32 content of, in environs of Hanford reactors, 22:16998 (BNWL-SA-1449)
polonium-210 transfer to, of cattle and goats following ingestion as oxide, coefficients for, 25:18890(R) (COO-2044-3)
pork, cesium-137 content of, in Germany during 1960 to 1964, 22:15006
pork, cesium-137 content of, in Sofia, 24:36757
pork, cesium-137 removal by pickling in brine, roasting, or steaming, 25:24137
pork, fission product uptake by, protective effects of casings against, 22:19340
pork, γ radiation effects on lipids of, 21:20454(R) (NYO-3499-2)
pork, identification of radiation processed, by chromatography of radioinduced protein fractions, 25: 49327 (EUR-4618)
pork, radiation effects and heat on flavor and texture of ham, γ, 21:6741
pork, radiation effects on bacterial content, shelf life, and organoleptic properties of canned sausage, 25:24521
pork, radiation effects on cysteine and cystine contents of freeze dried or fresh, effects of temperature on, 25: 24526
pork, radiation processing effects on storage life and wholesomeness of, γ, 25:42744(R) (COO-2038-2)
pork, radiation processing effects on storage life and wholesomeness of, 21:30937 (CONF-670202, pp 9-13)
pork, radiation processing of bacon and canned smoked ham, in USA during 1968, status of, 23:38909
pork, radiation processing of bacon and ham, 23:3009
pork, radiation processing of bacon, effects of, on organoleptic properties, γ, 23:29947

pork, radiation processing of bacon, effects of, on organoleptic properties and storage life, 22:23704
pork, radiation processing of bacon, effects on storage life at room temperature, 21:30946 (CONF-670202, pp 91-5)
pork, radiation processing of bacon, effects on storage life and wholesomeness, 21:30941 (CONF-670202, pp 49-51)
pork, radiation processing of bacon, effects on wholesomeness, 21:30938 (CONF-670202, pp 15-27)
pork, radiation processing of bacon, factors affecting formation of gases in package during γ, 22:601
pork, radiation processing of bacon, procedure for, 21:30946 (CONF-670202, pp 91-5)
pork, radiation processing of canned bacon, effectiveness of cobalt-60 γ, 23:26981
pork, radiation processing of canned, design of cobalt-60 γ facility for γ, 23:18168 (CONF-681006-, pp 175-81)
pork, radiation processing of cooked and packaged, in IAEA member states, 22:33998
pork, radiation processing of fresh and packaged, in Asia, Europe, and North America, 22:31304
pork, radiation processing of fresh, economic evaluation of, 22:49670
pork, radiation processing of ground, hydrocarbon for detecting, 24:44640
pork, radiation processing of Portuguese sausage, bacterial count, chemical and organoleptic changes, and storage life following x, 25:27159
pork, radiation processing of sausage, effectiveness of, for control of spoilage bacteria, electron, 23:29937
pork, radiation processing of sausage, effectiveness of γ, 23:29935
pork, radiation processing of sausage, effects of, on shelf life, 22:52123
pork, radiation processing of sausage, effects of, on storage life and wholesomeness, 24:32311
pork, radiation processing of sliced salt, effects of, on organoleptic properties and sterility, cobalt-60 γ, 23:20453
pork, radiation processing of virus-infected, effectiveness of, 22:17063
pork, radiation processing of, economic studies of commercial, 23:21863 (TID-24058)
pork, radiation processing of, effects of storage temperatures on composition after electron, 21:24700
pork, radiation processing of, effects of, on activity of enzymes, uv, 22:33999
pork, radiation processing of, effects of, on Clostridium botulinum, effects of dose on γ, 24:6158
pork, radiation processing of, effects of, on organoleptic properties, γ, 22:26016 (NYO-3499-3)
pork, radiation processing of, effects of, on survival of Clostridium botulinum, γ, 24:9979
pork, radiation processing of, effects of, on trichina, 22:31301
pork, radiation processing of, effects of, on wholesomeness in mice, 22:19462
pork, radiation processing of, effects of, on wholesomeness, α, γ, and neutron, 23:32007
pork, radiation processing of, effects on organoleptic properties and storage life of, γ, 25:27136(T) (NP-tr-1932)
pork, radiation processing of, efficiency of plastic laminate packaging for storage following, 22:19466
pork, radiation processing of, Food and Drug Administration position on effect of, on wholesomeness, 22:49677
pork, radioactive contamination of, effects of cesium-137 and strontium-90 content of feed on, 22:21502
pork, radioisotope content of, in Netherlands during 1963, cesium-137 and strontium-90, 22:33817 (RA-32)
pork, radiopreservation of economics of, 21:10504 (NP-16382)
pork, radiosterilization in Chile for eradication of trichinosis, γ, 21:13088
pork, radiosterilization of bacon at BNL, use of gamma irradiation for, 21:208 (BNL-10652)
pork, radiosterilization of canned ham, detection of toxin, viable Clostridium, or spoilage after, 21:20462
pork, strontium-90 content of, in Germany during 1960 to 1964, 22:15006
pork, wholesomeness of, from swine fed on gamma-irradiated potatoes, 21:6742
pork, x radiation effects on sulfomyoglobin formation in, 21:26354
potassium content in Polish, during 1965 to 1966, 25:37775 (CLOR-71/D)
potassium content of sheep and swine, in relation to composition of, multi-method analysis of, 23:22207
poultry, effects of radiation processed, on rats following ingestion, 25:13624
poultry, radiation effects on chicken, effects of, on wholesomeness, 21:43547
poultry, radiation processing effects on fragmentation and shear resistance of muscle tissue of chicken, γ, 25:49340
poultry, radiation processing for use as pet food, fatty acid composition following, 25:26647
poultry, radiation processing of, 23:3009
poultry, radiation processing of chicken, development of culturing techniques to determine effects of, on microbial population, γ, 24:4701(R) (NYO-3733-3)
poultry, radiation processing of chicken, effects of, on bacterial populations, γ, 24:8031(R) (NYO-3733-4)
poultry, radiation processing of chicken, effects of, on count of bacteria, effects of low dose and temperature on γ, 24:8032(R) (NYO-3733-7)
poultry, radiation processing of chicken, effects of, on protein quality, 22:52061 (CONF-670945)
poultry, radiation processing of chicken, effects of, on salmonella content, effects of high temperature on, 23:18169 (CONF-681006-, pp 185-8)
poultry, radiation processing of chicken, effects of culture medium on recovery of Salmonella following γ, 25:13620
poultry, radiation processing of chicken, effects of storage temperature on wholesomeness after, 21:18202
poultry, radiation processing of chicken, effects of low dose on growth of coliforms, psychotrophs, and staphylococci, 24:12338(R) (NYO-3733-6)
poultry, radiation processing of chicken, effects of, on survival of Clostridium botulinum, 24:9979
poultry, radiation processing of chicken, effects of, on shelf life, 23:12251(T) (ORNL-IIC-14, pp 33-66)
poultry, radiation processing of chicken, effects of, on microbial growth during storage, combined effects of radiation dose and storage temperature on cobalt-60 γ, 24:2845(R) (NYO-3733-5)
poultry, radiation processing of chicken, effects of, on production of botulinum toxin, assay of, 24:8033(R) (NYO-3733-8)
poultry, radiation processing of chicken, effects of, on populations of Salmonella, cobalt-60 γ, 23:24780 (TID-24887)
poultry, radiation processing of chicken, effects of dose, storage time, and temperature on organoleptic properties following γ, 23:38904
poultry, radiation processing of chicken, factors affecting survival of Salmonella following cobalt-60 γ, 24:48792
poultry, radiation processing of chicken, for elimination of Salmonella, 24:34826
poultry, radiation processing of chicken, in Canada, 22:52123
poultry, radiation processing of chicken, microbiological aspects of γ, 22:47651(R) (NYO-3733-1)
poultry, radiation processing of chicken, microbiological aspects of, 23:18170 (CONF-681006-, pp 189-92)
poultry, radiation processing of chicken, recovery of microorganisms following, 21:41524(R) (NYO-3733-2)
poultry, radiation processing of chicken, statistical analysis of data on, 24:8033(R) (NYO-3733-8)
poultry, radiation processing of cooked and packaged, in IAEA member states, 22:33998
poultry, radiation processing of fresh and packaged, in Asia, Europe, and North America, 22:31304
poultry, radiation processing of fresh, bacteriological and organoleptic evaluation of, 23:18166 (CONF-681006-, pp 161-6)
poultry, radiation processing of turkey, effects of, on storage life, 24:12337 (IA-1190, pp 217-33)
poultry, radiation processing of, bacterial, color, and drip problems in, 23:16446(R) (COO-1689-2)
poultry, radiation processing of, bacteriological and economic aspects of, 23:18142 (CONF-670945-, pp 134-53)
poultry, radiation processing of, bibliography on, 23:43926 (ORNL-IIC-20)
poultry, radiation processing of, economic aspects of, 21:26714
poultry, radiation processing of, economic studies of commercial, 23:21863 (TID-24058)
poultry, radiation processing of, effectiveness of ionizing and microwave, 22:8668
poultry, radiation processing of, effectiveness of γ, 23:3004
poultry, radiation processing of, effects of, on enzyme proteolytic activity, 24:6162
poultry, radiation processing of, effects of, on flavor and storage life, 21:26716
poultry, radiation processing of, effects of, on microbial population and shelf life, γ, 22:40984
poultry, radiation processing of, effects of, on organoleptic properties, γ, 23:29947
poultry, radiation processing of, effects of, on population of microorganisms following inoculation, 22:52061 (CONF-670945)
poultry, radiation processing of, effects of, on storage life, 21:28705
poultry, radiation processing of, effects of, on storage life, 21:26729
poultry, radiation processing of, effects of, on storage life and wholesomeness, 21:30937 (CONF-670202, pp 9-13)
poultry, radiation processing of, effects of, on Salmonella content, γ, 23:6626 (MIT-3727-5)
poultry, radiation processing of, effects of, on Salmonella abundance, 22:49670
poultry, radiation processing of, effects of, on toxicity for rats, γ, 22:52107
poultry, radiation processing of, effects of, on wholesomeness in mice, 22:19462
poultry, radiation processing of, effects of, on wholesomeness, 21:26714
poultry, radiation processing of, for control of growth of Salmonella, 23:29943
poultry, radiation processing of, for control of Salmonella, 24:48759
poultry, radiation processing of, status of U.S. Army program on electron and γ, 23:26978
poultry, radioactive contamination of chicken, effects of cesium-137 and strontium-90 content of feed on, 22:21502
poultry, radioactivity content of, effects of fallout contamination of chickens on, 22:38263 (TID-24459)
poultry, radioisotope content of Savannah River Plant environs, July to Dec. 1967, 22:18965(R) (DPST-68-30-1)
poultry, radioisotope content of, following uptake from food by chickens, cesium-137 and strontium-90, 23:33613
poultry, radioisotope content of, in Richland Area, Washington during 1967, 23:33702 (BNWL-983(App.))
poultry, radiopreservation of, using γ radiation combined with tetracycline, 21:13093
poultry, strontium-90 content of bones and meat from chicken, raised in Mecklenburg area during 1965, 25:4427
poultry, strontium-90 content of chicken, 24:31974
poultry, use of, in diet in postattack environment, 21:12844 (RM-5052-TAB)
radiation effects on amino acid composition of soluble proteins in, effects of storage on γ, 21:30789
radiation effects on color changes in, x, 21:11165
radiation effects on deamination of amino acids in, γ, 22:45437
radiation effects on insects and microorganisms in, review on, 25:13623
radiation effects on lipid oxidation in cooked, 21:11163
radiation effects on proteins of, immunoelectrophoretic and starch gel electrophoretic studies on, 25:26631
radiation effects on rehydration capacity of, effects of dose and timing on γ, 25:27144
radiation effects on survival of microorganisms in, effects of incubation temperature on, 25:44985
radiation effects on vitamin content in, compared with effects of heat sterilization, γ, 21:34848
radiation effects on wholesomeness of, γ and electron, 21:28712
radiation effects on, from animals in postattack environment, 22:25832
radiation processing effects on shelf life of, 25:52284 (A/CONF.49/P-740)
radiation processing for sterilization of Salmonella, effects of dose on γ, 25:6823
radiation processing of by-products of, for animal use, 21:26715
radiation processing of cooked, effects of, on amino acid composition, γ, 25:11339
radiation processing of frozen, for elimination of Salmonella, 24:34827
radiation processing of frozen, organoleptic properties and salmonella survival following γ, 25:29729 (IAEA-R-491-F)
radiation processing of partially dehydrated, ionizing, 24:34816(P)
radiation processing of red, in relation to magnitude of contamination by microorganisms, effects of cold storage on, 24:19378(R) (COO-2038-1)
radiation processing of regular and offal, effects of, on vitamins, 24:48794
radiation processing of, at experimental food irradiation laboratory, electron and γ, 22:8683
radiation processing of, bacterial, color, and drip problems in, 23:16446(R) (COO-1689-2)
radiation processing of, bibliography on, 23:43926 (ORNL-IIC-20)
radiation processing of, combined effects of sodium chlorides of sodium nitrates on survival of bacteria during ionizing, 23:50971(P)
radiation processing of, computer program for design of shuffle-dwell irradiator for, 23:45441 (BNL-50148)
radiation processing of, cost analysis of, 22:52061 (CONF-670945)
radiation processing of, cost factors for, 21:30945 (CONF-670202, pp 71-89)
radiation processing of, cost-benefit analysis of, 23:45979 (NYO-3831-1)
radiation processing of, design and operation of commercial source for, 23:18142 (CONF-670945-, pp 134-53)
radiation processing of, design of pilot plant for γ, 22:30760
radiation processing of, dose requirements for, 22:31301
radiation processing of, economic and legal aspects of, in USA during 1967, 25:8813 (NP-18236)
radiation processing of, economic aspects of, 21:26715
radiation processing of, economic aspects of, 23:18142 (CONF-670945-, pp 134-53)
radiation processing of, economic aspects of, 25:32636
radiation processing of, economic aspects of, 21:26714
radiation processing of, effectiveness of γ, 22:10898
radiation processing of, effects of dose and temperature on, 25:47074
radiation processing of, effects of, on biochemistry of carbohydrates, fats, proteins, and vitamins, 23:26977
radiation processing of, effects of, on color, 22:52061 (CONF-670945)
radiation processing of, effects of, on flavor, 21:26715
radiation processing of, effects of, on glucosides, γ, 21:26709
radiation processing of, effects of, on growth of Salmonellae, γ, 21:26712
radiation processing of, effects of, on incidence of intercurrent diseases and reproductive function of rats, γ, 24:23411(T) (ORNL-tr-2307)
radiation processing of, effects of, on nutritional value and toxicity, 24:39596(T) (ORNL-tr-2321)
radiation processing of, effects of, on organoleptic properties and wholesomeness, ionizing, 23:29923 (SORIN-92)
radiation processing of, effects of, on organoleptic properties and safety for consumption, 22:15134
radiation processing of, effects of, on storage life, 21:26729
radiation processing of, effects of, on storage life and wholesomeness of, 23:9910(R) (EUR-4080)
radiation processing of, effects of, on wholesomeness, 21:26725
radiation processing of, effects of, on wholesomeness, 21:26714
radiation processing of, effects of, on wholesomeness, electron and γ, 23:26979
radiation processing of, enzyme stabilization in γ, 24:6164
radiation processing of, for control of Salmonella contamination, 24:34828
radiation processing of, for elimination of foot-and-mouth disease virus, dose requirements for, x, 24:34793
radiation processing of, in combination with heat, programs in Czechoslovakia for cobalt-60, 24:42046
radiation processing of, in Denmark, 22:52123
radiation processing of, in OECD member countries, programs for γ, 22:43511
radiation processing of, in Poland, research on, 24:8037
radiation processing of, in relation to pathogenesis in consumer, 23:29931
radiation processing of, new methods for, 22:36424

radiation processing of, projection of cost benefit from, 23:18167 (CONF-681006-, pp 167-73)
radiation processing of, review of chemical changes from, 22:52111
radiation processing of, status of U.S. Army research program on electron and γ, 23:26978
radiation processing of, status of, in USA, 21:30939 (CONF-670202, pp 29-37)
radiation processing of, use of cesium-137 sources in commercial facilities for, 23:26465
radioactive contamination during nuclear warfare, calculation of, 21:20233 (NP-16462)
radioactive contamination of, guide for monitoring of, 23:2832
radioactive radiopreservation of molluscs, use of shipboard irradiator for, 21:10549 (TID-23398)
radioactivity induced in, during high-energy irradiation, 21:30947
radioinduced sarcoplasmic protein fraction in, effects of dose and temperature on, 25:21995
radioisotope contamination of, in relation to depth, fission product, 24:4610
radioisotope content of fish, in Japan during 1963 to 1966, cesium-137 and strontium-90, 23:933(R) (NIRS-6)
radioisotope content of, accuracy in low-level measurement of, 23:12118
radioisotope content of, following neutron activation, 24:39596(T) (ORNL-tr-2321)
radioisotope content of, from fallout, cesium-137, iodine-131, strontium-90, 22:38304
radioisotope content of, in Africa, Asia, Europe, North America, and South America during 1965 to 1968, cesium-137, iodine-131, strontium-90, 23:31722(R) (CONF-690513-1)
radioisotope content of, in countries of EAEC during 1965, cesium-137 and strontium-90, 22:40660 (EUR-3640)
radioisotope content of, in Denmark during 1968, cesium-137 and strontium-90, 24:21101 (RISO-201)
radioisotope content of, in Germany with respect to food regulations, 25:24140
radioisotope content of, in Japan, cesium-137 and strontium-90, 24:23180 (NIRS-RSD-20)
radioisotope content of, in Richland Area, Washington during 1967, 23:33702 (BNWL-983(App.))
radioisotope content of, in Scandinavia, 25:24016
radioisotope content of, in Soviet Union during 1966 and 1967, cesium-137, strontium-90, 23:18001(T) (AEC-tr-7030, pp 40-8)
radioisotope content of, in Yugoslavia following passage through food chain, cesium-137 and strontium-90, 24:41790
radioisotope sorption by casings for, protective effects of organic acids against, 24:4611
radiopreservation and spoilage of, problems of, 21:1853
radiopreservation in Israel using large radiation sources, 21:41150 (NP-16994)
radiopreservation of, effects of, on growth of Staphylococcus aureus, 21:22806
radiopreservation of, effects of, on organoleptic properties, electron, 21:28707
radiopreservation of, feasibility of, 21:446
radiopreservation of, methods for, 21:22831(T) (JPRS-40119)
radiopreservation of, nutritional and technological aspects of, 21:9045
radiopreservation of, review of research on, 21:12557
radiopreservation of, techniques for, 21:9046
radiosterilization of, used for controlling Salmonella infections, γ, 21:9038
reactions of extracts of, with hydrated radiolytic electrons, effects of acetone, cysteine, and nitrate additives on, 25:4117
reindeer, cesium-137 content in Finnish Lapland during 1966 to 1970, 25:18932 (NYO-3446-14, Paper 31)
reindeer, cesium-137 content of Alaska, federal surveillance network for measurement of, 22:51570 (NP-17401)
reindeer, cesium-137 content of, in Finland, 23:6447 (NYO-3446-11, pp 42-51)
reindeer, cesium-137 content of, in Finland during 1966 and 1967, 23:6445 (NYO-3446-11, pp 23-34)
reindeer, cesium-137 content of, in U.S.S.R. in relation to consumption of lichens, 23:14150(T) (AEC-tr-7000)
reindeer, cesium-137 content of, relation of content in man to, 25:16063(T) (AEC-tr-7214, pp 1-8)
reindeer, cesium-137 content of, relation of radiation dose to arctic man to, 25:16127(T) (AEC-tr-7214, pp 27-36)
reindeer, iron-55 content of, in Finland during 1962 and 1963, 23:41301 (NYO-3446-13, Paper 20)
reindeer, iron-55 content of, in Finland during 1961 to 1967, 23:6443 (NYO-3446-11, pp 1-15)
reindeer, iron-55 content of, in Finland during 1967 and 1968, 23:6444 (NYO-3446-11, pp 16-22)
reindeer, iron-55 content of, in northern Finland, 24:25434
reindeer, lead-210 content of, in Finland, 23:41305 (NYO-3446-13, Paper 24)
reindeer, radioisotope content in Finland during 1966 through 1971, 25:37789(R) (NYO-3446-15)
reindeer, radioisotope content of, in Alaska during 1969, 25:11001
reindeer, radioisotope content of, in Sweden during 1959 to 1969, 25:11004
reindeer, radioisotope monitoring of, in Sweden from 1956 to 1966, cesium-134 and cesium-137, 22:28482
salvaging from lethally-irradiated live stock in post-attack environment, 25:42506(R) (ORNL-4566(Pt.1))
sausage, radiation processing effects on organoleptic properties of, 25:52280 (A/CONF.49/P-256)
seafood radiation processing of, effects of shipboard, on shelf life, γ, 24:2866
seafood, analysis for mercury by neutron activation and automated chemical separation method, 25:51407 (CONF-710623-1)
seafood, analysis of dried cuttlefish by neutron activation and radiochemical separation, 24:27020
seafood, analysis of oyster flesh for strontium-90, 22:18684 (AAEC/TM-394)
seafood, analysis of oysters for strontium-90, 21:32081 (AAEC/TM-377)
seafood, cesium-137 content of, Denmark, 1966, 22:10358 (RISO-155)
seafood, cesium-137 content of, in Korean fallout, 24:697
seafood, chemical composition of haddock, mackerel, and perch in relation to growth of Clostridium botulinum type E, 24:39595 (MIT-3343-31)
seafood, contamination by bacteria, tracer studies of, using radioisotope-labeled bacteria, 24:31897
seafood, contamination of, by radionuclides and subsequent transfer to man, 21:8806(T) (AEC-tr-6641, pp 78-104)
seafood, detection of Clostridium botulinum type E in, methods for, 23:29926 (TID-24883)
seafood, economics of shrimp, industry in Panama, 23:4490 (BMI-171-014)
seafood, fallout contamination of, effects of, on internal radiation dose to man, 24:12036 (BMI-171-123)
seafood, growth of Clostridium botulinum Type E on, effects of temperature on, 23:12257(R) (TID-24778)
seafood, ingestion by man, relation of, to radioisotope uptake, 24:21095 (CEA-CONF-1465)
seafood, ingestion by man, relation of, to uptake of cesium-147, cobalt-60, ruthenium-106, or strontium-90, 24:21093 (CEA-CONF-1341)
seafood, iron-55 content of, from Arctic Ocean, 23:41301 (NYO-3446-13, Paper 20)
seafood, iron-55 content of, in Finland during 1967 and 1968, 23:6444 (NYO-3446-11, pp 16-22)
seafood, iron-55 content of, in Finland during 1961 to 1967, 23:6443 (NYO-3446-11, pp 1-15)
seafood, lead-210 content of, in Japan, effects of, on uptake by man, 22:45520
seafood, manganese-54 content of fish, 22:8491
seafood, packaging of γ-irradiated, use of plastics for, 21:13090
seafood, phosphorus-32 content of, from Columbia River during 1968, 23:43747 (BNWL-1135)
seafood, radiation effects on chemical composition of, effects of dose on γ, 24:34805(R) (TID-25312)
seafood, radiation effects on organoleptic properties of fillets of haddock, γ, 21:14780
seafood, radiation effects on production of botulinum toxin in cod, haddock, and flounder, effects of dose and temperature on γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation effects on Salmonella growth on, combined effects of sodium benzoate in γ, 21:6740 (RLO-1950-1)
seafood, radiation effects on survival of bacteria on crab, effects of dose on curve for γ, 24:48761
seafood, radiation effects on thiaminase activity in clam, cobalt-60 γ, 24:16969 (NYO-3461-3, Paper 2)
seafood, radiation effects on, following inoculation with Clostridium botulinum, γ, 21:9035 (CONF-661017)
seafood, radiation monitoring in vicinity of Tarapur Atomic Power Project, 21:20159 (AEET-268)
seafood, radiation processing effects on 27 strains of Vibrio found in, γ, 25:27115
seafood, radiation processing effects on organoleptic properties and storage life of shrimp, 25:27138(R) (TID-25543)
seafood, radiation processing effects on proteolytic activity of stored oysters, 25:27114
seafood, radiation processing effects on shelf life and taste of carp, 10-MeV electron, 25:27147
seafood, radiation processing effects on shelf life of fish and shrimp, 25:52284 (A/CONF.49/P-740)
seafood, radiation processing effects on shelf life of, 25:24491 (TID-25544)
seafood, radiation processing in Japan, 25:52280 (A/CONF.49/P-256)
seafood, radiation processing of boiled shrimp, 24:36854
seafood, radiation processing of Bombay duck, pomfrets, and shrimp, effects of chemical and physical pretreatments on bacterial count, organoleptic properties, and storage life following γ, 25:24501
seafood, radiation processing of carp, effects of, on chemical quality, shelf life, and taste, effects of dose on, 24:25619
seafood, radiation processing of clam and crab, effectiveness of, 22:17063
seafood, radiation processing of clam and haddock, aboard ship, effects of, on storage life and wholesomeness, γ, 23:10130 (TID-24332)
seafood, radiation processing of clam, economic and nutritional value of shipboard irradiators for cesium-137 or cobalt-60 γ, 22:31302
seafood, radiation processing of clam, effects of wholesomeness, γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of clam, effects of, on botulin toxin production, cobalt-60 γ, 23:29927(R) (TID-24885)
seafood, radiation processing of clam, effects of, on protein quality, 22:52061 (CONF-670945)
seafood, radiation processing of clam, effects of, on carbonyl compounds, 22:12948
seafood, radiation processing of clam, effects of, on bones, fertility, gonads, kidneys, and weight of chickens following ingestion, 24:34804(R) (TID-25288(Vol.3))
seafood, radiation processing of clam, effects of, on wholesomeness for chickens and dogs, 23:18157 (CONF-681006-, pp 91-7)
seafood, radiation processing of clam, effects of, on wholesomeness, 24:17184(R) (NYO-3461-3)
seafood, radiation processing of clam, effects of, on chickens and dogs following ingestion, 22:52061 (CONF-670945)
seafood, radiation processing of clam, in relation to toxin production by Clostridium botulinum, cobalt-60 γ, 23:29917(R) (MIT-3325-22)
seafood, radiation processing of clam, production of carbonyl compounds during, 25:24494
seafood, radiation processing of clams, effects of, on chickens following ingestion, 24:23412(R) (TID-25288(Vol.2))
seafood, radiation processing of clams, effects of, on fecundity, survival time, and weight of dogs following long-term ingestion, γ, 23:8095(R) (NYO-3573-1)
seafood, radiation processing of clams, effects on thiaminase activity and wholesomeness for rats, cobalt-60 γ, 24:17185 (NYO-3461-3, Paper 1)
seafood, radiation processing of clams, effects on chickens following ingestion, 24:25617(R) (TID-25288(Vol.1))
seafood, radiation processing of cod and haddock fillets and shrimp, effects on organoleptic properties and storage life of γ, 25:27149
seafood, radiation processing of cod and haddock, effects of, on storage life and wholesomeness, γ, 24:23418
seafood, radiation processing of cod and haddock, effects of, on production of botulism toxin, γ, 23:50962(R) (MIT-4049-1)
seafood, radiation processing of cod and ocean perch, effects of, on contamination by Clostridium botulinum type E, γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of cod fillets, lobster tails, and shrimp for export from Iceland, 25:42746 (STI/DOC-10/124)
seafood, radiation processing of cod patties, effects of, on color changes during room-temperature storage, γ, 23:33916
seafood, radiation processing of cod, effects of, on organoleptic properties and shelf life, 24:2856
seafood, radiation processing of cod, haddock, and sole, use of shipbound irradiator for cobalt-60 γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of cod, in Iceland, effects of, on storage life, 24:32337
seafood, radiation processing of cod, lobster tails, and shrimp in Iceland, evaluation of bacterial count and storage life following γ, 25:24499
seafood, radiation processing of cod, nutritional value from combined effects of cooking and γ, 25:35272
seafood, radiation processing of codfish, effects of dose and temperature on Clostridium botulinum E toxin production following cobalt-60 γ, 23:18154 (CONF-681006-, pp 63-6)
seafood, radiation processing of cooked and raw hake, effects of low doses on organoleptic properties following γ, 25:24502
seafood, radiation processing of cooked lobster meat, effects of, on storage life of, 21:41526
seafood, radiation processing of cooked shrimp, effectiveness of ionizing and microwave, 22:8668
seafood, radiation processing of crab and flounder, effects of, on growth of Clostridium botulinum, 23:24778 (TID-24880)
seafood, radiation processing of crab and scallop, optimum dose for, 22:17066
seafood, radiation processing of crab meat, effectiveness of ionizing and microwave, 22:8668
seafood, radiation processing of crab, effects of storage temperature on bacterial populations following γ, 23:10152
seafood, radiation processing of crab, effects of dose, dose fractionation, and temperature on γ, 22:15125(R) (RLO-1730-2)
seafood, radiation processing of crab, effects of packaging and post-irradiation temperature on effectiveness of, 22:17064
seafood, radiation processing of crab, effects of, on growth of salmonellae, γ, 22:49673
seafood, radiation processing of crab, effects of, on survival of bacteria, γ, 24:2858
seafood, radiation processing of dried, for control of insect infestation, 22:17063
seafood, radiation processing of Dungeness crab, in wholesale containers in relation to storage life at 33°F, 23:32011
seafood, radiation processing of English sole, bacteriological evaluation of, 23:18132 (CONF-681006-, pp 77-81)
seafood, radiation processing of English sole, effects of dose, dose fractionation, and temperature on γ, 22:15125(R) (RLO-1730-2)
seafood, radiation processing of fillets of cod and haddock, effects of storage temperature on outgrowth of Clostridium botulinum type E following γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of fillets of cod and haddock, effects of, on production of botulinum toxin, 24:21331 (MIT-4049-2)
seafood, radiation processing of fillets of cod and haddock, temperature patterns for shipment by rail and truck following, 24:48776
seafood, radiation processing of fillets of fish, effects of, on content of glucose, myofibrillar proteins, and ribose, 23:41522 (TID-24317, pp 104-15)
seafood, radiation processing of fillets of fish, effects of cutting method on storage life after, 23:41522 (TID-24317, pp 104-15)
seafood, radiation processing of fillets of haddock and petrale sole, effects of, on outgrowth time of Clostridium botulinum type E spores, 23:24779 (TID-24881)
seafood, radiation processing of fillets of haddock, effects of, on storage life and wholesomeness, 24:39595 (MIT-3343-31)
seafood, radiation processing of fillets of haddock, effects of pre-exposure quality on relative count of achromobacters and pseudomonads during storage following γ, 25:6824

seafood, radiation processing of fillets of petrale sole, effects of storage temperature on spoilage following, 23:41520 (TID-24317, pp 59-83)
seafood, radiation processing of fillets of Sole, effects of, on Pseudomonas populations, γ, 23:10148
seafood, radiation processing of fillets of sole, effects of, on growth and toxin production of Clostridium botulinum type E spores, 23:24779 (TID-24881)
seafood, radiation processing of fish, 23:18147 (CONF-681006-, pp 3-10)
seafood, radiation processing of fish and oyster, commercial feasibility of Marine Products Development Irradiator for, 24:22849(R) (TID-25211)
seafood, radiation processing of fish, effects of temperature on production of toxin by Clostridium botulinum E following, 23:18152 (CONF-681006-, pp 43-55)
seafood, radiation processing of fish, effects of shipboard, on storage life, 23:18150 (CONF-681006-, pp 29-35)
seafood, radiation processing of fish, effects of pretreatment with sodium tripolyphosphate on color, drip loss, and texture following, 23:41523 (TID-24317, pp 116-135)
seafood, radiation processing of fish, effects of, on toxin production by Clostridium botulinum, 24:48763
seafood, radiation processing of fish, effects of, on organoleptic properties and storage life, electron, 24:34822
seafood, radiation processing of fish, effects of, on Clostridium botulinum, 24:34832
seafood, radiation processing of fish, in foil wrappers, effects of, on organoleptic properties, 24:34820
seafood, radiation processing of fish, using shipboard irradiator, γ, 24:4704(R) (TID-25142)
seafood, radiation processing of fresh shrimp, effects of, on storage life and wholesomeness, γ, 25:8804 (TID-25556)
seafood, radiation processing of fresh, economic evaluation of, 22:49670
seafood, radiation processing of Gulf oyster, effects of, on nutritive composition, cobalt-60, 23:43931
seafood, radiation processing of Gulf shrimp, effects of shipping conditions on shelf life following, 23:45981(R) (ORO-669)
seafood, radiation processing of haddock fillet, effects of preirradiation quality on, 23:29934
seafood, radiation processing of haddock fish, effects of dose and temperature on Clostridium growth following, 23:16445 (COO-1183-27)
seafood, radiation processing of haddock, effects of, on oxygen uptake, 24:8035
seafood, radiation processing of haddock, effects of, on botulin toxin production, cobalt-60 γ, 23:29927(R) (TID-24885)
seafood, radiation processing of haddock, effects of age on bacterial count and storage life following γ, 25:24497
seafood, radiation processing of haddock, effects of dose on production of volatile compounds following γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of haddock, effects of vacuum packing on Clostridium botulinum E hazard following γ, 23:18155 (CONF-681006-, pp 67-71)
seafood, radiation processing of haddock, effects of, on toxin production by Clostridium botulinum, γ, 23:14286(R) (COO-1183-30)
seafood, radiation processing of haddock, effects of temperature on growth of Clostridium botulinum E following, 23:18153 (CONF-681006-, pp 57-61)
seafood, radiation processing of haddock, effects of, on growth of spores of Clostridium botulinum, 23:6625(R) (COO-1183-28)
seafood, radiation processing of haddock, in relation to toxin production by Clostridium botulinum, cobalt-60 γ, 23:29917(R) (MIT-3325-22)
seafood, radiation processing of haddock, petrale, and sole fillets, effects of, on Clostridium botulinum infections, γ, 23:29925(R) (TID-24882)
seafood, radiation processing of herring, effects of, on Anisakis larvae, 24:34830
seafood, radiation processing of herring, effects of, on infecting nematode larvae, 24:2857
seafood, radiation processing of inoculated packaged fresh cod, organoleptic properties and type E toxin content following, 25:13617(R) (COO-1183-32)
seafood, radiation processing of Japanese fishcake, laboratory evaluation of γ, 22:43517
seafood, radiation processing of king crab, effects of packaging and post-irradiation temperature on effectiveness of, 22:17064
seafood, radiation processing of lobster and shrimp, in Iceland, effects of, on storage life, 24:32337
seafood, radiation processing of lobster, effectiveness of ionizing and microwave, 22:8668
seafood, radiation processing of lobster, effectiveness of, 22:17063
seafood, radiation processing of mackerel, effects of, on shelf life, combined effects of chlortetracycline and furylfuramide on γ, 24:2860
seafood, radiation processing of marine, biochemical and microbiological studies on, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of ocean cod, flounder, haddock, and yellow perch, effects of, on storage life and wholesomeness, γ, 24:4705 (TID-25232)
seafood, radiation processing of oyster and shrimp, 21:45856(R) (ORO-654)
seafood, radiation processing of oyster and shrimp, effects of, on bacterial content, γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of oyster and shrimp, effects of, on toxin production by Clostridium botulinum type E, 22:49667
seafood, radiation processing of oyster, effectiveness of ionizing and microwave, 22:8668
seafood, radiation processing of oyster, effects of, on populations of bacteria, 22:52061 (CONF-670945)
seafood, radiation processing of oyster, effects of packaging and bacteriological characteristics following, 23:41521 (TID-24317, pp 84-103)
seafood, radiation processing of oyster, effects of packaging and post-irradiation temperature on effectiveness of, 22:17064
seafood, radiation processing of oysters, effects of, on survival of bacteria, γ, 24:2858
seafood, radiation processing of oysters, effects of storage temperature on nucleotide content following γ, 24:29906
seafood, radiation processing of Pacific cod, perch, and sole, effects of packaging materials and operation on shelf life following, 23:41518 (TID-24317, pp 9-34)
seafood, radiation processing of Pacific Dungeness crab, effects of packaging and handling on shelf life following, 23:41518 (TID-24317, pp 9-34)
seafood, radiation processing of Pacific fish, effects of shipping conditions on shelf life following, 23:41519 (TID-24317, pp 35-58)
seafood, radiation processing of Pacific oyster, effects of, on shelf life, 23:41518 (TID-24317, pp 9-34)
seafood, radiation processing of Pacific, 1967 annual report of Bureau of Commercial Fisheries, Seattle on, 23:41517(R) (TID-24317)
seafood, radiation processing of packaged fillets of English sole, effects of, on count of proteolytic bacteria, γ, 24:42043
seafood, radiation processing of packaged, effects of species on botulism hazard following, 25:24503
seafood, radiation processing of packaged, in relation to bacterial growth, effects of dose and dose fractionation on, 24:2846 (RLO-1730-3)
seafood, radiation processing of pastes of, effectiveness of γ, 25:21996
seafood, radiation processing of patties of cod, effects of dose on effectiveness of 10-MeV electron, 25:24525
seafood, radiation processing of perch, effects of storage temperature on, 23:18151 (CONF-681006-, pp 37-40)
seafood, radiation processing of petrale sole, effects of packaging on bacteriological characteristics at spoilage following, 23:41521 (TID-24317, pp 84-103)
seafood, radiation processing of prefried, effects of, on color and taste, 23:20458
seafood, radiation processing of prepacked plaice, bacterial counts and biochemical tests for efficiency of γ, 24:32333
seafood, radiation processing of scallop, effectiveness of, 22:17063
seafood, radiation processing of shrimp and squid, for extension of storage life, cobalt-60 γ, 24:42044
seafood, radiation processing of shrimp, benefit-cost analysis of, 24:21332 (WASH-1131)
seafood, radiation processing of shrimp, commercial feasibility of portable shipboard irradiator for, 23:16013 (ORO-663)
seafood, radiation processing of shrimp, effectiveness of, 22:17063
seafood, radiation processing of shrimp, effects of blanching, moisture content, and sorbic acid on γ, 25:8820
seafood, radiation processing of shrimp, effects of shipping on, 23:18148 (CONF-681006-, pp 11-18)
seafood, radiation processing of shrimp, effects of, on survival of bacteria, γ, 24:2858
seafood, radiation processing of shrimp, effects of, on odor, color, and storage life, γ, 25:11326 (NP-18393)
seafood, radiation processing of shrimp, effects of shipping conditions on cobalt-60 γ, 23:18149 (CONF-681006-, pp 19-24)
seafood, radiation processing of shrimp, effects of packaging on, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of shrimp, effects of, on count of Escherichia coli, 24:48771(R) (ORO-676)
seafood, radiation processing of shrimp, effects of, on protein quality and utilization efficiency in rats, γ, 23:954
seafood, radiation processing of shrimp, effects of blanching on storage life, following γ, 25:13619
seafood, radiation processing of shrimp, effects of, on texture, γ, 22:52061 (CONF-670945)
seafood, radiation processing of shrimp, effects of post-irradiation storage temperature on low dose, 22:49663(R) (ORO-3698-2)
seafood, radiation processing of shrimp, effects of shipboard, on storage life, 23:17909 (CONF-681006-, pp 25-8)
seafood, radiation processing of shrimp, effects of 100 and 200 Krad doses and temperature on shelf life following, 24:12339(R) (ORO-3698-3)
seafood, radiation processing of shrimp, effects of, on viscosity of homogenate, 24:9981
seafood, radiation processing of shrimp, effects of, on growth and reproduction of rats following ingestion, 23:35969
seafood, radiation processing of shrimp, effects of dose and temperature on Clostridium botulinum E toxin production following, 23:18156 (CONF-681006-, pp 73-6)
seafood, radiation processing of shrimp, facility for shipboard γ, 25:27158
seafood, radiation processing of shrimp, in India, effects of, on storage life, 24:32337
seafood, radiation processing of shrimp, inoculated pack studies on, 22:52061 (CONF-670945)
seafood, radiation processing of shrimp, use of ship-board irradiator for γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of shucked clam, effectiveness of ionizing and microwave, 22:8668
seafood, radiation processing of soft shell clam, effects of dose on production of volatile compounds following γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of sole, effects of multiple doses on γ, 23:3007
seafood, radiation processing of tuna, colorimetric dosimeters for gamma, 23:703
seafood, radiation processing of tuna, effects of, on color, 23:50970
seafood, radiation processing of tuna, effects of, on color regeneration after freezing, γ, 24:2867
seafood, radiation processing of uncooked clam and fillets of cod, at low temperature, effects of, on organoleptic properties, cobalt-60 γ, 24:51122
seafood, radiation processing of whale, effects of, on shelf life, combined effects of chlortetracycline and furylfuramide on γ, 24:2860
seafood, radiation processing of, conference on, 22:17065
seafood, radiation processing of, determination of optimum dose for, 22:52061 (CONF-670945)
seafood, radiation processing of, developments in U.S., 1967, 21:30944 (CONF-670202, pp 67-9)
seafood, radiation processing of, economic study of commercial, 23:21863 (TID-24058)
seafood, radiation processing of, effectiveness of electron, 23:29937
seafood, radiation processing of, effects of dose and vacuum packing on efficiency of, 23:20451
seafood, radiation processing of, effects of, on bacterial flora, γ, 23:18140 (CONF-670945-, pp 1-86)
seafood, radiation processing of, effects of, on breakdown of trimethlamine oxide, γ, 24:23116
seafood, radiation processing of, effects of, on biochemical and microbiological factors, 22:52061 (CONF-670945)
seafood, radiation processing of, effects of, on chemical composition and bacterial populations, 23:12255(R) (TID-24633)
seafood, radiation processing of, effects of, on growth of microorganisms, γ, 23:35974
seafood, radiation processing of, effects of, on growth of Achromobacter sp, 23:2994(R) (TID-24171)
seafood, radiation processing of, effects of, on growth and toxin production of Clostridium botulinum, γ, 24:12341(R) (TID-25231)
seafood, radiation processing of, effects of, on organoleptic properties, 24:2854
seafood, radiation processing of, effects of, on organoleptic properties, shelf life, and wholesomeness of, status of research on, 24:2861
seafood, radiation processing of, effects of, on production of volatile compounds, 22:52061 (CONF-670945)
seafood, radiation processing of, effects of, on storage life and wholesomeness, 24:32311
seafood, radiation processing of, effects of, on storage life, 21:41523 (AECL-2873)
seafood, radiation processing of, effects of, on shelf life, 23:35963
seafood, radiation processing of, effects of, on surviving bacteria, 22:52061 (CONF-670945)
seafood, radiation processing of, effects on growth of Staphylococcus aureus on crabmeat, 21:6747
seafood, radiation processing of, effects on refrigerated storage life, 21:26721
seafood, radiation processing of, effects on storage life of refrigerated, 21:26720
seafood, radiation processing of, effects on storage life and wholesomeness, 21:30937 (CONF-670202, pp 9-13)
seafood, radiation processing of, effects on storage life of vacuum-sealed, 21:26723
seafood, radiation processing of, effects on storage life, 21:26727
seafood, radiation processing of, effects on storage life and wholesomeness of γ, 24:34805(R) (TID-25312)
seafood, radiation processing of, effects on storage life of crabmeat and oysters of γ, 21:6740 (RLO-1950-1)
seafood, radiation processing of, effects on wholesomeness, 21:26725
seafood, radiation processing of, evaluation of botulism hazard and shipping practices in, 25:24496
seafood, radiation processing of, evaluation of methods for, 21:45859
seafood, radiation processing of, evaluation of programs for, 23:18178 (CONF-681006-, pp 253-5)
seafood, radiation processing of, evaluation of temperature, dose and chemical pre-treatment for, 23:35967
seafood, radiation processing of, feasibility of γ, 22:26017(R) (TID-23835)
seafood, radiation processing of, for control of growth of Clostridium botulinum, 23:29943
seafood, radiation processing of, in Italy, effects of, on shelf life, 24:2864
seafood, radiation processing of, in Spain, methods for, 24:2863
seafood, radiation processing of, in U.S.A, 21:30939 (CONF-670202, pp 29-37)
seafood, radiation processing of, in USA during 1968, status of, 23:38909
seafood, radiation processing of, legal aspects of, 24:2690
seafood, radiation processing of, panel on, Vienna, Austria, Dec. 15 to 19, 1969, 25:24489 (STI/PUB-196)
seafood, radiation processing of, production of botulinum toxins following γ, 25:24504
seafood, radiation processing of, quality control standards for, 22:8682
seafood, radiation processing of, review of, 24:29898
seafood, radiation processing of, status of U.S. Army program on electron and γ, 23:26978
seafood, radiation processing of, status of USAEC sponsored facilities and research for, 23:26417
seafood, radiation processing of, using portable ship-board irradiator, 22:52061 (CONF-670945)
seafood, radioactive contamination of marine molluscs, effects of, on man, 21:32353
seafood, radioactive contamination of, by marine environment, hazards to man of, 23:20227
seafood, radioactive contamination of, in relation to metabolism, 23:20107

seafood, radioactivity content of oysters, in Texas during 1965 to 1966, α, β, and γ, 22:28517
seafood, radioactivity induced in, during high-energy irradiation, 21:30947
seafood, radioactivity monitoring in Korean, during 1968, method for fallout β, 24:699
seafood, radioactivity monitoring of oyster, in Texas during 1965 and 1966, α, β, and γ, 22:40691
seafood, radioisotope contamination of, 21:14590
seafood, radioisotope contamination of, in human diet, dose to man from, 23:29461(T) (AEC-tr-7022)
seafood, radioisotope content of oyster, collected near Bradwell Station, England, cesium-137, cobalt-60, iron-55, and zinc-69, 24:36750
seafood, radioisotope content of oyster, from Willapa Bay, Washington during 1967, 23:33702 (BNWL-983(App.))
seafood, radioisotope content of, caught near Windscale site, estimation of, 24:36750
seafood, radioisotope content of, from British coastal waters during 1968, 24:21099 (FRL-5)
seafood, radioisotope content of, in Finland, lead-210 and polonium-210, 23:41304 (NYO-3446-13, Paper 23)
seafood, radioisotope content of, in relation to contamination of man, lead-210 and polonium-210, 23:31737
seafood, radioisotope content of, taken from Willapa Bay, Wash., during 1968, 25:521 (BNWL-1341(App.))
seafood, radiopasteurization of fillets of, effects of γ, on amino acid and vitamin contents, 21:14781
seafood, radiopasteurization of, effects of, on toxin production by Clostridium botulinum, 21:24698
seafood, radiopreservation of Dungeness and Alaskan king crabs, cost—benefit study of USAEC program on, 21:19853 (NYO-3666-1)
seafood, radiopreservation of sardine, by comparison with preservation with chlortetracycline, low-level γ, 21:6744
seafood, radiopreservation of, effects of dose rates, packing, and storage methods on, 22:210(R) (TID-24016)
seafood, radiopreservation of, effects on production of total volatile base by microorganisms in, 21:20457(R) (RLO-1730-5)
seafood, radiopreservation of, feasibility of, 21:446
seafood, radiopreservation of, techniques for, 21:9046
seafood, resources in vicinity of Amchitka Island, Alaska during 1969, 25:49130
seafood, strontium-90 content of, 21:20115
seafood, strontium-90 content of, in Korea during 1964 and 1965, fallout, 24:698
seafood, thiaminase activity of, method for determination of, 24:17185 (NYO-3461-3, Paper 1)
seafood, uranium and mineral content of fish and prawn, in India in relation to radioisotope contamination, 22:51656
seafood, use of, in diet in postattack environment, 21:12844 (RM-5052-TAB)
seafood, zinc-65 content of oyster, effect of radioactive wastes from nuclear plant on, 23:18009 (CONF-670503-, pp 363-71)
seafood, zinc-65 content of, effects of food chain radioactivity on, 22:474
seafoods, iodine-131 content of shellfish, FRC, ICRP, and NCRP standards for, 22:23513
seafoods, radiation processing of oyster and shrimp, laboratory evaluation of γ, 22:47652(R) (ORO-660)
seafoods, radiation processing of, cost, design, and operation of irradiation facility for, 23:4767
seafoods, radiation processing of, effectiveness of γ, 22:10898
seafoods, radioisotope content of oyster, silver-110 and zinc-65, 22:40671
seafoods, radium-226 content of shellfish, FRC, ICRP, and NCRP standards for, 22:23513
seafoods, strontium-89 content of shellfish, FRC, ICRP, and NCRP standards for, 22:23513
seafoods, strontium-90 content of shellfish, FRC, ICRP, and NCRP standards for, 22:23513
separation of barium-140, strontium-89, and -90 from fish meal, method for, 22:8197
strontium-90 contamination of, physiological factors affecting, 21:43410
strontium-90 content in cooked and raw, correlation of, 21:22432
strontium-90 content in German, 21:26445
strontium-90 content in Italian, 21:39055(R) (PROT.-SAN.-02/66)
strontium-90 content in Italian, 21:39056(R) (PROT.-SAN.-10/66)
strontium-90 content of Danish, 1967, 23:9571 (RISO-180)
strontium-90 content of, dose to man from, effects of age on, 23:35724 (CEA-CONF-1282)
strontium-90 content of, during 1964 to 1965, IAEA data on, 21:45615 (NP-16900, pp 14-27)
strontium-90 content of, in Netherlands during 1964, 22:4616
strontium-90 content of, in Netherlands during 1966, 22:15001 (RA-30)
strontium-90 content of, in Poland during 1962, 21:10858 (CLOR-55)
strontium-90 content of, study of physicochemical form of, 25:23974(T) (AEC-tr-7195, pp 226-35)
supplies from livestock following nuclear attack, 23:50581 (CONF-671135-, pp 43-58)
uranium accumulation in, in Soviet Union, 24:12033(T) (AEC-tr-7128, pp 194-207)
veal, cesium-137 content of, in Sofia, 24:36757
veal, radiation processing of, effects of, on lipids and proteins, 22:8673
venison, cesium-137 content of, in northern USSR, 1959 to 1967, 23:49954
venison, strontium-90 content of, in northern USSR, 1959 to 1967, 23:49954
whale, radiation effects on hemoproteins of, 24:31843(R) (UCB-34-P-95-17)
wholesomeness of, effects of animal irradiation prior to slaughtering on, 24:39554(T) (ORNL-tr-2317)
zinc-65 content of, in environs of Hanford reactors, 22:16998 (BNWL-SA-1449)
MECAMYLAMINE
radiation effects on sorption of, from isolated rat intestine, cobalt-60 γ, 24:17135
MECHANICAL DRIVES
see also Cams

description of sample-positioning, for scrap uranium analysis, 25:8447(R) (BHO-65-1)
design and materials for, for use in sodium-cooled reactor systems, 22:8269
design for accurate pivotal and translational positioning of heavy components, 22:19027(P)
design for Moessbauer spectrometer film drive, engineering drawings for, 22:14637
design for whole-body radiation counter pallet, engineering drawings for, 24:19226
design of constant velocity, for Moessbauer spectrometers, 23:686(P)
design of hoop filament winding, use of computers for, 21:35812 (SC-DR-67-499)
design of ratchet, 22:6253(P)
design of two-directional, for swimming pool reactor irradiation facility, 22:3916(P)
failure symptoms of, determination methods for, 22:14606 (CONF-671011-, pp 284-313)
gear ratios for, data tabulations for, 22:21006 (SC-M-68-63)
gears for, inspection of fine-pitch miniature, 25:18263 (BDX-613-309)
operation in Dragon Reactor helium coolant, tests on, 24:41566 (DP-Report-163)
operation in sodium at 1200°F, design of test facility for, 24:20936(R) (LMEC-70-1)
operation in Van de Graaff accelerators, overload-protection circuit for, 25:45853
performance in lithium, potassium, potassium—sodium, and sodium environments, 23:11690 (LMEC-68-5(Vol.1))
testing for failure and malfunction using external vibration measurements, 22:14607 (CONF-671011-, pp 314-39)
testing helical-screw graphite, to 2750°F, 21:30601
MECHANICAL ENGINEERING
analysis and control of mechanical equipment failures, 22:14606 (CONF-671011-, pp 284-313)
book: Experimental Stress Analysis and its Influence on Design, 25:54846
book: Pressure Vessel Engineering Technology, 25:49346
design of subminiature mechanical devices using rolamite geometry, 21:44989 (SC-RR-67-656)
equipment maintenance in, planning methods for, 21:38835 (RISO-M-512)
machine design in, use of rolamite geometry in, 23:34965 (SC-RR-67-656-B)
methods to determine mechanical component failure, parametric and non-parametric statistical, 23:49991 (EUR-4282)
notes and specifications issued by LRL at Berkeley, 1963 to 1966, 21:10512 (UCRL-11200(Vol.2)(Rev.))
planning, scheduling, and controlling, development of system for, 22:33195 (Y-1621)
radioisotope uses in, bibliography on, 23:38184 (PEL-189)
research at Ispra, Italy, 1961 to 1967, 23:17645 (EUR-3940-3)
research program at Ames Laboratory, July 1, 1967 to June 30, 1968, 23:2155(R) (IS-1900)
research report from Ames Laboratory July 1, 1966—June 30, 1967, 21:42845(R) (IS-1600)
MECHANICAL PROPERTIES
book: Surfaces and Interfaces. II Physical and Mechanical Properties, 23:41533
creep and stress-rupture parameters for materials, review of, 22:270 (GEMP-555)
data recording and processing of, use of digital computers for, 23:17315 (Y-1663)
determination of brittle materials, methods of, 22:52260 (CONF-670927)
evaluation of irradiated material, facility for, 22:4378
methods for improvement of refractory metal, 23:48451
prediction in materials, use of computers for, 24:48798
testing of reactor materials, design of hot cell for, 24:476
theory of materials fatigue, statistical, 24:25673 (ANL-7417, pp 51-9)

MEDICAL PERSONNEL
adaptation to nuclear work, physical and psychological, 23:29426
anesthetic vapor dose to, in operating rooms, halothane and nitrous oxide, 23:50487
compliance with safety rules for use of x-ray equipment in North Dakota, survey of, 25:29542
death in x-ray technician, analysis of cause of, 22:31242
fertility in female radiological, evaluation of, 24:48491
health physics duties of industrial, 23:6466
insurance protection for radium, 23:41331 (PHS-999-RH-34)
iodine-131 content of thyroid glands of, 22:2509
iodine-131 uptake by, performance of whole-body counter for measuring, 25:21700
leukemia incidence among radiological, 21:11050
leukemia incidence in, following occupational or therapeutic exposure, statistical survey of, 24:19372
licensing of radiology, in USA, legislation for, 23:15770
licensing x-ray, status of legislation in USA in 1971 concerning standards for, 25:26787
licensure of x-ray, in New York, legislation for, 22:40726
life spans of, in pathology and radiology, 21:39446(R) (NYO-3777-7)
lithium fluoride toxicity to, during thermoluminescent dosimetry, 22:19248
need for training, in nuclear medical laboratory methods, review of, 22:31159
performance of nursing, in civilian defense programs, 21:6528
performance of, in fallout shelters, 21:6527
physicians in nuclear industry, duties of, 25:46865
problems in finding, for radioisotope laboratory, 21:1786
programs at Goodyear Atomic Corporation, 21:24403(R) (GAT-R-397)
protection of radiography, effectiveness of protective clothing for, 25:29529
radiation dose records of, method for maintenance of, 23:33732
radiation dose to abdomen, face, and hands of, from technetium-99m, methods for shielding against, 25:26765
radiation dose to chest and gonads of, during technetium-99m scintigraphy, γ, 25:26766
radiation dose to dental, during radiography of teeth, effects of building materilas on x, 22:40724
radiation dose to dental, using x-ray equipment, safety precautions for protection against, 24:29756
radiation dose to diagnostic radiography, performance of photographic film and thermoluminescent dosimeters for measurement of x, 25:37811
radiation dose to examining physician from radiography during heart catheterization, x, 25:37813
radiation dose to fingers of, administering γ implant therapy for uterine carcinomas, use of thermoluminescent dosimeters for monitoring, 21:28485
radiation dose to gonads, hands, and whole-body of, during preparation and application of γ emitters for interstitial therapy, γ, 25:8689 (SZS-6/70 (pp 19-27))
radiation dose to hands of, during administration of radioisotopes, 25:49197
radiation dose to hands of, during injection of radioactive solutions, method for estimation of, 25:52081
radiation dose to hands of, effects of lead and perspex shielding on indium-113m, iodine-132, strontium-87m, and technetium-99m γ, 23:33714
radiation dose to hands of, from handling indium-113m, methods for shielding against γ, 25:26767
radiation dose to hands of, handling metastable technetium-99, β and γ, 24:12088
radiation dose to radiography, record keeping for x, 24:29783 (DMRE-69-3, pp 96-129)
radiation dose to radiological, during 1964, x, 21:32668
radiation dose to radiological, during contrast media diagnosis, performance of photographic film badges for monitoring x, 24:17045
radiation dose to radiological, during diagnostic radiography using contrast media, x, 24:17046
radiation dose to roentgenologic standards for time factors in x, 22:45510
radiation dose to tissues of head of, following accidental exposure, 23:31974
radiation dose to various body parts of, during fluoroscopic radiology, x, 23:50518
radiation dose to veterinary, in diagnosis of disease in animals, x, 23:29531
radiation dose to veterinary, regulations for protective measures against x, in Germany, 24:19323
radiation dose to veterinary, use of film dosimeter to determine x, 22:45514
radiation dose to, determination using film dosimeters and whole-body counting, 24:27584 (CONF-690540-, pp 439-40)
radiation dose to, during cardiac catheterization procedure, x, 25:55226
radiation dose to, during dental radiography, 22:10807
radiation dose to, during dental radiography, 22:25838
radiation dose to, during dental radiography, x, 22:43339
radiation dose to, during diagnosis or therapy, methods for reduction of x, 22:4624
radiation dose to, during diagnosis, improved physician training as a method for reducing, 24:34360
radiation dose to, during diagnosis, use of photoluminescent dosimeters to determine x, 23:35754
radiation dose to, during diagnostic and therapeutic radiology, 21:12956
radiation dose to, during diagnostic radiography, x, 23:50690
radiation dose to, during diagnostic tests with thermoluminescent dosimetry, evaluation of, 23:35797
radiation dose to, during fluoroscopic radiography of gastrointestinal tract, 24:27588 (CONF-690540-, pp 611-13)
radiation dose to, during handling of radium applicators, γ, 23:33704 (CLOR/IO-70)
radiation dose to, during handling of radium applicators for therapy, γ, 23:43760(T) (TT-67-56003/6, pp 847-60)
radiation dose to, during handling of tin-113/indium-113m generator, γ, 25:32422
radiation dose to, during heart radiography, x, 24:17049
radiation dose to, during implantation of gold-198 therapeutic sources in patients, 25:52076
radiation dose to, during insertion of radium implants, methods for reduction of, 22:28461
radiation dose to, during interstitial therapy of carcinomas under two different treatment plans, 25:42432
radiation dose to, during interstitial therapy, non-radioactive preparation of iridium-192 wires to reduce, 24:7969
radiation dose to, during iodine-125 therapy for nasopharyngeal cancer, γ, 22:49430
radiation dose to, during lower-extremity venography, use of fluoro-glasses for measurement of x, 23:38580
radiation dose to, during radiography for catheterization of the heart, x, 25:11059
radiation dose to, during radiography of colon and lungs, x, 21:43469
radiation dose to, during radiology of nerves, 22:33830
radiation dose to, during therapy, record keeping for, 24:29745 (DMRE-69-3, pp 138-46)
radiation dose to, during urethrocystrography of male patients, x, 23:41321
radiation dose to, estimation of average annual, 24:25484 (LFEN-98-a)
radiation dose to, evaluation of long-term effects following low level whole-body exposure, 25:37889 (A/CONF.49/P-82)
radiation dose to, film dosimeters for estimation of x, 24:48548
radiation dose to, from handling short-lived radioisotopes, 25:26763
radiation dose to, from preparation of indium-113m- and technetium-99m labeled compounds, 25:26768
radiation dose to, from short-lived radioisotopes, conference on protection against, 25:26762
radiation dose to, in Bulgaria during 1967 and 1968, photographic film dosimeter measurement of, 25:24178
radiation dose to, in Czechoslovakia, γ and x, 24:39499 (A-AC-82/G/L-1320)
radiation dose to, in diagnostic radiography, recommendations for control of, 25:4531
radiation dose to, in Great Britain in relation to MPD, 24:23213
radiation dose to, in Japan during 1962 to 1966, 22:36263
radiation dose to, in nuclear medicine, 24:29746 (DMRE-69-3, pp 153-71)
radiation dose to, in operating rooms, x, 23:50487
radiation dose to, in radon spas in Bohemia, 24:2812
radiation dose to, in United States, legal control of record keeping for, 24:29772 (DMRE-69-3, pp 349-61)
radiation dose to, in use of xenon-133 in lung function tests, β and γ, 24:50886 (CONF-691212-, pp 253-70)
radiation dose to, inserting radium applicators, γ, 21:28486
radiation dose to, review of, 21:45640
radiation dose to, use of photographic film detectors for measuring local, 23:26798
radiation doses of, in institutes for radiotherapy, 21:8837
radiation doses to, in contrast medium studies of the gastrointestinal tract, 21:10890
radiation doses to, in gynecology departments of cancer institutes, 21:8837
radiation dosimetry for radiography, x, 22:43332
radiation dosimetry for, development of standardization procedure for film badges used in, 25:26756
radiation dosimetry for, in Czechoslovakia during 1966, use of film badges for γ and x, 24:6041
radiation dosimetry in radium-exposed, computer method for analysis of, 21:26454
radiation dosimetry of, effects of various taks on comparative data for, 22:49358
radiation effects on blood cell counts in, in Japan during 1969, survey of, 25:58134
radiation effects on blood cells in, x, 25:42600
radiation effects on blood cells of, review of effects of small doses on, 25:19142
radiation effects on blood formation and skin of, ionizing, 22:52011
radiation effects on bone marrow cells of, ionizing, 21:43500(T) (TT-67-56008/2, pp 381-8)
radiation effects on chromosomes of, aberrant, 22:33956
radiation effects on chromosomes of, in combination with cytostatic drugs, x, 21:14626
radiation effects on chromosomes of, radium, 22:45475
radiation effects on count of lymphocytes in, chronic, 22:49611
radiation effects on dental, protection against x, 24:724
radiation effects on fecundity and fertility of radiological, 24:14510
radiation effects on genetics of, in China, chronic, 23:7978
radiation effects on health of, 21:32693
radiation effects on incidence of leukemia in, 23:33902
radiation effects on incidence of leukosis in, effects of dose on, 25:44901
radiation effects on life span of radiologic, in USA, during 1938 to 1965, 22:38456
radiation effects on life span of radiology technicians, x, 21:26586
radiation effects on life spans of, in dentistry, x, 21:39446(R) (NYO-3777-7)
radiation effects on life-span of U. S. radiologists, 21:1823
radiation effects on lymphocyte chromosomes in, measures for protection against x, 25:44959
radiation effects on staining reactions of leukocytes of, x, 22:23398 (IA-1128, pp 147-55)
radiation effects on urinary excretion of gonadotrophins in, effects of acute exposure on γ, 24:14417
radiation effects on, during dental and medical radiography, recommendations for protection against x, 24:50930
radiation effects on, during dental radiography, protection against, 21:34660
radiation effects on, during diagnosis, x, 22:47626
radiation effects on, exposed during work, effects on progeny of, 21:6641
radiation effects on, following accelerator accidents, 22:8516 (CONF-670305-, pp 88-93)
radiation effects on, following occupational exposure, x, 22:45513
radiation effects on, protective measures against x, 22:51592
radiation hazard to dentists, using x-ray equipment for radiography, 24:27708
radiation hazards and protection of, during diagnostic or therapeutic procedures, 21:393
radiation hazards to, 21:6504
radiation hazards to dental, discussion of x, 23:43792
radiation hazards to dentists during diagnostic radiology, 23:29645

radiation hazards to eyes of, controls and protection programs for reducing γ, infrared, microwave, radio wave, uv, and x, 24:46619
radiation hazards to hospital and research, methods for protection against, 24:12092
radiation hazards to veterinary, code of practice for protection against, 25:46873
radiation hazards to veterinary, measures for reducing, 25:44820
radiation hazards to, design of mobile shield for reducing radium, 25:24189
radiation hazards to, during angiocardiography, x, 25:26854
radiation hazards to, during care of patients containing therapeutic doses of radioisotopes, recommendations of NCRP regarding protection against, 25:16197 (NCRP-37)
radiation hazards to, during clinical procedures, measures for protection against x, 24:29755
radiation hazards to, during diagnostic and therapeutic procedures in surgery, measures for protection against, 24:29759
radiation hazards to, during intracavitary therapy, isodose curves for determination of, 21:39430
radiation hazards to, during radiology, 22:49328
radiation hazards to, during therapy of oral neoplasms, x, 22:51978
radiation hazards to, from handling metastable strontium-87/yttrium-87 column during diagnosis, 24:23200
radiation hazards to, from mercury-203-labeled chlormerodrin, 23:14204
radiation hazards to, from radium sources, 21:30811
radiation hazards to, handling radioisotope-contaminated cadavers, 21:36616
radiation hazards to, in hospitals, survey of protective measures against, 24:7881
radiation hazards to, in radiological examination rooms, 22:40718
radiation hazards to, measures for reducing, 25:44821
radiation hazards to, measures for reducing x, 24:23221(T) (AEC-tr-7132)
radiation hazards to, recommendations for protection against, 23:2834
radiation hazards to, regulations for minimizing, 25:32388
radiation hazards to, review of, 21:8948
radiation injuries in, at JAERI, 22:19355 (JAERI-1150)
radiation injuries of, following accidental exposure, survey in Italy of, 23:38608
radiation injuries to hands of, following use of high power x-ray machines, 24:46617
radiation injuries to radiography, legal aspects of, 24:29761 (DMRE-69-3, pp 130-6)
radiation injuries to radiological, hematological examinations for diagnosis of, 25:29595
radiation injuries to, in veterinary practices, safety procedures for prevention of x, 25:24126
radiation monitoring for, effectiveness of various methods for γ, 25:46853
radiation monitoring in radiodiagnosis and radiotherapy departments, 22:51640
radiation monitoring of, engaged in insertion of radium applicators, 21:22442
radiation monitoring of, film dosimetry for, 24:34327
radiation monitoring of, in England in relation to standards, x, 23:9951
radiation monitoring of, using sealed and unsealed radiation sources, 21:30823
radiation production of dental, recommendations for, 25:26772
radiation protection code for, using sealed radiation sources for therapy, 25:42492
radiation protection code for, using sealed radiation sources for therapy, 25:42491
radiation protection devices to reduce dose to, in non-standard radiology departments, 21:8836
radiation protection during radiodiagnostic examinations in cardiology, 21:28559
radiation protection for, 21:30821
radiation protection for dental radiography, Australian code of practice for, 25:42496
radiation protection in x-ray contact therapy, recommendations for, 24:12087
radiation protection measures for, 25:35150
radiation protection measures for hospital, architectural and organizational, 25:35151
radiation protection measures for x-ray, handling remote controlled unit, 24:34525
radiation protection methods for, 23:6463
radiation protection methods for, 25:35130
radiation protection methods for, during preparation and application of γ emitters for interstitial therapy, 25:8689 (SZS-6/70 (pp 19-27))
radiation protection methods for, performing diagnostic x radiography, 25:52092
radiation protection of, 21:30813
radiation protection of dental, 21:8822
radiation protection of dental radiography, 23:38599
radiation protection of dental, during radiography, 21:34662
radiation protection of dental, during radiology, methods for, 21:12857
radiation protection of dental, program for, 21:28475
radiation protection of nursing, in gynecological application of radium, devices for γ, 23:50562
radiation protection of podiatric, recommendations for, 25:26777
radiation protection of population by, methods for, 22:15015
radiation protection of pregnant, using radiological equipment, 22:25841
radiation protection of radiography, during overhead fluoroscopic examinations, 25:21723
radiation protection of radiological, in U.S.S.R., standards for, 22:6809(T) (AEC-tr-6467/2, (pp 177-94))
radiation protection of radiology, 21:22457
radiation protection of radiology, during localization of movable foreign bodies in human patients, use of lead apron shields for, 23:50541
radiation protection of radiology, ionizing, 23:38609
radiation protection of radiology, legal aspects of, 23:31814
radiation protection of veterinary, code of practice for x, 25:42485
radiation protection of veterinary, recommendations for, 25:11075 (NCRP-36)
radiation protection of, as dentists and technicians, 21:12876
radiation protection of, at nuclear medicine hospital in West Berlin, 23:26815
radiation protection of, Australian codes of practice for, 25:26738
radiation protection of, code of practice for, 22:25845
radiation protection of, code of practice for, 22:4628
radiation protection of, design of automatic alarm system for, during patient radiotherapy, 22:49374
radiation protection of, design of medical laser laboratory for, 21:22420
radiation protection of, during accident surgery, 21:6525
radiation protection of, during dental practice, 21:14659
radiation protection of, during dental radiography, code of practice for x, 22:31178
radiation protection of, during dental radiography, recommendations for x, 22:45551
radiation protection of, during dental radiography, code of practice for x, 22:31175
radiation protection of, during dental radiology, design of equipment for x, 22:38282
radiation protection of, during diagnostic radiology in Belgium, 22:38286
radiation protection of, during diagnostic radiological procedures, 21:10912
radiation protection of, during encephalography using iodine-131-labeled serum albumin, 21:10894
radiation protection of, during gold-198 therapy for edema, design of facilities for, 22:6813
radiation protection of, during gynecological therapy, cobalt-60 γ, 24:23217
radiation protection of, during handling of indium-113m and technetium-99m, design of devices for, 25:26776
radiation protection of, during handling of technetium-99 eluate from molybdenum-99-technetium-99 generators, use of lead shielding for γ, 24:23219
radiation protection of, during handling of yttrium-90 sources, 24:2818
radiation protection of, during insertion of radioapplicators, evaluation of afterloading techniques for, 25:19076
radiation protection of, during interstitial implantation of labeled microspheres in tumors of man, 22:38380
radiation protection of, during interstitial therapy of cancer of mouth, iridium-192 and radium β and γ, 22:49364
radiation protection of, during preparation and insertion of radium needles for therapy, 23:5034
radiation protection of, during radiography, 24:34355 (CONF-690335, pp 39-43)
radiation protection of, during radioisotope scanning, 23:50727
radiation protection of, during strontium-90 and yttrium-90 therapy of human hemangiomas, β and γ, 23:835
radiation protection of, during surgery involving radiography, 22:4620
radiation protection of, during therapy for skin cancer, standards for x, 22:15007
radiation protection of, during use of gold-198, 22:45582
radiation protection of, during use of lasers for therapy, 22:28594
radiation protection of, during use of radioisotopes for diagnosis and therapy, 23:50557
radiation protection of, during x-ray therapy of tooth, mouth, and jaw, 21:22459
radiation protection of, handling radium applicators, 21:45655
radiation protection of, ICRP recommendations for, 25:42476
radiation protection of, in Australia during medical diagnosis, code of practice for x, 22:28536
radiation protection of, in dentistry, methods for, 21:12859
radiation protection of, in France, 22:21533
radiation protection of, in hospitals using radioisotopes for diagnosis or therapy, 21:22446
radiation protection of, in laser laboratories, 21:12918
radiation protection of, in radiology, 22:43334
radiation protection of, in radiology, methods for, 21:4802
radiation protection of, in telecobalt work, construction of equipment for γ, 23:14203
radiation protection of, inserting radium implants, method for, 22:546
radiation protection of, manual on, 21:16335 (CMN-Pub-4/65(Vol.1))
radiation protection of, methods for, 24:7865
radiation protection of, of radiotherapy facility, 21:16403
radiation protection of, review of methods for, 25:44819
radiation protection of, role of doctor in, 21:22467
radiation protection of, role of health physicist in, 23:9958
radiation protection of, through design of radioisotope facilities, 21:12868
radiation protection of, use of lead shielding in deep therapy room for, 21:10916 (COO-245-6)
radiation protection of, using radiations and radioisotopes, 22:45583
radiation protection of, while handling radiation sources, 22:23573
radiation protection of, x, 23:31804
radiation protection procedures for, during use of accelerators for electron and x-ray therapy, 22:40687
radiation protection programs for, 25:4528
radiation protection programs for diagnostic radiography, in Japan, evaluation of, 25:42486
radiation protection programs for nursing, 24:48579
radiation protection programs for x-ray technicians, 25:8690
radiation protection programs for x-ray, survey of, 23:9933 (MORP-68-6)
radiation protection programs for, in Australia, 25:29526(R) (NP-18790)
radiation protection programs for, using radioisotopes in diagnostic studies, 25:52094
radiation protection standards for dental, 22:19334
radiation protection standards for dental, 22:15009
radiation research conducted by military pharmacist, review of, 22:51829
radiation sickness in, problems in diagnosis of chronic, 22:31255
radiaton hazards to, from handling of radioisotopes, guidelines for protection against, 24:41896
radioactive contamination of health nurse, methods for removal of, 24:7812 (ARH-SA-54)
radiography, estrogen secretion by female, 22:49600
radioinduced aberrations of chromosomes in leukocytes of, incidence of x, 22:28439
radioinduced carcinomas in, following x-ray therapy, effects of dose on, 24:34722
radioinduced carcinomas of mammary glands of, effects of dose on, 24:42001
radioinduced changes in, x, 23:41473
radioinduced chromosome aberrations in blood cells of radiological, chronic, 25:29501
radioinduced chromosome aberrations in leukocytes of, frequency of aneuploidy γ, 24:48476(T) (ORNL-tr-2332)
radioinduced chromosome aberrations in leukocytes of x-ray technician, x, 23:20157
radioinduced chromosome aberrations in, effects of dose, dose fractionation, and radiation source on γ, neutron, and x, 25:57972
radioinduced congenital anomalies in cardiovascular system and eyes of child of radiology, 21:32615
radioinduced dermatitis in, effects of age and sex on radium and x, 22:47614
radioinduced dermatitis in, etiology, pathology, and treatment of, 25:32611
radioinduced diseases of, x, 22:36382
radioinduced injuries to nails of, following exposure during diagnosis and therapy, 24:21264
radioinduced injuries to, as radiologists, review of, 21:12982
radioinduced injuries to, during radiodiagnosis, programmed instruction course on methods for protection against, 25:19010
radioinduced leukemia in radiological, occurrence of, 21:26582
radioinduced leukemia in radiology, effects of age on incidence of x, 22:38490
radioinduced leukemia in x-ray, estimation of probability of, 24:32263
radioinduced leukemia in, effects of dose on x, 22:38440
radioinduced renal agenesia in offspring of female, x, 24:50820
radioinduced skin injuries in, and surgical repair procedures for, 21:1789
radioisotope hazards to, measures for reducing, 25:35099
radioisotope uptake by, measurements of thyroid and whole-body arsenic-74, cesium-137, iodine-125, iodine-131, sodium-22, metastable technetium-99, and xenon-133, 25:46840
radioprotection of, during fluoroscopy by use of television, 21:8824
radioprotection of, using cesium-137 teletherapy unit, 21:8823
requirements of Los Alamos Meson Physics Facility, 25:55299 (LA-4490)
responsibilities in relation to fallout hazards, 22:51606
responsibility of dental, for referral of patients with suspected post-therapeutic radiation injuries to oral surgeon or radiologist initiating therapy, 25:6715
role in radiation protection, 23:18036
role in radium-226 contamination incident in Iowa, 22:40700
role of, following thermonuclear blast, 21:13002
standards for performance of, during diagnostic x-ray examinations, 23:6476
standards for postattack performance of, at airfields, 22:4642
statistics on diagnostic, using x-ray equipment in USA as of June 1965, summary of, 24:2741
training courses for gynecology, in radiobiology and radiology, 23:41477
training for nuclear disaster situations, 24:25500
training for radiation protection, 24:12059
training for treating atomic warfare casualties, 22:45536
training for use of computers in calculations of radiation dose for therapy, 24:31995
training in radiology, legislation proposed for, 23:6459
training manual for nuclear, 25:24229 (BRH/DMRE-70-3)
training of dental, recommendations for increased training in radioprotective practices, 24:729
training of health physics, in nuclear medicine, 23:35701
training of nuclear, analog computer programs for, 24:14517
training of radiology, in relation to radiological health and safety of patients, model legislation proposing standards for, 25:16208 (BRH/ORO-70-8)
training of radiology, relation of, to radiation dose to patients during diagnostic radiography, 23:50720
training of x-ray technicians in North Dakota, 24:34348
training program for dental, in nuclear technology as used in life sciences, 21:12909
training program for radiological, 21:45736
training programs for care of personnel following accidents, 24:7885

training programs for nuclear, 25:60263 (BRH/DMRE-71-5)
training programs for nuclear, in Spain, 23:31832 (CONF-670649-5)
training programs for, in radiology, 23:43796 (DMRE-69-2)
use of film badges for protection of, 23:33734
utilization of available, for postattack treatment of mass casualties following thermonuclear explosions, 24:7910
work of first aid, following nuclear attack, discussion of organization of, 23:48081
Medical Research Reactor (MRR)
see Brookhaven Medical Reactor
MEDICAL SUPPLIES

book: Organization of First Aid and Rehabilitation of Utilities in Nuclear Attack (In Russian), 24:20940
catheter guidance system, superconducting magnet design for, 23:29075
conference on radiosterilization of, effectiveness of γ, 25:11327 (STI/PUB-247)
contamination of syringes with bacteria, effects of storage time on survival, 23:48293 (RISO-194)
counting of bacteria on, method for, 23:38911
decontamination using detergent solution and sound frequency vibrator, 25:29510
design of prototype heart catheter with avalanche detectors for in vivo measurements of krypton-85, 22:45281(R) (NYO-3246-TA-3)
evaluation of dental, autoradiographic technique for, 21:14683
manufacture of plastic, code of practice for control of, 24:32336
phosphorus-32 impregnation of arterial suture, in relation to development of thrombosis in dogs, 24:34148
radiation dose and build-up effect in plaster casts in relation to therapy, comparison of electron, γ, and x, 25:13539
radiation effects on collagen sponge, for use as hemostaticum and tampon, γ, 23:48312
radiation effects on physical and chemical properties of plastic syringes, sterilizing γ, 25:47080
radiation effects on physical properties of surgical sutures, sterilizing γ, 23:41343
radiation effects on solubility and tensile properties of silk sutures, effects of silicones on, 23:16455
radiation effects on tensile properties of catgut sutures, effects of alcohol, toluene, and xylene on, 23:16456
radiation effects on tensile strength of surgical sutures, 23:3001
radioactive contamination of, methods for removal of, 22:8530(T) (JPRS-42929, pp 331-58)
radiosterilization for use during eye surgery, γ, 22:52103
radiosterilization for use in artificial kidneys, γ, 21:26706
radiosterilization in Canada and United Kingdom using large radioisotope sources, 21:39149
radiosterilization in Canada, development of facilities for, 24:22903
radiosterilization in New Zealand, cobalt-60 γ, 23:24782
radiosterilization in UK, development of facilities for, 24:22902
radiosterilization in United Kingdom, development of facilities for, 25:55363
radiosterilization of, 21:28710
radiosterilization of, 22:23055
radiosterilization of, 22:12381
radiosterilization of, 22:36004
radiosterilization of, 23:11567
radiosterilization of catgut and mersilene fiber, test of tissue tolerance following, 23:48313
radiosterilization of catgut suture, γ, 22:52088
radiosterilization of catgut suture, γ, 24:34815
radiosterilization of catgut sutures, electron and γ, 22:52092
radiosterilization of catgut, review of fast electron, 22:15133
radiosterilization of cellulose, 23:35181
radiosterilization of disposable blood donor sets and syringe, relation of pretreatment count of bacteria to dose required for gamma, 23:38911
radiosterilization of disposable blood donor sets and syringe, 23:29922 (RISO-122)
radiosterilization of disposable plastic syringe, effects of dose on electron and γ, 22:52079
radiosterilization of disposable, cobalt-60 γ, 23:48311
radiosterilization of disposable, design of industrial γ facility for, 21:19855
radiosterilization of disposable, in Denmark, development of commercial facilities for, 24:22906
radiosterilization of disposable, performance of commercial cobalt-60-source facility for, 25:44491
radiosterilization of glass ampule, effectiveness of high dose γ, 25:42754
radiosterilization of homograft heart valves for use in man, effectiveness of γ, 25:42758
radiosterilization of ophthalmic, 24:32334
radiosterilization of packaged, of disposable plastic syringes, design of plant using cobalt-60 for, 21:9041
radiosterilization of plastic, 25:19161
radiosterilization of plastic materials used for, in repair of skin wounds in rabbits and rats, γ, 24:933
radiosterilization of plastic syringe, fast electron, 22:19463
radiosterilization of plastic, comparison of electron and γ, 24:32336
radiosterilization of plastic, effectiveness of, 25:47079
radiosterilization of polystyrene petri dish, effectiveness of cobalt-60 γ, 23:29950
radiosterilization of small plastic, γ, 22:52097
radiosterilization of Starr—Edwards prosthetic heart valve, γ, 22:52080
radiosterilization of surgical suture, effectiveness of γ, 23:3004
radiosterilization of surgical suture, γ, 22:52090
radiosterilization of surgical sutures, design of facility for, 21:10516
radiosterilization of Tygon tubing, for use in heart—lung by-pass machines, γ, 22:52081
radiosterilization of, activities of IAEA member nations in, 22:43498 (STI/DOC-10/72)
radiosterilization of, bacteriological evaluation of cobalt-60 γ, 22:23701
radiosterilization of, cobalt-60, 24:51119
radiosterilization of, code of practice of IAEA for, 22:52069
radiosterilization of, code of practice recommended by IAEA for, 22:52068
radiosterilization of, comparison of, with ethylene oxide sterilization, 22:52078
radiosterilization of, description of industrial methods for, 22:47297
radiosterilization of, design and economics of cobalt-60 facility for, 22:16744
radiosterilization of, design and operation of large commercial facility for, 23:26419
radiosterilization of, design of cobalt-60 facility for, 22:16741
radiosterilization of, design of facilities for γ, 22:52072
radiosterilization of, design of irradiation facility for, 21:41088(P)
radiosterilization of, design of linear accelerator facility for, 22:52073
radiosterilization of, development of commercial facilities for, 24:22904
radiosterilization of, development of commerical facilities for, 24:22905
radiosterilization of, dosimetry for electron and γ, 23:12254 (RISO-185)
radiosterilization of, dosimetry for γ, 22:28725
radiosterilization of, economic and performance of γ, 23:12258
radiosterilization of, economic aspects of, 24:6159
radiosterilization of, economics of, 23:13913
radiosterilization of, economics of γ, 22:52071
radiosterilization of, effectiveness and economics of ionizing, 24:51128
radiosterilization of, effectiveness γ, 24:27725
radiosterilization of, effects of dose and dose rate on, 25:21992
radiosterilization of, effects of environmental condition on sensitivity of contaminating microorganisms during, 25:11328
radiosterilization of, effects on arterial grafting on phosphorus-32 β, 24:34148
radiosterilization of, evaluation of multipurpose irradiation facilities for, 25:51668 (A/CONF.49/P-804)
radiosterilization of, facilities and economics for γ, 22:52074
radiosterilization of, facilities in United Kingdom for, 21:26708
radiosterilization of, feasibility of, 21:13092
radiosterilization of, γ, 22:52082
radiosterilization of, γ, 22:52087
radiosterilization of, IAEA program on, 22:6248
radiosterilization of, industrial aspects of accelerator and radioisotope radiation sources for, 24:22907
radiosterilization of, installations and sources for, 25:49330
radiosterilization of, New Zealand facility for, 22:48995
radiosterilization of, performance of threshold colorimetric dosimeter for use in, 23:50194
radiosterilization of, review of, 21:45851
radiosterilization of, review of, 21:1854
radiosterilization of, review of, 21:34843
radiosterilization of, review of conference on, 22:31310
radiosterilization of, review of criteria for, 23:48307
radiosterilization of, review of, γ, 22:15128
radiosterilization of, sensitivity of bacteria to accelerated particle, cesium-137 γ, and cobalt-60 γ, 25:16396
radiosterilization of, symposium on, 22:52064 (STI/PUB-157)
radiosterilization of, use of cobalt-60 source for, 21:13089
radiosterilization of, use of depleted uranium fuel elements as gamma source for, 23:2533(P)
radiosterilization on collagen-based surgical, effectiveness of cobalt-60 γ, 23:24776 (BMwF-FBK-68-55)
radiosterilization with cesium-137 and cobalt-60, 21:39146

research at Juelich Nuclear Research Center, 1967, 23: 40512(R) (NP-17718)
research at Juelich Nuclear Research Center, 1969, 25: 15964(R) (NP-18602)
research at Juelich, 1968, 24:27470(R) (NP-18083)
research at Kyoto Univ., Jan. 1—June 30, 1965, 23: 34491 (KURRI-TR-22)
research at Kyoto Univ., July 1—Dec. 31, 1965, 23: 34492 (KURRI-TR-25)
research at Laboratory of Nuclear Medicine and Radiation Biology, University of California, during January to July, 1968, 23:9842(R) (UCLA-12-686)
research at Lawrence Radiation Lab on, semiannual report, fall, 1968, 24:29776(R) (UCRL-18793)
research at Lawrence Radiation Laboratory, 24: 34030(R) (UCRL-19420)
research at LRL Berkeley, 1967, 23:39592(R) (TID-25098)
research at LRL, Berkeley, 1966, 23:36817(R) (TID-25097)
research at Nat. Inst. of Radiological Sciences, Japan, 1969—1970, 25:16278(R) (NIRS-9)
research at NIRS during fiscal 1968, summary of, 24: 39412(R) (NIRS-8)
research at Oak Ridge Associated Universities during 1969, 24:39539 (ORAU-110)
research by Cancer Research Committee of the University of Bristol, Great Britain, in 1968 on, 24: 2703
research by Christies Hospital and Holt Radium Institute, Great Britain, in 1968, 24:2710
research by Guy's Hospital Medical School, Great Britain in 1968, 24:2695
research by Institute of Cancer Research: Royal Cancer Hospital, Great Britain in 1968, 24:2693
research by King's College Hospital Medical School, Great Britain in 1968, 24:2696
research by Middlesex Hospital, Great Britain in 1968, 24:2694
research by North of England Council of the British Empire Cancer Campaign for Research in 1968, 24: 2709
research facilities for, design and use of radiochemical and reactor, 21:14682
research in applied and basic nuclear, in Egypt, 24: 44387
research in diagnosis and therapy, physical and technological progress in, 24:46639
research in engineering, review of UKAEA, 23:24689
research in nuclear, at Puerto Rico Nuclear Center, description of, 23:41365 (CONF-670338, pp 299-314)
research in nuclear, at University of California during January through June 1969, 23:48006(R) (UCLA-12-724)
research in nuclear, in Hungary, 25:52125 (A/CONF.49/P-324)
research in nuclear, in India, conference on, 25:24270
research in nuclear, objectives of, 24:9751 (CONF-690303-, pp 23-9)
research in nuclear, proceedings of Japanese society for, 23:48082
research in nuclear, progress report on 1970 Harwell, 25:46800(R) (AERE-PR/HPM-15)
research in nuclear, use of TRIGA reactor facilities in Germany for, 24:34485
research in Pakistan, 1967—1968, 24:36647(R) (NP-18125)
research in Poland, 23:45777(T) (TT-68-50006/5)
research in Poland in, 23:45778(T) (TT-68-50006/6)
research in veterinary, design of whole-body scintillation counter for, 21:22137
research in, Argonne Cancer Research Hospital, 23: 35813(R) (ACRH-31)
research in, development of electron-ring accelerator for, 22:46591 (UCRL-18103, pp 120-6)
research in, ethical considerations in human experimentation for, 21:32678 (CONF-661018, pp 208-12)
research in, use of computers for, 21:11002 (BNL-10722)
research in, use of computers in, 21:22535
research in, use of cyclotron for, 24:8782(T) (LIB/Trans-238)
research in, use of isochronous cyclotrons for, 21:46634
research in, uses of neutron activation in, 21:19555
research of British Empire Cancer Campaign for Research, 1968 annual report on, 24:2692
research on nuclear, 25:4415
research on nuclear, revew of literature on, 25:11209
research on surgical problems in, 24:16946
research on, review of AEC, 23:17316
research program in nuclear, use of computers in, 21: 10915 (BNL-10893)
research program in Philippines using neutron activation analysis, 25:2126 (IAEA-122, pp 37-40)
research program in, at Lawrence Radiation Lab, 23: 7934(R) (UCRL-18066)
research programs and training at Bhabha Atomic Research Center, India, 21:41292(R) (NP-16972)
research programs at Oak Ridge Associated Universities on nuclear, 25:42587 (ORAU-113, pp 78-133)
research programs of AEC during 1970 on, 25:44293 (TID-25728)
research programs on physics in, 25:21687 (CONF-700834-(Absts.))
research progress in, AEC, 25:26205
research progress on, 23:34956(R) (HMI-B-80)
research report on, at Atomic Energy Research Establishment, United Kingdom, 23:29459(R) (AERE-PR/HPM-13)
research studies at Univ. of California, Los Angeles, 1970 and 1971, 25:49080(R) (UCLA-12-815)
research studies in Poland, 23:41342(T) (TT-69-50007/2)
responsibilities of Division of Biology and Medicine of AEC in, review of, 22:51605
review of Atomic Bomb Casualty Commission research programs on, during July 1968 to July 1969, 25: 11237(R) (ABCC-68-69)
review of literature in nuclear, translation of Polish, 24: 46624(T) (TT-69-50002/4)
review of nuclear, in Poland, 23:12150(T) (TT-67-56003/5)
review of research in Poland in, 1967, 23:29559 (NEIC-RR-33)
review of use of radioisotopes in, 23:24503 (CONF-670649-25)
role of, in postattack recovery, 21:12842 (NP-16536)
rules for clinical and therapeutic procedures following accidental external irradiation or internal radioactive contamination, 25:18975 (CEA-N-1365)
space flight research in, 23:35633(T) (JPRS-47582)
stable isotope uses in, 24:6074
stable isotope uses in, 21:5989 (CONF-651081-)
stable isotope uses in, review of, 25:34813 (TID-25705)
surgery in, conference on, Chicago, Illinois, Oct. 1970, 25:21781
survey of x-ray equipment used in veterinary, in Alabama, 23:35764
system for emergency, following nuclear attack, computer simulation of, 23:50583 (CONF-671135-, pp 67-91)
technetium-99m activity measurements for uses in, 23: 45359
technical reports on, computer program for preparation of, 21:22481 (ORNL-TM-1693(Pt.5))
tracer techniques for research in, in Argentina, 25:51959 (A/CONF.49/P-563)
tracer techniques for use in, bibliography on, 22:43254
tracer techniques in, Canadian experiences with, 25: 52122 (A/CONF.49/P-161)
tracer techniques in, historical review of, 21:17785
tracer techniques in, historical review of, 21:17786
tracer techniques in, ICRU recommended nomenclature for, 22:31158
tritium uses in, effects of low-energy beta emission on, 22:51862
use of californium-252 for diagnosis and therapy in, methods for, 23:45801
use of lasers in, review of, 23:14235
use of lithium fluoride dosimeters in, 23:43766
use of neutron activation analysis in, review of advances in, 23:50262
use of radiation and radioisotopes in, in Japan, 23:12153
use of radioisotope-labeled drugs in, review of, 23:17915
value of periodic physical examination of personnel in nuclear industry, 23:50564
whole-body counter use in, 21:6545
x-ray equipment in dental, survey of, in West Germany, 25:26772
MEDITERRANEAN SEA
book: Radioecological Studies of the Mediterranean Sea, 25:8630
carbon-12/carbon-14 ratios in waters of, measurement of, 24:19115
cesium-137 distribution in waters and sediment cores from, measurement of vertical, 25:34759(R) (NYO-2174-129)
Elba Island albites and tourmalines from, argon/potassium dating of, 21:39036 (COO-689-76, App.A-VII)
fallout monitoring in western, γ spectrometric method for, 1961 to 1962, 21:19778
isotope content of rainwater near, effects of atmospheric transport processes on, 24:31498
manganese-54 content of marine invertebrates in, during 1966, effects of manganese on, 25:16124
movement of sand and sediment in, use of tracer techniques to measure, 21:24177
oceanographic research in, 22:191(T) (TT-66-51029)
plutonium-239 distribution in waters and sediment cores from, measurement of vertical, 25:34759(R) (NYO-2174-129)
radiation monitoring of organisms in, α and β, 24:34207
radioisotope content in waters of, April to July 1964 measurements of cesium-137 and strontium-90, 25: 15799(T) (AEC-tr-7214, pp 187-219)
radioisotope content in waters of, Aug. to Nov. 1963, 25:15800(T) (AEC-tr-7214, pp 227-48)
strontium-90 distribution in waters and sediment cores from, measurement of vertical, 25:34759(R) (NYO-2174-129)
uranium and minor metals distribution in bottom sediments of, 21:12542
Medium Power Reactor Experiment (MPRE-ORNL)

MEIOSIS
book: Nuclear Physiology and Differentiation, 23:43725
chromosome fine structure at various stages of, in tomato, 22:12180(R) (ORO-3348-2)
conference on control of genetics of, 23:6415
development of mutants affecting, in Drosophila, 22: 28401 (ORNL-4100, pp 54-61)
effects of stage of, on recombination frequency in γ-irradiated Chlamydomonas, 25:24122
effects of stage of, on x radiosensitivity of oocytes of silkworms, 25:42609
effects on x-radiosensitivity of chromosomes in testes of mice, 22:21480
gene recombination during, in uv-irradiated Saccharomyces, frequency of, 23:20168
radiation effects on allelic recombination during, in Chlamydomonas reinhardi, γ, 21:22383
radiation effects on chiasma frequency in, in grasshoppers, effects of temperature on x, 25:8754
radiation effects on Drosophila melanogaster sperm irradiated during, x, 21:24395
radiation effects on frequency of chiasma formation during microsporogenesis, in Lilium, γ, 21:24382
radiation effects on gene recombination in Chlamydomonas reinhardi during, cobalt-60 γ, 22: 49310
radiation effects on intragenic recombination during, in Saccharomyces, x, 25:16106
radiation effects on Kerala Coast plant, natural background, 25:39948
radiation effects on male germ cell, in Drosophila larvae and pupae, electron and γ, 21:18021
radiation effects on mosquito, methods for cytogenetic and genetic analysis of γ and x, 23:17993
radiation effects on rate of, in Pisum, x, 23:33680
radiation effects on ratio of translocations to recessive lethals in Drosophila, x, 21:10830(R) (TID-23414)
radiation effects on rice hybrid, γ, 21:24665
radiation effects on, in algae, effects of dose on photoreactivation of uv, 22:19310
radiation effects on, in cells of watermelon plants, γ, 23: 50433
radiation effects on, in cells of watermelon plants, γ, 23: 50430
radiation effects on, in cotton plants, combined effects of dimethyl sulfate on γ, 24:11967
radiation effects on, in Drosophila, x, 23:33813(R) (COO-1033-17)
radiation effects on, in embryonic tissues of cotton following pollen exposure, γ, 25:18955
radiation effects on, in female Drosophila, uv, 23:20167
radiation effects on, in haploid yeast cells, phosphorus-32 β, 22:23500
radiation effects on, in microspore mother cells of oak and pine, effects of dose on γ, 21:6725
radiation effects on, in mosquitoes, technique for studying γ and x, 24:21133
radiation effects on, in offspring of x-irradiated male mice, 21:10841
radiation effects on, in Petunia violacea, x, 23:2815
radiation effects on, in pollen mother cells of barley, squash technique for studying, 24:21132
radiation effects on, in pollen mother cells of wheat mutant, fast neutron, 21:30803
radiation effects on, in spermatogonia of mice, effects of dose on x, 21:45607
radiation effects on, in tobacco fast neutron and x, 22: 49303
radiation effects on, in Vicia faba, RBE for thermal neutron and α, 24:21131
radiation effects on, of Vicia faba, combined effects of FUDR on fast neutron, 22:21466
radioinduced anomalies of, in mutant peas, x, 24:25469
radioinduced anomalies of, in tomatoes, combined effects of colchicine on x, 24:25465
radioinduced changes in rate of, in apple trees, latent γ, 24:25450
radioinduced chromosome aberrations during, in Drosophila females, 21:30869 (ORNL-P-3077)
radioinduced chromosome aberrations during, in mouse spermatocytes, x, 21:8770
radioinduced chromosome aberrations during, in pupae of Drosophila, in relation to crossing-over in males, x, 22:17011
radioinduced chromosome rearrangement during, in mouse spermatocytes, x, 21:14751
radioinduced delay of, in barley in relation to mutagenesis, 25:21672
radioinduced inhibition of, in chickens, x, 22:31019
radioinduced inhibition of, in Paramecium, uv, 21:14776
radioinduced recombination during, in Drosophila melanogaster, uv, 24:2632
radiosensitivity of, in corn pollen, γ, 21:6714
stage in uncleaved eggs of Drosophila, effects of, on x-radiosensitivity, 24:21128
stage of, effects on chromosome aberrations in oocytes of γ-irradiated Drosophila melanogaster, 24:41860
stage of, effects on radiosensitivity of chromosomes in Drosophila, 24:21135
stage of, effects on x-radiosensitivity of mutagenesis in Habrobracon, 24:21134
stimulation in hamster oocytes in vitro, 24:41798 (BRH/DBE-70-1, pp 173-204)
MELAMINE
effects on genetics of barley, 21:18181(R) (COO-332-1)
fiberglass—melamine, radiation effects on electric properties of, used as insulating material in superconducting magnets, gamma, 23:42787 (BNL-50155(Pt.3), pp 967-1132)
fiberglass—melamine, radiation effects on mechanical properties of, used as insulating material in superconducting magnets, gamma and neutron, 23: 42787 (BNL-50155(Pt.3), pp 967-1132)
formaldehyde—melamine, radioinduced curing of prepolymers of, in presence of chlorine-containing additives, 23:26286
MELAMINE, N^4,N^6-BIS(p-2-IMIDAZOLIN-2-LYPHENYL)-N^6-METHYL-
hydrochloride, effects on radiosensitivity of bacteria, 21: 20451
MELAMINE, TRIETHYLENE-
effects of injected, on metabolism of DNAses and phosphatases in rat kidneys in comparison to whole-body x radiation, 25:26645
effects of therapeutic use of, on human chromosomes, 21:14626
effects on activity of deoxyribonuclease in rat tissues, 21:8690
effects on chloroplast pigments in barley, mutagenic, 22: 25801(R) (COO-332-2)
effects on chromosomes in leukocytes of man, aberrant, 21:45606
effects on chromosomes of Drosophila melanogaster, in comparison to x radiation, aberrant, 23:31714

effects on content of deoxyribonucleic acid in rat tissues, 21:8690
effects on cultured mammalian cells, mutagenic, 22:28289 (ORNL-4100, pp 178-201)
effects on Dictyocaulus viviparus larvae, immunity in vaccinated calves following attenuating, 25:26918
effects on Dictyocaulus viviparus larvae, immunity in vaccinated calves following attenuating, 25:26919
effects on DNase II activity, combined effects of HN3 and x radiation with, 21:20081
effects on Escherichia coli, mutagenic, 22:28404 (ORNL-4100, pp 97-103)
effects on growth of pea roots, combined effects of x radiation with, 21:16528
effects on γ and x radiosensitivity of retinoblastomas in man, 24:4662
effects on incidence of lymphomas and x-radiosensitivity of mice, 22:28289 (ORNL-4100, pp 178-201)
effects on incidence of myeloid leukemia and thymic lymphoma in mice, 21:22681
effects on mitosis in Spathidium spathula, 23:38755
effects on mouse bone marrow stem cells in relation to spleen colonization in x-irradiated recipient mice, 24:9784
effects on phosphatase content, protein content, and weight of chicken embryos in comparison to x radiation, 25:24055
effects on rat liver of injected, additive effects of whole-body x irradiation on, 21:22664
use for treatment of retinoblastomas in man in combination with radiation, 24:27650
use in cancer therapy combined with radiation, 23:16350
use to induce mutations in Paramecium, effects of mitosis on, 21:16324
use to induce mutations in screw-worm flies, 21:14625
MELANIN
determination of carbon-14-labeled, by liquid scintillation counting, 22:37688
dispersion in melanocytes of fish, combined effects of D_2O, pressure, and temperature on, 22:19273
effects of, content on frequency of skin cancer, review of, 21:12992
effects on laser-radiosensitivity of cells, 22:12783
effects on laser-radiosensitivity of skin of hamsters, man, and rabbits, 22:12784
effects on oxidation of NADH, effects of phenothiazine on, 22:51308 (ORAU-106, pp 171-93)
effects on uv-radiosensitivity of human skin, 23:26944
effects on uv-radiosensitivity of mitochondrial enzymes in mouse liver, 21:26339
effects on x-radiosensitivity of hepatic melanocytes of Amphiuma, 22:21580
formation in γ and uv-irradiated Nadsoniella nigra, effects of ascorbic acid on, 24:32271
formation in newts transplanted with γ-irradiated pituitary glands, 23:50852
laser energy absorption by, in dermal melanomas and nevi, 21:18132
metal ion incorporation in tissues containing, use of barium-140 and radium-226 to study, 21:45542
radiation absorption by, of human retina, laser, 22:28698
radiation effects on content in fibrotic tissues of melanomas of animals and man, laser, 21:18082
radiation effects on content of, in cells of skin of mice, 22:33937
radiation effects on content of, in epidermal cells, uv, 22:49179(R) (ORO-3578-4)
radiation effects on content of, in hair of mice, x, 22:49506
radiation effects on content of, in lysosomes of epidermal cells in human skin, uv, 21:39486 (ORO-3578-1)
radiation effects on content of, in melanocytes of melanomas in mice, uv and x, 22:49196
radiation effects on content of, in muscles of mice, x, 22:49510
radiation effects on content of, in skin of man, therapeutic x, 22:45458
radiation effects on development of, in human skin, effects of methyldopa on uv, 22:49240
radiation effects on formation of, in human skin, uv and visible light, 21:43508
radiation effects on formation of, in human skin, uv, 21:26580
radiation effects on population of cells forming, in skin of man, combined effects of methyldopa on uv, 22:21622
radiation effects on production of, in human skin, combined effects of phenothiazine on uv, 22:4672
radiation effects on reactions of, with diphenylpicrylhydrazyl in comparison to effects of chloroquine or cupric ions, uv, 23:9883
radiation effects on, in hamster skin, laser, 21:12931
radiation effects on, in human skin, 21:4880
radiation effects on, in skin of man with urticaria pigmentosa, 23:31867
radioinduced formation of, in human hair roots, 24:8011
radioinduced formation of, in skin, uv, 21:34753
radioprotective effects of fungus, on Penicillium lilacinum, method for testing, 25:46898
radioprotective effects of, on activity of amylase, RNAase, and trypsin in simulated Martian environment, uv, 23:35634(T) (JPRS-47582, pp 36-45)
radioprotective effects of, on cells, uv, 23:12185
radioprotective effects of, on enzyme activity in mice, uv, 21:30787
radioprotective effects of, on melanoma cells in mice, x, 25:29568
radioprotective effects of, on melanosomes isolated from mouse melanomas, uv, 22:36182
use of carbon-14- and iodine-131-labeled precursors of, for localization of melanomas, 22:19362
MELATONIN
effects on iodine-131 metabolism in thyroid glands of rats, 22:30977
effects on lipid peroxidation in rat testis, 23:31640 (COO-1602-14)
radiation effects on synthesis of, in pineal glands in rats, x, 25:13559
radiation effects on synthesis of, in rats, effects of light intensity on x, 24:39548 (COO-1602-18)
radiation effects on synthesis of, in rats, protective effects of light on x, 24:51048
Meleagris
see under Aves
Melekess Power Reactor
see VK-50 Reactor
MELLITIC ACID
radioprotective effects of, on mice, x, 23:50624
Melitoxin
see Bishydroxycoumarin
MELPHALAN
effects on actinophages, mutagenic, 22:49295
effects on bone marrow of rats combined with x radiation effects, 24:34710
effects on enzyme activity of rabbits and rats, comparison of, to radiation effects, 22:49239
effects on liver carcinomas of rats, combined effects of x radiation on therapeutic, 24:34706
effects on proliferation of cultured antigen-stimulated spleen cells from mice, dose-response curve for, 23:50820
effects on x-radiosensitivity of ovarian cancer in man, 22:8572
effects on Yoshida sarcoma in rats, protective effects of pretreatment with cysteine against cytotoxic, 21:34724
MELTING
see also Casting
see also Furnaces
chemothermic method for calcinated radioactive waste, underground, 22:2331(T) (JPRS-42565, pp 56-66)
conference on electron-beam, 24:25658
determination of metal, use of surface spray from explosively accelerated metal plates for, 24:2912 (AWRE-O-56/69)
equipment and method for refractory metals floating zone, 23:12288
equipment and methods for refractory metals, 23:27041
induction methods of, for refractory materials, 21:18314(P)
method for alloys and metals, levitation, 22:21669 (ANL-7398)
method for reactor materials, review of, 22:12956
method for refractory metals using point-focus electron beams, 22:663
methods for fabrication of reactor materials, review on, 24:44687
methods for reactor materials fabrication, review of, 22:217
model of liquid metal pools in arc, 23:29975 (BM-RI-7151)
stippling method for refractory material, without using crucibles, 24:17233(T) (SC-T-70-4008)

MEMBRANE FILTERS
design for removal of cell-free Streptococcus faecalus from bacteria cultures in fermentation tank, 23:49996 (UCRL-18667, pp 322-9)
design of cascade, for rare gas separation from reactor atmospheres, 21:7890 (ORNL-P-2531)
economics of noble gas fission product removal by, 21:27692 (ORNL-TM-1822)
effectiveness for krypton and xenon removal from air of methyl phenyl silicone rubber, 23:33068(R) (ORNL-TM-2588)
effectiveness for krypton and xenon removal from air of methyl phenyl silicone rubber, 23:33066(R) (ORNL-4374)
effectiveness for krypton and xenon removal from air of methyl phenyl silicone rubber, 23:33067(R) (ORNL-TM-2533)
effectiveness for stainless steel oxide—uranium oxide (UO_2) aerosols, 24:4074(R) (ORNL-TM-2283)
effectiveness for stainless steel oxide—uranium oxide (UO_2) aerosol, 24:4076(R) (ORNL-TM-2425)
effectiveness of krypton and xenon removal from air by methyl-phenyl silicone rubber, 23:17235(R) (ORNL-TM-2479)
effectiveness of methyl phenyl silicone rubber, for krypton removal from air, 24:4075(R) (ORNL-TM-2368)
effectiveness of methyl phenyl silicone rubber, for krypton and xenon removal from air, 24:4076(R) (ORNL-TM-2425)
efficiency for removal of krypton from off gases from spent fuel reprocessing, 23:7660 (JAERI-1167)
efficiency of fibrous, for radon decay products in air, 22:27580
efficiency of molecular sieve-type, for sampling tritiated water vapor in air, 25:54798
efficiency of silver-impregnated sieve, for removal of fission product iodine from reactor coolants, 24:14226 (KFK-1065)
flow of superfluid helium through Millipore, 23:3398(R) (COO-1569-32)
performance for free-air measurements of radon decay products, 24:32002
performance of methylphenyl silicone rubber, for krypton and xenon removal from gas streams, 25:48290(R) (ORNL-TM-2663)
performance of permselective, for removal of rare gases from off-gas streams, 25:29317 (ORNL-4522)
performance of, effects of hydrodynamic boundary layer and fouling on, 25:37213 (ORNL-TM-3296)
performance of, for scintillation counting, 21:15872
permeability of, effects of carrier gas on, 22:27416(R) (ORNL-4228)
permeability of, effects of pressure variation on, 22:27416(R) (ORNL-4228)
preparation of combined polyvinyl chloride and millipore, for sampling radioactive aerosols, 25:16141 (SZS-17/70)
preparation of molecular sieves for use as catalysts, 21:45081(R) (NYO-1158-21)
production of controlled-pore, by etching dielectric strips using fission fragments, 25:791(P)
properties of dynamically formed, for hyperfiltration, 21:24068 (ORNL-P-2961)
properties of dynamically formed, for hyperfiltration in desalination studies, 21:45087 (ORNL-4164, pp 57-82)
reactions of, 22:35775(R) (NYO-1158-25)
Single Antibody Millipore, use for radioimmunoassay of immunoglobulin in human cord serum, 24:50778
sorptive properties for carbon dioxide, iodine, and nitrogen, 23:28940 (BMwF-FBK-69-12)
sorptive properties of molecular 5A and 13X, for krypton at -101 to -184°C, 25:23644 (BNL-50254)
testing for protein solution desalting and concentration, 24:43895(R) (ORNL-TM-3001)
use in cryosorption pumping of helium at 4.2°K, 21:6186
use in hyperfiltration, 21:45207 (ORNL-4145, pp 269-74)
use in separating noble gases from air, 22:2323(R) (ORNL-TM-1887)

analysis of purified, for trace elements by neutron activation, 25:37403 (ANL-7770, pp 55-75)
ATPase activity in uv-irradiated, 22:23437
binding of radiocalcium and radiochlorine in cuticular, of onion leaves and tomato fruit in relation to ectodesmata, 23:35623
cation transfer through, tracer studies on kinetics of, 25:49073(P)
damage in blood brain barrier in man induced by cerebral angiography, 21:43484
determination of blood-cerebrospinal fluid barrier in man using mercury-197-labeled chlormerodrin, 21:24351
diffusion through, effects of hyperosmotic solutions on, 24:31185(R) (RLO-1754-20)
effects of internal structure of, on separation of uranium isotopes by gaseous diffusion, 23:26323 (CEA-CONF-1271)
hyperfiltration with dynamically formed, effects of additives on, 23:103 (ORNL-4306, pp 73-105)
interaction of lymphocyte, role of, in potentiation of transformation, 23:38453 (ACRH-1000-137)
ion transport through, 21:36483
isolation of cell, using zonal centrifugation, 23:22189(R) (ORNL-4273(Summ.))
material transfer through, ideal tracer theory for, 25:60261 (BNL-50299)
mobility of iodine-131-labeled normal globulin in rats, immunological analysis of, 21:26337
motion of elasto-plastic, under shock loading, method for calculation of, 24:5847 (ORNL-TM-2755)
permeability and transport processes of, at cellular and molecular levels, mechanisms controlling, 21:11002 (BNL-10722)
permeability for radioisotopes, kinetic analysis of, 22:40611
permeability for radioisotopes, kinetic analysis of physical factors affecting, 22:40610
permeability of mouse, effects of cystamine and 5-methoxytryptamine on, 21:36649
permeability to carbon-14-labeled glucose and sucrose, effects of electroosmosis and indoleacetic acid on, 22:10681
preparation and uses of cellulose, 24:44078
preparation of semipermeable, for desalination of sea water, 21:19755(P)
properties of cellophane, 23:40676 (BNL-50149, pp 40-75)
properties of electrodes of multilayers of, 21:42915(R) (NYO-2279-3)
properties of ion permselective, for potentiometric studies, 25:28956
properties of various plastic, for on-line alpha activity monitoring of solutions, 25:34673 (CEA-N-1440)
radiation effects on biological, mechanism for, 25:35210
radiation effects on cation permeability of, in lens of rabbit eyes, β and x, 23:29752
radiation effects on electrical activity of, use of, to determine structural relationship of sodium-potassium activated ATPase system, uv, 22:23436
radiation effects on excitability characteristics of, monochromatic uv, 22:23440
radiation effects on function of, in rabbits, phosphorus-32 study of x, 21:20335
radiation effects on lysosomal, of rat liver cells, uv, 23:9861
radiation effects on lysosome, in animal cells in relation to carcinogenesis and radiation injury, γ, 24:41767
radiation effects on model phospholipid, x, 25:34625
radiation effects on molecular structure of, monochromatic uv, 22:23440
radiation effects on nuclear, in salivary gland cells of butterfly larvae, 23:50355
radiation effects on permeability of Escherichia coli cell, γ, 23:6622
radiation effects on permeability of polyethylene, γ, 24:33709
radiation effects on permeability of rat, chronic, low-dose γ, 21:34765
radiation effects on permeability of, in man, x, 21:34694
radiation effects on permeability of, of animal and plant cells, ionizing, 23:29366
radiation effects on permeability of, of diploid and haploid yeast cells, uv and x, 23:6617

radiation effects on permeability of, of Ehrlich ascites tumor cells in cultures, protective effects of cysteamine and 2-amino-3-methyl-butanethiol against electron and x, 25:4568
radiation effects on permeability of, of mitochondria and nuclei, protective effects of esculamine against, 25:16226
radiation effects on permeability of, of mouse ascites carcinoma cells, to potassium ions, electron and x, 23:50817
radiation effects on sodium content of, of human erythrocytes, effects of chemical alterations on acute γ, 23:2857
radiation effects on transport processes of, electron, 22:33716(R) (UCB-34-P-136-2)
radiation effects on, in animals, 21:22602
radiation effects on, in mitochondria of intestinal epithelial cells in mice, cobalt-60 γ, 23:50816
radiation effects on, of guinea pigs, electron, γ, and x, 21:45797
radiation effects on, of mice, effects of acetylcholine and histamine following, 22:51968
radioinduced effusions of pericardial, following exposure during therapy, electron and γ, 24:2752
radioinduced production by graft polymerization of vinyl acetate on polyethylene powder, properties of γ, 23:4649
radioisotope diffusion across, comparison of calcium-45 and strontium-90, 23:22176(T) (AEC-tr-6944, pp 222-6)
radioisotope diffusion through blood-brain, in relation to distribution in brain tissues of cats, 25:492
radioisotope permeation of biological, kinetics of, 25:51974
radioisotope uptake through tissue, in guinea pigs and rabbits, effects of injection of hyaluronidase on iodine-131, sulfur-35, and thallium-204, 23:45638
radiosensitivity of duodenum crypt cell, in mice, x, 25:4587
radiosensitivity of Ehrlich ascites tumor cell, effects of excess oxygen and synkavit on electron and x, 25:4568
radiosterilization of dialysis, for use in artificial kidneys, γ, 21:26706
sensitivity of postjunctional, in muscle-nerve preparations in vitro, effects of uranyl ions on, 23:2780
sorptive properties of hydrous oxide—poly(acrylic acid), for sodium chloride, 24:48066 (ORNL-4581, pp 90-130)
stability of elasto-plastic, effects of shock loading on, 25:42506(R) (ORNL-4566(Pt.1))
stability of lysosomal, in rat liver cells, effects of drugs on, 23:9861
standard for seal, 25:41974 (RDT-M-9-2-T)
strontium-85 transport through intestinal epithelial, in rats, reaction mechanisms for, 25:10938
structure of biological, freeze etching studies of, 25:48423(R) (UCB-34-P-142-1)
support of dynamically formed, development of configuration for, 23:103 (ORNL-4306, pp 73-105)
toxicity of uranyl ions to cell, mechanisms in, 23:41201 (UR-49-1088)
MEMORY DEVICES
cycle-allocation disciplines for multiaccess, 25:10408 (UCRL-72648)
data input distribution for content addressable systems, method of pair selection for, 21:20010
data input for, effect of pulsed, 22:33689 (ZfK-121, pp 1-133)
description of flexible magnetic disc, for nuclear data, 23:14087
description of high-speed magnetic-chip, in scanning robot for measurement of bubble chamber particle tracks, 25:18780
description of large-capacity IBM Photostore, at LRL, 25:51936 (UCRL-73251)
description of modular ferrite-core, for data acquisition and processing systems, 23:21331 (MIT-952-5(Pt.1), pp 200-314)
description of MOSFET, for nuclear instrumentation, 22:23367
description of multistage delay line, for decreasing dead time of multichannel pulse analyzers, 22:10643
description of plasma echo and spin echo holophones, for information storage in collisionless plasmas, 25:25174
description of satellite-borne magnetic core, for pulse-height analyzer system, 24:39395
description of superconducting, and their development, 25:19637
design and operating conditions of superconducting continuous film, having nondestructive readout, 22:31738
design and performance of superconducting continuous film, 22:31737
design for storing spectra from twenty radiation detectors in multichannel analyzers, 21:32539
design of analog, for multiparameter analysis, 23:33550 (CEA-CONF-1234)
design of associative, for mass storage through array organization, 25:8141 (BNL-14519)
design of buffer, for time-of-flight neutron spectrometers, 22:28144
design of computer, with scanning electron beam, 25:476(P)
design of ferrite-core, for multichannel analyzers and data processing systems, 22:33689 (ZfK-121, pp 1-133)
design of interface, for computer memory extension, engineering drawings for, 23:11390
design of large cryotron, 21:3788
design of magnetic drum, for PDP-8 computer, 21:39188(R) (RISO-M-534)
design of scan converter storage tube, using electron bombardment induced conductivity target system, 22:21007 (SC-TM-67-2978)
design of superconductive continuous film memory cell for associative, 22:12702
development of fast pulse-height, for determining half lives of isomers in millisecond range, 22:47402 (NYO-3664-10)
development of large associative, for use in nuclear physics research, 22:16928 (CEA-R-3394)
development of lead titanate—lead zirconate optical, 22:6223 (SC-R-67-1219)
magnetic flux trapping in continuous film, measurement of, 21:4651
operation of coincident-current ferrite-core, for optimal performance, 22:33689 (ZfK-121, pp 1-133)
operation of computer, using light pencil and cathode-ray tube, 21:22208
operational characteristics of 100-MHz ultrasonic glass delay line, 25:46400 (SC-DR-710169)
parameters of ferroelectric, 24:33605 (SC-RR-69-384)
performance of analog, for multichannel pulse height analysis, 22:47405 (UUIP-596)
performance of cryoelectric arrays, dynamic fault tolerance in, 22:29392
performance of cryoelectric content-addressable, using flux-shuttling nondestructive readout, 22:29389
performance of magnetic sheet, for radioisotope scanning, 23:33422
performance of Mo—Permalloy twistor-type, effects of fabrication on magnetic and switching, 23:12305
pulse measurements on superconducting layers of, 22:2984
readout method for superconductive, flux shuttling, 22:11350
size of two-dimensional associative, use of local linear transforms for reduction of, 22:28243
storage capacity in content addressable system, efficient use of, 21:20009
storage capacity in, method of increasing, 22:10645
superconducting continuous-sheet, tolerance analysis of, 21:2183
use of buffer storages for increasing resolution of pulse counting equipment, 21:705 (AD-634481)

bibliography, 22:24860 (TID-3317)
book: Heavier Than Uranium, in Russian, 23:47426
chemical properties of, 22:10255
chemistry of, review on, 23:15865
determination of, methods for, 22:23114
distribution in tetrabutyl pyrophosphate in mixture with mineral acids or tetrabutyl hypophosphate, chromatographic studies on, 22:27853 (INP-591/C)
oxidation from trivalent state, using sodium bismuthate, 22:10255
oxidation potential for trivalent—tetravalent, 25:57437
oxidation state of, divalent, 24:13734 (ORNL-4466, pp 12-25)
production and separation of, review of, 22:6363
production of, 23:19697
reduction from trivalent to divalent, using various elements, 22:10255
reduction of trivalent, by various metal chlorides in hydrochloric acid, 23:15934
separation ffrom sodium acetate solutions by extraction into sodium amalgam, 23:15934
separation from acetate solutions of actinides using sodium amalgam, effects of oxidizing agents on, 23:17529
separation from einsteinium and fermium by electrolysis, 23:49772 (UCRL-18667, pp 277-312)
separation from einsteinium and fermium by extraction chromatography using bis(2-ethylhexyl) phosphate, 24:2286
separation from einsteinium by extraction using sodium amalgam, 22:37718 (UCRL-17989, pp 181-252)
separation from einsteinium, electrolytic, 22:156
separation from heavier actinides by extraction into sodium amalgam or electrodeposition method, 23:15934
separation from sodium acetate solutions by extraction using sodium amalgam, 22:156
separation from sodium acetate solutions by solvent extraction using sodium amalgam, 23:49772 (UCRL-18667, pp 277-312)
separation of, methods for, 22:23114
stability of divalent state of, 23:49772 (UCRL-18667, pp 277-312)
structure of, valence electron, 21:45135

MEPASIN
HNO_3—mepasin—TBP, radiolysis of, effects of additives on γ, 25:46522
mepasin—TBP, radiolysis of, effects of nitric acid on reactor, 25:54644
MEPERIDINE
use for treatment of radioinduced diarrhea in human patients following therapy, x, 23:50645
MEPHENYTOIN
effects on irradiated mice, 23:26869 (AD-672740)
radiation effects on anticonvulsant activity of, in mice, combined γ and neutron, 23:2917 (AFRRI-SR-68-10)
radiation effects on toxicity of, to mice, combined γ and neutron, 23:2918 (AFRRI-SR-68-12)
MERALLURIDE
effects on concentration of mercury-197-labeled chlormerodrin in tissues of mice, 25:16236
effects on retention of mercury-203-labeled chlormerodrin in kidneys following use for brain scanning, 22:31134
MERALLURIDE SODIUM
effects on calcium excretion by man, 21:26435
effects on strontium-85 excretion by man, 21:26435
Mercamine
see Cysteamine
Mercaptans
see Thiols
MERCAPTO (HS)
abundance of interstellar, upper limits for, (E), 25:35697
MERCAPTO GROUP
binding in HeLa cells, effects of, on radiosensitization by NEM, 24:48590
conference on radiation protection by compounds containing, 24:12103 (STI/PUB-221)
conference on radioprotective effects of, 24:12103 (STI/PUB-221)
content in ascites tumor cells of rat, effects of ATP on, 21:24458
content in Ehrlich ascites carcinomas and in mouse tissues, effects of radioprotective agents on, 21:18076
content of ascites cells, effects of, on radiosensitivity, 24:34583
content of ascites hepatomas in rats, effects of, on x radiosensitivity and sensitivity to nitrogen mustards, 22:31272
content of ascites tumor cells, effects on x-radiosensitivity, 22:40781
content of bone marrow cells of mice, effects of radioprotective compounds on, 23:4976
content of bone marrow of mice, effects of anoxia, cysteamine, and 5-methoxytryptamine on, 22:28610
content of bone marrow, effects of, on x-radiosensitivity of survival in rats, 22:19393
content of cultured hamster cells, effects of cell cycle on variations in, 25:37857 (ANL-7770, pp 76-100)
content of Escherichia coli, effects of cysteine on, 23:8033
content of Escherichia coli, effects of cysteine on, 22:43361
content of HeLa cells in relation to x-radiosensitivity, 24:32150
content of non-protein, in mammalian cells, effects of, on radiosensitivity, 23:38491
content of non-protein-bound, in ascites cells, effects of AET, cysteamine, and glutathione on, 22:45615
content of nonprotein and protein-bound, in serially transplanted, x-irradiated Ehrlich ascites cells, effects of, on radiosensitivity, 23:43847
content of nonprotein, in tissues of mice following injection of cystamine in optimum radioprotective doses, 25:11101
content of spleen in γ-irradiated mice, effects of radioprotective compounds on, 22:33848
content of spleen of mice, effects of aminothiols, anoxia, and serotonin on radioprotective effects of, 22:25889
content of tumors, relation between radiosensitivity and, 25:29610
effects on γ-radioinduced breaks in DNA of T4 and T7 bacteriophages, 24:34777
effects on γ-radioinduced mutations in oxygen-free solutions of bacteriophage phi X 174 DNA, 22:25782
effects on γ-radiosensitivity of survival in Escherichia coli, 22:40967
effects on intestinal blood vessels, effects of, on staining reactions of intestinal tissues, 23:29583
effects on lymphocytes, comparison of, with x ray, 23:908
effects on mitosis and nucleic acid synthesis, 24:12123
effects on mitosis and nucleic acid synthesis, 24:12123
effects on natural radiosensitivity, bibliography on, 22:19372
effects on radiosensitivity of proteins, 21:36497
effects on x radiosensitivity of HeLa cells, 25:16279 (NIRS-9, pp 15-53)
effects on x-radioinduced inactivation of phosphofructokinase, 23:29384
effects on x-radiosensitivity of DNA, mechanism of, 22:12824
effects on x-radiosensitivity of Micrococcus radiodurans, 25:35263
preparation of boron compounds incorporating, for use in neutron capture therapy, 25:571
radiation effects on activity of, in tissues of inner ear of guinea pigs following skull exposure, x, 24:27706
radiation effects on binding of, by p-hydroxymercuribenzoate, in bacteria, uv and x, 21:39445 (NYO-3319-11)
radiation effects on binding of, to lysosomes of rabbit leukocytes, γ, 22:51406
radiation effects on content in solutions of rhodopsin, ionizing, 21:16447(T) (JPRS-38272, pp 189-90)
radiation effects on content of albumin and globulin fractions of, in human serum following post-surgical therapy of mammary cancer, 25:42270
radiation effects on content of free radicals of, in blood plasma and urine of man, 21:14750
radiation effects on content of non-protein, in Ehrlich ascites tumor cells, effects of oxygen on x, 22:36162
radiation effects on content of non-protein, in Ehrlich ascites tumor cells in mice, x, 23:45872
radiation effects on content of nonprotein-bound and protein-bound, in Ascites tumor cells, x, 21:12791
radiation effects on content of protein, in rats, ionizing, 22:51485
radiation effects on content of, in ascites tumor cells, effects of repeated exposure on, 22:6741
radiation effects on content of, in axolotl extremities, effects of regenerative capacity on x, 21:26660
radiation effects on content of, in bacteria, x, 23:8090 (NYO-3319-19)
radiation effects on content of, in cellular organelles of liver from rats, electron, 22:19247
radiation effects on content of, in disrupted yeast cells, effects of dose on x, 21:32575
radiation effects on content of, in erythrocyte membrane, x, 22:23451
radiation effects on content of, in guinea pig skin, x, 23:50347
radiation effects on content of, in heart of rats, x, 22:12808
radiation effects on content of, in histones from thymic nuclei of rats, 21:18150
radiation effects on content of, in homogenates of cervical carcinomas, 24:34132
radiation effects on content of, in human blood serum following therapy of esophageal cancer, effects of dose and dose fractionation on, 24:34128
radiation effects on content of, in human skin, 100 to 1000 R x, 24:34646
radiation effects on content of, in human skin, x, 24:32190
radiation effects on content of, in liver and spleen of rats, x, 23:7929 (INR-921)
radiation effects on content of, in lymphosarcomas and ovarian tumors in relation to tumor radiosensitivity, 24:34127
radiation effects on content of, in mangoes, γ, 23:48303 (UH-235-P-5-4, pp 143-51)
radiation effects on content of, in Micrococcus radiodurans in relation to binding of p-hydroximercuribenzoate and radiosensitivity, x, 24:34799
radiation effects on content of, in plasma of guinea pigs and rats in relation to proteinemia, x, 23:12017
radiation effects on content of, in proteins of cell nuclei of rat liver, x, 24:11970
radiation effects on content of, in proteins of hen eggs, x, 22:23439
radiation effects on content of, in radiosensitive and radioresistant lines of ascites cells, x, 24:9771
radiation effects on content of, in rat cell proteins in relation to sensitivity of transplanted tumors, 25:42618
radiation effects on content of, in skin of guinea pigs, effects of etonium on, 24:32049
radiation effects on content of, in spinal cord of cats, 24:9766
radiation effects on content of, in tissues of ducklings, uv and/or x, 25:29647
radiation effects on content of, in tissues of rats, 25:24363
radiation effects on content of, in tissues of rats following therapeutic intraperitoneal injection of colloidal gold-198 and yttrium-90 silicate, 24:48704
radiation effects on content of, in tumors, protective effects of hypoxia against, 24:34417
radiation effects on reactions of, in spleen of mice, whole-body 800R x, 24:21081
radiation effects on synthesis of, in rat liver during regeneration following prolonged exposure, comparison of effects of testosterone with x, 25:46730
radiation effects on, ESR studies of x, 24:4560(R) (NYO-910-121)
radiation effects on, in membranes of erythrocytes of man, x, 22:23426
radiation effects on, in tissues of rats fed chloroquine, uv, 21:16400
radiation protection mechanism for, theoretical and experimental evaluation of, 25:24210
radiation protection mechanisms for, carbon-14 tracer study of, 24:34388
radioinduced production of, from human thyroglobulin, uv, 23:14119
radioprotective effects of chemical containing, on mammals, review of, 23:8024
radioprotective effects of compounds and derivatives of, 21:1773 (SZS-5/66)
radioprotective effects of compounds containing, mechanisms of, 25:19021
radioprotective effects of, against DNA breaks in mammalian cells, x, 25:16217 (UR-49-1389)
radioprotective effects of, in biological fluids, review of, 22:31181
radioprotective effects of, on animals, review of, 22:23601
radioprotective effects of, on biological materials, review of, 22:12867
radioprotective effects of, on free radical damage in nucleic acids, 24:50709 (UCLA-12-789)
radioprotective effects of, on growth of mungo beans and peas, x, 22:21549
radioprotective effects of, on tissues of tomato plants, γ, 22:51832
radioprotective effects on rats, 25:35213
radiosensitivity of content of, in beans and clover, effects of dose and seed exposure on γ, 24:34133
reactions of free radicals with compounds containing, in aqueous solutions, applications of chromatography, ESR measurements, and pulse radiolysis in studies on, 23:9844 (UCLA-12-686, pp 67-84)
reactions of radiolytic, with hydrogen disulfide and organic compounds, rate constants for, 24:13982
reactions with radiolytic free radicals, role of oxygen in, 24:31432
release from tumor cells following therapy with cytotoxins, application of, to radiotherapy, 24:12125
role in biological radiation damage, progress report on kinetics of, 25:49100(R) (USC-113-P-21-X-5)
role in radiation damage and radiation protection processes, 24:36209(R) (USC-113-P-21-X-2)
role in radioinduced inactivation of enzymes, 24:6008
role in recovery of human erythrocyte membranes following x irradiation, 22:49276
role in x radiosensitivity of cultured monkey cells, 25:44883
role in x radiosensitivity of isocitrate dehydrogenase in vitro, 25:42299
spectra of deuterated and normal, in photolysis products of hydrogen sulfides, 21:1365
yields from electron pulse radiolysis of gaseous hydrogen sulfide, 24:13982
Mercaptoethylamine (MEA)
see Cysteamine
Mercazole (R)

construction in Japan of reactor-powered, economics and schedule for, 23:15705
construction of 10,000 shp Otto Hahn, description of, 22:20897
construction of nuclear powered, radiation safety aspects of, 25:60204
construction of nuclear-powered, economics for future, 23:19546
description and dimensions of nuclear, 23:43442
description of Japanese nuclear-powered Matsu, 24:7562
description of nuclear powered 24000 ton interchangeable cargo unit, 22:18540
description of Otto Hahn, detailed, 22:39847
design of container, with 120,000 shp marine reactor, 25:44178 (RCN-139)
design of Mutsu nuclear, safety aspects of, 24:2053
design of nuclear powered, radiation safety aspects of, 25:60204
design parameters of nuclear powered Mutsu, 24:16268
design parameters of nuclear reactor propelled, in Italy, 25:54246 (A/CONF.49/P-178)
design parameters of nuclear submarine, for petroleum transport tankers, 25:28795
design requirements of nuclear powered, guides for, 25:31643
development in Japan during 1968 of nuclear powered, 23:49545
development in Netherlands of nuclear powered, requirements for optimum economic, 24:20620
development in U.K, 24:7263
development in U.K. of nuclear powered, 24:46106
development in U.K. of pressurized-water-reactor-powered container ship, economics for, 23:15703
development of nuclear powered, review of design problems and research projects for, 25:1950
development, economics, and use of nuclear, 21:21745
economic comparison of nuclear and conventional, 25:44177 (NP-18908)
economic feasibility of 6000-ton nuclear powered, 21:10517
economic prospects for nuclear, 22:39848
economic prospects of nuclear, 22:39847
economics in Japan of nuclear propelled, effects of cargo size and cruising speed on, 23:45121
economics of nuclear powered, 23:52435
economics of nuclear powered submarine, for petroleum transport in Arctic waters, 24:43836
economics of nuclear powered, analysis of parameters for optimum, 23:26106
economics of nuclear powered, comparison with conventional of, 23:11320
economics of nuclear propelled, analysis of optimum 1984, 23:45122
economics of nuclear submarine, for petroleum transport tankers, 25:28795
economics of nuclear versus diesel powered, (T), 25:57138
economics of nuclear, effects of reliability analysis on, 25:37095 (IRS-T-18(1970), pp 217-21)
economics of nuclear-powered, 21:5670
economics of nuclear-powered, 21:5671
economics of U.S. nuclear, twenty year forecast of, 23:47290
equipment for nuclear, description and operation of, 23:43444
hazards to crew in nuclear powered, review of possible, 25:31644
nuclear propulsion of containerized fast cargo, feasibility of, 21:26023 (EUR-3285.f)
nuclear propulsion of, bibliography on, 22:48714 (AED-C-22-10)
nuclear propulsion of, development in Soviet Union, 22:53502(T) (ORNL-tr-1990)
nuclear propulsion plants for, economics and feasibility of, 22:10444
nuclear-powered, manual on safety considerations regarding use of ports and approaches by, 24:7864 (STI/PUB-206)
operation and performance of N. S. Savannah, 21:14044
operation of nuclear powered, international legal agreements for, 25:54249 (A/CONF.49/P-401)
operation of nuclear powered, legal aspects of, 24:43837
operation of nuclear powered, review of, 24:46106
operations aspects of nuclear powered, guides for, 25:31643
performance for nuclear powered passenger, analysis of Brayton cycle gas-cooled reactor, 22:35563
performance in Japan of reactor—powered, model analysis of wave motion, 23:15701
performance of OTTO HAHN, analysis of October 11 and 12, 1968 trial voyages, 23:15704

propulsion of, advantages and disadvantages of nuclear, 25:26058
response of Mutsu nuclear, to wave-induced motions and accelerations, (E/T), 24:2054
safety of nuclear, role of Coast Guard in, 21:15748
safety standards for nuclear, 25:39327
Savannah, operation by private company, tabulation of treaties and international agreements for United States liability during, 24:9859
service facilities for Japanese nuclear powered, description of port, 22:35564
shielding analysis for first nuclear ship of Japan, (E/T), 23:13566 (AERE-R-5773(Vol.5), pp 1346-72)
Mercuhydrin
see Meralluride
MERCURY
abundance in 112 Her AB, (E), 25:16645
abundance in 46 Dra, (E), 24:34993
abundance in 46 Dra, (E), 24:44838
abundance in chondrites, 22:2727
abundance in HD 1909 and 53 Tauri, (E), 22:47730
abundance in HD 36916, (E), 24:10237
abundance in iota CrB, (E), 24:37036
abundance in kappa Cancri, (E), 24:35015
abundance in Kappa Cancri, (E), 25:2840
abundance in lunar surface materials, (E/T), 25:33050
abundance in Mn-type peculiar A stars, (E), 25:24695
abundance in peculiar A stars, (E/T), 25:24746
abundance in phi Her, (E), 24:37037
abundance in photosphere and carbonaceous chondrites, (E), 25:925
abundance in photosphere, (E), 23:12486
abundance in π_1 Boo, (E), 24:19536
abundance on surfaces of peculiar A stars, (E/T), 25:58462
alkali-metal-atom scattering in eV range by, glory undulations in velocity dependence of total cross sections for, (E), 24:26017
alpha decay of, half-lives, Q values, reduced widths, and spectra from, (E), 25:28302 (CERN-70-30(Vol.1), pp 523-31)
analysis for cadmium, method for activation, 21:40772 (IS-1600, Paper 3)
analysis for sodium by neutron activation, equipment for, 24:57
analysis in biosphere and in foods by activation methods, 21:20029 (STI/PUB-123)
analysis of solutions of, for trace amounts of cobalt, copper, and nickel, chromatographic, 22:22976
analysis of, for thorium using methyl-4,4'-methylenedianilipyrene, 21:12359
analysis of, mass-spectrometric method for isotopic, 25:31799
atomic field calculations for, relativistic Hartree—Fock self-consistent, 21:33135
atomic weight of, based on carbon-12 = 12, 22:42698
beta-particle reactions with vapor of, mean energy for formation of ion pairs in, (E), 25:59123
boilers for use with, review of development of SNAP-2, 22:35573 (TRW-690-32)
boiling of, bubble nucleation mechanisms in, 21:41130
book: Guide to Uncommon Metals, 21:34854
book: Uncommon Metals, 22:10981
bremsstrahlung reactions (γ,n) at 20 MeV, yields of radioactivities from, 21:22008
bremsstrahlung reactions at 30 to 65 MeV, isomeric yield ratios for, (E), 24:20352
capacity measurements on electrodes of, in solution, equipment and method for, 21:15878(R) (MIT-905-81)
cathodes of, current efficiencies in electrolytic preparation of tetravalent uranium in nitric acid solutions, 23:45241 (BARC-375)
cavitation in venturi flow, effect of gas content on, 21:21841 (TID-23421)
cavitation phenomena in liquid, review, 22:52180
cesium reactions at 6 to 2300 eV, quantum effects on cross sections for, (E/T), 22:19771
cesium-atom reactions with excited atoms of, cross section for ionization in, (E), 25:40386
charge-exchange of high-energy heavy ion beams with vapor of, 22:9724(T) (ANL-Trans-535)
charged-particle reactions with, relativistic cross sections for L-shell ionization and characteristic x-ray emission in, (T), 25:52639
chromatographic behavior in hydrochloric acid—1-propanol, 22:16673
chromatographic behavior in hydrochloric acid—2-methyl-2-propanol, 22:16674
chromatographic behavior in hydrochloric acid—pentyl alcohols, 22:16675
chromatographic behavior in hydrochloric acid—thiocyanate mixture on Amberlite LA-2, 25:18337
chromatographic behavior of, effects of trioctylamine in halide solutions on, 21:5880
chromatographic behavior of, reversed-phase extraction, 25:37478
chromatographic behavior on ion exchange papers, 21:38948
compatibility with refractory alloys, testing for use in power cycles, 23:18189
complexes of divalent, with triethylenetetraminehexaacetic acid, stability constants of, 24:31312
complexes of, isotopic exchange between mercury and, 21:23834
complexes with (1,2-cyclohexylenedinitrilo)tetraacetic acid, dissociation rate constants for, 23:13626
complexes with 3-(4-antipyrinylazo)-2,4-pentanedione, 24:11439
complexes with 8-quinolinol, structure of, NMR spectral studies on, 25:4081
complexes with β-ketoenols, preparation and properties of, review of, 22:2061
complexes with lecithins in aqueous butanol solutions, properties of, 25:26272
complexes with organic compounds, tables of thermodynamic stability constants for, 22:58 (UCRL-50200)
complexes with pyridine or its derivatives, radiation effects on, ESR study of free radicals from γ or electron pulse, 23:37982
complexes with some 3-cyanoformazans, preparation and properties of, 25:20968
complexes, electron binding energy in, 25:20966(R) (SRO-645-1)
compounds of, preparation and properties of siloxy, 21:45130
compounds, analysis for mercury in presence of mercury-203-labeled organic compounds by reactions with stannous chloride and γ scintillation counting, 25:2109
compressibility from melting point to critical point, 25:20881 (NYO-4176-6)
condensation heat transfer of drops of, effects of temperature on, 22:42967
condensation in meteorites, (T), 22:5023
condensation—evaporation coefficients of liquid, tracer technique for evaluation of, 22:49731
conductivity of superconducting, frequency-dependent complex, (T), 24:42639
containment in SNAP-8 tantalum boiler, effects of air and polyphenyl ether contaminants on, 24:29941 (N-70-19707)
contaminant control in simulated SNAP-8 loop, 22:40307 (N-68-11912)
content in biological samples, use of lithium-drifted germanium γ spectrometers for determination of, 21:36585
content of flour, neutron activation analysis for, 25:8588
content of plant tissues, determination of, by gamma spectrometry and neutron activation analysis, 23:6357
content of tissues and urine, determination of, by isotope exchange method, 22:40526
content of wheat, worldwide sampling of, 22:31064
contents in meteorites from Russian collection, 25:19303
corrosive effects at high temperatures on reactor materials, review of, 23:20465
corrosive effects of high temperature refluxing, on cobalt-base and iron-base alloys, 23:9264
corrosive effects of liquid, 21:11179
corrosive effects of vaporous, on Type-316 stainless steel, 21:20473(R) (NASA-CR-72156)
corrosive effects of, on niobium and its alloys, metallographic studies on, 21:9058
corrosive effects on alloys and metals at 500°F, 22:647(R) (BNL-50077)
corrosive effects on alloys and metals in mercury Rankine power conversion systems, (E/T), 23:10157 (NAA-SR-Memo-12505)
corrosive effects on chromium—cobalt-base—nickel—tungsten alloys, method for inhibiting, 23:33929(P)
corrosive effects on chromium—molybdenum alloy, mechanism for, 21:36789(R) (NASA-CR-72257)
corrosive effects on chromium—molybdenum steel boiler, 23:29965 (N-69-20195)
corrosive effects on chromium—molybdenum steel boilers at 315 to 703°C, 22:4745
corrosive effects on chromium—molybdenum steel, effects of tantalum on, 21:36789(R) (NASA-CR-72257)
corrosive effects on chromium—molybdenum steel, mechanism of, 21:20473(R) (NASA-CR-72156)
corrosive effects on iron-base alloys for use in SNAP-8, 21:20472(R) (NASA-CR-72146)
corrosive effects on materials for Rankine power cycle materials, review of, 24:46702
corrosive effects on materials in Rankine cycle space power systems, review on, 24:17209
corrosive effects on niobium—zirconium and T-111 alloys at 1200°F, 25:55377 (N-71-26947)
corrosive effects on SNAP-2 power conversion system materials, 21:6754 (NAA-SR-6311)
corrosive effects on SNAP-2 power conversion system materials, 21:6755 (NAA-SR-6316)
corrosive effects on tantalum, niobium—zirconium alloy, chromium—molybdenum steels, and tantalum—tungsten—hafnium alloys, 21:20469
corrosive effects on zirconium and zirconium-base alloys, 24:39602 (AECL-3612)
corrosive effects testing of materials for mercury Rankine power conversion system, 21:6756 (NAA-SR-6321)
creep deformation of single-crystal, at 1.7 to 4.2°K, 23:22530
crystal structure of, effects of pseudopotential and valence on, 21:4953 (N-66-32430)
Curie levels and Roentgen rates for neutron-irradiated, at 1-, 10-, 100- and 1000-min irradiation time, 22:23035 (MLM-1457)
current-time relations at electrodes of, 21:15878(R) (MIT-905-81)
cycling in Pacific Ocean oysters, tracer study, 25:48399 (RLO-2225-T-1-6)
desorption from molybdenum and tungsten, 22:28804
determination as bromide complex, labeling and counting techniques for, 23:13667
determination as impurity in amorphous boron, spectrographic, 22:16429
determination as impurity in graphite by neutron activation and radiochemical separation, 24:13789
determination as impurity in uranium oxide (U_3O_8), spectrochemical method for, 22:50937
determination as trace impurity in iron oxide and thorium nitrate, by solvent extraction and activation, 22:12240
determination as trace impurity in molybdenum and tungsten, spectrographic, 21:34215(R) (UCRL-50006-67-1)
determination as trace impurity in sodium chloride, spectrographic, 21:35837 (BARC-284)
determination by 3-MeV neutron activation methods, sensitivities for, 24:5636
determination by activation methods, detection limits for, 22:16392 (GA-8171, pp 7-40)
determination by atomic absorption spectrometry, 24:38736
determination by atomic absorption spectrophotometry using lens masks, 25:15495
determination by atomic absorption spectrophotometry, sensitivity for, 23:19626
determination by atomic absorption, optimum conditions for, 24:2106
determination by automated radiochemical methods, 22:40050
determination by beta excitation, 25:10475
determination by chelatometric titration, 24:25004
determination by chelatometric titration, compounds for, 21:21892
determination by chromatographic separation using ammonium molybdophosphates, spot test for, 22:14
determination by complexing with 2-aminobenzothiazole, effects of metal ions on gravimetric, 25:34520
determination by complexometric titration with TTHA, 24:11432
determination by gamma activation methods, 24:38787
determination by isotope dilution method, using thiodibenzoylmethane, 23:9340
determination by isotope dilution or neutron activation methods, substoichiometric, 22:27618
determination by method based on reaction of EDTA and lead iodate, 25:15479
determination by neutron activation, 25:31866
determination by neutron activation, 25:8227
determination by neutron activation and other nuclear methods, 25:4133 (NAS-NS-3026(Rev.))
determination by neutron activation and radiochemical separation, 24:33652
determination by neutron activation following chromatographic separation, 25:10496
determination by neutron activation methods, 21:23834
determination by neutron activation methods, 24:2158
determination by neutron activation methods using 2.8-MeV neutrons, 21:23842
determination by neutron activation methods using characteristic x rays, 23:13677
determination by neutron activation methods, γ-ray spectra and sensitivity of, 22:42611
determination by neutron activation or photometry following solvent extraction, 25:54499
determination by neutron activation, effects of volatility from plastic containers on, 25:26201
determination by neutron activation, sample preparation by deposition on plastic matrix for, 25:2146
determination by neutron activation, solvent extraction separations for, 25:29031
determination by nuclear resonance scattering of gamma rays, 25:37327
determination by paper chromatography and isotopic dilution techniques, 23:43263(T) (NP-tr-1832)
determination by paper chromatography using phenylbenzohydroxamic acid, 21:23849
determination by photon activation methods, 22:27589
determination by photon activation, sensitivity for, 23:15826
determination by photonuclear activation methods, 23:37976(R) (AE-360)
determination by photonuclear activation methods using betatron, 23:13682
determination by radial paper chromatography and spectrophotometry, 25:35
determination by substoichiometric solvent extraction, 24:2135
determination by thin-layer chromatography, 23:11414
determination by volumetric methods, 22:7999
determination following nonsulfide separation from elements, qualitative, 25:2101
determination following separation by solvent extraction using neutral red, spectrophotometric, 25:23504
determination for evaluating yields in radiochemical separations, 21:32213 (NAS-NS-3111)
determination in acetic acid by neutron activation methods, 21:38888
determination in agricultural samples by neutron activation methods, 21:30364
determination in air and biological materials by solvent extraction and glass nichrome wire ring chamber method, 23:11423
determination in air by neutron activation, 25:39440 (COO-1705-9)
determination in air by neutron activation and γ spectrometry, 24:107
determination in air pollution particles by computer-assisted neutron activation methods, 24:38790
determination in airborne dust samples by neutron activation, 25:31854
determination in airborne particulates by neutron activation methods, 22:30501
determination in airborne particulates by neutron activation, 25:8231
determination in airborne particulates from industrialized areas by neutron activation, pollution distribution studies from, 25:31872
determination in animals, eggs, fish, human hair, and milk by neutron activation and γ spectrometry, 25:31881
determination in antimony by neutron activation, standard addition, and solvent extraction, 24:161
determination in aqueous samples by neutron activation and isotopic exchange techniques, 22:25262
determination in aqueous solution by neutron-capture gamma-ray activation method, 23:66
determination in aqueous solution, evaluation of 1-[(bromo-2-pyridyl)azo]-2-naphthol for use in spectrophotometric, 23:24165
determination in Australian tektites by thermal neutron activation and radiochemical separations, 25:54478
determination in australites by neutron activation and γ spectrometry, 24:50357(R) (ORO-2670-40)
determination in australites, impact glasses, and associated rocks by neutron activation and γ spectrometry, 25:39443

determination in biological and environmental samples by neutron activation and radiochemical separation, 25:54508
determination in biological materials and organic compounds by neutron activation and radiochemical separation, 25:15531
determination in biological materials and tin by neutron activation and radiochemical group substoichiometric separation, 24:31261
determination in biological materials and water by neutron activation using low-temperature irradiation method, 23:13684
determination in biological materials by bremsstrahlung activation methods, 22:25251
determination in biological materials by neutron activation and radiochemical separation, 24:9254
determination in biological materials by neutron activation and radiochemical separation, 24:33651
determination in biological materials by neutron activation, 25:10502
determination in biological materials by neutron activation and radiochemical separations, 24:124
determination in biological materials by neutron activation, separation scheme for, 23:4544
determination in biological materials by neutron activation techniques, 22:44972 (BNWL-SA-2010)
determination in biological materials by neutron activation and radiochemical separation, 25:51420
determination in biological materials by neutron activation and radiochemical separations, 23:40604
determination in biological materials by neutron activation and γ spectrometry, 25:34551
determination in biological materials simultaneously with cadmium, copper, and zinc, activation, 21:21885
determination in biological materials, automatic separation system for, 22:8020
determination in biological materials, sludge, and water by neutron activation and γ spectrometry following chemical separation, 25:51403 (A/CONF.49/P-19)
determination in biological samples by neutron activation and automated radiochemical separation, 25:48462 (CONF-710325-1)
determination in blood and kidneys by neutron activation, 25:18369
determination in blood by neutron activation methods, 22:12259
determination in blood, food, organs, and tissues of Columbia River trout by neutron activation, 23:49748 (BNWL-1051(Pt.2), pp 142-6)
determination in blood, kidney biopsy material, and urine by neutron activation, 23:35047
determination in cadmium, method for activation, 21:40772 (IS-1600, Paper 3)
determination in Canadian foods by neutron activation methods, 22:30502
determination in cerium—mercury mixture by chelometric titration using TTHA, 22:22965
determination in chondritic meteorites and rocks by thermal neutron activation and radiochemical separation, 24:31265
determination in cigarette tobacco by neutron activation, 24:33655
determination in crude petroleum by neutron activation and γ spectrometry, 25:46467
determination in dental pulp of man by activation methods, 24:4242
determination in dried cuttlefish, rice, and rocks by neutron activation and radiochemical separation, 24:27020
determination in drinking water, seawater, and fish by neutron activation, 25:31880
determination in electrolytic cells, radiometric, 25:31832(T) (ORNL-tr-2487)
determination in electrolytic chlorine cells, isotope dilution method for quantitative, 23:17340
determination in enamel of human teeth by neutron activation, 23:4563
determination in environmental samples by neutron activation, 25:10491 (ORNL-4636, pp 20-33)
determination in fecal samples from Apollo 7 and 9 astronauts by neutron activation and γ-spectrometry, 24:23051(R) (BNWL-1183-2)
determination in fish and other environmental samples by neutron activation and radiochemical separation, 25:57392
determination in fish and rainwater by activation methods, 23:37976(R) (AE-360)
determination in fish by neutron activation and automated chemical separation method, 25:51407 (CONF-710623-1)
determination in fish by neutron activation, separation, and γ spectrometry, 25:31850
determination in fish, nuclear scattering method for, 25:57360
determination in food by neutron activation, 23:17381
determination in food by neutron activation and radiochemical separation, 24:38775 (PRNC-135, pp 201-12)
determination in gallium arsenide monocrystals in presence of copper using dithizone, activation, 22:12242
determination in gallium by neutron activation methods, 22:25317
determination in gallium by neutron activation methods, 22:42614
determination in gallium or gallium arsenide by neutron activation, 23:35029
determination in gas by radioisotope tracers, neutron activation, and γ spectrometry, 23:11461
determination in geochemical samples by neutron activation and radiochemical separation, 24:152
determination in granite and diabase rocks by neutron-activation methods, 21:45065
determination in graphite, molybdenum, and tungsten by neutron activation methods, 22:16387 (CEA-R-3267)
determination in hair by activation methods, 22:33260
determination in hair by neutron activation methods, 22:48835
determination in hair by neutron activation methods, 22:16404 (GA-8171, pp 203-20)
determination in hair by neutron activation methods, 22:16405 (GA-8171, pp 221-36)
determination in hot spring waters in Japan by neutron activation, 25:26195
determination in hot springs water by neutron activation and radiochemical separations, 23:40602
determination in human blood and tumor tissues by bremsstrahlung and neutron activation without chemical separation, 23:4558
determination in human blood by 16-MeV bremsstrahlung activation and γ spectrometry, 24:38771 (PRNC-135, pp 167-82)
determination in human blood by x-ray activation techniques, 22:42642
determination in human hair by neutron activation and γ spectrometry, 23:40603
determination in human hair, activation, 21:21857 (AWRE-O-86/66)
determination in human scalp hair by neutron activation and γ spectrometry, 24:48054
determination in human stones by neutron activation, 25:34546 (THAI.-AEC-39)
determination in human tissues by neutron activation methods, 22:16410 (GA-8171, pp 295-314)
determination in human whole blood by neutron activation, 23:24135
determination in hydrocarbon matrix by neutron activation methods, 21:42892
determination in hydrogen by neutron activation, 23:15821
determination in hydrogenation catalysts by neutron activation and isotope exchange, 25:23540
determination in hydroxymercuribenzoate in tissues by neutron activation methods, 22:25255
determination in inorganic compounds in presence of mercury-203-labeled organic compounds by reactions with stannous chloride and γ scintillation counting, 25:2109
determination in iron meteorites by neutron activation methods, 21:42964(R) (NYO-844-71)
determination in iron meteorites by neutron activation methods, 22:47077(R) (NYO-844-75)
determination in iron ores, spectrochemical, 22:27615
determination in laboratory chemicals and materials by neutron activation, 25:46464
determination in lacustrine and marine deposits from Viskan Valley in Sweden, activation, 22:1944 (AE-296)
determination in lanthanum—mercury mixture by chelometric titration using TTHA, 22:22965
determination in lead coating on copper by spark mass spectrography, 23:31287
determination in lithium hydroxide solutions and water, method for spectrophotometric, 21:17568 (Y-1572)
determination in lung tissue from uranium miners by neutron activation and γ spectrometry, 23:13669 (BNWL-715(Pt.2), pp 1-149)
determination in lungs by neutron activation methods, 22:10184
determination in man for forensic science uses by neutron activation, 23:4579
determination in marine aerosols by neutron activation and γ spectrometry, 24:108
determination in marine and lacustrine deposits in Sweden by neutron activation and radiochemical separation, 24:146
determination in marine silts by neutron activation and γ spectroscopy, 25:26190(R) (NYO-4150-9)
determination in mercury oxide powders by thermal neutron activation using americium—beryllium source and prompt γ spectrometry, 24:31271
determination in metamorphic rocks, 22:12338(R) (COO-1167-3)
determination in meteorites and rocks using activation analysis, 21:19580
determination in meteorites by activation and ion exchange, 21:21893
determination in meteorites by chemical and neutron activation methods, 22:10199
determination in meteorites by neutron activation and γ spectrometry, 23:31310
determination in meteorites by neutron activation and radiochemical separation, 24:139
determination in mineral deposits undersea by neutron activation using californium-252 and γ spectrometry, 25:48468 (CONF-710402-(Vol.3), pp III.7-19)
determination in minerals by in situ neutron activation using californium-252 source, 24:31294
determination in minerals by spectroscopy, 24:41198
determination in minerals by thermal neutron activation and γ spectrometry, 23:13671 (CEA-CONF-1183)
determination in mixture of heavy metals by chelstometric titration using EDTA, 24:2130
determination in mixtures of light elements, electromagnetic isotope separation in activation methods for, 22:47090
determination in molybdenum or yttrium by neutron activation and extraction displacement chromatography, 25:2138
determination in multicomponent mixture as complex with (1,2-cyclohexylenedinitrilo)tetraacetic acid, differential kinetic method of, 23:13626
determination in nuclear graphite by instrumental activation method, 24:38768 (IFA-NR-31)
determination in nuclear graphite by neutron activation, 23:11445 (CEA-CONF-1057)
determination in nuclear materials, 21:21870
determination in oats by neutron activation and γ spectrometry, 24:135
determination in ores and rocks by activation and γ spectrometry, 25:6289
determination in ores and rocks, photoneutron and x-radiometric, 22:50948
determination in oxygen-free copper by neutron activation, 25:6399(R) (MLM-1751)
determination in paints and vinyl additives by atomic absorption spectrophotometry, 25:39416
determination in paints by neutron activation and γ spectrometry, 25:39458
determination in paints by neutron activation methods, 22:16399 (GA-8171, pp 133-44)
determination in pathological tissue by neutron activation and γ spectrometry, 24:114
determination in pigments from ancient murals by neutron activation, 25:2133
determination in plant tissue by neutron activation and γ spectrometry, 24:123
determination in plasma from uremic man by neutron activation, 23:4568
determination in presence of cadmium by activation methods, 21:42874 (IS-T-196)
determination in presence of metals by exchange with silver-110m-labeled 2-phenyl hydrazide of (phenylazo) thioformic acid, radiometric, 21:21883
determination in radioactive samples by flameless atomic absorption spectrophotometry, 22:48814 (DP-1164)
determination in rocks by neutron activation and radiochemical separation, 23:47413
determination in rocks by non-dispersive x-ray spectroscopy, 24:38713 (PRNC-135, pp 451-67)
determination in salmon tissues by neutron activation methods, 22:37642 (BNWL-SA-1776)
determination in seawater by neutron activation and γ spectrometry, 24:48047 (BNWL-1307(Pt.2), pp 11-13)
determination in semiconductor silicon by autoradiography, neutron activation, and γ spectrometry, 24:169
determination in silicates, spectrographic, 21:42880
determination in silver by neutron activation and thin-layer chromatographic methods, 21:45032
determination in sodium by neutron activation and ion exchange separation, 24:46174 (BNWL-1407)
determination in soil, development of method for, 23:40887(R) (NP-17982)
determination in soils, 24:33626(R) (UCRL-50006-70)
determination in soils and plants by sublimation and extraction titanium using dithizone, 22:4057
determination in soils as basis for uranium prospecting, equipment for, 23:41021
determination in soils by neutron activation and γ spectrometry, 25:31882
determination in standard plant material by neutron activation and γ spectrometry, 23:49745 (BNWL-1051(Pt.2), pp 131-4)
determination in standard rocks and quartzes by neutron activation and radiochemical separation, 25:54454
determination in syenite rock by x-ray emission, 23:6060
determination in teeth fillings by neutron activation methods, 22:25254
determination in terrestrial and nonterrestrial rocks by atomic absorption spectroscopy, comparison of neutron activation analysis results with those from, 25:54511
determination in thorium oxides and zirconium oxides, direct spectrochemical method for, 23:21638
determination in tissues and water by neutron activation and gamma spectrometry, low-temperature irradiation techniques in, 23:2170 (AE-332)
determination in tissues by neutron activation, 24:38780
determination in tissues of Pacific Ocean salmon by neutron activation and γ spectrometry, 23:49749 (BNWL-1051(Pt.2), pp 146-51)
determination in tobacco and wheat by neutron activation methods, 22:4058
determination in tobacco leaves by neutron activation and radiochemical separation, 24:31272
determination in tomatoes and commercial products from tomatoes by activation methods, factors interfering with, 25:48477
determination in toxic residues by neutron activation, 23:4553
determination in trichlorosilane by neutron activation methods, 21:42879
determination in urine by neutron activation and radiochemical separation, 25:52
determination in urine by titrimetric dithizone method, 24:38749 (IA-1203)
determination in urine, method for, 22:21029 (SC-M-67-3044)
determination in various biological materials by neutron activation and γ spectrometry, 23:37923
determination in various materials by x-ray fluorescence spectroscopy after precipitation, 22:25285
determination in various materials, beta-backscattering method for, 22:28194
determination in waste water by neutron activation, 25:39462
determination in water and biological materials by low-temperature activation and radiochemical separation, 24:127
determination in water and sediments by atomic absorption and neutron activation methods, 25:37319(R) (RLO-1725-201)
determination in water by neutron activation and radiochemical separation, 25:37320 (RT/CHI-(70)33)
determination in water by neutron activation and radiochemical separation, 24:48048 (BNWL-1307(Pt.2), pp 17-19)
determination in water, review of methods for, 21:21904
determination in wheat by activation, 22:31064
determination in wheat flour by neutron activation and γ spectroscopy, 25:20959
determination in white lead by neutron activation and radiochemical separation, 24:129
determination of a visual complexometric, 22:33273
determination of gaseous, in atmosphere, radiochemical method for, 21:3004
determination of submicrogram amounts of, spectrographic, 21:30345(R) (IN-1063)

determination of trace amounts of, by inverse voltammetry, 24:41203
determination of trace amounts of, by paper chromatography and isotope dilution, 23:6085
determination of trace amounts of, by radio-release method, 25:51399
determination of trace amounts of, evaluation of methods for, 23:47382
determination of trace amounts of, in airborne particles by neutron activation and γ spectrometry, 24:5624
determination of trace amounts of, in albumins of human serum by neutron activation methods, 21:12352
determination of trace amounts of, in alkaloid series and Kentucky reference cigarettes by neutron activation and γ spectrometry, 24:46202
determination of trace amounts of, in biological materials by fluorimetric, inverse voltammetric, and spectrophotometric methods, 24:29203
determination of trace amounts of, in biological materials by substoichiometric radioisotope dilution, 23:13650
determination of trace amounts of, in biotite and tektite by spark source mass spectrometry, 25:10455
determination of trace amounts of, in cements by neutron activation and radiochemical separation, 23:17379
determination of trace amounts of, in Columbia River water by neutron activation and radiochemical separation, 23:49747 (BNWL-1051(Pt.2), pp 137-41)
determination of trace amounts of, in copper by neutron activation, 25:216(R) (MLM-1726)
determination of trace amounts of, in copper by neutron activation, 25:8217 (MLM-1772)
determination of trace amounts of, in drugs by neutron activation, 24:13777 (ORNL-4466, pp 62-88)
determination of trace amounts of, in germanium by ion-exchange chromatography and neutron activation, 24:38789
determination of trace amounts of, in germanium by neutron activation methods, 22:14441
determination of trace amounts of, in human lungs by neutron activation and γ spectrometry, 23:49742 (BNWL-1051(Pt.2), pp 6-9)
determination of trace amounts of, in liver tissue in salmon by neutron activation and γ spectrometry, 23:13669 (BNWL-715(Pt.2), pp 1-149)
determination of trace amounts of, in lubricants by neutron activation methods, 21:30361
determination of trace amounts of, in lunar rocks and soil from Apollo 11 by neutron activation, 24:20731
determination of trace amounts of, in man by activation analysis, 21:19556
determination of trace amounts of, in meteorites by neutron activation and γ spectrometry, 25:41773
determination of trace amounts of, in molybdenum, review on, 25:10459
determination of trace amounts of, in muscle tissues by neutron activation and γ spectrometry, 23:13669 (BNWL-715(Pt.2), pp 1-149)
determination of trace amounts of, in phosphate deposits by spark source mass spectrometry, 25:10456
determination of trace amounts of, in phosphate rock, cathode-region method for spectrochemical, 24:2109
determination of trace amounts of, in platinum by neutron activation following separation by ion exchange chromatography, 25:29023
determination of trace amounts of, in salmon muscles by neutron activation and γ spectrometry, 23:13669 (BNWL-715(Pt.2), pp 1-149)
determination of trace amounts of, in silicate rocks by neutron activation and radiochemical separations, 25:54489
determination of trace amounts of, in silicate rocks, polarographic method for, 24:41184
determination of trace amounts of, in tissues, distillation method for activation and gamma spectrometric, 21:45049
determination of trace amounts of, in uranium, spark mass spectrometric, 21:34227
determination of trace amounts of, in water by neutron activation, 25:31877
determination of trace amounts of, in water by neutron activation following anion exchange separation, 25:44350
determination of trace amounts of, in white lead paint pigments by neutron activation and γ spectrometry, 23:45223(R) (NYO-3953-1)
determination of trace amounts of, using tetracyanoplatinates, luminescent method for, 24:22584
determination of traces of, in blood by activation methods, 21:12301
determination of traces of, in electrolytic zinc sulfate solutions, activation, 21:40790
determination of traces of, in low-grade cinnabar ores, automatic isotopic dilution method for substoichiometric, 22:6273
determination of traces of, in soil and soil extracts by emission spectroscopy, 23:13619 (CEA-CONF-1182)
determination of, by oxyhydrogen flame excitation of atomic spectra, 21:2945
determination of, colorimetric, 21:30345(R) (IN-1063)
determination of, comparison of detection limits for atomic absorption and flame emission spectroscopic, 24:2110
determination of, development of method for, 24:2091 (CISE-R-135)
determination of, effects of thorium and uranium on photometric, using glyoxal dithiosemicarbazone, 25:48443
determination of, efficiency of atomic fluorescence flame spectrometry for, 22:44992
determination of, in agricultural materials, sensitivity of automated activation, 21:10254(R) (TEES-2671-5)
determination of, in biosphere and in foods by activation analysis, 21:12331
determination of, in high-purity lubricants by neutron activation, 21:5800
determination of, in human blood, at -40 deg C using activation analysis, 21:21
determination of, in human blood, use of epithermal neutrons in activation, 21:2954
determination of, in human hair in Japan, activation method for, 21:12366
determination of, in human urine, method for, 21:4440 (Y-KG-36)
determination of, in meteorites by neutron activation methods, 21:4448
determination of, performance of atomic absorption spectrophotometer for, 22:37666
determination of, spectrophotometric, 22:16355 (IN-1159)
determination of, use of betatron for photonuclear activation analysis for, 23:3855 (AE-333)
determination of, use of sodium cerium EDTA in EDTA titrimetric, 22:47102
determination of, using EDTA, potentiometric, 21:5787
determination of, using premixed, oxy-acetylene flames, spectroscopic, 21:19563
determination using ion-sensitive electrode and auxiliary ion complexing reactions, direct potentiometric, 24:41196
determination using N-benzenesulfonyl β-alanine as masking agent, 25:31805
determination using rhodizonic acid, 22:7998
determination using rhodizonic acid, 22:7998
diffusion and mobility of, in liquid sodium, 21:41575 (IS-1600, Paper 5)
diffusion in cadmium single crystals, anisotropic, 25:52358
diffusion in heterogeneous materials, design and performance of gamma absorption porosimeter using, 22:19175
diffusion in molybdenum and tungsten, 22:28804
diffusion in quartz tube with temperature gradient, 24:2285
diffusion of implanted, in germanium, during annealing, 25:19841
diffusion of liquid, self-, 21:17607 (NYO-2082-9)
diffusion of potassium in, coefficients of, 22:21688 (COO-1352-25)
diffusion of, effects of hydrostatic pressure on self, 22:21686 (CEA-R-3316)
diffusion of, in waste calcination, effects of temperature on, 21:5991(R) (IDO-14680)
distillation of, cosmological implications of hydrogen created during, (E), 23:34251
distribution coefficients for, in hydrochloric acid solution on Amberlite CG4B, 22:40192
distribution in animals, fish, and milk near mercury mine at Idirja, Slovenia, Yugoslavia, 25:31881
distribution in dimethyl sulfoxide—hydrochloric acid—methanol system, ion exchange studies on, 22:21171
distribution in hydrochloric acid—hydrofluoric acid mixtures with alcohol or ketone, chromatographic studies on, 22:30570
distribution in hydrochloric acid—methanol—methyl sulfoxide systems, coefficient for, 21:30500 (IS-T-158)
distribution in Norwegian forest soils, 25:31882
distribution in surface seawater, 24:48193 (BNWL-1307(Pt.2), pp 8-10)
distribution on synthetic ion exchangers of titanium antimonate, 24:36366
distribution on thin-layer DEAE-cellulose in organic solvent—thiocyanic acid mixture, chromatographic, 25:6417
ecosystem contamination by, research on, 25:32375
effect on cavitation and erosion of niobium, steel, and tantalum at 500°F, 21:36299 (NP-16858)
effects as impurity on thermal conductivity of tin, 23:6684
effects of divalent, on determination of tellurium by extraction as chelate and atomic absorption spectrometry, 24:24997
effects of divalent, on dissolution of aluminum-containing reactor fuels in nitric acid, 21:25966(P)
effects of divalent, on photometric determination of tellurium using 3,5-diphenyl-2,6-dimercaptothiopyran-4-one, 25:31798
effects of hydrated ions of, on hydrolysis of 2-fluoro-2-methylpropane, 24:18968
effects of liquid, on cavitation damage in refractory alloys and steels at 70 and 500°F, 21:36792
effects of liquid, on cracking in Zircaloy-2 and zirconium, 24:43934(R) (AECL-3556)
effects of liquid, on embrittlement of aluminum—molybdenum—titanium—vanadium and aluminum—titanium—vanadium alloys, relations with ultrasonic oscillations, 25:22061
effects of liquid, on fatigue of copper and copper—zinc alloys, (E), 24:23477
effects of, on colorimetric determination of cerium, 21:12338
effects of, on dissolution of aluminum and unirradiated MTR fuel in nitric acid, catalytic, 21:6000 (RT/CHI-(66)17)
effects on cavitating erosion of bearing materials, (E), 22:8270
effects on cesium plasma diodes, 22:36786
effects on chelatotitration determination of rare earths, 22:4046
effects on color of rutile, 21:44150(R) (COO-1434-3)
effects on colorimetric determination of gold, 25:34521
effects on colorimetric determination of molybdenum, 25:28930
effects on colorimetric determination of nickel in indium and other metals using 5-(dimethylamino)-2-(2-thiazolylazo)phenol, 22:25246
effects on crack propagation in aluminum and brass, 25:27243
effects on determination of cadmium in biological materials by neutron activation and radiochemical separation, 24:18930
effects on determination of copper and bismuth in lead by neutron activation, 21:42883
effects on determination of metals by displacement chromatography on acidic cation exchange resin, 22:12416
effects on determination of polonium-210 in rocks and uranium ores by spontaneous deposition on silver, 23:89
effects on determination of selenium by neutron activation, 24:48058
effects on determination of thallium, 25:20926
effects on determination of thorium by potentiometric titration of EDTA complex, 23:37902
effects on determination of trace amounts of antimony by isotopic exchange in organic phase, 25:2106
effects on determination of uranium by coulometric titration, 22:10171 (CNEA-192)
effects on direct titrimetric determination of molybdenum using ceric sulfate, 22:4025
effects on dissolution of aluminum by nitric acid, catalytic, 22:27845 (CEA-N-816, pp 150-276)
effects on embrittlement of dilute zinc alloys, 25:27243
effects on extraction—absorptiometric determination of trace amounts of copper using 4-(2-pyridylazo) resorcinol, 24:11436
effects on failure of cadmium under stress, 25:27243
effects on gravimetric determination of tellurium, 25:12943
effects on lead-210 exchange between chlorotriphenyllead and hexaphenyldilead, 23:156
effects on melting point and transformation temperature of praseodymium, 24:17308 (IS-T-328)
effects on mitochondria isolated from rat liver, 21:22243 (UCRL-50168)
effects on performance of cesium plasma diodes, 25:14085
effects on photometric determination of antimony following solvent extraction using TBP, 25:34512
effects on photometric determination of molybdenum and vanadium in catalysts, 24:11415
effects on photometric determination of molybdenum as extracted dithiol complexes, 24:38717
effects on photometric titration of thallium with cerium, 22:8019
effects on reactor materials, 21:14788
effects on separation of zirconium from plutonium by solvent extraction, 21:40763 (LA-3743)
effects on solvent extraction of titanium from hydrochloric acid using TBP and magnesium chloride as salting-out agent, 23:24281
effects on spectrofluorimetric determination of trace amounts of zirconium, 24:29189
effects on spectrophosphorimetric determination of niobium, 24:29185
effects on spectrophotometric determination of beryllium, 24:7411
effects on spectrophotometric determination of iron in plutonium, 22:10172 (LA-3781)
effects on spectrophotometric determination of scandium using Eriochrome Brilliant Violet B, 24:18881
effects on spectrophotometric determination of scandium using Eriochrome Azurol G, 23:49715
effects on spectrophotometric determination of tantalum using Victoria Blue B, 23:2247
effects on spectrophotometric determination of tin, 24:26980
effects on spectrophotometric determination of trace amounts of ruthenium using 4,4,4-trifluoro-1-(2-thienyl)-1,3-butanedione, 22:22975
effects on spectrophotometric determination of zirconium and fluorine, 25:31802
effects on spectrophotometric determination of zirconium using bromopyrogallol red, 23:49713
effects on substoichiometric determination of cadmium in biological materials by isotopic dilution, 23:17342
effects on superconducting transition temperature of thallium, 22:46067
effects on thermal conductivity of normal and superconducting tin, 21:15064
effects on thermoluminescence and thermoelectron emission of irradiated lithium fluoride crystals, 24:47313
effects on titrimetric determination of lanthanum using sodium rhodizonate and ceric sulfate, 22:27555
effects on titrimetric determination of uranium, 25:39411(R) (NBL-258)
effects on titrimetric determination of uranium, 22:22972
effects on topology of Fermi surface of indium, 23:42502
effects on uv spectrophotometric determination of gallium in aqueous solutions, 25:2100
electric conductivity of liquid, review of data on, 23:12316
electric conductivity of liquid, temperature effects on, (E/T), 21:20488 (COO-841-6)
electric conductivity of, empirical relation for, 21:21922(T) (AWRE-Trans-52)
electric conductivity of, relations with Fermi energy, 22:38510 (BNL-50082, pp 93-152)
electric discharge in, effect of dc conductivity on oscillations in, (E), 23:32529
electric discharges in, current and velocity fields between electrodes, (E/T), 25:11761
electric discharges in, density measurement in, 21:31418
electric discharges in, excitation abundance in, 21:26981
electric discharges in, instabilities in positive column, (E/T), 22:1272(R) (SU-IPR-198)
electric discharges in, ion oscillation intensity in hot cathode, 21:15174
electric discharges in, if helical waves in low pressure, (E), 23:39502 (SU-IPR-300)
electric discharges in, microwave field effects on density distribution in, 22:3095
electric half-wave potential for, in lithium perchlorate in butyl phosphate, voltammetric studies on, 24:18878
electroacoustic resonance in plasma of, surrounding metallic cylinder, (E), 22:52793

electromigration of gold and silver in, 23:41528 (BNL-50149, pp 89-122)
electron band structure and Fermi surfaces of, relativistic effects on, (T), 21:42209
electron beam interactions with plasma of, properties from transverse modulated, 21:37454 (SU-IPR-141)
electron binding energy in, K-shell, (T), 24:30141 (COO-427-99)
electron elastic and inelastic scattering at 20 to 300 eV by, angular distributions at 20 to 155° for, (E), 24:15160
electron elastic scattering at 0.25 to 8 eV by, exchange effects in relativistic and nonrelativistic calculation of cross sections for, 25:1001
electron elastic scattering at 100 to 2000 eV by atoms of, angular and energy dependence of Mott polarization in, (T), 22:5091
electron elastic scattering at 25 to 150 eV by atoms of, comparison of static potential approximation with measured differential cross sections for, 23:18432
electron elastic scattering at 25 to 800 eV by, tables of amplitudes and spin polarizations for, (T), 25:13995 (AD-711664)
electron elastic scattering at 300, 400, and 500 eV by vapor of, absolute differential cross sections for, (E), 24:3177
electron elastic scattering at 46 to 204 keV, cross sections for, (E), 22:31623
electron elastic scattering at 46 to 204 keV, cross sections for, (T), 22:31622
electron elastic scattering at low energies by, effects of electron exchange and polarization of shell electrons on spin polarization and differential cross sections for, (T), 24:6362
electron energy losses in liquid, characteristic 8-keV, 23:3299
electron exchange potential in, Hartree—Fock calculation for, 22:38781
electron inelastic scattering by excited $^3P_1$ atoms of, cross sections for, (E), 22:1018
electron inelastic scattering by excited, second kind, 21:33204
electron radial distribution functions for, calculation from relativistic Hartree—Fock wave functions, 24:15170 (CEA-R-3929)
electron reactions at 0 to 260 eV with, cross sections for production of excited ions in, (E), 24:39876
electron reactions at 25 to 180 eV with, angular dependence of electron spin polarization with excitation in, (E), 24:35197
electron reactions at 25 to 180 eV with, differential cross sections and angular dependences of spin polarization in, (E), 25:14039
electron reactions at 4 to 15 eV with atomic, cross sections for production of metastable atoms in, (E), 23:20710
electron reactions at 5 to 30 eV with, polarization of radiation emitted in, (E), 24:12637
electron reactions at 50 eV with, angular correlation of photons emitted by excited atoms from, (E), 25:9206
electron reactions at 50 to 300 eV with vapor of, oscillator strengths and relative cross sections from spectra of, 23:32160
electron reactions at low energies with, polarization of light from, (E), 23:39294
electron reactions in eV range with, binary-encounter model calculations of cross sections for excitation and ionization in, 23:41971
electron reactions up to 30 eV with, polarization of spectral lines excited by, (E), 25:984 (NP-18463)
electron reactions up to 80 eV with, excitation cross sections for, 21:28976
electron reactions with atomic, ionization potentials for, 23:3270
electron reactions with atomic, rf resonance of 6^3P_2 state for, (E/T), 22:36711 (UCRL-18178)
electron reactions with normal and metastable atoms of, formation of excited 6 $^3P(^1/_2)$ ions from, 22:41319
electron reactions with vapor of, polarization of $L\alpha_1$ x rays from, (E), 25:7177
electron reactions with, anomalous energy effects on polarization of radiation from, 22:15335
electron reactions with, calculation of cross sections for excitation in, 24:17659
electron reactions with, coherent excitation of $^3P_2$ state by, 21:43825
electron reactions with, cross sections for excitation of 6^3D_3, 6^3D_2, 7^3P_2, and 7^1S_0 levels by, (E), 21:18466
electron reactions with, excitation function of metastable 6^3P_0 level in, (E), 24:51434
electron reactions with, excitation in, (E), 25:58741
electron reactions with, excitation of levels by, (E), 22:41325
electron reactions with, excitation of Rydberg states in, (E), 22:19794
electron reactions with, intermediate-coupling approximation of Born effective cross sections for excitation of fine-structure components of, 25:45308
electron reactions with, paramagnetic rf resonance of metastable state from, 22:41326
electron reactions with, production of polarized Hg^+ by stepwise excitation and ionization in, (E), 23:39334
electron scattering at 180 to 900 eV, angular distribution and spin polarization from, (E), 22:13249
electron scattering at 3.5 to 500 eV by, exchange and relativistic effects on differential cross sections and spin polarizations for, (T), 23:22875
electron scattering at 300 to 900 eV in solid targets of, spin polarization after elastic, (E), 21:28965
electron scattering at 340 eV by, relation of spin polarization to scattering potential in, 23:8474
electron scattering at 6.75 eV by atomic beams of, production of low-energy polarized electron beams from, 23:41973
electron scattering at low energies by, applicability of Hartree potential to polarization in, (E/T), 21:33158
electron scattering at low energies by, effects of atomic distortion in, (T), 24:35200
electron scattering below 10 keV on, ionization cross sections in, (T), 21:31233
electron scattering below 200 eV by, comparison between relativistic and nonrelativistic theory for, 22:52535
electron scattering by, angular distributions in elastic and inelastic, 21:37180
electron superelastic scattering at low energies by excited atoms of, (E), 25:35872
electron tunneling below 0.4°K into films of superconducting, 24:15245
electron tunneling into films of superconducting, below 1°K, (E/T), 24:21720
electrophoretic mobility in acetate buffers, 22:27567
energy balance in wall-stabilized arcs, radiation component of, (E/T), 23:23103
energy level lifetimes of, measurement using Hanle effect, 21:41795
energy level orientation of, collisional effects on 6^3P_1, 21:46130
energy levels of atomic, (T), 21:24889 (CEA-Bib-89)
energy levels of atomic, proton excitation of 6^1P_1 and 6^3P_1, (T), 22:29682
energy levels of, collisional destruction of 6 $^3P_1$, 24:19744(R) (ORO-3650-3)
energy levels of, radiative lifetime measurements and absorption f values for excited atomic, 23:12523 (UCRL-18419)
energy levels using optical methods of Hertzian spectroscopy, atomic, 22:50021
energy of, calculation from relativistic Hartree—Fock wave functions, 24:15170 (CEA-R-3929)
energy-level excitation by neutron capture gamma rays, (E), 25:15002
energy-level transitions in x-ray emission, relativistic Hartree—Fock—Slater calculations of rates of, 24:32630
energy-level transitions in, corrections to fluorescence yield and probability of L_1-subshell Coster—Kronig, 25:52608
energy-level transitions in, rates of Auger and x-ray, (T), 25:11685
equations of state for, constants for, 22:32735 (ANL-7310, pp 249-375)
erosive effects on journal bearings, (E), 22:8271
erosive effects on metals, 21:1863 (NP-16274)
erosive effects on stainless steel, review of cavitation-type, 23:48314 (BNL-50190)
erosive effects on turbines, literature survey on, 22:36432 (ORNL-TM-2088)
evaporation of droplets of, effects of oxides and surface roughness on, 21:34397(R) (SAN-677-11)
excretion in human urine, use of, in industrial hygiene, 23:7996 (LA-DC-9774)
extraction properties of, in separation and determination of radioisotopes, 21:1276
fabrication of wires of, by casting and extrusion, 21:35918(R) (NYO-2082-12)
Fermi surfaces and relativistic energy bands of, 21:11688 (IS-T-109)
fission of, lower limit on half-life for spontaneous, (E), 25:36779
fission of, particle tracks for spontaneous, (E), 24:8886 (JINR-P15-4738)
flow in annular discharge gaps, MHD, (T), 22:2906
flow in boilers, review of x-ray evaluation of, 25:2600 (BNL-50258)
flow in cavitating venturi, choked flow analogy for very low quality, 21:34403
flow in channels, effect of transverse magnetic field on turbulent velocity pulsations in, (E), 25:45344
flow in circular pipes, drag coefficient for MHD, (E), 22:11304
flow in flat channels, (E/T), 21:20835
flow in MHD channel of rectangular cross section, steady-state, (E), 22:15405
flow in narrow annular channels, heat transfer with turbulent, 21:28158(T) (AD-645794, pp 121-30)
flow in pipes, pressure drop and velocity profile of fully developed, 25:4207
flow in rotated torus, magnetohydrodynamic, (E/T), 23:48793
flow in rotating torus with inductive force transmission with azimuthal magnetic field, 23:16701
flow in trough in transverse magnetic field, unsteady, (E/T), 25:19553
flow in tubes, heat transfer and pressure drop in laminar and turbulent, (E), 21:26044 (BMwF-FBK-67-05)
flow of, effect of traveling magnetic field on MHD, (E), 22:9170
flow of, effects of longitudinal magnetic field on laminar—turbulent transition in, 25:7217
flow of, turbulent MHD, 22:2900
flow through circular pipes in transverse magnetic fields, 24:3226
flow through transverse magnetic field, factors affecting types of, (E), 24:23851
flow velocity in rectangular duct, stability of, 22:5209
flow velocity profile formation during expansion or restriction of MHD current, M-form, (E/T), 25:45345
flow, capillary rising in MHD, (T), 21:20838
fluorescence and Coster—Kronig yields of L subshells in, from decay of gold-198 and thallium-204, (E), 25:15015
fluorescence in hydrochloric acid medium at liquid-nitrogen temperature, 23:9376
gamma differential elastic scattering cross section at 1.33 MeV, (E), 22:32647
gamma resonance scattering at 5 to 9 MeV, spectra for, (E), 23:31036
gamma spectra in neutron-irradiated biological materials, 24:31255 (JUL-559-ME)
half-life in Pacific oyster, biological, 25:37218 (RLO-2225-T-1-5)
handling in heat transfer studies, methods for safe, 25:15826(R) (RLO-2227-T-4-1)
hazards of environmental, 25:18290 (ORNL-NSF-EP-1)
hazards of, review on, 25:31866
heat transfer by, 22:647(R) (BNL-50077)
heat transfer evaluation for boiler design, 21:43552 (BNL-50068)
heat transfer from rod bundles to, effects of central rod displacement on, 22:37900 (BNL-50082, pp 153-80)
heat transfer from rod bundles to, effects of rod cladding and position on, 24:4406
heat transfer from unbaffled rod bundles to flowing, effects of rod displacements on, 24:46422
heat transfer from unbaffled rod bundles to, effects of rod displacements on, 25:23734 (CONF-681209-4)
heat transfer in closed vertical rectangular channel, transient and steady-state natural convection, (E), 24:33306
heat transfer in forced flow boiling, in multi-tubed boiler, 21:12575(R) (SAN-677-3)
heat transfer in liquid, flowing in vertical rectangular channels, (E/T), 23:2495 (ANL-7452)
heat transfer in MHD pipe flow of, in transverse magnetic field, (E), 25:45339
heat transfer in pool boiling sodium-containing, effects of pressure and sodium content on, 23:17681
heat transfer in pool boiling, effects of pressure on, 23:17681
heat transfer in, effects of base metal contaminants on, 25:15826(R) (RLO-2227-T-4-1)
heat transfer in, measurement of natural convection, 25:15826(R) (RLO-2227-T-4-1)
heat transfer in, measurement of transient and steady-state free convection, 23:35411
heat transfer of boiling, flowing in tubes, 22:47285(R) (SAN-677-29)
heat transfer onset in bottom-heated vertical cylinders of, model for convective, 24:17191 (IS-2100, Sect. M)
heat transfer to boiling and nonboiling, from tube walls, 22:14668(T) (BNL-tr-176)
heat transfer to droplets of, effect of surface material, roughness, and temperature on, (E), 22:10485(R) (SAN-677-15)
helium-metastable-atom reactions at thermal energies with, energy distribution of electrons from Penning ionization in, (E), 23:48737
hydrogen-atom scattering at 0.1 to 1 eV by, total cross sections for, (E), 24:23775
hyperfine magnetic field in cobalt host lattice, (E), 25:25768
hyperfine magnetic field in iron at room temperature, (E), 24:14058
hyperfine magnetic field in iron host lattice, (E), 25:25768
hyperfine magnetic field in nickel host lattice, (E), 25:25768
hypersonic attenuation in superconducting, (E), 22:24234
intermolecular forces between lithium and, determination from molecular-beam scattering data, 23:5249
internal conversion coefficients for K- and L-shells of, dependence on γ transition energies, 25:15054
internal conversion coefficients for, K-, L-, and M-, (T), 22:35361
intrusion in graphite, effects on accuracy of porosimetry measurements, 23:20547
inventory of, in industrial chlorine cell, use of radioactive mercury tracer to measure, 21:16077
iodine ion charge transfer in supersonic jet of, 24- to 75-MeV, (E), 22:9031
ion exchange behavior in ethanol—hydrochloric acid, 23:19837
ion exchange behavior on Dowex A-1 aminodiacetate salt resin, 24:14001(T) (UCRL-Trans-10426)
ion exchange with mercury compounds, isotope separation by, 21:36094
ion exchange with metal ions, separation of isotopes by, 21:36093
ion—acoustic wave propagation in low pressure discharges of, 21:18657 (AD-637229)
ion-exchange behavior on ammonium 12-molybdophosphate, 25:44319
ionization by collision with metastable helium atoms, measurement of energies of electrons released in, (E), 22:52542
ionization of vapor, in nuclear reactors, (E), 23:42014
isotope shifts in hfs, 22:9101
isotopic exchange between organomercuric halides and elemental, kinetics of, 22:4157
isotopic exchange between, and mercury ions or complexes, 21:23834
level in electrolytic cells, mercury-197 tracer measurements of, 24:39147 (PRNC-135, pp 375-82)
lithium atom scattering at very low energies by, cross section measurements for, 21:33147
luminescence capture by vapors of, phase leads from rapid Langmuir processes in resonance, (T), 23:6880
luminescence in acetylene—air and acetylene—argon—oxygen flames, 24:31226
magnetic energy states of metastable $^3P_2$, intensity beats in resonance absorption by, (E), 21:43755 (UCRL-17697)
magnetic response of superconducting, and superheating and supercooling critical fields, (E/T), 25:17094
magnetization curves of superconducting, containing magnetic inclusions, (E), 25:11840
magnetohydrodynamic flow in conduits with conductive and nonconductive walls, 21:35072
magnetohydrodynamic flow in inductive pipes, (E/T), 21:5125
magnetohydrodynamic flow in pipes, resistance of, 21:3741
magnetohydrodynamic flow of turbulent jet of, in coaxial magnetic field, 21:33243
magnetohydrodynamic flow of, resistance of sphere in, 21:24971
mercury-203 exchange between organomercury compounds and, kinetics of, 25:6308

mercury-203 exchange between vapors of, and aqueous solutions of mercury ions, 21:21954
mercury-203 exchange between, and arylmercury compounds, kinetics of, 21:27958
mercury-ion reactions with, charge-exchange cross sections for, (T), 25:43157
meson (π) reactions with, 5g—4f x rays from, 22:47838
neutron absorption cross section at 24 keV, measurement using transmission method in spherical geometry, (E), 22:18288
neutron absorption in finite cylinders of, self-shielding in thermal-, (T), 24:49238
neutron capture at 30 keV, γ transition strengths in, (E), 22:27100
neutron capture by, γ spectra from thermal and resonance, (E), 23:23746(R) (AECL-3257)
neutron capture cross section at 4 to 2000 eV, (E), 23:37160
neutron capture up to 300 eV, γ spectra for, (E), 23:52128
neutron capture using polarized beam, γ circular polarization from thermal, (E), 22:37340(R) (EANDC(E)-89(U))
neutron coherent scattering amplitude of, measurement by mirror reflection, (E), 22:48431
neutron differential elastic scattering cross section at 0.65 MeV, angular distribution for, (E), 23:10959(T) (BNL-tr-242)
neutron differential elastic scattering cross section at 0.3 MeV, angular distribution for, (E), 23:10958(T) (BNL-tr-232)
neutron elastic scattering at 1.0 to 14.0 MeV, evaluated angular distributions for, (E), 21:31736 (NAA-SR-11980(Vol.4))
neutron elastic scattering at 4.4, 5.0, and 5.5 MeV, polarization in, (E), 21:13840
neutron elastic scattering by, intermediate structure in fast, (E), 21:17386
neutron inelastic scattering at 14 MeV, (E), 21:12063
neutron inelastic scattering at 14 MeV, optical-model analysis using Woods—Saxon potential, (T), 24:8845
neutron reactions (n,γ) at thermal energies, tabulation of prompt gamma spectra from, 21:13823 (IITRI-1193-53(Vols.1 and 2))
neutron reactions at 1.00 to 2.00 MeV, total cross sections for, (E), 25:53728 (AECD/EP-18)
neutron reactions at 14 MeV, production of 100-μs isomer in mercury-201 by, (E), 21:2728
neutron scattering length in, slow, (E), 23:49332(R) (EANDC(E)-115(U))
neutron total cross section at 100 to 650 keV, optical model analysis of average, (E/T), 25:43908
neutron total cross section at 14.7 MeV, (E), 22:44649
neutron total cross section at 30 to 650 keV, (E), 22:20578 (WASH-1079)
neutron total cross section at 30 to 650 keV, average, (E), 22:22560(R) (ORO-1067-2)
neutron total cross sections at 0.1 to 0.6 MeV, (E), 21:25518 (WASH-1071)
neutron total cross sections at 30 to 650 keV, analysis for strength functions, (E/T), 22:30015
neutron total cross sections at 30 to 650 keV, optical-model parameters from, (E/T), 21:19290
nucleon spallation to terbium-149, use as threshold detector of neutron and proton flux, 21:28216 (UCRL-17505)
oxidation of Hg_2^{2+}, by S_2O_8, rate of, 24:13725 (USC-113-P-4-15)
oxidation states of, methods for determination of, 23:13645
performance as coolant for fused-salt breeder reactors, 21:23643
performance as heat pipe working fluid, 22:47284(R) (LA-3986)
performance as Rankine cycle working fluid, steady state and transient, 22:35992(R) (SAN-677-25)
performance as working fluid in heat pipe, effects of fluid pressure conditions on, 23:7691 (LA-4039)
performance as working fluid in Rankine cycle radioisotope power systems for satellites, 21:41157
performance in microwave-driven cyclotron resonance plasma accelerators, 21:29222(R) (NASA-CR-72227)
phase diagram of, effects of pressure and temperature on, 24:25736
phase distribution of boiling, flowing in tubes, 22:47285(R) (SAN-677-29)
photofission at 300 to 1000 MeV, cross sections for, (E), 25:50737
photoinduced reactions with ethylene at 24 to 50°K, spectral studies on uv, 24:46244(R) (COO-584-46)
photoionization of high-temperature vapors of, 23:17103(R) (ANL-7481)
photon elastic scattering at 90 and 124.5° and 1.12 and 1.33 MeV, Delbrueck and Rayleigh amplitudes for, (E), 25:17795
photon inelastic scattering at 6.1 to 7.1 MeV, gamma spectra from, (E/T), 25:31303 (INR-1271)
photon reactions (γ,n) with, angular distributions and spectra for, (E), 21:27569 (MIT-2098-299, pp 19-34)
photon reactions with, activation cross sections and γ spectra for, (E), 21:46735
photon reactions with, effective atomic number for γ, (T), 24:39826
photon reactions with, yields of x radiation from L_1 and L_2 subshells in, (E), 23:8476
pinch effect in, effects of viscosity and conductivity on stability of, (E/T), 23:14774
plasma of, afterglow decay of electron density and temperature in, (E/T), 21:9569
plasma of, afterglow of pulsed discharge in, 22:7326
plasma of, anomalous diffusion in afterglow discharges, (E), 24:37451
plasma of, anti-drift waves in positive column, (E/T), 25:3163
plasma of, axisymmetric modes of lf waves in positive column, (T), 23:18697
plasma of, composition at 1,000 to 15,000°K and 10 torr and 50 atm, 23:6979
plasma of, critical fields and ion-acoustic instability in hf discharges, (E/T), 23:51696
plasma of, deionization in, (T), 21:25161
plasma of, density and potential distribution in beam-produced, (T), 23:48883
plasma of, dispersion relations for moving striations in, (T), 21:25144
plasma of, drift in stability of discharge, (T), 21:5312
plasma of, effects of lf electric fields on luminescence from, 24:17918
plasma of, electromagnetic wave propagation in circular column of, (E), 22:24338
plasma of, electron beam interactions with, transverse modulation effects on, (E), 22:1198
plasma of, electron density and radial distribution measurements in column, (E), 23:34391
plasma of, electron density in shf discharge, 21:44041
plasma of, electron drift velocity and mean free path, (E/T), 22:17638
plasma of, electron-beam interactions in, (E), 21:16906
plasma of, formation of 6 $^3P(^1/_2)$ excited state of mercury ions in gas-discharge, 22:41319
plasma of, free-fall theory for electron density decay in, (T), 23:16825
plasma of, growth and damping rates of resistive instabilities in crossed fields, (E), 23:14817
plasma of, harmonics in ion wave propagation in, (E/T), 22:41574
plasma of, instabilities from slow electron beam interactions, (E), 25:9447
plasma of, interactions in cold vapor discharge, 24:1396
plasma of, internal resonances in, (E), 23:20911
plasma of, ion resonance observation by rf probe, 21:2209
plasma of, ion—acoustic wave propagation in collision-dominated, (E/T), 23:12800
plasma of, Landau dispersion equation for ion-wave instabilities in, 21:40027
plasma of, Langmuir probe diagnosis of arc, (E), 23:18598 (AD-673699)
plasma of, large-amplitude ion waves in decaying, (E), 24:26263
plasma of, low-frequency oscillations excited by microwaves, (E), 24:15364
plasma of, low-frequency waves and instabilities in positive column, (E), 24:8503
plasma of, microwave analysis of surface wave damping in, (E/T), 24:35392
plasma of, microwave measurement of electron density in, 22:22152
plasma of, microwave measurement of electron density profile, 22:34617
plasma of, microwave measurements of electron density in discharge, (E), 25:25093
plasma of, microwave scattering for density measurements in positive columns, (E), 24:51628
plasma of, microwave scattering under free-space conditions from, 24:8510
plasma of, noncollisional damping in, (T), 23:18688 (CONF-680113-(Vol.1), pp 499-502)
plasma of, oscillations from collision-induced instabilities in, (E), 25:27802
plasma of, parametric excitation of ion waves in discharge, (E), 25:49949
plasma of, parametric excitation of ion waves in, (E), 22:41619
plasma of, parametric excitation of oscillations in, (E), 21:37458
plasma of, pressure effects on probe measurements in discharge, (E), 25:33240
plasma of, production and properties from ion beams, (E), 23:42328 (CEA-R-3724)
plasma of, production in shock tubes, 21:13599(R) (AD-640245)
plasma of, properties in hf discharges at electron cyclotron resonance, (E/T), 25:47517
plasma of, radial temperature distribution in arcs, 24:28299
plasma of, radiations from high density, (E), 23:18629(T) (UCRL-Trans-10325)
plasma of, rf probe measurement of space potential of, (E), 24:12795
plasma of, sheath growth in discharge, (E), 23:20905
plasma of, spectroscopic studies of spark discharges, (E/T), 23:32351
plasma of, surface wave propagation on inhomogeneous positive column, (T), 24:15309
plasma of, theory for weakly ionized strongly interacting, 24:40082
plasma of, thermal conductivity of, (E), 21:39987(T) (AD-653555)
plasma of, Tonks—Dattner resonances in discharge, (E), 24:1464
plasma of, use in MHD converters of cesium-seeded, instability effects on, (T), 22:5179(T) (CEA-tr-R-1901)
poisoning by, activation method for detection of, 21:39145
polarizabilities of metastable, tensor, (E), 21:41751(R) (AD-646244)
positron annihilation in liquid and solid, angular correlation of gamma rays from, (E), 22:15372
positron annihilation in solid and liquid, gamma angular correlation from, (E), 22:9090
potassium reactions at 6 to 2300 eV, quantum effects on cross sections for, (E/T), 22:19771
potential for, method for modeling l = 2 component of, 25:56387
precipitation of, by hydroxides, oxalates, 8-quinolinol, sulfates, and sulfides in ethylenedinitrilotetraacetic acid, 21:1342
preparation of thick samples of, by powder metallurgy, 25:58181 (CONF-711002-, pp 77-81)
production and occurrence in South Africa, 21:36779 (PEL-74)
properties as heat pipe fluid, 24:13679 (LA-4300)
properties as working fluid in Rankine power cycle, 21:19843(R) (SAN-677-6)
properties for use as heat transfer medium in space power systems, review of, 24:51149 (AD-473754)
properties for use as nuclear coolant, review of, 25:49428
properties for use as reactor material, 21:36779 (PEL-74)
properties for use in thermoelectric converter heat pipes, 24:31533(R) (LA-4446)
properties of Hg_2^{2+}, in chloroaluminates, 25:15567(R) (ORO-3518-19)
proton reactions at 10 MeV, production of short-lived isomer by, (E), 22:24874
proton reactions with atomic, excitation of 6^1P_1 and 6^3P_1 levels from, (T), 22:29682
pump for boiling, development of thermoelectric, 21:16043 (NAA-SR-Memo-11350)
pumping of liquid, feasibility of gas lift for, 24:22731 (ORNL-4366, pp 41-98)
quenching of $Hg(6^3P_0)$ atoms by hydrogen and hydrocarbons, effects of deuterium on, 24:48086
radiation effects on impedance at interface of, and electrolytes, gamma, 21:32210
radiation effects on transition in superconducting colloid of, beta, 21:31362
radiochemistry of, review on, 25:4133 (NAS-NS-3026(Rev.))
radioinduced iodination of, kinetics of γ, 22:4206
radioinduced ionization of, as function of initial inner-shell vacancies, x, (E), 21:2037
radiolysis of silver-containing glassy salt solutions, ESR spectral studies on $(AgHg^{2+})$ from γ, 24:38945
Raman transition, photon polarization in, (T), 25:40837 (EUR-CEA-FC-594)
rare gas atom reactions with, cross sections for transitions between fine structure components in, 22:11205
reactions of $(^1P_1)$, with hydrocarbons, quenching cross sections for, 21:35990(R) (RRL-2310-208)
reactions of (6^3P_0) atoms of, in presence of nitrogen, 22:11230
reactions of atoms of, with cadmium atoms, coherence transfer in, (E), 21:20734
reactions of excited atoms in vapors of, cross sections for associative ionization in, (E), 22:21851
reactions of liquid, with refractory metals at high temperatures, 21:30963
reactions of metastable 6^3P_2 atoms of, with rare gases, cross sections for deorientation in, (E), 23:5219
reactions with 8-aminoquinoline, effects of acetic acid, ammonia, hydrochloric acid, and sodium hydroxide solutions on, 24:16539
reactions with adsorbed hydrogen on zinc oxide, conductivity enhancement in, 23:7043
reactions with atomic helium, potentials for, (T), 21:6992
reactions with polonium in acid solutions, kinetics of reduction, 24:38835
reactions with rare earth and uranium hydrides, dispersion, 21:53
reactions with rare gases, cross sections for, 22:7178
reactions with sulfonated polyethylene for use as neutron absorber, 23:26241(P)
reactions with zinc atoms, effective cross sections for second-order, (E), 22:29220
reactivity control in fuel assemblies by, 21:38773(P)
reduction in molten chlorides, electrochemical, 24:9272(R) (ORO-3518-13)
removal from SNAP-8 containment materials, effects of nitric acid on, 21:20472(R) (NASA-CR-72146)
safety hazards from, use of activation analysis for evaluation of industrial, 23:4575
scattering by sodium atoms, crossed-beam measurements of differential cross sections and intermolecular potentials for, 25:19496
scattering on cesium and potassium atoms, total cross sections for, 21:616
separation by ion exchange using Alamine 336 in aqueous thiocyanate solutions, 25:4137 (IS-T-377)
separation by ion exchange, role of complexation reactions in, 22:33517
separation by solvent extraction using various solvents, 21:30522
separation by thin-layer chromatography using slightly basic ion exchanger, effects of organic solvents on, 24:16661
separation from acetone—hydrochloric acid solutions by ion exchange using Bio-Rad, distribution coefficients for, 25:41899
separation from acid solutions by extraction using polyglycol, 21:25956
separation from acid solutions by solvent extraction using alkyl sulfoxides, 24:16485 (IS-2100, Sect. C)
separation from acid solutions, comparison of amine extraction and ion-exchange sorption for, 21:45224
separation from acidic aqueous solutions by solvent extraction using Alamine 336 thiocyanate, 24:16485 (IS-2100, Sect. C)
separation from antimony, arsenic, gallium, and iron by solvent extraction, 25:29031
separation from aqueous nitrate or sulfate solutions by solvent extraction using amines, 24:270 (ORNL-4422, pp 252-71)
separation from aqueous solutions by ion exchange on zirconium tellurate, tracer studies on, 25:41915
separation from aqueous solutions by solvent extraction using Amberlite LA-2, distribution of iodide complexes in, 22:18886
separation from aqueous solutions by solvent extraction using benzoylphenylhydroxylamine, 25:46545
separation from aqueous wastes from fuel reprocessing by reduction with hydrazine, 23:40848(P)
separation from cadmium, effects of eluent on ion exchange, 24:27204
separation from cobalt by paper chromatography using phenylbenzohydroxamic acid, 21:23849

separation from cobalt, cation-exchange method for, 21: 32252
separation from copper or tin in hydrochloric acid solution, ion exchange, 22:40192
separation from dimethyl sulfoxide—hydrochloric acid—water solutions by cation exchange, 23:11625
separation from fission product solutions, batch and continuous processes for, 22:27849 (CEA-N-816, pp 415-80)
separation from fission product solutions, method for, 22:25456 (CEA-N-616, pp 369-434)
separation from germanium by precipitation, 22:50932
separation from gold by paper chromatography using phenylbenzohydroxamic acid, 21:23849
separation from hydrochloric acid by solvent extraction using chloroform—N-phenylbenzohydroxamic acid system, 23:11400 (GAT-525)
separation from iron by paper chromatography using phenylbenzohydroxamic acid, 21:23849
separation from lead spallation products by extraction as dithizonate complex, 23:45371 (UJV-2204-Ch)
separation from metal mixtures using ammonium thiocyanate, hydrazine sulfate, hydroxylamine chloride, or sodium azide, electrochromatographic, 24:50454
separation from metallic mixtures by solvent extraction using cupferron, systematic scheme for, 22:6416
separation from metallic mixtures, metallochromic indicators for use in, 21:32139 (COO-676-1)
separation from metals by reversed-phase column chromatography or solvent extraction using sulfoxides, 23:43382 (IS-T-293)
separation from metals by thin-layer chromatography using DEAE-cellulose in binary solvent systems, 24: 22762
separation from metals by thin-layer chromatography, 24:25107
separation from metals using tributyl phosphate and aqueous hydrochloric acid solutions, reversed-phase thin-layer chromatographic, 21:32230
separation from nitrate solutions by chromatography using trihexylamine nitrate, effects of diluents on, 24: 46325
separation from nitrate solutions by solvent extraction using diethylammonium diethyldithiocarbamate in chloroform, 24:16635
separation from nitric acid solutions by cation exchange using EDTA eluant, 24:44071
separation from other elements by ion exchange, 25: 4133 (NAS-NS-3026(Rev.))
separation from other metals by chromatography on stannic phosphate and stannic tungstate papers, 22: 4248
separation from other metals by paper chromatography, 22:4248
separation from other metals by radial paper chromatography, 25:35
separation from oxalic acid by anion exchange, distribution coefficients in, 22:33520
separation from proteins by chelation with penicillamine or N-acetylpenicillamine, 24:16651
separation from reactor cooling gases by combustion on catalyst, 25:41914(P)
separation from sea water by solvent extraction using dithizone, 22:23086 (ANL-7421)
separation from sea water by solvent extraction using TTA, 22:23086 (ANL-7421)
separation from seawater by sorption on Chelex 100 ion exchanger, 22:33477 (AD-663129)
separation from silver by extraction chromatography using dithizone in carbon tetrachloride, 25:48572
separation from silver by paper chromatography using phenylbenzohydroxamic acid, 21:23849
separation from silver in nitric acid solution, 22:21151 (AERE-M-2008)
separation from solution containing lithium iodide, enthalpy of extraction using esters of phosphonic and phosphoric acids or trioctylphosphine oxide, 22:47209
separation from sulfuric acid solutions by solvent extraction using high-molecular-weight carboxylic acids, 25:37487
separation from sulfuric acid systems with hydrobromic acid or potassium iodide by solvent extraction using benzene, 22:16658
separation from tin by paper chromatography using phenylbenzohydroxamic acid, 21:23849
separation from tin by reversed-phase chromatography using aqueous hydrochloric acid, 21:40772 (IS-1600, Paper 3)
separation from titanium by paper chromatography, 22: 25257
separation from tungsten by paper chromatography, 22: 25257
separation from uranium and zirconium by thin-layer chromatography using chelating celluloses and sulfurated silica gel, 25:48586
separation from uranium by partition chromatography, 21:43018 (IS-T-174)
separation from uranium by precipitation using carbonates, 21:32110
separation from waste solutions by displacement with copper and aluminum, 21:131 (ORNL-TM-1584)
separation from waste solutions by electrochemical methods, 23:13824(R) (IN-1201)
separation of alkali metals from, by ion-exchange paper chromatography, 22:18881
separation of antimony from, by radiochromatography on substituted celluloses, 21:22021
separation of bismuth from, by cation exchange chromatography, 25:18520
separation of hafnium and zirconium from, by extraction using 4,4'-methylenediantipyrine in presence of nitrates, 23:4720
separation of ions of, from metal ions by high-voltage electrophoresis using carboxylic and hydroxycarboxylic acids, 25:34702
separation of iron from, aqueous solvents for use in paper chromatographic, 21:39012
separation of macro and tracer amounts of, from other ions by ion exchange in nitric acid—tetrahydrofuran containing dithizone, 23:4736
separation of monovalent and divalent, paper chromatographic, 25:10687
separation of trace amounts of, from brine, magnesium and sodium salt solutions, and seawater by chromatography on Chitosan, 24:22760
separation of trace amounts of, from rare earths, thin-layer chromatographic, 22:27881
separation of trace amounts of, from silver by thin-layer chromatography, 24:20869
separation of uranium from, by ion exchange column chromatography using Alamine 336, 24:38710 (IS-T-385)
separation of uranium from, by thin-layer chromatography, 21:25944
separation of uranium from, in methyl sulfoxide by cation exchange chromatography, 25:54728
separation of zirconium from, by thin-layer chromatography, 23:19848
separation of, from bismuth, cadmium, copper, and lead by thin-layer chromatography in hydrochloric acid, 21: 8213
separation of, from cadmium and zinc by thin-layer chromatography in hydrochloric acid, 21:8213
separation of, from other elements by reversed-phase partition chromatography using DEHPA-impregnated paper, 21:151
separation of, from other elements by thin-layer chromatography on silica gel impregnated with organophosphorus compounds, 21:152
separation of, from tin by reversed-phase chromatography, 21:1417 (IS-T-116)
sodium reactions at 6 to 2300 eV, quantum effects on cross sections for, (E/T), 22:19771
solubility in different solvents, effects of temperature on, 21:40772 (IS-1600, Paper 3)
solubility in organic solvents and water, thermodynamics of, 21:19587 (IS-T-119)
solvent properties for heat resisting metals and alloys used in loops at 500 to 750°C, 22:19078(R) (TID-11295(Pt.1)(5th Ed.))
solvent properties for liquid and solid gallium, 21: 35918(R) (NYO-2082-12)
solvent properties for magnesium fuel cans, 21:39021(P)
solvent properties for reactor fuel cladding, 22:4267(P)
solvent properties for use in radiochemical separations, 25:10490(T) (LIB/Trans-334)
sorption by ion exchangers in sodium salt form, chromatographic studies on, 24:22761
sorption by manganese dioxide from nitric acid, 22:157
sorption from acetic acid on Dowex 1-X8, 22:35914
sorption of trace amounts of, by silver halates, silver halides, and silver thiocyanates, kinetics of, 25:228
sound attenuation in superconducting at 9 GHz, 21: 37353
sound velocity in, as function of temperature, ultrasonic measurements on, 21:45068 (ANL-7325, pp 99-135)
spectra in discharge afterglows, line intensity in, 25: 14100
spectra in vacuum ultraviolet, absorption, (E), 23:14548
spectra of discharge, effect of specific pressure and electron impact broadening on, (E), 23:18378(T) (UCRL-Trans-10322)
spectra of electron-excited, relative intensities of L x-ray lines in, (E), 24:8324(T) (UCRL-Trans-10422)
spectra of, bibliography on optical, 24:37188 (NBS-SPEC. PUBL-306-3)
stability of nonuniformly rotating, magnetohydrodynamic, (E), 25:35946
superconducting condensation energy calculation, 25: 3046
superconducting critical temperature in porous glass filled with, (E/T), 24:26100
superconducting energy gap and transition temperature of, as functions of electron mean free path, (E), 24: 47164
superconducting Josephson effect in contacts with niobium, ac, (E), 25:36068
superconducting parameter calculations, 25:43305
superconducting properties of thin foils of, 23:6957
superconducting properties of, hydrostatic pressure dependence of, (T), 24:23914
superconducting properties of, with ferromagnetic inclusions, 25:40543
superconducting state parameters of, (T), 25:38304
superconducting transition temperature of layers of, dependence on thickness of, (E), 24:3273
superconducting transition temperature of, calculation as function of lattice disorder, 23:1309
superconducting transition temperature of, with admixtures, (E), 24:21706
superconducting transition temperatures of layers of lead and, as function of lead thickness, (E), 22:13393
superconductivity in, effect on creep of, (E), 24:32764
superconductivity of disordered films of, containing $HgBr_2$ or $HgCl_2$ additions, (E), 25:17109
superconductivity of, effect of lattice imperfections on, (E), 21:2184
superconductivity of, superheating, supercooling, and surface, (E/T), 25:7340
supercooling and superheating fields of, from 1.2°K to transition temperature, (E), 22:17577
supersaturation of vaporous, for use in turbines, 21: 19366 (NAA-SR-12049)
temperature of flowing, in vertical pipes with constant heat flux, 22:28006
thermal conductivity and convective capacity at critical point to melting point, 23:21886
thermal conductivity at liquid helium temperatures in normal and superconducting states, 24:39647
thermal conductivity of liquid, review of data on, 23: 12316
thermal diffusion of liquid, 22:42654(R) (NYO-2082-18)
thermodynamics of solution of, bibliography on, 21: 19587 (IS-T-119)
toxicity for aquatic animals, tracer studies of, 24:31897
toxicity for rats, combined effects of x radiation on, 24: 19352
toxicity in fish, tracer study on, 25:37716 (CONF-690527-, Paper 4)
ultrasonic attenuation in normal and superconducting single crystals of, longitudinal, (E/T), 25:19608
ultrasonic attenuation in superconducting, 22:29441
ultrasonic attenuation in superconducting pure and cadmium-doped crystals of, (E), 22:44055
ultrasonic longitudinal-wave attenuation in superconducting, (E/T), 24:42634
uptake and retention in oysters, 25:44888(R) (RLO-2225-T-1-8)
uptake by erythrocytes, mechanisms for membrane penetration during, 25:26609
uptake by fish, mercury-203 tracer studies on, 25:32350
use as intermediate complexing agent for labeling proteins with technetium, 23:16339
use as pumping fluid in ultrahigh vacuum system, 21: 6187
use as working fluid in 500 W Rankine cycle space power plant, 21:26113
use as working fluid in radioisotope-fueled turboelectric generators, 25:10788(P)
use as working fluid in Rankine system for SNAP-2, 21: 10503 (NAA-SR-12233)
use for bearing lubrication in combined rotating unit, 21: 34394 (NAA-SR-12411)
use for lubrication of rotor-bearing system of turboalternator in SNAP-2, 21:14355 (MTI-66TR66, pp 7.1.1-34)
use in mass-diffusion column for isotope separation, 21: 161
use in nuclear industry, hazards from, 21:36612
use in radiochemical separation of gold and platinum, 22:27575
vapor pressure of, method of measurement of, 22: 12214(T) (UCRL-Trans-10198)
vapor quality of boiling, flowing in tubes, 22:47285(R) (SAN-677-29)
vapor quality of boiling, flowing in tubes, 22:47285(R) (SAN-677-29)
vaporization from dilute solutions of, in different solvents, entropies and heats of, 21:40772 (IS-1600, Paper 3)
viscosity at 19°C, 21:34915(R) (NYO-2731-8)
viscosity of liquid, 21:17607 (NYO-2082-9)
work function on molybdenum and tungsten surfaces, 22:28804
x-ray emission from decay of K-shell vacancies in, relative rates of, (E), 25:16786
yields in γ radiolysis of liquid and solid dimethylmercury, effects of dose, radical scavengers, and temperature on, 23:268
yields in radiolysis of liquid dihexylmercury, 22:4202
effects on brittle fracture of zinc, 25:27243
MERCURY (PLANET)
atmosphere of, models for, (T), 25:19467
distance from Earth as test of general relativity theory, 21:13653 (AD-639733)
effects on sunspot relative daily numbers, (T), 22:34151
intensity during May 9, 1970 solar transit, (E), 25:49673
interior of, structure and composition of, (T), 24:30126
microwave observations at 3.5 and 19 mm of, (T), 22: 29002
microwave spectrum of, (E), 24:23729
motion of perihelion of, effect of solar oblateness on, (E), 21:15237
motion of, local global method in general relativity theory for, 24:1654
motion of, quasi-periodic variability of gravitational constant for solar activity correlation with anomalous, 23:46223
orbit of, effects of polar flattening of sun on, (T), 21: 13664
perhelion advance of, (T), 23:18367
perhelion of, excess motion of, (T), 22:11120
perhelion of, implications of solar oblateness for, (T), 21: 18393
perihelion advance in multitemporal relativity theory, Dicke effect for, 22:26711 (JINR-P2-3590, pp 201-10)
perihelion advance of, (T), 22:41258
perihelion advance of, and solar oblateness, (T), 22:8924
perihelion advance of, implications of solar oblateness for, (T), 22:36602
perihelion of, effect of nonzero cosmological constant on, (T), 21:46440
perihelion of, effects on differential rotation of Sun on advance of, (T), 25:58622
perihelion of, precession of, (T), 24:46985
perihelion precession of, heuristic derivation of, (T), 25: 3291
radar reflection from, verification of relativity theory by, (E), 22:41188
radio emission at 0.8 cm from, phase dependence of, (E), 22:52450
radio emission at 3.4 mm from, during 1965 and 1966, (E), 21:43704
radio emission from, brightness temperature of, (T), 23: 5201
radio emission from, microwave phase effect in, (T), 22: 5013
reflection of radio waves from, as it passes behind the Sun, (T), 21:37633
rotation and heating of, (T), 21:33060
rotation of orbit of, effect of solar oblateness on, (T), 21: 33061
solar transits of, determination of small-scale solar features from, (T), 23:25077
solar-wind interactions with, interior conductivity studies from, (E/T), 25:30389
sunspot intensity measurements during May 9, 1970 transit of, (E), 25:49674
surface layer of, properties of, (E), 22:52450
transit of, sunspot occultation effects on intensity measurements during, 25:40254

MERCURY ACETATES
effects on photo- and thermally catalyzed polymerization of 2-alkyl-l-vinylimidazole, 23:33187
radiolysis of alcoholic solutions of, γ, 22:45128
radiolysis of anhydrous, effects of crystal structure on yields of free radicals in, spectral studies on electron, 23:4645 (COO-1385-22)
use as pesticides in rice fields, effects of, on mercury content in rice grains, 21:28401
MERCURY ACETATES, p-METHOXYPHENYL-
isotopic exchange between elemental mercury and, 22:4157
MERCURY, ACETOXYARYL-
mercury-203 exchange between, and elemental mercury, kinetics of, 21:27958
MERCURY ACETATES, PHENYL-
effects on diffusion of water in corn roots, tritium tracer study of, 22:40597
radiation effects on content of, in river waters, 23:45408
radiation effects on, labeling with mercury-203 by neutron, 22:2109
toxicity of mercury-203-labeled, to man following ingestion of contaminated flour, calculations for, 25:8600
MERCURY, ACETOXYPHENYL-
uptake of mercury-203-labeled, by rice plants, 21:45543
MERCURY ALLOYS AND SYSTEMS
effects on stainless steel and tantalum alloys, cavitation, 22:2586
hardening of, use of beta backscatter for determination of effect of temperature on, 21:18108
radiation effects on dental, laser, 21:24334
radiation effects on, used in dentistry, description of laser, 21:17975
reactions with hafnium, niobium, tantalum, titanium, vanadium, and zirconium chlorides, production of alloys or metals by reduction, 23:48355(P)
reactivity control in fuel assemblies by, 21:38773(P)
solvent properties for use in radiochemical separations, 25:10490(T) (LIB/Trans-334)
alkali metals—Hg, reactions with rare earth ions, reduction, 22:50983
Ar—Hg, axial mixing in medium pressure discharges, (E/T), 23:34403
Ar—Hg, electric properties in positive column discharges, 23:5426
Ar—Hg, electron energy distribution in arc discharges, measurement of, 21:29216
Ar—Hg, striation dispersion and stability in discharge, (E), 23:44411
Au—Cd—Hg, formation of intermetallic compounds in, heat of, 24:44722
Au—Cd—Hg, phase studies of, 25:690
Au—Hg, electric conductivity of liquid, relations with Fermi energy, 22:38510 (BNL-50082, pp 93-152)
Au—Hg—Zn, formation of intermetallic compounds in, heat of, 24:44722
Bi—Cd—Hg, phase studies of, 25:19236
Bi—Hg, positron annihilation in liquid, gamma angular correlation from, (E), 22:9090
Cd—Hg, formation of intermetallic compounds of, effects of electronegativity difference on, 24:1039
Cd—Hg, Knight shift measurements in, 24:32923
Cd—Hg, magnetic susceptibility at 4.2°K, 24:18033
Cd—Hg, ordering of ω-phase, at 81°K, calorimetric study of long-range, 25:27248
Cd—Hg, ultrasonic attenuation in superconducting, 22:29441
Cd-base—Hg, galvanomagnetic properties of single crystals of, orientation dependence of 4.2°K, (E/T), 24:35548
$CdCO_3$—Hg, radiation effects on, ESR studies of electron-trapping by cations in γ, 24:11637
CdTe—Hg, analysis for tellurium by single-sweep polarography, 22:33283
Ce—Hg, phase diagram from amalgam decomposition temperatures, 21:4960
Ce—Hg, preparation and physical properties of intermetallic compounds of, 21:41615
Cl—He—Hg, photoinduced chemiluminescence in, 23:40616 (UCRL-18735, pp 5-80)
Cu—Hg—Zn, formation of intermetallic compounds in, heat of, 24:44722
Dy—Hg, phase diagram from amalgam decomposition temperatures, 21:4960
Er—Hg, phase diagram from amalgam decomposition temperatures, 21:4960
Gd—Hg, phase diagram from amalgam decomposition temperatures, 21:4960
He—Hg, electric properties in positive column discharges, (E/T), 23:5426
He—Hg, laser radiations from thermal-neutron-irradiated, 25:468
He—Hg, longitudinal separation in glow discharges, 21:46349
Hg—$HgCl_2$, electric conductivity of, 23:11479 (AI-AEC-12721, pp 313-22)
Hg—HgI_2, electric conductivity of, 23:11479 (AI-AEC-12721, pp 313-22)
Hg—Ho, phase diagram from amalgam decomposition temperatures, 21:4960
Hg—In, creep of solid solution, 24:25695
Hg—In, diffusion at 250°C in, coefficient for mutual, 21:40957 (IS-1600, Paper 2)
Hg—In, diffusion coefficients for, effects of composition on, 24:16623 (IS-2100, Sect. CE)
Hg—In, diffusion in amalgams at 20 to 40°C, 24:14745
Hg—In, diffusion of indium-114 and mercury-203 in, 21:40957 (IS-1600, Paper 2)
Hg—In, effects on fracture strength of aluminum, 25:27243
Hg—In, electric conductivity of, effects of indium content on, 23:41528 (BNL-50149, pp 89-122)
Hg—In, electrochemical properties of, 25:19190(T) (AI-Trans-287)
Hg—In, electron migration and properties at 295 and 303°K, 25:40809
Hg—In, Hall coefficients of liquid, comparison with fluctuation scattering model, 25:3209
Hg—In, phase diagram of, 25:55536
Hg—In, phase studies on intermetallic compounds in, 24:175 (ANL-7575, pp 77-129)
Hg—In, ultrasonic attenuation of transverse waves in dirty superconducting, (E), 25:14160
Hg—In-base, Hall coefficient and anisotropy of relaxation time in, (E/T), 23:34507
Hg—In-base, indium-115 NMR at 4.2°K in, 24:20000
Hg—In-base, indium-115 NMR at 4.2°K in, 24:45376
Hg—K, electromotive force and total vapor pressure of, effects of composition and temperature on, 22:17102 (CU-2660-34)
Hg—K, thermodynamic properties of, 21:25935(R) (ANL-7225)
Hg—Kr, electric discharges in, striation effects on electron distribution in, 22:48115
Hg—Kr, electron energy distribution in arc discharges, measurement of, 21:29216
Hg—Kr, electron energy distribution in moving striations in, (E), 23:18631
Hg—La, phase diagram from amalgam decomposition temperatures, 21:4960
Hg—La, polarographic behavior of, 25:51476
Hg—Li, electrode potential of lithium-6 and lithium-7 labeled, 22:50970
Hg—Li, isotope exchange between lithium salts and, 24:4363(P)
Hg—Li, solubility of, in lithium chloride—lithium fluoride, 21:4480 (ANL-7125, pp 200-36)
Hg—Li, solvent properties of, for europium in lithium citrate electrolytes, 21:17704 (LA-DC-8393)
Hg—Li—lithium halide, lithium isotope separation by countercurrent ion exchange in, 22:35909(P)
Hg—Mg, formation of intermetallic compounds of, effects of electronegativity difference on, 24:1039
Hg—Mg, heat transfer to boiling and nonboiling, from tube walls, 22:14668(T) (BNL-tr-176)
Hg—Mg, heat transfer to, effects of magnesium on, 22:14668(T) (BNL-tr-176)
Hg—N, pressure drop predictions for, 21:36252
Hg—Na, effects of, on case-hardening of carrier-free rare earths, 21:8259
Hg—Na, effects on cementation of europium from aqueous solutions, 22:2037
Hg—Na, effects on separation of actinides, lead, and radium from solutions of sodium acetate, 23:17529
Hg—Na, phase studies on intermetallic compounds in, 24:175 (ANL-7575, pp 77-129)
Hg—Na, reactions with uranyl acetate, preparation of uranium amalgam by, 23:17412
Hg—Na, solvent properties for mendelevium in sodium acetate solutions, 23:49772 (UCRL-18667, pp 277-312)
Hg—Na, use for separation of actinides and rare earths, 22:37718 (UCRL-17989, pp 181-252)
Hg—Na, use for separation of einsteinium and mendelevium, 22:37718 (UCRL-17989, pp 181-252)
Hg—Na, use in separation of europium, samarium, and ytterbium from cerium subgroup elements, 23:13849
Hg—Na, use in separation of mendelevium from aqueous solutions, 22:156
Hg—Na, wetting of liquid, in solid metals below 200°C, 21:43598
Hg—Na_3Co_3, electric potential of aqueous solutions of, 25:19190(T) (AI-Trans-287)
Hg—Na-base, diffusion of mercury in liquid, 23:962 (IS-1900, Paper 5)
Hg—Nd, phase diagram from amalgam decomposition temperatures, 21:4960
Hg—Ne, electric properties in positive column discharges, (E/T), 23:5426
Hg—Ne, electron energy distribution in moving striations in, (E), 23:18631
Hg—Pb, vortex line interactions with ferromagnetic inclusions in Type-II, 23:14702
Hg—Pb—Tl, superconducting transition temperature of solid solutions of, 23:23039
Hg—Pb-base, echoes in powdered, magnetic field dependence of, (E), 22:31747
Hg—Pb-base, transition temperature of superconducting, (E), 22:48039
Hg—Pr, phase diagram from amalgam decomposition temperatures, 21:4960
Hg—Pr-base, phase diagram of, 25:55567
Hg—Pr-base, phase diagram of, 25:685 (CONF-700403-(Vol.2), pp 570-81)
Hg—Pr-base, phase diagram of, thermodynamic analysis of, 25:55566
Hg—Pt, spectra of Knight shift of platinum-195 in, effects of temperature on NMR, 22:50234
Hg—Pu, phase diagrams and properties, 22:36495
Hg—Pu, phase studies of, 22:2655
Hg—rare earth, crystal structure and phase studies of, 22:36492
Hg—Sm, enthalpy of melting intermetallic phases in, at 1200°C, 21:22884
Hg—Sm, phase diagram from amalgam decomposition temperatures, 21:4960
Hg—Sn, electric conductivity at 232°C, 22:38510 (BNL-50082, pp 93-152)
Hg—Sn, superconducting transition temperature as function of composition at 87 to 94 per cent tin, (E), 22:17573
Hg—Sn, thermodynamic prediction of solution activities in, 23:24059 (LA-4083)
Hg—Sn—Tl, superconducting transition temperature of solid solutions of, 23:23039
Hg—Tb, phase diagram, (E), 22:28836
Hg—Th, thermodynamic properties for various phases and structures of, 21:36826 (NP-16880)
Hg—Ti, electric conductivity of intermetallic Ti_3Hg down to 0.35°K, 21:24757
Hg—Tl, densities, phase equilibria, and specific volumes of liquid, 22:10948 (NYO-2731-4)
Hg—Tl, density analysis for immiscibility boundaries and stoichiometric bonding of, 21:45928
Hg—Tl, density isotherm at 44°C, (E), 22:12951 (NYO-2731-3)
Hg—Tl, fluorescence of, 23:40616 (UCRL-18735, pp 5-80)
Hg—Tl, Hall coefficients of liquid, comparison with fluctuation scattering model, 25:3209
Hg—Tl, superconducting transition temperature of solid solutions of, 23:23039
Hg—U, preparation by reduction of uranyl acetate using sodium amalgam, 23:17412
Hg—Y, phase diagram from amalgam decomposition temperatures, 21:4960
Hg—Yb, phase diagram, (E), 22:28836
Hg—Zn, reactions with protactinium in hydrochloric and sulfuric acid solutions, chemistry of, 21:42925
Hg—Zn, reactions with uranium in hydrochloric, perchloric, and sulfuric acid solutions, stability studies on, 21:42924
Hg—Zn, use in reduction of trivalent europium ions to divalent state, 23:6128
Hg—Zn, use in reduction of trivalent mendelevium ions to divalent state, 22:10255
Hg—Zn, use in separation of zinc radioisotopes from reactor cooling water, 22:10338
Hg—Zr, electric conductivity of intermetallic Zr_3Hg down to 0.35°K, 21:24757
Hg-base—In, diffusion in, continuous resistivity monitoring in capillary-reservoir cell for measuring, 25:58210 (IS-T-490)
Hg-base—In, phase studies of, 24:10110
Hg-base—Na, effects on embrittlement of beryllium—copper alloys, 25:27243
Hg-base—Zn, effects of amalgams of, on embrittlement of aluminum, 25:27243
In—Hg, ultrasonic attenuation in dirty superconducting films of, magnetic field dependence of, (E/T), 24:37400
MERCURY, ARYLCHLORO-
mercury-203 exchange between, and elemental mercury, kinetics of, 21:27958
MERCURY, ARYLIODO-
mercury-203 exchange between, and elemental mercury, kinetics of, 21:27958
MERCURY BROMIDES
hexane—$HgBr_2$, bromine-80m isomeric transition in, reactions of recoils from, 25:57494
MERCURY BROMIDES, p-METHOXYPHENYL-
isotopic exchange between elemental mercury and, 22:4157
MERCURY, BROMO(2-HYDROXYPROPYL)-
use of mercury-203-labeled, for spleen scintiscanning, 24:23247
MERCURY, [(o-CARBOXYPHENYL)THIO]ETHYL-
sodium salt, effects on Streptococcus faecalis, protective effects of γ radiation against, 25:44979
sodium salt, radiosensitizing effects on Escherichia coli, γ, 25:58157
MERCURY CHLORIDES
accumulation of, in rat kidney, 21:10804
determination by paper chromatography and isotopic dilution techniques, 23:43263(T) (NP-tr-1832)
determination in mercury chloride—sodium chloride mixture by nuclear quadrupole resonance spectrometry, 23:19660
determination of trace amounts of, by paper chromatography and isotope dilution, 23:6085
effectiveness of mercury-197-labeled, for color scanning of human lungs for diagnosis of bronchial carcinomas, 25:52141
effects on cobalt-60 retention in kidneys of mice, 23:41223
effects on enzyme activity in tissues of irradiated animals, 24:34404
effects on γ-radioinduced polymerization of acrylonitrile with propene, 24:11560 (JAERI-5022, pp 50-2)
effects on γ-radiosensitivity of lysosomes, 22:51406
effects on mercury-203 and sodium-22 sorption by skin of guinea pigs, 22:14976
effects on spectrophotometric determination of alkene unsaturation by titration with bromine, catalytic, 21:42872 (IS-T-172)
effects on Streptococcus faecalis, protective effects of γ radiation against, 25:44979
electric conductivity of, results of calculation of, 22:27396(R) (AI-AEC-12638)
excretion of mercury-203-labeled, by rat kidney, 21:24328
radioinduced sublimation in catalytic hydrochlorination of acetylene, 22:16580
radiolysis of alcoholic solutions of, γ, 22:45128
solubility of complexes of, in dimethyl sulfone, 21:35701(R) (BNL-50023)
use as chemical dosimeters for low-level γ rays, 22:28185
use of mercury-197-labeled, for diagnosis of human tumors in comparison to neohydrin, 23:12142(T) (CEA-tr-A-1944)
use of mercury-197-labeled, for scintigraphy of carcinomas in man, 25:26832
Hg—$HgCl_2$, electric conductivity of, 23:11479 (AI-AEC-12721, pp 313-22)
$HgCl_2$—NaCl, analysis for mercury chloride by nuclear quadrupole resonance spectrometry, 23:19660
$HgCl_2$—sodium formate, effects on yield of primary hydrogen atoms from gamma radiolysis of water, 21:23955
MERCURY CHLORIDES, p-METHOXYPHENYL-
isotopic exchange between elemental mercury and, 22:4157
MERCURY, CHLORO(2-METHOXYETHYL)-
uptake of mercury-203-labeled, by rice plants, 21:45543
MERCURY, CHLOROMETHYL-
mercury-199 abundance measurement using proton NMR satellites, 25:1716
radiation effects on, in polluted river waters, 23:45408

MERCURY CHLORIDES, PHENYL-
determination of trace amounts of, by paper chromatography and isotope dilution, 23:6085
radiation effects on, labeling with mercury-203 by neutron, 22:2109
MERCURY, CHLOROPHENYL-
determination by paper chromatography and isotopic dilution techniques, 23:43263(T) (NP-tr-1832)
uptake of mercury-203-labeled, by rice plants, 21:45543
MERCURY CHROMIUM SELENIDES
chromium-53 NMR in, (E), 22:26518
selenium-77 NMR in, (E), 22:26518
MERCURY CYANATES
spectra of, absorption, excitation, and phosphorescence, 23:47424(R) (ORO-3018-53)
MERCURY, DIBUTYL-
solvent properties of, for organic scintillators, 21:3115
MERCURY, DIETHYL-
radiation effects on, chemical effects of mercury-197 and -203 recoil atoms in neutron, 21:40901
radiation effects on, enrichment and retention factors for mercury-197 and -203 recoil atoms in neutron, 21: 40902
radiolysis of, mechanisms of γ, 22:10294
MERCURY, DIHEXYL-
radiolysis of liquid, mechanism and yields in, 22:4202
MERCURY, (DIHYDROGEN BORATO)PHENYL-
effects on inactivation of spores of Bacillus subtilis, combined effects of heat, radiation, and, 25:24469
MERCURY, DIMETHYL-
pyrolysis of, ir spectra of methyl radicals from, 24:13864
radiation effects on, chemical effects of mercury-197 and -203 recoil atoms in neutron, 21:40901
radiation effects on, enrichment and retention factors for mercury-197 and -203 recoil atoms in neutron, 21: 40902
radiolysis of liquid and solid, effects of dose, radical scavengers, and temperature on mechanism and yields in γ, 23:268
radiolysis of, mechanisms of γ, 22:10294
MERCURY, DIPHENYL-
radiation effects on, chemical effects of mercury-197 and -203 recoil atoms in neutron, 21:40901
radiation effects on, enrichment and retention factors for mercury-197 and -203 recoil atoms in neutron, 21: 40902
radiation effects on, labeling with mercury-203 by neutron, 22:2109
radiation effects on, production of recoil radiomercury by neutron, 22:30601
radioinduced isotope enrichment by Szilard—Chalmers effect in, neutron, 22:42758
MERCURY, ETHYLMETHYL
yields in γ radiolysis of liquid and solid dimethylmercury, effects of dose, radical scavengers, and temperature on, 23:268
MERCURY, ETHYL(N-PHENYLTOLUENESULFONAMIDO)-
mass spectrometric studies of, 25:37157 (ANL-7809)
uptake of mercury-203-labeled, by rice plants, 21:45543
MERCURY HALIDES
alkyl, acid cleavage reactions of, effects of deuterium on kinetics of, 23:24178
distribution between lithium nitrate—potassium nitrate and polyphenyl, effects of temperature on, 22:23003 (IA-1128, pp 97-146)
MERCURY HYDRIDES
heavy particle reactions with, dissociation cross sections for, (E/T), 22:41293 (NP-17519)
spectra and hyperfine structure of, effects of deuterium, tritium, and mercury-199 on, 24:38886
spectra of, effects of deuterium and tritium on, 22:4152
thermodynamic properties of molecules of gaseous, 21: 12377 (LA-3597)
MERCURY IODIDES
electroabsorption and electrophotoluminescence in, 25: 12915 (UCLA-34-P-122-X-1)
spectrum of molten HgI_2, Raman, 24:1309 (ANL-7575, pp 136-69)
thermodynamic activity measurements of, method for, 22:31500
thermoelectric properties of solutions of mercury in, measurement of, 22:27396(R) (AI-AEC-12638)
use of labeled, for determination of iodide ions, 21:1263
$Hg—HgI_2$, electric conductivity of, 23:11479 (AI-AEC-12721, pp 313-22)
HgI_2—KI, Raman spectrum at 130°C, 22:36774 (ANL-7450, pp 90-104)
HgI_2—KI, spectrum at 130°C, Raman, 22:52556 (ANL-7425, pp 172-89)
HgI_2—KI—LiI, spectrum of molten, Raman, 24:1309 (ANL-7575, pp 136-69)
MERCURY IODIDES, p-METHOXYPHENYL-
isotopic exchange between elemental mercury and, 22: 4157
MERCURY, IODOMETHYL-
spectra of, isotope effects on microwave, 21:42943
use for determination of content of disulfide bonds in solutions by amperometric titration, 21:10808
MERCURY IONS
beam from 20-cm thruster, neutralization by plasma bridge from hollow cathode, 22:52581
chromatographic behavior on cellulose impregnated with Primene JM-T hydrochloride, 23:17526
effects at 80 to 150 keV on vacancy clusters in gold and nickel, 23:34034
effects of 42-keV implants of, on boron-doped silicon, (E), 24:30392
effects on gold and nickel at 80 to 150 keV, depth distribution of vacancy clusters from, (E), 24:42795
effects on structure of nucleic acids in viruses, effects of genetic strain on, 23:31266 (UCRL-50629)
effects on tungsten at 150 keV, surface damage, (E), 24: 12888
effects on vacancies in tungsten crystal lattices at 150 keV, 25:711
electron capture near hot filament, (T), 23:36686
electron reactions with beams of, neutralization of space charge by thermionic, 22:41301
electron reactions with normal and metastable, formation of excited 6 $^2P(^1/_2)$ states, 22:41319
implantation in boron-doped silicon, lattice disorder induced in, 25:49977
implantation in germanium and silicon, for fabrication of radiation detectors, 22:40387
implantation in germanium at 30 to 40 keV, channeling study of lattice location of, 25:19827
implantation in silicon and germanium at 10 to 200 keV, lattice disorder induced, 25:36300
implantation in silicon at 40 keV, carbon-ion channeling study of, 25:19829
implantation in silicon at 42 and 75 keV, lattice disorder induced by, (E/T), 24:42786
implantation in silicon at 50 keV, outdiffusion, lattice location, and electrical behavior of, 25:27856
implantation in silicon, depth profiles, lattice location/disorder, and diffusion in, 24:45322
implantations in silicon, lattice location of, 24:28406
isotopic exchange between, and mercury, 21:23834
magnetic quadrupole transition probabilities for Hg I, 21:26994
mercury-203 exchange between aqueous solutions of, and metallic mercury vapor, 21:21954
polarization of even-isotope ground-state, by stepwise electron impact, (E), 23:39334
production for electromagnetic isotope separation, efficiency of ion source for, 21:19861
production of pure beams of, isotope separator operating on-line to CERN 600-MeV synchrocyclotron for, 23: 3890
radii in fluorides and oxides, 24:188
reactions with cadmium telluride crystals, formation of Hg/sub 1-x/Cd/sub x/Te layers by, (E), 23:7059
reactions with cesium at 0.5 to 20 keV, total cross sections for charge exchange into excited states in, (E), 25:38156
reactions with copper in presence of molybdenum at 400 to 600 eV, cone formation in sputtering, 25:40342
reactions with Cu_3Au alloy, sputtering yields in, (E), 24: 6614
reactions with mercury, charge-exchange cross sections for, (T), 25:43157
reactions with molybdenum at 15 to 100 keV, sputtering in, (E), 25:962
reactions with polycrystalline metal targets at 5 to 30 keV, sputtering yield and secondary emission in, 25: 13971
reactions with stainless steel and tungsten at 15 to 100 keV, secondary electron emission and sputtering in, (E), 25:962
sputtering of metals by low-energy, threshold energies for, 24:10053
sputtering on copper, molybdenum, and nickel surfaces at 1 to 10 keV, angular distribution and yield from, (E), 22:41339
sputtering on metals, kilovolt, 21:18407(R) (N-67-13184)
MERCURY ISOTOPES
abundance in iota Cr B, (E>, 25:16643
accumulation in human body, criteria for calculating maximum permissible, 23:31812
decay schemes for, tables on, 23:33331 (BNL-13595)
effectiveness for radiodiagnosis or radiotherapy in man, 25:29573
energy level transitions in, calculation of internal conversion coefficients for, (T), 25:59787
energy levels of even-even, low-lying, (T), 21:12018 (INSJ-101)
energy levels of odd-A, calculations using number-conserving pairing theory, (T), 23:23682
energy levels of, research using neutron capture γ resonance fluorescence, (E), 22:30043
exchange between mercury and mercury ions or complexes, 21:23834
excretion by rats, effects of 1,3-diaminopropanol-2-tetraacetic acid on, 23:47948
excretion by rats, effects of body burden on rate of, 23: 33612
hyperfine structure anomaly in, (E), 25:20397
incorporation in fluorescein compounds for use as medical tracers, 25:32467(P)
incorporation in fluorescein, purification of products from, 25:21151(P)
neutron resonance parameters for, spin systematics of, (E/T), 22:53166 (CEA-R-3385)
nuclear charge radii variations from isotope shifts of K x rays, (E), 22:18238
nuclear radii of, from K x-ray isotope shifts, (E), 23: 15463
nuclear vibrational band in, 25:18033
polarization of ground state of even-A, using paramagnetic resonance, (E), 25:20397
production of isomeric, by proton reactions with uranium-238 at 2.8 BeV, (E), 21:1079(R) (PPAD-593-E)
production of recoil, by neutron-irradiation of diphenylmercury, 22:30601
production with 200 MeV protons, calculation of yields from spallation, 24:9594 (BNL-50195)
radioactivity of, in tooth fillings, use of, for neutron dose determination in critical accidents, 21:3410
radioactivity standards of, users' guide for, 22:33474 (NP-17502)
radioactivity standards of, users' guides for, 25:29174
separation by oxidation and ultraviolet irradiation, 23: 7624
separation by photochemical techniques, 23:28951(T) (K-Trans-51)
separation by spontaneous electrodeposition on metallic mercury, effects of ultrasonic shaking on, 21:36094
separation from lead spallation products for use as source in study of conversion electron spectra, 23:45371 (UJV-2204-Ch)
separation from other products from spallation of gold by migration in quartz tube with temperature gradient, 24:2285
separation of, 22:21151 (AERE-M-2008)
separation of, development of photochemical equipment and method for, 25:23747(P)
separation of, gas contamination processes in electromagnetic, 25:44517 (BMBW-FBK-70-28, pp 209-12)
separation of, method and equipment for photochemical, 25:48597(P)
x-ray spectra from, isotope shifts in K, 24:38232
x-ray spectra of, K isotope shifts from, (E), 23:15463
MERCURY ISOTOPES Hg-178
alpha decay of, half-lives for, 25:17894
MERCURY ISOTOPES Hg-179
alpha decay of, (E), 24:49912
alpha decay of, α energy and half-life for, (E), 22:5840
alpha decay of, half-lives for, 25:17894
beta decay of, delayed proton spectra and branching ratios for, (E), 25:53765
production by the argon-40 + samarium-147 reaction, (E), 21:1076 (JINR-P-2907)
proton decay of, half-life of delayed-, (E), 25:28301 (CERN-70-30(Vol.1), pp 487-96)
MERCURY ISOTOPES Hg-180
alpha decay of, α energy and half-life for, (E), 22:5840
alpha decay of, half-life for, (E), 24:49912
production by the argon-40 + samarium-147 reaction, (E), 21:1076 (JINR-P-2907)
MERCURY ISOTOPES Hg-181
alpha decay of, α spectra and half-life for, (E), 23:21307
alpha decay of, half-life for, (E), 24:49912
beta decay of, delayed proton spectra and branching ratios for, (E), 25:53765
nuclear spin-parity assignments from delayed-proton decay of, (E), 25:28301 (CERN-70-30(Vol.1), pp 487-96)
production by the argon-40 + samarium-147 reaction, (E), 21:1076 (JINR-P-2907)
proton decay of, half-life and energy spectra from delayed-, (E), 25:28301 (CERN-70-30(Vol.1), pp 487-96)
MERCURY ISOTOPES Hg-182
alpha decay of, α energy and half-life for, (E), 22:5840
alpha decay of, α spectra and half-life for, (E), 23:21307
alpha decay of, half-life for, (E), 24:49912
beta and electron-capture decay of, half-life for, (E), 23: 21307
production by the argon-40 + samarium-147 and neon-20 + ytterbium-170 reactions, (E), 21:1076 (JINR-P-2907)
MERCURY ISOTOPES Hg-183
alpha decay of, α energies and branching ratio and half-life for, (E), 23:21307
alpha decay of, α energy and half-life for, (E), 22:5840
alpha decay of, half-life for, (E), 24:49912
beta and electron-capture decay of, half-life for, (E), 23: 21307
beta decay of, delayed proton spectra and branching ratios for, (E), 25:53765
nuclear parity assignment from delayed-proton decay of, (E), 25:28301 (CERN-70-30(Vol.1), pp 487-96)
production by the argon-40 + samarium-147 and neon-20 + ytterbium-170 reactions, (E), 21:1076 (JINR-P-2907)
proton decay of, half-life of delayed-, (E), 25:28301 (CERN-70-30(Vol.1), pp 487-96)
MERCURY ISOTOPES Hg-184
alpha decay of, α spectra and half-life for, (E), 23:21307
alpha decay of, half-life for, (E), 24:49912
beta and electron-capture decay of, γ spectra and half-life for, (E), 23:21307
beta and electron-capture decay of, γ spectra from, (E), 25:28425
MERCURY ISOTOPES Hg-185
alpha decay of, α energies and branching ratio and half-life for, (E), 23:21307
alpha decay of, α energy and half-life for, (E), 22:5840
alpha decay of, half-life for, (E), 24:49912
alpha spectra and half-life of, tentative identification of, 24:38227
beta and electron-capture decay of, half-life for, (E), 23: 21307
beta and electron-capture decay of, half-lives for, (E), 25:28335 (CERN-70-30(Vol.2), pp 1045-55)
MERCURY ISOTOPES Hg-186
alpha decay of, α spectra and half-life for, (E), 23:21307
alpha decay of, half-life for, (E), 24:49912
beta and electron-capture decay of, γ spectra and half-life for, (E), 23:21307
beta and electron-capture decay of, γ spectra from, (E), 25:28425
MERCURY ISOTOPES Hg-187
alpha decay of, half-life for, (E), 24:49912
alpha spectra and half-life of, tentative identification of, 24:38227
beta and electron-capture decay of, γ spectra for, (E), 23:21307
beta and electron-capture decay of, half-lives for, (E), 25:28335 (CERN-70-30(Vol.2), pp 1045-55)
nuclear moments and spin from optical pumping, (E), 25:53758
MERCURY ISOTOPES Hg-188
beta and electron-capture decay of, γ spectra for, (E), 23:21307
beta and electron-capture decay of, γ spectra from, (E), 25:28425
energy levels of, rotational, (E), 21:7786
energy-level transitions in ground-state rotational band, (E), 21:29969(R) (UCRL-17299)
MERCURY ISOTOPES Hg-189
decay of, gamma intensities and half life for, (E), 21: 10023
electron-capture decay of, half-lives for, (E), 25:28335 (CERN-70-30(Vol.2), pp 1045-55)

MERCURY ISOTOPES Hg-190
conversion-electron spectra following tantalum-181 (N-14,5n) reactions, (E), 22:30027
decay of, conversion-electron and gamma spectra for, (E), 21:29969(R) (UCRL-17299)
electron-capture decay of, γ and e⁻-γ coincidence spectra and log-ft values for, (E), 22:53175
electron-capture decay of, half-life for, (E), 24:6903
energy levels from tantalum-181 (N-14,5n) reactions, (E), 21:15595
energy levels of, rotational, (E), 21:7786
energy-level transition rotational constants for, (E), 22:30027
energy-level transitions in, intensities and multipolarities for, (E), 21:29969(R) (UCRL-17299)
gamma spectra following tantalum-181 (N-14,5n) reactions, (E), 22:30027
gamma spectra following tantalum-181 (N-14,5n) reactions, (E), 22:30027
MERCURY ISOTOPES Hg-191
electron-capture decay of, conversion electron and γ spectra from, (E), 24:38212 (JUL-659-KP)
MERCURY ISOTOPES Hg-192
beta spectra of, calculation from Fermi theory, 21:25570 (USNRDL-TR-1101)
electron-capture decay of, γ and e⁻-γ coincidence spectra and log-ft values for, (E), 22:53175
energy levels from decay of isomeric thallium-192, (E), 22:53197
energy levels from electron-capture decay of thallium-192, (E), 22:30031
energy levels of, spin—parity assignments for, (E), 22:48513 (JAERI-1158, pp 10-13)
energy-level spins and transitions from gold-197 (p,6n) reactions, (E), 22:27165
energy-level transitions from thallium-192 decay, multipolarities of, (E), 22:7702(R) (PPAD-631-D)
MERCURY ISOTOPES Hg-193
beta decay of, β—γ directional correlations from, (E), 24:38204 (COO-1746-41)
decay of isomeric, (E), 24:18433
electron-capture decay of, gamma—gamma coincidences and gold-193 energy levels in, (E), 25:17925
electron-capture decay of, gold-193 energy levels and internal-conversion coefficients from, (E), 22:5863
electron-capture decay of, gold-193 energy levels from, (E), 21:19246 (UCRL-16969)
energy level scheme, (T), 24:18433
energy levels of, lifetimes and transition probabilities for, (E), 24:8910
energy-level transitions in, conversion coefficients and multipolarities for, (E), 25:28339 (CERN-70-30(Vol.2), pp 1081-91)
nuclear magnetic dipole moment, g-factor ratios, and hfs anomalies for, ground-state and isomeric, optical-pumping determination of, (E), 25:50764
MERCURY ISOTOPES Hg-194
electron-capture decay of, decay energy, half-life, and γ spectra for L, (E), 21:44679
energy levels from decay of isomeric thallium-194, (E), 22:53197
energy levels from electron-capture decay of thallium-194, (E), 22:30031
energy levels from thallium-194 decay, lifetimes and transition probabilities of, (E), 24:49877
energy levels from the gold-197 (p,4n) reaction at 35 MeV, (E), 21:1082 (UCRL-16987)
energy levels of, spin—parity assignments for, (E), 22:48513 (JAERI-1158, pp 10-13)
energy-level spins and transitions from electron-capture decay of isomeric thallium-194, (E), 21:1079(R) (PPAD-593-E)
energy-level spins and transitions from gold-197 (p,4n) reactions, (E), 22:27165
MERCURY ISOTOPES Hg-195
decay scheme of isomeric, (E), 21:29979
electron-capture decay of ground-state and isomeric, γ and conversion electron spectra from, (E), 25:36750
electron-capture decay of ground-state and isomeric, γ singles and coincidence spectra and angular correlations from, (E), 24:40633
electron-capture decay of, gold-195 energy levels and internal-conversion coefficients from, (E), 22:5863
electron-capture decay of, gold-195 energy levels from, (E), 21:19246 (UCRL-16969)
energy levels of, lifetimes and transition probabilities for, (E), 24:8910
nuclear magnetic dipole moment, g-factor ratios, and hfs anomalies for isomeric, optical-pumping determination of, (E), 25:50764
MERCURY ISOTOPES Hg-196
abundance in chondrites, (E/T), 24:12501
energy levels from (p,2n) reactions, (E), 24:18429
energy levels from decay of isomeric thallium-196, (E), 22:53197
energy levels from electron-capture decay of thallium-196, (E), 22:30031
energy levels from thallium-196 decay, lifetimes and transition probabilities of, (E), 24:49877
energy levels from the gold-197 (p,2n) reaction at 12 to 16 MeV, (E), 21:1082 (UCRL-16987)
energy levels of, spin—parity assignments for, (E), 22:48513 (JAERI-1158, pp 10-13)
energy-level spins and transitions from electron-capture decay of isomeric thallium-196, (E), 21:1079(R) (PPAD-593-E)
energy-level transitions from gold-197 (p,2n) reactions, EO, (E), 24:38279
energy-level transitions from vibrational states, angular anisotropy of conversion electrons for, (E), 22:20645
energy-level transitions in, anisotropy of conversion electrons from vibrational, (E), 21:33963(R) (NP-16498)
neutron activation cross sections at 14.4 MeV, tables of, (E), 22:22589 (ORO-3346-18)
neutron capture by, calculation of isomer ratios for, (T), 22:32690
neutron capture by, production of isomeric mercury-197 by thermal, (T), 21:4356
neutron capture cross section and resonance integral for, thermal, (E), 22:27130
neutron capture cross section for, thermal, (E), 22:22608
neutron reactions (n,2n) at 14 MeV, activation cross section for, (E), 23:31016
neutron reactions at 14 MeV, activation cross sections for, (E), 23:49398 (WASH-1127)
nucleosynthesis in stars, (T), 24:12538
production in highly evolved stars, (E), 23:39087
production in stars by photo-beta process, (T), 21:36985
separation from other mercury isotopes, photochemical, 23:7624
separation from other mercury isotopes, photochemical, 23:28951(T) (K-Trans-51)
MERCURY ISOTOPES Hg-197
activity in air in industrial radiochemical plant, equipment and method for measurement of, 24:31565
book: Methods of Preparing and Storing Labeled Compounds, 23:335
clearance from erythrocytes and plasma of man following administration for spleen scintigraphy, 25:6631
concentration and retention factors for recoil atoms of, in neutron-irradiated diethyl-, dimethyl-, and diphenylmercury, 21:40902
content in rice treated with organic mercury pesticides, 21:28401
decay in man, computer program estimation of internal dose from, 24:50877 (CONF-691212-, pp 51-62)
decay in tissue, computer calculations of energy release and intensity for, use in dosimetry, 24:14492
determination in swimming pool reactor water, method for, 22:35760
dose to human bladder, kidneys, and ovaries from neohydrin-incorporated, 22:6803 (ORNL-4168, pp 231-88)
dose to man during diagnosis of renal vascular disease, 22:19381
dosimetry for brain scanning, 21:22440
dosimetry for scintillation scanning, 21:22551
dosimetry for scintillation scanning of kidneys, 21:22571
dosimetry in nuclear medicine, 21:22494
effectiveness for localization of brain lesions, 23:18045 (CONF-670958-, pp 71-5)
effectiveness for localization of tumors in posterior fossa of human brain, computer evaluation of, 25:2578
effectiveness for scanning brain tumors in relation to gamma spectra, 24:29796
effectiveness of bromomercury-hydroxypropionate-incorporated, for labeling erythrocytes for spleen scintigraphy, 25:16246
effectiveness of chlormerodrin-incorporated, for kidney scanning, comparison of indium-113m-labeled DTPA with, 25:19039
effectiveness of hydroxypropionate-incorporated, for spleen scanning, 25:16245
effectiveness of intravenously injected chlormerodrin-incorporated, for myeloscintigraphy, 25:19042
effectiveness of mercuric chloride-incorporated, for diagnosis of mammary, oral, and pharyngeal tumors, 25:42576
effectiveness of mercury chloride-incorporated, for color scanning of human lungs for diagnosis of bronchial carcinomas, 25:52141
effectiveness of mercury dichloride-incorporated, for scanning of thyroid nodules for differential diagnosis, 25:26823
effectiveness of neohydrin-incorporated, for diagnosis of brain tumors in comparison to metastable technetium-99-labeled pertechnetate, 24:34500
effectiveness of neohydrin-incorporated, for kidney localization in comparison with other diagnostic methods, 25:26821
effectiveness of neohydrin-incorporated, for localization of human kidneys during pregnancy and post partum, 25:44846
effects on human body, gonads, and kidneys during renal scanning in comparison to mercury-203 and metastable technetium-99, 24:34352
effects on radiation energy sorption in pharmaceuticals, 22:37819
electron-capture decay of isomeric, gamma spectra from, (E), 25:3682
electron-capture decay of, conversion electron spectra from, (E), 23:42910 (CONF-670109-10)
electron-capture decay of, gold-197 energy levels from, (E), 21:19246 (UCRL-16969)
electron-capture decay of, gold-197 energy levels and internal-conversion coefficients from, (E), 22:5863
electron-capture decay scheme of ground state and isomeric, γ spectra for, (E), 22:35351
energy level at 134 keV, lifetime and magnetic moment for, (E), 24:11023
energy levels from neutron capture in mercury, spin assignments for, (E), 23:52128
evaluation of chlormerodrin- and neohydrin-incorporated, for scanning brain tumors, 22:38361
evaluation of chlormerodrin-incorporated, for diagnosis of renal diseases in man in combination with other diagnostic procedures, 25:24242
evaluation of dichloride-incorporated, for scanning human mammary gland for localization of neoplasms, 25:58051
excretion by rats following diagnostic studies, use of stable chlormerodrin to promote, 23:35620
excretion from human kidneys, effects of dimercaptopropanol on, 21:26351
gamma and x-ray spectra of, 25:196
gamma emission by, effects of energy levels of, on performance for scintiscanning, 22:38337
gamma emission by, effects of energy of, on quality of scans, 22:36324
gamma emission by, effects of, on radiation dose to human infants and children during use for scintiscanning, 22:33826
gamma spectra of, 23:33243
gamma spectra of normal and isomeric, (E), 22:27130
half-life of metastable, angular dependence of measurements of, 25:53674
hyperfine interactions from hole formation in decay of isomeric, (E), 22:30064
incorporation in erythrocytes for scintigraphy in man, 23:48138
incorporation in erythrocytes for spleen scanning, 23:41368
incorporation in hydroxymercury derivatives of fluorescein by exchange reaction, 25:24246
incorporation in Neohydrin, 21:5904 (IA-1082, pp 21-4)
internal conversion parameters for M4 transitions of, (E), 22:26929(R) (COO-1420-139)
isomeric transition in, measurement of conversion-electron particle parameters for M4, (E), 22:46731(R) (COO-1746-8)
isomeric transition of recoil atoms of, in neutron-irradiated diethyl-, dimethyl-, and diphenylmercury, 21:40901
localization in kidneys, scintigraphic use of, 24:32095
monitoring in air, filter—ratemeter system for, 24:27336 (CONF-690540-, pp 197-205)
nuclear magnetic dipole moment, g-factor ratios, and hfs anomalies for isomeric, optical-pumping determination of, (E), 25:50764
production at Hahn—Meitner Institute, Berlin, 22:6312 (HMI-B-52)
production by neutron irradiation of mercury(II) oxide, 25:21059 (JAERI-Memo-4220)
production in Australia, 22:42761
production in high specific activity by Szilard—Chalmers reaction, 25:13060
production of isomeric, in thermal-neutron capture by mercury-196, (T), 21:4356
reactions of recoil, in neutron-irradiated mercury derivatives of fluorescein, 25:15715
standardization of, 22:14433 (ORNL-4196, pp 66-89)
standardization of, x—x coincidence method for, 22:14778
uptake by cultured human brain tumor cells, 23:9985 (UCLA-12-686, pp 32-52)
uptake of chlormerodrin-incorporated, by human ovary and uterus, 23:4880
use as gamma source in scintiscanning, 22:530
use as tracer for scintiscanning, 22:2521 (ORNL-IIC-10(Vol.1), pp 197-232)
use as tracer in measuring metallic mercury in chlorine-caustic cell, 21:16077
use as tracer to determine mercury balance in electrolytic cells, 24:39147 (PRNC-135, pp 375-82)
use for brain scanning, 22:51808
use for brain scanning, 23:50723
use for brain scanning compared with mercury-203 and RISA, 21:20305
use for brain scanning in infants and children, for detection of tumors, 23:48149
use for brain scanning, review on international methods for, 25:26855
use for clinical diagnosis in comparison to other radioisotopes, 23:48092
use for diagnosis of brain diseases in man in comparison with bismuth-206, iodine-131, mercury-203, and technetium-99m, 23:50716
use for diagnosis of brain tumors, phantom studies of, 24:34503
use for diagnosis of breast carcinoma in man, 24:34494
use for diagnosis of human pyelonephritis, methods for, 25:24268
use for diagnosis of myocarditis, 25:29413 (CONF-691225)
use for human spleen diagnostics, method for, 25:24267
use for kidney scanning, 23:43814
use for kidney scanning, 25:52130 (A/CONF.49/P-631)
use for kidney scanning for function of each kidney, 24:32092
use for kidney scanning in man in comparison with iodine-131, mercury-203, and x rays, 23:50718
use for labeling erythrocytes for scanning of human spleen, 25:11200
use for labeling erythrocytes for use in spleen scanning, 25:11201
use for labeling fluorescein for diagnostic muscle scanning, 21:32681
use for labeling pharmaceuticals, 25:51965 (A/CONF.49/P-147)
use for scanning, 23:50739
use for scanning lung carcinomas, 21:22523
use for scanning of human brain, radiation dose to kidneys from, 23:2902
use for scanning of human kidneys, 24:12171
use for scanning of mammary carcinoma, 23:20264(T) (CEA-tr-A-1945)
use for scanning organs at various depths, simultaneous use of gold-198, mercury-203, and selenium-75 with, 23:38669
use for scintigraphy of lungs in patients with lung cancer, development of method for, 24:27635
use for scintiscanning of human pulmonary tissues, defocalized collimator method for, 24:25519
use for scintiscanning of kidneys, 21:41462
use for spleen scanning, 22:38396
use in brain scanning, efficiency of, 22:47556
use in radiography, 22:40808
use in radiopharmaceuticals, determination of half-life and radiation-emission for, 22:23586
use of 3-bromomercuri-2-hydroxypropane incorporated, for spleen scanning, 24:34462
use of aceto-mercuri-hydroxypropane-incorporated, for scanning kidneys and spleen, 23:24677 (CONF-670649-16)
use of aerosol-incorporated, for scanning of lungs of dogs and man, 22:38399
use of BMHP-incorporated, for scintigraphy of kidneys and spleen in man, 24:6077

use of Brommercurascan- or Mercurascan-incorporated, for scintigraphy of heart for diagnosis of myocardial infarction, 25:29571(T) (LB/G-2835)
use of bromomercurate hydroxypropane-incorporated, for scanning spleen, 22:49466
use of chlormerodrin incorporated, for brain scanning, 22:25714 (COO-78-163, pp 126-36)
use of chlormerodrin-incorporated, for brain scanning, 23:31836
use of chlormerodrin-incorporated, for brain scanning following hydrogen peroxide infusion, 24:34482
use of chlormerodrin-incorporated, for brain scanning, computer evaluation of, 25:26824
use of chlormerodrin-incorporated, for brain scanning in eosinophilic granuloma of human skull, 24:17084
use of chlormerodrin-incorporated, for brain scanning, 22:40761
use of chlormerodrin-incorporated, for brain scanning, comparison of technetium-99-labeled pertechnetate to, 22:28562
use of chlormerodrin-incorporated, for brain scanning for localization of abscesses, 24:32083
use of chlormerodrin-incorporated, for brain scanning, 24:29802
use of chlormerodrin-incorporated, for brain tumor scanning, 24:29797
use of chlormerodrin-incorporated, for contour scanning of human brain, 24:29799
use of chlormerodrin-incorporated, for determination of blood-cerebrospinal fluid barrier in human beings, 21:24351
use of chlormerodrin-incorporated, for diagnosis of vascular disease in human kidneys, 22:19381
use of chlormerodrin-incorporated, for diagnosis of subdural hematoma, 22:45609
use of chlormerodrin-incorporated, for diagnosis of brain tumors in mice, effects of meralluride pretreatment on, 25:16236
use of chlormerodrin-incorporated, for diagnosis of intratentorial brain lesions, 23:33756
use of chlormerodrin-incorporated, for diagnosis of lung tumors in man, 24:34484
use of chlormerodrin-incorporated, for kidney scanning, comparison of, with mercury-203, 23:10026
use of chlormerodrin-incorporated, for kidney scanning, 24:34507
use of chlormerodrin-incorporated, for kidney scanning, 24:44547
use of chlormerodrin-incorporated, for kidney scanning in man in combination with Anger camera and computer, method for, 24:36788
use of chlormerodrin-incorporated, for scanning blood circulation in kidneys in relation to diagnosis of renal diseases, 23:31844
use of chlormerodrin-incorporated, for scanning blood vessels in brain, 25:492
use of chlormerodrin-incorporated, for scanning brain, 23:50729
use of chlormerodrin-incorporated, for scanning brain, 23:33776
use of chlormerodrin-incorporated, for scanning human brain, 22:51859
use of chlormerodrin-incorporated, for scanning kidneys, 23:50731
use of chlormerodrin-incorporated, for scanning kidneys, 23:35741
use of chlormerodrin-incorporated, for scanning kidneys, 23:50697
use of chlormerodrin-incorporated, for scanning kidneys, 23:6512
use of chlormerodrin-incorporated, for scanning kidneys, review of, 23:45798
use of chlormerodrin-incorporated, for scanning of brain or kidneys, 22:28582
use of chlormerodrin-incorporated, for scanning of human brain for localization of intracranial neoplasms, 22:31198
use of chlormerodrin-incorporated, for scanning of brain, 22:31134
use of chlormerodrin-incorporated, for scanning of brain and kidney, radiation dose to patient from, 23:38663
use of chlormerodrin-incorporated, for scanning of patients following renal transplants, 23:48124
use of chlormerodrin-incorporated, in function testing in human children, 24:50881 (CONF-691212-, pp 133-56)
use of chloromerodrin-incorporated, for scanning of brain of man, 22:2531
use of chromic-β-glycerophosphate incorporated, for tumor localization in animals, 25:6746
use of erythrocyte-incorporated, for radiography of heart, 22:23585
use of erythrocyte-incorporated, for scanning spleen, 23:50737
use of erythrocyte-incorporated, to study spleen function in man, 22:6843
use of mercurascan-incorporated, for scanning in dogs with myocardial infarcts, 23:48123
use of mercury bichloride-incorporated, for human mammary gland scanning of, 24:23258
use of mercury bichloride-incorporated, for scanning esophagus for localization of neoplasms, 25:21566
use of mercury bichloride-incorporated, for scintigraphy of carcinomas in man, 25:26832
use of mercury chloride- or neohydrin-incorporated, for diagnosis of tumors in man, comparison of, 23:12142(T) (CEA-tr-A-1944)
use of mercury chloride-incorporated, for diagnosis of malignant tumors in face, lungs, and neck of man, 23:2862
use of neohydrin-incorporated, for color scintigram diagnosis of brain tumors in man, 21:45695
use of neohydrin-incorporated, for diagnosis of brain tumors in man, 21:43491
use of neohydrin-incorporated, for diagnosis of renal tumors in man, 24:776
use of neohydrin-incorporated, for radiodiagnosis of metastatic and primary adenocarcinomas in human kidneys, 25:29590
use of neohydrin-incorporated, for renal scanning in comparison with technetium-99-labeled pertechnetate, 23:48129
use of neohydrin-incorporated, for scanning human brain, 22:38397
use of neohydrine-incorporated, for scanning of human brain in comparison to iodine-131-labeled serum albumin, 24:2737
use of pharmaceutical incorporated, for tumor diagnosis in man, 24:34480
use of, for medical diagnosis using camera and scintiscanning techniques, 21:6558
use of, in pediatric urology, evaluation of, 21:6584
use with scintillation camera renography for diagnosis of superior infundibular obstruction in man, 23:26842
use with strontium-85 for bone scanning for localization of tumors, 25:24245
uses of, for localization of brain tumors, for labeling chlormerodrin, 21:8862
yield from nuclear explosions, effects on radiation dose to man, 22:23511 (UCRL-70788)
MERCURY ISOTOPES Hg-198
alpha elastic and inelastic scattering at 19 MeV, α spectra from, (E), 24:18367(R) (COO-535-603)
alpha reactions (α,2nγ) at 30 MeV, γ spectra from, (E), 25:25629(R) (UCD-CNL-125)
analysis of, for mercury-199 by absorption spectrometry, 21:2974
description using unified model with intermediate coupling approximation, 21:42719
determination in biological materials by bremsstrahlung activation methods, 22:25251
effects on microwave spectrum of iodomethylmercury, 21:42943
electron inelastic scattering in giant resonance region by, partial-wave calculation of cross sections for, (T), 23:1851
energy level at 411.8 keV, g-factor measurement using angular correlation technique with ion implantation in iron, (E), 22:46788
energy levels from beta and electron-capture decay of thallium-198, (E), 22:30031
energy levels from decay of gold-198, configurations for, (E/T), 23:25849 (CEA-R-3659)
energy levels from decay of isomeric thallium-198, (E), 22:53197
energy levels from decay of thallium-198, (E), 24:20727(R) (MIT-905-154)
energy levels from isomeric thallium-198 beta decay, lifetimes of high-spin, (E), 25:28353 (NP-18695)
energy levels from oxygen-16 inelastic scattering, electromagnetic properties of first 2^+, (E), 24:52584
energy levels from thallium-198 decay, lifetimes and spin-parity assignments for, (E), 24:49878
energy levels from thallium-198 decay, lifetimes and transition probabilities of, (E), 24:49877
energy levels of, gyromagnetic ratio of first excited 2^+, (E), 21:44661 (COO-7-0424)
energy levels of, spin—parity assignments for, (E), 22:48513 (JAERI-1158, pp 10-13)
energy-level calculations for, using collective vibrations coupled to proton holes, (T), 22:1683
energy-level density of, shell-model calculations for, (T), 24:49961
energy-level spins and transitions from electron-capture decay of isomeric thallium-198, (E), 21:1079(R) (PPAD-593-E)
energy-level transition in, multipole mixing ratio for 675-keV, (E), 22:48531
energy-level transitions from gold-198 decay, internal conversion coefficients for, (E), 23:38298 (RISO-195)
energy-level transitions from gold-198 decay, K-conversion coefficients for, (E), 21:25514 (NP-16672)
energy-level transitions from thallium-198 decay, conversion coefficients and multipolarities for, (E), 24:49878
energy-level transitions in, E2/M1 mixing ratios of $2^+ \rightarrow 2^+$, (E), 22:1702
energy-level transitions in, K/L and K/L_2 internal conversion ratios for E2, (E), 22:53187
energy-level transitions in, K-conversion coefficient for 412-keV, (E), 24:28813
energy-level transitions in, matrix elements for E0, E2, and M1, (E), 22:27189
energy-level transitions in, relativistic Hartree—Fock calculations of K-shell internal conversion coefficients, L-subshell ratios, and second-order K- and L-shell particle parameters for, (T), 25:17916
energy-level transitions in, sum-coincidence measurement of branching ratios for, (E), 23:1908
fission barrier for, (E/T), 22:30022
fission barrier height for, (E), 21:7774 (UCRL-16489)
fission barrier height, (E), 21:42668
neutron activation cross sections at 14.4 MeV, tables of, (E), 22:22589 (ORO-3346-18)
neutron capture by, gamma spectra from, (E), 21:17270(R) (RPI-328-71)
neutron capture by, γ spectra from thermal, (E), 24:5399 (CEA-R-3602)
neutron reactions (n,2n) at 14 MeV, activation cross section for, (E), 23:31016
neutron reactions (n,2n) at 14.7 MeV, cross section for, (E), 22:50649
neutron reactions (n,2n) at 14.7 MeV, cross section for, (E), 22:37340(R) (EANDC(E)-89(U))
neutron reactions (n,γ) at 23 and 90 eV, mercury-199 energy levels from, (E), 21:23529
neutron reactions (n,p) at 14 MeV, activation cross section for, 23:31016
neutron reactions at 14 MeV, activation cross sections for, (E), 23:49398 (WASH-1127)
neutron resonances in, level spacing, spin, and total radiative width for, (E), 23:37160
neutron strength function and scattering radius at 0 to 420 eV, (E), 22:18285
scattering on rare-gas atoms, polarization in 6^3P_1 state, (E), 22:17381
separation of high-purity, in 180° sector isotope separator, 24:29443(R) (ORNL-TM-2985)
spectra of, effects of deuterium and hydrogen gases on atomic, 21:46131
spectra of, self-absorption, 21:43802
x-ray fluorescence yields from gold-198 decay, K/L ratio for, (E), 22:39586
MERCURY ISOTOPES Hg-199
abundance in methylmercury chloride, measurement using proton NMR satellites, 25:1716
determination of relative abundances of, by NMR methods, 24:16431
determination of, in mixtures with mercury-198, absorption spectral, 21:2974
effects on microwave spectrum of iodomethylmercury, 21:42943
effects on spectra and hyperfine structure of mercury hydride, 24:38886
electron inelastic scattering with isomeric excitation, cross sections for, 23:23669
energy level at 158 keV from gold-199 decay, lifetime of, (E), 24:15837
energy level at 198 keV, half-life for, (E), 24:26596(R) (BARC-401)
energy levels from electron and photon excitation, spin—parity assignments for, (E), 23:23669
energy levels from electron and photon inelastic scattering with isomeric excitation, (E), 21:27593
energy levels from gold-199 decay, transition probability ratios for, (E), 25:5698
energy levels from mercury-198 (n,γ) reactions at 23 and 90 eV, (E), 21:23529
energy levels from mercury-198 thermal neutron capture, spin-parity assignments for, (E), 24:5399 (CEA-R-3602)
energy levels from photoactivation of mercury, spins and parities of, (E), 21:46735
energy levels from photon inelastic scattering, spin-parity assignments for, (E), 24:6855
energy levels from rare gas scattering, (E), 21:41780
energy levels of, calculation of E2 and M1 transition probabilities for, (E), 24:28805
energy levels using optical methods of Hertzian spectroscopy, atomic, 22:50021
energy-level transition probabilities for, E2, (E), 22:14038
energy-level transition probabilities from gold-199 decay, testing core excitation model by, (E), 22:44720
energy-level transitions from electron and photon excitation, multipolarities for, (E), 23:23669
energy-level transitions from gold-199 beta decay, conversion ratios, mixing ratios, and penetration parameters from, (E), 25:36789
energy-level transitions from gold-199 decay, multipole mixing ratio from L/sub II/ electron-γ directional correlation, (E), 22:30008
energy-level transitions in, screening correction to internal conversion coefficients for 158-keV, (E/T), 23:11014
energy-level transitions of isomeric, half-life, conversion coefficients, and L-shell fluorescence yields of, (E), 23:40037
gamma activation of, (E), 23:44875
half life of isomeric, (E), 21:25546
half-life of isomeric, (E), 22:48560
helium reactions with, evolution of 6^3P_1 level in, 21:43784
hyperfine structure constant for 6^3P_1 level of, 22:47816
hyperfine structure of 6^3P_1 level of, 21:46142
hyperfine structure of 7^3S_1 level, (E), 22:5124
hyperfine structure of, method for analyzing, 22:13226
neutron activation cross sections at 14.4 MeV, tables of, (E), 22:22589 (ORO-3346-18)
neutron capture at 0.15 to 8.04 MeV, γ spectra from, (E), 22:9902
neutron capture by, average circular γ polarization in thermal, (E), 25:12601
neutron capture by, conversion-electron spectrum from slow, (E), 23:7284
neutron capture by, gamma spectra from thermal, (E), 21:23516
neutron capture by, gamma spectra from, (E), 21:17270(R) (RPI-328-71)
neutron capture by, γ spectra and γ—γ angular correlations for thermal, (E), 23:42940
neutron capture by, γ spectra from resonance, (E), 23:5897
neutron capture by, γ spectra from thermal, (E), 24:5399 (CEA-R-3602)
neutron capture by, mercury-200 conversion-electron spectra from slow, 25:39041
neutron capture by, mercury-200 energy levels from resonance and thermal, (E), 21:23529
neutron capture by, transition multipolarities in thermal, (E), 21:27594
neutron inelastic scattering at 2.8 MeV, activation cross section for, (E), 22:48560
neutron reactions (n,γ) with, gamma energies from, (E), 21:4233(R) (AECL-2610)
neutron reactions (n,p) at 14 MeV, activation cross section for, 23:31016
neutron reactions at 14 MeV, activation cross sections for, (E), 23:49398 (WASH-1127)
neutron resonances in, level spacing, spin, and total radiative width for, (E), 23:37160
neutron strength function and scattering radius at 0 to 700 eV, (E), 22:18285
oxygen-16 inelastic scattering at 25 and 33 MeV, energy levels from Coulomb excitation by, (E), 25:20387
photon inelastic scattering up to 2 MeV, cross section for, (E), 24:6855
photon reactions in optical and rf ranges with, effects on atomic energy levels, (E), 23:30332

photon scattering with isomeric excitation, cross section for, 23:23669
production in gold-197(α,pn) reactions at 25 MeV, (E), 22:11956
production of isomeric, by gamma inelastic scattering, (E), 21:25546
production of isomeric, by gamma inelastic scattering at 6 and 8 MeV, energy, half-life and specific activity measurements for, 21:35882
MERCURY ISOTOPES Hg-200
effects on microwave spectrum of iodomethylmercury, 21:42943
electron internal-conversion spectrum from neutron capture in mercury-199, high-energy, 25:39041
energy level at 1029 keV from decay of thallium-200, spin—parity assignment for, (E), 23:25913
energy level at 1029 keV from thallium-200 decay, spin assignment for, (E), 22:50602 (PPAR-5)
energy level at 1029 keV, spin assignment for, (E), 23:42940
energy level at 1575 keV, configuration of two-quasiparticle, (T), 22:32609
energy level at 367.9 keV, g-factor measurement using angular correlation technique with ion implantation in iron, (E), 22:46788
energy level from thallium-200 decay, spin-parity assignment for third-excited, (E), 24:24563
energy level scheme for, (E), 23:49332(R) (EANDC(E)-115(U))
energy levels and neutron separation energy from mercury-199 neutron capture, (E), 22:9902
energy levels from beta decay of gold-200, (E), 22:50633
energy levels from decay of thallium-200, spin—parity assignments for, (E), 23:28305
energy levels from gold-200 decay, lifetimes and transition probabilities of, (E), 24:49877
energy levels from gold-200 decay, spin-parity assignments for, (E), 22:37350
energy levels from isomeric gold-200 beta decay, lifetimes of high-spin, (E), 25:28353 (NP-18695)
energy levels from mercury-199 resonance neutron capture, spin—parity assignments for, (E), 23:5897
energy levels from mercury-199 resonance- and thermal-neutron capture, (E), 21:23529
energy levels from mercury-199 thermal neutron capture, spin-parity assignments for, (E), 24:5399 (CEA-R-3602)
energy levels from mercury-199 thermal-neutron capture, parities and transition multipolarities of, (E), 21:27594
energy levels from neutron capture in mercury, spin assignments for, (E), 23:52128
energy levels from oxygen-16 inelastic scattering, electromagnetic properties of first 2⁺, (E), 24:52584
energy levels from thallium-200 decay, (E), 24:30829
energy levels from thallium-200 decay, spin and parity of, (E), 25:12528 (NP-18647)
energy levels from thallium-200 decay, spin assignments for, (E), 25:20400
energy levels from thallium-200 decay, spin-parity assignments from gamma directional correlations, (E), 25:12527 (NP-18613)
energy levels from thallium-200 decay, spins and parities of, (E), 25:31387
energy levels from thermal neutron capture, spin for compound, (E), 25:12601
energy levels of, gyromagnetic ratio of first excited 2⁺, (E), 21:44661 (COO-7-0424)
energy-level calculations for, using collective vibrations coupled to proton holes, (T), 22:1683
energy-level scheme from neutron capture in mercury-199, 25:39041
energy-level spins and transitions from mercury-199 thermal-neutron capture, (E), 21:23516
energy-level transition rotational constants for, (E), 22:30027
energy-level transitions from gold-200 on decay, (E), 25:12514(R) (COO-1672-21)
energy-level transitions from neutron capture by mercury-199, branching and multipole mixing ratios for, (E), 23:7284
energy-level transitions from thallium-200 decay, mixing parameters for, (E), 25:20400
energy-level transitions in, from beta and electron-capture decay of thallium-200, 21:39183 (LYCEN-67-45)
energy-level transitions in, internal conversion coefficients for E2, (E), 23:37277
energy-level transitions in, internal-conversion coefficients for high-energy, (T), 23:7294
energy-level transitions in, multipole mixing ratio for, (T), 22:32609
exchange with mercury-203, for determining mercury content of tissues and urine, 22:40526
neutron activation cross sections at 14.4 MeV, tables of, (E), 22:22589 (ORO-3346-18)
neutron reactions (n,2n) at 14 MeV, activation cross section for, (E), 23:31016
neutron reactions (n,α) at 14 MeV, activation cross section for, (E), 23:31016
neutron reactions at 14 MeV, activation cross sections for, (E), 23:49398 (WASH-1127)
proton reactions (p,2n) at 17.5 MeV, production of isomeric thallium-199 by, (E), 21:38370
MERCURY ISOTOPES Hg-201
energy level at 32.2 keV, Moessbauer measurements of lifetime of, (E), 25:53808
energy level at 32.2 keV, spin-parity assignment for, (E), 24:6893
energy levels and transitions from radioactive decays and nuclear reactions, Nuclear Data Sheets for, (E), 25:39014
energy levels using optical methods of Hertzian spectroscopy, atomic, 22:50021
exchange with mercury-203 in mercury bromide and phenylmercury bromide, 25:34600
hyperfine structure of 6^1P_1 level of, 21:46142
hyperfine structure of 7^3S_1 level, (E), 22:5124
isomeric transition in, half-life for, (E), 23:23706
Moessbauer energy shift of, effects of pressure on, 21:44809
neutron capture by, γ spectra from thermal, (E), 24:5399 (CEA-R-3602)
neutron reactions (n,p) at 14 MeV, activation cross section for, 23:31016
neutron resonances in, level spacing, spin, and total radiative width for, (E), 23:37160
neutron strength function and scattering radius at 0 to 700 eV, (E), 22:18285
oxygen-16 inelastic scattering at 33 MeV, Coulomb excitation by, (E), 25:20387
photon resonance absorption at 32.2 keV, cross section for, (E), 24:6893
production of isomeric, by neutron reactions with mercury at 14 Mev, (E), 21:2728
proton reactions (p,2n) at 17.5 MeV, production of isomeric thallium-200 by, (E), 21:38370
MERCURY ISOTOPES Hg-202
abundance in chondrites, (E/T), 24:12501
effects on microwave spectrum of iodomethylmercury, 21:42943
energy level at 440 keV, g-factor measurement using angular correlation technique with ion implantation in iron, (E), 22:46788
energy levels and transitions from nuclear reactions and radioactive decay, Nuclear Data Sheets for, (E), 25:39015
energy levels from mercury-201 thermal neutron capture, spin-parity assignments for, (E), 24:5399 (CEA-R-3602)
energy levels from neutron capture in mercury, spin assignments for, (E), 23:52128
energy levels from oxygen-16 inelastic scattering, electromagnetic properties of first 2⁺, (E), 24:52584
energy levels of, gyromagnetic ratio of first excited 2⁺, (E), 21:44661 (COO-7-0424)
energy-level calculations for, using collective vibrations coupled to proton holes, (T), 22:1683
helium reactions with, evolution of 6^3P_1 level in, 21:43784
neutron capture cross section and resonance integral for, thermal, (E), 22:27130
neutron cross sections and resonance integrals for, effective thermal, (E), 22:20597
neutron reactions (n,p) at 15 MeV, gold-202 production by, (E), 22:11969
neutron separation energy, (E), 22:9902
proton reactions (p,2n) at 17.5 MeV, production of isomeric thallium-201 by, (E), 21:38370
proton reactions (p,xn) at 400 MeV, cross section for, (E), 23:30977
separation from other mercury isotopes, photochemical, 23:28951(T) (K-Trans-51)
separation from other mercury isotopes, photochemical, 23:7624
MERCURY ISOTOPES Hg-203
accumulation by aquatic plants following uptake from nutrient solution, effects of EDTA on, 24:7713
accumulation in neoplastic and normal brain tissue, 21:26508
accumulation of pesticide-incorporated, by grains of rice plants, 21:45543
accumulation of, in rat kidney, 21:10804
activity in air in industrial radiochemical plant, equipment and method for measurement of, 24:31565
activity of, use of coincidence detection system for measuring, 22:14771
beta decay of, beta—gamma angular correlations in, (E), 25:59795
beta decay of, beta—gamma circular-polarization correlations and spectra from, (E/T), 25:25720 (NP-18694)
beta decay of, beta-gamma directional correlation in, (E), 24:49777(R) (COO-1746-39)
beta decay of, β—γ angular and circular polarization correlations in, (E), 22:53105
beta decay of, β—γ angular correlations in, (E), 25:34101
beta decay of, β—γ circular polarization correlations for, (E), 24:30759 (NP-18213)
beta decay of, β-γ circular polarization correlation for, (E), 25:43941
beta decay of, β-γ coincidence spectra for, (E), 22:53215
beta decay of, conversion electron and x-ray spectra from, (E), 24:15911
beta decay of, forward—backward asymmetry of β—γ angular correlation for, (E), 24:28781 (SGAE-PH-89/1969)
beta decay of, helicity of antineutrino emission from, (E), 24:20122
beta decay of, K-shell rearrangement effects and two-electron conversion in, (E), 23:25935
beta decay of, second-order processes in, (E), 23:44914
beta decay of, shake-up effect of outer electron shell in, 21:29987
beta decay of, test of parity violation in thallium-203 from β—γ angular correlation in, 24:28785
beta decay of, transverse polarization of K-conversion electrons following, (E), 25:17874
beta decay of, x ray—conversion electron directional correlations in, (E), 24:30838
beta emission by, effects of, on enzyme activity and morphology of rat kidneys following injection, 22:49334
beta spectra of, 23:38298 (RISO-195)
book: Methods of Preparing and Storing Labeled Compounds, 23:335
clearance from perfused isolated kidneys of baboons in relation to improved preservation, 24:16944
concentration and retention factors for recoil atoms of, in neutron-irradiated diethyl-, dimethyl-, and diphenylmercury, 21:40902
content in biological samples in Italy, 21:4793 (EUR-2998.f)
content in rice treated with organic mercury pesticides, 21:28401
content of chlormerodrin-incorporated, in urine for diagnosis of hypertension and renal disorders of man, 22:15034
content of muscles and visceral organs of molluscs following uptake from food and seawater, 25:8625 (NP-18429)
content of Pacific salmon, 23:45725
content of, in chemical fractions of rat brain, 21:14568
decay in tissue, computer calculations of energy release and intensity for, use in dosimetry, 24:14492
decay of, conversion-electron and gamma spectra from, (E), 21:19246 (UCRL-16969)
decay of, second-order processes in, (E/T), 23:19254(R) (ORO-3624-7)
deposition of chlormerodrin-incorporated in cells of human astrocytomas, 22:6855
deposition of thin films of, design of cell for electro-, 24:17250
determination by isotope exchange and γ spectroscopy, 25:10490(T) (LIB/Trans-334)
determination in biological materials, development of γ-spectrometer assembly for, 22:50934
determination in swimming pool reactor water, method for, 22:35760
determination in tissues, effects of angular dependence of honeycomb collimators, used with scintillation detectors for, 21:32094
determination of, by isotope exchange with mercury and counting, 21:1276
diffusion in indium—mercury alloys, 21:40957 (IS-1600, Paper 2)
distribution and renal clearance in man, effects of cysteine and penicillamine on, 25:16253
distribution and retention in rats, effects of dimercapto-1, 2-propanol, DTPA, EDTA, and β,β-dimethyl cysteine on, 21:45498 (NP-16874)
distribution in brain tissues of mice and rats following inhalation in aerosols, 23:50310
distribution in dog kidney during experimental renal ischemia, 21:14679
distribution in man after oral intake, whole-body counting of, 25:2533
distribution in man, biological half-life for, 21:26409(R) (COO-1171-62)
distribution in mice and rats, radioautographic study of, 23:29334
distribution in needles, roots, and stems of pine seedlings, 24:14412
distribution in rats, effects of dimercapto-1,2-propanol, DTPA, EDTA, and β,β-dimethyl cysteine on, 21:45498 (NP-16874)
distribution in salmon tissues, determination of, by γ spectrometry, 23:13669 (BNWL-715(Pt.2), pp 1-149)
distribution of chlormerodrin-incorporated, in kidneys of rats, autoradiographic studies of, 22:49334
distribution of organic compound-incorporated, in organs of rats, 23:47944
dose to human bladder, kidneys, and ovaries from neohydrin-incorporated, 22:6803 (ORNL-4168, pp 231-88)
dose to man during diagnosis of renal vascular disease, 22:19381
dosimetry for brain scanning, 21:22440
dosimetry for scintillation scanning, 21:22551
dosimetry for scintillation scanning of kidneys, 21:22571
dosimetry in nuclear medicine, 21:22494
effectiveness for brain scanning, 25:552
effectiveness for diagnosis of human myocardial infarcts, by hot spot visualization, 24:29814
effectiveness for diagnostic techniques in combination with iodine-131 and Anger scintillation camera, evaluation of, 24:34453
effectiveness for localization of brain lesions, 23:18045 (CONF-670958-, pp 71-5)
effectiveness for localization of tumors in posterior fossa of human brain, computer evaluation of, 25:2578
effectiveness for scanning brain tumors in relation to gamma spectra, 24:29796
effectiveness for scanning human brain for diagnosis of multiple sclerosis, 25:24233
effectiveness of (hydroxymercuri)fluorescein-incorporated, for diagnosis of myocardial infarcts in dog hearts by scanning, 25:52146
effectiveness of chlomerodrin incorporated, for radiodiagnosis of subdural hematoma, 25:19059
effectiveness of chlormerodrin-incorporated, for differential diagnosis of brain diseases, method for determining, 25:11179
effectiveness of chlormerodrin-incorporated, for diagnosis of mammary, oral, and pharyngeal tumors, 25:42576
effectiveness of mercuric chloride-incorporated, for diagnosis of mammary, oral, and pharyngeal tumors, 25:42576
effectiveness of mercury chloride-incorporated, for scanning lungs for tumor localization, effects of glutathione, 25:26842
effectiveness of salyrgan-incorporated, for determining renal clearance, evaluation of, 25:11156
effects of chlormerodrin-incorporated, on life span of rats, effects of salt stress on, 23:26687 (UCLA-12-706, pp 45-72)
effects of organic compounds containing, on determination of inorganic mercury by reactions with stannous chloride and γ scintillation counting, 25:2109
effects of recoil atoms of, in neutron-irradiated diethyl-, dimethyl-, and diphenylmercury, 21:40901
effects of, on histological changes in dog brain, 21:14568
effects on human body, gonads, and kidneys during renal scanning in comparison to mercury-197 and metastable technetium-99, 24:34352
effects on kidneys following intravenous injection of labeled neohydrin, 24:883

effects on lymphocyte count following intravenous injection, chlormerodrin-incorporated, 23:9889
effects on radiation energy sorption in pharmaceuticals, 22:37819
energy levels and nuclear properties of, Nuclear Data Sheets for, (E), 25:36809
energy levels from mercury-204 (d,t) reactions, spectroscopic factors and spin-parity assignments for, (E), 24:49875
energy levels of, angular correlation studies of parity mixing in, (E/T), 21:2764
exchange between arylmercury compounds and elemental mercury, kinetics of, 21:27958
exchange between metallic mercury and organomercury compounds, kinetics of, 25:6308
exchange between metallic mercury vapors and aqueous solutions of mercury ions, effects of halides on, 21:21954
exchange between pentafluorophenylmercury bromide and mercury bromide in benzene or dimethyl sulfoxide, 25:37370
exchange with mercury-200, for determining mercury content of tissues and urine, 22:40526
exchange with mercury-201 in mercury bromide and phenylmercury bromide, 25:34600
excretion and retention of neohydrin-incorporated, in man, 22:30939
excretion by kidneys following intravenous injection, effects of glutathione in, 24:48388
excretion by kidneys of chickens, 23:50324
excretion by lungs following use for kidney scanning, 25:4673
excretion by rats, effects of chelating agents on rate of, 21:28388
excretion from human kidneys, effects of dimercaptopropanol on, 21:26351
excretion from rats, effects of BAL, DTPA and EDTA on, 21:22291
excretion of chlormerodrin-incorporated, by kidneys of mice, effects of chelating agents and sulfhydryl compounds on, 22:51370
excretion of mercuric chloride-incorporated, by rat kidney, 21:24328
excretion of Merphyrin-incorporated, by mice, effects of glutathione and 2,3-dimercapto-1-propanol on, 25:13341
excretion of, in rats, use of chelating agents for, 21:16294
gamma emission by, effects of energy of, on quality of scans, 22:36324
gamma emission by, effects of, on enzyme activity and morphology of rat kidneys following injection, 22:49334
gamma reactions with, fluorescent K x-ray spectra from, 21:39830
gamma spectra of, 23:33243
gamma spectra of, computer programs for least-squares analysis of, 24:31270
half life, (E), 21:15603
half-life of, accurate measurement of, (E), 22:29990
hazards of chlormerodrin-incorporated, to personnel, 23:14204
hazards to human children following renal scanning, 25:11190
incorporation in hydroxymercury derivatives of fluorescein by exchange reaction, 25:24246
metabolism in chickens following injection of various compounds, use of scintillation counters to study, 23:38450
metabolism in dog kidney during experimental renal ischemia, 21:14679
nuclear magnetic moment of, (E), 25:20397
nuclear magnetic moment of, optical pumping technique for measurement of, (E), 24:28784
performance of neohydrin-incorporated, for diagnosis of advanced kidney disease in man, 22:36333
preparation of thin radiation sources of, method of, using surface-active compounds, 21:25932
production by neutron irradiation of mercury(II) oxide, 25:21059 (JAERI-Memo-4220)
production in high specific activity by Szilard—Chalmers reaction, 25:13060
properties of, for use in gamma detector calibrations, 23:11756 (EGG-1183-1401)
radioinduced enrichment by Szilard—Chalmers effect in diphenylmercury, neutron, 22:42758
reactions of recoil, in organic compounds, 21:32214(R) (PRNC-101)
removal from human skin, effects of protective ointments on, 23:29543
retention by brain of rabbit, effects of administration route on, 24:2560
retention by man, calculations of biological half-life for, 25:16013
retention by man, evaluation of, 24:4613
separation from hydrochloric, nitric, and sulfuric acid solutions by solvent extraction using 4-methyl-3-penten-2-one, 23:373
separation from solutions by retention on mercury sulfide precipitates, 25:26199
sorption by skin of guinea pigs, effects of cleaning agents and stripping on, 22:14976
sorption through mucosa of ileum and jejunum, comparison of in vitro and in vivo, 23:43677
spectra of, comparison of efficiency of lithium-drifted germanium and sodium iodide detectors for, 21:12285(R) (ORNL-4039)
stability of standard solutions of, 25:46538
toxicity of chlormerodrin-incorporated, to man, safety factor for, 24:34066
toxicity of phenylmercuric acetate-incorporated, to man following ingestion of contaminated flour, calculations for, 25:8600
transport across placenta following injection into pregnant rats, effects of sodium selenite on, 24:23073 (CONF-690501-, pp 137-43)
transport across placental membranes in rats, 24:4548 (CONF-690501-7)
uptake and surface sorption by Chaetoceros costatum, effects of dark and light on, 24:34046
uptake by bean plants from loam soils, effects of DTPA on, 24:17013(R) (UCLA-34-P-51-26)
uptake by bush beans from soil, effects of chelates on, 24:25371
uptake by epithelium of renal allografts in dogs, effects of, on immune reactions, 21:43527
uptake by man from fresh fallout, calculation of radiation dose following, 24:34322 (UCRL-50790)
uptake by nursing neonatal rats following injection of labeled neohydrin into mother, 24:11927
uptake by personnel, use of whole-body counting to determine, 24:27583 (CONF-690540-, pp 380-90)
uptake in bones and tissues of rats for diagnosis of joint diseases, 25:29581
uptake of chlormerodrin-incorporated, by brain neoplasms, mechanisms for, 24:29793
uptake of, by brain tumor cells, 21:6602
use as source for gamma backscatter density measurements, 25:15858
use as tracer for determining mercury contamination of fish in Finland, 25:18931 (NYO-3446-14, Paper 30)
use for brain scanning, 23:50723
use for brain scanning compared with mercury-197 and RISA, 21:20305
use for brain scanning for detection of tumors in man, 23:50652
use for brain scanning, method for, 23:43824
use for clinical diagnosis in comparison to other radioisotopes, 23:48092
use for diagnosis of brain diseases in man in comparison with bismuth-206, iodine-131, mercury-197, and technetium-99m, 23:50716
use for diagnosis of human brain diseases, 23:10004
use for diagnosis of myocarditis, 25:29413 (CONF-691225)
use for diagnosis of neurological disorders in comparison to arsenic-74, copper-64, and iodine-131, 23:48107
use for kidney scanning, 25:52130 (A/CONF.49/P-631)
use for labeling compounds for diagnostic muscle scanning, 21:32681
use for labeling pharmaceuticals, 25:51965 (A/CONF.49/P-147)
use for measuring gamma backscattering rate, 21:3912
use for organ scanning in man, 25:6723
use for scanning, 23:50739
use for scanning of human brain in comparison to iodine-131 and technetium-99, 23:29626
use for scanning of human brain, hazards to kidneys from, 23:2902
use for scanning of human kidneys, 24:12171
use for scanning of kidneys, 22:25958
use for scanning of kidneys of man and rats, 22:38403
use for scanning organs at various depths, simultaneous use of gold-198, mercury-197, and selenium-75 with, 23:38669
use for scintiscanning of human spleen, estimation of weight following, 23:50693
use for scintiscanning of kidneys, 21:41462
use in brain scanning, efficiency of, 22:47556
use in distinguishing between cerebral infarctions and neoplasms, 22:4654
use in γ scattering analysis of binary systems, 22:40
use in medicine, review of carbon-14, 24:27629
use in radiodiagnosis of kidney, 21:22556
use in radiometric determination of volume change on mixing in cadmium—cadmium chloride solution, 22:16465
use in radiopharmaceuticals, determination of half-life and radiation-emission for, 22:23586
use of Brommercurascan- or Mercurascan-incorporated, for scintigraphy of heart for diagnosis of myocardial infarction, 25:29571(T) (LB/G-2835)
use of bromomercuri-2-hydroxypropane-incorporated, for spleen scintiscanning, 24:23247
use of chlormerodrin incorporated, in combination with technetium-99-labeled sodium pertechnetate to distinguish cysts and tumors in human kidneys, 22:36338
use of chlormerodrin-incorporated for brain scanning in man, 23:29636
use of chlormerodrin-incorporated, for brain scanning, 22:40761
use of chlormerodrin-incorporated, for brain scanning following hydrogen peroxide infusion, 24:34482
use of chlormerodrin-incorporated, for brain scanning for localization of abscesses, 24:32083
use of chlormerodrin-incorporated, for brain scanning, 24:29802
use of chlormerodrin-incorporated, for brain scanning, 23:38664
use of chlormerodrin-incorporated, for brain tumor scanning, 24:29797
use of chlormerodrin-incorporated, for contour scanning of human brain, 24:29799
use of chlormerodrin-incorporated, for diagnosis of brain tumors, review of, 22:21546
use of chlormerodrin-incorporated, for diagnosis of intratentorial brain lesions, 23:33756
use of chlormerodrin-incorporated, for diagnosis of vascular disease in human kidneys, 22:19381
use of chlormerodrin-incorporated, for diagnosis of arterial hypertension in man, use of ten-channel linear scanner for evaluating, 23:48128
use of chlormerodrin-incorporated, for kidney scanning, 25:4659
use of chlormerodrin-incorporated, for kidney scanning in hypertensive dogs, effects of vasodilation induced by trimethaphan on, 24:23272
use of chlormerodrin-incorporated, for kidney scanning, comparison of, with mercury-197, 23:10026
use of chlormerodrin-incorporated, for kidney scanning, effects of sulfhydryl containing drugs on, 23:50704
use of chlormerodrin-incorporated, for kidney scanning, 24:23263
use of chlormerodrin-incorporated, for scanning blood circulation in human brain, 24:23260
use of chlormerodrin-incorporated, for scanning blood circulation in kidneys in relation to diagnosis of renal diseases, 23:31844
use of chlormerodrin-incorporated, for scanning blood vessels in brain, 25:492
use of chlormerodrin-incorporated, for scanning brain, 23:50729
use of chlormerodrin-incorporated, for scanning cerebrospinal fluid flow in subarachnoid space of brain, 24:23262
use of chlormerodrin-incorporated, for scanning human brain, 24:23254
use of chlormerodrin-incorporated, for scanning human kidneys, 24:23255
use of chlormerodrin-incorporated, for scanning human brain, 24:29800
use of chlormerodrin-incorporated, for scanning kidneys, 23:50731
use of chlormerodrin-incorporated, for scanning kidneys, 23:50697
use of chlormerodrin-incorporated, for scanning kidneys, review of, 23:45798
use of chlormerodrin-incorporated, for scanning kidneys, 23:6521
use of chlormerodrin-incorporated, for scanning of brain or kidneys, 22:28582
use of chlormerodrin-incorporated, for scanning of brain and kidney, radiation dose to patient from, 23:38663
use of chlormerodrin-incorporated, for scanning of brain, 22:31134
use of chlormerodrin-incorporated, for scanning of human brain for localization of intracranial neoplasms, 22:31198
use of chlormerodrin-incorporated, for scanning of human kidneys, 23:48130
use of chlormerodrin-incorporated, for scanning of kidneys, 23:38637
use of compounds labeled with, for radiodiagnosis of brain neoplasms, comparison with other methods, 21:12916
use of drug-incorporated, in medicine, standards for, 23:33736 (CONF-670649-12)
use of mercurascan-incorporated, for scanning in dogs with myocardial infarcts, 23:48123
use of mersalyl-incorporated, for diagnosis of renal tumors in man, 24:776
use of mersalyl-incorporated, for scanning of patients following renal transplants, 23:48124
use of neohydrin-incorporated, for brain scanning, 25:8710 (NP-18560)
use of neohydrin-incorporated, for color scintigram diagnosis of brain tumors in man, 21:45695
use of neohydrin-incorporated, for detecting brain tumors, 21:6543(R) (NYO-2455-21)
use of neohydrin-incorporated, for diagnosis of intracranial diseases in man, tumor-to-brain concentration ratios for, 23:29627
use of neohydrin-incorporated, for diagnosis of lung cancer in man in comparison to x-rays, 24:34499
use of neohydrin-incorporated, for kidney scanning in man in comparison with iodine-131, mercury-197, and x rays, 23:50718
use of neohydrin-incorporated, for localization of brain tumors in man, 22:45632
use of neohydrin-incorporated, for scanning human brain, 22:38397
use of neohydrin-incorporated, for scanning of human kidney, 24:6083
use of neohydrin-incorporated, for scintigraphy of lungs following inhalation, 23:50724
use of neohydrin-incorporated, for scintigraphy of human kidneys for function and morphology, 25:29592
use of neohydrin-incorporated, for scintiscanning of cerebral cisternae, 24:7957
use of neohydrin-incorporated, in scanning of human kidney, classification of results from, 23:14237
use of Salyrgan-incorporated, for study of kidney function, 22:40758
use of treated erythrocyte-incorporated, for spleen scanning, 24:44559
use of, as label for chlormerodin, for use in localization of brain tumors, 21:14697
use of, for scintiscanning of children, safety of, 21:12904
use of, in determination of iodide ions, 21:1263
use of, in pediatric urology, evaluation of, 21:6584
use of, in renal scintigraphy, 21:4801
uses in chemical analysis, 23:13667
MERCURY ISOTOPES Hg-204
deuteron reactions (d,p) and (d,t) at 12 to 13 MeV, angular distributions for, (E), 24:49875
effects on microwave spectrum of iodomethylmercury, 21:42943
energy level at 430 keV, g-factor measurement using angular correlation technique with ion implantation in iron, (E), 22:46788
energy levels and transitions from nuclear reactions and radioactive decay, Nuclear Data Sheets for, (E), 25:39016
energy levels from oxygen-16 inelastic scattering, electromagnetic properties of first 2^+, (E), 24:52584
energy levels of, calculation using model of two proton holes coupled to a quadrupole vibrator, (T), 25:15033
energy levels of, calculation using shell model with n-p correlations, (T), 23:52131
energy levels of, gyromagnetic ratio of first excited 2^+, (E), 21:44661 (COO-7-0424)
neutron activation cross sections at 14.4 MeV, tables of, (E), 22:22589 (ORO-3346-18)
neutron reactions (n,2n) at 14 MeV, activation cross section for, (E), 23:31016
neutron reactions (n,2n) at 14.7 MeV, cross section for, (E), 24:26667

neutron reactions (n,2n) at 14.7 MeV, cross section for, (E), 24:40624
neutron reactions (n,2n) at 14.7 MeV, cross section for, (E), 22:50649
neutron reactions (n,2n) at 15 MeV, statistical model interpretation of cross section for, (E/T), 23:11037
neutron reactions (n,p) at 15 MeV, gold-204 production by, (E), 22:11969
MERCURY ISOTOPES Hg-205
beta decay of, branching ratios, gamma spectra, and log-ft values for, (E), 25:34088
energy levels from mercury-204 (d,p) reactions, spectroscopic factors and spin-parity assignments for, (E), 24:49875
MERCURY ISOTOPES Hg-206
beta decay of, analysis of first-forbidden, (T), 23:52153
beta decay of, γ spectra from, (E), 24:52619
beta decay of, half-life and log-ft values for, (E), 22:44691
energy levels from 4p—2h shell-model calculation including core excitation, spin—parity assignments for, (T), 25:5737
energy levels of, calculation using Hamada—Johnston potential, (T), 24:43417
energy levels of, shell-model calculations using nonlocal Tabakin potential with core polarization effects simulated by pairing + quadrupole forces, (T), 23:19314
energy-level density of, shell-model calculations for, (T), 24:49961
MERCURY ISOTOPES Hg-208
excretion by rats following diagnostic studies, use of stable chlormerodrin to promote, 23:35620
MERCURY NITRATES
complexes with uranyl nitrate, physicochemical properties of, 23:49809
deposition on plastic matrix for neutron activation analysis, 25:2146
effects on γ-radioinduced polymerization of acrylonitrile with propene, 24:11560 (JAERI-5022, pp 50-2)
effects on radioiodine release to atmosphere in fuel reprocessing, 22:30667
effects on suppression of radioiodine release from Savannah River Plant Purex process, 22:35882 (DP-MS-66-78)
spectra of powdered, NMR, 23:47430
$Hg(NO_3)_2$—HNO_3, solvent properties for aluminum, 24:2168 (JEN-203-DMa/1-23)
MERCURY OXIDES
analysis for mercury by thermal neutron activation using americium—beryllium source and prompt γ spectrometry, 24:31271
deposition on plastic matrix for neutron activation analysis, 25:2146
electromotive force measurements on galvanic cells containing, at 25 to 2000°C, 22:27704
positron annihilation measurements in, 24:23766
positronium formation in, 24:28087
radiation effects on, production of mercury-197 and mercury-203 in, 25:21059 (JAERI-Memo-4220)
spectra at 2 to 26 μ, ir, 21:19538 (N-67-12798)
thermodynamic properties of gaseous diatomic, free energy functions for, 25:29082
MERCURY PERCHLORATES
radiolysis of aqueous solutions of, in presence of potassium bromide, hydrogen yields and mechanism of γ, 23:43360
MERCURY, PHENYL(N-PHENYLTOLUENESULFONAMIDO)-
uptake of mercury-203-labeled, by rice plants, 21:45543
MERCURY SELENOCYANATES
carbon-14 exchange between selenocyanate ion and, mechanism of, 22:27693
MERCURY SULFATES
decomposition and high-temperature properties of, 22:4068 (NSRDS-NBS-7)
radiolysis of aqueous solutions of, in presence of potassium bromide, hydrogen yields and mechanism of γ, 23:43360
MERCURY SULFIDES
exchange of sulfur ion with cadmium II, rates of electrochemically-induced, 23:46030
exchange of sulfur ion with cobalt II, rates of electrochemically-induced, 23:46030
exchange of sulfur ion with lead II, rates of electrochemically-induced, 23:46030
exchange of sulfur ion with nickel II, rates of electrochemically-induced, 23:46030
exchange of sulfur ion with zinc II, rates of electrochemically-induced, 23:46030
MERCURY TELLURIDES
analysis for tellurium by single-sweep polarography, 22:33283
CdTe—HgTe, formation of layers by mercury ion bombardment of cadmium telluride single crystals, (E), 23:7059
MERCURY THIOCYANATES
carbon-14 exchange between thiocyanate ion and, mechanism of, 22:27693
MERCURY URANATES
preparation of $HgUO_4$, 22:23020
spectra of $HgUO_4$, effects of oxygen vapor pressure on infrared, 22:23020
Meritectic Reactions
see Phase Studies
Merlin
see Reactors, Research
MERPHALAN
radiomimetic effects of, on ultrastructure of tumor cells, 24:34386
MERPHYRIN
effects of mercury-203-labeled, on kidneys of mice, effects of glutathione and 2,3-dimercapto-1-propanol on, 25:13341
effects of mercury-203-labeled, on kidneys of mice, effects of glutathione on, 25:13341
MERSALYL
use of mercury-203-labeled, for scanning of patients following renal transplants, 23:48124
use of mercury-203-labeled, for study of kidney function, 22:40758
MESIC ATOMS
(Positively charged nuclei to which negative pions or muons are bound in a Bohr-like orbit.)
binding energies for helium K- and π-, calculations for circular and nearly circular orbits, 24:21565
binding energies for helium K- and π-, corrections for approximations used in calculation of, 25:7161
binding energies for helium K- and π-, effects of multipole interactions between electron and and meson on, (T), 24:21567
book: Excitation Mechanisms of the Nucleus. Electromagnetic and Weak Interactions, (T), 25:39114
cascade time for K^- decay in helium bubble chamber, (E), 25:5254
coupling constants for molecular hydrogen ions, nonadiabaticity corrections to Born—Oppenheimer approximation for, 22:24066
decay of 2s metastable state of helium μ^-, two-photon, (E), 25:33078
diffusion of hydrogen μ^-, in hydrogen gas, thermalization processes in, (T), 23:36498 (LNF-69/5)
dynamic nuclear-structure effects in μ-, (T), 23:37305
energy eigenvalues for meson (μ^-), with deformed nuclei, exact numerical solution of coupled Dirac equations for, 23:32150
energy level of π^-, approximations for extracting meson—nucleus scattering lengths from, 23:41946
energy level shift in deuterium π-, contribution of absorption—re-emission process to, 25:55833
energy level shifts and widths in, relation of meson—nucleus scattering length to, 24:23764
energy level shifts of π, effects of d- and f-wave π—N scattering on, 21:25309
energy level transitions in low-Z π^-, natural line widths for 2p—1s, (E), 22:45928
energy level transitions in low-Z, x rays from, 22:38720 (N-68-17409)
energy level transitions in π-, x-ray spectra from 2p-1s, (E), 21:43803
energy level transitions in, x-ray spectra from, (E), 21:3657
energy levels and wave functions of π-, strong interaction effects of π—nuclear interaction potential on, 23:36503
energy levels and widths of exotic, variations with strengths of nuclear interactions of, (T), 25:49729
energy levels of helium-4 K^-, scattering length from, 23:41946
energy levels of helium-4 π-, nuclear force shift and natural linewidth of 1s, (E), 24:32635
energy levels of hydrogen μ^-, splitting of 2P—2S, 24:49009
energy levels of hydrogen μ-, metastability of 2s state, 25:13991
energy levels of K^- and π^-, properties of metastable, 23:39311
energy levels of light π^- and μ^-, widths for 2p, (E), 23:28265
energy levels of low-Z π-, 25:35854
energy levels of medium-weight π, study of 2p-level shifts and widths for 3d—2p transitions, 22:27040
energy levels of muonic, nuclear polarization corrections to, 23:27345
energy levels of μ, effect of extranuclear electron on, (T), 22:36734
energy levels of μ^-, calculation of rotational and vibrational, from adiabatic potential-energy curves, 24:19731
energy levels of μ^-, effects of nuclear polarization on 3s, 3p, and 3d, (T), 25:19486
energy levels of μ^-, nuclear polarization corrections to, (T), 23:8451
energy levels of μ^-, second-order vacuum polarization for shift in, (T), 24:23760
energy levels of μ- and π-, effects of meson finite size on, (T), 25:55831
energy levels of π-, effects of meson (π) finite size on, (T), 25:13994
energy-level shifts and widths in K^-, repulsive effects of nuclear absorption on, 25:19485
energy-level shifts and widths of π-, optical potential for, 25:2897
energy-level shifts in μ-, (E/T), 22:37281(R) (NYO-72-191)
energy-level shifts in π-, (T), 22:27390
energy-level transition in muonic hydrogen, test of quantum electrodynamics from 2S—2P, 23:36981
energy-level transition in sulfur K^-, natural line width and energy shift of 4f → 3d, 24:42884
energy-level transitions and optical potential parameters in carbon-12 and oxygen-16 π-, πN scattering lengths for, 25:43806
energy-level transitions at 150 to 440 keV in μ^-, test of vacuum polarization corrections to Dirac energy in, (E), 25:53322
energy-level transitions between hyperfine-structure levels of hydrogen-isotope μ-, (E), 25:16797
energy-level transitions in bismuth and lead μ-, vacuum polarization effects in, (E), 24:51412
energy-level transitions in bismuth and lead μ-, vacuum polarization corrections to, (E), 24:23769
energy-level transitions in K- and π-, calculation of Auger and radiative, 24:21568
energy-level transitions in lead μ^-, effects of electron screening on energies of, (T), 24:23761
energy-level transitions in lead μ-, electron screening and vacuum polarization effects in, 24:51411
energy-level transitions in lead-208 μ-, electric quadrupole, (E), 25:4953
energy-level transitions in μ- and π-, cascade processes and x-ray emission in, (T), 25:58724
energy-level transitions in μ-, determination of nuclear charge distribution from, 24:11041
energy-level transitions in μ-, μ depolarization from, 23:18422
energy-level transitions in μ-, review of vacuum polarization effects in, 24:51411
energy-level transitions in μ-mesic lead, (T), 21:2692
energy-level transitions in π-, optical-model analysis for nucleon density effects in, (E/T), 24:18452
energy-level transitions in π-, x-ray energies and widths for 5g → 4f, (E), 25:49728 (N-71-16053)
energy-level transitions in, formula for relativistic radiation from single-electron, 23:27341
energy-level transitions in, x-ray spectroscopy of, 22:14835
energy-level transitions of K^-, mass of K^- determination from x-ray energies from, (E), 24:47383 (CONF-690557-(Vol.2), pp 889-95)
energy-level transitions of K^-, meson (K^-) mass accurate determination from, (E), 23:51859 (UCRL-19251)
energy-levels transitions in π-, calculation of energies and widths of 2p—1s, 24:8336
field theory in complex Weyl space for π-, general relativistic scalar, 25:38794
fine structure of π-, reduced-mass corrections for, 22:2808
fission of plutonium-239 μ-, probability ratio of nonradiative and ordinary, (E), 23:3997 (JINR-P1-4051)
formation and de-excitation of light-element K-, μ-, and π-, (E), 24:21563 (NAL-37)
formation of, review, 23:36501
gamma energy shifts in μ-, interpretation of isomer shifts for, (E/T), 22:50621
gamma spectra from tungsten μ-, isomer shifts in, (E), 24:24605
gamma spectra of μ-, hyperfine structure in, (E), 22:50622
gamma—neutrino angular correlation from μ capture by nuclei, (T), 21:27538
hyperfine spectra of thorium-232 and uranium-238 μ-, (E), 23:37253
hyperfine structure interactions between meson (μ) and valence electron in, calculation of, 23:39310
hyperfine structure interactions in μ^-, review of anomalies in magnetic, (E/T), 23:36484
hyperfine structure of beryllium, boron, lithium, nitrogen, and phosphorus μ-, (E), 24:15145
hyperfine structure of ground and first excited states of μ-mesic thallium, shell model calculations of, 23:1173
hyperfine structure of lanthanum-139 and niobium-93 μ-, nuclear finite-size effect on M1, (E), 25:53761
hyperfine-structure transitions in deuterium, hydrogen, and tritium μ^-, (T), 25:4952 (JINR-P4-5039)
interactions and finite nuclear charge radius effects on pionic, strong, 22:976
interactions of αK^-e^-, with helium atoms, perturbation-theory calculation of potential for, 24:8335
interactions with medium, effects on meson (μ^-) depolarization theory, (T), 23:1157 (JINR-P14-4052)
isomer shifts and magnetic hyperfine structure in μ^-, (T), 22:46827
isotope shifts in, review, 23:36501
Lamb shift in ionized helium μ-, (R), 25:9188
lifetime of μ-, use of time-to-amplitude converter and pulse analyzers for measuring, 22:6682
magnetic hyperfine interaction in μ^-, nuclear structure effects on, 25:23086
magnetic hyperfine structure in thallium-203 and -205 μ^-, 24:52599
meson (K^-) absorption in nucleus of, repulsive effects from, 25:19485
meson (K^-) capture by nuclei from, approximations in calculation of, 22:44442
meson (K^-) capture from 2P orbit of helium-4, π^- and A^* production in, 21:9794
meson (K^-) capture from 2P state of helium-4, predictions from K + α elastic scattering, (E/T), 22:7444
meson (K^-) two-nucleon absorption rate in oxygen-16, 24:52149
meson (μ) binding energies in lead, effects of electron screening on, (T), 24:23761
meson (μ) energy levels in nuclear fields of, perturbation calculations for, (T), 22:48618
meson (μ) polarization in spin-$^1/_2$, effects of magnetic interactions between meson, nucleus, and electron shell on, (T), 23:27347
meson (μ) polarization in, as function of hyperfine interaction constants, (T), 24:19740
meson (μ) polarization in, effect of noncompensated electron shell on, 24:30151
meson (μ) polarization in, effect of noncompensated electron shell on, (T), 23:41947
meson (μ^-) capture by nuclei of, test of lepton quantum numbers from μ^- → e^+ process in, 25:33659
meson (μ^-) capture by nucleus of deuterium, rate of, 24:40236
meson (μ^-) depolarization in low Z and hydrogen compounds, 22:21860
meson (μ^-) nuclear capture rate in μp, (E), 21:46470
meson (μ^-) transfer between muonic hydrogen atoms and argon, krypton, and xenon, (E), 24:10379
meson (π) polarizability in, possibility of detection of, 25:55831
meson (π) wave equation for stationary states in, general relativistic scalar field theory in complex Weyl space for, (T), 25:47969
meson (π)—nucleus scattering lengths from, (E/T), 25:9791
meson (π^-) charge exchange in hydrogen, 21:11390 (JINR-P4-3072)
meson (π^-) transitions in thorium-232 and uranium-238, x-ray energies and widths of 5g → 4f, (E), 24:39849
meson annihilation at rest in, Stark-effect model for, 21:7494

meson polarization in beryllium, boron, lithium, nitrogen, and phosphorus μ-, (E), 24:15145
meson transfer between hydrogen and deuterium atoms in gas mixtures, π⁻-, 23:3250 (JINR-P1-4036)
meson(μ) depolarization in beryllium-9, boron-10, boron-11, lithium-6, and lithium-7, from muon-nucleus magnetic dipole coupling, (E), 25:5576
muon polarization in, magnetic field effects on, (T), 21:37145
muon transfer from hydrogen to argon, effects on K-series, 21:20769
neutron emission from bismuth-209 μ-, (E), 23:42930
nuclear absorption in K-, strong-interaction effects in, (T), 25:46104
nuclear charge distributions in Z = 14 to 50 μ-, measurements using K/sub α isotope shifts, (E), 22:50565
nuclear deformation vibrations in tungsten-182 muonic, resonant excitation of, (T), 25:48128
nuclear dipole state excitation near neutron separation energy in lead-208 μ-, (T), 23:5965
nuclear energy shifts in μ-, (E/T), 22:50600 (MIT-2098-479)
nuclear excitation in heavy μ-, nonradiative atomic transition mechanism for, (E), 24:51410
nuclear excitation strengths and polarization of odd—even μ-, (T), 23:15495
nuclear force shifts for 1s levels of low-Z pionic, (E), 23:1182
nuclear gamma ray from samarium-152, energy shift of first rotational, 21:27611
nuclear isomer shifts in Z = 69 to 81 μ-, 24:52600
nuclear meson (K) capture in K-, (T), 21:42695
nuclear mixing of energy levels in π- and K-, dynamic, 25:45936
nuclear polarization effect in μ-, (T), 22:30048(R) (PUC-937-307)
nuclear polarization effect in μ-, (T), 21:38377(R) (PUC-937-260)
nuclear polarization in heavy μ-, effective interaction for, 24:52688
nuclear polarization in muonic, of deformed nuclei, (T), 24:49953
nuclear polarization in muonic, of spherical nuclei, (T), 24:49954
nuclear polarization in μ-, (T), 22:22590 (PUC-937-291)
nuclear rotational transition in μ-, asymmetric doublet from magnetic hyperfine splitting of, (T), 22:43897
nuclear structure research using μ-, review on, 24:15978
nuclear structure research with, μ-review on, 24:52682
production from meson (μ) capture by nuclei and free protons in hydrogen, radiative, (T), 21:42373
production of heavy μ⁻, processing during, (T), 21:41820
production of μ⁻, review of weak interaction theory for, 21:42329
production of π-, from electron reactions with nuclei, 25:59355
properties and uses in research, review, 24:39847
properties of helium-4 π⁻, calculation by effective-range analysis of elastic scattering phase shifts, 25:7162
properties of K-, having Z = 7 to 12, analysis based on x-ray measurements, 24:47012 (CONF-690557-(Vol.2), pp 694-707)
properties of meson (π⁻), phenomenological analysis of, 21:22984
properties of metallic forms of deuterium, hydrogen, and tritium μ-, 24:12641
properties of μ- and π-, review, 24:19734
properties of π-, review, (E/T), 25:19483
properties of π-, theory of, (T), 23:9040 (TID-24667, pp 611-25)
reactions of deuterium, with rare gas atoms, muon transfer in, 22:9024
reactions of hydrogen-isotope μ-, in hydrogen isotope mixture, (T), 25:16797
reactions of three-body systems involving, perturbed-stationary-states method for calculation of cross sections for, 25:49735 (ITF-71-14-P)
reactions with argon, krypton, neon, and xenon, meson (μ⁻) transfer rates in, (E), 21:13380
reactions with deuterium, hydrogen, and tritium atoms of isotopic hydrogen μ-, scattering lengths for charge-exchange processes in, (T), 24:35193
reactions with deuterons and tritons of deuterium and tritium μ⁻, isotope exchange in, (T), 25:4952 (JINR-P4-5039)
research, 21:17238
research on K-, review of, 22:18110
research on π-, review of, 23:44966
research on π-, survey of, 24:52500
research on, review of, (T), 23:37321
scattering by deuterium and hydrogen molecules, cross sections for elastic, (E), 21:13379
scattering by hydrogen molecules and protons of hydrogen μ⁻, (T), 23:36498 (LNF-69/5)
single-particle excitation in μ⁻, with deformed nuclei, (T), 23:6879
spectra of boron-11 μ⁻, hyperfine effects in, (E), 23:7229
spectra of helium-4 π- and μ-, K x-ray, (E), 24:32635
spectra of K-, having Z = 2 to 6, review of x-ray, (E), 24:47010 (CONF-690557-(Vol.2), pp 639-68)
spectra of medium and heavy K-, x-ray, 24:47011 (CONF-690557-(Vol.2), pp 669-93)
spectra of μ and π, use in nuclear and elementary particle physics, 21:25263
spectra of μ-, relation of nuclear charge distribution to isotope shifts in, 25:55821
spectra of π-, effects of chemical and physical state on x-ray, (E), 24:25985
spectroscopy of μ and π, nuclear structure from, (T), 22:18311
structure of, review of electric monopole and quantum electrodynamic effects in, 23:36501
theory of π-, recent developments in, 24:52693
time reversal nonconservation in carbon-12 mesons (μ⁻) K-capture, (T), 21:27405
transitions in μ-mesic lead, relative, (T), 22:47814
vacuum polarization in, correction due to proton electromagnetic-structure effects, (T), 24:8584
vacuum polarization of muonic, 23:8444
wave functions for helium K- and π-, calculations for circular and nearly circular orbits, 24:21565
wave functions for helium K- and π-mesic, effects of multipole interactions between electron and meson on, (T), 24:21567
x-ray emission and Auger effect for K-cascade calculations for, 24:51415
x-ray emission from argon and neon μ-, (E), 25:55830
x-ray emission from K-, 23:21094
x-ray emission from π, PDP-5 computer data handling system for, 21:13353 (UCRL-17253)
x-ray emission from π-, general relativistic scalar field theory in complex Weyl space for energy of, (T), 25:47969
x-ray emission from, design of hydrogen gas target for, 25:46640
x-ray emission from, design, operation, and calibration of bent-crystal spectrometer for studying, 21:14457
x-ray energies, line widths, and yields in beryllium, carbon, and lithium μ-, π-, and K-, 24:49012
x-ray spectra and nuclear capture rate for helium-4 (K⁻), 21:38217
x-ray spectra for A = 14 to 23 π- and μ-, (E), 23:10955
x-ray spectra for chromium, molybdenum, and neodymium μ-, isotope shifts in, (E), 24:24605
x-ray spectra for K-, implications for neutron distribution, (E/T), 23:13342
x-ray spectra for μ⁻, use for measuring nuclear charge distributions, (T), 22:48594
x-ray spectra from barium-138, cerium-140, and cerium-142 π-, 4f - 3d, (E), 25:2896
x-ray spectra from bismuth-209 μ-, (E), 24:52597
x-ray spectra from chlorine K⁻, (E), 25:28031
x-ray spectra from hydrogen μ⁻ and π⁻, Lyman, 25:33077
x-ray spectra from iodine and thallium π-, determination of π⁻ mass from, (E), 25:53005
x-ray spectra from iodine-127 μ-, analysis assuming nuclear resonance excitation, (E/T), 24:52604
x-ray spectra from light π- and μ-, (E), 22:20482
x-ray spectra from muonic, use of lithium-drifted germanium detectors for measuring, 23:17784 (BLG-425, Paper 4)
x-ray spectra from μ-, high-resolution studies of, (E), 22:5817(R) (NYO-GEN-72-28)
x-ray spectra from μ-, with deformed nuclei, (E/T), 22:20640
x-ray spectra from nickel-58 and nickel-60 π-, analysis for nuclear interaction, (E), 24:43197
x-ray spectra from π⁻-, line intensities, shifts, and widths of, (E), 24:49011
x-ray spectra from π-mesic calcium and titanium, meson(π) mass from, (E), 22:5492
x-ray spectra from π-mesic hydrogen, (E), 25:5288
x-ray spectra from silver-107 and silver-109 μ-, isotope shifts for, (E), 23:1887
x-ray spectra from yttrium-89 μ⁻, (E), 25:20360
x-ray spectra from, properties of, 25:47799
x-ray spectra from, review of, 22:52502
x-ray spectra of A = 40 to 238 μ-, self-energy and vacuum polarization corrections to, (T), 23:5842
x-ray spectra of bismuth and lead, K and L transitions in, (E), 22:26260
x-ray spectra of bismuth-209, corrections to muonic, (T), 22:19788
x-ray spectra of bismuth-209, gadolinium-158, and gadolinium-160 μ-, rotational model analysis using modified Fermi charge distribution, (E/T), 23:13296
x-ray spectra of calcium-40 and -44 π-, from 3d-2p transitions, 24:30749
x-ray spectra of cerium-140 μ-, 2s → 2p and 3p → 2s, (E), 25:1743
x-ray spectra of europium-151, europium-153, and lutetium-175 μ-, (E), 23:4009
x-ray spectra of hydrogen μ⁻, (E), 24:42530
x-ray spectra of K-, (E), 24:52446
x-ray spectra of K-, (E), 23:47045 (UCRL-18891)
x-ray spectra of lead-206 μ-, nuclear polarization effects in, (E), 23:15467
x-ray spectra of lead-206, -207, and -208 μ-, (E), 24:15923
x-ray spectra of mu, nuclear charge distributions and electric quadrupole moments from, (E), 21:12056
x-ray spectra of mu-mesic lead, (E), 21:3647
x-ray spectra of muonic, effects of nuclear rotations, surface vibrations, and giant multipole oscillations on, (T), 22:20700
x-ray spectra of μ, (E), 21:23534(R) (ANL-7246)
x-ray spectra of μ, effects of nuclear excitations on, (T), 24:13404
x-ray spectra of μ, finite distribution of nuclear electric and magnetic moments from hfs of, 23:49422
x-ray spectra of μ, isotope shifts in, 21:27574(R) (NYO-GEN-72-132)
x-ray spectra of μ, research program on, (E), 22:37281(R) (NYO-72-191)
x-ray spectra of μ⁻, (E), 22:5809(R) (ANL-7354)
x-ray spectra of μ⁻, use in studies of nuclear Coulomb monopole transition matrix elements, (T), 22:35378
x-ray spectra of μ- and π-, (E), 22:26924
x-ray spectra of μ-, (E), 21:35464 (TID-23888)
x-ray spectra of μ-, condensed-state effects in, (E), 22:26262
x-ray spectra of μ-, effects of nuclear dynamics on, (T), 21:20741
x-ray spectra of μ-, use for measuring nuclear charge distributions, (E), 22:5778
x-ray spectra of μ-, use in research on nuclear structure, (E), 22:20735
x-ray spectra of μ-mesic, hyperfine structure of, (E/T), 22:46834
x-ray spectra of odd—even, μ-, effect of single-particle excitations on, (T), 23:15495
x-ray spectra of oxygen-16 and oxygen-18 π-, (E), 23:19160 (RHEL/R-166, pp 81-90)
x-ray spectra of π⁻, measurement and optical-model analysis of line shifts, widths, and intensities in, 23:25135 (UCRL-18654)
x-ray spectra of π-, hyperfine structure in, (E), 21:46746
x-ray spectra of π-, spin-0 assignment for π⁻ from, 22:46416
x-ray spectra of thorium-232 and uranium-238 μ-, nuclear charge distributions from, (E), 23:31032
x-ray spectra of Z = 14 to 50 μ-, isotope shifts in, (E), 22:50565
x-ray spectra of, analysis for nuclear charge distributions, (T), 22:22636
x-ray transition energy and natural linewidth in sodium-23 pionic and muonic, 2p-1s, 23:1174
x-ray yields from helium μ⁻, K and L, (E), 25:33078
x-ray yields from hydrogen μ-, as functions of density, 25:43125
x-ray yields from K⁻, 24:52105
x-ray yields from K-mesic lithium-7, beryllium-9, boron, and carbon-12, (E), 23:22881
x-ray yields from medium and heavy K⁻-, 25:979
x-ray yields of light π- and μ-, (E), 23:28265
x-rays from μ- and π-, target-detector assembly for detection and measurement of, 25:18748
x-rays from μ-, use for calibration of lithium-drifted germanium detectors, 23:11780
MESIC MOLECULES
chemical binding effects on x-ray emission of π⁻, (T), 22:26208
description using Born-Oppenheimer approximation with corrections for nonadiabaticity, 21:31834(R) (ORNL-4082)
energy level shifts in pμd and pμp, nuclear scattering lengths from, 21:5087
energy levels of (p-μ-p)⁺, ground-state, (T), 22:15362
energy levels of hydrogen, nonadiabaticity corrections to Born—Oppenheimer approximation for, 21:37101 (ORNL-TM-1850)
energy levels of muonic deuterium hydride, (T), 22:5140
energy levels of μ, 2PPI, (T), 22:41361
energy levels of μ, calculation by variation of functions, 23:51386
formation by meson (π⁻) capture by hydrogen in chemical compounds, probability of, 22:41290 (JINR-P13-3870)
formation of (ddμ)⁺ ion, mechanism of, 21:26970 (JINR-P4-3256)
formation of (ddμ)⁺ ions, rate of, (T), 23:18451
formation of deuterium μ⁻, rates and mechanisms of, (T), 24:19741
formation of muonic deuterium, fusion rate in, (T), 22:29191
formation rate of μpp, in gaseous hydrogen, (E), 22:45921 (JINR-P15-3964)
formation rate of ppμ, in gaseous hydrogen, (E), 23:44174
formation rates of μ⁻, formula based on μ⁺ precession frequency for, 24:45008
hyperfine structure of (pμp)⁺ ortho bound state, (T), 22:47798
matrix elements for S states of meson (μ), 23:36502
meson (μ) spin precession in, (T), 24:39841
meson (μ⁺) chemical shifts in diatomic halide, 25:2899
meson (μ⁻) depolarization in low Z and hydrogen compounds, 22:21860
meson (μ⁺) diamagnetic shielding in, chemical shift relative to proton, 25:35852
meson (μ⁺) precession frequency in, chemical shifts in, (T), 24:45008
meson (π⁻) capture by hydrogen in hydrogenous substances, large mesomolecule model for, 23:12536
model for, 22:41289 (JINR-P4-3860)
model for large, 25:19482(T) (NRC-TT-1426)
model for large, 23:18450
model for π⁻, 21:11390 (JINR-P4-3072)
model of, from meson (π⁻) charge-exchange reactions on bound hydrogen nuclei, 21:44373
production from π⁻ capture by hydrogen, 22:15679 (JINR-P13-3653)
production of mu-mesic deuterium, mechanism of, (T), 21:18445
production of muonic water, possibility of, 22:17418
production of waterlike, 22:29233
properties and uses in research, review, 24:39847
research, 21:17238
variational calculations on muonic, 22:9051
wave function for muonic deuterium hydride, 22:9047
wave functions for μ, calculation by variation of functions, 23:51386
Mesityl Oxide
see 3-Penten-2-one, 4-Methyl-
MESITYLENE
bromination of, effects of deuterium on kinetics of, 21:12394
deuterium exchange reactions with hydrogen in, kinetics of platinum-catalyzed, 23:15858
effects on spectra of water, water-d, and water-d_2, ir studies on, 24:29286
hydrogen abstraction from, effects of tritium on, 22:37732
positron annihilation in, effective electron density for, 21:37125
radiation effects on dimer cation formation in, adsorbed on silica gel, ESR spectral studies on γ, 24:11552 (JAERI-5022, pp 1-5)
radiation effects on solvent efficiency of, for 2,5-diphenyloxazole, electron and uv, 21:15935
radiation effects on tritium exchange between benzene and, mechanism of β, 24:7463

radiation effects on tritium exchange between water and, mechanism of β, 24:9349
radiation stability of, for use as diluent in fuel reprocessing, 25:34638 (RT/CHI-(70)35)
radioinduced excitation of, emission spectra and decay of emitting species from electron, 23:7578
radioinduced fluorescing species in, lifetimes of electron, 24:39852 (ORNL-4446, pp 197-205)
radioinduced reactions with tritium atoms, effects of benzene on β, 23:21732
radioinduced tritium exchange between hydrochloric acid and, 22:42664
radiolysis at low temperature, EPR spectral studies on mechanism of free radical production from, 23:35217
radiolysis in 2-methylbutane—3-methylpentane at -196°C, spectral studies on ionic processes in γ, 23:9476
radiolysis of liquid, isomer effects on G values in γ, 25:31991
radiolysis of, adsorbed in molecular sieve, ESR spectral studies on free radicals produced from electron, 23:40714
radiolysis of, adsorbed on silica gel, ESR studies on monomer and dimer cation formation in γ, 25:46518
radiolysis of, G values of, 21:35701(R) (BNL-50023)
radiolysis of, relation between electric conductivity and yields in γ, 21:23922
reactions of recoil bromine-80 with, 21:34311(R) (NYO-1396-103)
reactions with hydrogen bromide, effects of deuterium on, 22:10258
reactivity worth in reactors, effects of molecular structure on, 21:42871 (IDO-17253)
spectra of liquid, under electron impact, decay and emission in, 23:15758 (ORNL-TM-2219)
cyclohexane—mesitylene, radiation effects on light emission from, role of charge transfer in, 21:21998
mesitylene—methanol, radiation effects on, at 77°K, ESR studies of, 21:24045
mesitylene—$NaClO_4$, 2,4-pentanedione distribution in, spectrophotometric studies on, 24:16642
2-MESITYLENETHIOL
effects of, on photoreduction products in acetone—benzhydrol system, 21:10376(R) (NYO-2499-20)
MESOAPPENDIX
radiation effects on blood microcirculation in rat, laser, 21:11019
radioinduced injuries in precapillaries of rat, laser, 21:11017
Meson Resonances

bootstrap between two-quark bound state and octet of pseudoscalar, recriprocal, 24:18154
bootstrap calculation of quark—antiquark channel for, 22:3386
bootstrap calculations for vector and pseudoscalar, in quark model, 23:23460
bootstrap calculations for vector and pseudoscalar, in quark model, 22:34951 (AD-665663)
bootstrap of bound-state scalar and vector, perturbation of relativistic, (T), 25:1517
bootstrap theory for, unified Chew—Low and Fermi—Yang models in, 22:3375
bootstraps for natural-parity trajectories for, 23:15097
bootstraps for unnatural-parity states of, using finite-energy sum rules, 23:15098
capture of negative, in solids, Z dependence of, (T), 22:47832
Cherenkov radiation emission by charged, moving in infinite nuclear medium, (T), 24:28510
chiral transformation in Euclidean space, embedding of nonlinear, 23:34586
chiral transformations for pseudoscalar, SU(2) x SU(2), (T), 24:40408
classification and decay rates in SU(3) symmetry, 23:15192
classification by compact subgroup of chiral symmetry groups in nonlinear Lagrangian model, 23:49201
classification in exchange-degenerate trajectories, 23:15206
classification in ladder U(6,6) symmetry, (T), 25:59546
classification in quark model, review of $\pi^- + p$ interactions at high energies for, (E/T), 24:15477 (INP-681, pp 150-70)
classification in representations of charge algebra, 23:18944
classification in representations of extended Poincare groups, 23:15179
classification in representations of SU(4) x O(3) group, 25:59551
classification in SU(3) multiplets, 23:21143
classification in SU(3) symmetry, review of, 22:37177 (CONF-670725-, pp 17-38)
classification in SU(4) multiplets, 24:6739
classification in SU(4)/sub w/ algebra, meson—baryon—baryon vertex functions and form factors from, 22:35060
classification in SU(6) x O(3), 24:45569
classification in U(6) x U(6) x O(3) in quark model, 21:44363
classification of low-lying states in quark model, current status of, 22:41803 (CALT-68-162)
classification of positive-parity, kinetic supermultiplets model for, 21:35333
classification of vector, SU(3) symmetry, 25:36553
classification of, nonrelativistic quark model for, (T), 25:12203
classification of, quark and spinning-top models for, 21:15321
classification of, supermultiplet structure for, 21:29542
commutation relations of field of, superconvergence sum rules from canonical, 24:13112
composite model as two-body bound state of Dirac particles, 22:32138
compositeness conditions for vector, 23:5610
coupling (vector-meson—vector-meson—π) and (axial-vector-meson—axial-vector-meson—π) in chiral-invariant Lagrangian, 25:17480
coupling and masses of vector and axial-vector, sum rules for SU(3) x SU(3) spectral functions for, 21:33744
coupling constant (vector-meson—photon), consistency solution for saturation of covariant quark model sum rules for, 24:10704
coupling constant for scalar nonet of, superconvergence condition for, (T), 21:44356
coupling constant for vector-meson—lepton—neutrino in SU(3), relation for, 21:44342
coupling constant for, Cabibbo theory of weak interactions for vector meson—lepton—neutrino, 22:32135
coupling constant relations for, saturation of superconvergence relations for, 21:37786
coupling constant relations for, unique solution consistent with collinear U(6) and U(6) x U(6) x O(3) for, 21:37786
coupling constant sum rules for antibaryons—baryon—meson in broken SU(3), 23:5645 (NP-17659)
coupling constant sum rules for pseudoscalar—pseudoscalar—vector, in broken SU(3), 23:5645 (NP-17659)
coupling constants (hyperon—meson) for anti A + A, anti Σ + Σ, and anti Ξ + Ξ interactions, sum rules and vector dominance for hyperon form factor for, (T), 25:25457
coupling constants and masses in SU(3)-invariant spinor theory, 24:1635
coupling constants and masses of isoscalar-scalar, 21:27367
coupling constants and masses of unitarity corrections to pole dominance in spectral-function sum rules for, 22:50386
coupling constants between baryons and pseudoscalar, in SU(3) strong coupling baryon bootstrap model, 25:56503
coupling constants for baryon—baryon—pseudoscalar meson in broken SU(3), correlation between nonleptonic hyperon decays and strong, 21:35297
coupling constants for baryon—baryon—pseudoscalar meson in broken SU(3), dispersion calculation for, 21:31627 (INP-541/PL)
coupling constants for meson—nucleon system, contribution to intermediate states of anti N + N interactions, (T), 24:52133
coupling constants for meson—nucleon, two-point function with positive mass distribution in nonlinear spinor theory for, 23:32705
coupling constants for scalar and pseudoscalar octets of, broken symmetry for, 24:13136
coupling constants for vector—vector—tensor, 25:45739
coupling constants for vector—vector—tensor, model for, (T), 25:33686 (DESY-71/14)
coupling constants for, field theoretic model with currents and symmetry breaking for, 22:3478
coupling constants for, mass formula for mass relations with relations for pure meson and baryon—meson, 23:39721
coupling constants for, pole-dominance approximation in current-algebra calculation of width and, 22:29683
coupling constants in broken chiral symmetry, sum rules for, 24:40435
coupling constants in broken SU(3) symmetry, sum rules for, 21:17165
coupling constants in broken SU(3), dynamical model for, 21:17156
coupling constants of 2^+, antibound state of two π with J = 2 and I = 1 in dispersion sum rules relating integral of quadratic functions of amplitudes of γ + p interactions with, (T), 25:38708
coupling constants of pseudoscalar, with baryons, dispersion sum rules for, 22:7502 (JINR-P2-3555)
coupling constants of three-vector, six-point Veneziano model for, (T), 25:22792
coupling constants of vector, 23:49145
coupling constants of, relation with electromagnetic forces, (E), 23:51827 (AD-689425)
coupling constants of, sum rules for dynamical derivation of broken SU(6) symmetry for trilinear meson—meson and meson—baryon, (T), 24:49432 (SINP-TH-69-5)
coupling constants with baryons, bootstrap sum rules for amplitudes of baryon interactions with baryons for, (T), 25:33770
coupling constants, form factors, and masses of, asymptotic symmetry and pole dominance for relation between, 23:3728
coupling constants, mass relations, and mixing angles from symmetry breaking in axial-vector spectral-function sum rules, 22:17995
coupling in quark model of broken SU(6) x O(3), 24:24351
coupling in quark model, PCAC consistency check on positive- and negative-parity, 24:49463
coupling of 2^+, gravitational universality principle for, 21:15328
coupling of baryon resonance octet to pseudoscalar-meson—baryon system, F/D ratios for spin-1/2, 24:10724
coupling of bound states of, dynamics in quark model for, 21:18979
coupling of exotic, tensor meson dominance for, 25:38725
coupling of isoscalar and isovector, equal-time commutation relations of renormalized currents in perturbation theory for, 22:39471
coupling of neutral vector field of, with electromagnetic field, 23:10781
coupling of pseudoscalar, to baryon resonances, current divergences for, 22:5586
coupling of pseudoscalar, to spin-j resonance, relativistic model for kinematic form factors for, 22:39375
coupling of scalar fields to trace of energy—momentum tensor, 23:3797
coupling of scalar, second-class vector currents for, 25:47802
coupling of vector and pseudoscalar, universality principles for, 21:15328
coupling of vector, gauge-invarient mass term for, 23:34594
coupling of vector, to nucleons, 21:5370
coupling of vector, to protons, constants for, (T), 21:2480
coupling of vector, use of self-consistency equations for deducing symmetry group for self-, 21:37898
coupling of vector, with two pseudoscalar meson, PCAC in broken SU(3) for, 22:34960
coupling of vector-vector-pseudoscalar, equal-time current density commutators for, 22:46415
coupling parameters in field theory for vector, current-algebra determination of, 22:5642
coupling strengths of, bootstrap and Regge behavior for chiral SU(2) algebra for, 21:33684
coupling to baryons in anti K + K —, anti K + K interactions and antibaryon interactions with baryons, rigorous inequalities from positivity and duality in zero-width approximation for, 25:50130
coupling to baryons in broken SU(6)/sub W/, 21:19048
coupling to baryons in field theory with S, invariance, 21:13702
coupling to baryons in quark model, sum rules for, 21:35309
coupling to baryons in Regge pole theory, f/d ratios for, 24:37793
coupling to baryons in s-channel for 0^- meson interactions with $^1/_2{}^+$ baryons, 24:13099
coupling to baryons in SU(3) symmetry in strong coupling theory, 22:11684
coupling to baryons, bootstrap calculation of vector, 22:46442
coupling to baryons, Chew—Low model for Regge-pole, 21:9802
coupling to baryons, current algebra and quark model predictions for pseudoscalar, 21:9787
coupling to baryons, dispersion sum rules for, 21:33698
coupling to baryons, dispersion sum rules for pseudoscalar, 22:24657
coupling to baryons, extension of static strong-coupling theory for mixed pseudoscalar and vector, 22:52984
coupling to baryons, hypercharge nonconservation in, 21:7539
coupling to baryons, SU(3) symmetry for, 23:36936
coupling to baryons, sum rules in exact and broken SU(6)/sub w/ for, 21:5414
coupling to baryons, superconvergent sum rules for vector, 21:19001
coupling to baryons, U(3) x U(3) chiral symmetry model for, 24:37847
coupling to conserved current, functional-integral technique for renormalizeability of massive non-Abelian gauge fields for, 24:13157
coupling to conserved fermion current, functional integral approach to renormalizeability of massive non-Abelian vector gauge fields in, 23:39789 (RLO-1388-553)
coupling to mesons in broken SU(3), sum rules for, 21:15388
coupling to nucleons, static SU(6) for, 22:46491
coupling to photons, Veneziano-type representations for, (T), 25:59352
coupling to two baryons, universality principles for vector, 21:15328
coupling to vector mesons and photons from contributions to vector and pseudoscalar meson decays, (T), 25:40917 (LNF-71/8)
coupling with baryons in broken SU(3), current algebra for vector, 21:25295
coupling with fermion field, singularities on light cone for pseudoscalar, 24:1639
coupling with mesons, parallel transfer in SU(3) space of strong interactions for prediction of ratio of symmetric to antisymmetric, 24:15630
coupling with nonrelativistic spinless nucleons, Nelson model for, 23:30814
coupling with nucleons, lectures on, 24:37407
coupling with nucleons, N + N forward dispersion relations for, 22:24683
coupling-constant relations in relativistic quark model, 22:50374

coupling-constant sum rules for 2^+ nonet of, in broken SU(3), 21:15389
couplings and exchange degeneracy for, quark model for universal, 23:51912 (COO-264-520)
couplings and strong decays of axial-vector and tensor, in quark model, 22:11657
couplings for vector, asymptotic symmetry for broken SU(3) sum rules for, (T), 25:17544
couplings in [U(6) x U(6)]/sub β/ scheme, universality of factorized residues for scale of, 22:37181
couplings in broken unitary symmetry, PCTC hypothesis for vector, 21:29531
couplings of axial, scalar, and tensor mesons to pseudoscalar and vector, partial symmetry group U(6) for, 21:42423
couplings of scalar and pseudoscalar, analysis of SU(3)-invariant, 25:19983
couplings of, quark model selection rules for, 24:3622
couplings of, tensor meson dominance for helicity structure of Regge, (T), 25:33684 (COO-264-572)
current algebra for model of, relativistic quark model for representation of, 21:29520
current algebra for spin-0 and -1, review of effective Lagrangians and field algebras for chiral symmetry and PCAC hypothesis in, 23:42658
current algebra for states of, 21:18987
current algebra for system of noninteracting, functional differential equations for irreducible representations of local, 25:25408 (NYO-2171-326)
current algebra formalism for vector meson dominance, 22:34976
current algebra from, 21:21274
current algebra in quasi-independent quark model for, 22:22384 (ITF-67-51)
current algebra models for pseudoscalar, Adler zero condition in, 25:1661
current algebra representations for N identical spin-0, (T), 25:12125
current densities for, representations of algebra of, 21:11799
current propagators in SU(3) x SU(3) spectral-function sum rules for vector and axial-vector, 22:15768
current theory for isoscalar, dynamic variables in, 24:40384
current theory for, test of Sugawara, 23:36926
data tabulations on, based on quark model, 22:48247
decay, 21:33599 (RHEL/R-144, pp 15-40)
decay $A_1 \to$ rho + π and $A_1 \to \pi + \gamma$, chiral SU(2) x SU(2) current-algebra predictions for, 25:33702
decay amplitudes in composite relativistic O(4,2) model, form factor and mass corrections to weak, 23:23513
decay constants and magnetic moments of $S = 1^-$, in nonlinear quark theory, 23:25597
decay constants of pseudoscalar, commutation relations between current divergences for, 24:10798
decay coupling constants and masses from spectral-function sum rules for chiral U(3) x U(3), 22:46487
decay in dynamic composite model of urbaryons, 24:42925
decay in U(6) x U(6) x O(3) symmetry scheme, two-body strong, 23:34636
decay into $\pi^+ + \pi^0$ in $\pi^+ + p \to \pi^+ + \pi^0 + p$ interactions at 968 MeV/c, search for, (E), 22:11593
decay of 0^- and 1^-, vector dominance Veneziano model and sum rules for broken SU(3) symmetry for radiative, (T), 25:5402
decay of 0^+, to 3 hadrons, final-state interaction enhancements in weak, (T), 23:8787
decay of 1^+ and 2^+, in 405 multiplet, 21:40264
decay of 1^+, unitary symmetry for radiative, 21:2498
decay of 189 and 405 multiplets of, SU(6)/sub W/ for widths and branching ratios for, 21:29613
decay of 189-plet, in SU(6)/sub W/, 21:13719 (JINR-E2-3102)
decay of 2^+, SU(3) symmetry for, 24:33035
decay of 27-plet, SU(3) symmetry for rate of, 22:35051 (NP-17486)
decay of 27-plet, unitary symmetry model for, 22:32194
decay of arbitrary-spin, relation between width and coupling constant for two pseudoscalar meson production in, 24:3647
decay of axial-vector and quark model for strong, 22:11657
decay of high-mass, proposed experiment for detecting, 24:51957 (TID-25473(Vol.4), pp 267-73)
decay of I = 1, review of, (E/T), 25:53027
decay of I = 1, Y = 0, dynamical model for electromagnetic and strong, 21:23324 (NP-16681)
decay of isovector, crossing-symmetric Regge model for, 23:32718
decay of J/sup P/ = 0^-, current algebra for amplitudes of weak, 23:44641
decay of J/sup P/ = 0^-, phenomenological analysis of CP violation in weak, 23:44641
decay of J/sup P/ = 0^-, radiative corrections to weak, 23:44641
decay of J/sup P/ = 0^-, review of selection rules for Hamiltonian for weak, (E), 23:44641
decay of J/super P/ = 1^+, broken SU(3) x SU(3) chiral algebra for mixing angle, broken SU(3) mass sum rules, and coupling constants for, (T), 25:5395
decay of mass (1717) and (1832), (E), 21:18903
decay of massive neutral scalar, relativistic invariance without angular momentum conservation for electron—positron, (T), 23:15043
decay of neutral vector, quark model predictions for charged lepton production from, 21:40166 (MIT-2098-359)
decay of neutral, conditions for validity of Bell—Steinberger sum rule for, 24:10691(R) (COO-264-532)
decay of neutral, effective mass distribution of γ and π^0 from, (E), 21:17043 (JINR-E1-3100)
decay of pseudoscalar and vector, broken SU(3) for radiative, 22:46446
decay of pseudoscalar and vector, static quark model for widths of, 21:29477
decay of pseudoscalar and vector, SU(3) symmetry for, 22:3486
decay of pseudoscalar, generalized Weinberg sum rules for axial-vector Cabibbo angle for two-body, 21:31581
decay of pseudoscalar, Goldberger—Treiman relations for, 22:32106
decay of pseudoscalar, quark model predictions for two-body photonic, 21:40166 (MIT-2098-359)
decay of pseudoscalar, spectral-function sum rules and K/π coupling constant ratio for, 22:46485
decay of pseudoscalar, strong couplings from, 24:3597
decay of pseudoscalar, SU(3) theory for three-body leptonic, 22:5622
decay of pseudoscular, Cabibbo theory for radiative, 22:15744
decay of scalar and pseudoscalar, generating functional for Ward identities for constants of leptonic, 24:26425
decay of scalar and pseudoscalar, Ward identities in current algebra with broken symmetry for constants of leptonic, (T), 25:1496 (AD-705549)
decay of spin-0 and spin-1, effective Lagrangian in SU(3) x SU(3) chiral symmetry for weak leptonic, 24:15649
decay of spin-0^+, -1^+, and -2^+, quark rearrangement model for calculation of rates of, 23:32714
decay of spin-1, theory with noncompact groups for, 21:29594
decay of spinless, Veneziano model for resonances in, (T), 24:42939
decay of tensor, test of meson pole dominance from, (T), 25:12216
decay of vector and axial-vector, general properties of radiative leptonic, (T), 22:44368
decay of vector and pseudoscalar, new vector meson coupling to vector mesons and photons from contributions to, (T), 25:40917 (LNF-71/8)
decay of vector and pseudoscalar, vector dominance model predictions for, (T), 24:52077
decay of vector, field-algebra model for, 23:23464
decay of vector, integer quark charge for radiative, 21:15379
decay of vector, into lepton pairs, SU(3) approximation and 8 chiral SU(3) x SU(3) algebra for coupling in, 23:23514
decay of vector, into two pseudoscalar, dynamic composite model for, 23:39695
decay of vector, magnetic and quadrupole moments from bremsstrahlung in, (T), 23:32648(T) (NP-tr-1784)
decay of vector, model for CP violation in minimal electromagnetic interactions in weak radiative transitions in, 22:32188
decay of vector, nonlocal symmetry operations and Cabibbo angle for leptonic, 25:53268
decay of vector, ω—phi mixing for 1^+—1^- production from, (T), 24:52079
decay of vector, ω—phi mixing for two pseudoscalar meson production from, (T), 24:52079
decay of vector, quark model for three-body, 25:53158
decay of vector, radiative, (T), 21:18970
decay of vector, rates for electromagnetic and strong, (T), 21:18987
decay of vector, rates of radiative, 24:8700
decay of vector, selection rule in quark model for, 24:37954
decay of vector, Sp(6) symmetry for amplitudes of radiative, 22:1470
decay of vector, sum rules from chirality commutator for, 21:21223
decay of vector, universal coupling in electromagnetic, 21:4024
decay of vector, vector dominance model for leptonic, 21:31553 (DESY-67/13)
decay of vector, vector dominance model for partial widths of radiative, 24:28543
decay of vector, Weinberg spectral-function sum rules and chiral SU(3) x SU(3) symmetry for leptonic, 24:18260
decay of, algebraic models for weak semileptonic, 23:44630 (NYO-3399-202)
decay of, axial vector—axial vector—vector vertex from gauge field algebra and pole dominance assumptions for, 24:13138
decay of, baryon—antibaryon model for photon, 24:42952
decay of, baryon—antibaryon model for π production in, 22:26641
decay of, book on, 21:7489
decay of, breaking of chiral SU(3) x SU(3) symmetry for, 23:34628
decay of, centrifugal barrier effects in, (T), 24:42945 (UCRL-19826)
decay of, chiral dynamics for weak semileptonic, 22:29678
decay of, cluster model of hadrons for, 22:50380
decay of, current algebra for radiative, 21:21163
decay of, current divergences for relations among amplitudes of, 22:32099
decay of, empirical test of tensor meson dominance from widths of, (T), 25:9764 (DESY-70/58)
decay of, extension of Iizuka rule for strong, (T), 24:49444
decay of, extension of Kemmer-symmetric coupling for internal charge configuration, masses, and lifetimes from, (T), 25:12199
decay of, extremum relation for lepton masses for, 22:5551
decay of, Lagrangian gauge-field model for SU(3) breaking in, 24:8700
decay of, linear and quadratic mass formulas from SU(3) analysis of electromagnetic, 23:46764
decay of, mixing in 189- and 405-plet of SU(6) for, 21:33755
decay of, model with intermediate vector meson for total radiative corrections to G/sub β//supV//G/sub μ/ ratio for, (T), 25:59416
decay of, partial symmetry for probability of radiative, 21:46572 (JINR-P2-3478)
decay of, phenomenological analysis of, 22:3395
decay of, phenomenological theory for, 22:5621
decay of, quark model for parity violating nonleptonic, 22:9559 (JINR-P2-3603)
decay of, quark model for perturbation-theoretic calculation of soft-pion emission in leptonic, 22:22378
decay of, radiative corrections for beta, 22:48264
decay of, radiative corrections to two- and three-particle, 23:34557
decay of, relativistic quark motion effects in, 23:18879 (ITF-68-48)
decay of, renormalization of vector coupling constants in leptonic, 21:44338
decay of, review of leptonic, 22:15713 (DESY-67/43)
decay of, review of SU(3) symmetry predictions for, 22:37177 (CONF-670725-, pp 17-38)
decay of, saturation of covariant quark model sum rules for widths of electromagnetic, 24:10704
decay of, spectral function sum rules, SU(3) symmetry, and superconvergence for widths of, 24:32999
decay of, SU(2) x SU(2), SU(3) x SU(3), and PCAC hypothesis breakdowns in chiral current algebra for, 24:52170
decay of, SU(3) x SU(3) chiral transformation properties for branching ratios and widths for, 24:40444
decay of, sum rules for weak, 21:21163
decay of, T-odd and CP-noninvariant correlation in, (T), 23:36967
decay of, three-point functions in current algebra for strong, 24:33001
decay of, transistorized time-to-amplitude converter for measurement of, 24:2524
decay of, vector dominance model for, (T), 22:22344 (CONF-670923-, pp 270-308)
decay rates for, Weinberg spectral function sum rules for, 22:29691
decay rates in relativistic quark model, 22:50373
decay rates of 1^+, in O(4,2) theory, strong, 22:37182
decay rates of spin 2^+, quark model, 21:7509
decay width of 2^+, generalized U(6) x U(6) kinematic transformations for, 23:23523
decay widths for pseudoscalar, from current matrix elements from relativistic quark, 25:38727
decay widths of scalar soft-meson approximation for, 22:39386
decay widths of scalar, saturation of sum rules in SU(3) x SU(3) for, 21:46570
decay widths of vector and axial-vector, primary interaction theory for, 25:40969
decay widths of vector and pseudoscalar, vector-dominance model and SU(3) symmetry for radiative, 24:5275
decay widths of vector, broken SU(3) Lagrangian gauge model for, 25:1519
decay widths of vector, from spectral function sum rules, 23:34592
decay widths of vector, relations for radiative, 22:5538
decay widths of, linear and nonlinear models in effective-Lagrangian approach for electromagnetic, 25:3316
decays in broken SU(3), current commutation relations for, 21:25334
decays in linear realizations of chiral SU(2) x SU(2), weak hadronic currents for, 24:37831
decays in SU(3) symmetry breaking, semileptonic, 23:21080
decays of 1^-, renormalized ω—phi mixing angle for, 21:9780
decays of abnormal charge-parity spin-0 and -1, 23:1634
decays of axial-vector, effect of superconvergence sum rules for axial-vector—pseudoscalar meson interactions on, 21:46532
decays of heavy, relation between current algebra and vector meson dominance for radiative, 22:5562
decays of heavy, vector meson dominance and current algebra for radiative, 21:29468
decays of photoproduced neutral vector, effects of rho—ω interference on, (T), 22:32093
decays of polarized arbitrary-spin, differential rates of two-particle, 22:39366
decays of pseudoscalar and vector, current algebra and PCAC calculations of two-body radiative, 22:34940
decays of pseudoscalar, third-order weak amplitudes for radiative corrections to leptonic, 23:46665
decays of tensor, dynamic quark model predictions for, 21:44349
decays of vector and pseudoscalar, quark model for radiative, 22:32091
decays of vector nonet, sum rules for, 23:27840
decays of vector, asymptotic symmetry for electromagnetic, 22:3485
decays of vector, broken chiral SU(3) x SU(3) symmetry for, (T), 24:37841
decays of vector, current-density—current-density commutators for, 22:37137
decays of vector, leptonic, 22:32100
decays of vector, quark loop model for coupling constant relations and branching ratios for radiative, (T), 25:14686
decays of vector, Schwinger partial symmetry for radiative, 23:3679
decays of vector, SU_3 group for radiative, 21:2501
decays of vector, to lepton pairs, sum rules for, 22:44416
decays of vector, universality principles for, 21:15328
decays of, assignment mixing in SU(6) from analysis of radiative, 21:15290
decays of, conserved-vector-current hypothesis for semileptonic, (T), 24:45484
decays of, dispersion-theory version of PCAC hypothesis for weak leptonic, 22:3360
decays of, G_2 symmetry for weak, 21:19036
decays of, hard-pion calculations of, 23:10816
decays of, mixing parameters and coupling constants for, 21:921
decays of, Nishijima model for weak radiative, 21:37767
decays of, phenomenological angles for SU(3) symmetry breaking for weak and electromagnetic, 23:25670

decays of, radiative corrections to leptonic and semileptonic, 24:28532
decays of, relation between soft-pion mass and amplitudes for leptonic, 25:59399
decays of, saturation of covariant sum rules in quark model for electromagnetic, 22:15756
decays of, SL(6,C) invariance for, 21:37877
decays of, status of Cabibbo theory for weak semileptonic, 22:41794
decays of, structure for C-violating electromagnetic, 21:21273
decays of, unitary singlet component of electromagnetic current for leptonic, 23:36883
deflection of π, performance of electrodynamic separator deflector for, 21:19089 (JINR-P9-3165)
description of physical vacuum and real, in quantum field theory, 21:9837 (JINR-P2-3040)
design of K and π, angular and momentum distributions from γ + p interactions below 5.8 GeV in hydrogen bubble chamber for, 21:27292
detection and classification of high-mass, in π + p interactions at 100 GeV, proposed experiment for, 24:51957 (TID-25473(Vol.4), pp 267-73)
detection and identification in nuclear emulsions, range—energy relation for, 23:41059 (UCRL-19214)
detection and measurement, data-processing system for cosmic-ray telescopes in, (E), 25:14067
detection by using high-pressure gas targets and scintillation detectors, 21:45400
detection of cosmic, performance of cloud chamber for, 24:33942
detection of cosmic, scintillation detector telescope for, 25:10871
detection of, streamer chamber triggered by proportional counter for, 21:16112 (CONF-660918-, pp 82-4)
dosimetry for therapy, 24:34319 (UCRL-19420, pp 82-92)
dosimetry for therapy, use of mutations in diploid yeasts for, 24:34321 (UCRL-19420, pp 96-8)
dosimetry of absorbed, using photographic method, 22:40680
dual model with chiral symmetry for, 25:19981
dual—parton model for, 25:47866
dynamics of pseudoscalar and vector, urbaryons in, 24:30519
dynamics of vector, for form-factor shapes, 22:26627
dynamics of, Schroedinger equation in nonrelativistic composite model for internal, 25:28030
effects of vector, on deuteron core structure, (T), 22:39433
effects on N + N interactions, review of, (T), 24:45547
effects on nuclear forces, review of, (T), 24:45547
effects on yeast, comparison of RBE of cobalt-60 γ with mutagenic, 24:34321 (UCRL-19420, pp 96-8)
electrodynamics of vector, 23:36916
electromagnetic cascades from, in core region of EAS, (T), 22:41391
electromagnetic parameters of, determination in processes with soft γ emission, 23:7114
electromagnetic properties in quark model, 21:18951
electromagnetic properties in SO(24) scheme with integral-charge triplets, 22:24701
electromagnetic transitions and magnetic moments of, dynamic quark model predictions for, 21:44349
electroproduction of, scale invariance breakdown in generalized Bjorken limit, 25:30783
emission in high-energy hadron interactions, synchrotron-radiation model for, 22:11690
exchange contribution to nuclear forces, comparison of π—π interaction effect and two-pion exchange with scalar, 21:44388
exchange effects in nuclear beta decay, (T), 22:26617
exchange effects on form factors for electron inelastic scattering by carbon-12, 24:49398
exchange in anti p + p $\rightarrow$ anti p + p interactions at 1.63 to 2.20 at large angles, (E), 25:7546
exchange in baryon interactions with mesons at high energies, Reggeized U(6) x U(6) symmetry for trajectory, 22:39456 (IC-68/43)
exchange in baryon—lepton interactions, matrix products and explicit 3-, 6-, 9-, and 12-j coefficients of regular representation of SU(n) symmetry for, 22:17982
exchange in baryon—meson interactions, resonance poles in model for, 22:1434 (AD-646614)
exchange in bound state interactions, solutions of fourth-order Bethe—Salpeter equation for, 23:18975
exchange in decuplet baryon decay, quark model for currents in, 22:32150
exchange in extended elementary particle interactions, Lorentz contraction and asynchronous formulation for acceleration from push or pull in, 24:22003
exchange in γ + d interactions, t-channel, 24:37704
exchange in hadron interactions, absorption peripheral model for, 22:11686
exchange in interactions of two spinless bosons, radiative corrections to relativistic eikonal amplitude for, (T), 25:59453
exchange in interactions of two spinless bosons, Schmidt method for solution of quasipotential equation for, (T), 25:19987 (JINR-P2-5566)
exchange in meson (rho) decay, distorted-wave theory for angular correlation in, 24:3662
exchange in μ + p interactions at high energies, (T), 23:34613
exchange in N + N and anti N + N interactions in nuclei, (T), 23:31056 (JINR-P4-4376)
exchange in N + N interactions, (T), 21:21250 (UCSD-10-P-10-21)
exchange in N + N interactions, one-body, 21:37852
exchange in nucléon—nucleon interactions, (T), 22:17977
exchange in p + p $\rightarrow$ d + e^+ + ν interactions and beta decay of mirror nuclei, corrections for, 24:21993
exchange in p + p and p + anti n interactions at high energies, effective Lagrangians for, 23:15077
exchange in peripheral model for backward K^- + p $\rightarrow$ K^+ + Ξ^- interactions at intermediate energies, (T), 25:41006
exchange in π + N interactions at high energies, field-theoretic calculation with, 24:5293 (NYO-2262-TA-207)
exchange in π + p $\rightarrow$ rho + p interactions at 2.0 GeV/c, distorted-wave theory for, 24:3662
exchange in π + p and K + n interactions, peripheral SU(6)/sub W/ model for, 21:40261 (NP-16936)
exchange in π^+ + p $\rightarrow$ π^+ + π^0 + p and π^+ + p $\rightarrow$ p + π^- + π^0 interactions at 2.34 GeV/c in hydrogen bubble chamber, 21:42268
exchange in Regge pole theory, triquark and biquark propagators with constant residues for, 25:30834
exchange in relativistic N + N interactions, one-body, 21:33721
exchange in scalar N + N interactions at high energies, 24:30527
exchange in scattering, Tamm—Dancoff method in 2V sector of Lee model for two-body, 22:46554
exchange in strong interactions, Bethe—Salpeter equation for massive, 23:25689
exchange in two-body elastic interactions of equal-mass spinless mesons, Bethe—Salpeter equation in momentum space for, 22:20225
exchange of 2^+, in high energy scattering, (T), 21:27413
exchange of 36-plet 2^+, in hadron interactions, (T), 22:5626
exchange of exotic, in p + n $\rightarrow$ Δ^-(1236) + Δ^{++}(1236) interactions at 6.98 GeV/c in deuterium bubble chamber, (E), 24:37630
exchange of nonstrange, in K^- + d interactions at 3 GeV/c in deuterium bubble chamber, (E), 23:42578
exchange of one-vector, with form factors as functions of energy, momentum transfer, and relative phases for p + p $\rightarrow$ p + p elastic interactions at 5 to 30 GeV, (T), 24:13121
exchange of pseudoscalar and vector, in K^- + d $\rightarrow$ p + anti K^0 + π^- + n interactions at 2.24 GeV/c in deuterium bubble chamber, 21:33622
exchange of pseudoscalar and vector, in Λ + N $\rightarrow$ N + N interactions, (T), 21:9827
exchange of pseudoscalar, in baryon—meson interactions, dispersive calculation of symmetry-breaking corrections to strong coupling constants for, 22:11711
exchange of πeta system in N + N interactions, (T), 21:21252
exchange of scalar, in N + N interactions, local potentials for, 21:42385
exchange of scalar, in π + p interactions, (T), 24:37800
exchange of small-mass pseudoscalar, in K^- + p $\rightarrow$ anti K + N + π interactions at 1.33 GeV/c in hydrogen bubble chamber, 21:33623
exchange of soft virtual neutral vector, in n + p $\rightarrow$ n + p and p + p $\rightarrow$ p + p interactions at large angles, eikonal model for, (T), 24:45542 (NYO-2262-TA-223)
exchange of tensor, in N + N elastic scattering, (T), 21:25314 (JINR-P2-3188)
exchange of tensor, in vector meson scattering from unpolarized target, vector—vector—tensor meson vertex for, (T), 25:33686 (DESY-71/14)
exchange of vector, bootstrap solutions in model of, 21:21216
exchange of vector, in γ + N $\rightarrow$ π + N interactions near threshold, pole approximation in dispersion relations and vector dominance hypothesis for, (T), 25:36447
exchange of vector, in γ + n $\rightarrow$ rho^- + p interactions, (T), 23:42594
exchange of vector, in inelastic diffraction scattering, impact factors in model of, 24:26422
exchange of vector, in K^- + p and K^+ + p interactions at 4.6 and 5.0 GeV/c, 21:35311
exchange of vector, in meson interactions with mesons at low energies, (T), 25:12192 (NYO-2262-TA-232)
exchange of vector, in N + N interactions, radiative corrections to relativistic eikonal amplitude for, (T), 25:59453
exchange of vector, in π + p $\rightarrow$ p + π^- + π^0 interactions at 4.2 GeV/c in hydrogen bubble chamber, 21:29455
exchange of virtual, in fermion interactions, self-consistent method for, 25:30831
exchange-current effects on anomaly in magnetic moments of helium-3 and tritium nuclei, (T), 24:30867 (CEA-R-3960)
exchange-current effects on static magnetic dipole moment of odd-mass nuclei, two-body, (T), 24:30867 (CEA-R-3960)
existence of 2^- and higher-spin, relativistic supermultiplets for predictions of, (T), 24:52053 (N-70-29877)
existence of higher-mass vector, model predictions for, 24:28545
existence of I = 2, relation of selection rules for weak interactions to, 25:59393
existence of light charged, Lamb shift, μ anomalous magnetic moment, and τ interactions for lower bounds on masses for, (E/T), 25:38741
existence of opposite parity states 0^+ and 1^+, 21:25336
existence of two C = - 1, 21:31628
field algebra and chiral symmetry for vector, 23:27847 (DESY-69/13)
field equations for spinless charged, cellular space—time for solution of, (T), 25:12260
field geometrization over Riemann—Einstein space in general relativity, massive scalar, 25:36582
field interactions with fermion field, behavior on light cone of, 22:46497
field potential in Eddington fundamental theory, (T), 25:25415
field self-interactions of, infinite volume limit of lambda phi^4, 22:35085
field theory for elastic N + N interactions, solutions of strong-coupling, 23:18933
field theory for massive spin-2, noncommutation requirements for, 25:1602
field theory for massive vector, 25:53288
field theory for massive vector, gauge-invariant Lagrangian for electromagnetic and quantum, (T), 25:59555
field theory for neutral vector, Lagrangian, 23:39818
field theory for photons and neutral vector, 22:29753
field theory for pseudoscalar, unified, 23:5608
field theory for self-coupled neutral, renormalizable approximations in, 24:33040
field theory for spinless, free-, 22:44420
field theory for vector, antisymmetric massive tensor of rank two for, 23:5669
field theory for vector, equivalent formulations of, 25:9858
field theory for vector, gauge invariance in, 21:25338
field theory for vector, implications on e^+ + e^- $\rightarrow$ hadrons interactions, 21:40168
field theory for, asymptotic behavior of Green functions in quantum, 21:21298
field theory for, chiral-invariant Lagrangian in, 24:49471
field theory for, current commutation relations for, 22:17948
field theory in lattice space for, quantum, 22:41859
field theory of neutral vector, for hadronic electromagnetic currents, 22:5542
field theory of vector, as baryon—antibaryon composite states, 23:3726
field theory of vector, quantum electrodynamics as limit of, 23:36983
field theory of, associated currents of SU(3) X SU(3) chiral-invariant Lagrangians in, 24:18161
field variables of pseudoscalar, in nonlinear realizations of SU(n) x SU(n) chiral transformations, (T), 25:1503
field—source identity in theory for spin-2, (T), 25:33728
fields of massive, idealized measurements in quantum field theory for, (T), 25:43692
fields of neutral vector, functional derivatives for, 22:20224
fields of pseudoscalar, formalism of massive gauge, 23:44645
fields of scalar, field—current identities between dilatation current divergence and, (T), 25:7726
fields of spin-2, spectral-function sum rules for, 22:34973
fields of vector and axial vector, generalization of Yang—Mills theory for chiral current algebra relation with, 22:32127
fields of vector and axial-vector mesons, relation between helicity symmetries and transversality of, 23:32702
fields of, equal-time commutation relations for local composite, 21:33702
fields of, phase factors for operators of C, P, and T discrete transformations and their products for free and interacting spin-0, 23:46812
fields of, system with Hamiltonian as time-dependent quadratic form of coordinates and momentum in quantum theory for, 22:26637 (JINR-P2-3590, pp 183-93)
fields of, transversality condition for relation to SU(2) x SU(2) chiral symmetries fr vector and axial-vector, (T), 25:14804
fields with nonlinear transformation laws under chiral SU(3) x SU(3), 22:35103
focusing beams of, design of magnetic horn for, 24:43077 (IFVE-SEF-69-73)
focusing beams of, for producing neutrino beams, nonclassical systems for, 23:15306
form factor for pseudoscalar, quark selection principle for elastic electromagnetic, (T), 25:36439
form factor of multiplet of, first-order perturbation corrections with self-mass insertions for, 24:37739 (RLO-1388-564)
form factors and mass relations for, spectral function sum rules in broken SU(3) for, 23:42704
form factors and propagation functions for unit-spin, source theory for, 25:33714
form factors for pseudoscalar and vector, quark model for electromagnetic, 21:33649
form factors for pseudoscalar, current commutation relations for, 22:3411 (JINR-E2-3559)
form factors for spin-1, experiment for determining electromagnetic, 21:25253 (JINR-P2-3227)
form factors for vector, zero-mass ghost relation with singularity in, (T), 24:52175 (PAM-70-3)
form factors from gauge field algebra and pole dominance assumption, 24:13138
form factors of nucleon—meson vertex, relation of higher order regularized Yukawa functions to electromagnetic, 23:3680
form factors of pseudoscalar, low-momentum transfer behavior of gravitational, 25:53336
form factors of, composite model for electromagnetic, 21:17081
form factors of, current algebra and pole-dominance calculation of, 22:52974
form factors of, current algebra for weak, (T), 25:17456
form factors of, current-algebra methods for relations between weak, 21:37761
form factors of, first-order perturbation corrections to, 24:13158
form factors of, nonrelativistic quark model and rho dominance for ratios of, (T), 25:12203
form factors of, three-point functions in current algebra for electromagnetic, 24:33001
functional integrals for fields of scalar, generalized Mathews—Salam equations from Feynman, 24:10832
G parity relative to U-spin for, 22:46493
hadron strong interactions with field of, particle oscillatory levels from, (T), 25:45725 (JINR-E2-5850)
intensity changes and diurnal variations of cosmic, 21:20791
intensity of cosmic, enhanced diurnal variations of, (E), 23:41999
intensity variations during cosmic-ray storms, (E), 23:27405

intensity variations of cosmic, atmospheric temperature effects on, 22:11261
intensity variations of cosmic, between 20 and 28 hours, 24:17716
intensity variations of cosmic, diurnal, 23:3309
interaction of, Veltman's equations in Lagrangian field theory for, 21:33686
interaction vertex of vector—vector—pseudoscalar, broken SU(3) Lagrangian gauge model for, 25:1519
interactions $2^+ + 0^- \to 2^+ + 0^-$, superconvergence sum rules for, 21:44363
interactions and mass levels of nonet of, in triplet configuration, 21:13708
interactions and properties of spin-0 and spin-1, in broken SU(3) x SU(3) symmetry, 24:33014
interactions and properties of vector, review on, 24:8635
interactions and properties of, nonrelativistic quark model for, 22:9575
interactions and properties of, relation between local duality and conserved currents for, 25:30855
interactions at high energies in cosmic radiation, model for isobar and pionization component of, 24:24379
interactions at high energies, review of diffraction and backward peaks, total cross sections, Coulomb interference region, and polarization for elastic, (E), 24:12947 (INP-682, pp 48-90)
interactions at high energies, theory and applications of peripheral model for, 23:10799
interactions at low energies, broken nonlinear chiral U(3) x U(3) and SU(3) x SU(3) dynamics for strong, electromagnetic, and weak, 24:20200 (ITF-69-82)
interactions at low energies, existence of Schwinger terms in sigma-model for parameters of, 21:21205
interactions below 1 GeV, bibliography on, 22:37080 (LA-3946)
interactions between nonets of pseudoscalar and vector, saturation of superconvergence relations for, 22:11708
interactions in bound system in spin singlet and triplet states, effects of U(3)-invariant, 21:46531
interactions in chiral SU(2) x SU(2) symmetry, asymptotic behavior of amplitudes for, 24:1636
interactions in chiral U(3) x U(3), phenomenological model of strong and weak, 21:44365
interactions in colliding beams, computer program for kinematic analysis of, 21:22133 (SLAC-72)
interactions in constant external electromagnetic field, Kemmer algebra for formula for, 22:37117
interactions in Coulomb field of nucleus, pseudoscalar meson photoproduction on mesons from, 22:41823
interactions in system of two neutral spinless, analytical properties of exactly solvable nonrelativistic two-channel, (T), 25:9772
interactions involving π^+eta$\pi^-\pi^+\pi^-$ and π^+sigma$\pi^-\pi^+\pi^-$, multipoint Veneziano model and chiral constraints, 24:49480
interactions mediated by vector, crossing symmetry in model for, 21:18975
interactions meson + baryon $\to$ 2 mesons + hyperon, SU(3) symmetry for amplitude of, 22:3502
interactions meson + deuteron $\to \gamma$ + baryon + nucleon, baryon—nucleon interactions in, (T), 22:1405 (TH-210)
interactions N + meson $\to$ N + meson, model for N* production in, 22:3451
interactions of 0^- with nonet 0^+ mesons, structure of Regge trajectories with abnormal parity in Veneziano model for, 24:24353
interactions of 0^-, S-matrix theory of mixing and vector octet production in ω—phi, 22:11666
interactions of 0^-, with $^1/_2{}^+$ baryon octet, $^3/_2{}^+$ singlet existence from, 21:37896
interactions of 2^+ and 0^-, superconvergence sum rules for, 21:44367
interactions of arbitrary isospin, with isospin-$^1/_2$ target, crossing and unitarity in multichannel, static model for, 23:1627
interactions of arbitrary number of spinless, general treatment of factorization in dual resonance models for, 23:46714
interactions of axial-vector and scalar, current commutation rules for, (T), 21:7478(R) (COO-1371-36)
interactions of axial-vector—pseudoscalar, effects of superconvergence sum rules in axial-vector meson decays from, 21:46532
interactions of charged scalar and vector, Furry representation of, 21:9851
interactions of charged spin-2, electromagnetic, 21:2422
interactions of charged vector, in electromagnetic field, 24:37684
interactions of composite, space—time description of, 24:26420
interactions of composite, space—time descriptions of, 24:26421
interactions of equal-mass scalar, Green functions for Bethe—Salpeter equation for, (T), 25:22805
interactions of equal-mass scalar, localizability and single-particle exchange amplitudes for, 25:59454
interactions of equal-mass spinless, self-reproducing flat Pomeron in eikonal approximation for elastic, (T), 25:40985
interactions of even-parity and odd-parity, SU(n) symmetries for, 22:44417
interactions of fields in two dimensions, nonlinear self-, (T), 22:34968
interactions of identical, positivity conditions for Veneziano amplitude for, 23:39703
interactions of identical, uncorrelated jet model with Regge phases for unitarity calculation for amplitude of elastic, (T), 25:33690 (NP-18823)
interactions of massive vector, covariant photon amplitudes as zero-mass limit of helicity amplitude for, (T), 25:12177
interactions of massive vector, with massless spinors in two dimensions, (T), 21:5416 (NYO-1932-115)
interactions of massive vector, with massless spinors in two dimensions, 21:33760
interactions of massive vector, zero-mass limit of amplitudes for, 25:53174
interactions of massless pseudoscalar, with electrons and protons, energy balance of sun for upper bound on, (T), 23:7117
interactions of neutral scalar, with spinless nucleons in static limit, 22:22408
interactions of neutral spinless, analytical properties of exactly soluble nonrelativistic two-channel, 24:21976 (ITF-70-5)
interactions of neutral vector, with bosons in u- and t-channels, Compton, 24:8586
interactions of neutral, with nucleons, classical theory of, 21:19002
interactions of nonet of vector, with arbitrary field, U(3) x U(3) chiral invariant Lagrangian for, 23:25682
interactions of nonet pseudoscalar, vector and axial-vector, phenomenological Lagrangian from nonlinear realization of chiral symmetry for, 23:36968
interactions of octet of pseudo-scalar, relations among Regge trajectories and dual resonance model for, 25:22814
interactions of octet vector and axial, effective Lagrangian invariant with respect to expanded-gauge SU(3) x SU(3) group for strong, 23:51981
interactions of octet, phenomenological Lagrangian method for chiral SU(3) x SU(3) for, 23:46717
interactions of pseudoscalar and axial vector, use of Lippmann—Schwinger equation for multichannel calculations for, 23:3709 (AD-671201)
interactions of pseudoscalar and axial-vector, relativistic Lippmann—Schwinger equation for calculations of parameters of, 23:25615
interactions of pseudoscalar and vector, bootstrap for dynamical symmetries for, 21:37905
interactions of pseudoscalar and vector, dynamical derivation of mass formulas for, 21:40263
interactions of pseudoscalar and vector, non-zero mass gauge condition in Veneziano model for, 24:42948
interactions of pseudoscalar and vector, Okubo ansatz in superconvergence condition for, 21:40211
interactions of pseudoscalar and vector, with baryons, quark model for, 24:13030 (INP-682, pp 205-17)
interactions of pseudoscalar octet of, with baryon octet, finite-energy sum rules for 10 + 10* and 27 mesons from forward, 23:25630
interactions of pseudoscalar octet, phenomenological Lagrangian method for chiral symmetries for, 23:46717
interactions of pseudoscalar octet, saturation of superconvergence relations for forward, 22:50378
interactions of pseudoscalar with vector, in exact and broken SU(3) symmetry, decuplet sum rules for, 22:37136
interactions of pseudoscalar, bootstrap constraints from phase contour methods for, 24:8634
interactions of pseudoscalar, bootstrap solutions in vector-meson model for, 21:21216
interactions of pseudoscalar, broken chiral U(3) x U(3) invariant sigma model for current algebra for scattering lengths for, 24:6703
interactions of pseudoscalar, broken SU(3)-symmetry sum rules from superconvergent dispersion relations for, 23:18898
interactions of pseudoscalar, charge renormalization in SU(3) x SU(3) chiral-invariant sigma model for, 24:37852
interactions of pseudoscalar, chiral SU(3) x SU(3) theorems for amplitudes of, 24:49469
interactions of pseudoscalar, duality sum rules for, 24:15570
interactions of pseudoscalar, factorization condition and amplitudes in Veneziano model for, 23:42657
interactions of pseudoscalar, finite-energy sum rules for elastic, 23:42663
interactions of pseudoscalar, G_3, SU(2), and SU(3) symmetry from crossing-symmetric dynamical model of, 22:3497
interactions of pseudoscalar, in exact and broken SU(3) symmetry, decuplet sum rules for elastic, 22:37136
interactions of pseudoscalar, multichannel bootstrap calculation of vector-meson parameters from, 22:11661
interactions of pseudoscalar, O(3,1) symmetry for coupling in, 22:37173
interactions of pseudoscalar, octet enhancement for vector meson system in, 21:21280
interactions of pseudoscalar, quartet composite model for effective Hamiltonian for weak, 24:3610
interactions of pseudoscalar, reciprocal bootstrap of vector and tensor trajectories from superconvergence relations for, 22:34969
interactions of pseudoscalar, review of weak, 24:6708
interactions of pseudoscalar, s-channel helicity constraints on t-channel exchanges in, 25:53157
interactions of pseudoscalar, S-matrix approach to symmetries for strong, 21:46578
interactions of pseudoscalar, S-matrix formalism for SU(3) invariance in, 21:29532
interactions of pseudoscalar, S-matrix formulation of internal symmetries for, 22:50427
interactions of pseudoscalar, SU(3) structure for internal symmetry from Veneziano model amplitude for, 25:5370
interactions of pseudoscalar, SU(6) symmetry for weak, 22:3486
interactions of pseudoscalar, vector meson resonances in, (T), 21:2462
interactions of pseudoscalar, Veneziano—Lovelace-type amplitudes for, 24:18177
interactions of pseudoscalar, with $1/2^+$ baryons, exchange degeneracy of Regge trajectories of, (T), 23:13118
interactions of pseudoscalar, with baryons in SU(3) x SU(3), vector meson production in, 22:11712
interactions of pseudoscalar, with baryons, collinear production of vector mesons in, (T), 21:7537 (JINR-P2-2966)
interactions of pseudoscalar, with baryons, s-wave bound states from soft-meson scattering length for, 24:15631
interactions of pseudoscalar, with baryons, SU(6)/sub W/ in double-Regge-model for vector meson production in, 22:3436
interactions of pseudoscalar, with baryons, test of SU(3) symmetry in high-energy, 22:29739
interactions of pseudoscalar, with nucleons at very high energies, polarization in, (T), 22:34988
interactions of pseudoscalar, with nucleons, conspiracy relations for vector-meson production in, (T), 22:22400
interactions of pseudoscalar, with vector mesons, s-wave bound states from soft-meson scattering lengths for, 24:15631
interactions of Regge poles with Pomeranchuk pole for, (T), 24:52057
interactions of relativistic, spin-zero, free, space—time operator for time evolution of potential, (T), 25:25406 (ITF-70-85-E)
interactions of scalar, Feynman diagram models of boson daughter trajectories in, 25:1507
interactions of scalar, group-theory approach to N-point function for dual amplitudes for, 25:43714
interactions of scalar, nonlinear equations for electrodynamics of, (T), 25:53170
interactions of scalar, Regge trajectories of Bethe—Salpeter equation for O(4) amplitudes of, 23:15277
interactions of scalar, resonance saturation of axial charge commutators and SU(3) symmetry for, 21:37787
interactions of scalar, superconvergent phase shift and asymptotic Regge residues for resonance production from two-body, 21:35301 (NP-16862)
interactions of scalar—vector, in Veneziano model, 24:49477
interactions of spin-1, with photons, low-energy theorems for Compton, 23:34559
interactions of spin-2, constraints from covariance conditions on theory with field-source identity for stress-tensor equal-time commutation relations for, 24:15554 (NYO-2262-TA-215)
interactions of spinless, at high energies and all angles, optical model for, (T), 25:43571
interactions of spinless, by scalar meson exchange, Schmidt method for solution of quasipotential equation for two-body, (T), 25:19987 (JINR-P2-5566)
interactions of spinless, dual resonance models with residues having maximum fixed finite number of logarithmic poles for amplitudes of, (T), 25:17489
interactions of spinless, factorization and degeneracy of meson spectrum in Veneziano model for amplitude of two-body, 23:49128 (ISS-69/25)
interactions of spinless, one-particle-exchange model for low-energy, 22:29775
interactions of spinless, phase contours for analyticity in crossing symmetric Regge model with rising trajectories for zeros and poles of, 22:37201 (UCRL-18243)
interactions of spinless, two narrow resonance production for dual symmetric theory for total cross sections of, 24:18167
interactions of spinless, vector currents consistent with hadron bootstrap with duality and zero resonance widths for n-body, (T), 25:12177
interactions of tensor field of, with gravitational field, inconsistency of, 24:10751
interactions of three identical spinless, Hilbert—Schmidt expansion and solutions of Faddeev equations with rectangular potential for scattering length of, (T), 25:25411
interactions of two pseudoscalar, Veneziano representations for, 23:46705
interactions of two scalar, lectures on normalization of wave function and nonrelativistic limit in Bethe—Salpeter equation for, (T), 25:47826
interactions of two scalar, vanishing of total cross sections at infinite energy for, 23:32700
interactions of two vector, high-energy behavior of spin-flip amplitudes for, 25:33721
interactions of vector and pseudoscalar, superconvergent bootstrap of vector and tensor Regge trajectories for, 22:34966
interactions of vector and pseudoscalar, Veneziano model for, 24:1572
interactions of vector and scalar, daughter sequences in unequal-mass, 23:23467
interactions of vector, axial-vector, and pseudoscalar, in broken chiral SU(3) x SU(3), 25:45789
interactions of vector, gauge theory for strong, 22:3400
interactions of vector, modified Born amplitudes for, 22:15776
interactions of vector, superconvergence relations leading to SU(3) x SU(3) for forward, 21:37891
interactions of vector, vector meson dominance in helicity frame for, 24:1613
interactions of vector, with baryons, Hamiltonian for, 23:46731
interactions of vector, with nucleons, saturation of dispersion sum rules for, 23:1616
interactions of, algorithm for linear trajectories in dual amplitudes of N-body, (T), 25:33689 (LPTHE-TH-71/11)
interactions of, bootstrap of self-consistency requirements for invariance group for n-body self-, 22:39458
interactions of, broken-symmetry model for, 22:50438
interactions of, conference on, 25:17382
interactions of, corrections to rho dominance and pole dominance of divergence of axial-vector current for, 22:20235
interactions of, crossing symmetric n-body amplitude of, 23:49138
interactions of, current algebra and ω—phi mixing parameter for, 21:5387
interactions of, dual-symmetric theory for, 24:49485

interactions of, duality and factorization of amplitudes for, 25:9896
interactions of, dynamic approach to SU(3) symmetry from, 22:44422
interactions of, experimental test for stationary singularity in amplitude for, 21:27449
interactions of, factorization constraints on Veneziano model for, 24:3640
interactions of, generalization of Veneziano model for amplitudes of many-body, 23:34583
interactions of, generalized Veneziano model for n-body, 24:15572
interactions of, generalized Veneziano model with isospin for, 23:32713
interactions of, hard-pion current-algebra calculation of vertex functions for, 23:3721
interactions of, hard-pion current-algebra calculation of N-point functions for, 23:5617
interactions of, Lee model with several V particles for, 21:18936
interactions of, mass formulas from Regge-trajectory constraints in, 23:7192
interactions of, multiparticle phase space in terms of invariant momentum transfers, invariant masses, and angles for, 24:12960
interactions of, N-point dual functions for, 25:36485
interactions of, PCTC, universality, and gauge invariance for, 21:18985
interactions of, quark model for total cross sections for, 21:9779
interactions of, quark spin in Veneziano N-point function for, 24:37737 (CALT-68-260)
interactions of, review of backward peaks in, (E), 22:39266 (CERN-68-7(Vol.1), pp 111-60)
interactions of, review of dispersion sum rules for, 22:11644 (ITF-67-13)
interactions of, review of relativistic quark model for electromagnetic and weak, 23:15003
interactions of, review of research on, 22:32152
interactions of, review of superconvergence relations and Regge parameters for, 22:32156
interactions of, review on final-state, 23:14998
interactions of, spectral-function sum rules for, 23:21152
interactions of, strong, (T), 24:45493
interactions of, structure of nonleptonic weak, 23:3689
interactions of, SU(2) for recursion relations for 3-j symbols for, 22:13782 (JINR-E2-3625)
interactions of, superconvergence relation for linear combination of amplitudes for, 22:34971
interactions of, symmetry breaking of chiral SU(3) x SU(3) in phenomenological Lagrangians for, (T), 25:56533 (IFA-FT-85)
interactions of, uniqueness of Paton—Chan isospin factor for exclusion of exotic states in dual resonance models for N-body, (T), 25:17491
interactions of, W-spin selection rules for, 21:956
interactions π + N, bounds on coupling constants in existence theorems for Low equation for, 24:10766
interactions sigma + sigma → sigma + sigma + sigma properties of Veneziano five-point function in Regge region for, 24:37759
interactions via massless scalar boson, symmetries of Bethe—Salpeter equation for bound-state, 21:40249
interactions with $^1/_2^+$ baryons at 3 GeV/c, SU(3) predictions for forward, 23:34602
interactions with $^1/_2^+$ baryons at high energies, Regge residues for forward and backward, (T), 25:30883
interactions with $^1/_2^+$ baryons, additive quark model for single and joint decay angular distributions for 0+, 1+, and 2+ meson and $^3/_2^+$ baryon production in, (T), 25:5375 (TPJU-15/70)
interactions with $^1/_2^+$ baryons, exchange degeneracy, SU(3) symmetry, and absorptive corrections in hypercharge- and charge-exchange, (T), 24:52164 (PTB-36)
interactions with $^3/_2^+$ baryons, quark model for ambiguities in transversity amplitudes for vector meson and $^3/_2^+$ resonance production in, (T), 25:3382 (TPJU-1/70)
interactions with $^1/_2^+$ baryons, quark model for ambiguities in transversity amplitudes for pseudoscalar meson and $^3/_2^+$ resonance production in, (T), 25:3382 (TPJU-1/70)
interactions with $^1/_2^+$ baryons, s-channel for Reggeon and tadpole couplings to baryons and selection rules for baryon couplings to mesons and baryons in, 24:13099
interactions with 1/2+ baryons, ambiguities in resonance amplitudes and quark model predictions for vector meson and 3/2+ isobar production in, (T), 24:52109
interactions with 1/2+ baryons, ambiguities in resonance amplitudes and quark model predictions for pseudoscalar meson and 3/2+ isobar production in, (T), 24:52109
interactions with 1/2+ baryons, spin amplitudes for pseudoscalar meson 1/2+ baryon production in, (T), 25:59471 (CEA-N-1456)
interactions with 1/2+ baryons, tables of coefficients for partial-wave analysis of vector meson and 1/2+ baryon production in, (T), 25:56501 (RHEL/R-224)
interactions with 1/2+ octet baryons, relation of crossing with charge conjugation and time reversal invariance and mass sum rules in S-matrix with broken SU(3) symmetry, 23:51976 (COO-427-95)
interactions with 3/2+ baryons, decuplet equal-mass spacing in N/D model for, 21:27412 (UCRL-17450)
interactions with arbitrary-spin baryons, bootstrap theory from generalized angular momentum crossing relation for, 24:13101
interactions with baryon decuplet, implications of local duality for, 24:35660
interactions with baryon octet, baryon spectrum from strong coupling SU(3) invariant, 21:19050
interactions with baryon octets, spontaneous symmetry-breaking model for baryon spectra in, 22:39418
interactions with baryon resonances, double-octet Regge-pole model for charge- and hypercharge-exchange, 21:15355
interactions with baryons and mesons, chiral SU(3) x SU(3) phenomenological Lagrangian for analysis of multiple meson production in, 24:18168
interactions with baryons and mesons, chiral SU(3) x SU(3) phenomenological Lagrangian for, 23:36906
interactions with baryons and mesons, duality diagrams in three-triplet model for, 23:42645
interactions with baryons and mesons, fixed-angle dispersion approach to symmetries for, 22:26626
interactions with baryons and mesons, SU(6)/sub W/-symmetric tensor forces in, 21:955
interactions with baryons and mesons, SU(6)-quark-model solution to superconvergence relations for, 22:20216
interactions with baryons at 1 GeV, multichannel approach for peripheral two-body inelastic, 22:3449
interactions with baryons at 4 to 13 GeV/c, Reggeized supermultiplet theory for charge-exchange, 23:15140
interactions with baryons at 6 to 20 GeV, total cross sections and relations between reduced Regge residues for, 23:46734
interactions with baryons at high and low energies, validity of SU(6)/sub W/ predictions for, (T), 24:52171
interactions with baryons at high energies, contribution of N and Δ exchanged Regge trajectories to backward, 23:27815
interactions with baryons at high energies, γ_5 gauge invariance for helicity conservation in, (T), 25:3403
interactions with baryons at high energies, meson trajectory exchange in Reggeized U(6) x U(6) symmetry for, 22:39456 (IC-68/43)
interactions with baryons at high energies, quark model for, 21:42369
interactions with baryons at high energies, quark models, universality, and symmetry for, 21:2506
interactions with baryons at high energies, quark model for Pomeranchuk theorem violation relation with isospin dependence of total cross sections of, (T), 25:7624 (UCR-34-P-107-113)
interactions with baryons at high energies, review of statistical model for cross sections for single baryon and multimeson production in, (T), 25:14680 (INP-719)
interactions with baryons at high energies, role of Regge cuts and poles in, 25:45738
interactions with baryons at high energies, structure of currents for forward elastic, 21:29558
interactions with baryons at high energies, SU(3) symmetric quark model calculations for, 22:22436
interactions with baryons at high energies, symmetry and Regge poles for inelastic two-body, 21:27357
interactions with baryons at high energies, test of exchange degeneracy in exchange of Regge trajectories for differential cross sections of crossing-related, 23:46740
interactions with baryons at high energies, test of SU(3) symmetry for pseudoscalar, 22:46490
interactions with baryons at high energies, theory of polarizations for pseudoscalar, 23:18924
interactions with baryons at high energies, total summation of perturbation series for diffraction, (T), 25:17499 (JINR-E2-5509)
interactions with baryons at high energies, transversity amplitudes for polarization parameters and resonance decay distributions for, (T), 22:20241
interactions with baryons at high energies, vector dominance between photon-initiated and, (T), 24:3651 (DESY-69/40)
interactions with baryons at low energies, current commutators and mass extrapolation theory for scattering lengths and effective ranges for amplitudes of elastic, 22:39330
interactions with baryons at low energies, model for, 23:25640
interactions with baryons at low energy in U(6,6) symmetry, model for, 21:25296
interactions with baryons at threshold energies, nature of SU(3) x SU(3) symmetry breaking from test of soft-meson theorems for pseudoscalar, 24:24363
interactions with baryons below 4 GeV/c, in relativistic SU(6), 21:15384 (JINR-P2-3087)
interactions with baryons below 50 MeV, s-wave nonlinear chiral U(3) x U(3) dynamics for elastic, 23:46770 (ITF-69-45)
interactions with baryons in broken SU(3) model, resonance poles in S-wave pseudoscalar, 21:37895
interactions with baryons in broken SU(3) model, relativistic Schroedinger equation for pseudoscalar, 22:48315
interactions with baryons in broken SU(3) symmetry, current algebra method for sum rules for, 21:29554
interactions with baryons in broken SU(3) symmetry, model of s-wave pseudoscalar, 21:25302
interactions with baryons in broken SU(3), baryon spectra from partial-wave amplitudes for, (T), 25:3397
interactions with baryons in broken SU(3), coupling-constant sum rules for, 22:35008
interactions with baryons in broken SU(3), relativistic Schroedinger equation for pseudoscalar, 23:5625
interactions with baryons in broken SU(6)/sub W/, 21:42430
interactions with baryons in broken unitary symmetry, D/sub 3/2/ resonances in, (T), 21:9832
interactions with baryons in Cutkosky bootstrap model, properties of high-spin baryons from, 24:10762
interactions with baryons in dual—parton model, 25:47866
interactions with baryons in exact and broken SU(3) symmetry, decuplet sum rules for pseudoscalar, 22:37136
interactions with baryons in independent quark model and higher symmetries, 22:9576
interactions with baryons in octet, dynamical model for coupling constants for, 21:23324 (NP-16681)
interactions with baryons in parton model, total cross section for, 25:12187
interactions with baryons in parton model, total cross section for, (T), 25:12187
interactions with baryons in quark model, amplitudes for backward, (T), 21:44348
interactions with baryons in quark model, breakdown of Pomeranchuk conjecture for, (T), 25:9806
interactions with baryons in quark model, cross sections for, 21:9797
interactions with baryons in quark model, effect of double scattering of mesons in, 21:44376
interactions with baryons in quark model, line-reversal symmetry breaking in, 25:17505
interactions with baryons in quark model, sum rules for, 21:25279
interactions with baryons in quark model, systematics of relations between differential cross sections for, 22:44409
interactions with baryons in quark models, sum rules for amplitudes of, 24:24364
interactions with baryons in Regge pole model, constraints on resonance decay distributions from, 24:52054
interactions with baryons in Regge pole theory, SU(3) crossing relation for, 23:3746
interactions with baryons in Reggeized U(6) x U(6) theory, 23:15115
interactions with baryons in scale-invariant theory, sigma terms in current-algebra determinations of scattering lengths for, 24:47449
interactions with baryons in SL(6,C) theory, meson form factors and vertex functions for, 21:15358
interactions with baryons in SU(3) symmetry, dual model for, (T), 25:14766
interactions with baryons in SU(3) x SU(3) chiral algebra, s-wave scattering lengths for, 22:5583
interactions with baryons in SU(3), effect of mass differences on relations between amplitudes for, 22:3442
interactions with baryons in SU(3), quark model for scattering and production amplitudes of, 21:29549
interactions with baryons in SU(6), sum rules for production amplitudes of 2+ mesons in pseudoscalar, 21:42427
interactions with baryons in SU(6)/sub W/ model, 21:37826
interactions with baryons in Veneziano model, 24:49529
interactions with baryons, (anti 3,3) + (3,anti 3) dominance in SU(3) x SU(3) symmetry breaking in, (E/T), 25:22869
interactions with baryons, additive quark model for polarization of Λ and Σ in two-body vector meson and Y* production in, (T), 25:3383 (TPJU-2/70)
interactions with baryons, additive quark model for polarization of Λ and Σ in two-body pseudoscalar meson and Y* production in, (T), 25:3383 (TPJU-2/70)
interactions with baryons, additive quark model predictions for decay distributions for resonances produced in, (T), 25:47884
interactions with baryons, additivity assumption and scaling factor in Regge pole theory for, 24:13088
interactions with baryons, additivity assumption of quark model for scalar amplitudes of, 23:42648
interactions with baryons, algebra of vertex strengths for analysis of Serpukhov total cross section data for, 25:3385
interactions with baryons, algebraic structure from superconvergence relations for, 21:29561
interactions with baryons, approximate saturation of superconvergence relation for, 21:9791
interactions with baryons, asymptotic equalities for multiproduction cross sections for, (T), 23:49155
interactions with baryons, axial-vector coupling constant renormalization for, 21:9785
interactions with baryons, Bargman—Wigner-type equation for, 22:48318
interactions with baryons, baryon fixed poles in, 25:17510
interactions with baryons, bootstrap algebras for, 21:37899
interactions with baryons, broken chiral SU(3) x SU(3) symmetry in effective-Lagrangian theory for, 23:36978
interactions with baryons, broken SU(6)/sub W/ symmetry for E(1420) production in, 23:21109
interactions with baryons, calculation of SU(6) Clebsch—Gordan coefficients for product 35 x 70 for amplitude of baryon resonance and meson production in, 23:39780
interactions with baryons, chiral SU(3) x SU(3)-invariant Lagrangian for pseudoscalar, 22:41819
interactions with baryons, chiral U(3) x U(3) phenomenological Lagrangian for, 25:7667
interactions with baryons, class of SU(n) crossing matrices for, 21:37894
interactions with baryons, comparison with SU(3) symmetry for resonance production in, (T), 25:7632
interactions with baryons, consequences of unitary symmetry for, (T), 21:5410(T) (AEC-tr-6807)
interactions with baryons, consistency conditions from duality for, (T), 25:9792
interactions with baryons, consistency conditions between SU(3) and exchange degeneracy in, 25:59493
interactions with baryons, consistency conditions between exact SU(3) symmetry and exchange degeneracy in nonexotic solutions for amplitudes of, 24:30549 (NP-18241)
interactions with baryons, consistency of current algebras for, 22:5592
interactions with baryons, construction of intermediate-coupling group ISL (n,c) from strong-coupling group for, 21:37903
interactions with baryons, convergence relations from Regge behavior for, 21:31600
interactions with baryons, coupling constants in static model of broken SU(6) for, 21:46574
interactions with baryons, crossing matrix in SU(3) for, 21:21266

interactions with baryons, crossing symmetry in static model of, 21:18975
interactions with baryons, current algebra hard-pion method and pole dominance for nucleons and Δ(1236) in amplitudes of, 24:42977
interactions with baryons, current—current model for coupling constants of, 21:15346
interactions with baryons, decouplet superconvergence relations for, 23:44673
interactions with baryons, decuplet exchange superconvergence relations and cuts in complex J plane for, 22:32141 (INP-592/PH)
interactions with baryons, decuplet exchange superconvergence relations for, 23:3742
interactions with baryons, definitions of invariant amplitudes and t-channel helicity amplitudes for, 23:51983 (UCRL-19351)
interactions with baryons, determination of amplitudes for, 21:42371
interactions with baryons, deviation from static model for, 21:21236
interactions with baryons, dispersion sum rules for, 22:1426 (JINR-E2-3511)
interactions with baryons, dispersive calculation of symmetry-breaking corrections to strong coupling constants for, 22:11711
interactions with baryons, double-octet Regge-pole model for charge- and hypercharge-exchange, 21:15355
interactions with baryons, duality constraints on, 24:13084
interactions with baryons, duality constraints on amplitudes for, 25:9799
interactions with baryons, duality diagrams with exotic t-channel exchanges for, 25:47859 (COO-2009-25)
interactions with baryons, duality diagrams with exotic t-exchanges in, 25:47879
interactions with baryons, dynamic group of SU(3)-symmetric strong coupling theory in, 22:26681
interactions with baryons, dynamic quark model for amplitudes of forward elastic, 21:44349
interactions with baryons, dynamic quark model predictions for inelastic, 21:44349
interactions with baryons, E(1420) and eta production in broken SU(6)/sub W/ symmetry for, 22:24708 (JINR-P2-3758)
interactions with baryons, eikonal model from unitarized Veneziano model for, 25:28041
interactions with baryons, exchange degeneracy with SU(3) symmetry and absorptive corrections for hypercharge-exchange, 25:3388
interactions with baryons, exchange-degenerate SU(3)-symmetric baryon trajectories for, 24:8625
interactions with baryons, first-order SU(3) corrections to coupling constants for, 25:45761
interactions with baryons, general Hamiltonian for 35-plet of SU(3) for, 21:35336
interactions with baryons, general solution for Chew-Low type equation for, 21:9790
interactions with baryons, generalized statistical tensors for quark model predictions for amplitudes of, (T), 25:47885
interactions with baryons, generalized Ward—Takahashi identities and current algebras for amplitudes of, 21:19006
interactions with baryons, hadron production in final-state, (T), 23:49121
interactions with baryons, Hamiltonian and S-matrix for, 23:15110 (COO-264-472)
interactions with baryons, hard-pion method for four-point functions for, (T), 25:3401
interactions with baryons, joint production of baryon and meson resonances in, 24:18209
interactions with baryons, kinematical structure of helicity amplitudes for, (T), 25:22829
interactions with baryons, Lagrangian with chiral U(3) x U(3) symmetry and PCAC for phenomenological dynamics of strong, 22:32149
interactions with baryons, Lie group of strong coupling theory for, 22:3368
interactions with baryons, Lorentz covariant chiral U(6) x U(6) scheme for, 21:13720
interactions with baryons, mass shifts of bound states and resonances in, (T), 21:7513 (NP-16398)
interactions with baryons, mass splitting (Σ - Λ) and exchange degeneracy for amplitudes of, 24:24387
interactions with baryons, meson pole dominance for cross sections for, 21:15328
interactions with baryons, model calculations of decuplet mass spacing from, 22:3440
interactions with baryons, model with broken SU(3) for S-wave pseudoscalar, 21:7535 (AD-636763)
interactions with baryons, model with duality and relativistic SU(6) symmetry for, 25:53173
interactions with baryons, momentum dependence of slope of forward exponential peak in elastic, (E), 23:39607 (AD-687143)
interactions with baryons, multichannel dynamics in dispersion calculation of 3/2⁻ baryon resonances in baryon and pseudoscalar and vector meson production in, 24:3666
interactions with baryons, multichannel dynamics in dispersion calculation of Σ(1660) production in, 24:3666
interactions with baryons, multiparticle Veneziano formula for, 25:20014
interactions with baryons, N/D calculation for mass splitting in broken U(6,6) symmetry for, 22:32193
interactions with baryons, N/D model for mass of decuplet 3/2⁺ baryons in, 22:29740
interactions with baryons, N-quantum approximation in static models for, 21:11813
interactions with baryons, N-quantum approximation in Lee model for, 21:2451
interactions with baryons, noninvariance groups and strong coupling models for, 21:2510
interactions with baryons, noninvariance groups for, 22:39459
interactions with baryons, Pade approximants for partial-wave amplitudes of, 23:21091
interactions with baryons, parity-doublet conspiracy in, 23:10812
interactions with baryons, polarization of Λ and Σ in two-body Y* production processes in, (T), 24:52104
interactions with baryons, polarization predictions from double Regge pole exchange for, 25:59503
interactions with baryons, predictions of higher multiplets of baryon resonances from saturation hypothesis for, 23:18889
interactions with baryons, production of resonances in high-dimensional SU(3) multiplets in, 22:35061
interactions with baryons, QQantiQ model for, 23:36945
interactions with baryons, quark decomposition of amplitudes for, 21:15318
interactions with baryons, quark decomposition of amplitudes for, 21:23326 (AD-643088)
interactions with baryons, quark focusing principle for, 25:9760
interactions with baryons, quark model for, 22:32125
interactions with baryons, quark model for charge and strangeness exchange in, 21:33689
interactions with baryons, quark model for constraints on decay distributions for pseudoscalar meson and baryon resonance production in, 22:39406 (TPJU-19/67)
interactions with baryons, quark model for constraints on decay distributions for vector meson and baryon production in, 22:39406 (TPJU-19/67)
interactions with baryons, quark model for dynamical origin of dual and diffractive amplitudes of, (T), 25:40995
interactions with baryons, quark model for pseudoscalar meson production in, 23:36928 (INR-P-1047)
interactions with baryons, quark model for scattering lengths for, 21:17103
interactions with baryons, quark model for sum rules for amplitudes and cross sections of, (T), 25:36518
interactions with baryons, quark model of, 22:22382
interactions with baryons, quark model predictions for pseudoscalar, 25:14721
interactions with baryons, quark model relations between transversity amplitudes for pseudoscalar, 25:14671
interactions with baryons, quark model with factorizability assumption for inelastic, 23:5591
interactions with baryons, quark—quark—antiquark model for vector-meson production in, 22:46439
interactions with baryons, quark-like structure of baryons for self-consistency conditions for, 24:45530
interactions with baryons, rearrangement of sakatons in composite model for backward, 22:52971
interactions with baryons, Regge pole and absorptive cut models for backward, (T), 25:25423
interactions with baryons, Regge pole theory for quasi-elastic pseudoscalar, 23:5596
interactions with baryons, Regge residues in chiral symmetry for, 21:18976
interactions with baryons, Regge-pole model for amplitudes of forward, 23:1642
interactions with baryons, Regge-pole residues and superconvergence relations for, 21:46541
interactions with baryons, Regge-quark model for cross sections of, 21:37783
interactions with baryons, regularization of helicity amplitudes for, 23:7148
interactions with baryons, relativistic SL(6,C) baryon—baryon—meson vertex and kinematic form factors for, 22:35006
interactions with baryons, relativistic theory of SL(6,C) symmetry for, 21:42425
interactions with baryons, relativistic theory of spin and SU(6) for amplitudes of forward, 21:7542
interactions with baryons, removal of baryon doublets in Veneziano model for, 25:33759
interactions with baryons, removal of kinematic singularities from amplitudes of, (T), 22:44427
interactions with baryons, representation mixing in algebra of vertex strengths for, 22:48296
interactions with baryons, rescattering effects in quark model for, 23:15121
interactions with baryons, resonance poles in model for S-wave, 22:1434 (AD-646614)
interactions with baryons, review of dispersion sum rules for, 22:11644 (ITF-67-13)
interactions with baryons, review of Veneziano model for, 24:15541 (INP-681, pp 211-41)
interactions with baryons, s-wave resonances from SU(6) invariance model of, 22:34994
interactions with baryons, sakaton rearrangement diagrams for amplitudes of, 23:46688
interactions with baryons, saturation of superconvergence relations for, 22:32153
interactions with baryons, scale and chiral symmetry breaking for, 25:12214
interactions with baryons, scale symmetry breaking for scattering length for, 25:30933
interactions with baryons, selection principles for vertices for, 21:13708
interactions with baryons, SL(2,C) symmetry for electromagnetic form factors for, 22:20298
interactions with baryons, spectra of 3/2⁺ baryons from multiparticle exchange in pseudoscalar, 23:32724 (DESY-69/16)
interactions with baryons, static bootstrap model for, 23:23475
interactions with baryons, static bootstrap models for strong coupling theory for, (T), 25:17502
interactions with baryons, statistical model for high-energy, 22:50408
interactions with baryons, strong and electromagnetic vertices in coupling, 21:927
interactions with baryons, strong interaction sum rule for, 21:9789
interactions with baryons, strong-coupling theory and Lie groups for isobaric states in, 21:25304
interactions with baryons, structure of equal-time anticommutator of baryon current in, 22:39404 (N-68-21629)
interactions with baryons, SU(3) continuous-moment sum rules for, 23:21122
interactions with baryons, SU(3) in coherent-droplet model for pseudoscalar, 21:42429
interactions with baryons, SU(3) symmetry breaking and 3/2⁺ baryon resonance spectra from pseudoscalar, 24:18212
interactions with baryons, SU(3) symmetry for mass and width of resonances in, 21:7544
interactions with baryons, SU(3) symmetry for U(3) x U(3) cross section relations for, 22:44475
interactions with baryons, SU(3) X SU(3) chiral symmetry breaking for, 24:18262
interactions with baryons, SU(3)-symmetric quark model for double-charge-exchange, 25:22828
interactions with baryons, SU(3)-symmetric Veneziano model for pseudoscalar, 25:53207
interactions with baryons, SU(6) invariance in S-wave, 22:48348
interactions with baryons, SU(6)/sub W/ invariant amplitudes for, 24:18220
interactions with baryons, SU(6)-representation mixing in covariant chiral U(6) x U(6) scheme of, 22:32192
interactions with baryons, sum rules for, 23:39689
interactions with baryons, sum rules for coupling constants from field theoretic methods in broken SU(3) symmetry, 22:20243
interactions with baryons, sum rules from current algebra and dispersion relations for, 21:21235
interactions with baryons, sum rules with real part of amplitudes for, 23:42687
interactions with baryons, superconvergence and finite energy sum rules for, 23:8805 (INP-622(Vol.1), pp 75-84)
interactions with baryons, superconvergence relations for, 22:26628
interactions with baryons, superconvergence relations in presence of Regge cuts for, 22:5576
interactions with baryons, superconvergence sum rules for, 21:37791
interactions with baryons, superconvergent sum rules for product of factorized amplitudes of, 23:3748
interactions with baryons, symmetry breaking in chiral SU(3) x SU(3) model for effective Lagrangian for, (T), 25:1575 (SU-1206-230)
interactions with baryons, symmetry breaking in SU(3) chiral dynamics for, 22:46489
interactions with baryons, test of soft-meson theorems and SU(3) x SU(3) symmetry-breaking theory from pseudoscalar, 23:21113
interactions with baryons, test of superconvergence relation for, 22:11676
interactions with baryons, tests of soft-meson theorems for SU(3) X SU(3) symmetry breaking in elastic, (T), 25:22871
interactions with baryons, theory with CP violation for strong, 22:29735
interactions with baryons, two-Reggeon branch points in double charge-exchange, (T), 21:21243
interactions with baryons, U(3) x U(3) chiral symmetry for pseudoscalar, 23:7168
interactions with baryons, U(6) symmetry from superconvergence relations for vector, 22:5588
interactions with baryons, U(6,6) peripheral absorption model for, 23:34579
interactions with baryons, unified formulation of effective nonlinear Lagrangian for, 24:6739
interactions with baryons, universality and SU(3) symmetry for total cross-section relations for, 23:18954
interactions with baryons, use of noninvariance groups for deriving sum rules for p-wave, 22:5581
interactions with baryons, use of spin-1/2 quarks for decay correlations in resonance production from, (T), 25:14712
interactions with baryons, use of subtracted dispersion relations and current algebra for scattering length of pseudoscalar, 22:20255
interactions with baryons, vector meson bootstrap for coupling constant predictions for, 22:15834
interactions with baryons, Veneziano model and SU(3) symmetry for inelastic, 25:41008
interactions with baryons, wrong-signature sense point for Δ Regge trajectory exchange in, 23:32747
interactions with c-number Coulomb potential, calculation of wave functions and energy levels for, 22:3345
interactions with decuplet baryons, local duality in, 24:28549 (SU-1206-224)
interactions with deuterons at low energies, analyticity properties of amplitudes for elastic, (T), 21:13714
interactions with deuterons in resonant region, multiple scattering theory for models for, (T), 25:45769
interactions with deuterons in resonant regions, Watson multiple-scattering theory for, 25:14738
interactions with deuterons, baryon—baryon final-state interactions from, 24:8675
interactions with electromagnetic fields, electrodynamics of, 23:42606
interactions with electrons, derivation of Omnes function for, (T), 22:50314
interactions with electrons, structure functions for deep inelastic, 25:33632
interactions with external electromagnetic field, formulation of semi-quantized quantum electrodynamics from charged vector, (T), 25:5413
interactions with external gravitational fields, classical equation of motion for radiation from quantum falling charge for photon production from, (T), 25:25512
interactions with fermions, analytic renormalization of exponential interaction for neutral-vector, 25:45716
interactions with fermions, fixed-source model for multiple boson production from, 22:9525

interactions with fixed baryons, exact static-model bootstrap solutions for arbitrary 2 x 2 crossing matrices for, 23:46737
interactions with gravitational fields, general formalism for, 23:27865
interactions with gravitons, quantum field theory for amplitude of, 22:24736
interactions with hadrons at high energies, Regge cut dominance and Fubini sum rule for relation of hadron electromagnetic form factor with diffraction peak widths of charge-exchange, (T), 23:51896
interactions with hadrons, spin—parity rule from direct-channel helicity conservation for quasi-two-body inelastic, (T), 25:25410
interactions with high-spin virtual scalar mesons, power-law increase of amplitude with increasing energy for elastic, (T), 25:47854
interactions with leptons, Veneziano model for amplitudes of, 23:49114
interactions with massless formions, current definition and mass renormalization in model field theory for vector, 22:3373
interactions with mesons (π), constraints on angular momentum of t-channel exchanges from s-channel helicity conservation in elastic, (T), 25:33694 (SU-1206-248)
interactions with mesons (π), parity constraints and factorization in Veneziano model for elastic and meson (π) and vector meson production in, 23:39729
interactions with mesons (π), Veneziano model for chiral constraints and absence of negative mass-squared ghosts for five-point spinless vertex for, 24:10743 (COO-264-522)
interactions with mesons (π), Veneziano-type vertex function for meson (π) electromagnetic form factor from meson (π) and scalar meson production in, 24:12978
interactions with mesons (π^-) and (π^+), Veneziano model for chiral constraints and absence of negative mass-squared ghosts for five-point spinless vertex for, 24:10743 (COO-264-522)
interactions with mesons (π^+), multipoint Veneziano model for mass dependence of diffraction peak in resonance production in, 24:8628 (COO-264-521)
interactions with mesons (π^+), parity constraints and factorization in Veneziano model for elastic, 23:39729
interactions with mesons and baryons at high energies and small angles, quantum field theory for amplitude of diffraction, (T), 25:17476
interactions with mesons and baryons at high energies, relation of coherent state method with quark models for, (T), 25:59448 (JINR-E2-6025)
interactions with mesons and baryons in CHKN Regge pole model, energy dependence of total cross sections for, 23:10798
interactions with mesons and baryons in nonchiral U(6) x U(6), duality diagrams and representation mixing for, 25:59549
interactions with mesons and baryons, saturation of superconvergence dispersion relations for amplitudes of, 22:29681
interactions with mesons and baryons, sum rules for broken-SU(6) relations for, 25:7701
interactions with mesons at high energies, γ, gauge invariance for helicity conservation in, (T), 25:3403
interactions with mesons at high energies, SU(n) symmetric multiperipheral model for magnitude of total cross sections for, (T), 25:9773
interactions with mesons at low energies, singular off-mass-shell equation with vector meson exchange for P- and S-wave amplitudes and resonances in, (T), 25:12192 (NYO-2262-TA-232)
interactions with mesons at low energies, SU(3) x SU(3) chiral-invariant Lagrangians for, 23:27845
interactions with mesons in broken Liouville symmetry, sum rule for I = 0, S-wave phase shift in, 24:13068
interactions with mesons in crossing-symmetric bootstrap model, asymptotic behavior of form factors from, 22:15778
interactions with mesons in dual relativistic quark model, Adler condition for, 25:14685
interactions with mesons in orbital-excitation model for, 25:33705
interactions with mesons in quark model, inclusion of fermions in meromorphic amplitudes for ghost-free leading trajectory amplitudes of, (T), 24:40397
interactions with mesons, bootstrap algebras for, 21:37899
interactions with mesons, broken chiral SU(3) x SU(3) symmetry in effective Lagrangian theory for, 23:36978
interactions with mesons, current algebra and PCAC for scattering lengths and amplitudes for nonleptonic, 24:6703
interactions with mesons, Dirac equation for kinks in model quantum field theory of, (T), 25:53176
interactions with mesons, dual amplitudes with unitary symmetry for pseudoscalar, 25:43627
interactions with mesons, dual resonance and extended particle models for, (T), 25:9771
interactions with mesons, duality diagrams in Veneziano model and supermultiplet schemes for, 24:1577
interactions with mesons, exact Bethe—Salpeter amplitudes in static model for, 23:39709
interactions with mesons, exchange-degenerate SU(3)-symmetric trajectories for, 24:8625
interactions with mesons, exotic mesons, Regge cuts, and parity doublets for, 25:28033
interactions with mesons, finite-energy sum rules for, 23:44648
interactions with mesons, high-energy behavior of planar graphs for, (T), 21:4045
interactions with mesons, meson pole dominance for cross sections for, 21:15328
interactions with mesons, model with duality and relativistic SU(6) symmetry for, 25:53173
interactions with mesons, overlapping resonance mechanism for production of 3π(1080), Kπ(1169), and KK(1433) enhancements in, (T), 25:14678
interactions with mesons, Pade approximants for partial-wave amplitudes of, 23:21091
interactions with mesons, Pade approximation for, 25:40975
interactions with mesons, phenomenological approach for, 22:3396
interactions with mesons, quark model and Adler sum rule for, 21:7500
interactions with mesons, quark model for dynamical origin of dual and diffractive amplitudes of, (T), 25:40995
interactions with mesons, quark model for scattering lengths for, 21:17103
interactions with mesons, review of Veneziano formula for, (T), 25:14688
interactions with mesons, review of Veneziano model for, 24:15541 (INP-681, pp 211-41)
interactions with mesons, review of Veneziano n-point function with manifestly crossing-invariant parametrization for, 24:6717
interactions with mesons, rigorous field theory models for nonlinear self-coupling in, 24:33038
interactions with mesons, scattering lengths from chiral SU(3) x SU(3) for, 23:21095
interactions with mesons, SU(3) X SU(3) chiral symmetry breaking for, 24:18262
interactions with mesons, superconvergence relations for inelastic, 23:1636
interactions with mesons, superconvergence relations for, 21:37786
interactions with mesons, two-channel unitarized Veneziano model, 25:30860
interactions with mesons, U(3) x U(3) model for exchange degeneracy of Regge trajectories and flat total cross sections for, 23:23455
interactions with mesons, Veneziano amplitude for duality in internal space—time structure of, (T), 24:52081
interactions with mesons, Veneziano n-point function symmetric representations for, (T), 25:33688 (INP-713(Vol.2), pp 55-84)
interactions with neutral pseudoscalar mesons, estimation of double spectral function for, 23:25561
interactions with neutrons and gravitons in neutron star collapse, (T), 22:43762
interactions with neutrons, Green function in theory of local unrenormalizable, 24:10695
interactions with nonrelativistic recoiling baryons, self-consistent one-baryon state in field theory for, 22:24649 (LA-DC-8107)
interactions with nucleon isobars, induced representations of strong coupling groups for, 21:33705
interactions with nucleons above 3 GeV/c, production of vector mesons in, 21:4052
interactions with nucleons above 30 GeV, baryon resonance ionization point and failure of Regge expansions and Pomeranchuk theorem in total cross sections of, 24:18193
interactions with nucleons at 12 GeV/c in carbon and iron, phi and rho production from, (E), 21:27294
interactions with nucleons at high energies, Feyman integrals with spin for, 21:17131
interactions with nucleons at high energies, formalism combining SU(3) symmetry, exchange degeneracy, and Regge poles for, 23:3730
interactions with nucleons at high energies, quark model for total cross sections and backward Δ production in, (T), 25:7624 (UCR-34-P-107-113)
interactions with nucleons at high energies, quasipotential approach for spin effects in, (T), 25:36504 (JINR-E2-5770)
interactions with nucleons at high energies, Regge asymptotic behavior of amplitude for, 22:11675
interactions with nucleons at high energies, Regge pole theory and broken SU(3) symmetry in model for, 21:27342 (JINR-P2-3251)
interactions with nucleons at high energies, Regge pole theory and exchange degeneracy for cross section relations with N + N interactions, 22:46535 (JINR-P2-3944)
interactions with nucleons at high energies, review of research on, (E), 21:37699(R) (COO-1428-29)
interactions with nucleons at high energies, review of energy dependence of total cross sections for, (E/T), 24:5239
interactions with nucleons at high energies, sum rules in vector dominance model for integral of total cross section relation with γ + N interactions, 22:46357 (JINR-E2-3926)
interactions with nucleons at high energies, vector dominance model for sum rule connecting cross section for γ + p interaction with parameters of, 22:20173 (JINR-P2-3704)
interactions with nucleons in quark model, multiple-scattering corrections to Johnson—Treiman relations for, 22:24654
interactions with nucleons in relativistic field theory, nuclear many body problem from Green functions for, 24:43463 (RLO-1388-573)
interactions with nucleons in static model, superconvergence sum rules and [SU(2)/sub I/ x SU(2) /sub J/] x T_z algebra for, 22:39463
interactions with nucleons in SU(3) quark model, vector-meson production in, (T), 25:3400
interactions with nucleons in vector dominance model, information on π photoproduction from, 23:5558
interactions with nucleons, breakdown of scaling invariance in generalized Bjorken limit of perturbation theory for, (T), 25:1438 (AD-706834)
interactions with nucleons, breaking of exchange degeneracy of vector and tensor trajectories for, 25:17509
interactions with nucleons, broken SU(6)/sub W/ relations for meson (E) production in, 24:5328
interactions with nucleons, class of field theories in two-dimensional space—time with U(1) x U(1) symmetry for, 24:1645
interactions with nucleons, classical and quantum-mechanical treatment of, 24:45531
interactions with nucleons, classical limit of fourth order matrix elements using pseudoscalar—pseudoscalar coupling for, 23:23479
interactions with nucleons, comparison of Regge-pole model and absorption model for production of spin-$^3/_2$ particles in, 23:32739
interactions with nucleons, consequences of infinite mass renormalization for, 22:35005
interactions with nucleons, coupling parameters from meson dominance in, 23:42675
interactions with nucleons, equal-time commutators of current operators in renormalized perturbation theory for, 22:39332
interactions with nucleons, exchange degeneracy of (rho, A_1) and (K^*,K^{**}) Regge trajectories for s → u, u → s crossing-related forward, (E), 24:10759 (BNL-14222)
interactions with nucleons, Feynman diagrams for unitary representations of SL(2,C) symmetry for, 22:20284
interactions with nucleons, formalism with SU(3) symmetry, exchange degeneracy, ad Regge poles for forward, (T), 25:12217
interactions with nucleons, functional integration method for continuous integrals for vertex function and amplitudes of elastic, (T), 25:50135 (JINR-E2-5897)
interactions with nucleons, independent quark model predictions for inelastic, 21:2466
interactions with nucleons, isobar model for differential cross sections for, 24:1588
interactions with nucleons, isospin and U-spin dependence of total cross sections for, 23:3740
interactions with nucleons, kinematic scaling in quark model for, 24:45534
interactions with nucleons, KN coupling constants from dispersion relations for, 22:15802
interactions with nucleons, Lagrangian method in Yang—Mills theories for compact simple Lie group as internal symmetry for, 23:39820
interactions with nucleons, lectures on baryon spectrum from, (T), 25:47861 (DNPL/R-10)
interactions with nucleons, Lorentz group representations for amplitude expansion at vanishing four-momentum transfer in, 22:15794
interactions with nucleons, method for measuring spin-flip effect in, (T), 22:24652
interactions with nucleons, model of exchange-degenerate Regge trajectories for charge-exchange, 24:18221
interactions with nucleons, model with fixed nucleon for, 21:17116
interactions with nucleons, modified perturbation theory for coupling constant for, 22:26586
interactions with nucleons, modified Tamm—Dancoff method in charged-scalar theory for, 24:13105
interactions with nucleons, multiple-scattering effects on Reggeized quark model for, 23:42685
interactions with nucleons, origin of parity conservation in, 25:1542
interactions with nucleons, phenomenological model for violation of Pomeranchuk theorem for, 25:3356
interactions with nucleons, quark model for backward, (T), 25:12218
interactions with nucleons, quark model for total cross section relations for forward elastic, (T), 25:12218
interactions with nucleons, recoil effects in scalar-field model for, 24:40399
interactions with nucleons, reconstruction of forward scattering matrix amplitude for, 21:37802 (JINR-P2-3374)
interactions with nucleons, reconstruction of matrix amplitudes for forward, 22:20245
interactions with nucleons, Regge cuts and sum rules for charge-exchange, 25:33745
interactions with nucleons, Regge pole model for invariant functions of, 23:10832
interactions with nucleons, Regge trajectories and SU(2) /sub W/[1] symmetry for, 21:37801 (FTI-LA-1)
interactions with nucleons, Regge-pole model with L—S coupling for pseudoscalar, 22:20253
interactions with nucleons, renormalizability of massive spin-one theory for pseudovector, 25:33761
interactions with nucleons, rigorous field theory models for coupling in, 24:33038
interactions with nucleons, s-channel helicity constraints on t-channel exchanges in, 25:53157
interactions with nucleons, s-channel helicity in virtual Compton, 25:33640
interactions with nucleons, s-channel helicity property for NN vertex in, 25:33737
interactions with nucleons, scalar nucleon—vector meson interaction model for elastic and inelastic amplitudes of, (T), 25:19927
interactions with nucleons, slope parameter for differential cross sections of elastic, (T), 25:47776 (JINR-P2-5864)
interactions with nucleons, SU(3) sum rules for charge-exchange, 21:29553
interactions with nucleons, SU(3) tests for Regge residues from, 21:15394
interactions with nucleons, sum rules in perturbation theory for, 21:29534 (DESY-67/11)
interactions with nucleons, sum rules in perturbation theory for neutral pseudoscalar, 21:31595
interactions with nucleons, test of single Regge pole dominance in, 23:39725
interactions with nucleons, unitarity condition in static neutral scalar meson model of, 22:11682
interactions with nucleons, unitarity constraints on helicity flip amplitudes for elastic, 25:53215
interactions with nucleons, vacuum fluctuations and self-energies in meson theory for, 22:32169

interactions with octet 0^-, crossing relation with Bose statistics charge conjugation and time reversal invariance in S-matrix with broken SU(3) symmetry for, 23:51976 (COO-427-95)
interactions with octet baryons, decay couplings from unitary symmetry for superconvergencent sum rules for invariant amplitudes of elastic, 24:18216
interactions with octet baryons, dynamical model for coupling constants for, 22:26624
interactions with octet baryons, SL(6,C) symmetry for, 22:20304
interactions with photons at high energies, dependence on gyromagnetic ratio for total cross section for Compton, 24:6752
interactions with photons, asymptotic behavior of helicity amplitudes from Regge poles for, 24:13143
interactions with photons, electrodynamics of field interactions in, 23:42606
interactions with photons, electromagnetic unitarity corrections for, 24:8591
interactions with photons, form factor and virtual-Compton scattering amplitude in dual resonance model, 25:53058
interactions with photons, formulation of relativistic quark field theory for coupling constants in, 22:29743 (DESY-68/11)
interactions with photons, gauge condition in helicity formalism for Compton, (T), 25:22729
interactions with photons, non-Lagrangian field theory for, 24:15521
interactions with photons, sum rules for Compton, 23:8784
interactions with polarized baryons, baryon spin determination from, 25:28040
interactions with protons, 10^* and 27 Regge trajectories for, 21:33747
interactions with protons, accuracy of Tomonaga intermediate coupling approximation for, (T), 22:39411
interactions with protons, broken SU(6) predictions for baryon and polarized vector meson production in, 25:53212
interactions with protons, charge exchange in many-body, 23:10807
interactions with protons, cross sections from Tomonaga approximation for positive, 23:36947
interactions with protons, formulas for Mandelstam branch point contribution to proton and boson resonance production in, (T), 25:22830
interactions with protons, polarization in vector dominance model for π production in vector, 22:39419
interactions with protons, production of baryon—antibaryon pairs in many-body, 23:10807
interactions with pseudoscalar and vector mesons at low energies, relations between coupling constants for, 23:15185 (ITF-68-37)
interactions with pseudoscalar mesons at low energies, current commutators and mass extrapolation theory for scattering lengths and effective ranges for amplitudes of elastic, 22:39330
interactions with pseudoscalar mesons, mass analyticity requirements and constraint equations for helicity amplitudes from generalized invariant amplitudes for vector meson production in, (T), 24:10736
interactions with pseudoscalar mesons, perturbation series and O(8) symmetry from SU(3) extension of lambda phi^4 interactions and kinematic breaking for, (T), 25:5394
interactions with pseudoscalar mesons, relativistic Schroedinger equation for bootstrap in multichannel, 24:3625
interactions with pseudoscalar-octet and vector- and tensor-nonet mesons, Veneziano model for amplitudes, sum rules, universality relation, exchange degeneracy, and parity doubling in, 24:13063
interactions with π in Veneziano model, factorization of Regge residues for, 25:7641
interactions with π, Veneziano model for vector, 25:19997
interactions with quark—antiquark pair, SU(6) symmetry for, 21:13706
interactions with quarks, Schwinger terms in Johnson—Low model for Feynman integrals for, 22:3382
interactions with quarks, unitarity of S-matrix for, 21:949
interactions with Sakata triplet, bootstrap equations for, 21:15351
interactions with scalar mesons, analyticity in momentum transfer relation with total transition probability for two-body, 24:8646
interactions with scalar mesons, Van Hove model of Regge poles for daughter trajectories of bosons in, 24:24347
interactions with scalar nucleons at high energies, straight-line particle paths approximation for functional integration in quantum field theory for elastic, (T), 25:17498 (JINR-E2-5217)
interactions with spin-$^1/_2$ baryons, decomposition of Legendre expansion coefficients for, 21:37808
interactions with spin-$^1/_2$ fermions at high energies and all angles, optical model for, (T), 25:43571
interactions with spin-$^1/_2$ fermions, fourth-order perturbation theory for invariant amplitudes of pseudoscalar, 22:46443
interactions with spin-$^1/_2$ fermions, optical theorem formulation for imaginary part of all nonvanishing spin amplitudes of forward elastic, 24:33056
interactions with spin-$^1/_2$ particles, helicity amplitudes for unified treatment of photon and vector, 25:53174
interactions with spin-$^1/_2$ positive-parity baryons at high energies, additivity assumption of quark model for vector meson and spin-$^3/_2$ positive-parity isobar production in, 23:42674
interactions with spin-0 bosons, nondynamical structure of collinear elastic and inelastic, (T), 25:40904 (RLO-2041-53)
interactions with spin-1 bosons, nondynamical structure of collinear elastic and inelastic, (T), 25:40904 (RLO-2041-53)
interactions with spin-1/2 baryons at high energies, Regge pole analysis of inelastic, 22:39412
interactions with spin-1/2 baryons, partial waves, polarization, and resonance states in, 22:32143 (UCID-3163)
interactions with spin-1/2 fermions in field theory, fermion Regge trajectory from vector, 22:5579
interactions with spin-1/2 fermions, nondynamical structure of collinear elastic, (T), 25:40904 (RLO-2041-53)
interactions with spin-1/2 particles, consequences of infinite mass renormalization for, 22:35005
interactions with spinless bosons, lower bounds on threshold charge-exchange amplitude from di-pion mass distributions in final states of, (T), 25:5315
interactions with spinless bosons, radiative corrections to relativistic eikonal amplitude for scalar meson exchange in elastic, (T), 25:59453
interactions with spinless bosons, time-shift evaluation for nonrelativistic, (T), 25:53044
interactions with spinless equal-mass mesons, Bethe—Salpeter equation in momentum space for two-body elastic, 22:20225
interactions with spinless mesons, Regge pole theory and O(3,1) group for relativistic expansions of amplitudes of two-body, (T), 25:17481
interactions with spinless targets, power-law increase of amplitude with increasing energy for elastic, (T), 25:47854
interactions with spinor mesons, mass analyticity requirements and constraint equations for helicity amplitudes from generalized invariant amplitudes for vector meson production in, (T), 24:10736
interactions with static baryon octet source, mass operator in SU(3) symmetric strong coupling theory for, (T), 25:20015
interactions with static nucleon, Tomonaga intermediate-coupling approximation for scalar, 23:36947
interactions with vector mesons, coupling constants from saturation of superconvergence dispersion relations for, 21:44362
interactions with vector mesons, relativistic Schroedinger equation for bootstrap in multichannel, 24:3625
interactions with weak gravitational fields, covariant Green functions of, (T), 25:20094
isospin of self-conjugate zero-spin, nonlocal, 21:17110
Kemmer formulation for vector, relation to photons, 23:25602
lifetimes of, extension of Kemmer-symmetric coupling for particle decays for, (T), 25:12199
magnetic moment of vector, from bremsstrahlung in decay of, (T), 23:32648(T) (NP-tr-1784)
mass and spin spectra of, algebraic structure from relativistic symmetries for, 23:5603
mass and width for scalar nonet of, superconvergence condition for, (T), 21:44356
mass assignments in baryon—antibaryon model, 24:37756
mass dependence on spin of, quark—antiquark model for, 24:33011
mass difference of spin-1, symmetry breaking in SU(3) chiral dynamics for, 22:46489
mass difference of, electromagnetic, 24:10714
mass differences for psuedoscalar and vector, bound-state bootstrap models for electromagnetic, 21:29420
mass differences in octet of, SU-symmetric multichannel calculation of electromagnetic, 24:26406
mass differences in SU(6), tadpole-type contribution to electromagnetic, 21:37881
mass differences of 0^- and 1^- octets of, triplet-sextet model of, (T), 21:44326
mass differences of octet of pseudoscalar, SU(3) symmetric multichannel calculation of electromagnetic, (T), 25:14795
mass differences of pseudoscalar and vector, Cottingham formula with finite-energy sum rules for A_1 Regge pole for $\Delta I = 1$ and 2 electromagnetic, 24:5267 (NP-18074)
mass differences of pseudoscalar and vector, fifth-interaction and tadpole models for SU(3) symmetry breaking in, (T), 24:45565 (NYO-2171-317)
mass differences of vector and axial-vector mesons, composite particles in field-theoretic Lagrangian model for, 22:34920
mass differences of vector, effect of high-mass channels on electromagnetic, 21:27333
mass differences of, ratio of baryon mass differences to, 25:47930
mass differences of, vector currents for electromagnetic and strong, 21:31576
mass eigenvalues for 0^-, in field theory with S_3 invariance, 21:13702
mass form factors from hypothesis of tensor-meson dominance, 25:38728
mass formula for pseudoscalar octet, phenomenological Lagrangian with symmetry-breaking term in chiral SU(3) x SU(3) symmetry for, 24:10801 (COO-264-527)
mass formula for pseudoscalar, use of current algebra and relativistic quark model for, 23:32686
mass formula for SU(3) multiplets of, in SU(6) representation, 23:21143
mass formula for vector, use of current commutators in broken SU(3) for, 22:35066
mass formula for, empirical, 22:17947
mass formula for, generalized de Sitter, Poincare, and SL(2,C) model for spin and isospin dependence of, 24:26472
mass formula for, strange-spin formalism in model for, 22:50360
mass formula in broken SU(3), reduction of associative algebra for, 21:37902
mass formula in composite model, 23:39696
mass formula in dynamic symmetry-breaking models, algebraic method for, 21:21276
mass formula in Lagrangian model of chiral SU(3) x SU(3) with symmetry breaking, 25:9794
mass formula in nonet scheme, 25:53095
mass formula in SU(3), X^*—eta mixing for linear, 23:46764
mass formulas between pseudoscalar and vector, extended current commutation relations for SU(6), 23:1626
mass formulas for 0^-, 1^-, 1^+, and 2^+ nonets of, infinite-dimensional Lie algebra A(P,SU(3)) for generalized, 23:32706
mass formulas for 27-plet, in SU(3) symmetry, 22:35051 (NP-17486)
mass formulas for nonets of, linear, 21:27364
mass formulas for octet, SU(3) approximation and SU(3) x SU(3) charge algebra for intermultiplet, 23:25618
mass formulas for scalar, in Veneziano model, 24:35648
mass formulas for unitary multiplet splitting in symmetry for, additivity hypothesis for, 21:19043 (JINR-P2-3170)
mass formulas for, field-theoretic method in nonrelativistic quark model for quadratic, 21:37777
mass formulas for, finite transformations of SU(3) for one-parameter, 23:32795
mass formulas for, in inhomogeneous SU(6,6), 21:17163
mass formulas for, ladder representations of U(6,6) for, 21:35332 (JINR-P2-3407)
mass formulas for, model of CP violation for, 23:49192
mass formulas for, relativistic formulation of quark model for quadratic, 23:39714
mass formulas for, representations in unbroken symmetry for phi—ω mixing and, 21:17158
mass formulas for, SU(3) approximation for, 23:23514
mass formulas from chiral SU(3) x SU(3) current algebra, 23:3785
mass formulas from Veneziano model, 24:45519
mass formulas in broken chiral SW(3) symmetry, 24:37845
mass formulas in broken SU(3) as quadratic Diophantine equation, solution to, 24:47493
mass formulas in broken SU(6)/sub W/ and SU(6)/sub X/, 21:37884 (JINR-P2-3391)
mass formulas in inhomogeneous SU(6,6) group, 21:9825
mass formulas in ladder U(6,6) symmetry, (T), 25:59546
mass formulas in quark model, dynamic groups for, 21:44350
mass formulas in static strong coupling theory, 21:18971
mass formulas in SU(12) as contained in Sp(6) x SU(2), 21:11802
mass formulas in the ladder representations of U(6,6), 23:44700
mass level structure of, urbaryon model for, 25:12182
mass levels of, two-body bound problem of Dirac particles for, 21:40209
mass matrix of Goldstone bosons in spontaneously broken SU(3) x SU(3) symmetry, Mathur and Okubo domains and Kuo invariance for negative eigenvalues of square, (T), 25:17543
mass of 0^+, 189- and 405-plets of SU(6) for relations in, 21:33746
mass of 36-plet, formulas in P(u) group for, 22:24711
mass of ninth pseudoscalar, from sum rules for spin-zero spectral functions, 25:9779
mass of pseudoscalar and vector, quark model for, 21:33649
mass of scalar nonet of, finite-energy sum rules and Veneziano model for, 23:42666
mass of scalar, field theoretic model with currents and symmetry breaking for, 22:3478
mass of vector, gauge field coupling to scalar field multiplet for gauge-invariant term for, 23:34594
mass of vector, two-dimensional field theory for physical and bare, 21:21221
mass of, calculation of, 22:9586
mass of, current algebra and Regge pole theory for, 21:29521
mass of, current algebra equal-time commutator with chiral symmetry breaking and K + π and K + K scattering lengths for scalar density matrix elements for, 24:6724
mass of, experimental formula for, 22:29687
mass of, extension of Kemmer-symmetric coupling for particle decays for, (T), 25:12199
mass of, modified perturbation theory for calculation of, 22:26586
mass of, relation with hadron—antihadron interaction energy and estimation of, 24:6710
mass of, spectral-function sum rules from corrections for, 22:3299
mass quantum for, 22:34882
mass relation among 1^- and 1^+ nonets, use of Weinberg sum rules for, 22:46399
mass relation between vector and axial vector, Weinberg sum rules and field algebra for, 22:29688
mass relation for determining relative strength of chiral and SU(3) symmetry breaking, 23:39766
mass relation from cluster model, 22:29685
mass relation in SU(2) x SU(2) chiral symmetry, modified Weinberg, 25:5364
mass relation with spin of, classical spin variables as counterpart of Dirac—Feynman—Gell-Mann equation for, (T), 25:45748
mass relations and sum rules from continuous breaking of chiral symmetry, 24:5292
mass relations for pseudoscalar, 22:26643
mass relations for, linear, 22:37130
mass relations for, Veneziano model for Weinberg, 24:1585
mass relations in broken SU(3) for, (T), 25:1582
mass relations in model of quark—antiquark pairs, 23:16962
mass shift of spin-0, single-particle elastic contribution to electromagnetic, 23:39665
mass shifts of pseudoscalar, electromagnetic, 23:32663

mass shifts of, non-Lagrangian field theory for electromagnetic, 24:15521
mass spectra, 21:15372
mass spectra and form factors in SU(3) infinite multiplet model, 25:28058
mass spectra for, diagrammatic method for formulas for, 22:9664
mass spectra for, exponential, 21:31538 (ARL-67-0051)
mass spectra for, SU(3) x SU(3) chiral algebra, SU(2) x SU(2) symmetry, and absence of exotic resonances for, 23:46786
mass spectra from nonlocal field theory of quark model, 23:39802
mass spectra from quark mass ratios, 25:22787
mass spectra from Veneziano model, 25:40986
mass spectra in chiral SU(3) x SU(3) model, effect of electromagnetic perturbations on, 25:14690
mass spectra in chiral SU(3) x SU(3) symmetry, 24:37772
mass spectra in O(4,2) theory, 22:24706
mass spectra in quark model, 23:13089
mass spectra in SU(6), existence of 189 multiplet in, 21:21282
mass spectra of 27-plet, unitary symmetry model for, 22:32194
mass spectra of low-lying, predictions from duality in baryon—antibaryon interactions for narrow states in, 25:9768
mass spectra of pseudoscalar and scalar, in broken SU(3) x SU(3) chiral symmetry, 25:14689
mass spectra of scalar and pseudoscalar, generating functional for Ward identities for, 24:26425
mass spectra of supermultiplet of, SO(3,2) and U(3,1) groups for, 24:45497
mass spectra of vector and axial-vector, in broken SU(3) X SU(3), electromagnetic, 23:18945
mass spectra of vector and axial-vector, sum rules for, 21:21214
mass spectra of vector and tensor, duality breaking from, 25:36486
mass spectra of, algebraic formalism of chiral SU(2) x SU(2) for, 24:13127
mass spectra of, algebraic model based on SO(3,2) and SL(3,C) groups for, (T), 25:14772
mass spectra of, Bethe—Salpeter equation in O_3 symmetry for quark—antiquark binding for, 21:33688
mass spectra of, cluster model of hadrons for, 22:50380
mass spectra of, correspondence with nucleon isobars, 21:4037
mass spectra of, electrodynamic effects on meson multiplet structure in particle unified field theory for, (T), 25:1514
mass spectra of, nonexistence of ambiguities in SU(3) x SU(3) breaking for, (T), 25:25474 (ISS-70/25)
mass spectra of, periodicities in, (T), 25:47873
mass spectra of, predictions of SO(3,2) model for fine structure in, 23:42713
mass spectra of, quark model for, 21:33690 (JINR-P2-3353)
mass spectra of, relativistic and SU(3)-invariant equations for nonlinear quark theory for, (T), 25:14684
mass spectra of, supermultiplet theory for, (E/T), 25:47874
mass spectrum in dynamic symmetry for, 21:19049
mass spectrum of 1^+, in O(4,2) theory, 22:37182
mass spectrum of factorization and degeneracy in Veneziano model for amplitude of two-body interactions of spinless mesons for, 23:49128 (ISS-69/25)
mass spectrum of pseudoscalar and scalar, symmetry breaking in chiral SU(3) x SU(3) model for, (T), 25:1575 (SU-1206-230)
mass spectrum of pseudoscalar, electromagnetic perturbations in general chiral SU(3) x SU(3) model of, (T), 25:1574 (SU-1206-229)
mass spectrum of scalar and pseudoscalar, Ward identities in current algebra with broken symmetry for, (T), 25:1496 (AD-705549)
mass spectrum of spin-zero, general chiral SU(3) x SU(3) model with electromagnetic symmetry breaking for, (T), 25:1573 (SU-1206-228)
mass spectrum of, review of quark model in SU(6) symmetry for, 24:5325
mass splitting in isomultiplets of pseudoscalar, 23:36879
mass splitting in quark model for, electromagnetic, 21:7483
mass splitting of pseudoscalar and vector nonet, comparison of quark—quark force for baryons and quark—antiquark force for, 21:37782
mass splitting of pseudoscalar octet of, 22:3498
mass splitting of, cluster model for spin—orbit, 22:50379
mass splitting of, quark model for electromagnetic, 21:29480
mass splitting, phi—ω mixing, and small perturbations in SU(3) multiplet of vector, 23:3777
mass splittings among pseudoscalar, phenomenological determination of parameter for strength of weak corrections to strong processes for Cabibbo angle from isospin-breaking, 23:42630 (ISS-69/18)
mass splittings in fifth interaction, S(3) symmetry breaking for medium-strong, 25:30781
mass splittings in quark model, 23:18883
mass splittings in SU(3) multiplet in quark model, 23:16961
mass splittings of pseudoscalar and vector, spectral-function sum rules for, 22:37105
mass splittings of soft pseudoscalar, SU(3) x SU(3) algebra for weak, 23:27789
mass splittings of soft pseudoscalar, SU(3) x SU(3) algebra for weak, (T), 25:14593
mass splittings of vector and pseudoscalar, self-consistent calculation of, 23:3723
mass splittings of, self-consistent bootstrap model for electromagnetic, 21:15289
mass splittings within SU(3) multiplets of, 23:3770
mass squared formula for pseudoscalar, 21:17107
mass sum rule for vector, current algebra predictions of, 24:37765
mass sum rules for, use of current-algebra equal-time commutators for electromagnetic, 22:46373
mass sum rules in broken SU(2) symmetry, 24:40440
mass sum rules in nonlinear unitary symmetry, 25:33794
mass-eigenvalue problem in theory of neutral pseudoscalar, indefinite metric for, 25:38787
masses of bound states of, dynamics of quark models for, 21:18979
masses of isoscalar-scalar, 21:27367
masses of octet vector and axial, effective strong interaction Lagrangian invariant with respect to expanded-gauge SU(3) x SU(3) group for ratios among, 23:51981
masses of scalar, in broken chiral SU(3) x SU(3), (T), 25:56539 (ORO-3992-11)
masses of vector, nonet symmetry in gauge-field model for relations among, 22:39379
masses of, calculation in higher Tamm—Dancoff approximation in nonlinear spinor theory, 22:17946
masses of, current algebra SU(3) representations in relativistic quark model for, 23:39717
masses of, quark model for, 22:46394
matrix elements between states of pseudoscalar, tensor-meson dominance for, 25:38728
matrix elements of, weak current—current quark Hamiltonian for octet behavior of, 25:9761
mixing angle in quark model for vector and tensor mesons, 24:3638
mixing of massive neutral, in anti p + p interactions, tests of charge-conjugation invariance in, (E), 24:3516
model as baryon—antibaryon bound state in Regge pole theory, 22:20354
model as bound states of N fermions, 24:3620
model as N anti N bound state, Fermi—Yang, 25:50133
model for nonexotic nonhermitian uncharged field for complex dipole, 25:30827
model for, crossing matrices for SU(n) group in bootstrap, 21:7495
model for, nonsymmetric nonrelativistic quark, 23:15107
model for, Pade approximant method for relativistic field theoretical quark, 24:40373
model for, pseudovector isospinor heavy-boson, 25:56477
model for, relativistic formulation of quark, 23:39714
model for, relativistically covariant effective quark, 23:49160
model for, semirelativistic quark, 22:32124
model for, SU(6)/sub W/ bootstrap, 22:3367
model for, symmetry breaking in relativistic quark, 23:15101
model for, zero-mass states in quark interactions with antiquarks in non-Fredholm Bethe—Salpeter, 24:21975 (COO-1051-38)
model of coupled neutral scalar meson—nucleon system, 23:8819
model of nonet of vector, spontaneous phi—ω mixing in, 24:37769
model of quark-antiquark, in quantum field theory, 22:50460
model of vector, octet enhancement in bootstrap, 24:37757
model of, current algebra relations for quark, 22:46393
model of, dynamical symmetries O(6) and three-quark forces in, 22:9574
model of, formulation of factorizable dual resonance, 25:45745
model of, representation of current algebra in relativistic quark, 21:4032 (CALT-68-103)
model of, strong binding in quark, 25:28022 (DESY-71/10)
model of, use of fixed-angle dispersion relations in bootstrap, 23:15082
models for, baryon—antibaryon and quark—antiquark, 23:25598
models for, elimination of unphysical states in bootstrap, 24:42959
models for, relativistic kinematics in antiquark-quark, 21:2458
models of, use of two-particle Dirac equation and Klein—Gordon equation in semirelativistic quark, 21:44364
monitoring of cosmic, meteorological corrections to data on, (T), 21:14998
monitoring of cosmic, removal of meteorological effects from telescope, (T), 23:39352
motion of vector, Bargmann-Wigner method in Galilean relativity for equations, 24:49466
motion of vector, with anomalous magnetic moment, in external electromagnetic field, Pauli-type approximations for, (T), 25:25359 (IFVE-SVM-70-31)
nonet of, crossing as group and elimination of exotic channels for quark model theory of tensor, (T), 25:17479
nonets of, algebraic realization of SU(3) symmetry for predictions for, 25:17523 (JINR-E2-5229)
pair production in e + p interactions, angular distribution of, (T), 22:1411
photoproduction at high energies, review on, 25:3315
photoproduction in nuclear field, effects of nuclear moments on pair, (T), 24:18139
photoproduction of charged, effects of multiple rescattering on cross sections for, (T), 25:53051 (JINR-P2-5752)
photoproduction of composite, asymptotic behavior of amplitudes for, 23:36880
photoproduction of harmonic, on nucleons below meson rest energy, (T), 21:896
photoproduction of pseudoscalar and vector, review of, 24:21963
photoproduction of pseudoscalar and vector, status and perspectives of experiments on, 23:10777 (CALT-68-171)
photoproduction of pseudoscalar, (E), 24:24278
photoproduction of vector, 24:24279
photoproduction of vector, 22:32100
photoproduction of vector, (E), 23:23330
photoproduction of vector, on nuclei, incoherent contributions to, 23:36871
photoproduction of vector, on protons, branching ratios for, 21:25259
photoproduction of vector, ω - rho interference in, 25:5325 (DNPL/R-7, pp 115-38)
photoproduction of, kinematic structure of vector dominance model in, (T), 24:40325
photoproduction of, symmetries in, 22:33187 (ISS-66/50)
photoproduction on baryons of pseudoscalar, dispersion sum rules for, (T), 21:4011 (JINR-E2-2931)
photoproduction on baryons, superconvergent sum rules for, 21:21167
photoproduction on deuterons, helium, and protons, unitary symmetry for, (T), 21:4090 (N-66-21182)
photoproduction on deuterons, helium-4, and protons, amplitudes for, (T), 21:27407
photoproduction on fermions, asymptotic behavior of amplitudes for, 22:50332
photoproduction on mesons from meson interactions in Coulomb field of nucleus, 22:41823
photoproduction on nucleons at high energies, SU(3)-symmetric Regge pole model for, 21:42311
photoproduction on nucleons, with S = T = 0, (T), 22:3319
polarizabilities of, quark model for electric and magnetic, 22:3318
polarizability coefficients in quark model, electric and magnetic, 21:11747 (JINR-P2-3073)
polarizability of, SU(3) and SU(6) symmetry relations for electric and magnetic, 21:4089 (JINR-P-2894)
predictions of exotic, in three-triplet quark model, 24:30494
production amplitudes in charged scalar static model, crossing symmetry of multiple, 24:18156
production and decay of vector, in photon interactions with elementary particles, review of, (E), 22:39236 (DESY-68/29)
production and decay of, (T), 23:39774
production and handling of μ and π, 21:17238
production and properties of exotic, review of, 24:37752 (CALT-68-262)
production at high energies in emulsions, H-quantum existence in method for multiple, (T), 22:32157
production by 100- to 1000-GeV cosmic particles, multiple, (E), 23:13271
production by two-photon annihilation in $e^+ + e^-$ and $e^- + e^-$ interactions above 2 x 1 GeV, energy and angular dependence of cross sections for, (T), 24:49388
production channel of, effects on $\gamma + p \rightarrow \pi^0 + p$ interactions, 21:21157
production facility, Los Alamos Linear Accelerator, 22:49409
production from anti p + p → 2 mesons interactions, SU(3) x SU(3) and SU(6)/sub W/ symmetry for, 22:9662
production from anti p + p annihilation at rest, unitary and higher symmetry for, 21:35335
production from fermion—boson interactions, fixed-source model for multiple, 22:9525
production from γ + N interactions near threshold, current commutation on algebra for, 21:29482
production from γ + N interactions, generalized Ward—Takahashi identities and current algebra for, 22:13681
production from γ + N interactions, models in SU(4) for, 21:35326
production from γ + N interactions, review of research on, 21:29421
production from γ + p interactions, divergence conditions for, 21:33640 (JINR-E2-3364)
production from high-energy cosmic showers, statistical analysis for multiple, 22:7459
production from intermediate nucleon isobar decay in nucleon reactions with light nuclei, 25:56525
production from μ + N interactions at high energies, fireball mechanism for cross sections for, 24:3612 (SJC-P-68-6)
production from N + N interactions at 630 MeV, phase shift analysis for, 22:5598 (JINR-P1-3525)
production from p + p interactions at 40 to 80 GeV, statistical model for momentum and angular spectra for multiple, 21:37833 (JINR-P2-3358)
production from photon reactions with nucleons, quark model for, 22:32125
production from $\pi^- + p$ interactions at 1.6 to 4 GeV/c, nonlocal exchange model for, 21:25291
production in anti N + N → π + rho interactions, coupling constant relations from superconvergence relations for, 22:34972
production in anti N + N interactions at high energies, review of statistical model for cross sections for, (T), 25:14680 (INP-719)
production in anti p + p annihilation at rest, SL(6) symmetry for two-body, (T), 21:2454
production in anti p + p interactions at 1.88 to 3.00 GeV, effect of SU(3) invariance on, 22:11654
production in anti p + p interactions at rest, quark model for pseudoscalar, 23:5606
production in anti p + p interactions, statistical model for multiple, 21:922
production in baryon interactions with mesons at high energies, review of statistical model for cross sections for, (T), 25:14680 (INP-719)
production in baryon—baryon and pseudoscalar meson—baryon interactions, quark model for constraints on decay distributions for, 22:39406 (TPJU-19/67)
production in cosmic N reactions with nuclei at 1 TeV in emulsions, multiple, (E), 25:33532 (INP-713(Vol.2), pp 6-48)
production in e + N interactions, breakdown of scaling invariance in generalized Bjorken limit of perturbation theory for, (T), 25:1438 (AD-706834)
production in $e^+ + e^-$ colliding-beam interactions, test of C noninvariance in neutral vector, (T), 21:37878

production in $e^+ + e^-$ interactions at high energies in colliding beams, vector dominance and statistical models for cross sections for, (T), 25:1440 (DESY-70/44)
production in $e^+ + e^-$ interactions in colliding beams, (E/T), 25:52990 (DESY-71/28)
production in $e^- + p \rightarrow e^- +$ baryon + meson interactions at large angles, 21:40183
production in electron reactions with nuclei at 10.0 and 16.0 GeV with nuclei in emulsions, total and differential cross sections for, (E), 24:12922
production in elementary particle interactions at ultrahigh energies, model for multiple, 24:47444
production in γ + N interactions at high energies, 24:20114
production in γ + N interactions at high energies and small momentum transfer, SU(3) symmetry and Regge pole model for, 22:48347
production in γ + N interactions at high energies, moving two-Reggeon cut contribution to amplitude of, (T), 24:20179
production in γ + N interactions at high energies, sum rules in vector dominance model for, 22:46357 (JINR-E2-3926)
production in γ + N interactions at low and intermediate energies, conference on, 24:26366
production in γ + N interactions, integer quark charge for radiative, 21:15379
production in γ + N interactions, method for studying resonances in, 24:28507
production in γ + N interactions, review of experimental data for SU(3) predictions for, 22:37175 (CONF-670725-, pp 56-73)
production in γ + N interactions, SU(6) symmetry for, 21:17080
production in $\gamma + p \rightarrow$ vector meson + N_3^* interactions, quark dissociation model for, 21:27329
production in γ + p interactions at high energies, review of, (E), 22:39234 (CERN-68-7(Vol.1), pp 556-70)
production in γ + p interactions in SU(6)-quark model, relations between differential cross sections for scalar and vector, 25:14626
production in γ + p interactions, modified coherent-droplet model for high-energy, 23:15025
production in γ + p interactions, off-mass-shell amplitudes for, 21:17077
production in γ + p interactions, Regge-pole model for vector, 22:37109
production in γ + p interactions, SU(6) symmetry for, 21:11793
production in high-energy cosmic-ray interactions, 21:34491
production in high-energy interactions, angular distributions from multiple, 21:21203
production in inclusive interactions in additive quark model, sum rules for, 25:45735
production in meson (μ) reactions with nuclei at 10.5 GeV in emulsions, total and differential cross sections for, (E), 24:12922
production in μ + N interactions at 5 GeV/c in nuclear emulsions, (E), 23:46594
production in N + N interactions above 70 GeV, statistical thermodynamics of hadron gas and liquid drops for multiple, (T), 25:22846
production in N + N interactions at high energies, review of statistical model for cross sections for, (T), 25:14680 (INP-719)
production in N + N interactions at high energies, radiation-type eikonal model for uncorrelated, 24:28567
production in N + N interactions at high energies, unitarity condition of S-matrix for multiple, 21:35351
production in N + N interactions in fireball model, angular distribution of multiple, 23:10827
production in N + N interactions, Poisson distribution of secondary particles in straight-line approximation for, (T), 25:3407 (JINR-E2-5329)
production in N + N interactions, Poisson distribution of secondary soft, 25:53228
production in nucleon interactions in nuclear emulsions and cosmic jets, multiple, 25:28050
production in π + N interactions in propane bubble chamber, (E), 23:25505 (CERN-69-7, pp 73)
production in p + N interactions at 22.6 and 24 GeV/c in nuclear emulsions, multiplicity and angular distributions in, (E), 23:5537
production in p + p interactions at 12.3 GeV/c, (E), 21:9703
production in p + p interactions at 20 GeV in thick nuclear emulsions, (E), 22:1383
production in p + p interactions at 28.5 GeV/c, Poisson distribution for multiplicity of, 25:25448
production in p + p interactions at 30 GeV/c, fireball model with double Regge pole exchange for multiple, (E/T), 24:40428
production in particle reactions with nuclei below 200 GeV, computer program for simulating, 23:34615 (ORNL-TM-2627)
production in photon reactions with nuclei at high energy, Glauber multiple scattering theory for, 23:32665
production in photon reactions with nuclei near threshold, cross sections for, 22:7471
production in proton interactions in nuclear emulsions at 30.5 GeV/c, (E), 21:5354
production in π + N interactions at high energies, moving two-Reggeon cut contribution to amplitude of, 24:20179
production in π + N interactions, off-mass-shell effect on amplitude of, (E), 23:42598
production in π + N interactions, photon—vector-meson model for, 23:42598
production in π + p, K^- + p, and anti p + p strangeness-exchange interactions, generalized quark model for cross sections and spin density matrix elements for, 22:29693
production in π^- + p interactions at 16 and 25 GeV/c, Poisson distribution for multiplicity of, 25:25448
production in π^- + p interactions at high energies, multiple, (T), 21:13699
production in two-body, inelastic, strong interactions at high energies, Gaussian interaction probability density for, 22:39422 (COO-1112-154)
production of abnormal charge-parity spin-0 and -1, 23:1634
production of arbitrary-spin, from π + N interactions, 21:21245
production of axial vector, in π + N collisions, Regge model for, 23:5623
production of axial vector, in π + p and K + p interactions in Regge pole model, differential cross sections for, (T), 23:5619
production of cascades of, in proton reactions with steel at 19.2 GeV/c, 21:11679 (ORNL-3854)
production of excess of light, in relation to Dalitz pairs from proton reactions with nuclei at 26 GeV in emulsions, (E), 25:9642
production of heavy, in anti p + p interactions, research at Univ. of California Oct. 1, 1969 to Sept. 30, 1970 on, (E), 25:3261(R) (UCI-34-P-149-1)
production of hypothetical massive spin-1 electromagnetic, in μ^+ + p, μ^- + p interactions and μ^+ and μ^- reactions with iron at high energies, total cross sections for, (T), 25:53107
production of I = 1, review of, (E/T), 25:53027
production of intermediate-energy, in ZGS proton area, 21:40300 (COO-1195-96)
production of isoscalar, $\Delta T = {}^1/_2$ rule for, 21:33703
production of isosinglet scalar, in π^- + p interactions, (T), 21:2474
production of J/sup PG/ = 0^{+-}, in π^- + p interactions, (T), 21:23324 (NP-16681)
production of J/super PC/ = 1^{--} neutral, in $e^+ + e^- \rightarrow e^+ + e^-$ interactions at 2 x 0.8 to 2 x 1.0 GeV at wide angles, search for, (E), 24:47355 (LNF-70/36)
production of K^-, K^+, π^-, and π^+, from electron interactions with beryllium targets at 16 to 18 GeV, 21:17230
production of mass (1717) and (1832), from anti p + p annihilation, (E), 21:18903
production of neutral pseudoscalar and vector, in anti p + p annihilation interactions, (T), 22:22387
production of neutral pseudoscalar, in photon reactions with nuclei, relative sign of Coulomb and Regge amplitudes in, (T), 24:35624 (ITF-70-21)
production of neutral vector, in e + p interactions at high energies, field theoretic model for, 24:30479 (NYO-2262-TA-217)
production of neutral vector, in γ + N interactions, electromagnetic current SU(3) structure in relations among differential cross sections in quark model for, (T), 25:1443 (ITF-70-41)
production of neutral vector, in γ + p interactions at high energies, Regge pole model for, (T), 23:13057
production of neutral vector, in hadron interactions, quark model for, 23:18877 (ITF-68-36)
production of neutral vector, in photon reactions with deuterium, helium-3 and tritium, Regge pole and quark models for, 24:20095 (ITF-69-87)
production of neutral vector, in photon reactions with nuclei, quark model for relations between total cross sections for π and K reactions with nuclei and differential cross sections for, (T), 25:1442 (ITF-70-40)
production of neutral vector, in photon reactions with nuclei at large momentum transfers, cross sections for incoherent, (T), 25:47776 (JINR-P2-5864)
production of neutral, from π^+ + n interactions at 2.34 GeV/c, (E), 21:17043 (JINR-E1-3100)
production of neutral, in p + d interactions at high energies, (E), 23:49044 (PPAR-23)
production of nonet, in π + N interactions, relations among cross sections for, (T), 25:12203
production of nonstrange, in π^- + p interactions at 6.0 GeV/c in hydrogen bubble chamber, (E), 23:42568
production of nucleon—meson cascade in proton reactions with iron at 1 and 3 GeV, Monte Carlo calculations of, 22:46463
production of octet 0^-, in decay of decuplet $3/2^+$ baryons, broken SU(6)/sub W/ for, (T), 25:20048
production of pair of spinless, in e + e and $e^+ + e^-$ interactions in colliding beams, (T), 25:53048 (DESY-71/30)
production of pairs of identical, in $e^+ + e^-$ interactions, polarization effects in, (T), 25:36438
production of pairs of, from photons interactions with circular polarized plane electromagnetic wave, (T), 23:18847
production of pseudoscalar and vector, in K + N and π + N interactions above 3 GeV/c with charge exchange and no strangeness exchange, quark model predictions for, (E), 23:34532 (INR-1040)
production of pseudoscalar and vector, in π + p, K + p, and K + n interactions with charge exchange and no strangeness exchange, quark model predictions for cross sections of, (T), 24:10773
production of pseudoscalar, in backward π + N, anti K + N, and K + N interactions, predictions of quark model with additive baryon exchange for, (T), 25:47883
production of pseudoscalar, in e + N interactions at high energies, differential cross sections and vector dominance model for, (T), 25:22727 (ITF-70-72)
production of pseudoscalar, in γ + N interactions at 2.6 to 16 GeV, natural-spin—parity exchanges and cross section approximations for, (T), 24:26396
production of pseudoscalar, in γ + N interactions, Stichel theorem for, (T), 25:17439
production of pseudoscalar, in γ + N interactions, review of vector-meson dominance model for, 24:8582 (DESY-69/41)
production of pseudoscalar, in γ + N interactions, tests of vector dominance model in, (E), 25:52998
production of pseudoscalar, in γ + N interactions, SU(3) quark model for, (T), 25:3321
production of pseudoscalar, in γ + N interactions, angular correlations for, (T), 22:24579
production of pseudoscalar, in meson interactions with baryons, quark model for, 23:36928 (INR-P-1047)
production of pseudoscalar, in π + N interactions near threshold, 22:13762
production of Q and L, (E), 23:51827 (AD-689425)
production of scalar, as mediator of weak interactions, 23:46675
production of scalar, in γ + N interactions, classical charge-symmetric field theory for cross sections for, (T), 25:59338
production of single neutral vector, in $e^+ + e^-$ interactions in colliding beams, differential and total cross sections for, (T), 25:33599
production of single nonstrange pseudoscalar and vector, in γ + N interactions, review of, 24:18070
production of single pseudoscalar, in γ + p interactions, (E/T), 23:49085
production of single scalar, in N + N interactions, eikonal approximation for inelastic amplitude in quantum field theory model for, 24:26446 (JINR-E2-4955)
production of small-angle π, in thick beryllium target by electron beams at 16 GeV, 21:17229
production of spin-2, in electron and neutrino interactions with hadrons, (T), 24:42917
production of stopped, use of MIT and Saclay electron linacs for, 23:8882 (TID-24667, pp 597-600)
production of two, in anti p + p s- and p-wave interactions at rest, gauge-invariant chiral SU(3) x SU(3) symmetric Lagrangian model for, (T), 25:56538 (ORO-3992-2)
production of vector, comparison of predictions from Regge-pole couplings with density matrices for, 22:5589
production of vector, from $e^+ + e^-$ interactions, (E/T), 23:49072 (CERN-69-22)
production of vector, from γ + d interactions at high energies, (T), 21:9733
production of vector, from γ + N interactions, quark model for, 22:20184
production of vector, from γ + N interactions, review of, 22:15713 (DESY-67/43)
production of vector, from $\gamma + p \rightarrow p$ + vector meson interactions, nearest-singularity model for, 21:42296
production of vector, from spinor meson interactions with pseudoscalar mesons, mass analyticity requirements and constraint equations for helicity amplitudes from generalized invariant amplitudes for, (T), 24:10736
production of vector, in baryon—pseudoscalar meson interactions, quark—quark—antiquark model for, 22:46439
production of vector, in cross sections for hadron production in $e^+ + e^-$ interactions at 1.4 to 2.4 GeV in colliding beams, (T), 25:40917 (LNF-71/8)
production of vector, in electromagnetic and strong interactions, 25:5322 (DNPL/R-7)
production of vector, in γ + N interactions and γ reactions with nuclei, review of vector dominance model for, (T), 25:53076
production of vector, in γ + N interactions, (T), 21:4016
production of vector, in γ + N interactions, annihilation amplitude for, (T), 25:50103
production of vector, in γ + N interactions, conspiracy relations in Regge-pole theory for, 22:34922
production of vector, in γ + N interactions, threshold theorem for, 23:44627
production of vector, in γ + N interactions, vertex-strength algebra for, 23:5577
production of vector, in γ + p interactions at 4.3 GeV in bubble chamber, cross sections for, (E), 23:21037
production of vector, in γ + p interactions, (T), 21:21160
production of vector, in γ + p interactions, (T), 24:18109 (CONF-690330-, pp 48-60)
production of vector, in γ + p interactions, Pomeranchuk decoupling from ordinary Regge trajectories in, (T), 25:5348 (COO-264-562)
production of vector, in γ + p interactions, Regge pole model for, 24:12972
production of vector, in γ interactions, review of, (E), 24:51879 (DESY-70/32)
production of vector, in K + p and π + p interactions at high energies, 21:2507
production of vector, in K + p and π + p interactions at high energies, factorizability quark model for, (T), 24:30523 (ITF-70-23)
production of vector, in meson interactions with nucleons, SU(3) quark model for, (T), 25:3400
production of vector, in $\mu^+ + \mu^-$ pair production in photon reactions with carbon, (E), 24:51898
production of vector, in nonstrange boson decay, current conservation and vector dominance for predictions for, (T), 25:22809
production of vector, in π + N interactions above 5 GeV in proposed 25-foot bubble chamber, 24:50596 (TID-25473(Vol.2), pp 109-11)
production of vector, in photon reactions with beryllium at 16 GeV, upper limits for cross sections of, (E), 25:14511
production of vector, in photon reactions with complex, 24:24279
production of vector, in photon reactions with heavy nuclei at high energies, Glauber theory of multiple scattering for cross sections for, (T), 25:19955
production of vector, in photon reactions with nuclei, (T), 24:42930
production of vector, in photon reactions with nuclei, isolation of Regge trajectories in, (T), 24:24308
production of vector, in photon reactions with nuclei, 23:27767 (SLAC-PUB-589)

production of vector, in photon reactions with nuclei, review of, (E), 24:51879 (DESY-70/32)
production of vector, in polarized γ + p interactions, 24:18117
production of vector, in pseudoscalar meson interactions with nucleons, conspiracy relations for, (T), 22:22400
production of vector, in π + N interactions at high energies, 21:40234
production of vector, in π + N interactions, relation between π^+ and π^- production in γ + N interactions and, 23:32651
production of vector, in π + N interactions, vector dominance model for relation of γ + N → $\pi^+(\pi^-)$ + N interactions at high energies with, 24:10721
production of vector, Lorentz pole and kinematic constraints in forward, 22:26640
production of vector, Regge pole model for, (T), 23:13102
production of vector, simultaneously with Σ^-(1385) in Λ and Σ^0 four-body final states in K^- + n interactions at 4.48 GeV/c in deuterium bubble chamber, spin-density matrix elements for, (E), 25:59280
production of vector, unequal-mass kinematics for Regge-pole model of, 22:5566
production of, accelerators for, 21:29762
production of, control system for internal Argonne ZGS target facility for, 23:28088
production of, design modifications of Dubna 700-MeV proton synchrocyclotron for, 22:32281 (CEAL-2000, pp 303-14)
production of, design of proton linac—lithium target facility for, 22:1517 (AECL-2750)
production of, development of 500 MeV isochronous cyclotron meson factory at Eth Zurich for, 21:29761
production of, development of accelerators for, 21:5445
production of, development of accelerators for, 22:1529 (LA-DC-9016)
production of, internal target facility for Argonne ZGS for, 23:28087
production of, mass formula in composite model for multiple, 23:39696
production of, peripheral mechanism for multiple, 22:44520
production of, relation between Fermi model and Low theory for multiple, 21:7503
production of, review of research on, 22:32152
production processes for, peripherality of multiple, 23:13135 (LPTHE-TH-68/13)
production with baryon resonances in γ + N interactions, SU(3) symmetry and Regge pole model for, 22:48347
propagator of, single-particle singularity of, 22:50316
properties of photoproduced, in synchrotrons, use of Wilson cloud chamber for investigating, 23:11862
properties of scalar, dynamical model for, 22:26624
properties of strange, review of, (E), 25:25312 (UR-875-332)
properties of, dynamical model for, 21:2456
properties of, predictions of nonsymmetric nonrelativistic quark model for, 23:15107
properties of, review of, 24:45403
properties of, review of experiments proposed and completed for, (E), 24:5249
properties of, review on, 23:15009
properties of, tables of experimental, 21:11732
properties of, tabulation of, 24:20054
properties of, unified fundamental field theory for systematization of, 24:8573 (ITF-69-53)
quadrupole moment of vector, from bremsstrahlung in decay of, (T), 23:32648(T) (NP-tr-1784)
quantum electrodynamics for spin-1 arbitrary-gyromagnetic-ratio charged vector, polarization formalism for relativistic divergenceless, 24:6752
quantum electrodynamics for vector, formulation of, 25:33724
quantum electrodynamics for vector, formulation of nonrenormalizable, 24:49568 (IS-T-392)
quantum field theory for spin-two, LSZ formulation of, 25:59570
range and stopping power for, in various materials, (E), 21:11393 (NASA-SP-3036)
reactions in three-body systems, formulation using stationary state method for, 25:24878 (JINR-P4-5608)
reactions with nuclei at high energies, specific character of cascade calculations for double charge exchange in, 22:7488 (JINR-P2-3562)
reactions with nuclei, local change of intranuclear cascade production in, (T), 25:53227(T) (ORNL-tr-2502)
reactions with nuclei, research program on, 21:25533
reactions with nuclei, scattering lengths from energy levels of mesic atoms, 23:41946
reactions with nuclei, theory based on Lagrangian formalism for π + N interactions for, 24:10789
Regge exchanges in π + N interactions at high energies, 24:13111
Regge families of, Regge daughter hypothesis in quark model for, 24:1603
Regge residue functions for, Veneziano-type formula from chiral symmetry and, 24:37969
Regge trajectories and residues in relativistic quark model of, 23:5611
Regge trajectories at t less than or equal to 0 for, coalescence of, 21:33694
Regge trajectories for, 25:47853
Regge trajectories for isospin-one, 22:26645
Regge trajectories for tensor, in elastic scattering, universality breaking for, 23:51867(R) (NYO-1984-13)
Regge trajectories for, asymptotic behavior of, (T), 25:40979
Regge trajectories for, dipole structure of, 21:21220
Regge trajectories for, dynamical group of relativistic oscillator model with maximum rest symmetry for family of parallel linear, 24:13056
Regge trajectories for, equation for rising, 22:20234
Regge trajectories for, exchange degeneracy from current algebra for, 24:8624
Regge trajectories for, infinite-component wave equation associated with relativistic dynamical group for linear, 24:1575
Regge trajectories for, properties of imaginary part of, 25:28036
Regge trajectories in anti N + N interactions, t - u crossing symmetry in Veneziano model for, 25:1561
Regge trajectories in multichannel quark model, 25:33696
Regge trajectories in nonrelativistic quark model, consequences of duality for, 24:20151
Regge trajectories of nonstrange, contribution to total cross section, 22:44424
Regge trajectories of tensor, relation between chiral symmetry breaking and, 25:14769
Regge trajectories of, asymptotic behavior of infinitely rising, 23:8804
Regge trajectories of, exchange-degenerate and parallel, 24:13074
Regge trajectory families of octets of pseudoscalar and axial-vector, classification of conspirator, 22:29680
Regge trajectory in multiperipheral model, self-consistent, 23:32716
research on, review of, 21:887
research on, review of, 22:3377 (CERN-67-23)
research on, use of meson factories for experimental, 22:1529 (LA-DC-9016)
role of vector, in electromagnetic interactions, (T), 25:30796
scale invariance for mass and dynamics of scalar and pseudoscalar, broken, 25:7700
scale invariance for scalar, 25:3372
scattering by nuclei at high energies, study of composite hadron potential strong interactions from, (T), 24:1615 (INP-679)
scattering by nuclei, relation of scattering length to level shifts and widths of mesic atoms, 24:23764
scattering of charged vector, at high energies in static field, (T), 25:53049 (DESY-71/32)
scattering of vector, from unpolarized target, vector—vector—tensor meson vertex for tensor meson exchange contribution to, (T), 25:33686 (DESY-71/14)
sources of multispin, static strong-coupling group for, 22:15784
spectra and superconvergence sum rules for 2^{++}, 21:44363
spectra for spin-1^{+-}, Weinberg sum rule for, 21:31582
spectra measurements of, development of large wire spark chamber for, 24:36616 (SLAC-PUB-754)
spectra of low-lying states of, 25:53130 (UCRL-20655, pp 129-68)
spectra of, conference on, 25:17382
spectra of, duality and factorization constraints on, 25:9896
spectra of, infinite multiplets for, 24:52078
spectra of, Veneziano model for, (T), 24:45508 (IC-70/85)
spectroscopy of, 22:41762
spin quantization of vector, dynamic reference system for, 22:5568
spin relation with mass of, classical spin variables as counterpart of Dirac—Feynman—Gell-Mann equation for, (T), 25:45748
stopping in streamer chambers, controlled by proportional detectors, 22:6648
stress tensor for 2^+, partial conservation relation for, 21:18984
structure as bound state of NantiN system, dynamic scheme of infinitely rising Regge trajectories for, 22:17934
structure in particle unified field theory, electrodynamics effects on multiplet, (T), 25:1514
structure of, deformable sphere model for level, 25:17475
structure of, dual-symmetric theory for quark, 24:49485
structure of, quark model for, (T), 24:42949
structure of, SU(3) symmetry from relation of bach—tamaid and quark, 24:51998
structure of, survey of quark model for, 25:33687 (INP-713(Vol.2), pp 1-5)
sum rules for 10 + 10* and 27, from forward pseudoscalar-meson octet interactions with baryon octet, finite-energy, 23:25630
sum rules for, (8,8) model of SU(3) x SU(3) symmetry breaking for spectral function, 25:1587
sum rules from current commutators for vector, 22:3389
sum rules in broken SU(3) symmetry for, spectral function, 23:42704
symmetries and spinor currents of, 22:37184
symmetry algebra SU(n) in bootstrap models for, 25:19999
symmetry breaking and scale invariance in SU(3) sigma model for, 25:38771
symmetry breaking for pseudoscalar, chiral, 23:46763
symmetry breaking for pseudoscalar, Gell—Mann model of U(3) x U(3), 25:7703
symmetry breaking for scalar, current divergences and SU(3), 24:1574
symmetry breaking for, embedding of nonlinear transformations and Euclidean space for, 24:18165
symmetry breaking for, potential model of SU(3), 23:10845
symmetry breaking in nonlinear realizations of SU(3) x SU(3) for pseudoscalar, 25:14763
symmetry breaking model for, Lagrangian formalism of chiral, 25:41051
symmetry breaking, equal-time commutators and soft-meson extrapolations for properties of spin-0, 25:33703
symmetry for 2^+, SU(3), 24:33035
symmetry for dynamics of pseudoscalar, formulation of chiral SU(2) x SU(2) and U(3) x U(3), 23:49186
symmetry for massive vector octet, Lagrangian model of spontaneously broken, 23:46780
symmetry for nonet pseudoscalar and vector, broken SU(6)/sub W/, 24:5328
symmetry for nonet, octet, and singlet, generalized group theoretical and bootstrap analysis of spontaneous breaking in, 24:35685
symmetry for octet vector, breaking of SU(3), 22:3498
symmetry for pseudoscalar nonet, phenomenological Lagrangian with symmetry-breaking term in chiral SU(3) x SU(3), 24:10801 (COO-264-527)
symmetry for pseudoscalar, chiral dynamics in SU(3), 22:7543 (JINR-P2-3554)
symmetry for pseudoscalar, property correlations in chiral SU(3) x SU(3), 24:3724
symmetry for pseudoscalar, SU(3) x SU(3) nonlinear chiral dynamic Lagrangian in, 24:37820
symmetry for pseudoscalar, transformations with conservation and changes in strangeness in chiral SU(3) X SU(3), 24:18264
symmetry for scalar, breaking of SU(3), 23:27844
symmetry for scalar, broken chiral SU(3) x SU(3), (T), 24:45568
symmetry for spin-0 and -1, chiral Lagrangian for broken SU(3) x SU(3), 23:46772 (NP-18008)
symmetry for spin-0 and -1, chiral Lagrangian model for linear transformations under broken SU(3) x SU(3),(T), 24:52163 (AD-705551)
symmetry for spin-0, -1, and -2, unique propagator in, 21:2488
symmetry for systems of, algebraic realization of chiral SU(2) X SU(2), (T), 25:30850 (JINR-P2-5759)
symmetry for vector and tensor, restrictions on breaking and mixing of SU(3), 22:48311
symmetry for vector, classification in SU(3), 25:36553
symmetry for, Biedenharn infinitesimal generators in, 23:32795
symmetry for, breaking of chiral SU(3) x SU(3), 23:34628
symmetry for, electromagnetic current and form factors for 35-plet in broken SU(6,C), 21:11794
symmetry for, general proof of Carruthers theorem for SU(2), 21:21267
symmetry for, generalizations of Dirac representation of relativistic, 25:14767
symmetry for, infinite-multiplet model with SU(3), (T), 24:49561 (DEMO-70/14)
symmetry for, model for quark-antiquark bound states in SU(3), 21:21285
symmetry for, nonlinear transformations of fields in chiral SU(N) x SU(N), 23:15190
symmetry for, parity doublets of states at high energies for spontaneous breaking of chiral, 24:24419
symmetry for, perturbation expansion about spontaneously broken SU(3) x SU(3) limit in, (T), 25:50165
symmetry for, properties of dual tree-graph N-point amplitudes in, 24:24420
symmetry for, quark—antiquark scattering for mass splitting in, 21:27364
symmetry for, realization of SU(4) x O(3) chiral, 24:43002 (NP-18346)
symmetry group SU(2) x SU(2) for pseudoscalar, Schwinger terms in current model of chiral, 25:9833
symmetry group SU(6) for, bootstrap hypothesis in Cutkosky model for, 21:33752
symmetry group transformations in Euclidean space, embedding of nonlinear, 24:49468
symmetry groups for, internal dynamics and noncompact, 21:11800
symmetry in hard-meson current-algebraic tree-graph theory of, breaking in, (T), 24:47492
symmetry model for, U(3) x U(3) chiral, 24:37847
symmetry nonet of null-mass scalar fields of, CP violation in, 23:27835
symmetry representations for pseudoscalar, chiral SU(2) x SU(2), 24:37849
symmetry representations in SU(6)/sub W/ for odd- and even-parity, bootstrap model for, 21:44427
symmetry scheme based on nonchiral SU(3) x SU(3) for, 22:3501
symmetry SU(2) x SU(2) for pseudoscalar, breaking of scale invariance in nonlinear Lagrangian models of chiral, 25:20049
symmetry theory for 0^-, 1^-, and 2^+, nonchiral SW_3 group in, 21:7543
symmetry theory for nonstrange, 22:48349
symmetry-breaking predictions for pseudoscalar nonet and scalar, SU(3) x SU(3) chiral, 22:11707
tensor currents of vector, partial conservation of, 21:11758
tensor dominance hypothesis for, field—source identity for, 25:1608
theorems from divergence of vector and axial-vector currents, low-energy, 22:15747
theories of, variational solutions for hypervirial theorems in fixed-source, 22:24645
theory as quark—antiquark bound state, relativistic two-particle Hamiltonian for, 22:50371
theory for 0^+ and 0^-, chiral algebra and breakdown for nonet, (T), 25:14645
theory for 2^+, partial conservation in, 21:46534
theory for 2^+, stress tensor hypothesis in, 21:31585
theory for axial-vector, current—field identities in, 25:1504
theory for charged vector, parity nonconserving and time reversal noninvariant term in free Lagrangian density in, 23:42606
theory for charged vector, with anomalous magnetic moment, electrodynamics in Kemmer formalism in, (T), 25:45691 (IFVE-SVM-70-63)
theory for neutral vector, renormalizability of higher spin, 22:15763
theory for normal scalar nonet, chiral SU(3) x SU(3) charge algebra for broken SU(3) sum rules for parameters in, (T), 25:25473
theory for pseudoscalar-octet, semi-relativistic equation for quark—antiquark systems in, 22:32122
theory for scalar, 21:31628
theory for scalar nonet of, from T = 0, s-wave π + π scattering phase shift at low energies, 21:27365

theory for scalar, functional equations in lambda phi⁴, 25:43678
theory for spinless systems of, self-interaction and gauge invariance for nonlinearities in, (T), 25:41080
theory for states of, review of quark model for, 21:31629
theory for system of interacting baryons and pseudoscalar, currents in, (T), 25:43622
theory for vector, in antibaryon—baryon interactions, bootstrap, 22:15834
theory for vector, Pauli approximation in, 22:20228
theory for, accurate solution of Bethe—Salpeter equations for tightly bound fermion—antifermion systems, 22:15770
theory for, as superfluid in nucleons, 25:47840
theory for, axial vector current and PCAC hypothesis in sigma model in, 25:33692 (NYO-3829-69)
theory for, Hamiltonian implying exclusion principle in, (T), 25:9689 (LNF-70/22)
theory for, quark substructure in, 22:3397
theory of charged scalar, modified Tamm—Dancoff method in, 24:13105
theory of neutral vector, problems in Lagrangian, (T), 23:3710 (DESY-68/47)
theory of octet enhancement of vector, in pseudoscalar meson interactions, 21:21280
theory of pseudoscalar, representations of strong-coupling group of, 22:26680
theory of vector dominance, review of, 24:6716 (COO-264-524)
theory of, current commutation relations in pseudoscalar—pseudovector, 21:7506
theory of, Hilbert space techniques in, 21:2392
trajectories from asymptotic SU(3) x SU(3) symmetry in Veneziano model, slope of, 24:40368
trajectories in relativistic quark model based on Veneziano representation, 24:3627
trajectories of vector and tensor, duality and nonexistence of CP = -1, natural-parity nonstrange mesons for exchange degeneracy of, 24:3638
trajectories with increasing multiplicities and trilocal fields for, quark mode with core for, 25:22795
trajectory dominance of tensor, in SU(3) mass splitting, 24:37720
trajectory families for, SL(2,C) x SL(6,C) algebra for, 22:53009 (KFKI-17/1968)
transition probabilities for, spur of product of Dirac matrices for, 24:1648
use for tumor therapy, methods for improving, 24:34531
vertex functions in current algebra for, anomalous nearby singularities in, 23:36907
wave equation for dual free, Duffin—Kemmer, 25:56489
wave equations for vector, in Coulomb potential, (T), 21:19296 (UCRL-50001-66-1, pp 1-40)
wave function renormalization constants for vector, review of, 24:43004
wave functions for vector, in central field, projection operator theory for, 22:13748
wave functions for, relativistic quark model for, 21:29523
width as function of mass of, thermodynamic model for average value of, 22:41796 (ISS-68/11)
widths of scalar, chiral and scale breaking in SU(3) sigma model for, (T), 25:36483 (SU-1206-241)
widths of scalar, SU(3) sigma model for, 25:38771

MESONS (eta)
(Restricted to the stable particle at 548 MeV)
abundance in high-energy cosmic-ray interactions, 22:24686
coupling constant contributions to superconvergent amplitudes for backward anti N + N interactions, (T), 21:44358
coupling constant for etaN, upper limit for, (T), 24:8649
coupling constant of eta NN from N + N interactions, 23:39752
coupling constants for, from N + N forward dispersion relations, 21:21257
coupling to fermions, electrodynamic effects on meson multiplet structure in particle field theory for, (T), 25:1514
coupling with baryons, mass operator in SU(3) symmetric, (T), 25:20046
decay branching ratio eta → neutrals/eta → total from π^- + p → n + eta interactions at 804 MeV/c, (E), 25:38675
decay branching ratios of, (E), 23:27735 (NEVIS-170)
decay branching ratios, (E), 22:17856
decay branching ratios, (E), 23:14987
decay eta → 2γ and eta → $\pi^+ + \pi^- + \gamma$ in broken SU(3), 22:15773
decay eta → 2γ from Hamiltonian with U(3) x U(3) breaking, 25:45787
decay eta → 2γ from π^- + p interactions at 592 to 1300 MeV, (E), 24:24242
decay eta' → 2γ in deuterium bubble chamber, branching ratio for, (E), 25:43562
decay eta → 2γ in xenon bubble chamber, branching ratio for, (E), 25:17353 (JINR-E1-5256)
decay eta → 2γ relative to π^0 → 2γ, soft-photon emission technique with SU(3)-symmetry breaking for width of, 22:39327
decay eta → 2γ, (T), 23:49084
decay eta → 2γ, axial-vector vertex in spinor electrodynamics for, 23:18985
decay eta → 2γ, counter and spark chamber study of branching ratio for, (E), 25:14580
decay eta → 2γ, current algebra and asymptotic SU(3) symmetry for sum rules relating π^0 → 2γ and eta' → 2γ to, 24:13004
decay eta → 2γ, current algebra for, 21:37745
decay eta → 2γ, current algebra for branching ratio for, 22:3364
decay eta → 2γ, current structure and coupling constants for, 25:5337
decay eta → 2γ, dispersion sum rules for, 21:37749
decay eta → 2γ, disturbed SU(6)/sub W/ for anomalously large width in, 23:30788
decay eta → 2γ, effective Lagrangian with chiral symmetry for rate of, 24:32991
decay eta → 2γ, eta and X mixing from symmetry-breaking parameters of U(3) x U(3) symmetry for rate of, (T), 25:41050
decay eta → 2γ, existence of X⁰—eta mixing from, 23:46764
decay eta → 2γ, hard-meson analysis of PVV vertex and pole approximation for, 24:1545
decay eta → 2γ, matrix element behavior for relation with π^0 → 2γ decay, (T), 22:24590
decay eta → 2γ, modified PCAC in hard-meson analysis of, 23:1611
decay eta → 2γ, phenomenological analysis of, 21:42299
decay eta → 2γ, quark loop model for branching ratio and width of, (T), 25:14686
decay eta → 2γ, quark model for partial width of, 21:37797
decay eta → 2γ, quark model of integer charges for, (T), 24:49385
decay eta → 2γ, rate from sum rules in broken chiral symmetry, 24:37837
decay eta → 2γ, relativistic quark model for, 22:50373
decay eta → 2γ, spark chamber spectrometer study of branching ratios for, (E), 24:45404 (PURC-4159-3)
decay eta → 2γ, spark chamber study of branching ratio for, 21:29428
decay eta → 2γ, spark-chamber spectrometer study of branching ratio for, (E), 25:3258
decay eta → 2γ, SU(3) symmetry breaking for width and branching ratio for, (T), 24:40441
decay eta → 2γ, sum rule analysis for amplitudes of, (T), 25:7601
decay eta → 2γ, test of quark models for, 23:32649 (UR-875-279)
decay eta → 2γ, universal interaction for, 22:48274
decay eta → 2γ, zero-mass theorems and analytic continuation for, 23:34556
decay eta → 2π + 2γ, current algebra predictions for, 21:42315
decay eta → 2π + γ, current algebra for branching ratio for, 22:3364
decay eta → 2π + γ, hard-meson current algebra and PCAC model for width of, 25:59443
decay eta → 2π + γ, phenomenological analysis of, 21:42299
decay eta → 2π + γ, quark model for partial width of, 21:37797
decay eta → 2π + γ, quark model predictions for, 21:40166 (MIT-2098-359)
decay eta → 2π + γ, SU(3) symmetry breaking in width and branching ratio for, (T), 24:40441
decay eta → 2π, review of current algebra for, 24:1542
decay eta → 3 π^0, branching ratio for, (E), 23:23339
decay eta → 3γ, current algebra for, 21:37745
decay eta → 3π and eta → 2γ in broken chiral symmetry, (T), 24:45464
decay eta → 3π from theory of eta—π mixing, 25:45703
decay eta → 3π in perturbation theory, Ward identities for, 25:14611
decay eta → 3π in SU(2) x SU(2) chiral dynamics, 23:1665
decay eta → 3π, branching ratio and structure of amplitude for, 21:29484
decay eta → 3π, chiral dynamics study of, (T), 23:5561
decay eta → 3π, chiral Lagrangians for, (T), 24:52027
decay eta → 3π, chiral SU(3) X S(3) algebra for nonlinear Lagrangian calculation of, 25:43658
decay eta → 3π, chiral SU(3) X SU(3) algebra for nonlinear Lagrangian calculation of, 25:43659
decay eta → 3π, crossing-symmetric Regge-pole model for, 24:28546
decay eta → 3π, current algebra and C-nonconserving electromagnetic current for, 21:21155
decay eta → 3π, current algebra for, 21:2427
decay eta → 3π, current algebra for rate of, 23:49075 (SU-1206-203)
decay eta → 3π, current algebra predictions and theory of, 22:24598
decay eta → 3π, current algebra predictions for, 25:1476
decay eta → 3π, current algebra techniques for, 21:21170
decay eta → 3π, effect of broken PCAC in, 25:41047
decay eta → 3π, Faddeev-like theory for π spectra in, 25:30788
decay eta → 3π, final-state interaction and current algebra in, 24:24333
decay eta → 3π, final-state interactions in, (T), 21:40173
decay eta → 3π, final-state interactions in, (T), 23:7139
decay eta → 3π, gauge-field algebra for divergences in, 21:40169
decay eta → 3π, Hamiltonians for calculation of, 21:37770
decay eta → 3π, I = J = 0 dipion state (400 MeV) with CDD pole for, 21:17097
decay eta → 3π, interference asymmetry in, 23:23519
decay eta → 3π, invariance principles for, (T), 21:13716
decay eta → 3π, linear matrix-element and linear spectra models for, 23:15053
decay eta → 3π, linear SU(3) sigma model for correlation between baryon ΔI = 1 mass shifts, K mass shift and, 25:59380
decay eta → 3π, meso-strong interaction for C violation in, 21:35282
decay eta → 3π, meson-pole model for, 23:23444
decay eta → 3π, models for Dalitz-plot distribution and rate of, 25:27992
decay eta → 3π, nonelectromagnetic violation of isospin, C, CP, and T invariance in, (T), 25:3425
decay eta → 3π, one-current formalism in Veneziano model for, 25:53123
decay eta → 3π, PCAC and current algebra for, 21:31563
decay eta → 3π, pole model calculations for rate of, 23:18840 (ITF-68-49)
decay eta → 3π, pole model for, 21:21159
decay eta → 3π, π + π scattering lengths in Veneziano formula from amplitude of, (T), 23:39718
decay eta → 3π, π spectra in, (T), 22:5570
decay eta → 3π, π—π scattering lengths from, 23:7141
decay eta → 3π, Regge theory for final-state interactions in, (T), 23:8801
decay eta → 3π, relation of Lovelace—Veneziano model to current algebra treatment of, 24:1557
decay eta → 3π, relativistic three-body problem for, (T), 24:51985
decay eta → 3π, review of current algebra for, 23:18839 (ISS-68/33)
decay eta → 3π, review of current algebra for, 24:1542
decay eta → 3π, review of current algebra for zero-energy π emission for, 24:20120
decay eta → 3π, spectrum correction factors in, 23:5574
decay eta → 3π, SU(3) sigma model for amplitude of, (T), 25:33791 (SU-1206-245)
decay eta → 3π, symmetry breaking and current divergences in SU(3) x SU(3) representations for, 24:49400
decay eta → 3π, test of C invariance in, (E), 21:5351
decay eta → 3π, test of Veneziano model from, 24:10733
decay eta → 3π, theory for origin of weak interaction Cabibbo angle for isospin breaking in, 23:42630 (ISS-69/18)
decay eta → 3π, two-pole model for, 22:50333
decay eta → 3π, use of current algebra for, 22:17894
decay eta → 3π, use of current algebra for energy spectra and rates for, 21:29485
decay eta → 3π, vector meson dominance model for p-wave contributions to, 24:21967 (COO-264-539)
decay eta → 3π^0 in deuterium bubble chamber, branching ratio for, (E), 25:43562
decay eta → 3π^0 in heavy liquid bubble chamber, eta → 3π^0/eta → $\pi^+ + \pi^- + \pi^0$ ratio for, (E), 22:48208
decay eta → 3π^0 in heavy-liquid bubble chamber, branching ratio for, (E), 22:39239
decay eta → 3π^0 in heavy-liquid bubble chamber, branching ratio and amplitude for, (E), 25:59244
decay eta → 3π^0 in hydrogen bubble chamber, branching ratios for, (E), 22:34834
decay eta → 3π^0 in hydrogen bubble chamber, total branching ratio for, 21:40138 (ORO-3065-14)
decay eta → 3π^0 in xenon bubble chamber, branching ratio for, (E), 25:17353 (JINR-E1-5256)
decay eta → 3π^0 relative to eta → 2γ, branching ratio for, (E), 22:7425
decay eta → 3π^0 relative to eta → $\pi^+ + \pi^- + \pi^0$, final-state interaction effects in current-algebra approach to, 21:44325
decay eta → 3π^0, (T), 23:49084
decay eta → 3π^0, branching ratio for, (E), 21:17022 (NEVIS-156)
decay eta → 3π^0, branching ratio for, (T), 22:22350
decay eta → 3π^0, counter and spark chamber study of branching ratio for, (E), 25:14580
decay eta → 3π^0, PCAC and current algebra for, 21:31563
decay eta → 3π^0, pion pole model for branching ratios of, (T), 23:8780
decay eta → 3π^0, quark model predictions for, 21:40166 (MIT-2098-359)
decay eta → 3π^0, rate and branching ratio for, (T), 23:23423
decay eta → 3π^0, spark chamber magnetic spectrometer study of branching ratio for, (E), 25:38634 (PURC-4159-29)
decay eta → 3π^0, spark chamber spectrometer study of branching ratios for, (E), 24:45404 (PURC-4159-3)
decay eta → 3π^0, spark chamber spectrometer study of branching ratio for, (E), 25:47713
decay eta → 3π^0, spark chamber study of branching ratio for, 21:29428
decay eta → 3π^0, spark-chamber spectrometer study of branching ratio for, (E), 25:3258
decay eta → 3π^0, use of eta—π^0 effective coupling constant in calculation of absolute rate of, 23:46713
decay eta → $e^+ + e^- + e^+ + e^-$, differential decay rate for double Dalitz, (T), 24:37691
decay eta → $e^+ + e^-$ + γ in deuterium bubble chamber, mass spectra of, (E), 22:3317
decay eta → $e^+ + e^-$ + γ in deuterium bubble chamber, branching ratio relative to eta → γ + γ decay, (E), 23:25529
decay eta → $e^+ + e^-$ + γ, coupling constants, vertex function, and branching ratios for, (T), 22:3344
decay eta → $e^+ + e^- + \pi^0$ in deuterium bubble chamber, branching ratio for C-nonconserving, (E), 22:3317
decay eta → $e^+ + e^- + \pi^0$ in deuterium bubble chamber, upper limit of branching ratio for, (E), 23:25529
decay eta → $e^+ + e^- + \pi^0$, evaluation of searches for C nonconservation in, (T), 22:22430
decay eta → $e^+ + e^- + \pi^0$, search for C violation in, 24:8695
decay eta → $e^+ + e^-$, branching ratio relative to eta → 2γ, 21:44319
decay eta → $e^+ + e^-$, calculation of branching ratio for, (T), 23:7107 (UCRL-18487)
decay eta → $e^+ + e^-$, coupling constants, vertex function, and branching ratios for, (T), 22:3344
decay eta → $e^+ + e^-$, phenomenological analysis of, 21:42299
decay eta → γ + $e^+ + e^-$, branching ratio relative to eta → 2γ, 21:44319
decay eta → γ + $e^+ + e^+$, electromagnetic form factors for, 23:23424
decay eta → γ + γ and eta' → γ + γ, nonlinear spinor theory for widths of, (T), 24:47411

decay eta → γ + γ from production in e⁺ + e⁻ interactions, proposed experimental study of, 25:59253
decay eta → γ + γ in broken SU(3) x SU(3) symmetry, width of, 24:12998
decay eta → γ + γ in bubble chamber, branching ratios for, (E), 22:34834
decay eta → γ + γ in deuterium bubble chamber, branching ratio for, 21:35261 (CEA-R-3105)
decay eta → γ + γ in hydrogen bubble chamber, branching ratio for, 21:37657(R) (ORO-3065-13(and App.A))
decay eta → γ + γ in hydrogen bubble chamber, total branching ratio for, 21:40138 (ORO-3065-14)
decay eta → γ + γ relative to eta → π⁺ + π⁻ + γ, SU(3)-symmetric interaction model for width of, 23:21097
decay eta → γ + γ, branching ratio for, (E), 21:17022 (NEVIS-156)
decay eta → γ + γ, branching ratio for, (E), 23:23339
decay eta → γ + γ, current algebra for branching ratio for, 21:40170
decay eta → γ + γ, PCAC and PCTC hypotheses for branching ratio for, 21:40171
decay eta → γ + γ, PCTC and local U(12) for soft photon emission from, 21:17072 (ISS-66/49)
decay eta → γ + γ, quark model with X⁰—eta mixing for, 22:32091
decay eta → γ + γ, rate and branching ratio for, 23:23423
decay eta → γ + γ, spark chamber spectrometer study of branching ratio for, (E), 25:47713
decay eta → γ + γ, use of Primakoff effect for determining width of, (E), 21:44253
decay eta → γ + γ, vector-meson dominant model for, 21:46511
decay eta → γ + γ, width and sign of amplitude of, (T), 24:35623 (ITF-70-19)
decay eta → γ + μ⁺ + μ⁻, branching ratio relative to eta → 2γ, 21:44319
decay eta → γ + μ⁻ + μ⁺, electromagnetic form factors for, 23:23424
decay eta → γγ in heavy-liquid bubble chamber, branching ratio for, (E), 25:59244
decay eta → γγπ⁰, soft-photon emission method for amplitude and rate of, (T), 21:21158
decay eta → K + anti K, calculation of width for, 22:22368 (JINR-E2-3730)
decay eta → K⁺ + e⁻ + anti τ, SU(3) symmetry theory for, 22:5620
decay eta → K⁺ + e⁻ + anti τ, SU(3) theory for, 22:5622
decay eta → μ⁺ + μ⁻ + γ, coupling constants, vertex function, and branching ratios for, (T), 22:3344
decay eta → μ⁺ + μ⁻ in π⁻ + p → μ⁺ + μ⁻ + n interactions at 11.1 GeV/c, cross sections for, (E), 24:28489 (NP-18805)
decay eta → μ⁺ + μ⁻, branching ratio relative to eta → 2γ, 21:44319
decay eta → μ⁺ + μ⁻, calculation of branching ratio for, (T), 23:7107 (UCRL-18487)
decay eta → μ⁺ + μ⁻, coupling constants, vertex function, and branching ratios for, (T), 22:3344
decay eta → μ⁺ + μ⁻, lower limit for branching ratio for, 21:29487
decay eta → μ⁺ + μ⁻, relative probability for, (T), 24:35628
decay eta → μ⁺ + μ⁻, upper limit for, (E), 22:22322
decay eta → π + l + τ, second-class vector current contributions to, 23:36892
decay eta → π + l + τ, sum rules for second-class form factors in, 25:47802
decay eta → π + π + γ in Veneziano model, etarhorho coupling constants from, 23:21097
decay eta → π + π + γ, avoidance of kinematic zeros in current-algebra calculations of, 22:15748
decay eta → π + π + γ, ΔI = 2 C-violating, 22:32191
decay eta → π + π + γ, off-mass-shell extrapolation of Veneziano amplitude for, 24:26392 (COO-427-98)
decay eta → π + π + γ, ππ phase shift from, 24:28518
decay eta → π + π + γ, use of boson—fermion commutation relations for eta rho γ coupling in, 21:18948
decay eta → π + π + π, final-state interactions in, (T), 22:46367
decay eta → π + π + π, harmonic analysis on Dalitz plot for, 23:18842
decay eta → π + π + π, model for off-shell amplitudes of, 22:3330
decay eta → π + π, calculation of width for, 22:22368 (JINR-E2-3730)
decay eta → π + sigma, sigma → 2π in perturbation theory, Ward identities for, 25:14611
decay eta → π⁰ + 2γ + 3π⁰, branching ratio for, (E), 24:40232
decay eta → π⁰ + 2γ in xenon bubble chamber, branching ratio for, (E), 25:17353 (JINR-E1-5256)
decay eta → π⁰ + 2γ, (T), 23:49084
decay eta → π⁰ + 2γ, branching ratio for, (E), 24:40232
decay eta → π⁰ + 2γ, counter and spark chamber study of branching ratio for, (E), 25:14580
decay eta → π⁰ + 2γ, duality—finite-energy-sum-rule method for width of, (T), 25:19937 (DEMO-71/2)
decay eta → π⁰ + 2γ, hard-meson analysis of PVV vertex and pole approximation for, 24:1545
decay eta → π⁰ + 2γ, quark model for partial width of, 21:37797
decay eta → π⁰ + 2γ, quark model predictions for, 21:40166 (MIT-2098-359)
decay eta → π⁰ + 2γ, spark chamber magnetic spectrometer study of branching ratio for, (E), 25:38634 (PURC-4159-29)
decay eta → π⁰ + 2γ, spark chamber spectrometer study of branching ratios for, (E), 24:45404 (PURC-4159-3)
decay eta → π⁰ + 2γ, spark chamber spectrometer study of branching ratio for, (E), 25:47713
decay eta → π⁰ + 2γ, spark chamber study of branching ratio for, 21:29428
decay eta → π⁰ + 2γ, spark-chamber spectrometer study of branching ratio for, (E), 25:3258
decay eta → π⁰ + e⁺ + e⁻ in freon—propane and freon bubble chamber, upper limit for branching ratio for, 21:31518
decay eta → π⁰ + e⁺ + e⁻ in vector-meson-dominant model, C-conserving, 22:3340
decay eta → π⁰ + e⁺ + e⁻, branching ratio for, (T), 21:46518
decay eta → π⁰ + e⁺ + e⁻, branching ratio for, (T), 21:27410
decay eta → π⁰ + e⁺ + e⁻, C violation in, (T), 21:29475
decay eta → π⁰ + e⁺ + e⁻, C-conserving two-photon-exchange diagrams for, 22:20196
decay eta → π⁰ + e⁺ + e⁻, C-invariance violation in, 25:33792
decay eta → π⁰ + e⁺ + e⁻, charge conjugation violation in, (T), 24:10803 (KFKI-22-1969)
decay eta → π⁰ + e⁺ + e⁻, ΔI = 0 and ΔI = 2 selection rules for millistrong C violation in, 24:20198
decay eta → π⁰ + e⁺ + e⁻, ΔI = 2 C-violating, 22:32191
decay eta → π⁰ + e⁺ + e⁻, millistrong C violation in, 23:21137 (KFKI-2/1969)
decay eta → π⁰ + e⁺ + e⁻, phenomenological analysis of, 21:42299
decay eta → π⁰ + e⁺ + e⁻, test of C-invariance in, 22:11702
decay eta → π⁰ + e⁺ + e⁻, upper limits for, 24:18246
decay eta → π⁰ + γ + e⁺ + e⁻, branching ratio for, (T), 21:46518
decay eta → π⁰ + γ + γ from π⁻ + p → n + 4γ interactions at 4 GeV/c in spark chamber, upper limit on, (E), 23:23376
decay eta → π⁰ + γ + γ in hydrogen bubble chamber, total branching ratio for, 21:40138 (ORO-3065-14)
decay eta → π⁰ + γ + γ, branching ratio for, (E), 21:17022 (NEVIS-156)
decay eta → π⁰ + γ + γ, branching ratio for, (E), 23:23339
decay eta → π⁰ + γ + γ, branching ratio for, (T), 21:46518
decay eta → π⁰ + γ + γ, current algebra for branching ratio for, 21:40170
decay eta → π⁰ + γ + γ, missing-mass spectrometer and spark-chamber analysis of, (E), 24:47361
decay eta → π⁰ + γ + γ, PCAC and PCTC hypotheses for branching ratio for, 21:40171
decay eta → π⁰ + γ + γ, photon energy spectra and rates for, (T), 21:18954
decay eta → π⁰ + γ + γ, rate and branching ratio for, (T), 23:23423
decay eta → π⁰ + μ⁺ + μ⁻, C-conserving two-photon-exchange diagrams for, 22:20196
decay eta → π⁰ + μ⁺ + μ⁻, upper limit for, (E), 22:22322
decay eta → π⁰ + π⁰ + π⁰ amplitude from chiral SU(2) x SU(2) symmetry breaking, 24:1633
decay eta → π⁰ + π⁰ + π⁰ in deuterium bubble chamber, branching ratios for, 21:35261 (CEA-R-3105)
decay eta → π⁰ + π⁰ + π⁰ in hydrogen bubble chamber, branching ratios for, 21:37657(R) (ORO-3065-13(and App.A))
decay eta → π⁰ + π⁻ + π⁺ + γ, soft-pion and soft-photon techniques for, 23:8771
decay eta → π⁰ + π⁺ + π⁻, charge conjugation violation in, (T), 24:10803 (KFKI-22-1969)
decay eta → π⁰ + π⁺ + π⁻, ΔI = 2 C-violating, 22:32191
decay eta → π⁰e⁺e⁻ with C conservation, branching ratio for, 21:21171
decay eta → π⁰ + e⁻ + anti τ relative to π⁻ → π⁰ + e⁻ + anti τ, weak hadronic currents in extended Cabibbo model for rate of, 23:23437
decay eta → π⁰ + π⁰ + π⁻ amplitude from chiral SU(2) x SU(2) symmetry breaking, 24:1633
decay eta → π⁰ + π⁰ + π⁻, C violation in, 24:49559
decay eta → π⁰ + π⁰ + π⁻, C-violation and charge asymmetry in, 24:18246
decay eta → π⁰ + π⁰ + π⁻, ΔI = 0 and ΔI = 2 selection rules for millistrong C violation in, 24:20198
decay eta → π⁰ + π⁰ + π⁻, millistrong C violation in, 23:21137 (KFKI-2/1969)
decay eta → π⁰ + π⁻ + γ + γ in hydrogen bubble chamber, upper limit for branching ratio for, 21:29418
decay eta → π⁰ + π⁻ + γ in chiral Lagrangian model, 25:9780
decay eta → π⁰ + π⁻ + γ in deuterium bubble chamber, branching ratios for, 21:35261 (CEA-R-3105)
decay eta → π⁰ + π⁻ + γ in hydrogen bubble chamber, branching ratio for, 22:34834
decay eta → π⁰ + π⁻ + γ in hydrogen bubble chamber, branching ratios for, 21:37657(R) (ORO-3065-13(and App.A))
decay eta → π⁰ + π⁻ + γ in hydrogen bubble chamber, total branching ratio for, 21:40138 (ORO-3065-14)
decay eta → π⁰ + π⁻ + γ relative to eta → π⁰ + π⁻ + π⁰, branching ratio for, (E), 24:45408
decay eta → π⁰ + π⁻ + γ, (E), 21:42246
decay eta → π⁰ + π⁻ + γ, (T), 23:49084
decay eta → π⁰ + π⁻ + γ, asymmetry measurement for test of C invariance in, (E), 22:41725
decay eta → π⁰ + π⁻ + γ, branching ratio relative to eta → π⁰ + π⁻ + π⁰, (E), 21:25225
decay eta → π⁰ + π⁻ + γ, C invariance in, (T), 21:44316
decay eta → π⁰ + π⁻ + γ, C violation in, 24:8695
decay eta → π⁰ + π⁻ + γ, charge conjugation in, (E), 21:17026
decay eta → π⁰ + π⁻ + γ, comparison of chiral Lagrangian model and Veneziano model of amplitudes for, 25:43631
decay eta → π⁰ + π⁻ + γ, counter and spark chamber study of branching ratio for, (E), 25:14580
decay eta → π⁰ + π⁻ + γ, current algebra for branching ratio for, 21:40170
decay eta → π⁰ + π⁻ + γ, Dalitz-plot distribution of, (E), 24:45408
decay eta → π⁰ + π⁻ + γ, evaluation of searches for C nonconservation in, 22:22430
decay eta → π⁰ + π⁻ + γ, neutron counter and magnetic spark chamber spectrometer study of charge asymmetry and branching ratio for, (E), 24:30428 (NEVIS-181)
decay eta → π⁰ + π⁻ + γ, rate and branching ratio for, (T), 23:23423
decay eta → π⁰ + π⁻ + γ, spark chamber study and Dalitz plot analysis of, (E), 22:17846
decay eta → π⁰ + π⁻ + γ, vector-meson dominant model for, 21:46511
decay eta → π⁰ + π⁻ + γ, Yang—Mills coupling of vector meson fields consistency with Veneziano model for, (T), 25:19985 (DEMO-71/1)
decay eta → π⁰ + π⁻ + π⁰ + γ in hydrogen bubble chamber, upper limit for branching ratio for, 21:29418
decay eta → π⁰ + π⁻ + π⁰ + γ relative to eta → π⁰ + γ + γ, use of current algebra for rate of, 22:5541
decay eta → π⁰ + π⁻ + π⁰ + γ, branching ratio for, (E), 21:29425
decay eta → π⁰ + π⁻ + π⁰ + γ, current algebra for branching ratio for, 21:40170
decay eta → π⁰ + π⁻ + π⁰ + γ, photon energy spectra and rates for, (T), 21:18954
decay eta → π⁰ + π⁻ + π⁰ + γ, relation between vector-dominance and current algebra calculations for rate, 23:3667
decay eta → π⁰ + π⁻ + π⁰ + γ, use of current algebra and PCAC hypothesis for, 22:15728
decay eta → π⁰ + π⁻ + π⁰ (γ), spark chamber study of charge conjugation conservation in, (E), 23:30692 (CEA-R-3601)
decay eta → π⁰ + π⁻ + π⁰ evidence of C violation from asymmetry and background in, (E/T), 25:3254
decay eta → π⁰ + π⁻ + π⁰ from K⁻ + p → Λ + eta interactions, Dalitz plot density for, (E), 24:32958
decay eta → π⁰ + π⁻ + π⁰ from π⁻ + p → n + eta interactions, C nonconservation and charge asymmetry in, 22:50392
decay eta → π⁰ + π⁻ + π⁰ in bubble chamber, branching ratios for, (E), 22:34834
decay eta → π⁰ + π⁻ + π⁰ in current algebra, weak PCAC for, 24:35633
decay eta → π⁰ + π⁻ + π⁰ in deuterium bubble chamber, (E), 23:51860 (UCRL-19275)
decay eta → π⁰ + π⁻ + π⁰ in deuterium bubble chamber, branching ratios for, 21:35261 (CEA-R-3105)
decay eta → π⁰ + π⁻ + π⁰ in heavy liquid bubble chamber, eta → 3π⁰/eta → π⁰ + π⁻ + π⁰ ratio for, (E), 22:48208
decay eta → π⁰ + π⁻ + π⁰ in heavy-liquid bubble chamber, branching ratio for, (E), 22:39239
decay eta → π⁰ + π⁻ + π⁰ in heavy-liquid bubble chamber, analysis of, (E), 25:59244
decay eta → π⁰ + π⁻ + π⁰ in hydrogen bubble chamber, (E), 22:37082
decay eta → π⁰ + π⁻ + π⁰ in hydrogen bubble chamber, (E), 22:26565 (UCRL-18141)
decay eta → π⁰ + π⁻ + π⁰ in hydrogen bubble chamber, branching ratios for, 21:37657(R) (ORO-3065-13(and App.A))
decay eta → π⁰ + π⁻ + π⁰ in hydrogen bubble chamber, total branching ratio for, 21:40138 (ORO-3065-14)
decay eta → π⁰ + π⁻ + π⁰ in spark chamber, Dalitz plot analysis of, (E), 22:34831
decay eta → π⁰ + π⁻ + π⁰, (T), 23:49084
decay eta → π⁰ + π⁻ + π⁰, asymmetry measurement for test of C invariance in, (E), 22:41724
decay eta → π⁰ + π⁻ + π⁰, branching ratio for, (T), 22:22350
decay eta → π⁰ + π⁻ + π⁰, C violation in, 24:8695
decay eta → π⁰ + π⁻ + π⁰, C violation in, (T), 21:29475
decay eta → π⁰ + π⁻ + π⁰, C-invariance violation in, 25:33792
decay eta → π⁰ + π⁻ + π⁰, C-violating eta rho π interaction in, 21:42316
decay eta → π⁰ + π⁻ + π⁰, charge conjugation noninvariance from optical spark chamber study of charge asymmetry in, (E), 24:10675 (NEVIS-177)
decay eta → π⁰ + π⁻ + π⁰, charge conjugation violation from asymmetry in, (T), 25:19948
decay eta → π⁰ + π⁻ + π⁰, counter and spark chamber study of branching ratio for, (E), 25:14580
decay eta → π⁰ + π⁻ + π⁰, current algebra and PCAC for energy spectra for, 21:21161
decay eta → π⁰ + π⁻ + π⁰, Dalitz-plot distribution of, (E), 24:45408
decay eta → π⁰ + π⁻ + π⁰, evaluation of searches for C nonconservation in, 22:22430
decay eta → π⁰ + π⁻ + π⁰, Faddeev equations for 3π final-state interactions in, (T), 21:907 (UCR-34-P-107-35)
decay eta → π⁰ + π⁻ + π⁰, Faddeev equations for final-state interaction in, 21:15299
decay eta → π⁰ + π⁻ + π⁰, model for π + π scattering in I = J = 0 channel for, 22:41806 (SINP-TH-67-18)
decay eta → π⁰ + π⁻ + π⁰, neutron counter and magnetic spark chamber spectrometer study of Dalitz plot analysis and branching ratio for, (E), 24:30428 (NEVIS-181)
decay eta → π⁰ + π⁻ + π⁰, PCAC and current algebra for slope of, 21:31563

decay eta → $\pi^+ + \pi^- + \pi^0$, π^0 spectrum from, (T), 21:15303
decay eta → $\pi^+ + \pi^- + \pi^0$, quark model predictions for, 21:40166 (MIT-2098-359)
decay eta → $\pi^+ + \pi^- + \pi^0$, rate and branching ratio for, (T), 23:23423
decay eta → $\pi^+ + \pi^- + \pi^0$, reduced spectra and sector distribution for, 23:32650
decay eta → $\pi^+ + \pi^- + \pi^0$, s-wave $\pi\pi$ phase shift from, (E), 23:3634
decay eta → $\pi^+ + \pi^- + \pi^0$, Susskind formula for amplitude of, (T), 24:42897 (COO-264-553)
decay eta → $\pi^+ + \pi^- + \pi^0$, test of C-invariance in, 22:11702
decay eta → $\pi^+ + \pi^- + \pi^0$, use of dispersion relations for absolute rate of, (T), 22:39352
decay eta → $\pi^+ + \pi^- + \pi^0$, Veneziano model results from isobaric model for, 24:3642
decay eta → $\pi^+ + \pi^- + \pi^0$, Yuta—Okubo eta asymmetry mechanism in, (E), 23:10738
decay eta → $\pi^+ + \pi^-$ at γ rho → eta + γ decay width from current-algebra and dispersion-relations calculations of, 24:8588
decay eta^0 → 2γ in hydrogen bubble chamber, branching ratios for, (E), 24:20060
decay eta^0 → 2γ rate from superconvergence of Compton γ + N interactions, 22:34907
decay eta^0 → 2γ, branching ratio for, (E), 24:37604
decay eta^0 → 2γ, current algebra and PCAC calculation of, 22:34940
decay eta^0 → 2γ, integrally charged quark model for, (T), 22:52963
decay eta^0 → 2γ, method for measuring effective mass in, 21:7446 (JINR-E13-2971)
decay eta^0 → 2γ, minimal Hamiltonian in discrete and SU(3) symmetries for sum rules for, 22:20301
decay eta^0 → 2γ, optical spark chamber pair spectrometer study of branching ratio for, (E), 25:1367 (PURC-4159-6)
decay eta^0 → 2γ, relativistic formulation of quark model for, 23:39714
decay eta^0 → 2γ, spark chamber study of branching ratio for, (E), 25:43530
decay eta^0 → 3π, CP conserving P-wave amplitudes in, 24:10691(R) (COO-264-532)
decay eta^0 → 3π, model for amplitude of, (T), 24:45523
decay eta^0 → $3\pi^0$ in hydrogen bubble chamber, branching ratios for, (E), 24:20060
decay eta^0 → $3\pi^0$ relative to eta^0 → 2γ, branching ratio for, (E), 23:27735 (NEVIS-170)
decay eta^0 → $3\pi^0$ relative to eta^0 → $\pi^+ + \pi^- + \pi^0$, branching ratio for, 22:7422
decay eta^0 → $3\pi^0$, branching ratio for, (E), 24:37604
decay eta^0 → $3\pi^0$, branching ratios for, (E), 22:7423
decay eta^0 → $3\pi^0$, optical spark chamber pair spectrometer study of branching ratio for, (E), 25:1367 (PURC-4159-6)
decay eta^0 → $3\pi^0$, spark chamber study of branching ratio for, (E), 25:43530
decay eta^0 → $3\pi^0$, spark chamber study of branching ratio for, (E), 24:49326 (UCRL-20039)
decay eta^0 → 3π/eta^0 → $\pi^+ + \pi^- + \pi^0$ in heavy liquid bubble chamber, branching ratio for, (E), 23:36818
decay eta^0 → $e^- + e^+$, rate of, (T), 22:52962
decay eta^0 → γ + ($e^+ + e^-$), relative probability of atomic system emission in, (T), 25:50091 (JINR-P2-5941)
decay eta^0 → γ + ($\mu^+ + \mu^-$), relative probability of atomic system emission in, (T), 25:50091 (JINR-P2-5941)
decay eta^0 → $\gamma + \gamma$, branching ratio for, (E), 25:25287
decay eta^0 → $\gamma + \gamma$, branching ratios for, 22:7423
decay eta^0 → $\gamma + \gamma$, method for measuring effective mass in, 21:24216
decay eta^0 → $\gamma + \gamma$, spark chamber study of branching ratio for, (E), 24:49326 (UCRL-20039)
decay eta^0 → $\gamma + \gamma$/eta^0 → $\pi^0 + \pi^- + \pi^0$ in heavy liquid bubble chamber, branching ratio for, (E), 23:36818
decay eta^0 → $\mu^- + \mu^+$ from π^- + p → eta^0 + n interactions at 11.2 GeV/c, (E), 23:27753
decay eta^0 → $\mu^- + \mu^+$, rate of, (T), 22:52962
decay eta^0 → $\pi + \pi + \pi$, branching ratio for, (E), 25:25287
decay eta^0 → $\pi^0 + 2\gamma$, models for, 21:42312
decay eta^0 → $\pi^0 + 2\gamma$, optical spark chamber pair spectrometer study of branching ratio for, (E), 25:1367 (PURC-4159-6)
decay eta^0 → $\pi^0 + 2\gamma$, scintillation counter and spark chamber study of branching ratio for, (E), 23:51832 (NEVIS-174)
decay eta^0 → $\pi^0 + 2\gamma$, spark chamber study of branching ratio for, (E), 24:49326 (UCRL-20039)
decay eta^0 → $\pi^0 + 2\gamma$, spark chamber study of branching ratio for, (E), 25:43530
decay eta^0 → $\pi^0 + e^- + e^+$ and eta^0 → $\pi^0 + 2\gamma$, C invariance in, 21:44318
decay eta^0 → $\pi^0 + e^+ + e^-$ from π^- + n interactions at 930 MeV/c in freon bubble chamber, search for, (E), 21:46461
decay eta^0 → $\pi^0 + e^+ + e^-$ in heavy liquid bubble chamber, upper limit for branching ratio for, 21:31514 (AD-635061)
decay eta^0 → π^0 + epsilon^0 → $\pi^0 + 2\gamma$, model for, 21:42312
decay eta^0 → $\pi^0 + \gamma + \gamma$ from π^- + p → π^- + p + 4γ interactions at 2.05 GeV/c in hydrogen target in heavy liquid bubble chamber, (E), 22:5494
decay eta^0 → $\pi^0 + \gamma + \gamma$ from π^+ + p → π^+ + p + ω^0 interactions at 2.05 GeV/c in hydrogen bubble chamber, branching ratio for, (E), 23:49060
decay eta^0 → $\pi^0 + \gamma + \gamma$ in chiral Lagrangian model, 25:9780
decay eta^0 → $\pi^0 + \gamma + \gamma$ in hydrogen bubble chamber, branching ratios for, (E), 24:20060
decay eta^0 → $\pi^0 + \gamma + \gamma$ relative to eta^0 → 2γ, branching ratio for, (E), 23:27735 (NEVIS-170)
decay eta^0 → $\pi^0 + \gamma + \gamma$, branching ratio for, (E), 24:37604
decay eta^0 → $\pi^0 + \gamma + \gamma$, branching ratio for, (E), 25:25287
decay eta^0 → $\pi^0 + \gamma + \gamma$, branching ratios for, 22:7423
decay eta^0 → $\pi^0 + \gamma + \gamma$ + $l^+ + l^-$, test of charge conjugation noninvariance in μ/e ratio for, (T), 23:32793
decay eta^0 → $\pi^0 + \pi^+(\pi^-) + \pi^0(\pi^-)$, vector-meson dominance model for p-wave contributions to, (T), 25:1472
decay eta^0 → $\pi^+ + \pi^- + \gamma + \gamma$ relative to eta^0 → $\pi^+ + \pi^- + \pi^0$, branching ratio for, (E), 23:27735 (NEVIS-170)
decay eta^0 → $\pi^+ + \pi^- + \gamma$ relative to eta^0 → $\pi^+ + \pi^- + \pi^0$, 22:7422
decay eta^0 → $\pi^+ + \pi^- + \gamma$ relative to eta^0 → $\pi^+ + \pi^- + \pi^0$, branching ratio for, (E), 23:27735 (NEVIS-170)
decay eta^0 → $\pi^+ + \pi^- + \pi^0 + \gamma$ relative to eta^0 → $\pi^+ + \pi^- + \pi^0$, branching ratio for, (E), 23:27735 (NEVIS-170)
decay eta^0 → $\pi^+ + \pi^- + \pi^0 + \gamma$, upper limit of branching ratio for, (E), 22:50279
decay eta^0 → $\pi^+ + \pi^- + \pi^0$, CP-noninvariant and T-odd correlation in, (T), 23:36967
decay in bubble chamber, 21:33599 (RHEL/R-144, pp 15-40)
decay of eta(1070), partial widths from dilatation and special Liouville currents and chiral current algebra for, 24:13067
decay of eta^0 in xenon bubble chamber, π^0 and γ production in, (E), 25:14560 (JINR-E1-5349)
decay of eta^0 into neutrals in deuterium bubble chamber, (E), 24:3524
decay of eta^0, CP-noninvariant and T-odd correlation in, (T), 23:36967
decay of, angular distributions for, (E), 21:15253 (DESY-66/32)
decay of, assignment mixing in SU(6) from analysis of radiative, 21:15290
decay of, asymmetry in, (E), 21:23314 (BNL-994, pp 70-102)
decay of, bound 4π model for 3π, (T), 25:19948
decay of, branching ratio for $2\pi\gamma/2\gamma$, (T), 21:897
decay of, branching ratios for, (E), 23:34538
decay of, C invariance for, 25:33679
decay of, CP violation in, 21:19037
decay of, CP violation in, 21:46556 (CERN-67-27)
decay of, current algebra corrections for meson (π) emission in, 21:17109
decay of, current algebra for dynamics of, 22:20229
decay of, efficiency of Cherenkov detector for gamma rays from, 25:49004
decay of, electromagnetic, (T), 22:3486
decay of, kappa meson theory for eta—X^0 mixing angle for, 23:21072
decay of, meson pole models using current algebra for nonleptonic, (T), 23:3684 (COO-264-444)
decay of, PCTC and local U(12) for branching ratio for, 21:17072 (ISS-66/49)
decay of, phenomenological analysis of modes of, 21:23314 (BNL-994, pp 70-102)
decay of, repulsive potential for, 22:15762
decay of, review of C and T violation in experiments on, 21:31622
decay of, review of C and T violation in, (E), 23:49183
decay of, review of CP violation in, 21:31623
decay of, review of experimental states on branching ratios for, 23:23334
decay of, review of neutral, (E/T), 23:49133
decay of, review of particle research using example of, 23:23397
decay of, search for CP violation in, 24:8696
decay of, SU(2) x SU(2) chiral dynamics from, 22:29736
decay of, tests of C violation in, 21:19038
decay of, unified corpuscular field for modes and energies of, (T), 23:36915
decay on, review of experimental data on, 23:49097
decay properties, 21:18949
decay rate in X^0 → eta + 2π decay, SU(3) x SU(3) nonlinear chiral dynamic Lagrangian for, 24:37820
decay rates and branching ratios for, (T), 23:23423
decay rates of eta^0, partial, 22:7422
decays eta → $\pi^+ + \pi^- + \gamma$ and eta → $\gamma + \gamma$, current algebra calculation of, 22:15723
decays eta^0 → $\pi^0 + e^+(\mu^+) + e^-(\mu^-)$, spectra and probabilities of CP-violating, 21:17151
decays from π^- + p → eta + n interactions at 763 MeV/c, missing-mass spectrometer study of, (E), 22:5493
decays of, neutral, (E), 21:17027
decays with electron and muon pairs, branching ratios for, (T), 21:21178
degeneracy with π, duality in Veneziano model for, 24:47441
energy asymmetry in X^0 → eta + 2π decay, SU(3) x SU(3) chiral dynamic Lagrangian for calculation of, 22:44474
exchange in $\gamma + \gamma$ interactions, effects on total cross sections from, (T), 25:14596 (JINR-E2-5424)
exchange in N + N → N + N interactions, relativistic one-boson-exchange model for, (T), 25:53224 (DESY-71/34)
exchange in N + N → N + N interactions, velocity-dependent exchange potentials in Born approximation for, 22:3467
exchange in N + N interactions at 95 and 310 MeV, 23:15150
exchange in N + N interactions below 350 MeV, boundary condition model for, 21:37853
exchange in N + N interactions in nuclei, contribution to nuclear forces in, (T), 22:39431
exchange in N + N interactions, (T), 21:21252
exchange in N + N interactions, (T), 21:37854
exchange in N + N interactions, (T), 21:21250 (UCSD-10-P-10-21)
exchange in N + N interactions, one-boson-exchange approximation for, (T), 25:20024
exchange in p + p interactions below 300 MeV, meson—nucleon coupling constants from, 21:37857
exchange of eta^0 in e + p interactions, (T), 23:42601
exchange of π + eta in N + N interactions in nuclei, contribution to nuclear forces in, (T), 22:39431
exchange-current effects on nuclear electromagnetic properties, two-body, (T), 24:30867 (CEA-R-3960)
form factors for, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for sum rules and ratios for, 24:3726
interactions and properties of, sigma-commutator terms and tadpole electromagnetic effects in PCAC calculations of, 25:22746
interactions eta + eta → eta + eta, chiral SU(3) X SU(3) theorems for amplitudes of, 24:18163
interactions eta + eta, bootstrap model for Reggeized amplitudes of, 22:46413
interactions eta + eta, Lorentz pole structure of Virasoro model for, 25:56494
interactions eta + eta, Regge poles and residues in Virasoro model for elastic, 25:56493
interactions eta + eta, Veneziano model for amplitude of, 23:42657
interactions eta + n → eta + n, scattering length for, (T), 22:22401
interactions eta + N at 250 MeV/c, total cross section for, (E), 23:23359 (LNF-69/4)
interactions eta + N in photon reactions with complex nuclei at 1.1 GeV, total cross section for, (E), 23:18782
interactions eta + N, coupling constants and physical operators for, 21:21249
interactions eta + π → eta + π, crossing-symmetric Regge-pole model for, 24:28546
interactions eta + π, chiral Lagrangian and Veneziano models for, 24:10750
interactions eta + rho → rho + rho, superconvergence in, 22:15771
interactions eta^0 + eta^0 → eta^0 + eta^0 complex angular momentum and Regge asymptotic behavior of Virasoro model for, 24:13206
interactions eta^0 + eta^0, Khuri-plane structure of Virasoro amplitude for, 25:53162
interactions in SU(3) x SU(3) chiral-invariant Lagrangian model, Adler condition for, 24:37776
interactions K + eta → K + eta, chiral SU(3) X SU(3) theorems for amplitudes of, 24:18163
interactions K + eta' → K + eta', internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions K + eta → K + eta, internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions of, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for, 24:3726
interactions of, contribution to proton Compton effect, 23:23327
interactions of, off-mass-shell extrapolation of amplitudes of, 25:25412
interactions of, sum rule for constants of, 21:15331
interactions π + eta → π + eta in Veneziano model, SU(3) structure for internal symmetry from, 25:5370
interactions π + eta → π + eta, internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions π + eta → π + eta, SU(3) selection rule from Veneziano model for, 23:36910
interactions π + eta → π + eta, Veneziano—Lovelace-type amplitudes for, 24:18177
interactions π + eta → π + rho, bootstrap conditions for rho and A$_2$ from superconvergence sum rules for, 22:7509
interactions π + eta → π + rho, crossing-symmetric Reggeized amplitude for, 22:46401
interactions π + eta, PCAC and Veneziano model for relation of amplitudes for elastic and inelastic, 23:30748
interactions π + eta, Veneziano model for amplitude of, 23:42657
interactions with baryons, baryon hypercharge for constants of, (T), 25:33770
Lagrangians with broken SU(3) X SU(3) symmetry for, use of Veneziano model for chiral, 24:52074
lifetime determination for, Primakoff effect for polarized photon reactions with spinless nuclei for, 22:39317 (JINR-P2-3845)
lifetime from Primakoff effect in photon reactions with zinc, silver, and lead at 4.0 and 5.5 GeV/c, (E), 23:23338
lifetime of, method for improving accuracy of measurements on, (T), 23:7115
mass and width in five- and six-charged-particle final states in π^+ + d interactions at 2.7 and 3.1 GeV/c in bubble chamber, (E), 25:59282
mass from broken chiral SU(3) x SU(3) symmetry, 25:38766
mass in particle theory with reduction of number of basic constants by using pseudoscalar parameters, 22:17880
mass in quark model with chiral U(3) X U(3) symmetry breaking, 25:53269
mass of, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for sum rules and ratios for, 24:3726
mass of, two-point function with positive mass distribution in nonlinear spinor theory for, 23:32705
mass of, unified corpuscular field for, (T), 23:36915
mixing angle eta—eta' in π^+ + n → p + eta' and π + N → N + eta interactions, Regge pole model for coupling constant ratio for, 24:37778 (COO-1428-214)
mixing angle for eta and eta' in five- and six-body final states in π^+ + d interactions at 2.7 and 3.1 GeV/c in bubble chamber, SU(3), (E), 25:59282
mixing between π^0, eta^0, and eta'^{0}(958) in broken SU(2) and SU(3) symmetries, 24:37836

mixing E—eta, effects on widths of E(1420) → 2γ and E(1420) → rho(ω) + γ decays, (T), 25:17478 (JINR-E2-4976)
mixing effects of eta—X from sum rules in broken chiral symmetry, 24:37837
mixing in eta'—eta system for branching ratios and eta total width in A_2 → eta'(eta) + π decays in SU(6)/sub W/ symmetry, 24:10745 (SU-1206-213)
mixing of E(1420) and eta in widths for E → 2γ and E → rho(ω) + γ decays, (T), 25:7644
mixing of eta - X^0 in broken chiral SU(3) x SU(3) symmetry, 25:38766
mixing of eta and eta' in meson interactions, internal symmetry in Veneziano model with, 24:24357
mixing of eta and X, symmetry-breaking parameters of U(3) x U(3) symmetry for parameters of, (T), 25: 41050
mixing of eta and X^0 for cross sections of $e^+ + e^-$ → eta(X^0) + γ interactions in vector meson region, linear and quadratic, (T), 25:59377
mixing of eta—π, theory of, 25:45703
mixing of eta—X, chiral Lagrangians for, (T), 24:52027
mixing of eta—X, SU(3) x SU(3) chiral symmetry for, 25:17541
mixing of eta—X^0 from Hamiltonian with U(3) x U(3) breaking, 25:45787
mixing of π^0—eta^0—X^0in broken chiral SU(3) x SU(3) symmetry breaking, 25:45743
mixing parameters between π^0, eta^0, and eta'^0(958) in broken SU(2) and SU(3) symmetries, violation of ΔI = 1/2 rule in K^+ → π + e + ν and K^0_2 → π + e + ν decays from asymptotic symmetry for, (T), 24:37836
mixing with π^0, effect on K^+ → $\pi^+ + \pi^0$ decay, (T), 24:40327 (NYO-2171-316)
mixing with X, broken chiral SU(3) x SU(3) model for angle of, (T), 25:36551
mixing with X^0, broken chiral SU(3) x SU(3) for, (T), 24:49564
mixing with X^0, effects on SU(3) mass formula, 23: 46764
model with nucleons for empirical regularities in spectra of small-mass baryons, 24:28548 (JINR-P2-4987)
photoproduction in Coulomb field of heavy nuclei, (E), 21:3970(R) (NP-16354)
photoproduction on complex nuclei at 1.1 GeV, total cross section for, (E), 23:18782
photoproduction on heavy nuclei, (E), 23:23330
polarization in $\pi^- + p$ → eta + n interactions, Regge pole model for, 22:9602
production and decay from K^- + p → Λ + eta interactions at 1.2 to 1.7 GeV/c, (E), 22:5511
production and decay in $\pi^+ + d$ → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 1.1 to 2.4 GeV/c, (E), 25:9675
production and decays of eta(549) in K^+ + p → K^0 + p + $\pi^+ + \pi^+ + \pi^- + \pi^0$ interactions at 3.5 GeV/c, (E), 23:23366
production and decays of, review of, (E/T), 23:21077
production cross section and decay width from photon reactions with lead, silver, and zinc, (E), 21:44253
production from γ + N → eta + N and π + N → eta + N interactions, phase shift analysis for, 22:1404 (TH-177)
production from γ + N and γ + π interactions, interaction constants from, (T), 22:13698
production from γ + p → eta + p interactions at 775 to 850 MeV, Cherenkov counter study of angular distribution for, (E), 22:20117
production from γ + p → eta + p interactions, review of, 21:29481
production from γ + p → eta + p interactions, review of experiments and theory for, 22:11609 (NP-17221)
production from γ + p → eta^0 + p interactions at threshold to 940 MeV, differential cross sections for, (E), 21:9693
production from γ + p → π^+ + n interactions at 500 to 1350 MeV, magnetic spectrometer study of, (E), 22: 3246
production from γ + p interactions at 0.3 to 5.8 GeV, cross section for, (E), 21:15253 (DESY-66/32)
production from γ + p interactions below 6 GeV in bubble chamber, (E), 22:15660 (DESY-67/40)
production from γ + p interactions, collinear SU(4)/sub W/ for amplitude of, 21:35326
production from γ + p interactions, Regge poles for, 21:21169
production from K^- + p → eta + A^0 interactions at 740 MeV/c in hydrogen bubble chamber, 21:37657(R) (ORO-3065-13(and App.A))
production from p + p → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 5 GeV/c in hydrogen bubble chamber, (E), 22:11587
production from π + N → N + eta interactions, dispersion-theoretic techniques for, 21:23339
production from π^+ + d → p + p + eta at 600 to 900 MeV in deuterium bubble chamber, 21:35261 (CEA-R-3105)
production from π^- + p → eta + n interactions near threshold, cross sections and eta width from, (E), 21: 5357
production from π^- + p → n + eta at 780 MeV/c, neutral decays from, (E), 21:17022 (NEVIS-156)
production from π^- + p → n + $\pi^+ + \pi^-$ + γ interactions at 713 MeV/c, scintillation counter and spark chamber study of, (E), 22:17846
production from π^+ + p → π^- + eta interactions at 561 to 1300 MeV, partial wave analysis for, (T), 22:17961
production from π^+ + p interactions at 1.48 GeV/c in hydrogen bubble chamber, 21:37657(R) (ORO-3065-13(and App.A))
production from π^+ + p interactions at 1.6 GeV/c, decay branching ratios and associated N_{11}^* production from, (E), 21:15266 (CEA-R-3036)
production from π^+ + p interactions at 1.95 GeV/c in hydrogen bubble chamber, 21:18927
production from π^+ + p interactions at 7 GeV/c in hydrogen bubble chamber, 21:23310 (UR-875-153)
production in anti τ + p → eta + N^{*0} + μ^- interactions, cross section for, (T), 23:3687
production in anti p + p → $3\pi^+ + 3\pi^- + (\pi^0)$ interactions at 3.6 GeV/c, (E), 24:49318
production in anti p + p → eta + $\pi^+ + \pi^-$ annihilations at rest, analysis of, (E), 23:8730
production in anti p + p → K + anti K + eta interactions at rest in hydrogen bubble chambers, (E), 21:29447
production in anti p + p annihilations at rest, branching ratio for, (E), 21:871 (NEVIS-154)
production in anti p + p interactions at 1.2 GeV/c in bubble chamber, (E), 23:36830
production in anti p + p interactions at 800 MeV/c, (E), 21:17034 (NEVIS-157)
production in baryon—meson interactions, broken SU(6) /sub W/ symmetry for, 22:24708 (JINR-P2-3758)
production in cosmic proton reactions with nuclei at 10^{11} to 10^{13} eV in emulsions, (E), 24:35604 (SJC-P-70-2)
production in $e^+ + e^-$ → $e^+ + e^-$ + eta, eta → γ + γ interactions, cross sections for, 25:59389
production in five- and six-charged-particle final states in π^+ + d interactions at 2.7 and 3.1 GeV/c in bubble chamber, (E), 25:59282
production in forward γ + N → eta + N interactions, Regge absorption model for, (T), 25:56452 (CALT-68-313)
production in γ + d → eta + d interactions at 850 MeV, differential cross sections for, (E), 23:25497
production in γ + N → eta + N interactions, differential cross sections, angular-distribution asymmetries, and recoil nucleon polarization in Regge pole theory for, 24:28503 (ITF-70-10)
production in γ + N → eta + N interactions, vector dominance in Regge pole model with SU(3) for, 23: 42608
production in γ + N → N + eta interactions, sum rules using boson—fermion commutation relations for, 21: 18948
production in γ + N → N + eta^0 interactions and high energies and small momentum transfers, poles, cuts, and SU(3) symmetry for, 24:21952 (ITF-70-1)
production in γ + N interactions at high energies, Regge pole model for, 22:24607
production in γ + N interactions below 2.0 GeV, generalized interference model for, 23:46645
production in γ + N interactions, superconvergent sum rules for, 22:50323
production in γ + p → eta + p interactions at 0.8 to 1.1 GeV, counter—spark chamber study of recoil proton polarization in, (E), 25:17354
production in γ + p → eta + p interactions at 4 and 6 GeV, Veneziano model for, (T), 25:9712
production in γ + p → eta + p interactions at 4 and 6 GeV, Cherenkov counter study of differential cross sections for, (E), 25:1372
production in γ + p → eta + p interactions at 4 to 6.5 GeV, model of Regge-pole exchange with cut interference for, (E/T), 24:37709
production in γ + p → eta + p interactions at 4 to 9 GeV, spectrometer study of energy dependence of cross sections for, (E), 25:43529
production in γ + p → eta + p interactions at 4 to 9 GeV, cross sections for, (E), 24:51904 (SLAC-124)
production in γ + p → eta + p interactions at 6 to 18 GeV, magnetic spectrometer study of differential cross sections for, (E), 24:42862 (SLAC-109)
production in γ + p → eta + p interactions, cross sections for, 21:15286
production in γ + p → eta + p interactions, cross sections for, (T), 22:22359
production in γ + p → eta + p interactions, duality and meson trajectories in Regge cut model for, (T), 25: 36441
production in γ + p → eta + p interactions, mixing angle of isosinglets eta_1 and eta_8 in, (T), 24:35623 (ITF-70-19)
production in γ + p → eta + p interactions, model with poles and cuts for mixing angles of eta_1 and eta_8 isosinglets in, (T), 25:14629
production in γ + p → eta + p interactions, poles and resonances in, 21:44317
production in γ + p → eta^0 + p interactions at 6 to 16 GeV, cross sections for, (E), 22:41726
production in γ + p → eta^0 + p interactions at high energies, peripheral model predictions for cross sections of, 23:51878 (DESY-69/31)
production in γ + p → eta^0 + p interactions, differential cross sections for, (E), 21:9694
production in γ + p → n + p and γ + n → n + n interactions, strong absorptive Regge-cut model for, (T) , 25:7597
production in γ + p → p + eta at 1.22 to 1.85 GeV at small angles, Cherenkov counter hodoscope study of differential cross sections for, (E), 25:17358
production in γ + p → p + eta interactions at 0.8 to 1.45 GeV, counter—spark chamber study of differential cross section for, (E), 23:23332
production in γ + p → p + eta interactions at 0.8 to 1.45 GeV, cross sections for, (E), 22:52914
production in γ + p → p + eta interactions at 950 to 2200 MeV, scintillation counter study of differential cross sections for, (E), 23:39594
production in γ + p → p + eta interactions up to 5.8 GeV, cross sections for, (E), 21:9690
production in γ + p → p + eta interactions, polarization effects in, (T), 21:2414
production in γ + p → p + eta interactions, review of coupling parameters for, (E/T), 25:30797
production in γ + p → p + eta interactions, total and differential cross sections for, (T), 23:10780
production in γ + p → p + eta^0 interactions at 725 to 875 MeV, differential cross sections for, (E), 23:23333
production in γ + p → p + eta^0, eta^0 → 2π interactions at 0.8 to 1.1 GeV, (E), 25:3255
production in γ + p → π + N interactions at 535 to 850 MeV in second resonance region, analysis of, (T), 22:5537
production in γ + p interactions at 0.3 to 5.8 GeV in bubble chamber, cross sections for, (E), 24:18068
production in γ + p interactions at 4.8 to 6.0 GeV in hydrogen bubble chamber, (E), 22:34908
production in γ + p interactions at 5 to 17.8 GeV, cross sections for, (E), 24:24208
production in γ + p interactions at 800 to 1000 MeV, cross sections for, (E), 21:3974
production in γ + p interactions, (E/T), 22:17897
production in γ + p interactions, experimental verification of, 21:29460
production in K^- + d → Σ^- + eta + p interactions at 838 to 978 MeV/c in bubble chamber, breakdown of impulse approximation in deuteron in, (E), 23:21061
production in K^- + N → Y + meson interactions at 2.24 and 3.00 GeV/c, quark model for, 22:22395
production in K^- + p → K^- + p + $\pi^+ + \pi^- + \pi^0$ interactions at 4.6 and 5.0 GeV/c, (E), 22:29627 (IS-T-225)
production in K^- + p → Λ + eta interactions at 740 MeV/c, differential cross sections for, (E), 23:14987
production in K^- + p → Λ + eta interactions, (E), 23: 34538
production in K^- + p → Λ^0 + eta at 740 MeV/c in bubble chamber, (E), 22:34834
production in K^- + p hypercharge-exchange interactions at 4.1 and 5.5 GeV/c, (E), 21:17054
production in τ + n → eta + N^{0*} + μ^- interactions, cross section for, (T), 23:3687
production in τ + n → μ^- + p + eta interactions, effect of second-class currents on, (T), 21:4031
production in p + d → ^{3}He + eta^0 interactions at 3.5 to 3.8 GeV/c, missing-mass spectrometer study of differential cross sections for, (E), 24:26370
production in p + d → ^{3}He + MM interactions at 2 GeV, spectrometer study of cross sections for, (E), 25: 36398
production in p + d → ^{3}He + MM interactions at 3 GeV, spectrometer study of cross sections for, (E), 25: 36398
production in p + p → p + n(p) + $\pi^+ + \pi^+(\pi^-) + \pi^-(\pi^0)$ interactions at 6 GeV in hydrogen bubble chamber, (E), 23:44596
production in p + p → p + p + eta interactions at 10 GeV/c in hydrogen bubble chamber, cross section for, (E), 22:37074 (DESY-68/17)
production in p + p → p + p + $\pi^+ + \pi^- + \pi^0$ at 6.6 GeV/c, (E), 24:37627
production in p + p → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 6 GeV/c in hydrogen bubble chamber, (E), 22:32058
production in p + p → p + p + $\pi^- + \pi^+ + \pi^0$ interactions at 5 GeV/c, mechanisms for, (E), 21:2365 (PPAD-600-F)
production in p + p → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 5 GeV/c in hydrogen bubble chamber, cross section for, (E), 21:44270
production in p + p interactions at 12.3 GeV/c, (E), 21:9703
production in p + p interactions at 6 GeV/c in hydrogen bubble chamber, (E), 22:46324 (UCRL-17707)
production in photon reactions with carbon below nucleon threshold, (E/T), 23:32605
production in photon reactions with complex nuclei, cross sections for coherent, 24:45457
production in polarized photon reactions with spinless nuclei, Primakoff effect for, 22:39317 (JINR-P2-3845)
production in π + N → eta + Δ(1236) interactions, analysis in O(3,1) symmetry, 22:24710
production in π + N → eta + N interactions, Breit—Wigner models and effective-range approximations for, (T), 25:14702 (PAM-70-8)
production in π + N → eta + N interactions, model for S-wave phase shift and, (T), 24:20160
production in π + N → eta + N interactions, NNeta coupling constant from dispersion relation for, 22: 50395
production in π + N S-wave interactions, two-channel method for, (T), 25:47878
production in π + π interactions, residues of daughter trajectories for, 23:15106
production in π^+ + d → 2p + $\pi^+ + \pi^- + \pi^0$ interactions at 1.1 and 2.4 GeV/c in bubble chamber, (E), 25:9664
production in π^+ + d → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 3.65 GeV/c, differential cross sections for, (E), 23:27754
production in π^+ + d → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 2.7 GeV/c, cross sections for, 23:23383
production in π^+ + d → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 1.1 to 2.4 GeV/c in deuterium bubble chamger, angular distributions and cross sections for, (E), 23:51860 (UCRL-19275)
production in π^+ + d interactions at 2.7 and 3.7 GeV/c, (E), 24:49335
production in π^+ + n → p + $\pi^+ + \pi^- + \pi^0$ interactions at 1.1 to 2.4 GeV/c in deuterium bubble chamber, angular distributions and cross sections for, (E), 23:51860 (UCRL-19275)
production in π^+ + n → p + $\pi^+ + \pi^-$ and π^+ + n → p + $\pi^+ + \pi^- + \pi^0$ interactions at 2.15 GeV/c in deuterium bubble chamber, backward, (E), 23:44602
production in π^- + p → 2γ + n interactions at 3.65 GeV/c, differential and total cross sections for, (E), 25:53003
production in π^+ + p → Δ^{++} + eta(eta') interactions at 3.7 GeV/c in hydrogen bubble chamber, eta/eta' ratio and mixing angle for, (E), 23:39612 (UCRL-19225)
production in π^+ + p → Δ^{++}(1236) + eta and π^+ + p → π^+ + p + eta interactions at 1.48 GeV/c in hydrogen bubble chamber, cross sections for, (E), 22: 37082

production in $\pi^- + p \rightarrow$ eta + n interactions at 2.9 to 18.2 GeV/c, heavy-plate spark chamber study of differential cross sections for, (E), 25:5279 (CEA-R-4037)
production in $\pi^- + p \rightarrow$ eta + n interactions at 3.72 and 18.2 GeV/c, comparison of quark model and experimental cross sections for, 23:36928 (INR-P-1047)
production in $\pi^- + p \rightarrow$ eta + n interactions at 592 to 1300 MeV, cross sections for, (E), 24:24242
production in $\pi^- + p \rightarrow$ eta + n interactions at 593 to 704 MeV, differential cross sections for, (T), 22:5587
production in $\pi^- + p \rightarrow$ eta + n interactions at high energies, Regge theory and SU(3) representation mixing for, 23:44657 (IS-T-291)
production in $\pi^- + p \rightarrow$ eta + n interactions, generalized interference model for, 24:49509
production in $\pi^- + p \rightarrow$ eta + n interactions, generalized interference model for, 24:15586
production in $\pi^- + p \rightarrow$ eta + n, eta $\rightarrow 2\gamma$ interactions at 4 GeV/c in small transfer range, spark chamber and Cherenkov spectrometer study of cross sections for, (E), 24:26378
production in $\pi^- + p \rightarrow$ eta° + n interactions at 860 MeV/c, scintillation counter and spark chamber study of, (E), 23:51832 (NEVIS-174)
production in $\pi^+ + p \rightarrow N + 3\pi(4\pi)$ interactions at 2.34 GeV/c, cross sections for, (E), 24:3522 (JINR-P1-4611)
production in $\pi^- + p \rightarrow$ n + eta interactions at 2 to 6 GeV/c, cross sections for backward, (E), 24:10686
production in $\pi^- + p \rightarrow$ n + eta interactions at 5.9 GeV/c, spark chamber and scintillation counter study of differential and total cross sections for backward, (E), 25:43563
production in $\pi^- + p \rightarrow n + \gamma + \gamma$ interactions, method using Lorentz factor for identification of, 22:5593
production in $\pi^- + p \rightarrow n + \pi^+ + \pi^- + \gamma$ interactions, upper limit for cross sections for, (E), 24:21937(T) (NP-tr-1877)
production in $\pi^- + p \rightarrow \pi^+ + 2\pi^- + \pi^0 + p$ interactions at 6 GeV/c in hydrogen bubble chamber, (E), 25:12101
production in $\pi^+ + p \rightarrow \pi^+ + p +$ eta and $\pi^- + p \rightarrow \pi^- + p +$ eta interactions at 1050 and 1170 MeV/c in hydrogen bubble chamber, (E), 22:26565 (UCRL-18141)
production in $\pi^+ + p \rightarrow \pi^+ + p +$ eta interactions at 1050 to 1170 MeV/c, cross sections and angular distributions for, (E), 23:23387
production in $\pi^+ + p \rightarrow \pi^+ + p + \pi^+ + \pi^- + \pi^0$ at 1.95 GeV/c in bubble chamber, 21:18911
production in $\pi^- + p$ and $\gamma + p$ interactions, use of poles and resonances for chi² fits to, 22:15811
production in $\pi^+ + p$ and $\pi^+ + n$ interactions at 3 to 4 GeV/c, 22:46423 (UCRL-18271)
production in $\pi^- + p$ interactions at 1.4 to 4.0 GeV/c, cross sections for, (E), 22:48238
production in $\pi^+ + p$ interactions at 18.5 GeV/c, energy dependence of cross sections for, (E), 25:9677
production in $\pi^+ + p$ interactions at 2.77 GeV/c, (E), 22:50308
production in $\pi^+ + p$ interactions at 3.2 and 3.5 GeV, (E), 21:2371 (CEA-R-2948)
production in $\pi^- + p$ interactions at 4 BeV/c, (E), 21:876 (JINR-P-2885)
production in $\pi^- + p$ interactions at 650 MeV in hydrogen bubble chamber, (E), 22:7446
production in $\pi^- + p$ interactions at 670 and 805 MeV/c, (E), 21:879 (NEVIS-155)
production in $\pi^- + p$ interactions at 8 GeV/c, resonance parameters and cross sections for, 24:28496
production of eta and eta' in $\pi^+ + n \rightarrow p + m\gamma$ interactions at 2.15 GeV/c in deuterium bubble chamber, cross sections and angular distributions for, (E), 25:43562
production of eta and eta' in two- and four-charged-particle final states in $\pi^+ + d$ interactions at 2.7 GeV/c in bubble chamber, total and differential cross sections for, (E), 24:12951
production of eta and eta'(960) in $\pi^- + p \rightarrow$ eta + n interactions at 670 to 805 MeV/c, 22:15689
production of eta(958) from K^- + n and K^- + p interactions at 2.34 GeV/c in bubble chamber, (E), 22:3284
production of eta(960) in $\pi^+ + d$ interactions at 2.7 GeV/c in deuterium bubble chamber, preliminary results for, (E), 22:41733 (COO-1428-70)
production of eta° from anti p + p interactions at 5.7 GeV/c in hydrogen bubble chamber, 21:40146
production of eta° from $\gamma + p \rightarrow p + \pi^+ + \pi^- + \pi^0$ interactions below 1.1 GeV, review of, (E), 22:13720
production of eta° from π^- + N interactions at 950 MeV/c in heavy liquid bubble chamber, 21:31514 (AD-635061)
production of eta° from $\pi^- + p \rightarrow$ neutral particles interactions at 550 to 1150 MeV, (E), 22:13637
production of eta° from $\pi^- + p \rightarrow \pi^- + p + 2\gamma$ interactions at 2.72 to 2.84 GeV/c in propane—xenon bubble chamber, (E), 21:42263 (ITEF-470)
production of eta° from $\pi^+ + p \rightarrow \pi^+ + p + \pi^+ + \pi^- + \pi^0$ interactions at 7 GeV/c in hydrogen bubble chamber, 21:37716
production of eta° in $e^+ + e^- \rightarrow$ eta° + γ interactions in vector meson region, vector dominance model with linear and quadratic mixing of eta and X^0 for cross sections of, (T), 25:59377
production of eta° in $\gamma + d \rightarrow$ eta° + d interactions at 629 to 779 MeV, differential cross sections for coherent, (E), 23:34521
production of eta° in $\gamma + p \rightarrow$ eta + p interactions at 5.0 to 10 GeV, cross sections for, (E), 25:14524
production of eta° in $\gamma + p \rightarrow$ eta° + p and $\gamma + p \rightarrow \pi^+ +$ eta° + p interactions at 1.465 to 1.815 GeV, cross sections for, (E), 25:14522
production of eta° in $\gamma + p \rightarrow$ eta° + p backward interactions at 6 to 18 GeV, cross sections for, (E), 23:49031
production of eta° in $\gamma + p \rightarrow \pi^+$ + n interactions at 0.450 to 3 GeV, resonance structure of cross sections for, (E), 25:12067 (LAL-1239)
production of eta° in γ + p interactions at 4 GeV in bubble chamber, (E), 22:52922
production of eta° in $K^- + p \rightarrow K^- + p + \pi^+ + \pi^- + \pi^0$ interactions at 12.7 GeV/c in hydrogen bubble chamber, (E), 25:12102
production of eta° in $p + d \rightarrow$ ³He + missing mass interactions at 3 GeV, (E), 23:46605 (NYO-2171-286)
production of eta° in $\pi^+ + d \rightarrow 2p + \pi^+ + \pi^- + \pi^0$ interactions at 2.7 GeV/c in deuterium bubble chamber, preliminary results for, (E), 22:41733 (COO-1428-70)
production of eta° in $\pi^+ + d \rightarrow p + p + X^0$ interactions at 3.65 GeV/c in deuterium bubble chamber, (E), 24:3524
production of eta° in $\pi^+ + n \rightarrow p + \pi^+ + \pi^- + \pi^0$ backward interactions at 1.83 to 2.33 GeV/c in deuterium bubble chamber, (E), 25:43556
production of eta° in π^+ + n interactions at 2.34 GeV/c in xenon bubble chamber, (E), 25:14560 (JINR-E1-5349)
production of eta° in $\pi^- + p \rightarrow$ eta° + n interactions at 10 GeV/c, differential cross sections for, (E), 22:26566
production of eta° in $\pi^- + p \rightarrow$ eta° + n interactions, (E), 24:49326 (UCRL-20039)
production of eta° in $\pi^- + p \rightarrow$ eta° + n interactions at 3.0 to 6.0 GeV/c, proposed experiment for spark chamber study of, 22:41740 (COO-1749-2 and Add.)
production of eta° in $\pi^- + p \rightarrow n + 2\gamma$ interactions at 2 to 6 GeV/c, spark chamber study of cross sections for, (E), 25:12113
production of eta° in $\pi^+ + p \rightarrow p + 2\pi^+ + \pi^-$ and $\pi^+ + p \rightarrow p(n) + 2\pi^+ + \pi^- + \pi^0(\pi^+)$ interactions at 2.34 GeV/c, cross sections for, (E), 25:9662
production of eta° in $\pi^+ + p \rightarrow p + n\pi$ interactions at 8.49 GeV/c in hydrogen bubble chamber, (E), 23:51858 (NEVIS-171)
production of eta° in π^+ + p four-prong interactions at 2.95 to 4.08 GeV/c in hydrogen bubble chamber, (E), 23:30717
production of eta° in quasi-two-body final states in $\pi^+ + p \rightarrow \pi^+ + p + \pi^+ + \pi^- + \pi^0$ interactions at 2.95 to 4.1 GeV/c in hydrogen bubble chamber, (E), 22:17954
production of eta° in quasi-two-body final states from $\pi^+ + p \rightarrow \pi^+ + p + \pi^+ + \pi^-$ interactions at 3 to 4 GeV/c in hydrogen bubble chamber, (E), 22:20143
production of eta° with $\Delta(1236)$ in π^+ + p interactions at 7 GeV/c in hydrogen bubble chamber, (E), 22:39289
production of eta° with Δ^{++} in π^+ + p interactions at 5 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25:40882 (NP-18882)
production of eta° with N^{*++} in π^+ + p interactions at 2.95 to 4.08 GeV/c in hydrogen bubble chamber, (E), 22:37081 (UCRL-18254)
production of eta°(549) and eta'(958) in π^- + p six-prong interactions at 3.2 GeV/c in hydrogen bubble chamber, (E), 23:46622
production of eta°(549) from $\pi^+ + d \rightarrow \pi^+ + \pi^- + \pi^0 + p + p$ interactions at 3.65 GeV/c in deuterium bubble chamber, cross sections for, (E), 22:3286
production of, review of particle research using example of, 23:23397
properties of, review on, (E/T), 23:21077
sum rules for $A_2\pi$eta and K^{**}Keta constants, PCAC hypothesis and equal-time commutators for, 22:20227
symmetry for eta—X mixing in chiral SU(3) x SU(3), 24:3724
symmetry for, nonlinear realization of SU(3) x SU(3), 23:23512
theory for Sakata triplet (π, K, eta), Lagrangian in SU(3) symmetry for, 22:17994
width in $A_2 \rightarrow$ eta'(eta) + π decays in SU(6)/sub W/ symmetry, mixing in eta'—eta system for, 24:10745 (SU-1206-213)
width in p + d $\rightarrow$ ³He + missing mass interactions at 3 GeV, (E), 23:46605 (NYO-2171-286)
MESONS (f)
bootstrap for f°, Balazs method for double, 23:51867(R) (NYO-1984-13)
bootstrap of rho and, use of Balazs method for simultaneous, 24:13054
coupling constant for f$\gamma\gamma$, finite-energy sum rules for $\gamma + \pi^0 \rightarrow \gamma + \pi^0$ interactions for, (T), 25:43582 (DESY-71/20)
coupling constant of $f\pi\pi$ from spectral function sum rule, 23:25603
coupling of $fA_1\pi$, stress-tensor—current commutation relations for, 25:53336
coupling to hadronic stress tensor, regularization of renormalization constants in strong interactions from, (T), 25:22708 (IC-71/3)
decay angular distribution of, s-wave interference for, 25:28018
decay correlations with N^* from $\pi + p \rightarrow f + N^*$ interactions, 22:9600
decay $f \rightarrow A_1 + \pi$, partial width for, 23:1636
decay $f \rightarrow \gamma + \gamma$, coupling constant and decay rate for, 25:45739
decay $f \rightarrow \omega + \gamma$, coupling constant and decay rate for, 25:45739
decay $f \rightarrow \pi^+ + \pi^+ + \pi^- + \pi^-$, duality effects and π spectra in, (T), 24:42950
decay f $\rightarrow$ rho + γ, coupling constant and decay rate for, 25:45739
decay $f^0 \rightarrow$ anti K^0 + K in hydrogen bubble chamber, branching ratio for, (E), 22:1391
decay $f^0 \rightarrow K^+$ + anti K + π in hydrogen bubble chamber, branching ratio for, (E), 22:1391
decay $f^0 \rightarrow K^0$ + anti K^0 in hydrogen bubble chamber, branching ratio for, (E), 22:1391
decay $f^0 \rightarrow K^+ + K^-$ in hydrogen bubble chamber, branching ratio for, (E), 22:1391
decay $f^0 \rightarrow \pi + \pi$ + eta in hydrogen bubble chamber, branching ratio for, (E), 22:1391
decay $f^0 \rightarrow \pi + \pi$ in hydrogen bubble chamber, branching ratio for, (E), 22:1391
decay $f^0 \rightarrow 2\gamma$, SU(3) symmetry predictions for $f^0 \rightarrow 2\gamma/A_2^0 \rightarrow 2\gamma$ amplitude ratio, 22:48266
decay $f^0 \rightarrow 2\gamma$, width from dispersion sum rule for $\gamma + \gamma \rightarrow \pi^0 + \pi^0$ amplitude, 22:17908
decay $f^0 \rightarrow 2\pi$, angular distribution from, (T), 21:17122
decay $f_0 \rightarrow 2\pi$, quark model for coupling and partial width for, 21:44354
decay $f^0 \rightarrow 2\pi$, Veneziano 6-point functions for amplitude and width of, (T), 25:25531
decay $f^0 \rightarrow 4\pi$ in chiral dynamics, branching ratios and distributions of, 24:13071
decay $f^0 \rightarrow 4\pi$ in π^- + p $\rightarrow 2\pi^-$ + $2\pi^+$ + n interactions at 5 GeV/c, 4π-mass distribution for, (E), 23:5543
decay $f_0 \rightarrow A_1 + \pi$, quark model for coupling and partial width for, 21:44354
decay $f^0 \rightarrow$ K + anti K, interference between $A_2^0 \rightarrow$ K + anti K and, 23:15103
decay $f^0 \rightarrow \pi^+ + \pi^+ + \pi^- + \pi^-$, experimental evidence for, (E), 22:50369 (UR-875-253)
decay in $f^0(1250)$ in $\pi^- + p \rightarrow f^0(1250) + n \rightarrow \pi^+ + \pi^- + n$ interactions at 4.16 GeV/c, (E), 22:39293
decay in $f^0(1250)$ in $\pi^- + p \rightarrow f^0(1250) + n \rightarrow \pi^+ + \pi^- + n$ interactions at 4.16 GeV/c, (E), 22:39293
decay of f^0 in xenon bubble chamber, π^0 and γ production in, (E), 25:14560 (JINR-E1-5349)
decay of f^0 into neutrals in deuterium bubble chamber, strong destructive interferences in angular distribution and isotopic spin from branching ratio for, (E), 24:3524
decay of interfering f—background, statistical tensors for angular distributions of, 25:59461
decay of, angular distributions for, (E), 21:15253 (DESY-66/32)
decay to strange particles, (E), 23:36839
decay widths of, soft meson approximation for partial, 22:34965
exchange in elastic N + N interactions at 25 to 330 MeV, coupling constant and mass for, 21:35315 (JINR-E1-3420)
exchange in N + N interactions, relation of duality to s helicity structure at vertex of, (T), 24:42986
exchange of $f^0(1260)$ in t-channel of π + N interactions, (T), 25:9802
existence and properties of, incompatibility with positive double spectral functions for $\pi + \pi$ interactions, 23:27796
field theory for f_0 and f', Pade approximants in, 23:30789 (CEA-R-3763)
interactions of, relations between constants for, 21:23333
interactions $\pi + f \rightarrow \pi + f$, superconvergence relations for, 23:1636
isospin of f^0 from branching ratio for decay into neutrals in deuterium bubble chamber, (E), 24:3524
mass and partial width in $\pi + \pi$ interactions, unitarized Veneziano amplitudes satisfying Adler consistency condition for, 24:13058
mass and Regge trajectory of, Pade approximant in S-matrix theory for calculating, 21:44462
mass and width from $\pi^+ + d \rightarrow p + p + \pi^+ + \pi^-$ interactions at 3.65 GeV/c in deuterium bubble chamber, (E), 24:3524
mass and width of f^0 in particle interactions, equivalent potential approach for, (T), 25:36422
mass and width of f^0 in $\pi^- + p \rightarrow K^0$ + anti K^0 + n interactions at 4 and 6.2 GeV/c, spark chamber study of, (E), 25:17385
mass and width of, Balazs method for bootstrap for, (T), 25:19989
mass of f^0, topological properties of Riemann energy surface of partial-wave amplitudes for calculations of algebraic, 24:6718
mixing with graviton, Lagrangian theory for, 25:20053
production and decay from $\pi^- + p \rightarrow \pi^- + \pi^+$ n interactions at 8 GeV/c, cross sections and angular distributions of, (E), 21:46489
production from anti p + p $\rightarrow n\pi$ interactions at 1.61 to 5.70 GeV, model for, 22:15760 (LYCEN-6751)
production from anti p + p interactions at 2.7 GeV/c, (E), 21:9698 (IS-T-115)
production from γ + N and $\gamma + \pi$ interactions, interaction constants from, (T), 22:13698
production from γ + p interactions at 0.3 to 5.8 GeV, cross section for, (E), 21:15253 (DESY-66/32)
production from γ + p interactions below 5.8 GeV, (E), 21:21132
production from γ + p interactions below 6 GeV in bubble chamber, (E), 22:15660 (DESY-67/40)
production from meson (π) exchange in $\pi + N \rightarrow 2\pi$ + N interactions, Regge residues in Veneziano model for density matrices for, 23:51933
production from π^+ + d interactions at 6 GeV/c in deuterium bubble chamber, 21:23344
production from $\pi^- + p \rightarrow \pi^- + \pi^+$ + n interactions at 8 GeV in hydrogen bubble chamber, 21:25237 (NYO-2171-218)
production from π^- + p interactions at 1.6 to 4 GeV/c, nonlocal exchange model for, 21:25291
production from π^+ + p interactions at 7 GeV/c in hydrogen bubble chamber, 21:23310 (UR-875-153)
production from π^+ + p interactions at 8 GeV/c, cross sections for, (E), 23:36839
production in anti p + n $\rightarrow 2\pi^- + \pi^+ + \pi^0$ interactions at 3.5 GeV/c in deuterium bubble chamber, branching ratios for, (E), 25:22685
production in anti p + n annihilations at rest in deuterium, (E), 21:15263

production in anti p + p → 2π⁺ + 2π⁻ + π⁰ interactions at 2.5 GeV/c, associated, (E), 25:45660
production in anti p + p → 2π⁺ + 2π⁻ interactions at 2.5 GeV/c, (E), 25:59271
production in anti p + p → 3π⁺ + 3π⁻ + (π⁰) interactions at 3.6 GeV/c, (E), 24:49318
production in anti p + p interactions at 1.2 GeV/c in bubble chamber, (E), 23:36830
production in anti p + p interactions at 2.7 GeV/c, 21:9705
production in e + e → e + e + f(1260) interactions, radiative widths and cross sections for, (E), 25:43582 (DESY-71/20)
production in e + e → e + e + f(1260) interactions, cross sections for, (T), 25:56463
production in e⁺ + e⁻ → π⁺ + π⁻ interactions in colliding beams, feasibility for study of angular distribution charge asymmetry in, (E), 25:33519
production in f⁰(1250) in π⁻ + p → f⁰(1250) + n → π⁺ + π⁻ + n interactions at 4.16 GeV/c, (E), 22:39293
production in mesons (π⁻) reactions with fluorine at 15 and 16 GeV/c, coherent, (E), 21:9710
production in π + d → d + π + π + π interactions at 5 GeV/c, Reggeized π-exchange model for, 24:3538
production in π + N → π + π + N interactions at high energies, predictions for dual-resonance model for ππ̄N anti N five-point function for, 24:45537
production in π + N interactions, one-pion-exchange model for, 22:24668
production in π + N interactions, spin structure of amplitude for, (T), 21:17122
production in π + π → π + π interactions, partial-wave bootstrap calculation for, 22:24646
production in π + π → π + π interactions, unitarity for finite-energy sum rule for resonance parameters in, 23:32701
production in π + π interactions, bootstrap with finite-energy sum rules for, 22:20237
production in π + π interactions, current algebra and Veneziano amplitude for, 23:15105
production in π⁺ + d interactions at 5.4 GeV/c, cross sections for, (E), 25:33566
production in π⁺ + d interactions at 6.07 GeV/c, total cross sections for, (E), 21:13678 (IS-T-132)
production in π⁺ + d interactions at 9 GeV/c in deuterium bubble chamber, (E), 24:47386
production in π⁺ + n → n + f⁰ interactions at 5.1 GeV/c in deuterium bubble chamber, (E), 22:39275 (CERN-68-7(Vol.2), pp 135-49)
production in π⁺ + p → f⁰ + Δ⁺⁺ interactions at 7 GeV/c in hydrogen bubble chamber, mass spectra and decay angular distributions of, (E), 25:25317
production in π⁺ + p → n + p + 2π⁺ + π⁻ interactions at 5.1 GeV/c in deuterium bubble chamber, (E), 23:51864
production in π⁻ + p → n + π⁺ + π⁻ interactions at 8.09 GeV/c in hydrogen bubble chamber, 21:18912
production in π⁻ + p → p + π⁺ + π⁻ + π⁻ interactions at 13 and 20 GeV/c, OPE model for, 24:49346
production in π⁻ + p → π⁻ + π⁺(π⁰) + n(p) and π⁻ + p → π⁻ + π⁺ + π⁻ + π⁺(π⁰) + n(p) interactions at 7 GeV/c, (E), 24:10681
production in π⁻ + p interactions at 11 GeV/c, cross sections and t-dependence of, 21:15272
production in π⁻ + p interactions at 2.60 to 3.22 GeV/c, (E), 21:7467 (UCRL-16877)
production in π⁻ + p interactions at 3 GeV/c in hydrogen bubble chamber, (E), 21:27310
production in π⁻ + p interactions at 4.16 GeV/c in hydrogen bubble chamber, cross sections for, (E), 22:11590
production in two- and four-charged-particle final states in π⁻ + d interactions at 2.7 GeV/c in bubble chamber, total and differential cross sections for, (E), 24:12951
production of A_1 in meson(π⁻) interactions on nuclei at 16 GeV/c, 22:9519
production of f (1500) from K⁻ + p interactions at 4.25 GeV/c in hydrogen bubble chamber, (E), 22:3268 (ORO-2504-109)
production of f⁰ from K⁻ + p → Λ + f⁰ interactions at 5.5 GeV/c in hydrogen bubble chamber, mass and width from, (E), 22:1391
production of f(1520) in K⁻ + p interactions at 6 GeV/c in hydrogen bubble chamber, cross sections for, (E), 23:46619
production of f⁰ from anti p + p → π⁺ + π⁺ + π⁻ + π⁻ + π⁰ interactions at 5.7 GeV/c in hydrogen bubble chamber, 21:40146
production of f⁰ from anti p + p interactions at 2.7 GeV/c in hydrogen bubble chamber, (E), 21:42262
production of f⁰ from π + π interactions, solutions for higher partial waves in, 21:44353
production of f⁰ from π⁺ + p → π⁺ + p + π⁺ + π⁻ interactions at 7 GeV/c in hydrogen bubble chamber, 21:37716
production of f⁰ from π⁻ + p → π⁺ + π⁻ + n interactions at 1.085 GeV, spark chamber study of, (E), 22:15685
production of f⁰ from π⁻ + p → π⁺ + π⁻ + n interactions at 8 and 16 GeV/c in heavy-liquid bubble chamber, (E), 22:15686
production of f⁰ from π⁻ + p → π⁺ + π⁻ + n interactions at 3.1 to 3.6 GeV/c, sonic spark chamber study of, (E), 22:17867 (RPP/H-33)
production of f⁰ from π⁻ + p interactions at 2.60 to 3.22 GeV/c in hydrogen bubble chamber, (E), 22:3285
production of f⁰ in 2π⁻ + π⁺ final states from π⁻ + N interactions at 15 and 16 GeV/c in heavy liquid bubble chamber, 21:33609(R) (AD-637734)
production of f⁰ in anti p + p → 2π⁺ + 2π⁻ + π⁰ interactions at 2.4 and 2.9 GeV/c in hydrogen bubble chamber, (E), 24:32962 (IS-T-358)
production of f⁰ in anti p + p → 2π⁺ + 2π⁻ (+π⁰) interactions at 3.6 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25:25299 (NP-18730)
production of f⁰ in anti p + p → 2π⁻ + 2π⁺ and anti p + p → 2π⁻ + 2π⁺ + π⁰ interactions at 675 and 1100 MeV/c in hydrogen bubble chamber, (E), 25:1394 (CONF-700806-49)
production of f⁰ in anti p + p → 2π⁺ + 2π⁻ interactions at 2.4 and 2.9 GeV/c in hydrogen bubble chamber, (E), 24:32962 (IS-T-358)
production of f⁰ in anti p + p → 4π interactions at 1.2 GeV/c, (E), 22:26563
production of f⁰ in anti p + p four-prong annihilation at 1.2 GeV/c, 22:39258
production of f⁰ in four-body final states from π⁻ + p and π⁺ + p interactions at 16 GeV/c in hydrogen bubble chamber, (E), 21:44277 (SLAC-PUB-334)
production of f⁰ in hadron interactions at high energies and large momentum transfers, Regge trajectories for, 22:20221
production of f⁰ in $K_1^0K_1^0$ enhancements in anti p + p → K_1^0 + K_1^0 + π⁺ + π⁻ interactions at 0.7 and 1.2 GeV/c in hydrogen bubble chamber, (E), 23:30710
production of f⁰ in K⁻ + p → Σ*(1660) + π⁻ interactions at 3.9 to 5.0 GeV/c in hydrogen bubble chamber, (E), 23:44599 (BNL-13823)
production of f⁰ in p + p → p + p + f⁰ interactions at 10 GeV/c in hydrogen bubble chamber, cross section for, (E), 22:37074 (DESY-68/17)
production of f⁰ in p + p → p + p + π⁺ + π⁻ interactions at 25 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25:43535
production of f⁰ in π + π → π + π interactions, unitarity for finite-energy sum rule for, 22:34953 (UCRL-18232)
production of f⁰ in π⁺ + d → p + p + π⁺ + π⁻ interactions at 3.65 GeV/c in deuterium bubble chamber, (E), 24:3524
production of f⁰ in π⁺ + d → p + p + X⁰ interactions at 3.65 GeV/c in deuterium bubble chamber, (E), 24:3524
production of f⁰ in π⁺ + d interactions at 13 GeV/c in bubble chamber, (E), 25:43545 (COO-1428-277)
production of f⁰ in π⁺ + n → p + π⁺ + π⁻ and π⁺ + n → p + π⁺ + π⁻ + π⁰ interactions at 2.15 GeV/c in deuterium bubble chamber, (E), 23:44602
production of f⁰ in π⁺ + n interactions at 2.34 GeV/c in xenon bubble chamber, (E), 25:14560 (JINR-E1-5349)
production of f⁰ in π⁺ + p → 2p + π⁺ + π⁻ interactions at 4.19 GeV/c in deuterium bubble chamber, backward, (E), 24:42876 (COO-1195-194)
production of f⁰ in π⁻ + p → 2π⁻ + π⁺ + p interactions at 11 GeV/c, predictions of double Regge pole model for, 22:39393 (CERN-68-7(Vol.1), pp 611-47)
production of f⁰ in π⁺ + p → 2π⁺ + π⁻ + p interactions at 13.1 GeV/c in hydrogen bubble chamber, double Regge-pole analysis of, 24:37643 (COO-1428-218)
production of f⁰ in π⁻ + p → K⁰ + anti K⁰ + n interactions at 4 and 6.2 GeV/c, spark chamber study of, (E), 25:17385
production of f⁰ in π⁻ + p → K⁰ + anti K⁰ + n interactions at 5, 7, and 12 GeV/c in spark chamber, cross sections, branching ratios, and resonance parameters for, (E), 21:44284
production of f⁰ in π⁻ + p → n + 2π⁰ interactions at 1 to 10 GeV/c, generalized Veneziano model for cross sections for, (T), 25:50137 (JINR-P2-5943)
production of f⁰ in π⁻ + p → n + π⁺ + π⁻ backward interactions at 2 to 6 GeV/c, spark chamber study of differential cross sections and density matrix elements for, (E), 25:9654 (COO-1764-114)
production of f⁰ in π⁻ + p → n + π⁺ + π⁻ interactions at 11 GeV/c in hydrogen bubble chamber, cross section for, (E), 23:39615
production of f⁰ in π⁻ + p → n + π⁺ + π⁻ interactions at 2 to 6 GeV/c, spark chamber study of differential cross sections for, (E), 25:12113
production of f⁰ in π⁺ + p → p + nπ interactions at 8.49 GeV/c in hydrogen bubble chamber, (E), 23:51858 (NEVIS-171)
production of f⁰ in π⁻ + p → p + nπ interactions at 11 GeV/c in hydrogen bubble chamber, preliminary results for, (E), 22:39278 (CERN-68-7(Vol.2), pp 226-43)
production of f⁰ in π⁻ + p → π⁺ + 2π⁻ + p interactions at 11.2 GeV/c in hydrogen bubble chamber, double Regge-pole model for, (E/T), 24:32969
production of f⁰ in π⁻ + p → π⁻ + π⁺ + n interactions at 5.0 GeV/c in bubble chamber, (E), 22:41734 (COO-1428-71)
production of f⁰ in π⁻ + p → π⁻ + π⁺ + n interactions at 8 GeV/c, cross sections for, (E), 22:5513
production of f⁰ in π⁻ + p → π⁻ + π⁺ interactions at 16 GeV/c in hydrogen bubble chamber, cross sections for, (E), 24:26376
production of f⁰ in π⁺ + p → f⁰ + Δ⁺⁺ interactions at 13.1 GeV/c in hydrogen bubble chamber, differential cross sections for, (T), 25:17400
production of f⁰ in π⁺ + p four-prong interactions at 2.95 to 4.08 GeV/c in hydrogen bubble chamber, (E), 23:30717
production of f⁰ in π⁺ + p interactions at 18.5 GeV/c, energy dependence of cross sections for, (E), 25:9677
production of f⁰ in π⁻ + p interactions at 4.65 GeV/c in hydrogen bubble chamber, study of nuclear forces from, (E), 22:29638
production of f⁰ with Δ(1236) in π⁺ + p interactions at 7 GeV/c in hydrogen bubble chamber, (E), 22:39289
production of f⁰ with N⁰⁺⁺ in π⁺ + p interactions at 2.95 to 4.08 GeV/c in hydrogen bubble chamber, (E), 22:37081 (UCRL-18254)
production of f⁰(1250) and f⁰(1500) from π + π and π + K interactions at high energies, equivalent-potential method for, 22:11668
production of f⁰(1260) in π⁻ + p → π⁺ + 2π⁻ + p interactions at 6.0 GeV/c in hydrogen bubble chamber, (E), 24:3525
production of, current structure of stress tensor for, 21:11767 (IC-66/115)
properties of f⁰, 21:13672(R) (AD-639664)
Regge trajectory for f⁰(1260), modification of residue function for P', 23:46840
Regge trajectory parameters for f⁰ from superconvergence dispersion sum rules for π + N interactions, 22:26654
spin, (E), 21:23344
structure in f⁰ and g⁰ dipion mass region from π⁻ + p and π⁺ + d interactions, (E), 24:42881
symmetry for f and f', 189 and 405 representations of SU(6), 22:39457 (ITF-68-12)
theory for f(1254), partial conservation in, 21:46534
vertex function form factor for ππf, 21:33706
width of f⁰ in π⁺ + π⁻ → π⁺ + π⁻ interactions, Veneziano models without rho' for, 24:13059
MESONS (K)
abundance in cosmic-muon flux, (E), 25:38178
abundance in high-energy cosmic-ray interactions, 22:24686
capture by beryllium, carbon, helium, and lithium, x radiation from, 25:7143
capture by helium, limits on x-ray yields for, (E), 24:1736
capture by nuclei, effects of dynamic mixing of nuclear energy levels on, (T), 25:45936
cascade calculations using Passow's approximation, 23:30746
charge density for pairs of, pseudoscalar, 23:16954
charge radius from sidewise dispersion relations, 24:18141
charge radius of, sidewise dispersion relation calculation of, 25:1447
conspiracy in anti p + p → Λ + anti Λ interactions, (T), 24:24360
coupling constant anti KAp, anti K + N interactions at low energies in review of, (T), 25:25464
coupling constant for KAN, differential cross sections for γ + p → K⁺ + Λ backward interactions at 1 and 2 GeV for, (E), 25:52992 (LAL-RI-71-3)
coupling constant for AK in dispersion relations for real parts of amplitudes of forward K⁺ + p and K⁻ + p interactions, (T), 25:47872
coupling constant for AK, K—N dispersion relations for, (T), 25:47872
coupling constant for AKN from low-energy K⁻ + p interactions, consistency test for, 23:32732
coupling constant for NAK from continuous dispersion sum rule for K + N interactions, 24:35655
coupling constant for NAK weakly dependent on anti KN unphysical-region parametrization, K + N scattering dispersion relation for, (T), 24:52131
coupling constant for S*KK, ratio to coupling constant for S*ππ, (T), 25:25409
coupling constant ratio of Σ anti NK to Λ anti NK from K⁻ + N interactions at 3 GeV/c, (E), 25:1423
coupling constants for KN, use of meson—nucleon dispersion relations for determination of, 22:15802
coupling constants for NAK and NΣK systems from KN forward dispersion relations, (T), 22:1448
coupling constants for NAK, PCAC hypothesis for, (T), 25:30904
coupling constants for NΣK, PCAC hypothesis for, (T), 25:30904
coupling constants for Σ(1385)NK from K + N → K + N and anti K + N → anti K + N interactions, dispersion sum rules for, 24:13087
coupling constants for Y* Ξ K from superconvergence sum rules for anti K + N → K + Ξ interactions, 24:8655
coupling constants ΛKN and ΣKN from energy-dependent finite-energy sum rule for K⁺ + p interactions, prediction for, 22:22404
coupling of ΛKN, backward differential cross sections of K⁻ + n → Λ + π⁻ and π + N → N + π interactions for, 24:40388
coupling of ΛKN, review of forward dispersion relations for, (T), 25:30902
coupling of ΛNK in asymptotic SU(3) symmetry, 24:45571
coupling of N(1470)KA from superconvergence sum rules for anti K + N → anti K + N and anti K + Λ → anti K + Σ interactions, (T), 24:18214
coupling of P' trajectory to K - N system, 24:35656
coupling of ΣNK in asymptotic SU(3) symmetry, 24:45571
coupling with baryons, mass operator in SU(3) symmetric, (T), 25:20046
decay, 21:33599 (RHEL/R-144, pp 15-40)
decay amplitude of, equality with π decay amplitude, 22:37129
decay amplitude of, sum rule for, (T), 23:8827
decay amplitudes in gauge-field model, S-wave nonleptonic, 25:3341
decay amplitudes relative to mesons (π), renormalization to first order in SU(3)-symmetry of leptonic, 22:17949
decay constant ratio F/sub K//F/sub π/from spectral function sum rules, 23:34592
decay constant relative to mesons (π), use of Weinberg sum rules for ratio of leptonic, 22:50343
decay constants and form factors of, charge-divergence commutators for, 24:52039
decay constants f/sub K//f/sub π/ in broken SU(3) x SU(3), ratio of, 25:38760
decay constants for K_{13} and π_{13}, relation between, 23:21080
decay form factors for K_{13}, use of current algebra for, 22:34935
decay form factors of K_{13} and K_{14}, (kappa - K) mass degeneracy and soft-pion theorem for, 23:15058
decay form factors of K_{13}, SU(3) approximation for, 23:23514

decay into lepton pairs, use of Weinberg sum rule for decay constant ratios relative to π decay, 22:17950
decay K → l + τ, radiative corrections to, 24:28531
decay K → l + π + τ in O(4.2) x SU(3), form factors for, 23:23517
decay K → l + π + τ, second-order symmetry breaking in, 23:23447
decay K → 2π + l + τ, corrections to soft-pion predictions of current algebra from once-subtracted dispersion relations for, (T), 25:14654
decay K → 2π + l + τ, current algebra and chiral symmetry breaking for axial-vector form factors for, (T), 25:20041
decay K → 2π + l + τ, current algebra for, 22:20171
decay K → 2π + l + τ, vector dominance model for form factor for, (T), 25:12194
decay K → 2π (3π), CPT and time-reversal invariance for, (T), 23:49189
decay K → 2π (3π), quartet composite model for effective Hamiltonian for, 24:3610
decay K → 2π (I = 2) amplitudes and CP violation, 22:3357
decay K → 2π and K → 3π current-algebra derivation of $\Delta I = 1/2$ rule in, 24:35638
decay K → 2π and K → 3π, current-algebra predictions of zero-energy limits for amplitudes of, 21:42334
decay K → 2π and K → 3π, Nishijima—Swank model for relation between, 23:39771
decay K → 2π and K → 3π, use of SU(2) chiral transformation for relation between amplitudes of, 22:13817
decay K → 2π in quark model, 24:40340
decay K → 2π in SU(3), 21:40259
decay K → 2π with small CP violation, phenomenology, 23:15183
decay K → 2π, angular momentum nonconservation in, (T), 24:52048
decay K → 2π, approximate $\Delta I = {}^1/_2$ rule from final-state $\pi^+\pi$ interaction in, (T), 25:40941
decay K → 2π, breaking of $\Delta I = 1/2$ rule in, (T), 23:39765
decay K → 2π, CP violation in, (T), 24:40443
decay K → 2π, current algebra and PCAC for amplitudes of, 24:6703
decay K → 2π, current algebra for, 21:46530 (UR-875-214)
decay K → 2π, current algebra study of, 22:17915
decay K → 2π, current algebra with PCAC hypothesis for electromagnetic mass shift effects on isotopic relations in, 24:10731
decay K → 2π, current—current models for CP violation in, 22:22429
decay K → 2π, current-algebra model for $\Delta I = 3/2$ effects in, 23:46668
decay K → 2π, current-algebra scheme for amplitude of, 22:15745
decay K → 2π, determination of isotropic spin decomposition for amplitudes of, 21:15255 (COO-881-96)
decay K → 2π, $\Delta I = {}^1/_2$ rule as consequence of dynamical symmetry for, (T), 25:53111
decay K → 2π, $\Delta I = 1/2$ rule in current—current model of CP violation in, 22:44468
decay K → 2π, isospin selection rules and CP-nonconserving phases in Glashow theory for, 22:22431
decay K → 2π, minimal Hamiltonian in discrete and SU(3) symmetries for sum rules for, 22:20301
decay K → 2π, model for parity-violating amplitudes of, 24:47424
decay K → 2π, model of unified electromagnetically weak interaction for unitary structure of, 22:29677
decay K → 2π, PCAC for ambiguities in mass extrapolation in, 21:29501
decay K → 2π, phenomenological analysis of, 21:42299
decay K → 2π, phenomenological model of T violation in, 22:5623
decay K → 2π, π—π phase shift from CPT invariance in, 22:7479
decay K → 2π, quark model for, 22:9559 (JINR-P2-3603)
decay K → 2π, review of nonconservation of T and CPT invariances in, 24:6708
decay K → 2π, review on, (T), 25:47509
decay K → 2π, sixth interaction for CP violating effects in, 23:10795
decay K → 2π, SU(3) and chiral SU(3) x SU(3) restrictions on, 21:44415
decay K → 2π, tadpole electromagnetic effects in, 25:22746
decay K → 2π, tadpole model of, 22:41792
decay K → 2π, transition matrix element dependence on meson (π) masses for, (T), 23:39718
decay K → 2π, use of current algebra with once-subtracted dispersion relation for, 21:37756
decay K → 2π, use of universal current—current theory for CP-conserving amplitudes of, 21:33680
decay K → 2π, vector meson dominance model for, 24:21967 (COO-264-539)
decay K → 2π, violation of $\Delta I = {}^1/_2$ rule in, 25:59405
decay K → 2π, violation of $\Delta T = 1/2$ rule in SU(3) symmetry for, 22:32189
decay K → 2π(+π), PCAC hypothesis and $\Delta T = 1/2$ rule violation in amplitude relations for, 22:24612
decay K → 2π(3π), current algebra model with PCAC hypothesis for CP violation in phenomenological study of, (T), 25:14764
decay K → 2π(3π), $\Delta I = 1/2$ rule with duality and absence of exotic resonances for, 23:42706
decay K → 2π(3π), model for, (T), 25:36464
decay K → 3π amplitudes relative to K → 2π, use of current algebra and PCAC hypothesis for calculating $\Delta I = {}^1/_2$, 21:44344
decay K → 3π in generalized Veneziano model, dual representation of amplitudes for, 24:40329
decay K → 3π in pole model, strength of bilinear weak transitions in, 25:3348
decay K → 3π in Veneziano model, calculation of K_2^0 → 2γ decay rate from, (T), 24:45472
decay K → 3π using current algebra and PCAC, Glashow model of CP violation in, 23:18947
decay K → 3π, (K - π) mass difference effects on $\Delta T = 1/2$ rule violation in, 22:48282
decay K → 3π, amplitude of, (T), 21:15297
decay K → 3π, breaking of $\Delta I = 1/2$ rule in, (T), 23:39765
decay K → 3π, chiral dynamics study of, (T), 23:5561
decay K → 3π, chiral-symmetry-breaking corrections to soft-pion theorem for, 25:3347
decay K → 3π, CP violation and $\Delta I = 1/2$ rule in analysis of, 21:40257 (LPTHE-TH-208)
decay K → 3π, CP violation in, 25:47922
decay K → 3π, crossing-symmetric Regge-pole model for, 24:28546
decay K → 3π, current algebra and PCAC for amplitudes of, 24:6703
decay K → 3π, current algebra and PCAC for electromagnetic mass shift effects on isotopic relations in, 24:10731
decay K → 3π, current algebra and pole dominance model for, 23:49113
decay K → 3π, current algebra for, 21:23325
decay K → 3π, current algebra for deviation from $\Delta I = {}^1/_2$ rule for, 21:40187 (LPTHE-TH-207)
decay K → 3π, current algebra model for $\Delta I = 3/2$ effects in, 23:46668
decay K → 3π, current algebra predictions for, 25:1476
decay K → 3π, current algebra study of, 22:17915
decay K → 3π, current—current interaction for amplitude of s-wave, 21:25269
decay K → 3π, current-algebra and PCAC predictions of π spectra from, 21:42330
decay K → 3π, $\Delta I = {}^1/_2$ rule as consequence of dynamical symmetry for, (T), 25:53111
decay K → 3π, $\Delta I = 1/2$ rule and CP violation in, 23:36974
decay K → 3π, $\Delta T = {}^3/_2$ contributions to, 21:21194
decay K → 3π, $\Delta T = 1/2$ rule for total probabilities for, 23:51910
decay K → 3π, effect of s- and p-wave interactions on spectra in, 22:11638
decay K → 3π, Faddeev equations for amplitude of, 21:25273
decay K → 3π, Faddeev equations for amplitude of, (T), 21:5371 (AD-637252)
decay K → 3π, Faddeev-like theory for π spectra in, 25:30788
decay K → 3π, final-state interaction and current algebra in, 24:24333
decay K → 3π, final-state interaction effects in current-algebra approach to, 21:44325
decay K → 3π, Lee—Dalitz plot for calculating distributions for, 22:50310 (PPAR-4)
decay K → 3π, linear matrix-element and linear spectrum models for, 23:15053
decay K → 3π, meson-pole model for, 23:23444
decay K → 3π, method for determination of $\Delta T = {}^7/_2$ transition in, (E/T), 25:25383 (IFVE-STF-70-14)
decay K → 3π, minimal Hamiltonian in discrete and SU(3) symmetries for sum rules for, 22:20301
decay K → 3π, nonlinearity in spectra of, (T), 23:7129
decay K → 3π, one-current formalism in Veneziano model for, 25:53123
decay K → 3π, phenomenological analysis of, 22:15740
decay K → 3π, phenomenological model of T violation in, 22:5623
decay K → 3π, π + π scattering lengths in Veneziano formula from amplitude of, (T), 23:39718
decay K → 3π, π scattering lengths from ratio of total probabilities for, (T), 25:9736
decay K → 3π, π spectra in, (T), 22:5570
decay K → 3π, π—π scattering lengths from, 23:7141
decay K → 3π, $\pi\pi$ scattering length from, (T), 25:40956
decay K → 3π, relativistic three-body problem for, (T), 24:51985
decay K → 3π, repulsive potential for, 22:15762
decay K → 3π, review of experimental results for, 22:39245
decay K → 3π, review of research on, 23:25512 (CERN-69-7, pp 205-23)
decay K → 3π, review on, (T), 25:47809
decay K → 3π, spectrum correction factors in, 23:5574
decay K → 3π, spin-zero pole dominance and hard-meson current algebra for, 25:53103
decay K → 3π, survey of $\Delta I = {}^1/_2$ rule in, (T), 25:22763
decay K → 3π, test of Veneziano model from, 24:10733
decay K → 3π, time reversal invariance violation in, (T), 21:2503
decay K → 3π, use of current algebra for, 22:17894
decay K → 3π, vector and axial-vector meson dominance in, (T), 22:44389
decay K → 3π, vector meson dominance model for p-wave contributions for, 24:21967 (COO-264-539)
decay K → 3π, violation of $\Delta I = {}^1/_2$ rule in, 24:18252
decay K → 3π, violation of $\Delta I = {}^1/_2$ rule in, 25:59405
decay K → 3π, violation of $\Delta I = 1/2$ rule in, 25:47808
decay K → 3π,relation of Lovelace—Veneziano model to current algebra treatment of, 24:1557
decay K → e + τ + γ, counter and spark chamber study of upper limit for branching ratio for, (E), 25:12077
decay K → e + τ + μ^+ + μ^-, validity limits for quantum electrodynamics from, (T), 21:11765
decay K → e + τ relative to K → μ + τ, effect of derivative coupling components in weak leptonic currents on, 23:49107
decay K → e + π^0 + τ, effects of renormalization of weak form factors on amplitude of, 22:44392
decay K → γ + e + τ, CVC hypothesis for, 22:34934
decay K → K + π, calculation of width for, 22:22368 (JINR-E2-3730)
decay K → l + τ + γ, current algebra and hard-pion and -kaon techniques for form factors of, 22:50354
decay K → l + τ + γ, form factors and transverse polarization in, (T), 25:1470
decay K → l + τ + γ, pole-dominance approximation and low-energy theorem for, 23:18874
decay K → l + τ + γ, ratio of axial-vector to vector contributions in, 22:50353
decay K → l + τ + γ, sum rules for, 23:21081
decay K → l + τ + γ, three-point functions in current algebra for, 24:33001
decay K → l + τ, current algebra and PCAC for, 21:42327
decay K → l + τ, current algebra for, 22:20171
decay K → l + τ, form factors using current algebra and Veneziano model, 24:37728
decay K → l + τ, Okubo second-class currents in, 25:38720
decay K → l + τ, π → l + τ, and kappa → l + τ, sum rule relating, 24:24317
decay K → l + τ/sub e/ + γ, Cabibbo theory for, 22:15744
decay K → l + π + τ form factors from chiral SU(3) algebra, 22:39454
decay K → l + π + τ, chiral SU(3) x SU(3) three-point functions for, 23:5590
decay K → l + π + τ, current algebra method for form factors of, 22:52967
decay K → l + π + τ, determination of parameter xi in, 22:32102
decay K → l + π + τ, dynamic enhancement of symmetry breaking in, (T), 24:49407
decay K → l + π + τ, electron—muon universality from CP violation in, (T), 23:13074
decay K → l + π + τ, form factors for, (E), 25:47725
decay K → l + π + τ, form factors from current algebra and subtracted dispersion relations for, 22:37122
decay K → l + π + τ, kappa mass and weak-decay parameters from form factors for, 22:46381
decay K → l + π + τ, π + K Veneziano-type amplitude predictions for resonance contribution to form factors for, 23:46670
decay K → l + π + τ, radiative corrections to lepton polarization and to rate in, 23:27787 (NP-17872)
decay K → l + π + τ, s-wave Kπ interaction in, (T), 22:41783
decay K → l + π + τ, spectral functions of SU(3) currents for form factors of, 22:24617
decay K → l + π + τ, subtractions and off-shell continuation of form factors for, 23:8791
decay K → l + π + τ, superconvergence sum rules for form factors of, 23:7130
decay K → l + π + τ, use of current algebra and subtracted dispersion relation for form factors of, 22:37128
decay K → l + π + τ, use of subtracted dispersion relations and current algebra for form factors of, 22:46384
decay K → l + π + τ, Veneziano-type form factor for, 25:12172
decay K → l + π + π + τ, form factor in, 25:40969
decay K → l + π^0 + τ, form factors using algebra of charges, 23:3702
decay K → l + π^0 + τ, inequalities for form factors of, 23:18876
decay K → μ + anti τ, model for, (T), 25:36464
decay K → μ + τ + π, soft photon method for, 22:9566
decay K → μ + τ, amplitude relative to π → μ + τ, 24:8609
decay K → μ + τ, general vertex function for physical pions from Callan—Treiman relation between amplitudes for, 22:46380
decay K → μ + τ, relativistic formulation of quark model for branching ratio relative to π → μ + τ decay, 23:39714
decay K → μ + τ, soft-pion and -kaon limits of π + K Veneziano-type amplitude for form factor ratio with π → μ + τ decay for, 24:1562
decay K → μ + τ, superconductivity model for strong interactions with chiral SU(3) x SU(3) symmetry for, 22:17994
decay K → μ + π + τ relative to K → e + π + τ, branching ratio for, (E), 25:47725
decay K → μ + π + τ, μ polarization in, (E), 25:47725
decay K → μ + π + τ, properties in π—τ center of mass system, 23:25491 (CERN-69-7, pp 257-61)
decay K → nπ + γ, review of research on, 23:25512 (CERN-69-7, pp 205-23)
decay K → τ (μ) + μ, analysis of deviations from V—A theory for, 23:39677
decay K → π + l + τ and K → π + π + l + τ form factors from sum rules and Veneziano amplitudes for π + K interactions, 24:47442
decay K → π + e + τ + γ branching ratios for, (E/T), 24:47421
decay K → π + e + τ + γ, search for time reversal violation in, (T), 25:17539
decay K → π + e + τ in extended Cabibbo model of weak hadronic currents, 23:23437
decay K → π + e + τ, chiral SU(3) x SU(3) algebra for, 23:23459
decay K → π + e + τ, chiral SU(3) x SU(3) algebra and spectral-function sum rule for, 23:3718
decay K → π + e + τ, form factor in, 25:14652
decay K → π + e + τ, null-spinor gauge condition for, 24:15522
decay K → π + e + τ, universal coupling and radiative corrections to, 23:15061
decay K → π + e$^+$ + e$^-$, effects of lepton nonlocality in, (T), 25:3337
decay K → π + e$^+$ + e$^-$, vector-meson dominance model for, 22:41786
decay K → π + γ + γ, review on, 25:47809

decay K → π + l + τ + γ, radiative corrections in vector dominance model for, 24:33004
decay K → π + l + τ amplitudes from K → π + π + l + τ decay amplitudes in Veneziano model, (T), 24:28535
decay K → π + l + τ and K → l + l + π, corrections to low-energy results of algebra of charges for, 23:25575 (CERN-69-7, pp 271-7)
decay K → π + l + τ chiral symmetry breaking and low-energy theorems for form factors of, 25:7615
decay K → π + l + τ contribution of K/sub A/(1240) to renormalization of form factor of, 25:53104
decay K → π + l + τ form factor and mass of kappa in Glashow—Weinberg model of SU(3) x SU(3) symmetry breaking, 24:13129
decay K → π + l + τ form factors, 23:32687
decay K → π + l + τ form factors as probe of SU(3) or SU(2) x SU(2) symmetry, 23:32788
decay K → π + l + τ form factors from current algebra and relativistic quark model, 23:32686
decay K → π + l + τ form factors from spectral function sum rules, 23:34592
decay K → π + l + τ form factors from Veneziano amplitude for π + K → π + K interactions, 24:49474
decay K → π + l + τ form factors from Veneziano model, 25:5338
decay K → π + l + τ form factors using current algebra and dispersion relations, 23:32685
decay K → π + l + τ in broken chiral SU(3) x SU(3) group, 25:12237
decay K → π + l + τ in broken chiral SU(3) x SU(3) symmetry, (T), 24:37841
decay K → π + l + τ in broken SU(3) x SU(3) and SU(3) symmetries, violation of 3°—e universality in, 25:1477
decay K → π + l + τ in current algebra, SU(3) x SU(3) breaking in, 23:10816
decay K → π + l + τ in O(4,2), form factors for, 23:39769
decay K → π + l + τ in quark model, relations among vector-current form factors for, 23:3701
decay K → π + l + τ in SU(3) X SU(3) symmetry-breaking model, low-energy theorems on form factors for, (T), 24:45560
decay K → π + l + τ in Veneziano model, form factors for, 25:38737
decay K → π + l + τ in Veneziano model, form factors for, 24:20126
decay K → π + l + τ, asymptotic bounds on form factors for, (T), 24:32996
decay K → π + l + τ, asymptotic SU(3) for form factors for, 23:3783
decay K → π + l + τ, beyond quadratic smoothness in hard meson analysis of, (T), 25:50110 (ORO-3992-50)
decay K → π + l + τ, bound on amplitude for, 25:33655
decay K → π + l + τ, bound on form factor of, 25:45713
decay K → π + l + τ, bounds on form factors of, 25:59411
decay K → π + l + τ, broken chiral symmetry and Veneziano model for form factors of, 24:1573
decay K → π + l + τ, broken chiral symmetry for corrections to soft pion theorems for, 24:37722 (UR-875-310)
decay K → π + l + τ, broken-symmetry gauge-field model for form factors for, 24:37820
decay K → π + l + τ, Cabibbo angle and form factor in quark model for, 25:53105
decay K → π + l + τ, chiral algebra and breakdown for psi parameter of, (T), 25:14645
decay K → π + l + τ, chiral dynamics for form factors and decay constants for, (T), 25:5399 (JINR-P2-5290)
decay K → π + l + τ, chiral SU(2) symmetry from sum rules for on-shell scalar form factor in, (T), 24:49429
decay K → π + l + τ, comparison of current-algebra predictions with experimental data for form factors of, 24:45478
decay K → π + l + τ, consequence of T violation in, 23:27842
decay K → π + l + τ, consistency of hard-pion theorems in, 25:33653
decay K → π + l + τ, consistency of hard-pion theorems in (3,3*) + (3,3*) symmetry-breaking model for scalar form factor for, (T), 25:14633 (NYO-2262-TA-233)
decay K → π + l + τ, contribution of μ* to form factors of, 25:3350
decay K → π + l + τ, corrections to soft-pion predictions of current algebra from once-subtracted dispersion relations for, (T), 25:14654
decay K → π + l + τ, current algebra and chiral symmetry breaking for vector form factors for, (T), 25:20041
decay K → π + l + τ, current algebra and PCAC for, 21:42327
decay K → π + l + τ, current algebra calculation of form factors and parameters for, 23:49111
decay K → π + l + τ, current algebra for, 22:20171
decay K → π + l + τ, current algebra for meson and baryon weak form factors for generalized Callan—Treiman relations for, (T), 25:17456
decay K → π + l + τ, current algebra predictions for, 25:47805
decay K → π + l + τ, current—current theory for, 25:14647
decay K → π + l + τ, current—current theory of, 24:26410 (NYO-3829-47)
decay K → π + l + τ, dispersion relations for form factors of, 24:3596
decay K → π + l + τ, effect of broken PCAC in, 25:41047
decay K → π + l + τ, effect of octet breaking in SU(3) on form factor for, 25:38716
decay K → π + l + τ, effective dipole form factors for, 25:36459
decay K → π + l + τ, effective Lagrangian model with SU(3) x SU(3) chiral symmetry-breaking terms for form factors of, (E), 25:56537 (JINR-E2-5996)
decay K → π + l + τ, elastic unitarity and symmetry breaking parameters for form factors of, 25:45710
decay K → π + l + τ, exact bounds for, 25:38719
decay K → π + l + τ, extrapolation from soft-π and soft-K limits in, 25:25392
decay K → π + l + τ, field algebra with symmetry breaking in Cabibbo theory for form factors of, 25:53128
decay K → π + l + τ, form factor data analysis for, 21:37757
decay K → π + l + τ, form factor for, 25:12198
decay K → π + l + τ, form factor for, 24:24317
decay K → π + l + τ, form factor parameters from chiral Lagrangians and SU(3) x SU(3) field algebra, 25:53125
decay K → π + l + τ, form factor resolution in, (T), 23:42633
decay K → π + l + τ, form factors for, 24:33014
decay K → π + l + τ, form factors from current and field algebras, 24:10729
decay K → π + l + τ, form factors from current-algebra and dispersion sum rules for, 24:40337
decay K → π + l + τ, form factors using current algebra and Veneziano model, 24:37728
decay K → π + l + τ, general tests of ΔI = 1/2 and ΔS = ΔQ rules in, (T), 25:12167
decay K → π + l + τ, hard-meson current algebra calculation of parameters of, 23:42631
decay K → π + l + τ, hard-meson current algebra for form factors for, 24:8699
decay K → π + l + τ, hard-pion calculations of form factors for, 23:49109
decay K → π + l + τ, incompatibility of chiral symmetry and leakage contributions to Fubini—Furlan sum rule for, 25:19970
decay K → π + l + τ, increasing scalar form factor for, (T), 24:26411
decay K → π + l + τ, Kπ phase shifts from form factors for, 24:49473
decay K → π + l + τ, local current commutators for pole-type form factors of, (T), 25:3299
decay K → π + l + τ, Lorentz invariance and dispersion theory for current commutators for form factors of, (T), 25:17402 (COO-264-561)
decay K → π + l + τ, low-energy theorem in current algebra for, 24:28528
decay K → π + l + τ, lower bound on lambda/sub +/ in, (T), 25:59392 (ORO-3992-69)
decay K → π + l + τ, model with chiral symmetry breaking for form factors of, 23:46763
decay K → π + l + τ, modification of time—space current commutators in SU(3) x SU(3) for form factors of, 25:53108
decay K → π + l + τ, Okubo second-class currents in, 25:38720
decay K → π + l + τ, perturbation theory about SU(3) x SU(3) symmetry limit for form factors of, (T), 25:12173
decay K → π + l + τ, perturbation theory for Goldstone symmetry for theorems for, (T), 25:41040
decay K → π + l + τ, predictions of field—current identity and chiral dynamics for form factors of, 24:26412
decay K → π + l + τ, quark model in Regge pole theory for form factors and Cabibbo angle for, (T), 25:36456 (ORO-3992-39)
decay K → π + l + τ, radiative corrections to, 24:28531
decay K → π + l + τ, ratio of f/sub -/ to f/sub +/ form factor in, 25:53119
decay K → π + l + τ, relation between kappa mass and f/sub K//f/sub π/ from theorem on form factors for, 24:24316
decay K → π + l + τ, relativistic quark model for, 22:50373
decay K → π + l + τ, review of form factors for, (E/T), 24:30489 (CERN-70-14)
decay K → π + l + τ, rigorous upper bound for form factor for, (T), 25:53101 (NYO-4204-18)
decay K → π + l + τ, s- and p-wave Kπ phase shifts from form factors of, 24:15594
decay K → π + l + τ, S-matrix analysis of form factors for, (T), 24:40247
decay K → π + l + τ, scalar coupling in weak interactions of urbaryons for, (T), 24:40349
decay K → π + l + τ, scalar form factor for, (T), 25:22774
decay K → π + l + τ, scaling behavior of spin-0 fields in Kemmer equation formulation for form factors of, (T), 25:40949
decay K → π + l + τ, second-class currents for parameters for, (T), 25:17454 (UR-875-331)
decay K → π + l + τ, second-class currents in weak interactions for parameters for, (T), 25:7619
decay K → π + l + τ, smooth pion vertices for parameters of, 25:38736
decay K → π + l + τ, soft-pion corrections to Dashen—Weinstein theorem for form factor in, 25:30816
decay K → π + l + τ, soft-pion solution for parameters of, 25:45718
decay K → π + l + τ, spectral function sum rules, SU(3) symmetry, and superconvergence for form factors of, 24:32999
decay K → π + l + τ, spin-0 Kemmer wave functions for form factors in, (T), 25:53115
decay K → π + l + τ, SU(3) symmetry for form factors of, 22:48288
decay K → π + l + τ, SU(3) x SU(3) charge algebra for relation of mass and width of kappa with scalar form factor in, (T), 24:45486
decay K → π + l + τ, SU(3) x SU(3) spontaneous breakdown to U(2) symmetry for form factors for, 24:24418
decay K → π + l + τ, SU(3) x SU(3) symmetry breaking for, 25:45786
decay K → π + l + τ, SU(3) x SU(3) symmetry breaking and form factors for, 25:22865
decay K → π + l + τ, SU(3) x SU(3) symmetry-breaking parameters for kappa mass and width, 24:8612
decay K → π + l + τ, sum rules with correction to soft-pion theorem for, 24:45473
decay K → π + l + τ, symmetry breaking and weak PCAC for form factors of, 24:37734
decay K → π + l + τ, theorem for form factors in SU(3) x SU(3) symmetry for, 24:24331
decay K → π + l + τ, theorem on form factors in, 23:32694
decay K → π + l + τ, theorem on form factors of, 24:47420
decay K → π + l + τ, three- and four-point functions from current algebra for form factors of, 24:3598
decay K → π + l + τ, three-point functions in current algebra for form factors of, 24:33001
decay K → π + l + τ, unitarity correction to hard-meson analysis of, 25:30813
decay K → π + l + τ, use of asymptotic SU(3) symmetry for relation between form factors of π and, 25:38695
decay K → π + l + τ, use of current algebra and spectral function sum rules for calculation of form factor ratio in, 22:44399
decay K → π + l + τ, use of double integral representations for current algebra predictions of, 23:44633
decay K → π + l + τ, use of once-subtracted dispersion relations, current algebra, and PCAC for form factors of, 23:3691
decay K → π + l + τ, Veneziano-type form factors for, (T), 24:26415
decay K → π + l + τ, zero in K + π amplitude and xi parameter prediction in S-matrix calculation of form factors for, 24:21968 (NYO-2262-TA-216)
decay K → π + l + τ, zero of scalar form factor for, (T), 24:40247
decay K → π + μ + e, Okubo second-class currents in, (T), 25:19965 (NYO-2262-TA-236)
decay K → π + μ + τ, chiral SU(3) x SU(3) algebra for, 23:23459
decay K → π + μ + τ, general vertex function for physical pions from Callan—Treiman relation between amplitudes for, 22:46380
decay K → π + μ + τ, π—τ center of mass system for form factors for, 23:23435 (PPAR-8)
decay K → π + μ + τ, review of time reversal invariance in, 21:42417
decay K → π + τ + anti τ, effects of lepton nonlocality in, (T), 25:3337
decay K → π + τ + l, e—μ universality hypothesis for, (T), 25:36470
decay K → π + π + e + τ in associative algebraic model, 23:42643
decay K → π + π + e + τ, chiral SU(3) x SU(3) algebra for, 23:23459
decay K → π + π + e + τ, low-energy π—π scattering length from, 22:15781
decay K → π + π + e + τ, model for π + π scattering in I = J = 0 channel for, 22:41806 (SINP-TH-67-18)
decay K → π + π + γ, review on, (T), 25:47809
decay K → π + π + l + τ amplitudes in Veneziano model, K → π + l + τ decay amplitudes from, (T), 24:28535
decay K → π + π + l + τ in current algebra, axial-vector form factors for, 25:3345
decay K → π + π + l + τ in SU(3) x SU(3) algebra, momentum-dependent form factors of, 23:5589
decay K → π + π + l + τ in Veneziano model, form factors for, 24:20126
decay K → π + π + l + τ in Veneziano model, form factors for, 25:38737
decay K → π + π + l + τ, chiral SU(3) X SU(3) gauge-invariant dynamics for form factors and rates of, 24:35680
decay K → π + π + l + τ, chiral SU(3) x SU(3) symmetry breaking for form factors of, 24:13128
decay K → π + π + l + τ, chiral-symmetry breaking in, 24:37838
decay K → π + π + l + τ, current algebra and chiral symmetry for axial-vector form factors of, 25:9743
decay K → π + π + l + τ, current algebra and PCAC for, 21:42327
decay K → π + π + l + τ, current algebra predictions for, 25:47805
decay K → π + π + l + τ, form factor parameters from chiral Lagrangians and SU(3) x SU(3) field algebra, 25:53125
decay K → π + π + l + τ, form factors from Veneziano amplitudes for K + π → K/sub A/ + π interactions, 25:17493
decay K → π + π + l + τ, form factors using current algebra and Veneziano model, 24:37728
decay K → π + π + l + τ, low-energy limits of form factor for, 23:1617
decay K → π + π + l + τ, low-energy theorem in current algebra for, 24:28528
decay K → π + π + l + τ, three- and four-point functions from current algebra for form factors of, 24:3598
decay K → π + π + l + τ, use of kaon PCAC and Veneziano model for calculating form factors for, 23:49110
decay K → π + π + l + τ, vector-dominance model for vector form factor of, 23:36898
decay K → π + π + l + τ, Veneziano model for form factors in, 24:18118

decay K → π + π + τ + e(μ), properties of ππ phase shift from, (T), 22:26615
decay K → π + π + π + e + τ, current-algebra calculation of vector form factors for, 22:37123
decay K → π + π + π + γ, review on, 25:47809
decay K → π + π + π + l + τ, current algebra and PCAC for, 21:42327
decay K → π + π + π + l + τ, form factors from current algebra and PCAC hypothesis, 22:26612
decay K → π + π + π, final-state interactions in, (T), 22:46367
decay K → π + π + π, harmonic analysis on Dalitz plot for, 23:18842
decay K → π + π + π, Veneziano model for form factors in, 24:18118
decay K → π° + e + τ, π—τ center of mass system for form factors for, 23:23435 (PPAR-8)
decay K → π° + l + τ, lambda and xi parameters for, 22:48290
decay K → π⁺ + π⁻ + e + anti τ, soft-pion values of form factors for rate for, (T), 25:14654
decay K → π⁺ + π⁻ + π°, ΔI = 1/2 rule for rates of, 23:25572 (CERN-69-7, pp 225-6)
decay K → π⁺ + π⁻ + π°, Veneziano model results from isobaric model for, 24:3642
decay of cosmic, production of 10^{12}- to 10^{13}-eV mesons (μ) from, (E), 23:39604
decay of K_{14}, axial-vector form factors in, 23:25588
decay of, chiral dynamics and field-current identity in broken SU(3) symmetry for form factors of three-body leptonic, 22:20300
decay of, chiral Lagrangian in broken SU(3) x SU(3) for constant for two-body leptonic, 23:46772 (NP-18008)
decay of, chiral Lagrangian in broken SU(3) x SU(3) for f°(0) form factor for three-body leptonic, 23:46772 (NP-18008)
decay of, chiral Lagrangian with SU(3) symmetry breaking for correlations with spin-1 resonance decay rates for parameters of three- and four-body, (T), 25:12194
decay of, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for form factors for three-body leptonic, 24:3726
decay of, composite model for form factor ratio f/sub -//f/sub +/ for three-body leptonic, 24:1561
decay of, conference on, 25:47724
decay of, configuration conservation for nonleptonic, 25:53121
decay of, conservation laws and selection rules in, 22:3484 (LPTHE-TH-204)
decay of, contribution of leakage matrix elements to form factors in three-body leptonic, 22:9572
decay of, correlation functions and spectra for three-body leptonic, 21:31572
decay of, CP violation in, 23:25661 (CERN-69-7, pp 291-305)
decay of, CP-violating weak currents in, (T), 22:29733 (ISS-68/3)
decay of, CPT and T invariance for, 22:9646 (LPTHE-TH-224)
decay of, CPT and time-reversal invariance for, (T), 23:49189
decay of, current algebra equal-time commutator for K + π amplitude expansion for form factor of four-body leptonic, 24:6724
decay of, current algebra for soft pion theory for three- and four-body, 23:49117
decay of, current algebra for vector amplitude for four-body leptonic, 22:3364
decay of, current algebra method for Mathur—Okubo—Pandit—Callan—Treiman relation for hadronic matrix element relation for two-body leptonic with three-body leptonic, 23:39635
decay of, current algebra predictions for leptonic, 21:17148
decay of, current algebra predictions for second form factor in three-body leptonic, 21:37763
decay of, current x current hamiltonian for nonleptonic, 21:2437
decay of, design and performance of wire spark chambers for four-body leptonic, 22:22332(R) (UH-511-23)
decay of, differential probability for, 21:33740
decay of, ΔI = 1/2 rule for nonleptonic, (T), 25:7612 (NYO-1932(2)-184)
decay of, ΔT = 1/2 rule and Cabibbo angle in SU(2) current algebra, 23:34571
decay of, e—μ universality hypothesis for two-body leptonic, 25:36470
decay of, effective Lagrangian with chiral SU(3) x SU(3) symmetry for axial vector form factors for four-body leptonic, 24:6709
decay of, effective-range formula for form factor in three-body leptonic, (T), 25:36461
decay of, form factors of three-body leptonic, (T), 21:21195
decay of, formal solution of current algebra for approximate expression for three-body leptonic, (T), 23:39661
decay of, Goldberger—Treiman relation for constant of, 22:32106
decay of, Hamiltonian for amplitudes of nonleptonic, (T), 23:39681
decay of, hard meson current algebra calculation of three-body leptonic, 23:32689
decay of, Heisenberg nonlinear field theory for nonleptonic, 23:39678
decay of, historical review of theories for, 22:41837
decay of, infinite multiplets from algebraic model of symmetry breaking for weak, 23:23516
decay of, intermediate vector model for convergent calculation of nonleptonic, 21:33667
decay of, isotopic spin in theory for, 21:9829
decay of, K* dominance and K*Kπ coupling in double partial-wave expansion of amplitudes for systematic analysis of semileptonic, (T), 25:5310
decay of, K/π coupling constant ratio for two-body leptonic, 22:46485
decay of, lectures on, 22:46385
decay of, limits on ΔT = 3/2, 5/2 amplitudes and CP noninvariance in 3-pion, 21:44422
decay of, mass dispersion relations near light cone for PCAC hypothesis for three-body leptonic, (T), 25:7618
decay of, meson pole models using current algebra for nonleptonic, (T), 23:3684 (COO-264-444)
decay of, model for T violation in three-body leptonic, 24:10704
decay of, model with intermediate vector meson for total radiative corrections to G/sub β//supV//G/sub μ/ ratio for, (T), 25:59416
decay of, nonlinear realization of SU(3) x SU(3) for form factors for three-body leptonic, 23:23512
decay of, Okubo second-class currents in two-body leptonic, (T), 25:19965 (NYO-2262-TA-236)
decay of, on-shell current algebra for form factors and coupling constants for radiative leptonic, (T), 25:5342
decay of, PCAC and Gell-Mann hypothesis for algebra of weak hadron currents for vector form factor effect in meson (rho) production in four-body, 24:10727
decay of, phenomenological Lagrangian for, 22:46386
decay of, phenomenological Lagrangian for soft-pion limit and ΔI = 1/2 rule for nonleptonic, (T), 25:25384 (NYO-1932(2)-182)
decay of, phenomenological Lagrangian models for soft-pion limit and ΔI = 1/2 rule for nonleptonic, (T), 25:9732 (BNL-50260)
decay of, phenomenological model of T violation in nonleptonic, 22:5623
decay of, phenomenology of three-body semileptonic, (E/T), 24:42931
decay of, proposed experiments for studying CP violation in, 22:20200 (CONF-670211-, pp 46-56)
decay of, q^2 dependence of form factors for three-body leptonic, 22:1420 (TH-211)
decay of, quark model for broken SU(6) sum rules for relation with baryon decays for, (T), 25:5394
decay of, quartet composite model for effective Hamiltonian for three- and four-body leptonic, 24:3610
decay of, radiative correction to lifetime and polarization in muonic three-body, (T), 24:10703
decay of, radiative correction to lifetime for electronic three-body, (T), 24:10703
decay of, radiative corrections to beta, (T), 23:27773
decay of, radiative corrections to three-body leptonic, (T), 24:10703
decay of, review of CP violation in, 22:32178
decay of, review of CP violation in, (E), 23:18943
decay of, review of current algebra for form factors for three-body leptonic, 23:49103
decay of, review of current algebra for leptonic, 21:40254
decay of, review of current algebra for leptonic and nonleptonic, 23:18839 (ISS-68/33)
decay of, review of current algebra for relation of three- to four-body leptonic, 23:49103
decay of, review of current algebra for zero-energy π emission for leptonic and nonleptonic, 24:20120
decay of, review of experiments on form factors for three-body leptonic, 22:32050
decay of, review of leptonic, 23:25573 (CERN-69-7, pp 227-56)
decay of, review of research on, (E), 22:44297(R) (UCLA-34-P-106-27)
decay of, review of space—time asymmetry in, 22:46484
decay of, review of theory for, 21:31569
decay of, review of Veneziano model relation with chiral symmetry for form factors of four-body leptonic, (T), 24:43061
decay of, review on, (T), 24:21965
decay of, rigorous upper bound for form factor for K → π + l + τ decay for ratio of K and π decay constants for, (T), 25:53101 (NYO-4204-18)
decay of, scale transformations for hypothetical mass limit in two-body leptonic, (T), 25:17538
decay of, six-fermion weak interaction in spectra and widths for four-lepton production in, (T), 25:5344
decay of, soft-pion method for leptonic, 23:16944
decay of, spectral function sum rules with symmetry breaking for constant of, (T), 25:40994
decay of, spectral functions for form factors for three-body leptonic, 21:42326
decay of, SU(3) model of CP violation for nonleptonic, 24:35679
decay of, SU(3)-symmetry breaking effect in two-body leptonic, 22:46485
decay of, SU(6) symmetry for nonleptonic S-wave, 22:13819
decay of, subtracted dispersion relations and current algebra for momentum-dependent axial vector form factors and rates for four-body leptonic, 23:39685
decay of, symmetry spontaneous breakdown in three-body leptonic, 21:7487
decay of, tadpole model and partially conserved currents for nonleptonic, 24:15529
decay of, tadpole model for pionic, 24:8613
decay of, tadpole model for weak radiative, 24:8613
decay of, theory for nonleptonic, 22:48275 (CERN-68-23(Vol.1), pp 129-234)
decay of, upper bounds on neutral current with ΔS = 1 in semileptonic, 25:40948
decay of, Veneziano model for form factors for four-body leptonic, 24:1585
decay of, Weinberg spectral-function sum rules and chiral SU(3) x SU(3) symmetry for leptonic, 24:18260
decay, (E), 21:33806 (RHEL/R-129, pp 11-44)
decay, (T), 22:7483
decays in chiral U(3) x U(3), model for leptonic and nonleptonic, 21:44365
decays K → 2π and K → 3π, current algebra and quark model for, 23:16961
decays K → 2π and K → π + l + τ, CPT invariance test for, (T), 23:44691
decays K → 2π in quark model, relation between baryon nonleptonic decay and, 21:33671
decays K → 2π, use of quark model for sum rules for, 21:33671
decays K → 3π, mass difference corrections to branching ratios for, 22:20190
decays K → l + anti l and K → π + l + anti l, test of CP and CPT invariance from polarizations and angular distributions for, 23:15051
decays of K/sub e5/, current-algebra calculation of vector form factors for, 23:10794
decays of, algebra of currents in vector-meson-dominance model of leptonic, 21:18961
decays of, branching ratios, lifetimes, and rates of, 21:15314
decays of, calculations using phenomenological Lagrangian methods for nonleptonic, (T), 23:1882 (WASH-1093)
decays of, chiral symmetry for nonleptonic, 21:44412
decays of, current-algebra calculations on mass shell for leptonic, 23:3688
decays of, dynamic assumption and current algebra for nonleptonic, 22:26614
decays of, effective Lagrangian from phenomenological model for semileptonic, 22:32112
decays of, equal-time current commutators for leptonic, 21:37653(R) (UCLA-34-P-106-1)
decays of, phenomenological fields and Lagrangians for weak leptonic, 21:44368
decays of, review on leptonic, 22:50344
decays of, stability of tensor operators under SU(3) perturbations for leptonic, 21:37880
decays of, structure of K—π vertex for nonleptonic, 21:25270
decays of, vector meson dominance and current algebra for nonleptonic, 21:29468
decays of, vector-meson dominance and current algebra in parity-violating nonleptonic, 21:29500
detection of high-energy, differential Cherenkov detector for, 25:44679 (IFVE-SEF-70-48)
detection of very-high-energy, design of differential Cherenkov detector for, (E), 25:15937(T) (NAL-tr-3)
detection of, design of fast coincidence circuits for Cherenkov detectors for, 22:33690 (ZfK-121, pp 134-248)
detection of, development of differential gas Cherenkov counter for, 21:33807 (RHEL/R-129, pp 45-77)
detection of, review of experiments on, 23:23456
electromagnetic properties of, comparison with mesons (π), 22:52961
emission in anti p + N interactions at 3 GeV/c in emulsions, interaction volume from, (E), 22:46332
emission in weak and strong decays in quark model, 21:44360
energy loss at 10 MeV to 100 GeV in silicon, calculations of average and most probable, (T), 25:42155
energy loss to ionization in plastic scintillators, density effect and shell corrections to rate of, 25:48936
energy measurement of 5 to 500 GeV/c, system for detecting transition radiation for, 23:7791(T) (NP-tr-1717)
energy range in bubble chambers, analytical formulas for calculating, 22:30865
exchange contribution to baryon magnetic moments in quark model, 22:5531
exchange contributions to p + p → Y + K + N interactions, (T), 25:14597
exchange in anti K + N interactions, Deck effect in, (T), 23:42682
exchange in decuplet baryon decay, quark model for currents in, 22:32150
exchange in K⁻ + p → Σ* (1385) + rho⁻ interactions at 2.1 to 2.7 GeV/c in hydrogen bubble chamber, (E), 22:15682 (UCRL-18041)
exchange in K⁻ + p and K⁺ + p interactions at 4.6 and 5.0 GeV/c, (T), 21:35311
exchange in π⁻ + p → K*° + Σ* (K* + Y_1*°) interactions at 5 and 8 GeV/c, (T), 21:15360
exchange in π⁻ + p interactions at 1.6 to 4.2 GeV/c, (E), 21:42273
existence of isospin-3/2, prediction from dual model theories from spin—isospin interchange in Yukawa π + N interactions, (T), 24:49498
field theory for, ratio of wave function renormalization constants of mesons (π) and (K) in SU(3) in, 23:42724
form factor from Chou—Yang model for elastic K + p interactions, 23:23413
form factor from scattering amplitude in Veneziano model, electric, 25:5338
form factor in Veneziano model, electromagnetic, 25:38737
form factor ratio F/sub K//F/sub π/ dependence on symmetry-breaking parameter of vacuum states, 25:12198
form factor, formulation of electromagnetic, 23:18841
form factors and mean charge radius from vector dominance model, 25:12141
form factors for, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for sum rules and ratios for, 24:3726
form factors of K/sub l3/, q^2 dependence of, 21:44343
form factors of, electromagnetic, 22:52961
identification of 175- to 300-MeV, use of plastic scintillator range telescope for, 21:8599
interactins K + N, Y* production in, (E), 23:10765
interactions and mass differences of, effect of Coulomb potentials on symmetry breakdown for, 21:13705
interactions anti K + d → K + Y_1 + Y_1, cross sections for, (T), 25:9804 (JINR-P2-5231)
interactions anti K + K → 3π, resonance couplings in five-point Veneziano model for, 23:25608
interactions anti K + K → anti K + K + π, Bardakci—Ruegg representations for resonance production in, 24:13049

interactions anti K + K → anti K + K, dispersive sum rule method for scattering lengths for, (T), 25:28029
interactions anti K + K → anti K + K, extension of analyticity domain for, 22:7500
interactions anti K + K → anti K + K, fixed poles in complex momentum plane for, 21:29511
interactions anti K + K → anti K + K, rigorous inequalities from positivity and duality in zero-width approximation for properties of meson coupling to baryons and properties of g(1670) from, (T), 25:50130
interactions anti K + K → K + anti K + π, resonance couplings in five-point Veneziano model for, 23:25608
interactions anti K + K → K + anti K, extension of axiomatic analyticity domain for, 22:7500
interactions anti K + K → K + anti K, review of, (E), 24:3520 (BNL-14090)
interactions anti K + K → π + π, extension of analyticity domain for, 22:7500
interactions anti K + K, current algebra and PCAC for double soft π production from, 21:9778
interactions anti K + K, internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions anti K + K, phase shifts and off-shell dependence from unitarized Veneziano formula, 24:30504 (CONF-690521-, pp 562-618)
interactions anti K + K, semilocal duality for, 25:53169
interactions anti K + K, symmetry-breaking effect on p-wave resonances in, (T), 25:5394
interactions anti K + K, vector and spinor current algebra and N/D method for, 22:15775
interactions anti K + Λ → anti K + Σ, coupling of N(1470)KA from superconvergence sum rules for, (T), 24:18214
interactions anti K + N → anti K + N at 0 to 550 MeV/c, scattering lengths for, (E/T), 22:32168
interactions anti K + N → anti K + N at 400 to 1200 MeV/c, energy-independent partial-wave analysis for P_{31}(1800) and P_{11}(1850) production in, (T), 25:25433
interactions anti K + N → anti K + N at 800 to 1200 MeV/c, resonance production in, (E), 23:39607 (AD-687143)
interactions anti K + N → anti K + N below 1.4 GeV/c, hyperon resonances in phase-shift analysis for partial-wave amplitudes of, 24:3652 (UCRL-50617)
interactions anti K + N → anti K + N, coupling of N(1470)KA from superconvergence sum rules for, (T), 24:18214
interactions anti K + N → anti K + N, dispersion sum rules for Σ(1385)NK coupling constants from K + N → K + N interactions and, 24:13087
interactions anti K + N → anti K + N, finite-energy sum rules for exchange degeneracy of Y* resonances from, (T), 23:15130
interactions anti K + N → anti K + N, SU(3) chiral Lagrangian model for total cross sections of, (T), 25:28037
interactions anti K + N → anti K + N, SU(3) x SU(3) chiral Lagrangian model for total cross sections and scattering lengths for, (T), 25:14703 (TID-25639)
interactions anti K + N → anti K + π + N, dual five-point function for phenomenological analysis of, (T), 25:53188
interactions anti K + N → anti K* + N* at high energies, quark model for test of additivity from joint decay distribution from, 22:13735
interactions anti K + N → eta + Λ at low energies, angular distributions and cross sections for, (T), 23:25640
interactions anti K + N → eta + Λ at low energies, cross sections and angular distributions for, 23:1640 (COO-264-445)
interactions anti K + N → K + Ξ, dispersion sum rules for invariant amplitudes of, (T), 24:52094
interactions anti K + N → K + Ξ, superconvergent sum rule for Σ(1385) couplings in, 23:21117
interactions anti K + N → K + Ξ, Y* Ξ K coupling constants from superconvergence sum rules for, 24:8655
interactions anti K + N → Λ + π + rho, Deck effect with K exchange in, (T), 23:42682
interactions anti K + N → Λ + π, Deck effect with K exchange in, (T), 23:42682
interactions anti K + N → ω(phi) + Y* at high energies, quark model for test of additivity from joint decay distribution from, 22:13735
interactions anti K + N → π + Σ at 0 to 550 MeV/c, π—Σ scattering lengths from, (E/T), 22:32168
interactions anti K + N → π + Σ, analytic structure of partial wave amplitudes for, 24:1668
interactions anti K + N → π + Σ, criterion for three-quark bound state determination for Λ(1405) in, (T), 24:1600
interactions anti K + N → π + Σ(Λ) at 400 to 1200 MeV/c, test of duality predictions from partial-wave analysis of, (E/T), 25:43642 (UCR-34-P-107-B-106)
interactions anti K + N → π + Σ(Λ) at high energies, tests of Regge-pole and strong-absorption models for, (T), 25:12206
interactions anti K + N → π + Σ(Λ), SU(3) x SU(3) chiral Lagrangian model for total cross sections of, (T), 25:28037
interactions anti K + N → π + Σ(Λ), SU(3) x SU(3) chiral Lagrangian model for total cross sections and scattering lengths for, (T), 25:14703 (TID-25639)
interactions anti K + N → π + Y, Regge poles and SU(3) symmetry for, 22:1439
interactions anti K + N → rho + Y* at high energies, quark model for test of additivity from joint decay distribution from, 22:13735
interactions anti K + N → Σ + π, Λ(1405)—baryon—pseudoscalar meson coupling from dispersion relations for, 22:15809
interactions anti K + N → Σ(1385) + π, formalism for partial-wave analysis of, 23:42686
interactions anti K + N → Σ(Λ) + π at 400 to 1200 MeV/c, energy-independent partial-wave analysis for P_{31}(1750), S_{11}(1730), P_{11}(1550), and D_{13}(1660) production in, (T), 25:25433
interactions anti K + N → vector meson + Λ(Σ), photon—vector meson analogy model for γ + N → K + Λ(Σ) interaction relation with, 22:46366
interactions anti K + N at 0 to 1200 MeV/c, Argand diagrams and resonance parameters from multichannel phase-shift analysis of anti KN, Yπ, and Yππ final states in, (T), 25:45765
interactions anti K + N at 0 to 1400 MeV/c, energy-dependent multichannel M-matrix fits to partial-wave analyses of, (T), 25:59476
interactions anti K + N at 1.850 to 2.250 GeV, review of partial-wave analysis of, (T), 25:1532 (UCRL-19843)
interactions anti K + N at low energies, finite-energy sum rules as test of multichannel effective-range analysis of, 23:23491
interactions anti K + N at low energies, forward dispersion relation for, 22:3447
interactions anti K + N at low energies, implications for SU(3) symmetry breaking in Y_0*(1405) couplings, 21:44377
interactions anti K + N at low energies, in review of anti KAp coupling constant, (T), 25:25464
interactions anti K + N at low energy, derivative sum rules for parameters of, 23:32737
interactions anti K + N below 1200 GeV/c, multichannel K matrix analysis of baryon resonance production in, (T), 25:25434
interactions anti K + N, current commutators and mass extrapolations for s- and p-wave amplitudes of, 22:44441
interactions anti K + N, formulation of Reggeized absorption model with exchange degeneracy for elastic and charge-exchange, (T), 25:53159
interactions anti K + N, hyperon production in partially latent quasidynamical, (T), 25:9752
interactions anti K + N, K_2^0 → K_1^0 regeneration at high energies for strange baryon resonances in, (T), 22:34932 (JINR-P1-3788)
interactions anti K + N, local models for, (T), 25:36505 (PAM-71.1)
interactions anti K + N, modified dispersion relations for KNΛ and KNΣ coupling constants for, 22:20257
interactions anti K + N, predictions of quark model with additive baryon exchange for pseudoscalar meson and baryon production in backward, (T), 25:47883
interactions anti K + N, πAΣ coupling from forward dispersion relations for, 23:42652
interactions anti K + N, review of SU(3) symmetry for dispersion relations for forward, 23:18823 (CONF-671217-, pp 370-588)
interactions anti K + N, rho trajectory from generalized superconvergence relations for, 24:20156
interactions anti K + N, scattering length and low-energy behavior from K-matrix analysis of K⁻ + p interactions, 23:46725
interactions anti K + N, scattering length for, (T), 22:15680 (ORO-2504-117)
interactions anti K + N, soft-meson current-algebra calculations of complex scattering lengths for, 23:15123
interactions anti K + N, SU(3) x SU(3) chiral Lagrangian model for scattering lengths for, (T), 25:28037
interactions anti K + N, Veneziano formula for Regge fits to, 23:46722
interactions anti K + p at high energies and small momentum transfers, isotopic structure of N* radiative decays from, (T), 24:6681
interactions anti K + p, generalized interference model for resonance interpretation of phase shift analysis for, (T), 25:7671
interactions anti K + Σ → anti K + Σ, superconvergent sum rules for backward, 23:15136
interactions at 3.0 to 7.0 GeV/c with large momentum transfer, review of two-body, (E), 22:39268 (CERN-68-7(Vol.1), pp 252-89)
interactions γ + K → Λ + anti N, analyticity properties of helicity amplitudes of, 22:39341
interactions γ + K at high energies, method for measuring total cross sections for, (T), 25:17436
interactions involving πKΞ and πKΛ, superconvergent sum rules for linear combination of amplitudes of elastic, (T), 23:39706
interactions K + anti K → K + anti K in Veneziano model, SU(3) structure for internal symmetry from, 25:5370
interactions K + anti K* → anti K* + K*, superconvergence in, 22:15771
interactions K + anti K, Veneziano-type amplitudes and S-wave scattering lengths for, (T), 23:13091
interactions K + d → K + d at high energies, mechanism for polarization in Glauber approach for, 24:24402
interactions K + d at 1 to 5.5 GeV/c, review of Q region of Kππ mass distributions in, (E), 25:17387
interactions K + d at 230 MeV/c, unitarized impulse approximation for elastic, 21:19010
interactions K + d at GeV energies, multiple-scattering formalism for elastic, (T), 22:50414
interactions K + d at high energies, production of L(1775) enhancement in Kππ system in, (E), 25:17388
interactions K + d at high energies, Regge-pole model for, 21:42395
interactions K + d at high energies, review of research on, 22:44328(R) (ORO-2504-127)
interactions K + d, review of experiments on Y* production from, 21:31597
interactions K + d, review of S not equal to 0 baryon resonances in, 22:32057
interactions K + d, unitary Pade approximants for integral equations for three-body problem in, (T), 25:41029
interactions K + eta → K + eta, chiral SU(3) X SU(3) theorems for amplitudes of, 24:18163
interactions K + eta' → K + eta', internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions K + eta → K + eta, internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions K + K → K + K, chiral SU(3) X SU(3) theorems for amplitudes of, 24:18163
interactions K + K → K + K, chiral-symmetry and dual model amplitudes for, 25:1588
interactions K + K → K + K, dispersive sum rule method for scattering lengths and resonance spectrum for, (T), 25:28029
interactions K + K → K + K, extension of axiomatic analyticity domain for, 22:7500
interactions K + K → K + K, Pade approximants for, 22:39380
interactions K + K → K + K, self-consistent couplings of 1⁻ and 2⁺ nonets to 0⁻ mesons for, 22:32126
interactions K + K and K + anti K, forward dispersion relations sum rules for amplitudes of, 22:37139
interactions K + K at low energies, scattering lengths for, (T), 22:34952 (JINR-E2-3793)
interactions K + K, broken chiral and conformal symmetry and Kuo transformation for scattering length for, (T), 24:45509 (IC-70/91)
interactions K + K, chiral symmetry breaking from Veneziano amplitudes for, 24:45513
interactions K + K, current algebra equal-time commutator for meson scalar density matrix elements from scattering length of, 24:6724
interactions K + K, Kronecker-delta singularities in amplitudes of Pomeranchuk theorem violation in, (T), 25:22791
interactions K + K, SU(3) x SU(3) current algebra for scalar density matrix elements and scattering lengths for, 23:15102
interactions K + K, Veneziano model for amplitude of, 23:42657
interactions K + K, Veneziano-type amplitudes and S-wave scattering lengths for, (T), 23:13091
interactions K + N → hyperon + hadron, evidence of violation of quark model prediction for, (E/T), 25:47891
interactions K + N → K + Δ, Pomeranchon contributions to amplitudes for, 24:13109
interactions K + N → K + N at high energies, prediction of slope changes in, (T), 25:25444
interactions K + N → K + N at high energies, quasipotential approach for spin effects in, (T), 25:36504 (JINR-E2-5770)
interactions K + N → K + N at intermediate energies, interference model for forward, 24:13091
interactions K + N → K + N at low energies, angular distributions and cross sections for, (T), 23:25640
interactions K + N → K + N at low energies, cross sections and angular distributions for, (T), 23:1640 (COO-264-445)
interactions K + N → K + N, boundary curves of double spectral functions in Mandelstam representation for amplitudes of, 24:21980
interactions K + N → K + N, continuous-moment sum rules for A_2-type Regge poles and A_2' production in, 24:1612
interactions K + N → K + N, dispersion sum rules for Σ(1385)NK coupling constants from anti K + N → anti K + N interactions and, 24:13087
interactions K + N → K + N, factorized Regge amplitudes for superconvergence relations for, 22:34990
interactions K + N → K + N, finite-energy sum rules for crossover problem in, 22:22405
interactions K + N → K + N, finite-energy sum rules for u-channel baryon Regge exchanges, 24:8652
interactions K + N → K + N, finite-energy sum rules for crossover problem in, 22:34982 (NP-17490)
interactions K + N → K + N, method for spin—parity determination of resonances in, 23:21103
interactions K + N → K + N, Pomeranchon contributions to amplitudes for, 24:13109
interactions K + N → K + N, superconvergence sum rules for amplitudes of forward elastic, 22:50401
interactions K + N → K + N, superconvergent sum rules for, 22:32161
interactions K + N → K + N, vacuum pole contributions to inelastic scattering cross sections for two-Reggeon cut in, (T), 25:33586
interactions K + N → K + π + π + N, diffraction dissociation model with duality, 25:41021
interactions K + N → K* + Δ, π conspiracy in, 22:5594
interactions K + N → K* + Δ, π trajectory exchange in, 22:11681
interactions K + N → K* + N in K⁻ + d → K + π + 2N interactions at 865 to 1365 MeV/c in bubble chamber, production mechanisms for, (E), 25:25311 (UCRL-20248)
interactions K + N → K* + N* at high energies, quark model for test of additivity from joint decay distribution from, 22:13735
interactions K + N → K* + N, Pomeranchon contributions to amplitudes for, 24:13109
interactions K + N → K* + N, production of D- and S-wave Z* resonances near 1830 MeV in, (T), 25:17504
interactions K + N → K* + N, quark model for selection rules for diffraction dissociation in, 24:3661
interactions K + N → K* + π + N, Deck effect for, 21:37806
interactions K + N → K* + π + N, Deck-model calculations for doubly charged K*π systems in, 23:15118

interactions K + N → K*(890) + N at 2 to 13 GeV/c, Regge-pole analysis of, 23:25622
interactions K + N → K*(890) + N at high energies, Regge-pole model for, (E/T), 24:52106
interactions K + N → K*(890) + N, B-conspiracy and dips in C = -1 exchange contribution to, 22:26650 (NP-17430)
interactions K + N → π + Λ(Σ), method for spin—parity determination of resonances in, 23:21103
interactions K + N → vector meson (tensor meson) + N, tests of basic assumptions of complex angular momentum method for, 22:9578
interactions K + N above 5 GeV/c, Regge pole model for, 22:20210 (CERN-67-24(Vol.2))
interactions K + N and anti K + N at low energies, complex singular potential model of, 22:32167
interactions K + N around 1 GeV/c, isospin-0 partial cross sections for, (E), 23:3651
interactions K + N at 1.5 to 4 GeV/c, overlap of t and u exchanges in backward, (E/T), 23:44661
interactions K + N at 2 to 20 GeV/c, behavior of diffraction maximum in inelastic, (T), 25:56504
interactions K + N at 25 to 65 GeV, exotic trajectories for energy dependence of cross sections for, (T), 25:33741
interactions K + N at 6 to 55 GeV, complex angular momenta theory for, (E/T), 25:3381 (JINR-P2-5320)
interactions K + N at 600 to 650 MeV/c, evaluation of dispersion relations for, (T), 25:47872
interactions K + N at high energies in emulsions, cross sections for, 21:27307
interactions K + N at high energies in Regge-pole model, inconsistency of crossover phenomena for, (T), 22:3310
interactions K + n at high energies, 36-plet 2⁻ meson exchange for total cross section for, 22:5626
interactions K + N at high energies, bounds on amplitudes and oscillations in diffraction-peak region for, (T), 25:19990
interactions K + N at high energies, dispersion relations for forward amplitudes of elastic, 21:17118
interactions K + N at high energies, formulas with multiple rescatterings by arbitrary Regge poles for elastic and charge-exchange, (T), 24:52097
interactions K + N at high energies, phenomenological model for, 23:1632 (CEA-R-3479)
interactions K + N at high energies, Pomeranchon SU(3) assignment for total cross section of, (T), 22:24653
interactions K + N at high energies, Pomeranchuk trajectory and cross sections for, 24:37797
interactions K + N at high energies, Regge pole description of two-body exchange, 24:24380
interactions K + N at high energies, Regge pole models for, 23:21108
interactions K + N at high energies, Regge pole model for resonance production from, 22:20244
interactions K + N at high energies, Regge pole model for resonances in, 22:39407(T) (UCRL-Trans-1364)
interactions K + N at high energies, Regge poles with absorption for, 24:18151 (CONF-690330-, pp 166-80)
interactions K + N at high energies, shadow scattering and Regge singularities in phenomenological analysis of, 21:23337
interactions K + N at high energies, shower enhancement of branch-point contribution to total cross sections for, (T), 24:28550
interactions K + N at high energies, SU(3) symmetry and exchange degeneracy in Regge pole—cut model for, (T), 25:12217
interactions K + N at high energies, test of violation of Pomeranchuk theorem from finite-energy sum rules for, 24:47458
interactions K + N at high energies, violation of Pomeranchuk theorem and logarithmically increasing cross sections for, (T), 24:30530
interactions K + N at low and intermediate energies, partial-wave amplitudes for, 25:53220
interactions K + N at low energies, current-commutator sum rules for, 21:25306
interactions K + N at low energies, existence of K-mesic nuclei from assumption of positive sign of real part of amplitude of, (T), 25:20002 (IFVE-STF/SPK-70-30)
interactions K + N at low energies, forward dispersion relations for, 21:37830
interactions K + N at low energies, model for, 22:22409
interactions K + N at low energies, model with effective Lagrangian and vector boson exchange for, 22:13769
interactions K + N at low energies, properties of P and P' trajectories from amplitudes of elastic, 22:41818
interactions K + N at low energies, s- and p-wave phase shifts for, 24:47448 (SINP-TH-67-17)
interactions K + N at low energies, vector-meson-dominance sum rules for, (T), 25:36519
interactions K + N at low energies, $Y_0^*(1405)$ and $Y_1^*(1385)$ production and properties from, (E), 21:23314 (BNL-994, pp 70-102)
interactions K + N at low energy, partial-wave amplitudes for elastic, 21:25296
interactions K + N at low, intermediate, and high energies, Veneziano model for, (T), 25:33729 (INR-P-1228)
interactions K + N at low, intermediate, and high energies, Veneziano model for, 25:36507
interactions K + N in current algebra, hard-kaon corrections to scattering length sum rules for, 25:38752
interactions K + N in K⁺ + n → K⁰ + p interactions at 600 MeV in deuterium bubble chamber, K⁰ angular distributions and p polarization for phase shifts for, (E), 25:36417
interactions K + N in mesic atoms, (T), 21:42695
interactions K + N in Regge pole model, superconvergence sum rules for, 22:13761
interactions K + N in SU(3) Regge-pole theory, relations among charge-exchange differential cross sections for, 21:29557
interactions K + N in Veneziano model, amplitude for, 24:18207
interactions K + N in Veneziano model, elastic widths for Y* resonances from, 24:1592
interactions K + N, amplitude superconvergence calculations using perturbation theory and Lee model, 22:50405
interactions K + N, asymptotic conservation of helicity for, 25:3398
interactions K + N, axial-vector coupling constant renormalization for, 21:9785
interactions K + N, baryon Regge exchange in backward elastic, 23:46735
interactions K + N, bootstrap dynamics model for, 21:15348
interactions K + N, calculation of elastic scattering lengths using vector meson exchange for, 23:3843
interactions K + N, chiral U(3) x U(3) phenomenological Lagrangian for, 25:7667
interactions K + N, constraints on polarization due to s-channel unitarity in, (T), 24:3665
interactions K + N, continuous-moment sum rules for Regge parameters of, 24:1590
interactions K + N, coupling constants from forward dispersion relations for, 22:29698 (AECD/TP-22)
interactions K + N, cross-channel isospin analysis of peripheral single π production in, (T), 25:17490
interactions K + N, current commutators and mass extrapolations for s- and p-wave amplitudes of, 22:44441
interactions K + N, currents and current commutators for scattering lengths and low-energy parameters for, 22:11706
interactions K + N, degeneracy of Regge trajectories and finite-energy sum rules for, (T), 24:42956
interactions K + N, determination of NAK and NΣK coupling constants from forward dispersion relations for, (T), 22:1448
interactions K + N, dual models for large-angle, 25:25429
interactions K + N, effect of symmetry breaking of chiral SU(3) x SU(3) on scattering lengths for, 23:25678
interactions K + N, empirical analysis of differences and sums of angular distributions for duality in, (T), 25:59477
interactions K + N, exchange degeneracy in Reggeized absorption model for, 25:30874
interactions K + N, exchange degeneracy, absorption, and loops in, 24:52092
interactions K + n, experimental tests of SU(3) predictions for, (T), 22:7544 (ORO-2504-112)
interactions K + N, extension of Veneziano model for, 24:18186 (CONF-690330-, pp 189-201)
interactions K + N, finite-energy sum rules for ω-like Regge-pole exchange in, 23:49167
interactions K + N, finite-energy sum rules for Regge-exchange amplitudes for, 23:5632
interactions K + N, finite-energy sum rules from phase shift analysis of, 22:26659
interactions K + N, fixed-u zero-moment finite-energy sum rules for, 24:3658
interactions K + N, forward dispersion relations and sum rules for, 24:3678
interactions K + N, forward dispersion relations for NKΣ coupling constant for, 22:17963
interactions K + N, generalized superconvergence sum rule for total cross sections of, 24:35656
interactions K + N, imaginary part of Regge trajectories for, 25:28036
interactions K + N, $K_1^0 \to K_1^0$ regeneration at high energies for strange baryon resonances in, (T), 22:34932 (JINR-P1-3788)
interactions K + N, KAN coupling constants from dispersion relations for, 22:1441
interactions K + N, low-energy s- and p-wave phase shifts for, 21:21239
interactions K + N, A anti K N coupling constant from forward dispersion relation for, 21:44384
interactions K + N, model of exchange-degenerate Regge trajectories for charge-exchange, 24:18221
interactions K + N, modified dispersion relations from crossing-even forward amplitude of, 23:3739
interactions K + N, modified dispersion relations for KNA and KNΣ coupling constants for, 22:20257
interactions K + N, modified Pomeranchuk theorem for lower bounds on elastic and charge-exchange, 25:59474
interactions K + N, NAK coupling constant from continuous dispersion sum rule for, 24:35655
interactions K + N, NAK coupling constant weakly dependent on anti KN unphysical-region parametrization from dispersion relation for, (T), 24:52131
interactions K + N, ω-like Regge pole exchange in, (T), 24:52086 (AD-705553)
interactions K + N, partial wave analysis for baryon resonance production in, 22:48313 (CERN-68-23(Vol.2), pp 431-96)
interactions K + N, partial wave analysis of, 25:53180 (UCRL-20655, pp 176a-89)
interactions K + N, particle exchange and Regge-pole exchange in Veneziano model for, 25:56518
interactions K + N, PCAC conditions on amplitudes for, 21:9784
interactions K + N, pAK and pΣK coupling constants from forward dispersion relations for, 22:9595
interactions K + N, Poisson distribution for bounds, multiplicity, and energy dependence of inelastic, (T), 25:30899
interactions K + N, pole dominance method for calculation of scattering length and phase shifts for, 24:18202

interactions K + N, Veneziano model with spin for amplitude of three-body hadron production in, (T), 25:30889
interactions K + N, violation of Pomeranchuk theorem in, 24:33019
interactions K + p → K + 2π + p, natural- and unnatural-parity components in diffractive, (T), 25:22827
interactions K + p → K + 2π + p, review of diffractive processes in, (T), 25:17501
interactions K + p → K + N + nπ, quark model for cross sections for, 23:5620
interactions K + p → K + N*, one-particle exchange models for, 21:7515
interactions K + p → K + N*, Regge-pole model for, 22:32165
interactions K + p → K + p below 30 GeV, proton compressibility in, (T), 23:36957
interactions K + p → K + p, dispersion sum rules for, (T), 21:11771 (JINR-P2-3081)
interactions K + p → K + π + p with Regge pole and cut exchange, K + π scattering phase shift determination in, (T), 25:33750
interactions K + p → K + π + p, spin effects on mass spectra for K*(890) produced in, (T), 23:46739
interactions K + p → K* + N, absorptive peripheral model for, 22:11686
interactions K + p → K* + N* at high energies, quark model for decay distribution correlations for, 21:21234
interactions K + p → K* + N*, absorptive OPE model with form factors for, (E/T), 21:33706

interactions K + p → K* + p at 2.64 GeV/c in absorption model, dynamic reference system for, 22: 5568
interactions K + p → K*(1400) + N, Regge pole model with factorization for, 24:10707
interactions K + p and p + p, triple-Regge hypothesis for relations between cross sections for inclusive, 25: 56515
interactions K + p at 1 to 15 GeV/c, review of Q region of Kππ mass distributions in, (E), 25:17387
interactions K + p at 10 GeV/c in bubble chamber, comparison with multiparticle production in p + p interactions, review of, (E), 24:6685 (BNL-14126)
interactions K + p at 20 to 10 GeV, analysis of three-body final states in, (E/T), 22:3408 (INP-555/PL/PH, pp 79-99)
interactions K + p at 3.5 GeV/c, equipment for studying wide-angle elastic, 24:23018 (CEA-N-1258)
interactions K + p at 4.6 and 5.0 GeV/c, low-mass Kπ enhancement in final states from, (T), 21:35311
interactions K + p at 7 to 15 GeV/c, analysis of two-body and quasi two-body, 23:39691
interactions K + p at 7 to 15 GeV/c, differential cross sections for elastic, (E/T), 22:46430
interactions K + p at high energies, 22:3371
interactions K + p at high energies, (E), 21:33599 (RHEL/R-144, pp 15-40)
interactions K + p at high energies, (E), 21:33806 (RHEL/R-129, pp 11-44)
interactions K + p at high energies, 36-plet 2* meson exchange for total cross section for, 22:5626
interactions K + p at high energies, comparison of Regge pole results with data for, (E/T), 23:39723(T) (NP-tr-1826)
interactions K + p at high energies, inelastic diffractive, 24:24251
interactions K + p at high energies, kinematic variable for, 24:20165
interactions K + p at high energies, large-momentum-transfer π, K, and p production in, (T), 24:37746
interactions K + p at high energies, M(12) scheme for vector meson production in, 21:2507
interactions K + p at high energies, multiple-scattering corrections to Pomeranchuk exchange in, 22:46397
interactions K + p at high energies, production of L(1775) enhancement in Kππ system in, (E), 25: 17388
interactions K + p at high energies, Regge pole model corrected by absorption for, 23:51930
interactions K + p at high energies, Regge-pole amplitudes for analysis of differential cross sections for, 23:27799
interactions K + p at high energies, relations among cross sections for inelastic, (T), 22:15789 (JINR-P2-3649)
interactions K + p at high energies, review of peripheral model for origin of dips and spikes in differential cross sections for exchange, (T), 24:52099
interactions K + p at high energies, review of research on, 22:44328(R) (ORO-2504-127)
interactions K + p at high energies, sakaton rearrangement model for, 25:12186
interactions K + p at high energies, theory of polarization for, 23:18924
interactions K + p below 10 GeV/c, peripheral, 21: 31579
interactions K + p in sakaton triplet model, 22:15752
interactions K + p up to 430 MeV/c, constant K-matrix fit for, (T), 25:25463
interactions K + p with charge and no strangeness exchange, quark-model predictions for pseudoscalar and vector meson production cross sections for, (T), 24:10773
interactions K + p with three-particle final states, SU(6) x O(3) quark model for, 22:50381
interactions K + p, Argand-diagram loops from partial-wave analysis of, 23:15091
interactions K + p, cross sections for elastic, (E/T), 22: 22394
interactions K + p, cross sections for single meson production in, 23:36906
interactions K + p, dispersion sum rules for, 21:40233
interactions K + p, experimental tests of SU(3) predictions for, (T), 22:7544 (ORO-2504-112)
interactions K + p, fixed-u continuous-moment sum rules with A—A(1520) exchange degeneracy for, 24: 33020
interactions K + p, generalized interference model for resonance interpretation of phase shift analysis for, (T), 25:7671
interactions K + p, Gribov—Morrison parity rule and helicity conservation in diffractive π production in, 25:22833
interactions K + p, high-energy sum rule for forward elastic, 22:3444
interactions K + p, K form factor from Chou—Yang model for elastic, 23:23413
interactions K + p, model for Pomeranchukon exchange in total cross sections for, 25:36512
interactions K + p, phase and t structure of exchange amplitudes for, 25:33754
interactions K + p, quark model for backward, 21:9806
interactions K + p, Regge model for axial-vector meson production, 23:5623
interactions K + p, Regge pole fits to cross sections for, 23:15095
interactions K + p, Reggeized baryon exchange model for anti p + p → K⁻ + K⁺ cross sections from, 21: 46533
interactions K + p, review of resonance production from, 22:9591
interactions K + p, review of S not equal to 0 baryon resonances in, (E), 22:32057
interactions K + p, study of K + π interaction from, 24:30456 (CONF-690521-, pp 446-76)
interactions K + p, sum rules from current algebra and dispersion relations for, 21:21235
interactions K + p, three-quark corrections to quark model for deviations from exact exchange degeneracy for total cross sections of, (T), 24:10770
interactions K + p, upper bound on imaginary part of amplitude for elastic, 25:3460
interactions K + π → K + eta in Veneziano model, SU(3) structure for internal symmetry from, 25:5370
interactions K + π → K + eta, chiral SU(3) X SU(3) theorems for amplitudes of, 24:18163
interactions K + π → K + π in K⁻ + d → K⁻ + π⁻ + 2p interactions at 12.6 GeV/c, cross sections for, (E), 25:59283
interactions K + π → K + π in Veneziano model, SU(3) structure for internal symmetry from, 25:5370
interactions K + π → K + π, Chew—Low extrapolation for cross sections of, 24:20144 (NP-18127)
interactions K + π → K + π, chiral-symmetry and dual model amplitudes for, 25:1588
interactions K + π → K + π, self-consistent couplings of 1⁻ and 2⁺ nonets to 0⁻ mesons for, 22:32126
interactions K + π → K/sub A/ + π, K/sub A/ decay widths and K/sub 14/ form factors from Veneziano amplitudes for, 25:17493
interactions K + π at low energies, dispersion relations for s- and p-waves and kappa(1100) production in, (T), 23:46698 (JINR-P2-4375)
interactions K + π at low energies, S-, P-, and D-wave phase shifts for, 22:5670
interactions K + π from Chew—Low extrapolation of K⁺ + p interactions, phase shifts for, 25:56486
interactions K + π from K⁺ + p → K*(K*) + π⁺(π⁻) + Δ⁺⁺ interactions at 2.5 to 5.0 GeV, rotation of symmetry axis in, 25:59502
interactions K + π from K⁺ + p → K⁺ + π⁻ + π⁺ + p interactions at 7.3 GeV/c, scattering lengths, phase shift, and moments for, (E), 23:13037
interactions K + π from K⁺ + p → K⁺ + π⁻ + π⁺ + p interactions, analysis of, 23:49146
interactions K + π in broken chiral SU(3) x SU(3), S-wave scattering length for, 25:12237
interactions K + π in K → l + π + τ decay, s-wave, 22:41783
interactions K + π in K + p → K + π + p interactions with Regge pole and cut exchange, phase shift determination for, (T), 25:33750
interactions K + π in K⁻ + p and K⁻ + n interactions at 3 GeV in bubble chamber, s-wave, (E), 25:56426 (FRNC-TH-53)
interactions K + π in Veneziano model, Adler—Weisberger sum rules for, 24:18176
interactions K + π, broken chiral symmetry and Veneziano model for, 24:1573
interactions K + π, CDD poles in effective range formula for form factors of, 25:59466
interactions K + π, chiral SU(3) x SU(3) algebra for, 23:23459
interactions K + π, current algebra analysis of, 24: 30505 (CONF-690521-, pp 619-47)
interactions K + π, current algebra and elastic unitarity for S-wave, 25:53164
interactions K + π, current algebra equal-time commutator for meson scalar density matrix elements from scattering length of, 24:6724
interactions K + π, current algebra equal-time commutator for low-energy limits of meson (K) four-body leptonic decay form factor from amplitude expansion for, 24:6724
interactions K + π, current-algebra model of S-wave phase shifts for, 22:46405
interactions K + π, currents and current commutators for scattering lengths for, 22:11706
interactions K + π, effects of peripherally produced N*⁻ states in π⁻ + p → π⁺ + π⁻ + n interactions on phase shifts for, (T), 24:3663
interactions K + π, elastic cross section from K⁻ + n → p + K⁻ + π⁻ at 3 GeV/c, (E/T), 25:3278
interactions K + π, hard-meson calculation of scattering lengths for, 25:33701
interactions K + π, high-energy contributions to current-algebra sum rules for, 23:23465
interactions K + π, K*(890) width from multiperipheral model of, (T), 24:40378
interactions K + π, N/D and Regge pole method for phase shift analysis of, 23:5645 (NP-17659)
interactions K + π, phase shifts and off-shell dependence from unitarized Veneziano formula, 24: 30504 (CONF-690521-, pp 562-618)
interactions K + π, phase shifts from form factors of K → π + l + τ decay, 24:49473
interactions K + π, review of, (E/T), 25:17483
interactions K + π, review on experimental studies of, 24:30456 (CONF-690521-, pp 446-76)
interactions K + π, s- and p-wave phase shifts from K → π + l + τ decay form factors, 24:15594
interactions K + π, S-matrix calculation of form factors for K → π + l + τ decay from zero in amplitude of, 24:21968 (NYO-2262-TA-216)
interactions K + π, s-wave phase shifts from current algebra and PCAC, 24:8637
interactions K + π, SU(3) x SU(3) current algebra for scalar density matrix elements and scattering lengths for, 23:15102
interactions K + π, sum rules from SU(3) x SU(3) current algebra for, 22:26642
interactions K + π, symmetry-breaking corrections to, 25:9743
interactions K + π, three- and four-point functions from current algebra for, 24:3598
interactions K + π, two-parameter effective-range formula for scalar form factor of, 25:9777
interactions K + π, use of current algebra and field theory for amplitudes of, 23:36909
interactions K + π, use of spectral-function sum rules and unsubtracted dispersion relations for, 22:48307
interactions K + π, Veneziano model with off-shell correction factor compatibility with current algebra and chiral symmetry for, 25:1498 (UH-511-79-70)
interactions K + π, Veneziano model with Regge trajectory assumptions for S-wave scattering lengths and effective range parameters and P-wave scattering lengths for, 24:5290 (NYO-2262-TA-211)
interactions K + rho → K + ω₁₁, (K⁺ — K⁻) mass difference from Veneziano amplitude for, 24:40382
interactions K + rho → K + rho, saturation of superconvergent sum rules for, 21:42344
interactions K + rho → K + rho, six-point Veneziano model for amplitude of, (T), 25:22792
interactions K + rho → K* + rho (ω), superconvergence in, 22:15771
interactions K + Σ → K + Σ, superconvergence sum rules for amplitudes of forward elastic, 22:50401
interactions K + Σ, Σ(1385)Σπ coupling from superconvergence sum rules for, 23:32728
interactions K + Ξ → K + Ξ, superconvergent sum rules for, 22:32161
interactions K + Ξ in broken SU(3) Yukawa-type Lagrangian field theory, Ω⁻ bound state from, 24: 15593
interactions K + Ξ in broken SU(3) Yukawa-type Lagrangian field theory, Ω⁻ as bound state of, 24: 49516
interactions K + Ξ, factorization principle for construction of superconvergence sum rule for, 22: 50394
interactions K + Y, U(6,6) symmetry for superconvergent sum rules for, 22:3430
interactions K + Y*, U(6,6) symmetry for superconvergent sum rules for, 22:3430
interactions K * N at low energies, ΛNK and ΣNK coupling constants from sum rules for, 22:15800
interactions N + N below 1 GeV/c, direct data analyses and phenomenological dispersion relations, (T), 25: 30882
interactions of, broken SU(3) x SU(3) chiral dynamics for F/sub K//F/sub π/ and sum rules for, 24:3687
interactions of, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for, 24:3726
interactions of, Pade approximants for two-body systems from, 23:30789 (CEA-R-3763)
interactions p + K → p + K*, contribution of Mandelstam branch cuts from Reggeon exchange to, (T), 22:3455
interactions π + K → eta + K, Veneziano model for amplitude of, 23:42657
interactions π + K → K + eta, internal symmetry in Veneziano model with eta and eta' mixing for, 24: 24357
interactions π + K → π + K, boundary curves of double spectral functions in Mandelstam representation for amplitudes of, 24:21980
interactions π + K → π + K, chiral SU(3) X SU(3) theorems for amplitudes of, 24:18163
interactions π + K → π + K, consistency of off-shell amplitudes with chiral symmetry breaking and Bjorken limit for, 25:22812
interactions π + K → π + K, dispersive sum rule method for SU(3) x SU(3) symmetry breaking, off-shell corrections, scattering lengths, and mass and width of kappa in, (T), 25:28029
interactions π + K → π + K, extension of analyticity domain for, 22:7500
interactions π + K → π + K, extrapolation of current algebra results from Veneziano amplitudes for, 24: 15571
interactions π + K → π + K, integral constraints from crossing symmetry for partial-wave amplitudes for, 24: 18182
interactions π + K → π + K/sub A/, Veneziano model for amplitude of, 24:1585
interactions π + K → π + KK/sub 13/ form factors from Veneziano amplitude for, 24:49474
interactions π + K → π + π + K, Bardakci—Ruegg representations for resonance production in, 24:13049
interactions π + K → rho + K*, six-point Veneziano model for amplitude of, (T), 25:22792
interactions π + K at 2 to 3 GeV/c, review of quasi-two-body final states and multiple particle production in, 22:32121
interactions π + K at high energies, equivalent-potential method for amplitude of, 22:11668
interactions π + K at high energies, saturation of dispersion sum rules for, 23:39700
interactions π + K at low energies, dispersion relations for resonance states in, (T), 25:7648
interactions π + K at low energies, pole dominance calculation of scattering lengths for, (T), 25:14687
interactions π + K at low energies, scattering lengths for, (T), 22:34952 (JINR-E2-3793)
interactions π + K in current algebra, unitarity corrections for, 23:42670
interactions π + K in GeV range, low-energy models for, (T), 25:30854
interactions π + K in SU(3) sigma model, scattering length for, 25:38771
interactions π + K in urbaryon model, cross sections for forward elastic, 21:35300
interactions π + K in Veneziano model, amplitudes for, 24:45519
interactions π + K in Veneziano model, K/sub 13/ and K/sub 14/ form factors from sum rules and amplitudes of, 24:47442
interactions π + K in Veneziano model, SU(3) symmetry, 24:24416
interactions π + K, Adler—Weisberger type sum rule for, 21:31594
interactions π + K, axial-vector coupling constant renormalization for, 21:9785
interactions π + K, background term in Veneziano model for scattering lengths of, 23:36911
interactions π + K, bootstrap dynamics for kappa(730) and K*(885) production in, (T), 22:29689

interactions π + K, broken chiral and conformal symmetry and Kuo transformation for scattering length for, (T), 24:45509 (IC-70/91)
interactions π + K, calculation of elastic scattering lengths using vector meson exchange for, 23:3843
interactions π + K, CDD pole effects on single resonance solution in dispersion relations for, (T), 25: 14696
interactions π + K, chiral and scale breaking in SU(3) sigma model for scattering lengths for, (T), 25:36483 (SU-1206-241)
interactions π + K, chiral symmetry breaking from Veneziano amplitudes for, 24:45513
interactions π + K, comparison of Veneziano amplitude with chiral dynamics for, 23:44652
interactions π + K, conference on, 24:30500 (CONF-690521)
interactions π + K, consequences of duality and unitarity for Pomeranchuk singularities in, 24:20148
interactions π + K, consistency of broken chiral symmetry and Veneziano models for, 24:15561
interactions π + K, coupled dynamic equations with unitarity and crossing for, 23:46707
interactions π + K, crossing-symmetric model satisfying Mandelstam representation for, 25:22802
interactions π + K, dispersion relations for complex t values from axiomatic field theory for, 21:21229
interactions π + K, dispersion sum rules for amplitudes and scattering lengths for elastic, (T), 24:42962
interactions π + K, duality for low-energy parameters for Veneziano model for Adler zero in, 24:24348
interactions π + K, effect of secondary Veneziano terms on scattering lengths for, 23:51925
interactions π + K, equivalent potential for K*(890) exchange in, 21:4046
interactions π + K, equivalent potential method for amplitudes of relativistic, 21:17106 (UCRL-17311)
interactions π + K, exact inequalities involving S- and P-wave partial-wave amplitudes and derivatives for, (T), 25:59452
interactions π + K, finite-energy sum rules for, 22: 46420
interactions π + K, finite-energy sum rules for, 23: 44648
interactions π + K, form factors for K $\rightarrow$ l + π + ν decay using Veneziano-type amplitudes for, 23:46670
interactions π + K, forward dispersion relation sum rule for amplitudes of, 22:37139
interactions π + K, ghost states in Veneziano crossing symmetric Regge formula for, 23:49139
interactions π + K, internal symmetry in S-matrix formalism for, 21:29532
interactions π + K, internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions π + K, invariant amplitude of Veneziano type for, 23:39705
interactions π + K, Kronecker-delta singularities in amplitudes of Pomeranchuk theorem violation in, (T), 25:22791
interactions π + K, off-mass-shell Veneziano amplitude for, 25:38737
interactions π + K, PCAC and Veneziano model for relation of amplitudes for elastic and inelastic, 23: 30748
interactions π + K, PCAC consistency condition in Veneziano model for, 24:3631
interactions π + K, phenomenological approach for, 22: 3396
interactions π + K, phenomenological fields and Lagrangians for, 21:44368
interactions π + K, pole-dominance method for elastic, 23:5614
interactions π + K, resonance saturation of axial charge commutator between meson (K) states for Veneziano-type, 24:3647
interactions π + K, review of Veneziano model relation with chiral symmetry in, (T), 24:43061
interactions π + K, sum rules for, 21:25336
interactions π + K, superconvergence sum rules for combination of elastic π + N, π + π, K + N, and, 22:48297
interactions π + K, symmetry-breaking effect on p-wave resonances in, (T), 25:5394
interactions π + K, universality of rho coupling in sum rules for, 23:21119
interactions π + K, Veneziano model and chiral symmetry breaking for, 25:1522
interactions π + K, Veneziano model for amplitude of, 23:42657
interactions π + K, Veneziano model for amplitudes of, 24:1585
interactions π + K, Veneziano model results from isobaric model for scattering lengths of, 24:3642
interactions π + K, Veneziano-type amplitudes and S-wave scattering lengths for, (T), 23:13091
interactions with baryons, static bootstrap model for, 23: 23475
interactions with elementary particles, statistical model for multiple particle production in, (T), 21:4095 (JINR-P2-2956)
interactions with nucleons from $\gamma(\pi)$ + d $\rightarrow$ K + hyperons + N, final-state, 21:25322
interactions Ξ + anti K, SU(3) symmetry for Ω^- dynamics from phase shifts for, 22:3502
interactions Ξ + K $\rightarrow$ Ω^- (1674), (T), 22:7521
lifetime for three-body electronic decay of, radiative correction to, (T), 24:10703
lifetime for three-body muonic decay of, radiative correction to, (T), 24:10703
mass degeneracy (K - kappa) for K_{l1} and K_{l1}, decay form factors, 23:15058
mass difference (K - π) effects on K $\rightarrow$ 3π decay, 22: 48282
mass difference effects on ΔT = 1/2 violation in $K^+ \rightarrow 3\pi$ and $K^0 \rightarrow 3\pi$ decays, (T), 22:44385 (IFVE-STF-68-2-K)
mass difference of, Veneziano representation for electromagnetic, 24:13002
mass in broken SU(3) x SU(3), chiral Lagrangian for, 23:46772 (NP-18008)
mass in particle theory with reduction of number of basic constants by using pseudoscalar parameters, 22:17880
mass of, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for sum rules and ratios for, 24:3726
mass of, dispersion sum rules for symmetry-breaking parameter in strong-interaction Hamiltonian for, (T), 24:47491
mass of, phenomenology of effective matrix for, (T), 25: 14764
mass of, spectral function sum rules with symmetry breaking for, (T), 25:40994
mass shift of, linear SU(3) sigma model for correlation between eta $\rightarrow$ 3π decay, octet baryon ΔI = 1 mass shifts, and, 25:59380
mass shift of, SU(3) sigma model for electromagnetic, (T) , 25:33791 (SU-1206-245)
mass splitting (K - π), nontadpole contribution to, 25: 30791
mass splitting in Lagrangian model, low-energy approach to electromagnetic, 25:25364
model for spin-1/2, 23:21094
model for, Dirac particle and antiparticle bound in $^1S_0$ state as, 21:27366
model with nucleons for empirical regularities in spectra of small-mass baryons, 24:28548 (JINR-P2-4987)
parity of KΣN system from π^+ + p $\rightarrow$ K^+ + Σ^+ interactions, (E), 22:13673
parity relative to Σ from π^+ + p $\rightarrow$ K^+ + Σ^+ interactions, intrinsic, (E), 22:22316
penetration in lead, anomalous, (E), 21:42256
photoproduction of, Regge parametrization for, 23: 18858
polarization of, magnetic dipole, 23:8775
production and decay in e^+ + e^- interactions, (E), 23: 32600 (LNF-69/6)
production and decay of strange 0^-, 25:53117
production at high energies, two-temperature statistical model for, 21:13698 (N-66-37560)
production by high-energy cosmic radiation, (E), 22: 5166
production from K^+ + d interactions at 1.2 GeV/c, I = 0 structure from S-state K $\rightarrow$ K*(890) channel coupling in, (T), 22:9626
production in 60- and 1000-GeV jets in emulsions, K/π ratio for secondary, (E), 25:14509 (INP-718)
production in 60-GeV accelerator and 1000-GeV cosmic ray jets, comparison of K/π ratio for, (E), 24:49305
production in anti p + p interactions, angular distributions and cross sections for, (E), 22:17860
production in cosmic particle reactions with atmospheric nuclei, temperature-effect dependence on mechanism for atmospheric μ production for ratio of π and, (T), 25:7537
production in four-prong π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, angular distributions for, (E), 25:22705
production in four-prong π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, angular and momentum distributions for, (E), 25:56428 (IFA-HE-75)
production in γ + N $\rightarrow$ K + Λ interactions, Stichel theorem for, (T), 25:17439
production in γ + N interactions, (E), 24:24278
production in γ + N interactions, modified coherent droplet model for, 23:15025
production in γ + N interactions, status and perspectives of experiments on, 23:10777 (CALT-68-171)
production in high-energy interactions, transverse momentum distribution from, 21:21204
production in high-energy interactions, two-temperature statistical model for, 21:21253
production in inelastic p + p interactions at 5.4 and 6.6 GeV/c in hydrogen bubble chamber, proton momentum spectrum from, (E), 24:37633
production in K + p $\rightarrow$ K + 2π + p interactions, natural- and unnatural-parity components in diffractive, (T), 25:22827
production in K + p and π + p interactions at high energies, large-momentum-transfer, (T), 24:37746
production in μ^+ + N interactions at 10.1 GeV/c and μ^- + N interactions at 14.6 GeV/c in emulsions, energy spectrum, angular distributions, and cross sections for, (E), 24:20058
production in N* and Δ decay in π + p $\rightarrow$ $\Lambda(\Sigma)$ + K + π and π + p $\rightarrow$ Σ + K + 3π interactions at 5 GeV/c, (E), 23:42569
production in p + p $\rightarrow$ Y + K + N interactions, π and K exchange contributions to, (T), 25:14597
production in p + p inelastic scattering at 12.5 GeV/c, diffraction model study of, (E), 22:52932
production in p + p interactions at 12.4 to 12.5 GeV/c, differential cross section for, (E), 25:17379
production in p + p interactions at high energies, two-temperature statistical model for spectra of, 23:7156
production in photon—baryon interactions, hyperon magnetic moments from dispersion sum rules for, 21: 33655
production in proton reactions with aluminum and beryllium and p + p interactions at 10 to 70 GeV/c, scaling law and empirical formulas for, (T), 24:51937
production in proton reactions with aluminum, beryllium, copper, lead, and polyethylene at 12.3 GeV/c, yields and differential cross sections for, (E), 23:8732
production in proton reactions with beryllium and copper at 12.3 GeV/c, differential cross sections for, (E), 23: 25523
production in proton reactions with copper at 0.75 to 1.5 GeV, (T), 21:17318(R) (AECL-2659)
production in proton reactions with nuclei at 6 to 10 GeV, yield of, 23:27820 (ITEF-620)
production in proton reactions with nuclei at 8 GeV/c, (E), 21:7458
production in π + N interactions at high energies, review of multiple, (E), 24:20157
production in π^- + N interactions at 17.2 GeV/c in nuclear emulsions, 22:44336
production in π^- + p interactions at 20 GeV in hydrogen bubble chamber, cross sections for, (E), 24: 45445
production in π^- + p interactions at 4.0 GeV/c, correlations between longitudinal and transverse momentum components for, (E), 25:7562
production in π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, correlation between transverse and longitudinal momenta in, (E), 24:45443
production in π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, momentum and angular distributions for, (E), 25:56427 (IFA-HE-73)
production in π^+ + p interactions at 8.04 GeV/c in hydrogen bubble chamber, cross sections for, (E), 24: 45444
production of anti K - K pairs in four-prong π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, (E), 25:56428 (IFA-HE-75)
production of anti K - K pairs in p + p $\rightarrow$ 2p + n(anti K + K) + mπ interactions, multiperipheral model for cross sections for, (T), 25:33693 (SU-1206-247)
production of anti K and K in π + N and N + N interactions, generalized mutiperipheral model for properties of partial cross sections for, (T), 25:36422
production of anti K and K in π^+ + d and π^+ + n interactions at 5.1 GeV/c, associated, (E), 25:12100 (NP-18629)
production of K and anti K in π + p interactions, multiperipheral model for cross sections for, (T), 25: 41026
production of K anti K pairs from K^- + p interactions at 4.25 GeV/c in hydrogen bubble chamber, (E), 22:3268 (ORO-2504-109)
production of K—anti K pairs in four-prong π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, (E), 25:22704
production of K—anti K pairs in p + p interactions, multiperipheral model for cross sections for, (T), 25: 41026
production of KantiK pairs in high-energy interactions, multi-Regge model for, 23:27793
production of Y and K in π^+ + d and π^+ + n interactions at 5.1 GeV/c, associated, (E), 25:12100 (NP-18629)
production with hyperfragments in meson (K^-) reactions with nuclei at 1.5 GeV/c in emulsions, (E), 24:10684
production with hyperons in π^- + p interactions, multiperipheral model for cross sections for, (T), 25: 41026
production with strangeness-1 hyperons in π^- + p interactions at 6.7 GeV/c in hydrogen bubble chamber, cross sections for, (E), 24:10688
properties of anti K - K system, review of, (E/T), 22: 7482
range—energy of 50- to 50,000-MeV, empirical relations for, 23:51882(T) (ORNL-tr-2208)
reactions with helium-3, Regge-pole eikonal theory for elastic and charge-exchange, 24:24397
reactions with light nuclei, cross sections for double charge-exchange, (T), 25:9974 (JINR-P2-5286)
reactions with nuclei above 50 MeV, cross-section data compilation for, 23:5944 (JINR-P2-4068)
reactions with nuclei above 50 MeV, cross-section data compilation for, 23:19330(T) (ORNL-tr-2073)
reactions with nuclei at 1 to 900 GeV, cross sections and resonances in coherent production of particles in, (E/T), 24:47481
reactions with nuclei at high energies in emulsions, cross sections for, 21:27307
reactions with nuclei at high energies, charge and mass distributions in nuclei from charge-exchange, 23:36954
reactions with nuclei at high energies, Regge pole model for, 22:1450 (AD-648017)
reactions with nuclei at high energies, Regge-pole model for, 21:42395
reactions with nuclei at low energies, reaction-matrix method and statistical model of, 25:30906
reactions with nuclei, properties of, 22:18110
reactions with nuclei, quark model for relations between differential cross sections for neutral vector meson production in γ reactions with nuclei and total cross sections for, (T), 25:1442 (ITF-70-40)
reactions with nuclei, review of diffractive processes in, (T), 25:17501
Reggeization of, 24:8586
research at Maryland Univ., Oct. 1969 to Sept. 1970, (E) , 24:40267(R) (ORO-2504-158)
research at Maryland Univ., October 1968 to September 1969, review of, (E), 23:39605(R) (ORO-2504-142)
scattering by nuclei above 50 MeV, tables for cross sections and total cross sections for elastic and inelastic, (E), 24:20085
separation from mesons (π), rejection rate of multiplate separator for, (T), 23:44667 (CERN-69-10)
spectral functions for, model of spin-0, 24:42954
sum rules for $A_2\pi$eta, A_1KK, K**Kπ, and K**Keta constants in, PCAC hypothesis and equal-time commutators for, 22:20227
symmetry for, nonlinear realization of SU(3) x SU(3), 23:23512
symmetry for, SU(3) nonlinear representations in model for SU(3) violation of, 23:51974
symmetry for, SU(3) x SU(3) nonlinear chiral dynamic Lagrangian in, 24:37820
theory for KN system, quasipotential formalism for field-theoretic and phenomenological analysis in, (T), 25: 59422 (JINR-E2-6046)
theory for Sakata triplet (π, K, eta), Lagrangian in SU(3) symmetry for, 22:17994
theory for, nonrelativistic treatment for composite model in, 21:27366

trajectory for strange 0^-, from duality, 25:53117
wave function renormalization constants for, relation with masses and decay constants relative to π for, 24:26433
wave function renormalization constants for, relation with masses and decay constants relative to rho for, 24:26433
wave function renormalization constants for, review of, 24:43004
width of, broken SU(3) x SU(3) chiral algebra for, (T), 25:5395

MESONS (K^-)
absorption at rest by emulsion nuclei, $\Sigma\pi$ pair emission from, (E), 22:29641
absorption by carbon, nitrogen, and oxygen, analysis for cluster effects in, 24:45741
absorption by carbon-12 in nuclear emulsion, production of particle-unstable state of A-C^{11} from, 25:7555
absorption by carbon-12, nitrogen-14, and oxygen-16, analysis of mechanism in, 25:56653 (LYCEN-7104, S4.1-10)
absorption by complex nuclei, role of Y_0^* resonance in, (T), 23:40104
absorption by heavy nuclei, neutron halo studies by, (E/T), 25:7847 (ORNL-4513)
absorption by helium-4 in $K^- + {}^4He \rightarrow \pi^- + \Lambda + {}^3He$ interactions, $\Sigma \rightarrow \Lambda$ conversion in, (T), 21:17115
absorption by lead-208, x-ray yields from, 25:979
absorption by neon at rest in bubble chamber, Σ, Λ, and hyperfragment production in, (E), 25:22690 (TID-25667)
absorption by neon at rest, hyperfragment production from, (E), 22:50298
absorption by neon in bubble chamber, general systematics of, (E), 25:12106
absorption by neon in bubble chamber, production of excited states from, (E), 25:19908
absorption by nickel-58 and -60, oxygen-16, and silver-107 nuclear surface, neutron/proton density distributions from, (T), 25:53683
absorption by nitrogen-14 in nuclear emulsion, production of particle-unstable state of A-N^{14}*, 25:7555
absorption by nuclei at 20 to 40 GeV/c, cross sections for, (E), 25:5265 (CONF-700314-, Paper 4)
absorption by nuclei at 20 to 65 GeV/c, cross sections for, (E), 25:5295
absorption by nuclei at rest in emulsions, properties of Σ^- and Σ^+ produced in, (E), 25:36400
absorption by nuclei at rest in emulsions, Q-value distribution for detection of A-He^3, A-Li^8, and A-Be^8 produced in, (E), 25:36401
absorption by nuclei, implications for neutron distribution, (E/T), 23:13342
absorption by nuclei, x-ray yields from, 24:52105
absorption by sulfur, natural line width and energy shift of 4f $\rightarrow$ 3d transition from, (E), 24:42884
absorption by Z = 17 through 56 nuclei, x-ray spectra for, (E), 23:40016
absorption in helium-4, x-ray spectra and nuclear capture rate for, 21:38217
absorption in nuclei at rest, extrapolation of $K^- + p$ interactions below threshold from, (T), 25:30902
absorption rate in oxygen-16, two-nucleon, 24:52149
beam separation from pion and antiproton beams in AGS, performance of rf separator for, 21:31672
capture at 0.8 to 3.5 GeV/c in emulsions, Λ potential well depth determination from, 21:44280
capture at rest in nuclear emulsions, production of A-He^4 and A-He^3 hyperfragments by, (E), 22:50301
capture by atoms having Z = 7 to 12, processes involved in, analysis based on x-ray measurements, 24:47012 (CONF-690557-(Vol.2), pp 694-707)
capture by carbon at rest in diamond-loaded emulsions, charged $\Sigma\pi$ pair and Σ^+ and Σ^- production from, (E), 24:6693
capture by carbon-12 at rest in emulsions, Y_0^*(1405) production from, (E), 21:42272
capture by chlorine, x-ray spectra from, 25:47799
capture by complex nuclei at rest in emulsions, reaction channels in, (E), 21:42272
capture by emulsion nuclei, evidence for neutron distribution in surface of heavy nuclei from, 21:25490
capture by emulsion nuclei, evidence for neutron excess in surface of nuclei from, 21:25489
capture by gadolinium-157, (T), 25:25786
capture by heavy nuclei as evidence for neutron halo, (T), 23:40140
capture by helium atoms, properties of metastable states formed in, 23:39311
capture by helium-4 from 2P orbit, π^- and Λ^0 production in, 21:9794
capture by helium-4 in 1S and 2P state, multiple-impulse approximation for analysis of, (T), 24:37816
capture by helium-4, impulse model for $\Lambda\pi^-$ and $\Sigma^+\pi^-$ production in, (T), 24:40418
capture by helium-4, K—N s-interaction in, 21:35413
capture by light nuclei, x-ray spectra from, 21:20742
capture by lithium-6 and lithium-7, gamma spectra from A-H^4 and A-He^4 hyperfragments from, 25:53033
capture by low-Z atoms, x rays from, review, (E), 24:47010 (CONF-690557-(Vol.2), pp 639-68)
capture by medium and heavy elements, x-ray studies of mechanisms of, 24:47011 (CONF-690557-(Vol.2), pp 669-93)
capture by neon, A-hyperfragment production from, (E), 24:28482
capture by nuclei at rest in diamond-loaded emulsions, separation into light and heavy nuclei, charged $\Sigma\pi$ pair, and Σ^+ and Σ^- production from, (E), 24:6693
capture by nuclei from atomic orbitals, rates of peripheral, 25:1570
capture by nuclei from mesic atoms, approximations in calculation of rates of, 22:44442
capture by nuclei, description of, (E/T), 23:19339 (RHEL/R-166, pp 129-40)
capture by nuclei, x-ray spectra for, (E), 23:47045 (UCRL-18891)
capture by nuclei, x-ray spectra from, 25:47799
capture from 2P state of helium-4, predictions from K + α elastic scattering, (E/T), 22:7444
capture in beryllium, carbon, helium, and lithium, x-ray spectra and Monte Carlo cascade calculations for, 24:21563 (NAL-37)
capture in diamond-loaded emulsions, hyperfragment production from, (E), 21:15490
capture ratio for protons and neutrons in helium-4 from $A\pi^+$ ^1H and $A\pi^-$ ^3He final states, 24:32971
charge of, magnitude relative to π^+ and π^-, (T), 21:33627
coupling constant for ωKantiK relative to phiKantiK, ω—phi mixing angle from, 22:11666
coupling constant of anti KNY^* from $K^- + d \rightarrow \Lambda + \pi^- + p$ interactions at 400 MeV/c, (E/T), 24:24254
coupling constant $Y_0^*K^-p$, from $K^- + n \rightarrow Y_0^* + \pi^-$ interactions at 3 GeV/c, (T), 25:25327
coupling constants for $K^-p\Lambda$ and $K^-p\Sigma^0$ from dispersion relations for $K^- + p$ forward elastic scattering amplitudes, (T), 23:42676
coupling constants for Λ anti K N from KN forward dispersion relation, 21:44384
coupling constants for ΛK^-p and ΣK^-p from dispersion relations for elastic $K^- + p$ interactions at low energies, 23:23492
coupling constants for ΛK^-p from forward amplitudes for $K^+ + p$ and $K^- + p$ interactions, 25:33735
coupling constants for ΣK^-p from forward amplitudes for $K^+ + p$ and $K^- + p$ interactions, 25:33735
decay in helium bubble chamber, cascade time for, (E), 24:47363 (CONF-690557-(Vol.2), pp 753-7)
decay in helium bubble chamber, cascade time for, (E), 25:5254
decay $K^- \rightarrow 2\pi$ (I = 2) amplitudes and CP violation, 22:3357
decay $K^- \rightarrow 2\pi^- + \pi^+$, CP invariance from upper limit for asymmetry of, (E), 25:33790 (PURC-4159-24)
decay $K^- \rightarrow 2\pi^+ + \pi^-$, matrix element for, (E), 25:50053 (PURC-4159-39)
decay $K^- \rightarrow 2\pi^- + \pi^+$, search for CP violation in, (E), 25:3427
decay $K^- \rightarrow 3\pi$, CP conserving P-wave amplitudes in, 24:10691(R) (COO-264-532)
decay $K^- \rightarrow 3\pi$, CP invariance in, (E), 24:20069
decay $K^- \rightarrow 3\pi$, CP invariance violation in, (T), 23:5656
decay $K^- \rightarrow 3\pi$, isospin analysis of possible CP violating effects in, 22:3349
decay $K^- \rightarrow 3\pi$, isotopic spin analysis of CP violating effects in, 22:1464 (N-67-22464)
decay $K^- \rightarrow 3\pi$, pion pole model for branching ratios of, (T), 23:8780
decay $K^- \rightarrow 3\pi$, Regge theory for final-state interactions in, (T), 23:8801
decay $K^- \rightarrow e^- +$ anti $\nu + \pi^0$, radiative corrections to rate of, 23:39657
decay $K^- \rightarrow e^- + \nu + \pi^0 + \gamma$, verification of time reversal invariance in, (T), 24:10800
decay $K^- \rightarrow e^- + \nu + \pi^+ + \pi^- + \pi^0$, pion-pole model for rate of, 22:3252
decay $K^- \rightarrow e^- + \pi^0 + \nu$, radiative corrections to Dalitz plot for, 22:3359
decay $K^- \rightarrow \gamma + e^+ + e^-$, rates for, (T), 21:9756
decay $K^- \rightarrow \gamma + \pi + \pi$, CP noninvariant effects in, (T), 21:17149
decay $K^- \rightarrow \gamma + \pi^0 + \pi^-$, CP noninvariance with $\Delta T > 1/2$ in, 21:21188
decay $K^- \rightarrow l +$ anti $\nu + \gamma$, charged W-boson for weak structure effects in, (T), 24:49424
decay $K^- \rightarrow l^- +$ anti $\nu + \gamma$, zero energy theorem for structure dependent vector form factor in, 22:32109
decay $K^- \rightarrow l^- + \pi^0 + \nu$, current algebra and kappa dominance for form factors of, 23:8788
decay $K^- \rightarrow l^- + \pi^0 + \nu$, review of experiments on, 22:13643
decay $K^- \rightarrow \mu + \nu$, strong couplings from, 24:3597
decay $K^- \rightarrow \mu^-$ + anti $\nu + e^+ + e^-$, test of time reversal invariance in, (T), 24:28576
decay $K^- \rightarrow \mu^-$ + anti $\nu + \pi^0$, radiative corrections to μ^- polarization in, 23:39657
decay $K^- \rightarrow \mu^-$ + anti $\nu + \pi^0$, radiative corrections for rate of, 23:39657
decay $K^- \rightarrow \mu^-$ + anti ν, associative algebraic model for, 23:21085
decay $K^- \rightarrow \mu^-$ + anti ν/sub mu/, scintillation counter study of branching ratio and rate for, 21:29432
decay $K^- \rightarrow \mu^- + \nu$ relative to $K^+ \rightarrow \mu^+ + \nu$, test of CPT invariance from rate, (E), 22:48346
decay $K^- \rightarrow \mu^- + \nu$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
decay $K^- \rightarrow \pi + \mu + \nu$, radiative corrections to Dalitz plot for, 24:24321
decay $K^- \rightarrow \pi + \pi + e + \nu$, current algebra for vector form factor for, 22:7486
decay $K^- \rightarrow \pi^0 + e(\mu^0)$ + anti $\nu + \gamma$, soft-pion theorems for photon spectra and rate for, 24:13020
decay $K^- \rightarrow \pi^0 + e^- + \nu$, field and quark algebra predictions from identity for relation of current commutator with rate of, (T), 25:17455
decay $K^- \rightarrow \pi^0 + l^-$ + anti ν, radiative corrections to Dalitz plot of, (T), 25:45715
decay $K^- \rightarrow \pi^0 + \mu^- + \nu$ with finite neutrino mass, radiative corrections to, 22:24615
decay $K^- \rightarrow \pi^0 + \pi^0 + \pi^-$, CP violation effects on spectra of, (T), 23:13070
decay $K^- \rightarrow \pi^0 + \pi^-$, CP noninvariance with $\Delta T > 1/2$ in, 21:21188
decay $K^- \rightarrow \pi^- + 2\gamma$, sigma- and eta-pole approximation models for, (T), 22:7637(R) (COO-1573-33)
decay $K^- \rightarrow \pi^- + 2\pi^0$, comparison with $K^+ \rightarrow \pi^+ + 2\pi^0$ decay for partial rates of, (E), 25:5261
decay $K^- \rightarrow \pi^- + e^+ + e^-$ and $K^- \rightarrow \pi^- + \mu^+ + \mu^-$, branching ratios for, (T), 23:13068
decay $K^- \rightarrow \pi^+ + e^- + e^-$, branching ratio for, (E), 22:17849
decay $K^- \rightarrow \pi^- + e^+ + e^-$, rates for (T), 21:9756
decay $K^- \rightarrow \pi^- + \gamma + \gamma$, CP violation in, 25:30928
decay $K^- \rightarrow \pi^- + \gamma + \gamma$, rates for, (T), 21:9756
decay $K^- \rightarrow \pi^- + \nu +$ anti ν branching ratio in neutral current CP-violating theory, 23:46666
decay $K^- \rightarrow \pi^- + \nu +$ anti ν, upper bound for branching ratio for, (T), 24:37725
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$ in current algebra, effects of CP violation in, 23:1620
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$, CP asymmetries in direct processes from branching ratio of, (E), 24:21918 (COO-1195-171)
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$, CP violation in, 21:37876
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$, CP violation in, 21:25332
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$, CP violation in, 25:47923
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$, current conservation for amplitude of, 21:42332
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$, search for direct processes and upper limit for asymmetries in partial rates for, (E), 25:12085
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$, strength of magnetic radiation in, (T), 24:33002
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$, unitarity for $\pi + \pi \rightarrow \pi + \pi + \gamma$ contribution to matrix elements for, 22:1419 (TH-206)
decay $K^- \rightarrow \pi^- + \pi^0 + \gamma$, unitarity for $\pi\pi$ contribution to, 22:15743
decay $K^- \rightarrow \pi^- + \pi^0 + \pi^0$ relative to $K^+ \rightarrow \pi^+ + \pi^0 + \pi^0$, ratio of rates for, (E), 24:12930
decay $K^- \rightarrow \pi^- + \pi^0 + \pi^0$ relative to $K^+ \rightarrow \pi^+ + \pi^0 + \pi^0$, CP violation from rate of, 22:48214 (COO-1195-128)
decay $K^- \rightarrow \pi^- + \pi^0 + \pi^0$, comparison with $K^+ \rightarrow \pi^+ + \pi^0 + \pi^0$ for test of CP and CPT invariance, (E), 24:10659 (COO-1195-169)
decay $K^- \rightarrow \pi^- + \pi^0 + \pi^0$, CP violation in, 25:47923
decay $K^- \rightarrow \pi^- + \pi^0 + \pi^0$, harmonic analysis on Dalitz plot for, 21:31567 (CTS-HE-67-3)
decay $K^- \rightarrow \pi^- + \pi^0 + \pi^0$, review on, 25:47807
decay $K^- \rightarrow \pi^- + \pi^0$ in current algebra, effects of CP violation in, 23:1620
decay $K^- \rightarrow \pi^- + \pi^0$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
decay $K^- \rightarrow \pi^- + \pi^0$, isotopic-spin decomposition of amplitudes for, 21:21183
decay $K^- \rightarrow \pi^- + \pi^0$, model for relation with S-wave $\Sigma^+ \rightarrow n + \pi^+$ decay, 22:32108
decay $K^- \rightarrow \pi^- + \pi^0$, model for unitary structure of parity- and strangeness-changing, 22:29674
decay $K^- \rightarrow \pi^- + \pi^0$, SU(2) x SU(2) symmetry breaking effect from Cabibbo rotation on, 24:20127
decay $K^- \rightarrow \pi^- + \pi^+ + e^- +$ anti ν in Veneziano model, form factors for, 24:20126
decay $K^- \rightarrow \pi^+ + \pi^- + l^- + \nu$ rates and form factors from once subtracted dispersion relations and current algebra, 23:46663
decay $K^- \rightarrow \pi^- + \pi^+ + \pi^- + \gamma$, charge asymmetry in, 23:34633
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$ relative to $K^+ \rightarrow \pi^+ + \pi^+ + \pi^-$, CP-invariance violation from rate of, (E), 21:33594
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$ relative to $K^+ \rightarrow \pi^+ + \pi^+ + \pi^-$, measurement of partial rates for, (E), 22:48215
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$ relative to $K^+ \rightarrow \pi^+ + \pi^+ + \pi^-$, rate of, (E), 22:48346
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$ relative to $K^+ \rightarrow \pi^+ + \pi^+ + \pi^-$, search for CP or T violation in, (E), 22:48343 (COO-1195-136)
decay $K^- \rightarrow \pi^- + \pi^+ + \pi^-$ relative to $K^+ \rightarrow \pi^+ + \pi^- + \pi^+$, spark chamber study of CP violation in rates of, 21:35252 (COO-1195-98)
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$, CP violation effects on spectra of, (T), 23:13070
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$, Dalitz plot analysis of π spectra from, (E), 23:46601
decay $K^- \rightarrow \pi^+ + \pi^- + \pi^-$, effective six-quark interaction for relation with $\Sigma^+ \rightarrow n + \pi^+$ decay, 21:37816
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$, matrix element for, (E), 25:50163 (PURC-4159-34)
decay $K^- \rightarrow \pi^- + \pi^+ + \pi^-$, review on, 25:47807
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$, scintillation counter study of branching ratio and absolute rate for, 21:29432
decay $K^- \rightarrow \pi^- + \pi^+ + \pi^-$, search for CP violation in, (E), 24:8696
decay $K^- \rightarrow \pi^- + \pi^+ + \pi^-$, violation of $\Delta I = 1/2$ rule in, 25:47808
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$, wire spark chamber system with on-line computers for measurement of, 24:39349 (PURC-2137-22)
decay $K^- \rightarrow \pi^- + \pi^- + \pi^+$, wire spark chamber system with on-line computers for studying, 25:2491
decay $K^- \rightarrow \pi^+ + \pi^-$, harmonic analysis on Dalitz plot for, 21:31567 (CTS-HE-67-3)
decay of K^- - π^+ atoms, probability for anti $K^0 + \pi^0$ production from, (T), 23:46643(T) (SLAC-Trans-97)
decay of, CPT theorem validity determination from, (E), 21:23314 (BNL-994, pp 70-102)
decay of, phenomenological analysis and symmetry for, 21:17091
decay of, phenomenological analysis of CP noninvariance in 3π, 21:950
decay of, phenomenological model for CP-conserving nonleptonic weak, 21:4029
decay of, properties of weak—electromagnetic, (E/T), 23:51905 (JINR-P1-4557)
decay of, second-order radiative corrections for two- and three-body leptonic, 23:44614 (IC-69/85)
decay of, symmetry for, 23:39774
energy loss in homogeneous absorber, calculation of straggling distribution of, 23:1613
interaction $K^- + p \rightarrow K^{*0} + n \rightarrow K^- + p$ for fit to backward elastic scattering, 25:33734
interaction $K^- + p \rightarrow K^- + \pi^+ + \pi^-$ at 5.5 GeV/c in hydrogen bubble chamber, study of anti K $\pi\pi$ system in, 21:21138 (COO-1195-85)

interactions $K^- + p \rightarrow$ anti $K^0 + n$, $\Delta S = -\Delta Q$ parameter for anti K^0 leptonic decays from, 22:44318
interactions anti K + K, phase shifts and off-shell dependence from unitarized Veneziano formula, 24: 30504 (CONF-690521-, pp 562-618)
interactions in emulsions at 2.3 GeV/c, hyperfragment production from, (E), 21:44290
interactions in emulsions, double hyperfragment production and binding energy from, (E), 21:23314 (BNL-994, pp 70-102)
interactions in emulsions, hypernuclei production from, (E), 21:13677(R) (AD-641991)
interactions in emulsions, Λ production from, (E), 21: 18916
interactions in nuclear emulsions at 1.1 and 2.3 GeV/c, production of mesonic hyperfragments by, (E), 21: 40152
interactions in nuclear emulsions at rest, production of Λp(2110) enhancement in, (E), 25:22703
interactions in nuclear emulsions, π^+ decay of Λ-Be⁷ and Λ-B⁸ from, (E), 23:1600
interactions $K^- + (2n) \rightarrow \Sigma^- + n$ in light nuclei, pair absorption model for, 22:29721
interactions $K^- + (2p) \rightarrow \Lambda^0 + p$ in light nuclei, pair absorption model for, 22:29721
interactions $K^- + (2p) \rightarrow \Sigma^0 + p$ in light nuclei, pair absorption model for, 22:29721
interactions $K^- + (pn) \rightarrow \Lambda^0 + n$ in light nuclei, pair absorption model for, 22:29721
interactions $K^- + (pn) \rightarrow \Sigma^- + p$ in light nuclei, pair absorption model for, 22:29721
interactions $K^- + (Z,N) \rightarrow$ eta + (Z-1,N,A), tests of unitary symmetry in nuclei by, 21:33750
interactions $K^- + (Z,N) \rightarrow \pi^0 + (Z-1,N,A)$, tests of unitary symmetry in nuclei by, 21:33750
interactions $K^- + (Z,N) \rightarrow \pi^- + (Z,N-1,A)$, tests of unitary symmetry by, 21:33750
interactions $K^- + {}^3He$, multiple-scattering calculation of scattering lengths for, 23:23500
interactions $K^- + {}^4He \rightarrow (\Sigma^- n) + \pi^+ + d$ at rest in bubble chamber, upper limit on bound-state production rate in, (E), 23:18820
interactions $K^- + {}^4He \rightarrow (\Sigma^- nn) + \pi^+ + d$ at rest in bubble chamber, upper limit on bound-state production rate in, (E), 23:18820
interactions $K^- + {}^4He \rightarrow \Lambda + {}^3H + \pi^0$ at rest, Λ + ³H final-state interaction in, 24:52124
interactions $K^- + {}^4He \rightarrow \Lambda^0 + \pi^- + p + d$ at rest in bubble chamber, momentum spectra from, (E), 22: 15692
interactions $K^- + {}^4He \rightarrow \Lambda\text{-}H^3 + p + \pi^-$ in helium bubble chamber, properties of Λ-H³ from, (E), 24: 24246
interactions $K^- + {}^4He \rightarrow \Sigma^+ + t + \pi^- \rightarrow \Lambda^0 + p + d + \pi^-$ at rest, impulse model calculations of Σ conversion in, 22:35019
interactions $K^- + {}^4He \rightarrow Y + \pi + {}^3H$, impulse model for, (T), 24:40418
interactions $K^- + {}^4He$ in bubble chamber, cross sections and distributions for, (E), 24:40273
interactions $K^- + {}^4He$, multiple-scattering calculation of scattering lengths for, 23:23500
interactions $K^- + {}^4He$, scattering lengths for, (E/T), 24: 24247
interactions $K^- + \alpha$ at 110 to 160 MeV/c in helium bubble chamber, differential and total absorption cross sections for elastic, (E), 22:7444
interactions $K^- + d \rightarrow$ anti $K^{*0} + \pi^- + d$ at 3 GeV/c, coherent production and Deck effect in, (E/T), 22: 26663
interactions $K^- + d \rightarrow$ anti $K^0 + 2n$ at 96.7 to 300 MeV/c, cross section for, (E), 22:34850
interactions $K^- + d \rightarrow$ anti $K^0 + n + n$ at 96.7 to 300 MeV/c in deuterium bubble chamber, cross sections for, 21:37698 (COO-1195-87)
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + d$ at 3.0 GeV/c in bubble chamber, differential cross section for K^* production in, 23:36838
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + d$ at 4.48 GeV/c in deuterium bubble chamber, visible anti K^0 and $K^*(890)$ production in, (E), 24:32965 (COO-1428-166)
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + d$ at 4.5 GeV/c in deuterium bubble chamber, production of K(890) and meson (π) vector interference in, (E), 24:15479
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + d$ at 4.5 GeV/c in deuterium bubble chamber, ω exchange contribution to production of $K^{*-}(890)$ in, (E), 22:41737 (COO-1428-82)
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + d$ at 4.5 GeV/c, production of $K^*(890)$ in, (E), 24:40276
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- +$ MM at 4.5 GeV/c in deuterium bubble chamber, meson (π) vector interference and production of K(890) in, (E), 24: 15479
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + n + p$ interactions at 3 GeV/c in deuterium bubble chamber, nonstrange meson exchange in $K^*(895)$ and Δ(1236) production in, (E), 23:42578
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + p + n$ at 2.24 GeV/c in deuterium bubble chamber, K^{*-} and N^{*-} production in, (E), 21:37710
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + p + n$ at 4.48 GeV/c in deuterium bubble chamber, visible anti K^0 and resonance production in, (E), 24:32965 (COO-1428-166)
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + p + n$ at 4.5 GeV/c in deuterium bubble chamber, meson (π) vector interference and production of Δ(1236) and K(890) in, (E), 24:15479
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + p + n$ at 4.5 GeV/c, production of $\Delta^-(1236)$ in, (E), 24:40276
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + \pi^0 + d$ at 3.0 GeV/c in bubble chamber, production mechanism for anti K^{*0} and K^{*-} in, (E/T), 23:36838
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + \pi^0 + d$ at 4.48 GeV/c in deuterium bubble chamber, visible anti K^0 and resonance production in, (E), 24:32965 (COO-1428-166)
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + \pi^0 + d$ at 4.5 GeV/c, production of d^* in, (E), 24:40276
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^- + \pi^0 + d$ in deuterium bubble chamber at 4.5 GeV/c K(890), d^* enhancement, and K^* - d^* production in, (E), 24: 15479
interactions $K^- + d \rightarrow$ anti $K^0 + \pi^+ + \pi^- + \pi^- + n + p$/sub s/ at 5.5 GeV/c, search for $n\pi^-\pi^-(1630)$ enhancement in, (E), 25:25316
interactions $K^- + d \rightarrow d +$ anti $K^0 + \pi^-$ at 4.5 GeV/c, $K^*(890)$ production in, (E), 23:14979
interactions $K^- + d \rightarrow d + K^- + \pi^+ + \pi^-$, total cross sections for coherent, (T), 25:45768 (JINR-P1-5807)
interactions $K^- + d \rightarrow \gamma + \Lambda + n$, photon spectrum from, (T), 22:35007
interactions $K^- + d \rightarrow K + 2\pi + d$ at GeV/c in deuterium bubble chamber, nonstrange meson exchange in, (E), 23:42578
interactions $K^- + d \rightarrow K + \pi + d$ at 3 GeV/c in deuterium bubble chamber, nonstrange meson exchange in, (E), 23:42578
interactions $K^- + d \rightarrow K^- + d$ at 0.81 to 1.11 GeV/c, $K^- + n \rightarrow K^- + n$ interactions from, (E/T), 24:30460 (UCRL-19359(Add.))
interactions $K^- + d \rightarrow K^- + d$ at 1 GeV/c, cross sections and angular distributions for, (E), 25:38662 (NP-18891)
interactions $K^- + d \rightarrow K^- + d$ at 3.0 GeV/c in bubble chamber, differential cross section for, (E), 23:36838
interactions $K^- + d \rightarrow K^- + d$ at 810 to 1110 MeV/c, angular distributions for, (E), 25:59302
interactions $K^- + d \rightarrow K^- + d$ at low energies, analyticity properties for angular distribution in, (T), 22:29720
interactions $K^- + d \rightarrow K^- + d(n + p)$ at 810 to 1110 MeV/c in bubble chamber, amplitudes of $K^- + n \rightarrow K^- + n$ interactions from angular distributions for, (E), 24:8568 (UCRL-19359)
interactions $K^- + d \rightarrow K^- + d(p + n)$ at 810 to 1110 MeV/c, $K^- + n \rightarrow K^- + n$ interactions from angular distributions for, (E), 25:12108
interactions $K^- + d \rightarrow K^- + n + p$ and $K^- + d \rightarrow$ anti $K^0 + n + n$, cross sections for, (T), 21:29569
interactions $K^- + d \rightarrow K^- + n + p$ at 0.81 to 1.11 GeV/c, $K^- + n \rightarrow K^- + n$ interactions from, (E/T), 24:30460 (UCRL-19359(Add.))
interactions $K^- + d \rightarrow K^- + p + n$ at 810 to 1110 MeV/c, angular distributions for, (E), 25:59302
interactions $K^- + d \rightarrow K^- + \pi^- + 2p$ at 12.6 GeV/c, production of $p\pi^-(1450)$ enhancement, cross sections for $K + \pi \rightarrow K + \pi$ interactions, production cross sections for Ξ^- and Ω^-, and cross sections for, (E), 25: 59283
interactions $K^- + d \rightarrow K^- + \pi^- + p + p$ at 2.24 GeV/c, cross sections and resonance production and decay in, (E), 23:13042
interactions $K^- + d \rightarrow K^- + \pi^- + p + p$ at 5.5 GeV/c, cross section for $K^- + \pi^-$ interaction from, (E), 24:42882
interactions $K^- + d \rightarrow K^- + \pi^- + \pi^- + d$ at 12.6 GeV/c in deuterium bubble chamber, coherent production of Q and L mesons in, (E), 22:34857
interactions $K^- + d \rightarrow K^- + \pi^+ + \pi^- + d$ at 12.6 GeV/c, production of L and Q in, (E), 25:27967
interactions $K^- + d \rightarrow K^- + \pi^+ + \pi^- + d$ at 12.6 GeV/c, production of $K^*(890)$, $K^*(1420)$, Q(1300), and L(1750) in, (E), 24:18094
interactions $K^- + d \rightarrow K^+ + \pi^- + \pi^- + d$ at 3.0 GeV/c in bubble chamber, production mechanisms for K^* production in, (E/T), 23:36838
interactions $K^- + d \rightarrow K^- + \pi^+ + \pi^- + d$ at 5.5 GeV/c, $Q(K\pi\pi)$ enhancement in, 24:30457 (CONF-690521-, pp 520-8)
interactions $K^- + d \rightarrow K^- + \pi^+ + \pi^- + d$ at 5.5 GeV/c in bubble chamber, coherent production of anti $K^*(890)$ in, (E), 24:18089
interactions $K^- + d \rightarrow K^- + \pi^+ + \pi^- + n + p$ at 12.6 GeV/c, production of $n\pi^+\pi^-(1450)$ and $p\pi^+\pi^-(1450)$ enhancements, production cross sections for Ω^- and Ξ^-, and cross sections for, (E), 25:59283
interactions $K^- + d \rightarrow K^- + \pi^+ + \pi^- + n + p$ at 3 GeV/c in deuterium bubble chamber, nonstrange meson exchange production of K^* and N^* in, (E), 23: 42578
interactions $K^- + d \rightarrow K^- + \pi^+ + \pi^- + n + p$ at 5.5 GeV/c, cross section for anti $K^{*0}(890)$ and $\Delta^-(1236)$ production in, (E), 25:3274
interactions $K^- + d \rightarrow K^- + \pi^+ + \pi^- + p + n$ at 2.24 GeV/c, N^{*-} and N^{*++} production in, (E), 23:23385
interactions $K^- + d \rightarrow K^- + \pi^- + \pi^+ + p$ at 7.3 GeV/c in deuterium bubble chamber, partial cross sections, high peripherality, and $K^*(890)$ production in, (E), 25:14569
interactions $K^- + d \rightarrow \Lambda + n$ at 340 and 400 MeV/c, cross sections for, (E), 22:34862
interactions $K^- + d \rightarrow \Lambda + n$ at rest in bubble chamber, production rate for, (E), 24:47380 (CONF-690557-(Vol.1), pp 486-92)
interactions $K^- + d \rightarrow \Lambda + n$ at rest in bubble chamber, production rate for, (E), 24:37654
interactions $K^- + d \rightarrow \Lambda + n$ at rest in bubble chamber, test of nuclear charge independence from, (E), 24: 18083
interactions $K^- + d \rightarrow \Lambda + n$ from bound atomic s-states, 23:32763
interactions $K^- + d \rightarrow \Lambda + n$, low-energy theorem for, 24:8670
interactions $K^- + d \rightarrow \Lambda + n$, test of one-meson exchange mechanism from cross sections for, (T), 22: 44432
interactions $K^- + d \rightarrow \Lambda +$ negative meson at 2.11 and 2.65 GeV/c, search for eta' and delta⁻ in, (E), 22: 13662
interactions $K^- + d \rightarrow \Lambda + p + \pi^- + \pi^0$, possible experiments for test of isospin invariance of, 22:48300
interactions $K^- + d \rightarrow \Lambda + p + \pi^- + \pi^0$, strong interaction isospin invariance check from, (T), 22: 22381 (JINR-P2-3691)
interactions $K^- + d \rightarrow \Lambda + \pi + \pi + N$ at 670 to 925 MeV/c, Λp(2127) enhancement in, (E), 25:22701
interactions $K^- + d \rightarrow \Lambda + \pi^- + p$ at 400 MeV/c, anti KNY^* coupling from, (E/T), 24:24254
interactions $K^- + d \rightarrow \Lambda + \pi^- + p$ at 400 MeV/c, $\Lambda\pi^-(1440)$ enhancement from, (E), 23:1598
interactions $K^- + d \rightarrow \Lambda + \pi^- + p$ at 670 to 925 MeV/c, Λp(2127) enhancement in, (E), 25:22701
interactions $K^- + d \rightarrow \Lambda + \pi^- + p$ at threshold to 1400 MeV, $\Lambda\pi$ angular distributions scattering length, and phase shift from, (T), 25:45680
interactions $K^- + d \rightarrow \Lambda + \pi^- + p$ near 1.0 GeV/c, Λp(2130) enhancement in, (E), 23:16936
interactions $K^- + d \rightarrow \Lambda + \pi^- + \pi^+(\pi^0) + n(p)$ at 400 MeV/c in bubble chamber, production of Λ(1520) in, (E), 23:49048
interactions $K^- + d \rightarrow \Lambda(\Sigma^0) + \pi^- + p$ at 400 MeV/c in bubble chamber, Σ(1385) production and $Y + \pi$ partial-wave amplitudes below anti K + N threshold in (E), 25:25321
interactions $K^- + d \rightarrow \Lambda^0 + p + \pi^-$ at 1.45 and 1.65 GeV/c, Λp (2130) enhancement in, (E), 25:38668
interactions $K^- + d \rightarrow \Lambda^0 + \pi^-$ + missing mass at 2.1 and 2.65 GeV/c in deuterium bubble chamber, Y^* production from, (E), 22:1386 (SLAC-PUB-348)
interactions $K^- + d \rightarrow \Lambda^0 + \pi^- + \pi^0$, at 2.1 and 2.65 GeV/c in deuterium bubble chamber, Y^* production from, (E), 22:1386 (SLAC-PUB-348)
interactions $K^- + d \rightarrow p +$ anti $K^0 + \pi^-$ + MM at 4.48 GeV/c in deuterium bubble chamber, visible anti K^0 and resonance production in, (E), 24:32965 (COO-1428-166)
interactions $K^- + d \rightarrow p +$ anti $K^0 + \pi^- + n$ at 4.5 GeV/c in bubble chamber, production and decay angular distributions of $K^*(890)$ in, (E), 23:42575
interactions $K^- + d \rightarrow p + \Lambda +$ eta⁻, eta' spin and parity from, (E), 25:5291
interactions $K^- + d \rightarrow p + \Lambda + \pi^+ + \pi^- + \pi^0$ at 3 GeV/c, cross section for B(1220) production in, (E), 25:12118
interactions $K^- + d \rightarrow p + \Lambda + \pi^-$, validity of impulse approximation for K^- + d interactions at 1 GeV/c from, (T), 25:38662 (NP-18891)
interactions $K^- + d \rightarrow p + \Lambda(\Sigma^0) + 2\pi^- + \pi^+$ at 4.48 GeV/c in deuterium bubble chamber, Σ(1645) production in, (E), 23:44600 (COO-1428-141)
interactions $K^- + d \rightarrow p + \Lambda^0 + \pi^-$ + neutrals at 4.48 Gev/c, impulse model for, (E/T), 25:1416
interactions $K^- + d \rightarrow p + \Lambda^0 + \pi^+ + \pi^- + \pi^+$ at 4.5 GeV/c, production of Σ(1642) in, (E), 24:15480
interactions $K^- + d \rightarrow p + n + K^- + \pi^+ + \pi^-$ at 3.0 GeV/c, production and decay of anti $K^{*0}(890)$ and $\Delta^-(1236)$ in, (E), 24:49339
interactions $K^- + d \rightarrow p + \pi^+ + 2\pi^- + n +$ anti K^0 at 4.48 GeV/c in deuterium bubble chamber, evidence for $n\pi^+\pi^-(1627)$ enhancement in, (E), 25:22687 (COO-1428-255)
interactions $K^- + d \rightarrow p + \pi^-$ + anti $K^0 + n$ at 2.24 GeV/c in deuterium bubble chamber, $K^*(891)$ production from, 21:33622
interactions $K^- + d \rightarrow p + \pi^- + \Lambda$ below 250 MeV/c in deuterium bubble chamber, search for I = 0, Y = 0 baryon in, (E), 23:39617
interactions $K^- + d \rightarrow p + \pi^- + \Lambda^0$, impulse approximation calculations for, (T), 21:9812
interactions $K^- + d \rightarrow p + \pi^-$ + missing mass below 250 MeV/c in deuterium bubble chamber, search for I = 0, Y = 0 baryon in, (E), 23:39617
interactions $K^- + d \rightarrow p + \pi^-$ + neutrals at 4.48 GeV/c in deuterium bubble chamber, π/sub N/(980) production in, (E), 23:30718
interactions $K^- + d \rightarrow p + \pi^+ + \pi^- + \pi^- + n +$ anti K^0 at 4.91 GeV/c, $n\pi^-\pi^-(1627)$ enhancement in, (E), 25:9671
interactions $K^- + d \rightarrow p + \pi^- + \pi^- + \pi^- + n$ anti K^0 at 4.48 GeV/c, evidence against $n\pi^-\pi^-(1627)$ enhancement in, (E), 25:25318
interactions $K^- + d \rightarrow p + \pi^- + \Sigma^0$ below 250 MeV/c in deuterium bubble chamber, search for I = 0, Y = 0 baryon in, (E), 23:39617
interactions $K^- + d \rightarrow p + \Sigma^0(\Sigma^-) + \pi^-(\pi^0)$ at 700 to 1175 MeV/c in deuterium bubble chamber, production of $Y_1^*(1665)$ in, (E), 23:32625
interactions $K^- + d \rightarrow p + \Sigma^-(\Sigma^+) + \pi^+(\pi^-) + \pi^-$ at 3 GeV/c in bubble chamber, cross sections for, (E), 25: 14546
interactions $K^- + d \rightarrow \pi^- + \Lambda + p$, Λp mass spectra in, 25:59522
interactions $K^- + d \rightarrow \pi^- + \Lambda + p$, $\Sigma \rightarrow \Lambda$ conversion in, 21:17115
interactions $K^- + d \rightarrow \pi^- + p + \Lambda$ at rest in deuterium bubble chamber, Λp mass spectrum near 2129 MeV from, (E), 23:34536 (SLAC-PUB-596)
interactions $K^- + d \rightarrow \pi^- + p + \Lambda$ at rest in deuterium bubble chamber, Λp mass spectrum near 2129 MeV in, (E), 24:47384 (CONF-690557-(Vol.2), pp 930-8)
interactions $K^- + d \rightarrow \pi^- + p + \Lambda$ at rest, $\Lambda + p$ final-state interaction from, (E), 23:42550
interactions $K^- + d \rightarrow \pi^- + \Sigma + N \rightarrow \pi^- + \Lambda + p$, production of Λp (2127) resonance in, (T), 22:48328
interactions $K^- + d \rightarrow \pi^- + \Sigma^+ + n$, $\Sigma^+ n \rightarrow \Lambda p$ conversion process and enhancement near threshold in, (E), 22:34845
interactions $K^- + d \rightarrow \Sigma + N$, test of one-meson exchange mechanism from cross sections for, (T), 22: 44432
interactions $K^- + d \rightarrow \Sigma + \pi + \pi$ at 678.5 to 835 MeV/c in bubble chamber, cross sections and Y^* production in, (E), 24:10677(R) (TID-25298)

interactions $K^- + d \rightarrow \Sigma^0 + n$ at rest in bubble chamber, test of nuclear charge independence from, (E), 24:18083
interactions $K^- + d \rightarrow \Sigma^0 + n$ at rest in bubble chamber, production rate for, (E), 24:37654
interactions $K^- + d \rightarrow \Sigma^0 + n$ from bound atomic s-states, 23:32763
interactions $K^- + d \rightarrow \Sigma^0 + n$, low-energy theorem for, 24:8670
interactions $K^- + d \rightarrow \Sigma^- +$ eta + p at 838 to 978 MeV/c in bubble chamber, breakdown of impulse approximation in deuteron in, (E), 23:21061
interactions $K^- + d \rightarrow \Sigma^- + p$ at 2610 to 2750 MeV, cross section for, (E), 22:29640
interactions $K^- + d \rightarrow \Sigma^- + p$ at 340 and 400 MeV/c, cross sections for, (E), 22:34862
interactions $K^- + d \rightarrow \Sigma^- + p$ at rest in bubble chamber, test of nuclear charge independence from, (E), 24:18083
interactions $K^- + d \rightarrow \Sigma^- + p$ at rest in bubble chamber, production rate for, (E), 24:37654
interactions $K^- + d \rightarrow \Sigma^- + p$ from bound atomic s-states, 23:32763
interactions $K^- + d \rightarrow \Sigma^- + p$, low-energy theorem for, 24:8670
interactions $K^- + d \rightarrow \Sigma^- + \pi^0 + p$ at 815 to 1115 MeV/c in deuterium bubble chamber, partial-wave analysis of $\Sigma\pi$ final states in, (E/T), 21:44278
interactions $K^- + d \rightarrow \Sigma^- + \pi^+ + \pi^0 + \pi^-$ at 2.1 and 2.65 GeV/c in deuterium bubble chamber, Y^* production from, (E), 22:1386 (SLAC-PUB-348)
interactions $K^- + d \rightarrow \Sigma^- + \pi^+ + \pi^- + p$ at 1.660 to 1.900 GeV in deuterium bubble chamber, upper limit for $Y_1^*(1415)$ production from, 21:27314
interactions $K^- + d \rightarrow \Sigma^- + \pi^+ + \pi^-$ at 2.1 and 2.65 GeV/c in deuterium bubble chamber, Y^* production from, (E), 22:1386 (SLAC-PUB-348)
interactions $K^- + d \rightarrow \Sigma^-(\Sigma^0) + p(n)$ at rest in bubble chamber, production rates for, (E), 24:47380 (CONF-690557-(Vol.1), pp 486-92)
interactions $K^- + d \rightarrow \Sigma^-(\Sigma^-) + \pi^-(\pi^+) + n$ at 400 MeV/c in bubble chamber, $\Sigma(1385)$, $\Lambda(1405)$, and $\Lambda(1520)$ production and $Y + \pi$ partial-wave amplitudes below anti K + N threshold in, (E), 25:25321
interactions $K^- + d \rightarrow \Xi + K + N$ at 2.24 GeV/c, production of $\Xi(1530)$ and $\Xi(1700)$ in, (E), 22:24559
interactions K^- + d at 0.36 to 0.72 GeV/c, total cross sections for, (E), 25:9673
interactions K^- + d at 0.6 to 1.4 GeV/c, total cross sections for, (E), 21:9720
interactions K^- + d at 0.6 to 1.4 GeV/c, $Y_0^*(1698)$ and $Y_1^*(1905)$ production in, (E), 21:9720
interactions K^- + d at 0.6 to 2.65 GeV/c, total cross sections for, (E), 22:26567
interactions K^- + d at 0.6 to 2.65 GeV/c, total cross sections for, (E), 22:13654 (RPP/H-31)
interactions K^- + d at 0.9 to 2.4 GeV/c, new resonance structures in total cross sections for, (E), 24:37655
interactions K^- + d at 1 GeV/c, $K^- + d \rightarrow p + \Lambda + \pi^-$ interactions for impulse approximation validity for, (T), 25:38662 (NP-18891)
interactions K^- + d at 1.0 to 2.45 GeV/c, K^-N resonance production from, (E), 21:23314 (BNL-994, pp 70-102)
interactions K^- + d at 1.0 to 3.3 GeV/c, scintillation and differential Cherenkov counter study of total cross section and resonance production in, (E), 22:29634
interactions K^- + d at 1.3 and 2.0 GeV/c, cross section for production of bound Ξ^-—n in, (T), 22:11693
interactions K^- + d at 2.24 GeV/c in bubble chamber, cross sections for production of cascade and two-hyperon final states in, (E), 22:24559
interactions K^- + d at 2.24 GeV/c, $\Sigma(1385)$ production from, (E), 22:3284
interactions K^- + d at 2.45 to 3.3 GeV/c, evidence for strangeness-1 baryon resonances in total cross sections for, 24:37657
interactions K^- + d at 2.45 to 3.30 GeV/c, I = 1, 2455- and 2595-MeV resonance production from, (E), 22:20144
interactions K^- + d at 20 to 65 GeV/c, total cross sections for, (E), 24:5258
interactions K^- + d at 20 to 65 GeV/c, total cross sections for, (E), 25:5295
interactions K^- + d at 20 to 65 GeV/c, total cross sections for, (E), 25:45666 (IFVE-SEF-69-87)
interactions K^- + d at 3 GeV/c, upper limits for production cross sections of exotic meson and hyperon resonances in, (E), 25:5287
interactions K^- + d at 360 to 720 MeV/c, $\Lambda(1520)$ and $\Sigma(1600)$ enhancement production and total cross sections for, (E), 25:12120
interactions K^- + d at 480 to 700 MeV, double strangeness exchange in, 24:24391 (JINR-P2-5028)
interactions K^- + d at 670 to 910 MeV/c, study of two-body final states in $K^- + N$ interactions from, (E), 22:29640
interactions K^- + d at 7.3 GeV/c in deuterium bubble chamber, partial and total cross sections, resonance production, and production cross sections for one strangeness-1 neutral hyperon or K^0 in three-prong, (E), 25:12103
interactions K^- + d at 825 to 1115 MeV/c, sign of $(K_1^0 - K_2^0)$ mass difference from, (E), 21:21135
interactions K^- + d at high energies, compilation of cross sections for, (E), 25:19909 (CERN-HERA-70-6)
interactions K^- + d at low energies, analyticity properties of amplitudes for elastic, (T), 21:13714
interactions K^- + d at rest in bubble chamber, total production rate for, (E), 24:47380 (CONF-690557-(Vol.1), pp 486-92)
interactions K^- + d below 3.3 GeV/c, transmission counter study of total cross sections for, 21:27299 (BNL-11372)
interactions K^{-*} + d, coherent production of resonances in, 23:49058
interactions K^- + d, Fermi motion effect on resonance production from, (T), 21:23314 (BNL-994, pp 70-102)
interactions K^- + d, implications of current algebra and PCAC hypothesis for lambda^0 dibaryon state from, 22:15803
interactions K^- + d, model for nonmesic, (T), 23:13106
interactions K^- + d, multiple-scattering calculation of scattering lengths for, 23:23500
interactions K^- + d, unitary impulse approximation for, 22:26658
interactions $K^- + e \rightarrow K^- + e + \gamma$, bremsstrahlung circular polarization from, 22:7470
interactions $K^+ + K^- \rightarrow K^+ + K^-$, correlation of meson towers with absence of backward peaks in, 23:42660
interactions $K^+ + K^- \rightarrow K^+ + K^-$, factorization in Véneziano amplitude for resonance degeneracy in, 23:46711
interactions $K^+ + K^-$ in urbaryon model, cross sections for forward elastic, 21:35300
interactions $K^+ + K^-$, dispersion calculation of scattering amplitude and form factor for, 25:30865
interactions $K^- + n \rightarrow A_2^- + \Lambda$, $A_2 \rightarrow$ rho + π mass spectra from, 24:37763
interactions $K^- + n \rightarrow$ anti $K^0 + \Delta^-$ and $K^+ + p \rightarrow K^0 + \Delta^{++}$ at 3 to 5 GeV/c, test of (rho,A_2) exchange degeneracy in, (E/T), 24:51966
interactions $K^- + n \rightarrow$ anti $K^0 + N^{0*}$ at 3 GeV/c, production and decay of N^{0*} in, (E), 24:15483
interactions $K^- + n \rightarrow$ anti $K^0 + N^{0*}$ at 3 GeV/c, production and decay characteristics of $K^*(895)$ and $\Delta(1236)$ from, (E), 24:49329
interactions $K^- + n \rightarrow$ anti $K^0 + \pi^- + n$ at 2.24 GeV/c in deuterium bubble chamber, K^* and N^* production in, (E), 21:37710
interactions $K^- + n \rightarrow$ anti $K^0 + \pi^- + n$ at 4.5 GeV/c in deuterium bubble chamber, production and decay angular distributions of $K^*(890)$ in, (E), 23:42575
interactions $K^- + n \rightarrow$ anti $K^0 + \pi^- + n$ with crossing and charge symmetry, generalized Veneziano model for, 25:1545
interactions $K^- + n \rightarrow$ delta$^-$ + A at 4.5 GeV/c in deuterium bubble chamber, delta$^-$ spin and parity from, (E), 24:18086
interactions $K^- + n \rightarrow$ eta + $\Sigma^-(1385)$ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow$ hyperon + vector meson at 3 GeV/c, violation of quark model prediction for, (E/T), 25:47891
interactions $K^- + N \rightarrow K + \pi + N$, graphical illustration of isospin analysis of, 25:28039
interactions $K^- + N \rightarrow K^{0*} + N$, SU(3) x SU(3) with vector dominance and Regge pole model for sum rules for, 23:42609
interactions $K^- + n \rightarrow K^{0*} + n$ at 3 GeV/c, production and decay of $K^*(895)$ in, (E), 24:15483
interactions $K^- + n \rightarrow K^{0*} + n$ at 3 GeV/c, production and decay characteristics of $K^*(895)$ from, (E), 24:49329
interactions $K^- + n \rightarrow K^{0*} + \pi^- + p$ at 4.5 GeV/c in generalized Veneziano model, (E/T), 25:1424
interactions $K^- + n \rightarrow K^0 + \pi^- + n$ interactions at 1.65 GeV/c in deuterium bubble chamber, $K^-(890)$ and $\Delta^0(1236)$ production in, (E), 25:40899
interactions $K^- + n \rightarrow K_1^0 + \pi^- + n$ at 3.9 GeV/c, production of I = $^1/_2$ $K\pi(1160)$ enhancement in, (E), 23:16937
interactions $K^- + n \rightarrow K^- + n$ at 1 GeV, cross sections and angular distributions for, (E), 25:38662 (NP-18891)
interactions $K^- + n \rightarrow K^- + n$ at 1860 to 2150 MeV, elasticity of $\Sigma(2030)$ from partial-wave analyses of, (E), 25:9681
interactions $K^- + n \rightarrow K^- + n$ at 3 GeV/c in deuterium bubble chamber, differential cross sections for definite isospin state production in, (E/T), 24:21942
interactions $K^- + n \rightarrow K^- + n$ at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions $K^- + n \rightarrow K^- + n$ at high energies, constancy of total cross sections for, (T), 25:12210
interactions $K^- + n \rightarrow K^- + n$ at high energies, Regge-pole eikonal theory of small-angle, 23:25639
interactions $K^- + n \rightarrow K^- + n$ at high finite energies, Regge pole theory and exchange degeneracy for phases with $K^+ + p \rightarrow K^+ + p$ and $K^- + p \rightarrow K^- + p$ interactions for, 24:10755
interactions $K^- + n \rightarrow K^- + n$ from angular distributions for $K^- + d \rightarrow K^- + d(p + n)$ interactions at 810 to 1110 MeV/c, (E), 25:12108
interactions $K^- + n \rightarrow K^- + n$ from $K^- + d \rightarrow K^- + d$ and $K^- + d \rightarrow K^- + p + n$ interactions at 0.81 to 1.11 GeV/c, (E/T), 24:30460 (UCRL-19359(Add.))
interactions $K^- + n \rightarrow K^- + n$, angular distributions from $K^- + d \rightarrow K^- + d(n + p)$ interactions in bubble chamber for amplitude of, (E), 24:8568 (UCRL-19359)
interactions $K^- + N \rightarrow K^- + N$, complex angular momentum method with Regge cut contribution to, (E/T), 24:52098
interactions $K^- + N \rightarrow K^- + N$, complex angular momentum method with j-plane branch points for, (E/T), 24:45427 (ITEF-754)
interactions $K^- + n \rightarrow K^- + \pi^- + p$ at 12.6 GeV/c in bubble chamber, $p\pi^-(1400)$ enhancement, cross section for $K^- + \pi^- \rightarrow K^- + \pi^-$ interactions, and cross sections for, (E), 25:9658 (TID-25611)
interactions $K^- + n \rightarrow K^- + \pi^- + p$ at 12.6 GeV/c,$p\pi^-(1400)$ enhancement in, (E), 25:33567
interactions $K^- + n \rightarrow K^- + \pi^- + p$ at 5.5 GeV/c, double-Regge-pole analysis, (E/T), 25:30747
interactions $K^- + n \rightarrow K^- + \pi^- + p$, crossing-symmetric description of, 25:50141
interactions $K^- + n \rightarrow K^- + \pi^+ + \pi^- + n$ at 5.5 and 12.7 GeV/c in hydrogen—neon bubble chamber, coherent $K^-\pi^+\pi^-$ final states in, (E), 22:46333 (BNL-12739)
interactions $K^- + n \rightarrow A$ + delta$^-$ at 2.11 and 2.65 GeV/c in deuterium bubble chamber, upper limit on cross section for, (E), 22:13662
interactions $K^- + n \rightarrow A$ + eta^0 at 3 GeV/c, I = 0 eta$\pi\pi$ and rhoγ enhancements in, (E), 22:29635
interactions $K^- + n \rightarrow A + \pi + \pi$ at 1.6 to 1.7 GeV, $Y_1^*(1385)$ production in, (E), 21:7465(R) (NYO-3178-3)
interactions $K^- + N \rightarrow A + \pi$ and $\pi^- + p \rightarrow A + K^0$, test of ($K^*$,$K^{**}$) exchange degeneracy in, (E/T), 24:51966
interactions $K^- + N \rightarrow A + \pi$ at 1 to 1.85 GeV/c, partial-wave analysis of, (E), 25:59303
interactions $K^- + N \rightarrow A + \pi$ at 1660 to 2215 MeV, partial-wave analysis of $\Sigma(1910)$ and $\Sigma(2035)$ production in, (E/T), 22:34854
interactions $K^- + n \rightarrow A + \pi^0 + \pi^+ + \pi^- + \pi^-$ at 3.9 GeV/c, eta(550)π enhancement at 980 MeV in, (E), 23:32629
interactions $K^- + n \rightarrow A + \pi^0$ at 815 to 1105 MeV/c in deuterium bubble chamber, Y_1^* production from, (E), 21:42265 (UCRL-17712)
interactions $K^- + n \rightarrow A + \pi^-$ + eta at 3.9 GeV/c, eta(550)π enhancement at 980 MeV in, (E), 23:32629
interactions $K^- + n \rightarrow A + \pi^-$ + neutrals at 3.9 GeV/c, eta(550)π enhancement at 980 MeV in, (E), 23:32629
interactions $K^- + n \rightarrow A + \pi^- + \pi^0$ at 1600 to 1740 MeV, partial-wave analysis of $\Sigma(1385)\ \pi$ state in, (E/T), 23:1602
interactions $K^- + n \rightarrow A + \pi^- + \pi^0$ at 670 to 910 MeV, cross sections for $\Sigma(1690)$ production in, 22:52939
interactions $K^- + N \rightarrow A + \pi^- + \pi^0$, $\Sigma(1660)$ production and sequential decay from, (E), 22:48231
interactions $K^- + n \rightarrow A + \pi^+ + \pi^- + \pi^-$ at 3 GeV/c in deuterium bubble chamber, search for $\Sigma(1616)$ production in, (E), 24:15482
interactions $K^- + n \rightarrow A + \pi^+ + \pi^- + \pi^-$ at 3.9 GeV/c, eta(550)π enhancement at 980 MeV in, (E), 23:32629
interactions $K^- + n \rightarrow A + \pi^- + \pi^- + \pi^+$ at 3.9 GeV/c, production of $\Sigma(1616)$ in, (E), 22:44335
interactions $K^- + n \rightarrow A + \pi^+ + \pi^- + \pi^-$ at 3.9 GeV/c in bubble chamber, evidence for $\Sigma(1619)$ from, (E), 23:32621 (BNL-13681)
interactions $K^- + n \rightarrow A + \pi^+ + \pi^-$ at 3 GeV/c, search for $\Sigma(1616)$ production in, (E), 24:49334
interactions $K^- + n \rightarrow A + \pi^-$ at 1.0 to 1.85 GeV/c, partial-wave analysis of, (T), 25:25435
interactions $K^- + n \rightarrow A + \pi^-$ at 1.590 to 1.740 MeV in deuterium bubble chamber, partial-wave analysis for width and phase of $\Delta(1680)$ in, (E/T), 24:12950
interactions $K^- + n \rightarrow A + \pi^-$ at 1.660 to 1.900 GeV in bubble chamber, resonance production from, (E), 22:13669
interactions $K^- + n \rightarrow A + \pi^-$ at 3 GeV/c, A polarization and total and differential cross sections for, (E), 23:21057
interactions $K^- + n \rightarrow A + \pi^-$ at 3 GeV/c, nucleon exchange in, (E/T), 25:19917
interactions $K^- + n \rightarrow A + \pi^-$ at 3.6 and 3.9 GeV/c, exchange degeneracy and backward peak in (E), 24:5254
interactions $K^- + n \rightarrow A + \pi^-$ at 3.9 GeV/c, dip structure in Regge cut models for, (E/T), 24:30531
interactions $K^- + n \rightarrow A + \pi^-$ at 3.9 GeV/c, Toller pole analysis of dip structure in backward, (T), 25:41004
interactions $K^- + n \rightarrow A + \pi^-$ at 4.5 GeV/c, A polarization and differential cross section for, (E), 23:25531
interactions $K^- + n \rightarrow A + \pi^-$ at 600 to 1200 MeV/c, energy independent partial-wave analysis of, (E/T), 23:8748
interactions $K^- + n \rightarrow A + \pi^-$ at 670 to 910 MeV/c, $\Sigma(1660)$ production in, (E), 22:29640
interactions $K^- + n \rightarrow A + \pi^-$ at 815 to 1105 MEV/c in deuterium bubble chamber, Y^* production in, (E), 22:39288
interactions $K^- + n \rightarrow A + \pi^-$, duality diagrams with exotic t-channel exchanges for, 25:47859 (COO-2009-25)
interactions $K^- + n \rightarrow A + \pi^-$, AKN coupling constant from backward differential cross sections for, 24:40388
interactions $K^- + n \rightarrow A + \pi^-$, N and N(1525) trajectories in backward, (T), 25:22821
interactions $K^- + n \rightarrow A + \pi^-$, Regge pole and absorptive cut models for relation with backward π + N interactions for, (T), 25:25423
interactions $K^- + n \rightarrow A$ + rho$^0 + \pi^-$ at 3.9 GeV/c, spin—parity analysis, decays, and production of $A_2(1300)$ from, (E), 23:32630
interactions $K^- + n \rightarrow A\ (\Sigma^0) + \pi^+ + 2\pi^-$, review of $\Sigma(1620)$ production in, (E), 25:25308
interactions $K^- + n \rightarrow A(1405) + \pi^-$ at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow A(1520) + \pi^-$ at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + N \rightarrow A(\Sigma) + \pi$ at 400 MeV/c below anti K + N threshold in deuterium bubble chamber, angular distributions, Y^* production, and dynamical nature of A(1405) from, (E), 25:40888
interactions $K^- + n \rightarrow A^0 + A_2^-$ at 4.48 GeV/c, spin and parity of A_2 from production and decay in, (E), 25:9672
interactions $K^- + n \rightarrow A^0 + \pi^- + \pi^- + \pi^+$ at 4.5 GeV/c, production of $\Sigma(1642)$ in, (E), 24:15480
interactions $K^- + n \rightarrow A^0 + \pi^-$ at 2.9 to 3.3 GeV/c, duality and Regge cuts for A polarization in, 24:1607
interactions $K^- + n \rightarrow A^0(\Sigma^0) + A_2^-$ at 4.48 GeV/c in deuterium bubble chamber, A_2^- spin, parity, width, and branching ratios in, (E), 24:45424 (COO-1428-227)
interactions $K^- + n \rightarrow n + K^- + \pi^+ + \pi^-$ at 3 GeV/c in deuterium bubble chamber, Δ and anti K^{0*} production and $K^-\pi^+$-decay asymmetry for S-wave in, (E), 24:3549

interactions $K^- + n \rightarrow p + 2\pi^- +$ anti $K^0 +$ MM at 4.48 GeV/c in deuterium bubble chamber, cross sections and K(890) production in, (E), 25:43549 (COO-1428-286)
interactions $K^- + n \rightarrow p + 2\pi^- +$ anti $K^0 + \pi^0$ at 4.48 GeV/c in deuterium bubble chamber, K(890), Δ(1236), and N(1525) production and cross sections in, (E), 25:43549 (COO-1428-286)
interactions $K^- + n \rightarrow p + 2\pi^- +$ anti K^0 at 4.48 GeV/c in deuterium bubble chamber, K(890), Δ(1236), N(1525), N(1688), and Σ(1765) production and cross sections in, (E), 25:43549 (COO-1428-286)
interactions $K^- + n \rightarrow p + K^- + \pi^-$ at 3 GeV/c, Chew—Low extrapolation of Kπ elastic cross section from, (E/T), 25:3278
interactions $K^- + n \rightarrow p(n) + K^-$(anti K^0) at 5.0 to 5.5 GeV/c, data compilation for mass and angular distributions for low-mass Y_0^* production in, (E), 25:25328
interactions $K^- + N \rightarrow \pi + \Lambda$ at 1.5 to 1.9 GeV, duality diagram predictions for, 25:25430
interactions $K^- + N \rightarrow \pi + \Lambda$, duality diagrams for exchange degeneracy in, 25:33757
interactions $K^- + N \rightarrow \pi + \Sigma$ at 1 to 3 GeV/c, duality for K^0 exchange amplitude and resonance amplitude in, (T), 24:1599
interactions $K^- + N \rightarrow \pi + \Sigma$ at 1.5 to 1.9 GeV, duality diagram predictions for, 25:25430
interactions $K^- + N \rightarrow \pi + \Sigma$, duality diagrams for exchange degeneracy in, 25:33757
interactions $K^- + N \rightarrow \pi + \Sigma$, models of Σ(1405) as CDD pole and bound state of, 25:30876
interactions $K^- + n \rightarrow \pi^0 + \Sigma^-$(1385) at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow \pi^- + 2\pi^-$ + anti K^0 + n at 4.48 GeV/c in deuterium bubble chamber, K(890), Δ(1236), N(1525), and Σ(1765) production and cross sections in, (E), 25:43549 (COO-1428-286)
interactions $K^- + n \rightarrow \pi^- + \Lambda$ and $\pi^+ + n \rightarrow K^+ + \Lambda$, duality and exchange degeneracy from finite-energy sum rules for, 25:59501
interactions $K^- + n \rightarrow \pi^- + \Lambda$ and $\pi^- + p \rightarrow K^0 + \Lambda$, complex Regge poles for line reversed, 25:25428
interactions $K^- + n \rightarrow \pi^- + \Lambda$ at 1900 to 2100 MeV, resonance parameters from partial-wave analysis of, (E), 24:51965
interactions $K^- + n \rightarrow \pi^- + \Lambda$ at 4.5 GeV/c in deuterium bubble chamber, Λ polarization in, (E), 24:18090
interactions $K^- + n \rightarrow \pi^- + \Lambda$ at 4.5 GeV/c in deuterium bubble chamber, Λ polarization and cross sections for, (E), 24:18086
interactions $K^- + n \rightarrow \pi^- + \Lambda$ at 4.5 GeV/c in deuterium bubble chamber, preliminary study of Λ polarization in, (E), 22:41736 (COO-1428-81)
interactions $K^- + n \rightarrow \pi^- + \Lambda$ in nuclei, tests of unitary symmetry by, 21:33750
interactions $K^- + n \rightarrow \pi^- + \Lambda$, generalized Veneziano model for, (E/T), 25:1537
interactions $K^- + n \rightarrow \pi^- + \Lambda$, partial wave analysis for, (T), 25:41023
interactions $K^- + n \rightarrow \pi^- + \Lambda(\Sigma^0)$, Reggeized U(6) X U(6) X O(3) absorption peripheral model for, 25:1536
interactions $K^- + n \rightarrow \pi^- + \Sigma^0$ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow \pi^- + \Sigma^0$(1385) at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow \pi^-$(980) + Λ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow$ rho$^-$ + Λ at 4.5 GeV/c in deuterium bubble chamber, meson exchange mechanism for, (E), 24:18086
interactions $K^- + n \rightarrow$ rho$^-$ + Λ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow \Sigma(1385)$ + vector meson at 3.0 GeV/c, cross sections and decay angular distributions for, (E/T), 25:40893
interactions $K^- + n \rightarrow \Sigma^0 + A_2^-$ at 4.48 GeV/c, spin and parity of A_2 from production and decay in, (E), 25:9672
interactions $K^- + n \rightarrow \Sigma^0 + \pi^- + \gamma$ at 600 MeV, Σ^0 magnetic moment from, (E), 23:49033
interactions $K^- + n \rightarrow \Sigma^0 + \pi^+ + \pi^- + \pi^-$ at 3 GeV/c in deuterium bubble chamber, production of Σ(1660) in, (E), 24:15482
interactions $K^- + n \rightarrow \Sigma^0 + \pi^-$ at 3 GeV/c, baryon exchange in, (E/T), 25:19917
interactions $K^- + n \rightarrow \Sigma^0 + \pi^-$ at 3 GeV/c, total and differential cross sections for, (E), 23:21057
interactions $K^- + n \rightarrow \Sigma^0 + \pi^-$ at 4.5 GeV/c, differential cross sections for, (E/T), 23:25531
interactions $K^- + n \rightarrow \Sigma^0 + \pi^-$ at 670 to 910 MeV/c, resonance production in, (E), 22:29640
interactions $K^- + n \rightarrow \Sigma^-$ + eta at 920 to 1120 MeV/c in deuterium bubble chamber, Σ^- eta enhancement near threshold in, 21:37717
interactions $K^- + n \rightarrow \Sigma^-$ + eta^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-$ + eta'^{0} at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-$ + f^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-$ + f^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-$ + ω at 3 GeV/c, differential cross sections for, (E), 25:1423
interactions $K^- + N \rightarrow \Sigma^-$ + phi at 3 GeV/c, differential cross sections for, (E), 25:1423
interactions $K^- + n \rightarrow \Sigma^-$ + phi^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^- + \pi^0$ at 3 GeV/c, total and differential cross sections for, (E), 23:21057
interactions $K^- + n \rightarrow \Sigma^- + \pi^0$ at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^- + \pi^0$ at 2.1 and 2.65 GeV/c in deuterium bubble chamber, H(990) production from, (E), 22:1385 (SLAC-PUB-347)
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^- + \pi^0$ at 2.1 and 2.7 GeV/c in deuterium bubble chamber, search for I = 2 hyperon resonances in, (E), 22:44337
interactions $K^- + n \rightarrow \Sigma^+ + \pi^- + \pi^-$ at 1.6 to 1.7 GeV, Y_1^*(1660) production in, (E), 21:7465(R) (NYO-3178-3)
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^-$ at 1.62 to 1.74 GeV, Σ(1660) weak coupling to Λ(1405)π and existance of two distinct Σ(1660) in partial wave analysis of, (T), 25:14717
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^-$ at 1.660 to 1.900 GeV, Y^* production from, (E), 22:3280
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^-$ at 1660 to 1900 MeV, production of Y_1^*(1405), Y_0^*(1520), and Y_1^*(1760) in, (E), 21:40150 (UCRL-17089)
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^-$ at 2.1 and 2.7 GeV/c in deuterium bubble chamber, search for I = 2 hyperon resonances in, (E), 22:44337
interactions $K^- + n \rightarrow \Sigma^- + \pi^- + \pi^+$ at 838 to 978 MeV/c in bubble chamber, Λ(1405) and Λ(1520) production in, (E), 23:21061
interactions $K^- + n \rightarrow \Sigma^-$ + rho^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-(\Sigma^0)$ + mesons at 4.94 GeV/c, cross sections for quasi-two-body production in, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^+(\Sigma^-)$ + mesons at 4.94 GeV/c, cross sections, four-momentum transfer distributions, and density matrix elements for, (E), 24:49331
interactions $K^- + n \rightarrow \Sigma^-(\Sigma^+) + \pi^+(\pi^-) + \pi^-$ at 670 to 835 MeV/c in deuterium bubble chamber, differential and total cross sections and partial-wave analysis for resonance production in, (E/T), 25:14557 (FSU-HEP-70-3-1)
interactions $K^- + n \rightarrow \Sigma^+(\Sigma^-) + \pi^-(\pi^+) + \pi^-$ at 678 to 835 MeV/c in deuterium bubble chamber, differential and total cross sections and Y^* production in, (E), 25:25322
interactions $K^- + n \rightarrow \Sigma^-(\Sigma^+) + \pi^+(\pi^-)$ at 5.0 to 5.5 GeV/c, data compilation for mass and angular distributions for low-mass Y_0^* production in, (E), 25:25328
interactions $K^- + n \rightarrow V + \pi^-$ at 3 GeV/c, total and differential cross sections for, (E/T), 25:19917
interactions $K^- + n \rightarrow \Xi^- + K^0$ at 1.2 to 2.7 GeV/c in bubble chamber, total cross sections, polarization, and partial-wave analysis for baryon exchange in, (E/T), 25:5384
interactions $K^- + n \rightarrow \Xi^- + K^0$ at 1.2 to 2.7 GeV/c in bubble chamber, total cross sections, polarization and partial-wave analysis for baryon exchange and direct-channel Y^* production in, (E), 24:10678 (UCRL-19372)
interactions $K^- + N \rightarrow Y$ + meson at 2.24 and 3.00 GeV/c, quark model for amplitudes of, 22:22395
interactions $K^- + n \rightarrow Y_0^* + \pi^-$ at 3 GeV/c, Y_0^* properties and $Y_0^*K^-p$ coupling constant from, (T), 25:25327
interactions $K^- + n \rightarrow Y_0^*(1520) + \pi^-$ at 3 GeV/c, production and decay of Y_0^*(1520) in, (E), 23:13041
interactions K^- + n above 2 GeV/c, effect of charge-exchange mechanism on cross sections for, 21:29570
interactions K^- + N and K^- + 2N in nuclear emulsions, search for Ap(2110) resonance in, (E), 24:12956
interactions K^- + N at 0.4 to 3.4 GeV/c, review of total cross sections for, (E), 25:1412 (UCRL-19844)
interactions K^- + n at 0.6 to 4 GeV/c, interference model for total cross sections of, 24:13091
interactions K^- + N at 0.9 to 60 GeV/c, dispersion relations with violated Pomeranchuk theorem for real parts of amplitude for forward, (T), 25:38749
interactions K^- + n at 1.45 and 1.65 GeV/c, cross sections and angular distributions for resonance production in, (E), 25:45679
interactions K^- + n at 1.5 GeV/c, cross sections for inelastic, (E), 22:17873
interactions K^- + N at 2.3 to 2.5 GeV/c in emulsions, hyperfragment production from, 21:33625
interactions K^- + n at 2.34 GeV/c in bubble chamber, Σ(1385) production from, (E), 22:3284
interactions K^- + n at 20 to 65 GeV/c, total cross sections for, (E), 24:5258
interactions K^- + n at 3 GeV in deuterium bubble chamber, production of K(890), K(1400), and Kππ systems, upper limits for production cross sections of isospin-3/2 K^*, and $K + \pi$ s-wave interactions in, (E), 25:56426 (FRNC-TH-53)
interactions K^- + N at 3 GeV/c, cross sections of final states in, (E), 24:51977
interactions K^- + n at 3 GeV/c, differential cross sections for two-body, (E), 25:59291
interactions K^- + n at 3.6 and 3.9 GeV/c in bubble chamber, search for I = $^3/_2$ Ξ resonances in, (E), 22:52936 (BNL-12864)
interactions K^- + n at 3.6 and 3.9 GeV/c, production and decay of Ξ(1530) and Ξ(1830) in, (E), 24:28495
interactions K^- + N at 3.6 to 5.0 GeV/c, production of J/sup PC/ = O^{++} K_1^0 K_1^0(1030) enhancement in, (E), 23:5542
interactions K^- + n at 4.48 GeV/c in deuterium bubble chamber, Σ(1640) and A_2 production, and simultaneous production of vector mesons and Σ^-(1385) in Λ and Σ^0 four-body final states in, (E), 25:59280
interactions K^- + N at 780 MeV/c, sign of K_1^0 - K_2^0 mass difference from spark chamber study of, (E), 21:46469 (UCSD-10-P-10-104)
interactions K^- + n at 800 to 1200 MeV/c, cross sections for, (E), 24:51978
interactions K^- + n at 810 to 1110 MeV, angular distributions for elastic, (E), 25:59302
interactions K^- + N at high energies in bubble chamber, (E), 22:34849(R) (NYO-3178-5)
interactions K^- + n at high energies, compilation of cross sections for, (E), 25:19909 (CERN-HERA-70-6)
interactions K^- + n at high energies, quark model for double-exchange production cross sections for, 22:22398
interactions K^- + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions K^- + N at intermediate energy, dual structure of amplitudes for, 25:59504
interactions K^- + N at low and intermediate energies, review of bubble chamber and counter experiments on, 25:53181 (UCRL-20655, pp 190a-202)
interactions K^- + n at rest in heavy-liquid bubble chamber, reaction processes from, (E), 22:15683
interactions K^- + N at rest, Λ production from, (E), 21:9716
interactions K^- + N below 65 GeV, difference of total cross sections for K^+ + N and, (E), 25:5294
interactions K^+ + N below 65 GeV, differences of total cross sections for K^- + N and, (E), 25:5294
interactions K^- + N in carbon and iron at 12 GeV/c, phi and rho production from, 21:27294
interactions K^- + N in freon bubble chamber, Λ trapping probability from, (E), 25:5299
interactions K^- + N in kaonic atoms, x-ray yields from, 24:52105
interactions K^- + N in urbaryon model, cross sections for forward elastic, 21:35300
interactions K^- + N on bound nucleons at low energies, effect of Λ(1405) on, (T), 25:12213
interactions K^- + N, Argand diagram analysis of s-channel helicity amplitudes of, 25:28035
interactions K^- + N, cross sections for elastic and charge-exchange, 22:17871
interactions K^- + N, current algebra and Regge pole theory for, 21:29522
interactions K^- + N, dispersion relations with violated Pomeranchuk theorem for amplitude of charge exchange, (T), 25:38749
interactions K^- + N, double strangeness exchange in, 24:24391 (JINR-P2-5028)
interactions K^- + N, duality and non-Pomeranchuk contributions o cross sections for, (T), 24:45533
interactions K^- + N, duality condition for resonance contribution to backward, (T), 25:12215
interactions K^- + n, duality for total cross section relations in quark model for, 24:35653 (ITF-70-24)
interactions K^- + N, finite-energy sum rules from phase shift analysis of, 22:26659
interactions K^- + n, forward dispersion relation predictions of differential cross sections for, (E/T), 22:24667
interactions K^- + N, forward dispersion relations in Regge-pole analysis of, 21:928
interactions K^- + n, integrated cross sections for K_2^0 + p → K_1^0 + p interactions for upper bound on Pomeranchuk theorem violation in asymptotic total cross section difference in K^+ + n interactions and, (T), 25:22818
interactions K^- + N, isolation of Pomeranchuk contribution to total cross section for, (T), 24:13098
interactions K^- + N, Λ production from, (E), 21:13677(R) (AD-641991)
interactions K^- + N, mass and width of $K_1^0K_1^0$(1062) enhancement from, 24:1570
interactions K^- + N, model with broken exchange degeneracies and secondary trajectories in charge and hypercharge exchange in, 24:21985
interactions K^- + N, models for production mechanisms in, 23:21112
interactions K^- + N, pole dominance model for calculation of scattering length and phase shifts for, 24:18202
interactions K^- + N, pole-dominance method for calculating scattering lengths and phase shifts for, 24:13103
interactions K^- + N, Pomeranchuk theorem for total cross sections for, 24:24388
interactions K^- + N, Regge models of asymptotic behavior of amplitudes for forward elastic, 25:3357
interactions K^- + N, SU(6) invariance model for s-wave, 22:34994
interactions K^- + n, sum-rule analysis of, 22:7517
interactions K^- + n, unsubtracted dispersion sum rule for, (T), 22:39409
interactions K^- + NN at rest, Λ production from, (E), 21:9716
interactions K^- + p → $(K\pi\pi)^-$ + p, multiple-scattering theory for, 24:1591
interactions K^- + p → anti K + N + π at 1.33 GeV/c in hydrogen bubble chamber, resonance production in, 21:33623
interactions K^- + p → anti K + N + π at 1.33 GeV/c, anti K^*(890), Δ(1236), Λ(1520), and Σ(1760) production in, (E), 22:34853
interactions K^- + p → anti K + N + π at 777 to 1226 MeV/c, partial and differential cross sections for, (E), 23:10762
interactions K^- + p → anti K + N at 780 to 1220 MeV/c in hydrogen bubble chamber, resonance production from, (E), 22:5507
interactions K^- + p → anti K + π + N at 4.1 and 5.5 GeV/c in bubble chamber, K^*(890) and K^*(1400) production and decay from, (E), 22:20148
interactions K^- + p → anti K^* + Δ at 2.6 GeV/c, tests of quark model using, (E/T), 23:10757
interactions K^- + p → anti K^{*0} + n at 2 to 13 GeV/c, Regge-pole analysis of, 23:25622
interactions K^- + p → anti K^{*0} + n at 3 GeV/c, violation of quark model sum rule in, (T), 22:22363
interactions K^- + p → anti K^{*0} + n at high energies, quark model predictions for, 23:21106
interactions K^- + p → anti K^{*0} + n, Veneziano amplitude for, 25:45756

interactions $K^- + p \rightarrow$ anti $K^{*0} + \pi^- + p$ at 5.5 GeV/c, spin—parity analysis of low-mass $K^*\pi$ system in, (E), 23:3645
interactions $K^- + p \rightarrow$ anti $K^{*0} + \pi^- + p$ at 6 and 10 GeV/c, virtual diffraction background for, 23:46730
interactions $K^- + p \rightarrow$ anti $K^0 + n + \pi^- + \pi^+$ at 6 GeV/c, cross sections for $K^*(890)$ and $\Delta(1236)$ production in, (E), 23:14990
interactions $K^- + p \rightarrow$ anti $K^0 + n$ and $K^+ + n \rightarrow K^0 + p$ at 1 to 5.5 GeV/c, test of rho$_A$ exchange degeneracy, duality, and secondary trajectories from, (E/T), 24:5306
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 0.45 to 1.8 GeV/c, Veneziano dips in angular distributions of, 25:14724
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 1 to 3 GeV, analysis of S = 1 hyperon resonances from, (E), 24:15492
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 1 to 3 GeV/c, partial cross sections for, (E), 24:15491
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 1.7 to 18.2 GeV/c, Regge analysis of, (E/T), 25:56506
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 1915 to 2168 MeV, total and differential cross section for, (E), 25:40897
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 2 to 20 GeV/c, Regge model with four poles for, (E/T), 25:5371 (CEA-N-1373)
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 3.5 GeV/c, cross section for, (E), 21:3999
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 3.95 GeV/c in bubble chamber, differential cross section for, (E), 24:45434
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 350 to 430 MeV/c, partial-wave amplitude and cross sections for, (E/T), 24:37658
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 375 and 415 MeV/c in hydrogen bubble chamber, absolute and differential cross sections and Legendre coefficients for, (E), 24:32973
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 400 MeV/c in hydrogen bubble chamber, (E), 25:5262
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 400 MeV/c in hydrogen bubble chamber, (E), 23:39602 (UCRL-19226)
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 430 to 800 MeV/c, partial-wave analysis of, (E), 24:5255
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 5.0 GeV/c, model for, 22:50391
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 5.0 to 12.3 GeV/c, Veneziano model for, (E/T), 24:1592
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 50 and 100 GeV/c at small angles, proposed experiment for optical spark chamber study of, 24:51955 (TID-25473(Vol.4), pp 71-5)
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 594 to 820 MeV/c, differential cross sections for, (E), 23:18815
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 600 to 1200 MeV/c, partial wave amplitudes for analysis of, (E/T), 23:8749
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 7.7 GeV/c, cross section for, (E), 23:14973
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 8 GeV/c, cross sections for elastic, (E), 21:25236 (MIT-2098-301)
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 800 to 1200 MeV/c, partial-wave analysis of, (E/T), 25:59293
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at 89 to 300 MeV/c, cross sections and scattering lengths for, (E), 21:2377
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, rho- and R-Regge pole analysis of, 21:46538
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, Regge pole model for polarization prediction for, 21:42359
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, Regge pole theory for, 21:29541
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, Regge pole models for differential cross sections and polarization predictions for, 23:39730
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, Regge pole—cut model for analysis of, 25:56505
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, Regge-pole eikonal theory of small-angle, 23:25639
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, effective Regge trajectories for, (T), 25:5377
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, tachyon resonance exchange for differential cross sections for, (T), 25:47935 (ORO-3992-52)
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, constancy of total cross sections for, (T), 25:12210
interactions $K^- + p \rightarrow$ anti $K^0 + n$ at high energies, charge exchange in, (E), 21:9701
interactions $K^- + p \rightarrow$ anti $K^0 + n$ in bubble chambers, anti K^0 decay from, (E), 24:37615
interactions $K^- + p \rightarrow$ anti $K^0 + n$ in O(3,1) symmetry, differential cross sections for, 23:21105
interactions $K^- + p \rightarrow$ anti $K^0 + n$, A_1' Regge pole in, 24:49525
interactions $K^- + p \rightarrow$ anti $K^0 + n$, ambiguities in determination of Regge-pole parameters for rho- and R-exchange, 21:37822
interactions $K^- + p \rightarrow$ anti $K^0 + n$, complex angular momentum method with j-plane branch points for, (E/T), 24:45427 (ITEF-754)
interactions $K^- + p \rightarrow$ anti $K^0 + n$, cut-corrected exchange degeneracy for, 25:45762
interactions $K^- + p \rightarrow$ anti $K^0 + n$, differential cross sections using SU(3) symmetry and Regge poles for, (T), 23:5626
interactions $K^- + p \rightarrow$ anti $K^0 + n$, dispersion relation predictions for forward charge-exchange amplitudes of, 21:31601
interactions $K^- + p \rightarrow$ anti $K^0 + n$, exchange degeneracy in, (E/T), 24:52092
interactions $K^- + p \rightarrow$ anti $K^0 + n$, generalized Veneziano model for, (E/T), 25:1537
interactions $K^- + p \rightarrow$ anti $K^0 + n$, $K^- \rightarrow \pi + l + \tau$, test of $\Delta S = \Delta Q$ rule from time distribution in, (E), 25:14533
interactions $K^- + p \rightarrow$ anti $K^0 + n$, real to imaginary ratio of forward amplitude of, 22:29707
interactions $K^- + p \rightarrow$ anti $K^0 + n$, Regge cuts for polarization in, 23:44666
interactions $K^- + p \rightarrow$ anti $K^0 + n$, Regge cuts in exchange degenerate trajectories for, 24:3673
interactions $K^- + p \rightarrow$ anti $K^0 + n$, Regge dipole rho model for, 25:47880
interactions $K^- + p \rightarrow$ anti $K^0 + n$, Regge pole amplitudes with absorptive corrections for, 24:13102
interactions $K^- + p \rightarrow$ anti $K^0 + n$, Regge pole theory for amplitude of, 22:20258
interactions $K^- + p \rightarrow$ anti $K^0 + n$, Regge poles and SU(3) symmetry for, 22:1439
interactions $K^- + p \rightarrow$ anti $K^0 + n$, Regge—quark model analysis of differential cross sections for, 23:1644
interactions $K^- + p \rightarrow$ anti $K^0 + n$, Regge-pole analysis of, 22:46433
interactions $K^- + p \rightarrow$ anti $K^0 + n$, Regge-pole model with cuts for, (T), 24:49501
interactions $K^- + p \rightarrow$ anti $K^0 + n$, rho + R Regge-pole model for, 22:9594
interactions $K^- + p \rightarrow$ anti $K^0 + n$, secondary Regge contributions in, 25:56508
interactions $K^- + p \rightarrow$ anti $K^0 + n$, SU(3) predictions for, 22:46490
interactions $K^- + p \rightarrow$ anti $K^0 + n$, test of semi-local duality in backward, (E), 25:59482
interactions $K^- + p \rightarrow$ anti $K^0 + p + \pi^- + \pi^0$ at 6 GeV/c, cross sections for $K^*(890)$ and $\Delta(1236)$ production in, (E), 23:14990
interactions $K^- + p \rightarrow$ anti $K^0 + p + \pi^-$ at 2.24 GeV/c in deuterium bubble chamber, K^{*-} production in, (E), 21:37710
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^- + p$ at 2.5 to 13 GeV in generalized Veneziano model, crossing-symmetric description of, 24:52091
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^- + p$ at 3.3 GeV/c, anti $K^*\pi^-$ decay asymmetry in, (E), 25:45670
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^- + p$ at 4.5 GeV/c in hydrogen bubble chamber, production and decay angular distribution of $K^*(890)$ in, (E), 23:42575
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^- + p$ at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, spin and parity of K^* (1420) from, 21:25247
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^- + p$, line-reversal-symmetry breaking for, 25:53213
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^- + p(\Delta^+)$ at 3.3 GeV/c in hydrogen bubble chamber, density matrix elements for K(890) production and decay angular properties of anti $K^*\pi^-$ system in, (E), 25:45675
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^- + \pi^0 + p$ at 4.1 and 5.5 GeV/c in bubble chamber, $K^*(890)$ and $K^*(1400)$ production and decay in, (E), 22:20148
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^- + \pi^*(\pi^+) + N$ at 4.1 to 5.5 GeV/c, $K^*(890)$ and $K^*(1400)$ production and decay from, (E), 22:24563
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^- + \pi^+ + n$ at 4.1 and 5.5 GeV/c in bubble chamber, $K^*(890)$ and $K^*(1400)$ production and decay from, (E), 22:20148
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^+ + \pi^- + n$ at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, spin and parity of $K^*(1420)$ from, 21:25247
interactions $K^- + p \rightarrow$ anti $K^0 + \pi^+ + \pi^- + n$, generalized Veneziano model for, 25:33732
interactions $K^- + p \rightarrow$ anti K^0 + secondary particles at 10.1 GeV/c, production properties and cross sections for, (E), 25:45671
interactions $K^- + p \rightarrow$ anti K^0 (Λ^0) + neutrals at 7.7 GeV/c, cross sections for, (E), 23:14974
interactions $K^- + p \rightarrow$ anti $K^0(K^-) + \pi^-(\pi^+) + N$ at 4.1 to 5.5 GeV/c, $K^*(890)$ and $K^*(1400)$ production and decay from, (E), 22:24563
interactions $K^- + p \rightarrow$ anti$K^0 + n$, mixing parameters for K^0antiK^0 system from, (T), 21:18990 (UCRL-16475(Rev.))
interactions $K^- + p \rightarrow$ baryon + meson + meson, quark model for cross-section relations between, 22:50375
interactions $K^- + p \rightarrow$ eta + Λ in nuclei, tests of unitary symmetry by, 21:33750
interactions $K^- + p \rightarrow$ eta + Λ^0 at 740 MeV/c in hydrogen bubble chamber, 21:37657(R) (ORO-3065-13(and App.A))
interactions $K^- + p \rightarrow \gamma + \Lambda$ at 0.20, 0.75, and 3.0 GeV/c, absorptive peripheral model for cross sections for, 21:15344
interactions $K^- + p \rightarrow \gamma + \Lambda$, electromagnetic couplings of baryons from Y_0^* production from, (T), 22:1405 (TH-210)
interactions $K^- + p \rightarrow \gamma + \Lambda$, electromagnetic coupling of Y^{*0} resonances from, (T), 22:35007
interactions $K^- + p \rightarrow \gamma + Y_0^*$ (1405) at 3 GeV/c, absorptive peripheral model for cross sections for, 21:15344
interactions $K^- + p \rightarrow$ hyperon + meson at 3.5 GeV/c, production cross sections and decay distributions for, (E), 21:9718
interactions $K^- + p \rightarrow$ hyperon + vector meson at 3 GeV/c, violation of quark model prediction for, (E/T), 25:47891
interactions $K^- + p \rightarrow K + N + \pi$, Cherenkov mechanism for analysis of cross section behavior of, 25:41016
interactions $K^- + p \rightarrow K + \omega + p$ at 5.46 GeV/c in hydrogen bubble chamber, double peripheral model for, (E), 24:10674 (COO-1195-177)
interactions $K^- + p \rightarrow K + \Xi$ at 2 to 5 GeV/c, Regge cut model for near-forward differential cross sections for, 25:59483
interactions $K^- + p \rightarrow K^0 + N$ at 2.0 and 2.24 GeV/c, differential and total cross sections for, (E/T), 21:2376
interactions $K^- + p \rightarrow K^0 + N$ at 3 GeV/c, production mechanisms of, (E/T), 21:7460 (CEA-R-3032)
interactions $K^- + p \rightarrow K^0 + N$, differential cross sections for, 23:10817
interactions $K^- + p \rightarrow K^0 + \pi + N$ at 3 GeV/c, evidence for π exchange in $K^*(891)$ production in, (E), 24:49336
interactions $K^- + p \rightarrow K^0 + \pi^- + \Delta$ at 5.46 GeV/c in hydrogen bubble chamber, double peripheral model for, (E), 24:10674 (COO-1195-177)
interactions $K^- + p \rightarrow K^0 + \pi^+ + n$ at 6 GeV/c, angular correlations in, (T), 22:3420
interactions $K^- + p \rightarrow K^{*0} + \pi^- + p$ at 6 and 10 GeV/c, calculations of Deck virtual diffraction background for, 23:30757
interactions $K^- + p \rightarrow K^{*0} + \pi^- + p$ at 6 GeV/c, double peripheral mechanism for, (E/T), 23:27755
interactions $K^- + p \rightarrow K^{*0}(890) + n$ at 3.9 and 4.6 GeV/c in hydrogen bubble chamber, test of absorption-modified one-pion exchange model for forward structure in, (E/T), 25:19918
interactions $K^- + p \rightarrow K^{*0}(890) + n$, coherent droplet model with long-range pion exchange for forward peak structure in, (T), 25:14722
interactions $K^- + p \rightarrow K^{*0}(890) + n$, forward peak structure of differential cross sections for, (E/T), 24:37788
interactions $K^- + p \rightarrow K^{*0}(890) + n$, model of Reggeized helicity amplitudes for, (T), 23:27810
interactions $K^- + p \rightarrow K^{*0}(890) + \pi^- + p$ at 7.3 GeV/c, double-Regge-pole analysis of, (E/T), 23:42684
interactions $K^- + p \rightarrow K^{*-} + \Delta^{++} + \pi^-$ at 4.25 GeV/c in hydrogen bubble chamber, multiperipheral diagram analysis of, (E), 24:15478
interactions $K^- + p \rightarrow K^{*-} + p$ above 3 GeV/c, K^{*-} production and decay in, (T), 21:4052
interactions $K^- + p \rightarrow K^{*-} + p$ at 2 to 13 GeV/c, Regge-pole analysis of, 23:25622
interactions $K^- + p \rightarrow K^{*-} + p$, line-reversal-symmetry breaking and interference effects in, 25:53213
interactions $K^- + p \rightarrow K^{*-} + \pi^+ + p$ at 6 GeV/c, double peripheral mechanism for, (E/T), 23:27755
interactions $K^- + p \rightarrow K^{*-} + \pi^- + \Delta^{++}$ at 4.25 and 10 GeV/c, generalized Veneziano model for, (E/T), 25:22832
interactions $K^- + p \rightarrow K^{*-} + \pi^+ + n$ at 6 GeV/c, double peripheral mechanism for, (E/T), 23:27755
interactions $K^- + p \rightarrow K^{*-} + \pi^+ + n$ at 6 to 10 GeV/c, double peripheral model analysis of, 23:42677
interactions $K^- + p \rightarrow K^{*-} + \pi^+ + n$, generalized Veneziano model for, 24:40403
interactions $K^- + p \rightarrow K^{*-} + \pi^+ + n$, Veneziano amplitude for, 25:45756
interactions $K^- + p \rightarrow K^{*-}(890) + p$ at 3 GeV/c, absorption model analysis of, 22:5590
interactions $K^- + p \rightarrow K^{*-}(890) + p$ at 4 to 10 GeV/c, Regge-pole model for, (E/T), 24:52106
interactions $K^- + p \rightarrow K^{*-}(890) + p$ at high energies, model of π exchange and exchange-degenerate ω—f poles for, 24:52107
interactions $K^- + p \rightarrow K^{*-}(890) + p$, coherent droplet model with long-range pion exchange for forward peak structure in, (T), 25:14722
interactions $K^- + p \rightarrow K^{*-}(890) + p$, forward peak structure of differential cross sections for, (E/T), 24:37788
interactions $K^- + p \rightarrow K^{*-}(890) + p$, model of Reggeized helicity amplitudes for, (T), 23:27810
interactions $K^- + p \rightarrow K^{*0}(890) + p$, model of Reggeized helicity amplitudes for, (T), 23:27810
interactions $K^- + p \rightarrow K^{*-}(890) + p$, two-parameter model for, (T), 25:14574
interactions $K^- + p \rightarrow K^{*-}(892) + p$ at 1.2 to 2.1 GeV/c, rescattering model for angular distributions for, (T), 24:30526
interactions $K^- + p \rightarrow K^0 + n$ at low, intermediate, and high energies, Veneziano model for, 25:7656 (IFT-70/5)
interactions $K^- + p \rightarrow K^0 + n$ below 20 GeV/c, rho' Regge trajectory for, 22:39413
interactions $K^- + p \rightarrow K^0 + n$, at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions $K^- + p \rightarrow K^0 + n$, complex angular momentum method with Regge cut contribution to, (E/T), 24:52098
interactions $K^- + p \rightarrow K^0 + n$, Roy model for behavior of diffraction maximum in, 22:17956
interactions $K^- + p \rightarrow K^0 + n$, sum rules based on Regge pole model for, 21:17130
interactions $K^- + p \rightarrow K^0 + \pi^- + p$ at 1.65 GeV/c in deuterium bubble chamber, $K^-(890)$ production in, (E), 25:40899
interactions $K^- + p \rightarrow K^0 + \pi^- + p$ at 10 GeV/c, longitudinal phase space analysis of, (E/T), 23:36840
interactions $K^- + p \rightarrow K^0 + \pi^- + p$ at 3.3 GeV/c, generalized Veneziano-model fits to, 25:3391
interactions $K^- + p \rightarrow K^0 + \pi^- + \pi^+ + p$ at 3 GeV/c, one-pion-exchange model for $K^*(891)$ production in, (E/T), 24:15497
interactions $K^- + p \rightarrow K^0 + \pi^- + \pi^+ + n$ at 3 GeV/c, one-pion-exchange model for $K^*(891)$ production in, (E/T), 24:15497
interactions $K^- + p \rightarrow K^0 + \pi^+ + \Xi^-$ at 1.8 to 4.2 GeV/c in bubble chamber, single-meson exchange for forward peaks in differential cross sections for $\Xi^*(1530)$ production in, (E), 23:42573
interactions $K^- + p \rightarrow K^0 + \Xi^0$ at 1.8 GeV/c, spark chamber study of differential cross sections for, (E), 25:22699
interactions $K^- + p \rightarrow K^0 + \Xi^0$, quark model and multiple-scattering formalism for, 22:52985
interactions $K^- + p \rightarrow K^0 + \Xi^0$, relativistic extensions of SU(6) for, 23:16982

interactions $K^- + p \to K^- + n + \pi^+ + \pi^+ + \pi^-$ at 4.6 and 5 GeV/c, resonance production, mass distribution, angular distribution, and cross sections in, (E), 22: 52944
interactions $K^- + p \to K^- + N + \pi^+ + \pi^+ + \pi^-$ at 4.6 and 5.0 GeV/c, cross sections for resonance production in, (E), 22:29627 (IS-T-225)
interactions $K^- + p \to K^- + \omega + p$ at 6 GeV/c, modified double-Regge model for, 23:30760
interactions $K^- + p \to K^- + p + 4\pi$ (+ π^0) at 3.9 GeV/c in hydrogen bubble chamber, Goldhaber effect in cross sections and production mechanisms for, (E), 25:40880 (NP-18879)
interactions $K^- + p \to K^- + p + \omega^0$ at 3.8 GeV/c, Y^* production from, (E), 21:21145
interactions $K^- + p \to K^- + p$ + phi at 3.8 GeV/c, properties of final states from, (E), 22:11601
interactions $K^- + p \to K^- + p + \pi^0$ at 1.45 GeV/c, N^* (1470) production from, (E), 21:2384
interactions $K^- + p \to K^- + p + \pi^0$ at 4.57 GeV/c, $K^*(890)$ and $K^*(1420)$ production in, (E), 23:14972
interactions $K^- + p \to K^- + p + \pi^+ + \pi^+ + \pi^-$ at 5.46 GeV/c in hydrogen bubble chamber, total cross section, resonance production, and quasi-two, -three, and -four-body states in, (E), 24:10674 (COO-1195-177)
interactions $K^- + p \to K^- + p + \pi^+ + \pi^- + \pi^0$ at 3.8 GeV/c in hydrogen bubble chamber, $K^*(1410)$ production from, 21:31533
interactions $K^- + p \to K^- + p + \pi^+ + \pi^- + \pi^0$ at 4.6 and 5.0 GeV/c, cross sections for resonance production in, (E), 22:29627 (IS-T-225)
interactions $K^- + p \to K^- + p + \pi^+ + \pi^- + \pi^0$ at 4.6 and 5 GeV/c, resonance production, mass distribution, angular distribution, and cross sections in, (E), 22: 52944
interactions $K^- + p \to K^- + p + \pi^+ + \pi^- + \pi^0$ at 5.5 GeV/c in hydrogen bubble chamber, total cross sections, resonance production, and quasi-two, -three, and -four body states in, (E), 25:14572
interactions $K^- + p \to K^- + p + \pi^+ + \pi^-$ at 12.6 GeV/c, diffraction mechanism for anti $K^{**}(890)\pi^-$ and $\Delta^{++}(1236)\pi^-$ enhancements in, (E), 23:21058
interactions $K^- + p \to K^- + p + \pi^+ + \pi^-$ at 2.0 GeV/c, production of K^*, N^*, and Y^* resonances in, (E), 21:15268
interactions $K^- + p \to K^- + p + \pi^+ + \pi^-$ at 2.63 and 2.70 GeV/c, resonance production in, (E), 21:7472
interactions $K^- + p \to K^- + p + \pi^+ + \pi^-$ at 2.63 and 2.70 GeV/c in hydrogen bubble chamber, resonance production from, (E), 22:7440 (COO-1195-45)
interactions $K^- + p \to K^- + p + \pi^+ + \pi^-$ at 3.8 GeV/c in hydrogen bubble chamber, $K^*(1410)$ production from, 21:31533
interactions $K^- + p \to K^- + p + \pi^+ + \pi^-$ at 3.9, 4.6, and 7.3 GeV/c, production of N(1710) and N(1470) in, (E), 24:6695
interactions $K^- + p \to K^- + p + \pi^+ + \pi^0$ at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, $K^- + \pi^-$ interaction cross section evaluation from, 21:31534
interactions $K^- + p \to K^- + p + \pi^+ + \pi^0$ at 4.6 and 5.0 GeV/c, production of K^*, K^{**}, and Δ resonances in, (E/T), 23:8742
interactions $K^- + p \to K^- + p + \pi^+ + \pi^-$ at 5.0 GeV/c, one-pion-exchange model for, (E/T), 24:8658
interactions $K^- + p \to K^- + p + \pi^+ + \pi^0$ at 6 GeV/c, cross sections for $K^*(890)$, $\Delta(1236)$, and $K^*(1420)$ production in, (E), 23:14990
interactions $K^- + p \to K^-$ + p at 0 to 250 MeV/c in emulsions, total cross section for, (E), 22:17875
interactions $K^- + p \to K^-$ + p at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions $K^- + p \to K^-$ + p at 0.4 to 0.73 GeV/c, differential cross sections for, (E), 24:45430
interactions $K^- + p \to K^-$ + p at 0.8 to 1.2 GeV/c, model of diffraction and resonant scattering for, 22: 5584
interactions $K^- + p \to K^-$ + p at 0.98 to 1.34 GeV, anti KN partial-wave amplitudes from, (E/T), 25:9667
interactions $K^- + p \to K^-$ + p at 1 to 2.5 GeV/c, wire spark chamber study of differential cross sections for backward, (E), 23:51863
interactions $K^- + p \to K^-$ + p at 1.1 to 2.5 GeV/c, differential cross sections for, (E), 25:25325
interactions $K^- + p \to K^-$ + p at 14.25 GeV/c in hydrogen bubble chamber, differential and total cross sections for, (E), 25:19912
interactions $K^- + p \to K^-$ + p at 1915 to 2168 MeV, total and differential cross section for, (E), 25:40897
interactions $K^- + p \to K^-$ + p at 2.3 GeV/c, absorptive Veneziano model for, 25:1518
interactions $K^- + p \to K^-$ + p at 3.55 GeV/c near 180°, spark chamber and scintillation and Cherenkov counter study of backward, (E), 23:23358 (CEA-R-3685)
interactions $K^- + p \to K^-$ + p at 3.55 GeV/c, backward elastic, (E), 21:18920
interactions $K^- + p \to K^-$ + p at 3.55 GeV/c, spark chamber study of differential cross section for, (E), 23: 23372
interactions $K^- + p \to K^-$ + p at 3.55 to 6.9 GeV/c, spark chamber study of differential cross sections for, (E), 25:9684
interactions $K^- + p \to K^-$ + p at 430 to 800 MeV/c, partial-wave analysis of, (E), 24:5255
interactions $K^- + p \to K^-$ + p at 5.9 to 9.8 GeV/c, scintillation counter telescope and optical spark chamber study of cross sections for, (E), 22:39271 (CERN-68-7(Vol.1), pp 571-9)
interactions $K^- + p \to K^-$ + p at 50 to 150 GeV/c, design of apparatus for, (E), 24:51954 (TID-25473(Vol.4), pp 67-70)
interactions $K^- + p \to K^-$ + p at 594 to 820 MeV/c, differential cross sections for, (E), 23:18815
interactions $K^- + p \to K^-$ + p at 6 GeV/c, Cherenkov counter study of polarization parameter for, (E), 24: 24227
interactions $K^- + p \to K^-$ + p at 6 to 14 GeV/c, scintillation counter and optical spark chamber study of, (E), 23:46621
interactions $K^- + p \to K^-$ + p at 6 to 18 GeV, polarization parameters for, (E), 25:33552 (NP-18830)
interactions $K^- + p \to K^-$ + p at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions $K^- + p \to K^-$ + p at 600 to 1200 MeV/c, partial wave amplitudes for analysis of, (E/T), 23:8749
interactions $K^- + p \to K^-$ + p at 777 to 1226 MeV/c, partial and differential cross sections for, (E), 23: 10762
interactions $K^- + p \to K^-$ + p at 780 to 1220 MeV/c, resonance production from, (T), 22:5507
interactions $K^- + p \to K^-$ + p at 800 to 1200 MeV/c, differential cross sections for, (E/T), 23:39607 (AD-687143)
interactions $K^- + p \to K^-$ + p at 800 to 1200 MeV/c, partial-wave analysis of, (E/T), 25:59293
interactions $K^- + p \to K^-$ + p at high energies and large momentum transfers, Regge trajectories for recurring minima in, 22:20221
interactions $K^- + p \to K^-$ + p at high energies, compilation of polarization data and exchange-degenerate Regge pole model for, (E/T), 25:53186
interactions $K^- + p \to K^-$ + p at high energies, constancy of total cross sections for, (T), 25:12210
interactions $K^- + p \to K^-$ + p at high energies, eikonal model for total cross sections and slope of differential cross sections for, (T), 25:47881
interactions $K^- + p \to K^-$ + p at high energies, eikonal model for, (T), 25:30893 (INR-P-1233)
interactions $K^- + p \to K^-$ + p at high energies, predictions of quark model for large-angle, 23:21096
interactions $K^- + p \to K^-$ + p at high energies, Regge pole—cut model for analysis of, 25:56505
interactions $K^- + p \to K^-$ + p at high energies, Regge-pole eikonal theory of small-angle, 23:25639
interactions $K^- + p \to K^-$ + p at high energies, SU(3) inequalities for amplitude differences for, 21:21287
interactions $K^- + p \to K^-$ + p at high energies, unitarity condition for imaginary part of amplitude for large-angle, 22:13743
interactions $K^- + p \to K^-$ + p at high finite energies, Regge pole theory and exchange degeneracy for phases with $K^- + n \to K^- + n$ interactions for, 24:10755
interactions $K^- + p \to K^-$ + p at large finite energies, relations between particle and antiparticle total cross sections and phases for, (T), 24:28559
interactions $K^- + p \to K^-$ + p below 1.4 GeV/c, Veneziano dips in angular distributions of, 25:14724
interactions $K^- + p \to K^-$ + p below 280 MeV/c, angular distribution and cross sections for, (E), 21:878 (NEVIS-149)
interactions $K^- + p \to K^-$ + p, compilation of differential and total cross sections, polarization, and effective Regge trajectories for, (E), 25:38663 (UCRL-20001)
interactions $K^- + p \to K^-$ + p, data tabulation of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $K^- + p \to K^-$ + p, exchange degeneracy in, 24:52092
interactions $K^- + p \to K^-$ + p, Regge quark model for, (T), 25:25450
interactions $K^- + p \to K^- + \pi^0$ + p, dual + Pomeron analysis of, 25:59490
interactions $K^- + p \to K^- + \pi^0$ + p, kinematics of momentum transfers in, (T), 22:48316
interactions $K^- + p \to K^- + \pi^0(\pi^-) + \Xi^-(\Xi^0)$ at 1.8 to 4.2 GeV/c in bubble chamber, single-meson exchange for forward peaks in differential cross sections for $\Xi^-(1530)$ production in, (E), 23:42573
interactions $K^- + p \to K^- + \pi^+ + n$ at 4.57 GeV/c, $K^*(890)$ and $K^*(1420)$ production in, (E), 23:14972
interactions $K^- + p \to K^- + \pi^+ + n$ at 5 to 16 GeV/c, generalized Veneziano model for π exchange in, 25: 25445
interactions $K^- + p \to K^- + \pi^+ + n$ at 5.5 GeV/c, S-wave phase shifts for, (E), 25:36413
interactions $K^- + p \to K^- + \pi^+ + n$, crossing-symmetric description of, 25:50141
interactions $K^- + p \to K^- + \pi^+ + n$, K + π helicity amplitudes from, (E), 24:30456 (CONF-690521-, pp 446-76)
interactions $K^- + p \to K^- + \pi^- + N^{*++}$ at 6 GeV/c, double peripheral mechanism for, (E/T), 23:27755
interactions $K^- + p \to K^- + \pi^- + \pi^+ + p + \pi^0$ at 4.6 and 5.0 GeV/c, A_1^0 production in, (E), 22:7449
interactions $K^- + p \to K^- + \pi^+ + \pi^- + p$ at 10.1 GeV/c in hydrogen bubble chamber, L(1780) production in, (E), 24:51964
interactions $K^- + p \to K^- + \pi^+ + \pi^- + p$ at 12.6 GeV/c, analysis of $K\pi\pi$ spectrum in, (E/T), 24:49503
interactions $K^- + p \to K^- + \pi^+ + \pi^-$ + p at 3 GeV/c, one-pion-exchange model for $K^*(891)$ production in, (E/T), 24:15497
interactions $K^- + p \to K^- + \pi^+ + \pi^-$ + p at 4.1 and 5.5 GeV/c in hydrogen bubble chamber, resonance production from, (E), 22:13652 (COO-1195-111)
interactions $K^- + p \to K^- + \pi^+ + \pi^- + p$ at 4.6 GeV/c in hydrogen bubble chamber, L(1745) production in, (E), 24:37652
interactions $K^- + p \to K^- + \pi^+ + \pi^-$ + p at 5.5 GeV/c in hydrogen bubble chamber, resonance production in anti K $\pi\pi$ system in, (E), 22:29637
interactions $K^- + p \to K^- + \pi^+ + \pi^-$ + p at 5.5 GeV/c, generalized Deck effect and anti $K^{**}(1300)$ production in, (E), 22:11589
interactions $K^- + p \to K^- + \pi^- + \pi^+ + \pi^0$ + p at 4.6 and 5.0 GeV/c, cross sections and resonance contributions in, (E), 24:3529
interactions $K^- + p \to K^- + \pi^- + \pi^+ + \pi^0$ + p at 4.6 and 5.0 GeV/c, 3π (960) enhancement in, (E), 22: 39282
interactions $K^- + p \to K^- + \pi^- + \pi^+ + \pi^+$ + n at 4.6 and 5.0 GeV/c, 3π (960) enhancement in, (E), 22: 39282
interactions $K^- + p \to K^- + \pi^- + \pi^+ + \pi^+$ + n at 4.6 and 5.0 GeV/c, cross sections and resonance contributions to, (E), 24:3529
interactions $K^- + p \to K^+ + \Xi^-$ and $K^- + p \to K^0 + \Xi^0$ at 1.26 to 1.84 GeV/c, total and differential cross sections and resonance production in, (E), 23:10758
interactions $K^- + p \to K^+ + \Xi^-$ at 8 and 16 GeV/c, upper limits for Ξ^{-*} production in, (E), 24:18079
interactions $K^- + p \to K^+ + \Xi^-$ at high energies, two-Reggeon cuts and exotic exchange in, (T), 25:59618
interactions $K^- + p \to K^+ + \Xi^-$ at intermediate energies, two-meson exchange peripheral model for backward, (T), 25:41006
interactions $K^- + p \to K^+ + \Xi^-$ interactions at high energies, two-Reggeon exchange contributions to, (T), 25:14657 (UCRL-20032)
interactions $K^- + p \to K^+ + \Xi^-$, quark model and multiple-scattering formalism for, 22:52985
interactions $K^- + p \to K^+ + \Xi^-$, Regge pole model for double charge-exchange in, 22:46400
interactions $K^- + p \to K^+ + \Xi^-$, relativistic extension of SU(6) for, 23:16982
interactions $K^- + p \to K^-(890)$ + p at high energies, factorizable quark model for amplitude of, (T), 25: 30879
interactions $K^- + p \to K^-$(anti K^0) + p(n) at 449 to 671 MeV/c in hydrogen bubble chamber, cross sections and angular distributions for, (E), 24:32970
interactions $K^- + p \to K^-$(anti K^0) + p(n) near 1.670 GeV in hydrogen bubble chamber, differential cross sections for, (E), 25:59281
interactions $K^- + p \to K^{*0}(890)$ + n at 11.2 GeV/c, cross sections and density matrix elements for, (E), 22:48232
interactions $K^- + p \to l^+ + l^-$ + n, radiative corrections for vector meson production and decay in, (T), 22: 32070
interactions $K^- + p \to \Lambda + 2\pi^+ + 2\pi^- + \pi^0$ at 4.6 GeV/c in hydrogen bubble chamber, production and decay of meson resonance at 1695 MeV in, (E), 23: 36849
interactions $K^- + p \to \Lambda + 2\pi^- + 2\pi^+ + \pi^0$ at 6 GeV/c in hydrogen bubble chamber, strangeness-zero meson production from, (E), 22:7447
interactions $K^- + p \to \Lambda + 2\pi^- + 2\pi^+$ at 6 GeV/c in hydrogen bubble chamber, strangeness-zero meson production from, (E), 22:7447
interactions $K^- + p \to \Lambda + 5\pi$ at 4.25 GeV/c in hydrogen bubble chamber, mass and width of $\omega\pi\pi(1670)$ resonance in, (E), 24:15478
interactions $K^- + p \to \Lambda$ + anti p + p, generalized Veneziano model analysis of, (T), 25:53190
interactions $K^- + p \to \Lambda + D^*(1285), D^*(1285) - \pi(980) + \pi$ at 5.5 GeV/c, cross sections for, (E), 24: 45439
interactions $K^- + p \to \Lambda + e^+ + e^-$, CP-noninvariant polarization in, 21:17123
interactions $K^- + p \to \Lambda$ + eta at 1.2 to 1.7 GeV/c, total and differential cross sections for, (E), 22:5511
interactions $K^- + p \to \Lambda$ + eta at 1.22, 1.51, and 1.7 GeV/c, model with K^* and n exchange for, (E/T), 22: 32158
interactions $K^- + p \to \Lambda$ + eta' at 1.70 to 2.65 GeV/c, cross sections and eta' spin and parity from, (E), 25: 5291
interactions $K^- + p \to \Lambda$ + eta' at 1.70 to 2.65 GeV/c in bubble chamber, (E), 23:39611 (UCRL-18863)
interactions $K^- + p \to \Lambda$ + eta' at 3 GeV/c, I = 0 eta$\pi\pi$ and rhoγ enhancements in, (E), 22:29635
interactions $K^- + p \to \Lambda$ + eta at 4.1 to 5.5 GeV/c, meson-exchange mechanism for, (E), 22:24560
interactions $K^- + p \to \Lambda$ + eta at 740 MeV/c in hydrogen bubble chamber, cross section for, 21:40138 (ORO-3065-14)
interactions $K^- + p \to \Lambda$ + eta at 740 MeV/c, differential cross section and branching ratios for eta decay in, (E), 23:14987
interactions $K^- + p \to \Lambda$ + eta at high energies, exchange of N and Δ Regge trajectories in, 23:27815
interactions $K^- + p \to \Lambda$ + eta near threshold, Dalitz plot density of eta $\to \pi^+ + \pi^- + \pi^0$ decay from, (E), 24:32958
interactions $K^- + p \to \Lambda$ + eta, eta decay asymmetry from, (E), 21:23314 (BNL-994, pp 70-102)
interactions $K^- + p \to \Lambda$ + eta, resonance production in, (E), 23:34538
interactions $K^- + p \to \Lambda + l^0$ at 5.5 GeV/c in hydrogen bubble chamber, (E), 22:1391
interactions $K^- + p \to \Lambda + K$ + anti K + mπ at 10 GeV/c, multiperipheral Regge exchange model for momentum distributions in, (E/T), 23:36837
interactions $K^- + p \to \Lambda + K^+ + K^-$ at 3.3 GeV/c in hydrogen bubble chamber, phi(1020) production properties and Aphi density matrix in, (E), 25:45675
interactions $K^- + p \to \Lambda + K^+ + K^-$ at 3.3 GeV/c, test of generalized Veneziano model from, 25:28042
interactions $K^- + p \to \Lambda$ + neutrals at 270 to 470 MeV/c, electromagnetic decay of $Y_0^*(1520)$ in, (E), 23:5520
interactions $K^- + p \to \Lambda + n\pi$ at 6 GeV (n = 2 to 5), Reggeized multiperipheral model for, 23:18902
interactions $K^- + p \to \Lambda + \omega$ at 1.2 to 2.7 GeV/c, absorption model with strange-meson exchange for, 21:25242
interactions $K^- + p \to \Lambda + \omega$ at 1.2 to 2.7 GeV/c, differential cross section and decay-correlation parameters for, (E), 21:25242
interactions $K^- + p \to \Lambda + \omega$ at 1.2 to 2.7 GeV/c, $\omega \to \pi^+ + \pi^-$ decay branching ratio from, (E), 24: 24239
interactions $K^- + p \to \Lambda + \omega$ at 3 GeV/c, differential cross sections for, (E), 25:1423
interactions $K^- + p \to \Lambda + \omega$ at 4.1 to 5.5 GeV/c, meson-exchange mechanism for, (E), 22:24560
interactions $K^- + p \to \Lambda$ + phi at 2.1 to 2.7 GeV/c in hydrogen bubble chamber, phi production from, 21: 33619

interactions $K^- + p \rightarrow \Lambda$ + phi at 3 GeV/c, differential cross sections for, (E), 25:1423
interactions $K^- + p \rightarrow \Lambda$ + phi at 4.1 to 5.5 GeV/c, meson-exchange mechanism for, (E), 22:24560
interactions $K^- + p \rightarrow \Lambda$ + phi at 6 GeV/c in bubble chamber, cross sections for, (E), 22:15684
interactions $K^- + p \rightarrow \Lambda + \pi$ and $K^- + p \rightarrow \Sigma + \pi$ in quark model, Λ to Σ ratio in, 22:17967
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 1 GeV/c, direct-channel resonances, background exchange amplitudes, angular distributions, Λ cross sections, and $\Lambda\pi^0$ cross sections for, (E), 24:3526
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 1.0 to 1.85 GeV/c, partial-wave analysis of, (T), 25:25435
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 1.26 to 1.84 GeV/c in bubble chamber, cross sections and production of $\Sigma(1770)$, $\Sigma(1910)$, and $\Sigma(2030)$ in, (E), 25:25323
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 1.6 to 1.7 GeV, angular distributions for, (E), 21:7465(R) (NYO-3178-3)
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 1.865 to 2.001 GeV in hydrogen bubble chamber, properties of $\Sigma(1910)$ from, (E), 25:9659 (UCRL-19789)
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 1915 to 2168 MeV, differential cross sections and polarizations in, (E), 25:1418
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 350 to 430 MeV/c, partial-wave amplitudes, cross sections, and polarizations for, (E/T), 24:37658
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 449 to 671 MeV/c in hydrogen bubble chamber, upper limit for elasticity of $\Sigma(1616)$ in, (E), 24:32970
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 594 to 820 MeV/c, differential cross sections for, (E), 23:18815
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 6 GeV/c in bubble chamber, cross sections for, (E), 22:15684
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 600 to 1200 MeV/c, energy independent partial-wave analysis of, (E/T), 23:8748
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 637 to 793 MeV/c, partial-wave analysis of, 25:47870
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 815 to 1105 MeV/c in deuterium bubble chamber, Y^* production in, (E), 22:39288
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at 850 to 1150 MeV/c in hydrogen bubble chamber, exchange amplitude contributions to, (E), 22:50297 (UCRL-18411)
interactions $K^- + p \rightarrow \Lambda + \pi^0$ at high energies, exchange of N and Δ Regge trajectories in, 23:27815
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^0 + \pi^-$ and $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 2.1 to 2.7 GeV/c, cross sections and angular distributions for resonance production in, (F), 23:7091
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^0 + \pi^-$ at 2.1 to 2.7 GeV/c in hydrogen bubble chamber, $\Sigma(1385)$ and rho production from, (E), 22:15682 (UCRL-18041)
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ + neutrals at 1.2 to 1.7 GeV/c in hydrogen bubble chamber, eta decay branching ratio for, (E), 21:29425
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^- + \pi^0$ at 4.6 GeV/c in hydrogen bubble chamber, production and decay of meson resonance at 1695 MeV in, (E), 23:36849
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^- + \pi^0$ at 5.5 GeV/c, production and decay of $X^0(959)$ in, (E), 22:48237
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 1.2 to 1.7 GeV in bubble chamber, resonance production and decay in, (E), 23:36850
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 1.38 GeV/c in hydrogen bubble chamber, $\Sigma(1385)$ production in, (E), 23:32622
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 1.5 GeV/c, $Y_1^*(1385)$ parity and spin from, (E), 21:17055
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 1.7 GeV/c, production and decay of $\Sigma(1660)$ from, (E), 22:52941
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 2.1 to 2.7 GeV/c in hydrogen bubble chamber, $\Sigma(1385)$ and rho production from, (E), 22:15682 (UCRL-18041)
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 3.3 GeV/c in hydrogen bubble chamber, decay angular properties of $\pi^+\pi^-$ system and $\Sigma^*(1385)$ density matrix in, (E), 25:45675
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 375 and 415 MeV/c, $\Sigma(1385)$ production from $\Lambda(1520)$ decay in, (E), 24:42878 (NYO-3651-13)
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 670 to 910 MeV, cross sections for $\Sigma(1690)$ production in, (E), 22:52939
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at 850 to 1150 MeV/c in hydrogen bubble chamber, $\Sigma(1385)$, $\Sigma(1770)$, and $\Lambda(1820)$ production in, (E), 23:23362 (UCRL-18624)
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$ at rest in hydrogen bubble chamber, relative parity of K^- and Λ anti p system from, (E), 21:44275(R) (ORO-2504-107)
interactions $K^- + p \rightarrow \Lambda + \pi^+ + \pi^-$, $\Sigma(1660)$ production and sequential decay from, (E), 22:48231
interactions $K^- + p \rightarrow \Lambda$ + rho^0 at 4.1 to 5.5 GeV/c, meson-exchange mechanism for, (E), 22:24560
interactions $K^- + p \rightarrow \Lambda + X^0$ at 4.1 to 5.5 GeV/c, meson-exchange mechanism for, (E), 22:24560
interactions $K^- + p \rightarrow \Lambda + X^0$ at 6 GeV/c in bubble chamber, cross sections for, (E), 22:15684
interactions $K^- + p \rightarrow \Lambda\ (\Sigma^0) + \pi^0$ at 375 and 415 MeV/c in hydrogen bubble chamber, cross sections, polarization Legendre coefficients, and upper limit for Λ^0/Σ^0 isospin mixing parameter for, (E), 24:32973
interactions $K^- + p \rightarrow \Lambda + (n-1)\pi$ $(3 < n < 9)$ at 5 to 16 GeV/c, Reggeized multipheral model for, 22:46427
interactions $K^- + p \rightarrow A(1520) + \pi$, $A(1520) \rightarrow \Sigma(1385) + \pi$, at 777 to 1226 MeV/c, mass and angular distributions for, (E), 25:22693
interactions $K^- + p \rightarrow A(1520) + \pi^0$ at 3.5 GeV/c, one-baryon exchange model for, 23:21115
interactions $K^- + p \rightarrow A(1520) + \pi^0$, rescattering model for production angular distributions from, 22:50404
interactions $K^- + p \rightarrow A(\Sigma) + \pi$ at 436 to 793 MeV/c, differential cross sections and polarizations for, (E), 25:1422
interactions $K^- + p \rightarrow A(\Sigma^0) + \pi^+ + \pi^-$ at 3.9 to 5.0 GeV/c in hydrogen bubble chamber, Σ^{*0} production in, (E), 25:59284
interactions $K^- + p \rightarrow A^0 + 2\pi^0$ at 1660 MeV in heavy-liquid bubble chamber, baryon resonance production in, (E), 25:38661 (LAL-RI-71-2)
interactions $K^- + p \rightarrow A^0 + 6\pi(+\pi^0)$ at 3.9 GeV/c in hydrogen bubble chamber, Goldhaber effect in cross sections and production mechanisms for, (E), 25:40880 (NP-18879)
interactions $K^- + p \rightarrow A^0$ + eta at 740 MeV/c in bubble chamber, (E), 22:34834
interactions $K^- + p \rightarrow A^0 + \pi^0$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $K^- + p \rightarrow A^0 + \pi^+ + \pi^-$ + neutrals at 4.6 GeV/c, production of $X^-(975)$ in, (E), 23:1591 (BNL-12803)
interactions $K^- + p \rightarrow A^0 + \pi^+ + \pi^- + \pi^0$ at 4.6 to 5.0 GeV in hydrogen bubble chamber, $\Sigma(1660)$ and $\Sigma(1695)$ production in, (E), 22:20139
interactions $K^- + p \rightarrow A^0 + \pi^+ + \pi^- + \pi^0$ at 6 GeV/c in bubble chamber, cross sections for, (E), 22:15684
interactions $K^- + p \rightarrow A^0 + \pi^+ + \pi^- + \pi^0$ at 776 to 1200 MeV/c in hydrogen bubble chamber, A^0 lifetime determination from, (E), 22:20119
interactions $K^- + p \rightarrow A^0 + \pi^+ + \pi^-$ at 1660 MeV in heavy-liquid bubble chamber, separation from K^- reactions with nuclei, cross sections, and $\Sigma^+(1385)$ and $\Sigma^-(1385)$ production in, (E), 25:38661 (LAL-RI-71-2)
interactions $K^- + p \rightarrow A^0 + \pi^+ + \pi^-$ at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, $\Sigma(1700)$ production in, (E), 23:42570
interactions $K^- + p \rightarrow A^0 + \pi^+ + \pi^-$ at 6 GeV/c in bubble chamber, cross sections for, (E), 22:15684
interactions $K^- + p \rightarrow A^0 + \pi^+ + \pi^-$ at 6 GeV/c in hydrogen bubble chambers, production of $Y_1^*(1700)$ in, 21:25246
interactions $K^- + p \rightarrow A^0 + \pi^+ + \pi^-$ at 776 to 1200 MeV/c in hydrogen bubble chamber, A^0 lifetime determination from, (E), 22:20119
interactions $K^- + p \rightarrow A^0\ (\Sigma^0) + \pi^+ + \pi^-$ at 4.6 to 5.0 GeV in hydrogen bubble chamber, $\Sigma(1660)$ and $\Sigma(1695)$ production in, (E), 22:20139
interactions $K^- + p \rightarrow A^0(\Sigma) + K +$ anti K at 2.9 GeV/c in bubble chamber, cross sections and production of $\Xi(1530)$, phi, $\Xi(1860)$, and K anti $K(1032)$ enhancement in, (E), 25:25310 (ORO-2504-170)
interactions $K^- + p \rightarrow A^0(\Sigma^0) + \pi^0$ at 1660 MeV in heavy-liquid bubble chamber, baryon resonance production in, (E), 25:38661 (LAL-RI-71-2)
interactions $K^- + p \rightarrow n +$ anti $K^0 + \pi^+ + \pi^- + \pi^- + \pi^-$ at 6 GeV/c, cross sections for $K^*(890)$ and $\Delta^-(1236)$ production in, (E), 25:40892
interactions $K^- + p \rightarrow n +$ anti $K^0 + \pi^+ + \pi^-$ at 2.1 to 2.7 GeV/c in hydrogen bubble chamber, resonance production and total cross sections for, (E), 23:27748 (UCRL-18860)
interactions $K^- + p \rightarrow n +$ anti K^0 at 6 GeV/c in bubble chamber, cross sections for, (E), 22:15684
interactions $K^- + p \rightarrow n + K^{*0}(890)$ at 4.1 to 10 GeV/c, natural and unnatural parity exchange contributions to cross sections for, (T), 22:46458
interactions $K^- + p \rightarrow n + K_1^0 + \pi^- + \pi^+$, $K\pi\pi$ enhancement in, (E), 24:37650 (UR-875-312)
interactions $K^- + p \rightarrow n + K^- + \pi^+$ at 10 GeV/c, Veneziano model with π and Pomeron exchange for, (T), 25:3386
interactions $K^- + p \rightarrow n + K^- + \pi^+$ at 3 GeV/c in hydrogen bubble chamber, anti K^{*0} production and $K^-\pi^+$-decay asymmetry for S-wave in, (E), 24:3549
interactions $K^- + p \rightarrow n + K^- + \pi^+$ at 50 and 100 GeV/c, spectrometer study of, (E), 24:37639 (COO-1428-210)
interactions $K^- + p \rightarrow N + \pi + K^*$ peripheral model for πK^* enhancement in, (T), 22:24664
interactions $K^- + p \rightarrow n$ rho^0 + Y, total cross sections in multi Regge model for, 22:39396 (CERN-68-7(Vol.2), pp 110-13)
interactions $K^- + p \rightarrow n\pi$ + Y, total cross sections in multi Regge model for, 22:39396 (CERN-68-7(Vol.2), pp 110-13)
interactions $K^- + p \rightarrow \Omega^-$ + M_1 (1280), Ω^- parity and spin from, (T), 21:2467
interactions $K^- + p \rightarrow p + (K\pi)^-$, multiple-scattering theory for, 24:1591
interactions $K^- + p \rightarrow p +$ anti $K^0 + \pi^0 + \pi^-$ at 2.1 to 2.7 GeV/c in hydrogen bubble chamber, resonance production and total cross sections for, (E), 23:27748 (UCRL-18860)
interactions $K^- + p \rightarrow p +$ anti $K^0 + \pi^+ + \pi^- + \pi^- + \pi^0$ at 6 GeV/c, cross sections for $K^*(890)$, $\Delta^{*-}(1236)$, and ω production in, (E), 25:40892
interactions $K^- + p \rightarrow p +$ anti $K^0 + \pi^+ + \pi^- + \pi^-$ at 6 GeV/c, cross sections for $K^*(890)$, $\Delta^{*-}(1236)$, and rho^0 production in, (E), 25:40892
interactions $K^- + p \rightarrow p +$ anti $K^0 + \pi^-$ at 2.1 to 2.7 GeV/c in hydrogen bubble chamber, resonance production and total cross sections for, (E), 23:27748 (UCRL-18860)
interactions $K^- + p \rightarrow p +$ anti $K^0 + \pi^-$ at 3 to 10 GeV/c, differential cross sections from five-point Veneziano model for, (E/T), 24:52108
interactions $K^- + p \rightarrow p +$ anti $K^0 + \pi^-$ at 3.9 and 4.6 GeV/c in hydrogen bubble chamber, mass spectra for $\Sigma^*(1670)$ production in, (E), 25:25326
interactions $K^- + p \rightarrow p +$ anti $K^0 + \pi^-$ at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, $\Sigma^*(1660)$ production in, (E), 23:42570
interactions $K^- + p \rightarrow p +$ anti $K^0 + \pi^-$ at 4.6 to 5.0 GeV in hydrogen bubble chamber, $\Sigma(1660)$ and $\Sigma(1695)$ production in, (E), 22:20139
interactions $K^- + p \rightarrow p +$ anti $K^0 + \pi^-$ at 6 GeV/c in bubble chamber, cross sections for, (E), 22:15684
interactions $K^- + p \rightarrow p + K + 2\pi$ at 4.6 and 5.0 GeV/c, exchange diagrams with diffraction scattering at lower vertex for nonresonant $K\pi\pi(1300)$ mass enhancement in, (T), 24:15582
interactions $K^- + p \rightarrow p + K^* + \pi$, final-state interaction effect on $K^*(1320)$ production in, (T), 23:49158
interactions $K^- + p \rightarrow p + K^{*-}(890)$ at 4.1 to 10 GeV/c, natural and unnatural parity exchange contributions to cross sections for, (T), 22:46458
interactions $K^- + p \rightarrow p + K^- + 2\pi^+ + 2\pi^-$ at 3.95 GeV/c in hydrogen bubble chamber, parametrization for, (E), 25:30743
interactions $K^- + p \rightarrow p + K^-$ + $M^0(953)$ at 3.9 and 4.6 GeV/c in hydrogen bubble chamber, mass and width of M(953) in, (E), 25:9683
interactions $K^- + p \rightarrow p + K^- + \pi^+ + \pi^-$, dual diffractive model for Q and L production in, (E/T), 25:7662
interactions $K^- + p \rightarrow p + K^-$ at 8 and 16 GeV/c, upper limits for K^{*-} production in, (E), 24:18079
interactions $K^- + p \rightarrow p + K^-$ at high energies, estimations of double scattering contributions for Regge cuts and secondary trajectories in, 23:51961
interactions $K^- + p \rightarrow p +$ kappa$^-$ at 2.88 GeV/c, cross section for K^- (<670 MeV) production in, (E), 23:5548
interactions $K^- + p \rightarrow p + \pi^-$ + anti K^0 at 3.9 to 5.0 GeV/c in hydrogen bubble chamber, Σ^{*0} production in, (E), 25:59284
interactions $K^- + p \rightarrow p + \pi^-$ + anti K^0 at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, quasi-two-body cross sections for, (E), 25:59284
interactions $K^- + p \rightarrow p + Q^-$ at 10 GeV/c, t-channel helicity conservation in diffractive, (E), 25:19921
interactions $K^- + p \rightarrow p$ + rho + K, final-state interaction effect on $K^*(1320)$ production in, (T), 23:49158
interactions $K^- + p \rightarrow \pi + \pi + \Lambda$, transition amplitude for, 21:2476
interactions $K^- + p \rightarrow \pi^0 + \Lambda$ at high energies, exchange-degenerate Regge-cut model for, 25:50143
interactions $K^- + p \rightarrow \pi^0 + \Lambda$ in nuclei, tests of unitary symmetry by, 21:33750
interactions $K^- + p \rightarrow \pi^0 + \Lambda$, Regge-pole analysis of, 22:46433
interactions $K^- + p \rightarrow \pi^0 + A^0$, Regge pole theory for, 21:29541
interactions $K^- + p \rightarrow \pi^0 + \Sigma^0$, Regge pole theory for, 21:29541
interactions $K^- + p \rightarrow \pi^- + K^+ + \Xi$, exotic exchange and kinematical reflection in, (T), 24:3663
interactions $K^- + p \rightarrow \pi^- + p +$ anti K^0 at 4.57 GeV/c, $K^*(890)$ and $K^*(1420)$ production in, (E), 23:14972
interactions $K^- + p \rightarrow \pi^- + \pi^+ + K^+ + p$ at 5.5 GeV/c, cross sections for, (E), 23:10753
interactions $K^- + p \rightarrow \pi^+ + \pi^- + \Lambda$ at 1.8 to 4.2 GeV/c in bubble chamber, single-meson exchange for forward peaks in differential cross sections for $\Sigma^-(1385)$ production in, (E), 23:42573
interactions $K^- + p \rightarrow \pi^+ + \pi^- + \Lambda$ at 2.24 GeV/c in bubble chamber, $\Sigma(1385)$ production from, (E), 22:3284
interactions $K^- + p \rightarrow \pi^- + \pi^+ + \Lambda$ at 3 to 10 GeV/c, generalized Veneziano model for, (E/T), 24:3674
interactions $K^- + p \rightarrow \pi^- + \pi^+ + \Lambda$ in generalized Veneziano model, 25:14716
interactions $K^- + p \rightarrow \pi^- + \pi^+ + \Lambda$, crossed interaction $\pi^+ + p \rightarrow K^+ + \pi^+ + \Lambda$ from generalized Veneziano model of, 24:52096
interactions $K^- + p \rightarrow \pi^+ + \pi^- + \Lambda$, exotic exchange and kinematical reflection in, (T), 24:3663
interactions $K^- + p \rightarrow \pi^+ + \pi^- + \Lambda$, production of I = 0, D-wave $\pi\pi$ resonance in, 21:9792
interactions $K^- + p \rightarrow \pi^+ + \pi^- + \Lambda$, Veneziano five-point function model for, 25:59488
interactions $K^- + p \rightarrow \pi^- + \Sigma(1385)$ at 5.5 GeV/c, comparison of $\pi^+ + p \rightarrow K^+ + \Sigma(1385)$ interaction rate with, (E), 24:3541
interactions $K^- + p \rightarrow \pi^+ + \Sigma(1385)$, rescattering model for, 23:42688
interactions $K^- + p \rightarrow \pi^- + \Sigma^+$ ($\Sigma^+(1385)$) at 8 and 16 GeV/c, missing-mass spectrometer study of differential cross sections for, (E), 24:26375
interactions $K^- + p \rightarrow \pi^- + \Sigma^+$ and $\pi^+ + p \rightarrow K^+ + \Sigma^+$, test of ($K^*$,$K^{**}$) exchange degeneracy in, (E/T), 24:51966
interactions $K^- + p \rightarrow \pi^- + \Sigma^+$ and $\pi^+ + p \rightarrow K^+ + \Sigma^+$, complex Regge poles for line reversed, 25:25428
interactions $K^- + p \rightarrow \pi^+ + \Sigma^-$ at 2 to 16 GeV/c, Regge cut model for near-forward differential cross sections for, 25:59483
interactions $K^- + p \rightarrow \pi^+ + \Sigma^-$ at 2.75 to 3.50 GeV/c, forward cross sections for, (E), 25:47750
interactions $K^- + p \rightarrow \pi^+ + \Sigma^-$ at 8 and 16 GeV/c, upper limits for Σ^{*-} production in, (E), 24:18079
interactions $K^- + p \rightarrow \pi^+ + \Sigma^+$ at high energies, double Regge pole model and O(3,1) symmetry for, 23:27816
interactions $K^- + p \rightarrow \pi^+ + \Sigma^+$ at high energies, exchange-degenerate Regge-cut model for, 25:50143
interactions $K^- + p \rightarrow \pi^+ + \Sigma^-$ in Regge-pole model, laboratory momentum dependence of total cross section for, (T), 24:15583
interactions $K^- + p \rightarrow \pi^+ + \Sigma^-$, contribution of Regge branch points to amplitude of, 22:20263

interactions $K^- + p \rightarrow \pi^+ + \Sigma^-$, quark model and multiple-scattering formalism for, 22:52985
interactions $K^- + p \rightarrow \pi^- + \Sigma^+$, Regge cuts in exchange degenerate trajectories for, 24:3673
interactions $K^- + p \rightarrow \pi^- + \Sigma^+$, Regge pole model for, 22:15797
interactions $K^- + p \rightarrow \pi^- + \Sigma^+$, Regge pole theory for, 21:29541
interactions $K^- + p \rightarrow \pi^- + \Sigma^+$, Regge-pole analysis of, 22:46433
interactions $K^- + p \rightarrow \pi^- + \Sigma^+$, Reggeized U(6) X U(6) X O(3) absorptive peripheral model for, 25:1536
interactions $K^- + p \rightarrow \pi^+ + \Sigma^-$, relativistic extensions of SU(6) for, 23:16982
interactions $K^- + p \rightarrow \pi^- + \Sigma^+$, sum rules for, (T), 25: 41007
interactions $K^- + p \rightarrow \pi^- + \Sigma^*(1385)$ and $\pi^+ + p \rightarrow K^+ + \Sigma^*(1385)$, test of ($K^*$,$K^{**}$) exchange degeneracy in, (E/T), 24:51966
interactions $K^- + p \rightarrow \pi^- + \Sigma^*(1385)$ in Regge-pole model, laboratory momentum dependence of total cross section for, 24:15583
interactions $K^- + p \rightarrow \pi^- + \Sigma^*(1385)$, Regge pole model for, (T), 24:49502
interactions $K^- + p \rightarrow \pi^- + \Sigma^*(\Sigma^*(1385))$ at 8 and 16 GeV/c, magnetic spectrometer study of differential cross sections for, (E), 25:22697
interactions $K^- + p \rightarrow \pi^- + Y^{*+}$, eikonal model with unitarity corrections for dual description of, (T), 25: 36514
interactions $K^- + p \rightarrow \pi^- + Y^{*+}$, eikonal-like pole-cut model for, 25:28044
interactions $K^- + p \rightarrow \pi^- + Y^{*+}$, unitarity corrections to Veneziano model for factorization, exchange degeneracy, and duality in, (T), 25:1533 (UCSD-10-P-10-76)
interactions $K^- + p \rightarrow \pi^- + Y^{*+}(1385)$, comparison of Regge-pole model and absorption model for, 23:32739
interactions $K^- + p \rightarrow \pi^- + Y_1^*$, quark model for, 21: 31602
interactions $K^- + p \rightarrow \pi^+ (\pi^-) + \Sigma^- (\Sigma^+)$, Σ lifetime and Σ^+ decay branching ratio from, (E), 24:5251
interactions $K^- + p \rightarrow Q^- + p$, $Q^- \rightarrow K^- + \pi^+ + \pi^-$ at 12.7 GeV/c, effects of K—π misidentification on determination of decay properties of Q in, (T), 24: 26437 (UR-875-304)
interactions $K^- + p \rightarrow$ rho + π + Λ at 6 GeV/c, double peripheral mechanism for, (E/T), 23:27755
interactions $K^- + p \rightarrow \Sigma + 3\pi$ at 4.1 and 5.5 GeV/c in hydrogen bubble chamber, resonance production in, (E) , 23:23388
interactions $K^- + p \rightarrow \Sigma + \pi$ + 2K at 4.1 and 5.5 GeV/c in hydrogen bubble chamber, resonance production in, (E), 23:23388
interactions $K^- + p \rightarrow \Sigma + \pi + K^+ + K^-$ at 4.1 and 5.5 GeV/c in hydrogen bubble chamber, (E), 22:20137 (COO-1195-116)
interactions $K^- + p \rightarrow \Sigma + \pi + \pi$ at 0.6 to 1.2 GeV/c, total cross sections for, (E/T), 23:8750
interactions $K^- + p \rightarrow \Sigma + \pi + \pi^0$ interactions at 594 to 820 MeV/c, upper limit for $\Sigma(1660) \rightarrow \Lambda(1405) + \pi^0$ decay in, (E), 24:3548
interactions $K^- + p \rightarrow \Sigma + \pi + \pi^+ + \pi^-$ (+π^0) at 4.25 GeV/c in hydrogen bubble chamber, Y_0^* and rho, ω, and π^- production in, (E), 24:21943
interactions $K^- + p \rightarrow \Sigma + \pi + \pi^+ + \pi^-$ at 3.9 and 4.6 GeV/c in hydrogen bubble chamber, production of two distinct $\Sigma(1670)$ resonances in, (E), 24:37653
interactions $K^- + p \rightarrow \Sigma + \pi + \pi^+ + \pi^-$ at 4.6 to 5.0 GeV in hydrogen bubble chamber, $\Sigma(1660)$ and $\Sigma(1695)$ production in, (E), 22:20139
interactions $K^- + p \rightarrow \Sigma + \pi + \pi^+ + \pi^-$ interactions at 4.1 and 5.5 GeV/c in hydrogen bubble chamber, resonance production from, (E), 22:20137 (COO-1195-116)
interactions $K^- + p \rightarrow \Sigma + \pi$ at 0.6 to 1.2 GeV/c, partial wave analysis of, (E/T), 23:8751
interactions $K^- + p \rightarrow \Sigma + \pi$ at 270 to 470 MeV/c in hydrogen bubble chamber, (E), 23:49036 (UCRL-19246)
interactions $K^- + p \rightarrow \Sigma + \pi$ at 385 MeV/c in hydrogen bubble chamber, polarized hyperons (Σ^+) and (Σ^-) production in, (E), 23:51843 (UCRL-19244)
interactions $K^- + p \rightarrow \Sigma + \pi$ at 4.1 and 5.5 GeV/c in hydrogen bubble chamber, differential cross sections for, (E), 22:20137 (COO-1195-116)
interactions $K^- + p \rightarrow \Sigma + \pi$ at 4.1 and 5.5 GeV/c in hydrogen bubble chamber, differential cross sections for, (E), 23:23388
interactions $K^- + p \rightarrow \Sigma + \pi$ at 594 to 820 MeV/c, $\Lambda(1670)$ and $\Lambda(1690)$ in D_{03} and S_{01} waves in, (E), 24:3548
interactions $K^- + p \rightarrow \Sigma + \pi$, diquark amplitude from backward, (T), 22:13753 (LPTHE-TH-226)
interactions $K^- + p \rightarrow \Sigma + \pi$, relative signs of resonant amplitudes for, (E), 23:5544
interactions $K^- + p \rightarrow \Sigma + \pi$, resonance production in, (E), 22:29640
interactions $K^- + p \rightarrow \Sigma + \pi$, review of $\Sigma(1660)$ mass and width from partial-wave analysis of, (E), 25:25307
interactions $K^- + p \rightarrow \Sigma + \pi$, $\Sigma \rightarrow \Lambda + \epsilon + \tau$, $\Lambda^0 \rightarrow p + \pi^-$ at rest in hydrogen bubble chamber, branching ratios for, (E), 24:35614
interactions $K^- + p \rightarrow \Sigma + \pi^+ + \pi^-$ at 828 to 1112 MeV/c in deuterium bubble chamber, $Y_1^*(1765)$ production from, (E), 21:18909 (UCRL-16451(Rev.))
interactions $K^- + p \rightarrow \Sigma(1385) + \pi$ near $\Lambda(1520)$, production mechanism for, (T), 25:36415
interactions $K^- + p \rightarrow \Sigma(1385) + \pi$, rescattering model for $\Sigma(1385)$ production angular distributions from, 22: 50404
interactions $K^- + p \rightarrow \Sigma(1385) + \pi^+$, rescattering model for, 24:24369
interactions $K^- + p \rightarrow \Sigma(1600)$, $\Sigma(1660)$ decay branching ratios from, (E), 23:14986
interactions $K^- + p \rightarrow \Sigma(1660) + \pi^0$ at 3.5 GeV/c, one-baryon exchange model for, 23:21115
interactions $K^- + p \rightarrow \Sigma(1660) + \pi^0$, rescattering model for production angular distribution from, 22: 50404
interactions $K^- + p \rightarrow \Sigma(1660) + \pi^- \rightarrow \Sigma^+(\Sigma^-) + \pi^-(\pi^+) + \pi^+ + \pi^-$ at 2.1 to 2.7 GeV/c, parity and spin of $\Sigma(1660)$ from, 22:5512
interactions $K^- + p \rightarrow \Sigma(1760) \rightarrow \Lambda(1520) + \pi^0$ at 800 to 1200 MeV/c, $\Lambda(1520)$ resonance parameters from, (E), 24:5256
interactions $K^- + p \rightarrow \Sigma(\Lambda) + \pi$(eta), phenomenological meson—baryon coupling model based on quark model with broken SU(6) x O(3) for Y^* production in, 24:3725
interactions $K^- + p \rightarrow \Sigma^0 + \pi^0 + \gamma$ at 600 MeV, Σ^0 magnetic moment from, (E), 23:49033
interactions $K^- + p \rightarrow \Sigma^0 + \pi^0$ at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions $K^- + p \rightarrow \Sigma^0 + \pi^0$ at 350 to 430 MeV/c, partial-wave amplitudes, cross sections, and polarizations for, (E/T), 24:37658
interactions $K^- + p \rightarrow \Sigma^0 + \pi^0$ at 430 to 800 MeV/c, partial-wave analysis of, 24:5255
interactions $K^- + p \rightarrow \Sigma^0 + \pi^0$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $K^- + p \rightarrow \Sigma^0 + \pi^0$, search for $\Lambda(1670)$ in, (E), 25:14568
interactions $K^- + p \rightarrow \Sigma^0 + \pi^+ + \pi$, kinematics of momentum transfers in, (T), 22:48316
interactions $K^- + p \rightarrow \Sigma^0 + \pi^+ + \pi^-$ at 1.7 GeV/c, production and decay of $\Sigma(1660)$ from, (E), 22:52941
interactions $K^- + p \rightarrow \Sigma^0 + \pi^+ + \pi^-$ at 3.9 and 4.6 GeV/c in hydrogen bubble chamber, two distinct $\Sigma(1670)$ resonances in, (E), 24:37653
interactions $K^- + p \rightarrow \Sigma^0 + \pi^+ + \pi^-$ at 3.9 to 5.0 GeV/C, production of $\Sigma(1385)$, $\Sigma(1660)$, $\Sigma(1940)$, and $\Sigma(2280)$ in, (E), 23:16935
interactions $K^- + p \rightarrow \Sigma^0 + \pi^+ + \pi^-$ at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, $\Sigma^*(1660)$ production in, (E), 23:42570
interactions $K^- + p \rightarrow \Sigma^0 + \pi^+ + \pi^-$ at 6 GeV/c, angular correlations in, (T), 22:3420
interactions $K^- + p \rightarrow \Sigma^*(\Lambda) + \pi^+ + \pi^-$ at 3.9 and 4.6 GeV/c in hydrogen bubble chamber, mass spectra for $\Sigma^*(1670)$ production in, (E), 25:25326
interactions $K^- + p \rightarrow \Sigma^+ + 2\pi^- + \pi^+ + \pi^0$ at 6 GeV/c in hydrogen bubble chamber, strangeness-zero meson production from, (E), 22:7447
interactions $K^- + p \rightarrow \Sigma^- + 2\pi^+ + \pi^- + \pi^0$ at 6 GeV/c in hydrogen bubble chamber, strangeness-zero meson production from, (E), 22:7447
interactions $K^- + p \rightarrow \Sigma^+ + \pi$, $\Sigma^- \rightarrow \pi^- + n$, Σ^- lifetime from, (E), 22:22326
interactions $K^- + p \rightarrow \Sigma^+ + \pi^0 + \pi^-$ at 4.6 to 5.0 GeV in hydrogen bubble chamber, $\Sigma(1660)$ and $\Sigma(1695)$ production in, (E), 22:20139
interactions $K^- + p \rightarrow \Sigma^+ + \pi^- + \pi^0$ at 2.1 to 2.70 GeV/c in hydrogen bubble chamber, (E), 22:32062 (UCID-3164)
interactions $K^- + p \rightarrow \Sigma^+ + \pi^- + \pi^0$ at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, $\Sigma^*(1660)$ production in, (E), 23:42570
interactions $K^- + p \rightarrow \Sigma^+ + \pi^- + \pi^0$ at 5.5 GeV/c, cross sections and properties of Σ^+rho$^-$(770) channel from, (E), 23:18817
interactions $K^- + p \rightarrow \Sigma^- + \pi^+ + \pi^0$ at 5.5 GeV/c, cross sections and production properties for Y_0^*, rho^0, and ω^0 in, (E), 23:18817
interactions $K^- + p \rightarrow \Sigma^+ + \pi^- + \pi^0$ with $\Sigma^+ \rightarrow p + \pi^0$, computer program for kinematic analysis of, 21: 35267 (UCRL-17473)
interactions $K^- + p \rightarrow \Sigma^+ + \pi^- + \pi^0$ with $\Sigma^+ \rightarrow \pi^+ + n$, computer program for kinematic analysis of, 21: 35267 (UCRL-17473)
interactions $K^- + p \rightarrow \Sigma^+ + \pi^+ + \pi^- + \pi^- + \pi^0$ at 2.1 to 2.70 GeV/c in hydrogen bubble chamber, (E), 22:32062 (UCID-3164)
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 1.15 GeV/c, emulsion study of Σ^+ magnetic moment from, 21: 31522
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ at 1.26 to 1.84 GeV/c, cross sections and polarizations for, (E), 25:7557
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 1.26 to 1.84 GeV/c, cross sections and polarizations for, (E), 25:7557
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 1150 MeV/c, Σ^+ magnetic moment from, (E), 21:15254
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 270 to 470 MeV/c in hydrogen bubble chamber, (E), 24:18088
interactions $K^- + p \rightarrow \Sigma^+ + \pi^+$ at 300 to 450 MeV/c in hydrogen bubble chamber, $\Sigma^- \rightarrow n + l^- +$ anti τ asymmetry parameter from, (E), 22:32056
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 340 to 430 MeV/c in hydrogen bubble chamber, (E), 21:46467 (UCRL-17746)
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ at 400 MeV/c in bubble chamber, (E), 21:44255 (UCRL-17740)
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ at 405 to 440 MeV/c, Σ^- decay asymmetry parameters from, (E), 24:40243
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ at 410 MeV/c in hydrogen bubble chamber, (E), 21:46474
interactions $K^- + p \rightarrow \Sigma^- + \pi^-$ at 430 to 800 MeV/c, partial-wave analysis of, 24:5255
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 430 to 800 MeV/c, partial-wave analysis of, (E), 24:5255
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ at 780 to 1220 MeV/c, p-wave analysis for resonance production from, 21: 17056
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 780 to 1220 MeV/c, p-wave analysis for resonance production from, 21: 17056
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 850 to 1150 MeV/c in hydrogen bubble chamber, (E), 22:13645
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at 900 to 1100 MeV/c, P/sub 1/2/ final state in $\Sigma^+ \rightarrow n + \pi^+$ decay from, (E), 21:2465
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ at high energies, exchange of N and Δ Regge trajectories in, 23:27815
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ at high energies, exchange of N and Δ Regge trajectories in, 23:27815
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ in freon, Σ^- reabsorption rate from, 25:5298
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ in hydrogen bubble chamber, Σ^+ - π^- elastic scattering cross sections from, (E), 21:37673
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ in hydrogen bubble chamber, Σ^- production from, 21:33592
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$ in hydrogen bubble chamber, Σ^- - π^+ elastic scattering cross sections from, (E), 21:37673
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ in hydrogen bubble chamber, Σ^+ production from, 21:33592
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ with $\Sigma^+ \rightarrow p + \pi^0$, computer program for kinematic analysis of, 21:35267 (UCRL-17473)
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$ with $\Sigma^+ \rightarrow \pi^+ + n$, computer program for kinematic analysis of, 21:35267 (UCRL-17473)
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $K^- + p \rightarrow \Sigma^- + \pi^+$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$, double Regge pole exchange in backward, (T), 23:30761
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$, rescattering model for angular distributions in, 23:18911
interactions $K^- + p \rightarrow \Sigma^+ + \pi^-$, two-meson-exchange contribution to, 23:1645
interactions $K^- + p \rightarrow \Sigma^+ (\Lambda) + \pi^- (\pi^0)$ at 449 to 671 MeV/c in hydrogen bubble chamber, cross sections, angular distributions, and Λ and Σ^+ polarizations for, (E), 24:32970
interactions $K^- + p \rightarrow \Sigma^- (\Sigma^0) + \pi^+ (\pi^0)$ at 449 to 671 MeV/c in hydrogen bubble chamber, cross sections and angular distributions for, (E), 24:32970
interactions $K^- + p \rightarrow \Sigma^+ (\Sigma^-) + \pi^0 + \pi^- (\pi^+)$ at 1.38 GeV/c in hydrogen bubble chamber, $\Lambda(1405)$ and $\Lambda(1520)$ production in, (E), 23:32622
interactions $K^- + p \rightarrow \Sigma^*(1385) + \pi^-$ + eta at 3.9, 4.6, and 5.0 GeV/c, delta$^-$(970) production in, (E), 23: 44605
interactions $K^- + p \rightarrow \Sigma^*(1385) + \pi^-$ at 4.1 to 5.5 GeV/c, meson-exchange mechanism for, (E), 22:24560
interactions $K^- + p \rightarrow \Sigma^*(1385) + \pi^-(980)$ at 5.5 GeV/c, cross sections for, (E), 24:45439
interactions $K^- + p \rightarrow \Sigma^*(1660) + \pi^-$ at 3.9 tp 5.0 GeV/c in hydrogen bubble chamber, resonance production in, (E), 23:44599 (BNL-13823)
interactions $K^- + p \rightarrow \Sigma^*(1680) + \pi^-$ at 4.1 to 5.5 GeV/c, meson-exchange mechanism for $\Sigma^*(1680)$ production in, (E), 22:24560
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + 5\pi(+\pi^0)$ at 3.9 GeV/c in hydrogen bubble chamber, Goldhaber effect in cross sections and production mechanisms for, (E), 25:40880 (NP-18879)
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + K +$ anti $K + m\pi$ at 10 GeV/c, multiperipheral Regge exchange model for momentum distributions in, (E/T), 23:36837
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^+ + \pi^- + \pi^-(\pi^+)$ at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, $\Sigma^*(1660)$ production in, (E), 23:42570
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+) + K^+ + K^-$ at 5.5 GeV/c, cross sections and production properties of Y_0^* in, (E), 23:18817
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+) + \pi^0$ at 0.85 to 1.15 GeV/c, angular distributions, polarization, Legendre coefficients, and cross sections for, (E), 25: 47743 (UCRL-20676)
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+) + \pi^0$ at 902 to 990 MeV/c, total cross sections for, (E), 22:24558
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+) + \pi^+ + \pi^- + \pi^0$ at 5.5 GeV/c, cross sections and production properties for Y_0^*, rho^0, and ω^0 in, (E), 23:18817
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+) + \pi^+ + \pi^- + \pi^0$ at 5.5 GeV/c, search for delta(960) in, (E), 23: 18817
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+) + \pi^+ + \pi^-$ at 3.9 and 4.6 GeV/c in hydrogen bubble chamber, mass spectra for $\Sigma^*(1670)$ production in, (E), 25:25326
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+) + \pi^+ + \pi^-$ at 5.5 GeV/c, cross sections and production properties for Y_0^*, rho^0, and ω^0 in, (E), 23:18817
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 1.1 and 1.7 GeV/c in hydrogen bubble chamber, Dalitz and invariant mass-squared plots, angular distributions, polarizations, Legendre coefficients, cross sections, and Y^* production in, (E), 25:40884 (UCRL-20682)
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 0.85 to 1.15 GeV/c, angular distributions, polarization, Legendre coefficients, cross sections, and resonance parameters from partial wave analysis for, (E), 25:47743 (UCRL-20676)
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 1.26 to 1.84 GeV/c in hydrogen bubble chamber, angular distributions and Y^* production in, (E), 25:25324
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 1730 to 2150 MeV in bubble chamber, cross sections, angular distributions, and polarizations for, (E), 25:7554 (UCRL-19790)
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 1735 to 1845 MeV in hydrogen bubble chamber, partial-wave analysis of $\Sigma\pi$ final states in, (E/T), 21:44278
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 385 MeV/c, production of polarized Σ^+ and Σ^- in, (E), 24:12931
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 385 MeV/c in hydrogen bubble chamber, production of polarized Σ^+ and Σ^- in, (E), 25:5260
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 4.07 and 5.47 GeV/c, differential cross sections for, (E), 22: 50306

interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 440 to 1230 MeV/c in hydrogen bubble chamber, Λ and Σ resonance production, Σ^* decay branching ratio, and Σ^* and Σ^- lifetimes in, (E), 25:12098 (CEA-R-4068)
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ at 902 to 990 MeV/c, differential cross sections for, (E), 22:24558
interactions $K^- + p \rightarrow \Sigma^*(\Sigma^-) + \pi^-(\pi^+)$ near Λ(1520), (E), 23:42543
interactions $K^- + p \rightarrow \Sigma^{*-} + \pi^{-*} + \pi^0$ at 902 to 990 MeV/c in hydrogen bubble chamber, total cross sections for, 21:21140 (TID-23785)
interactions $K^- + p \rightarrow \Sigma^{*-} + \pi^{-*}$ at 902 to 990 MeV/c in hydrogen bubble chamber, differential cross sections for, 21:21140 (TID-23785)
interactions $K^- + p \rightarrow X^0 + \Lambda$ determination of spin and parity of X^0(960) from, 25:14720
interactions $K^- + p \rightarrow X^0(960) + \Lambda$ on polarized targets, parity and spin of X^0(960) from, (T), 25:5361 (TPJU-14/70)
interactions $K^- + p \rightarrow X^+ + \pi^-$ at 2.1 to 2.70 GeV/c in hydrogen bubble chamber, production of two distinct Σ(1660) resonances in, (E), 24:40269 (UCRL-19824)
interactions $K^- + p \rightarrow \Xi + K + m\pi$ at 4.25 GeV/c, resonance production in, (E), 22:39290
interactions $K^- + p \rightarrow \Xi + K + n\pi$ at 1.7 to 2.7 GeV/c in hydrogen bubble chamber, (E), 22:15669
interactions $K^- + p \rightarrow \Xi + K + \pi + \pi$ at 1.7 to 2.7 GeV/c, production of K^*(890), Ξ^*(1530), and Ξ^*(1815) in, (E), 23:25530
interactions $K^- + p \rightarrow \Xi + K$ at 1.2 to 2.7 GeV/c in bubble chamber, total cross sections, polarization, and partial-wave analysis for baryon exchange and direct-channel Y^* production in, (E), 24:10678 (UCRL-19372)
interactions $K^- + p \rightarrow \Xi + K^+$ at 6 GeV/c in bubble chamber, cross sections for, (E), 22:15684
interactions $K^- + p \rightarrow \Xi^{*0} + K^0$ at 2 GeV/c, cross section and Ξ^{*0} angular distribution in, (E), 23:13037
interactions $K^- + p \rightarrow \Xi^{*0} + K^0$ at 2.24 and 3.0 GeV/c, rescattering square diagram calculation of production angular distribution of Ξ^{*0} in, 24:1521
interactions $K^- + p \rightarrow \Xi^{*0} + K^0$, baryon-exchange model for, 21:18994
interactions $K^- + p \rightarrow \Xi^{*-} + K^+$ at 2 GeV/c, cross section and Ξ^{*-} angular distribution in, (E), 23:13037
interactions $K^- + p \rightarrow \Xi^{*-} + K^+$, baryon-exchange model for, 21:18994
interactions $K^- + p \rightarrow \Xi^0 + K^0$ at 1.7 to 2.7 GeV/c, cross sections and Ξ^0 polarization from, (E), 23:25530
interactions $K^- + p \rightarrow \Xi^0 + K^0$, baryon exchange in, 21:37832
interactions $K^- + p \rightarrow \Xi^0 + K^0$, baryon exchange model for, 21:18988 (AD-642374)
interactions $K^- + p \rightarrow \Xi^0 + K^0$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $K^- + p \rightarrow \Xi^0 + K^0$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $K^- + p \rightarrow \Xi^0 + K^+ + \pi^0$ at 1.7 to 2.7 GeV/c, K^*(890), Ξ^*(1530), and Ξ^*(1930) production in, (E), 23:25530
interactions $K^- + p \rightarrow \Xi^0 + K^+ + \pi^-$ at 2.9 GeV/c in bubble chamber, cross sections and production of Ξ(1530), phi, Ξ(1860), and K anti K(1032) enhancement in, (E), 25:25310 (ORO-2504-170)
interactions $K^- + p \rightarrow \Xi^*(1530) + K^0$ at 1.7 to 2.87 GeV/c, Regge pole analysis with Σ exchanges for angular distributions and differential cross sections for, (T), 25:25436
interactions $K^- + p \rightarrow \Xi^- + K + m\pi$ at 10 GeV/c, multiperipheral Regge exchange model for momentum distribution in, (E/T), 23:36837
interactions $K^- + p \rightarrow \Xi^- + K^{0*}$ at 2 GeV/c, cross section and angular distribution in, (E), 23:13037
interactions $K^- + p \rightarrow \Xi^- + K^0 + \pi^+$ at 2 GeV/c, cross section and baryon exchange in, (E), 23:13037
interactions $K^- + p \rightarrow \Xi^- + K^+ + \pi^0$ at 1.7 to 2.7 GeV/c, K^*(890) Ξ^*(1530), and Ξ^*(1930) production in, (E), 23:25530
interactions $K^- + p \rightarrow \Xi^- + K^+ + \pi^0$ at 2 GeV/c, cross sections and baryon exchange in, (E), 23:13037
interactions $K^- + p \rightarrow \Xi^- + K^+(K^0) + \pi^+(\pi^-)$ at 1.7 to 2.7 GeV/c, analysis of Ξ^- and Ξ(1815) decay from, 22:22320
interactions $K^- + p \rightarrow \Xi^- + K^+(K^0) + \pi^-(\pi^0) + \pi^+$ at 1.7 to 2.7 GeV/c, analysis of Ξ^- and Ξ(1815) decay from, (E), 22:22320
interactions $K^- + p \rightarrow \Xi^- + K^+$ at 1.7 to 2.7 GeV/c, cross sections and Ξ^- polarization from, (E), 23:25530
interactions $K^- + p \rightarrow \Xi^- + K^+$ at 1.7 to 2.7 GeV/c, analysis of Ξ^- and Ξ(1815) decay from, (E), 22:22320
interactions $K^- + p \rightarrow \Xi^- + K^+$ at 1.8 GeV/c, Ξ^- decay parameters and magnetic moment from, (E), 24:40281
interactions $K^- + p \rightarrow \Xi^- + K^+$ at 1.8 GeV/c, Ξ^- magnetic moment from, (E), 24:20083
interactions $K^- + p \rightarrow \Xi^- + K^+$ at 2 GeV/c, cross section, Ξ^- polarization, and baryon exchange in, (E), 23:13037
interactions $K^- + p \rightarrow \Xi^- + K^+$ at 2 GeV/c, partial-wave analysis of, (E/T), 21:37828
interactions $K^- + p \rightarrow \Xi^- + K^+$, baryon exchange in, 21:37832
interactions $K^- + p \rightarrow \Xi^- + K^+$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $K^- + p \rightarrow \Xi^- + K^+$, peripheral model for, 21:15352
interactions $K^- + p \rightarrow \Xi^- + K^+$, peripheral model for associated production of Ξ^- in, 22:11685
interactions $K^- + p \rightarrow \Xi^- + \pi^+(\pi^0) + K^0(K^+)$ at 2.87 GeV/c in bubble chamber, production of Ξ(1530), Ξ(1630), Ξ(1800), and Ξ(1960) in, (E), 23:51862
interactions $K^- + p \rightarrow \Xi^- + \pi^+(\pi^0) + K^0(K^+)$ at 2.87 GeV/c in bubble chamber, Ξπ(1630) and broad high-mass enhancement in, (E), 23:51867(R) (NYO-1984-13)

interactions $K^- + p \rightarrow \Xi^-(\Xi^0) + K^+(K^0)$ at 1.2 to 2.7 GeV/c in bubble chamber, total cross sections, polarization, and partial-wave analysis for baryon exchange in, (E/T), 25:5384
interactions $K^- + p \rightarrow Y$ + neutral vector meson, quark model for, 23:18877 (ITF-68-36)
interactions $K^- + p \rightarrow Y^0 + \omega$, Σ(2065) and Σ(2100) production from, (E), 22:11601
interactions $K^- + p \rightarrow Y^*(1327) \rightarrow \Lambda + \gamma$ at 2.1 GeV/c in heavy-liquid bubble chamber, search for, (E), 25:7529
interactions $K^- + p \rightarrow Y^{*-}(Y^{0*}) + \pi^+(\pi^-)$ at high energies, proposed experiment for properties of Y^* in, 24:51960 (TID-25473(Vol.4), pp 299-302)
interactions $K^- + p \rightarrow Y^0 + \pi^0$ at 740 MeV/c in hydrogen bubble chamber, search for Λ(1327) in, (E), 24:40268 (ORO-3065-22)
interactions $K^- + p \rightarrow Y_0^*(1520) + \pi^+ + \pi^-$ at 2.0 GeV/c in hydrogen bubble chamber, Y_0^* mass, width, and decay fractions from, 21:27315
interactions $K^- + p \rightarrow Y_0^*(1520) \rightarrow \Sigma^+ + \pi^-$, interference effects in, 23:15125
interactions $K^- + p \rightarrow Y_1^*(1385)$ + phi at 2.1 to 2.7 GeV/c in hydrogen bubble chamber, cross sections for, 21:33619
interactions $K^- + p \rightarrow Y_1^*(1385) + \pi$ at 0.78 to 1.22 GeV/c, cross sections for, (E), 21:31531
interactions $K^- + p \rightarrow Y_1^*(1765) \rightarrow Y_0^*(1520) + \pi$ at 900 to 1100 MeV/c, branching ratios for Y_0^* decay from, (E/T), 21:27377
interactions $K^- + p \rightarrow Y_1^{*+} + \pi^-$, baryon-exchange model for, 21:18994
interactions $K^- + p \rightarrow Y_1^{*-} + \pi^-$, baryon-exchange model for, 21:18994
interactions $K^- + p \rightarrow Y_1^{*+}(1385) + \pi^-$ + eta at 5.5 GeV/c, angular distribution of π^-eta(980) enhancement in, (E), 23:8741
interactions $K^- + p \rightarrow Y_1^{*+}(1660) + \pi^-$ at 2.6 GeV/c, evidence for existence of two Y_1^*(1660) from, (E), 23:13034
interactions K^- + p above 10 GeV, shrinking, nonshrinking, and expanding diffraction peaks in, (T), 21:19009
interactions K^- + p above 20 GeV, finite-energy sum rule for test of models for asymptotic behavior of amplitudes for, (T), 24:52112 (JINR-E2-5227)
interactions K^- + p above 3 GeV/c with charge exchange and no strangeness exchange, quark model predictions for pseudoscalar and vector meson production in, (E), 23:34532 (INR-1040)
interactions K^- + p and K^+ + p at high energies, upper bounds on cross section differences for, 24:33018
interactions K^- + p and K^+ + p, invalidity of Pomeranchuk theorem for, (E/T), 24:45436
interactions K^- + p at 0 to 250 MeV/c, cross sections for low-energy, (E), 24:3539
interactions K^- + p at 0.293 to 15.910 GeV/c, data compilation on real parts of forward amplitudes of, (E), 25:3379 (JINR-E1-5259)
interactions K^- + p at 0.3 to 20 GeV/c, momentum dependence of diffraction slopes in elastic, (T), 23:25642
interactions K^- + p at 0.36 to 0.72 GeV/c, total cross sections for, (E), 25:9673
interactions K^- + p at 0.41 to 0.72 GeV/c, differential cross sections for elastic, (E), 24:40275
interactions K^- + p at 0.6 to 1.4 GeV/c, total cross sections for, (E), 21:9720
interactions K^- + p at 0.6 to 1.4 GeV/c, Y_0^*(1698) and Y_1^*(1905) production in, (E), 21:9720
interactions K^- + p at 0.6 to 2.65 GeV/c, total cross sections for, (E), 22:13654 (RPP/H-31)
interactions K^- + p at 0.6 to 4 GeV/c, interference model for total cross sections of, 24:13091
interactions K^- + p at 0.74 to 15.9 GeV/c, model of Pomeranchuk exchange plus direct channel resonances for analysis of, (T), 23:23476
interactions K^- + p at 0.777 to 1.182 GeV/c, Y_1^*(1760) and Y_0^* (1820) production from, (E), 21:3996
interactions K^- + p at 0.8 to 2.6 GeV/c, diffractive-resonance interference model for elastic and charge-exchange, (E/T), 25:33751
interactions K^- + p at 0.9 to 2.4 GeV/c, new resonance structures in total cross sections for, (E), 24:37655
interactions K^- + p at 1 to 2 GeV/c, effects of Y^* resonance states on backward elastic and charge-exchange, 21:25298
interactions K^- + p at 1 to 2.5 GeV/c, spark chamber study of angular distribution of backward elastic, (E), 23:3642 (UR-875-254)
interactions K^- + p at 1 to 20 GeV/c, optical models for cross sections for elastic, (E/T), 21:21230
interactions K^- + p at 1 to 7 GeV/c, angular distributions and cross sections for backward elastic, (E), 24:24248
interactions K^- + p at 1.0 to 2.45 GeV/c, K⁻N resonance production from, (E), 21:23314 (BNL-994, pp 70-102)
interactions K^- + p at 1.0 to 3.3 GeV/c, scintillation and differential Cherenkov counter study of total cross section and resonance production in, (E), 22:29634
interactions K^- + p at 1.05 to 1.7 GeV/c in hydrogen bubble chamber, Ξ^- and Ξ^0 production from, (E), 21:18908 (UCRL-11529)
interactions K^- + p at 1.08 to 1.37 GeV/c using polarized target, asymmetry measurements for elastic, (E), 24:3531
interactions K^- + p at 1.328 GeV/c, cross sections and angular distributions of two-body final states from, (E), 21:46490
interactions K^- + p at 1.33 GeV/c, cross sections and angular distributions of two-body final states from, (E), 22:37083
interactions K^- + p at 1.4 to 2.4 GeV/c, polarization angular distributions and cross sections for elastic, (E), 22:41748

interactions K^- + p at 1.4 to 2.4 GeV/c, spin—parity assignments of Λ(2100), Σ(2035), and Λ(2350) from, (E/T), 22:48233
interactions K^- + p at 1.51 and 1.7 GeV/c, direct resonance and rho-exchange amplitudes for charge-exchange, (T), 21:17133
interactions K^- + p at 1.7 to 2.7 GeV/c in hydrogen bubble chamber, Ξ and Ξ^* production from, 21:29431 (UCRL-16455)
interactions K^- + p at 1.7 to 2.75 GeV/c in hydrogen bubble chamber, analysis of $\Xi^- \rightarrow \Lambda^0 + e^-$ + anti ν decay from, (E), 22:20122
interactions K^- + p at 1.8 GeV/c, angular distributions for charge-exchange, (E), 24:18093
interactions K^- + p at 1.8 GeV/c, Ξ^- decay parameters and polarization from, (E), 24:20081
interactions K^- + p at 10 and 14 GeV/c, polarization parameter in forward elastic, (E), 25:56438
interactions K^- + p at 10 GeV/c in bubble chamber, Λ production in, (E), 22:32073
interactions K^- + p at 10 GeV/c in hydrogen bubble chamber, cross sections for elastic, 21:21141
interactions K^- + p at 10 GeV/c in hydrogen bubble chamber, Ω^- production and decay in, (E), 23:30719
interactions K^- + p at 10 GeV/c, cross sections for K^*(890) and K^*(1420) production in, (E/T), 22:29630
interactions K^- + p at 10 GeV/c, in multiperipheral model, comparison of π^+ + p and π^- + p interactions with, 24:52103
interactions K^- + p at 10 GeV/c, K^*(1320) and L(1785) production in, (E), 23:8745
interactions K^- + p at 10 GeV/c, production and decay of Ξ(2500) in, (E), 23:13033
interactions K^- + p at 10 GeV/c, production of (anti pp), (K^+K^-), and ($\pi^+\pi^-$) pairs in, (E), 25:5297
interactions K^- + p at 10 GeV/c, production of Ξ^-, Ω^-, and antibaryons in, (E), 22:24556
interactions K^- + p at 10 GeV/c, total and differential cross sections for elastic and inelastic, (E), 22:50299
interactions K^- + p at 10.1 GeV/c, differential cross sections for elastic, (E), 25:40890
interactions K^- + p at 11 to 15 GeV/c, complex Gaussian potential for analysis of elastic, 23:10819
interactions K^- + p at 2 to 2.4 GeV/c, five-Regge pole model for polarization in elastic, 23:23472
interactions K^- + p at 2 to 2.4 GeV/c, polarization and differential cross sections using Regge poles for elastic, (T), 23:3729 (LPTHE-TH-68/30)
interactions K^- + p at 2 to 20 GeV/c, hard-core potential in elastic, 23:15139
interactions K^- + p at 2.1 to 2.7 GeV/c, cross sections, resonance production, and mass spectra of, (E), 23:7090
interactions K^- + p at 2.2 GeV/c, search for ionizing tachyon pairs from, (E), 25:45678
interactions K^- + p at 2.23 GeV/c, eta*(960) production from, (E), 21:15273
interactions K^- + p at 2.23 GeV/c, phi decay and branching ratio from, (E), 21:15274
interactions K^- + p at 2.24 GeV/c in hydrogen bubble chamber, cross sections for elastic, (E), 21:29457
interactions K^- + p at 2.24 GeV/c, one-particle exchange in, (E/T), 21:18914
interactions K^- + p at 2.24 GeV/c, production of eta*(X^0) and phi in, (E), 21:18991
interactions K^- + p at 2.45 to 3.3 GeV/c, evidence for strangeness-1 baryon resonances in total cross sections for, (E), 24:37657
interactions K^- + p at 2.45 to 3.30 GeV/c, I = 1, 2455- and 2595-MeV resonance production from, (E), 22:20144
interactions K^- + p at 2.5 GeV/c, review of data on spin effects in elastic, 23:23478
interactions K^- + p at 2.66 GeV/c in hydrogen bubble chamber, total and elastic cross sections for, (E), 21:44286
interactions K^- + p at 2.66 GeV/c, cross sections and angular distributions for, (E), 23:5549
interactions K^- + p at 2.7 GeV/c, $(\Sigma\pi\pi)^+$ final state at 1660 MeV in, (T), 21:15359
interactions K^- + p at 2.74 GeV/c, high-energy models for cross sections and polarization in, (E/T), 24:24249
interactions K^- + p at 2.87 GeV/c in bubble chamber, Ξ(1820) and Ξ(1930) production in, (E), 24:24231
interactions K^- + p at 2.9 GeV/c in bubble chamber, weighting procedure for first-order corrections for losses in cross sections of final states in, (E), 24:10676(R) (ORO-2504-148)
interactions K^- + p at 2.9 GeV/c in hydrogen bubble chamber, production of Ξ resonances below 2 GeV in, (E), 25:25330
interactions K^- + p at 20 to 65 GeV/c, energy dependence of total cross sections for, (E), 25:56433
interactions K^- + p at 20 to 65 GeV/c, total cross sections for, (E), 24:5258
interactions K^- + p at 20 to 65 GeV/c, total cross sections for, (E), 25:5295
interactions K^- + p at 20 to 65 GeV/c, total cross sections for, (E), 25:45666 (IFVE-SEF-69-87)
interactions K^- + p at 290 to 430 MeV/c in hydrogen bubble chamber, Σ^- and Σ^+ production from, (E), 22:3347 (UCRL-17781)
interactions K^- + p at 3 GeV in hydrogen bubble chamber, production of K(890), K(1400) and $K\pi\pi$ systems, upper limits for production cross sections of isospin-3/2 K^*, and K + π s-wave interactions in, (E), 25:56426 (FRNC-TH-53)
interactions K^- + p at 3 GeV/c, differential and total cross sections for, (E), 21:2372 (CEA-R-3037)
interactions K^- + p at 3.3 GeV/c in hydrogen bubble chamber, cross sections for zero-, two-, and four-prong, (E), 25:45675
interactions K^- + p at 3.55 GeV/c, differential cross section for backward elastic, (E), 23:23363
interactions K^- + p at 3.9 GeV/c in hydrogen bubble chamber, Goldhaber effect in cross sections for six-prong, (E), 25:40880 (NP-18879)

interactions K^- + p at 3.9 to 5.0 GeV/c in hydrogen bubble chamber, $K^*(1420)$ production in, (E), 25:3287
interactions K^- + p at 3.9 to 5.0 GeV/c, evidence for $\Xi(1815)$ and $\Xi(2030)$ resonances in, 23:1592 (BNL-12808)
interactions K^- + p at 3.9 to 5.0 GeV/c, production of S = - 2 $\Xi(1930)$ resonance in, (E/T), 22:52940
interactions K^- + p at 3.9, 4.6, and 5.0 GeV/c, production of $\Xi(1815)$, $\Xi(2030)$, and $\Xi(2430)$ with S = -2 in, (E), 23:8753
interactions K^- + p at 360 to 720 MeV/c, A(1520) and $\Sigma(1600)$ enhancement production and total cross sections for, (E), 25:12120
interactions K^- + p at 4.1 and 5.5 GeV/c, cross sections and resonance production for quasi-two-body final states in, (E), 23:18790
interactions K^- + p at 4.1 and 5.5 GeV/c, hyperon and meson final states from, (E), 21:17054
interactions K^- + p at 4.1 and 5.5 GeV/c, $\Sigma^+\pi^-$ and $\Sigma^+\pi^-\pi^+\pi^-$ final states from, (E), 21:17042 (COO-1195-80)
interactions K^- + p at 4.1 to 5.5 GeV/c, meson-exchange mechanism for, (E), 22:24560
interactions K^- + p at 4.25 GeV, production of $\Xi^*(1530)$ and phi in, (E), 23:5547
interactions K^- + p at 4.25 GeV/c in hydrogen bubble chamber, resonances, K anti K pairs, and final states from, (E), 22:3268 (ORO-2504-109)
interactions K^- + p at 4.25 GeV/c in hydrogen bubble chamber, partial cross sections for four-charged-prong plus neutral-vee decay final states in, (E), 24:15478
interactions K^- + p at 4.25 GeV/c in hydrogen bubble chamber, cross sections for all final states with four or six prongs with one or more kinks in, (E), 24:21943
interactions K^- + p at 4.25 GeV/c in hydrogen bubble chamber, Ξ^* final states and higher-mass resonance production from, (E), 21:44276 (ORO-2504-108)
interactions K^- + p at 4.25 GeV/c, resonance production in $\Xi K\pi$ and YK anti K final states from, (E), 21:21144
interactions K^- + p at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, f^* (1500) production from, (E), 21:46488
interactions K^- + p at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, quasi-two-body cross sections for production of two charged particles and $A(\Sigma^*)$ in, (E), 25:59284
interactions K^- + p at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, $K^*(1420)$ production in, (E), 23:42579
interactions K^- + p at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, Ω^- and Ξ^* production in, (E), 22:26573
interactions K^- + p at 4.6 and 5.0 GeV/c, low-mass $K\pi\pi$ enhancement in final states from, (T), 21:35311
interactions K^- + p at 4.6 and 5.0 GeV/c, production of $f^*(1500)$ in, (E), 21:18991
interactions K^- + p at 4.6 GeV/c, cross sections for elastic, (E), 23:14975
interactions K^- + p at 436 to 793 MeV/c, partial and total cross sections for, (E), 25:1422
interactions K^- + p at 450 to 670 MeV/c, angular distributions and polarizations of two-body final states in, (E/T), 25:25334
interactions K^- + p at 5 to 12 GeV/c, charge exchange in, (E), 21:2386
interactions K^- + p at 5.0 GeV/c, Ω^- production from, (E), 21:23314 (BNL-994, pp 70-102)
interactions K^- + p at 5.5 GeV/c in bubble chamber, Ξ^- production in, (E), 24:37656
interactions K^- + p at 5.5 GeV/c in hydrogen bubble chamber, Ξ^-, Ω^-, and phi production in, (E), 24:24240
interactions K^- + p at 5.5 GeV/c in hydrogen bubble chamber, angular distributions for Ξ^- and Ξ^* production in, (E), 24:8566 (COO-1195-172)
interactions K^- + p at 5.5 GeV/c in hydrogen bubble chamber, cross sections for Ξ^-, Ξ^*, Ω^-, and K^* production in, (E), 24:1514 (COO-1195-165)
interactions K^- + p at 5.5 GeV/c, Ω^- production and decay in, (E), 22:26569
interactions K^- + p at 5.5 GeV/c, Ω^- production from, (E), 21:17041 (COO-1195-79)
interactions K^- + p at 5.5 GeV/c, production of $\Xi(1530)$, $\Xi(1820)$, $\Xi(1930)$, and $\Xi^-\pi^+\pi^-(2295)$ in, (E), 25:25329
interactions K^- + p at 5.5 GeV/c, $Y_1^*(1680)$ production from, (E), 21:15262
interactions K^- + p at 50 to 150 GeV/c, proposed experiment for diffractive production of boson resonances in, 24:51959 (TID-25473(Vol.4), pp 281-9)
interactions K^- + p at 594 to 820 MeV/c, cross sections and partial-wave analysis of elastic and charge-exchange, (E), 23:23377
interactions K^- + p at 6 GeV, angular distributions and cross sections for A^* production in, (E), 22:41750
interactions K^- + p at 6 GeV/c in hydrogen bubble chamber, cross sections for multipole strange-particle production in, (E), 23:46619
interactions K^- + p at 6 GeV/c in hydrogen bubble chamber, longitudinal momentum plots in three-body final states from, (E), 23:32626
interactions K^- + p at 6 GeV/c, cross sections for Ω^- production in, (E), 22:20140
interactions K^- + p at 6 GeV/c, differential cross sections for elastic, (E), 22:41746
interactions K^- + p at 6 GeV/c, review of quasi-two-body channels in, 23:18795 (CONF-671217-, pp 589-695)
interactions K^- + p at 6 to 17 GeV/c, angular distributions and cross sections for elastic, (E), 23:36852
interactions K^- + p at 6 to 25 GeV/c, shadow scattering and Regge singularities in phenomenological analysis of, 21:23337
interactions K^- + p at 600 to 1200 MeV/c, total cross sections for, (E/T), 23:8749
interactions K^- + p at 620 to 850 MeV/c in hydrogen bubble chamber, $Y^*(1660)$ production from, 21:33621
interactions K^- + p at 7 to 15 GeV/c, quark model with Regge pole amplitude for forward elastic, 21:40200
interactions K^- + p at 7 to 15 GeV/c, quark model with Regge pole amplitude for charge-exchange, 21:40200
interactions K^- + p at 7.7 GeV/c, spark chamber momentum spectrometer for studying, 23:7796
interactions K^- + p at 700 to 1400 MeV/c, differential cross sections for elastic, (E), 21:18922
interactions K^- + p at 720 MeV/c, review of research at Duke Univ. July 1968 to June 1969, (E), 23:46610(R) (ORO-3065-17)
interactions K^- + p at 777 to 1226 MeV/c, partial and differential cross sections for, (E), 23:10761
interactions K^- + p at 780 to 1220 MeV/c, total cross sections for resonance production in, (T), 22:5507
interactions K^- + p at 8 and 10 GeV/c, mass dependence of small-angle differential cross section in multi-Regge model for, 23:39727
interactions K^- + p at 800 to 1200 MeV/c, resonance production from, (E), 23:39607 (AD-687143)
interactions K^- + p at 825 to 1115 MeV/c, sign of (K_1^0 - K_2^0) mass difference from, (E), 21:21135
interactions K^- + p at 825 to 1125 MeV/c, sign of K_2^0 - K_1^0 mass difference from, (E), 22:11579
interactions K^- + p at 865 to 1330 MeV/c, polarization and differential cross sections for elastic, (E), 25:40891
interactions K^- + p at 9.7 and 13.6 GeV/c; angular distributions for, (E), 23:3647
interactions K^- + p at 900 to 1100 MeV/c, search for production of $Y_1^*(1765)$ and $Y_0^*(1815)$ in, (E), 21:18913
interactions K^- + p at 900 to 990 MeV/c, cross sections and angular distributions for $Y^*(1765)$ production and decay in, 21:35272
interactions K^- + p at 900 to 990 MeV/c, $Y_1^*(1755)$ resonant cross section and branching ratios for, 21:25294
interactions K^- + p at 982 to 1732 MeV/c, polarization and differential cross section data for, (E), 25:1427
interactions K^- + p at high energies, compilation of cross sections for, (E), 25:19909 (CERN-HERA-70-6)
interactions K^- + p at high energies, contribution of Regge cut to cross sections for elastic, (E/T), 24:45517
interactions K^- + p at high energies, cross sections for total annihilation and elastic, 24:15585
interactions K^- + p at high energies, dispersion relation calculation of real part of forward amplitude for, 23:7152
interactions K^- + p at high energies, duality for large-angle, 25:50131
interactions K^- + p at high energies, E_3-pole exchange model for elastic backward, 25:7673
interactions K^- + p at high energies, factorizability quark model for vector meson production in, (T), 24:30523 (ITF-70-23)
interactions K^- + p at high energies, hybrid model in Regge pole theory for, 23:10829
interactions K^- + p at high energies, model for inelastic, 21:23340
interactions K^- + p at high energies, quark model for forward double-exchange production cross sections for, 22:22398
interactions K^- + p at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions K^- + p at high energies, quark-droplet model for, (E/T), 21:924
interactions K^- + p at high energies, Regge-pole model predictions for polarization in, 23:21108
interactions K^- + p at high energies, review of backward, (E/T), 25:53029
interactions K^- + p at high energies, total cross sections and elastic, 24:49510
interactions K^- + p at high energies, total cross sections for, (E), 22:22299
interactions K^- + p at low energies, consistency tests of parametrization for, 23:32740
interactions K^- + p at low energies, consistency test for AKN coupling constant from parameters of, 23:32732
interactions K^- + p at low energies, ΛK^-p and Σ^*K^-p coupling constants from dispersion relations for elastic, 23:23492
interactions K^- + p at low energies, off-mass-shell calculation of, 23:25641
interactions K^- + p at low energies, review of, 21:40220
interactions K^- + p at low energies, superconvergent dispersion relation for forward, 22:46431
interactions K^- + p at moderate energies, model-independent determination of real parts of forward amplitude for, (T), 25:17497 (JINR-E2-5216)
interactions K^- + p at rest in emulsion nuclei, $\Sigma\pi$ production in, (E), 22:29641
interactions K^- + p at rest in heavy-liquid bubble chamber, reaction processes from, (E), 22:15683
interactions K^- + p at rest in hydrogen bubble chamber, upper limits for tachyon production in, (E), 23:51850 (NYO-1932(2)-148)
interactions K^- + p at rest in hydrogen bubble chamber, Σ^- and Σ^+production in, (E), 25:5269
interactions K^- + p at rest in hydrogen bubble chamber, Λ production in, (E), 23:42545
interactions K^- + p at rest, computer program for Lorentz transformation of probability densities for Σ^- production and decay from, (E), 22:15736 (ORO-2504-111)
interactions K^- + p at rest, A^* lifetime from, (E), 21:3997
interactions K^- + p below 280 MeV/c, K-matrix analysis of, (E/T), 24:49523
interactions K^- + p below 3.3 GeV/c, transmission counter study of total cross sections for, 21:27299 (BNL-11372)
interactions K^- + p below 300 MeV/c, K-matrix analysis of, 23:46724
interactions K^- + p below threshold, AKN coupling and K^- absorption in nuclei at rest for extrapolation of, (T), 25:30902
interactions K^- + p in dual absorptive model, differential cross sections for elastic, 25:33762
interactions K^- + p in interference model, effect of Z^* on elastic, (T), 24:49500
interactions K^- + p in quark model in collinear group, cross section relations for elastic and inelastic, 21:40203
interactions K^- + p in quark model with spin structure, factorizability hypothesis for differential cross sections of inelastic, 23:42671 (ITF-69-28)
interactions K^- + p in quark model, production of neutral vector and pseudoscalar mesons in, (T), 22:35009
interactions K^- + p interactions at 5.5 GeV/c, Ξ^* resonances in, (E), 24:28488 (COO-1195-184)
interactions K^- + p Regge pole model and moving branch points in j-plane for crossover with K^+ + p interactions and ωP branching contribution for, 24:3679
interactions K^- + p to 10 GeV/c, cross sections for inelastic, (E), 22:17873
interactions K^- + p up to 250 MeV/c, nuclear emulsion measurements of cross sections for, (E), 23:13036
interactions K^- + p with charge exchange, sum rules for neutral meson production in, 22:52982
interactions K^- + p with strangeness exchange, branching ratios for neutral meson production in, 22:52982
interactions K^- + p Ξ^- + K^+ at 1.65 GeV/c, Ξ^- polarization in, (E), 25:7535 (BMBW-FBK-70-16)
interactions K^- + p, angular distribution and cross sections for charge-exchange, (E), 21:878 (NEVIS-149)
interactions K^- + p, CP nonconservation in, 22:20236
interactions K^- + p, crossing relations for comparison of anti p + p → K^+ + K^- interactions and backward elastic, 23:46721
interactions K^- + p, current algebra and Regge pole theory for total cross sections for, 21:29521
interactions K^- + p, current algebra and Regge pole theory for total cross sections for, 21:29521
interactions K^- + p, differential cross sections for elastic, 23:10817
interactions K^- + p, differential cross sections for production of axial vector mesons in Regge pole model for, (T), 23:5619
interactions K^- + p, dispersion relations for forward amplitudes of, 21:2478
interactions K^- + p, dispersion-relation calculation of real part of amplitude for, 24:37791
interactions K^- + p, duality for total cross section relations in quark model for, 24:35653 (ITF-70-24)
interactions K^- + p, eikonal Regge model for elastic, 25:9755
interactions K^- + p, empirical analysis of differences and sums of angular distributions for, (T), 25:59477
interactions K^- + p, energy dependence of cross sections for inelastic, (E/T), 24:24373
interactions K^- + p, extraction of ΛK^-p and ΣK^-p coupling constants from forward amplitudes of, 25:33735
interactions K^- + p, finite-energy dispersion relations for determination of forward amplitudes and coupling constants for, 25:1534
interactions K^- + p, forward dispersion relation predictions of differential cross sections for, (E/T), 22:24667
interactions K^- + p, generalized quark model for cross sections and spin density matrix elements for strangeness-exchange, 22:29693
interactions K^- + p, heavy photon production in, (E/T), 21:2424
interactions K^- + p, interference in resonance production in, (T), 23:49162
interactions K^- + p, interpretation of $Y_0^*(1405)$ as KN boundstate from, (T), 21:878 (NEVIS-149)
interactions K^- + p, j-plane singularities in superconvergent sum rules for, 23:27804
interactions K^- + p, K^- pA and K^- $p\Sigma^*$ coupling constant relations from dispersion relation calculations of forward, 22:24638
interactions K^- + p, K^-pA and $K^-p\Sigma^*$ coupling constants from dispersion relations for forward elastic, (T), 23:42676
interactions K^- + p, AK coupling constant in dispersion relations for real parts of amplitudes of forward, (T), 25:47872
interactions K^- + p, model-independent determination of real parts of amplitudes for, 25:20013
interactions K^- + p, peripheral SU(6)/sub W/ model for resonance polarization from, 21:40261 (NP-16936)
interactions K^- + p, phenomenological meson—baryon coupling model based on quark model with broken SU(6) x O(3) for Y^* production in total cross sections for, 24:3725
interactions K^- + p, phenomenological model of meson—baryon couplings for, (T), 24:47447 (CONF-690557-(Vol.2), pp 781-95)
interactions K^- + p, polarization of resonances in peripheral SU(6)/sub W/ model for, 22:3491
interactions K^- + p, quark model with factorization hypothesis for inelastic, 24:24385
interactions K^- + p, Regge analysis of, 24:15591
interactions K^- + p, Regge-pole model for charge- and hypercharge-exchange, 21:15355
interactions K^- + p, resonances and antishrinkage of diffraction peak in, 21:46529
interactions K^- + p, review and analysis of data on $K\pi\pi$ system from, 23:14991
interactions K^- + p, review of A(1520) production in, (E), 24:40250 (UCRL-19765)
interactions K^- + p, review of, (T), 21:15339

interactions $K^- + p$, scattering lengths and low-energy behavior of anti K + N, $\pi + \Lambda$, and $\pi + \Sigma$ amplitudes from K-matrix analysis of, 23:46725
interactions $K^- + p$, soft-point PCAC scattering length for, 25:53221
interactions $K^- + p$, spark chamber for detecting neutral particles produced in, 21:6215
interactions $K^- + p$, SU(3) for three-body final-state hadron production from, 21:42400
interactions $K^- + p$, SU(3)-invariant t-channel amplitudes for, 21:40221
interactions $K^- + p$, sum rule for limitation of parametrization for asymptotic behavior of amplitudes of, (T), 25:1550
interactions $K^- + p$, sum-rule analysis of, 22:7517
interactions $K^- + p$, Σ^+, Σ^-, and Σ^0 production in, (E), 21:878 (NEVIS-149)
interactions $K^- + p$, three-triplet model for backward elastic, 23:25681
interactions $K^- + p$, unsubtracted dispersion sum rule for, (T), 22:39409
interactions $K^- + p$, upper limit on production rate of tachyons in, (E), 24:28499
interactions $K^- + p$, urbaryon rearrangement diagrams for amplitudes of, 25:12183
interactions $K^- + p$, weak duality for slopes of angular distributions of elastic, 25:30873
interactions $K^- + \pi^- \rightarrow K^- + \pi^-$, $K^- + n \rightarrow K^- + \pi^- + p$ interactions at 12.6 GeV/c in bubble chamber for determining cross sections of, (E), 25:9658 (TID-25611)
interactions $K^- \rightarrow \pi^+ + \pi^- + \pi^-$, violation of $\Delta I = {}^1/_2$ rule in, (T), 24:52051
interactions $K^- + \pi^-$ at low energies, cross section for, 24:30456 (CONF-690521-, pp 446-76)
interactions $K^- + \pi^-$ from $K^- + d \rightarrow K^- + \pi^- + p + p$ at 5.5 GeV/c, cross section for, (E), 24:42882
interactions $K^- + \pi^-$ from $K^- + n \rightarrow K^- + \pi^- + p$ interactions at 12.6 GeV/c, cross section for elastic, 25:33567
interactions $K^- + \pi^-$ from $K^- + p \rightarrow K^- + p + \pi^- + \pi^+$ interactions at 4.6 and 5.0 GeV/c, total and elastic cross sections for, (E/T), 23:8742
interactions $K^- + \pi^-$, cross section evaluation from $K^- + p \rightarrow K^- + p + \pi^- + \pi^+$ interactions at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, 21:31534
interactions $K^- + t$, multiple-scattering calculation of scattering lengths for, 23:23500
interactions $K^- + \Xi \rightarrow K^- + \Xi$, superconvergence sum rules for U = 0 elastic, 24:13115
interactions $K^- + \Xi^0$, consistency conditions for $\Delta S = 1$ currents from, 22:29703
interactions K- + p in Regge-pole formalism with duality, slopes of angular distributions of elastic, (T), 24:47457
interactions $\pi^0 + K^- \rightarrow K^0 + K^-$, bootstrap constraints from phase contour methods for, 24:8634
interactions $\pi^+ + K^- \rightarrow \pi^+ + K^-$, correlation of meson towers with absence of backward peaks in, 23:42660
interactions with emulsion nuclei at 1.5 GeV/c, general characteristics, production, and decay of hyperfragments from, (E), 21:25244
interactions with neutrons, SU(3) assignments for Y_1^* from, 21:952
interactions with nuclear Colomb field, K^{*-} production in, 21:9742
interactions with protons at 0.79 to 1.22 Bev/c, Y_1^* (1760) production in, (E), 21:885
interactions $\Xi + K^-$, properties of Ω^- bound state in, 21:11773
lifetime relative to K^+, ratio of, 24:8560
mass difference ($K^- - K^0$), electromagnetic, (T), 23:8782
mass difference ($K^- - K^0$), magnitude and sign of, (T), 22:52961
mass difference ($K^+ - K^-$), 22:26548
mass difference ($K^+ - K^-$) current-algebra calculation of, 22:24702
mass difference ($K^+ - K^-$) from Veneziano amplitude for K + rho $\rightarrow$ K + ω_0, 24:40382
mass of, accurate determination from difference in energy between two K^--mesic atomic levels, (E), 23:51859 (UCRL-19251)
mass of, kaonic atom x-ray transition energies for determining, (E), 24:47383 (CONF-690557-(Vol.2), pp 889-95)
mass of, x-ray energy shift from 4f—3d transition in chlorine for determining, (E), 25:28031
production and relative yields from proton reactions with copper and uranium at 8 GeV/c, Cherenkov counter study of, (E), 22:13653 (RPP/H-28)
production from $\gamma + N$ interactions below 6 GeV, magnetic spectrometer and differential gas Cherenkov counter study of excitation functions for, 21:33590
production from $\gamma + p$ interactions, missing-mass spectrometer study of, 21:35250
production from p + N interactions at 10 to 35 GeV/c in beryllium, empirical formulas for, 21:31605 (BNL-11479)
production from p + p interactions at 12.5 GeV/c, spectrometer study of cross sections for, 21:29440
production from proton reactions with aluminum at 70 GeV, (E), 24:15600(T) (ORNL-tr-2266)
production from $\pi + p$ and p + p interactions at high energies, isobar production effects on K^+/K^- ratio from, (T), 22:13768
production in anti p + p two-body annihilations above 200 MeV/c, review of, 23:13086 (ANL/HEP-6812, pp 58-78)
production in cosmic proton reactions with nuclei at 10^{12} to 10^{13} eV in emulsions, (E), 24:35604 (SJC-P-70-2)
production in electron reactions with beryllium, beryllium—iron, and iron at 16 and 18 GeV, yields of, (E), 22:20113
production in $\gamma + p \rightarrow K^+ + K^- + p$ interactions, mass distributions from, 22:48202(R) (BMwF-FBK-68-01)
production in $\gamma + p \rightarrow K^- + Z^{*++}$ interactions at 4 to 6 GeV, (E), 23:1584
production in $\gamma + p$ interactions, (E), 25:25286
production in $K^- + p$ hypercharge-exchange interactions at 4.1 and 5.5 GeV/c, (E), 21:17054
production in meson (π^-) interactions in nuclear emulsions at 17.2 GeV/c, (E), 22:32069
production in p + N interactions at 14 GeV in nuclear emulsions, (E), 21:5355
production in p + p interactions and proton reactions with nuclei at 19.2 GeV/c, spectrometer study of spectra from, (E), 24:35603 (CERN-70-12)
production in p + p interactions at 12.5 GeV/c, cross sections for, (E), 22:39250 (CERN-68-7(Vol.2), pp 262-80)
production in p + p interactions at 12.5 GeV/c, differential cross section for, 22:20128
production in p + p interactions at 14.25 to 70 GeV/c, phenomenological study of inclusive single-particle spectra in triple Regge limit for, (T), 25:59505 (JINR-E2-6031)
production in p + p interactions, thermodynamic model for, 23:3754 (RHEL/R-165)
production in phi decay, spectrometer study of momentum dependence of, (E), 22:24515
production in proton interactions with hydrogen at 200 GeV, empirical estimation of flux of, 24:51923 (TID-25473(Vol.1), pp 397-401)
production in proton reactions with aluminum and beryllium at 70 GeV, yields and differential cross sections for, (E), 25:19906
production in proton reactions with aluminum and beryllium at 70 GeV, Cherenkov counter and spectrometer study of, (E), 25:22678
production in proton reactions with aluminum and beryllium at 10 and 13.3 GeV/c, gas Cherenkov counter and time-of-flight spectrometer study of, (E), 25:25296 (IFVE-SEF-70-38)
production in proton reactions with aluminum at 20 to 70 GeV, scaling law for, (E/T), 23:44598
production in proton reactions with aluminum at 35 to 70 GeV, yields for, (E), 24:28486
production in proton reactions with aluminum at 43, 52, and 70 GeV, (E), 24:5243
production in proton reactions with aluminum at 70 GeV in Serpukhov synchrontron, 23:23595
production in proton reactions with aluminum at 70 GeV, gas Cherenkov counter study of, (E), 24:3519
production in proton reactions with aluminum below 70 GeV, forward-angle, (E), 23:51849 (IFVE-SEF-69-18)
production in proton reactions with aluminum-27 at 70 GeV, peripheral, (E/T), 24:37806
production in proton reactions with beryllium at 200 GeV empirical estimation of fluxes for, 24:51924 (TID-25473(Vol.1), pp 403-16)
production in proton reactions with copper and uranium at 8 GeV/c, (E), 22:22309
production in $\pi^+ + p$ interactions at 8.5 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25:22702
production of 1.2- to 1.9-GeV/c separated beams of, design and construction of facilities for, 21:4151 (UCRL-17018)
production of beams of, from electron interactions with beryllium targets at 16 to 18 GeV, 21:17230
production of intermediate-energy beams of, in ZGS proton area, 21:40300 (COO-1195-96)
production of $K^+ - K^-$ pairs in $\pi^- + p$ interactions at 6.0 GeV/c in hydrogen bubble chamber, (E), 23:42568
production of $K^+ - K^-$ pairs in $e + e \rightarrow 2e + K^+ + K^-$ and $e^+ + e^- \rightarrow e^+ + e^- + K^+ + K^-$ interactions in colliding beams, (T), 25:53048 (DESY-71/30)
production of K^-—K^+ pairs in $e + e \rightarrow e + e + K^- + K^+$ interactions at 2 and 3 GeV, numerical calculations with two-photon exchange and double Williams—Weizsacker approximation for, 24:3566
production of K^+—K^- pairs in $e^+ + e^- \rightarrow K^- + K^+$ interactions at 2 x 590 to 2 x 670 MeV, efficiency and background for, (E), 25:47709 (NP-18932)
production of K^+—K^- pairs in $\pi^+ + p \rightarrow \pi^+ + p + K^+ + K^-$ interactions at 13.1 GeV/c in hydrogen bubble chamber, (E), 25:40879 (COO-1428-273)
reactions (K^-,f) with bromine and silver nuclei in nuclear emulsions at 1.5 GeV/c, (E), 24:13370
reactions (K^-,$\Lambda\pi^-$) with helium-4, multiple-impulse approximation for analysis of, (T), 24:37816
reactions (K^-,π^0) with helium-4 in helium bubble chamber, Λ-H^4 range from, (E), 21:44287
reactions at rest in emulsions, hyperfragment binding energy determinations from, (E), 21:4208
reactions in emulsions at 0.8 to 3.5 GeV/c, Λ potential well depth determination from, 21:44280
reactions with aluminum, beryllium, and carbon at 3.5 GeV/c, cross sections for, (E), 22:48230
reactions with bromine and silver at 10 GeV/c in nuclear emulsions, lithium-8 evaporation in, (E/T), 22:37335
reactions with bromine and silver nuclei at 800 MeV/c in emulsions, heavy hypernuclei production in, (E), 22:24564
reactions with bromine, carbon, and fluorine at 10 GeV/c in bubble chamber, $K^-\pi^+\pi^-$ system coherent production and total cross sections for $K^-\pi^+\pi^- + N$ interactions in, (E), 25:19910 (LAL-1242)
reactions with carbon at 0.6 to 2.65 GeV/c, total cross sections for, (E), 22:26567
reactions with carbon in diamond-loaded emulsion, Σ^+, Σ^-, and charged $\Sigma\pi$-pair production in, (E), 23:34541
reactions with carbon-12, nitrogen-14, and oxygen-16 in nuclear emulsions, hyperfragment production in, (T), 21:13821
reactions with chlorine, sulfur, and zinc at low energies, x-ray spectra of Σ hyperonic atoms from, (E), 25:1419
reactions with deuterium and helium at rest, review of production of Λ and Σ in, (E), 24:47379 (CONF-690557-(Vol.1), pp 451-85)
reactions with emulsion nuclei at 1.5 GeV/c, hyperfragment production in, (E), 21:9956 (DESY-66/23)
reactions with emulsion nuclei at 1.5 GeV/c, mass estimates of short-range hyperfragments from, (E), 21:4239
reactions with emulsion nuclei at 10.1 GeV/c, production of hypernuclei from, (E), 23:32910
reactions with emulsion nuclei at 3.0 and 5.0 GeV/c, helium-8 production from, (E), 22:3255
reactions with emulsion nuclei at 800 MeV/c, heavy hyperfragment production from, (E), 22:50288 (JEN-193-DF/1-57)
reactions with emulsion nuclei at 800 MeV/c, spallation model for hyperfragment production in, (T), 22:27253
reactions with emulsion nuclei at rest, Λ-^{9}Be and Λ-^{6}Li resonant state production from, (E), 21:29891
reactions with emulsion nuclei at rest, production and decay of A-Li^4 and A-Be^9 in, (E), 25:14573
reactions with emulsion nuclei, hyperfragment and lithium-8 fragment production in, (E), 22:24548
reactions with emulsion nuclei, mass estimates of nonmesically decaying short-range hyperfragments from, (E), 21:9966
reactions with freon at rest in bubble chamber, production of A-H^3 and A-H^4 in, (E), 24:47371 (CONF-690557-(Vol.1), pp 438-50)
reactions with heavy emulsion nuclei at 1.5 and 3.5 GeV/c, emission of lithium-8 fragments in, (E), 25:14978
reactions with heavy nuclei at 3, 5, and 10.1 GeV in emulsions, lithium-8 production from, (E/T), 23:14981
reactions with heavy nuclei in emulsions at 800 MeV/c, production and decay of hyperfragments in, (E/T), 23:3761
reactions with helium at rest in bubble chamber, properties of Λ—H^3, Λ—He^4, and Λ—H^4 produced in, (E), 24:32968
reactions with helium-4 at 100 to 200 MeV/c in helium bubble chamber, differential elastic and total inelastic cross sections for, (E), 25:22969
reactions with helium-4 at 440 to 630 MeV, double strangeness exchange in, 24:24391 (JINR-P2-5028)
reactions with helium-4 at rest and in flight in helium bubble chamber, Σ^- and Σ^+ production from, (E), 25:22696
reactions with helium-4 at rest in bubble chamber, branching ratio for final states in, 24:32971
reactions with helium-4 at rest in helium bubble chamber, Λ-H^4 and Λ-He^4 production rates in, (E), 24:47370 (CONF-690557-(Vol.1), pp 403-37)
reactions with helium-4 at rest in helium bubble chamber, Λ—He^4 production rates in, (E), 24:47378 (CONF-690557-(Vol.1), pp 368-402)
reactions with helium-4 at rest in helium bubble chamber, branching ratios, multinucleon K^- capture fraction, and Σ conversion probability in, (E), 24:47382 (CONF-690557-(Vol.2), pp 862-84)
reactions with helium-4 at rest, impulse approximation for hadron production in, (T), 24:47465 (CONF-690557-(Vol.1), pp 493-520)
reactions with helium-4 at rest, impulse model calculations of Σ conversion in, 22:35019
reactions with helium-4 in bubble chamber, cross sections and distributions for $\Lambda\pi^-$ production in, (E), 24:40273
reactions with helium-4 in helium bubble chamber, Λ-He^3 hyperfragment production and lifetime from, (E), 22:22324
reactions with helium-4, scattering length from K-mesic helium-4, 23:41946
reactions with lead at 3.05 GeV/c, total cross sections for, (E), 21:42256
reactions with light nuclei, pair absorption model for, 22:29721
reactions with matter, energy straggling distributions in, 22:24765
reactions with neon at 5.5 and 12.7 GeV/c in bubble chamber, $K^-\pi^+\pi^-$ system coherent production and total cross sections for $K^-\pi^+\pi^- + N$ interactions in, (E), 25:19910 (LAL-1242)
reactions with neon at rest in bubble chamber, conversion electron pairs from nuclei excitation in, (E), 25:10012
reactions with neon at rest in bubble chamber, Λ^0 hyperfragment formation, single and multinucleon absorption rates, Σ—Λ conversion, and general systematics of, (E), 24:20077 (TID-25360)
reactions with neon at rest, hyperon and hyperfragment production in, (E), 25:47749
reactions with nuclei at 0 to 5 GeV/c in emulsions, rates for hyperfragment production from, (E), 25:38655
reactions with nuclei at 1.5 and 3.5 GeV/c, Monte Carlo calculation of lifetime of heavy hyperfragments from, 24:42991
reactions with nuclei at 1.5 GeV/c in emulsions, binary hyperfragment production from, (E), 22:17877
reactions with nuclei at 1.5 GeV/c in emulsions, hyperfragment and strange particle production in, (E), 24:10684
reactions with nuclei at 1.5 GeV/c in emulsions, hammer tracks of helium-8 fragments from, (E), 22:15688
reactions with nuclei at 1.5 GeV/c in emulsions, very short-range hyperfragment production in, (E), 22:32066
reactions with nuclei at 1.5 to 10.1 GeV/c in emulsions, Monte Carlo calculations for double production of lithium-8 in, (E/T), 24:37624
reactions with nuclei at 1.5, 3.0, 5.0, and 10.1 GeV/c, hyperfragment production in, (E), 23:8754
reactions with nuclei at 10.8 and 18.0 GeV/c, absorption cross sections for, (E), 21:37697 (BNL-11598)
reactions with nuclei at 10.8 and 18.0 GeV/c, absorption cross sections for, (E), 21:37697 (BNL-11598)
reactions with nuclei at 3.0 GeV/c in emulsions, hyperfragment production in, (E), 25:5277
reactions with nuclei at 3.0 to 10.1 GeV/c in emulsions, double hyperfragment production and decay from, (E), 22:13664
reactions with nuclei at 3.5 GeV/c, cross sections for, (E), 21:46482 (COO-1195-99)

reactions with nuclei at 40 GeV/c, absorption cross sections for, (E), 24:1511
reactions with nuclei at 5.5 to 12.7 GeV/c in bubble chamber, K^-—N total cross section determination from $K^-\pi^+\pi^-$ system production in, (E), 24:51979
reactions with nuclei at 5.5 to 12.7 GeV/c in heavy-liquid bubble chamber, K(890) and Q coherent production in two-, three-, four-, and five-meson states from, (E), 25:33551 (LAL-1244)
reactions with nuclei at 5.5 to 12.7 GeV/c, total cross sections for K^- + N interaction from coherent production of K^- in $K\pi\pi$ final states from, 25:47756
reactions with nuclei at 6 GeV/c in emulsions, production of Ξ-B^{11} and $\Lambda\Lambda$-C^{11} from, (E), 24:47381 (CONF-690557-(Vol.2), pp 758-75)
reactions with nuclei at 6 GeV/c in emulsions, production of $\Lambda\Lambda$-C^{11} and Ξ-B^{11} from, (E), 25:22688 (JEN-217-IFIC/I-4)
reactions with nuclei at 6 GeV/c in emulsions, spallation model for hypernuclei production from, (E/T), 22:5508
reactions with nuclei at rest and 1.5 GeV/c in emulsions, Λ binding energy in Z > 4 hyperfragment production from, (E), 23:14965
reactions with nuclei at rest in emulsions, Λ-He^5 hyperfragment decay mode determination from, (E), 22:34848 (NP-17481)
reactions with nuclei at rest in emulsions, production of (Σ^-n) bound state from, (E), 22:7450
reactions with nuclei at rest in emulsions, search for Λ—He^{10}, Λ—Li^6, and Λ—Be^{10} production in, (E), 24:32964
reactions with nuclei in emulsions at 1.5 GeV/c, fragment and hyperfragment production in, (E), 23:13043
reactions with nuclei, production of Ξ-Z hyperfragments in, 23:10831
reactions with nuclei, study of nuclear properties by, 25:25813
reactions with oxygen-16, coupled-channel calculations of total cross sections of unitary analog state Λ-O^{16} produced from, (T), 24:47475 (CONF-690557-(Vol.2), pp 885-8)
scattering by helium-4 at 100 to 150 MeV/c, differential cross sections for elastic, (E), 24:24247
scattering by helium-4 at 115 to 160 MeV/c in helium bubble chamber, differential cross sections and scattering lengths for elastic, (E/T), 25:9969
scattering by helium-4 at 150 to 200 MeV/c, total cross sections for inelastic, (E), 24:24247
scattering by neon at 65 to 240 MeV/c in bubble chamber, angular distributions and cross sections for elastic, (E), 25:22690 (TID-25667)
scattering by neon at 65 to 240 MeV/c, angular distribution and cross sections for elastic, (E), 25:47749
scattering inelastically in air, water, and nuclear emulsions of cosmic, cross sections for, (T), 22:22299
selection from 900-MeV/c $K^-\pi^-$ beam, design and performance of Cherenkov detector time-of-flight telescope for, 23:43593
separation of beams at 1.5 to 2.5 GeV, traveling wave separator for, 25:50460
MESONS (K^o)
angular distribution from K^+ + n → K^o + p interactions on beryllium-9 at 0.970 GeV/c, (E), 22:11598
content of, in neutral kaon beam, (T), 25:27424
correlation experiments with K^o pairs, interference of K_1^o and K_2^o decays in, 21:11764
coupling constants for, SU(3) x SU(3) charge algebra and PCAC and PCVC hypotheses for sum rules for f/sub K^o//f/sub K^+/, (T), 24:45572
CP violation in (K^o - anti K^o) system with octet or nonet W mediation, 24:10794
CP violation in (K^o—anti K^o) system, second-order weak effect for parameters of, (T), 25:59540
CP violation in K^o - anti K^o system, review of parameters for, (E), 25:30925
CP violation in K^o—anti K^o system, 21:46556 (CERN-67-27)
CP violation in K^o—anti K^o system, model for, 25:47813
CP violation in system of, proposed experiment for more precise measurement of eta/sub + -/ phase for, (E), 25:38764
CPT violation in K^o—anti K^o complex, tests of, (E), 24:43000
decay anti K^o → μ^- + anti τ + π^+, difference in spectra from K^o → μ^+ + τ + π^- decay, 22:13821
decay anti K^o → π^+ + e(μ^-) + anti τ + γ, soft-pion theorems for leading terms in matrix elements for photon spectra and rate for, 24:13020
decay anti K^o → π^- + e^+ + τ, phenomenological analysis of CP violation in, 21:46505 (NEVIS-163)
decay anti K^o → π^- + l^+ + τ, rates for ΔS = -ΔQ, 22:17917
decay anti K_2^o → π^+ + e^- + anti τ, phenomenological analysis of CP violation in, 21:46505 (NEVIS-163)
decay in bubble chambers, design and performance of template for vertex determination in, 21:19953
decay in hydrogen bubble chamber, test of ΔS = ΔQ rule from leptonic, (E), 22:20120
decay K^o → 2γ, CP violation in, 21:42415
decay K^o → 2γ, phenomenological description of, 23:8828
decay K^o → 2γ, rates of, (T), 21:4013 (JINR-P2-2954)
decay K^o → 2γ, spark chamber and scintillation counter study of branching ratio for, (E), 25:1385 (SLAC-125)
decay K^o → 2γ, time dependence of asymmetry relative to anti K^o → 2γ, 23:8828
decay K^o → 2π + 2γ in current algebra, branching ratio for, 25:9738
decay K^o → 2π (I = 2) amplitudes and CP violation, 22:3357
decay K^o → 2π from e^+ + e^- → phi → K^o + anti K^o interactions, measurement of CP violating parameters in, 23:39772
decay K^o → 2π in chiral vector meson model, proof of ΔI = 1/2 rule from, 23:25672
decay K^o → 2π, breakdown of T and CPT invariance in, 23:25665 (CERN-69-7, pp 307-8)
decay K^o → 2π, calculation of Re epsilon for K^o-anti K^o system from CP violation in, 24:13132
decay K^o → 2π, chiral symmetric gauge field model for, 25:30810
decay K^o → 2π, consequences of unitarity in models of CP violation for, 24:37839
decay K^o → 2π, CP invariance for, 22:39347
decay K^o → 2π, CP invariance for, 23:25673
decay K^o → 2π, CP invariance in, 22:11702
decay K^o → 2π, CP invariance, unitarity, and isospin analysis of amplitudes of, (T), 24:5279
decay K^o → 2π, CP nonconservation correlation with regeneration in, 24:49427
decay K^o → 2π, CP violating parameters in current—current model for, 23:13116
decay K^o → 2π, CP violation from branching ratio for, (E), 25:14530
decay K^o → 2π, CP violation in particle-mixture models for, 24:15626 (INP-681, pp 46-58)
decay K^o → 2π, CP violation in, (E/T), 22:39344
decay K^o → 2π, CP violation in, (T), 24:28575 (SU-1206-219)
decay K^o → 2π, CPT and T invariance for, 22:13811 (JINR-P2-3622)
decay K^o → 2π, CPT invariance test for, (T), 23:44691
decay K^o → 2π, current—current models for ratio of CP-nonconserving parameters for, 23:21087
decay K^o → 2π, dynamical model for, 21:23324 (NP-16681)
decay K^o → 2π, ΔI = $^1/_2$ rule for branching ratio for, 21:27348
decay K^o → 2π, effect of electromagnetic C violation of CP violating parameter for, 24:24323
decay K^o → 2π, Feynman diagrams for electromagnetic mass shift (π^o - π^+) for CP nonconserving parameters in, (T), 24:18255
decay K^o → 2π, graphical representation of CP violating parameters in, 24:28578
decay K^o → 2π, interference effects of K_2^o—K_1^o overlap on CP violation in, 25:17540
decay K^o → 2π, limit on time reversal invariance in, (T), 23:44689
decay K^o → 2π, meson (π) phase shifts for, (T), 21:21189
decay K^o → 2π, model for CP violation in, 22:5624
decay K^o → 2π, model for CP violation in, 24:10704
decay K^o → 2π, phenomenological analysis of invariance in, 24:28577
decay K^o → 2π, phenomenology of, 22:1418 (JINR-P2-3513)
decay K^o → 2π, quark model for parity-violating, 21:18960
decay K^o → 2π, relation between parameters for CP violation in, (T), 23:3784
decay K^o → 2π, review of CP violation in, (T), 25:9828
decay K^o → 2π, review on CP violation in, 24:22000
decay K^o → 2π, review on CPT invariance in, 22:48344
decay K^o → 2π, superweak interaction and TCP invariance for, 25:14761
decay K^o → 2π, T invariance violation in, (T), 24:45559
decay K^o → 2π, T violation in CP-violating, 22:53005
decay K^o → 2π, test of CPT invariance in, (T), 22:44469
decay K^o → 2π, time reversal nonconservation in, 23:16979
decay K^o → 2π, unitarity and CPT invariance for parameters of, (T), 22:41834
decay K^o → 2π, unitarity for CP violation parameters for, (T), 25:38765
decay K^o → 2π, unitary sum rule and CPT violation for, 23:1668
decay K^o → $2\pi^o$, CP violation and phase angle for, 23:36975
decay K^o → $2\pi^o$, method for bubble chamber particle track analysis of, 24:29566 (KFKI-70-8-HEP)
decay K^o → $2\pi^o$, phase and modulus of eta_{00} for, (E), 23:25666 (CERN-69-7, pp 309-27)
decay K^o → $2\pi^o$, review of amplitude ratios for, 22:20198 (CONF-670211-, pp 6-33)
decay K^o → $2\pi^o$, upper limit for K_2^o/K_1^o ratio for, (E) 23:27739
decay K^o → 3π, CP conserving P-wave amplitudes in, 24:10691(R) (COO-264-532)
decay K^o → 3π, CP violation in, 21:25332
decay K^o → 3π, I = $^1/_2$ rule and CP conservation in, (T), 25:22867
decay K^o → 3π, I = J = 0 dipion state (400 MeV) with CDD pole for, 21:17097
decay K^o → 3π, interference effects in, (T), 23:13069
decay K^o → 3π, isospin analysis of possible CP violating effects in, 22:3349
decay K^o → 3π, isotopic spin analysis of CP violating effects in, 22:1464 (N-67-22464)
decay K^o → 3π, magnetic spectrometer—spark chamber system study of ΔS = ΔQ rule and CP violation in, (E), 24:40240 (COO-1195-187)
decay K^o → 3π, pion pole model for branching ratios of, (T), 23:8780
decay K^o → 3π, Regge theory for final-state interactions in, (T), 23:8801
decay K^o → $3\pi^o$ at rest in heavy-liquid bubble chamber, energy dependence of matrix elements for, (E/T), 24:37612 (LAL-1232)
decay K^o → anti l + l, consequences of γ_5 invariance for, (T), 23:3697
decay K^o → e + π + τ, performance of Cherenkov detector for studying time dependence of, 25:2489
decay K^o → e + π + τ, test of ΔS = ΔQ rule in spark chamber study of, (E), 24:15461 (UCSD-10-P-10-107)
decay K^o → e^- + π^+ + anti τ in spark chamber, test of ΔS = ΔQ rule in, (E), 23:21047
decay K^o → e^+ + π^- + τ in spark chamber, test of ΔS = ΔQ rule in, (E), 23:21047
decay K^o → $e^+(e^-)$ + τ + π, test of ΔS = ΔQ rule in, (E), 22:39455
decay K^o → $e^+(e^-)$ + $\pi^-(\pi^+)$ + τ following regeneration in copper at 2.5 GeV/c, charge asymmetry in, (E), 22:39246
decay K^o → e^{+-} + τ + π^{-+} + γ, verification of time reversal invariance in, (T), 24:10800
decay K^o → γ + γ and K^o → π^+ + π^- + γ, CP-violating interference effects in, (E/T), 22:3488
decay K^o → γ + γ, CP violation in, 25:45784
decay K^o → K^+ + e + τ, electromagnetic corrections to weak ΔS = 0 vector coupling constant for, 21:25265
decay K^o → K^+ + e^- + anti τ, electron mass for rates of, 21:909
decay K^o → K^- + e^+ + τ, SU(3) symmetry theory for, 22:5620
decay K^o → μ + e + τ, charge asymmetry in, (T), 22:32096
decay K^o → μ^+ + μ^-, CP violation in strong cubic intermediate vector boson model for, 23:36971
decay K^o → μ^+ + τ + π^-, difference in spectra from anti K^o → μ^- + anti τ + π^+ decay, (T), 22:13821
decay K^o → π + e + τ in extended Cabibbo model, prediction of Re epsilon from, 23:8792
decay K^o → π + e + τ in spark chamber, time dependence of, (E), 21:25227
decay K^o → π + e + τ, angular distributions and energy spectra for, (E), 21:11733
decay K^o → π + e + τ, charge asymmetry in, (T), 22:32096
decay K^o → π + e + τ, ΔS = ΔQ rule and charge asymmetry in, 25:47922
decay K^o → π + e + τ, energy dependence of form factor in, (E), 21:15257
decay K^o → π + e + τ, form factor variation from spectra of, (E), 21:37653(R) (UCLA-34-P-106-1)
decay K^o → π + e + τ, radiative corrections to Dalitz plot for, 22:44391
decay K^o → π + e + τ, regeneration phase at 2.2 GeV/c in copper and phase of CP-violating amplitude from spark chamber spectrometer study of e^+—e^- asymmetry in, (E), 24:37833 (PURC-2137-23)
decay K^o → π + e + τ, spark chamber spectrometer study of CP violation and ΔS = ΔQ rule in amplitude asymmetry of regenerated, (E), 25:22864
decay K^o → π + e + τ, test of ΔS = ΔQ rule and time reversal invariance in spark chamber study of, (E), 25:45783
decay K^o → π + e + τ, test of ΔS = ΔQ rule in spark chamber study of, (E), 25:14538
decay K^o → π + e + τ, test of ΔS = ΔQ rule in spark chamber study of time distribution of, (E), 24:40239 (CALT-68-251)
decay K^o → π + e + τ, test of ΔS = ΔQ selection rule in optical spark chamber study of, (E), 25:25292 (COO-1195-210)
decay K^o → π + e + τ, time dependence of, (E), 21:35254 (NYO-2171-201)
decay K^o → π + e + τ, upper limit for leptonic charge asymmetry in, (E), 24:30436 (NEVIS-179)
decay K^o → π + l + γ, constants in equation for time rate of, 22:32094 (UCID-2885)
decay K^o → π + l + τ from e^+ + e^- → phi → K^o + anti K^o interactions, measurement of CP violating parameters in, 23:39772
decay K^o → π + l + τ, ΔS = ΔQ rule from time distribution of, (E), 25:14533
decay K^o → π + l + τ, magnetic spectrometer—spark chamber system study of ΔS = ΔQ rule and CP violation in, 24:40240 (COO-1195-187)
decay K^o → π + l + τ, spark chamber study of branching ratio, Dalitz plot distributions, and form factors of, (E), 25:33530
decay K^o → π + l + τ, unitarity for CP violation parameters for, (T), 25:38765
decay K^o → π + l + τ, violation of ΔS = ΔQ rule and CP invariance in, 23:25671
decay K^o → π + l(π) + τ(γ), test of ΔS = ΔQ rule in time distribution of, (T), 25:36457
decay K^o → π + μ + τ, interference between K_1^o and K_2^o in, 21:21164
decay K^o → π + μ + τ, μ polarization in, (E), 23:25499 (AD-677064)
decay K^o → π + μ + τ, radiative corrections to Dalitz plot for, 24:24321
decay K^o → π + μ + τ, spark chamber study of branching ratio, Dalitz plot distributions, and form factors of, (E), 25:33530
decay K^o → π + μ + τ, test of ΔS = ΔQ rule in spark chamber study of, (E), 25:25290 (COO-1195-208)
decay K^o → π + μ + τ, test of ΔS = ΔQ selection rule and CP invariance in, (E), 25:25288 (COO-1195-206)
decay K^o → π + π + e^+ + e^-, branching ratios for, 24:12999
decay K^o → π + π + π + e^+ + τ, PCAC hypothesis and SU(3) current algebra for form factors for, 22:24622
decay K^o → π + π, $\pi\pi$ phase shifts from, (E/T), 24:30434 (CONF-690521-, pp 413-38)
decay K^o → π^+ + e^- + τ, branching ratio and positron momentum spectrum for, (E), 23:3637
decay K^o → π^+ + l^+ + l^-, CP-conserving, 22:15828
decay K^o → π^+ + μ^+ + τ at rest in freon bubble chamber, Dalitz plot analysis and four-momentum dependence of form factors for, (E), 23:46602
decay K^o → π^+ + π^+ + π^o, probability for, (E), 21:13674 (JINR-P1-3098)
decay K^o → π^+ + π^+ + π^o, violation of ΔI = 1/2 rule in, 25:47808
decay K^o → π^o + π^o in spark chamber, interference between K_1^o and K_2^o components in time dependence of, (E), 23:21046
decay K^o → π^o + π^o, conservation laws and selection rules in, 22:3484 (LPTHE-TH-204)
decay K^o → π^o + π^o, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))

interactions $K^- + p$, scattering lengths and low-energy behavior of anti $K + N$, $\pi + A$, and $\pi + \Sigma$ amplitudes from K-matrix analysis of, 23:46725
interactions $K^- + p$, soft-point PCAC scattering length for, 25:53221
interactions $K^- + p$, spark chamber for detecting neutral particles produced in, 21:6215
interactions $K^- + p$, SU(3) for three-body final-state hadron production from, 21:42400
interactions $K^- + p$, SU(3)-invariant t-channel amplitudes for, 21:40221
interactions $K^- + p$, sum rule for limitation of parametrization for asymptotic behavior of amplitudes of, (T), 25:1550
interactions $K^- + p$, sum-rule analysis of, 22:7517
interactions $K^- + p$, Σ^+, Σ^-, and Σ^0 production in, (E), 21:878 (NEVIS-149)
interactions $K^- + p$, three-triplet model for backward elastic, 23:25681
interactions $K^- + p$, unsubtracted dispersion sum rule for, (T), 22:39409
interactions $K^- + p$, upper limit on production rate of tachyons in, (E), 24:28499
interactions $K^- + p$, urbaryon rearrangement diagrams for amplitudes of, 25:12183
interactions $K^- + p$, weak duality for slopes of angular distributions of elastic, 25:30873
interactions $K^- + \pi^- \rightarrow K^- + \pi^-$, $K^- + n \rightarrow K^- + \pi^- + p$ interactions at 12.6 GeV/c in bubble chamber for determining cross sections of, (E), 25:9658 (TID-25611)
interactions $K^- \rightarrow \pi^0 + \pi^- + \pi^-$, violation of $\Delta I = 1/2$ rule in, (T), 24:52051
interactions $K^- + \pi^-$ at low energies, cross section for, 24:30456 (CONF-690521-, pp 446-76)
interactions $K^- + \pi^-$ from $K^- + d \rightarrow K^- + \pi^- + p + p$ at 5.5 GeV/c, cross section for, (E), 24:42882
interactions $K^- + \pi^-$ from $K^- + n \rightarrow K^- + \pi^- + p$ interactions at 12.6 GeV/c, cross section for elastic, 25:33567
interactions $K^- + \pi^-$ from $K^- + p \rightarrow K^- + p + \pi^- + \pi^+$ interactions at 4.6 and 5.0 GeV/c, total and elastic cross sections for, (E/T), 23:8742
interactions $K^- + \pi^-$, cross section evaluation from $K^- + p \rightarrow K^- + p + \pi^- + \pi^+$ interactions at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, 21:31534
interactions $K^- + t$, multiple-scattering calculation of scattering lengths for, 23:23500
interactions $K^- + \Xi \rightarrow K^- + \Xi$, superconvergence sum rules for U = 0 elastic, 24:13115
interactions $K^- + \Xi^0$, consistency conditions for $\Delta S = 1$ currents from, 22:29703
interactions K- + p in Regge-pole formalism with duality, slopes of angular distributions of elastic, (T), 24:47457
interactions $\pi^0 + K^- \rightarrow K^0 + K^-$, bootstrap constraints from phase contour methods for, 24:8634
interactions $\pi^+ + K^- \rightarrow \pi^+ + K^-$, correlation of meson towers with absence of backward peaks in, 23:42660
interactions with emulsion nuclei at 1.5 GeV/c, general characteristics, production, and decay of hyperfragments from, (E), 21:25244
interactions with neutrons, SU(3) assignments for Y_1^* from, 21:952
interactions with nuclear Colomb field, K^{*-} production in, 21:9742
interactions with protons at 0.79 to 1.22 Bev/c, Y_1^* (1760) production in, (E), 21:885
interactions $\Xi + K^-$, properties of Ω^- bound state in, 21:11773
lifetime relative to K^+, ratio of, 24:8560
mass difference ($K^- - K^0$), electromagnetic, (T), 23:8782
mass difference ($K^- - K^0$), magnitude and sign of, (T), 22:52961
mass difference ($K^+ - K^-$), 22:26548
mass difference ($K^+ - K^-$) current-algebra calculation of, 22:24702
mass difference ($K^+ - K^-$) from Veneziano amplitude for $K + rho \rightarrow K + \omega_1$, 24:40382
mass of, accurate determination from difference in energy between two K^--mesic atomic levels, (E), 23:51859 (UCRL-19251)
mass of, kaonic atom x-ray transition energies for determining, (E), 24:47383 (CONF-690557-(Vol.2), pp 889-95)
mass of, x-ray energy shift from 4f—3d transition in chlorine for determining, (E), 25:28031
production and relative yields from proton reactions with copper and uranium at 8 GeV/c, Cherenkov counter study of, (E), 22:13653 (RPP/H-28)
production from $\gamma + N$ interactions below 6 GeV, magnetic spectrometer and differential gas Cherenkov counter study of excitation functions for, 21:33590
production from $\gamma + p$ interactions, missing-mass spectrometer study of, 21:35250
production from $p + N$ interactions at 10 to 35 GeV/c in beryllium, empirical formulas for, 21:31605 (BNL-11479)
production from $p + p$ interactions at 12.5 GeV/c, spectrometer study of cross sections for, 21:29440
production from proton reactions with aluminum at 70 GeV, (E), 24:15600(T) (ORNL-tr-2266)
production from $\pi + p$ and $p + p$ interactions at high energies, isobar production effects on K^+/K^- ratio from, (T), 22:13768
production in anti $p + p$ two-body annihilations above 200 MeV/c, review of, 23:13086 (ANL/HEP-6812, pp 58-78)
production in cosmic proton reactions with nuclei at 10^{12} to 10^{14} eV in emulsions, (E), 24:35604 (SJC-P-70-2)
production in electron reactions with beryllium, beryllium—iron, and iron at 16 and 18 GeV, yields of, (E), 22:20113
production in $\gamma + p \rightarrow K^+ + K^- + p$ interactions, mass distributions from, 22:48202(R) (BMwF-FBK-68-01)
production in $\gamma + p \rightarrow K^- + Z^{0**}$ interactions at 4 to 6 GeV, (E), 23:1584
production in $\gamma + p$ interactions, (E), 25:25286
production in $K^- + p$ hypercharge-exchange interactions at 4.1 and 5.5 GeV/c, (E), 21:17054
production in meson (π^-) interactions in nuclear emulsions at 17.2 GeV/c, (E), 22:32069
production in $p + N$ interactions at 14 GeV in nuclear emulsions, (E), 21:5355
production in $p + p$ interactions and proton reactions with nuclei at 19.2 GeV/c, spectrometer study of spectra from, (E), 24:35603 (CERN-70-12)
production in $p + p$ interactions at 12.5 GeV/c, cross sections for, (E), 22:39250 (CERN-68-7(Vol.2), pp 262-80)
production in $p + p$ interactions at 12.5 GeV/c, differential cross section for, 22:20128
production in $p + p$ interactions at 14.25 to 70 GeV/c, phenomenological study of inclusive single-particle spectra in triple Regge limit for, (T), 25:59505 (JINR-E2-6031)
production in $p + p$ interactions, thermodynamic model for, 23:3754 (RHEL/R-165)
production in phi decay, spectrometer study of momentum dependence of, (E), 22:24515
production in proton interactions with hydrogen at 200 GeV, empirical estimation of flux of, 24:51923 (TID-25473(Vol.1), pp 397-401)
production in proton reactions with aluminum and beryllium at 70 GeV, yields and differential cross sections for, (E), 25:19906
production in proton reactions with aluminum and beryllium at 70 GeV, Cherenkov counter and spectrometer study of, (E), 25:22678
production in proton reactions with aluminum and beryllium at 10 and 13.3 GeV/c, gas Cherenkov counter and time-of-flight spectrometer study of, (E), 25:25296 (IFVE-SEF-70-38)
production in proton reactions with aluminum at 20 to 70 GeV, scaling law for, (E/T), 23:44598
production in proton reactions with aluminum at 35 to 70 GeV, yields for, (E), 24:28486
production in proton reactions with aluminum at 43, 52, and 70 GeV, (E), 24:5243
production in proton reactions with aluminum at 70 GeV in Serpukhov synchrontron, 23:23595
production in proton reactions with aluminum at 70 GeV, gas Cherenkov counter study of, (E), 24:3519
production in proton reactions with aluminum below 70 GeV, forward-angle, (E), 23:51849 (IFVE-SEF-69-18)
production in proton reactions with aluminum-27 at 70 GeV, peripheral, (E/T), 24:37806
production in proton reactions with beryllium at 200 GeV empirical estimation of fluxes for, 24:51924 (TID-25473(Vol.1), pp 403-16)
production in proton reactions with copper and uranium at 8 GeV/c, (E), 22:22309
production in $\pi^- + p$ interactions at 8.5 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25:22702
production of 1.2- to 1.9-GeV/c separated beams of, design and construction of facilities for, 21:4151 (UCRL-17018)
production of beams of, from electron interactions with beryllium targets at 16 to 18 GeV, 21:17230
production of intermediate-energy beams of, in ZGS proton area, 21:40300 (COO-1195-96)
production of $K^+ - K^-$ pairs in $\pi^- + p$ interactions at 6.0 GeV/c in hydrogen bubble chamber, (E), 23:42568
production of $K^+ - K^-$ pairs in $e + e \rightarrow 2e + K^+ + K^-$ and $e^+ + e^- \rightarrow e^+ + e^- + K^+ + K^-$ interactions in colliding beams, (T), 25:53048 (DESY-71/30)
production of K^-—K^+ pairs in $e + e \rightarrow e + e + K^- + K^+$ interactions at 2 and 3 GeV, numerical calculations with two-photon exchange and double Williams—Weizsacker approximation for, 24:3566
production of K^+—K^- pairs in $e^+ + e^- \rightarrow K^- + K^+$ interactions at 2 x 590 to 2 x 670 MeV, efficiency and background for, (E), 25:47709 (NP-18932)
production of K^+—K^- pairs in $\pi^+ + p \rightarrow \pi^+ + p + K^+ + K^-$ interactions at 13.1 GeV/c in hydrogen bubble chamber, (E), 25:40879 (COO-1428-273)
reactions (K^-,f) with bromine and silver nuclei in nuclear emulsions at 1.5 GeV/c, (E), 24:13370
reactions (K^-,$A\pi^-$) with helium-4, multiple-impulse approximation for analysis of, (T), 24:37816
reactions (K^-,π^0) with helium-4 in helium bubble chamber, A-H^4 range from, (E), 21:44287
reactions at rest in emulsions, hyperfragment binding energy determinations from, (E), 21:4208
reactions in emulsions at 0.8 to 3.5 GeV/c, A potential well depth determination from, 21:44280
reactions with aluminum, beryllium, and carbon at 3.5 GeV/c, cross sections for, (E), 22:48230
reactions with bromine and silver at 10 GeV/c in nuclear emulsions, lithium-8 evaporation in, (E/T), 22:37335
reactions with bromine and silver nuclei at 800 MeV/c in emulsions, heavy hypernuclei production in, (E), 22:24564
reactions with bromine, carbon, and fluorine at 10 GeV/c in bubble chamber, $K^-\pi^+\pi^-$ system coherent production and total cross sections for $K^-\pi^+\pi^- + N$ interactions in, (E), 25:19910 (LAL-1242)
reactions with carbon at 0.6 to 2.65 GeV/c, total cross sections for, (E), 22:26567
reactions with carbon in diamond-loaded emulsion, Σ^+, Σ^-, and charged $\Sigma\pi$-pair production in, (E), 23:34541
reactions with carbon-12, nitrogen-14, and oxygen-16 in nuclear emulsions, hyperfragment production in, (T), 21:13821
reactions with chlorine, sulfur, and zinc at low energies, x-ray spectra of Σ hyperonic atoms from, (E), 25:1419
reactions with deuterium and helium at rest, review of production of Λ and Σ in, (E), 24:47379 (CONF-690557-(Vol.1), pp 451-85)
reactions with emulsion nuclei at 1.5 GeV/c, hyperfragment production in, (E), 21:9956 (DESY-66/23)
reactions with emulsion nuclei at 1.5 GeV/c, mass estimates of short-range hyperfragments from, (E), 21:4239
reactions with emulsion nuclei at 10.1 GeV/c, production of hypernuclei from, (E), 23:32910
reactions with emulsion nuclei at 3.0 and 5.0 GeV/c, helium-8 production from, (E), 22:3255
reactions with emulsion nuclei at 800 MeV/c, heavy hyperfragment production from, (E), 22:50288 (JEN-193-DF/I-57)
reactions with emulsion nuclei at 800 MeV/c, spallation model for hyperfragment production in, (T), 22:27253
reactions with emulsion nuclei at rest, A-^9Be and A-^6Li resonant state production from, (E), 21:29891
reactions with emulsion nuclei at rest, production and decay of A-Li^4 and A-Be^8 in, (E), 25:14573
reactions with emulsion nuclei, hyperfragment and lithium-8 fragment production in, (E), 22:24548
reactions with emulsion nuclei, mass estimates of nonmesically decaying short-range hyperfragments from, (E), 21:9966
reactions with freon at rest in bubble chamber, production of A-H^3 and A-H^4 in, (E), 24:47371 (CONF-690557-(Vol.1), pp 438-50)
reactions with heavy emulsion nuclei at 1.5 and 3.5 GeV/c, emission of lithium-8 fragments in, (E), 25:14978
reactions with heavy nuclei at 3, 5, and 10.1 GeV in emulsions, lithium-8 production from, (E/T), 23:14981
reactions with heavy nuclei in emulsions at 800 MeV/c, production and decay of hyperfragments in, (E/T), 23:3761
reactions with helium at rest in bubble chamber, properties of A—H^3, A—He^4, and A—H^4 produced in, (E), 24:32968
reactions with helium-4 at 100 to 200 MeV/c in helium bubble chamber, differential elastic and total inelastic cross sections for, (E), 25:22969
reactions with helium-4 at 440 to 630 MeV, double strangeness exchange in, 24:24391 (JINR-P2-5028)
reactions with helium-4 at rest and in flight in helium bubble chamber, Σ^- and Σ^+ production from, (E), 25:22696
reactions with helium-4 at rest in bubble chamber, branching ratio for final states in, 24:32971
reactions with helium-4 at rest in helium bubble chamber, A-H^4 and A-He^4 production rates in, (E), 24:47370 (CONF-690557-(Vol.1), pp 403-37)
reactions with helium-4 at rest in helium bubble chamber, A—He^3 production rates in, (E), 24:47378 (CONF-690557-(Vol.1), pp 368-402)
reactions with helium-4 at rest in helium bubble chamber, branching ratios, multinucleon K^- capture fraction, and Σ conversion probability in, (E), 24:47382 (CONF-690557-(Vol.2), pp 862-84)
reactions with helium-4 at rest, impulse approximation for hadron production in, (T), 24:47465 (CONF-690557-(Vol.1), pp 493-520)
reactions with helium-4 at rest, impulse model calculations of Σ conversion in, 22:35019
reactions with helium-4 in bubble chamber, cross sections and distributions for $\Lambda\pi^-$ production in, (E), 24:40273
reactions with helium-4 in helium bubble chamber, A-He^3 hyperfragment production and lifetime from, (E), 22:22324
reactions with helium-4, scattering length from K-mesic helium-4, 23:41946
reactions with lead at 3.05 GeV/c, total cross sections for, (E), 21:42256
reactions with light nuclei, pair absorption model for, 22:29721
reactions with matter, energy straggling distributions in, 22:24765
reactions with neon at 5.5 and 12.7 GeV/c in bubble chamber, $K^-\pi^+\pi^-$ system coherent production and total cross sections for $K^-\pi^+\pi^- + N$ interactions in, (E), 25:19910 (LAL-1242)
reactions with neon at rest in bubble chamber, conversion electron pairs from nuclei excitation in, (E), 25:10012
reactions with neon at rest in bubble chamber, Λ^0 hyperfragment formation, single and multinucleon absorption rates, Σ—A conversion, and general systematics of, (E), 24:20077 (TID-25360)
reactions with neon at rest, hyperon and hyperfragment production in, (E), 25:47749
reactions with nuclei at 0 to 5 GeV/c in emulsions, rates for hyperfragment production from, (E), 25:38655
reactions with nuclei at 1.5 and 3.5 GeV/c, Monte Carlo calculation of lifetime of heavy hyperfragments from, 24:42991
reactions with nuclei at 1.5 GeV/c in emulsions, binary hyperfragment production from, (E), 22:17877
reactions with nuclei at 1.5 GeV/c in emulsions, hyperfragment and strange particle production in, (E), 24:10684
reactions with nuclei at 1.5 GeV/c in emulsions, hammer tracks of helium-8 fragments from, (E), 22:15688
reactions with nuclei at 1.5 GeV/c in emulsions, very short-range hyperfragment production in, (E), 22:32066
reactions with nuclei at 1.5 to 10.1 GeV/c in emulsions, Monte Carlo calculations for double production of lithium-8 in, (E/T), 24:37624
reactions with nuclei at 1.5, 3.0, 5.0, and 10.1 GeV/c, hyperfragment production in, (E), 23:8754
reactions with nuclei at 10.8 and 18.0 GeV/c, absorption cross sections for, (E), 21:37697 (BNL-11598)
reactions with nuclei at 10.8 and 18.0 GeV/c, absorption cross sections for, (E), 21:37697 (BNL-11598)
reactions with nuclei at 3.0 GeV/c in emulsions, hyperfragment production in, (E), 25:5277
reactions with nuclei at 3.0 to 10.1 GeV/c in emulsions, double hyperfragment production and decay from, (E), 22:13664
reactions with nuclei at 3.5 GeV/c, cross sections for, (E), 21:46482 (COO-1195-99)

reactions with nuclei at 40 GeV/c, absorption cross sections for, (E), 24:1511
reactions with nuclei at 5.5 to 12.7 GeV/c in bubble chamber, Q^-—N total cross section determination from $K^-\pi^+\pi^-$ system production in, (E), 24:51979
reactions with nuclei at 5.5 to 12.7 GeV/c in heavy-liquid bubble chamber, K(890) and Q coherent production in two-, three-, four-, and five-meson states from, (E), 25:33551 (LAL-1244)
reactions with nuclei at 5.5 to 12.7 GeV/c, total cross sections for Q^- + N interaction from coherent production of Q^- in $K\pi\pi$ final states from, 25:47756
reactions with nuclei at 6 GeV/c in emulsions, production of Ξ-B^{11} and $\Lambda\Lambda$-C^{11} from, (E), 24:47381 (CONF-690557-(Vol.2), pp 758-75)
reactions with nuclei at 6 GeV/c in emulsions, production of $\Lambda\Lambda$-C^{11} and Ξ-B^{11} from, (E), 25:22688 (JEN-217-IFIC/I-4)
reactions with nuclei at 6 GeV/c in emulsions, spallation model for hypernuclei production from, (E/T), 22:5508
reactions with nuclei at rest and 1.5 GeV/c in emulsions, A binding energy in Z > 4 hyperfragment production from, (E), 23:14965
reactions with nuclei at rest in emulsions, Λ-He^3 hyperfragment decay mode determination from, (E), 22:34848 (NP-17481)
reactions with nuclei at rest in emulsions, production of (Σ^-n) bound state from, (E), 22:7450
reactions with nuclei at rest in emulsions, search for Λ—He^{5*}, Λ—Li^4, and Λ—Be^{9*} production in, (E), 24:32964
reactions with nuclei in emulsions at 1.5 GeV/c, fragment and hyperfragment production in, (E), 23:13043
reactions with nuclei, production of Ξ-Z hyperfragments in, 23:10831
reactions with nuclei, study of nuclear properties by, 25:25813
reactions with oxygen-16, coupled-channel calculations of total cross sections of unitary analog state Λ-O^{16} produced from, (T), 24:47475 (CONF-690557-(Vol.2), pp 885-8)
scattering by helium-4 at 100 to 150 MeV/c, differential cross sections for elastic, (E), 24:24247
scattering by helium-4 at 115 to 160 MeV/c in helium bubble chamber, differential cross sections and scattering lengths for elastic, (E/T), 25:9969
scattering by helium-4 at 150 to 200 MeV/c, total cross sections for inelastic, (E), 24:24247
scattering by neon at 65 to 240 MeV/c in bubble chamber, angular distributions and cross sections for elastic, (E), 25:22690 (TID-25667)
scattering by neon at 65 to 240 MeV/c, angular distribution and cross sections for elastic, (E), 25:47749
scattering inelastically in air, water, and nuclear emulsions of cosmic, cross sections for, (T), 22:22299
selection from 900-MeV/c $K^-\pi^-$ beam, design and performance of Cherenkov detector time-of-flight telescope for, 23:43593
separation of beams at 1.5 to 2.5 GeV, traveling wave separator for, 25:50460
MESONS (K^o)
angular distribution from $K^+ + n \rightarrow K^o + p$ interactions on beryllium-9 at 0.970 GeV/c, (E), 22:11598
content of, in neutral kaon beam, (T), 25:27424
correlation experiments with K^o pairs, interference of K_1^o and K_2^o decays in, 21:11764
coupling constants for, SU(3) x SU(3) charge algebra and PCAC and PCVC hypotheses for sum rules for f/sub K^o//f/sub K^+/, (T), 24:45572
CP violation in (K^o - anti K^o) system with octet or nonet W mediation, 24:10794
CP violation in (K^o—anti K^o) system, second-order weak effect for parameters of, (T), 25:59540
CP violation in K^o - anti K^o system, review of parameters for, (E), 25:30925
CP violation in K^o—anti K^o system, 21:46556 (CERN-67-27)
CP violation in K^o—anti K^o system, model for, 25:47813
CP violation in system of, proposed experiment for more precise measurement of eta/sub + -/ phase for, (E), 25:38764
CPT violation in K^o—anti K^o complex, tests of, (E), 24:43000
decay anti $K^o \rightarrow \mu^- +$ anti $\tau + \pi^+$, difference in spectra from $K^o \rightarrow \mu^+ + \tau + \pi^-$ decay, 22:13821
decay anti $K^o \rightarrow \pi^+ + e(\mu^-) +$ anti $\tau + \gamma$, soft-pion theorems for leading terms in matrix elements for photon spectra and rate for, 24:13020
decay anti $K^o \rightarrow \pi^- + e^+ + \tau$, phenomenological analysis of CP violation in, 21:46505 (NEVIS-163)
decay anti $K^o \rightarrow \pi^- + l^+ + \tau$, rates for $\Delta S = -\Delta Q$, 22:17917
decay anti $K_2^o \rightarrow \pi^+ + e^-$ + anti τ, phenomenological analysis of CP violation in, 21:46505 (NEVIS-163)
decay in bubble chambers, design and performance of template for vertex determination in, 21:19953
decay in hydrogen bubble chamber, test of $\Delta S = \Delta Q$ rule from leptonic, (E), 22:20120
decay $K^o \rightarrow 2\gamma$, CP violation in, 21:42415
decay $K^o \rightarrow 2\gamma$, phenomenological description of, 23:8828
decay $K^o \rightarrow 2\gamma$, rates of, (T), 21:4013 (JINR-P2-2954)
decay $K^o \rightarrow 2\gamma$, spark chamber and scintillation counter study of branching ratio for, (E), 25:1385 (SLAC-125)
decay $K^o \rightarrow 2\gamma$, time dependence of asymmetry relative to anti $K^o \rightarrow 2\gamma$, 23:8828
decay $K^o \rightarrow 2\pi + 2\gamma$ in current algebra, branching ratio for, 25:9738
decay $K^o \rightarrow 2\pi$ (I = 2) amplitudes and CP violation, 22:3357
decay $K^o \rightarrow 2\pi$ from $e^+ + e^- \rightarrow$ phi $\rightarrow K^o +$ anti K^o interactions, measurement of CP violating parameters in, 23:39772
decay $K^o \rightarrow 2\pi$ in chiral vector meson model, proof of $\Delta I = 1/2$ rule from, 23:25672
decay $K^o \rightarrow 2\pi$, breakdown of T and CPT invariance in, 23:25665 (CERN-69-7, pp 307-8)
decay $K^o \rightarrow 2\pi$, calculation of Re epsilon for K^o-anti K^o system from CP violation in, 24:13132
decay $K^o \rightarrow 2\pi$, chiral symmetric gauge field model for, 25:30810
decay $K^o \rightarrow 2\pi$, consequences of unitarity in models of CP violation for, 24:37839
decay $K^o \rightarrow 2\pi$, CP invariance for, 22:39347
decay $K^o \rightarrow 2\pi$, CP invariance for, 23:25673
decay $K^o \rightarrow 2\pi$, CP invariance in, 22:11702
decay $K^o \rightarrow 2\pi$, CP invariance, unitarity, and isospin analysis of amplitudes of, (T), 24:5279
decay $K^o \rightarrow 2\pi$, CP nonconservation correlation with regeneration in, 24:49427
decay $K^o \rightarrow 2\pi$, CP violating parameters in current—current model for, 23:13116
decay $K^o \rightarrow 2\pi$, CP violation from branching ratio for, (E), 25:14530
decay $K^o \rightarrow 2\pi$, CP violation in particle-mixture models for, 24:15626 (INP-681, pp 46-58)
decay $K^o \rightarrow 2\pi$, CP violation in, (E/T), 22:39344
decay $K^o \rightarrow 2\pi$, CP violation in, (T), 24:28575 (SU-1206-219)
decay $K^o \rightarrow 2\pi$, CPT and T invariance for, 22:13811 (JINR-P2-3622)
decay $K^o \rightarrow 2\pi$, CPT invariance test for, (T), 23:44691
decay $K^o \rightarrow 2\pi$, current—current models for ratio of CP-nonconserving parameters for, 23:21087
decay $K^o \rightarrow 2\pi$, dynamical model for, 21:23324 (NP-16681)
decay $K^o \rightarrow 2\pi$, $\Delta I = {}^1/_2$ rule for branching ratio for, 21:27348
decay $K^o \rightarrow 2\pi$, effect of electromagnetic C violation of CP violating parameter for, 24:2323
decay $K^o \rightarrow 2\pi$, Feynman diagrams for electromagnetic mass shift ($\pi^+ - \pi^o$) for CP nonconserving parameters in, (T), 24:18255
decay $K^o \rightarrow 2\pi$, graphical representation of CP violating parameters in, 24:28578
decay $K^o \rightarrow 2\pi$, interference effects of K_1^o—K_2^o overlap on CP violation in, 25:17540
decay $K^o \rightarrow 2\pi$, limit on time reversal invariance in, (T), 23:44689
decay $K^o \rightarrow 2\pi$, meson (π) phase shifts for, (T), 21:21189
decay $K^o \rightarrow 2\pi$, model for CP violation in, 22:5624
decay $K^o \rightarrow 2\pi$, model for CP violation in, 24:10704
decay $K^o \rightarrow 2\pi$, phenomenological analysis of invariance in, 24:28577
decay $K^o \rightarrow 2\pi$, phenomenology of, 22:1418 (JINR-P2-3513)
decay $K^o \rightarrow 2\pi$, quark model for parity-violating, 21:18960
decay $K^o \rightarrow 2\pi$, relation between parameters for CP violation in, (T), 23:3784
decay $K^o \rightarrow 2\pi$, review of CP violation in, (T), 25:9828
decay $K^o \rightarrow 2\pi$, review on CP violation in, 24:22000
decay $K^o \rightarrow 2\pi$, review on CPT invariance in, 22:48344
decay $K^o \rightarrow 2\pi$, superweak interaction and TCP invariance for, 25:14761
decay $K^o \rightarrow 2\pi$, T invariance violation in, (T), 24:45559
decay $K^o \rightarrow 2\pi$, T violation in CP-violating, 22:53005
decay $K^o \rightarrow 2\pi$, test of CPT invariance in, (T), 22:44469
decay $K^o \rightarrow 2\pi$, time reversal nonconservation in, 23:16979
decay $K^o \rightarrow 2\pi$, unitarity and CPT invariance for parameters of, (T), 22:41834
decay $K^o \rightarrow 2\pi$, unitarity for CP violation parameters for, (T), 25:38765
decay $K^o \rightarrow 2\pi$, unitary sum rule and CPT violation for, 23:1668
decay $K^o \rightarrow 2\pi^o$, CP violation and phase angle for, 23:36975
decay $K^o \rightarrow 2\pi^o$, method for bubble chamber particle track analysis of, 24:29566 (KFKI-70-8-HEP)
decay $K^o \rightarrow 2\pi^o$, phase and modulus of eta_{+0} for, (E), 23:25666 (CERN-69-7, pp 309-27)
decay $K^o \rightarrow 2\pi^o$, review of amplitude ratios for, 22:20198 (CONF-670211-, pp 6-33)
decay $K^o \rightarrow 2\pi^o$, upper limit for K_2^o/K_1^o ratio for, (E) 23:27739
decay $K^o \rightarrow 3\pi$, CP conserving P-wave amplitudes in, 24:10691(R) (COO-264-532)
decay $K^o \rightarrow 3\pi$, CP violation in, 21:25332
decay $K^o \rightarrow 3\pi$, $I = {}^1/_2$ rule and CP conservation in, (T), 25:22867
decay $K^o \rightarrow 3\pi$, I = J = 0 dipion state (400 MeV) with CDD pole for, 21:17097
decay $K^o \rightarrow 3\pi$, interference effects in, (T), 23:13069
decay $K^o \rightarrow 3\pi$, isospin analysis of possible CP violating effects in, 22:3349
decay $K^o \rightarrow 3\pi$, isotopic spin analysis of CP violating effects in, 22:1464 (N-67-22464)
decay $K^o \rightarrow 3\pi$, magnetic spectrometer—spark chamber system study of $\Delta S = \Delta Q$ rule and CP violation in, (E), 24:40240 (COO-1195-187)
decay $K^o \rightarrow 3\pi$, pion pole model for branching ratios of, (T), 23:8780
decay $K^o \rightarrow 3\pi$, Regge theory for final-state interactions in, (T), 23:8801
decay $K^o \rightarrow 3\pi^o$ at rest in heavy-liquid bubble chamber, energy dependence of matrix elements for, (E/T), 24:37612 (LAL-1232)
decay $K^o \rightarrow$ anti l + l, consequences of γ_5 invariance for, (T), 23:3697
decay $K^o \rightarrow e + \pi + \tau$, performance of Cherenkov detector for studying time dependence of, 25:2489
decay $K^o \rightarrow e + \pi + \tau$, test of $\Delta S = \Delta Q$ rule in spark chamber study of, (E), 24:15461 (UCSD-10-P-10-107)
decay $K^o \rightarrow e^- + \pi^+$ + anti τ in spark chamber, test of $\Delta S = \Delta Q$ rule in, (E), 23:21047
decay $K^o \rightarrow e^+ + \pi^- + \tau$ in spark chamber, test of $\Delta S = \Delta Q$ rule in, (E), 23:21047
decay $K^o \rightarrow e^+(e^-) + \tau + \pi$, test of $\Delta S = \Delta Q$ rule in, (E), 22:39455
decay $K^o \rightarrow e^+(e^-) + \pi^-(\pi^+) + \tau$ following regeneration in copper at 2.5 GeV/c, charge asymmetry in, (E), 22:39246
decay $K^o \rightarrow e^{+-} + \tau + \pi^{-+} + \gamma$, verification of time reversal invariance in, (T), 24:10800
decay $K^o \rightarrow \gamma + \gamma$ and $K^o \rightarrow \pi^+ + \pi^- + \gamma$, CP-violating interference effects in, (E/T), 22:3488
decay $K^o \rightarrow \gamma + \gamma$, CP violation in, 25:45784
decay $K^o \rightarrow K^+ + e + \tau$, electromagnetic corrections to weak $\Delta S = 0$ vector coupling constant for, 21:25265
decay $K^o \rightarrow K^+ + e^-$ + anti τ, electron mass for rates of, 21:909
decay $K^o \rightarrow K^- + e^+ + \tau$, SU(3) symmetry theory for, 22:5620
decay $K^o \rightarrow \mu + e + \tau$, charge asymmetry in, (T), 22:32096
decay $K^o \rightarrow \mu^+ + \mu^-$, CP violation in strong cubic intermediate vector boson model for, 23:36971
decay $K^o \rightarrow \mu^+ + \tau + \pi^-$, difference in spectra from anti $K^o \rightarrow \mu^-$ + anti $\tau + \pi^+$ decay, (T), 22:13821
decay $K^o \rightarrow \pi + e + \tau$ in extended Cabibbo model, prediction of Re epsilon from, 23:8792
decay $K^o \rightarrow \pi + e + \tau$ in spark chamber, time dependence of, (E), 21:25227
decay $K^o \rightarrow \pi + e + \tau$, angular distributions and energy spectra for, (E), 21:11733
decay $K^o \rightarrow \pi + e + \tau$, charge asymmetry in, (T), 22:32096
decay $K^o \rightarrow \pi + e + \tau$, $\Delta S = \Delta Q$ rule and charge asymmetry in, 25:47922
decay $K^o \rightarrow \pi + e + \tau$, energy dependence of form factor in, (E), 21:15257
decay $K^o \rightarrow \pi + e + \tau$, form factor variation from spectra of, (E), 21:37653(R) (UCLA-34-P-106-1)
decay $K^o \rightarrow \pi + e + \tau$, radiative corrections to Dalitz plot for, 22:44391
decay $K^o \rightarrow \pi + e + \tau$, regeneration phase at 2.2 GeV/c in copper and phase of CP-violating amplitude from spark chamber spectrometer study of e^+—e^- asymmetry in, (E), 24:37833 (PURC-2137-23)
decay $K^o \rightarrow \pi + e + \tau$, spark chamber spectrometer study of CP violation and $\Delta S = \Delta Q$ rule in amplitude asymmetry of regenerated, (E), 25:22864
decay $K^o \rightarrow \pi + e + \tau$, test of $\Delta S = \Delta Q$ rule and time reversal invariance in spark chamber study of, (E), 25:45783
decay $K^o \rightarrow \pi + e + \tau$, test of $\Delta S = \Delta Q$ rule in spark chamber study of, (E), 25:14538
decay $K^o \rightarrow \pi + e + \tau$, test of $\Delta S = \Delta Q$ rule in spark chamber study of time distribution of, (E), 24:40239 (CALT-68-251)
decay $K^o \rightarrow \pi + e + \tau$, test of $\Delta S = \Delta Q$ selection rule in optical spark chamber study of, (E), 25:25292 (COO-1195-210)
decay $K^o \rightarrow \pi + e + \tau$, time dependence of, (E), 21:35254 (NYO-2171-201)
decay $K^o \rightarrow \pi + e + \tau$, upper limit for leptonic charge asymmetry in, (E), 24:30436 (NEVIS-179)
decay $K^o \rightarrow \pi + l + \gamma$, constants in equation for time rate of, 22:32094 (UCID-2885)
decay $K^o \rightarrow \pi + l + \tau$ from $e^+ + e^- \rightarrow$ phi $\rightarrow K^o +$ anti K^o interactions, measurement of CP violating parameters in, 23:39772
decay $K^o \rightarrow \pi + l + \tau$, $\Delta S = \Delta Q$ rule from time distribution of, (E), 25:14533
decay $K^o \rightarrow \pi + l + \tau$, magnetic spectrometer—spark chamber system study of $\Delta S = \Delta Q$ rule and CP violation in, 24:40240 (COO-1195-187)
decay $K^o \rightarrow \pi + l + \tau$, spark chamber study of branching ratio, Dalitz plot distributions, and form factors of, (E), 25:33530
decay $K^o \rightarrow \pi + l + \tau$, unitarity for CP violation parameters for, (T), 25:38765
decay $K^o \rightarrow \pi + l + \tau$, violation of $\Delta S = \Delta Q$ rule and CP invariance in, 23:25671
decay $K^o \rightarrow \pi + l(\pi) + \tau(\gamma)$, test of $\Delta S = \Delta Q$ rule in time distribution of, (T), 25:36457
decay $K^o \rightarrow \pi + \mu + \tau$, interference between K_1^o and K_2^o in, 21:21164
decay $K^o \rightarrow \pi + \mu + \tau$, μ polarization in, (E), 23:25499 (AD-677064)
decay $K^o \rightarrow \pi + \mu + \tau$, radiative corrections to Dalitz plot for, 24:24321
decay $K^o \rightarrow \pi + \mu + \tau$, spark chamber study of branching ratio, Dalitz plot distributions, and form factors of, (E), 25:33530
decay $K^o \rightarrow \pi + \mu + \tau$, test of $\Delta S = \Delta Q$ rule in spark chamber study of, (E), 25:25290 (COO-1195-208)
decay $K^o \rightarrow \pi + \mu + \tau$, test of $\Delta S = \Delta Q$ selection rule and CP invariance in, (E), 25:25288 (COO-1195-206)
decay $K^o \rightarrow \pi + \pi + e^+ + e^-$, branching ratios for, 24:12999
decay $K^o \rightarrow \pi + \pi + \pi + e^+ + \tau$, PCAC hypothesis and SU(3) current algebra for form factors for, 22:24622
decay $K^o \rightarrow \pi + \pi$, $\pi\pi$ phase shifts from, (E/T), 24:30434 (CONF-690521-, pp 413-38)
decay $K^o \rightarrow \pi^o + e^+ + \tau$, branching ratio and positron momentum spectrum for, (E), 23:3637
decay $K^o \rightarrow \pi^o + l^+ + l^-$, CP-conserving, 22:15828
decay $K^o \rightarrow \pi^o + \mu^+ + \tau$ at rest in freon bubble chamber, Dalitz plot analysis and four-momentum dependence of form factors for, (E), 23:46602
decay $K^o \rightarrow \pi^o + \pi^o + \pi^o$, probability for, (E), 21:13674 (JINR-P1-3098)
decay $K^o \rightarrow \pi^o + \pi^o + \pi^o$, violation of $\Delta I = 1/2$ rule in, 25:47808
decay $K^o \rightarrow \pi^o + \pi^o$ in spark chamber, interference between K_1^o and K_2^o components in time dependence of, (E), 23:21046
decay $K^o \rightarrow \pi^o + \pi^o$, conservation laws and selection rules in, 22:3484 (LPTHE-TH-204)
decay $K^o \rightarrow \pi^o + \pi^o$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))

decay $K^0 \to \pi^0 + \pi^0$, general theoretical framework for CP violation in, 22:20296 (CONF-670211-, pp 1-5)
decay $K^0 \to \pi^0 + \pi^0$, K_1^0 and K_2^0 interference in, (E), 25:56407
decay $K^0 \to \pi^0 + \pi^0$, phase of CP violation parameters from CPT and T invariance in, 24:30548
decay $K^0 \to \pi^0 + \pi^0$, quark model for, 21:37816
decay $K^0 \to \pi^0 + \pi^- + l^+ + \nu$, π—π phase shifts and form factors from, (T), 22:44400
decay $K^0 \to \pi^+ + e^-$ + anti ν, K_1^0 and K_2^0 nonorthogonality from phenomenological analysis of CP nonconservation in, 21:46571
decay $K^0 \to \pi^+ + e^-$ + anti ν, phenomenological analysis of CP violation in, 21:46505 (NEVIS-163)
decay $K^0 \to \pi^+ + e^-$ + anti ν, rates for $\Delta S = -\Delta Q$, 22:17917
decay $K^0 \to \pi^- + e^+ + \nu$, counter—spark-chamber study of test of $\Delta Q = \Delta S$ rule and CP invariance in, (E), 25:47924
decay $K^0 \to \pi^- + e^+ + \nu$, K_1^0 and K_2^0 nonorthogonality from phenomenological analysis of CP nonconservation in, 21:46571
decay $K^0 \to \pi^- + e^+ + \nu$, phenomenological analysis of CP violation in, 21:46505 (NEVIS-163)
decay $K^0 \to \pi^- + e^+ + \nu$, SU(3) symmetry theory for, 22:5620
decay $K^0 \to \pi^- + e^+ + \nu$, SU(3) theory for, 22:5622
decay $K^0 \to \pi^- + e^+ + \nu$, test of $\Delta S = \Delta Q$ rule and CP violation for, 21:35256
decay $K^0 \to \pi^- + l^+ + \nu$, calculation of electromagnetic T-violating effects in, 22:32190
decay $K^0 \to \pi^- + l^+ + \nu$, contributions of $\Delta S = -\Delta Q$ amplitudes to, 23:32680
decay $K^0 \to \pi^+ + l^- + \nu$, contributions of $\Delta S = -\Delta Q$ amplitudes to, 23:32680
decay $K^0 \to \pi^- + l^+ + \nu$, phenomenological analysis for CP-violating parameters in, (T), 24:52162
decay $K^0 \to \pi^- + \mu + \nu$/sub mu/, SU(3) theory for, 22:5622
decay $K^0 \to \pi^- + \mu^+ + \nu$, spark chamber study of μ^+ total polarization from, (E), 21:42254
decay $K^0 \to \pi^- + \mu^+ + \nu$, T-odd correlation and π electromagnetic form factor in, (T), 21:42325 (ITEF-492)
decay $K^0 \to \pi^- + \mu^+ + \nu$, T-odd correlation and π electromagnetic form factor in, 22:5554
decay $K^0 \to \pi^- + \mu^+ + \nu$, test of $\Delta S = \Delta Q$ rule from μ^+ transverse polarization in, 25:14642
decay $K^0 \to \pi^- + \mu^+ + \nu$, time dependence of μ polarization vector and $\Delta S = \Delta Q$ violation in, 25:53127
decay $K^0 \to \pi^- + \mu^+ + \nu$/sub τ/, SU(3) symmetry theory for, 22:5620
decay $K^0 \to \pi^- + \pi^0 + \pi^0 + e^+ + \nu$/sub e/, PCAC and current algebra for form factors for, 21:31570
decay $K^0 \to \pi^+ + \pi^- + \pi^0$ from $K^+ + d \to K^0 + p + p$ interactions, (E), 25:30723
decay $K^0 \to \pi^+ + \pi^- + \pi^0$, charge asymmetry in, (T), 22:5556
decay $K^0 \to \pi^+ + \pi^- + \pi^0$, electromagnetic corrections to, 22:48259
decay $K^0 \to \pi^+ + \pi^- + \pi^0$, isospin selection rules and CP invariance for charge asymmetry in, (T), 22:7537 (ITEF-516)
decay $K^0 \to \pi^+ + \pi^- + \pi^0$, probability for, (E), 21:13674 (JINR-P1-3098)
decay $K^0 \to \pi^+ + \pi^- + \pi^0$, search for CP violation in time distribution of, (E), 25:14762
decay $K^0 \to \pi^+ + \pi^- + \pi^0$, search for CP violation in, (E), 25:33795
decay $K^0 \to \pi^+ + \pi^- + \pi^0$, spark chamber study of branching ratio for, (E), 25:25291 (COO-1195-209)
decay $K^0 \to \pi^+ + \pi^- + \pi^0$, violation of $\Delta I = 1/2$ rule in, 25:47808
decay $K^0 \to \pi^+ + \pi^- + \pi^- + e^+ + \nu$/sub e/, PCAC and current algebra for form factors for, 21:31570
decay $K^0 \to \pi^+ + \pi^-$ after regeneration, spark chamber study of time-dependent interference in, (E), 21:42253
decay $K^0 \to \pi^+ + \pi^-$, absolute distinction between particles and antiparticles from K_1^0—K_2^0 interference effects in, 24:15535
decay $K^0 \to \pi^+ + \pi^-$, conservation laws and selection rules in, 22:3484 (LPTHE-TH-204)
decay $K^0 \to \pi^- + \pi^+$, CP invariance in, (T), 21:29605
decay $K^0 \to \pi^- + \pi^+$, CP violation in, (T), 21:29604
decay $K^0 \to \pi^+ + \pi^-$, eigentime distribution for, 25:20144
decay $K^0 \to \pi^+ + \pi^-$, evidence against particle mixture models of CP violation from interference in, (E/T), 23:27841
decay $K^0 \to \pi^+ + \pi^-$, interference between K_1^0 and K_2^0 amplitudes in, (E), 23:25513 (CERN-69-7, pp 329-38)
decay $K^0 \to \pi^+ + \pi^-$, K_1^0—K_2^0 interference effects in, 23:21044 (NP-17758)
decay $K^0 \to \pi^+ + \pi^-$, magnetic spectrometer with spark chamber study of mass difference (K_2^0 - K_1^0) from, (E), 22:34839
decay $K^0 \to \pi^+ + \pi^-$, magnitude and sign of mass difference (K_2^0 - K_1^0) from interference effects in, (E), 22:37073
decay $K^0 \to \pi^+ + \pi^-$, phase of CP violating amplitude for, (E), 22:15668
decay $K^0 \to \pi^+ + \pi^-$, quark model for, 21:37816
decay $K^0 \to \pi^+ + \pi^-$, relative phase of K_1^0 and K_2^0 in, (E/T), 21:27298
decay $K^0 \to \pi^+ + \pi^-$, weak interaction model for, 22:1421
decay $K^0 \to \pi^+(\pi^0) + \pi^-(\pi^0)$ in freon bubble chamber, branching ratio, $\pi\pi$ phase shift difference, and $\Delta I > 1/2$ transitions for, (E), 25:22666
decay $K^0 \to \pi^+(\pi^0) + \pi^-(\pi^0)$, CP violation in $K_1^0 \to 2\pi$ and $K_2^0 \to 2\pi$ decay interference from spark chamber study of proper time dependence of, (E), 25:12079
decay $K^0 \to \pi^+(\pi^-) + e^-(e^+)$ + anti $\nu(\nu)$, $\Delta S = -\Delta Q$ amplitude from spark chamber study of time distributions of (E), 25:1393
decay $K^0 \to \pi^+(\pi^-) + e^-(e^+) + \nu$, test of $\Delta S = \Delta Q$ rule in spark chamber study of amplitudes of, (E), 25:1383 (COO-1195-195)
decay $K^0 \to \pi^{+-} + e^{-+} + \nu$, probability for, (E), 21:13674 (JINR-P1-3098)
decay $K^0 \to \pi^{+-} + \mu^{-+} + \nu$, probability for, (E), 21:13674 (JINR-P1-3098)
decay $K^0 \to \pi^+\pi^-\gamma$, (E), 21:2350
decay $K^0_2 \to \pi^+ + \pi^-$, calculation of electromagnetic T-violating effects in, 22:32190
decay $K_1^0 \to 2\gamma$, branching ratio for, (E), 23:25500 (AD-679190)
decay $K_1^0 \to 2\gamma$, search for, (E), 25:59264
decay $K_1^0 \to 2\pi$ and $K_2^0 \to 2\pi$, interference in, (T), 24:5279
decay $K_1^0 \to 2\pi$ in pole model, strength of bilinear weak transitions in, 25:3348
decay $K_1^0 \to 2\pi$, broken chiral U(3) x U(3) model for amplitude of, 23:8829
decay $K_1^0 \to 2\pi$, CP invariance from interference effects with $K_2^0 \to 2\pi$ decay, 22:13715
decay $K_1^0 \to 2\pi$, current algebra for octet dominance in amplitude of, 22:5609
decay $K_1^0 \to 2\pi$, current commutators and tadpole mechanism for, 21:40194
decay $K_1^0 \to 2\pi$, dispersion relations, current algebra, and PCAC for, 25:59409
decay $K_1^0 \to 2\pi$, dynamical model for scalar meson properties from, 22:26624
decay $K_1^0 \to 2\pi$, $\Delta I = 1/2$ rule for, 23:39674
decay $K_1^0 \to 2\pi$, gauge-field algebra for divergences in, 21:40169
decay $K_1^0 \to 2\pi$, model with icosuplet weak coupling Hamiltonian for, 21:9761
decay $K_1^0 \to 2\pi$, review of research on, 23:25512 (CERN-69-7, pp 205-23)
decay $K_1^0 \to 2\pi$, S-matrix description of, 23:34595
decay $K_1^0 \to 2\pi$, space—time description in terms of wave packets for interference with $K_2^0 \to 2\pi$ decay in, 24:35640
decay $K_1^0 \to 2\pi$, SU(3) symmetry breaking in amplitude for, 22:3355
decay $K_1^0 \to 2\pi$, theory with CP violation for calculation of rate of, 22:29735
decay $K_1^0 \to 2\pi$, weak isospin space for $K^+ \to 2\pi/K_1^0 \to 2\pi$ ratio for, 21:37771
decay $K_1^0 \to 2\pi^0$ and $K_2^0 \to 2\pi^0$ from regeneration in copper, interference between, (E), 24:30465
decay $K_1^0 \to 2\pi^0$ in covariant quark model, Cabibbo angle, sum rules, and amplitude for, 23:42642
decay $K_1^0 \to 2\pi^0$, model for unitary structure of parity- and strangeness-changing, 22:29674
decay $K_1^0 \to 2\pi^0$, optical spark chamber study of branching ratio for, (E), 25:19897
decay $K_1^0 \to 2\pi^0$, spark chamber study of phase of amplitude relative to $K_2^0 \to 2\pi^0$ for, (E), 24:21920 (LAL-1226)
decay $K_1^0 \to 2\pi^0$, SU(3) model of CP violation in branching ratio for, 24:35679
decay $K_1^0 \to 3\pi$, correlation experiments with K^0anti K^0 pairs for test of CP invariance in, 21:33674
decay $K_1^0 \to 3\pi$, CP conservation in, 21:44344
decay $K_1^0 \to 3\pi$, current algebra deviation from $\Delta I = 1/2$ rule for, 21:40187 (LPTHE-TH-207)
decay $K_1^0 \to \gamma + \gamma$, branching ratio for, (E), 24:18073
decay $K_1^0 \to \gamma + \gamma$, vector-meson exchange contributions to, (T), 25:14606
decay $K_1^0 \to l$ + anti l and $K_2^0 \to l$ + anti l, electromagnetic corrections to, 23:46664
decay $K_1^0 \to \mu^+ + \mu^-$, branching ratio for, (E), 23:18794
decay $K_1^0 \to \mu^+ + \mu^-$, effect of CP nonconservation on branching ratio for, 25:45711
decay $K_1^0 \to \mu^+ + \mu^-$, lower bound for rate of, (T), 24:40336
decay $K_1^0 \to \mu^+ + \mu^-$, rate of, 25:59419
decay $K_1^0 \to \mu^+ + \mu^-$, spark chamber study of branching ratio upper limit relative to $K_1^0 \to$ all decays, (E), 23:14956 (COO-1195-153)
decay $K_1^0 \to \mu^+ + \mu^-$, strong cubic intermediate vector boson model for, 23:25594 (CERN-69-7, pp 371-89)
decay $K_1^0 \to \mu^+ + \mu^-$, upper limits for, (E), 21:17029
decay $K_1^0 \to \pi + l + \nu$, S-matrix description of, 23:34595
decay $K_1^0 \to \pi + \pi$, radiative corrections to, (T), 22:29673
decay $K_1^0 \to \pi + \pi$, real part of amplitudes (A_1/A_0) measurement for, (T), 21:29437
decay $K_1^0 \to \pi^0 + e^+ + e^-$ and $K_1^0 \to \pi^0 + \mu^+ + \mu^-$, branching ratios for, (T), 23:13068
decay $K_1^0 \to \pi^0 + e^+ + e^-$ in vector-meson dominance model, 22:41786
decay $K_1^0 \to \pi^0 + e^+ + e^-$, rate from electromagnetic radius of K^0, (T), 24:52052
decay $K_1^0 \to \pi^0 + e^+ + e^-$, width and branching ratio for, (T), 22:20204
decay $K_1^0 \to \pi^0 + \pi^0 + \gamma$, possible CP-noninvariant effects in, 21:44336
decay $K_1^0 \to \pi^0 + \pi^0$, branching ratio relative to $K_1^0 \to \pi^+ + \pi^- + \gamma$ for, (E), 23:21048
decay $K_1^0 \to \pi^0 + \pi^0$, $\Delta I = 1/2$ rule for branching ratio for, 21:40192
decay $K_1^0 \to \pi^0 + \pi^0$, electromagnetic effects in, 23:42637
decay $K_1^0 \to \pi^0 + \pi^0$, eta-pole effect on branching ratio for, 22:1423
decay $K_1^0 \to \pi^0 + \pi^0$, model for $\Delta T = 3/2$ admixture of, 22:9573
decay $K_1^0 \to \pi^0 + \pi^0$, eta-pole effect on branching ratio for, 22:1423
decay $K_1^0 \to \pi^+ + \pi^-$, electromagnetic effects in, 23:42637
decay $K_1^0 \to \pi^+ + \pi^- + \gamma$, branching ratio relative to $K_1^0 \to \pi^0 + \pi^0$ for, (E), 23:21048
decay $K_1^0 \to \pi^+ + \pi^- + \gamma$, possible CP-noninvariant effects in, 21:44336
decay $K_1^0 \to \pi^+ + \pi^- + \pi^0$ in heavy-liquid bubble chamber, search for, (E), 25:14537
decay $K_1^0 \to \pi^+ + \pi^- + \pi^0$ in hydrogen bubble chamber, (E), 23:16926 (BNL-13279)
decay $K_1^0 \to \pi^+ + \pi^- + \pi^0$, charge asymmetry in, (T), 22:7537 (ITEF-516)
decay $K_1^0 \to \pi^+ + \pi^- + \pi^0$, CP violation in spark chamber study of branching ratio for, (E), 25:25289 (COO-1195-207)
decay $K_1^0 \to \pi^+ + \pi^- + \pi^0$, CP-conserving, 22:15828
decay $K_1^0 \to \pi^+ + \pi^- + \pi^0$, spark chamber study of CP violation in, (T), 25:59259
decay $K_1^0 \to \pi^+ + \pi^- + \pi^0$, vector-meson dominance model for p-wave contributions to, (T), 25:1472
decay $K_1^0 \to \pi^+ + \pi^-$ and $K_2^0 \to \pi^+ + \pi^-$ decays, study of mass difference (K_1^0 - K_2^0) from, (E), 22:26556
decay $K_1^0 \to \pi^+ + \pi^-$ in covariant quark model, Cabibbo angle, sum rules, and amplitude for, 23:42642
decay $K_1^0 \to \pi^+ + \pi^-$ in hydrogen bubble chamber, branching ratio for, (E), 24:18077 (UCRL-18139)
decay $K_1^0 \to \pi^+ + \pi^-$ in hydrogen bubble chamber, branching ratio for, (E), 25:50052 (NEVIS-187)
decay $K_1^0 \to \pi^+ + \pi^-$ relative to $K_1^0 \to \pi^0 + \pi^0$, branching ratio for, (E), 24:5236
decay $K_1^0 \to \pi^+ + \pi^-$ relative to $K^+ \to \pi^+ + \pi^0$, amplitude for, 23:39674
decay $K_1^0 \to \pi^+ + \pi^-$, amplitude predictions in terms of S-wave Λ decay amplitude from relations of mass difference ratios with ratios of S-wave decay amplitudes, 23:39681
decay $K_1^0 \to \pi^+ + \pi^-$, amplitude ratio to $K^+ \to \pi^+ + \pi^0$ for, (T), 22:39345
decay $K_1^0 \to \pi^+ + \pi^-$, C and CP invariance in amplitude of, 22:13813
decay $K_1^0 \to \pi^+ + \pi^-$, contribution of $K_2^0 \to K_1^0$ regeneration at high energies to amplitude interference with $K_1^0 \to \pi^+ + \pi^-$ decay, 23:16957(T) (BNL-tr-243)
decay $K_1^0 \to \pi^+ + \pi^-$, $\Delta I = 1/2$ rule for branching ratios for, 21:40192
decay $K_1^0 \to \pi^+ + \pi^-$, intermediate vector model for convergent calculation of nonleptonic, 21:33667
decay $K_1^0 \to \pi^+ + \pi^-$, lifetime from, (E), 22:44313
decay $K_1^0 \to \pi^+ + \pi^-$, model for $\Delta T = 3/2$ admixture of, 22:9573
decay $K_1^0 \to \pi^+ + \pi^-$, model for parity-violating, (T), 25:36465
decay $K_1^0 \to \pi^+ + \pi^-$, model for unitary structure of parity- and strangeness-changing, 22:29674
decay $K_1^0 \to \pi^+ + \pi^-$, optical spark chamber study of branching ratio for, (E), 25:19897
decay $K_1^0 \to \pi^+ + \pi^-$, radiative corrections to, (T), 23:13072
decay $K_1^0 \to \pi^+ + \pi^-$, spark chamber study of K_1^0 lifetime and CP violating parameter phase from, (E), 25:12078
decay $K_1^0 \to \pi^+ + \pi^-$, spark chamber study of phase difference relative to $K_2^0 \to \pi^+ + \pi^-$ decay amplitude, (E), 23:23344
decay $K_1^0 \to \pi^+ + \pi^-$, SU(3) model of CP violation in branching ratio for, 24:35679
decay $K_1^0 \to \pi^+ + \pi^-$, CP violation in, 22:9650
decay $K_1^0 \to 2\gamma$ and $K_2^0 \to 3\pi^0$, bubble chamber measurement of ratio of, (E), 23:3636
decay $K_1^0 \to 2\gamma$ in pole model, strength of bilinear weak transitions in, 25:3348
decay $K_1^0 \to 2\gamma$ relative to $K_2^0 \to 3\pi^0$, branching ratio of, (E), 25:45653
decay $K_1^0 \to 2\gamma$ spark chamber and scintillation counter study of branching ratios for, (E), 25:43531
decay $K_1^0 \to 2\gamma$, branching ratio for, (E), 25:59264
decay $K_1^0 \to 2\gamma$, branching ratio for, (E), 23:25500 (AD-679190)
decay $K_1^0 \to 2\gamma$, CP-violating rate for, 25:59419
decay $K_1^0 \to 2\gamma$, current algebra for branching ratios for, 22:3329
decay $K_1^0 \to 2\gamma$, pole model for, 22:48287
decay $K_1^0 \to 2\gamma$, quark model for rate of, 21:9758
decay $K_1^0 \to 2\gamma$, rate from $K \to 3\pi$ decay amplitude in Veneziano model, (T), 24:45472
decay $K_1^0 \to 2\gamma$, spark chamber study of branching ratio for, (E), 21:46465 (COO-1195-100)
decay $K_1^0 \to 2\gamma$, spark chamber—counter measurement of branching ratio for, (E), 22:48216
decay $K_1^0 \to 2\gamma$, spin-zero pole dominance and hard-meson current algebra for, 25:53103
decay $K_1^0 \to 2\pi$ and $K_1^0 \to 2\pi$, absolute distinction between particles and antiparticles and CP violation in, 21:44340
decay $K_1^0 \to 2\pi$ and $K_1^0 \to 2\pi$, spark chamber study of proper time dependence of $K^0 \to \pi^+(\pi^0) + \pi^-(\pi^0)$ decay for CP violation in interference in, (E), 25:12079
decay $K_1^0 \to 2\pi$, chiral symmetry breaking for, 25:30919
decay $K_1^0 \to 2\pi$, constructive interference between coherent regeneration of K_1^0 and CP-violating, (E), 21:29436
decay $K_1^0 \to 2\pi$, contribution of C-noninvariant γ interactions to, 21:40188 (NP-16949)
decay $K_1^0 \to 2\pi$, CP conservation from complex spin theory for, 21:35327
decay $K_1^0 \to 2\pi$, CP invariance from interference effects with $K_2^0 \to 2\pi$ decay, 22:13715
decay $K_1^0 \to 2\pi$, CP invariance of, 23:21094
decay $K_1^0 \to 2\pi$, CP nonconservation in, 24:49428
decay $K_1^0 \to 2\pi$, CP violation in, 22:13812
decay $K_1^0 \to 2\pi$, CP violation in, 25:47922
decay $K_1^0 \to 2\pi$, CP violation in, 22:9654
decay $K_1^0 \to 2\pi$, CP violation in, 21:46556 (CERN-67-27)
decay $K_1^0 \to 2\pi$, CP violation in spark chamber study of rate for, (E), 25:43657
decay $K_1^0 \to 2\pi$, CP violation in strong cubic intermediate vector boson model for, 23:36971
decay $K_1^0 \to 2\pi$, CP violation model for, 23:49192
decay $K_1^0 \to 2\pi$, CPT violation for, 23:10842

decay $K_2^0 \to 2\pi$, current commutation relations and CP violation in, 21:33679
decay $K_2^0 \to 2\pi$, effect of degenerate neutrino sea on, 25:53122
decay $K_2^0 \to 2\pi$, electromagnetic effects in, 24:13024
decay $K_2^0 \to 2\pi$, existence of abnormal bosons in model of CP violation in, 23:36973
decay $K_2^0 \to 2\pi$, field theory model for CPT nonconservation in, 25:3429
decay $K_2^0 \to 2\pi$, Im($\Delta S = -\Delta Q$) as only source of CP violation in, 24:24415
decay $K_2^0 \to 2\pi$, isospin selection rules for CP-violating, 21:29502
decay $K_2^0 \to 2\pi$, Lipkin—Abashian model for, 25: 53117
decay $K_2^0 \to 2\pi$, meso-strong interaction for CP violation in, 21:35282
decay $K_2^0 \to 2\pi$, model with supplementary particles for K_2^0—K_1^0 interference for test of CP violation in, (T), 25:9827
decay $K_2^0 \to 2\pi$, $\pi + \pi$ scattering phases in T = 0 and T = 2 states at 500 MeV for studying, (E/T), 22: 52921
decay $K_2^0 \to 2\pi$, restriction on CP noninvariance in, (T) , 21:17150
decay $K_2^0 \to 2\pi$, review of CP violation in, 21:31626
decay $K_2^0 \to 2\pi$, review of CP violation in, 23:49183
decay $K_2^0 \to 2\pi$, review of CP-violating $\Delta I = 3/2$ current in, 24:18254
decay $K_2^0 \to 2\pi$, S-matric description of, 23:34595
decay $K_2^0 \to 2\pi$, space—time description in terms of wave packets for interference with $K_1^0 \to 2\pi$ decay in, 24:35640
decay $K_2^0 \to 2\pi$, symmetry of state vectors for probability of, 21:5382
decay $K_2^0 \to 2\pi$, theory with CP violation for calculation of rate of, 22:29735
decay $K_2^0 \to 2\pi$, W = a (chimeron) model for CP-violation in, 22:37176
decay $K_2^0 \to 2\pi$, weak-interaction theories of CP violation in, 24:13133
decay $K_2^0 \to 2\pi^0$ and $K_2^0 \to 3\pi^0$, branching ratio for, (E), 23:7079
decay $K_2^0 \to 2\pi^0$ and $K_2^0 \to 3\pi^0$, branching ratio for, (E), 22:50285 (PPAR-2)
decay $K_2^0 \to 2\pi^0$ and $K_2^0 \to$ all modes, branching ratio for, (E), 22:50285 (PPAR-2)
decay $K_2^0 \to 2\pi^0$ in heavy-liquid bubble chamber, branching ratio of CP-violating, (E), 24:45416
decay $K_2^0 \to 2\pi^0$ relative to $K_1^0 \to 2\pi^0$, ratio of rate of, (E), 22:44317
decay $K_2^0 \to 2\pi^0$ relative to $K_2^0 \to 3\pi^0$, branching ratio of, (E), 22:52927
decay $K_2^0 \to 2\pi^0$ relative to $K_2^0 \to 3\pi^0$, spark-chamber—shower-counter measurement of branching ratio of CP-violating, 23:34524
decay $K_2^0 \to 2\pi^0$, branching ratio and amplitude for, (E) , 25:5259
decay $K_2^0 \to 2\pi^0$, CP violation parameter from spark chamber study of branching ratios for, (E), 24:20196
decay $K_2^0 \to 2\pi^0$, spark chamber and shower counter study of branching ratio for, (E), 24:20066 (UCRL-19397)
decay $K_2^0 \to 2\pi^0$, spark chamber study of phase of amplitude relative to $K_1^0 \to 2\pi^0$ decay for, (E), 24: 21920 (LAL-1226)
decay $K_2^0 \to 2\pi^0(3\pi^0)$, branching ratio for, (E), 25: 14530
decay $K_2^0 \to 2\pi^0(3\pi^0)$, CP-violating parameter from spark chamber study of branching ratio for, (E), 25: 1581
decay $K_2^0 \to 3\pi$, CP invariance violation in, (T), 23: 5656
decay $K_2^0 \to 3\pi$, final-state interactions in, (T), 23:7139
decay $K_2^0 \to 3\pi$, K^0 and π-mass difference effects on $\Delta T = 1/2$ rule violation in, (T), 22:44385 (IFVE-STF-68-2-K)
decay $K_2^0 \to 3\pi$, $\pi + \pi$ scattering length determination from branching ratio relations and spectra of, (E/T), 23:49099
decay $K_2^0 \to 3\pi$, spark chamber spectrometer study of $K_2^0 \to 3\pi/K_2^0 \to \gamma + \gamma$ branching ratio for, (E), 24: 3604
decay $K_2^0 \to 3\pi$, use of dispersion relations for amplitude of, (T), 22:39352
decay $K_2^0 \to 3\pi$, violation of $\Delta I = {}^1/_2$ rule in, 24: 18252
decay $K_2^0 \to 3\pi^0$ in bubble chamber, simulation using Monte Carlo method, 21:2439
decay $K_2^0 \to 3\pi^0/K_2^0 \to$ all charged modes, measurement of ratio of rates for, (E), 22:46319
decay $K_2^0 \to 3\pi^0/K_2^0 \to \pi^+ + \pi^- + \pi^0$, measurement of ratio of rates for, (E), 22:46319
decay $K_2^0 \to$ all charged in freon bubble chamber, branching ratio for, (E), 23:42546
decay $K_2^0 \to e(\mu) + \pi + \tau$, review of, (T), 24:30491
decay $K_2^0 \to e^+ + e^-$ in wire spark chamber, upper limit on branching ratio for, (E), 25:40866
decay $K_2^0 \to e^+ + e^-$, calculation of branching ratio for, (T), 23:7107 (UCRL-18487)
decay $K_2^0 \to e^+ + e^-$, spectrometer study of upper limit for branching ratio for, (E), 25:36386 (UCRL-20264)
decay $K_2^0 \to e^+ + e^-$, upper limit of branching ratio for, (E), 23:21044 (NP-17758)
decay $K_2^0 \to e^+ + e^-$, upper limit on branching ratio for, (E), 25:1386 (UCRL-20078)
decay $K_2^0 \to e^+ + e^-$, upper limits for, (E), 24:1504
decay $K_2^0 \to e^+ + \pi^- + \tau$, scintillation counter study of charge asymmetry in, (E), 21:46466 (NEVIS-162)
decay $K_2^0 \to e^- + \pi^+ + \tau$, scintillation counter study of charge asymmetry in, (E), 21:46466 (NEVIS-162)
decay $K_2^0 \to e^+(e^-) + \pi^-(\pi^+) + \tau$, charge asymmetry and CP violation in, 22:17918
decay $K_2^0 \to \gamma + \gamma$ and $K_2^0 \to 3\pi^0$, branching ratio for, (E), 22:50277 (PPAR-1)
decay $K_2^0 \to \gamma + \gamma$ and $K_2^0 \to$ all modes, branching ratio for, (E), 22:50277 (PPAR-1)
decay $K_2^0 \to \gamma + \gamma$ relative to $K_2^0 \to 3\pi^0$, branching ratio for, (E), 22:52926
decay $K_2^0 \to \gamma + \gamma$, bound on CP nonconservation in, 25:45785
decay $K_2^0 \to \gamma + \gamma$, branching ratio for, (E), 24:18073
decay $K_2^0 \to \gamma + \gamma$, current algebra calculation of rate of, (T), 24:42926
decay $K_2^0 \to \gamma + \gamma$, current—current Hamiltonian and pole-dominance model for, 22:41788
decay $K_2^0 \to \gamma + \gamma$, Nishijima model for, 21:37767
decay $K_2^0 \to \gamma + \gamma$, nonpole corrections in pion-pole model for branching ratio of, 24:13023
decay $K_2^0 \to \gamma + \gamma$, pole-model analysis of amplitude for, 23:42623
decay $K_2^0 \to \gamma + \gamma$, review of research on, 23:25512 (CERN-69-7, pp 205-23)
decay $K_2^0 \to \gamma + \gamma$, review on, (T), 25:47809
decay $K_2^0 \to \gamma + \gamma$, spark chamber spectrometer study of $K_2^0 \to \gamma + \gamma/K_2^0 \to 3\pi$ branching ratio for, (E), 24:3604
decay $K_2^0 \to \gamma + \gamma$, SU(3) pole model for rate of, 22: 11705
decay $K_2^0 \to K_1^0 \to 2\pi$, CP violation in, (E), 23:16978
decay $K_2^0 \to l +$ anti l, tests of CP and CPT invariance in, 23:36976
decay $K_2^0 \to l + \pi + \tau$, CP violating parameters from charge asymmetry in, 23:1668
decay $K_2^0 \to \mu + e$ in wire spark spark chamber, upper limit on branching ratio for, (E), 25:40866
decay $K_2^0 \to \mu + e(\pi) + \tau$, test of CPT invariance from inequality between charge asymmetries of, (T), 25:47926
decay $K_2^0 \to \mu^+ + e^-$, upper limit on branching ratio for, (E), 25:1386 (UCRL-20078)
decay $K_2^0 \to \mu^- + e^+$, upper limit on branching ratio for, (E), 25:1386 (UCRL-20078)
decay $K_2^0 \to \mu^- + \mu^+$ from $\pi^- + p$ interactions at 11 GeV/c, upper limit on branching ratio for, (E), 23: 42538
decay $K_2^0 \to \mu^+ + \mu^-$ in wire spark chamber, upper limit on branching ratio for, (E), 25:40866
decay $K_2^0 \to \mu^+ + \mu^-$, calculation of branching ratio for, (T), 23:7107 (UCRL-18487)
decay $K_2^0 \to \mu^+ + \mu^-$, contribution of $\pi\pi\gamma$ state to, (T) , 25:40955
decay $K_2^0 \to \mu^+ + \mu^-$, CP violation in, 25:47927
decay $K_2^0 \to \mu^+ + \mu^-$, CP violation in, 25:59544
decay $K_2^0 \to \mu^+ + \mu^-$, current algebra study of weak interaction cutoff for, (T), 22:44387
decay $K_2^0 \to \mu^+ + \mu^-$, effect of CP nonconservation on branching ratio for, 25:45711
decay $K_2^0 \to \mu^+ + \mu^-$, higher-order effects in, 25:47806
decay $K_2^0 \to \mu^+ + \mu^-$, lower bound for rate of, (T), 24: 40336
decay $K_2^0 \to \mu^+ + \mu^-$, mass of intermediate vector meson from upper limit for, 23:51909
decay $K_2^0 \to \mu^+ + \mu^-$, neutral currents for limit of weak interaction theory for W production in, 22:5555
decay $K_2^0 \to \mu^+ + \mu^-$, neutral currents in, (T), 22: 20203
decay $K_2^0 \to \mu^+ + \mu^-$, rate of, 25:59419
decay $K_2^0 \to \mu^+ + \mu^-$, rate of, (T), 21:2447
decay $K_2^0 \to \mu^+ + \mu^-$, renormalizable theory with charged and neutral intermediate bosons for, 25:22773
decay $K_2^0 \to \mu^+ + \mu^-$, spectrometer study of branching ratio for, (E), 25:36386 (UCRL-20264)
decay $K_2^0 \to \mu^- + \mu^+$, strong quadratic intermediate vector boson model for, 23:25594 (CERN-69-7, pp 371-89)
decay $K_2^0 \to \mu^+ + \mu^-$, T invariance in unitarity limit of, 25:59543
decay $K_2^0 \to \mu^+ + \mu^-$, upper limit for branching ratio for, (E), 25:1391
decay $K_2^0 \to \mu^+ + \mu^-$, upper limit on branching ratio for, (E), 25:1386 (UCRL-20078)
decay $K_2^0 \to \mu^+ + \mu^-$, upper limits for, (E), 24:1504
decay $K_2^0 \to \mu^+ + \mu^-$, upper limits for, (E), 21:17029
decay $K_2^0 \to \mu^+ + \mu^-$, weak interaction theory with scalar intermediate bosons for, 24:52038
decay $K_2^0 \to \mu^+ + \mu^-$, weak-interaction cutoff limits from, (T), 22:26621
decay $K_2^0 \to \mu^+ + \pi^- + \tau$, test of T invariance in, (E), 21:27297
decay $K_2^0 \to \mu^+(e^+) + \mu^-(e^-)$, spectrometer study of upper limits to branching ratios for, (E), 24:35600 (UCRL-19709)
decay $K_2^0 \to \mu^+(\mu^-) + e^-(e^+)$, spectrometer study of upper limits to branching ratios for, (E), 24:35600 (UCRL-19709)
decay $K_2^0 \to \mu^+(e^+) + \mu^-(e^-)$, spectrometer study of upper limits to branching ratios for, (E), 25:36387
decay $K_2^0 \to \mu^+(\mu^-) + e^-(e^+)$, branching ratio for, (E), 22:11578
decay $K_2^0 \to \mu^+(\mu^-) + e^-(e^+)$, spectrometer study of upper limits to branching ratios for, (E), 25:36387
decay $K_2^0 \to \mu^+(\mu^-) + e^-(e^+)$, spectrometer study of upper limits for branching ratios for, (E), 25:36386 (UCRL-20264)
decay $K_2^0 \to \mu^+(\mu^-) + \mu^-(\mu^+)$, branching ratio for, (E), 22:11578
decay $K_2^0 \to \mu^+(\mu^-) + \pi^-(\pi^+) + \tau$, charge asymmetry and CP violation in, 22:17918
decay $K_2^0 \to \pi + e + \mu$, scintillation counter study of charge asymmetry in, (E), 23:32606 (NEVIS-169)
decay $K_2^0 \to \pi + e + \tau + \gamma$ in heavy-liquid bubble chamber, (E), 25:38643
decay $K_2^0 \to \pi + e + \tau$ in freon bubble chamber, branching ratio for, (E), 23:42546
decay $K_2^0 \to \pi + e + \tau$ in spark chamber, test of CP violation from charge asymmetry in, (E), 21:37653(R) (UCLA-34-P-106-1)
decay $K_2^0 \to \pi + e + \tau$, angular distribution and energy spectra of particles in, (E), 21:2356 (JINR-P-2855)
decay $K_2^0 \to \pi + e + \tau$, asymptotic symmetry for mixing parameters between π^0, eta^0, and eta$'^0$(958) in broken SU(2) and SU(3) symmetries for violation of $\Delta I = 1/2$ rule in, 24:37836
decay $K_2^0 \to \pi + e + \tau$, determination of CP violating overlap of K_1^0 and K_2^0 from, 23:23518
decay $K_2^0 \to \pi + e + \tau$, energy dependence of form factor in, (E), 22:13644
decay $K_2^0 \to \pi + e + \tau$, energy dependence of form factor for, (E), 22:39241 (PURC-2137-3)
decay $K_2^0 \to \pi + e + \tau$, form factor energy dependence for, (E), 21:9695
decay $K_2^0 \to \pi + e + \tau$, form factor from, (E), 25: 33666
decay $K_2^0 \to \pi + e + \tau$, hydrogen bubble chamber study of, (E), 21:46476
decay $K_2^0 \to \pi + e + \tau$, pion-energy dependence of form factor of, (E), 23:5525
decay $K_2^0 \to \pi + e + \tau$, q^2-dependence of vector form factor for, (E), 25:56408
decay $K_2^0 \to \pi + e + \tau$, real part of CP-violating parameter from Cherenkov counter study of charge asymmetry in, (E), 24:37617
decay $K_2^0 \to \pi + e + \tau$, spark chamber and scintillation counter study of energy variation of form factor and upper limits on tensor and scalar interaction in, (E), 22:22296
decay $K_2^0 \to \pi + e + \tau$, spark chamber spectrometer study of form factors for, (E), 23:51840 (CEA-R-3813)
decay $K_2^0 \to \pi + e + \tau$, time-reversal invariance test in Coulomb final-state interaction corrections to, (T), 25:43660
decay $K_2^0 \to \pi + l + \tau$ in hydrogen bubble chamber, $\Delta S = \Delta Q$, $\Delta I = 1/2$, and CP invariance in, 21:18886 (NEVIS-160)
decay $K_2^0 \to \pi + l + \tau$, branching ratio and form factors for, (E), 24:40244
decay $K_2^0 \to \pi + l + \tau$, charge asymmetry in, 21: 33663 (NYO-2262-TA-143)
decay $K_2^0 \to \pi + l + \tau$, CP violation in, 22:32191
decay $K_2^0 \to \pi + l + \tau$, current—current models for charge asymmetry in, 23:21087
decay $K_2^0 \to \pi + l + \tau$, effect of final-state interactions from charge asymmetry in, 24:49423
decay $K_2^0 \to \pi + l + \tau$, electromagnetic final-state interaction effects in, 25:45708
decay $K_2^0 \to \pi + l + \tau$, model with supplementary particles for charge asymmetry for test of CP violation in, (T), 25:9827
decay $K_2^0 \to \pi + l + \tau$, S-matrix description of, 23: 34595
decay $K_2^0 \to \pi + \mu + \tau$ at 3 to 12 GeV/c, wire spark chamber spectrometer study of form factors for, (E), 25:9629 (UCLA-1054)
decay $K_2^0 \to \pi + \mu + \tau$ in freon bubble chamber, branching ratio for, (E), 23:42546
decay $K_2^0 \to \pi + \mu + \tau$ relative to $K_2^0 \to \pi + e + \tau$ branching ratio for, (E), 24:1502
decay $K_2^0 \to \pi + \mu + \tau$, absolute rate for, (E), 21: 9695
decay $K_2^0 \to \pi + \mu + \tau$, effects of $\Delta S = -\Delta Q$ amplitudes on μ polarization in, 24:1563
decay $K_2^0 \to \pi + \mu + \tau$, form factors for, (E), 25: 12088
decay $K_2^0 \to \pi + \mu + \tau$, scintillation counter and spark chamber study of charge asymmetry in, (E), 24: 28476 (UCRL-19446)
decay $K_2^0 \to \pi + \mu + \tau$, scintillation hodoscope data acquisition system for measuring charge asymmetry in, (E), 25:51896 (UCRL-20636)
decay $K_2^0 \to \pi + \mu + \tau$, spark chamber and scintillation counter study of charge asymmetry in branching ratio for, (E), 22:22290 (CONF-670923-, pp 484-93)
decay $K_2^0 \to \pi + \mu + \tau$, spark chamber spectrometer study of form factors for, (E), 23:51840 (CEA-R-3813)
decay $K_2^0 \to \pi + \mu + \tau$, time reversal invariance test in Coulomb final-state interaction corrections to, (T), 25:43660
decay $K_2^0 \to \pi + \mu + \tau/K_2^0 \to \pi + e + \tau$, branching ratio for, (E), 21:29436
decay $K_2^0 \to \pi + \mu + \tau/K_2^0 \to \pi + e + \tau$, measurement of ratio of rates for, (E), 22:46319
decay $K_2^0 \to \pi + \mu(e) + \tau$, test of CPT violation from difference of charge asymmetries in, (T), 24:24414
decay $K_2^0 \to \pi + \pi + l + \tau$, time reversal invariance test in Coulomb final state interaction corrections to, (T), 25:43660
decay $K_2^0 \to \pi + \pi$, CP violation in, 22:32191
decay $K_2^0 \to \pi + \pi$, eta$_{+-}$, estimate for CP violation in, 23:39767
decay $K_2^0 \to \pi + \pi$, relations between eta$_{+-}$, eta/sub +-/, and epsilon parameters for, 23:44635
decay $K_2^0 \to \pi^0 + 2\gamma$, branching ratio for, (E), 23: 25500 (AD-679190)
decay $K_2^0 \to \pi^0 + 2\gamma$, branching ratio for, (T), 21: 37768
decay $K_2^0 \to \pi^0 + e^+ + e^-$, CP nonconservation in width and branching ratio for, (T), 22:20204
decay $K_2^0 \to \pi^0 + e^+ + e^-$, critical experiment for neutral lepton current hypothesis for, 21:19041
decay $K_2^0 \to \pi^0 + \gamma + \gamma$, branching ratio for, (E), 24: 18073
decay $K_2^0 \to \pi^0 + \gamma + \gamma$, eta-pole approximation for, 22:1423
decay $K_2^0 \to \pi^0 + \gamma + \gamma/K_2^0 \to \pi^0 + \pi^0$, use of current algebra and PCAC hypothesis for branching ratio of, 21:25274
decay $K_2^0 \to \pi^0 + \tau_0 + e^0$, possible experimental search for, (T), 21:44254 (AD-657984)
decay $K_2^0 \to \pi^0 + \pi^0 + \gamma$, possible CP-noninvariant effects in, 21:44336
decay $K_2^0 \to \pi^0 + \pi^0 + \pi^0$, CP violation parameters for, 24:13130

decay $K_2^0 \rightarrow \pi^0 + \pi^0 + \pi^0$, model for amplitude of, 22:32107
decay $K_2^0 \rightarrow \pi^0 + \pi^0 + \pi^0$, model for $\Delta T = 3/2$ admixture of, 22:9573
decay $K_2^0 \rightarrow \pi^0 + \pi^0 + \pi^0$, review on, 25:47807
decay $K_2^0 \rightarrow \pi^0 + \pi^0 (\pi^+) + \pi^0 (\pi^-)$, isotopic ratios for particles referring to one isotopic multiplet for, 23: 34566 (JINR-P2-4382)
decay $K_2^0 \rightarrow \pi^0 + \pi^0$ relative to $K_2^0 \rightarrow \pi^+ + \pi^-$, current—current model for ratio of, 22:44468
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, branching ratio and CP-violation parameter for, (E), 24:18073
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, CP violation in I = 2, 2π state in, 21:31624
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, implications of branching ratio for, (T), 22:20199 (CONF-670211-, pp 34-45)
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, outline of experiment for measuring eta_{00} for, 23:39592(R) (TID-25098)
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, rate of, (E), 21:7454
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, rate of, (E), 21:7455
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, rate of, (E), 23:14960
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, review of experiments on, 24: 8694
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, SU(3) model of CP violation in branching ratio for, 24:35679
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, upper limit for branching ratio for, (E), 23:18791 (AD-672919)
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, use of HPD bubble chamber film digitizing system for measuring branching ratio relative to $K_2^0 \rightarrow \pi^+ + \pi^-$, 23:33505 (ANL-7515, pp 266-74)
decay $K_2^0 \rightarrow \pi^0 + \pi^0$, weak interaction model for rate relative to $K_1^0 \rightarrow \pi^0 + \pi^0$ decay, 22:1421
decay $K_2^0 \rightarrow \pi^0 + \pi^0 (\pi^+) + \pi^0 (\pi^-)$, isotopic amplitudes and phase shifts for, 24:1554 (JINR-P2-4621)
decay $K_2^0 \rightarrow \pi^0 + \pi^0 (\pi^+) + \pi^0 (\pi^-)$, vector-meson dominance model for p-wave contributions to, (T), 25: 1472
decay $K_2^0 \rightarrow \pi^0 + \pi^+ + \pi^-$, CP violation in, 22:32191
decay $K_2^0 \rightarrow \pi^+ + e^- + \tau$ and $K_2^0 \rightarrow \pi^- + e^+ + \tau$, $\Delta S/\Delta Q$ amplitude for, 22:7480
decay $K_2^0 \rightarrow \pi^- + e^+ + \tau$ in hydrogen bubble chamber, energy dependence of form factor for, (E), 21:40141
decay $K_2^0 \rightarrow \pi^+ + e^- + \tau$ in hydrogen bubble chamber, energy dependence of form factor for, (E), 21:40141
decay $K_2^0 \rightarrow \pi^+ + e^- + \tau$, Cherenkov and scintillation counter study of charge asymmetry in, (E), 21:46471
decay $K_2^0 \rightarrow \pi^- + e^+ + \tau$, Cherenkov and scintillation counter study of charge asymmetry in, (E), 21:46471
decay $K_2^0 \rightarrow \pi^- + e^+ + \tau$, CP violation in $\Delta S = \Delta Q$ selection rule for, 23:21089
decay $K_2^0 \rightarrow \pi^+ + e^-(\mu^-)$ and $K_2^0 \rightarrow \pi^- + e^+(\mu^+)$, branching ratio for, (E), 21:3975 (JINR-P-2892)
decay $K_2^0 \rightarrow \pi^+ + \mu^-$ + anti τ, evidence against existence of strange leptons from, (E), 22:39244
decay $K_2^0 \rightarrow \pi^+ + \mu^-$ + anti τ, scintillation counter and spark chamber study of charge asymmetry in, (E), 21:46472
decay $K_2^0 \rightarrow \pi^+ + \mu^- + \tau$ and $K_2^0 \rightarrow \pi^- + \mu^+ + \tau$, $\Delta S/\Delta Q$ amplitude in, 22:7480
decay $K_2^0 \rightarrow \pi^- + \mu^+ + \tau$ in spark chamber, μ transverse polarization in, (E), 21:37653(R) (UCLA-34-P-106-1)
decay $K_2^0 \rightarrow \pi^- + \mu^+ + \tau$, determination of Re xi from μ polarization in, (E), 22:39243
decay $K_2^0 \rightarrow \pi^- + \mu^+ + \tau$, form factor ratio in hadronic current determination from μ^+ transverse polarization from, (E), 21:869
decay $K_2^0 \rightarrow \pi^- + \mu^+ + \tau$, μ^+ polarization in, (E), 23: 14957
decay $K_2^0 \rightarrow \pi^- + \mu^+ + \tau$, μ^+ polarization in, (E), 23: 36826
decay $K_2^0 \rightarrow \pi^- + \mu^+ + \tau$, scintillation counter and spark chamber study of charge asymmetry in, (E), 21: 46472
decay $K_2^0 \rightarrow \pi^- + \mu^+ + \tau$, test of T invariance and μ polarization from, (E), 21:37653(R) (UCLA-34-P-106-1)
decay $K_2^0 \rightarrow \pi^- + \pi^0 + l^+ + \tau$, chiral SU(3) X SU(3) gauge-invariant dynamics for form factors of, 24:35680
decay $K_2^0 \rightarrow \pi^- + \pi^0 + l^+ + \tau$, form factors for rate of, 22:13722
decay $K_2^0 \rightarrow \pi^- + \pi^0 + \pi^+$, meson ($\pi$) energy spectra in, (E), 23:3639
decay $K_2^0 \rightarrow \pi^- + \pi^0 + \pi^+$, search for CP-nonconserving asymmetry in, (E), 23:5524
decay $K_2^0 \rightarrow \pi^+ + \pi^- + e^+ + e^-$, determination of radius of $K_2^0 \rightarrow K_1^0 + \gamma$ transition from, (T), 23:1618
decay $K_2^0 \rightarrow \pi^+ + \pi^- + e^+ + e^-$, electromagnetic radius of $K_2^0 \rightarrow K_1^0$ transition from, (T), 23:13071
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$ in range-shower spark chambers, upper limit on rate of, (E), 23:3638
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, branching ratio for, (E), 23:25500 (AD-679190)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, CP-noninvariant and T-odd correlation in, (T), 23:36967
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, CP-violating rate for, 25: 59419
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, current algebra for branching ratios for, 22:3329
decay $K_2^0 \rightarrow \pi^+ + \pi^+ + \gamma$, effects of CP nonconservation in, (T), 22:22428
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, PCAC and current algebra predictions for, 24:12999
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, pion-pole mechanism and Veneziano model for, 24:24320
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, possible CP-noninvariant effects in, 21:44336
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, spark chamber study of upper limit for rate of, (E), 23:27740
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, spark chamber study of upper limit for, (E), 22:22291 (COO-1195-113)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \gamma$, upper limit on rate of, (E), 22:46317 (COO-1195-129)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0 + \gamma$, Low theory for, 22: 41789
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0 + \gamma$, rate, branching ratio, and γ spectra from current algebra and vector dominance for, 25:14640
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$ in bubble chamber, simulation using Monte Carlo method, 21:2439
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$ in freon bubble chamber, branching ratio for, (E), 23:42546
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$ in hydrogen bubble chamber, rate and spectra for, 21:33593
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, branching ratio for, 21: 29436
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, CP violation from charge asymmetry in, (T), 23:44636
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, CP violation in, (E), 24: 37615
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, current algebra for charge asymmetry due to CP violation in, 23:42705
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, design and performance of streamer spark chamber for studying, 22:36102
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, design and performance of streamer chamber for studying, 22:21350 (CONF-670923-, pp 571-85)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, electromagnetic corrections for rates of, (T), 22:52965 (LPTHE-TH-68/17)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, hydrogen bubble chamber study of, (E), 21:46476
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, matrix element and charge symmetry in, (E), 24:35602
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, matrix element constant from wire chamber magnetic spectrometer study of, (E) , 25:9628 (UCLA-1052)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, model for amplitude of, 22:32107
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, model for $\Delta T = 3/2$ admixture of, 22:9573
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, model for $\pi + \pi$ scattering in I = J = 0 channel for, 22:41806 (SINP-TH-67-18)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, parametrization of π^0 spectrum in, (E), 25:9630
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, PCAC hypothesis and $\Delta T = 1/2$ rule violation in amplitude of, 22:24612
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, pion scattering lengths from, 22:17924
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, preliminary results for CP-violating contribution to matrix elements for, (E), 22: 41741 (COO-1749-5)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, review on, 25:47807
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, search for CP violation in, 23:39601(R) (COO-1749-11)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, search for CP-nonconserving asymmetry in, (E), 25:36550 (COO-1749-24)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, search for CP-violating charge asymmetry in, (E), 24:37618
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, spark chamber study of Dalitz plot for test of $\Delta I = {}^1/_2$ rule and CP conservation in, (E), 25:59258
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, spark chamber study of $\Delta I = {}^1/_2$ rule and CP violation in asymmetry in, (E), 25:14536
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, spectra from, (E), 21: 37653(R) (UCLA-34-P-106-1)
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, spectra of, (E), 21:33595
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, T violation from charge asymmetry in, 22:5623
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, violation of $\Delta I = {}^1/_2$ rule in, (T), 24:52051
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ and $K_2^0 \rightarrow \pi^+ + \pi^-$ behind copper regenerator, interference between, (E), 24:1522
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ and $K_2^0 \rightarrow \pi^+ + \pi^-$ from regeneration at 1.9 GeV/c on copper, interference between amplitudes of, (E), 25:22665
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ and $K_2^0 \rightarrow \pi^+ + \pi^-$, phase of CP-nonconservation parameter in, (E), 21:11734
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ and $K_2^0 \rightarrow \pi^+ + \pi^-$, phase of CP-nonconservation parameter in, (E), 21:37653(R) (UCLA-34-P-106-1)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ at 0.4 to 4.0 GeV/c in hydrogen bubble chamber, branching ratio for, (E), 22:24524 (BNL-10312)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ at 10.7 GeV/c, (E), 22:7431
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ decay, long-range field pulses as source of CP invariance in, (T), 25:9826 (NYO-2171-329)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ in lead absorber, evidence against CP-even K_1^0 state from, (E), 24:42867
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ relative to $K_2^0 \rightarrow \pi^+ + \pi^-$, phase of amplitudes for, (E), 24:1503
decay $K_2^0 \rightarrow \pi^+ + \pi^-$ relative to $K_2^0 \rightarrow \pi^0 + \pi^0$, $\pi\pi$ phase shift from branching ratio of, (E), 24:30454 (CONF-690521-, pp 337-8)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, amplitude and branching ratio for CP-violating, (E), 22:11578
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, amplitudes from, 21:866(R) (AD-634496)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, branching ratio for CP-violating, (E), 21:18889
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, C and CP invariance in amplitude of, 22:13813
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, contribution of $K_2^0 \rightarrow K_1^0$ regeneration at high energies to amplitude interference with $K_1^0 \rightarrow \pi^+ + \pi^-$ decay, 23:16957(T) (BNL-tr-243)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, CP violation in, 21:35325 (AD-650951)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, CP violation in, 21:29610
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, CP violation in, (T), 21:9732 (JINR-P2-3067)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, current algebra for branching ratios for, 22:3329
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, hydrogen bubble chamber study of, (E), 21:46476
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, implications of branching ratio for, (T), 22:20199 (CONF-670211-, pp 34-45)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, model of CP violation in, 23: 39768
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, possible C noninvariance in, (T), 21:11791
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, review of CP violating, 21: 27408
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, review of CP violation in, 21: 31623
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, review of experiments on CP violation in, 24:8694
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, spark chamber study of phase difference relative to $K_1^0 \rightarrow \pi^+ + \pi^-$ decay amplitude, (E), 23:23344
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, spark chamber—magnetic spectrograph study of interference between $\pi^+\pi^-$ amplitudes from, 21:33597
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, SU(3) model of CP violation in branching ratio for, 24:35679
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, upper limit of branching ratio for, (E), 23:21044 (NP-17758)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, use of HPD bubble chamber film digitizing system for measuring branching ratio relative to $K_2^0 \rightarrow \pi^0 + \pi^0$ of, 23:33505 (ANL-7515, pp 266-74)
decay $K_2^0 \rightarrow \pi^+ + \pi^-$, weak interaction model for rate relative to $K_1^0 \rightarrow \pi^+ + \pi^-$ decay, 22:1421
decay $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, wire chamber magnetic spectrometer study of π spectra in, (E), 25:12087
decay $K_2^0 \rightarrow \pi^+(eta^+) + \mu^+(\mu^-) + \tau$, scintillation counter and spark chamber study of charge asymmetry ratio for, (E), 25:19898
decay $K_2^0 \rightarrow \pi^+(\pi^-) + e^-(e^+) + \tau$, charge asymmetry in, (T), 22:41784
decay $K_2^0 \rightarrow \pi^+(\pi^-) + e^-(e^+) + \tau$(anti τ), shower spark chamber study of strong interaction form factor and decay charge asymmetry in, (E), 22:7428 (COO-1195-102)
decay $K_2^0 \rightarrow \pi^+(\pi^-) + l^-(l^+) + \tau$, test of CPT invariance from charge asymmetry in, 23:25674
decay $K_2^0 \rightarrow \pi^+(\pi^-) + \mu^-(\mu^+) + \tau$, charge asymmetry in, (T), 22:41784
decay $K_2^0 \rightarrow \pi^+\pi^-\pi^0$ in hydrogen bubble chamber, $\Delta S = \Delta Q$, $\Delta I = 1/2$, and CP invariance in, 21:18886 (NEVIS-160)
decay $K_2^0 \rightarrow 2\pi^0$, CP violation from rate for, (T), 21: 33663 (NYO-2262-TA-143)
decay K_2^0 and K_1^0, sum rules for, 25:14644
decay of CP violating theories for unitarity bounds on K_2K_1 system from, 24:37843
decay of K^0_2, review of CP violation in, 22:3482 (CERN-66-29(Vol.3), pp 1-92)
decay of K^0—anti K^0 system Weisskopf—Wigner and exponential decay methods for, 24:28529
decay of K_1 and K_2, interference effects in K^0antiK^0 correlation experiments, (T), 21:11764
decay of $K_2^0 \rightarrow \pi^+ + \pi^- + \pi^0$, CP violation in, (E), 21:23314 (BNL-994, pp 70-102)
decay of K_1^0 and K_2^0, CP violation and nonlocality of, 23:46672
decay of K_1^0 and K_2^0, nonexponential decay law for interference experiments on, (T), 22:29671
decay of K_1^0 and K_2^0, phenomenological model for CP-conserving nonleptonic weak, 21:4029
decay of K_1^0 and K_2^0, S-matrix formulation of unitarity relations for, 24:18147
decay of K_1^0 and K_2^0, unitary sum rule for, 23:23436
decay of K_1^0 and K_2^0, upper limits for charged lepton pair production from, (E), 21:17029
decay of K_1^0 in S-matrix theory, unitary sum rules for relation to K_2^0, 23:49116
decay of K_1^0, charged-to-neutral branching ratio measurement from K^+ charge exchange reactions in bubble chamber, 23:46600
decay of K_1^0, partial-width formulation of unitarity sum rules for, 23:34593
decay of K_1^0, rate of, (E), 22:32097
decay of $K_1^0 - K_2^0$, exact sum rules for transition amplitudes for, (T), 25:38718
decay of K_1^0 and K_2^0, equivalence of sum rules from standard Lee—Oehme—Yang and S-matrix approaches for, 23:51906 (NYO-1932(2)-156)
decay of K_1^0 and K_2^0, rates for, (E), 21:23314 (BNL-994, pp 70-102)
decay of K_2^0 in S-matrix theory, unitary sum rules for relation with K_1^0, 23:49116
decay of K_2^0, absolute rate for 3-body, (E), 21:15259
decay of K_2^0, bach—tamaid theory for CP violation in, 23:21138
decay of K_2^0, colliding beams for studying branching ratios and lifetime in, (E), 22:52924 (LNF-68/43)
decay of K_2^0, CP violation in, 21:19038
decay of K_2^0, CP violation in $\Delta S = \Delta Q$ selection rule for, 23:21089
decay of K_2^0, electromagnetic contribution to charge asymmetry in semileptonic, 24:24411
decay of K_2^0, Hamiltonian for relation of lepton nonconservation in nuclear double-beta decay with CP nonconservation in, 23:44690
decay of K_2^0, neutral lepton existence from μ—π invariant mass distributions in, (E), 25:1390
decay of K_2^0, partial-width formulation of unitarity sum rules for, 23:34593
decay of K_2^0, quark-muonic currents for violation of CP invariance in, 21:15381
decay of K_2^0, rate for leptonic, (E), 25:47722
decay of K_2^0, relative rates for principle modes of, (E), 21:2361
decay of K_2^0, review of CP violation in, 24:18253
decay of K_2^0, review of CP violation in, 23:18823 (CONF-671217-, pp 370-588)
decay of K_2^0, verification of CP and T violation in, 23: 10840
decay of K_2^0—K_1^0, unitarity for existence of sum rules for, (T), 25:45709
decay of, ($K_2^0 - K_1^0$) mass difference from, (E), 21: 23314 (BNL-994, pp 70-102)

decay of, arrows of time in time reversal violation in, (T), 25:3423
decay of, asymmetry at far distances from target for exclusion of one type of nonexponentiality for leptonic, 23:44638
decay of, Bogoliubov transformation for CP violation in superweak, 22:20299
decay of, C-invariance violation in, 25:33792
decay of, colliding beams for studying CP violation parameters in, (E), 22:52924 (LNF-68/43)
decay of, conference on CP violation in, (T), 22:20295 (CONF-670211)
decay of, CP invariance in, 23:34635 (PITHA-26)
decay of, CP invariance in, (T), 23:5585
decay of, CP violation in, 21:19037
decay of, CP violation in weak electromagnetic and miniweak parity conserving interactions in, 23:16978
decay of, CPT violation in, (T), 25:43656 (PITHA-44)
decay of, CPT-violating phenomenological model for, (T), 25:47926
decay of, discrete symmetries for, 22:1465
decay of, $\Delta S = \Delta Q$ for, (E), 21:23314 (BNL-994, pp 70-102)
decay of, $\Delta S = \Delta Q$ rule in leptonic, (E/T), 24:40245
decay of, $\Delta S/\Delta Q$ rule in leptonic, 23:10744
decay of, effects of $\Delta S = -\Delta Q$ on CP-violation phenomenology in, 22:39452
decay of, electromagnetic field interactions rather than CP violation for anomalous effects in, 22:20209
decay of, equivalence of Lee—Sugawara sum rules and selection rules for nonleptonic, 25:59396
decay of, exclusion of Goldberger—Watson type exponentiality for, 23:8785 (JINR-P2-4082)
decay of, formal scattering treatment for, 24:20124
decay of, formal scattering treatment of CP violation in, 24:20124
decay of, general perturbation method for continuum levels for, 21:13661
decay of, high-speed circuits for studying $\Delta S/\Delta Q$ rule in, 23:41058 (CERN-69-21)
decay of, nonperturbation approach for, (T), 23:25595 (SU-1206-190)
decay of, origin of CP violation in, 23:23515
decay of, properties of weak—electromagnetic, (E/T), 23:51905 (JINR-P1-4557)
decay of, proposed experiments for studying CP violation in, 22:20200 (CONF-670211-, pp 46-56)
decay of, relation between CP violation and strangeness nonconservation in, 22:17992
decay of, relation of CP and T violation and selection rule validity for, 22:9555 (CERN-67-24(Vol.4), Paper 2)
decay of, review of C and T violation in experiments on, 21:31622
decay of, review of CP violation and selection rules for, (E/T), 23:49040
decay of, review of CP violation in, 21:42414
decay of, review of CP violation in, 21:42405
decay of, review of CP violation in, 22:41836
decay of, review of CP violation in, 24:20194 (CERN-70-1)
decay of, review of CP violation in leptonic, 24:8694
decay of, review of CP violation in, (E), 24:18245 (CONF-690330-, pp 96-102)
decay of, review of CPT asymmetries for, (E), 24:5323
decay of, review of experimental data and phenomenological analysis for, 21:17092
decay of, review of experiments on branching ratios for, 22:32050
decay of, review of three-body, 22:26611 (LAL-1189)
decay of, review of, (E/T), 23:49106
decay of, second-order radiative corrections to three-body leptonic, 23:44614 (IC-69/85)
decay of, superweak model for, 22:39451
decay of, test of $\Delta I = 1/2$ and $\Delta S = \Delta Q$ selection rules in three-body, (E/T), 21:2364
decay of, test of $\Delta Q = \Delta S$ rule in amplitudes of leptonic, (E), 25:47722
decay of, tests of T and CPT invariance in, (E), 23:8725
decay of, unitarity condition and phase of mixing parameter in superweak theory for, (T), 24:40335
decay of, unitarity for $\pi + \pi \to \pi + \pi + \gamma$ contribution to matrix elements for, 22:1419 (TH-206)
decay of, unitarity relations for leptonic, 23:44638
decay of, unitary sum rule in CP-invariant theory for exponential, 23:49115
decay of, unitary sum rule without semigroup property for time evolution of, 23:49115
decay of, wire spark chamber for analysis of, 24:25299 (PITHA-30)
decay parameters of, (E/T), 21:21187
decay $\pi^0 \to 2\gamma$, anomalies of axial-vector current in, 23:42622
decays $K_1^0 \to \pi^+ + \pi^-$ and $K_2^0 \to \pi^+ + \pi^-$, vacuum regeneration measurement of relative phase of amplitudes of, (E), 23:44587
decays $K_2^0 \to 3\pi$, nonlinear effects on like pion spectra in, 22:24614
decays $K_2^0 \to l^+ + l^-$, CP violation in, 23:21094
decays $K_2^0 \to \mu^+ + \mu^-$ and $K_2^0 \to e^+ + e^-$, coupling of neutral-lepton currents to strangeness-changing current for, 21:33678
decays $K_2^0 \to \pi^+ + \pi^-$ and $K_1^0 \to \pi^+ + \pi^-$, phase between amplitudes for, (E/T), 22:44310
decays of K_1^0 and K_2^0 from production in s-wave anti p + p interactions, coherent, 23:15093
decays of K_1^0 and K_2^0, nonexponential character of, 23:1621
decays of K_2^0, relative probabilities for leptonic and nonleptonic, (E), 21:37672
decays of K_2^0, search for mirror particles from, 22:39353
decays of, CP invariance violation in, (T), 23:8825 (JINR-P2-4129)
decays of, CP violation in, 23:25671
decays of, phenomenology of CP violation in, 22:48342 (CERN-68-23(Vol.2), pp 497-521)
decays of, selection rules and PC conservation in, 21:33664
design of secondary beams of, angular and momentum distributions from γ + p interactions below 5.8 GeV in hydrogen bubble chamber for, 21:27292
electromagnetic dimensions of, $K_1^0 \to K_1^0$ regeneration at high energies for determining, 22:34932 (JINR-P1-3788)
electromagnetic structure of, regeneration $K_2^0 \to K_1^0$ at high energies for, 23:16957(T) (BNL-tr-243)
interactions anti K + p, current-algebra calculation of A to Σ ratio in isospin-1 s-wave, 22:9604
interactions anti K^0 + p $\to \Sigma^0$ (Σ^+) + π^+ (π^0), quark model for A/Σ ratio in, 22:13753 (LPTHE-TH-226)
interactions in electromagnetic fields, K^0—anti K^0 transitions from, 21:37746
interactions K^0 + d $\to$ d + π^0, $\Delta T = 1/2$ rule for, 21:33703
interactions K^0 + d $\to \Delta^0$ (1246) + p, $\Delta T = 1/2$ rule for, 21:33703
interactions K^0 + d $\to \Delta^+$ (1246) + n, $\Delta T = 1/2$ rule for, 21:33703
interactions K^0 + n $\to \Delta^0$(1246) + eta, $\Delta T = 1/2$ rule for, 21:33703
interactions K^0 + N in nuclei, optical model consistency for regeneration phase and real part of forward amplitude for, 25:38744
interactions K^0 + N, asymptotic behavior of amplitudes of, 23:16957(T) (BNL-tr-243)
interactions K^0 + N, cross-section differences between anti K^0 + N and, 24:5315
interactions K^0 + p $\to \Delta^+$(1246) + eta, $\Delta T = 1/2$ rule for, 21:33703
interactions K^0 + p $\to$ hyperon at 0 to 900 MeV/c, K_2^0 - K_1^0 mass difference from, (E), 25:38666
interactions K^0 + p $\to K^0 + \pi^0$ + negative-parity isobar, cuts in complex l-plane for, (T), 22:20248
interactions K^0 + p $\to K^0 + \pi^0$ + p, cutoffs in complex l-plane for, 21:31590 (JINR-P2-3337)
interactions K^0 + p $\to K^+$ + n at 0 to 900 MeV/c, mixing parameters from, (E), 25:38666
interactions K^0 + p $\to K^+$ + n, mixing parameters for K^0antiK^0 system from, (T), 21:18990 (UCRL-16475(Rev.))
interactions K^0 + p $\to K^+ + \pi^-$ + p, cutoffs in complex l-plane for, 21:31590 (JINR-P2-3337)
interactions K^0 + p $\to$ A + π^+, quark model for A/Σ ratio in, 22:13753 (LPTHE-TH-226)
interactions K^0 + p $\to \Sigma^0 + \pi^+$ at 300 MeV/c in hydrogen bubble chamber, (E), 22:13670
interactions K^0 + p at 168 to 343 MeV/c, scintillation counter study of total cross sections for, (E), 22:15680 (ORO-2504-117)
interactions K^0 + p at 50 to 150 GeV/c, proposed experiment for diffractive production of boson resonances in, 24:51959 (TID-25473(Vol.4), pp 281-9)
interactions K^0 + p, cross section for, 25:7558
interactions K^0 + p, j-plane singularities in superconvergent sum rules for, 23:27804
interactions K^0 + p, sign of K_1^0 - K_2^0 mass difference from elastic, (E), 21:42252
interactions K^0 + p, test of Pomeranchuk theorem from regeneration amplitude in, 24:33019
interactions K_1^0 + p $\to K_2^0$ + p at 1.3 to 8.0 GeV/c, cross sections for, (E), 25:33564
interactions K_1^0 + p $\to K_2^0$ + p, Regge models for, (E/T), 25:33736
interactions K_2^0 + d $\to K_1^0$ + d at high energies, differential cross section and phase of amplitude for, (T), 25:28049
interactions K_2^0 + N $\to A^0$ + n + π at 120 MeV in argon, copper, and lead, cross sections for, (T), 21:33699 (JINR-P1-3375)
interactions K_2^0 + N $\to \Sigma^0$ + n + π at 120 MeV in argon, copper, and lead, cross sections for, (T), 21:33699 (JINR-P1-3375)
interactions K_2^0 + p $\to K_1^0$ + p at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions K_2^0 + p $\to K_1^0$ + p at 3 and 6 GeV/c, empirical analysis of differences and sums of angular distributions for, (T), 25:59477
interactions K_2^0 + p $\to K_1^0$ + p at 300 MeV/c in hydrogen bubble chamber, (E), 22:13670
interactions K_2^0 + p $\to K_1^0$ + p at 590 MeV/c, cross section for, (E), 21:29436
interactions K_2^0 + p $\to K_1^0$ + p at high energies, asymptotical properties of amplitude of, (T), 25:59494
interactions K_2^0 + p $\to K_1^0$ + p at high energies, Reggeized ω exchange in, 22:44426
interactions K_2^0 + p $\to K_1^0$ + p in Regge pole models, regeneration phase for, 25:7668
interactions K_2^0 + p $\to K_1^0$ + p in Regge-pole eikonal theory, differential cross sections and polarizations for, 24:37796
interactions K_2^0 + p $\to K_1^0$ + p, differential and total cross sections for, (E), 21:46476
interactions K_2^0 + p $\to K_1^0$ + p, electromagnetic corrections to coherent, 25:33758
interactions K_2^0 + p $\to K_1^0$ + p, Regge-pole model predictions for regeneration cross section for, 23:21108
interactions K_2^0 + p $\to K_1^0$ + p, upper bound on Pomeranchuk theorem violation in asymptotic total cross section difference in K^- + n and K^+ + n interactions from integrated cross sections for, (T), 25:22818
interactions K_2^0 + p $\to K_1^0(K_2^0)$ + p at small angles, Regge pole eikonal theory for differential cross sections and polarizations for, 24:13082 (SU-1206-218)
interactions K_2^0 + p $\to K_2^0$ + p in Regge-pole eikonal theory, differential cross sections and polarizations for, 24:37796
interactions K_2^0 + p $\to$ A + $\pi^+ + \pi^0$ at 0.3 to 7.5 GeV/c, production of Σ (1616) and Σ (1700) in, (E), 23:23336
interactions K_2^0 + p $\to$ A + $\pi^+ + \pi^0$ at 590 MeV/c, cross sections for, (E), 21:29436
interactions K_2^0 + p $\to$ A + π^+ at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions K_2^0 + p $\to$ A + π^+ at 0.3 to 7.5 GeV/c, production of Σ (1616) and Σ (1700) in, (E), 23:23336
interactions K_2^0 + p $\to$ A + π^+ at 590 MeV/c, cross section for, (E), 21:29436
interactions K_2^0 + p $\to$ A^0 + π^+ at 300 MeV/C in hydrogen bubble chamber, Σ(1385) production from, (E), 22:13670
interactions K_2^0 + p $\to \Sigma^0 + \pi^+$ at 0 to 550 MeV/c, multichannel phase shift analysis for, 22:1445
interactions K_2^0 + p $\to \Sigma^0 + \pi^+$ at 590 MeV/c, cross sections for, (E), 21:29436
interactions K_2^0 + p $\to \Sigma^- + \pi^+ + \pi^+$ at 590 MeV/c, cross sections for, (E), 21:29436
interactions K_2^0 + p at 168 to 343 MeV/c, total cross sections for, (E), 23:13038
interactions K_2^0 + p at 168 to 343 MeV/c, total cross sections for, (E), 22:34856
interactions K_2^0 + p at low energies, branching ratio and cross sections for s-wave, 21:21225
interactions K_2^0 + p below 280 MeV/c, K-matrix analysis of, (E/T), 24:49523
interactions of K^0—anti K^0 system, S-matrix for overlapping resonance, 25:40946
interactions of, CP invariance in, 23:34635 (PITHA-26)
interactions of, current and amplitude for electromagnetic, 23:8766 (JINR-P2-4047)
interactions of, formal treatment of resonance and decay in, 24:20124
interactions of, review on CP violation in weak and strong, 24:8693
interactions with electromagnetic fields, (T), 21:27330
invariance principles for, lectures on, 25:30915 (NP-18808)
$K^0 \to 2\pi$, CP violation in, 23:15093
lifetime of K_1^0 from decay in freon bubble chamber, (E), 24:15467
lifetime of K_1^0 from $K_1^0 \to \pi^+ + \pi^-$ decay, spark chamber study of, (E), 25:12078
lifetime of K_1^0 from π^- + p interactions at 1.5 GeV/c, (E), 22:24561
lifetime of K_1^0, spark chamber study of, (E), 23:14956 (COO-1195-153)
lifetime of K_2^0 from reactions with nuclei at 168 to 343 MeV/c, (E), 22:34856
lifetime of K_2^0, (E), 21:9695
lifetime of K_2^0, mean, (E), 25:33657
lifetime of K_2^0, measurement of mean, (E), 21:9696
lifetime of, review of, (E/T), 23:49040
lifetime, (E), 22:44313
mass difference (K^0 - anti K^0), agreement of charge asymmetry in K/sub e3/* and K/sub μ3/* decays with, (T), 22:32096
mass difference (K^0 - K^+) from K^+ + d $\to$ p + p + K^0 interactions, (E), 22:26548
mass difference (K^0 - K^+), predictions in terms of neutron—proton mass difference from relations of mass difference ratios with ratios of S-wave decay amplitudes, 23:39681
mass difference (K^0 - K^+), scalar and tensor tadpole contribution to, 22:46364
mass difference (K^0 - K^+), single-particle elastic contribution to electromagnetic mass shift for, 23:39665
mass difference (K_1 - K_2), dynamical model for, 21:23324 (NP-16681)
mass difference (K_1^0 - K_2^0), 21:40194
mass difference (K_1^0 - K_2^0) magnetic spectrometer with spark chambers study of $K_1^0 \to \pi^+ + \pi^-$ and $K_2^0 \to \pi^+ + \pi^-$ decays for, (E), 22:26556
mass difference (K_1^0 - K_2^0) mass and width of epsilon(700) from, 22:34964
mass difference (K_1^0 - K_2^0) Sakurai weak interaction Hamiltonian for, 24:8610
mass difference (K_1^0 - K_2^0), (E), 22:50341
mass difference (K_1^0 - K_2^0), (E), 21:21135
mass difference (K_1^0 - K_2^0), asymptotic chiral symmetry and superconvergence for, 21:42328
mass difference (K_1^0 - K_2^0), contribution of di-pion resonance to, 21:2436
mass difference (K_1^0 - K_2^0), contribution of meson (π) pole diagram to, 21:15302
mass difference (K_1^0 - K_2^0), covariant evaluation of, 21:9755
mass difference (K_1^0 - K_2^0), current algebra study of, 22:17915
mass difference (K_1^0 - K_2^0), dynamical model for scalar meson properties from, 22:26624
mass difference (K_1^0 - K_2^0), gap method for high precision in, (E), 25:1384 (PURC-4159-9)
mass difference (K_1^0 - K_2^0), intermediate vector boson model for, 22:20208
mass difference (K_1^0 - K_2^0), magnitude of, (E), 21:862 (BNL-10608)
mass difference (K_1^0 - K_2^0), mass of W and sum rules for spectral functions for finite expression for, 22:32095
mass difference (K_1^0 - K_2^0), repulsive potential for, 22:15762
mass difference (K_1^0 - K_2^0), S-wave π-π scattering model for, 21:21184
mass difference (K_1^0 - K_2^0), SU(3) pole model for, 22:11705
mass difference (K_1^0 - K_2^0), tadpole model for, 24:8613
mass difference (K_1^0 - K_2^0), tests of solutions to S-wave $\pi\pi$ scattering from, 21:21185
mass difference (K_1^0 - K_2^0), time dependence of anti K^0 + p interactions in hydrogen bubble chamber for determining, (E), 25:9631
mass difference (K_1^0 - K_2^0), Veneziano model for correct sign and magnitude of, (T), 25:25388
mass difference (K_1^0 - K_2^0), weak interaction theory with scalar intermediate bosons for, 24:52038
mass difference (K_2 - K_1), pole dominance model for, 21:33672

mass difference (K_L - K_S), relation of nonlinear density effect to, 21:9763
mass difference (K_L^0 - K_S^0) from interference effects in regeneration spark chamber study of, (E), 21:44256 (UCSD-10-P-10-102)
mass difference (K_L^0 - K_S^0) from $K_L^0 \rightarrow K_S^0$ regeneration from liquid hydrogen, 25:7558
mass difference (K_L^0 - K_S^0) from $K^- + d \rightarrow K^0 + p + p$ interactions at 600 MeV/c, (E), 23:13035
mass difference (K_L^0 - K_S^0) from K^- + N and K^+ + N interactions at 780 MeV/c, spark chamber study of, (E), 21:46469 (UCSD-10-P-10-104)
mass difference (K_L^0 - K_S^0) from Oakes theory of CP violation, 24:1631
mass difference (K_L^0 - K_S^0) from weak interaction S-matrix, 25:9740
mass difference (K_L^0 - K_S^0), (E), 21:2362
mass difference (K_L^0 - K_S^0), (E), 25:45637
mass difference (K_L^0 - K_S^0), (E), 23:21044 (NP-17758)
mass difference (K_L^0 - K_S^0), (E), 24:1522
mass difference (K_L^0 - K_S^0), (E), 25:22665
mass difference (K_L^0 - K_S^0), (E), 23:39602 (UCRL-19226)
mass difference (K_L^0 - K_S^0), current—current Hamiltonian and pole-dominance model for, 22:41788
mass difference (K_L^0 - K_S^0), determination of sign of, (E), 21:21133 (BNL-11179)
mass difference (K_L^0 - K_S^0), from 2π intermediate state, 23:51924
mass difference (K_L^0 - K_S^0), from K^- + p charge-exchange interactions at 825 to 1115 MeV/c, (E), 22:11579
mass difference (K_L^0 - K_S^0), gap method for measuring magnitude of, (E), 22:37072(R) (AD-663759)
mass difference (K_L^0 - K_S^0), gap method for precise determination of, (E), 24:51962
mass difference (K_L^0 - K_S^0), interference effects in regeneration for magnitude and sign of, (E), 22:37073
mass difference (K_L^0 - K_S^0), interference in 2π decay states for measuring, (E), 22:46320
mass difference (K_L^0 - K_S^0), magnitude and sign of, (E), 21:2357
mass difference (K_L^0 - K_S^0), precision determination of, (E), 24:45415
mass difference (K_L^0 - K_S^0), quark model based on K^0—anti K^0 transition for, 24:15564
mass difference (K_L^0 - K_S^0), review of, (E), 25:38642
mass difference (K_L^0 - K_S^0), review of, (E/T), 23:49040
mass difference (K_L^0 - K_S^0), sign of, (E), 25:45638
mass difference (K_L^0 - K_S^0), spark chamber study of magnitude and sign of, (E), 21:46468 (UCSD-10-P-10-103)
mass difference (K_L^0 - K_S^0), spin-zero pole dominance and hard-pion current algebra for, 25:53103
mass difference (K_L^0 - K_S^0), weak interaction cutoff from, 22:44387
mass difference (K_L^0 - K_S^0), weak-interaction cutoff limits from, (T), 22:26621
mass difference (K_L^0 - K_S^0), weak-interaction Hamiltonian for, (T), 25:20039
mass difference (K_L^0 - K_S^0), Weinberg scattering length for, 23:18891
mass difference (K_L^0 — K_S^0), coefficient of quadratic divergency and weak interaction cutoff for, 23:7125
mass difference (K_L^0—K_S^0), magnitude and sign of, (E/T), 24:47422
mass difference (K_L^0-K_S^0) of, magnetic spectrometer with spark chamber study of $K^0 \rightarrow \pi^+ + \pi^-$ decay for, (E), 22:34839
mass difference (K^+ - K^0) consistency test using Cottingham formula and finite-energy sum rules for, 25:30800
mass difference (K^- - K^0) from Veneziano representation, electromagnetic, 24:20099
mass difference (K^+ - K^0) high- and low-energy contributions to, 23:34560
mass difference (K^+ - K^0), analysis using hard-kaon current algebra and dispersion theory, 24:3571
mass difference (K^+ - K^0), bound-state models for electromagnetic, 21:29420
mass difference (K^+ - K^0), chiral SU(2) x SU(2) breaking of hadron energy density relation with nonzero Cabibbo angle for contribution to, 23:51980
mass difference (K^+ - K^0), contribution of A_2 Regge pole to, (T), 25:36496
mass difference (K^+ - K^0), contribution of Born term to electromagnetic, 25:12154
mass difference (K^+ - K^0), contribution of π^0/sub V/ tadpole to electromagnetic, 23:25556
mass difference (K^+ - K^0), current algebra and Weinberg sum rules for, 22:3327
mass difference (K^+ - K^0), current algebra, PCAC, chiral U(3) x U(3), and second Weinberg sum rule for electromagnetic, 24:6703
mass difference (K^+ - K^0), dependence on parameter from K/sub A/ $\rightarrow K^*\pi$ and $K^* \rightarrow K\pi$ decay rates, 23:23425
mass difference (K^+ - K^0), electromagnetic, 24:10714
mass difference (K^+ - K^0), electromagnetic, (T), 23:8782
mass difference (K^- - K^0), electromagnetic, (T), 23:8782
mass difference (K^+ - K^0), finite-energy sum rules for virtual Compton-effect amplitude for, 22:39316 (JINR-E2-3853)
mass difference (K^+ - K^0), magnitude and sign of, (T), 22:52961
mass difference (K^- - K^0), magnitude and sign of, (T), 22:52961
mass difference (K^+ - K^0), on-shell electromagnetic, 23:18860
mass difference (K^+ - K^0), spectral function sum rules and soft meson technique in current algebra for electromagnetic, 22:13693 (LPTHE-TH-221)
mass difference (K^+ - K^0), sum rule for electromagnetic, 22:26597
mass difference (K^+ - K^0), use of chiral SU(3) x SU(3) current algebra for calculating electromagnetic, 22:13818
mass difference (K^+ - K^0), use of finite-energy sum rules for virtual Compton scattering for calculating electromagnetic, 23:18851
mass difference (K^+ - K^0), vector meson exchange model for electromagnetic, 22:17902
mass difference (K^+ - K^0), Weinberg sum rule and soft-pion technique for electromagnetic, 22:41777
mass difference (K^+ - K^0)/(n - p) ratio, field algebra for electromagnetic, 22:26602
mass difference K_1^0 - K_2^0 from K^0 + p elastic interactions, (E), 21:42252
mass difference K_1^0 - K_2^0 from time dependence of anti K^0 interactions, (E), 21:7469
mass difference K_1^0 - K_2^0, strangeness oscillation technique for measuring, 21:13672(R) (AD-639664)
mass difference K^- - K^0 in SU(6), triplet model for electromagnetic, 21:13691
mass differences (K^+ - K^0), gauge-field algebra for divergences in electromagnetic, 21:40169
mass differences (K^+ - K^0), Veneziano models for, 24:15516
mass eigenstates for K_1^0 and K_2^0 in shell model, (T), 24:33015
mass matrix for K_1^0 - K_2^0 system, shell-model eigenstates of, 25:30861
mass matrix of K^0—anti K^0 complex, CP violation in dynamical structure of, (T), 25:36466
mass of K_1^0, (E), 22:11578
mass of, theory for origin of weak interaction Cabibbo angle for nonelectromagnetic isospin breaking for deviation from Dashen sum rule for, 23:42630 (ISS-69/18)
mass shift of K_1^0, multichannel N/D formalism for, (T), 25:9778
mixing parameters for K^0antiK^0 system, (T), 21:18990 (UCRL-16475(Rev.))
mixing with anti K^0, concept of antiparticles from CPT conjugation and, 21:27396
photoproduction of K_2^0 on aluminum at 4.25 and 5.5 GeV, 22:7427
production and decay in $e^+ + e^-$ interactions, (E), 23:32600 (LNF-69/6)
production from γ + n and γ + p interactions at 1.1 to 1.5 GeV in heavy-liquid bubble chamber and emulsion, quark model predictions for, 21:35251
production from γ + p interactions below 5.8 GeV in hydrogen bubble chamber, angular and momentum distributions from, 21:27292
production from p + p interactions at 10 GeV/c in hydrogen bubble chamber, 21:44267
production from $\pi^- + p \rightarrow K^0 + \Lambda^0$ interactions, Regge pole model with $K^*(890)$ and $K^*(1420)$ exchange for, 22:15797
production from $\pi^- + p \rightarrow K^0 + \Lambda^0(\Sigma^0)$ interactions at 4 GeV/c, spark chamber spectrometer study of forward and backward, associated, (E), 22:7448
production from $\pi^- + p \rightarrow K^0 + \Sigma^0$ interactions, Regge pole model with $K^*(890)$ and $K^*(1420)$ exchange for, 22:15797
production from $\pi^- + p \rightarrow \Lambda + K^0$ interactions at 5 to 12 GeV/c, spark chamber study of backward peak in, (E), 22:9515
production from $\pi^- + p \rightarrow \Lambda^0 + K^0$ at 1 GeV/c, K_2^0 3-body decay rate from, (E), 21:15259
production from $\pi^- + p \rightarrow Y^{*0} + K^0$ interactions at 1.6 to 4.2 GeV/c, (E), 21:42273
production in 24-BeV proton interactions in emulsion, 22:2831
production in anti p + p $\rightarrow K_1^0 + K_1^0 + \pi^+ + \pi^-$ at 0.7 and 1.2 GeV/c in hydrogen bubble chamber, $K_1^0K_1^0$ enhancements in, (E), 23:30710
production in anti p + p interactions at 1.6 to 2.2 GeV/c in hydrogen bubble chamber, (E), 25:12097
production in anti p + p two-body annihilations above 200 MeV/c, review of, 23:13086 (ANL/HEP-6812, pp 58-78)
production in Argonne ZGS, momentum distribution, intensity, and neutron background measurements for, 23:3860 (COO-1195-141)
production in $e^+ + e^- \rightarrow K^0$ + anti K^0 interactions, CP violation in, (T), 23:18838(T) (BNL-tr-249)
production in $\gamma + p \rightarrow$ anti $K^0 + K^0$ + p interactions, mass distributions from, 22:48202(R) (BMwF-FBK-68-01)
production in $\gamma + p \rightarrow \Sigma^+ + K^0$ interactions at 1.5 to 5 GeV, momentum spectra and cross sections for, (E), 25:3248
production in γ + p interactions up to 5.8 GeV, angular and momentum distributions of, 21:13671 (DESY-66/34)
production in $K^+ + d \rightarrow K^0 + p + p$ interactions at 600 MeV/c, sign of K_2^0 - K_1^0 mass difference from, (E), 21:2349
production in $K^+ + n \rightarrow K^0 + p$ at 3.0 GeV/c and 5.5 GeV/c, comparison of quark model and experimental cross sections for, 23:36928 (INR-P-1047)
production in $K^+ + n \rightarrow K^0 + p$ interactions near 600 MeV/c in deuterium bubble chamber, angular distribution for, (E), 24:6692
production in K^+ + p interactions at 12.7 GeV/c in hydrogen bubble chamber, cross sections for, 25:19914
production in K^+ + p interactions at 5 and 8.2 GeV/c, cross sections for, (E), 25:45671
production in p + p interactions at 5.4 and 6.6 GeV/c in hydrogen bubble chamber, (E), 24:6725
production in p + p interactions at 6 GeV/c, cross sections for, (E), 23:1589
production in photon reactions with aluminum, beryllium, and copper at 1.5 to 5 GeV, momentum spectra and cross sections for, (E), 25:3248
production in $\pi^- + p \rightarrow K^0 + \Lambda$ at 1.400 to 2.000 GeV in bubble chamber, cross sections, polarization, and exchange degeneracy test in, (E), 25:47741 (SLAC-131)
production in $\pi^- + p \rightarrow K^0 + \Lambda$ interactions at 944 to 1170 MeV/c in hydrogen bubble chamber, differential and total cross sections, polarization, and partial-wave analysis for, (E), 24:18077 (UCRL-18139)
production in $\pi^- + p \rightarrow K^0 + \Lambda(\Sigma^0)$ interactions at 6 to 11.2 GeV/c, spark chamber study of differential cross sections for associated, (E), 23:39616
production in $\pi^- + p \rightarrow K^0 + \Lambda^0$ (Σ^0) interactions at 6 to 11.2 GeV/c, differential cross sections of associated, (E), 22:39277 (CERN-68-7(Vol.2), pp 190-207)
production in $\pi^- + p \rightarrow K^0 + \Lambda^0$ interactions at 6 to 11.2 GeV/c, spark-chamber study of associated, (E), 23:23374
production in $\pi^- + p \rightarrow K^0 + \Sigma^0$ interactions at 6 to 11.2 GeV/c, spark-chamber study of associated, (E), 23:23374
production in $\pi^- + p \rightarrow \Lambda + K^0 + \pi^0$ interactions at 5.0 GeV/c in hydrogen bubble chamber, (E), 22:41735 (COO-1428-72)
production in π^+ + p interactions at 8.5 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25:22702
production in π^- reactions with nuclei at 3.86 GeV/c in freon bubble chamber, momentum and angular distributions for, (E), 25:33556
production of K^0 - anti K^0 pairs in π^- + p interactions at 6.0 GeV/c in hydrogen bubble chamber, (E), 23:42568
production of K^0 and anti K^0 in meson (π^-) reactions with light nuclei in freon bubble chamber, (E), 22:34852
production of $K^0_1K^0_2$ (1600) enhancement from K^- + p interactions at 4.25 GeV/c in hydrogen bubble chamber, (E), 22:3268 (ORO-2504-109)
production of K^0—anti K^0 systems in anti p + p interactions at rest, possible experiments for, (E/T), 25:38649
production of K_1^0 from anti p + p interactions at 1.2 GeV/c, (E), 21:40147
production of K_1^0 from $\pi^- + p \rightarrow K_1^0 + K_1^0 + n$ interactions, mass spectrum for, (T), 21:42366
production of K_1^0 in carbon, copper, lead, and tin by cosmic particles, cross sections for, (E), 22:22302
production of K_1^0 in $\pi^- + p \rightarrow K_1^0 + K_1^0 + n$ interactions at 4 and 5 GeV/c, (E), 24:3528
production of K_2^0 in electron reactions with beryllium at 10 and 16 GeV, (E), 23:25496
production of K_2^0 in $\gamma + p \rightarrow K^0 + \Sigma^+$ interactions up to 5 GeV, cross sections for, (E), 23:23337
production of K_2^0 in photon reactions with beryllium at 5.5 to 9.5 GeV, counter—spark chamber study of differential cross sections for, (E), 25:19887
production of mesons (K_2^0) in proton reactions with platinum at 2.8 GeV, (E), 22:34856
production of pure beam of, target—detector system for, 25:20144
production of single, in K^- + d interactions at 7.3 GeV/c in deuterium bubble chamber, cross sections for, (E), 25:12103
properties of K^0 - anti K^0 system, review of, (E/T), 23:49040
properties of K_1^0 and K_2^0 as elementary particles, conditions of relativistic wave equation for, 21:25268
properties of, review of experiments on, 21:40206 (CERN-67-18)
properties of, review of, (E/T), 23:49106
reactions of K_2^0 with lead at 150 MeV, cross section for Λ and Σ^0 production from, (E), 22:17870
reactions of K_1^0 with nuclei at 168 to 343 MeV/c, K_2^0 lifetime and total cross sections from, (E), 22:34856
reactions of mesons (K_2^0) with nuclei at 1.68 to 343 MeV/c, total cross sections for, (E), 22:34856
reactions with aluminum, carbon, copper, and lead at 9.0 GeV/c, total cross sections for, (E), 24:30466
reactions with argon, copper, and lead at 120 MeV, hyperon (Λ^0) and (Σ^0) production by, (E), 22:13986
reactions with argon, copper, and lead at 120 MeV, hyperons (Λ^0) and (Σ^0) production from, (T), 21:33699 (JINR-P1-3375)
reactions with carbon, chlorine, copper, and fluorine at 120 MeV, Λ^0 and Σ^0 production and total cross sections for, (T), 25:5300
reactions with lead at 150 MeV, cross sections for Λ and Σ^0 production in, (E), 21:40148 (JINR-P1-3441)
regeneration and interference, CP violation in, 22:1418 (JINR-P2-3513)
regeneration anti $K^0 \rightarrow K^0$ and $K^0 \rightarrow$ anti K^0, electromagnetic field interactions rather than CP violation for anomalous effects in, 22:20209
regeneration $K_1^0 \rightarrow K_2^0$, experiment for, 21:33674
regeneration $K_2^0 \rightarrow K_1^0$ amplitude in copper at 2.5 GeV/c, phase of CP violating parameter from, (E/T), 23:32683
regeneration $K_2^0 \rightarrow K_1^0$ amplitudes on protons and nuclei, test of Pomeranchuk theorem from, 24:33019
regeneration $K_2^0 \rightarrow K_1^0$ at 0.4 to 4.0 GeV/c in hydrogen bubble chamber, (E), 22:24524 (BNL-10312)
regeneration $K_2^0 \rightarrow K_1^0$ at 1.9 GeV/c on copper, interference of $K_2^0 \rightarrow \pi^+ + \pi^-$ and $K_1^0 \rightarrow \pi^+ + \pi^-$ decay amplitudes from, (E), 25:22665
regeneration $K_2^0 \rightarrow K_1^0$ at high energies for K + N and anti K + N interaction amplitudes for strange baryon resonances and electromagnetic K^0 dimensions, (T), 22:34932 (JINR-P1-3788)
regeneration $K_2^0 \rightarrow K_1^0$ at high energies in lead, q^2 dependence of differential nuclear regeneration cross section and intensity of, (E), 24:51916
regeneration $K_2^0 \rightarrow K_1^0$ at high energies, contribution to amplitude interference of $K_2^0 \rightarrow \pi^+ + \pi^-$ and $K_1^0 \rightarrow \pi^+ + \pi^-$ decays, 23:16957(T) (BNL-tr-243)
regeneration $K_2^0 \rightarrow K_1^0$ at high energies, design and performance of magnetic spark chamber spectrometer for studying, 25:8544 (JINR-P1-5361)
regeneration $K_2^0 \rightarrow K_1^0$ from liquid hydrogen, amplitude and phase of, 25:7558
regeneration $K_2^0 \rightarrow K_1^0$ in carbon and copper, optical model for amplitude and phase of, (T), 25:38749

regeneration $K_2^0 \to K_1^0$ in copper and lead, K^0 charge radius from coherent, (E), 24:1501
regeneration $K_2^0 \to K_1^0$ in copper at 1.5 to 3 GeV/c, interference effects in, (E), 24:30465
regeneration $K_2^0 \to K_1^0$ in copper at 2.5 GeV/c, phase for CP violating amplitude from, (E), 24:49306 (NEVIS-184)
regeneration $K_2^0 \to K_1^0$ in copper, amplitude of transmission, 22:50303
regeneration $K_2^0 \to K_1^0$ in copper, interference effects in, (E), 23:21044 (NP-17758)
regeneration $K_2^0 \to K_1^0$ in copper, phase and amplitude of, (E), 24:1522
regeneration $K_2^0 \to K_1^0$ in hydrogen and nuclei, test of Pomeranchuk theorem from interference effects from, 24:5315
regeneration $K_2^0 \to K_1^0$ in hydrogen at 0°, amplitude of, (T), 25:5294
regeneration $K_2^0 \to K_1^0$ on copper and lead at 2 to 7 GeV/c, angular dependence of, (E), 24:24223
regeneration $K_2^0 \to K_1^0$ on copper, (E), 24:37833 (PURC-2137-23)
regeneration $K_2^0 \to K_1^0$ on deuterons at high energies, differential cross section and phase of amplitude for, (T), 25:28049
regeneration $K_2^0 \to K_1^0$ on electrons, 25:47875
regeneration $K_2^0 \to K_1^0$ on electrons, (T), 23:8766 (JINR-P2-4047)
regeneration $K_2^0 \to K_1^0$ on electrons, asymmetry and CP violation in, (T), 23:18838(T) (BNL-tr-249)
regeneration $K_2^0 \to K_1^0$ on hydrogen, amplitudes for transmission, 25:47875
regeneration $K_2^0 \to K_1^0$ on hydrogen, dispersion relations for phase of, 21:18965
regeneration $K_2^0 \to K_1^0$ on hydrogen, effects of constant behavior of total cross sections above 30 GeV on amplitude of, (T), 25:25416 (IFVE-STF-70-3)
regeneration $K_2^0 \to K_1^0$ on nuclei, amplitudes for transmission, 25:47875
regeneration $K_2^0 \to K_1^0$ on nuclei, predictions from Pomeranchuk theorem for K + N interactions for, 24:28551
regeneration $K_2^0 \to K_1^0$ on protons, electromagnetic corrections to coherent, 25:33758
regeneration $K_2^0 \to K_1^0$, (T), 23:8766 (JINR-P2-4047)
regeneration $K_2^0 \to K_1^0$, charge and parity nonconservation in, (T), 23:46766
regeneration $K_2^0 \to K_1^0$, diffraction mechanism for coherent, 23:10783
regeneration $K_2^0 \to K_1^0$, dispersion relation predictions for phase of, 21:31601
regeneration $K_2^0 \to K_1^0$, electromagnetic radius of, 23:13071
regeneration $K_2^0 \to K_1^0$, review of, (E/T), 23:49106
regeneration $K_2^0 \to K_1^0$, spark chamber—magnetic spectrometer study of interference between $\pi^+\pi^-$ amplitudes from coherent, 21:33597
regeneration of K_1^0 in liquid hydrogen and copper, constructive interference between CP-violating $K_2^0 \to 2\pi$ decay and coherent, (E), 21:29436
regeneration of K_2^0 and K_1^0 in carbon, phase of, (E/T), 21:27298
regeneration of, CP nonconservation correlation with, (T), 24:49427
regeneration on aligned nuclei, spin effects in, 22:48281
regeneration on copper at 2.2 GeV/c spark chamber spectrometer study of phase of CP violating amplitude in, (E), 25:22864
regeneration on nuclei, spin effects in, 22:13714 (JINR-P2-3621)
regeneration phase from K_2^0 decay, method for measurement of, 24:45481
regeneration phase of K_1^0 in copper at 2.5 GeV/c, (E), 22:39246
search for mirror, possible experiments for, 22:48283
symmetry for K_1^0 and K_2^0, 23:39774
theory for K_1^0 and K_2^0, nonorthogonality in, 21:46505 (NEVIS-163)
theory for, review of CP in phenomenological, 21:27408
theory for, Wigner—Weisskopf method in, 22:7461
transition $K_2^0 \to K_1^0 + \gamma$, $K_2^0 \to \pi^+ + \pi^- + e^+ + e^-$ decay for determining radius of, (T), 23:1618
transmission through matter, nonlinear density effect in, 21:9763
width from leptonic decay rate of, (E), 23:39602 (UCRL-19226)
MESONS (anti K^0)
content of, in neutral kaon beam, (T), 25:27424
correlation experiments with K^0 pairs, interference of K_1^0 and K_2^0 decays in, 21:11764
CP violation in K^0 - anti K^0 system, review of parameters for, (E), 25:30925
CP violation in K^0—anti K^0 system, 21:46556 (CERN-67-27)
CP violation in K^0—anti K^0 system, model for, 25:47813
CPT violation in K^0—anti K^0 complex, tests of, (E), 24:43000
decay anti $K^0 \to 2\gamma$, time dependence of asymmetry relative to $K^0 \to 2\gamma$, 23:8828
decay anti $K^0 \to 2\pi$ (I = 2) amplitudes and CP violation, 22:3357
decay anti $K^0 \to 2\pi$, test of CPT invariance in, (T), 22:44469
decay anti $K^0 \to 3\pi$, interference effects in, (T), 23:13069
decay anti $K^0 \to 3\pi$, isotopic spin analysis of CP violating effects in, 22:1464 (N-67-22464)
decay anti $K^0 \to e^- + \pi^+$ + anti τ in spark chamber, test of $\Delta S = \Delta Q$ rule in, (E), 23:21047
decay anti $K^0 = e^+ + \pi^- + \tau$ in spark chamber, test of $\Delta S = \Delta Q$ rule in, (E), 23:21047
decay anti $K^0 \to K^- + e^+ + \tau$, SU(3) theory for, 22:5622
decay anti $K^0 \to \pi + e + \tau$ and anti $K^0 \to \pi^+ + \pi^- + \gamma$ in hydrogen bubble chamber, test of $\Delta S = \Delta Q$ rule and Sachs model of CP violation in, (E), 23:39602 (UCRL-19226)
decay anti $K^0 \to \pi + e + \tau$, test of $\Delta S = \Delta Q$ rule and time reversal invariance in spark chamber study of, (E), 25:45783
decay anti $K^0 \to \pi + e + \tau$, test of $\Delta S = \Delta Q$ selection rule in optical spark chamber study of, (E), 25:25292 (COO-1195-210)
decay anti $K^0 \to \pi^+ + \pi^0$, zero-energy theorem in current algebra for, 21:29495
decay anti $K^0 \to \pi^+ + e^-$ + anti τ, K_2^0 and K_1^0 nonorthogonality from phenomenological analysis of CP nonconservation in, 21:46571
decay anti $K^0 \to \pi^- + e^+ + \tau$, counter—spark-chamber study of test of $\Delta Q = \Delta S$ rule and CP invariance in, (E), 25:47924
decay anti $K^0 \to \pi^- + e^+ + \tau$, K_2^0 and K_1^0 nonorthogonality from phenomenological analysis of CP nonconservation in, 21:46571
decay anti $K^0 \to \pi^+ + l^-$ + anti $\tau + \gamma$ from soft-photon theorems, photon spectra and branching ratio for, (T), 24:45475
decay anti $K^0 \to \pi^+ + l^- + \tau$, form factors for, (T), 24:45475
decay anti $K^0 \to \pi^- + l^+ + \tau$, phenomenological analysis for CP-violating parameters in, (T), 24:52162
decay anti $K^0 \to \pi^+ + \mu^-$ + anti τ, T-odd correlation and π electromagnetic form factor in, (T), 21:42325 (ITEF-492)
decay anti $K^0 \to \pi^+ + \mu^-$ + anti τ, T-odd correlation and π electromagnetic form factor in, 22:5554
decay anti $K^0 \to \pi^+ + \pi^-$, zero-energy theorem in current algebra for, 21:29495
decay anti $K^0 \to \pi^+(\pi^-) + e^-(e^+) + \tau$, test of $\Delta S = \Delta Q$ rule in spark chamber study of amplitudes of, (E), 25:1383 (COO-1195-195)
decay anti $K_1^0 \to \pi^+ + \pi^-$ in hydrogen bubble chamber, branching ratio for, (E), 25:50052 (NEVIS-187)
decay anti $K_2^0 \to \pi^- + e^+ + \tau$, CP violation in $\Delta S = \Delta Q$ selection rule for, 23:21089
decay in hydrogen bubble chamber, test of $\Delta S = \Delta Q$ rule and Sachs model of CP violation in leptonic and radiative, (E), 25:5262
decay of K^0—anti K^0 system, Weisskopf—Wigner and exponential decay methods for, 24:28529
decay of, sign of (K_1^0 - K_2^0) mass difference from, (E), 21:21135
decay of, unitarity for $\pi + \pi \to \pi + \pi + \gamma$ contribution to matrix elements for, 22:1419 (TH-206)
decay, (E/T), 21:21187
decays of, CP violation in, 23:25671
decays of, $\Delta S = -\Delta Q$ parameter for leptonic, 22:44318
decays of, selection rules and PC conservation in, 21:33664
interactions anti K + K, current algebra and PCAC for double soft π production from, 21:9778
interactions anti K^0 + d $\to$ p + A, existence of peaks in cross sections for, 23:36955
interactions anti K^0 + d, double strangeness exchange in, 24:24391 (JINR-P2-5028)
interactions anti K^0 + N $\to$ K + Ξ at 2 to 5 GeV/c, Regge cut model for near-forward differential cross sections for, 25:59483
interactions anti K^0 + N, asymptotic behavior of amplitudes of, 23:16957(T) (BNL-tr-243)
interactions anti K^0 + N, cross section differences between K^0 + N and, 24:5315
interactions anti K^0 + p $\to \Lambda + \pi$ and anti K^0 + p $\to \Sigma + \pi$ in quark model, Λ to Σ ratio in, 22:17967
interactions anti K^0 + p $\to \Lambda + \pi^+$ and anti K^0 + p $\to \Sigma^0 + \pi^+$ quark model for Λ to Σ ratio in isospin-1 s-wave, (T), 21:27374
interactions anti K^0 + p $\to \Lambda + \pi^+$ at 0 to 900 MeV/c, mixing parameters from, (E), 25:38666
interactions anti K^0 + p $\to \Lambda + \pi^+$, current algebra calculation of Λ/Σ ratio in I = 1 state for s-wave, (T), 22:7504 (NP-17150)
interactions anti K^0 + p $\to \Sigma^0(\Sigma^+) + \pi^+(\pi^0)$, current algebra calculation of Λ/Σ ratio in I = 1 state for s-wave, (T), 22:7504 (NP-17150)
interactions anti K^0 + p in hydrogen bubble chamber, K_1^0 - K_2^0 mass difference determination from time dependence of, (E), 25:9631
interactions anti K^0 + p, j-plane singularities in superconvergent sum rules for, 23:27804
interactions in electromagnetic fields, K^0—anti K^0 transitions from, 21:37746
interactions K^+ + anti $K^0 \to K^+$ + anti K^0, factorization constraints on Veneziano model for, 24:3640
interactions K^+ + anti $K^0 \to \pi^+ + \pi^0$, factorization constraints on Veneziano model for, 24:3640
interactions of, K_1^0 - K_2^0 mass difference from time dependence of, (E), 21:7469
interactions π^+ + anti K^0 with broken symmetry, review of nonrenormalization theorem in current algebra for, 23:49103
interactions Ξ^- + anti K^0, properties of Ω^- bound state in, 21:11773
mass difference (K^0 - anti K^0), agreement of charge asymmetry in K/sub e3/° and K/sub μ3/° decays with, (T), 22:32096
mass matrix of K^0—anti K^0 complex, CP violation in dynamical structure of, (T), 25:36466
mixing parameters for K^0antiK^0 system, (T), 21:18990 (UCRL-16475(Rev.))
mixing with K^0, physical antiparticle states from CPT conjugation and, 21:27396
production in anti p + p two-body annihilations above 200 MeV/c, review of, 23:13086 (ANL/HEP-6812, pp 58-78)
production in $e^+ + e^- \to K^0$ + anti K^0 interactions, CP violation in, (T), 23:18838(T) (BNL-tr-249)
production in γ + p $\to$ anti K^0 + K^0 + p interactions, mass distributions from, 22:48202(R) (BMwF-FBK-68-01)
production in K^- + d interactions at 4.48 GeV/c in deuterium bubble chamber, visible, (E), 24:32965 (COO-1428-166)
production in K^- + p $\to$ anti K^0 + n interactions at 400 MeV/c in hydrogen bubble chamber, (E), 25:5262
production in K^- + p $\to$ anti K^0 + neutrals at 7.7 GeV/c, cross sections for, (E), 23:14974
production in K^- + p interactions at 10.1 GeV/c, cross sections for, (E), 25:45671
production of anti K^0 in π^+ + p interactions at 1.7 GeV/c, cross sections for, (E), 25:12104
production of K^0 - anti K^0 pairs in π^- + p interactions at 6.0 GeV/c in hydrogen bubble chamber, (E), 23:42568
production of K^0—anti K^0 systems in anti p + p interactions at rest, possible experiments for, (E/T), 25:38649
properties of, review of experiments on, 21:40206 (CERN-67-18)
regeneration anti $K^0 \to K^0$ and $K^0 \to$ anti K^0, electromagnetic field interactions rather than CP violation for anomalous effects in, 22:20209
theory for, Wigner—Weisskopf method in, 22:7461
MESONS (K^+)
charge of, magnitude relative to π^+ and π^-, (T), 21:33627
coupling constant for ωKantiK relative to phiKantiK, ω—phi mixing angle from, 22:11666
coupling constants for, SU(3) x SU(3) charge algebra and PCAC and PCVC hypotheses for sum rules for f/sub K^+/f/sub π/ and f/sub K^0/f/sub K^+/, (T), 24:45572
decay at rest, magnetic spectrometer study of branching ratios for two- and three-body muonic, two-body pionic, and three-body electronic, (E), 24:3504
decay in emulsion, branching ratios for, (E), 21:29435
decay $K^+ \to \mu^+ + \tau + \gamma$, test of T invariance in, (T), 21:2438
decay $K^0 \to 2\pi$, quark model for parity-violating, 21:18960
decay $K^+ \to \omega^+ + \pi^0 + \pi^0$, CP violation in, 25:47923
decay $K^+ \to 2\pi + e + \tau$, review of, (E/T), 25:47721
decay $K^+ \to 2\pi$, conservation laws and selection rules in, 22:3484 (LPTHE-TH-204)
decay $K^+ \to 2\pi$, $\Delta I = {}^1/_2$ rule for branching ratio for, 21:27348
decay $K^+ \to 2\pi$, meso-strong interaction for $\Delta I = {}^1/_2$ rule violation in, 21:35282
decay $K^+ \to 2\pi$, model with icosuplet weak coupling Hamiltonian for, 21:9761
decay $K^+ \to 2\pi$, weak isospin space for $K^+ \to 2\pi/K_1^0 \to 2\pi$ ratio for, 21:37771
decay $K^+ \to 2\pi^0 + e^+ + \tau$, $\pi\pi$ phase shift extraction from, (T), 22:39387
decay $K^+ \to 2\pi^+ + \pi^-$ at rest in propane bubble chamber, $\Delta I = 1/2$ violation in, (E), 23:49037
decay $K^+ \to 2\pi^+ + \pi^-$, CP invariance from upper limit for asymmetry of, (E), 25:33790 (PURC-4159-24)
decay $K^+ \to 2\pi^+ + \pi^-$, search for CP violation in, (E), 25:3427
decay $K^+ \to 3\pi$ at rest in propane bubble chamber, amplitudes and slopes of, (E), 25:5264
decay $K^+ \to 3\pi$ at rest, π energy spectrum and $\Delta I = {}^1/_2$ rule violation in, (E>, 25:19895
decay $K^+ \to 3\pi$ at rest, π energy spectrum for, (E), 24:20065 (AD-697966)
decay $K^+ \to 3\pi$ in emulsions and bubble chamber, 21:31525(R) (UCR-34-P-107-46)
decay $K^+ \to 3\pi$ in propane bubble chamber, $\Delta T = {}^1/_2$ rule violation and CP invariance in, (E), 25:5263
decay $K^+ \to 3\pi$ in propane bubble chamber, π energy spectrum from, (E), 24:32960
decay $K^+ \to 3\pi$, branching ratio for, (E), 24:49308
decay $K^+ \to 3\pi$, broken chiral U(3) x U(3) model for amplitude of, 23:8829
decay $K^+ \to 3\pi$, CP conserving P-wave amplitudes in, 24:10691(R) (COO-264-532)
decay $K^+ \to 3\pi$, CP invariance and $\Delta I = {}^1/_2$ rule in energy spectra of like and unlike π in, (E), 24:20069
decay $K^+ \to 3\pi$, CP invariance violation in, (T), 23:5656
decay $K^+ \to 3\pi$, I = J = 0 dipion state (400 MeV) with CDD pole for, 21:17097
decay $K^+ \to 3\pi$, isospin analysis of possible CP violating effects in, 22:3349
decay $K^+ \to 3\pi$, isotopic spin analysis of CP violating effects in, 22:1464 (N-67-22464)
decay $K^+ \to 3\pi$, K- and π-mass difference effects on $\Delta T = 1/2$ rule violation in, (T), 22:44385 (IFVE-STF-68-2-K)
decay $K^+ \to 3\pi$, pion pole model for branching ratios of, (T), 23:8780
decay $K^+ \to 3\pi$, $\pi + \pi$ scattering length determination from branching ratio relations and spectra of, (E/T), 23:49099
decay $K^+ \to 3\pi$, π^+ energy spectrum and branching ratios for, (E), 25:19896
decay $K^+ \to 3\pi$, Regge theory for final-state interactions in, (T), 23:8801
decay $K^+ \to e + \tau$, test of V—A theory of weak interactions in spark chamber study of branching ratio for, (E), 25:59256
decay $K^+ \to e + \pi^0 + \tau$, Dalitz plot for, (E), 22:24530
decay $K^+ \to e^+ + e^- + \pi^+$ in deuterium bubble chamber, (E), 22:5497
decay $K^+ \to e^+ + \tau + \gamma$, on-shell current algebra for, (T), 24:40345
decay $K^+ \to e^+ + \tau + \gamma$, upper limit to branching ratio for structure-dependent radiation in, (T), 24:33006
decay $K^+ \to e^+ + \tau + \pi^0 + \gamma$, verification of time reversal invariance in, (T), 24:10800
decay $K^+ \to e^+ + \tau + \pi^+ + \pi^- + \pi^0$, pion-pole model for rate of, 22:3252
decay $K^+ \to e^+ + \tau$ relative to $K^+ \to \mu + \tau$, rate of, (E), 23:8726
decay $K^+ \to e^+ + \tau$ relative to $K^+ \to \mu^+ + \tau$, branching ratio for, (E), 22:44311
decay $K^+ \to e^+ + \tau$, branching ratio for, (E), 21:18888

decay $K^+ \to e^+ + \tau$, branching ratio for, (E), 25:1387 (UCRL-20079)
decay $K^+ \to e^+ + \tau$, search for excited electron in, 21: 42250
decay $K^+ \to e^+ + \tau$, spark chamber study of branching ratio relative to $K^+ \to \mu^+ + \tau$ for, (E), 21:46473
decay $K^+ \to e^+ + \tau$, spark chamber, scintillation, and Cherenkov counter study of branching ratio for, (E), 22:3254
decay $K^+ \to e^+ + \tau$, test of V—A theory of weak interactions in branching ratio for, (E), 25:33525 (UCRL-20031)
decay $K^+ \to e^+ + \pi + \tau$, determination of form factor for, 25:47804
decay $K^+ \to e^+ + \pi^0 + \tau$ and $K^+ \to \mu + \pi^0 + \tau$, branching ratios for, (E), 21:37653(R) (UCLA-34-P-106-1)
decay $K^+ \to e^+ + \pi^0 + \tau$ in heavy liquid bubble chamber, coupling and form factor structure in, (E), 22:9506
decay $K^+ \to e^+ + \pi^0 + \tau$ in SU(3) x SU(3) current algebra, form factors at finite momentum transfer for, 21:37760
decay $K^+ \to e^+ + \pi^0 + \tau$ relative to $K^+ \to \mu + \tau$, branching ratio for, (E), 23:42547
decay $K^+ \to e^+ + \pi^0 + \tau$, branching ratios and rates of, (E), 22:50287
decay $K^+ \to e^+ + \pi^0 + \tau$, branching ratios for, (E), 22: 39242 (UCRL-18245)
decay $K^+ \to e^+ + \pi^0 + \tau$, effect of derivative coupling components in weak leptonic currents on, 23:49107
decay $K^+ \to e^+ + \pi^0 + \tau$, energy dependence of form factor in, 21:35255 (PPAD-621-F)
decay $K^+ \to e^+ + \pi^0 + \tau$, measurement of branching ratios for, (E), 23:1588
decay $K^+ \to e^+ + \pi^0 + \tau$, radiative corrections to Dalitz plot for, 22:3359
decay $K^+ \to e^+ + \pi^0 + \tau$, renormalization of form factor of, 23:5584
decay $K^+ \to e^+ + \pi^0 + \tau$, spark chamber and Cherenkov counter study of energy dependence of form factor for, (E), 22:34835
decay $K^+ \to e^+ + \pi^0 + \tau$, spark-chamber-counter study of energy dependence of form factor in, (E), 21:42251
decay $K^+ \to e^- + \pi^+ + \pi^+$ + anti τ in heavy-liquid bubble chamber, (E), 23:32611
decay $K^+ \to e^+ + \pi^+ + \pi^- + \tau$ in heavy-liquid bubble chamber, (E), 23:32611
decay $K^+ \to e^+ (\mu^+) + \pi^0 + \tau$, review of, (T), 24: 30491
decay $K^+ \to e^+(\mu^+) + \tau$, counter and spark chamber study of relative rate of, (E), 25:12077
decay $K^+ \to e^+(\mu^+) + \tau$, pseudoscalar coupling of urbaryons from, 23:25583
decay $K^+ \to \gamma + e^+ + \tau$, on-shell current algebra for branching ratio for, 25:5342
decay $K^+ \to \gamma + e^+ + \tau$, on-shell current algebra for effects of electromagnetic violations of time reversal invariance in, 25:5342
decay $K^+ \to \gamma + \pi + \pi$, CP noninvariant effects in, (T), 21:17149
decay $K^+ \to \gamma + \pi^0 + \pi^+$, CP noninvariance with $\Delta T > 1/2$ in, 21:21188
decay $K^+ \to l^+ + \pi^0 + \tau$, form factors from saturation of current algebra, 22:13726
decay $K^+ \to l^+ + \pi^0 + \tau$, review of experiments on, 22:13643
decay $K^+ \to \mu + \tau + \gamma$, spark chamber study of upper limit for branching ratio of, (E), 23:16927 (UCRL-18653)
decay $K^+ \to \mu + \tau$, strong couplings from, 24:3597
decay $K^+ \to \mu + \pi^0 + \tau$ relative to $K^+ \to e + \pi^0 + \tau$, form factor ratio from branching ratio, 22:50349
decay $K^+ \to \mu + \pi^0 + \tau$, Dalitz plot for, (E), 22: 24530
decay $K^+ \to \mu^+ + 2\tau$ + anti τ, μ^+ energy spectrum and polarization, $\tau + \tau$ interaction, and total probability for, (T), 25:50107 (JINR-E2-5881)
decay $K^+ \to \mu^+$ + anti $\tau + \pi^0$, radiative corrections for rate of, 23:39657
decay $K^+ \to \mu^+ + \mu^- + \pi^+$ in deuterium bubble chamber, (E), 22:5497
decay $K^+ \to \mu^+ + \tau + e^+ + e^-$, test of time reversal invariance in, (T), 24:28576
decay $K^+ \to \mu^+ + \tau + e^+ + e^-$, test of time reversal invariance in, 21:42416
decay $K^+ \to \mu^+ + \tau + \gamma$, possibility of experimental separation of direct emission processes and bremsstrahlung in, (T), 22:13713 (JINR-P1-3594)
decay $K^+ \to \mu^+ + \tau$ in spark chamber, μ^+ polarization vector from, (E), 24:3505
decay $K^+ \to \mu^+ + \tau$ relative to $K^+ \to e^+ + \tau$, rate of, (E), 23:8726
decay $K^+ \to \mu^+ + \tau$ relative to $K^- \to \mu^- + \tau$, test of CPT invariance from rate, (E), 22:48346
decay $K^+ \to \mu^+ + \tau$, branching ratio for, (E), 25:1387 (UCRL-20079)
decay $K^+ \to \mu^+ + \tau$, branching ratio for, (E), 23:42547
decay $K^+ \to \mu^+ + \tau$, branching ratios for, (E), 22:39242 (UCRL-18245)
decay $K^+ \to \mu^+ + \tau$, branching ratios for, (E), 22:15667
decay $K^+ \to \mu^+ + \tau$, Cherenkov counter study of branching ratio for, (E), 21:42255
decay $K^+ \to \mu^+ + \tau$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
decay $K^+ \to \mu^+ + \tau$, $\tau + n \to p + \mu^-$ and $\tau + p \to n + e^+$ at high energies, search for V + A currents in cross sections for, (E/T), 24:42868
decay $K^+ \to \mu^+ + \tau$, test of muonic lepton number conservation in, (E), 23:42540
decay $K^+ \to \mu^+ + \tau$, wavelength shifters for liquid Cherenkov detectors for detection and measurement of, 23:21968
decay $K^+ \to \mu^+ + \tau$, weak interaction model for, 22: 1421
decay $K^+ \to \mu^+ + \tau$/sub μ/, scintillation counter study of branching ratio and rate for, 21:29432
decay $K^+ \to \mu^+ + \tau$/sub μ/, zero-energy theorem in current algebra for, 21:29495
decay $K^+ \to \mu^+ + \pi^0 + \tau$ at rest, spark chamber study of μ^+ polarization from, (E), 21:44275(R) (ORO-2504-107)
decay $K^+ \to \mu^+ + \pi^0 + \tau$ in spark chamber, muon longitudinal polarization in, (E), 22:50284 (ORO-2504-119)
decay $K^+ \to \mu^+ + \pi^0 + \tau$ in SU(3) x SU(3) current algebra, form factors at finite momentum transfer for, 21:37760
decay $K^+ \to \mu^+ + \pi^0 + \tau$ relative to $K^+ \to \mu + \tau$ branching ratio for, (E), 23:42547
decay $K^+ \to \mu^+ + \pi^0 + \tau$, branching ratios and rates of, (E), 22:50287
decay $K^+ \to \mu^+ + \pi^0 + \tau$, branching ratios for, (E), 22:39242 (UCRL-18245)
decay $K^+ \to \mu^+ + \pi^0 + \tau$, effect of derivative coupling components in weak leptonic currents on, 23:49107
decay $K^+ \to \mu^+ + \pi^0 + \tau$, form-factor analysis from total polarization measurement in, 22:46321
decay $K^+ \to \mu^+ + \pi^0 + \tau$, measurement of branching ratios for, (E), 23:1588
decay $K^+ \to \mu^+ + \pi^0 + \tau$, μ^+ spectra from, (E), 21: 18890
decay $K^+ \to \mu^+(e^+) + \tau$ in model with J-violation, 23: 1661
decay $K^+ \to \pi + e + \tau$, asymptotic symmetry for mixing parameters between π^0, eta^0, and eta$'^0$(958) in broken SU(2) and SU(3) symmetries for violation of $\Delta I = 1/2$ rule in, 24:37836
decay $K^+ \to \pi + e + \tau$, branching ratios for, (E), 22: 15667
decay $K^+ \to \pi + \gamma$, upper limit for, (E), 21:26150 (MIT-2098-299, pp 35-51)
decay $K^+ \to \pi + l + \tau$, chiral U(3) X U(3) Lagrangian with symmetry breaking for form factors of, 23:39778
decay $K^+ \to \pi + l + \tau$, radiative corrections to Dalitz plot of, (T), 25:45715
decay $K^+ \to \pi + l^+ + \tau$ form factors from $K^+ \to \pi^0 + l^+ + \tau + \gamma$ decays, 24:3599
decay $K^+ \to \pi + \mu + \tau$ at rest, meson (μ) polarization from, (E), 24:10732
decay $K^+ \to \pi + \mu + \tau$, branching ratios for, (E), 22: 15667
decay $K^+ \to \pi + \mu + \tau$, radiative corrections to Dalitz plot for, 24:24321
decay $K^+ \to \pi + \pi + e + \tau$, current algebra for vector form factor for, 22:7486
decay $K^+ \to \pi + \pi + e + \tau$, form factors and rate of, 25:9747
decay $K^+ \to \pi + \pi + e + \tau$, low-energy $\pi\pi$ phase shifts and form factors from, 25:59263
decay $K^+ \to \pi + \pi + \pi + e^+ + \tau$, PCAC hypothesis and SU(3) current algebra for form factors for, 22: 24622
decay $K^+ \to \pi^0 + l^+ + \tau$ and $K^+ \to l^+ + \tau$, review of low-energy theorems in current algebra for Callan—Treiman relation for matrix elements of, 23:39683
decay $K^+ \to \pi^0 + e^+ + \tau + \gamma$, branching ratio for, (E), 25:56410
decay $K^+ \to \pi^0 + e^+ + \tau + \gamma$, radiative corrections and branching ratio for, (E/T), 25:45693 (LAL-RI-71-1)
decay $K^+ \to \pi^0 + e^+ + \tau$ in freon bubble chamber, energy dependence of vector form factor for, (E/T), 21:37671
decay $K^+ \to \pi^0 + e^+ + \tau$ in freon bubble chamber, kinematic properties of, (E), 22:11580
decay $K^+ \to \pi^0 + e^+ + \tau$ in heavy-liquid bubble chamber, form factor in, (E), 25:56409
decay $K^+ \to \pi^0 + e^+ + \tau$ relative to $K^0 \to \pi + e + \tau$, radiative corrections to, 22:44391
decay $K^+ \to \pi^0 + e^+ + \tau$, associative algebraic model for, 23:21085
decay $K^+ \to \pi^0 + e^+ + \tau$, branching ratio and positron momentum spectra in, (E), 22:15666
decay $K^+ \to \pi^0 + e^+ + \tau$, Dalitz-plot distributions for, (E), 22:34938
decay $K^+ \to \pi^0 + e^+ + \tau$, field and quark algebra predictions from identity for relation of current commutator with rate of, (T), 25:17455
decay $K^+ \to \pi^0 + e^+ + \tau$, radiative corrections to, 23: 34557
decay $K^+ \to \pi^0 + e^+ + \tau$, review of determinations of form factors of, (T), 23:25574 (CERN-69-7, pp 263-70)
decay $K^+ \to \pi^0 + e^+ + \tau$, spark chamber study of branching ratios for, 21:35253 (NEVIS-161)
decay $K^+ \to \pi^0 + e^+ + \tau$, SU(3) symmetry for, 22: 11703
decay $K^+ \to \pi^0 + e^+ + \tau$, SU(3) symmetry theory for, 22:5620
decay $K^+ \to \pi^0 + e^+ + \tau$, SU(3) theory for, 22:5622
decay $K^+ \to \pi^0 + e^+ + \tau$, theory of neutral weak current for, 25:12170
decay $K^+ \to \pi^0 + e^+ + \tau$, wavelength shifters for liquid Cherenkov detectors for detection and measurement of, 23:21968
decay $K^+ \to \pi^0 + e^+ + \tau$, weak interaction model for, 22:1421
decay $K^+ \to \pi^0 + e^+ (\mu^+) + \tau$ at rest, form factor ratio from spark chamber and Cherenkov counter study of, (E), 24:21924
decay $K^+ \to \pi^0 + e^+(\mu^+) + \tau$ and $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, current algebra and soft-pion theorems for form factors of, 22:34944
decay $K^+ \to \pi^0 + l + \tau$, SU(3) breaking for, 25:14649
decay $K^+ \to \pi^0 + l^+ + \tau + \gamma$ in current algebra, $K^+ \to \pi + l^+ + \tau$ form factors, photon spectra, and rates from, 24:3599
decay $K^+ \to \pi^0 + l^+ + \tau + l$, Cabibbo theory for form factors and sum rules for, 23:36897
decay $K^+ \to \pi^0 + l^+ + \tau$ in Veneziano model, form factor for, 24:49406
decay $K^+ \to \pi^0 + l^+ + \tau$, branching ratios for, (E), 22: 22293
decay $K^+ \to \pi^0 + l^+ + \tau$, field—current identity and universality for parameters of, 22:48278
decay $K^+ \to \pi^0 + \mu^+ + \tau$ in spark chamber, μ^+ polarization vector from, (E), 24:3505
decay $K^+ \to \pi^0 + \mu^+ + \tau$ in spark chamber, π^0 energy spectra from, (E), 23:32607 (UCRL-18433)
decay $K^+ \to \pi^0 + \mu^+ + \tau$ with finite neutrino mass, radiative corrections to, 22:24615
decay $K^+ \to \pi^0 + \mu^+ + \tau$, Dalitz plot density and μ^+ polarization in, (E), 25:14534
decay $K^+ \to \pi^0 + \mu^+ + \tau$, Dalitz-plot distributions for, (E), 22:34938
decay $K^+ \to \pi^0 + \mu^+ + \tau$, discrepancies in measurements of xi in, (T), 22:39343 (UCRL-18231)
decay $K^+ \to \pi^0 + \mu^+ + \tau$, form factor data analysis for, 21:37757
decay $K^+ \to \pi^0 + \mu^+ + \tau$, form factors in, (E), 23: 44589
decay $K^+ \to \pi^0 + \mu^+ + \tau$, measurement of μ polarization vector in, (E), 23:10741 (UCRL-18143)
decay $K^+ \to \pi^0 + \mu^+ + \tau$, parameters for, (E), 21:870
decay $K^+ \to \pi^0 + \mu^+ + \tau$, spark chamber study of branching ratio for, 21:35253 (NEVIS-161)
decay $K^+ \to \pi^0 + \mu^+ + \tau$, spark chamber study of meson (μ^+) polarization vector in, (E), 23:44588
decay $K^+ \to \pi^0 + \mu^+ + \tau$, spark chamber study of μ^+ total polarization in, (E), 22:24525
decay $K^+ \to \pi^0 + \mu^+ + \tau$, spectra and μ^+ polarization in, (T), 23:49101
decay $K^+ \to \pi^0 + \mu^+ + \tau$/sub mu/, SU(3) theory for, 22:5622
decay $K^+ \to \pi^0 + \mu^+ + \tau$/sub μ/, zero-energy theorem in current algebra for, 21:29495
decay $K^+ \to \pi^0 + \mu^+ + \tau$/sub τ/, SU(3) symmetry theory for, 22:5620
decay $K^+ \to \pi^0 + \pi^0 + e^+ + \tau$, review of, (E/T), 23: 49038
decay $K^+ \to \pi^0 + \pi^0 + l^+ + \tau$, chiral SU(3) X SU(3) gauge-invariant dynamics for form factors of, 24:35680
decay $K^+ \to \pi^0 + \pi^0 + l^+ + \tau$, form factors for rate of, 22:13722
decay $K^+ \to \pi^0 + \pi^0 + l^+ + \tau$, π—π phase shifts and form factors from, (T), 22:44400
decay $K^+ \to \pi^0 + \pi^0 + \pi^0 + e^+ + \tau$/sub e/, PCAC and current algebra for form factors for, 21:31570
decay $K^+ \to \pi^0 + \pi^0 + \pi^+ + \gamma$, Low theory for, 22: 41789
decay $K^+ \to \pi^0 + \pi^0 + \pi^+$, CP violation effects on spectra of, (T), 23:13070
decay $K^+ \to \pi^0 + \pi^0 + \pi^+$, model for amplitude of, 22:32107
decay $K^+ \to \pi^0 + \pi^0 + \pi^+$, model for $\Delta T = 3/2$ admixture of, 22:9573
decay $K^+ \to \pi^0 + \pi^0 + \pi^+$, pion scattering lengths from, 22:17924
decay $K^+ \to \pi^0 + \pi^0 + \pi^+$, violation of $\Delta I = {}^1/_2$ rule in, (T), 24:52051
decay $K^+ \to \pi^0 + \pi^0 + \pi^+$, violation of $\Delta I = 1/2$ rule in, 25:47808
decay $K^+ \to \pi^0 + \pi^+$ relative to $K^+ \to \mu + \tau$, branching ratio for, (E), 23:42547
decay $K^+ \to \pi^0 + \pi^+$, CP noninvariance with $\Delta T > 1/2$ in, 21:21188
decay $K^+ \to \pi^0\pi^0\pi^+$, Faddeev equations for 3π final-state interactions in, (T), 21:907 (UCR-34-P-107-35)
decay $K^+ \to \pi^+ + 2\gamma$, mechanism of, 21:40195
decay $K^+ \to \pi^+ + 2\gamma$, sigma- and eta-pole approximation models for, (T), 22:7637(R) (COO-1573-33)
decay $K^+ \to \pi^+ + 2\pi^0$ at rest in heavy-liquid bubble chamber, energy dependence of matrix elements for, (E/T), 24:37612 (LAL-1232)
decay $K^+ \to \pi^+ + 2\pi^0$ in emulsions and bubble chamber, π^+ energy spectrum in, (E), 24:51918
decay $K^+ \to \pi^+ + 2\pi^0$, comparison with $K^- \to \pi^- + 2\pi^0$ decay for partial rates of, (E), 25:5261
decay $K^+ \to \pi^+ + 2\pi^0$, PCAC hypothesis and $\Delta T = 1/2$ rule violation in amplitude of, 22:24612
decay $K^+ \to \pi^+ + e^+ + e^-$ and $K^+ \to \pi^+ + \mu^+ + \mu^-$, branching ratios for, (T), 23:13068
decay $K^+ \to \pi^+ + e^+ + e^-$ in current algebra, rate of, 23:46669
decay $K^+ \to \pi^+ + e^+ + e^-$ in vector-meson dominance model, 22:41786
decay $K^+ \to \pi^+ + e^+ + e^-$ relative to $K^+ \to \pi^+ + \pi^0 + \gamma$, current algebra calculations of, 23:46669
decay $K^+ \to \pi^+ + e^+ + e^-$ with virtual photon emission, W boson theory for divergences of amplitudes of, (T), 25:30805 (NP-18777)
decay $K^+ \to \pi^+ + e^+ + e^-$, CP violation in, 23:1666
decay $K^+ \to \pi^+ + e^+ + e^-$, Nishijima model for, 21: 37767
decay $K^+ \to \pi^+ + e^+ + e^-$, quark model for rate of, 21: 9758
decay $K^+ \to \pi^+ + e^+ + e^-$, rates for, (T), 21:9756
decay $K^+ \to \pi^+ + e^+ + e^-$, rates of, (T), 21:4013 (JINR-P2-2954)
decay $K^+ \to \pi^+ + e^+ + e^-$, S-wave amplitude for, (T), 21:5378
decay $K^+ \to \pi^+ + e^- + e^+$, theory of neutral weak current for, 25:12170
decay $K^+ \to \pi^+ + \gamma + e^+ + e^-$, rates for, (T), 21:9756
decay $K^+ \to \pi^+ + \gamma + \gamma$ from theory of eta—π mixing, 25:45703
decay $K^+ \to \pi^+ + \gamma + \gamma$ in axial-vector dominance model, π^+ spectra and branching ratio for, (T), 25: 9745
decay $K^+ \to \pi^+ + \gamma + \gamma$, counter—spark chamber measurement of branching ratio for, (E), 24:40246
decay $K^+ \to \pi^+ + \gamma + \gamma$, CP violation in, 25:30928
decay $K^+ \to \pi^+ + \gamma + \gamma$, current algebra calculation of π energy spectra and rate of, (T), 24:42926
decay $K^+ \to \pi^+ + \gamma + \gamma$, eta-pole approximation for, 22:1423
decay $K^+ \to \pi^+ + \gamma + \gamma$, limit on branching ratio for, (E), 25:45652
decay $K^+ \to \pi^+ + \gamma + \gamma$, rates for, (T), 21:9756

decay $K^+ \to \pi^+ + \gamma + \gamma$, spark chamber study of upper limit for branching ratio for direct, (E), 22:9508
decay $K^+ \to \pi^+ + \gamma + \gamma$, spark chamber study of upper limit for branching ratio for direct, (E), 22:5496 (UCRL-17887)
decay $K^+ \to \pi^+ + \gamma + \gamma$, spark chamber study of upper limit for branching ratio of, (E), 23:16927 (UCRL-18653)
decay $K^+ \to \pi^+ + \gamma$ at rest, spark chamber study of upper limit on branching ratio for, (E), 22:22292 (MIT-2098-389)
decay $K^+ \to \pi^+ + \gamma$, limit on branching ratio for, (E), 25:45652
decay $K^+ \to \pi^+ + l^+ + l^-$, CP-conserving, 22:15828
decay $K^+ \to \pi^+ + \mu^+ + \mu^-$, renormalizable theory with charged and neutral intermediate bosons for, 25:22773
decay $K^+ \to \pi^+ + \mu^+ + \mu^-$, weak interaction theory with scalar intermediate bosons for, 24:52038
decay $K^+ \to \pi^+ + \tau +$ anti τ amplitude from Oakes theory of CP violation, 24:1631
decay $K^+ \to \pi^+ + \tau +$ anti τ branching ratio in neutral current CP-violating theory, 23:46666
decay $K^+ \to \pi^+ + \tau +$ anti τ, counter spark chamber measurement of branching ratio for, (E), 24:26369
decay $K^+ \to \pi^+ + \tau +$ anti τ, experimental setup for detecting, 23:16929
decay $K^+ \to \pi^+ + \tau +$ anti τ, $K^+ \to \pi^+ + 2\gamma$ decay as background for, 21:40195
decay $K^+ \to \pi^+ + \tau +$ anti τ, limit on branching ratio for, (E), 25:45652
decay $K^+ \to \pi^+ + \tau +$ anti τ, search for neutral neutrino currents from, (E), 23:42536
decay $K^+ \to \pi^+ + \tau +$ anti τ, theory of neutral weak current for, 25:12170
decay $K^+ \to \pi^+ + \tau +$ anti τ, upper bound for branching ratio for, (T), 24:37725
decay $K^+ \to \pi^+ + \tau + \tau$, renormalizable theory with charged and neutral intermediate bosons for, 25:22773
decay $K^+ \to \pi^+ + \pi^0 + \gamma$ in current algebra, effects of CP violation in, 23:1620
decay $K^+ \to \pi^+ + \pi^0 + \gamma$ in current algebra, rate of, 23:46669
decay $K^+ \to \pi^+ + \pi^0 + \gamma$ in heavy liquid bubble chamber, π^+ and γ angular distribution from, (E), 22:7433
decay $K^+ \to \pi^+ + \pi^0 + \gamma$ in spark chamber, search for direct radiation in, (E), 23:32607 (UCRL-18433)
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, CP violation from branching ratio for, (E), 23:42539
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, CP violation in, 21:37876
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, CP violation in, 21:25332
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, CP violation in, 25:47923
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, current algebra study of, 22:17915
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, current conservation for amplitude of, 21:42332
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, energy and angular correlation spectra and CP-noninvariant effects for, 23:7162
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, possibility of experimental separation of direct emission processes and bremsstrahlung in, (T), 22:13713 (JINR-P1-3594)
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, proposed experiment for counter and spark chamber study of inner bremsstrahlung in, (E), 22:39240 (COO-1749-4)
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, ratio of direct transitions to bremsstrahlung production in, (E), 24:15466
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, search for direct processes and upper limit for asymmetries in partial rates for, (E), 25:12085
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, strength of magnetic radiation in, (T), 24:33002
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, unitarity condition for relating $\pi + \pi \to \pi + \pi + \gamma$ scattering amplitude to, 22:20206
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, unitarity for $\pi + \pi \to \pi + \pi + \gamma$ contribution to matrix elements for, 22:1419 (TH-206)
decay $K^+ \to \pi^+ + \pi^0 + \gamma$, unitarity for $\pi\pi$ contribution to, 22:15743
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$ in emulsion and in heavy-liquid bubble chamber, π^+ energy spectra from, (E), 23:32609
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$ in hydrogen bubble chamber and photographic emulsion, preliminary results for energy spectra of π^+ in, (E), 22:32048 (UCR-34-P-107-66)
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$ relative to $K^- \to \pi^- + \pi^0 + \pi^0$, ratio of rates for, (E), 24:12930
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$ relative to $K^- \to \pi^- + \pi^0 + \pi^0$, CP violation from rate of, 22:48214 (COO-1195-128)
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$, comparison with $K^- \to \pi^- + \pi^0 + \pi^0$ for test of CP and CPT invariance, (E), 24:10659 (COO-1195-169)
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$, electromagnetic corrections to, 22:48259
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$, electromagnetic corrections for rates of, (T), 22:52965 (LPTHE-TH-68/17)
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$, harmonic analysis on Dalitz plot for, 21:31567 (CTS-HE-67-3)
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$, kinematic quantities of, (E), 22:44309
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$, quark model for, 21:37816
decay $K^+ \to \pi^+ + \pi^0 + \pi^0$, review on, 25:47807
decay $K^+ \to \pi^+ + \pi^0 + \pi^- + e^+ + \nu/\text{sub } e/$, PCAC and current algebra for form factors for, 21:31570
decay $K^+ \to \pi^+ + \pi^0$ (I = 2) amplitudes and CP violation, 22:3357
decay $K^+ \to \pi^+ + \pi^0$ at rest, π^0 lifetime from, (E), 21:18892
decay $K^+ \to \pi^+ + \pi^0$ from theory of eta—π mixing, 25:45703
decay $K^+ \to \pi^+ + \pi^0$ in covariant quark model, Cabibbo angle, sum rules, and amplitude for, 23:42642
decay $K^+ \to \pi^+ + \pi^0$ in current algebra, $\Delta I = 1/2$ rule and effects of CP violation in, 23:1620
decay $K^+ \to \pi^+ + \pi^0$ in model with J-violation, 23:1661
decay $K^+ \to \pi^+ + \pi^0$ in SU(3) model, relation to CP violation, 23:15182
decay $K^+ \to \pi^+ + \pi^0$ relative to $K_1^0 \to \pi^+ + \pi^-$, amplitude for, 23:39674
decay $K^+ \to \pi^+ + \pi^0$, amplitude ratio to $K_1^0 \to \pi^+ + \pi^-$ for, (T), 22:39345
decay $K^+ \to \pi^+ + \pi^0$, branching ratios for, (E), 22:39242 (UCRL-18245)
decay $K^+ \to \pi^+ + \pi^0$, branching ratios for, (E), 22:15667
decay $K^+ \to \pi^+ + \pi^0$, Cherenkov counter study of branching ratio for, (E), 21:42255
decay $K^+ \to \pi^+ + \pi^0$, CPT invariance for amplitudes of, 22:17978 (JINR-P2-3668)
decay $K^+ \to \pi^+ + \pi^0$, current—current theory for calculation of, 25:25391
decay $K^+ \to \pi^+ + \pi^0$, current-algebra predictions for amplitude of, 21:42334
decay $K^+ \to \pi^+ + \pi^0$, data tabulations of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
decay $K^+ \to \pi^+ + \pi^0$, $\Delta I = 1/2$ rule and Cabibbo theory for, 21:29498
decay $K^+ \to \pi^+ + \pi^0$, $\Delta I = 1/2$ rule for branching ratio for, 21:40192
decay $K^+ \to \pi^+ + \pi^0$, effect of eta—π^0 mixing in, (T), 24:40327 (NYO-2171-316)
decay $K^+ \to \pi^+ + \pi^0$, electromagnetic effects in, 23:42637
decay $K^+ \to \pi^+ + \pi^0$, electromagnetic interaction effects on, 22:3312
decay $K^+ \to \pi^+ + \pi^0$, eta-pole for coupling constant for, 22:1423
decay $K^+ \to \pi^+ + \pi^0$, isotopic-spin decomposition of amplitudes for, 21:21183
decay $K^+ \to \pi^+ + \pi^0$, measurement of branching ratios for, 23:1588
decay $K^+ \to \pi^+ + \pi^0$, measurement of phase angle of amplitude for, 21:15255 (COO-881-96)
decay $K^+ \to \pi^+ + \pi^0$, model for $\Delta T = 3/2$ admixture of, 22:9573
decay $K^+ \to \pi^+ + \pi^0$, model for parity-violating, (T), 25:36465
decay $K^+ \to \pi^+ + \pi^0$, model for relation with S-wave $\Sigma^+ \to n + \pi^+$ decay, 22:32108
decay $K^+ \to \pi^+ + \pi^0$, model for unitary structure of parity- and strangeness-changing, 22:29674
decay $K^+ \to \pi^+ + \pi^0$, π^0 lifetime from, (E), 21:5353
decay $K^+ \to \pi^+ + \pi^0$, spark chamber study limit on off-mass-shell behavior of amplitude for, (E), 22:9508
decay $K^+ \to \pi^+ + \pi^0$, SU(2) x SU(2) symmetry breaking effect from Cabibbo rotation on, 24:20127
decay $K^+ \to \pi^+ + \pi^0$, SU(2)-invariant Hamiltonian models with exact $\Delta T = {}^1/_2$ rule and CP violation for, (T), 25:22770
decay $K^+ \to \pi^+ + \pi^0$, SU(3) model of CP violation in branching ratio for, 24:35679
decay $K^+ \to \pi^+ + \pi^0$, use of universal current—current theory for amplitude of, 21:33680
decay $K^+ \to \pi^+ + \pi^0$, wavelength shifters for liquid Cherenkov detectors for detection and measurement of, 23:21968
decay $K^+ \to \pi^+ + \pi^+ + e^-$ + anti τ, rates for $\Delta S = -\Delta Q$, 22:17917
decay $K^+ \to \pi^+ + \pi^+ + e^-$ + anti τ, test of $\Delta S = \Delta Q$ rule in, (E), 25:59262
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, axial form factors and rate of, 23:15049
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, parameters for $\pi + \pi$ interactions at low energies from, (T), 22:17911 (NYO-3829-14)
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, phenomenological approach for, 22:3396
decay $K^+ \to \pi^+ + \pi^+ + e^- + \tau$, $\pi\pi$ phase shift, form factors and rate for, (E), 25:50055
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, $\pi\pi$ phase shifts from, (E/T), 24:30434 (CONF-690521-, pp 413-38)
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, rate of, (E), 25:59262
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, review of s-wave $\pi^+ + \pi^-$ interaction in, (E/T), 22:13671
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, review of, (E/T), 23:49038
decay $K^+ \to \pi^+ + \pi^+ + e^- + \tau$, review of, (E/T), 23:49038
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, S-wave $\pi + \pi$ interaction in, (T), 22:39385
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, unsubtracted dispersion relations and hard-meson current algebra for vector form factor of, 24:3601
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau$, weak axial-vector current in, 21:5377
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau/\text{sub } e/$, evidence and consequences of vector current for, (T), 22:5546
decay $K^+ \to \pi^+ + \pi^- + e^+ + \tau/\text{sub } e/$, zero-energy theorem in current algebra for, 21:29495
decay $K^+ \to \pi^+ + \pi^+ + \gamma$, CP asymmetries in direct processes from branching ratio of, (E), 24:21918 (COO-1195-171)
decay $K^+ \to \pi^+ + \pi^- + l^+ + \tau$ in Veneziano model, form factor for, 24:49406
decay $K^+ \to \pi^+ + \pi^- + l^+ + \tau$, chiral SU(3) X SU(3) gauge-invariant dynamics for form factors of, 24:35680
decay $K^+ \to \pi^+ + \pi^- + l^+ + \tau$, form factors for rate of, 22:13722
decay $K^+ \to \pi^+ + \pi^- + l^+ + \tau$, primary interaction model for form factors and rates of, 25:17462
decay $K^+ \to \pi^+ + \pi^- + l^+ + \tau$, π—π phase shifts and form factors from, (T), 22:44400
decay $K^+ \to \pi^+ + \pi^- + l^+ + \tau$, use of current algebra with hard pions and kaons for vector form factor for, 23:15050
decay $K^+ \to \pi^+ + \pi^- + l^+ + \tau$, use of current algebra with hard pions and kaons for axial form factors for, 23:15049
decay $K^+ \to \pi^+ + \pi^- + l^+ + \tau$, Veneziano model for form factors for, 23:25576 (CERN-69-7, pp 281-90)
decay $K^+ \to \pi^+ + \pi^- + \mu^+ + \tau$ in deuterium bubble chamber, (E), 22:5497
decay $K^+ \to \pi^+ + \pi^- + \mu^+ + \tau$, axial form factors and rate of, 23:15049
decay $K^+ \to \pi^+ + \pi^- + \mu^+ + \tau$, mass spectra and rate of, (T), 22:24593
decay $K^+ \to \pi^+ + \pi^+ + \pi^- + \gamma$, charge asymmetry in, 23:34633
decay $K^+ \to \pi^+ + \pi^+ + \pi^- + \gamma$, current algebra study of, 22:17915
decay $K^+ \to \pi^+ + \pi^+ + \pi^- + \gamma$, Low theory for, 22:41789
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$ at rest, π energy spectra from, (E), 22:52923 (AD-669491)
decay $K^+ \to \pi^+ + \pi^- + \pi^+$ relative to $K^- \to \pi^- + \pi^+ + \pi^-$, spark chamber study of CP violation in rates of, 21:35252 (COO-1195-98)
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$ relative to $K^- \to \pi^- + \pi^- + \pi^+$, measurement of partial rates for, (E), 22:48215
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$ relative to $K^- \to \pi^- + \pi^- + \pi^+$, search for CP or T violation in, (E), 22:48343 (COO-1195-136)
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$ relative to $K^- \to \pi^- + \pi^- + \pi^+$, rate of, (E), 22:48346
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$ relative to $K^- \to \pi^- + \pi^+ + \pi^-$, CP-invariance violation from rate of, (E), 21:33594
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, CP violation effects on spectra of, (T), 23:13070
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, $\Delta T = {}^3/_2$ contribution to, 21:21194
decay $K^+ \to \pi^+ + \pi^- + \pi^+$, electromagnetic corrections to, 22:48259
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, electromagnetic corrections for rates of, (T), 22:52965 (LPTHE-TH-68/17)
decay $K^+ \to \pi^+ + \pi^+ + \pi^+$, harmonic analysis of Dalitz plot for, 21:31567 (CTS-HE-67-3)
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, matrix element for, (E), 25:50053 (PURC-4159-39)
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, matrix element for, (E), 25:50163 (PURC-4159-34)
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, model for amplitude of, 22:32107
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, model for $\Delta T = 3/2$ admixture of, 22:9573
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, PCAC hypothesis and $\Delta T = 1/2$ rule violation in amplitude of, 22:24612
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, review on, 25:47807
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, scintillation counter study of branching ratio and absolute rate for, 21:29432
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, search for CP violation in, (E), 24:8696
decay $K^+ \to \pi^+ + \pi^- + \pi^+$, violation of $\Delta I = {}^1/_2$ rule in, (T), 24:52051
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, violation of $\Delta I = 1/2$ rule in, 25:47808
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, wire spark chamber system with on-line computers for studying, 25:2491
decay $K^+ \to \pi^+ + \pi^+ + \pi^-$, wire spark chamber system with on-line computers for measurement of, 24:39349 (PURC-2137-22)
decay $K^+ \to \pi^+ + \pi^-(\pi^0) + \pi^+(\pi^0)$, isotopic amplitudes and phase shifts for, 24:1554 (JINR-P2-4621)
decay $K^+ \to \pi^+ + \pi^+(\pi^0) + \pi^-(\pi^0)$, vector-meson dominance model for p-wave contributions to, (T), 25:1472
decay $K^+ \to \pi^+ (\pi^0) + \pi^- (\pi^0) + l^+ + \tau$, isotropic ratios for particles referring to one isotopic multiplet for, 23:34566 (JINR-P2-4382)
decay $K^+ \to \pi^+ (\pi^0) + \pi^- (\pi^0) + \pi^-$, isotopic ratios for particles referring to one isotopic multiplet for, 23:34566 (JINR-P2-4382)
decay $K^+ \to \pi^+\pi^+\pi^-$, Faddeev equations for 3π final-state interactions in, (T), 21:907 (UCR-34-P-107-35)
decay $K^+ \to X^+ + \gamma$ at rest, spark chamber study of upper limit on branching ratio for, (E), 22:22292 (MIT-2098-389)
decay of, performance of Cherenkov counter—spark chamber system for measuring electron spectra in, 21:26178
decay of, performance of liquid Cherenkov detector using POPOP as wavelength shifter for studying, 23:47819
decay of, phenomenological analysis and symmetry for, 21:17091
decay of, phenomenological analysis of CP noninvariance in 3π, 21:950
decay of, phenomenological model for CP-conserving nonleptonic weak, 21:4029
decay of, properties of weak—electromagnetic, (E/T), 23:51905 (JINR-P1-4557)
decay of, review of experiments on branching ratios for, 22:32050
decay of, review of three-body, 22:26611 (LAL-1189)
decay of, scintillation counter and spark chamber study of branching ratios for, (E), 22:15667
decay of, second-order radiative corrections for two- and three-body leptonic, 23:44614 (IC-69/85)
decay of, strange neutrino production in, 24:20121
decay of, superconvergence in asymptotic SU(3) for form factor for three-body leptonic, 21:35329
decay of, symmetry for, 23:39774
decay of, Veneziano model for chiral symmetry breaking for form factors in three-body leptonic, 23:51923 (NYO-2262-TA-210)
decays $K^+ \to 3\pi$, nonlinear effects on like pion spectra in, 22:24614
decays $K^+ \to l^+ + \tau + \gamma$, use of current algebra and unsubtracted dispersion relations for, 22:15749
decays $K^+ \to \pi^0 + l^+ + \tau + \gamma$, use of current algebra and unsubtracted dispersion relations for, 22:15749
decays $K^+ \to \pi^+ + \gamma$, upper limits for, 23:21094
decays $K^+ \to \pi^+ + l^+ + l^-$, upper limits for, 23:21094
decays $K^+ \to \pi^+ + \pi^+ + \pi^-$ and $K^+ \to \pi^0 + \pi^0 + \pi^+$, Faddeev equations for final-state interaction in, 21:15299

decays K/subμ_2/, K/subπ_2/, K/sube_3/, and K/subμ_3/, counter—spark-chamber measurement of branching ratios for, 21:25228
decays of, selection rules and PC conservation in, 21:33664
detection and discrimination of, method for, 23:17802
detection and measurement of, design and performance of 320-liter cylindrical detector for, 21:43243
detection of, design and performance of pulse shape discriminator for thick liquid scintillation detector for, 23:35459 (ISS-68/45)
energy loss in homogeneous absorber, calculation of straggling distribution of, 23:1613
form factor from K^+ + p interactions, Chou—Yang model for calculation of charge, 25:17446
interactions A_1^0 + K^+, superconvergent sum rules for amplitudes of, 22:50370
interactions K^+ + n → p(n) + $K^+(K^0)$ + $\pi^-(\pi^+)$ at 9.0 GeV/c in deuterium bubble chamber, production of $K\pi$(1750) in, (E), 25:43546 (COO-1428-279)
interactions K^+ + anti K^0 → K^+ + anti K^0, factorization constraints on Veneziano model for, 24:3640
interactions K^+ + anti K^0 → π^+ + π^0, factorization constraints on Veneziano model for, 24:3640
interactions K^+ + d → anti Ω^{++} + 2A + p + π^+ + π^- at 12 GeV/c in bubble chamber, production cross sections for, (E), 25:17393
interactions K^+ + d → d + π^+, $\Delta T = {}^1/_2$ rule for, 21:33703
interactions K^+ + d → Δ^+ (1246) + p, $\Delta T = {}^1/_2$ rule for, 21:33703
interactions K^+ + d → Δ^{++}(1246) + n, ΔT = 1/2 rule for, 21:33703
interactions K^+ + d → K + π + 2N at 865 to 1365 MeV/c in bubble chamber, K^0 and Δ production cross sections and production mechanisms for K + N → K^0 + N interactions in, (E), 25:25311 (UCRL-20248)
interactions K^+ + d → K^0 + 2p at 3.8 GeV/c in deuterium bubble chamber, total and differential cross sections for K^+ + n → K^0 + p interactions and total and differential cross sections for, (E), 25:56423 (COO-1195-217)
interactions K^+ + d → K^0 + 2p at 3.8 GeV/c in deuterium bubble chamber, differential cross sections for, (E), 24:40258 (COO-1195-186)
interactions K^+ + d → K^0 + 2p at 865 to 1365 MeV/c in bubble chamber, total and differential cross sections for, (E), 25:25311 (UCRL-20248)
interactions K^+ + d → K^0 + p + p at 2.27 GeV/c, differential cross sections for, 21:29570
interactions K^+ + d → K^0 + p + p at 600 MeV/c in bubble chamber, (E), 22:20120
interactions K^+ + d → K^0 + p + p at 600 MeV/c in deuterium bubble chamber, (K_1^0 - K_1^0) mass difference from, (E), 21:21133 (BNL-11179)
interactions K^+ + d → K^0 + p + p at 600 MeV/c, measurement of (K_1^0 - K_2^0) mass difference from, (E), 23:13035
interactions K^+ + d → K^0 + p + p at 600 MeV/c, resolution of T = 0 Fermi—Yang ambiguity from polarization in, (E), 23:46615
interactions K^+ + d → K^0 + p + p at 600 MeV/c, sign of K_1^0 - K_2^0 mass difference from, (E), 21:2349
interactions K^+ + d → K^0 + p + p at 865 to 1585 MeV/c, cross sections and angular distributions for, (E), 25:40896
interactions K^+ + d → K^0 + p + p, $\Delta S = \Delta Q$ rule in leptonic decays of K^0 from, (E/T), 24:40245
interactions K^+ + d → K^0 + p + p, search for K^0 → π^+ + π^- + π^0 decay from, (E), 25:30723
interactions K^+ + d → K^0 + p + π^+ + n at 0.6 to 1.5 GeV/c, free nucleon cross sections from, 25:47759
interactions K^+ + d → K^0 + π^0 + p + p at 3 GeV/c, production and decay distributions of K^{*0}(892) in, (E), 24:15487
interactions K^+ + d → K^0 + π^0 + p + p at 3 GeV/c, production of K^{*0}(892) and K^0(1420) in, (E), 24:49332
interactions K^+ + d → K^0 + π^+ + d at 3 GeV/c, K^0(892) production and decay angular distributions from, (E), 23:23364
interactions K^+ + d → K^0 + π^+ + p + n at 3 GeV/c, production and decay of K^{*+}(892) and N^{*++}(1236) in, (E), 24:15487
interactions K^+ + d → K^0 + π^+ + p + n at 3 GeV/c, production of K^{*+}(892) and Δ^{*++}(1236) in, (E), 24:49332
interactions K^+ + d → K^0 + π^+ + π^0 + d at 3.8 GeV/c in deuterium bubble chamber, narrow $K^+\pi^-\pi^+$(1300) enhancement in, (E), 24:40258 (COO-1195-186)
interactions K^+ + d → K^+ + π^- + p + p at 3 GeV/c, production of K^{*0}(892) and K^0(1420) in, (E), 24:49332
interactions K^+ + d → K^+ + π^- + p + p at 3 GeV/c, production and decay distribution of K^{*0}(892) in, (E), 24:15487
interactions K^+ + d → K^+ + π^+ + π^- + d at 3 GeV/c, K^0(892) production and decay angular distribution from, (E), 23:23364
interactions K^+ + d → K^+ + π^- + π^+ + d at 3.8 GeV/c in deuterium bubble chamber, K^{*0} (890), d^{*++} and narrow $K^+\pi^-\pi^+$(1300) enhancement in, (E), 24:40258 (COO-1195-186)
interactions K^+ + d → K^+ + π^+ + π^- + d(n + p) at 9 GeV/c in deuterium bubble chamber, K(1243) and K(1344) production in Q region of $K^+\pi^+\pi^-$ mass spectrum and K(890) production in, (E), 25:43544 (COO-1428-275)
interactions K^+ + d → K^+ + π^+ + π^- + d(p + n) at 9.04 GeV/c, K(1243) and K(1344) production in Q region and K(890) production in, (E), 25:43543 (COO-1428-274)
interactions K^+ + d → K^+ + π^+ + π^- + d(pn) at 9 GeV/c, K^0(1243) and K^0(1344) mixing in mass spectra of, (E), 25:36414
interactions K^+ + d → K^+ + π^- + π^+ + p + n at 3.8 GeV/c in deuterium bubble chamber, narrow $K^+\pi^-\pi^+$(1300) enhancement in, (E), 24:40258 (COO-1195-186)
interactions K^+ + d → p + p + K^0, K^0 - K^+ mass difference from, (E), 22:26548
interactions K^+ + d → Q + d, Q → K^+ + π^+ + π^- at 9 GeV/c in deuterium bubble chamber, K(890) production in, (E), 24:45423 (COO-1428-226)
interactions K^+ + d around 1 GeV/c, partial cross sections for, (E), 23:3651
interactions K^+ + d at 0.36 to 0.72 GeV/c, total cross sections for, (E), 25:9673
interactions K^+ + d at 0.6 to 2.65 GeV/c, total cross sections for, (E), 22:26567
interactions K^+ + d at 0.6 to 2.65 GeV/c, total cross sections for, (E), 22:13654 (RPP/H-31)
interactions K^+ + d at 0.9 to 2.4 GeV/c, new resonance structures in total cross sections for, (E), 24:37655
interactions K^+ + d at 1.0 to 3.3 GeV/c, scintillation and differential Cherenkov counter study of total cross section and resonance production in, (E), 22:29634
interactions K^+ + d at 1.2 GeV/c, I = 0 structure from S-state K → K^*(890) channel coupling in, (T), 22:9626
interactions K^+ + d at 1.55 to 3.30 GeV/c, differential Cherenkov counter study of structure in total cross sections for, 21:35268
interactions K^+ + d at 1.55 to 3.30 GeV/c, evidence for strangeness-1 baryon resonances in total cross sections for, 24:37657
interactions K^+ + d at 1.585 GeV/c in deuterium bubble chamber, single and double π production cross sections and Δ and K^0 production and interference in, (E), 25:33555 (UCRL-20628)
interactions K^+ + d at 15 to 60 GeV/c, total cross sections for, (E), 25:53014
interactions K^+ + d at 230 MeV/c, dispersion theoretic impulse approximation for elastic, 21:19022
interactions K^+ + d at 360 to 720 MeV/c, total cross sections for, (E), 25:12120
interactions K^+ + d at 360 to 720 MeV/c, total cross sections for, (E), 25:25319
interactions K^+ + d at 865 to 1365 MeV/c in bubble chamber, partial cross sections for, (E), 25:25311 (UCRL-20248)
interactions K^+ + d at 865 to 1365 MeV/c in bubble chamber, partial cross sections Ar K^+ + N interactions in, (E), 25:25311 (UCRL-20248)
interactions K^+ + d at 9.04 GeV/c in deuterium bubble chamber, splitting in Q region of $K^+\pi^+\pi^-$ enhancement in, (E), 25:33550 (COO-1428-270)
interactions K^+ + d at low energies, cross sections for elastic and inelastic, (T), 21:25323
interactions K^+ + d below 2 GeV/c in isospin-zero state, cross sections for, (E), 25:25320
interactions K^+ + d below 2 GeV/c, isotopic spin analysis of total cross sections of, (T), 25:25462
interactions K^+ + d below 3.3 GeV/c, transmission counter study of total cross sections for, 21:27299 (BNL-11372)
interactions K^+ + d below 642 MeV/c, long-range interaction in, (T), 21:27373
interactions K^+ + d near 1 GeV/c, cross sections, phase shift analysis, and production properties of, (E), 23:7088 (UCRL-18322)
interactions K^+ + d, compilation of cross section variation with incident momentum for, (E), 25:38658 (CERN-HERA-70-4)
interactions K^+ + d, data compilation of cross sections and charge-exchange angular distributions for, (E), 24:6719 (UCRL-20000-KN)
interactions K^+ + d, Fermi motion effect on resonance production from, (T), 21:23314 (BNL-994, pp 70-102)
interactions K^+ + d, review of, 22:13745
interactions K^+ + e → K^+ + e + γ, bremsstrahlung circular polarization from, (T), 22:7470
interactions K^+ + K^- → K^+ + K^-, correlation of meson towers with absence of backward peaks in, 23:42660
interactions K^+ + K^- → K^+ + K^-, factorization in Veneziano amplitude for resonance degeneracy in, 23:46711
interactions K^+ + K^+ in urbaryon model, cross sections for forward elastic, 21:35300
interactions K^+ + K^- in urbaryon model, cross sections for forward elastic, 21:35300
interactions K^+ + K^-, dispersion calculation of scattering amplitude and form factor for, 25:30865
interactions K^+ + n → Δ^+(1246) + eta, ΔT = 1/2 rule for, 21:33703
interactions K^+ + N → K + π + N, graphical illustration of isospin analysis of, 25:28039
interactions K^+ + N → K^0 + N at 1.080 to 3.0 GeV/c, energy dependence of cross sections and production and decay angular distributions for, (T), 24:49491 (UCRL-19774)
interactions K^+ + N → K^{*0} + N, SU(3) x SU(3) with vector dominance and Regge pole model for sum rules for, 23:42609
interactions K^+ + n → K^{*0} + p at 2 to 13 GeV/c, Regge-pole analysis of, 23:25622
interactions K^+ + n → K^{*0} + p at high energies, quark model predictions for, 23:21106
interactions K^+ + N → K^0 + p + p at 5.5 GeV/c, partial cross section and momentum transfer distribution for, (E), 25:59305
interactions K^+ + n → K^0 + p above, cut-corrected exchange degeneracy for, 25:45762
interactions K^+ + n → K^0 + p and K^- + p → anti K^0 + n at 1 to 5.5 GeV/c, test of rhoA_2 exchange degeneracy, duality, and secondary trajectories from, (E/T), 24:5306
interactions K^+ + n → K^0 + p at 0.97 GeV/c in spark chamber with beryllium targets, angular distributions for, (E), 22:50308
interactions K^+ + n → K^0 + p at 0.97 GeV/c, angular distribution from, (E), 21:2373 (PPAD-598-F)
interactions K^+ + n → K^0 + p at 1.5 to 4 GeV/c, overlap of t and u exchanges in backward, (E/T), 23:44661
interactions K^+ + n → K^0 + p at 1.585 GeV/c in deuterium bubble chamber, differential cross sections and amplitude of, (E), 25:33555 (UCRL-20628)
interactions K^+ + n → K^0 + p at 12 GeV/c in deuterium bubble chamber, differential cross sections for, (E), 24:49338
interactions K^+ + n → K^0 + p at 2 to 20 GeV/c, Regge model with four poles for, (E/T), 25:5371 (CEA-N-1373)
interactions K^+ + n → K^0 + p at 2.27 GeV/c, differential cross sections for, 21:29570
interactions K^+ + n → K^0 + p at 2.3 GeV/c, exchange of rho' trajectory in, 22:3445
interactions K^+ + n → K^0 + p at 2.3 GeV/c, rho' Regge trajectory for, 22:39413
interactions K^+ + n → K^0 + p at 2.3 GeV/c, rho' Regge trajectory for, 21:35307 (UCRL-17572)
interactions K^+ + n → K^0 + p at 270 MeV in nuclear emulsions, angular distributions for, 25:53034
interactions K^+ + n → K^0 + p at 3 GeV/c in deuterium bubble chamber, cross sections for, (E), 22:50304
interactions K^+ + n → K^0 + p at 3 GeV/c, violation of quark model sum rule in, 22:22363
interactions K^+ + n → K^0 + p at 3.0 GeV/c and 5.5 GeV/c, comparison of quark model and experimental cross sections for, 23:36928 (INR-P-1047)
interactions K^+ + n → K^0 + p at 5.5 GeV/c, Regge analysis of, (E/T), 25:56506
interactions K^+ + n → K^0 + p at 5.5 GeV/c, Reggeized U(6) x U(6) x O(3) and absorptive correction cuts for, 24:28556
interactions K^+ + n → K^0 + p at 600 MeV/c in deuterium bubble chamber, K + N phase shifts from K^0 angular distribution and p polarization in, (E), 25:36417
interactions K^+ + n → K^0 + p at 865 to 1585 MeV/c, cross sections and angular distributions for, 25:40896
interactions K^+ + n → K^0 + p at high energies in O(3, 1) symmetry, differential cross sections for, 23:21105
interactions K^+ + n → K^0 + p at high energies, charge exchange in, (E), 21:9701
interactions K^+ + n → K^0 + p at high energies, Regge-pole eikonal theory of small-angle, 23:25639
interactions K^+ + n → K^0 + p at high energies, Regge pole theory for, 21:29541
interactions K^+ + n → K^0 + p at low-, intermediate, and high energies, Veneziano model for, 25:7656 (IFT-70/5)
interactions K^+ + n → K^0 + p below 20 GeV/c, rho' Regge trajectory predictions for, 22:39413
interactions K^+ + n → K^0 + p in K^+ + d → K^0 + 2p interactions at 3.8 GeV/c in deuterium bubble chamber, total and differential cross sections and forward amplitude for, (E), 25:56423 (COO-1195-217)
interactions K^+ + n → K^0 + p near 600 MeV/c in deuterium bubble chamber, meson (K^0) angular distribution and proton polarization from, (E), 24:6692
interactions K^+ + n → K^0 + p on beryllium-9 in spark chamber at 0.970 GeV/c, angular distribution and total cross section for, (E), 22:11598
interactions K^+ + n → K^0 + p, complex angular momentum method with j-plane branch points for, (E/T), 24:45427 (ITEF-754)
interactions K^+ + n → K^0 + p, complex angular momentum method with Regge cut contribution to, (E/T), 24:52098
interactions K^+ + n → K^0 + p, cross sections for, (E), 23:10817
interactions K^+ + n → K^0 + p, dispersion relation predictions for forward charge-exchange amplitudes of, 21:31601
interactions K^+ + n → K^0 + p, exchange degeneracy in, (E/T), 24:52092
interactions K^+ + n → K^0 + p, generalized Veneziano model for, (E/T), 25:1537
interactions K^+ + n → K^0 + p, Pomeranchon contributions to amplitudes for, 24:13109
interactions K^+ + n → K^0 + p, quark model predictions for, (E/T), 24:1595
interactions K^+ + n → K^0 + p, real to imaginary ratio of forward amplitude of, 22:29707
interactions K^+ + n → K^0 + p, Regge cuts in exchange degenerate trajectories for, 24:3673
interactions K^+ + n → K^0 + p, Regge quark model for, (T), 25:2450
interactions K^+ + n → K^0 + p, Regge-pole model with cuts for, (T), 24:49501
interactions K^+ + n → K^0 + p, secondary Regge contributions in, 25:56508
interactions K^+ + n → K^0 + p, SU(3) predictions for, 22:46490
interactions K^+ + n → K^0 + p, test of Regge-pole theory from cross-section relations for, 22:24655
interactions K^+ + n → K^0 + π^+ + n with crossing and charge symmetry, generalized Veneziano model for, 25:1545
interactions K^+ + n → K^0 + π^- + p + π^+ at 9 GeV/c in deuterium bubble chamber, cross sections and K(1758), K(1800), K(2007), and K(2145) production in, (E), 25:47740 (COO-1428-292)
interactions K^+ + n → K^0 + π^+ + π^- + p at 12 GeV/c in deuterium bubble chamber, K^0(1420) production in, (E), 25:1413 (UCRL-20076)
interactions K^+ + n → K^+ + n at 270 MeV in nuclear emulsions, angular distributions for, 25:53034
interactions K^+ + n → K^+ + n at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions K^+ + n → K^+ + n at high energies, Regge-pole eikonal theory of small-angle, 23:25639
interactions K^+ + N → K^+ + N, complex angular momentum method with Regge cut contribution to, (E/T), 24:52098

interactions $K^+ + N \to K^+ + N$, complex angular momentum method with j-plane branch points for, (E/T), 24:45427 (ITEF-754)
interactions $K^+ + n \to K^+ + \pi^- + p$ and $K^+ + n \to K^+ + \pi^+ + \pi^- + p$ at 9 GeV/c in deuterium bubble chamber, cross sections and mass spectra from, (E), 25:59318
interactions $K^+ + n \to K^+ + \pi^- + p$ at 12 GeV/c in deuterium bubble chamber, N^*, $K^*(890)$, $K^*(1420)$, $K^*(1250)$ and (1360) enhancement in, (E), 25:1413 (UCRL-20076)
interactions $K^+ + n \to K^+ + \pi^- + p$ at 12 GeV/c, production of $K^*(1370)$ in, (E), 25:33570
interactions $K^+ + n \to K^+ + \pi^- + p$ at 12 GeV/c, structure in $K\pi$ mass spectra near 1.85 GeV from, (E), 25:56434
interactions $K^+ + n \to K^+ + \pi^- + p$ at 3 GeV/c, unitarized Veneziano model for, 25:59478
interactions $K^+ + n \to K^+ + \pi^- + p$ at 9 GeV/c in deuterium bubble chamber, cross sections and K(1758), K(1880), K(2007), and K(2145) production in, (E), 25:47740 (COO-1428-292)
interactions $K^+ + n \to K^+ + \pi^- + p$ at 9 GeV/c in, deuterium bubble chamber, K(1420) production, and π exchange mechanism, energy dependence of cross sections, and density matrix elements for K(890) production in, (E), 25:43548 (COO-1428-283)
interactions $K^+ + n \to K^+ + \pi^- + p$ at 9.1 GeV in deuterium bubble chamber, cross sections, mass, and width for K(890) and K(1420) production and energy dependence of cross sections, density matrix elements, and π-exchange mechanism for K(890) production in, (E), 25:43547 (COO-1428-281)
interactions $K^+ + n \to K^+ + \pi^- + p$, crossing-symmetric description of, 25:50141
interactions $K^+ + n \to p + K^+ + \pi^-$ at 9.0 GeV/c in deuterium bubble chamber, low-mass $p\pi$ enhancement and K(890) production in, (E), 24:45425 (COO-1428-229)
interactions K^+ + n above 3 GeV/c with charge exchange and no strangeness exchange, quark model predictions for pseudoscalar and vector meson production in, (E), 23:34532 (INR-1040)
interactions K^+ + N at 0.4 to 3.4 GeV/c, review of total cross sections for, (E), 25:1412 (UCRL-19844)
interactions K^+ + N at 0.9 to 60 GeV/c, dispersion relations with violated Pomeranchuk theorem for real parts of amplitude for forward, (T), 25:38749
interactions K^+ + n at 1.96, 2.3, and 3.0 GeV/c, cross sections for inelastic, (E), 22:17873
interactions K^+ + n at 15 to 60 GeV/c, total cross sections for, (E), 25:53014
interactions K^+ + N at 780 MeV/c, sign of $K_2^0 - K_1^0$ mass difference from spark chamber study of, (E), 21:46469 (UCSD-10-P-10-104)
interactions K^+ + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions K^+ + N at low energies, Pomeranchuk trajectory for amplitudes of, 22:35151
interactions K^+ + N in beryllium-9 at 950 MeV/c, differential cross sections for, (E), 21:7466 (PPAD-601-F)
interactions K^+ + N in broken SU(3) x SU(3), scattering length for S-wave, 25:33744
interactions K^+ + N in effective chiral Lagrangian model, S-wave scattering lengths for, 23:18921
interactions K^+ + N in K^+ + d interactions at 865 to 1365 MeV/c in bubble chamber, partial cross sections for, (E), 25:25311 (UCRL-20248)
interactions K^+ + N in urbaryon model, cross sections for forward elastic, 21:35300
interactions K^+ + N near 1 GeV/c, production of very broad elastic structure A(1780) in, (E), 24:10683
interactions K^+ + n with charge and no strangeness exchange, quark model predictions for pseudoscalar and vector meson production cross sections for, (T), 24:10773
interactions K^+ + n with charge exchange, sum rules for neutral meson production in, 22:52982
interactions K^+ + N, Argand diagram analysis of s-channel helicity amplitudes of, 25:28035
interactions K^+ + n, compilation of cross section variation with incident momentum for, (E), 25:38658 (CERN-HERA-70-4)
interactions K^+ + N, cross sections for elastic, (E), 22:17871
interactions K^+ + N, current algebra and Regge pole theory for, 21:29522
interactions K^+ + n, data compilation of cross sections and charge-exchange angular distributions for, (E), 24:6719 (UCRL-20000-KN)
interactions K^+ + N, dispersion relations with violated Pomeranchuk theorm for amplitude of charge exchange, (T), 25:38749
interactions K^+ + n, duality for total cross section relations in quark model for, 24:35653 (ITF-70-24)
interactions K^+ + N, evidence of S = +1, I = 0 resonance from forward amplitude of, 21:27379
interactions K^+ + N, finite-energy sum rules from phase shift analysis of, 22:26659
interactions K^+ + N, formulation of SU(3) X SU(3) chiral Lagrangian with gauge fields for scattering lengths of, 23:39776 (NYO-3399-194)
interactions K^+ + n, forward dispersion relation predictions of differential cross sections for, (E/T), 22:24667
interactions K^+ + N, forward dispersion relations in Regge-pole analysis of, 21:928
interactions K^+ + n, integrated cross sections for $K_2^0 + p \to K_1^0 + p$ interactions for upper bound on Pomeranchuk theorem violation in asymptotic total cross section difference in K^- + n interactions and, (T), 22:22818
interactions K^+ + N, model with broken exchange degeneracies and secondary trajectories in charge and hypercharge exchange in, 24:21985
interactions K^+ + N, models for production mechanisms in, 23:21112
interactions K^+ + n, peripheral SU(6)/sub W/ model for resonance polarization from, 21:40261 (NP-16936)
interactions K^+ + n, polarization of resonances in peripheral SU(6)/sub W/ model for, 22:3491
interactions K^+ + N, Pomeranchuk theorem for total cross sections for, 24:24388
interactions K^+ + N, S = +1, I = 0 resonance production from, (T), 21:25289 (HEP-67-2)
interactions K^+ + N, SU(3) symmetry predictions for, 22:20142
interactions K^+ + N, SU(3) x SU(3) chiral Lagrangian with gauge field for scattering lengths of, 24:18210
interactions K^+ + n, sum-rule analysis of, 22:7517
interactions K^+ + n, unsubtracted dispersion sum rule for, (T), 22:39409
interactions $K^+ + p \to (K\pi\pi)^+ + p$ at 12.7 GeV/c, decay properties of $Q^*(1260)$ from, (E), 24:24244
interactions $K^+ + p \to$ anti Λ + 2p, generalized Veneziano model analysis of, (T), 25:53190
interactions $K^+ + p \to$ anti $\Lambda + p + p$ at 7.3 GeV/c in hydrogen bubble chamber, (E), 25:14574
interactions $K^+ + p \to$ anti $\Lambda + p + p$ at 7.3 GeV/c, double-Regge model for peripheral production in, (E/T), 25:25336
interactions $K^+ + p \to$ anti $\Lambda + p + p$ at 8.25 GeV/c, Veneziano model for, (E/T), 25:59295
interactions $K^+ + p \to$ anti Λ (anti Σ^0) + p + N + $m\pi$ at 7.3 GeV/c in bubble chamber, cross sections and angular distributions for, (E), 21:46483
interactions $K^+ + p \to$ anti $\Sigma^0 + p + p$ at 8.25 GeV/c, cross sections for, (E), 25:59295
interactions $K^+ + p \to$ anti Y + N + N + (π) at 9 GeV/c, anti AN mass enhancements in, (E), 24:51971
interactions $K^+ + p \to \Delta^{++} + K^{*0}(1420), K^{*0}(1420) \to K^+ + \pi^-$ at 12.7 GeV/c in hydrogen bubble chamber, cross sections and production mechanism for, (E), 25:19914
interactions $K^+ + p \to \Delta^{++} + K^{*0}(890), K^{*0}(890) \to K^+(K^0) + \pi^-(\pi^0)$ at 12.7 GeV/c in hydrogen bubble chamber, cross sections and production mechanism for, (E), 25:19914
interactions $K^+ + p \to \Delta^{++}$ (1246) + eta, $\Delta T = {}^1/_2$ rule for, 21:33703
interactions $K^+ + p \to \Delta^{++}(1236) + K^{*0}(890)$ at 12.7 GeV/c, density matrix elements for $\Delta^{++}(1236)$ and $K^{*0}(890)$ decay from, (E/T), 22:48229 (UR-875-251)
interactions $K^+ + p \to \Delta^{++}(1236) + K^+ + \pi^-$ at 12.7 GeV/c, momentum-transfer distributions in, (E), 25:14575
interactions $K^+ + p \to \Delta^{++}(1236) + \pi^- + K^+$ at 5.5 GeV/c, cross sections and mass distributions for, (E), 23:10753
interactions $K^+ + p \to K + \Delta(1236)$ at 864 to 1585 MeV/c, production and decay angular distributions of $\Delta(1236)$ from, (E), 24:51972
interactions $K^+ + p \to K + N + \pi + \pi + \pi$ at 3.0 to 5.0 GeV/c, statistical model for branching ratio for, 21:33711
interactions $K^+ + p \to K + N + \pi + \pi$ at 3, 3.5, and 5 GeV/c in hydrogen bubble chamber, enhancement in $K^*(892)\pi$ system in, (E), 21:27309
interactions $K^+ + p \to K + N + \pi + \pi$ at 5 GeV/c in bubble chamber, $K^*(892)$ and $\Delta(1236)$ double production and decay angular distributions from, (E), 23:32623
interactions $K^+ + p \to K + N + \pi$ at 1.2 GeV/c, K^* and N^* interference in, (E), 21:2385
interactions $K^+ + p \to K + N + \pi$ at 2.97 GeV/c, production and decay of K^* and N^* in, (E), 23:10754
interactions $K^+ + p \to K + N + \pi$ at 3 GeV/c in hydrogen bubble chamber, production cross sections and decay correlations for $K^*(890)$ and $N^*(1236)$ from, (E), 21:27308
interactions $K^+ + p \to K + N + \pi$ at 3 GeV/c, analysis of, (E), 22:50390
interactions $K^+ + p \to K + N + \pi$ at 3 GeV/c, $K^*(892)$ and $\Delta(1236)$ production in, (E/T), 22:50390
interactions $K^+ + p \to K + N + \pi$ at 3.5 GeV/c in hydrogen bubble chamber, methodical problems for, 21:31528 (JINR-P1-3313)
interactions $K^+ + p \to K + N + \pi$ at 4.6 GeV/c, cross sections for Δ, $K^*(891)$, and $K^*(1420)$ production in, (E), 25:30748
interactions $K^+ + p \to K + N + \pi$, Cherenkov mechanism for analysis of cross section behavior of, 25:41016
interactions $K^+ + p \to K + N^0 + \pi + \pi$ at 3.0 to 5.0 GeV/c, method from statistical model for branching ratio for, 21:33711
interactions $K^+ + p \to K + \pi + \Delta^{++}$ at 7.3 GeV/c, pole-extrapolation analysis of K + π interaction from, (E), 24:30456 (CONF-690521-, pp 446-76)
interactions $K^+ + p \to K + \pi + \Delta^{++}$ at 7.3 GeV/c, production of T = 1/2, $K\pi(1100)$ enhancement in, (E), 23:7097
interactions $K^+ + p \to K + \pi + N$ at 735 and 785 MeV/c in hydrogen bubble chamber, search for kappa (725) in, (E), 22:3422
interactions $K^+ + p \to K + \pi + N$ at 860 to 1360 MeV/c, cross sections and partial-wave analysis of KN^* and K^*p final states from, (E), 22:26564 (UCRL-18131)
interactions $K^+ + p \to K + \pi + \pi + p$ at 5.5 GeV/c in bubble chamber, analysis of $K^*\pi$ system in, (E/T), 22:34861
interactions $K^+ + p \to K + \pi + \pi + \pi + p$ at 3 GeV/c, spin effects on triangle amplitudes for, 21:5396
interactions $K^+ + p \to K^* + \Delta^{++}$, quark model for, 21:31602
interactions $K^+ + p \to K^* + N + \pi + \pi$ at 3.0 to 5.0 GeV/c, method from statistical model for branching ratio for, 21:33711
interactions $K^+ + p \to K^* + N^* + \pi$ at 3.0 to 5.0 GeV/c, method from statistical model for branching ratio for, 21:33711
interactions $K^+ + p \to K^* + N^*$ at 3.5 and 5 GeV/c in hydrogen bubble chamber, 21:27312
interactions $K^+ + p \to K^* + N^*$ at 3.5 and 5 GeV/c, O(3,1) symmetry for, 23:25626
interactions $K^+ + p \to K^* + p$ at 1 GeV/c in hydrogen bubble chamber, upper limits for scalar K^* production in, (E), 22:39281 (UCRL-18206)
interactions $K^+ + p \to K^* + p$, shrinking nature of diffraction amplitude for, 21:40222
interactions $K^+ + p \to K^*(1300) + p$ at 3.5 GeV/c, width, cross section, and branching ratios for $K^*(1300)$ from, (E), 23:23367
interactions $K^+ + p \to K^*(1400) + p$ at 3.5 GeV/c, widths, cross sections, and branching ratios for $K^*(1400)$ from, (E), 23:23367
interactions $K^+ + p \to K^*(1420) + \Delta(1236)$ at 5 GeV/c, spin, decay branching ratio, and production characteristics of $K^*(1420)$ from, (E), 24:1598
interactions $K^+ + p \to K^*(1420) + p$ at 13 GeV/c, cross sections for, 23:10752
interactions $K^+ + p \to K^*(1420) + p$ at 5 GeV/c, spin, decay branching ratio, and production characteristics of $K^*(1420)$ from, (E), 24:1598
interactions $K^+ + p \to K^*(890) + p$ at 13 GeV/c, cross sections for, 23:10752
interactions $K^+ + p \to K^*(890) + p$, differential cross sections for, (E), 23:10817
interactions $K^+ + p \to K^*(891) + p$ at 864 to 1585 MeV/c, production and decay angular distributions of $K^*(891)$ from, (E), 24:51972
interactions $K^+ + p \to K^{*0} + \Delta(1236)$, Regge-pole model for π exchange in, 22:26657
interactions $K^+ + p \to K^{*0} + N^{*++}$ at 5 GeV, quark model predictions for joint decay distributions of resonances in, 24:13092
interactions $K^+ + p \to K^{*0} + N^{*++}$ at 5 GeV/c, quark model predictions for joint decay distributions from, 24:1596
interactions $K^+ + p \to K^{*0}$ (890) + Δ^{++} at 12.7 GeV/c in hydrogen bubble chamber, cross sections, production mechanisms, and momentum transfer dependence in, (E), 24:37651 (UR-875-313)
interactions $K^+ + p \to K^{*0}$ (890) + $\pi^+ + p$ at 7.3 GeV/c, Regge pole exchange analysis of, (E/T), 23:36939
interactions $K^+ + p \to K^{*0}(1420) + \Delta^{++}$ at 5.0 GeV/c, quark-model joint decay distributions in, (E/T), 25:40894
interactions $K^+ + p \to K^{*0}(890) + \Delta(1236)$ at 10 GeV/c in hydrogen bubble chamber, cross sections for, (E), 22:39274 (CERN-68-7(Vol.2), pp 121-34)
interactions $K^+ + p \to K^{*0}(890) + \Delta^{++}$, π trajectory in, 24:20163
interactions $K^+ + p \to K^{*0}(890) + \Delta^{++}(1236)$ at 5.5 GeV/c, cross sections and decay distributions for, (E), 23:10753
interactions $K^+ + p \to K^{*0}(890) + \pi^+ + p$ at 5 GeV/c, longitudinal phase space analysis of, (E/T), 23:36840
interactions $K^+ + p \to K^{*0}(890) + \pi^+ + p$ at 5.5 GeV/c, cross sections and mass distributions for, (E), 23:10753
interactions $K^+ + p \to K^{*0}(892) + \Delta^{++}(1236)$ at 3 GeV/c, production mechanism and joint decay distribution in, (E), 25:40889
interactions $K^+ + p \to K^{*0}N^{*++}$ at 3, 3.5, and 5 GeV/c, cross sections for, (E/T), 21:7468
interactions $K^+ + p \to K^{*+} + p$ above 3 GeV/c, K^{*+} production and decay in, 21:4052
interactions $K^+ + p \to K^{*+} + p$ at 2 to 13 GeV/c, Regge-pole analysis of, 23:25622
interactions $K^+ + p \to K^{*+} + p$ at 3, 3.5, and 5 GeV/c, cross sections for, (E/T), 21:7468
interactions $K^+ + p \to K^{*+} + p$, line-reversal-symmetry breaking and interference effects in, 25:53213
interactions $K^+ + p \to K^{*+} + \pi^+ + p$ at 6 and 10 GeV, diffraction scattering effects on, (T), 21:19015
interactions $K^+ + p \to K^{*+}$ (890) + n + π^+ at 5 GeV/c in bubble chamber, N_1^* (1575) production in, (E), 21:46484
interactions $K^+ + p \to K^{*+}$ (890) + p at 12.7 GeV/c in hydrogen bubble chamber, cross sections, production mechanisms, and momentum transfer dependence in, (E), 24:37651 (UR-875-313)
interactions $K^+ + p \to K^{*+}(1420) + p$ at 10 GeV/c in hydrogen bubble chamber, cross sections for, (E), 22:39274 (CERN-68-7(Vol.2), pp 121-34)
interactions $K^+ + p \to K^{*+}(890) + p$ at 3 GeV/c, absorption model analysis of, 22:5590
interactions $K^+ + p \to K^{*+}(890) + p$ at 3.0 to 8.25 GeV/c, Veneziano model for, 25:56511
interactions $K^+ + p \to K^{*+}(890) + p$ at 5 to 13 GeV/c, Regge-pole model for, (E/T), 24:52106
interactions $K^+ + p \to K^{*+}(890) + p$ at high energies, O(3,1) symmetry for, 23:25624
interactions $K^+ + p \to K^{*+}(890) + p$ at high energies, model of π exchange and exchange-degenerate ω—f poles for, 24:52107
interactions $K^+ + p \to K^{*+}(890) + p$, two-parameter model for, (T), 25:14574
interactions $K^+ + p \to K^{*+}(890) + \pi^+ + p$ at 5 GeV/c, longitudinal phase space analysis of, (E/T), 23:36840
interactions $K^+ + p \to K^* + \Delta$, quark model for, 21:31602
interactions $K^+ + p \to K^* + \Delta(1236)$ at 10 GeV/c in hydrogen bubble chamber, cross sections for, (E), 22:39274 (CERN-68-7(Vol.2), pp 121-34)
interactions $K^+ + p \to K^* + \Delta(1236)$, rho + R Regge-pole model for, 24:3672
interactions $K^+ + p \to K^* + \Delta^{++}$ and $K^- + n \to$ anti $K^* + \Delta^-$ at 3 to 5 GeV/c, test of (rho,A_3) exchange degeneracy in, (E/T), 24:51966

interactions $K^+ + p \rightarrow K^0 + \Delta^{++}$ at 12.7 GeV/c in hydrogen bubble chamber, cross sections, production mechanisms, and momentum transfer dependence in, (E), 24:37651 (UR-875-313)
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}$ at high energies, magnetic dipole couplings at Regge vertices for, 23: 23486
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}$ at high energies, O(3, 1) partial-wave analysis of, 23:49166
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}$, exchange of rho and A_2 Regge trajectories in, 23:36932
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}$, Regge pole and cut model with SU(3) symmetry and exchange degeneracy for differential cross sections for, (T), 25:25422
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}$, Regge pole model with Veneziano residues for, (T), 24:52110
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}$, Regge pole model with Veneziano residues for, (T), 25:3384 (TPJU-3/70)
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}(1236)$ at 12.7 GeV/c in hydrogen bubble chamber, cross sections and production mechanism for, (E), 25:19914
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}(1236)$ at 12.7 GeV/c, density matrix elements for $\Delta^{++}(1236)$ decay from, (E/T), 22:48229 (UR-875-251)
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}(1236)$ at threshold, phase shifts for, (T), 22:15798
interactions $K^+ + p \rightarrow K^0 + \Delta^{++}(1236)$, Regge pole fit for, 22:3428
interactions $K^+ + p \rightarrow K^0 + n + \pi^+ + \pi^+$ at 4.97 GeV/c in hydrogen bubble chamber, $K^*(1660)$ production from, (E), 22:9516
interactions $K^+ + p \rightarrow K^0 + n + \pi^+ + \pi^+$ at 4.97 GeV/c in hydrogen bubble chamber, K^* production from, (E), 22:9517
interactions $K^+ + p \rightarrow K^0 + n + \pi^+ + \pi^+$ at 5.44 GeV/c, K^* and N^* production in, (E), 23:10755
interactions $K^+ + p \rightarrow K^0 + N^*$, Regge-pole-exchange predictions for, 21:25301
interactions $K^+ + p \rightarrow K^0 + N^{*++}$, chiral symmetry with rho—γ analogy for, 24:18191
interactions $K^+ + p \rightarrow K^0 + N^{*++}(1236)$, comparison of Regge-pole model and absorption model for, 23:32739
interactions $K^+ + p \rightarrow K^0 + N^{*++}(1236)$, current algebra for threshold features of, 21:29546
interactions $K^+ + p \rightarrow K^0 + p + 2\pi^+ + \pi^-$ at 12.0 GeV/c in bubble chamber, evidence against A_1 production in, (E), 24:26374
interactions $K^+ + p \rightarrow K^0 + p + 2\pi^+ + \pi^- \pi^0$ at 12.0 GeV/c in bubble chamber, evidence against A_1 production in, (E), 24:26374
interactions $K^+ + p \rightarrow K^0 + p + n\pi$ (n = 3,4) in hydrogen bubble chamber at 3.5 GeV/c, production and decay of K^*, ω, and eta in, (E), 22:11597
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^0$ at 4.97 GeV/c in hydrogen bubble chamber, K^* production from, (E), 22:9517
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^0$ at 4.97 GeV/c in hydrogen bubble chamber, $K^*(1660)$ production from, (E), 22:9516
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^0$ at 5 GeV/c, final-state distributions and cross sections for, (E/T), 23:23365
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^0$ at 5.44 GeV/c, K^*, N^* and rho production in, (E), 23:10755
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^+ + \pi^- + \pi^0$ at 3.5 GeV/c, production and decays of ω(783), eta(549), and $K^{**}(1410)$ in, (E), 23:23366
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^+ + \pi^- + \pi^0$ at 5 GeV/c, final-state distributions and cross sections for, (E), 23:23365
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^+ + \pi^- + \pi^0$ at 9 GeV/c, resonance production in, (E), 23: 46607
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^+ + \pi^-$ at 3.5 GeV/c, production and decays of $K^*(892)$, kappa(725), $K^{**}(1300)$, $K^{**}(1180)$ in, (E), 23:23366
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^+ + \pi^-$ at 5 GeV/c, final-state distributions and cross sections for, (E), 23:23365
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^+ + \pi^-$ at 9 GeV/c, resonance production in, (E), 23:46607
interactions $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^-$ at 12.7 GeV/c in hydrogen bubble chamber, $K\pi\pi(1280)$ resonance production from, (E), 21:29454
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 0.6 to 1.5 GeV/c, free nucleon cross sections from, 25:47759
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 1.3 to 2.2 GeV/c in hydrogen bubble chamber, K^* and Δ^{++} production in, (E), 24:51950 (CALT-68-274)
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 1.4 and 1.7 GeV/c, CP violation in K^* decay from, (E), 25:33795
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 12.7 GeV/c in hydrogen bubble chamber, preliminary results for anti Y, Y, and quasi-two-body final states from, (E), 22: 3269 (UR-875-218)
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 1250 MeV/c in hydrogen bubble chamber, resonance production near T = 1 peak from, (E), 21:29456
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 2.65 GeV/c in hydrogen bubble chamber, $K^*(891)$ and $N^*(1236)$ production in, 21:37714
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 2.65 GeV/c in hydrogen bubble chamber, resonance production from, (E), 21:42271
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 3.5 GeV/c in hydrogen bubble chamber, three-body final states from, (E), 21:44281
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 5 GeV/c, final-state distributions and cross sections for, (E/T), 23: 23365
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 5 GeV/c, phenomenological method for double peripheral model for, 24:20139
interactions $K^+ + p \rightarrow K^0 + p + \pi^+$ at 5.44 GeV/c, K^* and N^* production in, (E), 23:10755
interactions $K^+ + p \rightarrow K^0 + p$, Regge cuts for polarization in, 23:44666
interactions $K^+ + p \rightarrow K^0 + p(n) + 2\pi$ at 3.5 GeV/c in hydrogen bubble chamber, resonance production in, (E), 22:39291
interactions $K^+ + p \rightarrow K^0 + p(n) + \pi$ at 3.5 GeV/c in hydrogen bubble chamber, resonance production in, (E), 22:39291
interactions $K^+ + p \rightarrow K^0 + \pi^0 + \Delta^{++}$ at 2.5 to 5.0 GeV, rotation of symmetry axis in $K + \pi$ interactions from, 25:59502
interactions $K^+ + p \rightarrow K^0 + \pi^0 + \Delta^{++}$, $K\pi$ phase shifts from Chew—Low extrapolation of, 25:56486
interactions $K^+ + p \rightarrow K^0 + \pi^0 + N^{*++}$ at 5 GeV/c, longitudinal phase space analysis of, (E/T), 23:36840
interactions $K^+ + p \rightarrow K^0 + \pi^0 + \pi^+ + p$ at 7.38 GeV/c, spin and parity of $K\pi\pi$ system in, (E), 23: 5535
interactions $K^+ + p \rightarrow K^0 + \pi^0 + \pi^+ + p$ at 9 GeV/c in hydrogen bubble chamber, K^* (1250) production from, (E), 21:46487
interactions $K^+ + p \rightarrow K^0 + \pi^0 + \pi^+ + p$, $\pi\pi$ systems in decay of low-mass $K\pi\pi$ enhancement in, (T), 24:21983
interactions $K^+ + p \rightarrow K^0 + \pi^+$ + negative-parity isobar, cuts in complex l-plane for, (T), 22:20248
interactions $K^+ + p \rightarrow K^0 + \pi^+ + \rho$ at 10 GeV/c, cross sections and decay distributions for Δ(1236), $K^*(890)$, and $K^*(1420)$ production in, (E), 25:27968
interactions $K^+ + p \rightarrow K^0 + \pi^+ + p$ at 2.26 GeV/c in hydrogen bubble chamber, production and decay of $K^*(895)$ and $N^*(1238)$ from, (T), 23:37713
interactions $K^+ + p \rightarrow K^0 + \pi^+ + p$ at 2.26 GeV/c in hydrogen bubble chamber, resonance production from, (E), 21:29452 (TID-23823)
interactions $K^+ + p \rightarrow K^0 + \pi^+ + p$ at 2.5 to 13 GeV in generalized Veneziano model, crossing-symmetric description of, 24:52091
interactions $K^+ + p \rightarrow K^0 + \pi^+ + p$ at 5 GeV/c, longitudinal phase space analysis of, (E/T), 23:36840
interactions $K^+ + p \rightarrow K^0 + \pi^+ + p$ at 9 GeV/c, cross sections for $K^*(890)$, $K^*(1420)$, and $\Delta^{++}(1236)$ production in, (E), 24:5253
interactions $K^+ + p \rightarrow K^0 + \pi^+ + p$, cutoffs in complex l-plane for, 21:31590 (JINR-P2-3337)
interactions $K^+ + p \rightarrow K^0 + \pi^+ + p$, line-reversal-symmetry breaking for, 25:53213
interactions $K^+ + p \rightarrow K^0 + \pi^+ + \pi^0 + p$ interactions at 9 GeV/c, production and decay of $K\pi\pi(1260)$ and $K\pi\pi(1380)$ enhancements in, (E), 24:3540
interactions $K^+ + p \rightarrow K^0 + \pi^+ + \pi^+ + \pi^- + \pi^0 +$ p at 10 GeV/c, production of rho(1630) in, (E), 24: 26379
interactions $K^+ + p \rightarrow K^0$ + secondary particles at 5 and 8.2 GeV/c, production properties and cross sections for, (E), 25:45671
interactions $K^+ + p \rightarrow K^0 + X$ (anything), triple-Regge hypothesis for p-Reggeon total cross section from inclusive, 25:56515
interactions $K^+ + p \rightarrow K^0(K^+) + \pi^+ + \pi^- + \pi^+(\pi^0)$ at 12.7 GeV/c in bubble chamber, $A_1^+(1030)$ and $A_1^0(1030)$ production and decay in, (E), 23:34542
interactions $K^+ + p \rightarrow K^0 N^{*++}$ at 3, 3.5, and 5 GeV/c, cross sections for, (E/T), 21:7468
interactions $K^+ + p \rightarrow K_1^0 + p + \pi^+$ at 3.2 GeV/c in hydrogen bubble chamber, resonance production in quasi-two-body final states in, (E), 24:24238 (COO-1195-178)
interactions $K^+ + p \rightarrow K_1^0 + p + \pi^+$ at 3.2 GeV/c in hydrogen bubble chamber, K^* and N^* production and momentum transfer distributions in, (E), 25:12114
interactions $K^+ + p \rightarrow K^+ + K^0(K^+) + \Sigma^+(\Sigma^0)$, isotopic amplitudes and phase shifts for, 24:1554 (JINR-P2-4621)
interactions $K^+ + p \rightarrow K^+ + K^+ + \Lambda$ at 13 GeV/c, cross sections for, (E), 23:10752
interactions $K^+ + p \rightarrow K^+ + K^+ + \Lambda$ at high energies, (T), 21:17125
interactions $K^+ + p \rightarrow K^+ + n + \pi^+$ at 3.5 GeV/c in hydrogen bubble chamber, three-body final states from, (E), 21:44281
interactions $K^+ + p \rightarrow K^+ + N^*$, one-pion and diffraction contributions to, (T), 24:20173 (ITF-69-86)
interactions $K^+ + p \rightarrow K^+ + \omega + p$ at 4.6 and 9.0 GeV/c, double Regge model for, (E/T), 23:18819
interactions $K^+ + p \rightarrow K^+ + \omega + p$ at 4.9 and 9 GeV/c in bubble chamber, multi-Regge model for meson (ω) production in, (E/T), 22:50295 (UCRL-18321)
interactions $K^+ + p \rightarrow K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^0$, Chew—Low extrapolation of cross sections for $K\pi$ elastic and charge-exchange interactions from, 24: 30502 (CONF-690521-, pp 487-507)
interactions $K^+ + p \rightarrow K^+ + p + K^+ + K^-$ at 12.7 GeV/c in hydrogen bubble chamber, production of low-mass K^+phi^0 enhancement and phi^0 in, (E), 25: 12102
interactions $K^+ + p \rightarrow K^+ + p + \omega$ at 9 GeV/c, test of double-Regge behavior of generalized Veneziano model for, 25:9797
interactions $K^+ + p \rightarrow K^+ + p + \pi^0$ at 3.5 GeV/c in hydrogen bubble chamber, three-body final states from, (E), 21:44281
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^- + \pi^0$ at 12.7 GeV/c in hydrogen bubble chamber, production of low-mass $K^+\omega^0$, K^+eta^0, $p\omega^0$, and peta^0 enhancements and ω^0 and eta^0 in, (E), 25:12102
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^- + \pi^0$ at 12.0 GeV/c in bubble chamber, evidence against A_1 production in, (E), 24:26374
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^- + \pi^+ + \pi^-$ at 12.7 GeV/c, momentum transfer distributions in, (E), 24:24233
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 12.7 GeV/c in hydrogen bubble chamber, $K\pi\pi(1280)$ resonance production from, (E), 21:29454
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 12.7 GeV/c, production and decay of $K^{**}(890)\pi^+$ system from, (E), 23:32628
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 12.7 GeV/c in hydrogen bubble chamber, resonance diffractive production in, (E), 25:12102
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 2.26 GeV/c in hydrogen bubble chamber, production and decay angular distributions of $K^*(895)$ and $N^*(1238)$ from, 21:37712
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 2.65 GeV/c in hydrogen bubble chamber, resonance production from, (E), 21:42271
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 2.65 GeV/c in hydrogen bubble chamber, $K^*(891)$ and $N^*(1236)$ production in, 21:37714
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 3.2 GeV/c in hydrogen bubble chamber, $K^*(890)$, $\Delta^{++}(1236)$, and $K^{**}(890)\pi$ enhancement in, (E), 23: 42557 (COO-1195-163)
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 4.3 GeV/c, analysis of Q enhancement in, (E), 25:38664
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 4.97 GeV/c in hydrogen bubble chamber, K^* production from, (E), 22:9517
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 4.97 GeV/c in hydrogen bubble chamber, $K^*(1660)$ production from, (E), 22:9516
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 5 GeV/c, final-state distributions and cross sections for, (E), 23: 23365
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ at 5.5 GeV/c, spin—parity analysis of $K^*(890)\pi$ system in Q-region in, (E), 24:51901
interactions $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$, Chew—Low extrapolation of cross sections for $K\pi$ elastic and charge-exchange interactions from, 24:30502 (CONF-690521-, pp 487-507)
interactions $K^+ + p \rightarrow K^+ + p$ at 0.355 to 1.970 GeV/c, energy-independent phase shift analysis for, (T), 25: 25440
interactions $K^+ + p \rightarrow K^+ + p$ at 0.4 to 0.73 GeV/c, p-wave contributions and phase-shift for, (E), 24:45430
interactions $K^+ + p \rightarrow K^+ + p$ at 0.78 to 1.45 GeV/c, partial-wave analysis for Z(1830) production in, (T), 25:25418 (ORO-2504-151)
interactions $K^+ + p \rightarrow K^+ + p$ at 0.78 to 1.45 GeV/c, partial-wave analysis for Z(1840) production in, (T), 25:25439
interactions $K^+ + p \rightarrow K^+ + p$ at 0.9 to 1.5 GeV/c, resonance-like behavior of P_{13} amplitude from phase shift analysis of, (T), 25:25332
interactions $K^+ + p \rightarrow K^+ + p$ at 1.0 to 2.45 GeV/c, cross sections for backward, (E), 25:14582
interactions $K^+ + p \rightarrow K^+ + p$ at 1.21 to 2.10 GeV/c, review of Z^* production from phase shift analysis and polarization for, (T), 25:25437
interactions $K^+ + p \rightarrow K^+ + p$ at 1.33 to 2.58 GeV/c, asymmetry measurements for, (E), 25:33561
interactions $K^+ + p \rightarrow K^+ + p$ at 1.4 to 2.3 GeV/c, differential cross sections and phase shift analysis for, (E/T), 25:25331
interactions $K^+ + p \rightarrow K^+ + p$ at 1.4 to 2.3 GeV/c, differential cross sections for phase shift analysis for, (E/T), 24:37659
interactions $K^+ + p \rightarrow K^+ + p$ at 1.54 and 1.71 GeV/c, wire spark chamber and Cherenkov counter study of asymmetry and differential cross sections and phase shift analysis for, (E/T), 24:12953
interactions $K^+ + p \rightarrow K^+ + p$ at 2.4 GeV/c, absorptive Veneziano model for, 25:1518
interactions $K^+ + p \rightarrow K^+ + p$ at 2.53 to 3.20 GeV/c in hydrogen bubble chamber, differential cross sections for, (E), 25:1407 (COO-1195-196)
interactions $K^+ + p \rightarrow K^+ + p$ at 2.53 to 3.20 GeV/c in hydrogen bubble chamber, differential and total cross sections for, (E), 25:12115
interactions $K^+ + p \rightarrow K^+ + p$ at 2.53 to 3.20 GeV/c in hydrogen bubble chamber, differential and total cross sections with forward and backward peaks and phase shift analysis at 2.50 GeV/c for, (E), 24:21935 (COO-1195-175)
interactions $K^+ + p \rightarrow K^+ + p$ at 2.53 to 3.20 GeV/c in hydrogen bubble chamber, enhancement at 2.505 GeV/c and phase shift analysis for, (E), 24:40260 (COO-1195-191)
interactions $K^+ + p \rightarrow K^+ + p$ at 270 MeV in nuclear emulsions, angular distributions for, 25:53034
interactions $K^+ + p \rightarrow K^+ + p$ at 3.55 GeV/c, backward elastic, (E), 21:18920
interactions $K^+ + p \rightarrow K^+ + p$ at 3.55 GeV/c, spark chamber study of differential cross section for, (E), 23: 23372
interactions $K^+ + p \rightarrow K^+ + p$ at 3.55 to 6.9 GeV/c spark chamber study of differential cross sections for, (E), 25:9684
interactions $K^+ + p \rightarrow K^+ + p$ at 4.0 and 5.0 GeV/c, differential cross sections for large-angle, (E), 25: 43559
interactions $K^+ + p \rightarrow K^+ + p$ at 4.98 GeV/c in hydrogen bubble chamber, constructive interference in, (E), 24:24255
interactions $K^+ + p \rightarrow K^+ + p$ at 50 to 150 GeV/c, design of apparatus for, (E), 24:51954 (TID-25473(Vol.4), pp 67-70)
interactions $K^+ + p \rightarrow K^+ + p$ at 6 GeV/c, Cherenkov counter study of polarization parameter for, (E), 24: 24227
interactions $K^+ + p \rightarrow K^+ + p$ at 6 to 18 GeV, polarization parameters for, (E), 25:33552 (NP-18830)
interactions $K^+ + p \rightarrow K^+ + p$ at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions $K^+ + p \rightarrow K^+ + p$ at 7.3 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25: 14574

interactions $K^+ + p \to K^+ + p$ at 780 MeV/c in hydrogen bubble chamber, proton polarization in, 21: 33616
interactions $K^+ + p \to K^+ + p$ at 780 MeV/c, phase shift analysis for elastic, (E), 21:18919
interactions $K^+ + p \to K^+ + p$ at 80 to 280 MeV/c in hydrogen bubble chamber, differential cross sections for, (E), 22:34850
interactions $K^+ + p \to K^+ + p$ at 860 to 1210 MeV/c, partial-wave analysis of, (T), 24:40387 (UCRL-19787)
interactions $K^+ + p \to K^+ + p$ at 864 MeV/c in hydrogen bubble chamber, proton polarization in double scattering from, (E), 23:51861 (UCRL-19278)
interactions $K^+ + p \to K^+ + p$ at 864 to 1207 MeV/c in hydrogen bubble chamber, differential cross sections for, (E), 23:42572
interactions $K^+ + p \to K^+ + p$ at 864 to 1207 MeV/c, partial-wave analysis of, 23:42672 (UCRL-19231)
interactions $K^+ + p \to K^+ + p$ at high energies, compilation of polarization data and exchange-degenerate Regge pole model for, (E/T), 25:53186
interactions $K^+ + p \to K^+ + p$ at high energies, eikonal model for, (T), 25:30893 (INR-P-1233)
interactions $K^+ + p \to K^+ + p$ at high energies, eikonal model for total cross sections and slope of differential cross sections for, (T), 25:47881
interactions $K^+ + p \to K^+ + p$ at high energies, predictions of quark model for large-angle, 23:21096
interactions $K^+ + p \to K^+ + p$ at high energies, Regge pole—cut model for analysis of, 25:56505
interactions $K^+ + p \to K^+ + p$ at high energies, Regge-pole eikonal theory of small-angle, 23:25639
interactions $K^+ + p \to K^+ + p$ at high energies, SU(3) inequalities for amplitude differences for, 21:21287
interactions $K^+ + p \to K^+ + p$ at high energies, unitarity conditions for imaginary part of amplitude for large-angle, 22:13743
interactions $K^+ + p \to K^+ + p$ at high finite energies, Regge pole theory and exchange degeneracy for phases with $K^- + n \to K^- + n$ interactions for, 24:10755
interactions $K^+ + p \to K^+ + p$ at large finite energies, relations between particle and antiparticle total cross sections and phases for, (T), 24:28559
interactions $K^+ + p \to K^+ + p$ at low, intermediate, and high energies, Veneziano model for, 25:7656 (IFT-70/5)
interactions $K^+ + p \to K^+ + p$ at threshold to 19 GeV/c, energy-independent phase-shift analysis for Z^* production in, (T), 25:25438
interactions $K^+ + p \to K^+ + p$, compilation of differential and total cross sections, polarization and effective Regge trajectories for, (E), 25:38663 (UCRL-20001)
interactions $K^+ + p \to K^+ + p$, current algebra and vector meson dominance for s-wave scattering length for, 23:18890
interactions $K^+ + p \to K^+ + p$, data tabulation of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $K^+ + p \to K^+ + p$, diffraction model for forward peaks in, 24:37799
interactions $K^+ + p \to K^+ + p$, exchange degeneracy in, 24:52092
interactions $K^+ + p \to K^+ + p$, Regge quark model for, (T), 25:25450
interactions $K^+ + p \to K^+ + p$, search for $S = +1$ resonances in, (E), 25:25286
interactions $K^+ + p \to K^+ + \text{phi} + p$ at 4.6 and 9.0 GeV/c, (E), 23:18819
interactions $K^+ + p \to K^+ + \text{phi} + p$ at 4.9 and 9 GeV/c in bubble chamber, meson (phi) production in, (E/T), 22:50295 (UCRL-18321)
interactions $K^+ + p \to K^+ + \pi^0 +$ negative-parity isobar, cuts in complex l-plane for, (T), 22:20248
interactions $K^+ + p \to K^+ + \pi^0 + p$, cutoffs in complex l-plane for, 21:31590 (JINR-P2-3337)
interactions $K^+ + p \to K^+ + \pi^0 + p$, dual + Pomeron analysis of, 25:59490
interactions $K^+ + p \to K^+ + \pi^- + \Delta^{++}$ (1236) at 4.6 and 9 GeV/c, one pion exchange modified by absorption effects in, (T), 22:34983 (UCRL-18201)
interactions $K^+ + p \to K^+ + \pi^- + \Delta^{++}$ at 2.5 to 5.0 GeV, rotation of symmetry axis in $K + \pi$ interactions from, 25:59502
interactions $K^+ + p \to K^+ + \pi^- + \Delta^{++}$ at 5.43 GeV/c in bubble chamber, $K^{*0}\pi^+$ enhancement production and $K^+ + \pi^- \to K^+ + \pi^-$ interaction cross sections from, (E), 25:17381
interactions $K^+ + p \to K^+ + \pi^- + \Delta^{++}$ interactions, total cross section and phase shifts from Chew—Low extrapolation of, 24:30503 (CONF-690521-, pp 508-19)
interactions $K^+ + p \to K^+ + \pi^- + \Delta^{++}$, $K\pi$ phase shifts from Chew—Low extrapolation of, 25:56486
interactions $K^+ + p \to K^+ + \pi^- + \Delta^{++}(1236)$ at 9 GeV/c, double-peripheral model analysis of, (E/T), 25:14714
interactions $K^+ + p \to K^+ + \pi^- + \Delta^{++}(1236)$ at 9 GeV/c, $K\pi$ mass spectrum in, (E), 24:49342
interactions $K^+ + p \to K^+ + \pi^+ + n$ at 3 GeV/c, double-peripheral model for differential cross sections for, 22:29701
interactions $K^+ + p \to K^+ + \pi^+ + n$ at 7.3 GeV/c in hydrogen bubble chamber, cross sections and $\Delta(1236)$, $K^*(890)$, and $K^*(1420)$ production in, (E), 25:14574
interactions $K^+ + p \to K^+ + \pi^- + N^0$ at 5 GeV/c in bubble chamber, exchange mechanism in, (E), 24:5250
interactions $K^+ + p \to K^+ + \pi^+ + n$, crossing-symmetric description of, 25:50141
interactions $K^+ + p \to K^+ + \pi^- + N^{*++}$ at 5 GeV/c as test of double peripheral model, (E/T), 24:12948 (INP-682, pp 168-204)
interactions $K^+ + p \to K^+ + \pi^- + N^{*++}$ at 5 GeV/c, double-peripheral model for analysis of four-momentum transfer distributions in, (E/T), 24:15587
interactions $K^+ + p \to K^+ + \pi^- + N^{*++}$ at 5 GeV/c, double-peripheral model and four-momentum transfer distributions in, (E/T), 24:49512
interactions $K^+ + p \to K^+ + \pi^- + N^{*++}$ at 5 GeV/c, longitudinal phase space analysis of, (E/T), 23:36840
interactions $K^+ + p \to K^+ + \pi^- + N^{*++}$ at 5 to 16 GeV/c, generalized Veneziano model for π exchange in, 25:25445
interactions $K^+ + p \to K^+ + \pi^- + N^{*++}$, method for $K\pi$ phase shift analysis for, 22:1443
interactions $K^+ + p \to K^+ + \pi^+ + \pi^- + p$ at 10 GeV/c in hydrogen bubble chamber, K(1250), K(1380), and L(1800) production in $K^+\pi^+\pi^-$ effective mass spectrum in, (E), 25:40901
interactions $K^+ + p \to K^+ + \pi^+ + \pi^- + p$ at 10 GeV/c in hydrogen bubble chamber, spin—parity analysis of $K^+\pi^+\pi^-$ system as K(1250) and K(1380) in, (E), 25:40900
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$ at 12 GeV/c, resonance shape fits to $K^*(1420)$ and $K^*(890)$ production in, (E), 24:1520
interactions $K^+ + p \to K^+ + \pi^+ + \pi^- + p$ at 2.53 to 3.20 GeV/c, production cross sections and decay angular distributions for $K^{*0}(890)$ and $\Delta^{++}(1236)$ from, (E), 24:37660
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$ at 2.75 and 3.2 GeV/c, differential cross sections for, (E), 22: 48224 (COO-1195-130)
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$ at 4.6 and 9 GeV/c in hydrogen bubble chamber, $K^{*0}(890)$ $\Delta^{++}(1236)$ and $K^{*0}(1420)$ $\Delta^{++}(1236)$ double resonance and $\Delta^{++}(1236)\pi^-$ and $K^+\pi^-(1100)$ enhancement production in, (E), 25:3271 (UCRL-19809)
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$ at 4.6 and 9 GeV/c in hydrogen bubble chamber, resonance production in, (E), 25:45673
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$ at 5.5 GeV/c, interference analysis of production and decay of $K^*(1400)$ in, (E), 23:8740
interactions $K^+ + p \to K^+ + \pi^+ + \pi^- + p$ at 5.5 GeV/c, production of $p\pi^+\pi^-(1450)$ enhancement in, (E), 23:8755
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$ at 7.3 GeV/c, cross section, angular distributions, and $K + \pi$ interaction study from, (E), 23:13037
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$ at 7.38 GeV/c, spin and parity of $K\pi\pi$ system in, (E), 23: 5535
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$ at 9 GeV/c in hydrogen bubble chamber, K^* (1250) production from, (E), 21:46487
interactions $K^+ + p \to K^+ + \pi^+ + \pi^- + p$ at 9 GeV/c, production and decay of $K\pi\pi(1260)$ and $K\pi\pi(1380)$ enhancements in, (E), 24:3540
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$, analysis of $K + \pi$ interactions from, 23:49146
interactions $K^+ + p \to K^+ + \pi^- + \pi^+ + p$, $\pi\pi$ systems in decay of low-mass $K\pi\pi$ enhancement in, (T), 24:21983
interactions $K^+ + p \to K^*(890) + p$ at high energies, factorizable quark model for amplitude of, (T), 25: 30879
interactions $K^+ + p \to K^*(K^0) + \pi^-(\pi^0) + \Delta^{++}$ at 12.7 GeV/c in hydrogen bubble chamber, $K^+ + \pi^- \to K^*(K^0) + \pi^-(\pi^0)$ interactions in, (E), 25:19914
interactions $K^+ + p \to K^*(K^0) + \pi^-(\pi^0) + \pi^+ + p$ at 10 GeV/c, low-mass enhancements in $K\pi\pi$ spectrum from, (E), 25:9679
interactions $K^+ + p \to K^*(K^0) + \pi^-(\pi^0)$, $K^+ + p \to K^*(K^0) + \pi^-(\pi^0) + \Delta^{++}$ interactions at 12.7 GeV/c in hydrogen bubble chamber for, (E), 25:19914
interactions $K^+ + p \to K^+p$ at 3, 3.5, and 5 GeV/c, cross sections for, (E/T), 21:7468
interactions $K^+ + p \to L^*(1780) + p$ at 12 GeV/c in bubble chamber, production of L^* enhancement in, (E), 23:34539
interactions $K^+ + p \to \Lambda + K^+ + K^+$ at 7.3 GeV/c in hydrogen bubble chamber, (E), 25:14574
interactions $K^+ + p \to \Lambda + K^+ + K^+$ at 7.3 GeV/c, double-Regge model for peripheral production in, (E/T), 25:25336
interactions $K^+ + p \to n + K_1^0 + \pi^+ + \pi^-$, $K\pi\pi$ enhancement in, (E), 24:37650 (UR-875-312)
interactions $K^+ + p \to N^{*++} + K^*(890)$ at 13 GeV/c, cross sections for, (E), 23:10752
interactions $K^+ + p \to N^{*++} + K^0$ at 13 GeV/c, cross sections for, (E), 23:10752
interactions $K^+ + p \to p + K + \pi + \pi$ at 12.7 GeV/c, spin-parity assignment for $K\pi\pi(1300)$ from, (E/T), 22:48229 (UR-875-251)
interactions $K^+ + p \to p + K^{*0}(890) + \pi^+$, $K^{*0} \to K^+ + \pi^-$ at 5.44 GeV/c, diffraction dissociation in, (E), 23:10755
interactions $K^+ + p \to p + K^{*+}(890)$ at 10 GeV/c in hydrogen bubble chamber, cross sections for, (E), 22: 39274 (CERN-68-7(Vol.2), pp 121-34)
interactions $K^+ + p \to p + K^{*0}(890)$ at 12.7 GeV/c, density matrix elements for $K^{*0}(890)$ decay from, (E/T), 22:48229 (UR-875-251)
interactions $K^+ + p \to p + K^{*0}(890)$, $K^{*0}(890) \to K^0 + \pi^+$ at 12.7 GeV/c in hydrogen bubble chamber, cross sections and production mechanism for, (E), 25:19914
interactions $K^+ + p \to p + K^{*0}(890)$, $K^+ + p \to K^+ + N^{*++}(1236)$, and $K^+ + p \to K^{*0}(890) + N^{*++}(1236)$ at 12.7 GeV/c, density matrix elements and momentum transfer spectra for, (E), 23:10760
interactions $K^+ + p \to p + K^+ + \pi^+ + \pi^-$ at 50 GeV/c, performance of proposed 25-foot bubble chamber for study of simulated, 24:50591 (TID-25473(Vol.2), pp 69-81)
interactions $K^+ + p \to p + K^+ + \pi^+ + \pi^-$ interactions at 1.3 to 2.2 GeV/c in hydrogen bubble chamber, associated production of K^* and Δ^{++} in, (E), 24:51950 (CALT-68-274)
interactions $K^+ + p \to p + K^+$ at 3.5 GeV/c in hydrogen bubble chamber, baryon exchange in backward, (E), 22:20142
interactions $K^+ + p \to p + K^+(K^0) + \pi^0(\pi^+)$ at 7.3 GeV/c in hydrogen bubble chamber, cross sections and $\Delta(1236)$, $K^*(890)$, and $K^*(1420)$ production in, (E), 25:14574
interactions $K^+ + p \to p + p +$ anti A at 13 GeV/c, cross sections for, (E), 23:10752
interactions $K^+ + p \to p + p +$ anti A at 5 GeV/c in hydrogen bubble chambers, cross section for, 21:21232
interactions $K^+ + p \to p + p +$ anti Σ^0 at 5 GeV/c in hydrogen bubble chambers, cross section for, 21:21232
interactions $K^+ + p \to p + \pi^+ + K^0 + \pi^0$ at 13 GeV/c, cross sections for, (E), 23:10752
interactions $K^+ + p \to p + \pi^+ + K^0$ at 13 GeV/c, cross sections for, (E), 23:10752
interactions $K^+ + p \to \pi^+ + K^0 + p$ at 785 MeV/c, unitarized model with $P_{3/2}$ and $S_{1/2}$ $\pi + N$ interactions for, 24:3670
interactions $K^+ + p \to \pi^- +$ particles at 12 GeV/c, symmetric π^- production in, (E), 25:43557
interactions $K^+ + p \to \pi^+ + \pi^+ + K^0 + n$ at 13 GeV/c, cross sections for, (E), 23:10752
interactions $K^+ + p \to Q^+ + p \to K^+ + \pi^+ + \pi^- + p$ at 2.5 to 12.7 GeV/c, helicity conservation in, (E/T), 25:47753
interactions $K^+ + p \to Q^+ + p$, $Q^+ \to K^+ + \pi^+ + \pi^-$ at 12.7 GeV/c, effects of K—π misidentification on determination of decay properties of Q in, (T), 24: 26437 (UR-875-304)
interactions $K^+ + p \to Z^+ + \pi^+$ at 778 MeV/c in hydrogen bubble chamber, search for positive-strangeness baryon Z^+ in, 21:21142
interactions $K^+ + p$ above 0.7 GeV/c, Regge-pole model of, (E/T), 24:52100
interactions $K^+ + p$ above 10 GeV, shrinking, nonshrinking, and expanding diffraction peaks in, (T), 21:19009
interactions $K^+ + p$ above 20 GeV, finite-energy sum rule for test of models for asymptotic behavior of amplitudes for, (T), 24:52112 (JINR-E2-5227)
interactions $K^+ + p$ above 3 GeV/c with charge exchange and no strangeness exchange, quark model predictions for pseudoscalar and vector meson production in, (E), 23:34532 (INR-1040)
interactions $K^+ + p$ and $K^- + p$ at high energies, upper bounds on cross section differences for, 24:33018
interactions $K^+ + p$ and $K^- + p$, invalidity of Pomeranchuk theorem for, (E/T), 24:45436
interactions $K^+ + p$ at 0.140 to 14.800 GeV/c, data compilation on real parts of forward amplitudes of, (E), 25:3379 (JINR-E1-5259)
interactions $K^+ + p$ at 0.3 to 20 GeV/c, momentum dependence of diffraction slopes in elastic, (T), 23: 25642
interactions $K^+ + p$ at 0.36 to 0.72 GeV/c, total cross sections for, (E), 25:9673
interactions $K^+ + p$ at 0.41 to 0.72 GeV/c, differential cross sections for elastic, (E), 24:40275
interactions $K^+ + p$ at 0.6 to 2.65 GeV/c, total cross section for, (E), 22:26567
interactions $K^+ + p$ at 0.6 to 2.65 GeV/c, total cross sections for, (E), 22:13654 (RPP/H-31)
interactions $K^+ + p$ at 0.86 to 1.45 GeV/c, phase shift analysis of polarization and cross-section data for elastic, (E/T), 23:49054
interactions $K^+ + p$ at 0.86 to 1.95 GeV/c, evidence for existence of Z^* from phase-shift analysis of, (E/T), 24: 20159
interactions $K^+ + p$ at 0.87 and 2.74 GeV/c, differential cross sections, polarization, and phase shift analysis of elastic, (E/T), 25:40895
interactions $K^+ + p$ at 0.9 to 1.5 GeV/c in bubble chamber, total, total elastic and inelastic, and partial inelastic cross sections and elastic angular distributions for, (E), 25:25332
interactions $K^+ + p$ at 0.9 to 1.5 GeV/c, phase shift analysis and cross sections for, (E), 25:1415
interactions $K^+ + p$ at 0.9 to 2.4 GeV/c, new resonance structures in total cross sections for, (E), 24:37655
interactions $K^+ + p$ at 1 GeV/c, K-matrix formalism for, 22:48373
interactions $K^+ + p$ at 1 to 2.5 GeV/c, spark chamber study of angular distribution of backward elastic, (E), 23:3642 (UR-875-254)
interactions $K^+ + p$ at 1 to 20 GeV/c, optical models for cross sections for elastic, (E/T), 21:21230
interactions $K^+ + p$ at 1 to 3.5 GeV/c, review of Z^* production in, (E), 25:25306
interactions $K^+ + p$ at 1 to 3.5 GeV/c, spin and parity of $Z_1(1910)$ from, (T), 22:5591
interactions $K^+ + p$ at 1 to 7 GeV/c, angular distributions and cross sections for backward elastic, (E), 24:24248
interactions $K^+ + p$ at 1.0 to 2.5 GeV/c, spark chamber study of angular distribution and differential cross section of backward elastic, (E), 22:52947
interactions $K^+ + p$ at 1.0 to 3.3 GeV/c, scintillation and differential Cherenkov counter study of total cross section and resonance production in, (E), 22:29634
interactions $K^+ + p$ at 1.20 to 14.88 GeV/c, model of Pomeranchuk exchange plus direct channel resonances for analysis of elastic, (T), 23:23476
interactions $K^+ + p$ at 1.22 and 2.48 GeV/c, polarization angular distributions in elastic, (E), 23: 21060
interactions $K^+ + p$ at 1.30 to 6.9 GeV/c, Veneziano model for backward, (E/T), 24:1592
interactions $K^+ + p$ at 1.37 to 1.89 GeV/c, phase shift analysis and polarization in elastic, (E), 23:36843
interactions $K^+ + p$ at 1.4 to 5.0 GeV/c, cross sections for inelastic, (E), 22:17873
interactions $K^+ + p$ at 1.55 to 3.3 GeV/c, evidence for strangeness-1 baryon resonances in total cross sections for, (E), 24:37657
interactions $K^+ + p$ at 1.55 to 3.30 GeV/c, differential Cherenkov counter study of structure in total cross sections for, 21:35268

interactions K^+ + p at 1.585 GeV/c in hydrogen bubble chamber, single and double π production cross sections and Δ and K^* production and interference in, (E), 25: 33555 (UCRL-20628)
interactions K^+ + p at 1.60 to 3.31 GeV/c, polarization parameter or elastic, (E), 25:27963
interactions K^+ + p at 10 and 14 GeV/c, polarization parameter in forward elastic, (E), 25:56438
interactions K^+ + p at 10 GeV, generalized Veneziano model and Reggeized multiperipheral model for anti A production in, (E/T), 25:27966
interactions K^+ + p at 10 GeV/c in hydrogen bubble chamber, review of K^* and N^* production in, (E), 25: 56435
interactions K^+ + p at 10 GeV/c in hydrogen bubble chamber, production of L(1750) in four-, five- and six-body final states in, (E), 25:17399
interactions K^- + p at 10 GeV/c, mass dependence of differential cross section for, (E), 22:44338
interactions K^+ + p at 11 to 15 GeV/c, complex Gaussian potential for analysis of elastic, 23:10819
interactions K^+ + p at 11.8 GeV/c, scaling behavior and factorization from π^- momentum distribution from inclusive, (E), 25:33565
interactions K^+ + p at 12.7 GeV/c in bubble chamber, factorization in inclusive processes from single-particle momentum distributions of π produced in, (E), 25: 43554 (UR-875-340)
interactions K^+ + p at 12.7 GeV/c in hydrogen bubble chamber, upper limits for meson resonance production in, (E), 25:19914
interactions K^+ + p at 12.7 GeV/c in hydrogen bubble chamber, hyperon and antihyperon production properties in, (E), 25:19914
interactions K^+ + p at 12.7 GeV/c in hydrogen bubble chamber, K^0, Λ, and anti Λ production cross sections for, (T), 25:19914
interactions K^+ + p at 12.7 GeV/c, cross sections for Ξ^- and anti Ξ^+ in, (E), 24:45435
interactions K^+ + p at 12.7 GeV/c, cross sections for elastic, (E), 24:51981
interactions K^+ + p at 12.7 GeV/c, longitudinal momentum distributions of π^- from production in, (E), 25:50075
interactions K^+ + p at 12.7 GeV/c, π^- momentum distributions in, (E), 25:38670
interactions K^+ + p at 12.7 GeV/c, search for new meson resonances in, (E), 23:1596
interactions K^+ + p at 12.7 GeV/c, search for S = 1 and S = 2 meson resonances in, (E), 22:46338 (UR-875-250)
interactions K^+ + p at 12.73 GeV/c, comparison of final states in, (E), 22:39276 (CERN-68-7(Vol.2), pp 172-89)
interactions K^+ + p at 12.8 and 14.8 GeV/c, generalization of pomeron + resonance approach to wide-angle elastic, (E/T), 25:50142
interactions K^+ + p at 140 to 1495 MeV/c, phase-shift analysis of, 22:15808
interactions K^+ + p at 15 to 60 GeV/c, total cross sections for, (E), 25:53014
interactions K^+ + p at 160 to 580 MeV/c, space—time shifts and cross sections for relativistic wave packet collisions for time duration of, 22:15795
interactions K^+ + p at 160 to 580 MeV/c, time shifts for s-wave elastic, 22:20260
interactions K^+ + p at 175 to 1450 MeV/c, strangeness +1 baryon resonance production from, (E), 21:2383
interactions K^+ + p at 2 to 20 GeV/c, hard-core potential in elastic, 23:15139
interactions K^+ + p at 2 to 7 GeV/c, baryon Regge exchange model for backward elastic, 23:25636
interactions K^+ + p at 2.0 to 7.0 GeV/c, Veneziano model for backward, 23:49164
interactions K^+ + p at 2.1 to 2.7 GeV/c, total and differential cross sections for elastic, (E), 24:5252
interactions K^+ + p at 2.50 GeV/c, phase shift analysis of, (T), 25:12115
interactions K^+ + p at 2.53, 2.76, and 3.20 GeV/c, differential cross sections for elastic, (E), 25:22700
interactions K^+ + p at 2.74 GeV/c, high-energy models for cross sections and polarization in, (E/T), 24:24249
interactions K^+ + p at 2.76 GeV/c, differential cross section for backward elastic, (E), 23:1604
interactions K^+ + p at 2.95 GeV/c in hydrogen bubble chamber, search for S = +2 meson in, 21:35273
interactions K^+ + p at 210 and 330 MeV, optimized polynomial representations for differential cross sections for coupling constants and nonspinflip amplitudes of, (T), 25:36532
interactions K^+ + p at 3 GeV/c, absorption model for, 22:37149
interactions K^+ + p at 3 GeV/c, cross section for elastic, (E/T), 22:50390
interactions K^+ + p at 3 GeV/c, K^+K^+ resonance production from, (E), 21:23314 (BNL-994, pp 70-102)
interactions K^+ + p at 3 GeV/c, spin effects on triangular graphs for, 21:2463 (AD-634339)
interactions K^+ + p at 3 GeV/c, unitary S-matrix model for resonance production from, 22:15853
interactions K^+ + p at 3.0 GeV/c, search for K^+K^+, $K^+\pi^+$, and K^+n resonances in, (E), 23:18818
interactions K^+ + p at 3.0 to 5.0 GeV/c, production of Z^* in, (E), 22:50397
interactions K^+ + p at 3.5 and 5 GeV/c, differential cross section for, (E/T), 22:41814
interactions K^+ + p at 3.5 and 5.0 GeV/c, cross sections for elastic, (E), 21:3998
interactions K^+ + p at 3.5 GeV/c, associated production in, (E), 25:3277
interactions K^+ + p at 3.55 GeV/c, differential cross section for backward elastic, (E), 23:23363
interactions K^+ + p at 3.75 to 4.40 GeV/c, polarization in elastic, (E), 23:36844
interactions K^+ + p at 360 to 720 MeV/c, total cross sections for, (E), 25:12120
interactions K^+ + p at 360 to 720 MeV/c, total cross sections for, (E), 25:25319
interactions K^+ + p at 4.6 GeV/c in bubble chamber, cross section for elastic, (E), 25:5296
interactions K^+ + p at 5 GeV/c, cross sections and angular correlations for six- and seven-body states in, (E), 25:59299
interactions K^+ + p at 5 to 16 GeV/c, triple Regge behavior in inclusive, (E/T), 25:45763
interactions K^+ + p at 5.2 and 6.9 GeV/c, angular distributions for backward, (E), 23:8757
interactions K^+ + p at 5.2 and 7.0 GeV/c, differential cross sections for forward and backward elastic, (E), 25:14579
interactions K^+ + p at 5.5 GeV/c, resonance production and diffraction dissociation in four-prong, (E), 23: 10753
interactions K^+ + p at 50 to 150 GeV/c, proposed experiment for diffractive production of boson resonances in, 24:51959 (TID-25473(Vol.4), pp 281-9)
interactions K^+ + p at 6 to 25 GeV/c, shadow scattering and Regge singularities in phenomenological analysis of, 21:23337
interactions K^+ + p at 7 to 15 GeV/c, quark model with Regge pole amplitude for forward elastic, 21:40200
interactions K^+ + p at 7 to 15 GeV/c, quark model with Regge pole amplitude for charge-exchange, 21:40200
interactions K^+ + p at 7.3 GeV/c, cross sections for elastic, (E), 23:21059
interactions K^+ + p at 8.25 GeV/c, cross sections for Y^* and N^* production in, (E), 25:59295
interactions K^+ + p at 80 to 280 MeV/c in hydrogen bubble chamber, cross section for elastic, 21:37698 (COO-1195-87)
interactions K^+ + p at 860 to 1200 MeV/c, cross section for K^* production in, (E), 22:39285
interactions K^+ + p at 860 to 1360 MeV/c, single meson (π) and Δ(1236) production in, (E), 23:42566
interactions K^+ + p at 864 to 1585 MeV/c, cross sections for stable final states and resonance production in, (E/T), 24:3543
interactions K^+ + p at 9 GeV/c in bubble chamber, cross section for anti Ξ^+ production in, (E), 21:46485
interactions K^+ + p at 9 GeV/c in hydrogen bubble chamber, L(1740) production from, (E), 22:1387 (UCRL-17833)
interactions K^+ + p at 9 GeV/c, anti YN(2240) enhancement in, (E), 22:22321
interactions K^+ + p at 9 GeV/c, search for S = 2 boson resonances in, (E), 22:37087
interactions K^+ + p at high energies, contribution of Regge cut to cross sections for elastic, (E/T), 24: 45517
interactions K^+ + p at high energies, dispersion relation calculation of real part of forward amplitude for, 23: 7152
interactions K^+ + p at high energies, duality for large-angle, 25:50131
interactions K^+ + p at high energies, E_1-pole exchange model for elastic backward, 25:7673
interactions K^+ + p at high energies, factorizability quark model for vector meson production in, (T), 24: 30523 (ITF-70-23)
interactions K^+ + p at high energies, Pomeranchuk theorem violation in Regge analysis of asymptotically unequal total cross sections for K^- + p interactions and, 24:13100
interactions K^+ + p at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions K^+ + p at high energies, quark-droplet model for, (E/T), 21:924
interactions K^+ + p at high energies, Regge-pole model predictions for polarization in, 23:21108
interactions K^+ + p at high energies, review of backward, (E/T), 25:53029
interactions K^+ + p at high energies, review of three- and four-body and exotic final states in, (E), 25:17392
interactions K^+ + p at high energies, total cross sections for, (E), 22:22299
interactions K^+ + p at low energies, field-theoretic model of, 25:30886
interactions K^+ + p at low energies, forward dispersion relations for analysis of, 23:25627
interactions K^+ + p at low energies, off-mass-shell calculation of, 23:25641
interactions K^+ + p at low energies, superconvergent dispersion relation for forward, 22:46431
interactions K^+ + p at moderate energies, model-independent determination of real parts of forward amplitude for, (T), 25:17497 (JINR-E2-5216)
interactions K^+ + p below 1.0 GeV/c in boundary condition model, S-wave elastic phase shift for, 25: 7672
interactions K^+ + p below 1.5 GeV/c, parametrization of scattering amplitude for analysis of, (T), 24:37787
interactions K^+ + p below 2 GeV/c in isospin-zero state, cross sections for, (E), 25:25320
interactions K^+ + p below 2 GeV/c, forward dispersion relations for partial-wave amplitudes of, (T), 25:22823
interactions K^+ + p below 2 GeV/c, isotopic spin analysis of total cross sections of, (T), 25:25462
interactions K^+ + p below 2 GeV/c, Reggeized phase shift analysis of, 25:28043
interactions K^+ + p below 2.0 GeV/c, phase-shift analysis of elastic, 25:3393
interactions K^+ + p below 2.5 GeV/c, pomeron amplitude in, 25:22834
interactions K^+ + p below 3.3 GeV/c, transmission counter study of total cross sections for, 21:27299 (BNL-11372)
interactions K^+ + p below 600 MeV/c, s- and p-wave scattering lengths for, (T), 25:59489
interactions K^+ + p below 642 MeV/c, long-range interactions in, (T), 21:27373
interactions K^+ + p in dual absorptive model, differential cross sections for elastic, 25:33762
interactions K^+ + p in interference model, effect of Z^* on elastic, (T), 24:49500
interactions K^+ + p in quark model in collinear group, cross section relations for elastic and inelastic, 21: 40203
interactions K^+ + p in quark model with spin structure, factorizability hypothesis for differential cross sections of inelastic, 23:42671 (ITF-69-28)
interactions K^+ + p in Regge-pole formalism with duality, slopes of angular distributions of elastic, (T), 24:47457
interactions K^+ + p in Veneziano model, differential cross sections for charge-exchange and backward elastic, 25:36507
interactions K^+ + p in Veneziano model, phase shifts for, 25:36507
interactions K^+ + p to 2.5 GeV/c, phase-shift analysis of elastic, 24:42969
interactions K^+ + p up to 2 GeV/c, energy-dependent phase-shift analysis of, (E/T), 22:52945
interactions K^+ + p, at 0.86 to 1.58 GeV/c in bubble chamber, cross sections for elastic and inelastic, (E), 22:50296 (UCRL-18323)
interactions K^+ + p, chiral SU(3) x SU(3) algebra for, 23:23459
interactions K^+ + p, Chou—Yang model for calculation of charge form factor from, 25:17446
interactions K^+ + p, comparison of Regge analysis and phase shifts for elastic, 24:15591
interactions K^+ + p, compilation of cross section variation with incident momentum for, (E), 25:38658 (CERN-HERA-70-4)
interactions K^+ + p, crossing relations for comparison of anti p + p $\rightarrow$ K^+ + K^- interactions and backward elastic, 23:46721
interactions K^+ + p, current algebra and PCAC for sum rule for real part of amplitude for, 21:40227
interactions K^+ + p, current algebra and Regge pole theory for total cross sections for, 21:29521
interactions K^+ + p, data compilation of cross sections, angular distributions, polarization and phase shift analysis for, (E), 24:6719 (UCRL-20000-KN)
interactions K^+ + p, determination of coupling constants from π and A + Σ poles in, (T), 22:32154
interactions K^+ + p, differential cross sections for production of axial vector mesons in Regge pole model for, (T), 23:5619
interactions K^+ + p, dip cancellation by interference of Regge trajectories in backward elastic, 23:25635
interactions K^+ + p, dispersion relation calculation of real parts of forward amplitudes of, (T), 25:17479
interactions K^+ + p, dispersion relations calculations of forward, 22:24638
interactions K^+ + p, dispersion relations for dynamics of s-wave, 23:5629
interactions K^+ + p, dispersion relations for forward amplitudes of, 21:2478
interactions K^+ + p, dispersion-relation calculation of real part of amplitude for, 24:37791
interactions K^+ + p, duality for total cross section relations in quark model for, 24:35653 (ITF-70-24)
interactions K^+ + p, eikonal Regge model for elastic, 25:9755
interactions K^+ + p, empirical analysis of differences and sums of angular distributions for, (T), 25:59477
interactions K^+ + p, energy dependence of cross sections for inelastic, (E/T), 24:24373
interactions K^+ + p, extraction of AK^-p and ΣK^-p coupling constants from forward amplitudes of, 25: 33735
interactions K^+ + p, finite-energy dispersion relations for determination of forward amplitudes and coupling constants for, 25:1534
interactions K^+ + p, forward dispersion relation predictions of differential cross sections for, (E/T), 22: 24667
interactions K^+ + p, interference phenomena associated with boson resonance production from, (T), 21:46540
interactions K^+ + p, j-plane singularities in superconvergent sum rules for, 23:27804
interactions K^+ + p $\rightarrow$ K^+ + p + $2\pi^+$ + $2\pi^-$ at 4.97 GeV/c in hydrogen bubble chamber, π^+ angular correlations and resonance production in, (E), 25: 30745
interactions K^+ + p, AK coupling constant in dispersion relations for real parts of amplitudes of forward, (T), 25:47872
interactions K^+ + p, mass and width of Δ(1236) from, 24:18194
interactions K^+ + p, model-independent determination of real parts of amplitudes for forward, 25:20013
interactions K^+ + p, peripheral SU(6)/sub W/ model for resonance polarization from, 21:40261 (NP-16936)
interactions K^+ + p, phase shift analysis of, 23:8807 (INP-622(Vol.1), pp 105-46)
interactions K^+ + p, polarization of resonances in peripheral SU(6)/sub W/ model for, 22:3491
interactions K^+ + p, Pomeranchuk dominance of imaginary part of amplitude for elastic, 25:45758
interactions K^+ + p, prediction for ΛKN and ΣKN coupling constants from energy-dependent finite-energy sum rule for, 22:22404
interactions K^+ + p, predictions for K^+ + N interactions from SU(3) symmetry for backward, 22:20142
interactions K^+ + p, production of decuplet baryon resonances in broken U(6,6) from, 21:40229
interactions K^+ + p, proposed experiment for hybrid spectrometer and rapid-cycling neon bubble chamber study of diffraction dissociation in, 24:51958 (TID-25473(Vol.4), pp 275-9)
interactions K^+ + p, proton matrix element of kaon Σ-commutator term in elastic, 25:53192
interactions K^+ + p, quark model with factorization hypothesis for inelastic, (E/T), 24:24385
interactions K^+ + p, Regge fits to backward differential cross sections with trajectory exchange in, 24:21986

interactions $K^+ + p$, Regge pole exchange for oscillatory behavior of, 24:42990
interactions $K^+ + p$, Regge pole model and moving branch points in j-plane for crossover with $K^- + p$ interactions and ωP branching contribution for, 24:3679
interactions $K^+ + p$, resonances and antishrinkage of diffraction peak in, 21:46529
interactions $K^+ + p$, review and analysis of data on $K\pi\pi$ system from, 23:14991
interactions $K^+ + p$, review of, (T), 21:15339
interactions $K^+ + p$, review on strangeness-1 and -2 resonance production in, 21:18992
interactions $K^+ + p$, s-channel spin-nonflip amplitude in pomeron exchange for existence of Z_1^* in, (T), 25:33738
interactions $K^+ + p$, soft-point PCAC scattering length for, 25:53221
interactions $K^+ + p$, SU(3)-invariant t-channel amplitudes for, 21:40221
interactions $K^+ + p$, sum rule for limitation of parametrization for asymptotic behavior of amplitudes of, (T), 25:1550
interactions $K^+ + p$, sum-rule analysis of, 22:7517
interactions $K^+ + p$, two-pion exchange contributions to, 22:41812
interactions $K^+ + p$, unitarity corrections to current-algebra amplitudes of s-wave, 23:18919
interactions $K^+ + p$, unsubtracted dispersion sum rule for, (T), 22:39409
interactions $K^+ + p$, use of current algebra for test of pole-dominance hypothesis for, 22:3441
interactions $K^+ + p$, weak duality for slopes of angular distribution of elastic, 25:30873
interactions $K^+ +$ phi, resonance width determination from interference of identical particles in, (T), 25:45727
interactions $K^+ + \pi^0 \rightarrow K^0 + \pi^+$, cross sections from Chew—Low extrapolation of $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^0$ interactions, 24:30502 (CONF-690521-, pp 487-507)
interactions $K^+ + \pi^- \rightarrow K^0 + \pi^0$, cross section from Chew—Low extrapolation of $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^0$ interactions, 24:30502 (CONF-690521-, pp 487-507)
interactions $K^+ + \pi^- \rightarrow K^0 + \pi^0$, cross sections for Chew—Low extrapolation of $K^+ + p \rightarrow K + \pi + N$ interactions, (E/T>, 25:5369
interactions $K^+ + \pi^- \rightarrow K^+ + \pi^-$ in $K^+ + p \rightarrow K^+ + \pi^- + \Delta^{++}$ interactions at 5.43 GeV/c in bubble chamber, cross sections for, (E), 25:17381
interactions $K^+ + \pi^- \rightarrow K^+ + \pi^-$, cross sections from Chew—Low extrapolation of $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ interactions, 24:30502 (CONF-690521-, pp 487-507)
interactions $K^+ + \pi^- \rightarrow K^+ + \pi^-$, cross sections from Chew—Low extrapolation of $K^+ + p \rightarrow K + \pi + N$ interactions, (E/T), 25:5369
interactions $K^+ + \pi^+ \rightarrow K^+ + \pi^+$, cross sections from Chew—Low extrapolation of $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ interactions, 24:30502 (CONF-690521-, pp 487-507)
interactions $K^+ + \pi^+ \rightarrow K^+ + \pi^+$, Veneziano model for chiral symmetry breaking in, 23:51923 (NYO-2262-TA-210)
interactions $K^+ + \pi^-$, total cross section and phase shifts from Chew—Low extrapolation of $K^+ + p \rightarrow K^+ + \pi^- + \Delta^{++}$ interactions, 24:30503 (CONF-690521-, pp 508-19)
interactions $K^+ + \Sigma^+ \rightarrow K^+ + \Sigma^+$, duality for nonet degeneracy in, 24:24381
interactions $\pi^+ + K^+ \rightarrow$ rho$^+ + K^{*+}(892)$, exchange degenerate K—K/sub α/ and K—K/sub β/ trajectories for, 25:33726
interactions $\pi^+ + K^+$, restrictions on SU(3) mixing from exchanged Regge trajectories, 22:48311
interactions rho + K^+, superconvergent sum rules for amplitudes of, 22:50370
lifetime of, precise measurement of, (E), 25:14531
lifetime relative to K^-, ratio of, 24:8560
mass difference (K^0 - K^+) from $K^+ + d \rightarrow p + p + K^0$ interactions, (E), 22:26548
mass difference (K^0 - K^+), predictions in terms of neutron—proton mass difference from relations of mass difference ratios with ratios of S-wave decay amplitudes, 23:39681
mass difference (K^0 - K^+), scalar and tensor tadpole contribution to, 22:46364
mass difference (K^0 - K^+), single-particle elastic contribution to electromagnetic mass shift for, 23:39665
mass difference (K^+ - K^0) consistency test using Cottingham formula and finite-energy sum rules for, 25:30800
mass difference (K^+ - K^0) from Veneziano representation, electromagnetic, 24:20099
mass difference (K^+ - K^0) high- and low-energy contributions to, 23:34560
mass difference (K^+ - K^0), analysis using hard-kaon current algebra and dispersion theory, 24:3571
mass difference (K^+ - K^0), bound-state models for electromagnetic, 21:29420
mass difference (K^+ - K^0), chiral SU(2) x SU(2) breaking of hadron energy density relation with nonzero Cabibbo angle for contribution to, 23:51980
mass difference (K^+ - K^0), contribution of A_1 Regge pole to, (T), 25:36496
mass difference (K^+ - K^0), contribution of Born term to electromagnetic, 25:12154
mass difference (K^+ - K^0), contribution of π^0/sub V/ tadpole to electromagnetic, 23:25556
mass difference (K^+ - K^0), current algebra and Weinberg sum rules for, 22:3327
mass difference (K^+ - K^0), current algebra, PCAC, chiral U(3) x U(3), and second Weinberg sum rule for electromagnetic, 24:6703
mass difference (K^+ - K^0), dependence on parameter from K/sub A/ $\rightarrow K^0\pi$ and $K^0 \rightarrow K\pi$ decay rates, 23:23425
mass difference (K^+ - K^0), electromagnetic, 24:10714
mass difference (K^+ - K^0), electromagnetic, (T), 23:8782
mass difference (K^+ - K^0), finite-energy sum rules for virtual Compton-effect amplitude for, 22:39316 (JINR-E2-3853)
mass difference (K^+ - K^0), magnitude and sign of, (T), 22:52961
mass difference (K^+ - K^0), on-shell electromagnetic, 23:18860
mass difference (K^+ - K^0), spectral function sum rules and soft meson technique in current algebra for electromagnetic, 22:13693 (LPTHE-TH-221)
mass difference (K^+ - K^0), SU(3) symmetry breaking parameters contribution to, (T), 25:5402
mass difference (K^+ - K^0), sum rule for electromagnetic, 22:26597
mass difference (K^+ - K^0), use of chiral SU(3) x SU(3) current algebra for calculating electromagnetic, 22:13818
mass difference (K^+ - K^0), use of finite-energy sum rules for virtual Compton scattering for calculating electromagnetic, 23:18851
mass difference (K^+ - K^0), vector meson exchange model for electromagnetic, 22:17902
mass difference (K^+ - K^0), Weinberg sum rule and soft-pion technique for electromagnetic, 22:41777
mass difference (K^+ - K^0)/(n - p) ratio, field algebra for electromagnetic, 22:26602
mass difference (K^+ - K^-), 22:26548
mass difference (K^+ - K^-) from Veneziano amplitude for $K +$ rho $\rightarrow K + \omega_H$, 24:40382
mass difference (K^+ - K^-), current-algebra calculation of, 22:24702
mass difference (K^+ - π^+), B(3) symmetry for, 22:15824
mass difference K^+ - K^0 in SU(6), triplet model for electromagnetic, 21:13691
mass differences (K^+ - K^0), gauge-field algebra for divergences in electromagnetic, 21:40169
mass differences (K^+ - K^0), Veneziano models for, 24:15516
mass of, theory for origin of weak interaction Cabibbo angle for nonelectromagnetic isospin breaking for deviation from Dashen sum rule for, 23:42630 (ISS-69/18)
photoproduction of, Regge pole model with trajectory conspiracy for, 25:33726
polarization in $K^+ + p$ elastic scattering at 1.37 to 1.89 GeV/c, (E), 23:36843
polarization in $K^+ + p$ elastic scattering at 3.75 to 4.40 GeV/c, (E/T), 23:36844
production from $\gamma + N$ interactions below 6 GeV, magnetic spectrometer and differential gas Cherenkov counter study of excitation functions for, 21:33590
production from $\gamma + p \rightarrow K^+ + \Lambda$ interactions at 940 and 975 MeV, counter telescope study of cross section for, (E), 22:3243
production from $\gamma + p \rightarrow K^+ + \Lambda$ interactions, coherent-droplet model for, (T), 22:9539
production from $\gamma + p \rightarrow K^+ + \Lambda(\Sigma^0)$ interactions, review of experiments and theory for, 22:11609 (NP-17221)
production from $\gamma + p \rightarrow K^+ + \Lambda^0 (\Sigma^0)$ interactions at 3.4 to 5.0 GeV, gas Cherenkov counter study of cross sections for, (E), 22:9502
production from p + N interactions at 10 to 35 GeV/c in beryllium, empirical formulas for, 21:31605 (BNL-11479)
production from p + N interactions at 2.9 GeV in beryllium and platinum, counter study of differential cross sections for, 21:33606
production from p + p interactions at 12.5 GeV/c, spectrometer study of cross sections for, 21:29440
production from $\pi + p$ and p + p interactions at high energies, isobar production effects on K^+/K^- ratio from, (T), 22:13768
production from $\pi^+ + p \rightarrow K^+ + \Sigma^+$ interactions, Regge pole model with $K^*(890)$ and $K^*(1420)$ exchange for, 22:15797
production from $\pi^- + p \rightarrow K^+ + Y^-$ interactions at 1.0 to 2.75 GeV/c, spark chamber study of, (E), 22:13658
production in anti p + p two-body annihilations above 200 MeV/c, review of, 23:13086 (ANL/HEP-6812, pp 58-78)
production in cosmic proton reactions with nuclei at 10^{12} to 10^{13} eV in emulsions, (E), 24:35604 (SJC-P-70-2)
production in electron reactions with beryllium, beryllium—iron, and iron at 16 and 18 GeV, yields of, (E), 22:20113
production in $\gamma + p \rightarrow K^+ + K^- + p$ interactions, mass distributions from, 22:48202(R) (BMwF-FBK-68-01)
production in $\gamma + p \rightarrow K^+ + \Lambda$ interactions above 3 GeV, review of experiments on, 22:22274 (CONF-670923-, pp 309-36)
production in $\gamma + p \rightarrow K^+ + \Lambda$ interactions at 1 and 2 GeV, differential cross sections for, (E), 25:52992 (LAL-RI-71-3)
production in $\gamma + p \rightarrow K^+ + \Lambda$ interactions at 1.19 to 1.68 GeV, differential cross sections for, (E), 25:17361
production in $\gamma + p \rightarrow K^+ + \Lambda$ interactions at 1.3 GeV and $\gamma + p \rightarrow K^+ + \Sigma^+$ interactions at 1.45 GeV, differential cross sections for, (E), 25:5253
production in $\gamma + p \rightarrow K^+ + \Lambda$ interactions at 1.61 to 1.82 GeV, phenomenological analysis of, 21:5369
production in $\gamma + p \rightarrow K^+ + \Lambda$ interactions, PCAC and SU(3) x SU(3) current algebra for, 23:7161
production in $\gamma + p \rightarrow K^+ + \Lambda(\Sigma)$ interactions at 1 to 2 GeV, differential cross sections for, (E), 24:40228 (LAL-1236)
production in $\gamma + p \rightarrow K^+ + \Lambda(\Sigma)$ interactions, conspiracy and evasion in, 22:37113
production in $\gamma + p \rightarrow K^+ + \Lambda(\Sigma)$ interactions, moving cut contributions to, 23:34565
production in $\gamma + p \rightarrow K^+ + \Lambda(\Sigma^0)$ interactions at 4.3 GeV, cross sections for backward, (E), 23:51834
production in $\gamma + p \rightarrow K^+ + \Lambda(\Sigma^0)$ interactions at 5 to 16 GeV, magnetic spectrometer study of cross sections for, (E), 23:30696
production in $\gamma + p \rightarrow K^+ + \Lambda(\Sigma^0)$ interactions at 5 to 16 GeV, duality and Regge cuts in model for, 25:17424
production in $\gamma + p \rightarrow K^+ + \Lambda(\Sigma^0)$ interactions below 6 GeV, models for, 22:22345 (CONF-670923-, pp 337-75)
production in $\gamma + p \rightarrow K^+ + \Lambda^0$ and $\gamma + p \rightarrow K^+ + \Sigma^0$ interactions at 3.4 to 4.0 GeV, differential cross sections for, (E/T), 21:29423
production in $\gamma + p \rightarrow K^+ + \Lambda^0(\Sigma^0)$ interactions below 1.2 GeV, differential cross sections for, (E), 24:26357 (INSJ-115)
production in $\gamma + p \rightarrow K^+ + \Sigma$ interactions above 3 GeV, review of experiments on, 22:22274 (CONF-670923-, pp 309-36)
production in $\gamma + p \rightarrow K^+ + \Sigma^0 (\Lambda^0)$ interactions, multiple scattering corrections for additive quark model predictions for, 24:10722
production in $\gamma + p \rightarrow K^+ + \Sigma^0$ interactions at 1.19 to 1.68 GeV, differential cross sections for, (E), 25:17361
production in $\gamma + p \rightarrow K^+ + Y$ in Regge pole model, 23:32664
production in $\gamma + p \rightarrow K^+ + Y^{0*}$ interactions at 4 to 6 GeV, (E), 23:1584
production in $\gamma + p \rightarrow \Lambda(\Sigma^0) + K^+$ interactions, quark model for, 22:50336
production in $\gamma + p \rightarrow \Lambda(\Sigma^0) + K^+$ interactions, review of coupling parameters for, (E/T), 25:30797
production in $\gamma + p \rightarrow \Lambda^0 + K^+$ interactions in Regge pole model, differential cross sections for, 22:3324
production in $\gamma + p \rightarrow n + \pi^+$ interactions at high energies, Regge-pole model for, 22:17904
production in $\gamma + p \rightarrow \Sigma^0 + K^+$ in Regge pole model, differential cross sections for, 22:3324
production in $\gamma + p$ and $\gamma + d$ interactions at 11 GeV, cross sections for, (E), 25:25285
production in $\gamma + p$ interactions, SU(3) symmetry and Regge pole model for differential cross section relations for, 22:48347
production in $K^- + p$ hypercharge-exchange interactions at 4.1 and 5.5 GeV/c, (E), 21:17054
production in meson (π^-) interactions in nuclear emulsions at 17.2 GeV/c, (E), 22:32069
production in p + N interactions at 14 GeV in nuclear emulsions, (E), 21:5355
production in $p + p \rightarrow K^+ + X^+$ interactions at 2.54, 2.88, and 3.03 GeV, search for B = 2, S = -1 resonance in, (E), 21:18906
production in $p + p \rightarrow p + \Lambda + K^+$ interactions at threshold, soft-kaon approximation for total cross sections for, (T), 23:25658
production in p + p interactions and proton reactions with nuclei at 19.2 GeV/c, spectrometer study of spectra from, (E), 24:35603 (CERN-70-12)
production in p + p interactions at 12.5 GeV/c at high transverse momenta, differential cross sections for, (E), 24:15470
production in p + p interactions at 12.5 GeV/c, cross sections for, (E), 22:39250 (CERN-68-7(Vol.2), pp 262-80)
production in p + p interactions at 12.5 GeV/c, differential cross section for, 22:20128
production in p + p interactions at 14.25 to 70 GeV/c, phenomenological study of inclusive single-particle spectra in triple Regge limit for, (T), 25:59505 (JINR-E2-6031)
production in p + p interactions at 2.5 to 3.0 GeV, differential cross sections for, (E), 22:20132
production in p + p interactions at 2.85 and 2.40 GeV, (E), 22:26558
production in p + p interactions at 5.4 and 6.6 GeV/c in hydrogen bubble chamber, (E), 24:6725
production in p + p interactions at 6 GeV/c, cross sections for, (E), 23:1589
production in photon reactions with complex nuclei at 8 and 16 GeV, (E), 24:5234
production in proton interactions with hydrogen at 200 GeV, empirical estimation of flux of, 24:51923 (TID-25473(Vol.1), pp 397-401)
production in proton reactions with aluminum at 20 to 70 GeV, scaling law for, (E/T), 23:44598
production in proton reactions with beryllium at 200 GeV empirical estimation of fluxes for, 24:51924 (TID-25473(Vol.1), pp 403-16)
production in $\pi^- + p \rightarrow K^+ + \Lambda(\Sigma^-) + \pi^-(\pi^0)$ interactions at 5.0 GeV/c in hydrogen bubble chamber, (E), 22:41735 (COO-1428-72)
production in $\pi^+ + p \rightarrow K^+ + \Sigma^+$ interactions at 1.143 GeV/c, determination of relative parity of $K\Sigma N$ from, (E), 21:13679 (UCRL-17230)
production in $\pi^- + p \rightarrow \Sigma^- + K^+$ interactions at 1.5 to 4 GeV/c, rescattering model for angular distributions of, 24:24376
production in $\pi^+ + p$ interactions at 1.7 GeV/c, cross sections for, (E), 25:12104
production in $\pi^+ + p$ interactions at 5 to 8 GeV/c, absorptive corrections for associated, 21:15360
production in $\pi^+ + p$ interactions at 8.5 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25:22702
production of beams of, from electron interactions with beryllium targets at 16 to 18 GeV, 21:17230
production of intermediate-energy beams of, in ZGS proton area, 21:40300 (COO-1195-96)
production of K^+ - K^- pairs in $\pi^- + p$ interactions at 6.0 GeV/c in hydrogen bubble chamber, (E), 23:42568
production of K^+—K^- pairs in $e + e \rightarrow 2e + K^+ + K^-$ and $e^+ + e^- \rightarrow e^+ + e^- + K^+ + K^-$ interactions in colliding beams, (T), 25:53048 (DESY-71/30)
production of K^-—K^+ pairs in $e + e \rightarrow e + e + K^- + K^+$ interactions at 2 and 3 GeV, numerical calculations with two-photon exchange and double Williams—Weizsacker approximation for, 24:3566

production of K^+—K^- pairs in $e^+ + e^- \rightarrow K^- + K^+$ interactions at 2 x 590 to 2 x 670 MeV, efficiency and background for, (E), 25:47709 (NP-18932)
production of K^+—K^- pairs in $\pi^+ + p \rightarrow \pi^+ + p + K^+ + K^-$ interactions at 13.1 GeV/c in hydrogen bubble chamber, (E), 25:40879 (COO-1428-273)
reactions with aluminum, beryllium, carbon, and copper at 3.5 GeV/c, cross sections for, (E), 22:48230
reactions with carbon at 0.6 to 2.65 GeV/c, total cross sections for, (E), 22:26567
reactions with matter, energy straggling distributions in, 22:24765
reactions with nuclei at 10 GeV/c in heavy-liquid bubble chambers, $Q^*(1275)$ enhancement and K(890) in coherent production of $K^+\pi^+\pi^-$ system in, (E), 25:19913
reactions with nuclei at 10 GeV/c in heavy-liquid bubble chambers, cross sections for $Q^*(1275) + N$ interactions in nucleus in, (E/T), 25:19913
reactions with nuclei at 10 GeV/c in heavy-liquid bubble chamber, cross sections and momentum transfer distributions for coherent production of $K2\pi$, $K3\pi$, and $K4\pi$ systems in, (E), 25:19913
reactions with nuclei at 10.8 and 18.0 GeV/c, absorption cross sections for, (E), 21:37697 (BNL-11598)
reactions with nuclei at 3.5 GeV/c, cross sections for, (E), 21:46482 (COO-1195-99)
scattering by beryllium-9 at 950 MeV/c, spark chamber study of differential cross sections for elastic, (E), 22:11599
scattering by nuclei at 240 to 300 MeV in emulsions, optical model analysis of elastic, 22:18323
scattering inelastically in air, water, and nuclear emulsions of cosmic, cross sections for, (T), 22:22299
theory for, local current commutators in, (T), 25:3299
MESONS (kappa)
coupling with pseudoscalar mesons and baryons in nonconserved vector current theory, 25:28023 (NP-18763)
decay constants and form factors of, charge-divergence commutators for, 24:52039
decay kappa $\rightarrow K + 2\gamma$, model for simultaneous SU(3) symmetry breaking and chiral symmetry for, 22:35052
decay kappa $\rightarrow K + p$ in nonconserved vector current theory, 25:28023 (NP-18763)
decay kappa $\rightarrow K + \pi$, commutation relations between current divergences for, 24:10798
decay kappa $\rightarrow K + \pi$, three- and four-point functions from current algebra for, 24:3598
decay kappa $\rightarrow K + \pi$, width of, 24:24317
decay kappa $\rightarrow K^0 + \pi^+$, model for simultaneous SU(3) symmetry breaking and chiral symmetry for, 22:35052
decay kappa $\rightarrow l + \tau$, $K \rightarrow l + \tau$, and $\pi \rightarrow l + \tau$, sum rule relating, 24:24317
decay of, hard meson current algebra calculation of, 23:32689
interactions π + kappa, PCAC and Veneziano model for relation of amplitudes for elastic and inelastic, 23:30748
lifetime of low-mass, model for simultaneous SU(3) symmetry breaking and chiral symmetry for, 22:35052
mass and K/sub 13/ form factor in Glashow—Weinberg model of SU(3) x SU(3) symmetry breaking, 24:13129
mass and width from dispersive sum rule extrapolation of soft-pion results of current algebra, 24:3596
mass and width of, SU(3) x SU(3) charge algebra for relation with scalar form factor for $K \rightarrow \pi + l + \tau$ decay for, (T), 24:45486
mass and width of, SU(3) x SU(3) symmetry-breaking parameters for, 24:8612
mass difference (kappa$^+$ - kappa^0), SU(3) x SU(3) charge algebra and PCAC and PCVC hypotheses for, (T), 24:45572
mass from PCAC hypothesis and current algebra, 24:1574
mass in broken chiral SU(3) x SU(3), 25:12237
mass of, spectral function sum rules for, 24:42954
mass of, SU(3) approximation for, 24:8609
mass of, SU(3) x SU(3) spontaneous breakdown to U(2) symmetry for, 24:24418
production from $K^- + p$ interactions at 4.25 GeV/c in hydrogen bubble chamber, (E), 21:44276 (ORO-2504-108)
production in $K^- + p$ interactions at 2.24 GeV/c, (E), 21:18991
production in meson (π^-) reactions with emulsion nuclei at 7.2 GeV/c, yields of, (E), 23:18813
production in p + p interactions at 12.5 GeV/c, differential cross section for, (E), 22:20128
production of kappa (725) in $K^+ + p \rightarrow K + \pi + N$ interactions at 735 and 785 MeV/c in hydrogen bubble chamber, (E), 22:3422
properties in chiral SU(3) x SU(3) symmetry, 24:3724
symmetry for, nonlinear realization of SU(3) x SU(3), 23:23512
symmetry for, SU(3) nonlinear representations in model for SU(3) violation of, 23:51974
theory of, for eta—X^0 mixing angle, 23:21072
MESONS (μ)
see also Muonium
absorption by nuclei, asymmetry of neutron emission in, (T), 21:10117
absorption curve of high-energy cosmic, (T), 22:2846
absorption in gases, design of target for measurement of stopping, 24:15713(T) (CERN-Trans-69-29)
absorption of, G—M telescope for determining ground depth by, 23:9725
abundance in EAS, (E/T), 25:33089
abundance in extensive air showers, (E), 24:1305
angular distribution and secondary particle production probability of cosmic, scintillation detectors for studying, 23:41993
angular distribution at super-high energies underground, review of X process for, (E/T), 25:25387
angular distribution in dense layer, (T), 22:2848
angular distribution of 0.3 to 2.0 TeV cosmic, at 130 mwe, (E), 22:13267
angular distribution of cosmic, above 1 TeV at sea level, 25:38176
angular distribution of cosmic, at depths of <1000 ft underwater, (E), 24:19786
angular distribution of cosmic, underground at 1500 hg/cm^2, 22:47857
angular distributions of cosmic, deep underground, (E), 24:5017
anisotropy of cosmic, (E), 24:49044
anisotropy of cosmic, upper limit of, (T), 23:51399 (INR-1065)
arrival time in EAS at 10^{12} to 10^{19} EAS, validity of Lorentz invariance and upper limit for fundamental length in, (E), 24:10835
arrival time in EAS, Monte Carlo method for distribution for, 24:3573
attenuation coefficients for concrete, 21:21362
attenuation length in air of cosmic, (E), 22:2852
beams of, feasibility at NAL, 24:51909 (TID-25473(Vol.4), pp 79-83)
bibliography, 23:7123 (MIT-2098-486)
book; Cosmic Muons and Neutrinos, 25:56469
book: Muons, 22:24621
bremsstrahlung from, cosmic shower production by, (E/T), 25:38182
capture by antimony and zinc, mean multiplicity of neutron formation in, 24:15863
capture by antimony, copper, iron, lead, and zinc, nuclear temperatures in, (E), 24:47636
capture by atoms, cascade processes and x-ray emission in, (T), 25:58724
capture by beryllium, boron, carbon, and lithium, emission of K x rays after, (T), 21:41774
capture by beryllium, carbon, helium, and lithium, x radiation from, 25:7143
capture by boron-11, calculations using shell model, (T), 21:1033
capture by calcium, giant-resonance excitation in, (E), 25:23003
capture by calcium-40, carbon-12, silicon-28, and sulfur-32, relativistic corrections to asymmetry of high-energy neutrons from polarized, (T), 25:28183
capture by calcium-40, radiative photon spectra and branching ratio for, (T), 24:52506
capture by carbon-12 and oxygen-16, analysis using continuum model, (T), 24:24507
capture by carbon-12 and oxygen-16, giant resonance excitation from, (T), 22:3638
capture by carbon-12 and oxygen-16, giant resonance effects in neutron spectra from, (E), 25:33983
capture by closed-shell nuclei, effects of spin-orbit force on matrix elements for, (T), 21:31728
capture by complex nuclei, current commutation relations in quark field algebra for, (T), 24:37726
capture by complex nuclei, Primakoff plot for, (T), 21:12091
capture by deuterium, formation of (ddμ)$^+$ ion, 21:26970 (JINR-P4-3256)
capture by helium, x-ray yields for, 24:1736
capture by helium-3, current commutation relations in quark field algebra for, (T), 24:37726
capture by helium-3, current commutation relations for total rate of, 21:15258
capture by helium-3, Faddeev equations for probability of, (T), 25:33765 (JINR-E4-5763)
capture by helium-4, (T), 21:19166
capture by hydrogen at low energies, PCAC hypothesis for effective pseudoscalar coupling in, (T), 25:5333
capture by lead, relative intensities of transitions from, (T), 22:47814
capture by light zero-spin nuclei, γ spectra and partial rates for, (E), 23:13245
capture by lithium-6 calculations using nuclear cluster models, 21:31731
capture by nuclei, analysis using UFI theory, (T), 23:46941 (NP-17979)
capture by nuclei, angular distribution of neutrinos from, (T), 21:44792
capture by nuclei, calculations using shell-model formulation of Migdal's theory, 21:35517
capture by nuclei, description using shell model with universal Fermi interaction, 21:31829 (COO-1573-13)
capture by nuclei, elementary particle theory for, 21:31555 (NP-16795)
capture by nuclei, elementary-particle theory of, 22:3351
capture by nuclei, induced pseudoscalar form factor in, (T), 22:5898
capture by nuclei, interaction mechanism in, (T), 23:44967
capture by nuclei, lectures on Migdal formalism for, (T), 22:48625
capture by nuclei, neutron asymmetry in polarized, (T), 24:11039
capture by nuclei, relation between neutrino scattering and, 24:40344
capture by nuclei, second-class G-parity properties in, (T), 25:56854
capture by nuclei, second-order corrections to amplitudes for, (T), 21:7706
capture by nuclei, T nonconservation in, (T), 21:4003 (INP-494/PL/PH)
capture by nuclei, time dependence of particle correlations in, (T), 24:52663
capture by nuclei, two-particle correlation function in finite Fermi gas model for, 22:24913
capture by nuclei, weak interaction coupling constants for, (T), 23:17132
capture by oxygen-16, effects of deformed components in the ground-state wave function on rate of, (T), 25:17722
capture by oxygen-16, supermultiplet symmetry breaking in, (T), 21:35430
capture by uranium-233, -235, and -238, mean lives for, (E), 24:20394
capture in deuterium, relativistic calculation of hyperfine structure effects in, 21:31701 (NP-16819)
capture in fusion reactions, catalytic effects of, 21:18778 (CONF-661115-1)
capture of cosmic, in cobalt, 23:10961(R) (NP-17704)
capture of polarized, gamma—neutrino correlations in, (T), 22:14117
capture probabilities for lithium-6 and lithium-7, calculations using giant resonance method, 21:35421
capture probability for lithium-6, calculations using nucleon-association model, (T), 23:28268
capture rates for calcium-40, -48, chromium-52, iron-54, oxygen-16, and titanium-50, (T), 23:46941 (NP-17979)
capture rates in double-closed-shell nuclei, effects of SU(4) breaking on, 24:37842
charge excess of cosmic, at 75° (E), 21:37184 (BNL-11545)
charge ratio and momentum distribution of cosmic, at sea level, (E), 21:33217 (BMwF-FBK-67-29)
charge ratio and momentum spectra at 5200 m above sea level, 21:640
charge ratio at 3 to 1000 GeV/c at sea level, spectrometer study of variation with energy for, (E), 25:22664
charge ratio measurements of cosmic, magnetic spectrograph for, 24:36618
charge ratio of 20- to 100-GeV/c cosmic, at large zenith angles, (E), 23:39596
charge ratio of 3- to 360-GeV cosmic, at sea level, (E), 22:24075
charge ratio of cosmic, (E/T), 25:4988
charge ratio of cosmic, at 1 to 10 TeV at 40 to 90° zenith angles, 24:32972
charge ratio of cosmic, at sea level and 45°, (E), 22:2853
charge ratio of cosmic, energy dependence of, (T), 21:638
charge ratio of near-sea level energetic cosmic-ray, energy and zenith angle-dependent, (E/T), 25:35898
composite structure of, muon—electron problem in, 24:42909
conservation of muonic numbers, (T), 25:22313
conservation of, test of muonic lepton number, (E), 23:42540
content in cosmic showers at 5200 m, (E), 22:41392
content in EAS at large angles, (T), 23:30374
content in EAS in relation to EAS size, (E), 23:34519 (INR-1009)
content of multiple, in EAS as function of zenith angle, (E), 23:30373
coupling coefficients for cosmic, directional, (E), 23:34295
coupling coefficients of cosmic, (T), 21:29067
current coupling in $\tau + N \rightarrow N + \mu$ interactions, 22:26622
decay deep underground, scintillation counter study of rate of, (E), 25:17365
decay $\mu \rightarrow e$ + anti $\tau + \tau$, electromagnetic field effect on probability for, (T), 23:23434
decay $\mu \rightarrow e + \gamma$, lepton charge conservation in, (T), 22:11641
decay $\mu \rightarrow e + \gamma$, lepton conservation in, (T), 24:5277
decay $\mu \rightarrow e + \gamma$, quark model for, 21:27343 (JPL-TR-32-1082)
decay $\mu \rightarrow e + \tau$ + anti τ with radiative corrections, analytic regularization of amplitudes for, 25:22772
decay $\mu \rightarrow e + \tau$ + anti τ, τ mass and radiative corrections to, 24:20123
decay $\mu \rightarrow e + \tau$ + anti τ, perturbation corrections in nonlocal theory of weak interactions for, 24:15531
decay $\mu \rightarrow e + \tau$ + anti τ, radiative corrections to, 23:34557
decay $\mu \rightarrow e + \tau$ + anti τ, restrictions on mass of τ and W and weak interaction variants from, 25:53112
decay $\mu \rightarrow e + \tau$ + anti τ, V—A interaction in, (E), 23:5523
decay $\mu \rightarrow e + \tau$ + anti τ, weak interaction model for electron energy spectrum and limitations on masses of τ and W from, (T), 25:14631 (ITF-70-64)
decay $\mu \rightarrow e + \tau + \tau$, determination from neutrino bubble chamber exposures, (E), 25:9748
decay $\mu \rightarrow e$, design and performance of nanosecond time analyzer for studying, 21:45463
decay of polarized, analysis of deviations from V—A theory for probability of, 23:39677
decay of polarized, electron energy spectrum from, 25:59404
decay of polarized, general Fermi interaction with radiative corrections for spectrum of, 22:29668 (NP-17451)
decay of polarized, in constant and homogeneous magnetic field, electric dipole moment effects on distribution asymmetry of electrons from, (T), 24:24310
decay of unpolarized, low-energy electron spectrum from, (T), 22:26634
decay of, current—current theory for, 25:14647
decay of, current—current theory of, 24:26410 (NYO-3829-47)
decay of, determination of lepton-charge-violating coupling constants in, 25:14653
decay of, effect of V + A currents in spectrum and angular correlations of electron, 22:32111
decay of, finiteness of radiative corrections to all orders to, 22:50347
decay of, freedom from infrared divergences in radiative corrections with finite neutretto mass for, 24:20116
decay of, intermediate vector boson theory for radiative corrections to spectrum of beta, (T), 25:43600
decay of, magnetic field effects on electron production in, (T), 24:2330
decay of, method for detection in human body, 24:34457
decay of, nonzero τ mass effects on polarized, (T), 22:11643
decay of, radiative corrections to, 22:48264
decay of, radiative corrections to, 24:28531
decay of, radiative corrections to, 24:28532

decay of, radiative corrections to intermediate vector boson theory of, 21:21186
decay of, radiative corrections to order α^2 to, 25:33665
decay of, renormalizable weak interaction model for vector constants of, 23:25580 (ITEF-635)
decay of, review of radiative corrections to, 23:25577 (CERN-69-7, pp 409-26)
decay of, review on, (T), 24:21965
decay of, role of strong interactions and W in radiative corrections to, 22:26590 (IC-68/28)
decay of, S-operator analysis of electron spectrum in, 24:28534
decay of, six-fermion interaction in spectra and widths for five-lepton production in, (T), 25:5344
decay of, theory for, 22:48275 (CERN-68-23(Vol.1), pp 129-234)
decay of, time-to-amplitude converter for studying asymmetry in, 23:11904
decay of, two- and four-component neutrino theories from, (T), 25:59407
decay of, universal coupling and radiation corrections for, 23:15061
decay spectrum of polarized, general Fermi interaction for, 22:46387
decay underground, neutrino spectra and meson (μ) intensity from, (E), 23:1586(R) (UCI-10-P-19-7)
decay underground, scintillation-counter study of, 22:34837
decay, model for T violation in, 24:10704
decays of, review on leptonic, 22:50344
density in EAS, fluctuations of, 22:24072
density in extensive air showers, logarithmic normal distribution for, 23:44621
density in extensive air showers, relation to lateral and longitudinal shower development, (E), 21:33221 (INR-804/VI/PH)
density spectra in EAS, (E), 24:21912
density, momentum, and sign in extensive air showers, (E/T), 21:11465
detection and measurement of high-energy cosmic, underground, 24:21925
detection and measurement of, time-gate circuit design for coincidence, 21:284
detection at 40 mwe underground, (E), 22:13275
detection in EAS, experimental arrangement for, (E), 22:45977
detection in extensive air showers, density spectra from, (E/T), 23:46311
detection in isotropic spark chambers, method for, 21:17877
detection in wide-angle photoproduction experiment, hodoscope instrumentation for, 21:19946
detection of 100- to 200-MeV cosmic, calibration of dE/dx spark chambers for, 23:45549
detection of atmospheric, at depth of 7.6 x 10^5 g cm^{-2} in Kolar Gold Fields, (E), 25:45319
detection of cosmic showers of, development of cylindrical spark counter for, 21:32423
detection of cosmic, design and performance of Geiger-Mueller and absorber apparatus for, 21:10617
detection of cosmic, in deep mines, 22:21944
detection of cosmic, in extensive air showers, 23:46310
detection of cosmic, Utah experiment for, (E), 24:39902
detection of greater than or equal to 150-GeV, associated with extensive air showers, (E), 25:40411
detection of groups of, in cosmic showers penetrating underground, (E), 22:24078
detection of high-energy cosmic, ionization calorimeter for, 21:1590
detection of multiple cosmic, deep underground, (E), 25:27954
detection of multiple, at 1500 hg/cm^2, 25:14060
detection of narrow bundles of cosmic, spark chamber underground study of, (E), 25:9632
detection of neutrino-induced, (E), 25:45318
detection of, design and calibration of fast-pulse ionization chamber for, 25:35022
detection of, duration of sensitive period of muscovite mica solid track detectors for, 22:8346
detection of, produced from neutrinos, (E/T), 25:4989
detection with cosmic-ray telescope, (E), 21:37193(R) (N-67-18124)
discrimination against electrons in photomultiplier, 22:2421
distribution at distances close to axis of cosmic showers, radial, 21:14994
distribution in 10^{17}-eV large air showers, multiplicity and transverse momentum of nuclear interactions for shower structure from lateral, (T), 24:3208
distribution in central region of EAS, lateral, 23:34520
distribution in cosmic showers, lateral, (T), 25:19522 (INR-1231)
distribution in extensive air showers, (E), 22:13278
distribution in extensive air showers, (E), 22:13277
distribution in extensive air showers, (E), 24:32688
distribution in extensive air showers, (T), 25:27476
distribution in extensive air showers, TeV-range, (E), 25:27477
distribution of atmospheric, anomalous zenithal, 23:44198 (N-69-29942)
distribution of cosmic, zenith-angle, (E), 25:38178
distribution of cosmic, zenith-angle, (E), 25:45312 (AD-718439)
distribution of high-energy cosmic, zenith-angle, (E), 25:40409
dosimetry of high-energy, for radiobiological studies, 24:27440
effects of cosmic, on eyes of astronauts, 25:55341
effects on corn, RBE for cytogenetic, 22:12838
effects on dark current production in photomultiplier tubes used for spectrophotometry of faint astronomical sources, 22:51286
effects on magnets of superconducting accelerators, 23:42787 (BNL-50155(Pt.3), pp 967-1132)
electric charge and flux quantization for, electromagnetic coupling constant from, 25:14618
electromagnetic coupling constant for, (T), 23:18757
electromagnetic properties of, review of, 24:51896
electromagnetic properties of, use of spectra of mesic atoms for determining, 21:25263
electron nature of, use of $e^+ + e^-$ interactions for determining, 22:11576
energy above 1 TeV in lead, Monte Carlo calculations for measurement from cascade production for, 24:21921
energy above 10 TeV, method for measuring, 24:30437
energy and angular distributions of 3- to 10-TeV, in emulsions, (E), 25:45648
energy levels in field of nucleus, perturbation calculations for, (T), 22:48618
energy loss and spectra at sea level above 1000 GeV, 24:45480
energy loss and straggling in iron for design of NAL shielding, calculations of, 25:20206
energy loss and straggling in thallium-activated sodium iodide at 0.5 to 10.5 MeV/c, 22:8353
energy loss at 10 MeV to 100 GeV in silicon, calculations of average and most probable, (T), 25:42155
energy loss from photonuclear interactions deep underground, (T), 25:22754
energy loss in plastic scintillators at 0.3 to 120 GeV/c due to ionization, (E/T), 22:48211
energy loss in water above 1.1 and 8.0 MeV, contributions of spin, anomalous magnetic moment, and form factors to, (T), 23:46743
energy loss in water at 0.5 to 100 GeV/c, Cherenkov detector for measuring, 25:4375
energy loss in water by Cherenkov radiation, 22:48213
energy loss of cosmic, at 5 to 40 GeV/c in iron, (E), 25:49770
energy loss of cosmic, underground scintillation-counter mean-pulse-height study of rate of, (E), 24:5248
energy loss of GeV, in shielding materials, (T), 23:23227(T) (ORNL-tr-1192)
energy loss rate of 10- to 10^3-GeV cosmic, (T), 25:33664
energy loss to ionization in plastic scintillators, density effect and shell corrections to rate of, 25:48936
energy losses from pair production for, calculation of, 22:24611
energy losses of 10^3- to 10^8-MeV, in matter, numerical solutions to kinetic equation for, (T), 25:59400
energy losses of cosmic, mechanisms for, (T), 21:17086
energy measurements above 10 TeV, method for, 23:41066
energy range in aluminum, copper, iron, and lead at 0.1 to 50 GeV, tables of calculated, 24:5273
energy spectra and flux of cosmic, up to 8 TeV at sea level, burst size spectrum for, (E), 25:47723
energy spectra and lateral density distributions in near-vertical EAS, (E), 21:639
energy spectra and zenith-angle distribution at 10 to 100 GeV and 0 to 90° for cosmic, heavy-liquid bubble chamber study of, (E), 24:23839
energy spectra at sea level for 0.05- to 6.0-GeV/c cosmic, (E), 24:19792
energy spectra at sea level for vertical above 10^{12}-eV cosmic, (T), 24:49405 (INSJ-120)
energy spectra from cosmic radiation, test of validity of special relativity at small distances from, 23:27858
energy spectra of cosmic, at sea level and underground, (T), 22:24077
energy spectra of cosmic, at sea level, (T), 21:17086
energy spectra of cosmic, correction for instrumental noise in, 22:29316
energy spectra of cosmic, near 1000 GeV at large zenith angles, optical-spark-magnetic spectrometer study of, (E), 24:23838
energy spectra of cosmic, relation between neutrino spectra and, 23:39353
energy spectra of cosmic, underground and underwater, 21:20793
energy spectra of high-energy cosmic, (T), 22:2846
energy spectra of neutrino-induced, below 1 GeV deep underground, (T), 24:15455 (CERN-69-28, pp 95-101)
energy spectra of pairs of cosmic, at 130 mwe, (E), 22:13266
energy spectrum at 7.7 to 116 GeV/c, (E), 21:41841
energy spectrum from knock-on electrons from cosmic meson (μ) reactions with aluminum, carbon, and copper, (E), 23:30698
energy spectrum of cosmic, (T), 22:13611
energy-level transitions in sodium-23, energy and width of 2p-1s, 23:1174
flux above 1 TeV of cosmic, zenith angle dependence of, (E), 22:38830
flux and spectra in cosmic showers at sea level, semi Monte Carlo calculation of, 21:20794
flux at 40 meters underground from broad atmospheric showers, (T), 21:29033
flux in broad atmospheric cosmic showers, 21:29032
flux in EAS, analysis of particle interactions from fluctuations in, 22:21922
flux in extensive air showers, (E), 22:24082
flux in extensive air showers, variation of, (T), 22:24083
flux measurements of cosmic, at 20 mwe, (E), 22:2839
flux measurements of cosmic, scintillation telescope detector for, 25:8556
flux measurements underground using thin detectors and thick Utah detector, discrepancy between cosmic, 25:55897
flux of cosmic, at 20 and 40 mwe, (E), 22:13268
flux of cosmic, at 60 mwe, zenith-angle dependence of meteorological effects on, 23:22952
flux of cosmic, at energies above 10 GeV, (E), 24:28123
flux of cosmic, estimation from $\tau + N \rightarrow \mu + N$ interactions, (T), 24:35636 (JINR-E2-5092)
flux of cosmic, mechanism for isotropy of, 23:14959
flux of cosmic, near sea level, scintillation counter study of semi-diurnal and phase of average diurnal anisotropy in, (E), 23:46312
flux of cosmic, relative to mesons (π), 23:39604
flux underground, depth and zenith angle dependence of, 22:52915
flux underground, mechanism for, 24:30435 (N-70-18922)
fluxes deep underground as evidence against hypothesis for W strong interactions, 25:14735
focusing of beams of, properties of helical quadrupole lenses for, 25:36624
g factor of, discrepancies in, 23:5512 (SLAC-PUB-502)
g factor of, field—current identity for hadronic contribution to, 24:10808 (LNF-69/33)
g factor of, review of, (E), 25:53007
g-2 experiments for, range of validity of Lorentz invariance from, 23:32782
g-factor for, sixth-order radiative corrections to, (T), 24:3576
gyromagnetic ratio of, in quantum electrodynamics, 22:53020
gyromagnetic ratio of, review, 23:36479
gyromagnetic ratio of, review of values for, 23:36480
intensities at 80° to zenith, performance of cosmic-ray spectrometer for measurement of, 23:22947
intensities of cosmic, vertical, (E), 25:40408
intensities to 1500 GeV of cosmic, directional, (E), 23:27387 (AD-678640)
intensity and angular distribution underground, 23:6901
intensity and angular distributions for cosmic, below 3000 mwe, (E), 21:18473
intensity and distribution in cosmic showers underground, 25:59247
intensity at 3 to 50 GeV/c near sea level, solid-iron magnetic spectrometer for absolute measurement of vertical, 25:47355
intensity at 40 mwe, 27-day periodicity of, (E), 24:6386 (KFKI-26/1969)
intensity at 60 mwe underground in London of cosmic, seasonal effect, (E), 22:19801
intensity at sea level of 1-GeV/c cosmic, vertical, 24:28124
intensity in cosmic radiation, azimuthal telescope for, (E), 25:1023
intensity in EAS, counter hodoscope study of spatial distribution and number fluctuations in, (E), 24:21915
intensity measurements at 4500 m.w.e., (E), 25:16854
intensity of 10^{12}- to 10^{13}-eV cosmic, neutrino detector study of zenith-angle dependence of, (E), 23:39604
intensity of cosmic, (E), 25:49769
intensity of cosmic, absolute, (E), 25:58826
intensity of cosmic, and atmospheric coefficients near geomagnetic equator, 22:5164
intensity of cosmic, at 1700 to 8000 hg/cm^2 underground, (E), 22:38827
intensity of cosmic, at 50 to 4300 mwe, (E), 25:45655
intensity of cosmic, at 90 mwe and large zenith angle, (E), 22:5166
intensity of cosmic, at Belsk for 1966, (E), 24:32692
intensity of cosmic, at Canadian stations through solar rotation 1812, (E), 23:48757 (AECL-3413)
intensity of cosmic, at Canadian stations, (E), 24:8357 (AECL-3453)
intensity of cosmic, atmospheric effects on, 22:47849
intensity of cosmic, deep underground, (E), 24:5017
intensity of cosmic, deep underground, (E), 24:37288
intensity of cosmic, effects of geomagnetic latitude on, (E), 24:23835
intensity of cosmic, effects of rapid pressure variations on, 22:47846
intensity of cosmic, latitude knee, (T), 23:10470
intensity of cosmic, latitude survey in North America during summer 1965, (E), 23:48761
intensity of cosmic, latitude survey in Western USA and Hawaii in summer, 1966, (E), 23:48763
intensity of cosmic, performance of Cherenkov detectors for deep-sea measurements of, 23:17797(T) (AD-661754)
intensity of cosmic, sidereal anisotropy of, (E), 21:18484
intensity of high-energy cosmic, X process for, (T), 24:13017
intensity variations at 40 mwe of cosmic, sidereal daily, (E), 25:49766 (NP-18960)
intensity variations at 60 MW(e) of cosmic, solar diurnal, (E), 21:33225
intensity variations during IQSY of cosmic, latitude effects in, (E), 23:48765
intensity variations of 10^{12}-eV cosmic, underground, 22:7180
intensity variations of cosmic, at geomagnetic equator, (E), 24:21622
intensity variations of cosmic, effects of solar wind on 27-day, (E), 22:11279
intensity variations of cosmic, laboratory for study of, (T), 22:9128
intensity variations of cosmic, short-period, (E), 25:47352 (NP-18938)
intensity variations of cosmic, sidereal, (E), 24:26031
intensity variations of cosmic, solar—diurnal, 22:11273
intensity variations of cosmic, use of energy-dependent hadron—nucleus cross sections for calculation of ground level, 25:55906
intensity variations of primary and secondary cosmic, at high energies, 25:58827
interactions above 100 GeV, nonelectromagnetic cosmic shower production from, (E), 21:29039
interactions anti $\tau + \mu$, μ polarization properties from elastic and inelastic, (E), 23:46671
interactions at 300 to 2000 GeV, cosmic shower production from, (E), 21:29038
interactions at high energies, proposed experiments for studying electromagnetic and strong interactions, μ and e properties, and quantum electrodynamics from, 22:22277 (CONF-670923-, pp 494-509)
interactions at high energies, review on, 22:50345
interactions in electromagnetic fields, electromagnetic interaction constant and flux and charge quantization for, 23:15047
interactions in gas, design and performance of streamer chamber for investigating, 21:8580 (JINR-P13-2998)

interactions in horizontal air showers, anomalous, (T), 24:26029 (INSJ-114)
interactions in iron plates of cloud chamber underground, analysis of electron component from, (E), 24:15449
interactions in iron plates of multiplate cloud chamber, shower production from underground, (E), 23:1582
interactions in lead and iron at high energies underground, knock-on and direct pair cross sections for electromagnetic, (E/T), 24:20062
interactions in nuclear emulsion at 5 GeV/c, cross section for π production in, (E), 22:22289
interactions μ + anti τ/sub μ/, γ angular and energy distributions in μ⁻ + e → τ + anti τ + γ interactions for properties of, (T), 22:26618
interactions μ + d, differential cross sections and T-violation for polarized elastic, (T), 24:49426
interactions μ + e at 150 GeV/c, proposed experiments for, 24:52177 (TID-25473(Vol.4), pp 101-9)
interactions μ + e in atoms, bremsstrahlung emission in, (T), 22:22281
interactions μ + e, bremsstrahlung spectrum from, (T), 21:27326
interactions μ + μ, review of theory for nuclear μ⁻ capture, 22:15739
interactions μ + N → μ + N + X, crossing relation with lepton pair production in strong interactions, (T), 24:10726 (JINR-E2-4791)
interactions μ + N → τ + W + N, cross sections for scalar and vector W-meson production in, 25:30818
interactions μ + N at 5 GeV/c in nuclear emulsions, particle production in inelastic, (E), 23:46594
interactions μ + N at high energies at 13.6 to 36.4 GeV underground, angular distributions and inelastic cross section of anomalous, (E), 24:40241
interactions μ + N at high energies, analogous excited-baryon-model hypothesis for, 24:30524
interactions μ + N at high energies, fireball mechanism for cross sections for meson production from, (T), 24:3612 (SJC-P-68-6)
interactions μ + N at high energies, inelastic, (T), 22:22343 (CONF-670923-, pp 109-27)
interactions μ + N at high energies, lectures on current commutators, dynamical models, and quantum electrodynamics for hadron and μ production in, 25:22761 (INP-712(Vol.1), pp 1-52)
interactions μ + N, cosmic-ray properties from validity of Weizsaker—Williams approximation and Bjorken sum rule for inelastic, 24:3607
interactions μ + N, e—μ equality from elastic, 23:5512 (SLAC-PUB-502)
interactions μ + N, implications for cosmic ray phenomena from deep inelastic, (T), 24:28522 (LNF-69/56)
interactions μ + N, positivity restrictions among structure functions for polarized inelastic, 25:45706
interactions μ + N, quantum electrodynamics test from elastic, 22:5636
interactions μ + N, review of, 21:42373
interactions μ + N, review of elastic and inelastic, (E), 25:53007
interactions μ + p → μ + γ + p, proposed experiment for test of quantum electrodynamics in, 24:52177 (TID-25473(Vol.4), pp 101-9)
interactions μ + p → μ + hadrons + particles, light-cone analysis for scaling behavior of inclusive, 25:47780
interactions μ + p → μ + p + γ, proposed experiment for search for heavy μ and test of quantum electrodynamics in wide-angle, 24:31884 (TID-25473(Vol.4), pp 123-38)
interactions μ + p → μ + p + γ, test of quantum electrodynamics from vertical photon Compton effect in, 22:48256 (LNF-68/38)
interactions μ + p → μ + p + γ, test of quantum electrodynamics and virtual-proton Compton effect in, 23:7118
interactions μ + p → μ + p at 100 GeV, proposed experiments on, 24:51883 (TID-25473(Vol.4), pp 77-8)
interactions μ + p → μ + p at high energies, equal strengths for second- and first-order contributions to, 25:1428
interactions μ + p → μ + p at high energies, polarization effects from weak neutral currents in, (T), 25:40940 (NYO-3829-70)
interactions μ + p → μ + p, form factors of protons from, 21:29460
interactions μ + p → μ + p, proton electromagnetic form factors from data on, (T), 25:50090 (JINR-P2-5901)
interactions μ + p at 1 to 6 GeV, parameters for possible μ⁺ + μ⁺ and μ⁻ + μ⁻ colliding beam interactions from spark chamber study of, (E), 22:22276 (CONF-670923-, pp 409-51)
interactions μ + p at 1.0 to 6.0 GeV/c, spark chamber and scintillation counter study of differential cross section relation with e + p interactions for elastic, (E), 22:3248
interactions μ + p at 1.5 to 6.0 GeV/c, cross section for elastic, (E), 22:15665
interactions μ + p at 10 GeV/c, calculation of event rate in bubble chamber for inelastic, 23:18807 (SLAC-92)
interactions μ + p at 10¹³ eV, photonuclear energy loss coefficient from, (T), 25:22754
interactions μ + p at 100 GeV, proposal for vertex spectrometer for studying, 24:52326 (TID-25473(Vol.3), pp 293-312)
interactions μ + p at 100 GeV, proposed experiment for deep inelastic, 24:51910 (TID-25473(Vol.4), pp 85-99)
interactions μ + p at 12 GeV/c, test of μ—e universality from comparison of e + p inelastic interactions and inelastic, (E/T), 25:50050
interactions μ + p at 150 GeV, self-coupling of weak lepton currents in anti τ—τ pair production in, (T), 25:43612
interactions μ + p at high energies, lepton charge structure from relation with e + p interactions, (E), 22:13636
interactions μ + p at high energies, meson (μ) interaction properties from, (T), 23:34613
interactions μ + p at high momentum transfer, inequality for backward, 22:5550
interactions μ + p, anomalous interaction for cross section ratio for e + p and, 25:3324
interactions μ + p, contribution of Neeman fifth interaction to cross section for, 24:24325
interactions μ + p, form factor for N*(1236) production from, 21:18941 (UR-875-189)
interactions μ + p, P-odd effects in, 23:23438
interactions μ + p, proposed experiment for μ—e universality tests of quantum electrodynamics in, 24:52177 (TID-25473(Vol.4), pp 101-9)
interactions μ + p, radiative corrections to elastic and inelastic, 23:15039
interactions μ + p, review of elastic, 22:50345
interactions μ + p, weak interaction effects in, (T), 23:13060
interactions τ + μ, analysis of deviations from V—A theory for, 23:39677
interactions τ + μ, μ polarization properties from elastic and inelastic, (E), 23:46671
interactions of cosmic, at large zenith angles at sea level, electromagnetic, 25:59343
interactions of cosmic, energy spectra from electron—photon shower production from, (E), 21:29040
interactions of cosmic, production of above-10¹³-eV horizontal air showers from anomalous, (E), 25:12071
interactions of cosmic, review of experiments on, 23:25508 (CERN-69-7, pp 101-9)
interactions of high-energy cosmic, 24:21969
interactions of high-energy cosmic, existence of neutral vector boson in, 21:13693
interactions of high-energy, energy dependence of photonuclear effect from, 21:11755
interactions of polarized, covariant spin density matrix formalism for inelastic, (T), 24:45489
interactions of, conference on, 22:22342 (CONF-670923)
interactions of, data summary of cosmic and accelerator studies of, 23:3675
interactions of, formalism for perturbative S operator for Fermi, 23:25692
interactions of, μ + p interactions at high energies for properties of, (T), 23:34613
interactions of, proposed experiments on, 24:51909 (TID-25473(Vol.4), pp 79-83)
interactions of, review of experiments on, 24:24286
interactions of, search for production of charged heavy leptons in μγ(429) enhancements in, (E), 25:33529
interactions of, survey of weak, 21:15308
interactions of, tests of quantum electrodynamics in proposed experiments for, (E), 24:3732 (PURC-2137-14)
interactions of, theoretical survey on, 21:15307
interactions of, universality principle for muon parity conservation in, (T), 25:30932
interactions of, weak, (T), 24:52046
interactions to 1 TeV of cosmic, cross sections for electromagnetic, (E), 25:59246
interactions with atomic electrons, bremsstrahlung production in relativistic, (T), 21:2407
interactions with hadrons at high energies, cross sections for elastic and inelastic polarized, 23:15038
interactions with neutral vector boson, anomalous, 24:49415
lifetime of cosmic, underground at 60 to 4500 mwe, (E), 24:40271
lifetime of free, bibliography of experimental measurements of, 22:7429 (LA-3780)
lifetime of, validity of special relativity at small distances from velocity dependence of, 22:3363
magnetic charge of, (T), 22:45916
magnetic hyperfine anomaly, classical derivation of, 22:7169
magnetic moment and self-energy of, anomalous, 24:49415
magnetic moment determination from Zeeman transitions in muonium, (E), 25:19888
magnetic moment in quantum electrodynamics, expansion parameter for anomalous, 23:8844
magnetic moment of electrons and, radiative correction to difference of anomalous, 24:47408
magnetic moment of, anomalous, 22:46371
magnetic moment of, anomalous, 25:3324
magnetic moment of, bound on hadronic vacuum polarization contribution to anomalous, (T), 23:42595
magnetic moment of, computer program for anomalous, (T), 25:20055 (CNRS-CPT-70-P-335, pp IV.26-38)
magnetic moment of, computer programs for constructing Feynman diagrams for calculating anomalous, (T), 25:12136 (CNRS-CPT-70-P-336)
magnetic moment of, contribution of boson—lepton pair couplings to anomalous, 22:26600
magnetic moment of, contribution of intermediate vector boson to, 21:25275
magnetic moment of, contribution of π form factor to, 22:29660
magnetic moment of, contribution of terms of order e² G to anomalous, (T), 24:35626
magnetic moment of, effect of photon polarization tensor on anomalous, 22:9549
magnetic moment of, electromagnetic contributions to, (T), 21:33712
magnetic moment of, experiment for determining, 21:31520
magnetic moment of, Feynman diagram sixth-order radiative corrections to anomalous, (T), 25:14620
magnetic moment of, field current identity for contribution of hadron current to, 23:10785
magnetic moment of, g - 2, (T), 22:13706
magnetic moment of, g-2 experiment for measurement of anomalous, 23:27904 (CERN-69-8)
magnetic moment of, g-2 factor for, (T), 21:2404 (SLAC-PUB-225)
magnetic moment of, hadronic contribution to, 21:37744
magnetic moment of, hadronic contributions to, 22:41775
magnetic moment of, hadronic contributions to anomalous, 23:34555
magnetic moment of, length quantum in electrodynamics for, 23:5678
magnetic moment of, lowest order vacuum polarization contributions to, (T), 22:52956 (UCD-CNL-81)
magnetic moment of, measurement of anomalous, 23:8758
magnetic moment of, precision measurement of, 24:45411
magnetic moment of, review of anomalous, (E/T), 24:30485
magnetic moment of, review of anomalous, (T), 25:19936 (CNRS-CPT-70-P-335, pp IV.1-15)
magnetic moment of, review of experiments for determining g - 2 value for, 21:31561
magnetic moment of, rho contribution to anomalous, 23:36922
magnetic moment of, sixth-order corrections to anomalous, 25:12145
magnetic moment of, sixth-order radiative corrections to, 21:44248
magnetic moment of, test of quantum electrodynamics from anomalous, 22:24722
magnetic moment of, test of quantum electrodynamics from determination of e/h for fine structure constant for anomalous, 23:42725
magnetic moment of, three-photon exchange contribution to sixth-order anomalous, 24:37697
magnetic moment of, three-photon-exchange contribution to sixth-order anomalous, (T), 23:42628
magnetic moment of, vacuum polarization contributions to sixth-order anomalous, 25:14616
magnetic moment of, W contribution to anomalous, (T), 21:21181 (UCSD-10-P-10-23)
magnetic moment of, W-boson contribution to anomalous, 21:29497
magnetic moment, lower bounds on masses of light charged bosons from anomalous, (E/T), 25:38741
magnetic moments of electrons and, sixth-order contribution to difference of anomalous, 23:3674
magnetic moments of, contribution of leptonic boson to anomalous, 23:25585
magnetic-moment g - 2 values as test of quantum electrodynamics, 22:11715
mass and structure of, relation between, 22:15698
mass difference (μ - e), consequences of e—μ universality violation for, 24:52043
mass difference (μ - e), muonic moment in lepton anomalous interaction for, (T), 22:37118
mass of, experiment for determining relation to electron, 21:29419
mass of, extremum relation for, 22:5551
mass of, gravitational theory for, 24:13167
mass of, model of finite self-, 23:15057
mass of, relative to electron mass, (E), 24:45411
mass ratio π/μ from classical electron model, 25:47852
mass relative to electrons, analysis of basis for, 24:5278
mass relative to electrons, electromagnetic form factors for, 22:13719
mass relative to electrons, formula and boundary conditions on invariant cut-off in quantum electrodynamics for, 23:51989
mass splitting of μ—e, second kind of weak interaction for, (T), 25:40953
masses of, use of spectra of mesic atoms for determining, 21:25263
model for, (T), 24:47398
momenta of cosmic, at 10 GeV/c to 5 TeV/c, use of magnetic spectrometers with spark chambers for determining, 21:34465 (BMwF-FBK-67-33)
momentum analysis in high-energy spectrometers, use of cosmic ray telescopes with analog computers for, 21:32369 (BMwF-FBK-67-31)
momentum distribution of cosmic, at sea level and 45°, (E), 22:2853
momentum of cosmic, apparatus for measuring, 21:3283
momentum spectra of 3- to 1000-GeV/c cosmic, at sea level, (E), 22:24076
momentum spectrum and charge ratio of vertical, at sea level and 12°N geomagnetic latitude, (E), 25:35919
momentum spectrum at 3 to 1000 GeV/c at sea level, spectrometer study of, (E), 25:22664
momentum spectrum below 300 GeV/c for 75°-incident cosmic, magnetic spectrograph study of, (E), 24:10790
momentum spectrum of cosmic, at 75°, (E), 21:37184 (BNL-11545)
momentum-specific ionization relation of, double-magnet spectrometer for studying, 21:3726
monitoring at Canadian stations of cosmic, diurnal vectors in, (E), 24:12658 (AECL-3479)
monitoring of cosmic, anomalous component in, (E), 24:12660 (N-70-11776)
monitoring of cosmic, at Canadian, Kula, and Chacaltaya stations from Jan. 20, 1966 to to Jan. 5, 1967, (E), 24:28121 (AECL-3561)
monitoring of cosmic, at Chacaltaya, (E), 24:10399 (AD-690583)
monitoring of cosmic, at sea level and underground, (T), 21:29065
monitoring of cosmic, for solar rotations 1826 to 1839, (E), 24:39893 (AECL-3608)
monitoring of cosmic, for solar rotations 1840 to 1852, (E), 24:39894 (AECL-3651)
monitoring of cosmic, for solar rotations 1853 to 1866, (E), 24:39895 (AECL-3658)
multiplicities in parallel penetrating particle cosmic showers, energy dependence of, (E/T), 25:45315
pair production at high energies, anomalous, 24:49415
pair production of, tests of validity of quantum electrodynamics at small distances from wide-angle, 22:41846 (NP-17547)

penetration in iron at 500 MeV/c, (T), 21:46643(R) (ORNL-4134)
photoproduction of high momentum pairs of, review of experiments on, 21:31561
photoproduction of pairs at high momentum, review of experiments on, 21:31561
photoproduction of pairs of, elastic and inelastic nuclear form factors for, (T), 22:27392
photoproduction of pairs of, high momentum test of quantum electrodynamics from, (E), 21:2404 (SLAC-PUB-225)
photoproduction of pairs on nuclei, Compton graph contributions to cross section for, 21:42305
polarization from K°/sub L/ → π⁻ + μ⁺ + τ decay, form factor ratio in hadronic current determination from transverse, (E), 21:869
polarization from reverse μ—e decay, (T), 22:3321
polarization in constant and homogeneous magnetic field, electric dipole moment effects on, (T), 24:24310
polarization in inverse μ—e decay, 22:13725
polarization in K° → π + μ + τ decay, (E), 23:25499 (AD-677064)
polarization in K_2^0 → π + μ + τ decay, effects of ΔS = -ΔQ amplitudes on, 24:1563
polarization in K° → π + μ + τ decay at rest, angular correlations for, (E), 24:10732
polarization in mesic atoms as function of hyperfine interaction constants, (T), 24:19740
polarization in mesic atoms, effect of noncompensated electron shell on (T), 23:41947
polarization in mesic atoms, effect of noncompensated electron shell on, 24:30151
polarization in mesic atoms, magnetic field effects on, (T), 21:37145
polarization in spin-$^1/_2$ mesic atoms, effects of magnetic interactions between meson, nucleus, and electron shell on, (T), 23:27347
polarization in superconductors, time analysis of, 22:48048
polarization in W → μ + τ decay, detection of W from, 23:32682
polarization of 750-MeV/c cosmic, spark-chamber measurement of, 21:16156
polarization of, search for W particles from scintillator-brass spark chamber study of, (E), 24:3523 (PURC-2137-16)
production above 10^{12} eV in extensive air showers, model with medium-strong interaction for, 23:46685
production and handling of beams of, 21:17238
production and propagation of high-energy cosmic, X process for, (T), 24:13017
production and properties of beams of, at SLAC, 23:18807 (SLAC-92)
production and spectra of, review of experimental studies on, 22:52928
production at sea level by cosmic gamma rays and neutrons, (E/T), 25:4974 (AD-710278)
production by neutral cosmic particles as a function of sidereal time, (E), 21:46192
production by neutral cosmic particles at sea level, direct, (E), 25:14063
production by neutrino interactions deep underground, 25:45649
production by neutrino interactions underground in muscovite, (E), 21:44271
production from γ + N interations at 2.0 GeV/c, magnetic spectrometer and differential gas Cherenkov counter study of cross sections for, 21:33590
production from kaon and pion decay in atmosphere, trivial, (E/T), 25:58828
production from neutral cosmic rays at moderate energies, possible sources of cosmic ray neutrals from isotropy in, (E), 23:44214
production from nucleon-proton interactions at 30 GeV, intermediate boson production in, (E), 21:867 (NEVIS-153)
production from primary cosmic ray interactions in rarefied and dense media, (T), 23:42641
production from W decay, scintillator-brass spark chamber study of μ polarization for search for, (E), 24:3523 (PURC-2137-16)
production in cosmic τ + N interactions at high energies, spectra for, (T), 25:59417
production in cosmic radiation, model for direct, 22:52966
production in cosmic showers from weak interactions, (T), 23:34294
production in cosmic showers, deep underground, 23:23331
production in cosmic showers, upper limit of effective height of, 21:33220 (INR-803/VI/PH)
production in EAS in interactions above 10^3 TeV, estimation of mass of primary from, 22:46340
production in EAS, atmospheric temperature effects on number counts for, (T), 23:42008
production in EAS, spatial distribution functions for, 24:21961
production in extensive air showers, altitude for, (T), 22:13273
production in hadron interactions with hadrons at high energies, fireball mechanism for width and cross sections for direct, 24:3612 (SJC-P-68-6)
production in high-energy EAS, density function for, (T), 23:30371
production in neutrino interactions above 10 GeV deep underground, cross section behavior for, 25:45650
production in neutrino interactions in bubble chamber, comparison of two methods of identification of, (E/T), 25:1389 (UH-511-84-70)
production in τ + N → μ + N interactions in atmosphere, flux from, (T), 24:35636 (JINR-E2-5092)
production in τ + N interactions underground, sum rules for W effects on spectra for, 22:39346
production in p + n interactions at 28 GeV, search for W boson from, (E), 25:38654
production in p + p interactions at high energies, lower bound on cross section for, 25:45771
production in penetrating cosmic-ray cascades at mountain altitude, 22:45980
production in proton reactions with steel at 10 and 20 GeV/c, 21:13618
production in π + N → W + N, N + N → N + N + W interactions and W decay, peripheral one-pion model for, 22:35011
production in strong interactions of isotropic component of cosmic rays, limit for rate of direct, (T), 22:41821
production in very high energy cosmic showers, effects of secondary particle multiplicity on, (T), 23:25170
production near target in high-energy accelerator, 25:45869
production of 10^{12}- to 10^{13}-eV cosmic, from meson (K), meson (π) and massive short-lived particle decays, (E), 23:39604
production of 100- to 1000-GeV atmospheric, temperature-effect dependence on mechanism for, (T), 25:7537
production of beams of, accelerator experimental facility for electron reactions with thick targets for, 23:19107
production of beams of, experimental facilities for, 22:50345
production of beams of, using Intense Neutron Generator, (T), 22:11944(R) (AECL-2780)
production of bundles in EAS, underground, (E), 25:45630 (INR-1279)
production of cascades of, from proton reactions in shielding materials, 21:11686
production of cosmic, (E/T), 25:4988
production of cosmic, direct, (T), 23:14959
production of cosmic, existence of new class of hadrons for, 24:3600
production of cosmic, possibility for direct, (E), 23:23325 (LNF-69/7)
production of cosmic, possibility of direct, (E/T), 22:20202
production of cosmic, proposed experiment for direct, (E), 25:36416
production of cosmic, review of, (E), 24:51881 (LNF-70/32)
production of cosmic, survey of data for direct, (E), 23:21040
production of extensive air showers of, above 1 TeV deep underground from cosmic proton reactions with nuclei in air, (T), 23:46659
production of high-energy cosmic, 24:21969
production of low-energy, by neutral cosmic rays at sea level, charge ratio, zenith-angle distribution, and rate for, (E), 25:22663 (NYO-2419-18)
production of low-energy, from neutral cosmic particle interactions at sea level, spark chamber telescope study of, (E), 24:15458 (CERN-69-28, pp 125-40)
production of mesic deuterium molecules, (T), 21:18445
production of pairs by cosmic-ray mesons (μ), cylindrical spark counters and Cherenkov detectors for detection of, 21:35257
production of pairs in K_1^0 and K_2^0 decay, upper limits for, (E), 21:17029
production of pairs of, from π⁻ + p → rho° + n interactions at 12 GeV/c, (E), 21:2378
production of pairs of, in γ + p interactions, quantum-electrodynamics predictions for, 21:903
production of pairs of, in meson (eta) decays, branching ratios for, (T), 21:21178
production of pairs of, use of Adone storage ring for, 22:11826
production of radioactivity at sea level by cosmic, (T), 23:14650 (INSJ-110)
production of stopped beams of, design of superconducting solenoid transport system for, 23:8883 (TID-24667, pp 601-2)
production of stopped beams of, use of MIT and Saclay electron linear accelerators for, 23:8882 (TID-24667, pp 597-600)
production of stopped, use of electron and proton linear accelerators for, 23:8884 (TID-24667, pp 603-7)
production of trident, proposed experiment for test of quantum electrodynamics from, 24:52177 (TID-25473(Vol.4), pp 101-9)
production of ultrahigh-energy, in cosmic resonance decay, (T), 23:18870
production of, implications of X process for, 24:45480
production of, SO(6) symmetry for two-triplet model of direct, 24:20190
production processes for 10^{12}-eV, in cosmic radiation, 23:3694
production with nearly isotropic azimuthal distribution in upper atmosphere by cosmic rays, mechanism for, (T), 23:18870
production yields from medium-energy electron linear accelerators, 23:8881 (TID-24667, pp 583-96)
properties of cosmic showers of, deep underground, (E), 23:30375
properties of cosmic, at 10^{11} to 10^{13} eV at mountain altitudes, (E), 24:3544
properties of cosmic, validity of Weizsaker—Williams approximation for absorption in γ + N interactions and Bjorken sum rules for μ + N inelastic interactions for, 24:3607
properties of very high-energy cosmic, review of anomalous, (E), 25:12168
properties of, comparison with electrons, 25:43591
properties of, in extensive air showers, 23:10467
properties of, proposed experimental facility at Tokyo proton synchrotron for studying, 25:29371 (SJC-P-70-4)
properties of, proposed experiments for studying, 23:8719 (TID-24667, pp 651-8)
properties of, proposed experiments for studying, 22:22277 (CONF-670923-, pp 494-509)
properties of, review of experiments on, 24:24286
properties of, two-particle quantum electrodynamics for, 23:42716 (IS-2085)
quantum electrodynamics for, 22:9682
quantum electrodynamics for massless, spontaneous breakdown of current conservation in, 24:10818
radiation dose at sea level from cosmic, (E), 21:33224
range and straggling calculations for, 24:52004 (TID-25473(Vol.1), pp 465-9)
range and straggling of, (T), 25:38714
range fluctuations at energies up to 10^4 GeV, (T), 22:24079
range straggling of 10- to 10^3-GeV cosmic, Monte Carlo calculation for, (T), 25:33664
range underground for ultra-relativistic cosmic, straggling effects on, (T), 21:16838
range—energy of 10- to 10,000-MeV, empirical relations for, 23:51882(T) (ORNL-tr-2208)
range—energy relations in standard rock for above 10^{12}-eV cosmic, at sea level, (T), 24:49405 (INSJ-120)
reactions (μ,f) with lead at depths of 0 to 1000 mwe, velocity of, (T), 25:38645
reactions (μ,f) with uranium-233 and uranium-235, fragment energy distributions from, (E), 24:20394
reactions in iron, generation of electron—photon showers by, (E), 22:21921
reactions in light materials, generation of cascade showers by, (T), 22:2847
reactions in nuclear emulsions at 2.5 GeV, differential cross sections for, (E), 21:2363
reactions in tellurium ores, xenon isotope production in, (T), 21:23080
reactions of cosmic, with nuclei, cloud chamber study of structure functions for, (E), 25:3260
reactions of cosmic, with nuclei, spark chamber and Cherenkov counter study of μ pair production from, (E), 22:17850
reactions of cosmic, with terrestrial rocks, aluminum-26 production from, 23:10961(R) (NP-17704)
reactions of neutrino-induced, in muscovite mica, tracks from, 22:19806
reactions of, use in study of chemical kinetics and radiation chemistry, 22:120
reactions with aluminum, cadmium, iron, and lead at high energies and at depths of 40 and 80 mwe, cross sections and neutron production multiplicity and velocity for, (T), 25:38645
reactions with aluminum, carbon, and copper above 0.85 GeV, multiplate cloud chamber study of direct electron pair production from, (E), 22:9503
reactions with aluminum, carbon, and copper, cosmic meson (μ) energy spectrum from knock-on electrons from, (E), 23:30698
reactions with beryllium, boron, carbon, and lithium, K/sub α/ x-ray energies from, (E), 23:1182
reactions with calcium—calcium oxide and selenium targets, condensed-state effects in x-ray spectra from, (E), 22:52507
reactions with carbon at 9 to 13 GeV/c in spark chamber, test of quantum electrodynamics in bremsstrahlung from, (E), 23:21154
reactions with carbon, aluminum, and copper at 6 GeV, electron pair production from, 21:3727
reactions with carbon, differential cross sections for electron pair production in, (T), 22:34825 (AD-665851)
reactions with condensed matter at 0.8 to 1.70 GeV/c in cloud chamber, dependence of knock-on electron probability and angular and energy distributions on meson (μ) momentum in, (E), 23:51833
reactions with diamonds at high energies, interference in bremsstrahlung from, 24:20118
reactions with high-, medium-, and low-Z elements up to 32 GeV, knock-on electron cross section dependence on energy of, (E), 25:33531
reactions with high-Z nuclear Coulomb fields, ω, phi, and rho production from, (T), 21:2409
reactions with iron-56 at 150 GeV, self-coupling of weak lepton currents in anti τ—τ pair production in, (T), 25:43612
reactions with lead at 110 GeV and large zenith angles at 150 mwe underground, neutron production from, (E), 25:7538
reactions with lead at 12.0 GeV, cross sections for trident production, (T), 22:22355
reactions with lead at 60 and 110 MW(e) underground, evaporation neutrons from, (E), 24:21922
reactions with lead at high energies, photonuclear cross section determination from neutron production in, (E/T), 23:10759
reactions with liquid helium, spectra of K x rays from, (E), 22:1007
reactions with nuclear Coulomb field at high energies, cross section for bremsstrahlung production in, (T), 21:2408
reactions with nuclei as probes of nuclear structure, review of, 24:24679
reactions with nuclei at 10^{13} to 10^{16} eV in atmosphere, installation for studying wide-angle shower production from, (E), 25:429
reactions with nuclei at 100 GeV, proposed experiment for search for W production in, 24:51913 (TID-25473(Vol.4), pp 191-9)
reactions with nuclei at 100 GeV/c, search for heavy meson (μ) from wide-angle bremsstrahlung in, (E), 24:6746 (PURC-2137-15)
reactions with nuclei at 12 GeV/c in emulsions, total cross sections for particle production in, (E), 25:17367
reactions with nuclei at 4.9 to 15.9 GeV/c in emulsions, diffractively produced rho in, (E), 25:33526
reactions with nuclei at 40 GeV, counter array study of cross section for neutron production from, (E), 22:34866
reactions with nuclei at 50 to 100 GeV, coherent, incoherent, and inelastic cross sections for W-meson production in, (T), 25:3340
reactions with nuclei at 6 and 12 GeV in emulsions, K values from multiple Coulomb scattering in, (E), 24:37609
reactions with nuclei at 60 and 110 MW(e) underground, stopping meson (π) rate from, (E), 24:21922
reactions with nuclei at high energies, electron and meson (μ) pair energy spectra from, (T), 23:36889

reactions with nuclei, cross section for electron pair production in, 21:31883
reactions with nuclei, review of experiments leading to isobaric analog energy levels, (E/T), 25:5580
reactions with silicon-28, production of aluminum-26 in silicate rocks, (E), 22:31665
reactions with sodium in Earth's crust, neon isotope production in, (T), 24:42306
reactions with zinc-66 and zinc-68, energy levels from, (E), 25:14958
research on cosmic, at California Univ., Oct. 1969 to Sept. 1970, 25:5257(R) (UCI-10-P-19-40)
scattering at 5 GeV/c in nuclear emulsion, distribution of small-angle, (E), 22:24516
scattering by carbon and oxygen at high energies, 24:24297
scattering by carbon at 8.6 to 12.9 GeV/c, spark chamber study of elastic, (E), 23:21055
scattering by hydrogen-like atoms at high energies, local potential for relaxation of diabatic approximation for, 24:28096
scattering by iron and lead at 404 MeV, multiple, (T), 21:11987 (ISS-66/26)
scattering by nuclei at 2.5 to 14.8 GeV/c at small angles in emulsions, multiple scattering techniques and particle energy determination from angular distributions in, (E), 25:12089
scattering by nuclei at 50 to 1000 MeV/c, radiative background in inelastic, (T), 23:9019 (TID-24667, pp 265-7)
scattering by nuclei in nuclear emulsions, cross sections for inelastic cosmic, (E), 22:52915
scattering by nuclei, quantum electrodynamics test from elastic, 22:5636
scattering in absorbing materials, computer program for Monte Carlo calculations of multiple, 21:11987 (ISS-66/26)
scattering in nuclear emulsions at 6 and 12 GeV/c, method for analysis of inelastic, 24:39351
scattering of cosmic, large-angle, (T), 22:21914
search for heavy, in π + N interactions above 5 GeV in proposed 25-foot bubble chamber, 24:50596 (TID-25473(Vol.2), pp 109-11)
search for heavy, in wide-angle bremsstrahlung from meson (μ) reactions with nuclei at 100 GeV/c, proposed, (E), 24:6746 (PURC-2137-15)
search for heavy, in wide-angle $\mu + p \rightarrow \mu + p + \gamma$ interactions, proposed experiment for, 24:51884 (TID-25473(Vol.4), pp 123-38)
search for low-energy cosmic, at 4500 MW(e) underground, upper limit for flux times cross section per target nucleons from, (E), 24:15468
self-charge and self-mass of, effect of weak interaction on, (T), 24:42901
self-mass in quantum electrodynamics, infinitesimal nonlinear interactions for, 24:43020
separation of beams of, design of fast shutter magnets for, 22:13875 (RHEL/R-147)
shielding around high-energy electron accelerators, 23:13158
shielding calculations for 200-GeV proton interactions, 25:50455
shielding calculations for high-energy, for cylindrically symmetric shield and no magnetic fields, 22:50502
shielding for 500-GeV neutrino facility, 25:50456
shielding for high-energy, calculations for, 22:29787 (UCRL-18117)
shielding for high-energy, produced in 200- and 500-GeV proton accelerator, 23:19085 (ORNL-4386)
shielding measurements in concrete, 21:3911(T) (ORNL-tr-1411)
shielding near high-energy electron accelerators, 22:32372
spectra at 200 mwe of cosmic, (E), 22:13265
spectra in extensive air showers, (E), 24:6387 (KFKI-27/1969)
spectra measurements of cosmic, magnetic spectrograph for, 24:36618
spectra of 20- to 1000-GeV cosmic, at sea level, 25:59245
spectra of cosmic, design of solid-iron magnet spectrometers for measurement of, 24:11844
spectra of high-energy cosmic, at zenith angle of 75°, 22:24080
spectra of high-energy cosmic, in atmosphere, (T), 21:5103
spectra of high-energy cosmic, scattering correction in magnetic spectrometer for measuring, 23:9737
spectra underground, analysis for cross section behavior of γ + N $\rightarrow \pi$ + N interactions, 21:11755
spectrum in the zenith direction at sea level, (T), 21:33230
spectrum of cosmic, at sea level and 12°N geomagnetic latitude, design of spectrograph for momentum, (E), 25:35918
spin and orbital motions in homogeneous magnetic fields, g-factor anomalies from, 23:32691
spin precession in mesic molecules, (T), 24:39841
stopping at great depth underground, anomaly in, (E), 25:38656
stopping of cosmic, at 60 to 300 mwe, intensity and rate for, (E), 25:14535
stopping of extreme relativistic, in aluminum, copper, and lead, contributions of spin, anomalous magnetic moment and form factors to, (T), 23:46743
stopping power in aluminum at extreme relativistic energies, calculations, 24:39809 (ORNL-4446, pp 163-76)
stopping underground at 60 to 4500 mwe as function of energy, possible new leptonic process from, (E), 24:40271
stops in cosmic ray telescopes, rejection of, 21:43259
storage ring for, description of CERN 1.3 GeV/c, 21:29771
symmetry with electrons in two-component neutrino theory, 25:3351
temperature effect of cosmic component underground, (E), 22:2852
theory for, 21:15383 (CERN-66-29(Vol.2))
theory for difference between electron and, discrete scale transformations for lepton mass spectrum for, (T), 25:53114
theory for, discrete scale transformations for mass spectrum of leptons for muon puzzle in, (T), 25:53114
theory for, general relativistic particle model, 23:15244
theory for, in expanding universe, 21:15391
theory for, muon—electron problem in, (T), 24:42909
theory for, muon-electron problem in, 23:23417
theory for, pseudo-locality of space—time in, 21:46525
tracks in mica, Rutherford scattering analysis of, 22:13263 (RPP/A-34)
trajectories of cosmic, initiating electromagnetic cascade showers, (E), 21:35053
transport and backstop calculations for 200-GeV accelerator, 22:32378
transport below 2.5 GeV, computer program for, (T), 25:1530 (ORNL-4606)
transport calculations for high-energy, Monte Carlo and semi-analytic methods for, 23:1729 (ORNL-4322)
transport calculations for high-energy, produced in 200- and 500-GeV proton accelerator, 23:19085 (ORNL-4386)
transport calculations for shielding around high-energy proton accelerator targets, 25:36610 (ORNL-TM-3353)
transport calculations for shielding of 200-GeV proton synchrotron, (T), 23:7281(R) (ORNL-4280)
transport in iron at 500 MeV/c, Monte Carlo calculations of, 22:3150 (ORNL-TM-2048)
transport in iron, Monte Carlo and semi-analytical calculations of, 23:1729 (ORNL-4322)
transport in thick iron shielding at high energies, calculations for, 24:5371
transport of < 18-GeV, through iron shielding, calculations for, 23:30606
transport system for beams of, phase space acceptance of helical quadrupole, 24:20274 (TRI-69-10)
universality of e—μ in strangeness-changing decays, violation of, 24:52043
universality of μ—e in K $\rightarrow \pi + l + \nu$ decay, violation of, 25:1477
universality of μ—e, e + p and μ + p inelastic interactions for test of, (E/T), 25:50050
universality with electrons in two- and three-body K decays, (T), 25:36470
universality with electrons, alternative form of, (T), 23:13074
universality with electrons, momentum transfer range dependence relative to e + p $\rightarrow$ e + p interactions and absolute magnitude of cross sections for $\mu + p \rightarrow \mu + p$ interactions for test of, (E), 24:10660 (NEVIS-176)
universality with electrons, $\mu^+ + p \rightarrow \mu^+ + p$ and $\mu^- + p \rightarrow \mu^- + p$ interactions at 6 to 17 GeV for test of, (E), 24:8558 (NEVIS-178)
universality with electrons, review of, (E), 23:51876 (DESY-69/21)
universality with electrons, $\Sigma^- \rightarrow n + l^- + \nu$ decay for test of, (E), 23:39603
universality with electrons, test of, (E), 23:36820
use of, in medicine and therapy, review of, 21:3429
variation of cosmic, near geomagnetic equator, diurnal, (E), 23:25177
variations of, sidereal and solar, (E), 25:49769
waves in cosmic-ray component of, during decreases at 70 Mwe, trains of diurnal, (E), 23:25179
MESONS (μ^-)
absorption by bromine and silver at rest in emulsions, proton spectra above 25 MeV from, (E), 24:30462
absorption by neon, probability of heavy charged particle emission in, (E), 22:24836 (JINR-P1-3721)
absorption by nuclei, asymmetry and spectrum of high-energy neutrons emitted in polarized, (T), 23:42636
absorption by silicon-28, charged-particle branching ratio and energy spectrum for, (E), 22:20547
angular distribution from $W^- \rightarrow \mu^- +$ anti ν decay, polarization effects from $e^- + e^-(e^+) \rightarrow e^-(e^+) + W^- + \nu$ interactions on, 23:25546
capture at high energies, relativistic effects on, (T), 22:13728
capture at rest by calcium, silicon, and sulfur using polarized beams, asymmetry of neutron angular distribution from, (E), 22:35253
capture at rest by calcium, silicon, and sulfur, neutron energy spectra from, (E), 22:35254
capture by A = 136 to 142 nuclei, x-ray spectra from, (E), 25:33074
capture by aluminum-27, iron-56, silicon-28, and vanadium-51, partial rates for, (E), 24:52499
capture by argon, structure of K-series x rays in, (E), 21:20769
capture by atoms and nuclei, use of spark chambers for studying, 21:16111 (CONF-660918-, pp 79-81)
capture by bismuth-209 and lead-206, prompt-neutron spectra from, (E), 25:33075
capture by bismuth-209, x-ray and nuclear γ-ray spectra from, 24:52597
capture by boron-10 and nitrogen-14, correlations of neutrinos and photons in, (T), 22:7649
capture by boron-10 and nitrogen-14, gamma—neutrino angular correlation in, (T), 21:27538
capture by boron-11 and nitrogen-14, calculation of partial transition rates using shell model with intermediate coupling, (T), 24:38127
capture by boron-11, γ spectra from, (E), 23:44832
capture by boron-11, partial rates and γ spectra for, (E), 23:7229
capture by boron-11, rates of, 25:53522
capture by boron-11, recoil nuclei asymmetry in, (T), 25:39103
capture by bromine-79 and bromine-81, probability for, 25:12502
capture by calcium and silicon, asymmetries in neutron spectra following, (E), 24:52496
capture by calcium and sulfur, asymmetry coefficient for low-energy neutron angular distribution from, (E), 25:59738 (JINR-P1-6029)
capture by calcium, lead, oxygen, and sulfur, absolute neutron yield from, (E), 25:25641 (JINR-P15-5524)
capture by calcium, sulfur, and lead at 166 MeV/c, form of weak interactions and nuclear structure from neutron asymmetry and energy spectra from, (E), 23:51841 (NEVIS-172)
capture by calcium-40 and oxygen-16, theory of, 21:30073
capture by calcium-40 using polarized beams, asymmetry in neutron emission following, (T), 24:52498
capture by calcium-40, angular distributions and neutron spectra for, (T), 22:48503
capture by calcium-40, asymmetry of neutrons emitted in, (E), 23:28274 (NEVIS-168)
capture by calcium-40, carbon-12, oxygen-16, silicon-28, and sulfur-32 with neutron emission, analysis of mechanism in, (T), 24:52465
capture by calcium-40, carbon-12, oxygen-16, silicon-28, and sulfur-32, description using particle-hole model, (T), 22:26926
capture by calcium-40, copper-64, sulfur-32, and silicon-28, charged-particle masses and energy spectra from, (E), 25:31267
capture by calcium-40, effect of Coulomb field in radiative, 25:31282
capture by calcium-40, energy spectrum and asymmetry of direct neutrons from, (T), 23:10973
capture by calcium-40, lead, oxygen-16, and sulfur-32, neutron energy spectra from, (E), 24:52436
capture by calcium-40, photon asymmetry for radiative, (E), 25:56705
capture by calcium-40, resonance mechanism for neutron spectrum from, (T), 23:52169 (JINR-E4-4601)
capture by calcium-40, silicon-28, and sulfur-32, γ spectra and partial rates for, (E), 23:32920
capture by calcium-40, structure-dependent terms in radiative, (T), 21:34031(R) (ORO-2915-79)
capture by carbon and lead, measurement of decay and disappearance rates and decay electron energy spectra from, 23:10994 (CAR-882-23)
capture by carbon, evidence against existence of strange leptons from, (E), 22:39244
capture by carbon, nitrogen, and oxygen in emulsions, relative probabilities of reaction channels for lithium-8 production in, (E), 25:53516 (JINR-P1-5893)
capture by carbon-12 and oxygen-16 in giant resonance region, analysis using continuum model, (T), 23:1807
capture by carbon-12 and oxygen-16, analysis using continuum model, (T), 24:38103 (RLO-1388-567)
capture by carbon-12 and oxygen-16, calculation of rates for, (T), 24:52437
capture by carbon-12 and oxygen-16, capture rates and γ-ray yields for, (E), 24:8841 (JINR-P15-4745)
capture by carbon-12 and oxygen-16, transition rates in, (E), 24:38117
capture by carbon-12 in emulsions, energy spectra, angular correlations, and relative probability for lithium-8, helium-3, neutron, and neutrino production in, (E), 25:53516 (JINR-P1-5893)
capture by carbon-12, α Z-order correction to, (T), 23:39945
capture by carbon-12, calculations of γ and neutron spectra using Kamimura—Ikeda—Arima model of giant resonance for, (T), 22:50555
capture by carbon-12, charged-particle emission in, (E), 24:28722
capture by carbon-12, helium-3, and oxygen-16, analysis of, (T), 23:44965
capture by carbon-12, induced pseudoscalar form factor for, 25:25393
capture by carbon-12, relative yields and capture-rate ratios from, (E), 25:12395
capture by carbon-12, shell-model analysis of, (T), 24:43150
capture by carbon-12, time reversal nonconservation in, (T), 21:27405
capture by chromium, titanium, vanadium, and their oxides, structure of K-series x rays in, (E), 21:20770
capture by cobalt and manganese, yields of nuclear γ rays following, 24:52497
capture by complex nuclei, coupling constants and nuclear structure from, (T), 22:16077
capture by complex nuclei, resonance mechanism for neutron angular distribution asymmetry, energy spectra, and charged particle emission from, (T), 23:52169 (JINR-E4-4601)
capture by complex nuclei, theory for, 23:44965
capture by complex nuclei, weak interaction theory for, 21:44331 (JINR-P2-3258)
capture by copper, average neutron yield in, (E), 22:39619
capture by deuterons in mesic deuterium, rate of, (E), 24:40236
capture by europium-151 and -153, isotopic shift in rates for, 24:52598
capture by gaseous hydrogen, field theoretical basis for weak-interaction theory for, (T), 25:59397
capture by heavy elements, x-ray spectra from, (E), 25:33076
capture by heavy nuclei, excitation probabilities for nuclear levels by, (E), 25:33076
capture by heavy nuclei, independent-particle shell model for systematics of, (T), 22:30098
capture by heavy nuclei, processes during, 21:41820
capture by helium-3 and hydrogen, PCAC theory for, 23:18873
capture by helium-3 in n + n + p + ν channel, rate for, (T), 22:5601
capture by helium-3 $\mu^- + {}^3He \rightarrow t + \nu$, V—A weak interaction theory for, 22:9556 (JEN-176-DF/I-53)
capture by helium-3, analysis using universal Fermi interaction and CVC theory, (T), 25:31190

capture by helium-3, calculation of matrix elements and pseudoscalar coupling constants for, (T), 25:38873
capture by helium-3, calculation of, (T), 23:1622
capture by helium-3, calculations for n + d + τ channel in, 21:23305
capture by helium-3, calculations using soft-core Irving—Gunn wave function of rate of, (T), 25:53529
capture by helium-3, charge form factor and vacuum polarization corrections for, 22:20201
capture by helium-3, current algebra calculation of rate for, 24:8614
capture by helium-3, elementary particle treatment of, (T), 25:59397
capture by helium-3, exchange effects in, (T), 22:18113
capture by helium-3, induced pseudoscalar form factor for, 25:25393
capture by helium-3, probability for, (T), 23:25775
capture by helium-3, trinucleon wave functions for calculation of rate of, (T), 24:30687
capture by helium-4, angular correlations between momentum transfer and emitted nuclear fragments in, 23:45006
capture by helium-4, calculations of neutron spectra and asymmetries in neutron angular distributions from, (T), 25:36666
capture by helium-4, total rate of, (E), 22:35214
capture by hydrogen and helium-3, (T), 21:15307
capture by hydrogen, K x-ray yields as functions of density, (T), 25:43125
capture by hydrogen, second class currents for radiative, (T), 21:42324 (ITEF-491)
capture by light nuclei, (E/T), 23:10939 (JINR-E4-4092)
capture by light nuclei, calculations using Fermi gas model, 21:27530
capture by light nuclei, universal V—A theory for, 22:5577
capture by lithium-6 and nitrogen-14, angular correlations for unique, (T), 22:7638 (JINR-E2-3600)
capture by lithium-6, angular distribution of recoil nucleus from partially polarized, 23:19198
capture by lithium-6, calculations using projected Hartree—Fock method, (T), 23:28260
capture by lithium-6, elementary particle treatment of, (T), 24:28561 (LYCEN-7005)
capture by lithium-6, elementary-particle treatment of, 24:52461
capture by lithium-6, induced pseudoscalar form factor for, 25:25393
capture by lithium-6, rate for, (E), 23:30962
capture by lithium-6, reaction rates and triton energy distributions from, (T), 25:43821
capture by lithium-6, test of analogy with π^- radiative capture by lithium-6 from rate of, (E), 22:26572
capture by neon, probability of heavy charged particle emission in, (E), 23:5862
capture by neon-23 in the atmosphere, (T), 24:3212
capture by nickel and chromium isotopes, times for, (E), 21:1048
capture by nitrogen-14, capture rate and gamma—neutrino angular correlations for, (T), 25:12386
capture by nitrogen-15, gamma—neutrino angular correlation in, 22:53132
capture by nuclei and free protons in hydrogen, radiative, (T), 21:42373
capture by nuclei at rest in emulsions, high-energy proton spectrum from, (E), 24:35860 (ITEF-707)
capture by nuclei of mesic atoms, test of lepton quantum numbers from $\mu^- \rightarrow e^+$ process in, 25:33659
capture by nuclei with nuclear excitation, γ—γ correlations in, (T), 23:44968
capture by nuclei, analysis of γ—γ angular correlations in radiative, (T), 24:52686
capture by nuclei, angular correlations in radiative, 22:11987
capture by nuclei, angular distribution of nuclear recoils and emitted neutrons from, 23:15062
capture by nuclei, coupling constants in, 21:4201
capture by nuclei, description using Migdal theory, (T), 22:27389
capture by nuclei, Doppler effect and internal bremsstrahlung in, (T), 25:53629
capture by nuclei, effect of short-range correlations in, (T), 25:56824 (LYCEN-7104, C4.1-17)
capture by nuclei, elementary particle formalism for, 24:5280
capture by nuclei, equality of matrix elements for, 23:15518
capture by nuclei, excitation of giant resonance analogs in, 24:52679
capture by nuclei, gamma—neutrino angular correlation in, (T), 21:27538
capture by nuclei, giant-resonance excitations in, (T), 21:21473
capture by nuclei, hyperfine effects in radiative, (T), 24:35928
capture by nuclei, induced pseudoscalar coupling in, 24:5281
capture by nuclei, interaction constants for, (T), 22:13717
capture by nuclei, lectures on models for, (T), 25:56809 (CERN-71-14, pp 67-99)
capture by nuclei, magnetic hyperfine structure of x rays from, (T), 25:7856
capture by nuclei, method for measuring neutrino—gamma angular correlations in, 22:7764
capture by nuclei, neutron and recoil angular distributions from, (E/T), 23:17147
capture by nuclei, neutron angular distribution from, (T), 22:27256
capture by nuclei, neutron asymmetry from $\mu^- + p \rightarrow n + \tau$ interactions in, (T), 22:13716
capture by nuclei, neutron asymmetry from, (T), 21:17388 (JINR-P4-3153)
capture by nuclei, nuclear Coulomb effects on induced pseudoscalar interaction in, (T), 24:42928
capture by nuclei, nuclear structure research with, (T), 23:13320
capture by nuclei, particle correlations and hyperfine effects in, (T), 24:52687
capture by nuclei, radiochemical techniques for rate to all particle-stable final states in, (E/T), 25:53813 (LA-DC-12780)
capture by nuclei, recent developments in, 24:52684
capture by nuclei, relation to radiative π capture and pionic π capture, 24:13120
capture by nuclei, relation to radiative π^- absorption, 22:5552
capture by nuclei, resolution effect in τ—γ correlation measurements in, 25:23846
capture by nuclei, resonance mechanism in, 24:52685
capture by nuclei, review of elementary particle theory for, 22:18314
capture by nuclei, review of weak interaction theory for, 22:15739
capture by nuclei, review of weak interaction theory for, 21:42329
capture by nuclei, review of, (T), 23:49083
capture by nuclei, Siegert theorem for, 22:9568
capture by nuclei, soft-pion theorem for analogy between meson (π) radiative capture and, 24:49773
capture by nuclei, system of NE 213 liquid scintillation detectors with neutron—gamma discrimination for determining, 23:16121
capture by nuclei, theory using Nilsson model or shell model for initial and final nuclei, (T), 23:4071
capture by oxygen-16 with excitation of low-lying nitrogen-16 energy levels, (T), 21:23415
capture by oxygen-16 with giant dipole resonances, neutron emission in, (T), 21:9933
capture by oxygen-16, (T), 21:44586
capture by oxygen-16, construction of ground-state wave function by, (T), 23:34727
capture by oxygen-16, Doppler broadening of 6.322-MeV γ ray from, (T), 24:6829 (UCRL-19348)
capture by oxygen-16, γ spectra and capture rates for, (E), 23:44833
capture by oxygen-16, induced pseudoscalar coupling constant from nitrogen-16 beta decay following, 21:21182
capture by oxygen-16, matrix elements for, (T), 21:38252
capture by oxygen-16, supermultiplet symmetry breaking in, (T), 21:2627
capture by oxygen-16, transition rates for, (T), 22:20481
capture by silicon-28, charged-particle energy spectra from, (E), 23:25890
capture by yttrium-89, γ spectra from, (E), 25:20360
capture by zinc-66 and -68, level transitions and energy differences from, (E), 25:7820 (N-70-28737)
capture in beryllium, carbon, helium, and lithium, x-ray spectra and Monte Carlo cascade calculations for, 24:21563 (NAL-37)
capture in gas mixtures, probability for, (E), 21:24896
capture in hydrogen mixtures with other gases, 22:45920 (JINR-P13-3901)
capture of polarized, neutron angular distribution from, (T), 21:34031(R) (ORO-2915-79)
capture probability for hydrogen and hydrogeneous substances, 22:45959
capture rate for boron-11, calculation using harmonic oscillator wave functions, (T), 23:44840
capture rate for calcium-40, calculation using hole-particle model, (T), 22:5803
capture rate for carbon-12, αZ-order corrections to, (T), 23:3938 (JINR-E4-4034)
capture rate for carbon-12, calculation using exact nuclear and muon wave functions, (T), 22:26915
capture rate for carbon-12, calculation using p-shell nuclear wave functions, (T), 22:7661(R) (NYO-3525-26)
capture rate for carbon-12, calculations using p-shell wave functions, (T), 23:8946
capture rate for helium-3, calculation using current commutation relations, (T), 23:19342
capture rate for helium-4, calculation using modified Irving wave function, (T), 22:18120
capture rate for oxygen-16, deformation effects on, (T), 24:43178
capture rate in carbon-12, calculation using general p-shell wave functions with configuration mixing, (T), 23:44834
capture rate in lithium-6 from electron inelastic scattering by lithium-6, use of PCAC hypothesis for, 24:24518
capture rate in lithium-6, pseudoscalar form factor from PCAC hypothesis, (T), 25:3748
capture rate in oxygen-16, induced pseudoscalar coupling constant from, (E), 23:23635
capture rates for boron-11 and oxygen-16, (E), 22:9785
capture rates for carbon-12 and oxygen-16, calculation using nuclear models, 23:25846
capture rates for light nuclei with J = 0$^+$, T = 0 ground states, (T), 23:5805
capture rates for nuclei, calculation using shell model, (T), 22:27394
capture rates for oxygen-16, calculation using renormalized one-body operator, (T), 24:22097
capture rates for oxygen-16, calculations using configuration-mixing model, (T), 22:53128
capture rates for oxygen-16, calculations using shell-model formulation of Migdal's theory, 21:35517
charge of, existence of hypothetical leptonic and muonic photons for difference of electron charge and, (T), 23:51889
charge of, existence of hypothetical leptonic and muonic photons for upper limit for muonic, (E/T), 23:51889
coupling to electrons, spark chamber study of upper limit for cross section of $e^- + e^- \rightarrow \mu^- + \mu^-$ interactions for determining, (E), 23:23407
decay $\mu^- \rightarrow e^-$ + anti τ + τ, Pauli—Fierz reordering theorem for, 24:47418
decay $\mu^- \rightarrow e^-$ + anti τ + τ, second-order radiative corrections for, 23:44614 (IC-69/85)
decay $\mu^- \rightarrow e^-$ + anti τ/sub e/ + τ, (T), 21:15307
decay $\mu^- \rightarrow e^-$ + anti τ/sub e/ + τ/sub μ/, 21:15308
decay $\mu^- \rightarrow e^-$ + τ + anti τ + γ, radiative corrections to, 24:1555
decay $\mu^- \rightarrow e^-$ + τ + anti τ, CVC theory and radiative corrections for, 22:9557 (JEN-186-DF/I-57)
decay of μ^+ - μ^- atoms, probability for, (T), 23:46643(T) (SLAC-Trans-97)
decay of, calculation of electromagnetic T-violating effects in leptonic, 22:32190
decay of, formula for kinetic masses of τ/sub e/, τ/sub μ/, e^-, and e^+ from, 22:29646
decay rate, disappearance rate, and decay electron energy spectrum from, stopped in lead, (E), 23:13026
decay spectra in copper, (E), 22:29620
decay spectra in copper, comparison with μ^+, (E/T), 21:17028 (UCRL-16168)
depolarization in low Z and hydrogen compounds, 22:21860
depolarization theory for, contribution of mesic atom interactions with medium to, (T), 23:1157 (JINR-P14-4052)
detection of cosmic, geomagnetic deflection effects in, (T), 22:9123
detection of cosmic, laboratory experiment for, (E), 24:39901
distribution of μ^- —μ^+ pairs in cosmic showers underground lateral, (E), 25:12082
effects on rare-gas isotopic composition in atmosphere and in meteorites, (T), 24:3212
effects on thermonuclear reactions of hydrogen isotopes, 21:37509 (FOA-4-4266-21)
electromagnetic properties of, 21:15308
energy loss in matter at high energies, review of density effect in ionization, 24:37710
flux of 20- to 100-GeV/c cosmic, at large zenith angles, (E), 23:39596
interactions, 25:1452
interactions anti τ/sub μ/ + $\mu^- \rightarrow$ anti τ/sub e/ + e^-, two- and four-component theory for, 22:22376
interactions $e^- + \mu^-$, asymptotic behavior of amplitudes for backward, 21:40280
interactions in hydrogen bubble chamber, depolarization from, (E/T), 21:21134
interactions in nuclear emulsions at 10.5 GeV, total and differential cross sections for inelastic, (E), 23:18788
interactions in nuclear emulsions at 15.8 GeV/c, effect of discrepancy in primary beam momentum in, (E), 25:14532
interactions $\mu + e^+$, cross sections to order α^3 for, 25:30820
interactions $\mu^- + {}^{12}C \rightarrow {}^{12}B + \tau$, elementary particle formalism for, 24:5280
interactions $\mu^- + {}^3He \rightarrow {}^3H + \tau$, elementary particle formalism for, 24:5280
interactions $\mu^- + {}^4Li \rightarrow {}^4He + \tau$, elementary particle formalism for, 24:5280
interactions $\mu^- + d \rightarrow 2n + \tau$, relativistic treatment of, 21:37864
interactions $\mu^- + d \rightarrow n + n + \tau$ in mesic atoms, rate of, (E), 24:40236
interactions $\mu^- + e \rightarrow \mu^- + e$ at 14.5 GeV/c in emulsions, (E), 23:49028
interactions $\mu^- + e \rightarrow \mu^- + e$ at 5.0 and 14.5 GeV/c in emulsions, cross sections for, (E), 25:27955
interactions $\mu^- + e$ at 5.0 and 14.5 GeV/c, cross sections for elastic, (E), 24:28474
interactions $\mu^- + e$ at 5.5 and 10.5 GeV/c, energy distributions from, 22:44312
interactions $\mu^- + e$ at 6 and 11 GeV, electromagnetic shower counter study of cross sections of, (E), 22:52916
interactions $\mu^- + e^-$, radiative corrections to, 25:30820
interactions $\mu^- + \mu^+ \rightarrow$ anti$\tau + \tau$, cross sections for, (T), 21:17095
interactions $\mu^+ + \mu^- \rightarrow e^+ + e^-$ at high energies, motion of Coulomb poles in J-plane from asymptotic value of amplitude of, (T), 22:37144
interactions $\mu^+ + \mu^- \rightarrow \gamma + \gamma$, calculation of matrix elements with anomalous magnetic moment and polarization effects for, 22:20177
interactions $\mu^+ + \mu^- \rightarrow \mu^+ + \mu^-$ and $\mu^+ + \mu^- \rightarrow e^+ + e^-$, effect of weak interaction on, (T), 23:8786 (JINR-P2-4120)
interactions $\mu^+ + \mu^- \rightarrow \tau$ + anti τ, (T), 21:40179
interactions $\mu^- + \mu^+ \rightarrow \tau$/sub μ/ + anti τ/sub μ/, radiative corrections for differential and total cross sections for, (T), 23:15019
interactions $\mu^- + \mu^+ \rightarrow p$ + anti p, polarization in, (E), 21:865
interactions $\mu^- + \mu^+$ above 20 GeV, test for neutral weak vector boson coupling in, 21:44334
interactions $\mu^+ + \mu^-$ at high energies, cross sections for Bhabha, 25:56466
interactions $\mu^- + \mu^-$ in colliding beams, spark chamber study of μ + p interactions at 1 to 6 GeV for parameters of, (E), 22:22276 (CONF-670923-, pp 409-51)
interactions $\mu^+ + \mu^-$, design and operation of Princeton precetron storage ring for, 23:46866 (PPAR-14)
interactions $\mu^+ + \mu^-$, precetron storage ring for studying, 24:52350
interactions $\mu^+ + \mu^-$, scaling symmetry relative to $e^+ + e^-$ in elastic, (T), 25:22858
interactions $\mu^- + n \rightarrow p + W^- + \mu^-$, model for W^+ production in, 25:14643
interactions μ^- + N, coupling constants for, (E/T), 23:10939 (JINR-E4-4092)
interactions $\mu^- + p \rightarrow \mu^- + p$ at 6 to 17 GeV/c, spark chamber study of μ — e universality in comparison of e + p elastic cross sections with cross sections for, (E), 23:36820
interactions $\mu^- + p \rightarrow \mu^- + p$ at 6 to 17 GeV/c, spark chamber study of one-photon exchange in, (E), 23:36821

interactions $\mu^- + p \rightarrow \mu^- + p$ at 6 to 17 GeV/c, test of μ - e universality from momentum transfer range dependence relative to $e + p \rightarrow e + p$ interactions and absolute magnitude of cross sections for, (E), 24: 10660 (NEVIS-176)
interactions $\mu^- + p \rightarrow \mu^- + p$, general expression for differential cross section for polarization dependence of, (T), 22:39329
interactions $\mu^- + p \rightarrow n + \tau + \gamma$, symmetry breaking in photonic matrix elements of vector currents in, 24: 28579
interactions $\mu^- + p \rightarrow n + \tau$ from capture in gaseous and molecular hydrogen, 23:25846
interactions $\mu^- + p \rightarrow n + \tau$ in gaseous hydrogen, μ^- nuclear capture rate from, (E), 23:18792
interactions $\mu^- + p \rightarrow n + \tau$ in meson (μ^-) capture by nuclei, constants for, (T), 22:13717
interactions $\mu^- + p \rightarrow n + \tau$ in meson (μ^-) capture by nuclei, neutron asymmetry from, (T), 22:13716
interactions $\mu^- + p \rightarrow n + \tau$, analysis using V-A theory, (T), 24:52437
interactions $\mu^- + p \rightarrow n + \tau$, field and quark algebra predictions from identity for relation of current commutator with rate of, (T), 25:17455
interactions $\mu^- + p \rightarrow n + \tau$/sub μ/ + γ, second class currents for, (T), 21:42324 (ITEF-491)
interactions $\mu^- + p \rightarrow n + \tau$/sub μ/ + γ, second-kind currents for, (T), 22:13723
interactions $\mu^- + p \rightarrow n + \tau$/sub μ/ in hydrogen, nuclear capture rate for, (E), 21:46470
interactions $\mu^- + p \rightarrow n + \tau$/sub μ/, development of system of proportional detectors for use as high-pressure gas target for studying, 21:45418
interactions $\mu^- + p \rightarrow n + \tau$/sub τ/ in nuclear μ^- capture, universal V—A theory for, 22:5577
interactions $\mu^- + p \rightarrow \tau + \gamma + n$, weak axial vector current in, 21:5377
interactions $\mu^- + p \rightarrow \tau + n$, (T), 21:42373
interactions $\mu^- + p \rightarrow \tau$/sub μ/ + n, (T), 21:15307
interactions $\mu^- + p \rightarrow p + \mu^-$ at 6 to 17 GeV, tests of one-photon-exchange model and μ - e universality in, (E), 24:8558 (NEVIS-178)
interactions $\mu^- + p \rightarrow p + W^- + \tau$, model for W^+ production in, 25:14643
interactions $\mu^- + p \rightarrow p + W^- + \tau$, total cross sections for, 24:24270
interactions $\mu^- + p \rightarrow \pi^0 + \mu^- + p$, polarized incident μ^- for asymmetry in, (T), 25:17440
interactions $\mu^- + p \rightarrow W^- + \mu + p$ at 3 to 300 GeV, total cross sections for, (T), 24:40333
interactions $\mu^- + p$ at high energies using polarized target, μ structure from small-angle, (T), 21:44345
interactions $\mu^- + p$ at high energies, total cross sections for production of hypothetical massive spin-1 electromagnetic bosons in, (T), 25:53107
interactions $\mu^- + p$, model for renormalizable theory for weak, 22:48280
interactions $\mu^- + p$, renormalizable theory of weak interactions for, 22:44386 (ITEF-580)
interactions $\tau + \mu^-$, scaling symmetry relative to $\tau + e$ in elastic, (T), 25:22858
interactions τ/sub e/ + $\mu^- \rightarrow \tau$/sub μ/ + e^-, two- and four-component theory for, 22:22376
interactions with electromagnetic field at 4 GeV/c in propane bubble chamber, direct electron pair production in, 25:56467
interactions with valence electron in μ-mesic atoms, calculation of hyperfine, 23:39310
lifetime of $\mu^+ - \mu^-$ atoms, (T), 23:46643(T) (SLAC-Trans-97)
lifetime of, measurement as test of special relativity theory, 22:9669
magnetic moment of bound, theory of finite Fermi systems for nuclear polarization corrections to, 24: 3584
magnetic moment of, (g - 2) experiments for measuring, 22:46512
magnetic moment of, review of anomalous, (E), 23: 49199
magnetic moment of, scintillation counter study of μ^- decay for anomalous g-factor for, (E), 22:22268 (CONF-670923-, pp 48-56)
polarization from energy-level transitions in μ-mesic atoms, 23:18422
polarization in crossed beams, characteristic, (T), 22: 17920
polarization in graphite, hydrocarbons, and water, chemical structure and temperature dependence of, (E), 23:44152
polarization in hydrocarbons, residual, 22:38718 (JINR-P14-3809)
polarization in $K^- \rightarrow \mu^-$ + anti $\tau + \pi^0$ decay, radiative corrections to, 23:39657
polarization in A-$H^3 \rightarrow {}^3He + l^-$ + anti τ decay, longitudinal and transverse, (T), 25:7620
polarization in mesic atoms having nonzero nuclear spin, (E), 24:15145
polarization in water and hydrocarbons at -196 to +100°C, residual, (E), 23:7078
polarization in water at -196 to +100°C, temperature dependence of residual, (E), 22:41723 (JINR-P14-3832)
production from τ/sub μ/ + $n \rightarrow p + \mu^-$ and anti τ + $n \rightarrow p + \mu^-$ interactions, spin dependence of, (T), 22: 11635
production in $\gamma + p \rightarrow \mu^- + \mu^+ + p$ interactions at 850 MeV, scintillation counter telescope study of asymmetric, (E), 22:22288
production in $\gamma + p \rightarrow \mu^+ + \mu^- + p$ interactions, test of quantum electrodynamics in asymmetric, (E), 22: 39232 (AD-668169)
production in $\gamma + p \rightarrow \mu^- + \mu^+ + p$ interactions, test of quantum electrodynamics from asymptotic, (E), 23: 10739
production in $\gamma + p$ interactions at 850 MeV, magnetic spectrometer study of, (E), 22:22276 (CONF-670923-, pp 409-51)
production in γ reactions with carbon at 7 to 9 GeV, validity of quantum electrodynamics at small distances in, (E), 23:30695
production in $K_L^0 \rightarrow \pi + \mu + \tau$ decay, time reversal invariance test in Coulomb final-state interaction corrections for charge asymmetry and polarization in, (T), 25:43660
production in μ^- and μ^+ reactions with lead at 10.5 GeV, effective cross sections for trident, (E), 25:12083
production in neutrino interactions, upper limit for violation of muonic lepton number in μ^+/μ^-, (E), 24: 21926
production in $\tau + N \rightarrow \mu^-$ + hadrons in underground cosmic-ray experiments, inelasticity in, 24:42933
production in $\tau + n \rightarrow \mu^- + p$ interactions at high energies in nuclei, longitudinal polarization from, (T), 22:29669
production in $\tau + n \rightarrow \mu^- + p$ interactions, spark-chamber study of, (E), 22:48217
production in $\tau + N \rightarrow \mu^- + W^+ + N$ interactions and τ reactions with iron, angular and momentum distributions for, (T), 25:59414
production in $\tau + N$ inelastic interactions above 1 GeV in freon and propane bubble chambers, structure factors in, (E), 24:3506
production in $p + n \rightarrow \mu^+ + \mu^-$ + hadrons interactions, cross sections for timelike, 24:5319
production in $p + p \rightarrow \mu^+ + \mu^-$ + particles in parton model, differential cross sections for, 25:40929
production in photon interactions, lepton electromagnetic form factors from, 22:13719
production in rho $\rightarrow \mu^+ + \mu^-$ decay, angular-defining counter study of wide-angle, (E), 22:22276 (CONF-670923-, pp 409-51)
production in $\Sigma^- \rightarrow n + e^-$ (μ^-) + anti τ decays, asymmetry with respect to Σ^- polarization in, (E), 24: 32963
production of ($\mu^+\mu^-$) bound states in $\pi^- + p$ interactions and photon reactions with nuclei, (T), 24: 8651
production of beams of, facility at LAMPF for, 25: 17611 (LA-4474)
production of heavy μ^-—μ^+ pairs at high energies, model for hadrons as extended objects for, (T), 25:53151
production of heavy, in anti $\tau + n \rightarrow p + \mu^-$ interactions, (T), 22:44384 (IFVE-STF-67-57-K)
production of high-mass μ^+—μ^- pairs in $p + p$ interactions, parton model predictions for structure in, (T), 25:36434 (LNF-71/5)
production of large-invariant-mass μ^+—μ^- pairs in $e + p$ interactions, parton model for differential distributions for, (T), 25:47784
production of massive μ^- —μ^+ pairs in $p + p$ interactions, light-cone analysis of, (T), 25:12228
production of massive μ^-—μ^+ pairs from proton reactions with uranium at 22 to 29.5 GeV/c, cross sections for, (E), 25:7542
production of $\mu^+ + \mu^-$ pairs in photon reactions with carbon at 470 to 1070 MeV, (E), 22:34825 (AD-665851)
production of $\mu^+ + \mu^-$ pairs in photon reactions with carbon, differential cross sections for, (T), 22:34825 (AD-665851)
production of $\mu^+ - \mu^-$ atoms, probability for, 23: 46643(T) (SLAC-Trans-97)
production of $\mu^+ - \mu^-$ pairs from proton reactions with uranium at 22 to 29.5 GeV, effective mass and cross sections for, (E), 25:33536 (NEVIS-185)
production of $\mu^+ - \mu^-$ pairs in $e^+ + e^- \rightarrow$ phi $\rightarrow \mu^+ + \mu^-$ interactions at 2 x 510 to 2 x 670 MeV, determination of limit of validity of quantum electrodynamics from cross sections for, (E), 25:47934 (NP-18931)
production of $\mu^+ - \mu^-$ pairs in electromagnetic interactions, cross sections for, (T), 24:49380
production of $\mu^+ - \mu^-$ pairs in $p + p$ interactions at high energies, cross sections for, (T), 25:12229
production of $\mu^+ - \mu^-$ pairs in $\pi^- + p \rightarrow \mu^+ + \mu^- + n$ interactions near $\Delta(1236)$, isobar model with Born terms for differential and total cross sections for, (T), 25:25420
production of μ^+—μ^- and μ^-—e^+ pairs in neutrino reactions with neon at 0 to 110 GeV in proposed 25-foot bubble chamber, (E), 24:51907 (TID-25473(Vol.2) , pp 143-57)
production of μ^+—μ^- bound state in interactions of two charged particles at high energies, cross sections for, (T), 25:40922
production of μ^+—μ^- pairs by gamma quanta in nuclear fields, polarization effects on cross sections for, (T), 25:27996
production of μ^+—μ^- pairs from electron interactions at 1 to 5 GeV, energy spectra and general formula for cross sections for, 23:51888
production of μ^+—μ^- pairs in annihilation of electron pairs, asymptotics of total cross sections for, (T), 25: 38706
production of μ^+—μ^- pairs in cosmic meson (μ) reactions with nuclei at high energies, energy spectra of, (T), 23:36889
production of μ^+—μ^- pairs in $e + e \rightarrow e + e + \mu^- + \mu^+$ interactions at 2 and 3 GeV, numerical calculations with two-photon exchange and double Williams—Weizsacker approximation for, 24:3566
production of μ^+—μ^- pairs in $e^+ + e$ and $e + e$ interactions at high energies in colliding beams, total and differential cross sections for, (T), 25:36433 (LNF-71/1)
production of μ^+—μ^- pairs in $e^+ + e^- \rightarrow \mu^- + \mu^+$ interactions at 2 x 590 to 2 x 670 MeV, efficiency and background for, (E), 25:47709 (NP-18932)
production of μ^+—μ^- pairs in $e^+ + e^-$ interactions at 0.7 x 2 to 1.2 x 2 GeV, spark chamber and scintillation counter study of, (E), 25:9621 (NP-18581)
production of μ^+—μ^- pairs in electron reactions with carbon at 4.9 GeV/c, test of timelike photon propagator in quantum electrodynamics in, (E), 24: 37605
production of μ^+—μ^- pairs in $\gamma + e^- \rightarrow e^- + \mu^- + \mu^+$ interactions, cross sections for, (T), 23:51880 (JINR-P2-4644)
production of μ^+—μ^- pairs in $\gamma + p$ interactions, parton model for Compton, 24:32993
production of μ^+—μ^- pairs in γ reactions with carbon at 6.0 GeV, (E), 25:1375
production of μ^+—μ^- pairs in hadron collisions in colliding beams, (T), 25:47784
production of μ^+—μ^- pairs in hadron interactions with protons at high energies, relation of form factors with equal-time electromagnetic current commutators for, 23:49173(T) (SLAC-Trans-98)
production of μ^+—μ^- pairs in hadron interactions with protons at high energies, verification of electromagnetic hadron current structure from asymptotic sum rules for, 23:49173(T) (SLAC-Trans-98)
production of μ^+—μ^- pairs in inelastic hadron interactions, Regge analysis of massive, 25:50154
production of μ^+—μ^- pairs in $\tau + p$ interactions and τ reactions with iron-56 at 10 GeV, self-coupling of weak lepton currents in, (T), 25:43612
production of μ^+—μ^- pairs in $p + N$ and $\pi + N$ interactions, helicity of virtual photon from decay angular distributions of, (E/T), 24:26448
production of μ^+—μ^- pairs in phi, rho, and ω decays and Bethe—Heitler process in photon reactions with carbon, (E), 25:45672
production of μ^+—μ^- pairs in photon reactions with carbon at 6 GeV, (E), 24:6683
production of μ^+—μ^- pairs in photon reactions with carbon at 10 GeV, (E), 24:32959
production of μ^+—μ^- pairs in photon reactions with carbon, (E), 24:51898
production of μ^+—μ^- pairs in $\pi^- + p \rightarrow \mu^+ + \mu^- + n$ interactions at 11.1 GeV/c, (E), 24:28489 (NP-18205)
production of μ^+—μ^- pairs in two-body strong interactions, relation with cross section of off-mass-shell strong interactions in vector dominance model for effective mass spectrum for, 24:10735 (JINR-P2-4824)
production of μ^+—μ^- pairs in two-hadron interactions, asymptotic sum rules for, 23:36901 (JINR-P2-4543)
production of μ^+—μ^- pairs of, mechanism for direct, 23: 39649
production of $\mu^-\mu^+$ in meson (π^-) reaction with carbon and iron at 12 GeV/c, rho° mass, width, and branching ratio from, (E), 23:23386
production of tests of validity of quantum electrodynamics at small distances from, 22:41846 (NP-17547)
production of very asymmetric $\mu^- + \mu^+$ pairs in γ reactions with carbon and hydrogen, proposed experiment using range absorber method for, 22:44299 (DESY-68/34)
production of, review of experiments for test of quantum electrodynamics from high-energy wide-angle pair, 22: 46514
range in helium bubble chamber, (E), 24:37185
reactions (μ^-,f) with plutonium-239, fragment spectra and probability of radiationless fission relative to μ^--capture fission in, (E), 25:48085
reactions (μ^-,n) with calcium, silicon, and sulfur, asymmetries and spectra of neutrons from, (E), 21: 40394 (CAR-882-22)
reactions (μ^-,n) with oxygen-16, (E), 23:23633
reactions (μ^-,nτ) with helium-4, short-range nucleon—nucleon correlation effects on energy spectrum and angular distribution asymmetry of neutrons from, (T), 25:56641 (JINR-P4-5986)
reactions (μ^-,nτ) with oxygen-16, neutron spectrum and angular distribution asymmetry in, (T), 25:56820 (JINR-P4-5997)
reactions (μ^-,τ) with aluminum-27, silicon-28, and vanadium-51, activation method for relative probabilities for, (E), 24:30743
reactions (μ^-,τ) with lanthanum-139 and lead-208, probability for, (E), 25:56739 (JINR-P1-6006)
reactions (μ^-,τ) with oxygen-16, lectures on elementary particle method for partial capture rate for, (T), 25: 56809 (CERN-71-14, pp 67-99)
reactions (μ^-,τn) with calcium-40 and sulfur-32, neutron energy spectra from, (E), 23:19242
reactions (μ^-,τn) with oxygen-16, excitation of giant dipole resonance in, 21:25450
reactions (μ^-,τp) with potassium-39 and silicon-28, probabilities for, (E), 25:34066
reactions (μ^-,t) with helium-3, asymmetry of recoil nuclei in, (T), 22:24823
reactions (μ^-,xn) with scandium-45, manganese-55, cobalt-59, niobium-93, iodine-127, and bismuth-209, gamma spectra from, (E), 25:31258
reactions of cosmic-ray-induced, with materials at ground level, 21:42964(R) (NYO-844-71)
reactions with aluminum, cadmium, iron, and lead at low energies and at depths of 40 and 80 mwe, neutron production velocities from, (T), 25:38645
reactions with argon and neon at high pressures, x-ray emission from, (E), 25:55830
reactions with argon—hydrogen mixtures, meson transfer from hydrogen to argon and x-ray emission in, (E), 25:55830
reactions with calcium, magnesium, silicon, and sulfur, relative intensities of K and L x rays from, (E), 22: 1008
reactions with calcium, selenium, and titanium targets, x-ray spectra from, 23:5212
reactions with chemical compounds, review of processes in, 25:19482(T) (NRC-TT-1426)
reactions with cobalt, production of iron-59 in, (E), 23: 42000
reactions with emulsion nuclei at 10.1 and 15.8 GeV/c, giant dipole resonance from, (E), 25:33521

reactions with emulsion nuclei at 53 MeV, search for conserved-vector-current mechanism in, (E), 22:14034
reactions with helium-4 liquid, energies and yields of K x rays from, (E), 24:32635
reactions with hydrogen isotopes, hyperfine-structure transitions and isotope exchange in, (T), 25:4952 (JINR-P4-5039)
reactions with hydrogen, Lyman x-ray spectra from, 25: 33077
reactions with iron at high energies, total cross sections for production of hypothetical massive spin-1 electromagnetic bosons in, (T), 25:53107
reactions with lead at 10.5 GeV, effective cross sections for μ trident production from, (E), 25:12083
reactions with nuclei at 15.9 GeV in emulsions, structure functions for, (E), 25:3260
reactions with nuclei in matter, (T), 25:31448
reactions with nuclei, lepton conservation in positron emission from, (T), 24:5277
reactions with nuclei, polarization effects in W production from, (T), 24:52035 (TID-25473(Vol.4), pp 185-6)
scattering by copper at 1.7 GeV/c in cloud chamber, distribution for, (E), 24:32954
scattering by nuclei, radiative corrections for inelastic, (T), 22:18345
search for massive μ^+—μ^- pairs in proton reactions with uranium at high energies, proposed experiment for spectrometer, 24:51931 (TID-25473(Vol.4), pp 219-26)
spectra from neutrino reactions (τ,μ^-W^+) with nuclei and $W \rightarrow \mu + \tau$ decay, 25:59410
spectra of cosmic, at sea level, 25:52700
structure from $\mu^- + p$ interactions at high energies using polarized target, (T), 21:44345
transfer from μp atoms in formation rate in gaseous formation of μpp molecules, (E), 22:45921 (JINR-P15-3964)
transfer rates from μp to argon, krypton, and xenon, (E), 24:10379
transition energies in atoms from sulfur to chromium, 2p—1s, (E), 21:16803
MESONS (μ^+)
capture by solids, muonium formation in, (E), 23:25151
charge of, existence of hypothetical leptonic and muonic photons for difference of electron charge and, (T), 23: 51889
charge of, existence of hypothetical leptonic and muonic photons for upper limit for muonic, (E/T), 23:51889
chemical shifts in diatomic halide molecules, 25:2899
decay below 7.4 MeV/c in hydrogen bubble chamber, parameters for Michel formula from spectra for, (E), 22:20123
decay in alkali metal halide crystals, effects of impurities on asymmetry of, (E), 24:35173
decay $\mu^+ \rightarrow 2e^+ + e^-$, upper limit for branching ratio for, (E), 25:19891 (JINR-P1-5542)
decay $\mu^+ \rightarrow e^+ + e^+ + e^-$ in magnetic spark chamber, branching ratio for, (E), 25:52999
decay $\mu^+ \rightarrow e^+ + e^+ + e^-$, spark chamber study of upper limit for branching ratio for, (E), 25:59254(T) (BNL-tr-449)
decay $\mu^+ \rightarrow e^+ + \gamma + \tau/\text{sub } e/ + \text{anti } \tau/\text{sub } \mu/$, gamma and positron spectra from, 21:29433
decay $\mu^+ \rightarrow e^+ + \gamma$, cylindrical spark chamber study of upper limit for branching ratio for, (E), 25:33658
decay $\mu^+ \rightarrow e^+ + \tau + \text{anti } \tau$ in emulsions in longitudinal magnetic field, e^+ asymmetry, 21:44257
decay $\mu^+ \rightarrow e^+ + \tau + \text{anti } \tau$ in hydrogen bubble chamber, e^+ asymmetry from production in, (E), 23: 49041
decay $\mu^+ \rightarrow e^+ + \tau + \text{anti } \tau$ in transverse and longitudinal magnetic fields, determination of meson (μ^+) slow depolarization in substances from time distribution of, (E), 23:44640
decay $\mu^+ \rightarrow e^+ + \tau + \text{anti } \tau$, aluminum-plate spark chamber study of μ^+ polarization direction from e^+ angular distribution in, (E), 22:24525
decay $\mu^+ \rightarrow e^+ + \tau + \text{anti } \tau$, CVC theory and radiative corrections for, 22:9557 (JEN-186-DF/I-57)
decay $\mu^+ \rightarrow e^+ + \tau + \text{anti } \tau$, effect of derivative coupling components in weak leptonic currents on, 23: 49107
decay $\mu^+ \rightarrow e^+ + \tau + \text{anti } \tau$, test of lepton quantum number from, 22:9558 (JINR-P2-3601)
decay $\mu^+ \rightarrow e^+ + \tau + \tau + e^+ + e^-$, calculation in lowest order over weak and electromagnetic interactions for, (T), 25:50108 (JINR-P2-5904)
decay $\mu^+ \rightarrow e^+ + \tau/\text{sub } e/(\text{anti } \tau/\text{sub } e/) + \text{anti } \tau/\text{sub } \mu/(\tau/\text{sub } \mu/)$, test of multiplicative lepton number from, 22:32110
decay of heavy, $\mu^+ \rightarrow e^+ + \tau + \tau$, (T), 22:44384 (IFVE-STF-67-57-K)
decay of heavy, $\mu^+ \rightarrow \mu^+ + 2\tau$, (T), 22:44384 (IFVE-STF-67-57-K)
decay of heavy, $\mu^+ \rightarrow \pi^+ + \tau$, (T), 22:44384 (IFVE-STF-67-57-K)
decay of $\mu^+ - \mu^-$ atoms, probability for, (T), 23: 46643(T) (SLAC-Trans-97)
decay of polarized, asymmetry parameter for spectra from, 21:2358
decay of, background problems in neutrino spectrum from, 25:45913 (CEA-N-1390, pp 139-98)
decay of, calculation of electromagnetic T-violating effects in leptonic, 22:32190
decay of, formula for kinetic masses of $\tau/\text{sub } e/$, $\tau/\text{sub } \mu/$, e^-, and e^+ from, 22:29646
decay of, helicity of electrons from, (E), 22:3253
decay of, properties of pulsed magnet coils for asymmetry measurements in, 21:1005
decay of, spectrum and asymmetry of low momentum e^+ from, (E), 23:13021
decay of, theory for, 21:11762
decay of, use of wire spark-chamber spectrometer for measuring positron spectrum from, (E), 21:29434
decay $\pi^+ \rightarrow \mu^+ \rightarrow e^+$, angular distribution of e^+ in, (E), 21:2360
decay spectra below 6.8 MeV/c in hydrogen bubble chamber, low-energy end of, 23:36896
decay spectra in copper, (E), 22:29620
decay spectra in copper, comparison with μ^-, (E/T), 21: 17028 (UCRL-16168)
decay spectrum of, wire spark-chamber spectrometer measurement of, (E), 22:20121
depolarization in gypsum single crystals, (E), 25:13989
depolarization in magnetic fields, account of charge exchange and formation of unstable chemical compounds in theory for, (T), 25:53120
depolarization in matter, differentiation between rapid and slow, (T), 23:44640
depolarization in solutions, effects of solute concentration on, (E), 25:49730
depolarization in substances, time distribution in $\mu^+ \rightarrow e^+ + \tau + \text{anti } \tau$ decays in transverse and longitudinal magnetic fields for determination of slow, (E), 23: 44640
detection of cosmic, geomagnetic deflection effects in, (T), 22:9123
detection of cosmic, laboratory experiment for, (E), 24: 39901
diamagnetic shielding in mesic molecules, chemical shift relative to proton, 25:35852
distribution of μ^+ —μ^+ pairs in cosmic showers underground lateral, (E), 25:12082
emission in $W^+ \rightarrow \mu^+ + \tau$ decay, angular and momentum distributions for, (T), 25:59413
energy loss in matter at high energies, review of density effect in ionization, 24:37710
flux of 20- to 100-GeV/c cosmic, at large zenith angles, (E), 23:39596
g-factor anomaly of, (E), 24:1536
interactions anti $\tau/\text{sub } e/ + \mu^+ \rightarrow \text{anti } \tau/\text{sub } \mu/ + e^+$, two- and four-component theory for, 22:22376
interactions $e^- + \mu^+$ at high energies, double-logarithmic asymptotics for backward, (T), 21:44309
interactions in nuclear emulsions at 10.1 GeV/c, effect of discrepancy in primary beam momentum on, (E), 25: 14532
interactions $\mu^+ + e \rightarrow \mu^+ + e$ at 10.1 GeV/c in emulsions, (E), 23:49028
interactions $\mu^+ + e \rightarrow \mu^+ + e$ at 10.1 GeV/c in emulsions, cross sections for, (E), 25:27955
interactions $\mu^+ + e \rightarrow \tau + \text{anti } \tau + \gamma$, angular and energy distributions of γ in, (T), 22:26618
interactions $\mu^+ + e$ at 10.1 GeV/c, cross sections for elastic, (E), 24:28474
interactions $\mu^+ + e$ at 5.5 and 10.5 GeV/c, energy distributions from, (E), 22:44312
interactions $\mu^+ + e$ at 6 and 11 GeV, electromagnetic shower counter study of cross sections of, (E), 22: 52916
interactions $\mu^+ + e^- \rightarrow \tau/\text{ sub } e/ + \tau/\text{ sub } \mu/ + \gamma$, effect of bremsstrahlung photon on, 21:40196
interactions $\mu^- + e^+$, radiative corrections to, 25:30820
interactions $\mu^+ + e^+$, radiative corrections to, 25:30820
interactions $\mu^- + \mu^+ \rightarrow \text{anti } \tau + \tau$, cross sections for, (T), 21:17095
interactions $\mu^+ + \mu^- \rightarrow e^+ + e^-$ at high energies, motion of Coulomb poles in J-plane from asymptotic value of amplitude of, (T), 22:37144
interactions $\mu^+ + \mu^- \rightarrow \gamma + \gamma$, calculation of matrix elements with anomalous magnetic moment and polarization effects for, 22:20177
interactions $\mu^+ + \mu^- \rightarrow \mu^+ + \mu^-$ and $\mu^+ + \mu^- \rightarrow e^+ + e^-$, effect of weak interaction on, (T), 23:8786 (JINR-P2-4120)
interactions $\mu^+ + \mu^- \rightarrow \tau + \text{anti } \tau$, (T), 21:40179
interactions $\mu^- + \mu^+ \rightarrow \tau/\text{sub } \mu/ + \text{anti } \tau/\text{sub } \mu/$, radiative corrections for differential and total cross sections for, (T), 23:15019
interactions $\mu^- + \mu^+ \rightarrow p + \text{anti } p$, polarization in, (E), 21:865
interactions $\mu^- + \mu^+$ above 20 GeV, test for neutral weak vector boson coupling in, 21:44334
interactions $\mu^+ + \mu^-$ at high energies, cross sections for Bhabha, 25:56466
interactions $\mu^+ + \mu^+$ in colliding beams, spark chamber study of $\mu + p$ interactions at 1 to 6 GeV for parameters of, (E), 22:22276 (CONF-670923-, pp 409-51)
interactions $\mu^+ + \mu^-$, design and operation of Princeton precetron storage ring for, 23:46866 (PPAR-14)
interactions $\mu^+ + \mu^-$, precetron storage ring for studying, 24:52350
interactions $\mu^+ + \mu^-$, scaling symmetry relative to $e^+ + e^-$ in elastic, (T), 25:22858
interactions $\mu^+ + N$ at 10.1 GeV/c in emulsions, energy spectrum, angular distributions, and cross sections for secondary particles in, (E), 24:20058
interactions $\mu^+ + N$ at 10.1 GeV/c in emulsions, partial and integral cross sections and energy dependence of total cross sections for inelastic, (E), 24:20059
interactions $\mu^+ + N$ at high energies, total cross sections for W production in, (T), 25:17453 (COO-1573-73)
interactions $\mu^+ + p \rightarrow \mu^+ + p$ at 6 and 11 GeV/c, spark chamber study of one-photon exchange in, (E), 23:36821
interactions $\mu^+ + p \rightarrow \mu^+ + p$ at 6 and 11 GeV/c, spark chamber study of μ — e universality in comparison of $e + p$ elastic cross sections with cross sections for, (E), 23:36820
interactions $\mu^+ + p \rightarrow \mu^+ + p$ at 6 and 11 GeV/c, test of μ - e universality from momentum transfer range dependence relative to $e + p \rightarrow e + p$ interactions and absolute magnitude of cross sections for, (E), 24: 10660 (NEVIS-176)
interactions $\mu^+ + p \rightarrow \mu^+ + p$, general expression of differential cross section for polarization dependence of, (T), 22:39329
interactions $\mu^+ + p \rightarrow p + \mu^+$ at 6 and 11 GeV, tests of one-photon-exchange model and μ - e universality in, (E), 24:8558 (NEVIS-178)
interactions $\mu^+ + p \rightarrow W^+ + \text{anti } \tau + p$ at 3 to 300 GeV, total cross sections for, (T), 24:40333
interactions $\mu^+ + p$ at 10 GeV/c, vector dominance for virtual $\gamma + p$ total cross sections from differential cross sections for inelastic, (E), 24:3501
interactions $\mu^+ + p$ at 10 GeV/c, virtual $\gamma + p$ interaction from spark chamber study of differential cross sections and virtual $\gamma + p$ absorption cross sections in inelastic, (E), 24:3500
interactions $\mu^+ + p$ at 100 to 200 GeV, proposed 25-foot bubble chamber performance for study of inelastic, 24:50593 (TID-25473(Vol.2), pp 89-90)
interactions $\mu^+ + p$ at high energies, total cross sections for production of hypothetical massive spin-1 electromagnetic bosons in, (T), 25:53107
interactions $\mu^+ + p$, model for renormalizable theory for weak, 22:48280
interactions $\mu^+ + p$, renormalizable theory of weak interactions for, 22:44386 (ITEF-580)
interactions $\tau/\text{sub } \mu/ + \mu^+ \rightarrow \tau/\text{sub } e/ + e^+$, two- and four-component theory for, 22:22376
interactions $\pi^+ + p \rightarrow \pi^+ + p + \gamma$, method for measuring magnetic moment of $\Delta^{++}(1236)$ in, 22: 46422(T) (NP-tr-1692)
lifetime of $\mu^+ - \mu^-$ atoms, (T), 23:46643(T) (SLAC-Trans-97)
magnetic moment of, (g - 2) experiments for measuring, 22:46512
magnetic moment of, nuclear magnetic resonance measurement of, 24:30430
magnetic moment of, precession frequency in magnetic field for, (E), 24:51897
magnetic moment of, review of anomalous, (E), 23: 49199
momentum in $\pi^+ \rightarrow \mu^+ + \tau$ decay, (E), 24:49348
polarization in condensed media in magnetic field, spin relaxation for, (E), 22:22295
polarization in corundum and quartz single crystals as function of magnetic field, (E), 24:35175
polarization in crossed beams, characteristic, (T), 22: 17920
polarization in hadron interactions with protons at high energies, quark-current and field algebra predictions for, (E/T), 23:49173(T) (SLAC-Trans-98)
polarization in hadron interactions with protons at high energies, quark-current and field algebra predictions for, (E/T), 23:49173(T) (SLAC-Trans-98)
polarization in $K_L^0 \rightarrow \pi^- + \mu^+ + \tau$ decay, (E), 21: 37653(R) (UCLA-34-P-106-1)
polarization in $K_L^0 \rightarrow \pi^- + \mu^+ + \tau$ decay, (E), 23: 36826
polarization in $K_L^0 \rightarrow \pi^- + \mu^+ + \tau$ decay, determination of Re xi from, (E), 22:39243
polarization in $K_L^0 \rightarrow \pi^- + \mu^+ + \tau$ decays, (E), 23: 14957
polarization in $K^+ \rightarrow \mu^+ + \text{anti } \tau + \pi^0$ decay, radiative corrections for, 23:39657
polarization in $K^+ \rightarrow \mu^+ + \pi^0 + \tau$ decay, longitudinal component of, (E), 22:50284 (ORO-2504-119)
polarization in $K^+ \rightarrow \pi^0 + \mu^+ + \tau$ decay, (T), 23: 49101
polarization in $K^+ \rightarrow \pi^0 + \mu^+ + \tau$ decay, spark chamber study of, (E), 23:44588
polarization in $K^+ \rightarrow \pi^0 + \mu^+ + \tau$ decay, spark chamber study of, (E), 22:24525
polarization in lithium fluorides, effects of temperature on time dependence of, (E), 24:35173
polarization in media in magnetic field, muonium mechanism for, 22:22375
polarization of cosmic, at sea level, 25:45651
polarization vector from $K^+ \rightarrow \pi^0 + \mu^+ + \tau$ and $K^+ \rightarrow \mu^+ + \tau$ decays, (E), 24:3505
polarization vector in $K^0 \rightarrow \pi^- + \mu^+ + \tau$ decay, time dependence of, 25:53127
polarization vector in $K^+ \rightarrow \pi^0 + \mu^+ + \tau$ decay, measurement of, (E), 23:10741 (UCRL-18143)
precession frequency in μ-mesic molecules, chemical shift in, (T), 24:45008
production from anti $\tau/\text{sub } \mu/ + p \rightarrow n + \mu^+$ and $\tau + p \rightarrow n + \mu^+$ interactions, spin dependence of, (T), 22: 11635
production from $K^0 \rightarrow \pi^- + \mu^+ + \tau$ decay, spark chamber study of total polarization in, (E), 21:42254
production from $\pi^+ \rightarrow \mu^+ + \tau$ decay, magnetic spectrometer study of momentum from, (E), 22:9505
production in anti $\tau + N \rightarrow \mu^+ +$ hadrons in underground cosmic-ray experiments, inelasticity in, 24:42933
production in anti $\tau + p \rightarrow \mu^+ + n(A)$ interactions at high energies in nuclei, longitudinal polarization from, (T), 22:29669
production in $\gamma + p \rightarrow \mu^- + \mu^+ + p$ interactions at 850 MeV, scintillation counter telescope study of asymmetric, (E), 22:22288
production in $\gamma + p \rightarrow \mu^+ + \mu^- + p$ interactions, test of quantum electrodynamics in asymmetric, (E), 22: 39232 (AD-668169)
production in $\gamma + p \rightarrow \mu^- + \mu^+ + p$ interactions, test of quantum electrodynamics from asymptotic, (E), 23: 10739
production in $\gamma + p$ interactions at 850 MeV, magnetic spectrometer study of, (E), 22:22276 (CONF-670923-, pp 409-51)
production in γ reactions with carbon at 7 to 9 GeV, validity of quantum electrodynamics at small distances in, (E), 23:30695
production in $K_L^+ \rightarrow \pi + \mu + \tau$ decay, time reversal invariance test in Coulomb final-state interaction corrections for charge asymmetry and polarization in, (T), 25:43660
production in $K^+ \rightarrow \mu^+ + 2\tau + \text{anti } \tau$ decay, energy spectrum and polarization for, (T), 25:50107 (JINR-E2-5881)
production in μ^- and μ^+ reactions with lead at 10.5 GeV, effective cross sections for trident, (E), 25:12083
production in neutrino interactions, upper limit for violation of muonic lepton number in μ^+/μ^-, (E), 24: 21926

production in neutrino reactions with iron, angular and momentum distributions for, (T), 25:59415
production in neutrino reactions with nuclei, angular and momentum distributions for, (T), 25:59415
production in p + n → μ⁺ + μ⁻ + hadrons interactions, cross sections for timelike, 24:5319
production in p + p → μ⁺ + μ⁻ + particles in parton model, differential cross sections for, 25:40929
production in π⁻ → μ⁻ + τ decay in deuterium bubble chamber, range—momentum scale factor and index of refraction from, (E), 22:32047 (UCID-3162)
production in rho → μ⁺ + μ⁻ decay, angular-defining counter study of wide-angle, (E), 22:22276 (CONF-670923-, pp 409-51)
production of (μ⁺μ⁻) bound states in π⁻ + p interactions and photon reactions with nuclei, (T), 24:8651
production of beams of, facility at LAMPF for, 25:17611 (LA-4474)
production of heavy μ⁻—μ⁺ pairs at high energies, model for hadrons as extended objects for, (T), 25:53151
production of heavy, in τ + p → n + μ⁺ interactions, (T), 22:44384 (IFVE-STF-67-57-K)
production of high-mass μ⁺—μ⁻ pairs in p + p interactions, parton model predictions for structure in, (T), 25:36434 (LNF-71/5)
production of large-invariant-mass μ⁺—μ⁻ pairs in e + p interactions, parton model for differential distributions for, (T), 25:47784
production of low-energy, in neutral cosmic particle interactions with protons, scintillation and Cherenkov counter study of, (E), 24:15442 (CERN-69-28, pp 141-4)
production of massive μ⁻ —μ⁺ pairs in p + p interactions, light-cone analysis of, (T), 25:12228
production of massive μ⁻—μ⁺ pairs from proton reactions with uranium at 22 to 29.5 GeV/c, cross sections for, (E), 25:7542
production of μ⁺ + μ⁻ pairs in photon reactions with carbon at 470 to 1070 MeV, (E), 22:34825 (AD-665851)
production of μ⁺ + μ⁻ pairs in photon reactions with carbon, differential cross sections for, (T), 22:34825 (AD-665851)
production of μ⁺ - μ⁻ atoms, probability for, 23:46643(T) (SLAC-Trans-97)
production of μ⁺ - μ⁻ pairs from proton reactions with uranium at 22 to 29.5 GeV, effective mass and cross sections for, (E), 25:33536 (NEVIS-185)
production of μ⁺ - μ⁻ pairs in e⁺ + e⁻ → phi → μ⁺ + μ⁻ interactions at 2 x 510 to 2 x 670 MeV, determination of limit of validity of quantum electrodynamics from cross sections for, (E), 25:47934 (NP-18931)
production of μ⁺ - μ⁻ pairs in electromagnetic interactions, cross sections for, (T), 24:49380
production of μ⁺ - μ⁻ pairs in p + p interactions at high energies, cross sections for, (T), 25:12229
production of μ⁺ - μ⁻ pairs in π⁻ + p → μ⁺ + μ⁻ + n interactions near Δ(1236), isobar model with Born terms for differential and total cross sections for, (T), 25:25420
production of μ⁺—μ⁻ bound state in interactions of two charged particles at high energies, cross sections for, (T), 25:40922
production of μ⁺—μ⁻ pairs by gamma quanta in nuclear fields, polarization effects on cross sections for, (T), 25:27996
production of μ⁺—μ⁻ pairs from electron interactions at 1 to 5 GeV, energy spectra and general formula for cross sections for, 23:51888
production of μ⁺—μ⁻ pairs in annihilation of electron pairs, asymptotics of total cross sections for, (T), 25:38706
production of μ⁻—μ⁺ pairs in cosmic meson (μ) reactions with nuclei at high energies, energy spectra of, (T), 23:36889
production of μ⁻—μ⁺ pairs in e + e → e + e + μ⁻ + μ⁺ interactions at 2 and 3 GeV, numerical calculations with two-photon exchange and double Williams—Weizsacker approximation for, 24:3566
production of μ⁺—μ⁻ pairs in e⁺ + e and e + e interactions at high energies in colliding beams, total and differential cross sections for, (T), 25:36433 (LNF-71/1)
production of μ⁺—μ⁻ pairs in e⁺ + e⁻ → μ⁻ + μ⁺ interactions at 2 x 590 to 2 x 670 MeV, efficiency and background for, (E), 25:47709 (NP-18932)
production of μ⁻—μ⁺ pairs in e⁺ + e⁻ interactions at 0.7 x 2 to 1.2 x 2 GeV, spark chamber and scintillation counter study of, (E), 25:9621 (NP-18581)
production of μ⁺—μ⁻ pairs in electron reactions with carbon at 4.9 GeV/c, test of timelike photon propagator in quantum electrodynamics in, (E), 24:37605
production of μ⁻—μ⁺ pairs in γ + e⁻ → e⁻ + μ⁻ + μ⁺ interactions, cross sections for, (T), 23:51880 (JINR-P2-4644)
production of μ⁻—μ⁺ pairs in γ + p interactions, parton model for Compton, 24:32993
production of μ⁺—μ⁻ pairs in γ reactions with carbon at 6.0 GeV, (E), 25:1375
production of μ⁺—μ⁻ pairs in hadron collisions in colliding beams, (T), 25:47784
production of μ⁻—μ⁺ pairs in hadron interactions with protons at high energies, relation of form factors with equal-time electromagnetic current commutators for, 23:49173(T) (SLAC-Trans-98)
production of μ⁻—μ⁺ pairs in hadron interactions with protons at high energies, verification of electromagnetic hadron current structure from asymptotic sum rules for, 23:49173(T) (SLAC-Trans-98)
production of μ⁺—μ⁻ pairs in inelastic hadron interactions, Regge analysis of massive, 25:50154
production of μ⁻—μ⁺ pairs in neutrino reactions with neon at 0 to 110 GeV in proposed 25-foot bubble chamber, 24:51907 (TID-25473(Vol.2), pp 143-57)
production of μ⁺—μ⁻ pairs in τ + p interactions and τ reactions with iron-56 at 10 GeV, self-coupling of weak lepton currents in, (T), 25:43612
production of μ⁻—μ⁺ pairs in p + N and π + N interactions, helicity of virtual photon from decay angular distributions of, (E/T), 24:26448
production of μ⁺—μ⁻ pairs in phi, rho, and ω decays and Bethe—Heitler process in photon reactions with carbon, (E), 25:45672
production of μ⁺—μ⁻ pairs in photon reactions with carbon at 10 GeV, (E), 24:32959
production of μ⁻—μ⁺ pairs in photon reactions with carbon at 6 GeV, (E), 24:6683
production of μ⁺—μ⁻ pairs in photon reactions with carbon, (E), 24:51898
production of μ⁺—μ⁻ pairs in π⁻ + p → μ⁺ + μ⁻ + n interactions at 11.1 GeV/c, (E), 24:28489 (NP-18205)
production of μ⁻—μ⁺ pairs in two-body strong interactions, relation with cross section of off-mass-shell strong interactions in vector dominance model for effective mass spectrum for, 24:10735 (JINR-P2-4824)
production of μ⁻—μ⁺ pairs in two-hadron interactions, asymptotic sum rules for, 23:36901 (JINR-P2-4543)
production of μ⁻—μ⁺ pairs of, mechanism for direct, 23:39649
production of μ⁻μ⁺ in meson (π⁻) reaction with carbon and iron at 12 GeV/c, rho⁰ mass, width, and branching ratio from, (E), 23:23386
production of tests of validity of quantum electrodynamics at small distances from, 22:41846 (NP-17547)
production of very asymmetric μ⁻ + μ⁺ pairs in γ reactions with carbon and hydrogen, proposed experiment using range absorber method for, 22:44299 (DESY-68/34)
production of, review of experiments for test of quantum electrodynamics from high-energy wide-angle pair, 22:46514
production photon interactions, lepton electromagnetic form factors from, 22:13719
range in deuterium bubble chamber, determination from π⁻ → μ⁻ + τ decay, (E), 22:32047 (UCID-3162)
range in helium bubble chamber, (E), 24:37185
range in liquid hydrogen, (T), 25:9166
range in π⁺ + μ⁺ + τ/sub μ/ decay in helium bubble chamber, τ/sub μ/ mass from, 21:44287
reactions with emulsion nuclei at 10.1 and 15.8 GeV/c, giant dipole resonance from, (E), 25:33521
reactions with gases, review of muonium formation and meson (μ) depolarization in, (E/T), 24:21566
reactions with germanium single crystals, depolarization in, (E), 23:30317
reactions with hydrogen and helium, electron capture cross sections for, (T), 22:9018
reactions with iron at high energies, total cross sections for production of hypothetical massive spin-1 electromagnetic bosons in, (T), 25:53107
reactions with lead at 10.5 GeV, effective cross sections for μ trident production from, (E), 25:12083
reactions with materials, depolarization in, 23:18418
reactions with media, muonium mechanism of depolarization in, (T), 23:30318
reactions with nuclei at 10.3 GeV in emulsions, structure functions for, (E), 25:3260
reactions with nuclei at 10.5 GeV in emulsions, total and differential cross sections for meson production in, (E), 24:12922
reactions with nuclei at high energies, self-coupling of weak lepton currents in μ⁺ + τ + anti τ production in, (T), 25:40939 (COO-264-560)
reactions with nuclei at high energies, total W production cross sections in, (T), 25:17453 (COO-1573-73)
reactions with scintillation plastics in magnetic fields, depolarization in, (E), 23:30320
scattering by carbon, copper, and hydrogen at 12 GeV, determination of neutron form factor from cross section ratios of carbon and copper to hydrogen for inelastic, (E), 25:12096
scattering by polarized uranium-238 at low energies, partial-wave calculation of quadrupole effects on elastic, (T), 25:50845
scattering of cosmic, by aluminum at 1.60 GeV/c, scintillation counter and spark chamber study of, (E), 22:3249
search for massive μ⁺—μ⁻ pairs in proton reactions with uranium at high energies, proposed experiment for spectrometer, 24:51931 (TID-25473(Vol.4), pp 219-26)
spectra from K⁺ → μ⁺ + π⁰ + τ decay, (E), 21:18890
spin precession in magnetic field, muonium ground state hyperfine splitting from, 23:36499
spin precession in muonium in magnetic fields, two-frequency, (E), 25:27446
MESONS (ω)
branching ratio, mass, and width from production in anti p + p → K₁⁰ + K₁⁰ + ω⁰ and anti p + p → K⁺ + K⁻ + ω⁰ interactions, (E), 25:22811
coupling constant and mass from saturated sum rules for π + rho interactions, 21:31588
coupling constant contributions to superconvergent amplitudes for backward anti N + N interactions, (T), 21:44358
coupling constant for ωKantiK relative to phiKantiK, ω—phi mixing angle from, 22:11666
coupling constant for ωrhoπ from e⁺ + e⁻ → π⁰ + ω, ω → π⁺ + π⁻ + π⁰ interactions, 24:10713
coupling constant for rho ωπ, Bjorken limit for sum rules for, 21:44361
coupling constant for rhoωπ, electroproduction of ω as test of, 25:27981 (DESY-71/11)
coupling constant of ω—γ, (E/T), 25:40860
coupling constant of rhoωπ from sum rules relating rhoωπ and A₁rhoπ vertices to π electromagnetic form factor, 23:34587
coupling constant ωN relative to πN, six-dimensional field theory for ratio of, 23:1670
coupling constant ratio γω²/γrho² from structure of e⁺e⁻ mass spectrum in γ reactions with beryllium at 5.1 GeV, (E), 25:3288
coupling constant ratio phirhoπ/ωrhoπ from asymptotic nonet SU(3) symmetry, 24:1634
coupling constant ratio rhoγ/ωγ from e⁺e⁻ mass spectrum structure from ω → e⁺ + e⁻ and rho → e⁺ + e⁻ decays, (E), 25:1365(R) (DESY-70/40)
coupling constants for ω—γ, vector meson dominance model for, (E/T), 23:8767 (LAL-1204)
coupling constants for ωN, (T), 22:1456
coupling constants for, from N + N forward dispersion relations, 21:21257
coupling constants for, universality of, 23:49145
coupling of ωN, rigorous inequalities from positivity and duality in zero-width approximation for, (T), 25:50130
coupling of ωrhoπ in current algebra, rho-pole dominance in, 24:1579
coupling of ωrhoπ, chiral SU(2) x SU(2) Lagrangian in O(4) formalism for, 23:46784
coupling of ωrhoπ, SU(3) x SU(3) chiral transformation properties of, 24:40444
coupling of πω channels, inelastic unitary effects on, 21:18981
coupling of rho ω, chiral tensor Lagrangian for, 23:21100
coupling of rhoωπ from spectral-function sum rules, 23:3727
coupling of, Regge residues in universal, 23:15096
coupling ωγ in γ reactions with nuclei at 5.7 GeV, Cherenkov counter study of, (E), 25:1362 (DESY-70/33)
coupling ωπrho in γ + π → γ + π Compton scattering, Veneziano model for, 24:24296
coupling to baryons, asymptotic symmetry for, 22:3485
coupling to photons, form factor for, 22:3316
decay angular distributions from π⁺ + p → N* + ω interactions at 2.34 GeV/c, (E), 25:1409 (JINR-P1-5236)
decay branching ratio ω → neutrals/ω → total from production in π⁻ + p interactions, (E), 22:39297
decay of μ pair production in photon reactions with carbon at 470 to 1070 MeV, (E), 22:34825 (AD-665851)
decay of μ pair production in photon reactions with carbon at 470 to 1070 MeV, (E), 22:34825 (AD-665851)
decay of ω⁰ in deuterium bubble chamber, quantum numbers from, (E), 25:5271
decay of ω⁰ in hydrogen bubble chamber, (E), 24:10674 (COO-1195-177)
decay of ω⁰ in xenon bubble chamber, π⁰ and γ production in, (E), 25:14560 (JINR-E1-5349)
decay of ω⁰ into neutrals in deuterium bubble chamber, (E), 24:3524
decay of ω⁰, angular distributions for, (T), 23:51932 (JINR-P1-4657)
decay of Ω⁰, minimal Hamiltonian in discrete and SU(3) symmetries for sum rules for one-photon, 22:20301
decay of photoproduced, relative phase angles in leptonic, (E/T), 24:33005
decay of photoproduced, yields for μ⁺—μ⁻ pair production in, (E), 25:45672
decay of, angular distributions for, (E), 21:15253 (DESY-66/32)
decay of, branching ratios for lepton-pair, (E), 21:25220
decay of, composite hadron models for leptonic, 22:5532
decay of, current algebra corrections for meson (π) emission in, 21:17109
decay of, SU(2) x SU(2) chiral-invariant Lagrangians with contact interactions for, 24:15562
decay of, sum rules with SU(3) breaking and ω—phi mixing for widths of leptonic, 23:46771 (JINR-P2-4522)
decay of, U(3) current algebra for leptonic, 24:18174
decay of, unified corpuscular field for modes and energies of, (T), 23:36915
decay of, width and coupling constants from lepton pair production in, (T), 24:6690 (LAL-1222)
decay ω → 2π + γ, analysis using current algebra for dynamics of, 23:39708
decay ω → 2π + γ, PCTC hypothesis for electromagnetic current for, 23:46718
decay ω → 2π from rho—ω interference in photon reactions with carbon, spectrometer study of, (E), 25:17360
decay ω → 2π in current algebra, 24:37762
decay ω → 2π relative to ω → 3π, branching ratio for, (T), 25:9718
decay ω → 2π, asymptotic symmetry and ω—rho—phi mixing for, 24:18135
decay ω → 2π, branching ratio and relative phase to rho → π + π decay for, 25:53002
decay ω → 2π, effect of ω - rho mixing in, (E), 25:5324 (DNPL/R-7, pp 95-114)
decay ω → 2π, electromagnetic rho—ω mixing in, (T), 24:3577
decay ω → 2π, gauge-field model calculations for width of, relative to phi → 2π and rho → 2π, (T), 24:10753
decay ω → 2π, interference of rho → π⁺ + π⁻ with, 25:59552
decay ω → 2π, magnetic spectrometer—spark chamber study of, 21:33624
decay ω → 2π, propagator method for mixing of particle states for interference with rho → 2π in e⁺ + e⁻ → π⁺ + π⁻ and π⁺ + rho → π⁺ + π⁻ + Δ⁺⁺ interactions, 24:10744 (COO-264-531)
decay ω → 2π, relativistic quark model for, 22:50373
decay ω → 2π, rho interferences in, (T), 24:40310
decay ω → 2π, spark chamber and scintillation counter study of partial width for, (E), 24:20056 (LAL-1229)
decay ω → 2π⁰ + γ, branching ratio for, (E), 25:27961 (PURC-4159-16)
decay ω → 2π⁰ + γ, spark chamber magnetic spectrometer study of, (E), 25:38634 (PURC-4159-29)
decay ω → 3π from nonlinear Lagrangian model in relativistic SU(6), width of, 23:44696

decay ω → 3π in broken SU(3), sum rules relating phi → 3π and K* → K* + π⁺ + π⁻ decays and, 22: 44416
decay ω → 3π in chiral Lagrangian model, 25:9780
decay ω → 3π in Veneziano model, ωrhoπ coupling constant and ω width from, 23:21097
decay ω → 3π, avoidance of kinematic zeros in current-algebra calculation of, 22:15748
decay ω → 3π, comparison of chiral Lagrangian model and Veneziano model of amplitudes for, 25:43631
decay ω → 3π, contact term in Veneziano model for, 23:49131
decay ω → 3π, corrections to vector-dominance model for, 23:44646
decay ω → 3π, hard-meson current algebra and PCAC model for width of, 25:59443
decay ω → 3π, mass dispersion relations near light cone for vector dominance for, (T), 25:7618
decay ω → 3π, multipole moments for determination of parity and spin from, (T), 25:43581
decay ω → 3π, quark model for, 25:53158
decay ω → 3π, quark model for partial width of, 21: 37797
decay ω → 3π, U(2) x U(2) invariant Lagrangian model for, 24:18247
decay ω → 3π, vector dominance model for, 21:31553 (DESY-67/13)
decay ω → 3π, Veneziano 6-point functions for amplitude and width of, (T), 25:25531
decay ω → 3π, Veneziano model for, 24:13062
decay ω → 3π, Veneziano model for, (T), 25:14695
decay ω → 3π, vertex function from algebra of fields for, 23:3671
decay ω → 3π, width of, (T), 21:957
decay ω → 3π, Yang—Mills coupling of vector meson fields consistency with Veneziano model for, (T), 25: 19985 (DEMO-71/1)
decay ω → e⁺ + e⁻ from production in photon reactions with beryllium at 5.1 GeV, 25:14528
decay ω → e⁺ + e⁻ from π⁻ + p → n + ω interactions at 1.67 GeV/c, width, branching ratio, and ω—phi mixing from, (E), 22:48234
decay ω → e⁺ + e⁻ from π⁻ + p → ω + n interactions at 4.0 GeV/c, cross sections and widths for, (E), 22: 1389
decay ω → e⁺ + e⁻ of photoproduced, vector dominance model for, 22:34912
decay ω → e⁺ + e⁻ relative to rho⁰ → e⁺ + e⁻, effect of finite width of rho on vector-meson-dominance model predictions for, 23:36922
decay ω → e⁺ + e⁻, (E), 23:51831 (NEVIS-173)
decay ω → e⁺ + e⁻, absorption peripheral model for effect on rho⁰ → e⁺ + e⁻ decay from, 22:11686
decay ω → e⁺ + e⁻, chiral U(3) X U(3) Lagrangian with symmetry breaking for rate of, 23:39778
decay ω → e⁺ + e⁻, interference with rho → e⁺ + e⁻ decay, (T), 25:3367
decay ω → e⁺ + e⁻, model of strong interactions for, 22:32114
decay ω → e⁺ + e⁻, quark model for partial width of, 21:37797
decay ω → e⁺ + e⁻, relativistic quark model for, 22: 50373
decay ω → e⁺ + e⁻, rho—ω phase difference in coherent interference with rho → e⁺ + e⁻ decay for, (E), 25: 3288
decay ω → e⁺ + e⁻, spark chamber and Cherenkov gamma spectrometer study of, (E), 22:32049
decay ω → e⁺ + e⁻, spark chamber and Cherenkov gamma spectrometer study of, (E), 22:22280 (JINR-E1-3770)
decay ω → e⁺ + e⁻, sum rule for width of, (T), 25: 20047
decay ω → e⁻ + e⁺, use of gamma spectrometers and spark chambers for measuring rates for, 21:21227
decay ω → e⁺ + e⁻, vector dominance and ω—phi mixing in, 23:15104
decay ω → e⁺ + e⁻, vector meson—photon coupling constant ratio and rho—ω phase difference from, (E), 25:1365(R) (DESY-70/40)
decay ω → e⁺ + e⁻(+γ) radiative corrections for, (T), 25:9766
decay ω → eta + γ from theory of eta—π mixing, 25: 45703
decay ω → eta + γ, modified PCAC in hard-meson analysis of, 23:1611
decay ω → eta + γ, quark model for partial width of, 21:37797
decay ω → eta + γ, upper limit for branching ratio for, (E), 25:27961 (PURC-4159-16)
decay ω → eta + γ, vector dominance Veneziano model and sum rules for broken SU(3) symmetry for, (T), 25: 5402
decay ω → eta + γ/ω → neutrals, branching ratio for, (E), 25:59320
decay ω → eta⁰ + γ, spark chamber magnetic spectrometer study of, 25:38634 (PURC-4159-29)
decay ω → γ + γ + γ in xenon bubble chamber, branching ratio for, (E), 22:5517
decay ω → γ + π⁰ in deuterium bubble chamber, branching ratio for, (E), 25:43562
decay ω → l + anti l, asymptotic SU(3) for branching ratio for, 21:37785
decay ω → l + anti l, test of quark models for, 23: 32649 (UR-875-279)
decay ω → l⁺ + l⁻, model with continuum states for rate of, 22:48289
decay ω → lepton + antilepton, generalization of Weinberg sum rules for, 21:46530 (UR-875-214)
decay ω → μ⁺ + μ⁻ in π⁻ + p → μ⁺ + μ⁻ + n interactions at 11.1 GeV/c, cross sections for, (E), 24: 28489 (NP-18205)
decay ω → μ⁺ + μ⁻, model of strong interactions for, 22:32114
decay ω → μ⁺ + μ⁻(+γ) radiative corrections for, (T), 25:9766
decay ω → π + γ in covariant quark model, transition moments for, 24:3569
decay ω → π + γ relative to ω → 3π, hard-pion calculation of ratio of, 24:15573
decay ω → π + γ relative to π⁰ → 2γ, hard-pion calculation of ratio of, 24:15573
decay ω → π + γ, corrections to vector-dominance model for, 23:44646
decay ω → π + γ, formulation of relativistic quark field theory for partial width of, 22:29743 (DESY-68/11)
decay ω → π + γ, mass dispersion relations near light cone for vector dominance for, (T), 25:7618
decay ω → π + γ, O(4,2) model for rate of, 22:50434
decay ω → π + γ, Sp(6) symmetry for, 22:1470
decay ω → π + γ, sum rule in vector-meson-dominance hypothesis for width of, 21:37772
decay ω → π + γ, superconvergence sum rules for, 22: 11632
decay ω → π + γ, use of boson—fermion commutation relations for πωγ coupling in, 21:18948
decay ω → π + γ, vertex function from algebra of fields for, 23:3671
decay ω → π + π + γ, effect of π + π interaction on, 25:33609
decay ω → π + π + γ, finite dispersion relation for, (T), 24:40379
decay ω → π + π + γ, use of PCTC hypothesis for, 22:29692
decay ω → π + π + π in hard-pion current algebra, off-mass-shell effects in, 25:22800
decay ω → π + π + π, pole dominance methods for, 23:5614
decay ω → π⁰ + e + e⁺, internal-conversion rates in magnetic-dipole, 25:40987
decay ω → π⁰ + γ from meson (π⁻) reactions with xenon at 9 GeV/c, 21:3976 (JINR-P1-2948)
decay ω → π⁰ + γ in broken SU(3), 22:15773
decay ω → π⁰ + γ in current algebra, 24:37762
decay ω → π⁰ + γ, branching ratio for, (E), 25:27961 (PURC-4159-16)
decay ω → π⁰ + γ, branching ratio for, (E), 25:59320
decay ω → π⁰ + γ, counter study of branching ratio relative to charged modes, (E), 21:37707
decay ω → π⁰ + γ, current algebra and PCAC calculation of, 22:34940
decay ω → π⁰ + γ, current algebra and Regge pole theory for partial width for, 21:29521
decay ω → π⁰ + γ, current algebra for, 21:37745
decay ω → π⁰ + γ, current algebra for rate of, (T), 21: 44355
decay ω → π⁰ + γ, current algebra with momentum-dependence of vertex function for πrhoω for ratio of width of π⁰ → 2γ decay to width of, (T), 25:36495
decay ω → π⁰ + γ, field-algebra model for, 23:23464
decay ω → π⁰ + γ, γ—γ coincidence method for detecting, 23:23335
decay ω → π⁰ + γ, limitation on use of current algebra for, 21:40214
decay ω → π⁰ + γ, modified PCAC in hard-meson analysis of, 23:1611
decay ω → π⁰ + γ, quark loop model for coupling constant ratios and branching ratios for, (T), 25:14686
decay ω → π⁰ + γ, quark model for, 25:53158
decay ω → π⁰ + γ, relativistic quark model for, 22: 50373
decay ω → π⁰ + γ, spark chamber spectrometer study of, (E), 25:38634 (PURC-4159-29)
decay ω → π⁰ + γ, SU(2) x SU(2) chiral-invariant Lagrangians with contact interactions for total width and branching ratio for, 24:15562
decay ω → π⁰ + γ, U(2) x U(2) invariant Lagrangian model for, 24:18247
decay ω → π⁰ + γ, width from π + rho → e + e⁺ + π⁰ amplitudes, 21:35280
decay ω → π⁰ + μ⁺ + μ⁻, upper limit for, (E), 22: 22322
decay ω → π⁰ + π⁰ + γ/ω → neutrals, branching ratio for, (E), 25:59320
decay ω → π⁺ + π⁻ + γ, current algebra for, 21:9776
decay ω → π⁺ + π⁻ + π⁰ from π⁺ + p → π⁺ + p + ω interactions at 3.7 GeV/c, charge asymmetry on Dalitz plot of, (E), 25:59308
decay ω → π⁺ + π⁻ + π⁰ in deuterium bubble chamber angular distributions for, (E), 23:51860 (UCRL-19275)
decay ω → π⁺ + π⁻ + π⁰ in hydrogen bubble chamber, 21:18927
decay ω → π⁺ + π⁻ + π⁰ in π⁻ + p → π⁺ + π⁻ + π⁰ + n interactions at 1.245 GeV/c, branching ratio and Dalitz plot asymmetry for, (E), 24:40265 (NEVIS-182)
decay ω → π⁺ + π⁻ + π⁰, charge asymmetry in Dalitz plot of, 25:59468
decay ω → π⁺ + π⁻ + π⁰, limitation on use of current algebra for, 21:40214
decay ω → π⁺ + π⁻ + π⁰, search for C violation from rho⁰ interference in, 25:59552
decay ω → π⁺ + π⁻ + π⁰, use of anomalous Ward identities and hard-pion current algebra for width and branching ratio of, 25:22799
decay ω → π⁺ + π⁻ from production in K⁻ + p interactions at 1.2 to 2.7 GeV/c, 24:24239
decay ω → π⁺ + π⁻ from rho—ω interference in e⁺ + e⁻ annihilation, 22:48271
decay ω → π⁺ + π⁻ in bubble chamber, 21:42267
decay ω → π⁺ + π⁻ in deuterium bubble chamber, upper limit for rate of, (E), 25:3269
decay ω → π⁺ + π⁻ in hydrogen bubble chamber, constructive interference with rho⁰ → π⁺ + π⁻ decay for, (E), 24:51952 (NYO-2171-319)
decay ω → π⁺ + π⁻ in π⁻ + p → π⁺ + π⁻ + n interactions at 1.245 GeV/c, branching ratio for, (E), 24:40265 (NEVIS-182)
decay ω → π⁺ + π⁻ relative to ω → π⁺ + π⁻ + π⁰, branching ratio for, 24:51980
decay ω → π⁺ + π⁻ relative to ω → π⁺ + π⁻ + π⁰, branching ratio for, (E), 24:5257
decay ω → π⁺ + π⁻, absorptive effects in rho-dominant model for, 25:1521
decay ω → π⁺ + π⁻, amplitude of, (E), 25:40861
decay ω → rho + π in quark model, coupling constants and widths for, 21:21219
decay ω → rho + π, Bjorken limit and pole dominance for, 24:8636
decay ω → rho + π, field-algebra model for, 23:23464
decay ω⁰ → 2π(3π) in bubble chamber, branching ratio as measure of ω⁰rho⁰ interference in π⁺ + p interactions at 3.7 to 4.0 GeV/c in bubble chamber, (E), 23:42559 (UCRL-18894)
decay ω⁰ → 2π⁰ + γ in xenon—propane bubble chamber, upper limits for branching ratio for, (E), 25: 38673
decay ω⁰ → e⁺ + e⁻, (E), 21:15267 (JINR-E1-3148)
decay ω⁰ → e⁺ + e⁻, partial width of, (E), 23:14948
decay ω⁰ → e⁻ + e⁺, partial width of, (E), 21:33806 (RHEL/R-129, pp 11-44)
decay ω⁰ → e⁺ + e⁻, partial width of, (E/T), 23:7075 (LAL-1202)
decay ω⁰ → eta + γ, branching ratio for, (E), 23:42563
decay ω⁰ → eta⁰ + γ in xenon—propane bubble chamber, upper limits for branching ratio for, (E), 25: 38673
decay ω⁰ → eta⁰ + γ, spectrometer, spark chamber, and scintillation counter study of branching ratio for, (E), 24:3649
decay ω⁰ → l⁺ + l⁻, radiative corrections for, (T), 22: 32070
decay ω⁰ → neutrals, spectrometer, spark chamber, and scintillation counter study of branching ratio for, (E), 24:3649
decay ω⁰ → π⁰ + γ from π⁺ + p → π⁺ + p + ω⁰ interactions at 2.05 GeV/c in hydrogen bubble chamber, branching ratio for, (E), 23:49060
decay ω⁰ → π⁰ + γ in xenon bubble chamber, branching ratio for, (E), 22:5517
decay ω⁰ → π⁰ + γ in xenon—propane bubble chamber, branching ratio for, (E), 25:38673
decay ω⁰ → π⁰ + γ, spectrometer, spark chamber, and scintillation counter study of branching ratio for, (E), 24:3649
decay ω⁰ → π⁰ + π⁰ + γ, branching ratio for, (E), 23: 42563
decay ω⁰ → π⁰ + π⁰ + γ, spectrometer, spark chamber, and scintillation counter study of branching ratio for, (E), 24:3649
decay ω⁰ → π⁺ + π⁻ + π⁰, angular distributions in, (E) , 21:25221
decay ω⁰ → rho⁰ + γ, structure of C-violating, 21: 21273
decay rates of, spectral-function sum rule and ω—phi mixing for relations between leptonic, 22:5569
decay widths of A_1 → π + γ, A_1/sub L/ → π + γ, and ω → π + γ from Veneziano model for Compton γ + π interactions, 24:24273
decay, (E), 21:23314 (BNL-994, pp 70-102)
decays of ω⁰, N—anti N composite model for width of leptonic, 22:41793
decays of, branching ratios for leptonic, 23:10740
decays of, octet-broken U(3) symmetry model for, 23: 21140
decays of, relativistic invariance for, 22:50367
decays ω → π⁰ + γ and ω → 3π, current-density—current-density commutators for, 22:37137
effect of rho—ω interference on leptonic decay of photoproduced vector mesons, (T), 22:32093
effects on e⁺ + e⁻ → eta + γ interactions, (T), 21: 11752
effects on electromagnetic interactions of hadrons, 21: 13683 (NYO-1932-116)
electromagnetic transition rho → ω, spectral-function sum rules for, 25:9718
electroproduction of, test of mass dependence of rhoωπ coupling constant from, 25:27981 (DESY-71/11)
exchange contribution to π + N → rho + N interactions at high energies, model independent analysis for, (T), 25:53184
exchange contributions to γ + d → eta + d interactions, amplitudes with anomalous thresholds for, (t), 25:59514
exchange in duality for complex conjugate pair of Regge poles in proton interactions with hadrons, (T), 24: 42940
exchange in e⁻ + p → e⁻ + n + π⁺ and e⁻ + p → e⁻ + p + π⁰ interactions, (T), 21:35285
exchange in e⁻ + p → e⁻ + p + π⁰ and e⁻ + p → e⁻ + p + π⁺ interactions, (T), 22:3313
exchange in elastic N + N interactions at 25 to 330 MeV, coupling constant and mass for, 21:35315 (JINR-E1-3420)
exchange in γ + p → p + π⁰ interactions at 4.0 to 5.8 GeV at small angles, Cherenkov counter study of, (E), 22:17847
exchange in K + N interactions at low energies, model for, 22:13769
exchange in K*⁺(890) production in K⁻ + d → anti K⁰ + π⁻ + d interactions at 4.5 GeV/c in deuterium bubble chamber, (E), 22:41737 (COO-1428-82)
exchange in K⁻ + p → anti K + N + π interactions at 1.33 GeV/c in hydrogen bubble chamber, 21:33623
exchange in low-energy π⁰ photoproduction, 22:24602
exchange in n + d → ³He + γ and n + p → d + γ interactions, field—current identity for parity-violating internucleon potential for, (T), 23:30770
exchange in N + N → N + N interactions, relativistic one-boson-exchange model for, (T), 25:53224 (DESY-71/34)
exchange in N + N → N + N interactions, velocity-dependent exchange potentials in Born approximation for, 22:3467
exchange in N + N interactions below 350 MeV, boundary condition model for, 21:37853
exchange in N + N interactions in nuclei, contribution to nuclear forces in, (T), 22:39431

exchange in N + N interactions, (T), 21:21250 (UCSD-10-P-10-21)
exchange in N + N interactions, (T), 21:37854
exchange in N + N interactions, one-boson-exchange approximation for, (T), 25:20024
exchange in N + N interactions, relation of duality to s helicity structure at vertex of, (T), 24:42986
exchange in nuclei, momentum space calculations for repulsive-core forces from, 22:17960
exchange in p + p interactions at 970 MeV, model for, 21:25319
exchange in p + p interactions below 300 MeV, meson—nucleon coupling constants from, 21:37857
exchange in π^0 photoproduction on nuclei, (T), 23:39651
exchange in Ξ + K → Ω^- (1674) interactions, 22:7521
exchange of ω^0 in γ + p → p + l^+ + l^- C-noninvariant interactions, (T), 22:17901
exchange of ω-like Regge poles in K + N interactions, (T), 24:52086 (AD-705553)
exchange-current effects on nuclear electromagnetic properties, two-body, (T), 24:30867 (CEA-R-3960)
field operators for ω^0, identification with hadronic electromagnetic current operator, 21:33660
form factor from Chou—Yang model for γ + p → ω + p interactions, 23:23413
interaction vertex ωrhoπ in chiral SU(3) x SU(3) symmetry, 24:37772
interactions of ω^0, C and T noninvariance for minimal electromagnetic, 22:13814
interactions of, relation of Regge residues to universal coupling in, 22:5563 (TID-24135)
interactions of, relations between constants for, 21:23333
interactions ω + A_1 → ω + A_1, dynamical relations between masses and coupling constants from superconvergence sum rules for, 23:39715
interactions ω + B → ω + B, dynamical relations between masses and coupling constants from superconvergence sum rules for, 23:39715
interactions ω + N in γ reactions with nuclei at 5.7 GeV, Cherenkov counter study of total cross sections for, (E), 25:1362 (DESY-70/33)
interactions ω + N, amplitude for forward, (E/T), 25:40860
interactions ω + N, coupling constants and physical operators for, 21:21249
interactions ω + N, cross sections from ω photoproduction on nuclei at 5.7 GeV, (E), 25:3247
interactions ω + N, use of helicity amplitudes in superconvergent sum rules for, 22:3423
interactions ω + p from γ + p interactions, cross sections for elastic, (T), 22:46448
interactions ω + π → ω + π in Veneziano model, amplitudes for, 24:30516
interactions ω + π → ω(π) + π, Veneziano model for amplitudes of, (T), 25:14695
interactions ω + π → π + π, bootstrap of rho trajectory for, 24:40372
interactions ω + π → π + π, bootstrap of the rho Regge trajectory in, 22:3381
interactions ω + π → π + π, third double-spectral function effects in poles in amplitudes for, 22:24644
interactions ω + π, superconvergent sum rules for amplitudes of, (T), 22:50370
interactions ω + rho → ω + rho, dynamical relations between masses and coupling constants from superconvergence sum rules for, 23:39715
interactions π + ω → B, reciprocal bootstrap calculation for p-wave resonances for, 22:3401
interactions π + ω → N + anti N, projections on exchanged systems with well-defined quantum numbers for, 22:13758
interactions π + ω → π + A_1, Veneziano formulae for, 25:7640
interactions π + ω → π + A_2, superconvergence relations for, 23:1636
interactions π + ω → π + ω, I = 0 sum rules for, 22:32140
interactions π + ω → π + ω, reciprocal bootstrap calculation of rho and B in, (T), 25:33691 (NYO-2262-TA-238)
interactions π + ω → π + ω, Veneziano model with natural and unnatural parity dominance of Regge trajectories for, 24:3668
interactions π + ω → π + π, pole dominance method for, 23:5614
interactions π + ω → rho, reciprocal bootstrap calculation for p-wave resonances for, 22:3401
interactions π + ω, inelastic unitarity and j-plane singularities in amplitudes for, 23:3853
interactions with hadrons, universality and degeneracy of Regge poles in, 22:24624
interference and phase in electron pair production in photon reactions with carbon at 1.802 GeV/c, spectrometer study of rho—ω, (E), 24:28469
interference effect of rho—ω in anti p + p → π^+ + π^+ + π^- + π^- interactions at 1.63 to 2.20 GeV/c, (E), 25:9647
interference effect of rho—ω in π^- + p → π^- + p + π^+ + π^- + (π^0) interactions at 3.9 GeV/c, evidence for constructive, 24:51980
interference in π^+ and π^- production in photon reactions with carbon at 4.2 GeV, spectrometer study of magnitude and phase of rho—ω, (E), 24:28471
interference of ω - rho in electromagnetic and strong interactions, 25:5322 (DNPL/R-7)
interference of ω - rho in electromagnetic interactions, (T), 25:5324 (DNPL/R-7, pp 95-114)
interference of ω - rho in strong interactions, 25:5373 (DNPL/R-7, pp 173-205)
interference of ω - rho in vector-meson photoproduction at high energies, 25:5325 (DNPL/R-7, pp 115-38)
interference of rho^0—ω^0, structure of, 24:32990
interference of rho—ω in anti p + p → $2\pi^+$ + $2\pi^-$ interactions at 1.26 to 1.65 GeV/c, (E), 24:20072
interference of rho—ω in di-pion production in γ + p interactions and γ reactions with carbon and lead at 7.4 GeV, parameters for, (E), 25:53002
interference of rho—ω in dipion production in γ + p interactions and γ reactions with carbon and lead at 5 to 7 GeV, parameters for, (E), 25:52991 (DESY-71/37)
interference ω—rho in hadron—hadron and photon—hadron interactions, review of, (E), 25:17383
interference rho^0 - ω in γ + p → π^+ + π^- + p interactions at 2.8 and 4.7 GeV in bubble chamber, (E), 25:25282 (UCRL-19890)
interference rho^0—ω in e^+ + e^- → π^+ + π^- interactions in colliding beams, spark chamber and scintillation counter study of, (E), 24:20056 (LAL-1229)
interference rho—ω effects on cross sections for π + p → n + e^+ + e^- interactions, (T), 25:3367
interference rho—ω in e^+ + e^- → π^+ + π^- interactions in colliding beams, 24:18136
interference rho—ω in photon reactions with carbon, spectrometer study of ω → 2π decay from, (E), 25:17360
interference rho—ω in π^- + p → π^+ + π^- + n interactions at 2.3 GeV/c in bubble chamber, (E), 25:17384
interference with rho in photoproduction processes, phase of rho propagator in, 25:59348
mass and width from π^+ + p → π^+ + p + ω^0 interactions at 3.7 GeV/c, (E), 25:56430
mass and width in five- and six-charged-particle final states in π^+ + d interactions at 2.7 and 3.1 GeV/c in bubble chamber, (E), 25:59282
mass difference (ω - phi), multipoles and resonance splitting for, 22:3384
mass difference (ω - rho), Dashen—Frautschi method for numerical estimate of, 24:24386
mass formulas for, ω—phi mixing for, (T), 24:52079
mass mixing (rho—ω) model for analysis of $\pi^+\pi^-$ production, 24:1552
mass of, constructive force of composite system for, 21:40210
mass of, unified corpuscular field for, (T), 23:36915
mass-mixing model of ω—phi, consistency with commutation relations of Sugawara theory and symmetry-breaking field algebra, 24:15639
mixing (ω - phi), current algebra parameters for, 21:5387
mixing (ω—phi) for asymptotic validity of SU(3) symmetry, sum rule from, 22:3472
mixing (phi—ω), symmetry breaking and bootstrap model for, 24:6712
mixing angle (ω—phi) from equal-time current commutation relations, 21:27362
mixing angle (phi—ω) from equality of Schwinger terms, 22:9585
mixing angle of ω—phi in SU(3), 24:18136
mixing in N + N interactions, charge—asymmetry effects from, 21:37865
mixing models for ω—phi, 24:15519
mixing of ω, rho^0, and phi from asymptotic symmetry, electromagnetic, 24:18135
mixing of ω—phi from spontaneous symmetry breaking, 24:13137
mixing of ω—phi, current algebra predictions for, 24:37765
mixing of ω—rho in broken SU(3) Lagrangian theory, local gauge invariant formulation of electromagnetic, 25:14628
mixing of ω—rho^0, second-order electromagnetic transition for electromagnetic mass differences in, (T), 25:22793
mixing of phi—ω in vector nonet model, 24:37769
mixing of rho—ω from broken SU(3) symmetry sum rules, 24:12981
mixing of rho—ω in photon reactions (γ,e^+e^-) with nuclei, vector dominance model for, 25:59364
mixing of rho—ω, effect in e^+—e^- photoproduction on nuclei, 24:26394 (DESY-70/13)
mixing of, meson mass formulas and decays with ω—phi, (T), 24:52079
mixing ω—phi, current-mixing model for, 24:13138
mixing ω—phi, review of SU(3), (E/T), 25:38770
mixing rho^0—ω effects on spin density matrix of ω in π + N → ω + N(Δ) interactions, (T), 25:12208
mixing rho—ω in multichannel elastic interactions near rho mass, (T), 25:17484
mixing rho—ω in ω → 2π decay, 24:3577
mixing rho—ω, formalism and phenomenological theories for electromagnetic, 24:21948 (COO-264-538)
model for, line width in N—anti N composite, 21:23331
parity and spin from ω production and decay in anti p + n → $2\pi^+$ + π^- + π interactions at rest in deuterium bubble chamber, (E), 25:5271
parity and spin from π^+ + n → ω + p interactions at 2.7 GeV/c in bubble chamber, (E), 24:12951
parity and spin of, multipole moments for ω → 3π decay for determination of, (T), 25:43581
photoproduction and radiative capture in nuclei in eikonal approximation, 23:27784
photoproduction on carbon-12 at 4 GeV, relative rho—ω phase in, (E), 25:59252
photoproduction on complex nuclei at 6.8 GeV, coherent and incoherent mechanisms for, (E), 24:30429
photoproduction on nuclei, vector dominance model for relative phase of rho and, (T), 25:5327
photoproduction on protons and complex nuclei, review on, 25:5301 (DNPL/R-7, pp 29-70)
production and decay from e^+ + e^- interactions, 23:13055
production and decay from π + N, K + N, and N + N interactions at high energies, quark model for test of additivity from, 22:13735
production and decay in e^+ + e^- colliding—beam interactions, 24:30427 (CONF-690521-, pp 373-412)
production and decay in e^+ + e^- interactions, (E), 23:32600 (LNF-69/6)
production and decay in e^+ + e^- interactions, vector meson dominance predictions for, (E/T), 23:14946
production and decay in photon reactions with complex nuclei, ω—γ coupling constant and ω—N scattering amplitude from, (E/T), 25:40860
production and decay in π + N → ω + N interactions, method for deriving angular correlations for, 22:41774 (NP-17531)
production and decay in π + N → ω + N peripheral interactions at high energies, (T), 23:34573 (COO-1051-32)
production and decay in π^+ + d → p + p + π^+ + π^- + π^0 interactions at 1.1 to 2.4 GeV/c, (E), 25:9675
production and decay in π^- + n → ω + p interactions above 3 GeV/c, (T), 21:4052
production and decay in π^+ + N → π + π + N interactions, (T), 22:17971
production and decay in π^+ + p → e^- + e^+ + n interactions, ω—rho interference in absorptive peripheral model for, (T), 23:23482
production and decay in π^- + p → π^+ + π^- + n interactions at 2.10 GeV/c in bubble chamber, cross section for, (E), 22:24566
production and decay of ω^0 in K^- + p and π^- + p interactions, radiative corrections for, (T), 22:32070
production and decay of, angular correlations for, (T), 22:24579
production and decay width from anti p + p → K^+ + K^- + ω^0 interactions at rest in hydrogen bubble chamber, (E), 21:29447
production and decays of ω(783) in K^+ + p → K^0 + p + π^+ + π^+ + π^- + π^0 interactions at 3.5 GeV/c, (E), 23:23366
production from anti p + p → anti K + K + nπ interactions at 3 to 4 GeV/c in hydrogen bubble chamber, (E), 22:3271
production from anti p + p interactions at 2.7 GeV/c in hydrogen bubble chamber, (E), 21:42262
production from anti p + p interactions at 2.7 GeV/c, (E), 21:9698 (IS-T-115)
production from electron and meson (μ) reactions with high-Z nuclear Coulomb fields, (T), 21:2409
production from γ + N interactions at high energies, quark model for, 21:21175
production from γ + p → ω + p interactions at high energies, composite hadron models for, 22:5532
production from γ + p → ω + p interactions, vector dominance model for, 21:31553 (DESY-67/13)
production from γ + p interactions at 0.3 to 5.8 GeV, cross section for, (E), 21:15253 (DESY-66/32)
production from γ + p interactions at high energies, Regge pole analysis for, 21:9737
production from γ reactions with nuclei at 5.7 GeV, ω—γ coupling and ω—N total cross sections from Cherenkov counter study of, (E), 25:1362 (DESY-70/33)
production from K^+ + p → K^0 + p + π^+ and K^+ + p → K^+ + p + π^+ + π^- interactions at 2.65 GeV/c in hydrogen bubble chamber, (E), 21:42271
production from K^- + p interactions at 4.25 GeV/c in hydrogen bubble chamber, (E), 21:44276 (ORO-2504-108)
production from p + p → 2p + $2\pi^+$ + $2\pi^-$ + π^0 interactions at 28.6 GeV/c in hydrogen bubble chamber, (E), 22:15670 (BNL-11993)
production from p + p → p + p + π^+ + π^- + π^0 interactions at 5 GeV/c in hydrogen bubble chamber, (E), 22:11587
production from photon reactions with zinc at 4.5 and 5.5 GeV, γ—γ coincidence method for measuring, 23:23335
production from π + N → ω + N(N*) interactions, projections on exchanged systems with well-defined quantum numbers for, 22:13758
production from π + p and π + d interactions in bubble chamber, 21:42267
production from π + p interactions at high energies, quark model for decay distribution correlations for, 21:21234
production from π + rho interactions, saturation of superconvergence relations and current algebra sum rules for, 21:31588
production from π^- + p → n + π^0 + γ interactions at 2.8 GeV/c, (E), 21:44279
production from π^- + p and π^+ + n interactions at low energies, (E), 21:23314 (BNL-994, pp 70-102)
production from π^+ + p interactions at 1.95 GeV/c in hydrogen bubble chamber, 21:18927
production from π^- + p interactions at 3.7 GeV/c, (E), 21:18925
production from π^- + p interactions at 4.0 GeV/c, (E), 21:15267 (JINR-E1-3148)
production from π^- + p interactions at 6 GeV/c, 23:1605
production from π^+ + p interactions at 7 GeV/c in hydrogen bubble chamber, 21:23310 (UR-875-153)
production from π^+ + p six-prong interactions at 8 GeV/c in hydrogen bubble chamber, 21:21139 (INR-761/VI/PH)
production from π^- reactions with xenon in xenon bubble chamber, lower limit for cross section for, (E), 22:5517
production in anti N + N → π + ω interactions, coupling constant relations from superconvergence relations for, 22:34972
production in anti p + n annihilations at rest in deuterium, (E), 21:15263
production in anti p + n interactions at rest in deuterium bubble chamber, upper limit on ω → π^+ + π^- decay rate from, (E), 25:3269
production in anti p + p → 2π + 2γ interactions, box diagram effects for, (T), 25:22807
production in anti p + p → $2\pi^+$ + $2\pi^-$ + π^0 interactions at 2.5 GeV/c, associated, (E), 25:45660

production in anti p + p → $2\pi^- + 2\pi^+$ and anti p + p → $2\pi^- + 2\pi^+ + \pi^0$ interactions at 675 and 1100 MeV/c in hydrogen bubble chamber, rho—ω interference in, (E), 25:1394 (CONF-700806-49)
production in anti p + p → $3\pi^+ + 3\pi^- + (\pi^0)$ interactions at 3.6 GeV/c, (E), 24:49318
production in anti p + p → $3\pi^+ + 3\pi^- + \pi^0$ interactions at 5.7 GeV/c in bubble chamber, cross sections for, (E), 22:22305
production in anti p + p → anti p + p + ω^0 interactions at 5.7 GeV/c, spin alignment of, (E), 21:7457
production in anti p + p → K + anti K + $m\pi$ interactions at 2.7 GeV/c, (E), 24:18076
production in anti p + p → K + anti K + $n\pi$ interactions at 3.66 and 6.935 GeV/c, 21:35306
production in anti p + p → $n\pi^+ + n\pi^- + m\pi^0$ interactions (n = 3, 4, 5, m > 0) at 3.0 and 3.6 GeV/c, 21:46478
production in anti p + p interactions at 1.2 GeV/c in bubble chamber, (E), 23:36830
production in anti p + p interactions at 1.6 to 2.2 GeV/c in hydrogen bubble chamber, (E), 25:12097
production in anti p + p interactions at 2.7 GeV/c, 21:9705
production in anti p + p interactions at 800 MeV/c, (E), 21:17034 (NEVIS-157)
production in e + N interactions at high energies, vector meson dominance model for cross sections and vector meson spin density matrix elements for, 23:36867 (DESY-69/18)
production in e + p → e + p + rho^0 (phi,ω) interactions at high energies, angular distributions of, (T), 23:46649
production in e + p and π + p interactions, Pomeranchuk dominance in, (T), 24:32994
production in $e^+ + e^-$ → $4\pi(5\pi)$ interactions below 2 GeV, quasi-two-body enhancement of tails of, (T), 25:25366
production in $e^+ + e^-$ → ω^0 → $\pi^+ + \pi^- + \pi^0$ interactions, partial width of ω^0 → $e^+ + e^-$ decay from, (E), 23:14948
production in $e^+ + e^-$ → ω^0 annihilation, (E), 23:7075 (LAL-1202)
production in $e^+ + e^-$ → π^0(eta) + γ interactions at 2 x 350 to 2 x 400 MeV, quark model for interference with rho^0 in, 22:34897 (NP-17476)
production in $e^+ + e^-$ → $\pi^+ + \pi^- + \pi^0$ interactions in colliding beams, spark chamber and scintillation counter study of, (E), 24:20056 (LAL-1229)
production in $e^+ + e^-$ → $\pi^+ + \pi^-$ interactions, infrared radiative corrections for, 23:21074
production in $e^+ + e^-$ interactions above 1 GeV, test of vector-dominance hypothesis from, 24:12983
production in $e^+ + e^-$ interactions at 2 x 290 to 2 x 470 MeV, ω—rho interference in, (E), 23:44582
production in $e^+ + e^-$ interactions in colliding beams, (E), 24:18061 (CONF-690330-, pp 2-14)
production in $e^+ + e^-$ interactions in colliding beams, spark chamber and scintillation counter study of partial width for, (E), 24:20056 (LAL-1229)
production in $e^+ + e^-$ interactions in storage rings, review of, (E), 24:37601 (LAL-1234)
production in $e^+ + e^-$ interactions, Orsay and Novosibirsk experiments on, 25:5250 (DNPL/R-7, pp 139-72)
production in five- and six-charged-particle final states in π^+ + d interactions at 2.7 and 3.1 GeV/c in bubble chamber, (E), 25:59282
production in four-prong p + p interactions at 19 GeV/c in hydrogen bubble chamber, (E), 25:19901 (USIP-70-7)
production in γ + N → N + ω^0 interactions, quark model with electromagnetic current with SU(3) singlet and octet components for differential cross section relations for, (T), 25:22866
production in γ + N → N + ω^0 interactions, use of linearly polarized photons as parity filter in, 22:37106
production in γ + N → ω + N interactions at high energies, peripheral model and photon dissociation for, (T), 24:52015
production in γ + N → ω + N(N*) interactions at 9.1 GeV in deuterium and hydrogen targets, counter study of cross sections for, (E), 25:14512
production in γ + N interactions, 24:24279
production in γ + N interactions at high energies, SU(3) quark model for, (T), 25:9713
production in γ + N interactions, anomalous real parts of amplitude for, 25:45704
production in γ + N interactions, invariant amplitudes for, 21:17078
production in γ + N interactions, phases and forward cross sections for, (T), 25:3319
production in γ + N interactions, polarization effects in, 22:15726
production in γ + N interactions, status and perspectives of experiments on, 23:10777 (CALT-68-171)
production in γ + p → $K^+ + K^-$ + p at 5 to 16 GeV, cross sections for, (E), 23:21038
production in γ + p → ω + p interactions below 6 GeV, models for, 22:22345 (CONF-670923-, pp 337-75)
production in γ + p → ω + p interactions near threshold, spark chamber and scintillation counter study of differential cross sections for, (E), 25:17355
production in γ + p → ω + p interactions, cross sections for, 22:9554
production in γ + p → ω + p interactions, DWBA and diffraction model for, 22:41767 (DESY-68/23)
production in γ + p → ω + p interactions, optical theorem for, 22:41768 (DESY-68/28)
production in γ + p → ω + p interactions, π conspiracy and factorization in, 24:49393
production in γ + p → ω + p interactions, π-conspiracy and factorization in, 24:15524
production in γ + p → ω + p interactions, Regge pole model for, 22:37109
production in γ + p → p + ω + $\pi^+ + \pi^-$ interactions at 2.5 to 5.8 GeV, cross sections for, (E), 22:32044
production in γ + p → p + ω interactions at 0.3 to 5.8 GeV, (E), 21:3970(R) (NP-16354)
production in γ + p → p + ω interactions at 2.1 to 5.8 GeV, cross sections for, (E), 22:32044
production in γ + p → p + ω interactions at 2.8 and 4.7 GeV in hydrogen bubble chamber, cross sections for, (E), 24:32956
production in γ + p → p + ω interactions up to 5.8 GeV, cross sections for, (E), 21:9690
production in γ + p → p + ω interactions, cross sections for, (E), 23:10740
production in γ + p → p + ω interactions, review of, (E), 25:25280 (DESY-70/64)
production in γ + p → p + ω, model for, (E/T), 23:5560
production in γ + p → p + ω^0 interactions at 6 GeV in hydrogen bubble chamber, cross sections for, (E), 21:25221
production in γ + p → p + ω^0 interactions at 6.5 to 17.8 GeV, differential cross sections for, (E), 22:44307
production in γ + p → p + $\pi^+ + \pi^- + \pi^0$ interactions at 5.25 GeV in hydrogen bubble chamber, rho^0/ω forward cross section ratio and width for, (E), 24:3502
production in γ + p → p + V (V = rho^0, ω, and phi) interactions, Regge pole description of, 23:5562
production in γ + p → π^- + Δ^{++} interactions, vector dominance model for rho—ω interference in, 23:51899
production in γ + p → $\pi^+ + \pi^-$ + p interactions at 2.8 and 4.7 GeV in hydrogen bubble chamber, rho^0—ω interference parameters in diffractive, (E), 25:1368 (UCRL-19753)
production in γ + p → $\pi^+ + \pi^-$ + p interactions at 2.8 and 4.7 GeV, interference of rho and, 25:40862
production in γ + p interactions and γ reactions with complex nuclei at high energies, review of, (E), 25:52997
production in γ + p interactions at 0.3 to 5.8 GeV in bubble chamber, cross sections for, (E), 24:18068
production in γ + p interactions at 2 to 16 GeV, (E), 24:28473
production in γ + p interactions at 4.8 to 6.0 GeV in hydrogen bubble chamber, (E), 22:34908
production in γ + p interactions at high energies, model for, 25:38701
production in γ + p interactions, (E/T), 22:17897
production in γ + p interactions, cross sections for, 21:9803
production in γ + p interactions, models for, 22:46375
production in γ + p interactions, photo-dissociation and quark models for, 21:11750
production in γ + p interactions, test of Harari conjectures from cross sections for, (T), 24:42908
production in γ reactions with beryllium at 5.1 GeV, structure of e^+e^- mass spectrum for coherent interference between rho and ω decays for, (E), 25:3288
production in γ reactions with beryllium at 5.1 GeV, vector meson—photon coupling constant ratio and rho—ω phase difference from structure of $e^+ + e^-$ mass spectrum from, (E), 25:1365(R) (DESY-70/40)
production in γ reactions with carbon-12 and oxygen-16, isolation of Regge trajectories in, (T), 25:36453
production in K^- + n interactions at 3 GeV/c with Σ(1385) production, cross sections and decay angular distributions for, (E/T), 25:40893
production in K^+ + p → K^+ + ω + p interactions at 4.6 and 9.0 GeV/c, double Regge model for, (E/T), 23:18819
production in K^+ + p → K^+ + ω + p interactions at 4.9 and 9 GeV/c in bubble chamber, multi-Regge model for, (E/T), 22:50295 (UCRL-18321)
production in K^- + p → K^- + p + $\pi^+ + \pi^- + \pi^0$ interactions at 4.6 and 5.0 GeV/c, (E), 22:29627 (IS-T-225)
production in K^- + p hypercharge-exchange interactions at 4.1 and 5.5 GeV/c, (E), 21:17054
production in K^- + p interactions at 6 GeV/c, cross sections for, (E), 25:40892
production in p + d → ^{3}He + MM interactions at 3 GeV, spectrometer study of cross sections for, (E), 25:36398
production in p + d → ^{3}He + ω^0 interactions at 3.5 to 3.8 GeV/c, missing-mass spectrometer study of differential cross sections for, (E), 24:26370
production in p + d → ^{3}He + x^0 interactions at 3 GeV, missing-mass spectrometer study of, (E), 23:34527 (NYO-2171-275)
production in p + p → 2p + $\pi^+ + \pi^- + \pi^0$ interactions at 19 GeV/c in hydrogen bubble chamber, (E), 25:19900 (USIP-70-4)
production in p + p → p + n(p) + $\pi^+ + \pi^+(\pi^-)$ + $\pi^-(\pi^0)$ interactions at 6 GeV in hydrogen bubble chamber, (E), 23:44596
production in p + p → p + p + ω interactions at 10 GeV/c in hydrogen bubble chamber, cross section for, (E), 22:37074 (DESY-68/17)
production in p + p → p + p + ω^0 interactions, double Regge-pole model for, 22:15814
production in p + p → p + p + $\pi^+ + \pi^- + \pi^0$ at 5 GeV/c, mechanisms for, (E), 21:2365 (PPAD-600-F)
production in p + p → p + p + $\pi^+ + \pi^- + \pi^0$ at 6.6 GeV/c, (E), 24:37627
production in p + p → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 5 GeV/c in hydrogen bubble chamber, cross section for, (E), 21:44270
production in p + p → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 6 GeV/c in hydrogen bubble chamber, (E), 22:32058
production in p + p interactions at 12.3 GeV/c, (E), 21:9703
production in p + p interactions at 6 GeV/c in hydrogen bubble chamber, (E), 22:46324 (UCRL-17707)
production in p + p interactions at 6.92 GeV/c, cross sections for, (E), 25:22673
production in photon reactions (γ,e^+e^-) with beryllium, coherent interference between rho and, (E), 25:47718
production in photon reactions with aluminum, carbon, and lead, (E), 25:40861
production in photon reactions with beryllium at 5.1 GeV, γωN coupling constants from, 25:14528
production in photon reactions with carbon at 470 to 1070 MeV, (E), 22:34825 (AD-665851)
production in photon reactions with carbon, (E), 25:45672
production in photon reactions with complex nuclei, review of, (E/T), 25:5248 (DNPL/R-7, pp 71-85)
production in photon reactions with heavy nuclei at high energies, lectures on, (T), 25:22726 (INP-712(Vol.1), pp 97-106)
production in photon reactions with light nuclei, Regge pole and quark models for coherent, 24:42915
production in photon reactions with nuclei at 5.5 GeV/c, angular distributions for, (E), 25:5249 (DNPL/R-7, pp 87-94)
production in photon reactions with nuclei at 5.7 and 6.8 GeV, cross sections for, (E), 25:47719
production in photon reactions with nuclei at 5.7 GeV, ωγ coupling constant and ωN cross sections from, (E), 25:3247
production in photon reactions with nuclei, (E), 23:51831 (NEVIS-173)
production in π + N → ω + Δ interactions, Regge pole analysis of, 22:9598
production in π + N → ω + Δ(1236) interactions, Lorentz-pole analysis of, 22:39408
production in π + N → ω + N interactions at high energies, instability of exchange particle in, (T), 24:52015
production in π + N → ω + N(Δ) interactions, tests of Regge pole model with absorption for, 23:32753
production in π + π → ω + π interactions, Argand diagrams for duality in resonance identification for, 23:32711
production in π + π → π + ω interactions, bootstrap of trajectories for, 23:15097
production in π + π interactions, residues of daughter trajectories for, 23:15106
production in π^+ + p → ω + p interactions, vector dominance in Regge pole model with SU(3) for, 23:42608
production in π^- + d → 2p + $\pi^+ + \pi^- + \pi^0$ interactions at 1.1 and 2.4 GeV/c in bubble chamber, (E), 25:9664
production in π^- + d → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 3.65 GeV/c, differential cross sections for, (E), 23:27754
production in π^- + d → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 1.1 to 2.4 GeV/c in deuterium bubble chamger, angular distributions and cross sections for, (E), 23:51860 (UCRL-19275)
production in π^- + d → p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 2.7 GeV/c, cross sections for, 23:23383
production in π^- + d interactions at 2.7 and 3.7 GeV/c, (E), 24:49335
production in π^- + n → ω + p interactions at high energies, quark model predictions for, 23:21106
production in π^- + n → p + mγ at 2.15 GeV/c in deuterium bubble chamber, cross sections and angular distributions for, (E), 25:43562
production in π^- + n → p + $\pi^+ + \pi^- + \pi^0$ interactions at 2.15 GeV/c in deuterium bubble chamber, backward, (E), 23:44602
production in π^- + n → p + $\pi^+ + \pi^- + \pi^0$ interactions at 1.1 to 2.4 GeV/c in deuterium bubble chamber, angular distributions and cross sections for, (E), 23:51860 (UCRL-19275)
production in π^- + n interactions in deuterium bubble chamber, (E), 22:41749
production in π^- + n interactions in Regge pole model, relative phase of rho and, 25:5374 (DNPL/R-7, pp 207-13)
production in π^+ + p → Δ^{++} + ω^0 interactions at 1.95 GeV/c, cross sections and density-matrix elements for, (E), 25:14563
production in π^+ + p → Δ^{++} + phi(ω) interactions at 3.7 GeV/c in hydrogen bubble chamber, phi/ω ratio and mixing angle for, (E), 23:39612 (UCRL-19225)
production in π^+ + p → N^{*++} + ω^0 at 5 GeV/c, test of absorption-model predictions in, (E/T), 23:5621
production in π^+ + p → ω + Δ^{++} interactions, test of empirical rule for cuts in density matrix elements for, (T), 25:36502 (CALT-68-300)
production in π^- + p → ω + n interactions at 2.10 GeV/c in bubble chamber, cross sections for, (E), 22:20149
production in π^- + p → ω + n interactions at 4.0 GeV/c, spark chamber and Cherenkov gamma spectrometer study of, (E), 22:22280 (JINR-E1-3770)
production in π^- + p → ω + n interactions, SU(3) x SU(3) with vector dominance and Regge pole models for sum rule for, 23:42609
production in π^- + p → ω^0 + n interactions in quark model, relation between cross sections for π^- + p → π^0 + n and, 21:25311
production in π^- + p → p + $n\pi$ interactions at 11 GeV/c in hydrogen bubble chamber, preliminary results for, (E), 22:39278 (CERN-68-7(Vol.2), pp 226-43)
production in π^- + p → p + $n\pi$ interactions at 8.49 GeV/c in hydrogen bubble chamber, (E), 23:51858 (NEVIS-171)
production in π^+ + p → p + $\pi^+ + \pi^- + \pi^- + \pi^0$ interactions at 2.34 GeV/c, joint, 23:23471 (JINR-P1-4330)

production in $\pi^- + p \rightarrow \pi + \pi + \pi + \pi + N$ interactions at 6.7 GeV/c, cross sections for, (E), 24: 18092
production in $\pi^+ + p \rightarrow \pi^+ + p + \pi^+ + \pi^- + \pi^0$ at 1.95 GeV/c in bubble chamber, 21:18911
production in $\pi^+ + p \rightarrow \pi^+ + \pi^+ + \Delta^{++}$ interactions at 3.7 to 4.0 GeV/c, interference with rho^0, 24:5257
production in $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ interactions at 2.3 GeV/c in hydrogen bubble chamber, rho^0—ω constructive interference in $\pi^- + \pi^+$ decay mode for, (E), 24:51952 (NYO-2171-319)
production in $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ interactions at 2.3 GeV/c in hydrogen bubble chamber, rho—ω interference in $\pi^- + \pi^+$ mode in, (E), 24:51963
production in $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ interactions at 1.245 GeV/c, (E), 24:40265 (NEVIS-182)
production in π^- + p and π^+ + d interactions at 2.7 and 4 GeV/c in bubble chamber, breakdown of vector dominance relation in, (E/T), 23:14993
production in π^+ + p interactions at 18.5 GeV/c, energy dependence of cross sections for, (E), 25:9677
production in π^- + p interactions at 2.7 BeV/c, (E), 21:882
production in π^- + p interactions at 2.96 GeV/c in hydrogen bubble chamber, (E), 22:20145
production in π^+ + p interactions at 3.2 and 3.5 GeV, (E), 21:2371 (CEA-R-2948)
production in π^- + p interactions at 4 BeV/c, (E), 21: 876 (JINR-P-2885)
production in π^+ + p interactions at 5 GeV/c in hydrogen bubble chamber, cross section for, (E), 21: 44282
production in π^+ + p interactions at 8 GeV/c, (E), 21: 18923
production in π^- + p interactions at 8 GeV/c, resonance parameters and cross sections for, 24:28496
production in π^+ + rho interactions at 5 GeV/c, quark-model predictions in, (E/T), 23:3643
production in six-prong π^- + p interactions at 6 GeV/c, (E), 24:24243
production in two- and four-charged-particle final states in π^+ + d interactions at 2.7 GeV/c in bubble chamber, total and differential cross sections for, (E), 24:12951
production of ω^0 from anti p + p $\rightarrow \pi^+ + \pi^+ + \pi^- + \pi^- + \pi^0$ interactions at 5.7 GeV/c in hydrogen bubble chamber, 21:40146
production of ω^0 from γ + p $\rightarrow$ p + $\pi^+ + \pi^- + \pi^0$ interactions below 1.1 GeV, review of, (E), 22:13720
production of ω^0 from γ + p interactions below 6 GeV in bubble chamber, (E), 22:15660 (DESY-67/40)
production of ω^0 from p + p $\rightarrow$ p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 28 GeV/c in hydrogen bubble chamber, (E), 22:7434 (BNL-11980)
production of ω^0 from π^+ + p $\rightarrow \omega^0 + N_{33}^{*++}$ interactions, several Regge pole hypothesis for, 21: 33709
production of ω^0 from π^+ + p $\rightarrow \pi^+$ + p + $\pi^+ + \pi^- + \pi^0$ interactions at 7 GeV/c in hydrogen bubble chamber, 21:37716
production of ω^0 from π^- + p $\rightarrow \pi^+ + \pi^- + \pi^0$ + n interactions at 8 GeV/c in heavy-liquid bubble chamber, cross sections for, 21:33613
production of ω^0 from π^- + p interactions at 5.48 GeV/c in hydrogen bubble chamber, 21:31529 (TID-23843)
production of ω^0 in 8- and 10-prong π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, (E), 25: 17401
production of ω^0 in anti p + n $\rightarrow 2\pi^- + \pi^+ + \pi$ interactions at rest in deuterium bubble chamber, branching ratio and quantum numbers for, (E), 25: 5271
production of ω^0 in anti p + n $\rightarrow 3\pi^- + 2\pi^+ + \pi^0$ interactions at rest in deuterium bubble chamber, (E), 25:14553
production of ω^0 in anti p + p $\rightarrow 2\pi^+ + 2\pi^- + \pi^0$ interactions at 2.4 and 2.9 GeV/c in hydrogen bubble chamber, (E), 24:32962 (IS-T-358)
production of ω^0 in anti p + p $\rightarrow 2\pi^+ + 2\pi^- (+\pi^0)$ interactions at 3.6 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25:25299 (NP-18730)
production of ω^0 in d + d $\rightarrow$ ^{4}He + (MM)^0 interactions at 3.78 GeV/c and 180°, cross sections for, (E), 23: 51846 (CEA-CONF-1407)
production of ω^0 in $e^+ + e^- \rightarrow \omega^0 + \gamma$ interactions, cross sections and polarization parameters for, (T), 24: 49377
production of ω^0 in γ + n $\rightarrow \omega^0 + \Delta^0$ interactions at 4.3 GeV in bubble chamber, (E), 24:49301
production of ω^0 in γ + p $\rightarrow \omega^0$ + p interactions at 4.3 GeV in bubble chamber, cross sections for, (E), 23: 21037
production of ω^0 in γ + p $\rightarrow$ p + $2\pi^- + 2\pi^+ + \pi^0$ interactions at 5.25 GeV in hydrogen bubble chamber, (E), 24:3502
production of ω^0 in γ + p $\rightarrow$ p + ω^0 interactions at high energies, with Pomeranchuk pole and tensor Reggeon exchange, 24:20117
production of ω^0 in γ + p $\rightarrow$ p + ω^0 interactions at high energies, current algebra and Regge pole model for, 22:24594
production of ω^0 in hadron interactions at high energies and large momentum transfers, Regge trajectories for, 22:20221
production of ω^0 in K + N and π + N interactions at high energies, Regge pole model for, 22:20244
production of ω^0 in $K^- + p \rightarrow K^-$ + p + $\pi^+ + \pi^0 + \pi^-$ interactions at 5.46 GeV/c in hydrogen bubble chamber, (E), 24:10674 (COO-1195-177)
production of ω^0 in $K^- + p \rightarrow K^-$ + p + $\pi^+ + \pi^- + \pi^0$ interactions at 5.5 GeV/c in hydrogen bubble chamber, (E), 25:14572
production of ω^0 in $K^+ + p \rightarrow K^+$ + p + $\pi^+ + \pi^- + \pi^0$ interactions at 12.7 GeV/c in hydrogen bubble chamber, (E), 25:12102
production of ω^0 in p + d $\rightarrow$ ^{3}He + missing mass interactions at 3 GeV/c, (E), 23:46605 (NYO-2171-286)
production of ω^0 in p + d $\rightarrow$ ^{3}He + ω interactions at 3 GeV, performance of missing-mass spectrometer for measurement of, (E), 24:30439 (CONF-690521-, pp 326-36)
production of ω^0 in photon reactions with nuclei, model for relative phase between rho^0 and ω^0 in, (T), 24: 49387
production of ω^0 in π^+ + d $\rightarrow$ 2p + $\pi^+ + \pi^- + \pi^0$ interactions at 2.7 GeV/c in deuterium bubble chamber, preliminary results for, (E), 22:41733 (COO-1428-70)
production of ω^0 in π^+ + d $\rightarrow$ 2p + $\pi^+ + \pi^- + \pi^0$ interactions at 4.19 GeV/c in deuterium bubble chamber, cross sections for, (E), 25:12112
production of ω^0 in π^+ + d $\rightarrow$ p + p + $\pi^+ + \pi^- + \pi^0$ interactions at 4.19 GeV/c in deuterium bubble chamber, (E), 24:21936 (COO-1195-179)
production of ω^0 in π^+ + d $\rightarrow$ p + p + X^0 interactions at 3.65 GeV/c in deuterium bubble chamber, (E), 24: 3524
production of ω^0 in π^+ + d $\rightarrow \pi^+ + \pi^- + \pi^0$ + p + p interactions at 4.19 GeV/c, differential cross sections for, (E), 23:46614
production of ω^0 in π^+ + n $\rightarrow$ p + ω^0 interactions at 5.1 GeV/c in deuterium bubble chamber, (E), 22: 39275 (CERN-68-7(Vol.2), pp 135-49)
production of ω^0 in π^+ + n $\rightarrow$ p + $\pi^+ + \pi^- + \pi^0$ backward interactions at 1.83 to 2.33 GeV/c in deuterium bubble chamber, (E), 25:43556
production of ω^0 in π^+ + n $\rightarrow$ p + $\pi^+ + \pi^- + \pi^0$ interactions at 6.95 GeV/c in deuterium bubble chamber, differential cross sections and density matrix elements for, (E), 25:17395
production of ω^0 in π^+ + n interactions at 2.34 GeV/c in xenon bubble chamber, (E), 25:14560 (JINR-E1-5349)
production of ω^0 in π^- + p $\rightarrow 3\pi^- + 2\pi^+$ + p + π^0 interactions at 6 GeV/c in hydrogen bubble chamber, (E), 23:42567
production of ω^0 in π^+ + p $\rightarrow \Delta^{++}(1236) + \omega^0$ interactions at 5 GeV/c, preliminary results of analysis of, (T), 22:39397 (CERN-68-7(Vol.2), pp 150-71)
production of ω^0 in π^- + p $\rightarrow$ n + ω^0 interactions at 1.51 GeV/c, spectrometer, spark chamber, and scintillation counter study of, (E), 24:3649
production of ω^0 in π^+ + p $\rightarrow N^* + \omega^0$ interactions at 2.3 GeV/c, angular distributions and correlations for, (T), 23:51932 (JINR-P1-4657)
production of ω^0 in π^- + p $\rightarrow \omega^0$ + n interactions at 3.65 to 5.5 GeV/c, scintillation counter and spark chamber study of spin density matrix elements for, (E), 25:40878 (COO-1195-214)
production of ω^0 in π^- + p $\rightarrow$ p + $2\pi^+ + 3\pi^- + \pi^0$ interactions at 16 GeV/c in hydrogen bubble chamber, 22:22312 (INR-837/VI/PH)
production of ω^0 in π^+ + p $\rightarrow$ p + $2\pi^+ + \pi^- + \pi^0$ interactions at 3.7 GeV/c in hydrogen bubble chamber, Regge pole effects in, (E), 24:45441
production of ω^0 in π^+ + p $\rightarrow$ p + $2\pi^+ + \pi^-$ and π^+ + p $\rightarrow$ p(n) + $2\pi^+ + \pi^- + \pi^0(\pi^+)$ interactions at 2.34 GeV/c, cross sections for, (E), 25:9662
production of ω^0 in π^+ + p $\rightarrow$ p + π^+ + mγ interactions at 2.9 GeV/c in xenon—propane bubble chamber, (E), 25:38673
production of ω^0 in π^- + p $\rightarrow \pi^+ + 2\pi^- + \pi^0$ + p interactions at 6.0 GeV/c in hydrogen bubble chamber, (E), 24:3525
production of ω^0 in π^+ + p $\rightarrow \pi^+ + \pi^- + \Delta^{++}$ and π^+ + p $\rightarrow \pi^+ + \pi^- + \pi^0 + \Delta^{++}$ interactions at 3.7 to 4.0 GeV/c in bubble chamber ωrho interference in, (E) , 23:42559 (UCRL-18894)
production of ω^0 in π^- + p $\rightarrow \pi^- + \pi^- + \pi^+$ + p + π^0 interactions at 3.63 GeV/c in hydrogen bubble chamber, cross sections for, 21:37704
production of ω^0 in π^+ + p $\rightarrow$ rho^0 + Δ^{++} interactions, π—B exchange degenerate model for, (T), 24:45536
production of ω^0 in π^+ + p four-prong interactions at 2.95 to 4.08 GeV/c in hydrogen bubble chamber, (E), 23:30717
production of ω^0 in π^- + p interactions at 5.5 GeV/c in hydrogen bubble chamber, (E), 22:3260
production of ω^0 in π^- + p six-prong interactions at 3.2 GeV/c in hydrogen bubble chamber, (E), 23:46622
production of ω^0 in quasi-two-body final states from π^+ + p $\rightarrow \pi^+$ + p + $\pi^+ + \pi^-$ interactions at 3 to 4 GeV/c in hydrogen bubble chamber, (E), 22:20143
production of ω^0 in quasi-two-body final states in π^+ + p $\rightarrow \pi^+$ + p + $\pi^+ + \pi^- + \pi^0$ interactions at 2.95 to 4.1 GeV/c in hydrogen bubble chamber, (E), 22:17954
production of ω^0 in $\Sigma + \pi + \pi^+ + \pi^- (+\pi^0)$ interactions at 4.25 GeV/c in hydrogen bubble chamber, (E), 24:21943
production of ω^0 WITH $\Delta(1236)$ in π^+ + p interactions at 7 GeV/c in hydrogen bubble chamber, (E), 22: 39289
production of ω^0 with N^{*++} in π^+ + p interactions at 2.95 to 4.08 GeV/c in hydrogen bubble chamber, (E), 22:37081 (UCRL-18254)
production of ω^0(783) in K^- + p interactions at 5.5 GeV/c, (E), 23:18817
production of single ω^0 and joint $N^*\omega^0$ in π^+ + p $\rightarrow$ N + $3\pi(4\pi)$ interactions at 2.34 GeV/c, cross sections for, (E), 24:3522 (JINR-P1-4611)
productions in π^+ + d interactions at 5.4 GeV/c, cross sections for, (E), 25:33566
Regge trajectory for γ + N $\rightarrow$ N + π^0 interactions at high energies, 24:3572
Regge trajectory for, meson (π^0) production from photon reactions with nuclei at high energies for, 23:51891
Regge trajectory of, contribution to π^0 photoproduction on nuclei at high energies, 23:36868(T) (SLAC-Trans-96)
Regge trajectory parameters from K^*_2 + p $\rightarrow K^*_1$ + p interactions at high energies, 22:44426
spin density matrix elements in $\pi^- + p \rightarrow \omega^0 + n$ interactions at 3.65 to 5.5 GeV/c, scintillation counter and spark chamber study of, (E), 25:40878 (COO-1195-214)
spin density matrix in $\pi + N \rightarrow \omega + N(\Delta)$ interactions, rho^0—ω mixing effects on, (T), 25:12208
spin polarization in γ + p $\rightarrow \omega$ + p interactions near threshold, spark chamber and scintillation counter study of, (E), 25:17355
sum rules for $\omega\pi\gamma$ and $A_1\pi\gamma$ coupling constants, 24: 24273
symmetry for phi—ω mixing, 21:17158
theory as bound state of rho—π system, two-body Bethe—Salpeter amplitude for, 25:30858
theory for bound state π rho of, (T), 25:38740
theory for ω^0, Wigner—Weisskopf method in, 22:7461
theory for, analogy of Kawarabayashi—Suzuki relation in, 23:18890
vertex function for A_1—ω—rho system, Ward identity for, 23:36919
vertex function for πrhoω, current algebra for ratio of width of $\omega \rightarrow \pi^0 + \gamma$ decay to width of $\pi^0 \rightarrow 2\gamma$ decay from momentum-dependent, (T), 25:36495
vertex function in nonrenormalizable theory of ωrhoπ interactions, ladder approximation for, (T), 25:56483 (JINR-E2-6017)
width in γ + p $\rightarrow$ p + $\pi^+ + \pi^- + \pi^0$ interactions at 5.25 GeV in hydrogen bubble chamber, (E), 24:3502
width of ω^0 in p + d $\rightarrow$ ^{3}He + missing mass interactions at 3 GeV, (E), 23:46605 (NYO-2171-286)
width of, from anti p + p annihilations at rest, (E), 21: 871 (NEVIS-154)
MESONS (phi)
coupling constant contributions to superconvergent amplitudes for backward anti N + N interactions, (T), 21:44358
coupling constant for γphi from γ + p and γ + d interactions and photon reactions with nuclei at 6.3 to 9 GeV for, (E), 25:47711
coupling constant for ωKantiK relative to phiKantiK, ω—phi mixing angle from, 22:11666
coupling constant ratio phirhoπ/ωrhoπ from asymptotic nonet SU(3) symmetry, 24:1634
coupling constants for phi—γ, vector meson dominance model for, (E/T), 23:8767 (LAL-1204)
coupling constants for, universality of, 23:49145
coupling to baryons, asymptotic symmetry for, 22:3485
coupling to photons, form factor for, 22:3316
decay phi $\rightarrow$ K + anti K, broken chiral SU(3) x SU(3) symmetry for, 23:36908
decay of phi(1520) in deuterium bubble chamber, angular distributions for, (E), 23:46613 (UCRL-19263)
decay of phi^0, derivation of Kawarabayashi—Suzuki—Riazuddin—Fayyazuddin-type relation for radiative, 24:24346
decay of phi^0, minimal Hamiltonian in discrete and SU(3) symmetries for sum rules for one-photon, 22: 20301
decay of photoproduced, branching ratio for μ^+—μ^- pair production in, (E), 25:45672
decay of photoproduced, relative phase angles in leptonic, (E/T), 24:33005
decay of, angular distributions for, (E), 21:15253 (DESY-66/32)
decay of, branching ratio for, (E), 21:15274
decay of, branching ratios and widths for, (E), 23:14949
decay of, branching ratios for lepton-pair, (E), 21:25220
decay of, composite hadron models for leptonic, 22:5532
decay of, Sp(6) symmetry for, 22:1470
decay of, sum rules with SU(3) breaking and ω—phi mixing for widths of leptonic, 23:46771 (JINR-P2-4522)
decay of, U(3) current algebra for leptonic, 24:18174
decay of, unified corpuscular field for modes and energies of, (T), 23:36915
decay of, width and coupling constants from lepton pair production in, (T), 24:6690 (LAL-1222)
decay phi $\rightarrow 2\mu$, branching ratio for, (E), 21:27294
decay phi $\rightarrow 2\pi + \gamma$, analysis using current algebra for dynamics of, 23:39708
decay phi $\rightarrow 2\pi + \gamma$, PCTC hypothesis for electromagnetic current for, 23:46718
decay phi $\rightarrow 2\pi$, asymptotic symmetry and ω—rho—phi mixing for, 24:18135
decay phi $\rightarrow 2\pi$, gauge-field model calculations for width of, relative to $\omega \rightarrow 2\pi$, (T), 24:10753
decay phi $\rightarrow 3\pi$, 24:24211
decay phi $\rightarrow 3\pi$ in broken SU(3) sum rules relating $\omega \rightarrow 3\pi$ and $K^* \rightarrow K^+ + \pi^+ + \pi^-$ decays and, 22:44416
decay phi $\rightarrow 3\pi$, hard-meson current algebra and PCAC model for width of, 25:59443
decay phi $\rightarrow$ anti K + K, dispersion relation—current algebra calculation of, 22:37135
decay phi $\rightarrow$ e + e, partial width for, (E), 24:37599 (LAL-1231)
decay phi $\rightarrow e^+ + e^-$ from π^- + p $\rightarrow$ phi + n interactions at 4.0 GeV/c, cross sections and widths for, (E), 22:1389
decay phi $\rightarrow e^+ + e^-$ from π^- + p $\rightarrow$ phi + n interactions, partial width for, (E), 22:34860
decay phi $\rightarrow e^+ + e^-$, branching ratio and width for, (E), 25:22661
decay phi $\rightarrow e^+ + e^-$, branching ratio for, (E), 23:7086 (DESY-68/56)
decay phi $\rightarrow e^+ + e^-$, branching ratio for, (E), 23:3653
decay phi $\rightarrow e^+ + e^-$, branching ratio for, (E), 25:47710 (NP-18933)
decay phi $\rightarrow e^+ + e^-$, branching ratio, width, coupling constants, and mixing angles for, (E), 25:47708 (LAL-1247)
decay phi $\rightarrow e^+ + e^-$, chiral U(3) X U(3) Lagrangian with symmetry breaking for rate of, 23:39778
decay phi $\rightarrow e^+ + e^-$, partial width of, (E), 23:7074 (LAL-1199)
decay phi $\rightarrow e^+ + e^-$, partial width of, (E), 21:33599 (RHEL/R-144, pp 15-40)

decay phi → $e^+ + e^-$, quark model for partial width of, 21:37797
decay phi → $e^+ + e^-$, relativistic quark model for, 22:50373
decay phi → $e^+ + e^-$, spark chamber and Cherenkov gamma spectrometer study of, (E), 22:22280 (JINR-E1-3770)
decay phi → $e^+ + e^-$, spark chamber and Cherenkov gamma spectrometer study of, (E), 22:32049
decay phi → $e^+ + e^-$, spectrometer study of phi production in γ reactions with carbon at 6.0 to 7.4 GeV for branching ratio for, (E), 25:47706 (DESY-71/26)
decay phi → $e^+ + e^-$, sum rule for width of, (T), 25:20047
decay phi → $e^+ + e^-$, use of gamma spectrometers and spark chambers for measuring rates for, 21:21227
decay phi → $e^+ + e^-$, vector dominance and ω—phi mixing in, 23:15104
decay phi → $e^+ + e^-$, width and branching ratio for, (E), 22:46457
decay phi → $e^+ + e^-$, width of, (E), 24:42863
decay phi → $e^+ + e^-(+\gamma)$, radiative corrections for, (T), 25:9766
decay phi → eta + e + e^+, internal-conversion rates in magnetic-dipole, 25:40987
decay phi → eta + γ from theory of eta—π mixing, 25:45703
decay phi → eta + γ in hydrogen bubble chamber, branching ratio for, 21:33619
decay phi → eta + γ, modified PCAC in hard-meson analysis of, 23:1611
decay phi → eta + γ, O(4,2) model for rate of, 22:50434
decay phi → eta + γ, quark model for partial width of, 21:37797
decay phi → eta + γ, vector dominance Veneziano model and sum rules for broken SU(3) symmetry for, (T), 25:5402
decay phi → $eta^0 + \gamma$, current algebra and PCAC calculation of, 22:34940
decay phi → $\gamma + X^0$, effective Lagrangian with vector-meson dominance and octet-broken SU(3) symmetry for amplitudes, widths, and relative branching ratios for, 24:3721 (DESY-69/35)
decay phi → K + anti K in asymptotic SU(2) symmetry, isospin violations in, 22:37138
decay phi → K + anti K in O(4) symmetry, effects of particle mixing in, 23:10844
decay phi → K + anti K in quark model, coupling constants and widths for, 21:21219
decay phi → K + anti K relative to $rho^0 \to \pi^+ + \pi^-$, effect of finite width of rho on vector-meson-dominance model predictions for, 23:36922
decay phi → K + anti K, asymptotic SU(3) for rate for, 21:37785
decay phi → K + anti K, asymptotic SU(3) for width of, 21:37885
decay phi → K + anti K, asymptotic symmetry for, 22:3485
decay phi → K + anti K, chiral SU(3) x SU(3) algebra and spectral-function sum rules for, 23:3718
decay phi → K + anti K, chiral U(3) X U(3) Lagrangian with symmetry breaking for rate of, 23:39778
decay phi → K + anti K, current-algebra calculation of, 22:34957
decay phi → K + anti K, deviation from SU(3) symmetry of vector—pseudoscalar—pseudoscalar meson coupling constants in field theory of vector mesons for, 22:35059
decay phi → K + anti K, generalization of Weinberg sum rules for, 21:46530 (UR-875-214)
decay phi → K + anti K, hard-kaon calculation of width of, 22:34962
decay phi → K + anti K, model with continuum states for rate of, 22:48289
decay phi → K + anti K, PCAC in broken SU(3) for coupling constants and width of, 22:34960
decay phi → K + anti K, relativistic quark model for, 22:50373
decay phi → K + anti K, SU(3) x SU(3) current algebra and PCAC predictions for width of, 21:42331
decay phi → K + anti K, vector dominance and ω—phi mixing in, 23:15104
decay phi → K^0 + anti K^0, asymptotic SU(3) for width of, 21:37885
decay phi → $K_1^0 + K_2^0$, 24:24211
decay phi → $K_1^0 + K_2^0$ in hydrogen bubble chamber, quantum numbers from branching ratio for, 21:33619
decay phi → $K_1^0 + K_2^0$, branching ratio for, 25:47710 (NP-18933)
decay phi → $K_1^0 + K_2^0$, branching ratio for, (E), 23:7074 (LAL-1199)
decay phi → $K_1^0 + K_2^0$, branching ratio for, (E), 25:22661
decay phi → $K_1^0 + K_2^0$, interference effects in detection of, 23:7736 (JINR-P2-4145)
decay phi → $K^+ + K^-$, 24:24211
decay phi → $K^+ + K^-$ in hydrogen bubble chamber, quantum numbers from branching ratio for, 21:33619
decay phi → $K^+ + K^-$ in mass region from 1006 to 1042 MeV, (E), 23:42534
decay phi → $K^+ + K^-$ relative to phi → K^0 + anti K^0, radiative corrections for, 23:23457
decay phi → $K^+ + K^-$, branching ratio for, (E), 22:11601
decay phi → $K^+ + K^-$, branching ratio for, (E), 23:7074 (LAL-1199)
decay phi → $K^+ + K^-$, branching ratio for, (E), 25:22661
decay phi → $K^+ + K^-$, branching ratio for, (E), 25:47710 (NP-18933)
decay phi → $K^+ + K^-$, branching ratio for, (E), 25:47708 (LAL-1247)
decay phi → $K^+ + K^-$, current algebra for rate of, (T), 21:44355
decay phi → $K^+ + K^-$, electron and positron beam polarization parameter test from, (E), 24:6690 (LAL-1222)
decay phi → $K^+ + K^-$, optical spark chamber and scintillation counter study of total width and branching ratio for, (E), 24:6690 (LAL-1222)
decay phi → $K^+ + K^-$, phi → $\mu^+ + \mu^-$, phi → neutral particles, use of Adone storage ring for studying, 22:11827
decay phi → $K^+ + K^-$, phi electromagnetic width in $e^+ + e^-$ → phi interactions from spark chamber and scintillation counter study of branching ratio for, (E), 24:37600 (LAL-1233)
decay phi → l + anti l, asymptotic SU(3) for branching ratio for, 21:37785
decay phi → l + anti l, test of quark models for, 23:32649 (UR-875-279)
decay phi → $l^+ + l^-$, model with continuum states for rate of, 22:48289
decay phi → lepton + lepton, generalization of Weinberg sum rules for, 21:46530 (UR-875-214)
decay phi → $\mu^+ + \mu^-$ in photon reactions with carbon, branching ratio for, (E), 24:51898
decay phi → $\mu^+ + \mu^-$ in $\pi^- + p \to \mu^+ + \mu^- + n$ interactions at 11.1 GeV/c, cross sections for, (E), 24:28489 (NP-18205)
decay phi → $\mu^+ + \mu^-$, asymptotic SU(3) for branching ratio for, 21:37785
decay phi → $\mu^+ + \mu^-$, branching ratio for, (E), 22:22322
decay phi → $\mu^+ + \mu^-$, upper limits for cross section and yield ratios for, (E), 21:21197
decay phi → $\mu^+ + \mu^-(+\gamma)$, radiative corrections for, (T), 25:9766
decay phi → $\omega + \gamma$ in hydrogen bubble chamber, branching ratio for, 21:33619
decay phi → $\pi + \pi + \gamma$, use of PCTC hypothesis for, 22:29692
decay phi → $\pi + \pi$ and phi → $\omega + \pi$ in asymptotic SU(2) symmetry, rates of, 22:37138
decay phi → $\pi^0 + \gamma$ from photoproduction on zinc at 5.5 GeV/c, branching ratio for, (E), 23:34522
decay phi → $\pi^0 + \gamma$, current algebra for rate of, (T), 21:44355
decay phi → $\pi^0 + \gamma$, field-algebra model for, 23:23464
decay phi → $\pi^0 + \gamma$, modified PCAC in hard-meson analysis of, 23:1611
decay phi → $\pi^0 + \gamma$, upper limit for branching ratio for, (E), 23:32599 (DESY-69/15)
decay phi → π^0 + rho^0, modified PCAC in hard-meson analysis of, 23:1611
decay phi → $\pi^+ + \pi^- + \pi^0$, branching ratio for, 25:22661
decay phi → $\pi^+ + \pi^- + \pi^0$, branching ratio for, (E), 22:11601
decay phi → $\pi^+ + \pi^- + \pi^0$, branching ratio for, (E), 23:7074 (LAL-1199)
decay phi → $\pi^+ + \pi^- + \pi^0$, branching ratio for, (E), 25:47710 (NP-18933)
decay phi → $\pi^+ + \pi^-$ in $e^+ + e^-$ → $\pi^+ + \pi^-$ interactions, upper limit for branching ratio for, (E), 25:12074
decay phi → $\pi^+ + \pi^-$ in hydrogen bubble chamber, branching ratio for, 21:33619
decay phi → $\pi^+ + \pi^-$, π form factor and upper limit for branching ratio for, (E), 25:22661
decay phi → $\pi^+ + \pi^-$, upper limit for branching ratio for, (E), 25:47710 (NP-18933)
decay phi → rho + γ in hydrogen bubble chamber, branching ratio for, 21:33619
decay phi → rho + π in hydrogen bubble chamber, branching ratio for, 21:33619
decay phi → rho + π in O(4) symmetry, effects of particle mixing in, 23:10844
decay phi → rho + π, current algebra for, (T), 21:44355
decay phi → rho + π, field-algebra model for, 23:23464
decay phi → $X^0 + \gamma$ in broken SU(3) symmetry, 24:24269
decay phi(1019) → anti K + K, chiral dynamic U(3) x U(3) symmetry with and without breaking for width of, 23:46769 (ITF-69-42)
decay phi^0 → $1^+ + 1^-$, radiative corrections for, (T), 22:32070
decay phi^0 → $e^+ + e^-$, (E), 21:15267 (JINR-E1-3148)
decay phi^0 → $eta^0 + \gamma$, spark chamber study of branching ratio for, (E), 25:1411 (LAL-1240)
decay phi^0 → $\pi^0 + \gamma$, spark chamber study of branching ratio for, (E), 25:1411 (LAL-1240)
decay rates of, spectral-function sum rule and ω—phi mixing for relations between leptonic, 22:5569
decay rho → $\pi + \pi$, phenomenological Lagrangian method for chiral SU(2) x SU(2) for rates of, 23:46717
decay widths of, current algebra and vertex functions for, 22:37142
decays of, branching ratios for leptonic, 23:10740
decays of, octet-broken U(3) symmetry model for, 23:21140
decays phi → rho + π and phi → $\pi^0 + \gamma$, current-density—current-density commutators for, 22:37137
decays phi^0 → $\omega^0 + \gamma$ and phi^0 → $rho^0 + \gamma$, structure of C-violating, 21:21273
effects on $e^+ + e^-$ → eta + γ interactions, (T), 21:11752
effects on electromagnetic interactions of hadrons, 21:13683 (NYO-1932-116)
electromagnetic transition rho → phi, spectral-function sum rules for, 25:9718
exchange in K + N interactions at low energies, model for, 22:13769
exchange in $K^- + p$ → anti K + N + π interactions at 1.33 GeV/c in hydrogen bubble chamber, 21:33623
exchange in model for (K^+ - K^0) and (π^+ - π^0) electromagnetic mass differences, 22:17902
exchange in n + d → ^{3}He + γ and n + p → d + γ interactions, field—current identity for parity-violating internucleon potential for, (T), 23:30770
exchange in N + N interactions, (T), 21:21250 (UCSD-10-P-10-21)
exchange in N + N interactions, (T), 21:37854
exchange in N + N interactions, one-boson-exchange approximation for, (T), 25:20024
exchange in p + p interactions below 300 MeV, meson—nucleon coupling constants from, 21:37857
exchange in $\Xi + K \to \Omega^-$ (1674) interactions, 22:7521
field operators for phi^0, identification with hadronic electromagnetic current operator, 21:33660
form factor from Chou—Yang model for $\gamma + p$ → phi + p interactions, 23:23413
interactions K^+ + phi, resonance width determination from interference of identical particles in, (T), 25:45727
interactions of phi^0, C and T noninvariance for minimal electromagnetic, 22:13814
interactions of, repulsive potential for, 22:15762
interactions phi + N in quark model, phase of forward amplitude for elastic, 25:7655 (DESY-70/53)
interactions phi + N, γ + p and γ + d interactions and photon reactions with carbon at 6.3 to 9 GeV for total cross sections and amplitude of, (E), 25:47711
interactions phi + N, phase of forward amplitude for, 25:38744
interactions phi + N, spectrometer study of phase and forward cross sections for phi production in photon reactions with carbon at 6.0 to 7.4 GeV for real-to-imaginary part of amplitude of, (E), 25:47706 (DESY-71/26)
interactions phi + N, total cross section for, (E/T), 23:23627(T) (SLAC-Trans-92)
interactions phi + p → phi + p, γ + p → phi + p interactions for tests of Frautschi—Margolis model for multiple Pomeron exchange in, (T), 24:52034
interactions phi + p at 6 to 20 GeV/c, total cross section and phase of scattering amplitude for, (T), 24:20162
interactions phi + p from γ + p interactions, cross sections for, (T), 22:46448
interactions phi + π and $\omega + \pi$, superconvergent sum rules for amplitudes of, 22:50370
mass and width from $\pi^- + p \to K^+ + K^-$ + n interactions at 11.04 GeV/c in optical spark chamber, (E), 25:59301
mass and width in $K^- + p \to \Lambda^0(\Sigma)$ + K + anti K and $K^- + p \to \Xi^0 + K^+ + \pi^-$ interactions at 2.9 GeV/c in bubble chamber, (E), 25:25310 (ORO-2504-170)
mass and width of phi(1019), 22:20137 (COO-1195-116)
mass and width of, multichannel bootstrap calculation of, 22:11661
mass and width of, N/D effective range theory for, 21:9771
mass difference (ω - phi), multipoles and resonance splitting for, 22:3384
mass formulas for, ω—phi mixing for, (T), 24:52079
mass of, constructive force of composite system for, 21:40210
mass of, spectrometer study of phi production in γ reactions with carbon at 6.0 to 7.4 GeV for, (E), 25:47706 (DESY-71/26)
mass of, unified corpuscular field for, (T), 23:36915
mass, (E), 23:5547
mass-mixing model of ω-phi, consistency with commutation relations of Sugawara theory and symmetry-breaking field algebra, 24:15639
mixing (ω - phi), current algebra parameters for, 21:5387
mixing (ω—phi) for asymptotic validity of SU(3) symmetry, sum rule from, 22:3472
mixing (phi—ω), symmetry breaking and bootstrap model for, 24:6712
mixing angle (ω—phi) from equal-time current commutation relations, 21:27362
mixing angle (phi—ω) from equality of Schwinger terms, 22:9585
mixing angle of ω—phi in SU(3), 24:18136
mixing in N + N interactions, charge—asymmetry effects from, 21:37865
mixing models for ω—phi, 24:15519
mixing of ω, rho^0, and phi from asymptotic symmetry, electromagnetic, 24:18135
mixing of ω—phi from spontaneous symmetry breaking, 24:13137
mixing of ω—phi, current algebra predictions for, 24:37765
mixing of phi—ω in vector nonet model, 24:37769
mixing of, meson mass formulas and decays with ω—phi, (T), 24:52079
mixing ω—phi, current-mixing model for, 24:13138
mixing ω—phi, review of SU(3), (E/T), 25:38770
Pade approximants in field theory for, 23:30789 (CEA-R-3763)
photoproduction and radiative capture in nuclei in eikonal approximation, 23:27784
photoproduction from aluminum-27, beryllium-9, carbon, copper, lead, and silver at 2.7 to 6.2 GeV, cross sections for, (E/T), 23:23627(T) (SLAC-Trans-92)
photoproduction on carbon at 1.800 GeV, cross sections for, (E), 23:42534
photoproduction on carbon at 6 to 7.4 GeV, cross sections for, (E), 25:50046
photoproduction on carbon at 8.3 and 9.8 GeV and subsequent decay to muon pairs, yields of, (E), 24:40235
photoproduction on complex nuclei, cross sections for, (E), 23:10740
photoproduction on protons and complex nuclei, review on, 25:5301 (DNPL/R-7, pp 29-70)
production and decay for μ pair production in photon reactions with carbon at 470 to 1070 MeV, (E), 22:34825 (AD-665851)

production and decay from $e^+ + e^-$ interactions, 23:13055
production and decay from $K^- + p$ interactions at 2.24 GeV/c, (E), 21:18991
production and decay from $\pi + N$, $K + N$, and $N + N$ interactions at high energies, quark model for test of additivity from, 22:13735
production and decay in $e^+ + e^- \rightarrow$ phi $\rightarrow K^+ + K^-$ interactions, 24:42863
production and decay in $e^+ + e^-$ colliding—beam interactions, 24:30427 (CONF-690521-, pp 373-412)
production and decay in $e^+ + e^-$ interactions, (E), 23:32600 (LNF-69/6)
production and decay in $e^+ + e^-$ interactions, vector meson dominance predictions for, (E/T), 23:14946
production and decay in $\gamma + C \rightarrow C + e^+ + e^-$, branching ratio for electron—positron decay in, (E), 23:3653
production and decay in $\gamma + p \rightarrow$ phi + p interactions at 14 and 16 GeV, spectrometer study of upper limit for, (E), 22:24515
production and decay in $\pi^- + p \rightarrow K^+ + K^- + n$ interactions at 2.10 GeV/c in bubble chamber, cross section for, (E), 22:24566
production and decay in $\pi^- + p \rightarrow n + K^+ + K^-$ interactions at 2.13 GeV/c, scintillation counter and neutron detector study of, (E), 23:23382
production and decay of phi(1680) in $\pi^+ + d \rightarrow p + p + \pi^+ + \pi^- + \pi^0$ interactions at 6.95 GeV/c, (E), 25:38667
production and decay of phi° in $K^- + p$ and $\pi^- + p$ interactions, radiative corrections for, (T), 22:32070
production from electron and meson (μ) reactions with high-Z nuclear Coulomb fields, (T), 21:2409
production from $\gamma + N$ interactions at high energies, quark model for, 21:21175
production from $\gamma + p \rightarrow$ phi + p interactions at high energies, composite hadron models for, 22:5532
production from $\gamma + p \rightarrow$ phi + p interactions, vector dominance model for, 21:31553 (DESY-67/13)
production from $\gamma + p$ interactions at 0.3 to 5.8 GeV, cross section for, (E), 21:15253 (DESY-66/32)
production from $\gamma + p$ interactions at high energies, Regge pole analysis for, 21:9737
production from $K^- + p \rightarrow \Lambda$ + phi interactions at 2.1 to 2.7 GeV/c in hydrogen bubble chamber, 21:33619
production from $K^- + p$ interactions at 4.25 GeV/c in hydrogen bubble chamber, mass and width for, (E), 22:3268 (ORO-2504-109)
production from $\pi^+ + n$ interactions at 2.5 GeV/c in deuterium bubble chamber, 21:35266 (COO-1195-94)
production from $\pi^- + p \rightarrow n$ + phi interactions at 2.0 to 4.0 GeV/c in hydrogen bubble chamber, (E), 21:42274
production from $\pi^- + p$ interactions at 4.0 GeV/c, (E), 21:15267 (JINR-E1-3148)
production in anti $p + p \rightarrow$ 4K interactions, box diagram effects for, (T), 25:22807
production in colliding-beam $e^+ + e^-$ interactions, 24:24212
production in cosmic particle interactions in nuclear emulsion stack at 10^{12} to 10^{14} eV, (E/T), 21:37839
production in cosmic proton reactions with nuclei at 10^{12} to 10^{13} eV in emulsions, (E), 24:35604 (SJC-P-70-2)
production in cosmic ray interactions above 1 TeV, mechanism for copius, (T), 22:41824 (DESY-68/32)
production in $e + N$ interactions at high energies, vector meson dominance model for cross sections and vector meson spin density matrix elements for, 23:36867 (DESY-69/18)
production in $e + p \rightarrow e + p$ + rho° (phi,ω) interactions at high energies, angular distributions of, (T), 23:46649
production in $e + p$ and $\nu + p$ interactions, Pomeranchuk dominance in, (T), 24:32994
production in $e^+ + e^- \rightarrow 4\pi(5\pi)$ interactions below 2 GeV, quasi-two-body enhancement of tails of, (T), 25:25366
production in $e^+ + e^- \rightarrow$ phi interactions at 2 x 508 to 2 x 514 MeV, (E), 25:47710 (NP-18933)
production in $e^+ + e^- \rightarrow$ phi interactions at 2 x 510 MeV, width and total cross sections for, (E), 25:22661
production in $e^+ + e^- \rightarrow$ phi, phi $\rightarrow K^+ + K^-$ interactions, phi electromagnetic width from spark chamber and scintillation counter study of, (E), 24:37600 (LAL-1233)
production in $e^+ + e^- \rightarrow \pi^+ + \pi^-$ interactions, infrared radiative corrections for, 23:21074
production in $e^+ + e^- \rightarrow \pi^+ + \pi^-$ interactions, upper limit for, (E), 25:12074
production in $e^+ + e^-$ annihilation, (E), 23:7074 (LAL-1199)
production in $e^+ + e^-$ interactions above 1 GeV, test of vector-dominance hypothesis from, 24:12983
production in $e^+ + e^-$ interactions in colliding beams, (E), 24:18061 (CONF-690330-, pp 2-14)
production in $e^+ + e^-$ interactions in colliding beams, width and cross sections for, (E), 25:47708 (LAL-1247)
production in $e^+ + e^-$ interactions in storage rings, review of, (E), 24:37601 (LAL-1234)
production in $e^+ + e^-$ interactions, cross sections for, (E), 23:14949
production in $e^+ + e^-$ interactions, optical spark chamber and scintillation counter study of total width, cross section, and branching ratio for, (E), 24:6690 (LAL-1222)
production in $e^+ + e^-$ interactions, Orsay and Novosibirsk experiments on, 25:5250 (DNPL/R-7, pp 139-72)
production in $e^+ + e^-$ interactions, radiative corrections to cross sections for, (T), 22:39326
production in $\gamma + d$ and $\gamma + p$ interactions at 6.3 to 9 GeV, spectrometer and spark chamber study of cross section ratio for, (E), 25:47711
production in $\gamma + N \rightarrow N$ + phi interactions, quark model for suppression of, 22:20184
production in $\gamma + N \rightarrow N$ + phi° interactions, quark model with electromagnetic current with SU(3) singlet and octet components for differential cross section relations for, (T), 25:22866
production in $\gamma + N \rightarrow N + V$ interactions (V = rho°, ω, or phi), vector dominance and ω—phi mixing in, (T), 23:7112
production in $\gamma + N \rightarrow$ phi + N interactions, distinction between Freund and CHN classification of Pomeranchukon in, 23:46660
production in $\gamma + N$ interactions, 24:24279
production in $\gamma + N$ interactions at high energies, SU(3) quark model for, (T), 25:9713
production in $\gamma + N$ interactions at high energies, sum rules in vector dominance model for, 22:46357 (JINR-E2-3926)
production in $\gamma + N$ interactions, phases and forward cross sections for, (T), 25:3319
production in $\gamma + N$ interactions, status and perspectives of experiments on, 23:10777 (CALT-68-171)
production in $\gamma + p \rightarrow p$ + phi $+ \pi^+ + \pi^-$ interactions at 3.5 to 5.8 GeV, cross sections for, (E), 22:32044
production in $\gamma + p \rightarrow p$ + phi interactions at 2.5 to 5.8 GeV, cross sections for, (E), 22:32044
production in $\gamma + p \rightarrow p$ + phi interactions, review of, (E), 25:25280 (DESY-70/64)
production in $\gamma + p \rightarrow p$ + phi, interactions up to 5.8 GeV, cross sections for, (E), 21:9690
production in $\gamma + p \rightarrow p + V$ (V = rho°, ω, and phi) interactions, Regge pole description of, 23:5562
production in $\gamma + p \rightarrow$ phi + p interactions at 9 to 15 GeV/c from electron reactions with beryllium, upper limit on cross section for diffraction, (E/T), 21:44304
production in $\gamma + p \rightarrow$ phi + p interactions below 6 GeV, models for, 22:22345 (CONF-670923-, pp 337-75)
production in $\gamma + p \rightarrow$ phi + p interactions, Cheng—Wu picture for, (T), 25:9716
production in $\gamma + p \rightarrow$ phi + p interactions, cross sections for, 22:9554
production in $\gamma + p \rightarrow$ phi + p interactions, optical theorem for, 22:41768 (DESY-68/28)
production in $\gamma + p \rightarrow$ phi + p interactions, π conspiracy and factorization in, 24:49393
production in $\gamma + p \rightarrow$ phi + p interactions, π-conspiracy and factorization in, 24:15524
production in $\gamma + p \rightarrow$ phi° + p interactions at 9 to 16 GeV/c, modified vector-dominance model for, 22:50335
production in $\gamma + p \rightarrow \pi^+ + \pi^- + \pi^0 + p$ interactions at 2 to 16 GeV, cross sections for, (E), 23:21038
production in $\gamma + p \rightarrow$ vector meson + N_3^* interactions, quark dissociation model for suppression of, 21:27329
production in $\gamma + p$ and $\gamma + d$ interactions and photon reactions with carbon at 6.3 to 9 GeV, total cross sections and amplitude of phi + N interactions and γphi coupling constant from, (E), 25:47711
production in $\gamma + p$ and $\gamma + d$ interactions, and γ reactions with complex nuclei at high energies, review of, (E), 25:52997
production in $\gamma + p$ interactions at 0.3 to 5.8 GeV in bubble chamber, cross sections for, (E), 24:18068
production in $\gamma + p$ interactions at 2 to 16 GeV, (E), 24:28473
production in $\gamma + p$ interactions at 5 to 17.8 GeV, cross sections for, (E), 24:24208
production in $\gamma + p$ interactions at high energies, model for, 23:36884
production in $\gamma + p$ interactions at high energies, model for, 25:38701
production in $\gamma + p$ interactions, models for, 22:46375
production in $\gamma + p$ interactions, photo-dissociation and quark models for, 21:11750
production in $\gamma + p$ interactions, quark model for cross sections for, 21:11749
production in $\gamma + p$ interactions, test of Harari conjectures from cross sections for, (T), 24:42908
production in γ reactions with carbon-12 and oxygen-16, isolation of Regge trajectories in, (T), 25:36453
production in K^- + n interactions at 3 GeV/c with Σ(1385) production, cross sections and decay angular distributions for, (E/T), 25:40893
production in $K^+ + p \rightarrow K^+$ + phi + p interactions at 4.6 and 9.0 GeV/c, (E), 23:18819
production in $K^+ + p \rightarrow K^+$ + phi + p interactions at 4.9 and 9 GeV/c in bubble chamber, (E/T), 22:50295 (UCRL-18321)
production in $K^- + p \rightarrow \Lambda + K^+ + K^-$ interactions at 3.3 GeV/c in hydrogen bubble chamber, density matrix for, (E), 25:45675
production in $K^- + p \rightarrow \Lambda^*(\Sigma) + K$ + anti K and $K^- + p \rightarrow \Xi^0 + K^+ + \pi^-$ interactions at 2.9 GeV/c in bubble chamber, (E), 25:25310 (ORO-2504-170)
production in K^- + p hypercharge-exchange interactions at 4.1 and 5.5 GeV/c, (E), 21:17054
production in K^- + p interactions at 2.23 GeV/c, decay and branching ratio from, (E), 21:15274
production in K^- + p interactions at 4.25 GeV, (E), 23:5547
production in photon reactions with carbon at 1.8 GeV, cross sections for, (E), 22:26551
production in photon reactions with carbon at 6.0 to 7.4 GeV, spectrometer study of phase and forward cross sections for, (E), 25:47706 (DESY-71/26)
production in photon reactions with carbon, cross sections for, (E), 25:45672
production in photon reactions with hydrogen and carbon, polarization asymmetry in forward, (E), 25:38639
production in photon reactions with hydrogen, deuterium, and complex nuclei at 6.4 to 9.0 GeV, cross sections for, 25:38640
production in photon reactions with light nuclei, Regge pole and quark models for coherent, 24:42915
production in photon reactions with zinc at 5.5 GeV, phi $\rightarrow \pi^0 + \gamma$ decay from, (E), 23:32599 (DESY-69/15)
production in $\pi^+ + d \rightarrow p + p + K^+ + K^-$ interactions at 1.1 to 2.4 GeV/c, (E), 24:45437
production in $\pi^+ + n \rightarrow K^0 + p$ interactions at 2.5 GeV/c in deuterium bubble chamber, (E), 22:29639
production in $\pi^+ + p \rightarrow \Delta^{++}$ + phi(ω) interactions at 3.7 GeV/c in hydrogen bubble chamber, phi/ω ratio and mixing angle for, (E), 23:39612 (UCRL-19225)
production in $\pi^- + p \rightarrow K^+ + K^-$ + n interactions at 11 GeV/c, spark-chamber and Cherenkov-counter study of, (E), 24:30458 (CONF-690521-, pp 529-32)
production in $\pi^- + p \rightarrow n$ + phi interactions at 1.93 GeV/c, cross section for, (E), 22:46457
production in $\pi^+ + p \rightarrow p + \pi^+ + K$ + anti K interactions at 3.56 to 3.82 GeV/c in hydrogen bubble chamber, (E), 24:51961 (UCRL-19845)
production in $\pi^- + p \rightarrow$ phi + n interactions at 2.10 GeV/c in bubble chamber, cross sections for, (E), 22:20149
production in $\pi^- + p \rightarrow$ phi + n interactions at 4.0 GeV/c, spark chamber and Cherenkov gamma spectrometer sutdy of, (E), 22:22280 (JINR-E1-3770)
production in $\pi^+ + p \rightarrow \pi^+$ + phi + p interactions at 3.7 GeV/c in hydrogen bubble chamber, (E), 23:39612 (UCRL-19225)
production of phi(1019) in $K^- + p \rightarrow \Sigma + \pi + K^+ + K^-$ interactions at 4.1 and 5.5 GeV/c in hydrogen bubble chamber, (E), 22:20137 (COO-1195-116)
production of phi(1020) in $K^- + p \rightarrow \Sigma + \pi + 2K$ interactions at 4.1 and 5.5 GeV/c in hydrogen bubble chamber mass and width for, (E), 23:23388
production of phi(1020) in K^- + p interactions at 6 GeV/c in hydrogen bubble chamber, cross sections for, (E), 23:46619
production of phi(1020) in $\pi^+ + n \rightarrow p + K^+ + K^-$ interactions at 1.1 to 2.4 GeV/c in deuterium bubble chamber, angular distribution for, (E), 23:46613 (UCRL-19263)
production of phi° from $\gamma + p$ interactions below 6 GeV in bubble chamber, (E), 22:15660 (DESY-67/40)
production of phi° in $e^+ + e^- \rightarrow$ phi° + γ interactions, cross sections and polarization parameters for, (T), 24:49377
production of phi° in $\gamma + d$ and $\gamma + p$ interactions, effects of deuteron form factor, isoscalar part of photon, and Glauber correction on ratio of cross sections for, (T), 24:51899
production of phi° in $\gamma + p \rightarrow p + K$ + anti K interactions at 1 to 6 GeV in hydrogen bubble chamber, 21:29424
production of phi° in $\gamma + p \rightarrow p$ + phi° interactions at high energies, Pomeranchuk pole and tensor Reggeon exchange in suppression of, 24:20117
production of phi° in $\gamma + p \rightarrow p$ + phi° interactions at high energies, current algebra and Regge pole model for, 22:24594
production of phi° in $\gamma + p \rightarrow$ phi° + p interactions at 5.0 to 17.8 GeV, differential cross sections for, (E), 25:14524
production of phi° in $K^+ + p \rightarrow K^+ + p + K^+ + K^-$ interactions at 12.7 GeV/c in hydrogen bubble chamber, (E), 25:12102
properties of, isospin and pseudoscalar, 21:33685
symmetry for phi—ω mixing, 21:17158
theory for, analogy of Kawarabayashi—Suzuki relation in, 23:18890
width from $e^+ + e^-$ → phi, phi → K^+ + anti K^0 and phi → 3π interactions, partial, (E), 24:37599 (LAL-1231)
width in $e^+ + e^-$ → phi interactions at 2 x 508 to 2 x 514 MeV, (E), 25:47710 (NP-18933)
width in $e^+ + e^-$ → phi interactions at 2 x 510 MeV, (E), 25:22661
width in $e^+ + e^-$ → phi interactions in colliding beams, (E), 25:47708 (LAL-1247)
width in $e^+ + e^-$ → phi, phi → $K^+ + K^-$ interactions, spark chamber and scintillation counter study of electromagnetic, (E), 24:37600 (LAL-1233)

MESONS (π)
absorption by beryllium-9, form factors for two-nucleon, (T), 25:53618
absorption by carbon-12 with lithium-8 production, angular correlations and spectra for, (T), 22:32490
absorption by carbon-12, nitrogen-14, and oxygen-16, analysis of mechanism in, 25:56653 (LYCEN-7104, S4.1-10)
absorption by light nuclei, comparison with γ absorption by light nuclei above 150 MeV, (T), 24:52113 (NP-18446)
absorption by light nuclei, lectures on, (T), 25:56810 (CERN-71-14, pp 155-228)
absorption by nuclei at low energy, nucleon angular correlations from, (T), 21:46813
absorption by nuclei with double nucleon emission, orbital, (T), 21:34031(R) (ORO-2915-79)
absorption by nuclei with single-nucleon emission, Hartree—Fock analysis of, (T), 25:50857
absorption by nuclei, ambiguity of the Galilean-invariant operator for, (T), 23:34819
absorption by nuclei, effect of final-state interactions on initial-state nucleon—nucleon correlations, (T), 23:37306
absorption by nuclei, use in nuclear structure research, 24:52694
absorption by nuclei, use of π^+/π^- cross-section ratio to test neutron density parameters, (T), 24:52692
absorption in gases, design of target for measurement of stopping, 24:15713(T) (CERN-Trans-69-29)
absorption in nuclear matter at low energy, mean free path for, (T), 25:36489
absorption in tin at 8 GeV, scintillation detector measurement of energy distribution for, 24:4493
absorption rates of bound 1s and 2p, in oxygen-16, modified shell model with two-body correlation factor calculation of, (T), 23:40110

acceleration of, conceptual design parameters for linac for, 22:37216 (LA-DC-9419)
angular correlations in anti p + p → π⁺ + π⁺ + π⁻ + π⁻ interactions at rest, (T), 22:3380 (INP-555/PL/PH, pp 31-50)
angular distribution from anti p + p → 3π interactions, relativistic effects on, 21:23332
angular distribution from f° → 2π decay, (T), 21:17122
angular distributions from p + p interactions at high energies, Hagedorn thermodynamic model for, 24: 20182
antibound state of two, with J = 2 and I = 1 in dispersion sum rules relating coupling constants of 2⁺ mesons with integral of quadratic functions of amplitudes of γ + p interactions, (T), 25:38708
Bethe—Salpeter equation for bound state of π—N system, ladder approximation and O(4) harmonics for accidental degeneracy in, 24:10761
book: Photoproduction of π-Mesons, 23:15045
book: Pion—Nucleon Scattering, 24:15498
book: The Dynamics of Elementary Particles and the Pion—Nucleon Interaction, 23:1606
bootstrap relation with A_1 trajectory, five-point Veneziano model for, 24:10743 (COO-264-522)
bootstrap theory for πrho bound state of, 22:7464
bound states (π—N), Bethe—Salpeter equation in ladder approximation for Regge trajectories of, (T), 25:20007
capture by atoms, cascade processes and x-ray emission in, (T), 25:58724
capture by beryllium, carbon, helium, and lithium, x radiation from, 25:7143
capture by helium, x-ray yields for, 24:1736
capture by lithium, mechanism of radiative, 21:31732
capture by nuclei, cross-section calculations using Fermi-liquid model, (T), 23:13331
capture by nuclei, effects of dynamic mixing of nuclear energy levels on, (T), 25:45936
capture by nuclei, review of research on, 23:44966
capture by nuclei, use in research on nuclear properties, (E/T), 23:9036 (TID-24667, pp 495-6)
capture by nuclei, validity of soft-pion theorems for radiative, (T), 23:40118
capture by solids of very slow, effects of chemical binding on, (T), 22:26208
capture by tantalum-181, γ spectra for, (E), 22:30017
capture by thorium-232 and uranium-238, x-ray energies and widths from, (E), 25:49728 (N-71-16053)
capture in beryllium, carbon, helium, and lithium, x-ray spectra and Monte Carlo cascade calculations for, 24: 21563 (NAL-37)
cascade calculations using Passow's approximation, 23: 30746
charge distribution of, 24:42907
charge radii of, universal isovector current for, 24:32984
charge radius from current algebra, (T), 22:1399
charge radius from form factor in timelike region, 25: 47785
charge radius from sidewise dispersion relations, 24: 18141
charge radius of, from pole dominance approximation, 22:29683
charge radius of, sidewise dispersion relation calculation of, 25:1447
chiral symmetry from divergence requirements for πN system, construction of Lagrangian with, 23:3716
chiral symmetry from divergence requirements for, construction of Lagrangian with, 23:3716
chiral-invariant Lagrangian with π, N, Δ(1236), and rho, 24:35644
commutation relations of field of, superconvergence sum rules from canonical, 24:13112
conspiracy in π + N → rho + Δ, K + N → K* + Δ, and π + N → f° + Δ interactions, 22:5594
conspiracy in ratio of real to imaginary part of forward amplitude of p + p interactions, 24:10786
conspiracy of Feynman amplitude in N + N interactions, type-III, 23:23462
contamination of beams of, performance of freon and perspex Cherenkov detectors for determining electron and meson (μ), 22:38097
content in cosmic radiation at 350 GeV mean energy, (E), 21:20800
coupling (vector-meson—vector-meson—π) and (axial-vector-meson—axial-vector-meson—π) in chiral-invariant Lagrangian, 25:17480
coupling constant contributions to superconvergent amplitudes for backward anti N + N interactions, (T), 21:44358
coupling constant difference effects on π exchange in N + N interactions, (T), 25:20021
coupling constant for A_1π, mixing model for, 22:41809
coupling constant for epsilon ππ, tree approximation for ratio to epsilon anti NN coupling constant, (T), 25: 22815
coupling constant for γ—3π in Veneziano model, 24: 40324
coupling constant for AΣπ, PCAC hypothesis for, (T), 25:30904
coupling constant for N anti Nπ system, 24:15566
coupling constant for ωrhoπ from e⁺ + e⁻ → π⁰ + ω, ω → π⁺ + π⁻ + π⁰ interactions, 24:10713
coupling constant for πAΣ from sum rule for π + Σ and π + A interaction, 25:45752
coupling constant for πN from analysis of N + N interactions at 25 MeV, (E/T), 21:19021
coupling constant for πN from analysis of p + p interactions at 0 to 400 MeV, 22:35003
coupling constant for πN in current-field algebra, 25: 9762
coupling constant for πN in soft-pion limit, SU(2) x SU(2) symmetry for, 24:45535
coupling constant for πN, model Hamiltonian for, 25: 17546
coupling constant for πN, perturbation theory for Goldstone symmetry for hadronic corrections to Goldberger—Treiman relations for, (T), 25:41040
coupling constant for πN, residue of quasipole for determining, 21:37827
coupling constant for πN, tests of long-range charge independence in N + N interactions from, (T), 25: 36522
coupling constant for $\pi N_{11}{}^{*}N_{11}{}^{*}$, Adler—Weisberger sum rules for, 21:21259
coupling constant for πNΔ(1236), from p-wave scattering length for π + N interactions, 24:3684
coupling constant for πNN, from model-independent analysis of forward elastic π⁻ + p and π⁺ + p interactions, (T), 25:20003 (JINR-E2-5561)
coupling constant for πΣΛ using Adler consistency condition, 25:9812
coupling constant for πΣΣ using Adler consistency condition, 25:9812
coupling constant for rhoωπ, electroproduction of ω as test of, 25:27981 (DESY-71/11)
coupling constant for S*ππ, ratio to coupling constant for S*KK, (T), 25:25409
coupling constant for S*ππ, relation to coupling constant for S*NN, (T), 25:25409
coupling constant for ΣΣπ, PCAC hypothesis and SU(3) symmetry with pseudovector coupling for, (T), 25: 30904
coupling constant of fππ from spectral function sum rule, 23:25603
coupling constant of rho πγ from π exchange contribution to γ + p → rho⁰ + p interactions, 24: 49374
coupling constant of rhoωπ from sum rules relating rhoωπ and A_1rhoπ vertices to π electromagnetic form factor, 23:34587
coupling constant πN relative to ωN, six-dimensional field theory for ratio of, 23:1670
coupling constant ratio phirhoπ/ωrhoπ from asymptotic nonet SU(3) symmetry, 24:1634
coupling constants for Asigmaπ, sigmaππ, and sigmaAA vertices, broken scale invariance for ratios of, (T), 25:7646
coupling constants for π—N system for resonance baryon decays, 21:37812
coupling constants for π—N, for electromagnetic mass splittings of baryon octet, 21:33662
coupling constants for πAΣ from sum rules for π⁻ + Σ⁺ + π⁺ + Σ⁻ interactions, 23:18915
coupling constants for πN and πNN* from current algebra, 22:24632
coupling constants for πN, approximate bounds from analyticity, crossing, and unitarity on, 22:44439
coupling constants for πN, radiative corrections to, 22: 52987
coupling constants for πΣΛ and πΣΣ, 23:5622
coupling constants for πΣΣ from sum rules for π⁻ + Σ⁺ → π⁺ + Σ⁻ interactions, 23:18915
coupling constants for, SU(3) x SU(3) charge algebra and PCAC and PCVC hypotheses for sum rules for f/sub K⁺//f/sub π/, (T), 24:45572
coupling constants in A_1πγ and A_1rhoπ systems, vector dominance for correlation between, 24:26431
coupling constants of N*Nπ, regularity of, 24:49494
coupling constants of π—N, radiative corrections to, 23: 7151
coupling constants of rhoππ, predictions for, (T), 23: 46709
coupling constants of, bootstrap model of baryons in W(3) symmetry for ratios of, 23:25633
coupling in π + N → π + N and π elastic interactions, universality of two-pion isovector, 24: 33016 (DESY-70/18)
coupling of A_1rhoπ system, current algebra conditions on Veneziano amplitude for calculation of, 23:34597
coupling of Arhoπ, chiral SU(2) x SU(2) symmetry for, 23:27847 (DESY-69/13)
coupling of Arhoπ, pole-dominance approximation for current-algebra sum rules for, 22:26638
coupling of D_{13} πN state to S_{11} πΔ and S_{13} rho N states in π⁻ + p interactions at 400 to 700 MeV, (T), 23:8811
coupling of ΔΔπ, relation with NNπ, (T), 24:52030
coupling of N anti N π from N + anti N interactions, Bethe—Salpeter equations in ladder approximation for, 24:18170
coupling of NNπ, relation with ΔΔπ, (T), 24:52030
coupling of ωrhoπ in current algebra, rho-pole dominance in, 24:1579
coupling of ωrhoπ, chiral SU(2) x SU(2) Lagrangian in O(4) formalism for, 23:46784
coupling of ωrhoπ, SU(3) x SU(3) chiral transformation properties of, 24:40444
coupling of P' trajectory to π - N system, 24:35656
coupling of P' trajectory to π - π system, 24:35656
coupling of π - N system with rho, relation with low-energy parameters for, 24:35656
coupling of π and A_1 trajectoies by duality, 24:52071
coupling of π²sigma and π² sigma², equal-time commutation relations in renormalizable field theories in perturbation theory for, 23:39719
coupling of πAΣ from anti KN forward scattering dispersion relations, 23:42652
coupling of πN from divergence conditions, chiral-dynamic model of, 24:47450
coupling of πN, broken chiral symmetry for corrections to soft pion theorems for Goldberger—Treiman relation for, 24:37722 (UR-875-310)
coupling of πN, effect on nuclear forces of second-order nonlinear term in, (T), 25:20021
coupling of πN, forward dispersion relations for constant of, 24:6726
coupling of πN, nonlinear Lagrangian transformations of, 24:47451
coupling of πNN from meson dominance in meson—nucleon interactions, 23:42675
coupling of ππ and πω channels, inelastic unitary effects on, 21:18981
coupling of ππ, Adler—Weisberger universality of isovector, (T), 25:53167
coupling of rhoωπ from spectral-function sum rules, 23: 3727
coupling of rhoπN, divergence conditions for, 25:33747
coupling of rhoππ, chiral SU(2) x SU(2) symmetry for, 23:27847 (DESY-69/13)
coupling of soft, to hadron interactions at high energies, derivation of Weinberg chiral-symmetric, (T), 25:7570 (RLO-1388-589)
coupling of soft-, in hadron interactions, chiral-symmetric, 25:9783
coupling of Σ(1385)Σπ, from superconvergence sum rules, 23:32728
coupling ωπrho in γ + π → γ + π Compton scattering, Veneziano model for, 24:24296
coupling shifts for πNN and πNN*, Dashen—Frautschi method for calculating, 22:9614
coupling to baryons, ΔS = 0 PCAC hypothesis and SU(3) for, 21:33754
coupling to baryons, structure of vertex for, 21:9798
coupling to hadrons at low energies, S-matrix commutation with axial charge for universality of, (T), 25:9886 (DESY-70/57)
coupling to nucleon isobars, Bethe—Salpeter bootstrap model and strong-coupling model for, 21:37831
coupling with baryons, mass operator in SU(3) symmetric, (T), 25:20046
couplings of A_1rhoπ and rhoππ in quark model, PCAC hypothesis for, 24:49463
couplings of πNN and πNN* in Chew—Low model, electromagnetic perturbations on, 22:46440
couplings of πNN and πNN* in Chew—Low model, electromagnetic perturbations on, 22:46441
couplings to baryons, SU(3) approximation for, 23:23453
current algebra for, reference frame for deriving sum rules in, 23:15085 (ITF-68-53)
decay amplitude of, equality with K decay amplitude, 22:37129
decay amplitudes relative to mesons (K), renormalization to first order in SU(3)-symmetry of leptonic, 22:17949
decay constant for, modified PCAC hypothesis for, 25: 7616
decay constant in renormalized sigma model, 25:22781
decay constant ratio F/sub K//F/π/ from spectral function sum rules, 23:34592
decay constant relative to mesons (K), use of Weinberg sum rules for ratio of leptonic, 22:50343
decay constants and form factors of, charge-divergence commutators for, 24:52039
decay constants f/sub K//f/sub π/ in broken SU(3) x SU(3), ratio of, 25:38760
decay constants for K_{11} and π_{11}, relation between, 23: 21080
decay in interstellar space, electron spectrum from, (T), 21:3708
decay into hadrons, SO(4,3) group for hadron mass spectra and transition amplitude for, 25:43635
decay into lepton pairs, use of Weinberg sum rule for decay constant ratios relative to K decay, 22:17950
decay of cosmic, gamma spectra from, (T), 23:22945 (N-68-37754)
decay of cosmic, production of 10^{12}- to 10^{13}-eV mesons (μ) from, (E), 23:39604
decay of, Ademollo—Gato theorem violation in electromagnetic correction to electron production in, 24:37739 (RLO-1388-564)
decay of, asymptotic SU(3) for form factors of three-body leptonic, 23:3783
decay of, chiral Lagrangian in broken SU(3) x SU(3) for constant for two-body leptonic, 23:46772 (NP-18008)
decay of, current algebra and CVC for coupling constants in beta, 21:21196
decay of, current algebra for soft pion theory for, 23: 49117
decay of, current algebra predictions for leptonic, 21: 17148
decay of, current algebra threshold branching ratio predictions for, (T), 23:13098
decay of, current-algebra sum rules relating coupling constants for rho decay and, 22:48310
decay of, electromagnetic corrections and current algebra for leptonic, 21:44332
decay of, field algebra Lagrangian for beta, 22:18009
decay of, field theory and PCAC hypothesis for Kawarabayashi—Suzuki—Riazuddin—Fayyazuddin sum rule for, 22:22385
decay of, field-algebra Lagrangian model for radiative corrections to beta, 22:20323
decay of, formulation of relativistic quark field theory for relation of rho — π coupling constant with weak constant of, 22:29743 (DESY-68/11)
decay of, infinite multiplets from algebraic model of symmetry breaking for weak, 23:23516
decay of, K/π coupling constant ratio for two-body leptonic, 22:46485
decay of, lectures on, 22:46385
decay of, on-shell current algebra for form factors and coupling constants for radiative leptonic, (T), 25:5342
decay of, PCAC hypothesis for πrho contribution to error in Goldberger—Treiman relation for constant of, (T), 25:43611
decay of, phenomenological Lagrangian and dispersion theory for chiral algebra from chiral dynamics for, 24: 5309
decay of, radiative corrections in beta, 22:7469
decay of, renormalization of sigma model for constant in, 23:23533
decay of, review of current algebra for leptonic, 21: 40254
decay of, review on, (T), 24:21965
decay of, rigorous upper bound for form factor for K → π + l + ν decay for ratio of K and π decay constants for, (T), 25:53101 (NYO-4204-18)
decay of, scale transformations for hypothetical mass limit in two-body leptonic, (T), 25:17538
decay of, second-order radiative corrections for two-body leptonic, 23:44614 (IC-69/85)

decay of, six-fermion weak interaction in spectra and widths for four-lepton production in, (T), 25:5344
decay of, spectral function sum rules for leptonic, 22:32098
decay of, strong interaction effects in radiative corrections to beta, 22:39350
decay of, SU(3)-symmetry breaking effect in two-body leptonic, 22:46485
decay of, unified corpuscular field for modes and energies of, (T), 23:36915
decay of, violation of Ademollo—Gatto theorem in electromagnetic corrections to beta, 24:13158
decay π → 2γ from Hamiltonian with U(3) x U(3) breaking, 25:45787
decay π → 2γ, phenomenological analysis of, 21:42299
decay π → 2γ, SU(3) symmetry breaking in width of, (T), 24:40441
decay π → 2π in nuclear field, possible measurement of γ + π → 2π interactions from coherent, (T), 22:32084
decay π → e + τ + γ, A_1 and rho dominance in, (T), 22:13727
decay π → e + τ + e⁺ + e⁻, validity limits for quantum electrodynamics from, (T), 21:11765
decay π → e + τ + γ, current algebra calculation of probability of, (T), 23:15089
decay π → e + τ + γ, electromagnetic symmetry breaking by vector current in, 24:28530
decay π → e + τ + γ, hard-pion method for axial vector current in, 24:15532
decay π → e + τ + γ, symmetry breaking in photonic matrix elements of vector currents in, 24:28579
decay π → e + τ + γ, transversality condition for relation to SU(2) x SU(2) chiral symmetries for vector and axial-vector meson fields for calculation of axial part of amplitude of, (T), 25:14804
decay π → e + τ relative to π → μ + τ, effect of derivative coupling components in weak leptonic currents on, 23:49107
decay π → e + τ relative to π → μ + τ, theory of nonconserved angular momentum for, 23:44634
decay π → e + τ, electromagnetic field effect on probability for, (T), 23:23434
decay π → e + τ, three-point function for radiative corrections to, 23:7125
decay π → e + τ/sub e/ + γ, Cabibbo theory for, 22:15744
decay π → e⁺ + e⁻ + e + τ, low-energy Adler—Dothan theorem for amplitudes and form factor of, (T), 25:25385
decay π → eta + π, calculation of width for, 22:22368 (JINR-E2-3730)
decay π → γ + e + τ, CVC hypothesis for, 22:34934
decay π → K + anti K, calculation of width for, 22:22368 (JINR-E2-3730)
decay π → l + τ + γ, form factor in, 25:40969
decay π → l + τ + γ, form factors and transverse polarization in, (T), 25:1470
decay π → l + τ + γ, ratio of structure-dependent axial-vector to vector contribution in, 22:44396
decay π → l + τ + γ, sum rules for, 23:21081
decay π → l + τ + γ, three-point functions in current algebra for, 24:33001
decay π → l + τ, charged W-boson for weak structure effects in, (T), 24:49424
decay π → l + τ, K → l + τ, and kappa → l + τ, sum rule relating, 24:24317
decay π → μ + anti τ, model for, (T), 25:36464
decay π → μ + τ in nuclear emulsion stack, isotropy in, 23:18875
decay π → μ + τ in nuclear emulsions, isotropy of, (E), 22:44316
decay π → μ + τ, amplitude relative to K → μ + τ, 24:8609
decay π → μ + τ, analysis of deviations from V—A theory for, 23:39677
decay π → μ + τ, electromagnetic field effect on probability for, (T), 23:23434
decay π → μ + τ, perturbation theory for, 22:26616
decay π → μ + τ, Regge pion theory for unsubtracted dispersion relations in, 22:17922
decay π → μ + τ, relativistic formulation of quark model for branching ratio relative to K → μ + τ decay, 23:39714
decay π → μ + τ, soft-pion and -kaon limits of π + K Veneziano-type amplitude for form factor ratio with K → μ + τ decay for, 24:1562
decay π → μ + τ, superconductivity model of strong interactions with chiral SU(3) x SU(3) symmetry for, 22:17994
decay π → μ + τ, three-point function for radiative corrections to, 23:7125
decay π → μ + τ, unsubtracted dispersion relations and composite particles for, 22:7478 (OU-LNS-67-9)
decay π → τ + μ, quark model for rate of, 21:21285
decay π → π + e + τ + γ, low-energy Adler—Dothan theorem for amplitudes of, (T), 25:25385
decay π → π⁰ + e + τ, SU(3) symmetry for form factors of, 22:48288
decay π → π⁰ + l + τ + γ, saturation of sum rule for, 22:29690
decay π⁺ → μ⁺ + τ, scintillation counter study of, 21:25226
decay widths from algebraic formulation of superconvergence conditions, p-wave, 24:37850
decays of, effective Lagrangian from phenomenological model for semileptonic, 22:32112
decays of, radiative correction to beta, 21:44339
decays of, review on leptonic, 22:50344
decays of, stability of tensor operators under SU(3) perturbations for leptonic, 21:37880
decoupling of massless, gemel families in Bethe—Salpeter equation for, 23:25606
deflection of beams of, performance of electrodynamic separator deflector for, 21:19089 (JINR-P9-3165)
degeneracy with eta, duality in Veneziano model for, 24:47441
detection and discrimination at very high energies, development of negative electron affinity secondary emitter detectors for, 24:21014 (BNL-14466)
detection and discrimination from protons in cosmic radiation by energy loss in proportional detectors, 22:36044
detection and recording of stopped, design of telescope counter using scintillation detectors separated by attenuating filters for, 23:11797
detection in spark chambers, vidicon scanning system for track measurement and analysis in, 21:3288
detection of 3.5-GeV/c, efficiency of large area gas Cherenkov detectors for, 21:10651
detection of cosmic, at energies near or greater than 100 GeV, use of gas proportional detector for, 22:365
detection of high-energy, differential Cherenkov detector for, 25:44679 (IFVE-SEF-70-48)
detection of high-energy, thallium-activated sodium iodide total absorption detectors for, 24:4493
detection of very-high-energy, design of differential Cherenkov detector for, (E), 25:15937(T) (NAL-tr-3)
detection of, design of fast coincidence circuits for Cherenkov detectors for, 22:33690 (ZfK-121, pp 134-248)
detection of, efficiency of scintillation detectors for, 22:372
distribution for π⁺ + p → p + 5π(6π) interactions at 8 GeV/c, angular and momentum, 22:24550
distribution in cosmic showers, (T), 22:2832
distribution in extensive air showers, TeV-range, (E), 25:27477
dosimetry of high-energy, for radiobiological studies, 24:27440
dosimetry of, methods for, 21:24233
dynamics for A_1 rho π system, Lagrangian based on chiral SU(2) x SU(2), (T), 25:17477 (JINR-E2-5249)
dynamics of A_1rhoπ system, chiral SU(2) x SU(2), 25:9781
dynamics of, urbaryons in, 24:30519
effect of currents of, on nucleon magnetic moments in nuclei, (T), 21:27657
effects on (K_1^0 - K_2^0) mass difference, 21:15302
effects on cells in relation to use in radiotherapy, review of, 23:43842
effects on cultured cells from man, method for measuring RBE for, 24:29844 (UCRL-18793, pp 100-4)
effects on eyes of astronauts, light-flash, 25:47015
effects on lymphoma cells of mice, comparison of γ- and x-ray, to, 22:23418 (UCRL-17481, pp 145-53)
effects on lymphoma cells of mice, therapeutic, 22:23418 (UCRL-17481, pp 145-53)
effects on n + n and n + p interactions, instability, (T), 21:37851
effects on survival of tumor cells, evaluation of therapeutic efficiency of accelerator beams by, 25:32515 (LA-4653)
effects on tissues, effects of ionization, on absorbed dose, 22:38315
electromagnetic form factor from e polarization in π + e interactions, (T), 21:35279 (JINR-P2-3338)
electromagnetic form factor of, method for measuring, (T), 22:11949(R) (ORO-2972-47)
electromagnetic form factors for three-body state in S-matrix theory, 23:30834
electromagnetic properties of, comparison with mesons (K), 22:52961
electromagnetic radius from meson (π) reactions with helium-4 at 129 to 150 MeV/c, (E), 22:34829
electromagnetic radius of, effects on energy levels of π-mesic atoms, (T), 25:13994
electromagnetic radius of, from π⁺ + e scattering, (E/T), 22:46311 (NYO-2262-TA-193)
electromagnetic radius of, modified dispersion relations for numerical determination of, 23:18849
electromagnetic radius of, sidewise dispersion relations for relation with N electromagnetic radius, 22:32086
electromagnetic structure and ππ phase shift from e⁺ + e⁻ → π⁺ + π⁻ interactions, 22:24600
electromagnetic structure of, from meson (π⁻) and (π⁺) reactions with isoscalar nuclei, 21:27340
electroproduction and photoproduction of, dispersion relation theory for, 22:24604
electroproduction and photoproduction of, equal time commutator for, 25:7606
electroproduction in vector dominance model, 25:1464
electroproduction of, current algebra relations between nucleon form factors and amplitudes for, 24:52028
electroproduction of, vector meson dominance for, 25:38699
emission from accelerated nucleons, (T), 22:27391
emission from p + p interactions at 24 GeV/c, isobar production effects on transverse momentum from, (T), 22:13768
emission in anti p + N interactions at 3 GeV/c in emulsions, momentum spectrum and angular distribution for, (E), 22:46332
emission in meson decay, baryon—antibaryon model for, 22:26641
emission in meson decays, current algebra corrections for, 21:17109
emission in resonance decays, energy distribution for three-body, (T), 22:24573
emission in weak and strong decays in quark model, 21:44360
emission of soft, in minimal interactions, 21:2402
emission of soft-, in hadron processes, effects of, 25:9782
energy and angular distributions in copper shielding from 50- to 400-MeV electrons, intranuclear cascade model and electron—photon cascade calculations for, 23:49074 (ORNL-4443)
energy distributions of electrons and positrons from decay of, (T), 21:33066
energy level structure in medium-weight nuclei, study of 2p-level shifts and widths for 3d—2p transitions, (E), 22:27040
energy loss at 10 MeV to 100 GeV in silicon, calculations of average and most probable, (T), 25:42155
energy loss in nuclear emulsions at relativistic velocities, (E), 24:40234
energy loss to ionization in plastic scintillators, density effect and shell corrections to rate of, 25:48936
energy measurement of 1.3 to 130 GeV/c, system for detecting transition radiation for, 23:7791(T) (NP-tr-1717)
energy measurement of beams of, resolution of lithium-drifted silicon ΔE detectors for, 23:29196
energy of 30- to 150-MeV, use of nuclear emulsions for measurements of, 22:6645
energy range in bubble chambers, analytical formulas for calculating, 22:30865
energy spectra from K⁺ → 3π decay in propane bubble chamber, (E), 24:32960
energy-level transitions in sodium-23, energy and width of 2p-1s, 23:1174
energy-loss distributions in silicon radiation detectors at 370 MeV, (E), 21:278 (UCRL-16931)
exchange amplitude interference in n + p charge-exchange interactions at 50 to 1000 MeV, (T), 24:52120
exchange contribution to baryon magnetic moments in quark model, 22:5531
exchange contribution to N + N scattering, two-body, 25:9807
exchange contribution to nucleon-nucleon binding in e + d → e + p + n interactions, (T), 25:56527
exchange contributions to N + N interactions, three-body, (T), 24:8682
exchange contributions to p + p → Y + K + N interactions, (T), 25:14597
exchange degeneracy in π—B model for rho(ω⁰) + Δ⁺⁺ production in π⁺ + p → rho⁰(ω⁰) + Δ⁺⁺ interactions, (T), 24:45536
exchange dominance in p + p → n + Δ⁺⁺(1236) interactions at 13.0 to 24.2 GeV/c in hydrogen bubble chamber, (E), 24:26371
exchange effects in nuclear beta decay, 21:35531
exchange in anti N + N and N + N interactions, Regge pole conspiracy for, 21:35305
exchange in associated Δ(1236) and rho production in π⁺ + d → p + p + π⁺ + π⁻ + π⁰ interactions at 4.19 GeV/c in deuterium bubble chamber, (E), 24:21936 (COO-1195-179)
exchange in decuplet baryon decay, quark model for currents in, 22:32150
exchange in diffractive γ + p → rho⁰ + N + mπ interactions at 5 to 100 GeV, (T), 25:3308 (DESY-70/45)
exchange in e + N and γ + N interactions, Δ(1236) production amplitudes from Bethe—Salpeter wave function with, 23:51879 (DESY-69/33)
exchange in e + N, N + N, and π + N interactions, (T), 21:37856
exchange in elastic N + N interactions at 25 to 330 MeV, coupling constant and mass for, 21:35315 (JINR-E1-3420)
exchange in elementary particle interactions, current status of study on, 24:30522 (CONF-690521-, pp 533-61)
exchange in γ + d interactions below 160 MeV, (T), 21:46516
exchange in γ + N and rho + N interactions, vector dominance model with polarization for one-body, 22:24582 (DESY-68/4)
exchange in γ + N interactions, low t theorem formulation by minimal gauge invariant extension of, 24:26391 (CALT-68-245)
exchange in γ + p → rho⁰ + p interactions, (T), 23:42594
exchange in γ + p and p + p peripheral interactions, model with form factor for total cross sections for resonance production in, 23:51954
exchange in hadron interactions, validity of theory for, 22:7491
exchange in K⁺ + n → K(890) + p interactions at 9 GeV/c in deuterium bubble chamber, (E), 25:43548 (COO-1428-283)
exchange in K⁺ + n → K(890) + p interactions at 9.1 GeV in deuterium bubble chamber, (E), 25:43547 (COO-1428-281)
exchange in K⁺ + p → K⁰ + p and p + p → N_{11}^{0} + p interactions, shrinking nature of diffraction amplitude for, 21:40222
exchange in K⁻ + p → K⁰ + π + N interactions at 3 GeV/c, 24:49336
exchange in leptonic interactions, model for, 22:46376 (IC-68/76)
exchange in Λ + N interactions in Λ-He⁴—Λ-Li⁴ isodoublet, two-body, 22:39435
exchange in Λ + N interactions, one-body, 21:40236
exchange in ΛNN interactions, effects on Λ-H³ and Λ-He³ binding energies, 21:40239
exchange in model for π⁻ + p → 2π⁻ + π⁺ + p interactions at 3.9 GeV/c, 23:36836 (UH-511-48-69)
exchange in N + N → N + N interactions below 3.0 MeV, theory for one- and two-body, 22:39430
exchange in N + N → N + N interactions, relativistic one-boson-exchange model for, (T), 25:53224 (DESY-71/34)
exchange in N + N → N + N interactions, velocity-dependent exchange potentials in Born approximation for, 22:3467
exchange in N + N interactions at 10 to 350 MeV, effects of two-body, 24:13119
exchange in N + N interactions at 95 and 310 MeV, contributions of two-body, 23:15150
exchange in N + N interactions at high energies, absorption model for form factors for, 21:40240
exchange in N + N interactions at low energies, (T), 22:1453
exchange in N + N interactions below 350 MeV, boundary condition model for, 21:37853

exchange in N + N interactions in intermediate region, effects of three-body, 22:13774
exchange in N + N interactions in nuclei, contribution to nuclear forces in, (T), 22:39431
exchange in N + N interactions with T = 0, two- and three-body, (T), 23:39747
exchange in N + N interactions, (T), 21:21252
exchange in N + N interactions, (T), 21:37854
exchange in N + N interactions, (T), 21:21250 (UCSD-10-P-10-21)
exchange in N + N interactions, calculation of one-pion-exchange diagram in U(6,6) for, 25:20021
exchange in N + N interactions, contributions from two-body, 21:2483
exchange in N + N interactions, contributions of two-body, 25:36526
exchange in N + N interactions, contributions to field theoretic potential for, 23:15153
exchange in N + N interactions, effects of mass and coupling-constant differences on, (T), 25:20021
exchange in N + N interactions, local approximation to potential for, 25:30911
exchange in N + N interactions, one-boson-exchange approximation for, (T), 25:20024
exchange in N + N interactions, potential for, (T), 24:30534
exchange in N + N interactions, potential with nucleon-pair effects for two-body, 21:27387
exchange in N + N interactions, potentials with nucleon-pair effects for two-body, (T), 21:25575
exchange in N + N interactions, two- and three-body, (T), 23:39750
exchange in n + p $\rightarrow$ 2p + π^- interactions at 2 to 30 GeV, Reggeized one-pion-exchange model for, (T), 25:56521 (JINR-P1-5975)
exchange in n + p $\rightarrow$ d + γ interactions at low energies, (T), 24:51946
exchange in n + p interactions at high energies, polarization experiments for test of long-range, (E), 24:12937
exchange in n—p and photoproduction interactions, 22:24684
exchange in p + p $\rightarrow$ d + e^+ + τ interactions and beta decay of mirror nuclei, corrections for, 24:21993
exchange in p + p $\rightarrow$ p + n + π^+ interactions at 28.5 GeV/c, double Regge pole model for, 22:46328
exchange in p + p $\rightarrow$ p + p elastic interactions at 5 to 30 GeV, (T), 24:13121
exchange in p + p interactions at 970 MeV, model for, 21:25319
exchange in p + p interactions below 300 MeV, meson—nucleon coupling constants from, 21:37857
exchange in production processes, Reggeization of, 22:11681
exchange in π + N $\rightarrow$ 2π + N interactions, Regge residues in Veneziano model for density matrices of spin-1 and -2 resonances from, 23:51933
exchange in π + N $\rightarrow$ rho + N interactions, 24:30522 (CONF-690521-, pp 533-61)
exchange in π + N $\rightarrow$ rho + N interactions, Reggeization of, 25:38751
exchange in π + N $\rightarrow$ rho + N^* interactions, Regge pole model for, 22:24658
exchange in π + N interactions at 4 GeV/c, one-particle exchange model for, 22:9608
exchange in π + N interactions, source theory for, 24:5263
exchange in π^+ + d $\rightarrow$ 2p + π^+ + π^- + π^0 interactions at 4.19 GeV/c in deuterium bubble chamber, simultaneous production of rho and Δ(1236) from, (E), 25:12112
exchange in π^- + p $\rightarrow$ K^0 + anti K^0 + n interactions at 4 and 6.2 GeV/c, spark chamber study of, (E), 25:17385
exchange in π^- + p $\rightarrow$ π^- + rho^0 + p interactions at 8 GeV/c in hydrogen bubble chamber, 21:29462
exchange in π^- + p $\rightarrow$ rho^0 + n interactions, forward structure from, 23:39726
exchange in π^- + p $\rightarrow$ sigma + n interactions at high energies, nonfactorization of, (T), 24:6727
exchange in π^- + p interactions near 1 GeV, peripheral model for, (T), 25:5376
exchange in quasi-two-body hadron interactions, coherent droplet model with, (T), 25:14722
exchange in $rho^0\Delta^{++}$ production in π^+ + p $\rightarrow$ 2π^+ + π^- + p interactions at 3.7 GeV/c in hydrogen bubble chamber, (E), 24:45441
exchange in strong interactions at high energies, dips and spikes in t dependence of differential cross sections for, 25:53138
exchange of π + eta in N + N interactions in nuclei, contribution to nuclear forces in, (T), 22:39431
exchange potential of γ—π, charge-symmetry violating effects in Λ + N interactions, 23:27812
exchange process in N + N interactions, charge-dependent effects of photon—meson (π), (T), 23:5639
existence of multipion bound states, 22:26632
existence of scalar, isovector analog to, 22:50329
field length dimensions of, partially conserved dilatation current and chiral symmetry for, 25:1622
field of massless, Stueckelberg formulation of isovector axial-vector, 24:3752
field of, PCAC hypothesis for SU(2) chiral commutation relation for, 24:26471
field theory for, PCAC relation for, 21:17178
field theory for, ratio of wave function renormalization constants of mesons (π) and (K) in SU(3) in, 23:42724
field theory in de Sitter space for, two-quark interaction in formulation of nonlocal, 22:48304
flux in cosmic radiation at atmospheric depth of 976 gcm^{-2} at 12 to 15 GeV, spark chamber study of ratio to nucleons for, (E), 25:43621
form factor, 22:32100
form factor and mean-charge radius of, rho dominance for, 24:3562
form factor effects on cross sections for e + p $\rightarrow$ e + n + π^+ interactions, (T), 25:33618
form factor for, elastic unitarity for relation with Veneziano amplitude of π + π interactions for electromagnetic, (T), 24:45524
form factor for, electromagnetic, (T), 22:15719
form factor for, electromagnetic, (T), 24:24312
form factor for, functional and Breit—Wigner formula for analytical properties of, (T), 25:30864
form factor for, generalized vector dominance for ratio of two gamma functions for vector, 24:8629 (COO-264-525)
form factor for, hard pion current algebra for Veneziano-like, 24:40365
form factor for, hard-pion effective-range formula for, 23:46716
form factor for, isotopic invariance violation in, 21:23317 (JINR-E2-3224)
form factor for, model for hadrons as extended objects for spacelike and timelike, (T), 25:53151
form factor for, model with duality and Regge asymptotic behavior for meson (π) electromagnetic, 24:12987
form factor for, Regge formalism for e + N $\rightarrow$ π + N interactions at high energies for electromagnetic, 24:3592
form factor for, smoothed Veneziano-like, (T), 25:7638 (DEMO-70/17)
form factor for, unitarity and vector meson dominance for hard-pion effective-range formula for, 24:20146
form factor for, Veneziano-type representations for, (T), 25:59352
form factor from Chou—Yang model for elastic π + p interactions, 23:23413
form factor from Coulomb interference in π + α elastic interactions at 24 MeV, electromagnetic, 22:3339
form factor from cross sections with radiative corrections for π + e $\rightarrow$ π + e interactions electromagnetic, (T), 24:10717
form factor from e^+ + e^- $\rightarrow$ phi $\rightarrow$ π^+ + π^- interactions at 2 x 510 MeV, (E), 25:47710 (NP-18933)
form factor from e^+ + e^- $\rightarrow$ π^- + π^+ interactions, dispersion sum rules for, 23:16956
form factor from e^+ + e^- $\rightarrow$ π^+ + π^- interactions, electromagnetic, (E), 23:14947
form factor from e^+ + e^- $\rightarrow$ π^+ + π^- interactions, relativistic resonance formula for analysis of, (E/T), 23:39593 (NYO-3399-193)
form factor from e^+ + e^- $\rightarrow$ π^+ + π^- interactions, upper and lower bounds on, 25:53069
form factor from effective range formula and nucleon annihilation amplitude, 23:25563
form factor from extrapolation of differential cross sections for elastic π + p interactions to infinite energies, 24:18204
form factor from γ + N $\rightarrow$ N + π interactions, sum rule for, 22:34927
form factor from γ circular polarization in e^+ + e^- $\rightarrow$ π^+ + π^- + γ interactions, phase of, 23:30728
form factor from inelastic e + d interactions, 22:11611
form factor from K^0 $\rightarrow$ π^- + μ^+ + τ and anti K^0 $\rightarrow$ π^+ + μ^- + anti τ decays, electromagnetic, (T), 21:42325 (ITEF-492)
form factor from meson (π) elastic scattering by helium-4 at 51 to 75 MeV, (E), 23:32602
form factor from meson (π) scattering by helium-4, electromagnetic, (T), 21:11777
form factor from multiple quark analysis of consistency relations among diffraction cross sections for p + p, anti p + p, π + p, and π + π elastic interaction diffraction cross sections, (T), 22:32116
form factor from N/D equation for $\pi\pi$ partial-wave amplitude, electromagnetic, 24:49399
form factor from π + π scattering amplitude in Veneziano model, electromagnetic, 24:20150
form factor from π production in e + N interactions beyond resonance region, model for, (E/T), 25:43583 (DESY-71/22)
form factor from π^- and π^+ elastic scattering by helium-4 at 85 and 148 MeV/c, electromagnetic, (T), 22:7474
form factor from scattering amplitude in Veneziano model, electric, 25:5338
form factor from soft-pion and Venezians amplitudes for virtual Compton γ + π interactions, 23:42593
form factor from unitarized Veneziano model, electromagnetic, 25:30860
form factor from Weinberg sum rules in Veneziano model, 24:47445
form factor in dual resonance model, electromagnetic, 25:43593
form factor in e^+ + e^- $\rightarrow$ π^+ + π^- and e^- + $\pi^+(\pi^-)$ $\rightarrow$ e^- + $\pi^+(\pi^-)$ interactions, dispersion relation and sum rules for, 23:32662
form factor in nonlocal field theory of quark model, electromagnetic, 24:49460
form factor in O(4,2) theory, 22:24706
form factor in space-like region from value of its modulus in time-like region, electromagnetic, 23:36888
form factor in Veneziano model, elastic unitarity for electromagnetic, 24:37695
form factor in Veneziano model, electromagnetic, 25:38737
form factor in Veneziano representation, electromagnetic, 24:37694
form factor in Veneziano-like model, electromagnetic, 25:7605
form factor in Veneziano-like models, unitarization of electromagnetic, 24:15515
form factor of, 23:18857
form factor of NNπ vertex, phase representation for, 24:12959
form factor of, Bethe—Salpeter model for electromagnetic, 24:8583 (DESY-69/43)
form factor of, bootstrap formalism for electromagnetic, 23:25544 (BMwF-FBK-68-60)
form factor of, bounds on electromagnetic, 23:18856
form factor of, charge—divergence commutator for electromagnetic, 22:5528 (JINR-E2-3558)
form factor of, contributions of π + π inelastic channels to electromagnetic, (T), 25:14597
form factor of, dispersion relations and dispersion sum rules for values at space- and time-like momentum transfers for electromagnetic, (T), 25:38707
form factor of, dispersion theories for electromagnetic, 23:39662
form factor of, e + p $\rightarrow$ e + π^+ + n interactions at high energies for, (T), 24:52009
form factor of, effect of higher-mass vector mesons on peak near rho mass for, (T), 24:40376
form factor of, effective-range formula for Veneziano-like electromagnetic, (T), 25:22756
form factor of, electromagnetic, 22:46369
form factor of, electromagnetic, (E), 23:7076 (LAL-1203)
form factor of, extension of unitarized Veneziano model for electromagnetic, 24:12977
form factor of, hard-meson calculation of, 24:45510
form factor of, hard-meson current algebra for, 24:8699
form factor of, hard-pion current algebra calculation of electromagnetic, 23:3722
form factor of, integral equation for, 21:44315
form factor of, KSFR relation from super convergence of, 24:20112
form factor of, light-cone properties of axial-vector and electromagnetic current commutators for, (T), 25:19941
form factor of, low-momentum transfer behavior of gravitational, 25:53336
form factor of, matrix elements of operators of class-I representations of SL(n,C) symmetry for electric, 22:44470
form factor of, method for measuring electromagnetic, (T), 23:1614
form factor of, model for dipole electromagnetic, (T), 25:36436 (ORO-3992-28)
form factor of, phi $\rightarrow$ π^+ + π^- decay for, (E), 25:22661
form factor of, π^- and π^+ scattering by helium-4 at 53 to 75 MeV for electromagnetic, (E), 24:45454
form factor of, review of data on electromagnetic, (E), 24:10723
form factor of, rho contributions in cross channels of π + π scattering amplitude to electromagnetic, 24:24345
form factor of, Schroedinger equation in nonrelativistic composite model for electromagnetic, (T), 25:28030
form factor of, unitarity in Veneziano-like models for electromagnetic, 24:28505 (LNF-69/58)
form factor of, universal isovector current for, 24:32984
form factor of, use of asymptotic SU(3) symmetry for relation between K $\rightarrow$ π + l + τ decay form factor and, 25:38695
form factor of, use of continuous dispersion sum rules for electromagnetic, 25:38700
form factor of, Veneziano amplitudes consistent with PCAC conditions for electromagnetic, (T), 25:40984
form factor of, Veneziano-type vertex function for meson (π) and scalar meson production in meson (π) interactions with vector mesons for electromagnetic, 24:12978
form factor ratio F/sub K//F/sub π/ dependence on symmetry-breaking parameter of vacuum states, 25:12198
form factor relation with amplitudes of π + π $\rightarrow$ π + $\pi(A_1)$ interactions in Veneziano model, current algebra for electromagnetic, 23:51927
form factor using current algebra and Veneziano model, electromagnetic, 24:37728
form factor with dipion unitarity, construction of electromagnetic, 25:3330
form factor with infinite number of zeros in complex plane, electromagnetic, (T), 25:45700
form factor, formulation of electromagnetic, 23:18841
form factors for, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for sum rules and ratios for, 24:3726
form factors for, class of quantum fields for electromagnetic, 23:49159
form factors for, cross sections for e + p $\rightarrow$ e + n(p) + $\pi^0(\pi^+)$ interactions near threshold for electromagnetic, (E), 24:12921
form factors for, current algebra for, 21:17073
form factors for, measurement using meson (π^{+-}) elastic scattering by helium-4, (T), 21:42557
form factors for, vector dominance model for, 21:31553 (DESY-67/13)
form factors from Coulomb scattering, (E/T), 23:49072 (CERN-69-22)
form factors from current algebra and Regge amplitudes, electromagnetic, 24:12982
form factors from current algebra, Regge poles, and Veneziano model, axial-vector, 25:59356
form factors from meson (π) scattering by helium-4 at 53 to 75 MeV, electromagnetic, (E), 23:36835 (UCRL-19208)
form factors from SO (5,2), 23:18948
form factors from Veneziano amplitudes for π + π $\rightarrow$ π + π and π + π $\rightarrow$ π + A_1 interactions, electromagnetic, 24:8645
form factors from Veneziano amplitudes of π^+ + π^- $\rightarrow$ $\pi^+(A_1)$ + π^- interactions, 23:46709
form factors in quark model, charge, 22:52977
form factors of, 23:49096
form factors of, asymptotic behavior of, 23:8778
form factors of, asymptotic bounds on electromagnetic, (T), 24:32996
form factors of, bounds on elastic and inelastic, (T), 24:40313
form factors of, contribution to μ magnetic moment, 22:29660
form factors of, data from e + N inelastic scattering, 23:5512 (SLAC-PUB-502)
form factors of, dipole model of rho for isovector, 23:5618

form factors of, infinitely rising Regge trajectories for electromagnetic, (T), 24:40316
form factors of, lower bound for decrease of electromagnetic, 23:30731
form factors of, lower limit in large momentum transfer region for decreasing electromagnetic, 23:15016 (IFVE-STF-68-32-K)
form factors of, Regge pole theory and systems of integral equations for convergence of electromagnetic, 24:10702
form factors of, relation between bootstrap hypothesis and electromagnetic, 25:7583 (BMBW-FBK-70-21)
form factors of, rho + rho' model for, 24:8598
form factors of, sum rule for energy—momentum structure, (T), 25:40982
form factors of, theory and review of, 23:10782
form-factor slope from $\pi^0 \rightarrow \gamma + e^+ + e^-$ decay, (E), 24:3499
form-factor slope from $\pi^- + p \rightarrow n + e^+ + e^-$ interactions at rest, (E), 24:3499
formation in cosmic rays, (E), 22:2826
gauge invariance and low-energy theorems for, 23:42667
generation in high-energy nucleon interactions with nuclei, (T), 22:2835
generation in iron by high-energy nucleons, 22:2823
generation of clouds of, in very-high-energy interactions, (T), 22:2837
Goldberger—Treiman relation for composite, 22:3392
interaction vertex for $NN\pi$ in renormalized sigma model, 25:22781
interaction vertex $\omega\pi\rho$ in chiral SU(3) x SU(3) symmetry, 24:37772
interactions $A + \pi \rightarrow A + \pi$ in Veneziano model, effect of spin and isospin on amplitude for, 24:30515
interactions $A + \pi \rightarrow A + \pi$, Veneziano amplitude for, (T), 25:59464
interactions $A + \pi \rightarrow \pi + \pi$ in Veneziano model, effect of spin and isospin on amplitude for, 24:30515
interactions $A_1 + \pi \rightarrow A_1 + \pi$ in Veneziano model, amplitude for, 25:43629
interactions $A_1 + \pi \rightarrow A_1 + \pi$, minimal factorized Veneziano amplitudes for, 25:1515
interactions $A_1 + \pi \rightarrow A_1 + \pi$, partial-wave analysis and asymptotic behavior of amplitudes for, 22:52976
interactions $A_1 + \pi \rightarrow A_1(\pi) + \pi$, Veneziano model for amplitudes of, (T), 25:14695
interactions $A_1 + \pi \rightarrow \omega + \pi$, construction of dual Veneziano amplitudes for, 25:7642
interactions $A_1 + \pi \rightarrow \pi + \pi$, minimal factorized Veneziano amplitudes for, 25:1515
interactions $A_1 + \pi \rightarrow \pi + \pi$, PCAC and Veneziano model for relation with $\pi + \pi \rightarrow \pi + \pi$ amplitude for, 23:30748
interactions $A_1 + \pi \rightarrow \pi + \pi$, Veneziano amplitude for off-mass-shell, (T), 25:14698
interactions $A_1 + \pi \rightarrow \pi + \pi$, Veneziano model for off-mass-shell amplitude of, 24:28541 (JINR-E4-4959)
interactions $A_1 + \pi$, dispersion theory and hard-pion current algebra for, 23:23463
interactions and mass differences of, effect of Coulomb potentials on symmetry breakdown for, 21:13705
interactions at 3.0 to 7.0 GeV/c with large momentum transfer, review of two-body, (E), 22:39268 (CERN-68-7(Vol.1), pp 252-89)
interactions at low energies, equal-time commutators for amplitudes of, 23:39740
interactions $e + \pi \rightarrow e + A_2$, cross sections and polarization effects in, (T), 23:13058
interactions $e + \pi \rightarrow W^- + \tau + \pi$ at 30 to 300 GeV, total cross sections for, (T), 25:43603
interactions $e + \pi$ at ultrahigh energies, polarization effects in, (T), 22:39320
interactions eta + $\pi \rightarrow$ eta + π, crossing-symmetric Regge-pole model for, 24:28546
interactions eta + π, chiral Lagrangian and Veneziano models for, 24:10750
interactions $\gamma + 3\pi$ in $\pi + p \rightarrow \pi^- + p + \gamma$ interactions, final-state, (T), 22:24651
interactions γ + N, variational method for chiral symmetry for Reggeized tadpole model for amplitude of, (T), 25:22748
interactions $\gamma + \pi \rightarrow 2\pi$, coherent dissociation $\pi \rightarrow 2\pi$ in nuclear field for possible measurement of, (T), 22:32084
interactions $\gamma + \pi \rightarrow 2\pi$, parton model for dual amplitude for, 25:43592
interactions $\gamma + \pi \rightarrow$ anti N + N in t-channel, contribution to amplitude for meson resonance production, (T), 22:22357
interactions $\gamma + \pi \rightarrow \gamma + \pi$ near threshold, sum rules, rho dominance, and amplitude of, 22:29665
interactions $\gamma + \pi \rightarrow \gamma + \pi$, dynamical theory for, 21:25287
interactions $\gamma + \pi \rightarrow \gamma + \pi$, $\omega\pi$rho coupling in Veneziano model for Compton, 24:24296
interactions $\gamma + \pi \rightarrow \gamma + \pi$, parametrization of amplitude for Compton, (T), 25:12177
interactions $\gamma + \pi \rightarrow \gamma + \pi$, sum rules and field algebras for Compton, (T), 25:38709
interactions $\gamma + \pi \rightarrow \gamma + \pi$, threshold vector dominance hypothesis for Compton, 22:5544
interactions $\gamma + \pi \rightarrow \gamma + \pi$, Veneziano parametrizations of amplitude for, 23:42624
interactions γ + $\pi \rightarrow$ N + anti N at high energies, translation of symmetry properties of helicity amplitudes for polarization in, (E/T), 23:46656
interactions γ + $\pi \rightarrow$ N + anti N, analyticity properties of helicity amplitudes of, 22:39341
interactions $\gamma + \pi$ + N $\rightarrow \gamma + \pi$ + N, field-theoretic method for feedback in calculations of (π - p) mass difference in amplitude of, 24:26402
interactions $\gamma + \pi \rightarrow \pi + e + \tau$ near threshold, sum rules, rho dominance, and amplitude of, 22:29665
interactions $\gamma + \pi \rightarrow \pi + \gamma$, epsilon$\gamma\gamma$ and f$\gamma\gamma$ coupling constants from finite-energy sum rules for, (T), 25:56463
interactions $\gamma + \pi \rightarrow \pi + \pi$ and $\gamma + \pi \rightarrow \gamma + \pi$, exchange of meson resonances in, 22:48270
interactions $\gamma + \pi \rightarrow \pi + \pi$ in Veneziano model, π^0 lifetime from, 24:40314
interactions $\gamma + \pi \rightarrow \pi + \pi$, γ—3π coupling constant from off-mass-shell extrapolation of Veneziano amplitude for, 24:26392 (COO-427-98)
interactions $\gamma + \pi \rightarrow \pi + \pi$, hard-meson current algebra and PCAC model for γ—3π coupling constant and form factor for, 25:59382
interactions $\gamma + \pi \rightarrow \pi + \pi$, hard-pion current algebra for, 25:22799
interactions $\gamma + \pi \rightarrow \pi + \pi$, kinematics and cross sections for, (T), 25:17492
interactions $\gamma + \pi \rightarrow \pi + \pi$, null-spinor and current-conservation gauge conditions for, 24:15522
interactions $\gamma + \pi \rightarrow \pi + \pi$, use of current algebra and PCAC for γ—3π coupling constant in, 22:37114
interactions $\gamma + \pi$ + rho, dispersion relations for upper limit for constant of, 24:28472
interactions $\gamma + \pi \rightarrow$ rho$^0 + \pi$, parametrization correlating s-channel helicity conservation and mass-dependent phenomena in, (T), 25:17485
interactions $\gamma + \pi$ at high energies, method for measuring total cross sections for, (T), 25:17436
interactions $\gamma + \pi$ at low energies, dispersion theories for π production from, 23:39662
interactions $\gamma + \pi$ with virtual photons, dispersion relations and hard-pion SU(2) x SU(2) current algebra for, 23:15029
interactions $\gamma + \pi$, dispersion sum rules for, 23:1616
interactions $\gamma + \pi$, invariant amplitudes for Compton, (T), 22:50340
interactions $\gamma + \pi$, low-energy theorem and sum rule for Compton, 21:42303
interactions $\gamma + \pi$, low-energy theorems and invariant amplitudes for Compton, 22:50324
interactions $\gamma + \pi$, low-energy theorems for Compton, 22:34905
interactions $\gamma + \pi$, low-energy theorems in S-matrix theory for isovector Compton, 22:34930
interactions $\gamma + \pi$, low-energy theorems to e^4 order for Compton, 22:48272
interactions $\gamma + \pi$, particle interaction constants from amplitudes of, (T), 22:13698
interactions $\gamma + \pi$, π electromagnetic form factor from Veneziano and soft-pion amplitudes for virtual Compton, 23:42593
interactions $\gamma + \pi$, π electromagnetic mass shift and spectral function for, 23:18863
interactions $\gamma + \pi$, sum rules for forward, 23:8784
interactions $\gamma + \pi$, sum rules for virtual Compton, 22:37111
interactions $\gamma + \pi$, use of gauge invariance in formalism of covariant Reggeization for Compton, (T), 24:20104
interactions $\gamma + \pi$, Veneziano model for Compton, 24:24273
interactions $\gamma + \pi$, Veneziano models for virtual Compton, 24:15516
interactions in carbon to 300 GeV, performance of cloud-chamber—ion-chamber stack for measuring cosmic, 21:30725
interactions in eta $\rightarrow 3\pi$ and $K^+ \rightarrow 3\pi$ decays, Faddeev equations for final-state, 21:907 (UCR-34-P-107-35)
interactions in K $\rightarrow 3\pi$ and eta $\rightarrow 3\pi$ decays, final-state, (T), 22:46367
interactions in nuclear emulsions at 16.2 GeV/c, production of fast deuterons and tritons in, (E), 22:34846
interactions in nuclear emulsions at 200 GeV, intranuclear cascade model for, 22:46449
interactions involving even number of, modified Veneziano amplitude for, 25:1658
interactions involving $\pi K\Xi$ and πKA, superconvergent sum rules for linear combination of amplitudes of elastic, (T), 23:39706
interactions involving six, Veneziano-type amplitudes with ω-coupling for, 24:37773
interactions involving zero-mass, Veneziano model for, 25:25401
interactions $K + \pi \rightarrow K$ + eta in Veneziano model, SU(3) structure for internal symmetry from, 25:5370
interactions $K + \pi \rightarrow K$ + eta, chiral SU(3) X SU(3) theorems for amplitudes of, 24:18163
interactions $K + \pi \rightarrow K + \pi$ in $K^- + d \rightarrow K^- + \pi^- + 2p$ interactions at 12.6 GeV/c, cross sections for, (E), 25:59283
interactions $K + \pi \rightarrow K + \pi$ in Veneziano model, SU(3) structure for internal symmetry from, 25:5370
interactions $K + \pi \rightarrow K + \pi$, Chew—Low extrapolation for cross sections of, 24:20144 (NP-18127)
interactions $K + \pi \rightarrow K + \pi$, chiral-symmetry and dual model amplitudes for, 25:1588
interactions $K + \pi \rightarrow K + \pi$, self-consistent couplings of 1^- and 2^+ nonets to 0^- mesons for, 22:32126
interactions $K + \pi \rightarrow$ K/sub A/ + π, K/sub A/ decay widths and K/sub 14/ form factors from Veneziano amplitudes for, 25:17493
interactions $K + \pi$ at low energies, dispersion relations for s- and p-waves and kappa(1100) production in, (T), 23:46698 (JINR-P2-4375)
interactions $K + \pi$ at low energies, S-, P-, and D-wave phase shifts for, 22:5670
interactions $K + \pi$ from Chew—Low extrapolation of $K^+ + p$ interactions, phase shifts for, 25:56486
interactions $K + \pi$ from $K^+ + p \rightarrow K^0(K^+) + \pi^0(\pi^+) + \Delta^{++}$ interactions at 2.5 to 5.0 GeV, rotation of symmetry axis in, 25:59502
interactions $K + \pi$ from $K^+ + p \rightarrow K^+ + \pi^- + \pi^+ + p$ interactions at 7.3 GeV/c, scattering lengths, phase shift, and moments for, (E), 23:13037
interactions $K + \pi$ in broken chiral SU(3) x SU(3), S-wave scattering length for, 25:12237
interactions $K + \pi$ in $K \rightarrow l + \pi + \tau$ decay, s-wave, 22:41783
interactions $K + \pi$ in $K + p \rightarrow K + \pi + p$ interactions with Regge pole and cut exchange, phase shift determination for, (T), 25:33750
interactions $K + \pi$ in K^- + p and K^- + n interactions at 3 GeV in bubble chamber, s-wave, (E), 25:56426 (FRNC-TH-53)
interactions $K + \pi$ in Veneziano model, Adler—Weisberger sum rules for, 24:18176
interactions $K + \pi$, broken chiral symmetry and Veneziano model for, 24:1573
interactions $K + \pi$, CDD poles in effective range formula for form factors of, 25:59466
interactions $K + \pi$, current algebra analysis of, 24:30505 (CONF-690521-, pp 619-47)
interactions $K + \pi$, current algebra and elastic unitarity for S-wave, 25:53164
interactions $K + \pi$, current algebra equal-time commutator for meson scalar density matrix elements from scattering length of, 24:6724
interactions $K + \pi$, current algebra equal-time commutator for low-energy limits of meson (K) four-body leptonic decay form factor from amplitude expansion for, 24:6724
interactions $K + \pi$, current-algebra model of S-wave phase shifts for, 22:46405
interactions $K + \pi$, currents and current commutators for scattering lengths for, 22:11706
interactions $K + \pi$, effects of peripherally produced N^* states in $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ interactions on phase shifts for, (T), 24:3663
interactions $K + \pi$, elastic cross section from $K^- + n \rightarrow p + K^- + \pi^-$ at 3 GeV/c, (E/T), 25:3278
interactions $K + \pi$, hard-meson calculation of scattering lengths for, 25:33701
interactions $K + \pi$, high-energy contributions to current-algebra sum rules for, 23:23465
interactions $K + \pi$, $K^*(890)$ width from multiperipheral model of, (T), 24:40378
interactions $K + \pi$, N/D and Regge pole method for phase shift analysis of, 23:5645 (NP-17659)
interactions $K + \pi$, phase shifts and off-shell dependence from unitarized Veneziano formula, 24:30504 (CONF-690521-, pp 562-618)
interactions $K + \pi$, phase shifts from form factors of $K \rightarrow \pi + l + \tau$ decay, 24:49473
interactions $K + \pi$, review of, (E/T), 25:17483
interactions $K + \pi$, review on experimental studies of, 24:30456 (CONF-690521-, pp 446-76)
interactions $K + \pi$, s- and p-wave phase shifts from $K \rightarrow \pi + l + \tau$ decay form factors, 24:15594
interactions $K + \pi$, S-matrix calculation of form factors for $K \rightarrow \pi + l + \tau$ decay from zero in amplitude of, 24:21968 (NYO-2262-TA-216)
interactions $K + \pi$, s-wave phase shifts from current algebra and PCAC, 24:8637
interactions $K + \pi$, SU(3) x SU(3) current algebra for scalar density matrix elements and scattering lengths for, 23:15102
interactions $K + \pi$, sum rules from SU(3) x SU(3) current algebra for, 22:26642
interactions $K + \pi$, symmetry-breaking corrections to, 25:9743
interactions $K + \pi$, three- and four-point functions from current algebra for, 24:3598
interactions $K + \pi$, two-parameter effective-range formula for scalar form factor of, 25:9777
interactions $K + \pi$, use of current algebra and field theory for amplitudes of, 23:36909
interactions $K + \pi$, use of spectral-function sum rules and unsubtracted dispersion relations for, 22:48307
interactions $K + \pi$, Veneziano model with Regge trajectory assumptions for S-wave scattering lengths and effective range parameters and P-wave scattering lengths for, 24:5290 (NYO-2262-TA-211)
interactions $K^* + \pi$, superconvergence relation and A-parity for, 21:27363
interactions $\Lambda + \pi \rightarrow \Lambda + \pi + \gamma$, partial-wave amplitudes for, 24:28518
interactions $\Lambda + \pi$ from K^- + d $\rightarrow \Lambda + \pi^-$ + p interactions at threshold to 140 MeV, scattering length and phase shift for, (E/T), 25:45680
interactions n + p $\rightarrow$ p + n in Regge pole model, π conspiracy in, 22:39369
interactions $\tau + \pi \rightarrow \pi + \tau$, null-spinor gauge condition for, 24:15522
interactions of charged, oscillator formalism for construction of amplitudes for multi-particle, 25:19996
interactions of cosmic, with carbon, iron and lead nuclei, (E), 22:2825
interactions of massless, S-matrix formulation of current algebra for, 23:39682
interactions of massless, SU(2) x SU(4) algebraic formulation of superconvergence conditions for forward, 24:37850
interactions of meson (π)—proton bound state with photon at low energies, Hamiltonian for forward Compton, 23:39669
interactions of soft, current algebra and effective Lagrangian for, 21:15320
interactions of soft, review of, (T), 22:22391 (COO-264-421)
interactions of soft, vector meson dominance and current algebra for elastic, 21:29468
interactions of spinning, SU(3) breaking by semistrong, 21:35337
interactions of three-pion system, mass selection and kinematic enhancement near A_1 in, 23:34588
interactions of zero-mass, singularities in Regge pole model for, 22:13863 (LPTHE-TH-228)
interactions of, abnormally coupled trajectories in multipion dual amplitudes, 25:33856
interactions of, algebraic duality of n-point functions for amplitudes of, 24:37768
interactions of, algebraic structure of superconvergence relations for, 23:25610
interactions of, algebraization of dispersion sum rules for, 24:15545

interactions of, broken SU(3) x SU(3) chiral dynamics for F/sub K//F/sub π/ and sum rules for, 24:3687
interactions of, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for, 24:3726
interactions of, chiral symmetry for, 23:18953
interactions of, current commutation relations for, 21:21207
interactions of, double spectral functions in Mandelstam representation for, 24:3635
interactions of, dual resonance 6- and n-body amplitudes for, (T), 24:52083
interactions of, field—current identity for field, 24:37895
interactions of, framework based on weak PCAC hypothesis and SU(3) symmetry for amplitudes of, (T), 25:7582
interactions of, ghost-eliminating modifications and factorization of amplitudes for, 25:43628
interactions of, kinematic superstructures for abnormal couplings in multiparticle dual amplitude of, 25:20000
interactions of, nonlinear sigma model for six-point function for, 25:59456
interactions of, nonlocal effective Lagrangians in realization of SU(2) x SU(2) chiral symmetry, 24:5329
interactions of, Pade approximants for two-body systems from, 23:30789 (CEA-R-3763)
interactions of, renormalization of chirally invariant Lagrangians for, 25:33698
interactions of, repulsive potential for resonance production from, 22:15762
interactions of, research at Houston Univ., 1970, (E), 25:9657(R) (ORO-3948-2)
interactions of, review of bubble chamber study of many-body, (E), 22:39269 (CERN-68-7(Vol.1), pp 345-79)
interactions of, review of low-energy theorems for, 21:31552
interactions of, review of PCAC theory for, 23:18823 (CONF-671217-, pp 370-588)
interactions of, rigorous bounds on averaged cross sections for, (T), 25:17506
interactions of, saturated sum rules in current algebra for forward, 23:10816
interactions of, scattering length determination from total probabilities for K $\rightarrow$ 3π decay, (T), 25:9736
interactions of, two-body solution of charged scalar static model with bound states for, 21:17191
interactions of, universality of two-pion isovector coupling in elastic, 24:33016 (DESY-70/18)
interactions of, Veneziano-like model for axial-vector-current three-pion amplitude for, 24:40369
interactions of, Veneziano-like model for isoscalar-current three-pion amplitude for, 24:40367
interactions of, weak, (T), 24:52046
interactions of, Weinberg formula for algebraic structure of current-algebra superconvergence sum rules for, 24:18172
interactions $\omega + \pi \rightarrow \omega + \pi$ in Veneziano model, amplitudes for, 24:30516
interactions $\omega + \pi \rightarrow \omega(\pi) + \pi$, Veneziano model for amplitudes of, (T), 25:14695
interactions $\omega + \pi \rightarrow \pi + \pi$, bootstrap of rho Regge trajectory in, 22:3381
interactions $\omega + \pi \rightarrow \pi + \pi$, bootstrap of rho trajectory for, 24:40372
interactions $\omega + \pi \rightarrow \pi + \pi$, third double-spectral function effects in poles in amplitudes for, 22:24644
interactions $\omega + \pi$, superconvergent sum rules for amplitudes of, (T), 22:50370
interactions $p + \pi \rightarrow p + A_2$, contribution of Mandelstam branch cuts from Reggeon exchange to, (T), 22:3455
interactions phi + π and $\omega + \pi$, superconvergent sum rules for amplitudes of, 22:50370
interactions $\pi + \pi \rightarrow \pi + \pi$, dual amplitude with Mandelstam analyticity for, (T), 25:36492
interactions $\pi + {}^4He \rightarrow$ meson resonance + ^4He, meson resonance—N scattering amplitude from, 21:46549
interactions π + 2N in nuclei, effect on energy-level shift, (E), 21:43803
interactions $\pi + A \rightarrow 2\pi + B$, high-energy behavior of chiral Lagrangians for, 24:26419
interactions $\pi + A \rightarrow \pi + A$, Veneziano amplitude, Adler self-consistency condition, and meson (rho) coupling universality for S-wave scattering lengths for, 24:3669
interactions $\pi + A_1 \rightarrow \pi + A_1$, Veneziano amplitudes for, 25:3374
interactions $\pi + A_1 \rightarrow \pi + A_1$, Veneziano model and chiral algebra for, 24:26430
interactions $\pi + A_1 \rightarrow \pi + \omega$, decay rates for $A_1 \rightarrow$ rho + π and $B \rightarrow \omega + \pi$ from finite energy sum rules and Veneziano model for, 24:18164
interactions $\pi + A_1 \rightarrow \pi + \pi$, Adler consistency condition and Veneziano-type amplitude for, 24:30514
interactions $\pi + A_1 \rightarrow \pi + \pi$, off-mass-shell extension of Veneziano amplitude for, 24:37758
interactions $\pi + A_1 \rightarrow \pi + \pi$, Veneziano amplitudes for, 25:3374
interactions $\pi + A_1$, chiral symmetry for superconvergent sum rules for, 22:22434
interactions $\pi + A_1$, phenomenological theory for mixing in, 22:39384
interactions $\pi + A_1$, superconvergence relations for forward, (T), 21:44357
interactions $\pi + A_2$, superconvergence sum rules for, 22:20231
interactions $\pi + \alpha \rightarrow \pi + \alpha$, electromagnetic corrections including relativistic terms for, (T), 25:5527
interactions $\pi + \alpha$ at 24 MeV, π electromagnetic form factor from Coulomb interference in elastic, (E/T), 22:3339
interactions $\pi + \alpha$ at low energies, double scattering effects in, 24:15609
interactions $\pi + \alpha$, electromagnetic corrections to, 24:35666
interactions π + baryons, superconvergence relations for spin-flip amplitudes of, 22:3431
interactions $\pi + d \rightarrow d + 3\pi$, total cross sections for coherent, (T), 25:45768 (JINR-P1-5807)
interactions $\pi + d \rightarrow \Delta + N$ below 300 MeV, covariant theory for, 22:9616 (LPTHE-TH-225)
interactions $\pi + d \rightarrow K$ + hyperons + N, hyperon—nucleon final state interactions from, 21:25322
interactions $\pi + d \rightarrow N + N$, relativistic dispersion theory of deuteron structure from amplitudes for, (T), 25:3409
interactions $\pi + d \rightarrow p + n + \pi$ at high energies with large momentum transfer to neutron, cross sections for, (T), 23:44674
interactions $\pi + d \rightarrow \pi + d$ at 200 MeV, contribution of square diagram with virtual Δ(1236) to, (T), 22:39423 (ITEF-542)
interactions $\pi + d \rightarrow \pi + d$ at 200 MeV, square diagram contribution to amplitude of, (T), 22:35020
interactions $\pi + d \rightarrow \pi + d$ at 85 to 325 MeV, covariant theory for, 22:3454 (TH-212)
interactions $\pi + d \rightarrow \pi + d$ at high energies and small momentum transfers, radiative corrections to amplitudes of, 25:33774
interactions $\pi + d \rightarrow \pi + d$ at high energies, mechanism for polarization in Glauber approach for, (T), 24:24402
interactions $\pi + d \rightarrow \pi + d$ at small momentum transfers, spin effects in, 23:21124 (JINR-P2-4272)
interactions $\pi + d \rightarrow \pi + d$, Bakamjian—Thomas transformation theory for, 24:52130
interactions $\pi + d \rightarrow \pi + d$, dispersion relations in Glauber formalism for differential and total cross sections of, 24:33024
interactions $\pi + d \rightarrow \pi + d$, equality of t dependence of differential cross sections for $\gamma + d \rightarrow d$ + rho^0 with t dependence of differential cross sections for, (T), 25:1442 (ITF-70-40)
interactions $\pi + d \rightarrow \pi + d$, forward dispersion relations and Glauber model for real part of amplitude of, 23:34620
interactions $\pi + d \rightarrow \pi + d$, lectures on partial-wave dispersion relations for, (T), 25:56810 (CERN-71-14, pp 155-228)
interactions $\pi + d \rightarrow \pi + d$, phenomenological analysis of amplitudes for, (T), 23:13108
interactions $\pi + d \rightarrow \pi + d$, phenomenological analysis for amplitude of, 22:13771 (JINR-P2-3619)
interactions $\pi + d \rightarrow \pi + d$, spin structure of multiple, (T), 24:47446
interactions $\pi + d \rightarrow$ rho + d at high energies, coherent resonance production in, (T), 22:3463
interactions π + d at 3.65 and 3.75 GeV, cross sections for elastic, 25:28073
interactions π + d at 3.65 and 3.75 GeV/c, Glauber theory for elastic, 23:32765
interactions π + d at 330 MeV, π production, total and differential cross sections, and momentum and angular distributions for, (T), 25:12105
interactions π + d at 350 to 2400 MeV, total cross sections including Fermi motion in scattering, (E/T), 23:8818
interactions π + d at 87 to 180 MeV/c^2, elastic, (T), 24:52410
interactions π + d at GeV energies, multiple-scattering formalism for elastic, (T), 22:50414
interactions π + d at high energies in composite model, inelastic effects in, 24:24392
interactions π + d at high energies, coherent resonance production from, (T), 22:3463
interactions π + d at high energies, covariant theory for disintegration in, 22:39333
interactions π + d at high energies, covariant theory of deuteron disintegration in, 22:22353
interactions π + d at high energies, deuteron D-wave component effects in, 24:52136
interactions π + d at high energies, Glauber correction for, (T)), 25:1551(T) (BNL-tr-358)
interactions π + d at high energies, Glauber theory for coherent, 23:44676
interactions π + d at high energies, Glauber-eikonal-absorption for Regge cuts in, 23:51961
interactions π + d at high energies, inelastic processes and duality in, (T), 24:49540
interactions π + d at high energies, model for elastic, 24:40411
interactions π + d at high energies, model for inelastic effects in, (T), 24:52139
interactions π + d at high energies, recoil effects in multiple, 25:33777
interactions π + d at high energies, Regge cut diagrams in Glauber approximation in potential theory for, 23:51960
interactions π + d at high energies, Regge-pole model for, 21:42395
interactions π + d at high energies, review of, (E), 25:7653 (CONF-690608-, pp 143-64)
interactions π + d at high energies, separation of elastic component in double-scattering, 25:33775
interactions π + d at very high energies, composite particle model for, 23:44669 (INP-678)
interactions π + d below 20 GeV/c, Glauber shadow correction for, 21:23314 (BNL-994, pp 70-102)
interactions π + d in GeV range, Glauber theory predictions for differential cross sections for, (E/T), 23:7157
interactions π + d in Regge pole model, inelastic contributions to elastic, 23:27828
interactions π + d, axiomatic proof of superconvergence relations for, 22:39359 (CERN-68-7(Vol.1), pp 471-7)
interactions π + d, axiomatic proof of superconvergence relations for, 22:39497
interactions π + d, calculation of cross section dependence on deuteron alignment in, (T), 23:13032
interactions π + d, covariant theory of elastic, 22:9618
interactions π + d, current algebra calculations of scattering length for soft, 23:7158
interactions π + d, deuteron recoil polarization and structure from elastic, (T), 21:42387
interactions π + d, deuteron structure from cross sections of, (T), 22:5599 (JINR-P2-3546)
interactions π + d, diffraction analysis of, (T), 23:18925 (RHEL/R-166, pp 121-6)
interactions π + d, dispersion relations and Glauber model for scattering length and total cross sections for, 23:34620
interactions π + d, effect of D-state in, 23:7153 (COO-1764-19)
interactions π + d, Faddeev equations in helicity eigenstates applied to, 23:1654
interactions π + d, Glauber model for, (T), 25:14630
interactions π + d, impulse approximation for forward amplitudes of, 21:7566
interactions π + d, impulse approximation model for cross section calculations for, (T), 23:14977
interactions π + d, relativistic three-body problem for, (T), 24:51985
interactions π + d, review of S not equal to 0 baryon resonances in, (E), 22:32057
interactions π + d, scattering amplitude for breakup, 25:33780
interactions π + d, spin—isospin formalism for multiple, (T), 24:40410 (RLO-1388-570)
interactions π + d, two-Regge pole model for dispersion sum rules for, (T), 25:5391
interactions π + d, unitary Pade approximants for integral equations for three-body problem in, (T), 25:41029
interactions $\pi + \Delta \rightarrow \pi + \Delta$, dispersion sum rules for, 23:46728
interactions $\pi + \Delta$ in P_{33} state, static model for, 25:53198
interactions $\pi + \Delta(1236) \rightarrow \pi + \Delta(1236)$, baryon spectrum in O(3,1) dynamical model from dispersion sum rules for, 23:25679
interactions $\pi + \Delta_{33}$, meson theory for amplitude of, 21:46544
interactions $\pi + e \rightarrow \pi + e$, π electromagnetic form factor from cross sections with radiative corrections for, (T), 24:10717
interactions $\pi + e \rightarrow \pi + e$, sum rules for, 25:38700
interactions π + e, polarization determination from meson (π) electromagnetic form factor for, (T), 22:20186
interactions π + e, π electromagnetic form factor determination from e polarization in, (T), 21:35279 (JINR-P2-3338)
interactions π + e, radiative corrections for, 23:16946 (JINR-P2-4178)
interactions π + e, radiative corrections for, (T), 23:13052 (JINR-P2-4177)
interactions π + e, summation methods for radiative corrections for external, 22:46558
interactions π + epsilon $\rightarrow \pi$ + epsilon in Veneziano model, analysis of $A_1 \rightarrow 3\pi$ decay from, 24:1580
interactions π + eta $\rightarrow \pi$ + eta in Veneziano model, SU(3) structure for internal symmetry from, 25:5370
interactions π + eta $\rightarrow \pi$ + eta, internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions π + eta $\rightarrow \pi$ + eta, SU(3) selection rule from Veneziano model for, 23:36910
interactions π + eta $\rightarrow \pi$ + eta, Veneziano—Lovelace-type amplitudes for, 24:18177
interactions π + eta $\rightarrow \pi$ + rho, bootstrap conditions for rho and A_2 from superconvergence sum rules for, 22:7509
interactions π + eta $\rightarrow \pi$ + rho, crossing-symmetric Reggeized amplitude for, 22:46401
interactions π + eta, PCAC and Veneziano model for relation of amplitudes for elastic and inelastic, 23:30748
interactions π + eta, Veneziano model for amplitude of, 23:42657
interactions $\pi + f \rightarrow \pi + f$, superconvergence relations for, 23:1636
interactions π + hadrons in soft-pion limit, SU(2) x SU(2) symmetry for, 24:45535
interactions $\pi + K \rightarrow$ eta + K, Veneziano model for amplitude of, 23:42657
interactions $\pi + K \rightarrow K$ + eta, internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions $\pi + K \rightarrow K + \pi$, extension of analyticity domain for, 22:7500
interactions $\pi + K \rightarrow \pi + K$, boundary curves of double spectral functions in Mandelstam representation for amplitudes of, 24:21980
interactions $\pi + K \rightarrow \pi + K$, chiral SU(3) X SU(3) theorems for amplitudes of, 24:18163
interactions $\pi + K \rightarrow \pi + K$, consistency of off-shell amplitudes with chiral symmetry breaking and Bjorken limit for, 25:22812
interactions $\pi + K \rightarrow \pi + K$, dispersive sum rule method for SU(3) x SU(3) symmetry breaking, off-shell corrections, scattering lengths, and mass and width of kappa in, (T), 25:28029
interactions $\pi + K \rightarrow \pi + K$, extrapolation of current algebra results from Veneziano amplitudes for, 24:15571
interactions $\pi + K \rightarrow \pi + K$, integral constraints from crossing symmetry for partial-wave amplitudes for, 24:18182
interactions $\pi + K \rightarrow \pi + K$, Pade approximants for, 22:39380
interactions $\pi + K \rightarrow \pi$ + K/sub A/, Veneziano model for amplitude of, 24:1585
interactions $\pi + K \rightarrow \pi$ + KK/sub 13/ form factors from Veneziano amplitude for, 24:49474
interactions $\pi + K \rightarrow \pi + \pi + K$, Bardakci—Ruegg representations for resonance production in, 24:13049
interactions $\pi + K \rightarrow$ rho + K*, six-point Veneziano model for amplitude of, (T), 25:22792

interactions π + K at high energies, equivalent-potential method for amplitude of, 22:11668
interactions π + K at high energies, saturation of dispersion sum rules for, 23:39700
interactions π + K at low energies, dispersion relations for resonance states in, (T), 25:7648
interactions π + K at low energies, pole dominance calculation of scattering lengths for, (T), 25:14687
interactions π + K at low energies, scattering lengths for, (T), 22:34952 (JINR-E2-3793)
interactions π + K in current algebra, unitarity corrections for, 23:42670
interactions π + K in GeV range, low-energy models for, (T), 25:30854
interactions π + K in SU(3) sigma model, scattering length for, 25:38771
interactions π + K in urbaryon model, cross sections for forward elastic, 21:35300
interactions π + K in Veneziano model, amplitudes for, 24:45519
interactions π + K in Veneziano model, K/sub 13/ and K/sub 14/ form factors from sum rules and amplitudes of, 24:47442
interactions π + K in Veneziano model, SU(3) symmetry, 24:24416
interactions π + K* → π + K*, saturation of superconvergent sum rules for, 21:42344
interactions π + K* → rho (ω) + K*, superconvergence in, 22:15771
interactions π + K, Adler—Weisberger type sum rule for, 21:31594
interactions π + K, axial-vector coupling constant renormalization for, 21:9785
interactions π + K, background term in Veneziano model for scattering lengths of, 23:36911
interactions π + K, bootstrap dynamics for kappa(730) and K*(885) production in, (T), 22:29689
interactions π + K, broken chiral and conformal symmetry and Kuo transformation for scattering length for, (T), 24:45509 (IC-70/91)
interactions π + K, calculation of elastic scattering lengths using vector meson exchange for, 23:3843
interactions π + K, CDD pole effects on single resonance solution in dispersion relations for, (T), 25:14696
interactions π + K, chiral and scale breaking in SU(3) sigma model for scattering lengths for, (T), 25:36483 (SU-1206-241)
interactions π + K, chiral symmetry breaking from Veneziano amplitudes for, 24:45513
interactions π + K, comparison of Veneziano amplitude with chiral dynamics for, 23:44652
interactions π + K, conference on, 24:30500 (CONF-690521)
interactions π + K, consequences of duality and unitarity for Pomeranchuk singularities in, 24:20148
interactions π + K, consistency of broken chiral symmetry and Veneziano models for, 24:15561
interactions π + K, coupled dynamic equations with unitarity and crossing for, 23:46707
interactions π + K, crossing-symmetric model satisfying Mandelstam representation for, 25:22802
interactions π + K, dispersion relations for complex t values from axiomatic field theory for, 21:21229
interactions π + K, dispersion sum rules for amplitudes and scattering lengths for elastic, (T), 24:42962
interactions π + K, duality for low-energy parameters for Veneziano model for Adler zero in, 24:24348
interactions π + K, effect of secondary Veneziano terms on scattering lengths for, 23:51925
interactions π + K, equivalent potential for K*(890) exchange in, 21:4046
interactions π + K, equivalent potential method for amplitudes of relativistic, 21:17106 (UCRL-17311)
interactions π + K, exact inequalities involving S- and P-wave partial-wave amplitudes and derivatives for, (T), 25:59452
interactions π + K, finite-energy sum rules for, 22:46420
interactions π + K, finite-energy sum rules for, 23:44648
interactions π + K, form factors for K → l + π + τ decay using Veneziano-type amplitudes for, 23:46670
interactions π + K, forward dispersion relation sum rule for amplitudes of, 22:37139
interactions π + K, ghost states in Veneziano crossing symmetric Regge formula for, 23:49139
interactions π + K, internal symmetry in S-matrix formalism for, 21:29532
interactions π + K, internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions π + K, invariant amplitude of Veneziano type for, 23:39705
interactions π + K, Kronecker-delta singularities in amplitudes of Pomeranchuk theorem violation in, (T), 25:22791
interactions π + K, off-mass-shell Veneziano amplitude for, 25:38737
interactions π + K, PCAC and Veneziano model for relation of amplitudes for elastic and inelastic, 23:30748
interactions π + K, PCAC consistency condition in Veneziano model for, 24:3631
interactions π + K, phenomenological approach for, 22:3396
interactions π + K, phenomenological fields and Lagrangians for, 21:44368
interactions π + K, pole-dominance method for elastic, 23:5614
interactions π + K, resonance saturation of axial charge commutator between meson (K) states for Veneziano-type, 24:3647
interactions π + K, review of Veneziano model relation with chiral symmetry in, (T), 24:43061
interactions π + K, sum rules for, 21:25336
interactions π + K, superconvergence sum rules for combination of elastic π + N, π + π, K + N, and, 22:48297
interactions π + K, symmetry-breaking effect on p-wave resonances in, (T), 25:5394
interactions π + K, universality of rho coupling in sum rules for, 23:21119
interactions π + K, Veneziano model and chiral symmetry breaking for, 25:1522
interactions π + K, Veneziano model for amplitude of, 23:42657
interactions π + K, Veneziano model for amplitudes of, 24:1585
interactions π + K, Veneziano model results from isobaric model for scattering lengths of, 24:3642
interactions π + K, Veneziano-type amplitudes and S-wave scattering lengths for, (T), 23:13091
interactions π + K*, finite-energy sum rules for, 22:46420
interactions π + K*, finite-energy sum rules for, 23:44648
interactions π + K*, parity constraints and factorization in Veneziano model for elastic, 23:39729
interactions π + K*, Peierls mechanism for Kππ resonances from, 22:32133
interactions π + K**, superconvergence sum rules for, 22:20231
interactions π + Λ → π + Λ in Veneziano model, positive width and S-wave scattering length in, 25:59473
interactions π + Λ → π + Λ, boundary curves of double spectral functions in Mandelstam representation for amplitudes of, 24:21980
interactions π + Λ → π + Λ, deviation from static model for Σ exchange in, 21:21236
interactions π + Λ → π + Λ(Σ), SU(3) x SU(3) chiral Lagrangian model for total cross sections and scattering lengths for, (T), 25:14703 (TID-25639)
interactions π + Λ → π + Σ, simultaneous s—t analyticity from axiomatic field theory for, 22:7520
interactions π + Λ → π + Σ, sum rule for, 21:29560
interactions π + Λ → π + Σ(Λ), SU(3) x SU(3) chiral Lagrangian model for total cross sections of, (T), 25:28037
interactions π + Λ, algebra of current divergences for, 23:21114
interactions π + Λ, consistency conditions from duality for, (T), 25:9792
interactions π + Λ, dispersion relation calculation of scattering lengths for, 23:32746
interactions π + Λ, dispersion relation extension for, 21:37829
interactions π + Λ, phase shift from Ξ → Λ + π + e +anti τ and anti τ + N → Λ + π + anti μ interactions, 23:23488
interactions π + Λ, scattering length and cross section for, 23:25625
interactions π + Λ, scattering length and low-energy behavior from K-matrix analysis of K⁻ + p interactions, 23:46725
interactions π + Λ, SU(3) x SU(3) chiral Lagrangian model for scattering lengths for, (T), 25:28037
interactions π + Λ, Veneziano model for Σ(1385) production and S-wave scattering length in, 23:34612
interactions π + N → (n - 1)π + N, slope of Pomeranchuk trajectory from multi-Veneziano model for, 23:21121
interactions π + N → (rho,ω) + N, kinematic singularities of Regge pole residues in, 21:31591 (NP-16821)
interactions π + N → 2π + N at low energies, final-state mass spectra relation with two-body forces for, (T), 25:43643
interactions π + N → 2π + N below 1 GeV, models for single π production in, 21:17113 (LA-DC-8617)
interactions π + N → 2π + N below 1 GeV, static model approximation for single meson (π) production in, 24:8663
interactions π + N → 2π + N, crossing relations in Regge pole theory for, 21:37815
interactions π + N → 2π + N, interference effects in peripheral rho production in, (T), 23:15141
interactions π + N → 2π + N, partial-wave and exchange amplitudes and amplitudes for peripheral production of N* and rho for, (T), 24:6721
interactions π + N → 2π + N, Regge residues in Veneziano model for density matrices for spin-1 and -2 resonances from meson (π) exchange in, 23:51933
interactions π + N → 2π + N, spin effects on mass spectra for N(1470) in, (T), 23:46739
interactions π + N → 2π + N, three-channel N/D equations via quasi-two-body channels for amplitude of, 24:24372
interactions π + N → A₁ + N, graphical form of duality for Pomeranchukon exchange in, 23:21092
interactions π + N → A₁(eta)(rho) + N, helicity-channel effects on cross sections for, (T), 24:10776
interactions π + N → A₂ + N, selection rules for diffraction dissociation in, 25:47889
interactions π + N → Δ + π, Reggeization of kinematically free amplitudes for, 23:27811
interactions π + N → Δ + rho, Reggeization of kinematically free amplitudes for, 23:27811
interactions π + N → Δ(1236) + π at high energies, quark model for backward, (T), 25:1539
interactions π + N → Δ(1236) + π, formalism for partial-wave analysis of, 23:42686
interactions π + N → Δ(1236), method for deriving angular correlations for, 22:41774 (NP-17531)
interactions π + N → e + e⁺ + N, N* → N + γ coupling constants from amplitudes for, 21:35280
interactions π + N → e⁺ + e⁻ + N, direct photon—vector meson coupling scheme for wide-angle pair production in, (T), 21:17129
interactions π + N → eta + Δ(1236) in O(3,1) symmetry, 22:24710
interactions π + N → eta + N at low energies, angular distributions and cross sections for, (T), 23:25640
interactions π + N → eta + N at low energies, cross sections and angular distributions for, 23:1640 (COO-264-445)
interactions π + N → eta + N, Breit—Wigner models and effective-range approximations for, (T), 25:14702 (PAM-70-8)
interactions π + N → eta + N, dispersion theoretic model for S₁₁(1525) resonance and cross sections for, 25:59486
interactions π + N → eta + N, factorized Regge amplitudes for superconvergence sum rules for, 22:34990
interactions π + N → eta + N, model for partial waves for, 24:18185 (CONF-690330-, pp 181-7)
interactions π + N → eta + N, model for S-wave phase shift and eta production in, (T), 24:20160
interactions π + N → eta + N, N* production in, 23:10766
interactions π + N → eta + N, NNeta coupling constant from dispersion relation for, 22:50395
interactions π + N → eta + N, phase shift analysis for, 22:1404 (TH-177)
interactions π + N → eta + N, Veneziano model for Regge trajectories in amplitude of, 24:1606
interactions π + N → eta + N*, modified Lorentz pole analysis of amplitude for, 23:27813
interactions π + N → eta(sigma) + N, simple phenomenological regularity of near-forward zeros in amplitudes of, 24:6728
interactions π + N → ρ⁰ + Δ, π conspiracy in, 22:5594
interactions π + N → ρ⁰ + Δ, π trajectory exchange in, 22:11681
interactions π + N → ρ⁰ + Δ(1236), distorted-wave one-pion-exchange prediction for, 22:46467
interactions π + N → ρ⁰ + N, absorptive OPE model with form factors for, (E/T), 21:33706
interactions π + N → ρ⁰ + N, approximation to OPE model for spin-density matrix elements for, 24:18206
interactions π + N → ρ⁰ + N, π trajectory exchange in, 22:11681
interactions π + N → K + hyperons, kinematic singularities and threshold relations for amplitudes of, 22:35145
interactions π + N → K + Λ at low energies, angular distributions and cross sections for, (T), 23:25640
interactions π + N → K + Λ at low energies, cross sections and angular distributions for, 23:1640 (COO-264-445)
interactions π + N → K + Λ, Veneziano model for resonance spectra in s, t, and u channels of, 24:13096
interactions π + N → K + Λ(Σ), method for spin—parity determination of resonances in, 23:21103
interactions π + N → K + Σ at low energies, angular distributions and cross sections for, (T), 23:25640
interactions π + N → K + Σ at low energies, cross sections and angular distributions for, 23:1640 (COO-264-445)
interactions π + N → K + Σ, inelastic channel effects on Δ₃₃ resonance position and width from, 21:31599
interactions π + N → K + Σ, kinematical structure of helicity amplitudes for, (T), 25:22829
interactions π + N → K + Σ, removal of kinematic singularities from amplitudes of, 22:44427
interactions π + N → K + Σ, Veneziano model for resonance spectra in s, t, and u channels of, 24:13096
interactions π + N → K + Σ(1660), Σ(1660) production in π⁺ + n → K⁺ + (Σπ)⁰ interactions at 2.5 GeV/c in deuterium bubble chamber for excitation function for, (E), 22:29639
interactions π + N → K + Σ(Λ) at high energies, tests of Regge-pole and strong-absorption models for, (T), 25:12206
interactions π + N → K + Y, Regge poles and SU(3) for, 22:1439
interactions π + N → mπ + N, one-pion-exchange model for effective mass spectrum of π system in, (T), 25:59496
interactions π + N → N + A₁(rho), nucleon electromagnetic and axial form factors from pole dominance and Veneziano model for, (T), 25:12144
interactions π + N → N + e⁻ + e⁺, differential and total cross sections for, (T), 21:35312
interactions π + N → N + e⁻ + e⁺, reconstruction scheme for amplitude of, 22:13702
interactions π + N → N + e⁻ + e⁺, reduction scheme of amplitudes for, (T), 21:7481 (JINR-P2-3062)
interactions π + N → N + eta, dispersion-theoretic techniques for, 21:23339
interactions π + N → N + eta, Regge pole model for coupling constant ratio with π⁺ + n → p + eta' interactions for eta—eta' mixing angle in, 24:37778 (COO-1428-214)
interactions π + N → N + kπ, nucleon momentum spectra from duality diagrams for, 25:53193
interactions π + N → N + neutral vector meson, quark model for, 23:18877 (ITF-68-36)
interactions π + N → N + ω, projections on exchanged systems with well-defined quantum numbers for, 22:13758
interactions π + N → N + π + π at 1.3 to 1.7 GeV, summary of data on, 24:21987
interactions π + N → N + π + π, mass dependence of slopes in differential cross sections in models for, 24:47390
interactions π + N → N + π + π, ππ phase shifts from, 23:42656
interactions π + N → N + π + π, review of experimental methods for ππ scattering and unique set of phase shifts for, 23:36905 (COO-1428-126)
interactions π + N → N + π, fixed cuts in Regge pole theory for backward, 24:40385 (COO-264-550)
interactions π + N → N' + π, generalized isospin matrices for projection operators for, 23:39742

interactions π + N → N + π, AKN coupling constant from backward differential cross sections for, 24:40388
interactions π + N → N + π, Regge cuts in Veneziano model for backward, 24:15578 (COO-264-529)
interactions π + N → N + π, strong-cut Reggeized absorption model for backward, 24:35661
interactions π + N → N + π, tight coupling in semiclassical theory for, 22:26661
interactions π + N → N + rho → N + π + π, Treiman—Yang analysis for exchange of leading Toller pole and validity of O(3,1) expansions for, 23:44685
interactions π + N → N + rho, strong-cut Reggeized absorption model for backward, 24:35661
interactions π + N → N + rho, tight coupling in semiclassical theory for, 22:26661
interactions π + N → N + vector meson, daughter structure of conspiring Regge-pole families from analyticity constraints for, 23:7185
interactions π + N → N* below 3 GeV, isobar model for angular distributions for phenomenological Δ(1236) production in, (T), 25:17517 (ORNL-TM-3132)
interactions π + N + N, Faddeev equations for investigating Peierls mechanism in, 23:8817
interactions π + N → N, unitary restrictions on dynamical groups for amplitude of, 22:13829
interactions π + N → N*, quark model for cross section of, 22:5574
interactions π + N → N*(1100) at high energies, equivalent-potential method for amplitude of, 22:11668
interactions π + N → N(1525), method for deriving angular correlations for, 22:41774 (NP-17531)
interactions π + N → ω + Δ Regge pole analysis of, 22:9598
interactions π + N → ω + Δ, Regge pole and cut model for rho exchange in, 24:3671
interactions π + N → ω + Δ(1236), Lorentz-pole analysis of, 22:39408
interactions π + N → ω + N at 4.19 GeV, cross sections and density matrix for, (E/T), 25:1526 (ITF-70-39)
interactions π + N → ω + N at high energies, instability of exchange particle in, (T), 24:52015
interactions π + N → ω + N at high energies, Regge pole model for differential and total cross sections and t dependence of density matrix elements for forward, (T), 25:20008
interactions π + N → ω + N at high energies, Regge pole model of, 23:39737
interactions π + N → ω + N, contribution of B-meson exchange to, (T), 24:35662
interactions π + N → ω + N, Regge pole and cut model for rho exchange in, 24:3671
interactions π + N → ω + N*, modified Lorentz pole analysis of amplitude for, 23:27813
interactions π + N → ω + N*, O(3,1) symmetry and Lorentz states of exchange trajectories for, 22:34985
interactions π + N → ω + N*, projections on exchanged systems with well-defined quantum numbers for, 22:13758
interactions π + N → ω + N(Δ) at high energies, model independent analysis for separation between exchange of natural and unnatural parity in, (T), 25:53184
interactions π + N → ω + N(Δ), rho°—ω mixing effects on spin density matrix of ω in, (T), 25:12208
interactions π + N → ω + N(Δ), tests of Regge pole model with absorption in, 23:32753
interactions π + N → ω (phi) + N* at high energies, quark model for test of additivity from joint decay distributions from, 22:13735
interactions π + N → ω(rho) + N at high energies, production and decay of resonances in peripheral, (T), 23:34573 (COO-1051-32)
interactions π + N → π + Δ (1920) at 7.5 GeV, peripheral properties of inelastic, (T), 21:2468
interactions π + N → π + Δ (2400) at 7.5 GeV, peripheral properties of inelastic, (T), 21:2468
interactions π + N → π + Δ at 8 GeV/c, production mechanisms of, (T), 22:37155
interactions π + N → π + Δ, dispersion sum rules for, 23:46728
interactions π + N → π + Δ, kinematic singularities and threshold relations for amplitudes of, 22:35145
interactions π + N → π + Δ, NΔγ coupling constants and sum rules from unsubtracted dispersion relations for, 25:36508
interactions π + N → π + Δ, quark model for, 21:31602
interactions π + N → π + Δ, spin—isospin formalism in quark model for amplitudes of, (T), 24:40410 (RLO-1388-570)
interactions π + N → π + Δ(1236), photon—vector meson analogy model for γ + N → vector meson + Δ(1236) interactions relation with, 22:46366
interactions π + N → π + Δ(π + N) at 339 to 480 MeV, partial-wave analysis of, (T), 25:14728
interactions π + N → π + Λ + K at 7 GeV/c, production of N*(1700) in, 25:59307
interactions π + N → π + N + γ, model-independent calculation of differential cross sections for, (T), 24:8653
interactions π + N → π + N + γ, quadrupole moment from N* width in, (T), 23:32648(T) (NP-tr-1784)
interactions π + N → π + N + γ, rho radiative decay width from Veneziano-type amplitude for π + π → π + γ interactions in, (T), 25:22803
interactions π + N → π + N + γ, Veneziano amplitude for γ + π → π + π interactions for, 24:40314
interactions π + N → π + N and π + N → π + π + N, N and N'(1470) resonances in coupled two-channel bootstrap calculation of, 23:42679
interactions π + N → π + N at 1.5 to 3.5 GeV, data on, (E), 24:21987
interactions π + N → π + N at 10 to 65 GeV, Regge pole-Regge cut model for cross sections of, (T), 24:49487 (COO-264-555)
interactions π + N → π + N at asymptotically large energies and momentum transfer, relations between amplitudes and polarizations of, 23:7143
interactions π + N → π + N at high energies, quark model for backward, (T), 25:1539
interactions π + N → π + N at high energies, quasipotential approach for spin effects in, (T), 25:36504 (JINR-E2-5770)
interactions π + N → π + N at high energies, sign of scattering angle cosine at branch points of partial-wave amplitude in s-plane for, 23:49154
interactions π + N → π + N at high energies, spin-dependent droplet model for, (T), 25:53199
interactions π + N → π + N at low energies, angular distributions and cross sections for, (T), 23:25640
interactions π + N → π + N at low energies, cross sections and angular distributions for, (T), 23:1640 (COO-264-445)
interactions π + N → π + N at low energies, Pade approximants for phase shifts of, 22:32146
interactions π + N → π + N at low energies, peripheral model for ππ phase shifts from, (T), 24:40370
interactions π + N → π + N below 1.6 GeV, resonances in partial-wave analysis for total cross sections, angular distributions, and recoil nucleon polarization in, 24:3650 (CEA-R-3578)
interactions π + N → π + N below 700 MeV, review of dispersion relations for, 23:39741
interactions π + N → π + N in lead 208 at 19 and 40 GeV/c, ratio of real to imaginary part of amplitude of, (E/T), 24:18222 (INP-686)
interactions π + N → π + N two-variable expansion and crossing symmetry for amplitude of, 24:13108
interactions π + N → π + N* (2200) at 7.5 GeV, peripheral properties of inelastic, (T), 21:2468
interactions π + N → π + N, analyticity properties of helicity amplitudes of, 22:9580 (CEA-R-3303)
interactions π + N → π + N, basic assumptions for dual amplitudes of, (T), 25:50126 (NP-18967)
interactions π + N → π + N* below 1 GeV, partial-wave analyses of angular distribution for, 22:1447
interactions π + N → π + N, boundary curves of double spectral functions in Mandelstam representation for amplitudes of, 24:21980
interactions π + N → π + N, chiral symmetry with rho—γ analogy for, 24:18191
interactions π + N → π + N, constraints on partial waves of helicity amplitudes from analyticity, unitarity, and crossing symmetry in, (T), 25:1531 (SU-1206-231)
interactions π + N → π + N, crossed-channel unitarity for lower bounds on amplitudes of, 22:26647
interactions π + N → π + N, crossing matrices for fundamental triplet of SU(3) summetry for, 22:20291
interactions π + N → π + N, dispersion sum rules for amplitude linear combinations with π + Σ → π + Σ amplitudes, (T), 24:52094
interactions π + N → π + N, dynamical theory for, 21:25287
interactions π + N → π + N, finite-energy sum rules for u-channel baryon Regge exchanges in, 24:8652
interactions π + N → π + N, graphical method for study of isospin dependence and charge independence of cross sections for, 21:44379
interactions π + N → π + N, kinematical singularities, crossing matrix, and kinematical constraints, for helicity amplitudes for, 22:29770
interactions π + N → π + N, MacDowell symmetry for kinematic singularities of, 22:15861
interactions π + N → π + N, methods for analysis of, 25:41019
interactions π + N → π + N, N* production in, 23:10766
interactions π + N → π + N, N_1^* (1238) production from multichannel, (T), 21:23342
interactions π + N → π + N, nucleon electromagnetic and axial form factors from pole dominance and Veneziano model for, (T), 25:12144
interactions π + N → π + N, numerical solution of unitarity—analyticity equations for, 22:29713
interactions π + N → π + N, phenomenology of Poincare group for time-like and light-like cross-channel expansions for, 23:49152 (IS-T-324)
interactions π + N → π + N, Regge pole and absorptive cut models for backward, (T), 25:25423
interactions π + N → π + N, Regge theory and SU(3) representation mixing for, 23:44657 (IS-T-291)
interactions π + N → π + N, relativistic extension of determinantal formalism for overlapping thresholds for, 24:13037
interactions π + N → π + N, s-channel helicity conservation in diffraction, 24:24337
interactions π + N → π + N, simple phenomenological regularity of near-forward zeros in amplitudes of, 24:6728
interactions π + N → π + N, spin structure of multiple, (T), 24:47446
interactions π + N → π + N, spin-independent Pomeron in, 24:40398
interactions π + N → π + N, superconvergent sum rules for backward, 23:15136
interactions π + N → π + N, universality of two-pion isovector coupling for, 24:33016 (DESY-70/18)
interactions π + N → π + N, up—down ambiguity for I = 0 s-wave π + π interactions from phase shifts for, (T), 25:50128 (RPP/C-22)
interactions π + N → π + N, vacuum pole contributions to inelastic scattering cross sections for two-Reggeon cut in, (T), 25:33586
interactions π + N → π + N, vector current and universality for, (T), 25:53167
interactions π + N → π + N*, helicity amplitude superconvergence relations for, 23:51936
interactions π + N → π + N*, multiple-scattering formalism for, 22:48320
interactions π + N → π + N*, N_1^* (1238) production from multichannel, (T), 21:23342
interactions π + N → π + N*, PCAC theory for threshold amplitude of, 23:5634
interactions π + N → π + N*, pion gauge condition for baryon parity doublet in, 25:14705
interactions π + N → π + N*, rho exchange in N* production in, (T), 21:17120
interactions π + N → π + N*, s-channel helicity conservation constraints on t-channel exchanges in, (T), 25:28028 (SU-1206-242)
interactions π + N → π + N*, U(6,6) and superconvergent sum rules for, 21:21233
interactions π + N → π + N*, U(6,6) symmetry for superconvergent sum rules for, 22:3430
interactions π + N → π + N(1470), anomalous magnetic moment for, 25:53201
interactions π + N → π + N(1518), superconvergent relation for $\pi D_{13}D_{11}$ coupling constant for, 23:18910
interactions π + N → π + N(Δ) below 1.8 GeV, two-channel model for πN S_{11}, P_{11}, and P_{13} inelastic resonances with repulsive background, (T), 24:3685
interactions π + N → π + π + N at 1.25 and 1.59 GeV/c, predictions for π as Regge pole and elementary particle for dipion mass near rho region in, 22:17971
interactions π + N → π + π + N at 290 to 480 MeV, Olsson—Yodh model for partial wave analysis of, (T), 24:24384
interactions π + N → π + π + N at 350 to 600 MeV, determination of triangle graph contribution and estimate of ππ-scattering amplitude at low energies from, (E), 23:3649
interactions π + N → π + π + N at high energies, predictions of dual-resonance model for πππN anti N five-point function for, (T), 24:45537
interactions π + N → π + π + N at high energies, Regge-pole model for, 25:3399
interactions π + N → π + π + N at threshold to 600 MeV, constraints on phase-shift analysis of, 21:15349
interactions π + N → π + π + N below 1 GeV, partial-wave analysis of three-body angular momentum states in, 21:33708
interactions π + N → π + π + N in nuclear emulsions, computer program for processing track data for studying, 22:6646
interactions π + N → π + π + N, amplitudes for current algebra production of π + π interactions, 22:29695
interactions π + N → π + π + N, angular momentum analysis and models for Δ(1236) production in, 24:26443
interactions π + N → π + π + N, azimuthal dependence of ππ scattering in, 22:9597
interactions π + N → π + π + N, chiral SU(3) x SU(3) phenomenological Lagrangian for analysis of, 24:18168
interactions π + N → π + π + N, chiral-dynamics calculation of cross sections for, 24:35654
interactions π + N → π + π + N, constraints on phase shift analysis from angular distributions from, (T), 22:13766
interactions π + N → π + π + N, cross sections for π + π interactions from modified extrapolation procedure for, 23:18894
interactions π + N → π + π + N, current algebra for coupling-constant sum rules in, 22:44436
interactions π + N → π + π + N, dispersion theory for, 21:33714
interactions π + N → π + π + N, effective Lagrangians for, 24:49497
interactions π + N → π + π + N, evidence for sigma resonance from OPE model for, 23:25623
interactions π + N → π + π + N, extraction of ππ phase shifts at low energy from, 23:49143
interactions π + N → π + π + N, extrapolation model for π + π interactions from, (T), 24:35649
interactions π + N → π + π + N, factorization test for Pomeranchukon in, 25:3395
interactions π + N → π + π + N, graphical illustration of isospin analysis of, 25:28039
interactions π + N → π + π + N, low-energy production model for, 24:13095
interactions π + N → π + π + N, multi-isobaric model in s channel for, 21:7517
interactions π + N → π + π + N, N* production in, 23:10766
interactions π + N → π + π' + N', nondual property of π in, (T), 25:22817
interactions π + N → π + π + N, partial wave analysis in, 25:53182 (UCRL-20655, pp 220a-49)
interactions π + N → π + π + N, partial waves and exchange models with peripheral N* and rho production in, 24:3676
interactions π + N → π + π + N, peripheral-model determination of ππ phase shifts from, 22:26652
interactions π + N → π + π + N, phenomenological analysis for, 21:9807
interactions π + N → π + π + N, soft-pion calculation of, 23:36927
interactions π + N → π + π + N, transition amplitude for, 21:2476
interactions π + N → π + π + N, unitarity for, 21:23341
interactions π + N → π + π + N, unitarized Veneziano model for π + π amplitudes from peripheral, 24:1582
interactions π + N → π + π + N, unitarized Veneziano model for S-wave I = 0 π + π interaction from, 24:1583
interactions π + N → π + π + π + N, chiral SU(3) x SU(3) phenomenological Lagrangian for, 24:18168
interactions π + N → π + π + π + N, diffraction dissociation model with duality for, 25:41021

interactions π + N → π + rho + N at high energies, Regge-pole model for, 25:3399
interactions π + N → π + rho + N, Deck effect for, 21:37806
interactions π + N → π + rho + N, Regge-pole exchange model for πrho mass distributions in, 22:20266
interactions π + N → π + rho + N, Reggeized double-peripheral-model analysis of, 23:25659
interactions π + N → π* + N, quark model for selection rules for diffraction dissociation in, 24:3661
interactions π + N → π(eta) + N at 180 to 1000 MeV, amplitude relations with γ + N amplitudes, (T), 24:3591
interactions π + N → π(γ) + N, contributions of spin-J baryon poles to amplitudes of, (T), 25:53203
interactions π + N → π(rho) + Δ(1236), helicity-channel effects on cross sections of, (T), 24:10776
interactions π + N → π(rho) + N below 1.8 GeV, two-channel model for πN S_{31}, P_{31}, and P_{13} inelastic resonances with repulsive background in, (T), 24:3685
interactions π + N → rho + Δ at high energies, O(3,1) symmetry for cross sections and conspiracy relations for, 23:25638
interactions π + N → rho + Δ in Regge pole model, π conspiracy in, 22:39369
interactions π + N → rho + Δ, behavior of helicity amplitudes in t channel for, 24:18111 (CONF-690330-, pp 161-4)
interactions π + N → rho + Δ, existence of forward peak in, (T), 23:15132
interactions π + N → rho + Δ, π conspiracy in, 22:5594
interactions π + N → rho + Δ, π trajectory exchange in, 22:11681
interactions π + N → rho + N and π + N → rho + N*, Regge-pole model for pion-exchange, 22:7494
interactions π + N → rho + N at high energies, model independent analysis for ω-exchange contribution to, (T), 25:53184
interactions π + N → rho + N at high energies, pole-vector-dominance model and current conservation in, 24:20154 (ITF-69-70)
interactions π + N → rho + N at high energies, sign of scattering angle cosine at branch points of partial-wave amplitude in s-plane for, 23:49154
interactions π + N → rho + N at high energies, vector dominance and current conservation for t-channel helicity relations in Regge models for, 24:35659
interactions π + N → rho + N in O(3,1) symmetry, high-energy behavior of differential cross sections for, (T), 24:8662
interactions π + N → rho + N in Regge pole model, π conspiracy in, 22:39369
interactions π + N → rho + N* at high energies, quark model for test of additivity from joint decay distributions from, 22:13735
interactions π + N → rho + N, conspiracies for forward, 22:9603
interactions π + N → rho + N, conspiracy equations for, 22:20222 (INP-555/PH, pp 107-14)
interactions π + N → rho + N, coupling-constant sum rules from fixed-momentum-transfer dispersion relations for, 21:29556
interactions π + N → rho + N, diffractive Regge pole model and conspiracy relation for, (T), 24:8643
interactions π + N → rho + N, direct photon—vector meson coupling scheme for wide-angle pair production in, (T), 21:17129
interactions π + N → rho + N, forward and near forward limits in Regge pole theory for, 22:37158
interactions π + N → rho + N, general classification of conspiracy relations for, 21:42363
interactions π + N → rho + N, hard-meson current algebra for peripheral, 24:8699
interactions π + N → rho + N, hard-pion current-algebra calculation for, 23:3722
interactions π + N → rho + N* in Regge pole model, decay angular correlations for, 22:24661
interactions π + N → rho + N, kinematic constraints on Regge-pole residues in, 22:11683
interactions π + N → rho + N, kinematic constraints on helicity amplitudes for crossing matrix for, (T), 24:10736
interactions π + N → rho + N, O(4) classification of invariants and differential cross sections for, (T), 25:14757
interactions π + N → rho + N, photon—vector-meson analogy model for relations between γ + N → π + N interactions and, 22:39323
interactions π + N → rho + N, π exchange in, 24:30522 (CONF-690521-, pp 533-61)
interactions π + N → rho + N, reaction mechanism for rho production in, 22:9611
interactions π + N → rho + N, Regge pole model for rho production in, (T), 23:13102
interactions π + N → rho + N, Regge pole model with diffractive corrections for, 24:42903
interactions π + N → rho + N, Reggeization of π exchange in, (T), 25:38751
interactions π + N → rho + N, superconvergent sum rules for, 21:42380
interactions π + N → rho + N, vector dominance hypothesis and Regge pole exchange for, 22:48273
interactions π + N → rho + N, vector dominance model for relation between γ + N → π + N interaction and, 24:24272
interactions π + N → rho + N, vector-meson dominance for e + N → π + N interactions relation with, (T), 25:53074
interactions π + N → rho + N*, O(3,1) symmetry and Lorentz states of exchanged trajectories for, 22:34985
interactions π + N → rho + N*, Regge pole model for differential cross sections and decay angular correlations in, 22:24658
interactions π + N → rho + N*, Regge recurrences of inelastic resonances in, 22:5580
interactions π + N → rho + π + N, Deck multiperipheral model for A_1 production in, 22:26660
interactions π + N → rho + π + N, spin and parity analysis of A_1-region πrho system produced via double Regge mechanism, 23:51948
interactions π + N → rho(ω) + N, method for deriving angular correlations for, 22:41774 (NP-17531)
interactions π + N → sigma + N, helicity conservation in, 25:56517
interactions π + N → sigma + N, kinematic constraints on Regge-pole residues in, 22:11683
interactions π + N → sigma + N, kinematic singularities of Regge pole residues in, 21:31591 (NP-16821)
interactions π + N → Σ + K, charge independence in, (E/T), 23:46729
interactions π + N → Σ(1385) + K, effect of (πK) exchange in t-channel on Σ(1385) production in, (T), 23:27819
interactions π + N → vector meson + Δ, Reggeization of helicity amplitudes for, 23:1643
interactions π + N → vector meson + N, helicity conservation in, 25:56517
interactions π + N → vector meson + N, Reggeization of helicity amplitudes for, 23:1643
interactions π + N → vector meson (tensor meson) + N, tests of basic assumptions of complex angular momentum method for, 22:9578
interactions π + N → vector mesons + Δ, conspiracy relations for, (T), 22:22400
interactions π + N → vector mesons + N, conspiracy relations for, (T), 22:22400
interactions π + N → vector mesons + N, Lorentz pole and kinematic constraints on helicity amplitudes for, 22:26640
interactions π + N → W + N, peripheral one-pion model for cross sections for, 22:35011
interactions π + N → X^0(960) + N*, method for determining spin—parity of X^0(960) from forward, (T), 25:36494
interactions π + N above 1 GeV, cross sections and multiplicity distributions of charged particle production in, (E), 24:21929
interactions π + n above 1 GeV, multiplicity distributions of charged secondary particles in, (E), 22:52931 (KFKI-20/1968)
interactions π + N above 1 GeV, multiplicity distributions of charged secondaries from, (T), 24:10765
interactions π + N above 1 GeV, review of properties of secondary particles produced from, 21:46550
interactions π + N above 200 GeV in emulsions, review of multiple production from, 22:9509 (INR-P-826/VI/PH)
interactions π + N above 5 GeV/c, absorptive model corrections to Regge pole exchange in, 25:3390
interactions π + N above 5 GeV/c, Regge pole model for, 22:20210 (CERN-67-24(Vol.2))
interactions π + N at (1236 MeV)², finite-energy sum rules for, (T), 22:52989
interactions π + N at 0 to 700 MeV, Born approximation potential for phase shifts for, (T), 25:36510
interactions π + N at 0 to 700 MeV, Coulomb scattering amplitude and Coulomb and nuclear phase shifts for differential cross sections for, (T), 22:13754 (ORNL-4197)
interactions π + N at 1 to 10 GeV/c, analysis of elastic and charge-exchange, (E/T), 22:9607
interactions π + N at 1 to 2 GeV, partial waves from rho, N, and Δ exchange in charge-exchange, 23:18912
interactions π + N at 1 to 8 GeV, single-particle exchange model for inelastic, (T), 25:17513
interactions π + N at 1.7 to 18.4 GeV/c, absorptive potential with hard core for elastic, (T), 23:5633
interactions π + N at 1.98 to 3.5 GeV/c, phase shift analyses of elastic, (T), 25:20012
interactions π + N at 10 to 100 GeV/c, spectrometer for studying baryon exchange in elastic scattering, 24:52318 (TID-25473(Vol.3), pp 165-76)
interactions π + N at 10 to 65 GeV, Regge pole—cut model for forward differential and total cross sections for, (T), 25:41012
interactions π + N at 10^{11} to 10^{13} eV, proposed experiment for average characteristics and angular distributions for, (E), 25:36416
interactions π + N at 16 GeV/c in nuclear emulsions, effective target mass in inelastic, (E), 23:32614
interactions π + N at 17 GeV in emulsions, analysis of multi-prong, (E), 22:34863
interactions π + n at 17 GeV in emulsions, angular momentum and momentum transfer squared in inelastic, (E), 22:44324
interactions π + N at 17 Gev in Ilford G-5 emulsions, multiple Coulomb scatterings in, 21:1599
interactions π + N at 17.2 GeV in emulsion nuclei, cascade model analysis of, 21:33617
interactions π + N at 17.2 GeV, central and peripheral inelastic, (E), 22:24549
interactions π + N at 17.2 GeV/c in emulsions, charged particles and single slow recoil proton production in, (E), 22:34984
interactions π + N at 17.2 GeV/c, pion and proton energy spectra for, review of, 23:18795 (CONF-671217-, pp 589-695)
interactions π + N at 2 to 15 GeV/c, one boson exchange models for, (T), 22:27088(R) (COO-1051-21)
interactions π + N at 2 to 20 GeV/c, behavior of diffraction maximum in inelastic, (T), 25:56504
interactions π + N at 2 to 6 GeV/c, polarization and spin-rotation predictions from Regge fit to, 23:42673
interactions π + N at 2 to 6 GeV/c, validity of interference model for, 22:46455
interactions π + N at 2 to 6 GeV/c, validity of interference model for, 22:17968
interactions π + N at 2.75 to 10 GeV/c, experimental data for reconstruction of energy and angular dependence of amplitudes in near forward, (E/T), 25:43640 (LYCEN-7110)
interactions π + N at 240 to 650 MeV, resonance production and existence of S_{11} and P_{11} from phase shift analysis of, (T), 25:47858(T) (CERN-Trans-71-21)
interactions π + N at 25 to 3500 MeV, graphs for scattered particle energies and angles for, 21:44351 (ORNL-TM-1945)
interactions π + N at 25 to 65 GeV, exotic trajectories for energy dependence of cross sections for, (T), 25:33741
interactions π + N at 28 to 1270 MeV, space—time shifts and cross sections for relativistic wave packet collisions for time duration of, 22:15795
interactions π + N at 28 to 1270 MeV/c, time shifts for s-wave elastic, 22:20260
interactions π + N at 3.5 and 17.2 GeV/c in emulsion nuclei, hyperfragment production from, (E), 21:33602
interactions π + N at 30 to 65 GeV/c, multiple-scattering quark-model predictions of total cross sections for, (E/T), 24:37794
interactions π + N at 300 to 700 MeV, phase-shift analyses of, 21:7516
interactions π + N at 310 to 1450 MeV, N* resonances from phase-shift analysis of, 25:1546
interactions π + N at 385 to 1700 MeV/c, energy continuation of energy-independent phase shift analysis for resonance-like structure in, (T), 25:30871 (UCRL-20250)
interactions π + N at 4 GeV/c, one-particle exchange model for, 22:9608
interactions π + N at 400 to 1500 MeV, review of phase shift calculations for, 23:16932
interactions π + N at 5.9 to 18.2 GeV/c, phenomenology of complex-spin negative-mass-squared resonance tachyons in angular distributions of charge-exchange, (T), 25:56500 (ORO-3992-18)
interactions π + N at 50 to 500 GeV/c, Reggeized multiple-scattering quark model for, 24:45525
interactions π + N at 6 GeV/c, internal symmetry restrictions on spin-density matrix for, 23:15143
interactions π + N at 6 to 55 GeV, complex angular momenta theory for, (E/T), 25:3381 (JINR-P2-5320)
interactions π + N at 7.5 GeV, Adair analysis of, 21:2472
interactions π + N at 7.5 GeV, generalized polar approximation of peripheral, (T), 21:2471
interactions π + N at 720 to 1180 MeV/c, cross sections and angular distributions for, (E), 23:14969 (SLAC-PUB-531(Exp.))
interactions π + N at 8 and 17 GeV in emulsions, isobar model analysis of, (E), 21:3993
interactions π + N at 930 MeV/c, wide angle electron pair production in, (E), 21:875 (AERE-R-5287)
interactions π + N at fixed u, finite-energy sum rules for amplitudes of, 24:24370
interactions π + N at fixed u, superconvergence relations for, 22:9606
interactions π + N at high and low energies, dispersion sum rules for, 21:37803 (JINR-P2-3383)
interactions π + N at high and superhigh energies, Monte Carlo method with energy—momentum conservation law for analytical approximations for reconstruction of inelastic, (T), 25:59472 (JINR-P2-6022)
interactions π + N at high energies and all angles, optical model for, (T), 25:43571
interactions π + N at high energies in emulsions, multiplicity and angular distribution of secondaries in, (T), 22:32060
interactions π + N at high energies in emulsions, cross sections for, 21:27307
interactions π + N at high energies in parton model, cross sections for inelastic, 25:12222
interactions π + N at high energies in Regge pole model, use of sum rule for, 21:44370 (IS-1690)
interactions π + N at high energies in Regge-pole model, inconsistency of crossover phenomena for, (T), 22:3310
interactions π + N at high energies, Adler—Weisberger relation for total cross sections of, (T), 24:40394
interactions π + N at high energies, analysis of microcausality for, 22:24571(T) (LA-tr-68-6)
interactions π + N at high energies, arbitrariness in Byers—Yang model for amplitude relations for elastic and charge-exchange, 24:3688
interactions π + N at high energies, asymptotic behavior of forward amplitudes for, 23:1639 (BNL-12811)
interactions π + N at high energies, asymptotic behavior of amplitude of elastic, 21:15337
interactions π + n at high energies, asymptotic summation of ladder diagrams for amplitudes of, 21:21208
interactions π + N at high energies, asymptotic theorems and SU(2) symmetry for ratio of real to imaginary part of amplitude for, 23:21144
interactions π + N at high energies, bounds on amplitudes and oscillations in diffraction-peak region for, (T), 25:19990
interactions π + N at high energies, conference on, (E/T), 24:37803 (JINR-P1-3971)
interactions π + N at high energies, conspiracy between Regge trajectories in charge-exchange, 22:3421
interactions π + N at high energies, continuous-parameter sum rules for rho and rho' trajectories for, 22:39398 (IC-68/48)
interactions π + N at high energies, Coulomb interference in, 22:46434
interactions π + N at high energies, determination of P and P' Regge pole parameters for, 22:35002
interactions π + N at high energies, diffraction dissociation and multipion production in, (E), 24:24252

interactions π + N at high energies, dispersion sum rules for parameters of, (T), 21:44383
interactions π + N at high energies, dispersion sum rules for forward, 21:17132
interactions π + N at high energies, dispersion sum rules for, 21:37804 (JINR-P2-3385)
interactions π + N at high energies, dispersion sum rules and Regge pole model for amplitudes of, 23: 21110
interactions π + N at high energies, extended structure theory for form factors for, 22:17941
interactions π + N at high energies, Fermi—Yang model for total cross sections for, (T), 21:21237
interactions π + N at high energies, fermion Regge poles in elastic and inelastic, 23:36949
interactions π + N at high energies, field-theoretic calculation with meson exchange and simple nucleon, Δ, and rho poles for amplitudes with fixed and Regge poles and polarizations and cross sections for, 24:5293 (NYO-2262-TA-207)
interactions π + N at high energies, finite-energy sum rules for relation between low- and high-energy amplitudes for, 24:13081 (INP-682, pp 138-55)
interactions π + N at high energies, fixed-branch-point model for diffraction, 23:49165
interactions π + N at high energies, formulas with multiple rescatterings by arbitrary Regge poles for elastic and charge-exchange, (T), 24:52097
interactions π + N at high energies, gradient-coupling model for soft-neutral-pion emission in, 22:3438
interactions π + N at high energies, γ_5 gauge invariance for helicity conservation in, (T), 25:3403
interactions π + N at high energies, impact-parameter representation of amplitudes for, 22:35000
interactions π + N at high energies, linear Regge trajectory fits of, (T), 25:14723
interactions π + N at high energies, meson pole phenomenology of forward elastic and charge-exchange, (T), 25:1482 (CONF-691202-, Paper 1)
interactions π + N at high energies, model for partial waves for, 24:18185 (CONF-690330-, pp 181-7)
interactions π + N at high energies, modified scaling law for large-angle elastic, 25:17512
interactions π + N at high energies, moving two-Reggeon cut contribution to amplitude of vector meson production in, 24:20179
interactions π + N at high energies, multichannel calculations in peripheral model for, 21:18993
interactions π + N at high energies, multichannel approach for peripheral, 22:3449
interactions π + N at high energies, multiple scattering and bootstrap formalisms for structure in, 24:5298
interactions π + N at high energies, multiple-scattering corrections in quark model for, 22:50366
interactions π + N at high energies, non-Pomeranchuk Regge cuts for minima and polarization in elastic and charge-exchange, (T), 25:20006
interactions π + N at high energies, non-Regge behavior of amplitudes of, 24:21989
interactions π + N at high energies, P and P' Regge pole parameters for, 22:32163
interactions π + N at high energies, phenomenological model for, 23:1632 (CEA-R-3479)
interactions π + N at high energies, polarization effects in vector meson production in, 21:40234
interactions π + N at high energies, Pomeranchon SU(3) assignment for total cross section of, (T), 22: 24653
interactions π + N at high energies, Pomeranchuk trajectory and cross sections for, 24:37797
interactions π + N at high energies, Regge and non-Regge damping in field theoretic model for, 24:26439
interactions π + N at high energies, Regge cuts for finite-energy sum rules for total cross sections of forward, (T), 25:22824
interactions π + N at high energies, Regge pole analysis of, 24:5299
interactions π + N at high energies, Regge pole description of two-body exchange, 24:24380
interactions π + N at high energies, Regge pole exchange models for elastic, 24:8641
interactions π + N at high energies, Regge pole model for resonances in backward, 22:39391 (CERN-68-7(Vol.1), pp 460-70)
interactions π + N at high energies, Regge pole model for resonances in, 22:39407(T) (UCRL-Trans-1364)
interactions π + N at high energies, Regge pole model for resonance production from, 22:20244
interactions π + N at high energies, Regge pole parameters for spin-flip, 23:46849
interactions π + N at high energies, Regge poles in forward elastic, 21:29541
interactions π + N at high energies, Regge singularities in complex angular momentum plane in, 24:20152 (BNL-50212, pp 159-247)
interactions π + N at high energies, Regge trajectories of definite 0(4) for forward production processes from, 21:29540
interactions π + N at high energies, Reggeon-diagram Gribov-technique for multiple rescattering in, 24: 10783
interactions π + N at high energies, restrictions of behavior of amplitude of, 23:19003 (ITF-68-38)
interactions π + N at high energies, review of multiple meson (π) and (K) production in, (E), 24:20157
interactions π + N at high energies, review of Regge pole theory for elastic and charge-exchange, 24:5310
interactions π + N at high energies, review of Regge pole models for, (T), 25:25425
interactions π + N at high energies, review of, (E), 25: 7653 (CONF-690608-, pp 143-64)
interactions π + N at high energies, scattering amplitude model for, 24:49606
interactions π + N at high energies, shadow scattering and Regge singularities in phenomenological analysis of, 21:23337
interactions π + N at high energies, shower enhancement of branch-point contribution to total cross sections for, (T), 24:28550
interactions π + N at high energies, spin dependence of, 21:42461
interactions π + N at high energies, spin dependences in forward and Regge poles in backward, (T), 22: 24675
interactions π + N at high energies, spin-dependent effects in, (E/T), 24:5313
interactions π + N at high energies, SU(3) symmetry and exchange degeneracy in Regge pole-cut model for, (T), 25:12217
interactions π + N at high energies, summation of asymptotics of amplitudes for, 22:46531 (JINR-E2-3917)
interactions π + N at high energies, test of violation of Pomeranchuk theorem from finite-energy sum rules for, 24:47458
interactions π + N at high energies, total cross sections and Pomeranchuk theorem for, (T), 24:49527
interactions π + N at high energies, total effective cross sections for acausal, (T), 25:56502
interactions π + N at high energies, vacuum exchange amplitudes from family of generalized superconvergent sum rules for, 22:32148
interactions π + N at high energies, vacuum Regge exchange contributions to, 22:48317
interactions π + N at high energies, violation of Pomeranchuk theorem and logarithmically increasing cross sections for, (T), 24:30530
interactions π + N at high-energy limit, total cross section for, (T), 24:49515
interactions π + N at intermediate and high energies, dispersion sum rules for analysis of Regge-pole, interference, and resonance models for, 23:36950
interactions π + N at intermediate energies, interference model and finite-energy sum rules for, 22: 24630
interactions π + N at intermediate energies, unitarized interference model and partial wave projections for, (T) , 24:42966
interactions π + N at low and high energies, dispersion sum rules for, 22:20247
interactions π + N at low and intermediate energies, partial-wave amplitudes for, 25:53220
interactions π + N at low and intermediate energies, three-channel model for p-wave, 25:12221
interactions π + N at low and intermediate energies, N/D analysis of Regge amplitudes for, 24:15589
interactions π + N at low and intermediate energies, local duality in invariant amplitudes for, 25:9796
interactions π + N at low and intermediate energies, Regge poles for, (T), 25:56497 (FRNC-TH-33)
interactions π + N at low and medium energies, lectures on, (T), 25:56807 (CERN-71-14)
interactions π + N at low and medium energies, mass extrapolation technique for S-wave amplitude of, 25: 33752
interactions π + N at low energies and in unphysical region, fixed-t dispersion relations for real parts of partial-wave amplitudes for, 23:18906
interactions π + N at low energies, amplitudes and first derivative at crossing symmetry point for, (T), 24:6726
interactions π + N at low energies, ansatz for nucleon on Regge trajectory for, 21:4047
interactions π + N at low energies, chiral dynamics for, (T), 22:9667
interactions π + N at low energies, chiral dynamics for analysis of single-pion production, 23:42678
interactions π + N at low energies, chiral transformations for, (T), 22:22435
interactions π + N at low energies, current algebra determination of P-wave scattering lengths and S-wave effective ranges for, 21:37824
interactions π + N at low energies, current and field commutators for Ward identities for, (T), 23:13103
interactions π + N at low energies, current-commutator sum rules for, 21:25306
interactions π + N at low energies, dispersion sum rules for, 23:30758
interactions π + N at low energies, dispersion theory of low-energy limits for, 22:46436
interactions π + N at low energies, dispersion theories for, 23:39662
interactions π + N at low energies, dispersions relations and axial-vector coupling constant for, 21:25307
interactions π + N at low energies, duality from Regge parametrization for P_{11} and S_{11} partial waves in, (T), 25:12211
interactions π + N at low energies, dynamical model for, 21:29545
interactions π + N at low energies, effect of quasipoles on forward amplitudes of, 21:37827
interactions π + N at low energies, equal-time commutators for, 23:15112 (MIT-2098-509)
interactions π + N at low energies, equal-time commutators for amplitudes of, 23:39740
interactions π + N at low energies, gradient coupling theory and soft-pion technique for s-wave scattering lengths for, 24:5305
interactions π + N at low energies, hard-pion current algebra calculation of scattering lengths and phase shifts for, 25:41009
interactions π + N at low energies, high-energy contributions to, 22:1440
interactions π + N at low energies, isobar model for explicit amplitude of radiative, 22:29666
interactions π + N at low energies, lectures on, (T), 25:56496 (CERN-71-14, pp 101-54)
interactions π + N at low energies, model Hamiltonian for, (T), 25:17546
interactions π + N at low energies, N/D dispersion relation calculation of phase shifts for, 24:24383
interactions π + N at low energies, one-particle-exchange model for phase shifts for, 22:17971
interactions π + N at low energies, parity doubling and asymmetric fermion trajectories for dynamics of, 22: 20270
interactions π + N at low energies, PCAC hypothesis for, (T), 22:9592
interactions π + N at low energies, PCAC hypothesis and derivative coupling meson theory for, 21:40230
interactions π + N at low energies, PCAC hypothesis and current commutation relations for p-wave amplitudes of, 21:40231
interactions π + N at low energies, phase shifts for, 23: 36943
interactions π + N at low energies, properties of P and P' trajectories from amplitudes of elastic, 22:41818
interactions π + N at low energies, π production in, (T) , 23:13098
interactions π + N at low energies, quantum field theories with shadow states for s- and p-wave, (T), 25: 47862 (ORO-3992-45)
interactions π + N at low energies, Regge rho-exchange parameters for, 21:37805
interactions π + N at low energies, Regge structure of rho poles from, 21:37807
interactions π + N at low energies, review of resonance production in, 22:32151
interactions π + N at low energies, rho contribution to, (T), 24:45528
interactions π + N at low energies, rho contributions to, 24:28554
interactions π + N at low energies, rho-exchange model for amplitude of charge-exchange, 22:41822
interactions π + N at low energies, s-wave scattering lengths for, (T), 24:42971
interactions π + N at low energies, self-consistency condition from gauge principle for, 22:46454
interactions π + N at low energies, short-range repulsion in broken chiral symmetry for mass and width of Δ(1236) in, (T), 25:25471
interactions π + N at low energies, short-range repulsion in broken chiral symmetry for masses lifetimes and coupling constants for p-wave resonances in, (T), 25:25471
interactions π + N at low energies, static pair suppression in P- and S-wave, 24:1602
interactions π + N at low energies, status of experiments on, 23:8738 (TID-24667, pp 575)
interactions π + N at low energies, strip unitarization in Veneziano model for, (T), 24:49490 (SINP-TH-69-6)
interactions π + N at low energies, two-channel N/D calculation of p_{11} wave for, 21:17117
interactions π + N at low energies, unitarity corrections to parameters in soft-pion calculations for, 22:20259
interactions π + N at low energies, Veneziano model for, 24:3654
interactions π + N at low energies, Ward identities and dispersion relations with duality in, (T), 25:50139
interactions π + N at low energies, Ward identity techniques for s- and p-wave amplitudes for, (T), 25: 36513
interactions π + N at low energies, Ward-identity techniques for s- and p-wave amplitudes for, 25:1549
interactions π + N at low energy, current commutation relations and PCAC hypothesis for, 22:11672
interactions π + N at low energy, hard pion technique in current algebra for scattering lengths of, 23:32751
interactions π + N at low energy, partial-wave amplitudes for elastic, 21:25296
interactions π + N at rest, current—field equal-time commutators and hard-pion techniques for, (T), 24: 52101
interactions π + N at T = $^3/_2$ and J = $^1/_2$, Regge poles and phase shifts for, 21:932
interactions π + N at threshold to 13 GeV/c, predictions of isospin invariance in backward, (E/T), 25:59287
interactions π + N at threshold, electromagnetic corrections to chiral symmetry for S-wave scattering lengths for, (T), 25:20044
interactions π + N at ultrahigh energies, model for multiple meson production in, (T), 24:47444
interactions π + N at vanishing momentum transfer, SO(4) symmetry for amplitudes of, 22:44434
interactions π + N at very high energies, angular and energy distributions of secondary particles from, (T), 25:7658 (JINR-P2-5331)
interactions π + N at very high energies, angular and energy distributions of particles produced in, (T), 25: 30870(T) (ORNL-tr-2433)
interactions π + N below 1.5 GeV, dispersion relations from phase shift analysis of, 22:34977 (AD-666680)
interactions π + N below 1.6 GeV, phase shift analysis of elastic, 22:15807
interactions π + N below 100 MeV, phase shift analysis of, (E), 23:8739 (TID-24667, pp 576-9)
interactions π + N below 18 GeV, reconstitution of scattering amplitudes satisfying the moment sum rules for total cross sections of, (T), 23:51947
interactions π + N below 2 GeV, multi-resonance structure in P_{11} state in, (T), 23:10821
interactions π + N below 2 GeV/c, interference model for near-forward, 23:46727
interactions π + N below 270 MeV, phase shifts from fixed-t dispersion relations for, 25:45749
interactions π + N below 290 MeV, phenomenological chiral Lagrangian model for π production in, 23: 23484
interactions π + N below 700 MeV in D_{13} state, (T), 24:49504
interactions π + N below 8 GeV, Regge pole model and complex momenta for, 21:40218 (NP-16952)
interactions π + N in backward direction, finite-energy sum rules for, 23:32727
interactions π + N in cascade theory calculations for particle reactions with nuclei at high energies, method for sampling inelastic, 22:7525 (JINR-P2-3561)
interactions π + N in chiral U(3) x U(3), s- and p-wave scattering lengths for, 21:44365

interactions π + N in cosmic jets, transverse momentum and four-momentum transfer of recoil protons in, 22:7443
interactions π + N in cosmic-ray energy region, characteristic difference of N + N and, 24:20172
interactions π + N in current algebra, S-wave phase shifts from unitarized amplitudes for, 23:42670
interactions π + N in dispersion theory, high-energy limits for charge-exchange, 22:34987
interactions π + N in duality framework, Pomeranchon plus resonance model for elastic, 24:13109
interactions π + N in emulsions at 4.4 GeV/c, isobar model analysis of, 21:3979
interactions π + N in final state, effect on backward π production in γ + d interactions at 1 GeV, 23:39733
interactions π + N in GeV range, low-energy models for, (T), 25:30854
interactions π + N in I = 1/2, J = 1/2⁺ state, multichannel potential model of, 23:10820
interactions π + N in I = J = 1/2⁺ state, dispersion theory and multichannel potential of, (T), 23:1646
interactions π + N in infinite-component field, Regge amplitude for, (T), 25:41022
interactions π + N in ladder approximation, use of Pade approximants for Bethe—Salpeter equation for, 22:44428
interactions π + n in meson (π⁻) reactions with nuclei at 60 GeV in emulsions, properties of, (E), 24:10673
interactions π + N in modified interference model, duality concept from analysis of, (T), 24:42972
interactions π + N in narrow resonance model, 25:45728
interactions π + N in nuclei at 200 GeV, properties of secondary particle production in, (E), 24:21928
interactions π + N in nuclei at high energies with intranuclear cascades, statistical calculations for inelastic, 23:30754(T) (ORNL-tr-2123)
interactions π + N in nuclei, intranuclear cascades with many-particle interactions from, (T), 22:37164
interactions π + N in nuclei, properties of many-particle interactions from cascade calculations and, 22:29700(T) (ORNL-tr-1800)
interactions π + N in O(4) symmetry, exchange of odd-parity Regge trajectories for forward peaks in, 21:33777
interactions π + N in P₁₁ channel, daughter trajectories for nucleon isobars from, 23:27818
interactions π + N in P₁₁ state, amplitudes for, 21:9801
interactions π + N in P₁₁ state, analysis of, 21:19004
interactions π + N in P₁₁ state, CDD poles in N/D calculation of, 23:27807
interactions π + N in P₁₁ state, inelastic effects in, (T), 23:3734
interactions π + N in P₁₁ state, N/D approach to, 21:46536
interactions π + N in P₁₁ state, nucleon dynamical status determination from amplitude of, 22:3450
interactions π + N in pre-asymptotic region, angular distributions and amplitude structure for inelastic, (T), 25:59497
interactions π + N in pseudoscalar field theory, Pade approximation method for calculation of S-matrix for, 24:37802
interactions π + N in π⁻ reactions with nuclei at 600 to 1600 MeV, optical potential strength for, (E), 22:15681 (PPAD-630-F)
interactions π + N in quantum field theory without cut-off, mass and width of N* resonance from, 23:27814
interactions π + N in quantum field theory, partitioning technique for amplitude of, 22:7507
interactions π + N in quantum field theory, production amplitudes for, 21:42376
interactions π + N in quark model, real part of amplitude for, 21:25279
interactions π + N in quark model, sum rules relating, (T), 21:15318
interactions π + N in Regge pole theory, 22:20353
interactions π + N in Regge pole theory, amplitude in kinematic region of backward, 21:33704
interactions π + N in sigma model, first diagonal Pade approximant for elastic, 25:22822
interactions π + N in static limit, two-channel calculation of, 21:19016
interactions π + N in static model, sum rule for axial-vector current renormalization for, 21:13712
interactions π + N in SU(3) Regge-pole theory, relations among charge-exchange differential cross sections for, 21:29557
interactions π + N in urbaryon model, cross sections for forward elastic, 21:35300
interactions π + N in urbaryon rearrangement model, dip-bump structure of cross sections for, 25:12219
interactions π + N in Veneziano model, amplitude for, 24:18207
interactions π + N in Veneziano model, Δ and N trajectory widths from, 23:36938
interactions π + N in Veneziano model, polarization in charge-exchange, 25:9793
interactions π + N in Veneziano model, Regge cuts for backward, (T), 24:45527
interactions π + N in Veneziano model, rho contribution to nucleon form factor from, 24:18217
interactions π + N in Virasoro model, Regge behavior, crossing symmetry, and analyticity in amplitude for, 23:42681
interactions π + N interactions at high energies, comparative evaluation of models for backward, (T), 25:17508
interactions π + N near backward direction, fixed finite-energy sum rules for, 22:34986
interactions π + N near threshold energy, pseudoscalar—pseudoscalar coupling theory for s-wave, 23:8808
interactions π + N π + N below 2 GeV, parametrization of amplitude of, 23:30755
interactions π + N to 2 GeV, data compilation for elastic, 22:17864 (CEA-R-3401)
interactions π + N to 2.8 GeV/c, phase shift analysis of elastic, 24:28553
interactions π + N up to 2.5 GeV/c, polarization at forward angles and amplitudes for elastic, (E/T), 21:42370
interactions π + N up to 30 GeV, statistical calculations for inelastic, 23:3753 (JINR-P2-4066)
interactions π + N* → π + N* in Regge pole theory, 22:20353
interactions π + N* → π + N*, N,* (1238) production from multichannel, (T), 21:23342
interactions π + N* → π + N*, superconvergence relations for, 23:51935
interactions π + N* → π + N*, U(6,6) symmetry for superconvergent sum rules for, 22:3430
interactions π + N* → rho + N, helicity formalism for superconvergent sum rules for, 22:24656
interactions π + N, (T), 21:18969 (NP-16640)
interactions π + N, 3-pole N/D approximation in static model for Δ(1236) production in, (T), 25:1540
interactions π + N, absorption Regge cut in backward, 25:53206
interactions π + N, absorptive corrections in Regge pole model for charge-exchange polarization in, 22:35004
interactions π + N, action of S-transformation on integrals of motion in strong coupling theory for, 24:10741
interactions π + N, Adler—Weisberger relation for absorption cross section for, 23:23441
interactions π + N, Adler—Weisberger relation for amplitude of, 22:3483 (CERN-67-24(Vol.1), Paper 2)
interactions π + N, Adler—Weisberger sum rule for, 21:21240
interactions π + N, Adler—Weisberger sum rule for, 21:31594
interactions π + N, amplitude superconvergence calculations using perturbation theory and Lee model, 22:50405
interactions π + N, analysis of, 22:3427
interactions π + N, analysis using partial-wave dispersion relations in W plane for, 21:44372
interactions π + N, analytic continuation of partial amplitudes in unphysical region for resonance production in, 23:46720 (JINR-P2-4535)
interactions π + N, analytic helicity amplitudes and Regge-pole formulas for differential cross sections for, 22:3448
interactions π + N, analytic properties of Feynman diagrams in quantum field theory for, 22:20218
interactions π + N, analytical and numerical study of bound-state solutions to Bethe—Salpeter equation for, 22:39414
interactions π + N, analyticity and broken SL(2,C) symmetry for Regge families for, 23:5631
interactions π + N, analyticity constraints and superconvergence relations for, 22:37140
interactions π + N, analyticity domain of forward amplitude of, 21:33793
interactions π + N, Argand diagrams for partial-wave projections of Regge amplitudes of, 22:32147
interactions π + N, Argand diagrmas and loops for analysis of resonances in charge-exchange, 23:36944
interactions π + N, Argand loop from partial-wave projection of Regge-pole exchanges in, 24:37790
interactions π + N, asymptotic behavior of B/sup +-/ spin-flip amplitudes for, 23:15134
interactions π + N, asymptotic behavior of force function for, (T), 24:47455
interactions π + N, asymptotic conservation of helicity for, 25:3398
interactions π + N, asymptotic predictions for dispersion relations for forward, 23:15060
interactions π + N, asymptotic predictions for forward dispersion relations for, 21:31604
interactions π + N, axial-vector coupling constant renormalization for, 21:9785
interactions π + N, axiomatic analyticity domain extension for elastic, 22:3415
interactions π + N, Ball—Zachariasen trajectory for polarization in elastic and charge-exchange, (T), 25:47877
interactions π + N, baryon Regge exchange in backward, 23:46735
interactions π + N, baryon trajectories in direct channel and polarization in charge-exchange, (T), 21:18996
interactions π + N, baryon trajectories without MacDowell partners for resonance spectra from, 24:37792
interactions π + N, behavior of partial wave amplitudes at s = 0 for, 23:51937
interactions π + N, bootstrap models for, 22:32170
interactions π + N, bound-state solutions to Bethe—Salpeter equation for, 22:37154
interactions π + N, bound-state solutions to Bethe—Salpeter equation for N* production from, 21:42356 (UCRL-17671)
interactions π + N, bounds on fundamental length from dispersion relations for, 25:7666
interactions π + N, calculation of elastic scattering lengths using vector meson exchange for, 23:3843
interactions π + N, calculation of mean characteristics of EAS with interchange of parameters for, 23:42007
interactions π + N, calculation of partial-wave amplitudes on left-hand cut for, 24:18296
interactions π + N, causality and analyticity for resonant waves in, 22:3416
interactions π + N, causality violation and nonlocality from dispersion relation analysis of, 22:35001
interactions π + N, CDD effects in partial-wave dispersion relations for Δ(1236) production in, 24:1673
interactions π + N, charge-exchange in forward, (T), 21:5402
interactions π + N, Chew—Low model for, 23:49197
interactions π + N, Chew—Low model for resonance production in p-wave, 21:29544
interactions π + N, Chew—Low type equations for, 24:49437
interactions π + N, chiral algebra conditions for amplitudes of, 21:25290 (ISS-67/6)
interactions π + N, chiral algebra conditions on amplitudes of, 21:29537
interactions π + N, chiral dynamics for, 21:25286
interactions π + N, chiral dynamics for S-wave scattering lengths for, 23:32698
interactions π + N, chiral dynamics for, (T), 24:18184 (CERN-69-29, pp 31-45)
interactions π + N, chiral Lagrangian calculation of scattering length for, 23:15122
interactions π + N, chiral SU(2) x SU(2) Lagrangians for, 23:18916
interactions π + N, chiral symmetry for, 21:44412
interactions π + N, chiral transformations for, (T), 24:40408
interactions π + N, chiral U(2) x U(2) symmetry for current x current structure of, 24:3686
interactions π + N, chiral-invariant Lagrangian for S-wave scattering lengths and N* production parameters, 24:35644
interactions π + N, classification of N(1400) in multiplet of broken SU(3) from, 22:37179
interactions π + n, coherent meson (π) reactions with helium-4 at high energies for amplitude of, 24:5312
interactions π + N, complex Regge poles in backward, (T), 25:59495
interactions π + N, complex Regge poles in cut j plane for charge exchange, (T), 25:3402
interactions π + N, conditions from current commutation relations on, 21:930
interactions π + N, conference on, 24:5294
interactions π + N, conservation laws for intranuclear cascade calculation for nucleon reactions with nuclei from inelastic, 22:22410 (JINR-P4-3714)
interactions π + N, consistency conditions from duality for, (T), 25:9792
interactions π + N, consistent approach for continuous moment sum rules for, 23:25634
interactions π + N, constraint relations from crossed-channel unitarity for, 24:13057
interactions π + N, constraints and unequal-mass kinetics using baryon trajectories for elastic, (E/T), 23:8809
interactions π + N, constraints on asymptotic behavior of amplitudes for, 22:48324
interactions π + N, constraints on Regge pole parameters from family of dispersion sum rules for, 23:21116
interactions π + N, constraints on Regge-pole parameters from dispersion sum rules for, 23:27802 (NP-17887)
interactions π + N, continuous moment sum rules for nonvanishing asymptotic total cross sections for, 22:34998
interactions π + N, continuous-moment sum rules for forward, 24:49528
interactions π + N, continuous-moment sum rules for, (T), 25:12207
interactions π + N, continuous-moment sum rules for Regge parameters of, 24:1590
interactions π + N, continuous-parameter sum rules for forward, 23:34601
interactions π + N, continuous-spin pole exchange for elastic, 25:30892
interactions π + N, contribution of baryon resonances to cross sections for, 21:9786
interactions π + N, contribution of Δ(1236) to elastic, 25:33743
interactions π + N, contribution of J less than or equal to 3/2 resonances to u-channel exchange potential in, 21:15343
interactions π + N, convergence of finite-energy sum rules in nonforward directions in, 24:40389
interactions π + N, corrections to Breit—Wigner shape of N*(1236) resonance from, 21:29551
interactions π + N, Coulomb corrections to charge-exchange and elastic, 25:45753
interactions π + N, Coulomb corrections to phase shifts for, 23:32731
interactions π + N, coupling constant from current-algebra sum rules and Veneziano amplitude for, 25:56516
interactions π + N, coupling constant from spin-flip dispersion relation for, 22:32166
interactions π + N, covariant O(4) propagator for M = 1/2 exchange in, 23:46781
interactions π + N, cross section sum rules for, 21:42368
interactions π + N, cross sections for multiple soft-π production in, 25:30887
interactions π + N, cross-channel isospin analysis of peripheral single π production in, (T), 25:17490
interactions π + N, cross-channel isospin analysis of peripheral single rho production in, (T), 25:17490
interactions π + N, crossing relations and Born terms for, 21:929
interactions π + N, crossing relations for center-of-mass- and Breit-system canonical amplitudes for, 24:20168
interactions π + N, crossing symmetric Regge amplitude for, 23:15126
interactions π + N, crossing symmetry for elastic, (T), 21:4102
interactions π + N, crossing-symmetric amplitude in Veneziano model for charge-exchange and elastic, 24:35810
interactions π + N, current algebra and PCAC for threshold theorem for, 21:31603
interactions π + N, current algebra and rho + rho'(1600) dominance model for S-wave scattering lengths for, 22:20269
interactions π + N, current algebra determination of low-energy parameters for, 24:5303

interactions π + N, current algebra for superconvergence sum rules for, 21:46594
interactions π + N, current algebra for, (T), 25:53191
interactions π + N, current algebra method for Adler—Weisberger sum rule for, 23:39635
interactions π + N, current algebra on mass shell for fixed-momentum dispersion relations for, 24:15579 (INP-681, pp 193-210)
interactions π + N, current algebra on mass shell for, (T), 25:25427
interactions π + N, current-algebra sum rule for spin-flip amplitude of, 22:44435
interactions π + N, current-algebra sum rules for P-wave scattering lengths, 21:37810
interactions π + N, current-algebra technique for calculation of p-wave scattering length for, 24:3684
interactions π + N, currents and current commutators for scattering lengths and low-energy parameters for, 22:11706
interactions π + N, D-spin formalism for diffractive exotic hadron production in, (T), 25:17466 (COO-264-570)
interactions π + N, daughter trajectories for, 23:1651
interactions π + N, decomposition of Bethe—Salpeter amplitudes for, 22:39417
interactions π + N, deduction of Chew—Low type equations and origin of cut-off function for, 21:37818
interactions π + N, derivation of Chew—Low equations and origin of cutoff function in static models for, 21:7512 (JINR-P2-3054)
interactions π + N, derivation of finite-energy sum rules for forward, (T), 25:25424
interactions π + N, derivation of Veneziano-type representation for, 24:52102
interactions π + N, derivatives of baryon trajectories from Khuri amplitudes for, (T), 24:42976
interactions π + N, determination of amplitudes for, 21:42371
interactions π + N, determination of f° trajectory parameters from superconvergence dispersion-sum rules for, 22:26654
interactions π + N, determination of P' Regge-trajectory intercept for, 21:9800
interactions π + N, determination of Regge parameters for, 22:32132
interactions π + N, differential cross section for backward, 23:44658
interactions π + N, differential cross sections for backward, (T), 22:50389 (KFKI-21/1968)
interactions π + N, differential cross sections for charge exchange, (T), 25:5294
interactions π + N, differential cross sections in crossed form for, (T), 24:8665
interactions π + N, diffraction scattering model for charge-exchange polarization and elastic, 23:32843
interactions π + N, dipole rho trajectory for charge-exchange, 23:5636
interactions π + N, direct-channel Regge poles for finite-energy sum rules for amplitudes of, 25:9801
interactions π + N, direct-channel Regge—Mandelstam analysis of charge-exchange, 23:15204
interactions π + N, dispersion relation calculation of scattering lengths for, 23:32746
interactions π + N, dispersion relation extension for, 21:37829
interactions π + N, dispersion relations and Pomeranchukon decoupling for amplitude of, 25:17511
interactions π + N, dispersion relations for complex t values from axiomatic field theory for, 21:21229
interactions π + N, dispersion relations for forward, 23:15202
interactions π + N, dispersion sum rule for amplitude of, 22:9612
interactions π + N, dispersion sum rules for, 21:42362
interactions π + N, dispersion sum rules for amplitudes of, 22:7523
interactions π + N, dispersion sum rules for fixed-u amplitudes of, 25:14709
interactions π + N, dispersion sum rules for N* production from, 22:17952
interactions π + N, dispersion sum rules from modified amplitudes for, 22:44413
interactions π + N, dispersion sum rules in static model for amplitude of elastic, (T), 22:1449
interactions π + N, dispersion theoretic derivation of PCAC consistency condition and rho-dominance in, 23:15133
interactions π + N, dispersion theoretic model for Δ(1650), N(1700), and Δ(1670) as rhoN bound states in, 25:53218
interactions π + N, dispersion theory for, 22:3446
interactions π + N, dispersion-relation calculation of low-energy s-wave, 22:3432
interactions π + N, dispersion-theoretic approach to current algebra for, 21:17127
interactions π + N, distant contributions to isovector form factors from annihilation and ππ dynamics for elastic, 23:15135
interactions π + N, dual models of reciprocal bootstrap doubling for, 24:18197
interactions π + N, dual quark—parton model for, 25:56481
interactions π + N, duality and non-Pomeranchuk contributions to cross sections for, (T), 24:45533
interactions π + N, duality and Regge amplitudes for charge-exchange, 23:42777
interactions π + N, duality and Regge behavior from finite-energy sum rules for, 24:15686
interactions π + N, duality classes for, 24:52090
interactions π + N, duality concept for Pomeranchuk term for, 25:3375
interactions π + N, duality for real part of amplitude for, 25:47887
interactions π + N, dynamical calculations for three-body, (T), 24:52115
interactions π + N, dynamical content of vector dominance sum rules for, 21:42361
interactions π + N, dynamical model for negative-parity Regge trajectories in, 21:15361
interactions π + N, dynamics of, (T), 21:15340
interactions π + N, effect of CDD pole in amplitude for I = 1/2, J = 1/2⁺, 21:18998
interactions π + N, effect of rhoN and πN* final states on elastic, (T), 22:24670
interactions π + N, effect on partial-wave absorptions in p + p interactions at 1 GeV, 22:32174
interactions π + N, effect on Regge parameters from phase shift ambiguity effects on finite-energy sum rules for amplitudes of, (T), 25:17500
interactions π + N, effective Lagrangians for, 23:34603
interactions π + N, effects of d- and f-wave, on energy level shifts of mesic atoms, 21:25309
interactions π + N, effects of imaginary part of Regge trajectories on differential cross sections for backward, 25:28036
interactions π + N, effects of one-boson-exchange models on N + N potential with sigma from, 24:37804 (NYO-4032-22)
interactions π + N, effects of resonance scattering on, 22:52979
interactions π + N, effects on local condensation of matter and antimatter in black-body radiation from Δ production in, (T), 23:46732
interactions π + N, effects on partial-wave p + p interactions at 1 GeV from s-state, (T), 22:7524 (ISS-67/25)
interactions π + N, eigenvalue problem for partial waves for, 21:27371
interactions π + N, elastic unitarity and phase equality of amplitudes of, 22:50406
interactions π + N, electromagnetic corrections in dispersion relations for forward, 22:17951 (JINR-P2-3670)
interactions π + N, electromagnetic effects in dispersion relations for forward scattering, (T), 23:3743
interactions π + N, energy dependence of slope of diffraction amplitude for, 25:53197
interactions π + N, energy variation of baryon angular distributions from, (T), 21:17119
interactions π + N, epsilon and f° exchange in, 25:7661
interactions π + N, epsilon(700) and f°(1260) exchange in t-channel of, (T), 25:9802
interactions π + N, equal-time commutators of renormalized current operators in perturbation theory without cutoff for, 21:44302 (DESY-67/26)
interactions π + N, equation of state in hydrodynamic theory for multiple particle production in, 24:21971
interactions π + N, equivalent potential for N exchange in, 21:4046
interactions π + N, equivalent potential method for amplitudes of relativistic, 21:17106 (UCRL-17311)
interactions π + N, equivalent-potential method for amplitude of, 21:19003
interactions π + N, exchange degeneracy in Reggeized absorption model for, 25:30874
interactions π + N, existence and uniqueness of solutions to Low equation for, (T), 25:7670
interactions π + N, existence of I = 3/2, J = 1/2⁺ πN resonance for saturation of sum rules for, 23:36937
interactions π + N, expansion of partial wave amplitudes for, 22:48375
interactions π + N, experimental test of rising trajectories and falling residues for, 22:7510
interactions π + N, extension of Veneziano model for, 24:18186 (CONF-690330-, pp 189-201)
interactions π + N, fermion Regge poles and phase shift relations for, 21:11772
interactions π + N, fermion Reggeization without parity doubling in Van Hove model for, 24:13097
interactions π + N, Feynman-diagram models for fermion daughter trajectories in, 25:1543
interactions π + N, field theory of chiral symmetry for, 22:5628
interactions π + N, field-theoretic model for symmetric description of nucleon and Roper resonance in, 22:15799
interactions π + N, finite-energy sum rules for backward, 23:3745
interactions π + N, finite-energy sum rules for Regge bootstraps for resonance production in, (T), 25:17503
interactions π + N, finite-energy sum rules in nonforward directions for, 24:24389
interactions π + N, finite-energy sum rules with complex conjugate Regge poles for, 25:22835
interactions π + N, finite-transform sum rules for, 24:28557
interactions π + N, fixed pole in partial-wave amplitude for, 25:17510
interactions π + N, fixed poles and dip mechanisms for s-channel helicity conservation in, (T), 24:49520
interactions π + N, fixed-energy dispersion relations for partial-wave amplitudes of, 21:4054
interactions π + N, fixed-pole effects on exchange-degenerate Regge residues, 25:30878
interactions π + N, fixed-t dispersion relations for effective-range parameter for S-wave, (T), 25:20010
interactions π + N, fixed-u finite-energy sum rule calculations of, 25:3396
interactions π + N, fixed-u sum rules in, 21:42379
interactions π + N, form factor of N* resonance in, 21:4055
interactions π + N, form factor ratio of π → μ + τ to K → μ + τ decay from soft-pion and -kaon limits of Veneziano-type amplitude of, 24:1562
interactions π + N, formulation of Reggeized absorption model with exchange degeneracy for elastic and charge-exchange, (T), 25:53159
interactions π + N, formulation of SU(3) X SU(3) chiral Lagrangian with gauge fields for scattering lengths of, 23:39776 (NYO-3399-194)
interactions π + N, forward dispersion relations for energy behavior of d waves in, (T), 22:32144
interactions π + N, functional methods for infrared divergence in radiative corrections to forward, 23:42726
interactions π + N, gauge invariance and soft-pion techniques for constraints between π production amplitude and amplitude of, (T), 25:36515
interactions π + N, gauge principle and sum rule for zero-mass-pion, 21:27369
interactions π + N, generalized interference model for resonance and Regge pole production in, 23:32741
interactions π + N, generalized multiperipheral model for properties of partial cross sections for K anti K production in, (T), 25:36422
interactions π + N, generalized potential and P_{33} phase shift for, 25:59485
interactions π + N, generalized potential for partial-wave amplitudes of, 22:20268
interactions π + N, generalized superconvergence sum rule for total cross sections of, 24:35656
interactions π + N, generalized Ward—Takahashi identities and current algebra for, 22:13681
interactions π + N, global and infinitesimal nonlinear chiral transformations of Lie group for Lagrangian dynamics for, 24:20203
interactions π + N, Gribov—Pomeranchuk phenomenon in N/D method for, 22:20220
interactions π + N, Harari model for forward scattering amplitudes in, (E/T), 23:7147
interactions π + N, Harari—Freund ansatz related to finite-energy sum rules for nonflat Pomeranchuk trajectory for, 23:51944
interactions π + N, helicity conservation in diffraction scattering and duality in, 24:40390
interactions π + N, helicity coupling constant for amplitudes of, 22:1436
interactions π + N, helicity of virtual photon emitted in μ pair and hadron production in, (E/T), 24:26448
interactions π + N, helicity structure of Regge couplings in, 25:53195
interactions π + N, high-energy behavior of Bethe—Salpeter amplitudes for, 24:13113
interactions π + N, high-energy consistency conditions and superconvergence sum rules for partial-wave amplitudes of, 21:42381
interactions π + N, high-energy contributions to current-algebra sum rules for, 24:3639
interactions π + N, higher unitarily coupled channels in, 21:23342
interactions π + N, homogeneous Lorentz group expansion of partial-wave amplitudes for charge-exchange, 21:44428
interactions π + N, identification of direct-channel Regge-pole terms with resonance amplitude in, 25:7675
interactions π + N, inclusion of fermions in meromorphic amplitudes for invariant representation in spin-space decomposition of amplitudes of, (T), 24:40397
interactions π + N, inelastic unitarity in one-channel N/D calculation of partial-wave amplitudes for, 24:18218
interactions π + N, inequalities for partial waves for, (T), 25:43641 (SU-1206-249)
interactions π + N, inequalities for partial waves of, 25:53216
interactions π + N, infinite momentum sum rules for N* production in, (T), 23:13098
interactions π + N, interference models for forward, 24:37785
interactions π + N, interference of t- and u-channel amplitudes in Regge model for, (T), 24:49530
interactions π + N, intermediate-energy region contribution in dispersion sum rules for Regge residue functions for amplitudes of, 24:33017 (IFVE-STF-69-43)
interactions π + N, invariant amplitudes in unphysical region for, 25:59481
interactions π + N, invariant varieties of Chew—Low equation for, (T), 25:50136 (JINR-P2-5906)
interactions π + N, isobaric saturation of Adler—Weisberger sum rule for resonance production from, 21:40223
interactions π + N, isolation of Pomeranchuk contribution to total cross section for, (T), 24:13098
interactions π + N, isospin invariance violation in, 22:41839
interactions π + N, isospin-1/2 amplitudes in, 21:4049
interactions π + N, isospin-3/2 vector K existence prediction from dual model theories from spin—isospin interchange in Yukawa, (T), 24:49498
interactions π + N, kinematic effects for A_1 production from, (T), 21:29548
interactions π + N, kinematic singularities of transversity amplitudes of, 22:41874
interactions π + N, kinematical singularities and helicity amplitudes for π and higher-spin baryon production in, (T), 25:53200
interactions π + N, ladder approximation in partial wave dispersion relations for Δ(1236) production in, 22:24648 (DESY-68/2)
interactions π + N, ladder approximation in partial-wave, 23:15131
interactions π + N, ladder diagrams with nucleon exchange and Pade approximants for amplitudes of Δ(1236) production in, 23:51879 (DESY-69/33)
interactions π + N, lectures on, 23:1606
interactions π + N, linear fermion trajectories and absence of MacDowell doublets for parity doubling in, 24:28558
interactions π + N, low-energy constraints on π production amplitudes in, (T), 22:3434
interactions π + N, low-energy parameters from dispersion relations for inverse forward amplitude of, (T), 23:39738
interactions π + N, low-energy parameters of, (T), 23:32755

interactions π + N, low-energy π + π interaction from phase shifts for, 25:59463
interactions π + N, low-energy π + π phase shifts from dispersion relations for backward, (T), 25:36520
interactions π + N, low-energy theorem for on-shell, 23:46723
interactions π + N, low-energy theorems from dispersion relations and crossing symmetry for, 23:23493
interactions π + N, magnitude of sigma term from chiral symmetry breaking and scale invariance in, 25:41018
interactions π + N, magnitude of sigma-commutator from extrapolation of amplitude for, 25:41017
interactions π + N, mass and width of Δ(1236) from, 24:18194
interactions π + N, mass extrapolation method for S-wave amplitude of, 25:33753
interactions π + N, masses of both external π lines continued to zero in, 24:20167
interactions π + N, mechanisms for dip in cross sections for, 23:23489
interactions π + N, meson Regge exchanges for analysis of dispersion sum rules and, 24:13111
interactions π + N, method for summing virtual soft pion dependence in, (T), 22:50320 (NYO-2262-TA-191)
interactions π + N, method for systematic errors in theoretical fits to forward, 25:7677
interactions π + N, microcausality for forward dispersion relations for, 23:39722 (COO-264-498)
interactions π + N, model for P_{11} resonance as bound state of, 22:17964
interactions π + N, model for Pomeranchukon exchange in total cross sections for, 25:36512
interactions π + N, model for Regge cut contribution to charge-exchange, 23:42778
interactions π + N, model of fermion trajectory for, 25:9790
interactions π + N, model of s- and p-wave, 22:44446
interactions π + N, model with N, N*, rho, and epsilon exchanges for scattering lengths of, 23:18917
interactions π + N, model with short-range repulsion for p-waves of, (T), 25:1528 (JINR-P2-5302)
interactions π + N, modified finite-energy sum rule for dual structure in charge-exchange, (T), 24:49488 (NP-18417)
interactions π + N, modified finite-energy sum rule for dual structure in charge-exchange, (T), 25:41003
interactions π + N, modified Pomeranchuck theorem for lower bounds on cross sections for elastic, 25:59474
interactions π + N, modified superconvergence relations in Regge pole theory for, 21:42378
interactions π + N, modified Veneziano model for, 24:42973
interactions π + N, modified Veneziano model for, 24:49492
interactions π + N, Monte Carlo simulation of high-multiplicity peripheral, (T), 24:37780(T) (NP-tr-1904)
interactions π + N, multichannel N/D model with second pole for S-wave amplitude of, 24:24368
interactions π + N, multichannel N/D parametrization of partial-wave amplitudes for, 23:18922
interactions π + N, multiplicity, angular, and energy distributions of secondary particles from, (E/T), 24:10772
interactions π + N, n + p → d + π° interactions from threshold to 720 MeV for testing charge independence of, (E), 23:42548 (PURC-2137-9)
interactions π + N, N trajectory from strip approximate N/D equations for, 23:36933
interactions π + N, N, Δ, and rho exchange contributions to amplitudes for charge-exchange, 24:18189
interactions π + N, N, Δ, and rho exchange contributions to charge-exchange, (T), 24:49514
interactions π + N, N* resonances from rho Regge exchange in charge-exchange, (T), 22:20256
interactions π + N, N/D calculations for D_{15} and P_{11} waves in, (T), 25:7669
interactions π + N, N/D calculations of partial-wave dispersion relations for, 24:5301
interactions π + N, N/D method for S-matrix calculations of p-wave scattering length for, (T), 25:7660 (NP-18553)
interactions π + N, N/D method off mass shell for, 21:4056
interactions π + N, nonforward superconvergence relations for, 22:20262
interactions π + N, nonlinear chiral Lagrangian for, (T), 24:43012
interactions π + N, nonlinear chiral symmetric Lagrangians for, 23:44659
interactions π + N, nonlinear Lagrangian models invariant under generalized chiral groups SL(4,C) and SL(12,C) for, 22:22425
interactions π + N, nonlinear Lagrangians with chiral SU(2) x SU(2) symmetry, 24:3659
interactions π + N, nonlinear phenomenological Lagrangians for, 24:5337
interactions π + N, nonlinear realization of chiral SU(2) x SU(2) symmetry in curved isospin space for, 23:27843
interactions π + N, nucleon as bound state in, 21:9795
interactions π + N, nucleon matrix elements in chiral symmetry breaking calculations from phase shifts and dispersion relations for, 25:20051
interactions π + N, numerical solutions to unitarity—analyticity equations for elastic, 23:15124
interactions π + N, off-mass shell corrections to amplitudes of, 23:32729
interactions π + N, off-mass-shell corrections to current-algebra calculation of S-wave scattering length for, 23:3735
interactions π + N, off-mass-shell effect on amplitude of vector meson production in, (E), 23:42598
interactions π + N, off-shell calculation of P_{11} phase shift in, 25:47871
interactions π + N, on-mass-shell current-algebra calculations of fixed-t dispersion relations for invariant amplitudes of, 24:10763
interactions π + N, on-mass-shell version of spin-flip sum rule for, 23:34606
interactions π + N, on-shell subtracted dispersion relations and low-energy theorems and sum rules from current algebra for, (T), 25:3368
interactions π + N, one- and two-pion exchange in, (T), 21:37856
interactions π + N, one-channel Castillejo-Dalitz-Dyson poles in, 21:918
interactions π + N, one-pion-exchange model for f° and S* production in, 22:24668
interactions π + N, optimal determinantal approximation for P_{11} phase shift in, 23:32726
interactions π + N, origin and limit of Pomeranchuk violating amplitude in, 24:21984
interactions π + N, P and P' Regge pole parameters from sum rules for elastic, 22:41811
interactions π + N, P- and F-wave solutions of relativistic quantum mechanics for baryon exchange with cutoff in, (T), 24:40449 (DESY-70/21)
interactions π + N, P- and F-wave solutions to relativistic Schoedinger equation for, 25:47863
interactions π + N, Pade approximation for, 25:40975
interactions π + N, parametrization for theory of two-pion-exchange in N + N interactions, 21:44389
interactions π + N, parity violation from longitudinal polarization of recoil nucleon in, 25:59487
interactions π + N, partial wave analysis for baryon resonance production in, 22:48313 (CERN-68-23(Vol.2), pp 431-96)
interactions π + N, partial wave dispersion relations for, 21:25310
interactions π + N, partial wave relations from fixed-t dispersion relations for, 24:40392
interactions π + N, partial-wave amplitudes from coherent elastic meson (π⁻) scattering by helium-4, (E/T), 25:38677
interactions π + N, partial-wave analysis of Regge amplitudes for, (T), 23:18908
interactions π + N, partial-wave dispersion relations for N^*_{33} production in, (T), 22:29710
interactions π + N, partial-wave spinor amplitudes for, 22:48374
interactions π + N, particle exchanges and generalized potentials for, 24:47456
interactions π + N, particle—resonance mixing effect in N_3^* production from, 21:46544
interactions π + N, PCAC consistency condition and rho contribution to S-wave scattering lengths for on-shell, (T), 24:49489 (SINP-TH-68-2)
interactions π + N, PCAC hypothesis and P Regge trajectory intercept for consistency condition on isospin symmetric amplitude of, 22:24672
interactions π + N, peripheral models for resonance and kinematical peaks in, 22:24674
interactions π + N, phase contours for amplitude of, 22:17970
interactions π + N, phase contours for amplitude of, 22:37156
interactions π + N, phase contours for amplitudes of, 22:39395 (CERN-68-7(Vol.2), pp 55-73)
interactions π + N, phase contours of amplitudes for, (T), 22:7506 (UCRL-17921)
interactions π + n, phase of scattering amplitude from π + d interactions and Glauber formula, 22:50407
interactions π + N, phase shift analysis of, 23:15266
interactions π + N, phase shift analysis of elastic, (T), 23:1928 (AD-671692)
interactions π + N, phase shift dispersion relation for partial-wave analysis of, 22:22396
interactions π + N, phase shift in P_{33} state for, 22:17959
interactions π + N, phase shifts from particle exchange and elastic unitarity in, (T), 21:5389 (NYO-2262-103)
interactions π + N, phase-shift analysis of, 22:11670
interactions π + N, phenomenological analysis of γ + N → π + N interactions at 210 and 225 MeV for constant and scattering length difference for, 24:8581(T) (CERN-Trans-68-14)
interactions π + N, phenomenological dispersion relations and phase shift analysis of, 24:5296
interactions π + N, phenomenological Lagrangian and dispersion theory for chiral algebra from chiral dynamics for, 24:5309
interactions π + N, phenomenological Lagrangian method for chiral SU(2) x SU(2) for Adler—Weisberger and Goldberger—Treiman relations and Adler consistency theorems for, 23:46717
interactions π + N, photon—vector-meson analogy model for, 23:42598
interactions π + N, pionic form factors of πNN and πNN* vertices in off-shell, 21:25303
interactions π + N, polarization of recoil protons in, 21:35310
interactions π + N, pole dominance method for elastic, 23:5614
interactions π + N, Pomeranchuk theorem and isospin invariance for Pomeranchuk—Okun rule for, 24:26441
interactions π + N, possible existence of new N* state in, (E/T), 24:45529
interactions π + N, predictions of crossing-symmetric amplitudes with Regge behavior and duality for elastic widths of resonances in, 24:3656
interactions π + N, predictions of multiperipheral model for, (T), 24:40377
interactions π + N, predictions of quark model with additive baryon exchange for pseudoscalar meson and baryon production in backward, (T), 25:47883
interactions π + N, production and decay of 2π and 3π resonances from, (T), 23:15092
interactions π + N, production of exotic meson resonances in backward, 24:49526
interactions π + N, πππN anti N five-point function for, (T), 24:45521
interactions π + N, quark model for elastic and inelastic charge-exchange, 22:3419
interactions π + N, reaction matrix theory for, 23:7146
interactions π + N, real axis singularities in partial wave amplitude for, 21:27457

interactions π + N, soft-point PCAC scattering length for, 25:53221
interactions π + N, solution for Chew—Low-type equations for, 23:44665
interactions π + N, solution of static-model Bethe—Salpeter equation for, 21:42377
interactions π + N, solution to Bethe—Salpeter equation for, 25:14786
interactions π + N, solutions to Low equations for inelastic P_{11} amplitudes of, 23:32735
interactions π + N, source theory for particle exchange in, 24:5263
interactions π + N, spin structure of amplitude for f° production in, (T), 21:17122
interactions π + N, spin structure of amplitudes of arbitrary-spin meson production from, 21:21245
interactions π + N, spin—isospin formalism in quark model for amplitudes of, (T), 24:40410 (RLO-1388-570)
interactions π + N, spin—parity determination of resonances from spin-rotation measurements in, 23: 21103
interactions π + N, spin-dependent effects in, (T), 22: 7505 (UCRL-17903)
interactions π + N, spin-rotation parameter for phase-shift analysis of, 21:25299
interactions π + N, static crossing relations for P_{11} and P_{33} amplitudes of, 21:31592 (UCRL-17502)
interactions π + N, static model parameters for amplitudes of, 22:24673
interactions π + N, static-model Bethe—Salpeter equation for reciprocal bootstrap of N and N* in, 21: 29555
interactions π + N, static-model parameters for, 22: 11677
interactions π + N, strict phenomenological relation between dips and resonances in elastic and charge-exchange, 24:10771
interactions π + N, strong coupling meson theory for resonance production from, 21:27375
interactions π + N, strong coupling of SU(2)-symmetric model for, 22:37152
interactions π + N, SU(2) x SU(2) current algebra for nucleon vertex functions for, 24:35658
interactions π + N, SU(3) and exchange degeneracy in Regge-pole-cut analysis of total cross sections for, (E/T), 25:14660
interactions π + N, SU(3) representation mixing and Regge theory for eta production in, 24:18263
interactions π + N, SU(3) sum rules for charge-exchange, 21:29553
interactions π + N, SU(3) x SU(3) chiral Lagrangian with gauge fields for scattering lengths of, 24:18210
interactions π + N, SU(3) x SU(3) chiral-symmetry breaking for, 25:53202
interactions π + N, SU(6) invariance in S-wave, 22: 48348
interactions π + N, SU(6) invariance model for s-wave, 22:34994
interactions π + N, subtraction in dispersion relation for isospin even amplitude of, 24:18199
interactions π + N, subtractions in dispersion relations for symmetric and antisymmetric amplitudes for, 22: 15793
interactions π + N, subtractions in dispersion relations for, 21:15350
interactions π + N, sum rule and singularities in complex J-plane for forward charge-exchange, 22:9596
interactions π + N, sum rule for chiral SU(2) x SU(2) symmetry breaking in, (T), 25:53178 (NYO-4204-19)
interactions π + N, sum rule for decoupling of second rho in forward, 22:26665
interactions π + N, sum rule for Pomeranchuk residue in amplitude of, 21:37817
interactions π + N, sum rule for spin-flip amplitude of, 21:44378
interactions π + N, sum rule from axial-charge equal-time commutation relations for, 22:11674
interactions π + N, sum rule from superconvergent partial-wave dispersion relation for, 21:9788
interactions π + N, sum rules and double partial-wave expansion of amplitudes of, (T), 25:5310
interactions π + N, sum rules and relations between coupling parameters for π + π and, 21:46527
interactions π + N, sum rules and relations between coupling parameters for K + N and, 21:46527
interactions π + N, sum rules and s-wave scattering lengths for, 21:33702
interactions π + N, sum rules and symmetries for, 25: 3387
interactions π + N, sum rules connecting multipion production cross sections for, 22:7512
interactions π + N, sum rules for amplitude of, 21: 27378
interactions π + N, sum rules for amplitudes of backward elastic, 21:44381
interactions π + N, sum rules for p-wave scattering lengths for, (T), 21:931
interactions π + N, sum rules for partial wave amplitudes for, 21:40232
interactions π + N, sum rules for πNN vertex dispersed in nucleon invariant energy for, 24:10724
interactions π + N, sum rules for vacuum Regge-pole parameters for, 23:49157
interactions π + N, sum rules from dispersion relations for, 22:1432
interactions π + N, sum rules from fixed-t and fixed-u dispersion relations for amplitudes of, 22:34993
interactions π + N, sum rules in perturbation theory for isovector, 21:31595
interactions π + N, sum rules relating Regge exchange amplitudes and resonance spectrum for, 21:44385
interactions π + N, superconvergence relation at backward angle for amplitude of, 21:29538
interactions π + N, superconvergence relations for spin-flip amplitudes of, 22:3431
interactions π + N, superconvergence sum rule for, 23: 18923
interactions π + N, superconvergence sum rules and bootstrap relations in static models for, (T), 22:22407
interactions π + N, superconvergence sum rules and bootstrap relations in static models for, 22:7503 (LPTHE-TH-217)
interactions π + N, superconvergence sum rules for, 21:37791
interactions π + N, superconvergence sum rules for combination of elastic π + π, π + K, K + N, and, 22:48297
interactions π + N, superconvergence sum rules for helicity-nonflip amplitude of, 22:5582
interactions π + N, superconvergence sum rules for rho-Regge-exchange parameters for, 22:44433
interactions π + N, superconvergence sum rules from canonical commutation relations of pion fields for, 24: 13112
interactions π + N, superconvergent dispersion relations and sum rules for, 22:11678
interactions π + N, superconvergent dispersion relations for crossing-even amplitude of forward elastic, 22: 26656
interactions π + N, superconvergent dispersion relation for s-wave scattering length for, 23:27809
interactions π + N, superconvergent sum rules in elastic, 21:37820
interactions π + N, Σ(1385)Σπ coupling from superconvergence sum rules for, 23:32728
interactions π + N, t-channel peculiarities in static model of s waves in, (T), 25:3380 (JINR-P2-5263)
interactions π + N, tabulation of kinematic quantities for, (E), 22:17858
interactions π + N, tensor meson dominance for decoupling of f-exchange contribution from A amplitude in, (T), 25:9764 (DESY-70/58)
interactions π + N, test of duality based on Khuri amplitudes for backward, 24:8642
interactions π + n, test of model relating pomeron and f° in, 25:7661
interactions π + N, test of quark-model predictions for infinite-energy cross sections for, 22:34948
interactions π + N, test of Regge parameters by inverse dispersion relations for, 23:18900
interactions π + N, test of Regge-pole absorption model from polarization in, 25:50140
interactions π + N, test of sum rule for nucleon magnetic moment relation with amplitude of, 21: 42382
interactions π + N, test of tensor meson dominance from f-exchange contribution to, (T), 25:12216
interactions π + N, test of Veneziano model using spin-density matrix elements for rho from, 24:37784
interactions π + N, tests of saturation in strong-coupling theory for, 22:34995
interactions π + N, three-channel model for P_{11}, 25: 56519
interactions π + N, three-channel model for P_{11} phase shift in, (T), 24:42975
interactions π + N, three-channel N/D equations via quasi-two-body channels for elastic and inelastic, 24: 24372
interactions π + N, three-particle unitarity for low-energy, 21:5397
interactions π + N, threshold conditions for helicity amplitudes for, 21:40172
interactions π + N, time-delay representation for Regge parametrization of non-spin-flip amplitudes of, 24: 38299
interactions π + N, two-channel calculation of P_{11} wave of, 23:32725 (ITF-69-22)
interactions π + N, two-channel method for eta production in S-wave, (T), 25:47878
interactions π + N, two-channel model of P_{11} partial-wave amplitude for, 21:25300
interactions π + N, u = 0 superconvergence relations for, 24:8598
interactions π + N, u = 0 superconvergent sum rule for, 24:1601
interactions π + N, U(3,1) model for analytic behavior of amplitude for backward, 22:34997
interactions π + N, u-channel Regge pole contribution to cross sections for, 23:32743
interactions π + N, uncertainties in test of long-range charge independence, 24:10749
interactions π + N, unified description of quark model exchange degeneracy predictions for, 24:10769
interactions π + N, unified formulation of effective nonlinear chiral SU(2) x SU(2)-invariant Lagrangian for scattering lengths of, 24:6739
interactions π + N, unified formulation of effective nonlinear Lagrangian for, 22:11673
interactions π + N, unitary impulse approximation for elastic, 22:26658
interactions π + N, unitary impulse approximation for, 21:42321
interactions π + N, unitary Pade approximants of S-matrix for, 24:10764
interactions π + N, universal vector and axial-vector theory for S- and P-wave scattering lengths for, 22: 9613
interactions π + N, universality of rho coupling in sum rules for, 23:21119
interactions π + N, unsubtracted dispersion relations from backward, 22:44448
interactions π + N, unsubtracted dispersion sum rules for, (T), 22:39409
interactions π + N, urbaryon rearrangement amplitude for elastic, 25:53149
interactions π + N, urbaryon rearrangement and dip—bump structure of cross section for, 24:49495
interactions π + N, use in calculating equal time commutators of axial current and axial divergence, 21: 35340 (NP-16842)
interactions π + N, use of chiral algebra and PCAC hypothesis for deriving sum rules for elastic, 23:32733
interactions π + N, use of coupled πN, sigmaN, and epsilonN channels in calculation of P_{11} phase shift for, 23:3738
interactions π + N, use of daughter pole hypothesis of N(1400) in phase-shift analysis of P_{11}, 22:52988
interactions π + N, use of effective Lagrangian in N/D calculations of P-wave, 25:25447
interactions π + N, use of finite-energy sum rules for Regge analysis of charge-exchange, 22:20254
interactions π + N, use of N/D method in S-matrix calculation of P-wave scattering length for, 25:33749
interactions π + N, use of PCAC for constraint on double-pion-production amplitude in, 22:3439
interactions π + N, use of sidewise dispersion relations for determining magnetic moment of N(1400) from, 22:3322
interactions π + N, use of spectra of mesic atoms for studying, 21:25263
interactions π + N, use of sum rules for analysis of Regge singularities in forward charge-exchange, 22: 29708
interactions π + N, vacuum trajectory for amplitudes of, 25:53222
interactions π + N, vacuum trajectory for, (T), 25:9785 (DESY-70/55)
interactions π + N, validity and predictions of forward dispersion relations for, 22:15785 (BNL-12058)
interactions π + N, validity of sum rules and high energy theorems for, 22:9605
interactions π + N, Van Hove model of Regge poles for daughter trajectories of fermions in backward, 24: 24347
interactions π + N, variational method for determining N*(1236) width and coupling constants in, 21:37825

interactions π + N, variations in elastic phase shifts of, 21:5400
interactions π + N, vector dominance model for relation with γ + N → π + N interactions at high energies with vector meson production in, 24:10721
interactions π + N, vector dominance sum rules for, 22:52981
interactions π + N, Veneziano amplitude for, 24:40553
interactions π + N, Veneziano amplitude with PCAC and Adler—Weisberger conditions for, 24:3680
interactions π + N, Veneziano formula for Regge fits to, 23:46722
interactions π + N, Veneziano formulation of charge-exchange, 24:49513
interactions π + N, Veneziano model for angular distributions in charge-exchange, 25:7674
interactions π + N, Veneziano model for polarization in charge-exchange, (T), 25:36517
interactions π + N, Veneziano model with spin for amplitude of three-body hadron production in, (T), 25:30889
interactions π + N, Veneziano-type representation for amplitudes of, 24:18211
interactions π + N, vertex symmetry and reciprocal bootstrap for, 21:9793
interactions π + N, Virasoro model for, 24:15580 (JINR-P2-4883)
interactions π + N, weak axial-vector coupling constant in static Chew—Low model for, 22:32162
interactions π + N, wrong-signature pole in charge-exchange, 24:13085
interactions π + N, zero-mass π for derivations in theory for, 22:20250
interactions π + N, zeros and s-wave scattering length of symmetric forward amplitude of, 23:32736
interactions π + N*, crossing relations and Born terms for, 21:929
interactions π + N*, dynamical models for noninvariance group for, 22:39458
interactions π + N*, vertex symmetry and reciprocal bootstrap for, 21:9793
interactions π + N(1525), coupling constant for, (T), 22:1430
interactions π + ω → B, reciprocal bootstrap calculation for p-wave resonances for, 22:3401
interactions π + ω → N + anti N, projections on exchanged systems with well-defined quantum numbers for, 22:13758
interactions π + ω → π + A_1, Veneziano formulae for, 25:7640
interactions π + ω → π + A_1, superconvergence relations for, 23:1636
interactions π + ω → π + ω, I = 0 sum rules for, 22:32140
interactions π + ω → π + ω, reciprocal bootstrap calculation of rho and B in, (T), 25:33691 (NYO-2262-TA-238)
interactions π + ω → π + ω, Veneziano model with natural and unnatural parity dominance of Regge trajectories for, 24:3668
interactions π + ω → π + π, pole dominance method for, 23:5614
interactions π + ω → rho, reciprocal bootstrap calculation for p-wave resonances for, 22:3401
interactions π + ω, inelastic unitarity and j-plane singularities in amplitudes for, 23:3853
interactions π + p → 2π + N with Regge pole and cut exchange, π + π scattering phase shift determination in, (T), 25:33750
interactions π + p → 3π + p, natural- and unnatural-parity components in diffractive, (T), 25:22827
interactions π + p → 3π + p, review of diffractive processes in, (T), 25:17501
interactions π + p → A + p, extension of Iizuka rule for, (T), 24:49444
interactions π + p → A_1 + p, two-pion exchange contributions to absorptive amplitude for, 22:3424
interactions π + p → A_1 + rho + p → 5π + p at 50 and 100 GeV, Drell—Hiida—Deck effect for diffractive, (T), 25:36521
interactions π + p → A_2 + p, two-pion exchange contributions to absorptive amplitude for, 22:3424
interactions π + p → epsilon + π + p in double Regge model, spin and parity analysis of (epsilon π) system in, 25:47876
interactions π + p → eta + n, Regge—quark model analysis of differential cross sections for, 23:1644
interactions π + p → f° + N*, correlations between decay angular distributions of f°N* from, 22:9600
interactions π + p → K + Σ, N* production in, 23:10766
interactions π + p → A(Σ) + A_2 + K at high energies, Reggion graphs for asymptotic behavior of amplitudes of, 22:22403
interactions π + p → A(Σ) + K + π at 5.0 GeV/c, N* and Δ production in, (E), 23:42569
interactions π + p → A(Σ) + rho + K at high energies, Reggion graphs for asymptotic behavior of amplitude of, 22:22403
interactions π + p → N + 3π (5π), multi-Regge-exchange model for shadow elastic interactions in, 22:22392 (INR-P-880/VI/PH)
interactions π + p → N + 7π, multi-Regge-exchange model for shadow elastic interactions in, 22:22392 (INR-P-880/VI/PH)
interactions π + p → N + anti K + K + mπ (m greater than 2) at 7.5 and 8 GeV, angular correlations, asymmetry coefficients, and Goldhaber effect in, (E), 24:52088
interactions π + p → n + e⁺ + e⁻, rho—ω interference effects on cross sections for, (T), 25:3367
interactions π + p → N + nπ, quark model for cross sections for, 23:5620
interactions π + p → N* + π, one-particle exchange models for, 21:7515
interactions π + p → N*, analysis of N* final states from, 22:26651 (UCRL-18154)
interactions π + p → nπ + p at high energies, effective mass spectrum of multipion system from, (T), 23:32756
interactions π + p → ω + Δ, quark model for, 21:31602
interactions π + p → ω + Δ, Regge pole model with factorization for, 24:10707
interactions π + p → ω + Δ(1236), Roy model for behavior of diffraction maximum in, 22:17956
interactions π + p → ω + Δ(1236), two-pion exchange contributions to absorptive amplitude for, 22:3424
interactions π + p → ω + N* at high energies, quark model for decay distribution correlations for, 21:21234
interactions π + p → p + (N - 1)π, four-momentum transfer dependence of transition matrix element for, 24:5316
interactions π + p → p + 3π at 100 GeV/c, design of multiparticle spectrometer for studying, 24:52319 (TID-25473(Vol.3), pp 177-209)
interactions π + p → p + 5π at 4 to 16 GeV/c, effect of resonance production on π pair angular distributions in, (T), 22:39272 (CERN-68-7(Vol.1), pp 599-610)
interactions π + p → p + 5π at 5 GeV/c, statistical model for asymmetry parameters for π pair angular distributions in, (T), 25:30880
interactions π + p → p + A_1 at 2.6 GeV/c, A_2 splitting in, (E), 23:7092
interactions π + p → π + Δ(1236), Roy model for behavior of diffraction maximum in, 22:17956
interactions π + p → π + eta + n at high energies, Regge-pole model for, 25:3399
interactions π + p → π + N at high energies, Pomeranchuk theorem validity from Pomeranchuk—Okun rule for phases of, 24:40396
interactions π + p → π + N, multi-Regge-exchange model for shadow, 22:22392 (INR-P-880/VI/PH)
interactions π + p → π + N*, polarization effects in amplitudes of, (T), 21:9804
interactions π + p → π + N*, quark model of diffractive production of N(1470) and N(1690), 25:33756
interactions π + p → π + N*, Regge-pole model for, 22:32165
interactions π + p → π + N(1470) at very high energies, integrated cross sections, angular distributions, and pionization in diffractive, (T), 25:53050 (DESY-71/36)
interactions π + p → π + p + γ, current algebra study in off-mass-shell limit, 23:7149
interactions π + p → π + p at 0 to 300 MeV, review lectures on, (E/T), 25:56422 (CERN-71-14, pp 379-93)
interactions π + p → π + p at 1.5 to 5 GeV/c, modified interference model for N(2300) parity doublet in forward, 24:1611
interactions π + p → π + p at high energies, model for diffraction peak shrinkage in, 22:13741
interactions π + p → π + p at high energies, O(3,1) symmetry for behavior of invariant amplitude of, 23:44699
interactions π + p → π + p at high energies, review of spin rotation parameters for, (E), 25:53028
interactions π + p → π + p at high energy and small momentum transfer in Coulomb and nuclear amplitude interference region, (T), 24:5312
interactions π + p → π + p at low energies, phenomenological Regge trajectories in direct-channel, (T), 25:5382
interactions π + p → π + p at low energies, phenomenological Regge trajectories for direct-channel, 24:20153 (IS-T-355)
interactions π + p → π + p below 30 GeV, proton compressibility in, (T), 23:36957
interactions π + p → π + p in Coulomb interference region, filmless spark chamber spectrometer study of real part of amplitude of, (E), 23:34534 (JINR-P1-4445)
interactions π + p → π + p, diffraction peak in, (T), 23:30751
interactions π + p → π + p, dispersion sum rules for, (T), 21:11771 (JINR-P2-3081)
interactions π + p → π + p, models with fixed pole and shielding cut for scaling relation among amplitudes of, (T), 25:41000 (COO-264-576)
interactions π + p → π + p, modified Lorentz pole analysis of, 23:27813
interactions π + p → π + p, s-channel helicity conservation for diffraction part of, (T), 25:30885
interactions π + p → π + π + N, rho parameters from, (E/T), 22:39416
interactions π + p → π + π + p, analysis of, 21:18995
interactions π + p → rho + Δ, model for Regge cut contributions to, 23:42778
interactions π + p → rho + Δ, quark model for, 21:31602
interactions π + p → rho + Δ, Regge pole model with factorization for, 24:10707
interactions π + p → rho + N* at high energies, quark model for decay distribution correlations for, 21:21234
interactions π + p → rho + N*, absorptive OPE model with form factors for, (E/T), 21:33706
interactions π + p → rho + N*, correlations between decay angular distributions of rhoN* from, 22:9600
interactions π + p → rho + N*, energy- and momentum-transfer dependence of cross sections for, (T), 22:34991
interactions π + p → rho + N*, method for representing joint resonance decay distributions from, (T), 22:39405 (TPJU-15/67)
interactions π + p → rho + N*, use of statistical tensors for joint decay angular distributions in, 22:24629
interactions π + p → rho + p at 2.0 GeV/c, distorted-wave theory of one-meson-exchange calculations of, 24:8650
interactions π + p → rho + p at 2.0 GeV/c, distorted-wave theory of one-meson exchange for, 24:3662
interactions π + p → rho + p at 8 GeV/c in absorption model, dynamic reference system for, 22:5568
interactions π + p → rho + p at high energies, rho matter density in optical model for, (T), 25:22820
interactions π + p → rho + p, quark model for, 21:31602
interactions π + p → rho + p, rho spin-density matrix elements in Feynman-diagram model of Reggeization for, 24:8654
interactions π + p → rho + π + p in double Regge model, spin and parity analysis of (rho π) system in, 25:47876
interactions π + p → rho + π + p, kinematic reflections in, 23:32749
interactions π + p → Σ + K + 3π at 5 GeV/c, N* and Δ production in, (E), 23:42569
interactions π + p above 1 GeV, multiplicity distributions of charged secondary particles in, (E), 22:52931 (KFKI-20/1968)
interactions π + p above 500 GeV, cross sections for quark, antiquark, and proton production in, (T), 24:8666
interactions π + p at 0°, dependence on constancy of difference of total cross sections for π⁻ + p and π⁺ + p interactions above 30 GeV for charge exchange, (T), 25:38748
interactions π + p at 1.7 to 18.4 GeV/c, absorptive potential with hard core for, (T), 23:5633
interactions π + p at 100 GeV, proposed experiment for detection and classification of high-mass bosons in, 24:51957 (TID-25473(Vol.4), pp 267-73)
interactions π + p at 17 GeV in emulsions, angular momentum and momentum transfer squared in inelastic, (E), 22:44324
interactions π + p at 2 to 3 GeV/c, review of quasi-two-body final states and multiple particle production in, 22:32121
interactions π + p at 2.3 to 6.0 GeV/c, forward elastic, (E), 22:3279
interactions π + p at 3.5 GeV/c, equipment for studying wide-angle elastic, 24:23018 (CEA-N-1258)
interactions π + p at 4 to 36 GeV, quark model for multiple π production in, 25:56514
interactions π + p at 50 to 1000 GeV, review of multiparticle production in, (E), 25:5273
interactions π + p at 7 to 15 GeV/c, analysis of two-body and quasi two-body, 23:39691
interactions π + p at 7 to 20 GeV/c, differential cross sections for elastic, (E/T), 22:46430
interactions π + p at 8, 11, and 16 GeV, cross sections for, (E/T), 24:32974
interactions π + p at high energies, 22:3371
interactions π + p at high energies and frequencies, restrictions on Van Hove overlap function with unitarity for elastic and inelastic, (E/T), 23:46733
interactions π + p at high energies and large angles, differential cross section for singular potential, 23:27878
interactions π + p at high energies and large momentum transfer, model for elastic, 21:7507
interactions π + p at high energies and small momentum transfers, isotopic structure of N* radiative decays from, (T), 24:6681
interactions π + p at high energies sakaton rearrangement model for, 25:12186
interactions π + p at high energies using polarized targets, review of, (E), 21:23308 (UCRL-17433)
interactions π + p at high energies, (E), 21:33599 (RHEL/R-144, pp 15-40)
interactions π + p at high energies, (E), 21:33806 (RHEL/R-129, pp 11-44)
interactions π + p at high energies, 36-plet 2⁺ meson exchange for total cross section for, 22:5626
interactions π + p at high energies, analogous excited-baryon-model hypothesis for fire balls and inelasticity in, 24:30524
interactions π + p at high energies, analysis of, (E/T), 21:4003 (INP-494/PL/PH)
interactions π + p at high energies, Bethe—Salpeter equation for inelastic, 25:5359
interactions π + p at high energies, comparison of cross sections for strong and electromagnetic, (T), 22:39324
interactions π + p at high energies, comparison of Regge pole results with data for, (E/T), 23:39723(T) (NP-tr-1826)
interactions π + p at high energies, Coulomb interference in elastic, 21:42367
interactions π + p at high energies, cross sections for large-angle diffraction, (T), 23:39731
interactions π + p at high energies, current developments on, 21:46546
interactions π + p at high energies, dispersion model for, 21:31642
interactions π + p at high energies, Drell—Hiida model bump in πN invariant mass spectrum from, 24:18192
interactions π + p at high energies, experimental test of Pomeranchuk theorem in, 25:59424
interactions π + p at high energies, fixed-branch-point model for diffraction, 23:49165
interactions π + p at high energies, Glauber representation for phenomenological analysis of amplitude of, 23:36951 (JINR-E2-4455)
interactions π + p at high energies, impact-parameter formalism for elastic, (T), 22:24663
interactions π + p at high energies, inelastic diffractive, 24:24251
interactions π + p at high energies, isobar production effects on charge ratio of π, K, and Σ from, (T), 22:13768
interactions π + p at high energies, kinematic variable for, 24:20165
interactions π + p at high energies, large-momentum-transfer π, K, and p production in, (T), 24:37746
interactions π + p at high energies, M(12) scheme for vector meson production in, 21:2507

interactions π + p at high energies, model for diffraction peak shrinkage in elastic, 21:35314 (COO-1112-104)
interactions π + p at high energies, multiple-scattering corrections to Pomeranchuk exchange in, 22:46397
interactions π + p at high energies, N* resonance production in, (E/T), 22:3406 (INP-555/PL/PH, pp 51-63)
interactions π + p at high energies, one-photon-exchange contribution to cross sections of inelastic, (T), 25:22825
interactions π + p at high energies, partial wave analysis of, 21:33715
interactions π + p at high energies, phase shifts for, 22:13869
interactions π + p at high energies, polarization in charge-exchange, (T), 21:19008
interactions π + p at high energies, Pomeranchuk theorem violation and near-forward zeros of differential cross sections for, 25:25426
interactions π + p at high energies, predictions from low-energy phase shifts, 23:3750
interactions π + p at high energies, production of A_3(1640) enhancement in $\pi\pi\pi$ system in, (E), 25:17388
interactions π + p at high energies, Regge one-pole model for forward elastic, 21:33759
interactions π + p at high energies, Regge pole model for, 22:7513
interactions π + p at high energies, Regge pole model corrected by absorption for, 23:51930
interactions π + p at high energies, Regge poles with absorption for, 24:18151 (CONF-690330-, pp 166-80)
interactions π + p at high energies, Regge-pole amplitudes for analysis of differential cross sections for, 23:27799
interactions π + p at high energies, Regge-pole eikonal theory of small-angle, 23:15116
interactions π + p at high energies, relation between transverse momentum dependence of multipion production and elastic, (T), 22:15792
interactions π + p at high energies, relations among cross sections for inelastic, (T), 22:15789 (JINR-P2-3649)
interactions π + p at high energies, review of experiments on, 21:31578
interactions π + p at high energies, review of peripheral model for origin of dips and spikes in differential cross sections for exchange, (T), 24:52099
interactions π + p at high energies, review of π and N* production with Pomeron exchange in, (E), 24:24236 (ANL/HEP-6909, pp 37-59)
interactions π + p at high energies, review of, (E/T), 22:17957
interactions π + p at high energies, self-consistent multiple-quark-scattering analysis of, 23:36959
interactions π + p at high energies, statistical model for cross sections of, 24:30492 (INR-1163)
interactions π + p at high energies, theory of polarization for, 23:18924
interactions π + p at high energies, use of current algebra and PCAC hypothesis for elastic, 22:15804
interactions π + p at high energy, polarization in, 23:8806 (INP-622(Vol.1), pp 85-104)
interactions π + p at high momentum transfers, Regge recurrences for elastic, 21:23338
interactions π + p at large angles, fermion Regge poles for cross-section relations for, 23:3747
interactions π + p at low energies, sum rules for coupling and subtraction constants for, 21:21242
interactions π + p at small momentum transfer, Regge-pole model for elastic, 22:15779
interactions π + p at very high energies and high momentum transfers, large-angle and backward, (E/T), 25:5281 (CONF-700314-, Paper 15)
interactions π + p below 10 GeV/c, peripheral, 21:31579
interactions π + p below 2 GeV/c, review of experiments and phase shift analysis for, 22:20138 (UCRL-18001)
interactions π + p below 2 GeV/c, review on phase shift analyses of elastic, 24:5295
interactions π + p below 600 MeV, test of charge independence in backward, (E/T), 25:33572
interactions π + p in Glauber quark model, cross sections for elastic, 24:15550
interactions π + p in meson (π^-) reactions with nuclei at 60 GeV in emulsions, properties of, (E), 24:10673
interactions π + p in quark model, excitation of negative-parity nucleon isobars in, 22:24628
interactions π + p in Regge model, comparison of two- and three-body, 24:8661
interactions π + p in sakaton triplet model, 22:15752
interactions π + p to 65 GeV, differential cross sections and polarization parameters for, 25:7661
interactions π + p using polarized target, 400-kJ superconducting magnet for investigating, 22:10602
interactions π + p with charge exchange, quark model predictions for pseudoscalar and vector meson production cross sections for, (T), 24:10773
interactions π + p with three-particle final states, SU(6) x O(3) quark model for, 22:50381
interactions π + p, absorption model for meson-exchange, 24:3675
interactions π + p, Argand-diagram loops from partial wave analysis of, 23:15091
interactions π + p, at high energies, Yukawa potential and hard core for analysis of elastic, 24:8659
interactions π + p, CAE 90-10 computer-based data acquisition system for polarization parameter measurements in, 22:19155
interactions π + p, computerized compilation of cross sections for, (E), 24:5247 (CERN-HERA-69-1)
interactions π + p, cross sections and scattering amplitudes from P and P' Regge parameters for, 22:34989
interactions π + p, cross sections for elastic, (E/T), 22:22394
interactions π + p, cross sections for single meson production in, 23:36906
interactions π + p, curves for energy dependence of cross sections for, (E), 25:50066 (JINR-P2-5924)
interactions π + p, design of storage rings for, 21:46631
interactions π + p, dispersion sum rules for, 21:40233
interactions π + p, double-pole model for mass distributions for $A_2 \to K$ + anti K and $A_1 \to \pi$ + rho decays in, (T), 25:17482
interactions π + p, effect of sum rule on contribution of rho' and cut to charge-exchange, 22:9599
interactions π + p, elastic unitarity integral equation for differential cross sections for, 24:30529
interactions π + p, experimental tests of SU(3) predictions for, (T), 22:7544 (ORO-2504-112)
interactions π + p, extraction of cross sections from p + p $\to$ p + π^+ + n interactions, (E/T), 24:30533 (CONF-690521-, pp 1-26)
interactions π + p, Fermi-like Lorentz-invariant statistical model for multiplicity spectrum for π^+ and π^- production in, (T), 25:41013
interactions π + p, fixed-transfer dispersion relations for Regge cuts in backward, 23:36935
interactions π + p, generalized interference model for resonance interpretation of phase shift analysis for, (T), 25:7671
interactions π + p, generalized quark model for cross sections and spin density matrix elements for strangeness-exchange, 22:29693
interactions π + p, Gribov—Morrison parity rule and helicity conservation in diffractive π production in, 25:22833
interactions π + p, invariance of asymptotic spin and modified Pomeranchuk theorem for differential cross sections for, 24:40354
interactions π + p, mechanisms of nucleon isobar excitation in, 24:3655
interactions π + p, models with fixed pole and shielding cut for diffraction, (T), 25:41000 (COO-264-576)
interactions π + p, Monte Carlo method for rho mass distribution from production in, 25:17494
interactions π + p, P and P' Regge parameters from sum rules for, 22:34996
interactions π + p, phase and t structure of exchange amplitudes for, 25:33754
interactions π + p, phase of scattering amplitude from π + d interactions and Glauber formula, 22:50407
interactions π + p, phase shift analysis for, 23:49216
interactions π + p, phase shift analysis for nucleon multiresonance production and decay from, 22:13757
interactions π + p, phenomenological models for high-energy elastic, 23:15073
interactions π + p, proton electromagnetic form factor for inelastic, (T), 25:30977
interactions π + p, π and N form factors from multiple quark analysis of consistency relations among diffraction cross sections for, (T), 22:32116
interactions π + p, π form factor from Chou—Yang model for elastic, 23:23413
interactions π + p, π form factor from extrapolation to infinite energies of differential cross sections for elastic, 24:18204
interactions π + p, Regge model for axial-vector meson production in, 23:5623
interactions π + p, Regge pole and cut in elastic, 22:50396
interactions π + p, Regge pole fits to cross sections for, 23:15095
interactions π + p, Regge pole residues near α = 0 in presence of fixed pole effects in, (T), 24:26442
interactions π + p, Regge trajectory of π in O(4) group formalism for, 24:18169
interactions π + p, Regge-pole eikonal scheme for partial cross sections and Argand diagrams for, 25:17495
interactions π + p, Regge-type models for quasi-two-body, 24:15596
interactions π + p, Reggeized baryon exchange model for anti p + p $\to$ π^- + π^+ cross sections from, 21:46533
interactions π + p, research at Indiana Univ., Dec. 1968 to Nov. 1969, (E), 23:51848(R) (COO-2009-4)
interactions π + p, resonances and antishrinkage of diffraction peak in, 21:46529
interactions π + p, review of N* production from, 21:31596
interactions π + p, review of resonance production from, 22:9591
interactions π + p, review on N* production in, 24:5297
interactions π + p, secondary vacuum trajectories and scalar meson exchange for, (T), 24:37800
interactions π + p, singularities in complex angular momentum plane for sum rule for, 21:21247
interactions π + p, spark-chamber spectrometer study of forward differential cross sections for p + p $\to$ d + π interactions at 3.4 to 12.3 GeV/c for T = $^1/_2$ isobars and cross sections for, (E), 25:53008 (LA-4483)
interactions π + p, structure of cross section for S-wave π + π interactions in final-state of, 25:25414
interactions π + p, sum rules for, 21:25336
interactions π + p, superconvergent dispersion sum rules for, 21:33701
interactions π + p, test of Pomeranchuk theorem from finite-energy sum rules for, 25:20011
interactions π + p, upper bound on imaginary part of amplitude for elastic, 25:3460
interactions π + p, use of polarized targets for studying, 22:9715 (CERN-67-24(Vol.4), Paper 3)
interactions π + p, vertex function for arbitrary-spin N* production from, (T), 21:40228
interactions π + π $\to$ A_1 + π at rest, inconsistency of algebraic realization of chiral symmetry with Veneziano model for, 23:39707
interactions π + π $\to$ anti N + N, crossed-channel unitarity for lower bounds on amplitudes of, 22:26647
interactions π + π $\to$ anti N + N, kinematical singularities, crossing matrix, and kinematical constraints for helicity amplitudes for, 22:29770
interactions π + π $\to$ e + e' + π, rho $\to$ π + γ decay width from amplitudes for, 21:35280
interactions π + π $\to$ eta + boson, Veneziano models for, (T), 25:1501
interactions π + π $\to$ eta + D^0(1270) in Veneziano model, D^0 mass and width from, (T), 25:1501
interactions π + π $\to$ γ + γ, analyticity in angular momentum plane of definite helicity amplitudes for, 21:7499
interactions π + π $\to$ K + anti K near threshold, complex effective-range model for I = 0, S-wave, 24:1581
interactions π + π $\to$ K + anti K, review of, (E), 24:3520 (BNL-14090)
interactions π + π $\to$ K + anti K, rho mass and width from, (T), 21:5388
interactions π + π $\to$ K + K, fixed poles in complex momentum plane for, 21:29511
interactions π + π $\to$ N + anti N at high energies, Regge poles in, 21:29541
interactions π + π $\to$ N + anti N, analyticity properties of helicity amplitudes of, 22:9580 (CEA-R-3303)
interactions π + π $\to$ N + anti N, effect of $\pi\pi$—meson resonance and N anti N—meson resonance vertices on, 23:10815
interactions π + π $\to$ N + anti N, effects of higher N* resonances on nucleon electromagnetic form factors from amplitudes of, 24:3593
interactions π + π $\to$ N + anti N, higher N* resonance effects on amplitude for, 22:1435
interactions π + π $\to$ N + anti N, higher πN resonance effects on subtraction constant in dispersion relation for, 21:27359
interactions π + π $\to$ N + anti N, nucleon electromagnetic form factor from amplitude of, (T), 22:5530
interactions π + π $\to$ N + anti N, reduced-moment problem for constraints on partial-wave amplitudes for, 25:53166
interactions π + π $\to$ N + anti N, Regge pole effect on contribution to nucleon electromagnetic form factors from, 24:13061
interactions π + π $\to$ N + anti N, review of dispersion relations for, 23:39741
interactions π + π $\to$ N + anti N, unitarity for finite-energy sum rule for, 22:34953 (UCRL-18232)
interactions π + π $\to$ N + anti N, unitarity for finite-energy sum rule for rho mass in, 23:32701
interactions π + π $\to$ N + anti N, use of sum rule for calculation of rho-trajectory residues in amplitudes of, 22:44418
interactions π + π $\to$ N + N, rho NN vector coupling and nucleon isovector form factors for, 21:15319
interactions π + π + N through bound states, analytic properties of amplitude for, 22:46444
interactions π + π $\to$ ω + π, Argand diagrams for duality in resonance identification for, 23:32711
interactions π + π $\to$ ω + π, basic assumptions for dual amplitudes of, (T), 25:50126 (NP-18967)
interactions π + π $\to$ π + A_1 in Veneziano model, 24:13080
interactions π + π $\to$ π + A_1 in Veneziano model, analysis of $A_1 \to 3\pi$ decay from, 24:1580
interactions π + π $\to$ π + A_1, construction of physical dual resonance models for amplitudes of, 24:37767
interactions π + π $\to$ π + A_1, D-wave A rho π coupling from helicity conservation in, 25:33725
interactions π + π $\to$ π + A_1, PCAC hypothesis for Veneziano model for, 23:30749
interactions π + π $\to$ π + A_1, Veneziano amplitudes consistent with PCAC conditions for Ward-like identity and coupling relations for, (T), 25:40984
interactions π + π $\to$ π + A_2, bootstrap of trajectories for, 23:15097
interactions π + π $\to$ π + A_2, superconvergence relations for, 23:1636
interactions π + π $\to$ π + arbitrary spin particle, Veneziano model for, 23:42664
interactions π + π $\to$ π + γ in π + N $\to$ π + N + γ interactions, rho radiative decay width from Veneziano-type amplitude for, 25:22803
interactions π + π $\to$ π + ω and π + π $\to$ eta + rho, residues of daughter trajectories for, 23:15106
interactions π + π $\to$ π + ω in Veneziano model, amplitude for, 24:45519
interactions π + π $\to$ π + ω in Veneziano model, analysis of resonances in partial-wave amplitudes for, 24:3641
interactions π + π $\to$ π + ω in Veneziano representation, spin-matrix polynomials for partial-wave expansion of, 24:3630
interactions π + π $\to$ π + ω, bootstrap conditions for rho from superconvergence sum rules for, 22:7509
interactions π + π $\to$ π + ω, bootstrap conditions implied by direct-channel trajectory formulas for, 23:13140
interactions π + π $\to$ π + ω, bootstrap constraints from phase contour methods for, 24:8634
interactions π + π $\to$ π + ω, bootstrap of trajectories for, 23:15097
interactions π + π $\to$ π + ω, calculus of finite differences for formulation of S-matrix for, 24:3783
interactions π + π $\to$ π + ω, closed forms for scattering amplitudes and, 23:23453
interactions π + π $\to$ π + ω, consistency condition for crossing symmetric Regge behaved amplitude for, 23:32845
interactions π + π $\to$ π + ω, crossing-symmetric amplitudes with Regge asymptotic behavior for, 24:18173

interactions π + π → π + ω, crossing-symmetric Reggeized amplitude for, 22:46401
interactions π + π → π + ω, duality and crossing symmetry in narrow-resonance Veneziano amplitude for, (T), 24:45522
interactions π + π → π + ω, duality and crossing symmetry of Veneziano model for, 23:46703
interactions π + π → π + ω, duality in consistency conditions for crossing-symmetric amplitudes of, (T), 24:42955
interactions π + π → π + ω, extension of Veneziano representation for, 23:16963
interactions π + π → π + ω, final-state interactions in Veneziano model for, 25:53171
interactions π + π → π + ω, integral representations for complete four- and five-point Veneziano amplitudes for, 24:13203
interactions π + π → π + ω, positivity conditions in Veneziano model for, 23:39699
interactions π + π → π + ω, Regge daughter trajectories from sum rules and partial-wave analysis of, 22:44412
interactions π + π → π + ω, rising Regge trajectories and finite-energy sum rules for, 24:42946
interactions π + π → π + ω, Veneziano condition on Regge trajectories for, 23:37016
interactions π + π → π + ω, Veneziano model for, (T), 23:18893
interactions π + π → π + ω_3, bootstrap of trajectories for, 23:15097
interactions π + π → π + π + γ, particle-wave amplitude for, 24:28518
interactions π + π → π + π + γ, relation to amplitude for $K^+ \rightarrow \pi^+ + \pi^0 + \gamma$ decay, 22:20206
interactions π + π → π + π + γ, unitarity for contribution to matrix elements for radiative K decay, 22:1419 (TH-206)
interactions π + π → π + π + m(π), relation between nonequilibrium shower model and soft-pion emission model for, 25:30857
interactions π + π → π + π and π + π → π + A_1, π electromagnetic form factors from Veneziano amplitudes for, 24:8645
interactions π + π → π + π in rho region, simultaneous analyticity and unitarity for nonresonant background phase shifts for bound on S-wave scattering lengths for, 24:37766
interactions π + π → π + π in Veneziano model, SU(3) structure for internal symmetry from, 25:5370
interactions π + π → π + π in Veneziano model, sum rules, SU(2) x SU(2) charge algebra, and scattering lengths for, 23:42665
interactions π + π → π + π, Adler consistency condition and strong-interaction amplitudes for, 24:30514
interactions π + π → π + π, analyticity, unitarity, and crossing symmetry for, 24:18160 (CONF-690330-, pp 226-36)
interactions π + π → π + π, asymptotic decreasing Efimov amplitudes for, 25:53163
interactions π + π → π + π, asymptotically decreasing Efimov amplitudes for, (T), 25:33685 (DEMO-71/7)
interactions π + π → π + π, boundary curves of double spectral functions in Mandelstam representation for amplitudes of, 24:21980
interactions π + π → π + π, chiral SU(2) x SU(2) Lagrangian for, 25:9781
interactions π + π → π + π, chiral SU(3) X SU(3) theorems for amplitudes of, 24:18163
interactions π + π → π + π, chiral-symmetry and dual model amplitudes for, 25:1588
interactions π + π → π + π, crossed-channel unitarity for lower bounds on amplitudes of, 22:26647
interactions π + π → π + π, crossing symmetry for, 24:8684
interactions π + π → π + π, crossing-symmetric unitarization of Veneziano amplitude for, (T), 25:12196
interactions π + π → π + π, current algebra results for Veneziano amplitude for, 24:49474
interactions π + π → π + π, dual crossing-symmetric amplitude with Mandelstam analyticity for, (T), 25:43623 (ITF-71-28-E)
interactions π + π → π + π, dual resonance model with quark spin for, (T), 24:52068 (COO-264-557)
interactions π + π → π + π, duality for, 23:49118 (CALT-68-218)
interactions π + π → π + π, dynamical theory for, 21:25287
interactions π + π → π + π, effect of ππ—meson resonance and N anti N—meson resonance vertices on, 23:10815
interactions π + π → π + π, existence of solutions of crossing-symmetric N/D equations for, 22:17943
interactions π + π → π + π, extrapolation of current algebra results from Veneziano amplitude for, 24:15571
interactions π + π → π + π, inequalities on left-hand discontinuities of partial-wave amplitudes of, (T), 24:42961
interactions π + π → π + π, minimal factorized Veneziano amplitudes for, 25:1515
interactions π + π → π + π, models with fixed pole and shielding cut for scaling relation among amplitudes of, (T), 25:41000 (COO-264-576)
interactions π + π → π + π, modulus above threshold for determination of amplitude of, 22:20242
interactions π + π → π + π, off-mass-shell extension of Veneziano amplitude for, 24:37758
interactions π + π → π + π, Pade approximants for, 22:39380
interactions π + π → π + π, partial-wave bootstrap calculation for, 22:24646
interactions π + π → π + π, PCAC and Veneziano model for relation with A_1 + π → π + π amplitude for, 23:30748
interactions π + π → π + π, PCAC for Veneziano model for, 23:30749
interactions π + π → π + π, Pomeranchuk behavior of Veneziano amplitude of, 24:40366
interactions π + π → π + π, reduced-moment problem for constraints on partial-wave amplitudes for, 25:53166
interactions π + π → π + π, rho and f^0 resonance parameters in amplitude for, 22:44418
interactions π + π → π + π, S-matrix inputs for rho resonance parameters in, 23:32844
interactions π + π → π + π, self-consistent couplings of 1^- and 2^+ nonets to 0^- mesons for, 22:32126
interactions π + π → π + π, shape of rho in, 25:40990
interactions π + π → π + π, unitarity for finite-energy sum rule for, 22:34953 (UCRL-18232)
interactions π + π → π + π, unitarity for finite-energy sum rule for f and rho resonance parameters in, 23:32701
interactions π + π → π + π, unitarity for finite-energy sum rule behavior near threshold for, 23:32701
interactions π + π → π + π, Veneziano amplitude for, 25:30855
interactions π + π → π + π, Veneziano amplitude for spinning, 24:10752
interactions π + π → π + π, Veneziano model for amplitudes of, (T), 25:14695
interactions π + π → π + π(A_1), Veneziano model for current algebra relation of meson (π) electromagnetic form factor with amplitudes for, 23:51927
interactions π + π → π + π^0, application of finite-energy sum rules to, 23:25605
interactions π + π → rho + rho, expansion of spin-nonflip helicity amplitudes along O(4) for factorization relations for, 24:30511 (IFVE-STF-69-26)
interactions π + π → rho + rho, helicity conservation in, 25:56517
interactions π + π → rho, self-consistent calculation for p-wave resonances for, 22:3401
interactions π + π → rho(780), π form factor as probe of p-wave dynamics in, 22:20223
interactions π + π → vector mesons, daughter structure of conspiring Regge-pole families from analyticity constraints for, 23:7185
interactions π + π → vector mesons, Lorentz pole and kinematic constraints on helicity amplitudes for, 22:26640
interactions π + π at 500 MeV in T = 0 and T = 2 states, scattering phases in, (E/T), 22:52921
interactions π + π at high energies and low momentum squared, dependence of residue of Pomeranchuk pole on momentum squared and amplitudes in quark model for Regge, 23:49120
interactions π + π at high energies, asymptotic summation of ladder diagrams for amplitudes of, 21:21208
interactions π + π at high energies, bounds on amplitudes and oscillations in diffraction-peak region for, (E), 25:19990
interactions π + π at high energies, consistency conditions for p-wave amplitudes for, 21:4129
interactions π + π at high energies, dual models for Pomeranchuk term with crossing symmetry in, 24:26434
interactions π + π at high energies, duality in Veneziano model for amplitude of, 23:51867(R) (NYO-1984-13)
interactions π + π at high energies, equivalent-potential method for amplitude of, 22:11668
interactions π + π at high energies, extended structure theory for form factors for, 22:17941
interactions π + π at high energies, forward diffraction peak and total cross sections for, (T), 21:4044
interactions π + π at high energies, impact factor representation for amplitudes of elastic, 24:26426
interactions π + π at high energies, review of PCAC, current algebra, finite-energy sum rules, and Veneziano model for, 24:15553 (INP-681, pp 171-92)
interactions π + π at high energies, saturation of dispersion sum rules for, 23:39700
interactions π + π at high energies, scattering amplitude model for, 24:49606
interactions π + π at high energies, self-consistent multiple-quark-scattering analysis of, 23:36959
interactions π + π at high energies, summation of asymptotics of amplitudes for, 22:46531 (JINR-E2-3917)
interactions π + π at high energies, two-Reggeon cuts and exotic exchange in, 25:59618
interactions π + π at high energies, two-Reggeon exchange contributions to, (T), 25:14657 (UCRL-20032)
interactions π + π at low and intermediate energies, Veneziano constraints for amplitudes of, (T), 25:40998
interactions π + π at low energies in chiral U(3) x U(3) model, 21:44365
interactions π + π at low energies in current algebra, predictions for epsilon width and I = 0 s-wave phase shifts from, 24:3633
interactions π + π at low energies with I = 0 and 2, Pade approximants for s-wave, 24:24359
interactions π + π at low energies, analysis of π + N → π + π + N interactions at 350 to 600 MeV for determining scattering amplitudes for, (E), 23:3649
interactions π + π at low energies, corrections from Pomeron for scattering lengths for, (T), 25:50129
interactions π + π at low energies, crossing-symmetry sum rules for S-wave, 24:47436
interactions π + π at low energies, current-commutator sum rules for, 21:25306
interactions π + π at low energies, dispersion relations for backward π + N interactions for resonances in phase shifts for, (T), 25:36520
interactions π + π at low energies, dispersion theories for, 23:39662
interactions π + π at low energies, dispersion-relation sum rule for p-wave, 22:3390
interactions π + π at low energies, dispersion-relation calculations of amplitudes, phase shifts, and scattering lengths for, (T), 25:56495
interactions π + π at low energies, extraction of phase shifts from π + N → π + π + N interactions, 23:49143
interactions π + π at low energies, forward dispersion relations for, 22:1429
interactions π + π at low energies, forward dispersion relations for behavior of s-wave phase shifts for, 22:32129
interactions π + π at low energies, higher partial waves in, 21:31586
interactions π + π at low energies, $K^+ \rightarrow \pi^+ + \pi^- + e^+ + \nu$ decay for parameters of, (T), 22:17911 (NYO-3829-14)
interactions π + π at low energies, K-matrix model for, 25:38739
interactions π + π at low energies, method of unitarizing Veneziano model with crossing symmetry for, (T), 25:19993
interactions π + π at low energies, model for partial-wave amplitudes for, 25:38738
interactions π + π at low energies, model for S-wave phase shifts for, 24:18171
interactions π + π at low energies, model with epsilon(700) dominance in I = J = 0 channel for, 22:34964
interactions π + π at low energies, Newton—Kantorovich method for approximate solutions of partial-wave equations for, 23:3852
interactions π + π at low energies, numerical approach to bootstrap of, 24:24344
interactions π + π at low energies, one-particle exchange model for amplitude of, 24:15505
interactions π + π at low energies, p-wave scattering length and s-wave resonance production in, (T), 22:24636 (COO-881-87)
interactions π + π at low energies, pole-dominance model for scattering lengths of, 23:34589
interactions π + π at low energies, prediction for model-independent parameters from amplitude in meson (rho) region in, (T), 23:51921 (NYO-1932(2)-150)
interactions π + π at low energies, review of, (E/T), 25:30867
interactions π + π at low energies, s- and p-wave phase shifts for, 22:48302
interactions π + π at low energies, s- and p-wave phase shifts for, 23:46704
interactions π + π at low energies, s-wave phase shifts for, 22:7493
interactions π + π at low energies, S-waves for, (T), 22:20226
interactions π + π at low energies, scalar meson nonet from T = 0, s-wave phase shift for, 21:27365
interactions π + π at low energies, short-range repulsion in broken chiral symmetry for masses lifetimes and coupling constants for p-wave resonances in, (T), 25:25471
interactions π + π at low energies, sigma (430) production from, (T), 22:17944
interactions π + π at low energies, test of chiral symmetry breaking models from S-wave, 25:45788
interactions π + π at low energies, unitarization method for crossing symmetric real amplitudes with resonating phase shifts for, (T), 25:53165
interactions π + π at low energies, unitarized strip approximation for bootrap of rho and P trajectories and S-wave phase shift for, 24:8631
interactions π + π at low energies, unitary and crossing-symmetric S-, P-, and D-wave, 25:3369
interactions π + π at low energies, use of current algebra for calculating amplitude of, 22:15774
interactions π + π at threshold, positivity constraints on partial amplitudes for, 25:40992
interactions π + π at ultrahigh energies, model for multiple meson production in, (T), 24:47444
interactions π + π below 1 GeV, S-matrix phenomenology for phase shifts in terms of resonances masses and widths and S-wave scattering lengths for, 23:51920 (NYO-1932(2)-149)
interactions π + π below 1 GeV, Veneziano and partial-wave dispersion relations in unitary crossing symmetric calculations of S, P, and D waves for, 23:51922 (NYO-1932(2)-153)
interactions π + π below 2 GeV in unitarized Veneziano model, absorption parameters for, 24:49462
interactions π + π below inelastic threshold, generalized unitarity for, 21:37796
interactions π + π below rho region, phase shifts for, 24:30501 (CONF-690521-, pp 306-15)
interactions π + π effects on nuclear forces, comparison with scalar-meson and two-pion exchange contributions, 21:44388
interactions π + π from diffractive 2π production in high-energy reactions, 22:46407
interactions π + π from elastic πN phase shifts, low-energy, 25:59463
interactions π + π from K → 3π and eta → 3π decays, scattering lengths for, 23:7141
interactions π + π from K → π + π + e + ν decay, low-energy scattering length for, 22:15781
interactions π + π from N + N → d + 2π interactions at 991 MeV, missing-mass spectrometer study of s-wave, 23:49136
interactions π + π from π + N → N + π + π interactions, phase shifts for, 23:42656
interactions π + π from π + N → π + π + N interactions, azimuthal dependence of, 22:9597
interactions π + π from π + N → π + π + N interactions, peripheral-model determination of phase shifts for, 22:26652

interactions $\pi + \pi$ from $\pi + N \rightarrow \pi + \pi + N$ interactions, unitarized Veneziano model for S-wave I = 0, 24:1583
interactions $\pi + \pi$ from $\pi + N \rightarrow \pi + \pi + N$ peripheral interactions, unitarized Veneziano model for amplitudes of, 24:1582
interactions $\pi + \pi$ from $\pi + N \rightarrow \pi + \pi + N$, extrapolation model for, (T), 24:35649
interactions $\pi + \pi$ from $\pi^- + d \rightarrow p + p + \pi^- + \pi^-$ interactions at 7 GeV/c in deuterium bubble chamber, s-wave and d-wave I = 2 phase shifts for, (E), 23: 42560 (UR-875-282)
interactions $\pi + \pi$ from $\pi^+ + p \rightarrow \Delta^{++} + \pi^+ + \pi^-$ interactions at 8 GeV/c, S-wave resonance effects in, (E/T), 25:59296
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$ interactions, s-wave amplitude of, 22:37151
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$ interactions, Chew—Low extrapolation of s-wave, 24: 52093
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^- + p + \pi^0$ interactions at 1.7 GeV/c, test of Ferrari—Selleri form factor for elastic, (E/T), 22:3275
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ and $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ interactions at 1.89 to 3 GeV/c, Chew—Low extrapolation method for studying elastic, (E/T), 23:5613
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ interactions, S-wave phase shift for, (E), 25:59306
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ interactions, T = J = 0 phase shift for, 22:50409
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ interactions at 1.3 GeV/c, cross sections for elastic, (E/T), 21:33615
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ interactions, hard-pion calculation of scattering lengths for, 25:1544
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ interactions at 4 GeV/c, S-wave phase shift for, 25: 45741
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^- + \pi^- + n$ interactions, off-shell amplitudes for, (T), 25:41011
interactions $\pi + \pi$ from $\pi^+ + p \rightarrow \pi^- + \pi^+ + p$ interactions at 3.2 to 8.4 GeV/c, s-wave phase shift for, (E/T), 24:30455 (CONF-690521-, pp 339-51)
interactions $\pi + \pi$ from $\pi^- + p \rightarrow \pi^+(\pi^0) + \pi^- + n(p)$ interactions at 2.7 and 4.2 GeV/c, s-wave phase shifts for elastic, (E), 22:24562
interactions $\pi + \pi$ from $\pi^- + p$ interactions at 4.16 GeV, s-wave phase shifts for elastic, (T), 22:5578
interactions $\pi + \pi$ from unitary current-algebra model, isoscalar S-wave phase shift for, 24:47440
interactions $\pi + \pi$ in colliding beams, feasibility using mini-rings, (T), 25:20153
interactions $\pi + \pi$ in complex s plane, asymptotic behavior of Veneziano partial-wave amplitude for, 24: 45514
interactions $\pi + \pi$ in current algebra, bootstrap of rho and sigma from amplitudes for, 25:59469
interactions $\pi + \pi$ in duality models, bounds on s-wave scattering lengths for, 24:13079
interactions $\pi + \pi$ in generalized interference model, contribution of rho trajectory to, 24:49482
interactions $\pi + \pi$ in GeV range, low-energy models for, (T), 25:30854
interactions $\pi + \pi$ in j-plane, 23:25601 (UCRL-18665)
interactions $\pi + \pi$ in $K \rightarrow 3\pi$ decay, scattering lengths from, 22:17924
interactions $\pi + \pi$ in $K \rightarrow \pi + \pi + e + \nu$, in $K_1^0 \rightarrow \pi^+ + \pi^- + \pi^0$, and eta $\rightarrow \pi^+ + \pi^- + \pi^0$ decays, model for I = J = 0 channel, 22:41806 (SINP-TH-67-18)
interactions $\pi + \pi$ in $K^0 \rightarrow \pi^+(\pi^0) + \pi^-(\pi^0)$ decay in freon bubble chamber, phase shift difference for, (E), 25:22666
interactions $\pi + \pi$ in $K_2^0 \rightarrow 3\pi$ and eta $\rightarrow 3\pi$ decays, final-state, (T), 23:7139
interactions $\pi + \pi$ in $K^+ \rightarrow \pi^+ + \pi^- + e^+ + \nu$ decay, parameters of S-wave, (T), 22:39385
interactions $\pi + \pi$ in $\Lambda(1520) \rightarrow \Lambda + \pi + \pi$ decay, scattering length from, (T), 22:29676
interactions $\pi + \pi$ in minirings and colliding beams, feasibility of, (E), 25:5285 (RLO-2041-50)
interactions $\pi + \pi$ in narrow resonance model, 25: 45728
interactions $\pi + \pi$ in $\pi + N \rightarrow N + \pi + \pi$ interactions, unique set of phase shifts and review of experimental methods for, 23:36905 (COO-1428-126)
interactions $\pi + \pi$ in $\pi + N \rightarrow \pi + N$ interactions at low energies, peripheral model for phase shifts for, (T), 24:40370
interactions $\pi + \pi$ in $\pi + N \rightarrow \pi + \pi + N$ interactions, phase shift analysis of, (T), 23:13101
interactions $\pi + \pi$ in $\pi + p \rightarrow 2\pi + N$ interactions with Regge pole and cut exchange, phase shift determination for, (T), 25:33750
interactions $\pi + \pi$ in $\pi^+ + d \rightarrow 2p + \pi^+ + \pi^-$ interactions at 1.1 to 2.3 GeV/c in deuterium bubble chamber, phase shift analysis on angular distribution moments of, (E/T), 25:12107
interactions $\pi + \pi$ in $\pi^+ + n \rightarrow p + m\gamma$ interactions at 2.15 GeV/c in deuterium bubble chamber, $2\pi^0$ final state for s-wave, (E), 25:43562
interactions $\pi + \pi$ in $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ and $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ interactions at 2.0 GeV/c in hydrogen bubble chamber, (E), 23:25533
interactions $\pi + \pi$ in $\pi^+ + p \rightarrow \pi^+ + \pi^+(\pi^-) + p(n)$ and $\pi^+ + n \rightarrow \pi^+ + \pi^- + p$ interactions at 13.1 GeV/c in bubble chamber, diffractive, (E), 25:56425 (COO-1428-294)
interactions $\pi + \pi$ in $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ interactions at 3 to 5 GeV/c, counter—spark chamber study of, (E), 25:43555
interactions $\pi + \pi$ in $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ interactions, scattering length ratio and isospin current of sigma commutator in test of Weinberg off-mass-shell dependence of amplitude of, (E/T), 23:42662
interactions $\pi + \pi$ in $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ interactions, test of single-channel Lovelace—Wagner—Veneziano model in off-mass-shell behavior of amplitude of, (T), 24:26500
interactions $\pi + \pi$ in $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ peripheral one-pion-exchange interactions at threshold to 1 GeV, (E), 23:51919 (NAL-29)
interactions $\pi + \pi$ in $\pi^- + p \rightarrow \pi^- + \pi^+(\pi^0) + n(p)$ and $\pi^- + p \rightarrow \pi^- + \pi^+ + \pi^- + \pi^+(\pi^0) + n(p)$ interactions at 7 GeV/c elastic and inelastic final-state, (E), 24:10681
interactions $\pi + \pi$ in $\pi^+ + p$ and anti p + p interactions at 1.2 to 5 GeV/c, final-state, (T), 22: 39372 (CERN-68-7(Vol.1), pp 595-8)
interactions $\pi + \pi$ in $\pi^- + p$ interactions at 2.1 GeV/c, (E/T), 21:9721
interactions $\pi + \pi$ in quantum field theory, unitarity for, 23:30801
interactions $\pi + \pi$ in Regge pole theory, asymptotic behavior of amplitudes for, 23:46712
interactions $\pi + \pi$ in Reggeized absorption model, effective trajectories in presence of cuts for, 23:5612
interactions $\pi + \pi$ in sigma model, dynamics of, 25: 1512
interactions $\pi + \pi$ in sigma-model, Pade approximation for unitary amplitudes for, 23:36913
interactions $\pi + \pi$ in SU(2) x SU(2) current algebra, scattering lengths for, 24:13070
interactions $\pi + \pi$ in SU(2) x SU(2) current algebra, hard-pion four-point functions for, 23:5616
interactions $\pi + \pi$ in SU(3) sigma model, scattering length for, 25:38771
interactions $\pi + \pi$ in unitarized strip approximation, bootstrap of rho and Pomeranchuk trajectories in, 23: 42779
interactions $\pi + \pi$ in urbaryon model, cross sections for forward elastic, 21:35300
interactions $\pi + \pi$ in Veneziano model, asymptotic behavior of partial widths of amplitudes for, 24:45515
interactions $\pi + \pi$ in Veneziano model, duality and S-wave scattering lengths for, 24:42947
interactions $\pi + \pi$ in Veneziano model, finite-energy sum rules for Regge behavior of unitarized, 25:14693
interactions $\pi + \pi$ in Veneziano model, internal structure of extended particle from, 24:18166
interactions $\pi + \pi$ in Veneziano model, positivity of partial widths of low-spin resonances in, 24:15560
interactions $\pi + \pi$ in Veneziano model, π electromagnetic form factor from amplitude for, 24: 20150
interactions $\pi + \pi$ in Veneziano model, SU(3) symmetry breaking parameter from, 24:24416
interactions $\pi + \pi$ in Veneziano model, unitarized and crossing-symmetric S-wave amplitudes for, 24:26435
interactions $\pi + \pi$ in Veneziano model, upper bound for rho width and asymptotic total cross section for, 24:13077
interactions $\pi + \pi$ interactions at low energies, short-range repulsion in, (T), 21:44352
interactions $\pi + \pi$ mass-shell current-algebra calculation of scattering lengths and effective ranges for, 22:17945
interactions $\pi + \pi$ on mass shell, current algebra evaluation of scattering lengths for, 25:3371
interactions $\pi + \pi$ phase shift for dipole parametrization of isovector-nucleon form factor, 23: 3732
interactions $\pi + \pi$ to 1.4 GeV from $\pi^- + p \rightarrow \pi^- + \pi^+(\pi^0) + n(p)$ interactions at 7 GeV/c, phase shifts for, (E/T), 24:37661
interactions $\pi + \pi$ to 850 MeV, forward dispersion relations analysis of, (T), 24:42963
interactions $\pi + \pi$ with small scattering lengths, current algebra predictions for s-wave, 22:32130
interactions $\pi + \pi$, (K_1^0 - K_2^0) mass difference as test of solutions to S-wave, 21:21185
interactions $\pi + \pi$, (T), 23:15086 (UCRL-18637)
interactions $\pi + \pi$, 5-wave phase shifts for, 25:36484
interactions $\pi + \pi$, absolute bound on total cross sections at all energies without unknown constants for, (T), 24:24349
interactions $\pi + \pi$, absolute upper bounds for, 22:3388
interactions $\pi + \pi$, absolute upper limit of amplitude of, 22:13746
interactions $\pi + \pi$, amplitude expansion on Mandelstam triangle for bootstrap of, (T), 25:14678
interactions $\pi + \pi$, amplitudes and differential cross sections for $\gamma + \gamma \rightarrow \pi + \pi$ interactions in e + e interactions in colliding beams for s-wave phase shifts for, (T), 25:40913 (COO-264-578)
interactions $\pi + \pi$, amplitudes satisfying analyticity, crossing, and unitarity for, 23:3712
interactions $\pi + \pi$, analytic properties of Feynman diagrams in quantum field theory for, 22:20218
interactions $\pi + \pi$, analyticity constraints on, 22:37140
interactions $\pi + \pi$, analyticity domain of forward amplitude of, 21:33793
interactions $\pi + \pi$, analyticity in amplitudes of, (T), 25:14682 (ITF-70-60-E)
interactions $\pi + \pi$, analyticity, crossing symmetry, and unitarity for low-energy behavior of S- and P-wave, 25:1657
interactions $\pi + \pi$, analyticity, unitarity, and crossing symmetry for S- and D-wave, 24:52072
interactions $\pi + \pi$, analyticity, unitarity, and crossing-symmetry constraints on partial-wave amplitudes for, 25:40993
interactions $\pi + \pi$, approximately self-consistent calculation of rho channel in, 24:3645
interactions $\pi + \pi$, approximation schemes for, 22: 44513
interactions $\pi + \pi$, asymptotic behavior of Veneziano partial-wave amplitude and dispersion relations in complex S plane for, (T), 25:36487
interactions $\pi + \pi$, atonous duality for dynamics of narrow-resonance one-term Veneziano ansatz for, 24: 1586
interactions $\pi + \pi$, axiomatic field theory for limits of strength of, (T), 25:30852
interactions $\pi + \pi$, axiomatic field theory with unitarity for analyticity properties of amplitude of, 22:7501
interactions $\pi + \pi$, Bethe—Salpeter model for meson (rho) production and meson (π) electromagnetic form factor from, 24:8583 (DESY-69/43)
interactions $\pi + \pi$, bootstrap calculation of J = 0, T = 0 antibound state in, 21:7505
interactions $\pi + \pi$, bootstrap dynamics for scattering lengths and second-order corrections for, 24:10746
interactions $\pi + \pi$, bootstrap model for derivation of Wu and Yang conjecture for cross sections of, (T), 25: 9809
interactions $\pi + \pi$, bootstrap model for Reggeized amplitudes of, 22:46413
interactions $\pi + \pi$, bootstrap on two-term Veneziano model with unitarity for, 24:42953
interactions $\pi + \pi$, bootstrap solutions of Bethe—Salpeter equation for bound state in, 22:46411
interactions $\pi + \pi$, bootstrap with finite-energy sum rules for f, g, and rho production in, 22:20237
interactions $\pi + \pi$, Born approximations for D, F, and G phase shifts of, 21:23330
interactions $\pi + \pi$, bounds on P-wave phase shift for, 23:18856
interactions $\pi + \pi$, branch cuts in Balazs method for partial-wave amplitudes of, 25:22798
interactions $\pi + \pi$, broken chiral and conformal symmetry and Kuo transformation for scattering length for, (T), 24:45509 (IC-70/91)
interactions $\pi + \pi$, CDD poles in effective range formula for form factors of, 25:59466
interactions $\pi + \pi$, Cheng representation for finite-energy sum rules for rho production in, 23:27794
interactions $\pi + \pi$, Chew—Low extrapolations for phase shifts of, 24:45516
interactions $\pi + \pi$, Chew—Mandelstam equation for S- and P-wave phase shifts in, 23:46620
interactions $\pi + \pi$, chiral and scale breaking in SU(3) sigma model for scattering lengths for, (T), 25:36483 (SU-1206-241)
interactions $\pi + \pi$, chiral dynamics for, 21:25286
interactions $\pi + \pi$, chiral SU(2) x SU(2) current algebra calculations of s-wave phase shifts and form factors for, 25:1591
interactions $\pi + \pi$, chiral SU(2) x SU(2) dynamical Lagrangian for, (T), 25:17477 (JINR-E2-5249)
interactions $\pi + \pi$, chiral SU(2) x SU(2) effective Lagrangians for scattering lengths of, (T), 25:7647
interactions $\pi + \pi$, chiral SU(2) x SU(2) Lagrangians for, 23:18916
interactions $\pi + \pi$, chiral symmetry breaking from Veneziano amplitudes for, 24:45513
interactions $\pi + \pi$, chiral transformations for, (T), 22: 22435
interactions $\pi + \pi$, chiral-invariant theories for, 25: 33722
interactions $\pi + \pi$, class of nonlinear Lagrangian models for S-wave scattering lengths for, (T), 24: 49458 (SINP-TH-69-4)
interactions $\pi + \pi$, Collins—Johnson bootstrap calculation of J = 1, 25:33713
interactions $\pi + \pi$, comparison between on-shell and off-shell calculations for, 22:3456
interactions $\pi + \pi$, comparison of Veneziano amplitude with chiral dynamics for, 23:44652
interactions $\pi + \pi$, complete unitary representation for residue function β from amplitudes for, 24:18183
interactions $\pi + \pi$, complex-l-plane singularities in Veneziano formula for, 23:36924
interactions $\pi + \pi$, conference on, 24:30500 (CONF-690521)
interactions $\pi + \pi$, connection between PCAC hypothesis and current algebra for, (T), 24:42957
interactions $\pi + \pi$, consistency conditions for amplitude of, 21:15330
interactions $\pi + \pi$, consistency conditions in current algebra and existence of sigma from amplitudes for, 23:32707
interactions $\pi + \pi$, consistency of model for subthreshold, 25:3457
interactions $\pi + \pi$, constraint on S and P waves for, 25:40988
interactions $\pi + \pi$, constraint relations from crossed-channel unitarity for, 24:13057
interactions $\pi + \pi$, constraints from analyticity and positivity on partial waves for, 24:1584
interactions $\pi + \pi$, constraints from positivity on amplitudes for, 24:49465
interactions $\pi + \pi$, construction of approximate amplitude for elastic, 22:48301 (JINR-E2-3989)
interactions $\pi + \pi$, construction of effective Lagrangian for arbitrary SU(2) x SU(2) breaking in, (T), 25:50125 (KFKI-71-33)
interactions $\pi + \pi$, continuous-moment sum rules for, (T), 25:12207
interactions $\pi + \pi$, correction to potential in Born approximation for, 22:46419
interactions $\pi + \pi$, Coulomb production method for study of, (T), 25:17492
interactions $\pi + \pi$, coupled dynamic equations with unitarity and crossing for, 23:46707
interactions $\pi + \pi$, cross duality model for, (T), 24: 42960
interactions $\pi + \pi$, cross sections from $\pi + N \rightarrow \pi + \pi + N$ interactions, 23:18894
interactions $\pi + \pi$, cross symmetry and positivity for integral inequalities for s- and p-wave partial-wave amplitudes for, 24:33010 (SU-1206-223)
interactions $\pi + \pi$, crossing and inequality relations in solution for amplitudes of s-wave, (T), 25:36482 (NYO-2262-TA-241)
interactions $\pi + \pi$, crossing constraints on partial wave amplitudes for, 23:49130
interactions $\pi + \pi$, crossing restraints on partial-wave amplitudes for, 24:13048

interactions π + π, crossing symmetry and positivity properties of absorptive parts for constraints on moments of S-wave, (T), 24:3648
interactions π + π, crossing symmetry constraints in unitarized Veneziano model for S-waves in, 24:37774
interactions π + π, crossing-symmetric amplitude for Pomeranchuk trajectory, 25:3365
interactions π + π, crossing-symmetric expansion of amplitude for, 25:12197
interactions π + π, crossing-symmetric model satisfying Mandelstam representations for, 25:22802
interactions π + π, crossing-symmetric model satisfying Mandelstam representation for, 25:22801
interactions π + π, crossing-symmetric Regge-pole model for, 24:3644
interactions π + π, current algebra amplitudes satisfying crossing and unitarity, 25:1508
interactions π + π, current algebra analysis of, 24: 30505 (CONF-690521-, pp 619-47)
interactions π + π, current algebra and analyticity for bootstrap of rho and sigma in, (T), 25:28027 (RLO-1388-602)
interactions π + π, current algebra and PCAC hypothesis for S-wave phase shifts of, 22:46404
interactions π + π, current algebra and Veneziano model for scattering lengths for, 23:21101
interactions π + π, current algebra and Veneziano amplitude for, 23:15105
interactions π + π, current algebra calculation for scattering lengths for, 22:3387
interactions π + π, current algebra calculation of T = 0 and T = 2 scattering lengths for, 22:44423
interactions π + π, current algebra calculation of I = 0 and I = 2 S—wave scattering lengths for, 24:20149
interactions π + π, current algebra calculation of off-shell scattering lengths for, 23:44654
interactions π + π, current algebra fit to S-wave phase shifts for, 23:18891
interactions π + π, current algebra for dynamics of, 22:20229
interactions π + π, current algebra for scattering lengths for, 21:37773(R) (COO-1428-28)
interactions π + π, current algebra relation with Regge pole theory for, 23:18886
interactions π + π, current algebra restriction on amplitude for, 23:36923
interactions π + π, current commutators and mass extrapolations for s- and p-wave amplitudes of, 22: 44441
interactions π + π, current-algebra amplitudes for, 24: 33013
interactions π + π, current-algebra calculation of scattering lengths for, 25:1509
interactions π + π, current-algebra constraints on, 22: 37141
interactions π + π, current-algebra-constrained single-pole approximation to S-wave phase shifts for, 23: 25611
interactions π + π, cut-off parameter in, 22:1446
interactions π + π, d-wave phase shift of, 24:30510 (CONF-690521-, pp 759-64)
interactions π + π, decoupling of f° from system of, 24:3638
interactions π + π, degeneracy of Regge trajectories and finite-energy sum rules for, (T), 24:42956
interactions π + π, determination of Regge trajectories in bootstrap model of, 21:40215
interactions π + π, diffraction scattering in model of, 22:50362
interactions π + π, diffractive background to Veneziano model for, 24:52073
interactions π + π, direct-channel pole in Bethe—Salpeter equation for, 23:36921
interactions π + π, dispersion calculation of scattering lengths for, (T), 23:13093
interactions π + π, dispersion relation approach to current-algebra scattering lengths for, 22:15767
interactions π + π, dispersion relations consistency with Wolf phase shifts for forward, 21:42349
interactions π + π, dispersion relations for complex t values from axiomatic field theory for, 21:21229
interactions π + π, dispersion relations for scattering lengths of, (T), 22:17944
interactions π + π, dispersion sum rules from modified amplitude for, 22:44413
interactions π + π, double spectral functions in Mandelstam representation for, 24:3635
interactions π + π, doubled rho trajectory in dual resonance model for positivity of partial widths and s-wave scattering lengths for, (T), 25:40980
interactions π + π, dual amplitudes with unitary symmetry for, 25:43627
interactions π + π, dual model for crossing symmetry in, 24:15548
interactions π + π, dual resonance model with quark spin for, 25:3375
interactions π + π, duality among leading trajectories for finite-energy sum rule predictions for, 25:1523
interactions π + π, duality and sum rules for scattering lengths in, (T), 25:5363
interactions π + π, duality concept for Pomeranchuk term for, 25:3375
interactions π + π, duality for low-energy parameters for Veneziano model for Adler zero in, 24:24348
interactions π + π, duality principle for, 24:30506 (CONF-690521-, pp 648-64)
interactions π + π, dynamic Regge trajectories from multiperipheral model for, 24:18175
interactions π + π, dynamical calculation using finite-energy sum rules and unitarity for I = 1, (T), 23:8802
interactions π + π, e⁺ + e⁻ → π⁺ + π⁻ + γ interactions for studying, (E), 24:37602 (LNF-69/77)
interactions π + π, effect of crossed-channel I = 2 amplitude and threshold unitarity on S-wave scattering lengths for, 23:23461
interactions π + π, effect of KantiK channel on rho exchange in, 21:15329
interactions π + π, effect of secondary Veneziano terms on scattering lengths and resonance widths in, 23: 51925
interactions π + π, effective chiral Lagrangians from current-algebra calculations of off-shell amplitude for, 25:59455
interactions π + π, effective nonlocal potential for, 21: 15336
interactions π + π, effects of peripherally produced N*⁺ states in π⁻ + p → π⁺ + π⁻ + n interactions on phase shifts for, (T), 24:3663
interactions π + π, effects on N + N partial waves in one-boson-exchange model from uncorrelated, 23: 39743 (ITF-69-35)
interactions π + π, effects on scattering length for π° + d → π° + d interactions at very low energies, (T), 25:22843
interactions π + π, elastic unitarity for relation of π electromagnetic form factor with Veneziano amplitude for, (T), 24:45524
interactions π + π, energy behavior of phase shift near sigma resonance in, 21:37792
interactions π + π, equivalant-potential approach to rho bootstrap in, 23:18899
interactions π + π, equivalent potential method for amplitudes of relativistic, 21:17106 (UCRL-17311)
interactions π + π, equivalent potential method for bootstrap calculations of rho parameters from, 22: 11663
interactions π + π, exact basic axiomatic results, absolute limits to amplitude, and positivity and linear constraints on partial waves for, (T), 25:19991
interactions π + π, exact integral equation for physical-region partial-wave amplitudes of, 25:53172
interactions π + π, exact solution of Chew—Mandelstam dispersion relation for, 21:35302
interactions π + π, existence of antibound states from Pade approximants for partial amplitudes of, (T), 25: 22808
interactions π + π, existence of functions exactly satisfying crossing and unitarity subtractions for, (T), 25:30862
interactions π + π, existence of functions that satisfy crossing and unitarity conditions for scattering amplitudes for, 23:10813
interactions π + π, exotic resonances from multiperipheral model for elastic, 25:33707
interactions π + π, experimental determination of S-wave phase shifts from e + e → e + e + π⁺ + π⁻ interactions, 24:3498
interactions π + π, extrapolation problem in current algebra calculations of scattering lengths for, 21:21224
interactions π + π, factorization in Veneziano amplitude with SU(3) breaking for resonance degeneracy in, 23:46711
interactions π + π, feasibility of experiments for, 22: 3266 (CERN-67-30)
interactions π + π, finite energy sum rules and nonlinearly rising Regge trajectories, 23:21172
interactions π + π, finite energy sum rules for Veneziano amplitude of, 25:59450
interactions π + π, finite-energy sum rules and duality of sakaton rearrangement diagrams for, 24:49459
interactions π + π, finite-energy sum rules for, 22: 46420
interactions π + π, finite-energy sum rules for, 23: 44648
interactions π + π, finite-energy sum rules for s- and p-wave scattering lengths for, 24:49476
interactions π + π, fixed cuts in l-plane in partial-wave amplitudes of, 23:5703
interactions π + π, fixed-angle amplitudes in N/D formalism for rho parameters in, 24:49486
interactions π + π, form factors and phase shifts for, 23:51924
interactions π + π, formulation of meson (rho) bootstrap with exact unitarity for, 24:3624 (ITF-69-47)
interactions π + π, formulations of rho bootstrap from, 22:15766
interactions π + π, forward dispersion relations for scattering lengths of, 22:26648
interactions π + π, four-pion coupling constant in SU(6) algebra for, 22:9584
interactions π + π, generalized superconvergence sum rule for total cross sections of, 24:35656
interactions π + π, geometrical restrictions on partial waves for, 21:18986
interactions π + π, ghost states in Veneziano crossing symmetric Regge formula for, 23:49139
interactions π + π, global duality in Reggeized total absorption model as alternative to exchange degeneracy in, (T), 25:1502
interactions π + π, graphical phase-shift analysis from OPE model for π + p interactions, 23:25623
interactions π + π, group theoretic derivation of crossing sum rules for amplitudes of, (T), 25:53175
interactions π + π, γ + p → 2π + p interactions at high energies for determination of phase shifts for, (T), 25:9767
interactions π + π, hard-meson current algebra for, 24: 8699
interactions π + π, hard-pion calculation in chiral SU(2) algebra for T = J = 0 phase shift for, 24:37760
interactions π + π, hard-pion current algebra for I = 0 s-wave phase shifts for, 25:9775
interactions π + π, hard-pion effective-range formula for meson (π) form factor for p-wave phase shift and scattering length for, 23:46716
interactions π + π, helicity coupling constants for amplitudes of, 22:1436
interactions π + π, high-energy contributions to current-algebra sum rules for, 24:3639
interactions π + π, high-energy contributions to current-algebra sum rules for, 23:23465
interactions π + π, I = 0 phase shift from π⁻ + p → n + π⁺ + π⁻ interactions at 1.89 to 3.2 GeV/c, (E/T), 24:30520 (CONF-690521-, pp 27-54)
interactions π + π, I = 1 sum rule and S-wave amplitude for, 23:36918
interactions π + π, I = 2 scattering length and zeros of crossing-even amplitudes for, 24:49483
interactions π + π, in states with I = 2, integral relations between imaginary parts of amplitudes of, 22: 48308
interactions π + π, incompatibility of existence of f(1260) with positive double spectral functions for, 23: 27796
interactions π + π, inelastic unitarity and j-plane singularities in amplitudes for, 23:3853
interactions π + π, inelasticity and uniqueness of amplitude for, 21:29530
interactions π + π, inelasticity effects in N/D calculation of p-wave amplitude of, 23:3717
interactions π + π, inequalities for partial-wave amplitudes of, 24:30507 (CONF-690521-, pp 715-25)
interactions π + π, inequalities on S and P partial-wave amplitudes for, 24:15559
interactions π + π, integral sum rules and inequalities for partial-wave amplitudes of, (T), 25:47855
interactions π + π, interference terms in multiperipheral model for, 25:19998
interactions π + π, internal symmetry in S-matrix formalism for, 21:29532
interactions π + π, internal symmetry in Veneziano model with eta and eta' mixing for, 24:24357
interactions π + π, Islam—Kang model for dynamic calculation of inelasticity for, 21:33691
interactions π + π, isovector form factors from, 22: 9583
interactions π + π, K matrix and Regge poles for rho exchange in, 22:9711
interactions π + π, K-matrix model with crossing symmetry for, 21:29516
interactions π + π, kinematic enhancement of B(1210) meson in, 21:44366
interactions π + π, Kronecker-delta singularities in amplitudes of Pomeranchuk theorem violation in, (T), 25:22791
interactions π + π, Lagrangian in tree approximation for dual amplitudes of, 25:14697
interactions π + π, lectures on nonlinear techniques in S-matrix theory for, (T), 25:20107
interactions π + π, Legendre expansions with coefficients of Stieltjes series for amplitude of, 23: 49151
interactions π + π, Lorentz expansion for Veneziano amplitude of, 23:27795
interactions π + π, low-energy behavior of S-waves in, (T), 23:8800
interactions π + π, low-energy phase shift from π⁺ + d interactions at 2.15 GeV/c, (E), 24:30450 (CONF-690521-, pp 179-216)
interactions π + π, low-energy s-wave ππ phase shifts from analysis of total cross sections for, 24:30517
interactions π + π, low-energy-parameter sum rules from two-variable crossing-symmetric expansion of amplitude of, (T), 25:56484 (ORO-3992-10)
interactions π + π, lower bound on scattering lengths for, 22:44425
interactions π + π, lower bounds on T = 0 and T = 2 s-wave scattering lengths for, 23:49141
interactions π + π, Mandelstam iteration in single-channel, 21:920
interactions π + π, mass and width of rho from, 24: 8590
interactions π + π, meson (phi) and D-wave resonance from coupling constant for, 23:51867(R) (NYO-1984-13)
interactions π + π, method for numerical solution of Low-type equations for, 24:10757
interactions π + π, method satisfying unitarity and using Veneziano model for, 23:30752
interactions π + π, methods for including inelasticity in calculation of p-wave scattering amplitude for, (T), 23: 1638
interactions π + π, model calculations for I = 0 and I = 2 S-wave, 23:32704
interactions π + π, model for analytic, crossing-symmetric amplitudes of, 25:56490
interactions π + π, model for diffractive background of, 24:49481
interactions π + π, model for low-energy S-wave, 23: 3724
interactions π + π, model with analyticity unitarity and crossing symmetry from dispersion relations for s-wave, 23:32712
interactions π + π, model with duality and Regge asymptotic behavior for meson (π) electromagnetic form factor from, 24:12987
interactions π + π, modified Pomeranchuk theorem for relations among total cross sections for, (T), 25:40981
interactions π + π, modified Shirkov equations for, (T), 25:50127 (ORO-3992-60)
interactions π + π, most general SU(2) x SU(2)-invariant Lagrangian for scattering lengths in infinite sigma mass limit for, 25:22806
interactions π + π, multiperipheral mechanism for Pomeranchuk trajectory in model of, 24:37777
interactions π + π, N/D effective-range theory for, 22: 3391
interactions π + π, narrow-resonance model with Regge behavior for, 23:25616
interactions π + π, new representation for amplitude of, 24:13055
interactions π + π, nonevasive Chew—Low extrapolation for, 24:13075
interactions π + π, nonlinear chiral Lagrangian for, (T), 24:43012
interactions π + π, nonlinear functional analysis and numerical computations of S-matrix for dispersion relations for, (T), 25:14699
interactions π + π, nonlinear realization of chiral SU(2) x SU(2) symmetry in curved isospin space for, 23: 27843

interactions $\pi + \pi$, nonlocal field theory of quark model for, 24:49460
interactions $\pi + \pi$, nonparallel daughter trajectories for, 24:40375
interactions $\pi + \pi$, nonresonant contributions to electromagnetic form factors, 21:37740
interactions $\pi + \pi$, off-mass-shell correction in, 21:15327
interactions $\pi + \pi$, off-shell extension of Veneziano amplitude for, 25:3373
interactions $\pi + \pi$, on-shell subtracted dispersion relations and low-energy theorems and sum rules from current algebra for, (T), 25:3368
interactions $\pi + \pi$, one-channel Castillejo-Dalitz-Dyson poles in, 21:918
interactions $\pi + \pi$, OPE model for J = 1, I = 1 amplitude for, 22:11664
interactions $\pi + \pi$, operation of mini-ring for colliding beam, 25:20162
interactions $\pi + \pi$, orbital excitation model for, 25:33705
interactions $\pi + \pi$, P-wave phase shift for, 25:3330
interactions $\pi + \pi$, Pade approximant calculation with sigma model Lagrangian for rho and f°(1260) in p- and d-wave, (T), 25:25413
interactions $\pi + \pi$, Pade approximants for partial-wave amplitudes of, 23:21091
interactions $\pi + \pi$, Pade-approximant calculation of, 22:11662
interactions $\pi + \pi$, parameters and sum rules at symmetry point in, (T), 23:10814
interactions $\pi + \pi$, partial-wave amplitudes for, 23:25617
interactions $\pi + \pi$, PCAC hypothesis for, 21:37773(R) (COO-1428-28)
interactions $\pi + \pi$, peripheral contribution of many-particle states to unitarity condition for, 21:9777
interactions $\pi + \pi$, phase shift analysis for, 23:49216
interactions $\pi + \pi$, phase shift analysis of, 23:15266
interactions $\pi + \pi$, phase shift extraction from $K^+ \to 2\pi^0 + e^+ + \nu$ decay, (T), 22:39387
interactions $\pi + \pi$, phase shift from branching ratio of $K_2^0 \to \pi^+ + \pi^-$ relative to $K_2^0 \to \pi^0 + \pi^0$ decay, 24:30454 (CONF-690521-, pp 337-8)
interactions $\pi + \pi$, phase shift from extrapolation of $\pi + N$ interactions, 23:49137
interactions $\pi + \pi$, phase shift from $K \to \pi + \pi + \nu + e(\mu)$ decay, (T), 22:26615
interactions $\pi + \pi$, phase shift from $K^+ \to \pi^+ + \pi^0 + e^- + \nu$ decay, 25:50055
interactions $\pi + \pi$, phase shift from $\pi^+ + d$, $\pi^+ + p$, and $\pi^- + p$ interactions, (E/T), 24:48216
interactions $\pi + \pi$, phase shift from $\pi^- + p \to \pi^- + \pi^+ + n$ interaction using absorption model, (T), 24:45511
interactions $\pi + \pi$, phase shifts and form factors from $K^+ \to \pi + \pi + e + \nu$, 25:59263
interactions $\pi + \pi$, phase shifts and off-shell dependence from unitarized Veneziano formula, 24:30504 (CONF-690521-, pp 562-618)
interactions $\pi + \pi$, phase shifts and scattering lengths for, 23:42678
interactions $\pi + \pi$, phase shifts for $\pi + N \to \pi + N$ interactions for up—down ambiguity for I = 0 s-wave, (T), 25:50128 (RPP/C-22)
interactions $\pi + \pi$, phase shifts from anti $p + p \to \pi^+ + \pi^- + \pi^0$ interactions, 23:10810
interactions $\pi + \pi$, phase shifts from Chew—Low extrapolation of $\pi^- + p \to p + \pi^- + \pi^0$ interactions at 2.77 GeV/c, (E/T), 24:30449 (CONF-690521-, pp 131-48)
interactions $\pi + \pi$, phase shifts from factorization model from $\pi^- + p \to \pi^+ + \pi^- + n$ interactions, 24:8639
interactions $\pi + \pi$, phase shifts from $K \to \pi + \pi + l + \nu$ decay, (T), 22:44400
interactions $\pi + \pi$, phase shifts from $K^0 \to 2\pi$ and $K^+ \to \pi^+ + \pi^- + e^+ + \nu$ decays, (E/T), 24:30434 (CONF-690521-, pp 413-38)
interactions $\pi + \pi$, phase shifts from $\pi^- + p \to \pi + \pi + N$ interactions at 2.77 GeV/c, (E/T), 25:9670
interactions $\pi + \pi$, phase shifts from strong interactions and $K \to 2\pi$ decays for, 22:7479
interactions $\pi + \pi$, phase shifts in 1.0 to 1.2 GeV region from $\pi + p$ and $\pi + d$ interactions at 7 GeV/c, (E/T), 24:30521 (CONF-690521-, pp 75-92)
interactions $\pi + \pi$, phase-contour method for, 24:37771
interactions $\pi + \pi$, phenomenological approach for, 22:3396
interactions $\pi + \pi$, phenomenological Lagrangian method for chiral SU(2) x SU(2) for Adler—Weisberger and Goldberger—Treiman relations and Adler consistency theorems for, 23:46717
interactions $\pi + \pi$, physical-region constraints on low-energy partial-wave amplitudes for, 25:1510
interactions $\pi + \pi$, pole-dominance method for calculating amplitudes of, 23:5614
interactions $\pi + \pi$, Pomeranchon slope for amplitude of elastic, 22:1515
interactions $\pi + \pi$, Pomeranchuk terms in amplitude for, 25:47847
interactions $\pi + \pi$, Pomeranchuk theorem and isospin invariance for Pomeranchuk—Okun rule for total cross sections of, 24:26441
interactions $\pi + \pi$, Pomeranchuk theorem for partial-wave amplitudes for, 22:50388
interactions $\pi + \pi$, positivity conditions for Veneziano formulas for elastic, 23:18892
interactions $\pi + \pi$, positivity constraints on partial waves for, 25:7639
interactions $\pi + \pi$, predictions of multiperipheral model for, (T), 24:40377
interactions $\pi + \pi$, properties of class of orthogonal polynomials for inequalities for partial waves of, (T), 25:30851 (SU-1206-240)
interactions $\pi + \pi$, properties of residues in Veneziano model for amplitudes of, (T), 25:40965
interactions $\pi + \pi$, π and N form factors from multiple quark analysis of consistency relations among diffractions cross sections for, (T), 22:32116
interactions $\pi + \pi$, π electromagnetic form factor contributions from inelastic, (T), 25:14597
interactions $\pi + \pi$, $\pi\pi\pi$N anti N five-point function for, (T), 24:45521
interactions $\pi + \pi$, Regge pole exchanges in continuous-moment sum rules for, (T), 25:43636
interactions $\pi + \pi$, Regge pole representation for rho exchange in, 21:4042
interactions $\pi + \pi$, Regge pole theory for, 21:29527
interactions $\pi + \pi$, Regge singularity as dual partner for Pomeranchukon for, 24:18181
interactions $\pi + \pi$, Regge trajectory of external particle from bootstrap constraints on, 22:37133
interactions $\pi + \pi$, Regge-cut contributions to forward amplitudes of, 22:32137
interactions $\pi + \pi$, Regge-pole inelasticity functions for, 23:42659
interactions $\pi + \pi$, Regge-pole—resonance interference model and particle exchange potentials for, 23:7138
interactions $\pi + \pi$, Reggeized bootstrap scheme for amplitudes of, 22:39378
interactions $\pi + \pi$, Reggeized bootstraps for, 21:18980
interactions $\pi + \pi$, relation between multi-Regge model and pion-exchange multiperipheral model for, 24:45605
interactions $\pi + \pi$, relation between Toller and Froissart—Gribov amplitudes for, 24:18294
interactions $\pi + \pi$, relation of Stieltjes series to partial-wave amplitude of, 24:15565
interactions $\pi + \pi$, relations among asymptotic behavior of form factors, inelasticities, and amplitudes of, 21:42352
interactions $\pi + \pi$, repulsive potential for resonance production from, 22:15762
interactions $\pi + \pi$, resonance solutions for higher partial waves in, 21:44353
interactions $\pi + \pi$, resonant structure in S-wave amplitudes of, 25:56492
interactions $\pi + \pi$, restriction from crossing symmetry and unitarity on amplitudes for, 25:9784
interactions $\pi + \pi$, review of analytic extrapolations and phase shifts for, (T), 25:30868
interactions $\pi + \pi$, review of asymptotic symmetry for sum rules for, 24:43004
interactions $\pi + \pi$, review of cross sections and scattering lengths for, (E), 25:47751
interactions $\pi + \pi$, review of crossing and positivity properties of s and p partial waves for amplitudes of, 25:43711 (SU-1206-243)
interactions $\pi + \pi$, review of dual dispersion relations in bootstrap method for, 22:9582
interactions $\pi + \pi$, review of phase shifts for, 21:37795
interactions $\pi + \pi$, review of Veneziano model relation with chiral symmetry in, (T), 24:43061
interactions $\pi + \pi$, review of, (E/T), 25:17483
interactions $\pi + \pi$, review on, 22:39390
interactions $\pi + \pi$, rho bootstrap from generalized potential in N/D formalism for, 23:25612
interactions $\pi + \pi$, rho bootstrap in unitarized strip approximation for, 23:18896
interactions $\pi + \pi$, rho contribution in cross channels to π electromagnetic form factor, 24:24345
interactions $\pi + \pi$, rho coupling constant from, (T), 22:15719
interactions $\pi + \pi$, rho exchange and current agebra for, (T), 24:45528
interactions $\pi + \pi$, rho resonance width from strip approximation with short range potential for, 22:52980
interactions $\pi + \pi$, rho trajectory coupling and spin of g(1650) from sum rule for, 23:32703
interactions $\pi + \pi$, rho-exchange and continuation in angular momentum of amplitude for, 22:29696
interactions $\pi + \pi$, rigorous inequalities on derivatives of S- and P-wave amplitudes of, 24:37775
interactions $\pi + \pi$, rising phase shifts through $\pi/2$ for T = 0, s-wave, (T), 21:923
interactions $\pi + \pi$, rotation invariance in structure of cross sections for S-wave, 24:40363 (COO-1428-174)
interactions $\pi + \pi$, s-channel helicity conservation constraints on t-channel exchanges in, (T), 25:28028 (SU-1206-242)
interactions $\pi + \pi$, S-matrix calculation of amplitudes for, 23:18897
interactions $\pi + \pi$, S-matrix for Lagrangian in chiral SU(2) x SU(2) for, 24:3626
interactions $\pi + \pi$, S-matrix theory of, 23:44647
interactions $\pi + \pi$, s-wave amplitudes from $\pi^- + p \to \pi^- + \pi^+ + n$ interactions, 22:5564
interactions $\pi + \pi$, S-wave cross section structure for, 25:25414
interactions $\pi + \pi$, s-wave phase shift from eta $\to \pi^+ + \pi^- + \pi^0$ decay, (E), 23:3634
interactions $\pi + \pi$, S-wave phase shift from $\pi^- + p \to \pi^0 + \pi^0 + n$ interactions at 378 MeV in isobar model, 25:3392
interactions $\pi + \pi$, S-wave phase shift in model of SU(3) x SU(3) symmetry breaking, 25:59550
interactions $\pi + \pi$, S-wave phase shifts from analytic continuation of P-wave for, 23:42653
interactions $\pi + \pi$, s-wave phase shifts from current algebra and PCAC, 24:8637
interactions $\pi + \pi$, s-wave phase shifts in rho region from, (T), 21:21228
interactions $\pi + \pi$, S-wave scattering length from $\pi^- + p \to \pi^0 + \pi^0 + n$ interactions at 378 MeV for, (E), 25:9668
interactions $\pi + \pi$, S-wave scattering lengths for, 21:15326
interactions $\pi + \pi$, s-wave scattering lengths from sum rules at symmetry point for, 22:37145
interactions $\pi + \pi$, S-wave scattering lengths in linear realizations of chiral SU(2) x SU(2), 24:37831
interactions $\pi + \pi$, satellite terms in Veneziano model for, 24:37770
interactions $\pi + \pi$, saturation problem for sum rule for scalar and pseudoscalar spectral functions for, 21:37784
interactions $\pi + \pi$, scattering length determination from branching ratio relations and spectra from $K \to 3\pi$ decays, (E/T), 23:49099
interactions $\pi + \pi$, scattering length for complex angular momenta in, (T), 22:32131
interactions $\pi + \pi$, scattering length for, (E), 23:7100
interactions $\pi + \pi$, scattering length from chiral Lagrangian for, 25:22796
interactions $\pi + \pi$, scattering length from $K \to 3\pi$ decay, (T), 25:40956
interactions $\pi + \pi$, scattering length sum rules from low-energy theorem, 23:18884
interactions $\pi + \pi$, scattering lengths and low-energy phase shifts from forward dispersion relations, 23:27798
interactions $\pi + \pi$, scattering lengths and phase shifts for, 25:30856
interactions $\pi + \pi$, scattering lengths and sigma mass and width from, (T), 21:21226
interactions $\pi + \pi$, scattering lengths and sum rules from dilatation and special Liouville currents and chiral current algebra for, 24:13067
interactions $\pi + \pi$, scattering lengths for, (T), 22:5570
interactions $\pi + \pi$, scattering lengths from broken chiral and conformal symmetry, 25:14770
interactions $\pi + \pi$, scattering lengths from chiral invariant Lagrangian with massive gauge fields for, 25:59449
interactions $\pi + \pi$, scattering lengths from current algebra and Veneziano representation, 25:47851
interactions $\pi + \pi$, scattering lengths in current algebra for, 23:10816
interactions $\pi + \pi$, scattering lengths in I = 0 and I = 2 states for, (T), 21:40212
interactions $\pi + \pi$, scattering lengths in Veneziano formula for, 23:39718
interactions $\pi + \pi$, scattering phase shifts from $\pi^- + p \to \pi + \pi + N$ interactions, (T), 23:3711 (NYO-2171-250)
interactions $\pi + \pi$, shift in Pomeranchuk intercept due to electromagnetism in, 22:32134
interactions $\pi + \pi$, sign of S = T = 0 phase shift from $\pi^- + N \to \pi^+ + \pi^- + N^0$, 23:49144
interactions $\pi + \pi$, smoothed Veneziano model for, 25:36499
interactions $\pi + \pi$, soft-pion calculation of scattering length for, 23:36927
interactions $\pi + \pi$, soft-pion theorem for, 23:46777
interactions $\pi + \pi$, stability test for equivalent-potential method up to first order for p-wave, (T), 25:7643
interactions $\pi + \pi$, strip approximation in bootstrap calculations of, compatibility with Regge residue functions, 21:33697
interactions $\pi + \pi$, SU(2) x SU(2) chiral symmetry breaking for scattering lengths of, 22:20305
interactions $\pi + \pi$, SU(2) x SU(2), SU(3) x SU(3), and PCAC hypothesis breakdowns in chiral current algebra for, (T), 24:52170
interactions $\pi + \pi$, SU(3) approximation and chiral SU(3) x SU(3) algebra for S-wave scattering length, 23:23514
interactions $\pi + \pi$, subtracted dispersion relations in external mass and energy for amplitudes of, 21:37788
interactions $\pi + \pi$, sum of finite-energy sum rules for Veneziano amplitude of, (T), 24:47435
interactions $\pi + \pi$, sum rule for four-pion coupling constant from current algebra for, 21:17111
interactions $\pi + \pi$, sum rule for off-mass amplitudes in, 21:11768 (INP-496/PL)
interactions $\pi + \pi$, sum rule from asymptotic symmetry for, 24:13073
interactions $\pi + \pi$, sum rule from forward dispersion relations for, 22:3393
interactions $\pi + \pi$, sum rules and I = 0, J = 4 dipion resonance production in, 22:34974
interactions $\pi + \pi$, sum rules and relations between coupling parameters for $\pi + N$ and, 21:46527
interactions $\pi + \pi$, sum rules and threshold behavior of, (T), 23:15087 (UCRL-18664)
interactions $\pi + \pi$, sum rules for, 21:919
interactions $\pi + \pi$, sum rules for determining p- and s-wave scattering lengths for, 21:4043
interactions $\pi + \pi$, sum rules for partial-wave amplitudes of, 25:28024 (NP-18766)
interactions $\pi + \pi$, sum rules from commutation relations of field algebra for, 23:46708
interactions $\pi + \pi$, sum rules from crossing symmetry for partial-wave amplitudes of, 24:3646
interactions $\pi + \pi$, sum rules from dispersion relations for, 22:1432
interactions $\pi + \pi$, superconvergence relations for constructing amplitude for, 23:15100
interactions $\pi + \pi$, superconvergence sum rules for combination of elastic $\pi + N$, $\pi + K$, $K + N$, and, 22:48297
interactions $\pi + \pi$, superconvergent amplitudes for, 25:33720
interactions $\pi + \pi$, superconvergent sum rules for scattering amplitudes for, 23:44653
interactions $\pi + \pi$, symmetry-breaking effect on p-wave resonances in, (T), 25:5394
interactions $\pi + \pi$, T = 0 and T = 2 scattering lengths for, 22:15769
interactions $\pi + \pi$, threshold behavior of partial-wave dispersion relations for, 23:7187
interactions $\pi + \pi$, threshold phenomena and widths and positions of resonances in model for, (T), 24:24358
interactions $\pi + \pi$, total cross section and diffraction width for, 21:42354

interactions π + π, two-loop approximations to propagators in sigma model for unitary amplitude of, (T), 25:14683 (NYO-2262-TA-219)
interactions π + π, two-parameter effective-range formula for scalar form factor of, 25:9777
interactions π + π, unified formulation of effective nonlinear chiral SU(2) x SU(2)-invariant Lagrangian for scattering lengths of, 24:6739
interactions π + π, unified treatment of quantization conditions, particle stability, and Pomeranchuk singularity for unitarity in integral over Veneziano amplitude for inelastic, 23:52014
interactions π + π, unique set of I = 0, S-wave phase shift for, 24:13050
interactions π + π, unitarity corrections for current-algebra calculations of s-wave, 22:11659
interactions π + π, unitarity corrections to current algebra calculations on scattering lengths of, 21:37798
interactions π + π, unitarity for contribution to K → 2πγ, 22:15743
interactions π + π, unitarity for threshold sum rules for partial-wave amplitude of, (T), 25:22797
interactions π + π, unitarity in crossing-symmetric model for, 25:22813
interactions π + π, unitarity in dual models for, 24:52082
interactions π + π, unitarity in dynamical finite-energy sum rule calculations for sigma production in, 23:30750
interactions π + π, unitarity sum rule in Veneziano model for, 25:59462
interactions π + π, unitarization of I = 1 Veneziano amplitude for, 25:47856
interactions π + π, unitarized model with CDD poles for P-wave amplitudes of, 25:28032
interactions π + π, unitarized Veneziano amplitudes satisfying Adler consistency conditions for s-wave scattering lengths and mass and width of 2⁺ resonance and mass and partial width of meson (f) in, 24:13058
interactions π + π, unitarized Veneziano model with satellites for, 24:49461
interactions π + π, upper bound on amplitude for, 24:45614
interactions π + π, upper bounds on coupling parameter for, (T), 23:3713
interactions π + π, upper bounds to averaged total cross sections for, (T), 24:45520
interactions π + π, use of chiral-invariant Lagrangian for closed-loop calculations of, 25:1506
interactions π + π, use of current algebra and dispersion theory for scattering lengths of, 23:7140
interactions π + π, use of current algebra and unitarity condition for phase shifts for, 22:15777
interactions π + π, use of current algebra, crossing symmetry, and unitarity for s-wave, 22:50384
interactions π + π, use of current-algebra relations with extrapolation in energy and mass for scattering lengths of, 21:37788
interactions π + π, use of dispersion sum rules for S-wave scattering length for, 22:46402
interactions π + π, use of Mandelstam iteration in bootstrap calculation of, 25:33715
interactions π + π, use of π + N → π + π + N amplitudes in current algebra predictions for, 22:29695
interactions π + π, use of subtracted dispersion relations for S-wave phase shifts for, 22:22386
interactions π + π, vector and spinor current algebra and N/D method for, 22:15775
interactions π + π, vector—axial vector coupling constant ratio from Adler sum rule for, 21:29525
interactions π + π, vector-meson dominance and SU(3) symmetry for, 21:37787
interactions π + π, Veneziano amplitude for duality in internal space—time structure of, (T), 24:52081
interactions π + π, Veneziano amplitude for interference model for resonances in, (T), 25:14692
interactions π + π, Veneziano model and chiral symmetry breaking for, 25:1522
interactions π + π, Veneziano model for, 23:34598
interactions π + π, Veneziano model for amplitude of, 23:42657
interactions π + π, Veneziano model for current algebra sum rules for, 23:25604
interactions π + π, Veneziano model results from isobaric model for scattering lengths of, 24:3642
interactions π + π, Veneziano model with Regge trajectory assumptions for S-wave scattering lengths and effective range parameters and P-wave scattering lengths for, 24:5290 (NYO-2262-TA-211)
interactions π + π, Veneziano model with secondary terms for, 24:24350
interactions π + π, Veneziano representation with Pomeranchuk trajectory for amplitude of, 23:36917
interactions π + π, Veneziano-type amplitudes and S-wave scattering lengths for, (T), 23:13091
interactions π + π, Veneziano-type formula from superconvergence relations for amplitudes of, 24:8633
interactions π + π, Virasoro amplitudes for, 24:15558
interactions π + π, Wolf phase shifts for, 21:29525
interactions π + π, Yang—Mills theory for amplitudes of, 25:33697
interactions π + π, zeros in amplitudes for, 25:36498
interactions π + rho → anti p + p, amplitudes for, (T), 21:4052
interactions π + rho → Δ + anti N, kinematic constraints on helicity amplitudes for, 23:42761
interactions π + rho → e + e⁺ + π⁰, ω → π⁰ + γ decay width from amplitudes for, 21:35280
interactions π + rho → K_1^0 + K_1^0, theory of eigenphase shifts for single-peaked A_1 resonance in, 23:32717
interactions π + rho → N + anti N, conspiracy equations for, 22:20222 (INP-555/PH, pp 107-14)
interactions π + rho → N + anti N, equal-mass conspiracy relations as limit of relations among helicity amplitudes for, 22:50383
interactions π + rho → N + anti N, kinematic constraints on helicity amplitudes for, 23:42761
interactions π + rho → N + anti N, multichannel N/D equations for bound-state mass of π in, (T), 25:12202
interactions π + rho → π + f, superconvergence relations for, 23:1636
interactions π + rho → π + rho in Regge pole theory, 22:20353
interactions π + rho → π + rho, (π⁺ - π⁰) mass difference from Veneziano amplitude for, (T), 24:40382
interactions π + rho → π + rho, I = 0 current-algebra and superconvergence sum rules for, 22:32140
interactions π + rho → π + rho, saturation of superconvergent sum rules for, 21:42344
interactions π + rho → π + rho, six-point Veneziano model for amplitude of, (T), 25:22792
interactions π + rho → π + rho, theory of eigenphase shifts for double-peaked A_1 resonance in, 23:32717
interactions π + rho → π + rho, Veneziano model for amplitudes, sum rules, and parity doubling in, 24:13063
interactions π + rho → π + rho, Veneziano model with natural and unnatural parity dominance of Regge trajectories for, 24:3668
interactions π + rho → rho + ω, superconvergence in, (E), 22:15771
interactions π + rho at high energies, impact factor representation for amplitudes of elastic, 24:26426
interactions π + rho in current algebra, A_1 width and A_1rhoπ coupling constant from, 24:52076
interactions π + rho in Veneziano model, π trajectory in, 24:26429
interactions π + rho, A_1 and A_2 contributions to superconvergence sum rules for, 21:27361
interactions π + rho, Bjorken limit and pole dominance for, 23:3719
interactions π + rho, chiral symmetry for superconvergent sum rules for, 22:22434
interactions π + rho, coupling constant and rho mass relation with fundamental constant of PCAC for, 21:42346
interactions π + rho, current-algebra constraints on, 22:37141
interactions π + rho, decoupling of phi from system of, 24:3638
interactions π + rho, dispersion sum rules for, 21:42362
interactions π + rho, finite-energy sum rules for, 22:46420
interactions π + rho, finite-energy sum rules for, 23:44648
interactions π + rho, formulation of relativistic quark field theory for relation with π weak decay constant, 22:29743 (DESY-68/11)
interactions π + rho, generalized Veneziano model for dual amplitudes for, 24:13065
interactions π + rho, helicity coupling constants for amplitudes of, 22:1436
interactions π + rho, high-energy contribution to current-algebra sum rules for, 24:3639
interactions π + rho, Kawarabayashi—Suzuki—Fayyazuddin—Riazuddin relation for A_1 mass in, (T), 22:20214
interactions π + rho, nonforward superconvergence relations for, 21:29529
interactions π + rho, O(4) expansion of Bethe—Salpeter amplitude for, 23:25619
interactions π + rho, parity constraints and factorization in Veneziano model for elastic, 23:39729
interactions π + rho, saturation of superconvergence relations and current algebra sum rules for forward amplitudes from, 21:31588
interactions π + rho, sum rules from quark model and field algebra for, 24:47438
interactions π + rho, superconvergence relations for, 21:42286
interactions π + rho, Veneziano model for amplitude of, 23:32723
interactions π + sigma → π + π + π, axial-vector-current three-pion amplitude from five-point functions for, 24:30514
interactions π + sigma, equal-time commutation relations in renormalizable field theories in perturbation theory for, 23:39719
interactions π + sigma, equal-time commutators of nonconserved currents in renormalizable field theories for, 22:46398 (DESY-68/37)
interactions π + sigma, PCAC and Veneziano model for relation of amplitudes for elastic and inelastic, 23:30748
interactions π + Σ → π + Σ, dispersion sum rules for amplitude linear combinations with π + N → π + N amplitudes, (T), 24:52094
interactions π + Σ → π + Σ, SU(3) x SU(3) chiral Lagrangian model for total cross sections and scattering lengths for, (T), 25:14703 (TID-25639)
interactions π + Σ → π + Σ, SU(3) x SU(3) chiral Lagrangian model for total cross sections of (T), 25:28037
interactions π + Σ and π + Λ, πΛΣ coupling constant from sum rule for, 25:45752
interactions π + Σ in multichannel case, current algebra calculation of scattering lengths for, 22:46452
interactions π + Σ, algebra of current divergences for, 23:21114
interactions π + Σ, consistency conditions from duality for, 25:9792
interactions π + Σ, dispersion relation calculation of scattering lengths for, 23:32746
interactions π + Σ, new resonances in, 23:15117
interactions π + Σ, rho dominance and sum rules for, 24:20161
interactions π + Σ, scattering length and low-energy behavior from K-matrix analysis of K⁻ + p interactions, 23:46725
interactions π + Σ, scattering lengths for, (E/T), 22:32168
interactions π + Σ, sum rule for, 21:29560
interactions π + Σ, superconvergence relations for, 22:37131
interactions π + Σ, superconvergence sum rules for, 21:37791
interactions π + Σ, Σ(1385)Σπ coupling from superconvergence sum rules for, 23:32728
interactions π + Σ, universality of rho coupling in sum rules for, 23:21119
interactions π + Σ, vector dominance sum rules for, 22:52981
interactions π + t, Feynman diagram technique with rescattering corrections for formulas for amplitudes of, 23:51958
interactions π + Ξ → π + Ξ, dispersion sum rules for invariant amplitudes of, (T), 24:52094
interactions π + Ξ in current algebra, unitarity corrections for, 23:42670
interactions π + Ξ, dispersion relation calculation of scattering lengths for, 23:32746
interactions π + Ξ, factorization principle for construction of superconvergence sum rule for, 22:50394
interactions π + Ξ, rho dominance and sum rules for, 24:20161
interactions π + Ξ, sum rule for, 21:29560
interactions π + Ξ, universality of rho coupling in sum rules for, 23:21119
interactions π + Ξ*, axial-vector coupling-constant renormalization for, 21:9765
interactions π + Y below anti K + N threshold in K⁻ + d → Λ(Σ⁰) + π⁻ + p and K⁻ + d → Σ⁺(Σ⁻) + π⁻(π⁺) + n interactions at 400 MeV/c in bubble chamber, partial-wave amplitudes of, (E), 25:25321
interactions π + Y, U(6,6) symmetry for superconvergent sum rules for, 22:3430
interactions π + Y*, U(6,6) symmetry for superconvergent sum rules for, 22:3430
interactions π* + π → π + π (π* = pionlike particle), amplitude for π* inverse production in, 24:13072
interactions π⁻ + p → K⁺ + Σ⁻, contribution of Regge branch points to amplitude of, 22:20263
interactions π⁺ + p → n + neutrals at 1.52 GeV/c, counter study of upper limits for S⁰ production from, (E), 21:27313
interactions π⁻ + p → p + π⁺ + π⁻ + π⁻ at 2.7 to 20 GeV/c, energy dependence of cross section for 3π production in, (E), 24:49343
interactions π⁻ + p → π⁰ + π⁻ + p at 2.7 and 4.2 GeV/c, πππ s-wave elastic scattering phase shifts from, (E), 22:24562
interactions π⁺ + p → π⁺ + π⁺ + n at high energies, model for single π production from, 21:19023
interactions π⁻ + p → Σ⁰ + K⁰ near threshold, phenomenological model for, 22:13762
interactions πN* → rhoN*, mechanisms for Regge recurrences of inelastic resonances in, 21:19000
interactions ππN → ππN, extended one-pion-exchange model S-matrix theory for multiparticle amplitude of, 22:24669
interactions rho + π → rho + π, (T), 25:14695
interactions rho + π → rho + π, chiral SU(2) x SU(2) Lagrangian for, 25:9781
interactions rho + π → rho + π, partial-wave analysis and asymptotic behavior of amplitudes for, 22:52976
interactions rho + π → rho + π, spin structure of multiple, (T), 24:47446
interactions rho + π, dispersion calculation of scattering amplitude and form factor for, 25:30865
interactions rho + π, dispersion theory and hard-pion current algebra for, 23:23463
interactions rho + π, model for saturation of superconvergent sum rules for, 22:7496
interactions rho + π, saturation of superconvergent sum rules for, 22:34956
interactions rho + π, solutions to Bethe—Salpeter equation for, 23:13094
interactions rho + π, sum rules for forward, 21:42343
interactions rho + π, superconvergence relations for, 22:37131
interactions rho + π, superconvergence sum rules for elastic, 21:44363
interactions rho + π, two-body Bethe—Salpeter amplitude for ω bound state of, 25:30858
interactions sigma + π → 3π, bootstrap of π and rho trajectories from Veneziano amplitude for, 24:15556
interactions with 3⁺ and 3⁻ bosons, constraints on angular momentum of t-channel exchanges from s-channel helicity conservation in elastic, (T), 25:33694 (SU-1206-248)
interactions with A_1 and rho, effective Lagrangian for chiral dynamics of, (T), 25:1524
interactions with arbitrary target, rho-dominance, current algebra, and Veneziano model for rho width and s-wave scattering lengths for, (T), 24:51991
interactions with atmospheric nuclei in extensive air showers, (T), 25:27476
interactions with atmospheric nuclei of cosmic, (T), 22:2844
interactions with baryons, axial-vector coupling constant renormalization for, 21:9785
interactions with baryons, baryon hypercharge for constants of, (T), 25:33770
interactions with baryons, baryon mass formulas from static bootstrap model of, 22:52986
interactions with baryons, degeneracy of baryon resonance trajectories from Veneziano model and duality for, 24:1589
interactions with baryons, dispersion sum rules for backward, (T), 23:13096
interactions with baryons, PCAC hypothesis for, 21:37773(R) (COO-1428-28)
interactions with baryons, Regge-pole analysis of vector meson production in, 22:5589

interactions with baryons, review of dispersion sum rules for, 22:11644 (ITF-67-13)
interactions with baryons, S-matrix formulation of current algebra for elastic, 23:39682
interactions with baryons, saturation by low-lying resonances of superconvergence relations for, 23:15117
interactions with baryons, spectral representation of amplitude-like quantities for, 22:34979 (ITF-68-1)
interactions with baryons, static bootstrap model for, 23:23475
interactions with baryons, strong-coupling theory and Lie groups for isobaric states in, 21:25304
interactions with baryons, superconvergence sum rule for, 21:9791
interactions with baryons, use of noninvariance groups for deriving sum rules for p-wave, 22:5581
interactions with carbon at 0.25 to 2 GeV/c, cross sections for, (E), 24:52445
interactions with cosmic nucleons at high energies, lower limit for transverse momentum and four-momentum transfer for recoil protons from, (E), 21:37700 (INR-793/VI/PH)
interactions with electromagnetic field, Segal quantum field theory for, 21:21301
interactions with elementary particles, solution of Chew—Low-type equation for two-body, 22:5572
interactions with fixed nucleon source, model of coupling constant renormalization for, 25:1547
interactions with gravitons, Lorentz- and gauge-invariant S-matrix elements for, 25:25514
interactions with hadrons, quantization condition for linear and nonlinear trajectories for, 23:39687 (RLO-1388-554)
interactions with hadrons, quantization conditions for Regge intercepts and hadron masses from, 23:8858
interactions with hadrons, SO(3,1) x SO(4,3) group for vertex functions for, 25:1491
interactions with hadrons, structure of current algebra and superconvergence sum rules for, 21:42364
interactions with hadrons, sum rules for strong, 22:15758
interactions with heavy boson resonances, chains of resonance production from, (T), 21:2461
interactions with helium-3 and tritium, cross-section calculations using Glauber theory, (T), 25:9967 (JINR-P2-5335)
interactions with matter at high energies, method for estimation of primary energy from shower parameters, (T), 22:34892
interactions with mesons (π), scattering amplitudes for, (T), 21:12027(R) (UCRL-50001-66-2)
interactions with mesons in Veneziano model, factorization of Regge residues for, 25:7641
interactions with nuclei, properties of optical potential for, (T), 25:31421
interactions with nuclei, review of research on, 24:52690
interactions with nuclei, soft pion theorem for, 24:52700
interactions with nuclei, survey of research on, 25:56873
interactions with nucleon isobars, mechanisms for Regge recurrences of inelastic resonances in, 21:19000
interactions with nucleons at 100 to 1000 BeV, strong, (E/T), 22:2836
interactions with nucleons, sum rules in perturbation theory for, 21:29534 (DESY-67/11)
interactions with pseudoscalar mesons, parity constraints and factorization in Veneziano model for elastic and meson (π) and vector meson production in, 23:39729
interactions with π + N, sum rules for, 21:919
interactions with spin-$^1/_2$ baryons, soft-pion theorems and finite-energy sum rules for, 22:37148
interactions with totality of G = 1 states lying on unsignatured rho trajectory and daughters, chiral symmetry for linear trajectories in forward amplitudes of elastic, 23:42654
interactions with totality of mass states lying on unsignatured π trajectory and daughters, chiral symmetry for linear trajectories in forward amplitudes of elastic, 23:42654
interactions with vector currents and axial-vector currents, sigma model without nucleons for current algebra identity for amplitudes of, 24:12992
interactions with vector mesons, Veneziano model for, 25:19997
interactions with vector mesons, Veneziano-type vertex function for meson (π) electromagnetic form factor from meson (π) and scalar meson production in, 24:12978
interactions X + π → eta + π, X^0 width from Veneziano amplitude for, 23:34590
interactions X^0 + π → X^0 + π, crossing-symmetric Regge-pole model for, 24:28546
interference in K^- + d → anti K^0 + π^- + d(p + n) and K^- + d → anti K^0 + π^- + MM(π^+ + d) interactions at 4.5 GeV/c in deuterium bubble chamber, vector, (E), 24:15479
isospin space for, nonlinear realization of chiral SU(2) x SU(2) symmetry in curved, 23:27843
Lagrangian for, closed-loop calculations using chiral-invariant, 25:33712
Lagrangian for, perturbation theory of chiral-invariant, 25:33711
Lagrangian model for, PCAC in nonlinear conformal and chiral, 25:53272
lifetime of charged, validity of special relativity at small distances from velocity dependence of, 22:35084
lifetime of free, bibliography of experimental measurements of, 22:7429 (LA-3780)
lifetime of, Goldberger—Treiman calculation with anti NN, rho π, and sigma π intermediate states for sum rule from, (T), 25:22804
lifetime of, spectral function sum rules for, 22:32098
lifetime of, unsubtracted dispersion relations and rho π and sigma π intermediate states for, 24:13051
lifetime, wave function, and π—rho mass splitting from quark model, 21:44364
low-energy theorem for, equal-time commutators and sum rules for, 24:15567
mass and structure of, relation between, 22:15698
mass density of, (T), 21:37641
mass difference (K - π) effects on K → 3π decay, 22:48282
mass difference corrections to branching ratios for K → 3π decays, 22:20190
mass difference effects on ΔT = 1/2 violation in K^+ → 3π and K^0 → 3π decays, (T), 22:44385 (IFVE-STF-68-2-K)
mass difference effects on π exchange in N + N interactions, (T), 25:20021
mass difference from n-point functions of vector and axial-vector current, electromagnetic, 24:37670
mass difference from SU(2) current algebra and quark model, 21:15382
mass difference of zero-mass, fourth-order contribution to electromagnetic, 24:37715
mass difference of, effect on N + N interactions, 24:24396
mass difference of, effect on phase parameters for N + N interactions, 24:40424
mass difference of, effects of finite rho width on electromagnetic, (T), 25:36442
mass difference of, form factor for electromagnetic, (T), 24:52023
mass difference, SU(2) x SU(2) chiral dynamics for, 22:29736
mass differences in Lagrangian model, commutators of SU(2) chiral algebra for electromagnetic, 23:18859
mass differences of zero-mass, logarithmic divergence in field algebra for fourth-order electromagnetic, 24:10699 (NYO-2262-TA-198(Rev.))
mass distributions from anti p + p → 3π^+ + 3π^- + π^0 interactions at 2.5 GeV/c, fits to effective, 23:30701
mass extrapolations for PCAC hypothesis, 23:42644
mass form factor from stress-tensor—current commutation relations, low-energy behavior of, 25:33717
mass from V—A interaction in semirelativistic quark model, 25:45734
mass in broken SU(3) x SU(3), chiral Lagrangian for, 23:46772 (NP-18008)
mass in particle theory with reduction of number of basic constants by using pseudoscalar parameters, 22:17880
mass in renormalization theory, quadratic divergence of, 25:56564
mass measurement from x-ray transitions in π-mesic calcium and titanium, (E), 22:5492
mass of bound-state, in π + rho → anti N + N and anti N + N → π + rho interactions, multichannel N/D equations for, (T), 25:12202
mass of, chiral SU(3) x SU(3) algebra and approximate SU(2) x SU(2) symmetry for sum rules and ratios for, 24:3726
mass of, dispersion sum rules for symmetry-breaking parameter in strong-interaction Hamiltonian for, (T), 24:47491
mass of, effects on π + N amplitude from continuation in, 22:20250
mass of, gauge field in source theory for electromagnetic, 22:15730
mass of, incompatibility of SU(2) x SU(2) chiral symmetry with nonzero, 22:39453
mass of, linear trajectory for limit of vanishing, (T), 25:1639 (AD-705548)
mass of, PCAC hypothesis consistency with unitarity in sigma model for dependence of amplitudes on, (T), 25:5367
mass of, two-point function with positive mass distribution in nonlinear spinor theory for, 23:32705
mass of, unified corpuscular field for, (T), 23:36915
mass of, unitarization of Veneziano model for π^+ + π^- interactions for, 23:51926
mass of, universal vector and axial-vector theory for π/rho mass ratio for, 22:9613
mass ratio π/μ from classical electron model, 25:47852
mass spectra in π^+ + p → f^0 + Δ^{++} interactions at 13.1 GeV/c in hydrogen bubble chamber, dipion, (E), 25:17400
mass splitting (K - π), nontadpole contribution to, 25:30791
mass splitting (π—rho) in quark models, 22:11655
masses of, use of spectra of mesic atoms for determining, 21:25263
massless states of, extension of Goldstone theorem to chiral SU(2) x SU(2) and SU(3) x SU(3) for triplet of, 24:26494
meson (rho) width effects on π—A_1—rho system, unitarity and vector meson dominance for hard-pion effective-range formula for, 24:20146
mixing of eta—π, theory of, 25:45703
model as intermediate boson for weak interactions, 23:15052
model for, absence of tachyons in dual, 25:40991
model for, Dirac particle and antiparticle bound in $^1S_0$ state as, 21:27366
model for, dual resonance, 25:47850
model of, Goldberger—Freiman relation for composite, 22:34878
model with nucleons for empirical regularities in spectra of small-mass baryons, 24:28548 (JINR-P2-4987)
models for, phenomenological current algebra vertex for relation of Gilman—Harari with hard-pion, 24:45495
momentum distribution from N^0 → π + N and N^0 → π + N^0 decays from p + p interactions, transverse, 24:21991
momentum from primary nucleon-nucleus interactions at 2 x 10^9 GeV, mean transverse, (E), 25:11749
momentum of beams of, performance of freon and perspex Cherenkov detectors for determining, 22:38097
phase shift for γ + N Compton scattering below 400 MeV, $\pi\pi$, (T), 23:13065
photoproduction amplitude for, sum rules relation anomalous nucleon magnetic moment and, 22:37103
photoproduction amplitudes for, equal-time commutators and non-Regge behavior of, 24:24313
photoproduction and scattering by nuclei, testing shell model and impulse approximation by, (T), 21:7843
photoproduction at high energies, O(3,1) symmetry for conspiring Regge trajectories in, 23:3778
photoproduction from helium-3 and tritium, effects of T = 3/2 and S' admixtures on cross sections for, (T), 23:17071
photoproduction from nuclei, current commutation relations for, (T), 23:19342
photoproduction from nuclei, nuclear structure research by, (T), 23:9037 (TID-24667, pp 497-502)
photoproduction from nucleons at 150 to 300 MeV, single, (T), 23:1881 (ORNL-TM-2364)
photoproduction in high-energy cosmic radiation, (T), 22:47858
photoproduction of cosmic, (E/T), 25:22379
photoproduction of, Ball amplitudes in vector-dominance model for polarized, 25:38703
photoproduction of, chiral dynamics for differential cross sections for, 23:32698
photoproduction of, continuous moment sum rules for, (T), 25:3327
photoproduction of, fixed poles in, 24:18128
photoproduction of, high-energy contributions to current-algebra sum rules for, 23:23465
photoproduction of, multiple, 22:32100
photoproduction of, Regge parametrization for, 23:18858
photoproduction of, SU(3) sum rules for, 21:42419
photoproduction of, use of diagonal frame in tests of vector meson dominance for, 24:37692
photoproduction of, vector meson dominance for, 25:38699
photoproduction of, vector-meson dominance for, 24:24280
photoproduction on baryons, review of dispersion sum rules for, 22:11644 (ITF-67-13)
photoproduction on nuclei at threshold, soft-pion theorem for, (T), 23:42981
photoproduction on nuclei, nuclear distortion effects on, (T), 24:40712
photoproduction on nuclei, ω and B exchange contributions to, (T), 23:39651
photoproduction on nuclei, use in research on nuclear properties, (E/T), 23:9036 (TID-24667, pp 495-6)
photoproduction on nucleons, low-energy theorem in S-matrix theory for, 22:34930
photoproduction sum rules for, π conspiracy and residue from finite-energy, 22:44365
polarization in anti K^0 → π^+ + μ^- + anti τ and K^0 → π^- + μ^+ + τ decays, (T), 22:5554
polarization of, magnetic dipole, 23:8775
production above 10^{13} eV in extensive air showers, model with medium-strong interaction for, 23:46685
production amplitudes near πN threshold, current algebra and PCAC constraints on, 22:52973
production and decay in e^+ + e^- interactions, (E), 23:32600 (LNF-69/6)
production and exchange in high-energy interactions, matrix elements for soft-, 24:45512
production and form factors from e + N interactions, 22:3326
production and handling of beams of, 21:17238
production at high energies, two-temperature statistical model for, 21:13698 (N-66-37560)
production by axial-vector current, sigma model without nucleons for current algebra identity for amplitude of, 24:12992
production by carbon-12 electron scattering, (E), 24:6833
production by high-energy cosmic radiation, (E), 22:5166
production by proton reactions with nuclei at 450 MeV, (T), 22:35388
production for γ + N interactions, review of, 22:15713 (DESY-67/43)
production from anti N + N → π interactions, axial vector renormalization and Goldberger—Treiman relation for, 22:7498
production from anti N + N → rho + π, two-channel model for, 21:40213
production from anti p + p → nπ interactions at 1.61 to 5.70 GeV, model for angular distributions for, 22:15760 (LYCEN-6751)
production from anti p + p → π^+ + π^+ + π^- + π^- + π^0 interactions at 5.7 GeV/c in hydrogen bubble chamber, angular distributions for, 21:40146
production from anti p + p and π^+ + p interactions at 0.2 to 1.0 GeV, energy dependence of angular correlation effect in multiple, (T), 22:1431
production from anti p + p interactions at 2.7 GeV/c, (E), 21:9698 (IS-T-115)
production from anti p + p interactions, Euler angles for distribution for, 21:29513
production from anti p + p interactions, Feynman diagrams for angular distributions for, 22:15761 (LYCEN-6757)
production from bremsstrahlung reactions with copper from electrons incident at 50 to 400 MeV, analytic representation of differential yields for, 23:49073 (ORNL-4442)
production from e + N → π + N interactions, evaluation of multipoles for, (T), 23:16948
production from e + N and γ + N interactions, review of, 22:1403 (SLAC-PUB-355)
production from e + N interactions at high energies and large momentum transfers, one-particle-exchange diagrams for, (T), 22:11628
production from e + p → e + π^+ + N + nπ interactions at 0.7 to 3 GeV, spark chamber and threshold Cherenkov counter study of, (E), 22:11567 (DESY-67/31)

production from e + p → e + π⁻ + N + nπ interactions at 0.7 to 3 GeV, spark chamber and threshold Cherenkov counter study of, (E), 22:11567 (DESY-67/31)
production from e + p interactions, longitudinal γ contribution to, (E), 22:13635 (LAL-1185)
production from electron reactions with copper at 50 to 400 MeV, intranuclear cascade model and electron—photon cascade calculations for, 23:49074 (ORNL-4443)
production from γ + d interactions, role of N*(1405) resonance in, (T), 21:21166
production from γ + A interactions, superconvergent sum rule for, 21:31562
production from γ + N → N + π interactions, currents and current commutators for amplitude of, 22:11706
production from γ + N → π + N interactions at high energies, spin structure of amplitude for, 21:21173
production from γ + N → π + N interactions, divergences of vector and axial vector currents for, 21:23346 (JINR-E2-3196)
production from γ + N → π + N interactions, evaluation of multipoles for, (T), 23:16948
production from γ + N → π + N interactions, pole terms in fixed angle approach for, 22:3325
production from γ + N interactions at high energies, (T), 21:35283
production from γ + N interactions at low energies, Panofsky ratio and SU(6) for, 21:9751
production from γ + N interactions below 1.5 GeV, graphs and tables for, (E), 21:15251 (CALT-68-108)
production from γ + N interactions, dispersion sum rules in static model for, 22:1449
production from γ + N interactions, nondynamical structure of, 21:11760
production from γ + N interactions, superconvergence sum rules and SU(6) for, 21:31621
production from γ + N interactions, symmetry and quark structure of currents for sum rules for, 21:21154 (JINR-P2-3195)
production from γ + p → π⁺ + n at 1 to 5 GeV, absorption correction in DWBA approximation for, 21:40178
production from meson (K⁻) capture by complex nuclei at rest in emulsions, (E), 21:42272
production from N + N interactions above 400 MeV, phase shift representations for, 21:37863
production from N + N interactions, review of phase shift analysis for, 21:37862
production from p + N interactions at 24 and 27 GeV/c in emulsions, (E), 21:29442
production from p + p highly inelastic interactions at 10 to 30 GeV/c, phenomenological analysis for, 21:33716
production from p + p interactions at 10 to 30 GeV/c, wire-plane spectrometer study of spectra from, 21:33600
production from p + p interactions below 1.5 GeV, amplitudes for, 21:37858
production from photon interactions with hyperons, quark model commutation relations for sum rules for amplitudes of, (T), 25:14619
production from photon reactions with copper, intranuclear cascade model and electron—photon cascade calculations for, 23:49074 (ORNL-4443)
production from proton interactions in emulsions at 20 GeV, diffraction in, 21:17035
production from proton interactions with electromagnetic fields, model for, 22:22369 (NYO-1932(2)-130)
production from proton reactions with nuclei at 1.0 to 3.0 GeV, cross sections for, (E), 21:23314 (BNL-994, pp 70-102)
production from π + N → π + π + N, phenomenological analysis for, 21:9807
production from π + p interactions at high energies, review of, (E/T), 22:17957
production from π⁺ + p interactions at 2.34 GeV/c in bubble chamber, π and N*** interference in, (E), 22:1388
production from π⁻ + p interactions at 25 GeV/c in hydrogen bubble chamber, systematic behavior in multiple, (E), 22:9513
production from π⁻ + p interactions at 3.2 and 4.2 GeV/c in hydrogen bubble chamber, (E), 22:3276
production from π⁻ + p interactions at 5.48 GeV/c in hydrogen bubble chamber, multiple, 21:31529 (TID-23843)
production in 10-prong π⁺ + p interactions at 8 GeV/c in hydrogen bubble chamber, angular correlations for, (E), 22:29625 (INR-876/VI/PH)
production in 60- and 1000-GeV jets in emulsions, K/π ratio for secondary, (E), 25:14509 (INP-718)
production in 60-GeV accelerator and 1000-GeV cosmic ray jets, comparison of K/π ratio for, (E), 24:49305
production in 8- and 10-prong π⁺ + p interactions at 8 GeV/c in hydrogen bubble chamber, angular correlations for, (E), 25:17401
production in anti τ/ sub μ/ + N → N + π + μ⁺ interactions in heavy-liquid bubble chamber, cross sections for, 21:33591 (CERN-67-12)
production in anti p + n annihilations at rest in deuterium, (E), 21:15263
production in anti p + p → mπ interactions above 2.5 GeV/c, Reggeized multiperipheral model for correlation effects in, (E/T), 24:3643
production in anti p + p annihilation in flight, nucleon-exchange model for multiple, 21:42350
production in anti p + p interactions and f decay, duality effects in multiple, (T), 24:42950
production in anti p + p interactions at 1 to 7 GeV/c, multiple, (T), 22:24637
production in anti p + p interactions at 6.94 GeV/c, angular distributions and cross sections for nπ(n greater than 7), (E), 24:51948
production in anti p + p interactions at 7 GeV/c, (E), 21:2370
production in anti p + p interactions at rest, review of multiple, 23:13084 (ANL/HEP-6812, pp 4-16)
production in anti p + p interactions, analysis of multiplicity of, 22:24642
production in anti p + p interactions, angular distributions and cross sections for, (E), 22:17860
production in anti p + p interactions, isotopic spin conservation effects on angular correlations for high-multiplicity, (T), 24:35650
production in bound state in electron reactions with nuclei, 25:59355
production in cosmic and elementary particle interactions at ultrahigh energies, longitudinal momentum distribution in, 24:5283
production in cosmic nucleon interactions in emulsion chambers at 100 to 1000 TeV, energy spectrum and transverse momentum of, 21:37692
production in cosmic particle interactions in emulsion chamber at 10¹¹ eV, 21:37666
production in cosmic particle reactions with atmospheric nuclei, temperature-effect dependence on mechanism for atmospheric μ production for ratio of K and, (T), 25:7537
production in cosmic proton reactions with nuclei in air, production of meson (μ) EAS above 1 TeV for relation of interaction energy with, (T), 23:46659
production in cosmic showers, (T), 25:19522 (INR-1231)
production in e + N → e + N + π interactions at threshold energy, current algebra and PCAC hypothesis for, 22:50331
production in e + N → e + N + π interactions, dispersion relations for partial-wave amplitudes for, 23:23414
production in e + N → e + N + π interactions, photon—vector-meson analogy model for, 23:42598
production in e + N → π + N and γ + N → π + N interactions, kinematical singularities in gauge invariance for amplitudes of, (T), 25:38693
production in e + N → π + N and γ + N → π + N interactions at threshold, current algebra sum rules for physical amplitudes of, 23:39658
production in e + N → π + N and γ + N → π + N interactions at low energies, dispersion theory of low-energy limits for, 22:46436
production in e + N → π + N and γ + N → π + N interactions at low energies, PCAC hypothesis for, 25:5333
production in e + N → π + N interactions at high energies and large momentum transfers, 22:5539
production in e + N → π + N interactions, choice of frame in mass extrapolation in vector dominance model for, (E), 24:28502 (DESY-70/11)
production in e + N → π + N interactions, form factor from, 23:5572
production in e + N → π + N interactions, Jost—Lehmann—Dyson representation for covariance of retarded commutators for, (T), 24:42920
production in e + N → π + N interactions, on-shell subtracted dispersion relations and low-energy theorems and sum rules from current algebra for, (T), 25:3368
production in e + N → π + N interactions, sum rule for axial-vector form factor and mass of axial-vector meson in, (T), 24:47399
production in e + N → π + N interactions, time reversal violation effects in, 23:3781
production in e + N → π + N interactions, vector-meson dominance for π + N → rho + N interactions relation with, (T), 25:53074
production in e + N and γ + N interactions, low-energy theorems and sum rules for amplitudes of, 23:44627
production in e + N and γ + N interactions, review of research on, (E/T), 23:8768 (TID-24667, pp 523-40)
production in e + N and γ + N interactions, test of vector dominance from asymmetry ratio in, 25:5326
production in e + N diffractive interactions, conservation of hadronic s-channel helicity in, (T), 25:12165
production in e + N interactions beyond resonance region, model with π form factor for, (E/T), 25:43583 (DESY-71/22)
production in e + N interactions, amplitudes for, 21:35286
production in e + N interactions, class of asymptotic limits for, 25:45696
production in e + N interactions, comparison of vector-meson dominance model with, 25:27982 (DESY-71/12)
production in e + N interactions, computer program and Born approximation for cross section for, (T), 23:1614
production in e + N interactions, experiments at Saclay on, 23:8717 (TID-24667, pp 574)
production in e + N interactions, gauge invariance and Born approximation in, 24:18143
production in e + N interactions, PCAC hypothesis and current algebra analysis of cross sections for, 25:53061
production in e + N interactions, vector meson dominance predictions for, (T), 25:30789
production in e + N, τ + N, and γ + N interactions, final-state interactions and T-violating effects in, 24:24412
production in e + p and γ + p interactions on polarized targets, angular distribution for, (T), 22:50322
production in e + p interactions above second resonance, review of, (E), 25:56406 (DESY-71/35)
production in e + p interactions at 1.5 to 6 GeV, cross section for, (E), 23:5513
production in e + p interactions at 2 GeV/c, cross sections for, 25:53006
production in e + p interactions near Δ(1236) isobar, cross sections for, (E), 22:50274 (DESY-68/42)
production in e + p interactions, (E), 24:37608
production in e + p interactions, cross sections for, (E), 22:34833
production in e + p interactions, longitudinal photon contribution to, (E), 22:26550
production in e⁺ + e⁻ → (2n+1)π interactions, test for ΔI less than or equal to 1 in, 22:46368
production in e⁺ + e⁻ → 3π interactions, method for deriving angular correlations in, 22:41774 (NP-17531)
production in e⁺ + e⁻ → π⁺ + π⁻ interactions, parametrizations of π form factor for rho mass and width in, (E/T), 23:32657
production in e⁺ + e⁻ → rho → π⁺ + π⁻ interactions, cross sections for photoproduction of rho from, 22:9554
production in e⁺ + e⁻ interactions at high energies, light-cone properties of axial-vector and electromagnetic current commutators for, (T), 25:19941
production in e⁺ + e⁻ interactions at high energies, statistical model for multiple, (T), 24:32989
production in e⁺ + e⁻ interactions, angular correlations for, 22:24579
production in e⁻ + N → e⁻ + N + π and γ + N → π + N interactions, evaluation of multipoles in, 21:31557
production in electron electromagnetic cascade interactions in copper at 400 MeV, 25:5255
production in electron reactions with carbon-12 and oxygen-16, (T), 21:4017
production in electron reactions with carbon-12 at 1.150 GeV at 25 to 60°, Δ(1236) production in e + p interactions from cross sections for, (E), 24:28470
production in electron reactions with complex nuclei at 1.0 to 1.178 GeV, mechanism of, (E/T), 25:52993
production in electron-nucleus interactions, (T), 24:1913
production in elementary particle interactions, theory of, 25:33672
production in forward γ + N → π + N interactions, Regge absorption model for, (T), 25:56452 (CALT-68-313)
production in four-prong π⁺ + p interactions at 8 GeV/c in hydrogen bubble chamber, angular distributions for, (E), 25:22705
production in four-prong π⁺ + p interactions at 8 GeV/c in hydrogen bubble chamber, angular and momentum distributions for, (E), 25:56428 (IFA-HE-75)
production in γ + d → N + N + π interactions in impulse approximation, kinematics and cross sections for, (T), 23:32647 (NP-17916)
production in γ + d interactions at 1 GeV, effect of π + N final state interaction on backward, 23:39733
production in γ + d interactions, determination of isotensor electromagnetic current from, 23:5570
production in γ + γ → mπ (m > 1) interactions, phenomenological effective Lagrangian for, 25:33647
production in γ + γ → π + π interactions at low energies, cross section predictions from dispersion relations and unitarity for, 25:40931
production in γ + γ interactions, phenomenological effective Lagrangian or odd and even multiple, (T), 25:33597 (NYO-3829-68)
production in γ + N → 2π + N interactions, current algebra description of, 21:25264
production in γ + N → Δ(1236) + π interactions at 0.7 to 1 GeV, angular distribution asymmetry of, (T), 25:9798
production in γ + N → N + π interactions, chiral Lagrangian formalism for, 25:9726
production in γ + N → N + π interactions, low-energy behavior of amplitudes for, 22:9550
production in γ + N → N + π interactions, modified PCAC for calculation of rho-π-γ vertex in, 22:37121
production in γ + N → N + π interactions, sum rules using boson—fermion commutation relations for, 21:18948
production in γ + N → N + π interactions, vector dominance in, (T), 22:32085
production in γ + N → N** → π + N interactions, resonant amplitudes and cross section for, 21:35287
production in γ + N → π + Δ interactions at high energies, contribution of low-energy theorem to, 25:14622
production in γ + N → π + Δ interactions, Stichel theorem for, (T), 25:17439
production in γ + N → π + Δ(1236) interactions, Regge pole model with calculation of rho, A₂, and π trajectories for differential cross sections for, (T), 24:24309
production in γ + N → π + N + γ and γ + N → π + N + γ + γ interactions, perturbation theory for, 22:39335
production in γ + N → π + N and e + N → π + N interactions, review of vector dominance model for, (T), 25:53076
production in γ + N → π + N interactions above and below 500 MeV, (E/T), 21:5402
production in γ + N → π + N interactions at 1 to 2 GeV, review of parameters and quark model calculations for, (E/T), 25:33516 (INP-713(Vol.2), pp 49-54)
production in γ + N → π + N interactions at high energies, fixed poles in backward, (T), 23:15044
production in γ + N → π + N interactions at high energies in O(4) symmetry, conspiracy of Regge poles in, 22:3336
production in γ + N → π + N interactions at high energies, generalization of Frautschi—Margolis model for Regge-cut multiple-scattering corrections to differential cross sections of, 24:51999 (AD-705700)
production in γ + N → π + N interactions at high energies, polarization parameters and target asymmetry for, (T), 25:47775 (DESY-71/27)
production in γ + N → π + N interactions at high energies, research at Southeastern Massachusetts Univ., June 1969 to Feb. 1971, (E), 25:33517(R) (NYO-4115-1)
production in γ + N → π + N interactions at high energies, Lorentz group for Regge pole analysis of phenomenological, 23:44628

production in $\gamma + N \rightarrow \pi + N$ interactions at low energies, current algebra calculation of π production in, 23:32653
production in $\gamma + N \rightarrow \pi + N$ interactions below 1 GeV, review of, (T), 25:45694 (LNF-70/54)
production in $\gamma + N \rightarrow \pi + N$ interactions in quark model, cross sections for, (T), 25:1448
production in $\gamma + N \rightarrow \pi + N$ interactions in resonance region, review of quark model of baryons for, 24:6700 (CALT-68-219)
production in $\gamma + N \rightarrow \pi + N$ interactions in second resonance region, amplitudes of, (T), 24:40300
production in $\gamma + N \rightarrow \pi + N$ interactions near threshold, pole approximation in dispersion relations and vector dominance hypothesis for vector meson exchange contributions to, (T), 25:36447
production in $\gamma + N \rightarrow \pi + N$ interactions, class of quantum fields for, 23:49159
production in $\gamma + N \rightarrow \pi + N$ interactions, computer program for calculating parameters of, (T), 24:52001 (LNF-69/59)
production in $\gamma + N \rightarrow \pi + N$ interactions, conspiracy condition and superconvergence in Regge pole-theory for, 21:42314
production in $\gamma + N \rightarrow \pi + N$ interactions, continuous-moment sum rules for pion conspiracy hypothesis in, 23:7111
production in $\gamma + N \rightarrow \pi + N$ interactions, continuous-moment sum rules for, (T), 25:12207
production in $\gamma + N \rightarrow \pi + N$ interactions, continuous dispersion sum rules and Regge intercepts for, (T), 24:40320
production in $\gamma + N \rightarrow \pi + N$ interactions, dispersion theory for, 21:18944
production in $\gamma + N \rightarrow \pi + N$ interactions, dispersion analysis of, 23:32652
production in $\gamma + N \rightarrow \pi + N$ interactions, dynamical models for superconvergence sum rules for, 22:39458
production in $\gamma + N \rightarrow \pi + N$ interactions, equal-time commutators and non-Regge behavior of amplitudes for, 24:24313
production in $\gamma + N \rightarrow \pi + N$ interactions, finite-energy sum rules and ω Regge pole residue functions for, 22:34898 (NP-17489)
production in $\gamma + N \rightarrow \pi + N$ interactions, fixed-t dispersion relations for, 23:5573
production in $\gamma + N \rightarrow \pi + N$ interactions, gauge invariance and Regge-pole sum rules for, 21:27336
production in $\gamma + N \rightarrow \pi + N$ interactions, generalized dispersion sum rules for A_1 trajectory and residue function in, 22:44381
production in $\gamma + N \rightarrow \pi + N$ interactions, isotensor electromagnetic current in, (T), 25:14604
production in $\gamma + N \rightarrow \pi + N$ interactions, method for deriving angular correlations for, 22:41774 (NP-17531)
production in $\gamma + N \rightarrow \pi + N$ interactions, multiple-scattering corrections in form of Regge cuts for, 24:10711
production in $\gamma + N \rightarrow \pi + N$ interactions, O(4) symmetry for kinematic limitations for amplitude of, 23:21136 (IFVE-STF-68-46-K)
production in $\gamma + N \rightarrow \pi + N$ interactions, saturation of superconvergence sum rule for, 21:21156
production in $\gamma + N \rightarrow \pi + N$ interactions, simple harmonic forces in nonrelativistic quark model for N^* production in, (T), 25:9788
production in $\gamma + N \rightarrow \pi + N$ interactions, Stichel theorem for, (T), 25:17439
production in $\gamma + N \rightarrow \pi + N$ interactions, time reversal violation effects in, 23:3781
production in $\gamma + N \rightarrow \pi + N$ interactions, use of Lorentz group in Regge pole analysis of, (T), 22:50321 (UCRL-18377)
production in $\gamma + N \rightarrow \pi + N$ interactions, vector meson dominance of k^2 dispersion relation for invariant amplitudes for, (T), 25:59351
production in $\gamma + N \rightarrow \pi + N$ interactions, vector-dominance model for, 24:24272
production in $\gamma + N \rightarrow \pi + N^*$ interactions, low-energy theorem from current algebra for, 22:11620
production in $\gamma + N \rightarrow \pi + \pi + N$ interactions, current algebra and PCAC hypothesis for, 23:3668
production in $\gamma + N$ and $\gamma + d$ interactions below 1.5 GeV, review of experiments and theory for, 22:32089
production in $\gamma + N$ interactions at 10^{11} to 10^{14} eV, (E), 24:21913
production in $\gamma + N$ interactions at high energies, dispersive sum rules for amplitudes of, 23:49077
production in $\gamma + N$ interactions at low energies, C violation in, (T), 21:7485
production in $\gamma + N$ interactions at low energies, equal-time commutation relations and PCAC for total amplitude of two-body, 22:29666
production in $\gamma + N$ interactions at low energies, Kroll—Ruderman theorem and Born approximation for p-wave multipoles in, 25:9724
production in $\gamma + N$ interactions in resonance region, review on single, 24:24277
production in $\gamma + N$ interactions in SU(3)-Regge-pole model, saturation of superconvergence sum rules for, 21:44321
production in $\gamma + N$ interactions, (E), 24:24278
production in $\gamma + N$ interactions, analysis of experimental tests of vector meson dominance in, 23:46646
production in $\gamma + N$ interactions, chiral SU(2) x SU(2) Lagrangians for, 23:18916
production in $\gamma + N$ interactions, chiral-invariant Lagrangian for differential cross sections for, 24:35644
production in $\gamma + N$ interactions, cross sections for, 22:50336
production in $\gamma + N$ interactions, derivative amplitudes for, 25:28000
production in $\gamma + N$ interactions, dispersion analysis of multipole amplitudes of, 23:36876
production in $\gamma + N$ interactions, dispersion relation calculation of $\Delta(1236)$ resonant partial amplitude for, 22:34906
production in $\gamma + N$ interactions, dispersion relations for partial-wave amplitudes for, 21:7482
production in $\gamma + N$ interactions, duality and fixed poles in, (T), 24:28519
production in $\gamma + N$ interactions, energy dependence of partial cross sections for multiple, (T), 24:42904
production in $\gamma + N$ interactions, evidence for B—rho' conspiracy for sum rules for, 23:3682
production in $\gamma + N$ interactions, evidence for isotensor electromagnetic current from, (T), 24:30488
production in $\gamma + N$ interactions, fixed poles in first-order weak and electromagnetic amplitudes for, 23:5568
production in $\gamma + N$ interactions, gauge-invariance constraints on Regge amplitude for, 22:22365
production in $\gamma + N$ interactions, isobar model for, 21:2421
production in $\gamma + N$ interactions, modified coherent droplet model for, 23:15025
production in $\gamma + N$ interactions, N—N^* exchange degeneracy from gauge invariance and duality for π production in, 24:5271
production in $\gamma + N$ interactions, status and perspectives of experiments on, 23:10777 (CALT-68-171)
production in $\gamma + N$ interactions, superconvergence in, 21:21172
production in $\gamma + N$ interactions, use of gauge invariance in formalism of covariant Reggeization for, (T), 24:20104
production in $\gamma + N$ interactions, use of MIT and Saclay electron linacs for studying, 23:8718 (TID-24667, pp 580)
production in $\gamma + N$ interactions, vector meson dominance and mass dependence of amplitudes for, 25:22743
production in $\gamma + p \rightarrow p + \pi^+ + \pi^-$ interactions, dual-resonance model for diffractive, 24:28517
production in $\gamma + p \rightarrow \pi + N$ interactions at 535 to 850 MeV in second resonance region, analysis of, (T), 22:5537
production in $\gamma + p \rightarrow \pi + N$ interactions, evaluation of dispersion relations for determining amplitudes of, 21:37742
production in $\gamma + p \rightarrow \pi^- + \Delta^{++}$ interactions, form factor in gauge-invariant OPE model for double, 23:13056
production in $\gamma + p \rightarrow \pi^+ + \Delta^{++}(1236)$ interactions using polarized x radiation, (E), 22:39321
production in $\gamma + p$ and $\gamma + n$ interactions, fits to differential cross sections for, 25:9727
production in $\gamma + p$ and vector meson + p interactions, polarization in vector dominance model for, 22:39419
production in $\gamma + p$ interactions at 5 to 17.8 GeV, cross sections for, (E), 24:24208
production in $\gamma + p$ interactions in second resonance region, isobar model analysis of single, 25:3313
production in $\gamma + p$ interactions, cross sections for, 23:13055
production in $\gamma + p$ interactions, experimental verification of, 21:29460
production in $\gamma + p$ interactions, low-energy theorem from current algebra for amplitude of, 22:46363
production in $\gamma + p$ interactions, model for, 21:9741
production in $\gamma + p$ interactions, multiple, 24:35613
production in $\gamma + p$ interactions, multiple, (E/T), 22:17897
production in $\gamma + p$, $\pi + p$, and $p + p$ interactions at 4 to 36 GeV, quark model for multiple, 25:56514
production in $\gamma + \pi \rightarrow 2\pi$ interactions, coherent dissociation $\pi \rightarrow 2\pi$ in nuclear field for possible measurement of, (T), 22:32084
production in $\gamma + \pi$ interactions at low energies, dispersion theories for, 23:39662
production in γ reactions with helium-4 at high energies, model independent analysis for separation between exchange of natural and unnatural parity in, (T), 25:53184
production in hadron interactions at very high energies, model for multiple, 24:24336
production in hadron interactions, quark additive model for sum rules for multiple, 23:51928
production in high-energy interactions, transverse momentum distribution from, 21:21204
production in high-energy interactions, two-temperature statistical model for, 21:21253
production in inclusive cosmic $p + p$ interactions at 250 GeV/c, angular distribution from scaling hypothesis for, (E/T), 24:51987
production in inelastic interactions, statistical distribution of multiple, 25:3370
production in inelastic $p + p$ interactions at 5.4 and 6.6 GeV/c in hydrogen bubble chamber, proton momentum spectrum from, (E), 24:37633
production in $K + p$, $\pi + p$, $p + p$, and anti $p + p$ interactions at high energies, large-momentum-transfer, (T), 24:37746
production in $K^+ \rightarrow 3\pi$ decay, energy spectrum for, (E), 24:20065 (AD-697966)
production in $K^+ \rightarrow 3\pi$ decays, energy spectrum for, (E), 25:19895
production in $K^+ + p$ and $K^+ + d$ interactions at 1.585 GeV/c in bubble chamber, cross sections for, (E), 25:33555 (UCRL-20628)
production in $K^+ + p$, $\pi^- + p$, $\pi^+ + p$, and $p + p$ interactions at 7.0 to 28.5 GeV/c in bubble chamber, factorization in inclusive processes from single-particle momentum distributions for, (E), 25:43554 (UR-875-340)
production in lepton interactions with hadrons at high energies in diffraction model, cross sections for, (T), 24:49418
production in lepton interactions with nucleons at high energies, 24:18145
production in meson (π) reactions with complex nuclei in emulsions at 17.2 GeV/c, diffraction mechanism for, (E/T), 24:21939
production in meson (π) reactions with emulsion nuclei at 200 GeV, coherent, 21:27304 (INR-774/VI/PH)
production in meson (π^-) reactions with carbon emulsion nuclei at 3.85 GeV/c, cross section for coherent, (E), 21:17046
production in meson (π^-) reactions with complex nuclei at 17 and 45 GeV, Deck model for diffraction coherent, (T), 25:43646 (JINR-P1-5775)
production in meson (π^-) reactions with emulsion nuclei at 7.2 GeV/c, yields of, (E), 23:18813
production in meson (π^-) reactions with emulsion nuclei at 60 GeV/c, cross sections and angular distributions for multiple, (E), 24:15495
production in meson (π^-) reactions with light and heavy emulsion nuclei at 17.2 GeV, (E), 21:15504
production in meson (π^-) reactions with nuclei at high energies in heavy-liquid bubble chamber, review of coherent, 22:39270 (CERN-68-7(Vol.1), pp 537-55)
production in meson (π^-) reactions with xenon at 9 GeV/c in xenon bubble chamber, strong angular correlation in, (E), 22:29626 (INR-P-882/VI/PH)
production in microwave background-cosmic ray interactions, (T), 22:38659 (N-68-20484)
production in $\mu^+ + N$ interactions at 10.1 GeV/c and $\mu^- + N$ interactions at 14.6 GeV/c in emulsions, energy spectrum, angular distributions, and cross sections for, (E), 24:20058
production in $N + N \rightarrow N + N + \pi$ interactions at 500 to 800 MeV, amplitude for, (T), 24:3696
production in $N + N \rightarrow N + N + \pi$ interactions, Burnett—Kroll theorem for soft-pion, (T), 24:49535
production in $N + N$ interactions at 5.5 to 28 GeV and 0.7 to 27.6 TeV, recession-velocity analysis of multiple, (E/T), 23:49046
production in $N + N$ interactions at 800 to 1400 MeV, (T), 21:11776
production in $N + N$ interactions, finite-mass corrections to cross sections for S-wave, 24:24406
production in $N + N$ interactions, soft-pion theorem in current algebra for, 23:25657
production in $N + Nm \rightarrow N + N + \pi$ interactions near threshold, cross sections for, (T), 23:44675
production in near-forward $\gamma + N \rightarrow \pi + N$ interactions, review of continuous sum rules for, 24:18187 (CONF-690330-, pp 202-16)
production in neutrino and electron interactions at low energies, equal-time commutators for amplitudes of, 23:39740
production in nuclear reactions, research program on, 21:25533
production in nucleon interactions at very high energies, pionization process for N^* mass limitation from, (T), 25:17473
production in nucleon reactions with nuclei above 3 GeV/c, extrapolation method for differential cross sections for, (T), 24:28562 (ORNL-4542)
production in $\tau + n \rightarrow e + n + \pi$ interactions, S-matrix formulation of current algebra for, 23:39682
production in $\tau + N \rightarrow l + N + \pi$ interactions at low energies, s-wave and p-wave multipoles for, 24:15537
production in $\tau + N \rightarrow l + N' + \pi$ interactions at threshold, amplitude of, 21:31574
production in $\tau + N \rightarrow \mu + N + \pi$ interactions, isobaric-model analysis of, 21:21190
production in $\tau + N \rightarrow \pi + N$ interactions, time reversal violation effects in, 23:3781
production in $\tau + N$ and antir + N interactions, cross sections for, (T), 22:44393
production in $\tau + N$ interactions in current algebra, cross sections for π production in, 23:5645 (NP-17659)
production in $\tau + N$, $\gamma + N$, and $e + N$ interactions in (3,3) resonance region, kinematics and model of, (T), 23:8777
production in τ/ sub μ/ $+ N \rightarrow N + \pi + \mu^-$ interactions in heavy-liquid bubble chamber, cross sections for, 21:33591 (CERN-67-12)
production in $p + d \rightarrow {}^3He$ + missing mass interactions at 3 GeV/c, (E), 23:46605 (NYO-2171-286)
production in $p + d \rightarrow {}^3He$ + MM interactions at 2 GeV, spectrometer study of cross sections for, (E), 25:36398
production in $p + n$ interactions at 24 GeV in emulsions and hydrogen bubble chamber, energy spectra and transverse-momentum distributions for, (E), 25:5276
production in $p + N$ interactions at 600 MeV in nuclei, isobar model for, (T), 22:24665
production in $p + p \rightarrow d$ + MM interactions at 3.8 to 6.3 GeV, wire-chamber spectrometer study of rate for, (E), 25:43541
production in $p + p \rightarrow d$ + MM interactions at 3.8 to 6.3 GeV/c, cross sections for, (E), 24:40283
production in $p + p \rightarrow p + n + m\pi$ ($m = 0, 1, 2, 3$) interactions at 6 GeV/c, OPE mechanism and cross sections for, (E), 23:14966
production in $p + p \rightarrow p + p + nx$ interactions, meson bremsstrahlung model with phase space for, 22:22417
production in $p + p$ inelastic interactions, peripheral processes for cross sections for, (T), 25:17467
production in $p + p$ inelastic scattering at 12.5 GeV/c, diffraction model study of, (E), 22:52932
production in $p + p$ interactions at 12 to 70 GeV/c, hypothesis of limiting fragmentation for, (E/T), 24:45545
production in $p + p$ interactions at 12.2 GeV/c, differential cross sections for, (E), 24:1509
production in $p + p$ interactions at 12.4 GeV/c, differential cross sections for, (E), 25:7548
production in $p + p$ interactions at 12.4 to 12.5 GeV/c, differential cross section for, (E), 25:17379
production in $p + p$ interactions at 12.5 GeV/c, differential cross section for, (E), 22:20128
production in $p + p$ interactions at 4 GeV/c, multiple, (E), 23:3640

production in p + p interactions at 635 MeV, cross sections for, (E/T), 23:8727 (JINR-P1-4155)
production in p + p interactions at 970 MeV, one-boson-exchange model for, 21:25319
production in p + p interactions at high energies, multiperipheral model for asymptotic single particle distributions in, (T), 25:7684 (RLO-1388-585)
production in p + p interactions at high energies, scaling behavior in, (E/T), 25:7683 (RLO-1388-583)
production in p + p interactions at high energies, two-temperature statistical model for spectra of, 23:7156
production in p + p interactions, model for, 24:3690
production in p + p interactions, Regge parameters for multiplicity of, 25:38755
production in p + p interactions, semiclassical model for transverse and longitudinal, 24:24229
production in particle decays, integral over Veneziano amplitude for, 23:52014
production in particle interaction final states, lower bounds on threshold charge-exchange amplitude from di-pion mass distributions for, (T), 25:5315
production in particle interactions, dual amplitudes for six-body, (T), 25:12131
production in peripheral nucleus—nucleus collisions, (T), 24:22198
production in photon and rho resonance interactions with pomerons, model for, 25:30863
production in photon interactions with arbitrary-spin particles, extension of Kroll—Rudarman theorem for, 23:44627
production in photon interactions with scalar charge-zero particles, review of gauge invariance for amplitudes of, (T), 25:53073
production in photon reactions with aluminum, carbon, and hydrogen at 3.2 to 4.9 GeV, cross sections for, (E), 22:9501
production in photon reactions with complex nuclei at 3 to 16 GeV, incoherent, 25:22734
production in photon reactions with double-closed-shell nuclei, effects of SU(4) breaking on charged, 24:37842
production in photon reactions with helium-3 to 800 MeV, cross sections for single and double, (E), 23:8721
production in photon reactions with nuclei, elementary-particle treatment of, 24:49381
production in photon reactions with nuclei, isolation of Regge trajectories in, (T), 24:24308
production in photon reactions with nuclei, low-energy theorems for, 25:20019 (LYCEN-7081)
production in photon—baryon interactions, hyperon magnetic moments from dispersion sum rules for, 21:33655
production in pionization in $e^+ + e^-$ and $e^- + e^+$ interactions in colliding beams, two amplitudes and relative phase for $\gamma + \gamma \rightarrow \pi^+ + \pi^-$ interactions from differential cross sections for, (T), 25:45690 (DESY-71/23)
production in proton reactions (p,π) with nuclei, quantum mechanical treatment of cross sections for, (T), 25:39090
production in proton reactions with aluminum and beryllium and p + p interactions at 10 to 70 GeV/c, scaling law and empirical formulas for, (T), 24:51937
production in proton reactions with aluminum at 12 to 70 GeV/c, hypothesis of limiting fragmentation for, (E/T), 24:45545
production in proton reactions with aluminum, beryllium, copper, lead, and polyethylene at 12.3 GeV/c, yields and differential cross sections for, (E), 23:8732
production in proton reactions with beryllium and copper at 12.3 GeV/c, differential cross sections for, (E), 23:25523
production in proton reactions with complex nuclei in emulsions at 25 GeV/c, diffraction mechanism for, (E/T), 24:21939
production in proton reactions with emulsion nuclei at 25 GeV/c, (E), 22:22625
production in proton reactions with iron at 400 GeV, Monte Carlo calculations of star and flux distributions from, (T), 25:59507 (ORNL-4673)
production in proton reactions with nuclei at 6 to 10 GeV, yield of, 23:27820 (ITEF-620)
production in proton reactions with nuclei at 8 GeV/c, (E), 21:7458
production in proton reactions with nuclei, (n - p) radius difference from model for, 23:23495
production in proton reactions with steel at 10 and 20 GeV/c, 21:13618
production in π + d interactions at 330 MeV, (T), 25:12105
production in π + N → 2π + N interactions at low energies, final-state mass spectra relation with two-body forces for, (T), 25:43643
production in π + N → 2π + N interactions below 1 GeV, static model approximation for, 24:8663
production in π + N → 2π + N interactions below 1 GeV, models for, 21:17113 (LA-DC-8617)
production in π + N → mπ + N interactions, one-pion-exchange model for effective mass spectrum for, (T), 25:59496
production in π + N → N + π (rho) interactions, tight coupling in semiclassical theory for, 22:26661
production in π + N → π + π + N interactions at 1.25 and 1.59 GeV/c, predictions for π as Regge pole and elementary particle for dipion mass near rho region in, 22:17971
production in π + N → π + π' + N' interactions, nondual property of π in, (T), 25:22817
production in π + N → π + π + N interactions, unitarity for, (T), 21:23341
production in π + N interactions at 17.2 GeV/c and p + p interactions at 24 GeV/c, review of energy spectra for, 23:18795 (CONF-671217-, pp 589-695)
production in π + N interactions at high energies, review of multiple, (E), 24:20157
production in π + N interactions at low energies, threshold branching ratios and cross sections for, (T), 23:13098
production in π + N interactions below 290 MeV, phenomenological chiral Lagrangian model for, 23:23484
production in π + N interactions, low-energy constraints on, (T), 22:3434
production in π + N multi-prong interactions at 17 GeV in emulsions, analysis of, 22:34863
production in π + p → 3π + p interactions, natural- and unnatural-parity components in diffractive, (T), 25:22827
production in π + p → A_1 + rho → 5π + p interactions at 50 and 100 GeV and via A_1 and rho production in π reactions with carbon-12 at 100 GeV, Drell—Hiida—Deck effect for diffractive, (T), 25:36521
production in π + p → p + 5π interactions at 4 to 16 GeV/c, effect of resonances on angular distributions in, (T), 22:39272 (CERN-68-7(Vol.I), pp 599-610)
production in π + p and p + p interactions in multiperipheral model, charge distributions of, (T), 25:12179
production in π + p high-multiplicity interactions, four-momentum transfer dependence of transition matrix element for, 24:5316
production in π + p interactions at high energies with Pomeron exchange, review of, (E), 24:24236 (ANL/HEP-6909, pp 37-59)
production in π + p interactions at high energies, multiple, (E), 24:24252
production in π^- + N interactions at 12 and 18 GeV/c, π—π scattering cross section from, (E), 22:20150
production in π^- + n interactions at 2.15 GeV/c, peripheral backward multiple, (E), 23:44602
production in π^+ + p → 2p + π^+ + π^- + π^0 interactions at 5.1 GeV/c in deuterium bubble chamber, (E), 22:26571
production in π^+ + p → $4\pi^+$ + p + $3\pi^-$(+π^0) and π^+ + p → n + $5\pi^+$ + $3\pi^-$ interactions at 8 GeV/c, fireball and multiperipheral models for mechanism for, (T), 25:45746 (INP-755)
production in π^- + p → π^- + N + π^- + nπ interactions at 10 GeV/c in hydrogen bubble chamber, asymmetry coefficients for, (E), 24:10812
production in π^- + p and π^+ + p interactions at 4 to 10 GeV/c, cross sections and multiplicity distribution in, (T), 22:29705
production in π^+ + p interactions at 1.48 GeV/c in hydrogen bubble chamber, cross sections for resonance production in multiple, (E), 22:37082
production in π^- + p interactions at 17.2 GeV/c in emulsions, angular distribution for, (E), 22:34864
production in π^- + p interactions at 25 GeV/c, longitudinal distribution of, (E), 25:33559
production in π^- + p interactions at 4 GeV/c, thermodynamical description of momentum distributions for, (T), 25:43639 (JINR-P1-5849)
production in π^- + p interactions at 4.0 GeV/c, correlations between longitudinal and transverse momentum components for, (E), 25:7562
production in π^- + p interactions at 4.65 GeV/c in hydrogen bubble chamber at 4.65 GeV/c, study of nuclear forces from multiple, (E), 22:29638
production in π^+ + p interactions at 5 GeV/c, test of thermodynamic model in momentum distributions from, (E), 25:30746
production in π^- + p interactions at 5.5 GeV/c in hydrogen bubble chamber, multiple, (E), 22:3260
production in π^- + p interactions at 7 GeV/c, transverse momentum distribution for, (E), 23:5538
production in π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, correlation between transverse and longitudinal momenta in, (E), 24:45443
production in π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, momentum and angular distributions for, (E), 25:56427 (IFA-HE-73)
production in π^+ + p interactions at 8 GeV/c in hydrogen bubble chamber, mechanism for, (E), 25:14558 (INP-708)
production in π^+ + p interactions at 850 MeV/c in bubble chamber, (E), 22:24551
production in π^- + p interactions in ΣK, AK, K^0 anti K^0, and $n\pi^+\pi^-$ channels, multiple, (E/T), 24:35613
production in π^+ + p interactions, test of Pomeranchuk exchange dominance in multiple, 23:23480
production in π^+ and π^- interactions, operatorial construction of 4π and 6π amplitudes for, (T), 24:42942 (COO-264-552)
production in showers in cosmic N + N interactions at high energies, statistical model for multiple, 22:39427
production in simulated cascade showers at high energies, model using Monte Carlo method for, 22:46361
production in spinless boson interactions, lower bounds on threshold charge-exchange amplitude from di-pion mass distributions for, (T), 25:5315
production in strong interactions, factorization of, (T), 24:26418
production in strong interactions, multiple, (T), 24:21972
production in Σ decay, coupled channel N/D calculation for, 22:24698
production of 3π enhancement (1100) in π^+ + d → π^- + π^+ + π^+ + d interactions at 8 GeV/c, (E), 23:5540
production of A_1 rho π system in π^- + π^+ → π^- + A_1^+ interactions, review of Veneziano model relation with chiral symmetry in, (T), 24:43061
production of beams of, using Intense Neutron Generator, (T), 22:11944(R) (AECL-2780)
production of cascades of, from proton reactions in shielding materials, 21:11686
production of charged pairs of, in γ + p interactions to 1500 MeV in heavy-liquid bubble chamber, (E), 21:25224
production of coherent 3π state in meson (π) reactions with nuclei above 6 GeV, (T), 23:23494
production of coherent, in π^- reactions with nuclei at high energies, review of, 23:18795 (CONF-671217-, pp 589-695)
production of dipion in π^- + p interactions at 650 MeV in hydrogen bubble chamber, (E), 22:7446
production of γ + N → N + π, helicity formalism for, 21:40167
production of hard, in N + N → N + N + π nonrelativistic interactions, dispersion relations and current—field algebra for, (T), 25:30898
production of high-energy, by decay of isobaric states of cosmic nucleons, (T), 22:21930
production of high-mass di-pion pairs in photon reactions with beryllium at 16 GeV, cross sections for, (E), 25:14511
production of many-body system of, analysis of, 25:3364
production of massless, consistency test in algebraic realization of chiral symmetry from multiple, 25:43663
production of multiple, from π^- + p interactions at 720 MeV in hydrogen bubble chamber, (E), 22:15687
production of pairs of, in e + N and γ + N interactions, mass-dispersion and current algebra theory for, (T), 23:10778
production of pairs of, in γ + N interactions, current algebra for, 23:13098
production of poles in K^+ + p and p + n interactions, determination of coupling constants from, (T), 22:32154
production of ππ and πp pairs from elementary particle interactions, method for determining, 22:15701
production of πrho final state in π reactions with nuclei at high energies, review of diffraction dissociation for, (E/T), 25:5386 (CONF-700314-, Paper 14)
production of πrho peak in π^+ + d interactions at 8 GeV/c in deuterium bubble chamber, (E), 22:41732 (BNL-12677)
production of single hard, in N + N nonrelativistic interactions, N + N interactions from, (T), 25:43653
production of single, algebraic realization of chiral symmetry for, 25:1584
production of single, in γ + N → π + N interactions, chiral Lagrangian model for, 23:36885
production of single, in K + N, N + N, and π + N interactions, cross-channel isospin analysis of peripheral, (T), 25:17490
production of single, in K^+ + p interactions at 860 to 1360 MeV/c, (E), 23:42566
production of single, in τ + N interactions, threshold theory for, (T), 25:47814
production of single, in π^- + p → n + rho^0 and p + p → n + Δ^{++} interactions, Reggeized pion-exchange model for, (T), 25:47882
production of small-angle beams of, from electron beam interactions in beryllium targets at 16 GeV, 21:17229
production of soft from e + τ interactions, current algebra for, 22:3364
production of soft, chiral-invariant Lagrangian for cross sections of multiple, 25:30887
production of soft, from hadron interactions, graphical representations of, (T), 21:27354
production of soft, in e + e and e + p interactions amplitude for, 25:43596
production of soft, in e^+ + e^- annihilation, PCAC hypothesis for spectral functions from, (T), 24:49370 (NYO-4204-2)
production of soft, in γ + N → N + 2π interactions, use of PCAC hypothesis and current commutation relations for, (T), 22:44359
production of soft, in particle interactions, review of PCAC hypothesis for, 24:35672
production of soft, review of, 22:22391 (COO-264-421)
production of stopped, use of electron and proton linear accelerators for, 23:8884 (TID-24667, pp 603-7)
production of systems of, from γ + p → p + nπ and π^- + p → neutral particles interactions at 550 to 1150 MeV, (E), 22:13637
production of, algebraic structure of matrix elements for interactions involving, 24:28540
production of, equation of state in hydrodynamic theory for multiple, 24:21971
production of, gauge invariance and soft-pion techniques for constraints between π + N interaction amplitude and amplitude of, (T), 25:36515
production of, in cascade process of high-energy protons, 21:6492 (ORNL-P-2568)
production of, PCAC restrictions on amplitudes for electro- and photo-, 21:9747
production of, review of low-energy theorems for, 21:31552
production of, review of multiple, 21:31578
production spectrum near geomagnetic equator, from muon spectrum measurements, (E/T), 25:35917
production with Δ in π^+ + p interactions at 5 GeV/c in hydrogen bubble chamber, cross sections for, (E), 25:40882 (NP-18882)
production with hyperons (Σ) from meson (K^-) absorption at rest by emulsion nuclei, (E), 22:29641
production yields from medium-energy electron linear accelerators, 23:8881 (TID-24667, pp 583-96)
properties of, 22:9587
quantum field theory for πN system, finite local, 25:53324
quantum field theory for soft, functional methods in, 21:15399 (NYO-2262-TA-147)
radiobiological properties of, 25:55299 (LA-4490)
radius from scattering on helium-4, 24:35666
radius of, continuum contributions from rhoππ form factor to mean-square, 23:23433
radius of, functional and Breit—Wigner formula for upper limit of, (T), 25:30864
radius of, $\pi^+ \rightarrow e^+ + \tau + e^+ + e^-$ decay for electromagnetic, (T), 25:19963 (JINR-P2-5520)
radius of, $\pi^+ \rightarrow e^+ + \tau + e^+ + e^-$ decay for electromagnetic, (T), 25:59412
radius of, review of data on, (E), 24:10723

radius of, simple harmonic forces in nonrelativistic quark model for root-mean-square, (T), 25:9788
radius of, upper and lower limits for, (T), 24:8648 (JINR-P2-4798)
radius of, Veneziano amplitudes consistent with PCAC conditions for rms, (T), 25:40984
range in nuclear emulsions at 10 to 50 MeV, 21:21217
range—energy of 15- to 15,000-MeV, empirical relations for, 23:51882(T) (ORNL-tr-2208)
ratio to protons at altitudes of 800 gm/cm², non EAS-associated, (E), 25:58834
reactions (μ,f) with uranium-233 and uranium-235, fragment energy distributions from, (E), 24:20394
reactions (π,2π) with complex nuclei, (T), 24:49767
reactions (π,2π) with nuclei, integral equations for, 21:35514
reactions (π,γ) with light nuclei, nuclear structure from, (T), 22:3802
reactions (π,N) with nuclei, (T), 21:1020
reactions (π,π°) with carbon-13 and oxygen-16, cross-section calculations using impulse approximation, (T), 24:26684
reactions (π,π°) with nuclei, cross-section calculations using impulse approximation, (T), 24:26684
reactions (π,πN) with light nuclei, mechanism for, (T), 24:1765
reactions (π⁻,π⁻n) with nuclei, method for analysis of, 21:27658
reactions (π⁺⁻,π°) with nuclei, mechanism and internal bremsstrahlung of, (T), 24:43483
reactions at 5 GeV/c, in emulsions, restricted energy loss from ionization, (E), 24:12926
reactions in helium-filled streamer chamber, momentum dependence of streamer density per track unit length for ionization, 23:42602
reactions in nuclear emulsions at 5 GeV/c, energy loss by ionization in, (E), 23:14940
reactions with aluminum and silver foils at 0.8 to 3.5 GeV/c, transition radiation from, (E), 23:3635
reactions with aluminum, carbon, copper, and lead at 1 GeV/c, differential and total cross sections for, (E), 25:27959
reactions with atoms having low Z, x-ray yields and level broadening from, (E), 25:35854
reactions with atoms, 4f—3d and 5g—4f x rays from, 22:47838
reactions with beryllium, boron, carbon, and lithium, K/sub α/ x-ray energies from, (E), 23:1182
reactions with brass and carbon above 20 GeV, multiplicity distribution of collimated secondaries from cosmic, (E), 25:53018
reactions with calcium—calcium oxide, selenium, and titanium—titanium oxide targets, condensed-state effects in x-ray spectra from, (E), 22:52507
reactions with carbon above 20 GeV, fluctuations in angular distributions of secondary particles from, (E), 25:43540
reactions with carbon at 7.5 GeV/c in propane bubble chamber, diffraction production of mesons (π) in, (T), 23:32636
reactions with carbon-12 at 100 GeV, Drell—Hiida—Deck effects for 5π via A_1 and rho production in diffractive, (T), 25:36521
reactions with carbon-12 in Glauber model, shift of Δ(1236) resonance peak in cross sections for elastic, 25:25465
reactions with copper-64 at 16 GeV, coherent and incoherent production of A_1 and A_3, (T), 24:10781
reactions with emulsion nuclei at 100 to 900 GeV, corrections to energy estimates using Castagnoli method for, (E), 22:3267 (INR-828/VI/PH)
reactions with emulsion nuclei at 200 GeV, coherent particle production from cosmic, (E), 21:27026
reactions with emulsion nuclei at 200 GeV, coherent production of particles in, 21:27304 (INR-774/VI/PH)
reactions with emulsion nuclei at 3.5 and 17.2 GeV/c, analysis of nonmesonic hyperfragments from, (E), 21:4207
reactions with emulsion nuclei at 3.5 and 17.2 GeV/c, mechanism for hyperfragment production from, (E), 21:4206
reactions with emulsion nuclei at 4.4 GeV/c, isobar model analysis of, 21:3979
reactions with emulsion nuclei at 8 and 17 GeV, isobar model analysis of, (E), 21:3993
reactions with emulsion nuclei at high energies, mass distribution and decays of hyperfragments produced in, (E), 25:9637
reactions with emulsion nuclei at high energy, hyperfragment production in, (E), 21:23484
reactions with emulsion nuclei at very high energies, energy estimation in, 22:24546
reactions with graphite at 200 GeV, shower production in, (E), 23:32633
reactions with heavy nuclei, cross section for A_1 production in, 22:41809
reactions with helium, Coulomb interference corrections to, 23:32770
reactions with helium-3, forward dispersion relations for, 24:24680
reactions with helium-3, Regge-pole eikonal theory for elastic and charge-exchange, 24:24397
reactions with helium-4 at high energies, amplitude of π + n interactions from coherent, (T), 24:5312
reactions with helium-4 at high energies, model independent analysis for separation between exchange of natural and unnatural parity in rho production in, (T), 25:53184
reactions with helium-4 at low energies, double scattering effects in, 24:15609
reactions with helium-4, rigorous bounds on averaged cross sections for, (T), 25:17506
reactions with iron at 10^{11} to 10^{13} eV, cloud chamber and ionization calorimeter study of shower production in, (E), 24:21931
reactions with iron at 100 GeV, cloud chamber study of, (E), 22:24545
reactions with lead at $5(10)^{11}$ to $2(10)^{13}$ eV, energy transfer from interacting particle to electron—photon cascade in, (E), 23:36832
reactions with lead, mechanism for distinction between (rhoπ) kinematic enhancement and resonance from production in, 24:1621
reactions with light nuclei, Adler self-consistency condition for, 23:28237
reactions with light nuclei, cross sections for double charge-exchange, (T), 25:9974 (JINR-P2-5286)
reactions with liquid helium, spectra of K x rays from, (E), 22:1007
reactions with nuclear emulsions at 7.8 to 17.5 GeV, helium-3 emission in, (T), 21:31714
reactions with nuclei above 1 GeV, change of cascade mechanism for inelastic, (T), 24:15599(T) (ORNL-tr-2258)
reactions with nuclei above 1 GeV, Monte Carlo method for multiparticle production in, 22:46424
reactions with nuclei above 100 GeV, one-fireball model for azimuthal correlations for, 24:42993
reactions with nuclei above 2 GeV, Glauber theory for double charge exchange in, (T), 25:50147 (JINR-P2-5865)
reactions with nuclei above 20 GeV, spectrometer and cloud chamber study of energy transfer to π° in, (E), 25:1405
reactions with nuclei above 5 GeV, mechanism for intranuclear cascade production from, (E/T), 23:51951 (JINR-P2-4662)
reactions with nuclei above 50 MeV, cross-section data compilation for, 23:5944 (JINR-P2-4068)
reactions with nuclei above 50 MeV, cross-section data compilation for, 23:19330(T) (ORNL-tr-2073)
reactions with nuclei above 50 MeV, energy dependence of integrated cross sections for, (E), 23:42558 (JINR-P2-4520)
reactions with nuclei above 6 GeV, coherent production of 3π state in, (T), 23:23494
reactions with nuclei as probes of nuclear structure, review of, 24:24679
reactions with nuclei at 0.01 to 100 GeV, cascade evaporation model for Monte Carlo method for calculating, (T), 25:59508(T) (ORNL-tr-2514)
reactions with nuclei at 0.01 to 20 GeV in emulsions, Monte-Carlo calculations of intranuclear cascades from, (T), 24:10689
reactions with nuclei at 0.1 to 10 GeV, cross-section calculations using Glauber theory, 24:8926(T) (ORNL-tr-2235)
reactions with nuclei at 0.1 to 10 GeV, Glauber theory for energy dependence of cross sections for, 23:42690 (JINR-P2-4509)
reactions with nuclei at 1 to 900 GeV, cross sections and resonances in coherent production of particles in, (E/T), 24:47481
reactions with nuclei at 100 to 1000 GeV, intranuclear cascade production in, (E/T), 24:52020
reactions with nuclei at 16 GeV/c, A_1 coherent production in, (E), 23:23368
reactions with nuclei at 20 GeV/c emulsions, angular distributions of charged secondaries in, (E), 23:34545
reactions with nuclei at 200 GeV in emulsions, coherent particle production in, (E), 23:23370
reactions with nuclei at 200 GeV in emulsions, intranuclear cascade model for, 22:34980 (JINR-P4-3800)
reactions with nuclei at 200 GeV in emulsions, intranuclear cascade production in, (E), 25:33532 (INP-713(Vol.2), pp 6-48)
reactions with nuclei at 30 to 2700 MeV, intranuclear cascade calculation of, 24:45627 (CONF-691101-, pp 42-62)
reactions with nuclei at 45 to 200 GeV in emulsions, 3π and 5π production in, (E), 25:9635 (INP-722)
reactions with nuclei at 5 GeV, change of mechanism for inelastic, (T), 24:8668
reactions with nuclei at 50 GeV, cascade calculations for, (T), 24:35669
reactions with nuclei at 50 to 1000 GeV, review of multiparticle production in, (E), 25:5273
reactions with nuclei at 50 to 80 GeV in emulsions, intranuclear cascade model calculations for, 23:36952 (JINR-P2-4510)
reactions with nuclei at 60 GeV in emulsions, helium production in, (E), 25:9660
reactions with nuclei at 60 GeV in emulsions, K/π ratio of secondaries in shower production from, (E), 25:14509 (INP-718)
reactions with nuclei at 60 GeV in emulsions, production of low-energy protons in, (E), 25:56429 (INP-754)
reactions with nuclei at high and superhigh energies, cascade calculations for, (T), 25:1552 (JINR-E2-5282)
reactions with nuclei at high and superhigh energies, multiple-particle interactions, resonance production, and changes in nuclear matter density during intranuclear cascades from, (T), 24:1616 (JINR-E2-4607)
reactions with nuclei at high energies in emulsions, cross sections for, 21:27307
reactions with nuclei at high energies in emulsions, frequency distribution of heavy prongs from, (E), 22:7438
reactions with nuclei at high energies with intranuclear cascades, statistical calculations for inelastic, 23:30754(T) (ORNL-tr-2123)
reactions with nuclei at high energies, charge and mass distributions in nuclei from charge-exchange, 23:36954
reactions with nuclei at high energies, diffraction dissociation for πrho final state in, (E/T), 25:5386 (CONF-700314-, Paper 14)
reactions with nuclei at high energies, optical potential for, (T), 24:52141
reactions with nuclei at high energies, Regge pole model for, 22:1450 (AD-648017)
reactions with nuclei at high energies, Regge-pole model for, 21:42395
reactions with nuclei at high energies, review of, (E), 25:7653 (CONF-690608-, pp 143-64)
reactions with nuclei at high energies, two-body correlation function for elementary cross section for, (T), 24:3706
reactions with nuclei at low and medium energies, lectures on, (T), 25:56807 (CERN-71-14)
reactions with nuclei at low energy, structure research using, (E/T), 22:18313
reactions with nuclei at several hundred MeV, cross-section calculations using Glauber theory, (T), 25:20490
reactions with nuclei below 10 TeV, Monte Carlo method for intranuclear cascade with many-particle interactions from, 22:13770 (JINR-P2-3604)
reactions with nuclei below 18 GeV in emulsions, multiple production from, (E), 22:7439
reactions with nuclei for nuclear structure research, (T), 23:19338 (RHEL/R-166, pp 103-19)
reactions with nuclei in atmosphere, (T), 22:21934
reactions with nuclei in emulsion at 200 GeV, four-momentum transfer and effective mass in, (T), 23:3756
reactions with nuclei in GeV range, excitation cross sections for energy-level transitions from, 22:35412
reactions with nuclei in mesic atoms, strong interaction effects on energy levels and wave functions from, 23:36503
reactions with nuclei in nuclear emulsion, hyperfragment production in, (E), 21:15487 (CONF-660221-, pp 128-31)
reactions with nuclei near Δ(1236), optical model for, (T), 25:53225 (FRNC-TH-51)
reactions with nuclei, absorption and dispersion corrections to πN optical potential for, 25:59516
reactions with nuclei, activation experiments with, (E/T), 23:9041 (TID-24667, pp 637-9)
reactions with nuclei, Adler—Weisberger sum rule and Goldberger—Treiman relation for, 23:4083
reactions with nuclei, analysis using two-step cascade and evaporation model, (T), 24:3953(R) (ORNL-4433)
reactions with nuclei, coherent and incoherent production of A_1 and A_3 in, (T), 24:10781
reactions with nuclei, diffraction dissociation mechanism for A_1 resonance production from, (T), 21:23334
reactions with nuclei, effect of nuclear radius on $l > 0$, (T), 23:34810
reactions with nuclei, finite-mass correction to soft-pion limit for charge-exchange amplitude of, 23:32767
reactions with nuclei, Foldy transformation for, (T), 23:28330
reactions with nuclei, independent-particle model in Glauber theory for A_1 production from diffraction dissociation in, (T), 24:49532
reactions with nuclei, lectures on soft pion theorems for, (T), 25:56808 (CERN-71-14, pp 1-65)
reactions with nuclei, method for deriving angular correlations for rho production in, 22:41774 (NP-17531)
reactions with nuclei, nuclear structure research by, (E/T), 23:9040 (TID-24667, pp 611-25)
reactions with nuclei, one-pion-exchange contribution to rho production from, (T), 21:30051
reactions with nuclei, PCAC hypothesis for Kroll-Ruderman theorem for radiative absorption in, (T), 24:38312
reactions with nuclei, quark model for relations between differential cross sections for neutral vector meson production in γ reactions with nuclei and total cross sections for, (T), 25:1442 (ITF-70-40)
reactions with nuclei, research at Virginia Univ., 1970-71, (E), 25:38863(R) (ORO-4043-2)
reactions with nuclei, review of data on, (E), 23:19141 (RHEL/R-166, pp 91-100)
reactions with nuclei, review of diffractive processes in, (T), 25:17501
reactions with nuclei, review of experiments leading to isobaric analog energy levels, (E/T), 25:5580
reactions with nuclei, sigma-commutator term from, 25:47902
reactions with nuclei, theory of charge-exchange, 25:43978
reactions with nuclei, threshold singularities of internal bremsstrahlung spectrum for mechanism of charge-exchange, (T), 24:49373 (UJV-2439-F)
reactions with nuclei, two-step processes in, (T), 24:52691
reactions with nuclei, use in nuclear structure research, (E/T), 23:19350
reactions with nuclei, use in research on nuclear structure, (E/T), 22:20736
reactions with nuclei, Veneziano model study of γ + π → π + π interactions from two-body meson (π) production from, 23:51892
reactions with tin at 8 GeV, calculation of energy density distribution in, 25:1456
reactions with xenon at 9 GeV in bubble chamber, energy and emission angle for photon production from, (E), 22:17865 (INR-P-844/VI/PH)
Regge pole theory for composite, in π → μ + τ decay and antibaryon + baryon → μ + τ interactions, 22:7478 (OU-LNS-67-9)
Regge pole theory for conspiring, dynamical model in, 22:26646
Regge trajectories for, review of, (E), 25:19988
Regge trajectory and residues for, 25:59460
Regge trajectory for class III conspiring, continuous moment sum rules for, 22:50372
Regge trajectory for γ + N → π + Δ(1236) interactions, (T), 24:24309
Regge trajectory for, current—algebra requirements for Toller quantum number, 22:50377
Regge trajectory in anti N + N interactions, Bethe—Salpeter equation, 24:13052
Regge trajectory in O(4) group formalism for π + p and N + anti N interactions, 24:18169

Regge trajectory in partial-wave expansion for $\pi^+ + p \rightarrow$ rho^0 + N* interactions at high energies, 24:3667
Regge trajectory of, O(4) symmetry for anti NN amplitude for, 23:13095
Regge trajectory of, O(4) symmetry for N anti N amplitude for, 23:15099
Regge trajectory of, O(4) symmetry model for, 23:3708
Regge trajectory of, zeros of residues in O(3,1) expansion of forward scattering amplitude for, 22:39461
resonances in 3π state, Lee model and relativistic isobar model for overlapping, 24:13076
role as Goldstone boson characterizing spontaneous symmetry breakdown, axial-vector field—current identity and dynamical independence for, (T), 25:25476
scattering at 60 GeV, Coulomb constant for multiple, (E), 24:10685
scattering by aluminum, angular and spatial distribution for, (T), 23:23496
scattering by aluminum-27, ruthenium-100, and uranium-238 at 0.01 to 10 GeV, Monte Carlo calculations in intranuclear cascade model for inelastic, (T), 24:42982 (JINR-P2-5118)
scattering by beryllium-9, effective meson (π)—nuclear coupling constant in forward dispersion relations for elastic, (T), 24:11026 (CERN-69-30)
scattering by calcium-40, lead-208, and bismuth-209 at 2 GeV, sensitivity of effective nucleon number to amplitude and density distribution parameters and large-mass approximation for, 23:46745
scattering by carbon-12 and helium-4, forward dispersion relations for elastic, 22:13775
scattering by carbon-12 at 120 to 1200 MeV, angular distribution and total cross section for, (T), 25:59712
scattering by carbon-12 at 180 and 260 MeV, distorted-wave impulse-approximation calculation of differential cross sections for inelastic, (T), 25:38898
scattering by carbon-12 at intermediate energies, distorted wave impulse approximation for cross sections of elastic and inelastic, (T), 25:25639 (COO-1051-45)
scattering by carbon-12 at intermediate energies, DWIA analysis using diffraction approximation and modified distorted-wave code, (T), 25:43830
scattering by carbon-12 at medium energies, differential cross sections for elastic, (E/T), 25:48025
scattering by carbon-12 near 180 MeV, strong absorption mechanism for, (E/T), 25:12420
scattering by carbon-12, cross sections for charge-exchange, (T), 24:49719
scattering by deformed nuclei, cross sections for elastic and charge-exchange, 24:52585
scattering by deuterium, helium-4, and carbon-12, forward dispersion relations for elastic, (T), 24:11026 (CERN-69-30)
scattering by deuterons, theory for multiple, 25:33956
scattering by helium-3 and -4, coherent small-angle, (T), 24:43108
scattering by helium-3 and helium-4, spin—isospin formalism for multiple, (T), 24:40410 (RLO-1388-570)
scattering by helium-3 and tritium, sensitivity to small components of nuclear wave functions, (T), 23:13202
scattering by helium-3, Feynman diagram techniques with rescattering corrections for formulas for amplitudes of, 23:51958
scattering by helium-4 and oxygen-16 near 3,3 resonance, multiple-scattering theory for differential and total cross sections for elastic, (T), 25:36527
scattering by helium-4 at 1.1 GeV, differential cross section for elastic, (E), 25:17700
scattering by helium-4 at 24 MeV, equivalent potential for, (T), 25:20253
scattering by helium-4 at low energies, Schwinger variational method of T-matrix for elastic, 24:49542
scattering by helium-4, electromagnetic corrections to, 24:35666
scattering by helium-4, phase-shift analysis of elastic, (E/T), 22:20439
scattering by holmium-165, cross sections for elastic and charge-exchange, 24:52585
scattering by lead-208 at 19 and 40 GeV/c, ratio of real to imaginary part of $\pi + N \rightarrow \pi + N$ scattering amplitude from elastic, (E/T), 24:18222 (INP-686)
scattering by light nuclei, dispersion-relation approach to axial-vector nuclear sum rules and exchange effects in, (T), 25:39108
scattering by light nuclei, spin and isospin effects in Glauber theory for, 24:52400
scattering by light nuclei, spin—isospin formalism for multiple, (T), 24:40410 (RLO-1388-570)
scattering by lithium-6, elastic, 25:15183
scattering by nuclei above 50 MeV, tables for cross sections and total cross sections for elastic and inelastic, (E), 24:20085
scattering by nuclei at 5 to 25 GeV/c, spark chamber for momentum analysis of, 21:16106 (CONF-660918-, pp 39-40)
scattering by nuclei, (T), 24:6969
scattering by nuclei, cross-section calculations using Fermi-liquid model, (T), 23:13331
scattering by nuclei, elementary particle treatment of, (T), 24:15990
scattering by nuclei, forward dispersion relations for, (T), 24:49769
scattering by nuclei, lectures on forward dispersion relations for elastic, (T), 25:56810 (CERN-71-14, pp 155-228)
scattering by nuclei, low-energy theorems for elastic, (T), 25:20019 (LYCEN-7081)
scattering by nuclei, nuclear structure research by, (E/T), 23:9040 (TID-24667, pp 611-25)
scattering by nuclei, optical-model analysis of elastic, 22:3465
scattering by nuclei, review lectures on nonvanishing pions in, (T), 25:56811 (CERN-71-14, pp 289-378)
scattering by nuclei, scattering lengths for, (E/T), 25:9791
scattering by oxygen-16 at medium energies, differential cross sections for elastic, 25:48025
scattering by oxygen-16 at very high energies, composite particle model for elastic, 23:44669 (INP-678)
scattering in nuclear matter, effect of electrical forces in slow, (T), 24:30884
scattering lengths for, SU(3) x SU(3) chiral Lagrangian model for, 25:28037
separation from mesons (K), rejection rate of multiplate separator for, (T), 23:44667 (CERN-69-10)
spallation of copper at 65 MeV, (E), 23:21330(R) (COO-1167-6)
spatial distribution of stopping, in tissues, method for, 25:13547
spectra from K $\rightarrow 3\pi$ decay, current algebra and PCAC predictions of, 21:42330
spectra from $\pi^- + p$ interactions at 7.0 GeV/c in hydrogen bubble chamber, transverse and longitudinal momentum, (E), 23:27757
spectra in cosmic jets, effects on angular and transverse momentum distributions in fireball model, 22:24073
spectra in K $\rightarrow 3\pi$ decays, nonlinear effects on, 22:24614
spectral functions for, model of spin-0, 24:42954
spin-orbit force for p-wave ground state of, Schroedinger equation in nonrelativistic composite model for, (T), 25:28030
structure from $\pi + p$ interactions at 4 GeV/c, composite, (T), 21:13710
structure of, review of electromagnetic, (E/T), 23:51871
sum rules for $A_1\pi$eta and K**Kπ constants, PCAC hypothesis and equal-time commutators for, 22:20227
symmetry for chiral invariant theory for, lectures on algebraic and dynamic, (T), 25:33798
symmetry for massless, O(4), 22:46408
symmetry for, algebraic realization of chiral SU(2) X SU(2), (T), 25:30850 (JINR-P2-5759)
symmetry for, chiral SU(2) x SU(2), 23:27847 (DESY-69/13)
symmetry for, classification of nonlinear representations of SU(2), 23:15186 (ITF-68-56)
symmetry for, dynamical rearrangement of spontaneously broken SU(2) x SU(2), 25:20042
symmetry for, generalization of G-parity in, 23:32795
symmetry for, lectures on chiral, (T), 25:20045
symmetry for, nonlinear realization of SU(3) x SU(3), 23:23512
symmetry for, SU(3) x SU(3) nonlinear chiral dynamic Lagrangian in, 24:37820
symmetry theory for, chiral, 23:8760 (COO-1764-10)
symmetry transformations for, nonlinear and linear realizations of SU(2) X SU(2) chiral, 24:18261
theory as Goldstone boson in composite model, breaking of chiral symmetry for, 24:49361
theory for bound state π rho of ω, (T), 25:38740
theory for bound-state in Σ, 22:24698
theory for πN system, quasipotential formalism for field-theoretic and phenomenological analysis in, (T), 25:59422 (JINR-E2-6046)
theory for Sakata triplet (π, K, eta), Lagrangian in SU(3) symmetry for, 22:17994
theory for urbaryon bound states in Lagrangian model for sub-hadronic fields, 22:17939
theory for, current—field identities in, 25:1504
theory for, Goldberger—Treiman relation for elementarity in, 22:1428
theory for, inclusion of leptons in quark systematics for, 21:37819
theory for, nonrelativistic treatment for composite model in, 21:27366
theory in SU(2) x SU(2) symmetry, Lagrangian method for, 22:5558
trajectories of, N-point functions for unnatural and natural parity, 25:40999
trajectory bootstrap from Veneziano amplitude for sigma $+ \pi \rightarrow 3\pi$ interactions, 24:15556
trajectory conspiracy in vector-meson and $\Delta(1236)$ photoproduction, 24:49393
transport system for beams of, for producing stopped μ, design of superconducting solenoid, 23:8883 (TID-24667, pp 601-2)
transport system for beams of, phase space acceptance of helical quadrupole, 24:20274 (TRI-69-10)
transport system for, for producing stopped meson (μ) beams, design of superconducting solenoid, 23:8883 (TID-24667, pp 601-2)
use for measuring nuclear matter distribution, (T), 22:48594
use for radiotherapy, effects of LET on, 21:28523
use for therapy, rationale for, 25:52122 (A/CONF.49/P-161)
use in radiotherapy, evaluation of properties for, 21:28519 (UCRL-17441)
use of, for therapy of neoplasms, biological characteristics affecting, 21:12891 (BNL-9598)
use of, in medicine and therapy, review of, 21:3429
uses in radiology, review of, 22:12891
vertex function for $A_1\pi\gamma$ from current algebra and Veneziano representation, 25:47851
vertex function for πrhoA$_1$ system, phenomenological current algebra for, 24:15555 (TID-25343)
vertex function for πrhoω, current algebra for ratio of width of $\omega \rightarrow \pi^0 + \gamma$ decay to width of $\pi^0 \rightarrow 2\gamma$ decay from momentum-dependent, (T), 25:36495
vertex function in nonrenormalizable theory of ωrhoπ interactions, ladder approximation for, (T), 25:56483 (JINR-E2-6017)
vertex functions for πrhoA$_1$ system phenomenological current algebra, 25:3376
vertex functions from spurion model and Veneziano formula, 25:53161
vertex πNN, (n-p) mass difference determination from radiative corrections to, (T), 25:17435
vertex structure of A$_1$rhoπ, hard-pion calculation without current algebra for, 25:3361
wave equation for stationary states in mesic atoms, general relativistic scalar field theory in complex Weyl space for, (T), 25:47969
wave function renormalization constants for, relation with masses and decay constants relative to K for, 24:26433
wave function renormalization constants for, review of, 24:43004
width of (rho $\pi\gamma$), cross sections of $\gamma + p \rightarrow$ rho + Δ and $\gamma + n \rightarrow$ rho(ω) + Δ for, (E), 24:49301
MESONS (π^-)
absorption by atoms of helium-3 and nitrogen at rest, meson (π^0) yields in, (E), 22:13929
absorption by carbon, nitrogen, and oxygen, lithium-8 production by, (E), 22:13952
absorption by carbon, tetraneutron production in, (E), 22:13951
absorption by carbon-12 and oxygen-16 with helium-8 production, probability of, (E), 22:20480
absorption by carbon-12 and oxygen-16, particle-hole model analysis of radiative, (T), 25:46144
absorption by carbon-12 at 150 MeV, mass distribution of Z = 1 particles from, (E), 22:32489
absorption by carbon-12 at rest, effects of soft-core potential on, (T), 22:26917
absorption by carbon-12 nuclei, effects of soft-core potential on, (T), 22:20493
absorption by carbon-12 with two-nucleon emission, effects of short-range N—N correlations on, (T), 21:35526
absorption by carbon-12, cluster mechanisms for, (T), 22:32505
absorption by carbon-12, effects of short-range N—N correlations and final interactions on, (T), 22:24685
absorption by carbon-12, nitrogen-14, and oxygen-16, analysis of three-prong events in, (E), 24:45742
absorption by carbon-12, prompt γ spectra from, (E), 24:52444
absorption by correlated nucleon pairs in complex nuclei, (T), 21:7478(R) (COO-1371-36)
absorption by helium-3, description including nuclear correlations by realistic nucleon-nucleon forces, (T), 22:26828
absorption by light nuclei at rest, with two-nucleon emission, (E), 22:13945
absorption by light nuclei with nucleon emission, effects of nuclear distortion on, (T), 22:18350
absorption by lithium-6 at rest, with emission of nucleon pair, (T), 22:20479
absorption by lithium-6, analysis for cluster effects in, (T), 24:45738
absorption by lithium-6, α spectra from, (E), 22:14116
absorption by lithium-6, momentum distribution of alpha particles from, (T), 23:21376 (ZFK-130, pp 58-69)
absorption by nuclei at 20 to 60 GeV/c, cross sections for, (E), 25:5265 (CONF-700314-, Paper 4)
absorption by nuclei at 20 to 65 GeV/c, cross sections for, (E), 25:5295
absorption by nuclei with emission of two nucleons, (T), 22:27238
absorption by nuclei with two-nucleon emission, effects of short-range N—N correlations on, (T), 21:35526
absorption by nuclei, multiple-scattering effects on nucleon-nucleon correlations from, (T), 24:6952
absorption by nuclei, particle-hole model analysis of radiative, (T), 25:46144
absorption by nuclei, relation of radiative, to μ^- capture, 22:5552
absorption by nuclei, rescattering effects in radiative, (T), 23:42983
absorption by nuclei, shell-model calculation of, (T), 25:50856
absorption by nuclei, short-range nucleon—nucleon correlations from shell-model description of, 25:9982
absorption by nucleon pairs in carbon-12 and oxygen-16, two-nucleon emission process in, 21:25449
absorption by nucleon pairs in lithium-6, (T), 21:4223
absorption by nucleon pairs in nuclei, nucleon recoil energy distributions and rates of, 21:25584
absorption by oxygen, particle energy spectra for, (E), 22:9781
absorption by oxygen-16, rescattering effects in radiative, (T), 23:42983
absorption in deuterium, energy level shift in π-mesic atom from, 25:55833
absorption in polyethylene, at 70 MeV ionization curves for, (E), 25:42141
absorption in tissue-equivalent material, (E), 22:43324
absorption of s-orbit bound, by correlated nucleon pairs in helium-4, (T), 22:5755 (TID-24141)
absorption rate for 1s and 2p bound states in carbon-12, 25:9982
absorption rate for 1s and 2p bound states in oxygen-18, 25:9982
absorption rate for 1s and 2p bound states in oxygen-16, 25:9982
beam profile of, computer-based wire proportional detector system for monitoring, 25:13297 (JINR-P13-5473)
capture by aluminum, carbon, nitrogen, and oxygen, for cancer therapy, number and energy spectra of particles emitted in, (T), 23:8940
capture by aluminum-27, carbon-12, and lithium-7, proton, deuteron, and triton spectra from, (E), 25:31213
capture by aluminum-27, carbon-12, helium-4, and lithium-7, charged particle spectra from, (E), 24:52407
capture by argon in mixtures with hydrogen, 23:8481
capture by atoms and molecules, effects of chemical bonding on, review, 23:18450
capture by atoms, line shifts, widths, and intensities of x-ray spectra from, (E), 24:49011
capture by atoms, measurement and optical-model analysis of line shifts and widths in x-ray spectra from, 23:25135 (UCRL-18654)
capture by calcium, carbon, and oxygen, neutron spectra from radiative, (E), 25:31273

capture by calcium-40, carbon-12, oxygen-16, and zirconium-90, analysis using particle-hole model, (T), 25:31217
capture by carbon-12 at low energies in emulsions, energy spectra and angular correlations for lithium-8, helium-3, and neutron production in, (E), 24:1763
capture by carbon-12 in emulsions, tetraneutron production from, (E), 21:31709 (JINR-P1-3306)
capture by carbon-12, calculation using impulse approximation with Cohen-Kurath wave functions, (T), 25:59730
capture by carbon-12, calculations of γ and neutron spectra using Kamimura—Ikeda—Arima model of giant resonance for, (T), 22:50555
capture by carbon-12, nitrogen-14, and oxygen-16 at low energies in emulsions, beryllium-8 and lithium-8 in two- and three-particle production from, (E), 24:1763
capture by carbon-12, nitrogen-14, and oxygen-16, many-body reactions leading to lithium-8 production in, (E), 23:37109 (JINR-E1-4492)
capture by carbon-12, nitrogen-14, and oxygen-16, helium-8 production from, (E), 21:38233 (JINR-P1-3372)
capture by carbon-12, nitrogen-14, and oxygen-16, yields for boron-8, helium-8, and lithium-8 in, (E), 23:21277 (ZFK-130, pp 222-3)
capture by carbon-12, nitrogen-14, and oxygen-16, relative probabilities for lithium-8 production in, (E), 24:52443
capture by carbon-12, relative yields and capture-rate ratios from, (E), 25:12395
capture by carbon-12, self-consistent reaction matrix calculation of rate for, (T), 24:38106
capture by chemical compounds, effects of composition on probabilities of, (E), 23:25135 (UCRL-18654)
capture by compound nuclei, pole model for, (T), 22:32676
capture by compounds and mixtures, effects of chemical and physical state on x-ray spectra from, (E), 24:25985
capture by deuterium from hydrogen in D—H gas, phenomenological model for, 23:20691
capture by deuterium—hydrogen and helium—hydrogen mixtures, (E), 21:2042
capture by helium atoms, properties of metastable states formed in, 23:39311
capture by helium in mixtures with hydrogen, 23:8481
capture by helium-3 and lithium-6, use of Kroll—Ruderman theorem for radiative, 22:50413
capture by helium-3, PCAC hypothesis for radiative, 22:9617
capture by helium-3—nitrogen mixtures, meson (π^0) yields from, 21:28956 (JINR-P1-3255)
capture by helium-4, carbon-12, and oxygen-16, soft-pion theorem for, 24:49773
capture by helium-4, proton, deuteron, and triton spectra from, 25:20255
capture by helium-6, elementary-particle treatment of radiative, 24:52461
capture by hydrogen in chemical compounds, 23:5221
capture by hydrogen in chemical compounds, probability of, (E), 22:41290 (JINR-P13-3870)
capture by hydrogen in hydrogenous substances, (E), 22:15679 (JINR-P13-3653)
capture by hydrogen in hydrogenous substances, large mesomolecule model for, 23:12536
capture by hydrogen, use of E(2) algebra for solution to Leon—Bethe model for, 23:49163
capture by hydrogen, x-ray spectrum from, (E), 25:5288
capture by light nuclei, particle energy spectra from, (T), 23:7281(R) (ORNL-4280)
capture by lithium, gamma-neutron emission from, (E), 21:1027 (JINR-P-2901)
capture by lithium-6 and lithium-2, branching ratios for, (E), 23:25820
capture by lithium-6 at rest, rate calculations using cluster α-d model, (T), 23:8947
capture by lithium-6, elementary particle treatment of, (T), 24:28561 (LYCEN-7005)
capture by lithium-6, test of analogy with μ^- capture by lithium-6 from rate of radiative, (E), 22:26572
capture by neon in mixtures with hydrogen, 23:8481
capture by nickel-58 at 15 MeV, double charge exchange in, (E), 22:46335 (JINR-P1-3946)
capture by nitrogen in mixtures with hydrogen, 23:8481
capture by nuclei at 15 MeV in emulsions, double charge exchange in, (E), 22:46335 (JINR-P1-3946)
capture by nuclei, analysis of two-nucleon emission in, (T), 24:30941
capture by nuclei, conference on, 21:41819
capture by nuclei, excitation of giant resonance analogs in, 24:52679
capture by nuclei, relation between axial currents in nuclei and radiative, (T), 23:42981
capture by nuclei, soft-pion theorem for analogy between meson capture and radiative, 24:49773
capture by nuclei, soft-pion theorem for radiative, 24:49773
capture by nuclei, use for observing volume collective excitations in nuclear matter, (T), 22:53224
capture by oxygen-16 and silicon-28, neutron and γ spectra from, (E), 24:52447
capture by oxygen-16 and silicon-28, neutron spectra from radiative, (E), 25:31216
capture by oxygen-16, calculations for partial rates and γ spectra for, (T), 23:28250
capture by oxygen-16, interpretation as giant resonance process, (T), 22:48457
capture by oxygen-16, particle energy spectra from, (T), 23:7281(R) (ORNL-4280)
capture by oxygen-16, rescattering effects in radiative, (T), 25:31217
capture by Z = 3 to 82 nuclei with charged particle emission, particle spectra and branching ratios for, (E), 25:28178
capture from s-orbit of helium-4, 22:24822
capture in gaseous helium-3, cascade time of, 21:11431
capture in mixtures of hydrogen and deuterium, 23:3250 (JINR-P1-4036)
capture rate for helium-3, two-nucleon Hamiltonian for calculation of, 23:28238
capture rates for light nuclei with J = 0+, T = 0 ground states, (T), 23:5805
charge of, magnitude relative to K^+ and K^-, (T), 21:33627
decay in flight, differential Cherenkov counter study of lifetime from, (E), 23:51907 (UCRL-19300)
decay of $\pi^+ - \pi^-$ atoms, probability for $\pi^0 + \pi^0$ production from, (T), 23:46643(T) (SLAC-Trans-97)
decay of, current algebra consistency determination from conserved vector and iso-triplet current hypotheses for, 21:2441
decay of, energy loss from massive high-temperature and -density stars from muonic neutrino emission from, (T), 23:49175
decay of, formula for kinetic masses of τ/sub e/, τ/sub μ/, e^-, and e^+ from, 22:29646
decay of, τ/sub μ/ mass effects for invariance of matrix elements for, (T), 22:11643
decay of, scintillation counter study of μ^- anomalous g-factor from, (E), 22:22268 (CONF-670923-, pp 48-56)
decay of, test of CPT theorem from π^+/π^- lifetime ratio from Cherenkov counter study of, (E), 24:10797
decay of, test of CPT theorem from time-of-flight spectrometer study of, 22:41742 (JINR-P1-3862)
decay $\pi^- \rightarrow l$ + anti $\tau + \gamma$, charged W-boson for weak structure effects in, (T), 24:49424
decay $\pi^- \rightarrow e$ + anti τ, use of current algebra for radiative corrections to, 22:26619
decay $\pi^- \rightarrow e^-$ + anti τ, current algebra for, 22:20171
decay $\pi^- \rightarrow e^-$ + anti τ/sub e/ + $e^+ + e^-$, time-reversal violation in radiative, 23:23445
decay $\pi^- \rightarrow e^- + \tau + \gamma$, form factor, Schwinger, and quasilocal terms in axial part of, 22:44394
decay $\pi^- \rightarrow e^- + \tau$, form factor, Schwinger, and quasilocal terms in axial part of, 22:44394
decay $\pi^- \rightarrow l + \tau + \gamma$, low-energy theorem for, 21:44333
decay $\pi^- \rightarrow l^- + \tau$, divergence of radiative corrections in, 23:7128
decay $\pi^- \rightarrow \mu$ + anti τ, quartet composite model for effective Hamiltonian for, 24:3610
decay $\pi^- \rightarrow \mu^-$ + anti τ, associative algebraic model for, 23:21085
decay $\pi^- \rightarrow \mu^-$ + anti τ, mass of τ from μ^- polarization in, 25:59257
decay $\pi^- \rightarrow \mu^- \rightarrow e^-$ in upper atmosphere, 21:9734
decay $\pi^- \rightarrow \mu^- + \tau$, data tabulations for kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
decay $\pi^- \rightarrow \tau + l^- + \gamma$, sign of structure-dependent form factors in, (T), 25:36469
decay $\pi^- \rightarrow \pi^0 + e$ + anti τ, finiteness of radiative corrections to, 21:37772
decay $\pi^- \rightarrow \pi^0 + e$ + anti τ, finiteness of radiative corrections to, 21:35288 (NP-16868)
decay $\pi^- \rightarrow \pi^0 + e$ + anti τ, strong interaction effects in radiative corrections to, 22:39350
decay $\pi^- \rightarrow \pi^0 + e$ + anti τ, three-point functions and sum rule from radiative corrections to, 24:33001
decay $\pi^- \rightarrow \pi^0 + e$ + anti τ, use of current algebra for radiative corrections to, 22:26619
decay $\pi^- \rightarrow \pi^0 + e + \tau$, radiative correction to, 21:44339
decay $\pi^- \rightarrow \pi^0 + e + \tau$,electromagnetic corrections to weak $\Delta S = 0$ vector coupling constant for, 21:25265
decay $\pi^- \rightarrow \pi^0 + e^-$ + anti $\tau + \gamma$, relation of γ—3π coupling constant to structure function for, (T), 24:47419
decay $\pi^- \rightarrow \pi^0 + e^-$ + anti τ electron mass for rates of, 21:909
decay $\pi^- \rightarrow \pi^0 + e^-$ + anti τ relative to eta $\rightarrow \pi^+ + e^-$ + anti τ, weak hadronic currents in extended Cabibbo model, 23:23437
decay $\pi^- \rightarrow \pi^0 + e^-$ + anti τ, electromagnetic corrections and current algebra for, 21:44332
decay $\pi^- \rightarrow \pi^0 + e^-$ + anti τ, electron mass for rates of, 21:909
decay $\pi^- \rightarrow \pi^0 + e^-$ + anti τ, radiative corrections for rate of, 23:39657
decay $\pi^- \rightarrow \pi^0 + e^-$ + anti τ, review of radiative corrections to, 22:7476 (ISS-67/29)
decay $\pi^- \rightarrow \pi^0 + e^-$ + anti τ, second-order radiative corrections for, 23:44614 (IC-69/85)
decay $\pi^- \rightarrow \pi^0 + e^- + \tau$, current algebra and CVC for coupling constants in, 21:21196
decay $\pi^- \rightarrow \pi^0 + e^- + \tau$, electromagnetic field effect on probability for, (T), 23:23434
decay $\pi^- \rightarrow \pi^0 + e^- + \tau$, quantum numbers of fields underlying current algebra for radiative corrections to, 21:29492
decay $\pi^- \rightarrow \pi^0 + e^- + \tau$, use of current algebra for radiative corrections to, 22:17894
decay $\pi^- \rightarrow \pi^0 + e^- + \tau$, vector-meson dominance for, 21:37787
decay $\pi^- \rightarrow \pi^0 + l + \tau$, current algebra for meson and baryon weak form factors for generalized Callan—Treiman relations for, (T), 25:17456
decay $\pi^- \rightarrow l^-$ + anti$\tau + \gamma$, electromagnetic form factor effects on branching ratio for, (T), 24:47412
decay $\pi^- \rightarrow l^-$ + antiτ, electromagnetic form factor effects on branching ratio for, (T), 24:47412
depth-dose distribution in water phantoms, calculated and measured, 22:33828
depth-dose distribution in water, use of lithium-drifted silicon detectors for measuring, 21:8626 (UCRL-16924)
design of secondary beams of, angular and momentum distributions from γ + p interactions below 5.8 GeV in hydrogen bubble chamber for, 21:27292
detection and measurement of 3.0 MeV, threshold Cherenkov detector for, 23:2653
detection and spectroscopy of, liquid argon ionization chamber for, 25:13211 (JINR-P13-5402)
detection of, detector for discrimination from electrons in, 21:26150 (MIT-2098-299, pp 35-51)
detection of, review of experiments on, 23:23456
dose distribution in silicon detector at 65 MeV, 22:49127 (ORO-3343-2)
dose distribution in tissues, 25:52152 (UCRL-20836)
dose distribution in water at 65 and 91 MeV, 22:49127 (ORO-3343-2)
dose to tissues at 10 to 2000 MeV, calculation of, 25:20226
dosimetry for radiotherapy, use of silicon semiconductor detectors and water phantoms for, 23:8002 (UCRL-18066, pp 108-22)
dosimetry for therapy, physical and biological methods for, 25:21711
dosimetry in tissues for use for therapy of human carcinomas, 24:44578
dosimetry of, method for, 23:14163(T) (UCRL-Trans-1351(Rev.))
dosimetry of, method for, 21:11002 (BNL-10722)
dosimetry of, use of spherical tissue-equivalent proportional counters for, 21:19976 (CERN-66-33)
effectiveness for tumor therapy, 25:49268
effects of, on genetics of lymphoma ascites cells in mice, effect of peak and plateau regions of beam, 21:12809 (UCRL-16898, pp 11-13)
effects on ascites tumor cells in mice, RBE of 90-MeV, 22:31220
effects on ascites tumor cells, RBE of, 22:33905 (ORO-3343-1, Paper 5)
effects on corn, RBE for cytogenetic, 22:12838
effects on deep tissues, RBE of, 22:8599 (CONF-670305-, pp 346-8)
effects on diploid yeast cells, OER and RBE for mutagenic, 25:55165
effects on growth of Vicia faba roots, combined effects of temperature on oxygen enhancement ratio for, 24:14624
effects on growth of Vicia, effects of oxygen on, 24:29892 (UCRL-18793, pp 92-9)
effects on lymphoma ascites cells in mice, 24:29845 (UCRL-18793, pp 105-12)
effects on man, evaluation of therapeutic, 22:8600 (CONF-670305-, pp 368-81)
effects on ploidy of ascites lymphoma cells of mice, RBE for, 22:33902 (ORO-3343-1, Paper 3)
effects on ploidy of mammalian cells, RBE of, 22:31051
effects on proliferation of lymphoma cells in mice, RBE for, 22:33903 (ORO-3343-1, Paper 4)
effects on spermatogonia in mice, estimation of RBE for lethal, 25:52228
effects on survival of ascites tumor cells in mice, RBE for, 25:26938
effects on survival of cultured cells, review, 25:24271 (LA-4602)
effects on survival of cultured human lymphocytes, effects of oxygen on, 25:46946 (UCRL-20680)
effects on survival of human kidney cells, prediction of oxygen-enhancement ratio for in vitro, 25:44774
effects on tissues in relation to use in therapy, 24:7963 (UCRL-18806)
effects on tissues, effects of LET at target on oxygen independence of, 22:8600 (CONF-670305-, pp 368-81)
effects on tumors, therapeutic, 22:8599 (CONF-670305-, pp 346-8)
electromagnetic radius from $\pi^- + e^- \rightarrow \pi^- + e^-$ interactions at 50 GeV/c, filmless spark chamber study of, (E), 24:10654 (JINR-E1-4786)
emission from nucleon reactions with aluminum, lead, and oxygen at 750 to 2000 MeV, analytic representation of spectra for, 22:46459 (ORNL-TM-2277)
energy deposition in water at 160 to 220 MeV/c as function of depth, 25:19757 (ORNL-4584, pp 58-73)
energy loss in homogeneous absorber, calculation of straggling distribution of, 23:1613
energy loss in thin silicon detectors at 370 MeV, (E), 22:11547
energy-loss distribution in water phantoms, calculation of LET, 22:33828
evaluation for radiotherapy, 25:19078
evaluation for use in therapy, 22:4646
exchange in N + N $\rightarrow$ N + N and anti N + N $\rightarrow$ anti N + N interactions, dispersion theoretic calculation of two-body, 22:39383
exchange in n + p $\rightarrow$ p + n and anti p + p $\rightarrow$ anti n + n interactions at high energies, 21:29533
exchange of soft nonchiral pseudoscalar π^-—π^+ pairs for momentum-transfer-dependent damping of nucleon form factors, virtual, (T), 25:1529 (NYO-2262-TA-224)
field theory for massless, geometrization of complex scalar, 22:18010
form factor effects on $\pi^- + p \rightarrow e^+ + e^- + n$ interactions, electromagnetic, (E/T), 23:51829 (JINR-P2-4561)
form factor from $K^0 \rightarrow \pi^- + \mu^+ + \tau$ decay, electromagnetic, (T), 22:5554
form factor from $\pi^- \rightarrow e^- + \tau + \gamma$ and $\pi^- \rightarrow e^- + \tau$ decay, electromagnetic, (T), 22:44394
form factor from π^- elastic scattering differential cross sections for helium-4, (T), 25:12225
form factor slope from $\pi^- + p \rightarrow n + e^+ + e^-$ interactions, (E), 23:27736 (NP-17880)
interaction $\pi^- + p \rightarrow n$ + eta at 804 MeV/c, branching ratio eta $\rightarrow$ neutrals/eta $\rightarrow$ total from, (E), 25:38675
interactions at 17 GeV in emulsions, method for determining primary energy for cosmic jet production from, (E/T), 23:16930
interactions at 17.2 GeV/c, azimuthal symmetry of particles in showers produced from, (E/T), 25:14565
interactions $e^- + \pi^+(\pi^-) \rightarrow e^- + \pi^+(\pi^-)$, dispersion relation and sum rules for π form factor in, 23:32662
interactions $\gamma + \pi^- \rightarrow \gamma + \pi^-$, zero-mass-limit for low-energy theorems and Veneziano parametrization for amplitude of Compton, 23:51883 (UCRL-19220)

interactions in emulsion nuclei at 210 to 375 MeV, cross sections for π production and double charge exchange in, (E), 22:48228 (JINR-P1-3947)
interactions in emulsions at 17.2 GeV/c, Σ and K production in secondary and primary, (E), 22:32069
interactions in nuclear emulsions at 16.2 GeV/c, cross sections for direct production of electron—positron pairs in, 22:26570
interactions in nuclear emulsions at 17.2 GeV, multiplicities and angular distributions for, (E), 24:10682
interactions in nuclear emulsions at 20 GeV/c, energy estimations from angular distribution of secondaries in, (E), 25:3284
interactions in xenon at 9 GeV, π^0 production from, (E), 22:41751
interactions $K^+ + \pi^- \rightarrow K^0 + \pi^0$, cross section from Chew—Low extrapolation of $K^+ + p \rightarrow K^0 + p + \pi^+ + \pi^0$ interactions, 24:30502 (CONF-690521-, pp 487-507)
interactions $K^+ + \pi^- \rightarrow K^0 + \pi^0$, cross sections for Chew—Low extrapolation of $K^+ + p \rightarrow K + \pi + N$ interactions, (E/T>), 25:5369
interactions $K^+ + \pi^- \rightarrow K^+ + \pi^-$ in $K^+ + p \rightarrow K^+ + \pi^- + \Delta^{++}$ interactions at 5.43 GeV/c in bubble chamber, cross sections for, (E), 25:17381
interactions $K^+ + \pi^- \rightarrow K^+ + \pi^-$, cross sections from Chew—Low extrapolation of $K^+ + p \rightarrow K^+ + p + \pi^+ + \pi^-$ interactions, 24:30502 (CONF-690521-, pp 487-507)
interactions $K^+ + \pi^- \rightarrow K^+ + \pi^-$, cross sections from Chew—Low extrapolation of $K^+ + p \rightarrow K + \pi + N$ interactions, (E/T), 25:5369
interactions $K^- + \pi^- \rightarrow K^- + \pi^-$, $K^- + n \rightarrow K^- + \pi^- + p$ interactions at 12.6 GeV/c in bubble chamber for determining cross sections of, (E), 25:9658 (TID-25611)
interactions $K^- + \pi^-$ at low energies, cross section for, 24:30456 (CONF-690521-, pp 446-76)
interactions $K^- + \pi^-$ from $K^- + d \rightarrow K^- + \pi^- + p + p$ at 5.5 GeV/c, cross section for, (E), 24:42882
interactions $K^- + \pi^-$ from $K^- + n \rightarrow K^- + \pi^- + p$ interactions at 12.6 GeV/c, cross section for elastic, 25:33567
interactions $K^- + \pi^-$ from $K^- + p \rightarrow K^- + p + \pi^- + \pi^+$ interactions at 4.6 and 5.0 GeV/c, total and elastic cross sections for, (E/T), 23:8742
interactions $K^- + \pi^-$, cross section evaluation from $K^- + p \rightarrow K^- + p + \pi^- + \pi^+$ interactions at 4.6 and 5.0 GeV/c in hydrogen bubble chamber, 21:31534
interactions $K^+ + \pi^-$, total cross section and phase shifts from Chew—Low extrapolation of $K^+ + p \rightarrow K^+ + \pi^- + \Delta^{++}$ interactions, 24:30503 (CONF-690521-, pp 508-19)
interactions of, multiple rescattering effects on cross sections for charge-exchange, (T), 25:53051 (JINR-P2-5752)
interactions of, operatorial construction of 4π and 6π amplitudes of, (T), 24:42942 (COO-264-552)
interactions on nuclei at 16 GeV/c, coherent production of three and five pion final states in, 22:9519
interactions $\pi + p \rightarrow n + 2\pi^0$ at 895 MeV, spark chamber study of cross sections for, 21:33620
interactions $\pi^- + (Z,N) \rightarrow K^0 + (Z-1,N, A)$, tests of unitary symmetry in nuclei by, 21:33750
interactions $\pi^- + {}^{12}C \rightarrow {}^{12}B + m\pi^0$ at 4 GeV/c, cross sections for, (E), 24:18087
interactions $\pi^- + {}^3He \rightarrow {}^3H + \pi_0$, soft-pion hypothesis for, 24:13120
interactions $\pi^- + {}^3He \rightarrow \gamma + t$, PCAC hypothesis for, 22:9617
interactions $\pi^- + {}^3He \rightarrow \pi^- + 3n$ at 10.8 GeV/c, spin dependence in Glauber eikonal approximation for differential cross sections and inelastic contributions to, 24:24395
interactions $\pi^- + {}^4He \rightarrow {}^4He + rho^-$, verification of vector dominance in, (T), 25:12140
interactions $\pi^- + {}^6Li \rightarrow {}^4He + \gamma$, soft-pion hypothesis for, 24:13120
interactions $\pi^- + A_1^+ \rightarrow \pi^- + A_1^+$ in Veneziano model, universal rho coupling and Alder—Weisberger theorem for, 23:46700
interactions $\pi^- + \alpha$, optical model analysis of pion form factor effects on elastic, 22:44370
interactions $\pi^- + d \rightarrow 2n + \gamma$, n—n s-wave scattering length from, (E), 21:37653(K) (UCLA-34-P-106-1)
interactions $\pi^- + d \rightarrow 2n + \gamma$, n—n scattering length from, (E), 22:44333
interactions $\pi^- + d \rightarrow 2n + \gamma$, n—n scattering length from, (E), 22:50300
interactions $\pi^- + d \rightarrow 2p + \pi^+ + 3\pi^- + \pi^0$ at 7 GeV/c in deuterium bubble chamber, I = 2 meson production in, (E), 22:46337 (UR-875-249)
interactions $\pi^- + d \rightarrow 2p + \pi^+ + 3\pi^-$ at 7 GeV/c in deuterium bubble chamber, I = 2 meson production in, (E), 22:46337 (UR-875-249)
interactions $\pi^- + d \rightarrow 2\pi^+ + 2p$ at 2.3 GeV/c, production of $N^*(1670)$ in, (E), 24:45431
interactions $\pi^- + d \rightarrow 2\pi^- + \pi^0 + 2p$ at 2.3 GeV/c, (E), 24:45431
interactions $\pi^- + d \rightarrow 2\pi^- + \pi^+ + n + p$ at 2.3 GeV/c, Δ^- + rho^0 and $\Delta^- + \pi^- + \pi^+$ final states and isospin-5/2 $N^*(1645)$ resonance production in, (E), 24:45431
interactions $\pi^- + d \rightarrow d + \pi^- + \pi^0 + \gamma$, isotopic ratio for particles referring to one isotopic multiplet for, 23:34566 (JINR-P2-4382)
interactions $\pi^- + d \rightarrow d + \pi^- + \pi^0$, possible experiments for test of isospin invariance of, 22:48300
interactions $\pi^- + d \rightarrow d + \pi^- + \pi^0$, strong interaction isospin invariance check from, (T), 22:22381 (JINR-P2-3691)
interactions $\pi^- + d \rightarrow d + \pi^- + \pi^+ + \pi^-$ at 5 GeV/c, Reggeized π-exchange model for analysis of, (E/T), 24:3538
interactions $\pi^- + d \rightarrow \Delta^0(1246) + A$, $\Delta T = 1/2$ rule for, 21:33703
interactions $\pi^- + d \rightarrow \gamma + n + n$, amplitude for, (T), 22:35007
interactions $\pi^- + d \rightarrow K^+ + (\Sigma^- n)$ at 1.15 GeV/c, upper limit on cross section for, (E), 24:40280
interactions $\pi^- + d \rightarrow n + n + \gamma$, triple coincidence measurements on, (E), 23:3931
interactions $\pi^- + d \rightarrow n + n$ and $\pi^- + d \rightarrow n + n + \gamma$, branching ratio for, 21:31537
interactions $\pi^- + d \rightarrow n + n$ and $\pi^- + d \rightarrow n + n + \gamma$, probability ratio for, (E), 21:7462 (JINR-P1-2996)
interactions $\pi^- + d \rightarrow p + n + \pi^- + \pi^- + \pi^+$ at 2.6 GeV/c, I = 5/2, $n\pi^-\pi^-(1580)$ enhancement in, (E), 23:25532
interactions $\pi^- + d \rightarrow p + p + \pi^- + \pi^- + \pi^0$ at 2.26 GeV/c, enhancements in, (E), 23:8735 (COO-1764-22)
interactions $\pi^- + d \rightarrow p + p + \pi^- + \pi^- + \pi^0$ at 5.04 GeV/c, charged rho production in association with Δ^0 in, (E), 23:3654
interactions $\pi^- + d \rightarrow p + p + \pi^- + \pi^- + \pi^0$ at 5.04 GeV/c in bubble chamber, production cross section for rho$^-\pi^-$ (1.32 GeV) enhancement in, 21:25245
interactions $\pi^- + d \rightarrow p + p + \pi^- + \pi^- + \pi^0$, rho$^-\pi^-$ enhancements at 970, 1080, and 1160 MeV in, (E), 23:7081 (COO-1764-17)
interactions $\pi^- + d \rightarrow p + p + \pi^- + \pi^-$ at 7 GeV/c in deuterium bubble chamber, s-wave and d-wave I = 2, $\pi + \pi$ phase shifts from, (E), 23:42560 (UR-875-282)
interactions $\pi^- + d \rightarrow p + p + \pi^-$ + rho$^-$ at 7 GeV/c in deuterium bubble chamber, upper limit for π^-rho$^-$ resonance production in, (E), 24:21941
interactions $\pi^- + d \rightarrow \pi^- + d$ at 895 MeV/c, magnetostrictive wire spark chamber system for studying, 24:25298 (INFN/AE-69/7)
interactions $\pi^- + d \rightarrow \pi^- + d$ at 9.0 to 15.2 GeV/c, scintillation counter and wire spark chamber study of differential cross sections of coherent, (E), 24:12955
interactions $\pi^- + d \rightarrow \pi^- + d$ at 994 MeV/c, differential cross sections for, (E), 23:36842
interactions $\pi^- + d \rightarrow \pi^- + d$, eikonal approximation for inelastic contributions to, 24:37815
interactions $\pi^- + d \rightarrow \pi^- + d$, spin dependence in Glauber eikonal approximation for inelastic contributions to, 24:24395
interactions $\pi^- + d \rightarrow \pi^- + \pi^+ + p + p$ at 7 GeV/c, $\pi^-\pi^+$ phase shifts and mass enhancement from, (E), 23:42562
interactions $\pi^- + d \rightarrow \pi^- + \pi^+ + \pi^- + d$ at 3.2 to 5 GeV/c in deuterium bubble chamber, experimental features of coherent, 25:47757
interactions $\pi^- + d \rightarrow$ rho + Δ at 1 GeV, $\Delta\Delta$ content of d from cross sections for, (T), 25:38758
interactions $\pi^- + d \rightarrow \Sigma^- + n + K^+$, missing-mass spectrometer study of upper limit on differential cross section for $(\Sigma^- n)$ bound state production in, (E), 24:6694
interactions π^- + d at 0.5 to 2.65 GeV/c, total cross sections for, 22:26568
interactions π^- + d at 0.9 to 2.4 GeV/c, total cross sections for, (E), 24:37655
interactions π^- + d at 1.0 to 3.3 GeV/c, scintillation and differential Cherenkov counter study of total cross section and resonance production in, (E), 22:29634
interactions π^- + d at 16 GeV, nuclear screening in inelastic, (T), 25:7689
interactions π^- + d at 16 GeV/c, nuclear screening in inelastic, (E/T), 24:33021
interactions π^- + d at 2.01 to 5.53 GeV/c, differential cross sections for elastic, (E/T), 24:20079
interactions π^- + d at 2.01 to 5.53 GeV/c, spectrometer and scintillation counter study of differential cross sections for elastic, (E), 23:32631
interactions π^- + d at 20 to 65 GeV/c, total cross sections for, (E), 24:5258
interactions π^- + d at 20 to 65 GeV/c, total cross sections for, (E), 25:5295
interactions π^- + d at 20 to 65 GeV/c, total cross sections for, (E), 25:45666 (IFVE-SEF-69-87)
interactions π^- + d at 3.15 GeV/c in deuterium bubble chamber, neutron cross sections and $K^*(890)$, $\Sigma(1385)$, and $K\pi\pi(1200)$ enhancement in, (E), 25:19922
interactions π^- + d at 3.75 GeV/c, differential cross sections for elastic, (E), 23:7085 (COO-1764-18)
interactions π^- + d at 5.53 GeV/c, differential cross sections for inelastic, (E), 23:49053
interactions π^- + d at 5.53 GeV/c, momentum spectra in, (E), 25:9634 (COO-1764-115)
interactions π^- + d at 895 MeV/c, differential cross section for coherent, (E), 23:7099
interactions π^- + d at 9 GeV/c, Glauber multiple scattering model for elastic, (E/T), 25:59269
interactions π^- + d at low energies, analyticity properties of amplitudes for elastic, (T), 21:13714
interactions π^- + d, at high energies, charge independence in, (T), 22:37168
interactions π^- + d, compilation of cross sections for, 25:30735 (CERN-HERA-70-7)
interactions π^- + d, cross sections for elastic, (E), 23:10817
interactions π^- + d, optical model analysis of pion form factor effects on elastic, 22:44370
interactions $\pi^- + e \rightarrow \pi^- + e + \gamma$, bremsstrahlung circular polarization from, (T), 22:7470
interactions $\pi^- + e \rightarrow \pi^- + e$ at high energies, differential and integral cross sections for elastic, (T), 22:9547
interactions $\pi^- + e \rightarrow \pi^- + e$, radiative corrections with finite particle energy, angle of recoil emission, and momentum coplanarity restrictions on, (E/T), 23:42591 (JINR-P4-4532)
interactions π^- + e at 16.2 GeV in emulsions, knockon electrons and electron pair production from, (E), 21:46463
interactions π^- + e at 16.2 GeV/c in nuclear emulsion, absolute cross sections for, (E), 25:3253
interactions $\pi^- + e^- \rightarrow \pi^- + e^-$ at 50 GeV/c, filmless spark chamber study of meson (π^-) electromagnetic radius from, (E), 24:10654 (JINR-E1-4786)
interactions $\pi^- + n \rightarrow A^+ + K^+ + \pi^-$ at 7 GeV/c, $K^*(890)$ and $K^*(1420)$ production in, (E), 25:40898
interactions $\pi^- + n \rightarrow A^+ + K^+ + \pi^-$ at 7 GeV/c, mass spectrum from, (E), 25:40898
interactions $\pi^- + N \rightarrow \mu^+ + \mu^- + ...$ in lithium hydrides at 11.2 GeV/c, thin-foil and thick-plate spark chamber study of rho branching ratio from, 21:31532
interactions $\pi^- + N \rightarrow N$ + rho + π at 5.1 GeV/c, production mechanism and mass spectra for, (E), 25:38678
interactions $\pi^- + n \rightarrow \omega + p$ above 3 GeV/c, ω production and decay in, (T), 21:4052
interactions $\pi^- + n \rightarrow p + k\pi$, proton momentum spectra from duality diagrams for, 25:53193
interactions $\pi^- + n \rightarrow p + \pi^- + \pi^- + \pi^0$ at 5 GeV/c, $p\pi\pi$ enhancements in, (E), 22:29632
interactions $\pi^- + n \rightarrow p + \pi^- + \pi^- + \pi^0$ at 5 GeV/c, $p\pi$ enhancements in, (E), 22:29633
interactions $\pi^- + n \rightarrow p + \pi^+ + \pi^- + \pi^- + \pi^- + \pi^0$ at 7 GeV/c in deuterium bubble chamber, search for I = 2 multipion resonances in, (E), 22:52938
interactions $\pi^- + n \rightarrow p + \pi^+ + \pi^- + \pi^- + \pi^-$ at 7 GeV/c in deuterium bubble chamber, search for I = 2 multipion resonances in, (E), 22:52938
interactions $\pi^- + n \rightarrow p + \pi^- + \pi^-$ at 2.26 GeV/c, N(1667) production and decay in, (E), 24:12958
interactions $\pi^- + N \rightarrow \pi + \pi + \pi$ + N, rho and ω production in, (T), 22:17971
interactions $\pi^- + N \rightarrow \pi^+ + \Delta(1236)$ in nuclei, production of isonuclei and mechanism for, (T), 22:32155
interactions $\pi^- + n \rightarrow \pi^- + n + 2\gamma$ at high energies, bremsstrahlung amplitudes for, (T), 23:39644 (ITF-69-38)
interactions $\pi^- + n \rightarrow \pi^- + n + \gamma$ at high energies, method for determining properties of effective space—time regions of, (E), 23:39644 (ITF-69-38)
interactions $\pi^- + n \rightarrow \pi^- + n + \gamma$, possibility of experimental data on asymptotic behavior of effective space—time domain of, 22:26649 (JINR-P2-3590, pp 158-68)
interactions $\pi^- + N \rightarrow \pi^- + N + n\gamma$ at high energies, range and times for, (T), 24:6720
interactions $\pi^- + n \rightarrow \pi^-$ + n at 1.38 to 4.05 GeV/c, spark chamber study of cross sections for backward elastic, (E), 22:13659
interactions $\pi^- + n \rightarrow \pi^-$ + n at 1.5 to 3.8 GeV/c, spark chamber study of angular distribution and energy dependence of differential cross sections for backward, (E), 23:36833 (ITEF-638)
interactions $\pi^- + N \rightarrow \pi^+ + \pi^- + ...$ in lithium hydrides at 11.2 GeV/c, thin-foil and thick-plate spark chamber study of rho/e branching ratio from, 21:31532
interactions $\pi^- + N \rightarrow \pi^+ + \pi^- + N^*$, sign of S = T = 0 $\pi\pi$ phase shift from, 23:49144
interactions $\pi^- + N \rightarrow$ rho + N, interference effects in rho decay from, 21:33707
interactions $\pi^- + n \rightarrow$ rho$^- + \pi^- + p$, Reggeized charge-exchange Deck mechanism for analysis of rhoπ system in, 25:45751
interactions $\pi^- + n \rightarrow \Sigma^- + K^0$ at 1220 MeV/c, Σ^- decay asymmetry from, (E/T), 21:46475
interactions π^- + N above 7.38 GeV/c, Pomeranchuk theorem violation in total cross sections of, (E/T), 24:49496
interactions π^- + n at 1.5 to 3.8 GeV/c in spark chamber cross sections and angular distributions for backward elastic, (E), 23:30713
interactions π^- + n at 1.5 to 3.8 GeV/c, differential cross sections of backward elastic, (E), 23:7094
interactions π^- + N at 12 and 18 GeV/c, spark-chamber study of peripheral dipion production in, (E), 22:20150
interactions π^- + N at 15 and 16 GeV/c in heavy liquid bubble chamber, $2\pi^-$ and π^+ final-state coherent production from, 21:33609(R) (AD-637734)
interactions π^- + N at 16.2 GeV/c in emulsions, cross sections and multiplicity, momentum, and angular distributions and (3100) resonance production in, (E), 25:7560
interactions π^- + N at 17 and 24 GeV/c in emulsions, velocity-space images for analysis of, (E), 22:22313
interactions π^- + N at 17 GeV/c in emulsions, electron pair production from, (E), 21:3994
interactions π^- + N at 17 GeV/c in nuclear emulsions, proton momentum spectra from inelastic, (E), 22:22315
interactions π^- + N at 17.2 GeV, behavior of transverse momentum distribution in, (E), 22:24555
interactions π^- + N at 17.2 GeV/c in emulsions, azimuthal effects of two- and three-prong events from, (E), 23:1595 (KFKI-26/1968)
interactions π^- + n at 17.2 GeV/c in emulsions, proton momentum spectrum from, (E), 25:14564
interactions π^- + N at 17.2 GeV/c in nuclear emulsion, (E), 22:44336
interactions π^- + N at 17.2 GeV/c, angular distributions for, (E), 21:3990
interactions π^- + N at 2.26 GeV/c in hydrogen bubble chamber, rho production from, 21:33626
interactions π^- + n at 20 to 65 GeV/c, total cross sections for, (E), 24:5258
interactions π^- + N at 3 to 20 GeV/c, review of Ξ^- production in, (E), 24:40263 (IFA-HE-65)
interactions π^- + N at 3.85 GeV/c in emulsions, asymmetry of secondaries in angular distributions for three-prong, (E), 22:7442 (JINR-P1-3563)
interactions π^- + N at 3.85 GeV/c in nuclear emulsions, angular distributions of secondaries from, (E), 22:39295
interactions π^- + N at 4 GeV/c in propane bubble chamber, three-pronged, (E), 22:17874

interactions $\pi^- + N$ at 4.0 GeV/c in propane bubble chamber, cross sections for Ξ^- production in, 21:40149 (JINR-P1-3446)
interactions $\pi^- + N$ at 4.0 GeV/c in propane bubble chamber, cross section for Ξ^- production in, (E), 22: 24547
interactions $\pi^- + N$ at 40 to 176 MeV in emulsions, double charge exchange in, 21:27306 (JINR-P1-3248)
interactions $\pi^- + n$ at 5.1 GeV/c in propane bubble chamber, cross sections for, (E), 24:24256
interactions $\pi^- + N$ at 50 to 175 MeV in emulsions, cross sections for double charge exchange, (E), 22: 50307
interactions $\pi^- + N$ at 60 GeV/c in emulsions, (E), 25: 1410 (JINR-P1-5326)
interactions $\pi^- + N$ at 60 GeV/c in nuclear emulsions, angular distributions of secondary particles from, (E), 24:15493
interactions $\pi^- + N$ at 60 GeV/c in nuclear emulsions, angular distribution of secondary particles from, (E), 24:15493
interactions $\pi^- + n$ at 60 GeV/c, multiplicity distributions of secondaries from, (E), 23:49057
interactions $\pi^- + N$ at 950 MeV/c in freon—propane and freon bubble chamber, eta production from, 21: 31518
interactions $\pi^- + N$ at 950 MeV/c in heavy liquid bubble chamber, eta° production from, 21:31514 (AD-635061)
interactions $\pi^- + n$ at high energies, multiple particle production in, 21:7502
interactions $\pi^- + n$ at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions $\pi^- + N$ below 1.6 GeV, Harari and direct-channel resonance models for S-matrix relations and amplitudes of, 24:6723
interactions $\pi^- + N$ below 65 GeV, differences of total cross sections for $\pi^+ + N$ and, (E), 25:5294
interactions $\pi^- + n$ below threshold to 72 GeV, multiplicity distribution of charged secondaries from, 23:32619
interactions $\pi^- + N$ in carbon and iron, at 12 GeV/c, phi and rho production from, (E), 21:27294
interactions $\pi^- + N$ in emulsions at 50 to 300 MeV, total cross sections for double charge exchange, (E), 21:9707 (JINR-P2-3004)
interactions $\pi^- + N$ in freon mixture at 3.86 GeV/c, cross sections for neutral strange particle production in, (E), 23:25528
interactions $\pi^- + N$ in nuclear emulsions at 17 GeV, (E), 21:2374
interactions $\pi^- + N$ in nuclear emulsions at 17.2 GeV, parameters of, (E), 24:10682
interactions $\pi^- + N$ in nuclear emulsions at 17.2 GeV, mechanism for multiple meson (π) production in, (E), 21:3991
interactions $\pi^- + N$ in nuclear emulsions at 17.2 GeV, coherent meson (π) production in, (E), 21:3992
interactions $\pi^- + N$ interactions at 17.2 GeV in emulsions, review of transverse momentum in, 23: 18795 (CONF-671217-, pp 589-695)
interactions $\pi^- + n$, compilation of cross sections for, 25:30735 (CERN-HERA-70-7)
interactions $\pi^- + N$, dispersion relations for structure of backward differential cross sections of, (T), 25:3377 (ITF-70-65)
interactions $\pi^- + N$, emulsion study of cross sections for coherent π^- elastic scattering by helium-4 for determination of real part of amplitude for, (E), 25: 47760
interactions $\pi^- + N$, forward dispersion relations in Regge-pole analysis of, 21:928
interactions $\pi^- + N$, intermediate- and strong-coupling mass formulas in nonrelativistic Lee model for, 23: 23481
interactions $\pi^- + N$, models for production mechanisms in, 23:21112
interactions $\pi^- + N$, Regge-pole model for fermion resonance production in backward elastic, 21:25308
interactions $\pi^- + p \rightarrow (\mu^+\mu^-) + n$, (T), 24:8651
interactions $\pi^- + p \rightarrow 2\pi^+ + 2\pi^- + n$ at 8 and 16 GeV/c, correlation effects in, (E), 25:30744
interactions $\pi^- + p \rightarrow 2\gamma + n$ at 3.65 GeV/c, differential and total cross sections for eta and eta' production in, (E), 25:53003
interactions $\pi^- + p \rightarrow 2\pi + N$ at 2.3 GeV/c in hydrogen bubble chamber, rho$^-$, rho°, and $\Delta(1236)$ production in, (E), 25:14570
interactions $\pi^- + p \rightarrow 2\pi^0 + n$ at 10 GeV/c, spark chamber study of $2\pi^0$ mass spectrum in, (E), 25:1420
interactions $\pi^- + p \rightarrow 2\pi^0 + n$ at 291 to 407 MeV, total cross sections for, (E), 25:43564
interactions $\pi^- + p \rightarrow 2\pi^0 + n$ at 447 MeV, spectrometer and spark chamber study of total cross sections, neutron differential cross sections and angular distributions, and $\pi^+\pi^0$ system effective mass spectrum in, (E), 25:36405 (JINR-P1-5781)
interactions $\pi^- + p \rightarrow 2\pi^+ + 2\pi^- + m\pi^0 + n$ at 4 GeV/c in propane bubble chamber, mechanism of, (E), 21:31535
interactions $\pi^- + p \rightarrow 2\pi^- + 2\pi^+ + n + m\pi^0$ at 4 GeV/c in propane bubble chamber, total effective cross sections for boson resonance production in, (E), 23: 42580
interactions $\pi^- + p \rightarrow 2\pi^- + 2\pi^+ + n$ at 2.3 GeV/c in hydrogen bubble chamber, cross sections and $\Delta^-(1236)$ production in, (E), 25:14571
interactions $\pi^- + p \rightarrow 2\pi^- + 2\pi^+ + n$ at 3.9 GeV/c, cross sections for $\pi^- + \pi^+ \rightarrow 2\pi^+ + 2\pi^-$ interactions from, (E), 24:42880 (UH-511-74-70)
interactions $\pi^- + p \rightarrow 2\pi^- + 2\pi^+ + n$ at 5 GeV/c, mass distribution for f° $\rightarrow 4\pi$ decay in, (E), 23:5543
interactions $\pi^- + p \rightarrow 2\pi^- + 2\pi^+ + n$ at 6 GeV/c in hydrogen bubble chamber, associated production of rho° and N(2650) and $\Delta(2420)$ in, (E), 24:10687
interactions $\pi^- + p \rightarrow 2\pi^- + p + \pi^+ + \pi^0$ at 2.3 GeV/c in hydrogen bubble chamber, cross sections and $\omega^0(785)$, $N^{*+}(1236)$, and B(1220) production in, (E), 25:14571
interactions $\pi^- + p \rightarrow 2\pi^- + p + \pi^+$ at 11 GeV/c in hydrogen bubble chamber, production of $\pi^-(1640)$ in, (E), 23:49056
interactions $\pi^- + p \rightarrow 2\pi^- + p + \pi^+$ at 2.3 GeV/c in hydrogen bubble chamber, cross sections $\Delta^{++}(1236)$ and rho°(765) production and $\pi^- + \pi^-$ interaction cross sections for, (E), 25:14571
interactions $\pi^- + p \rightarrow 2\pi^- + \pi^+ + p$ at 11 and 16 GeV/c, longitudinal phase space analysis of, (T), 25: 30881
interactions $\pi^- + p \rightarrow 2\pi^- + \pi^+ + p$ at 11 GeV/c, predictions of double Regge pole model for quasi-three-body production in, 22:39393 (CERN-68-7(Vol.1), pp 611-47)
interactions $\pi^- + p \rightarrow 2\pi^- + \pi^+ + p$ at 3.9 GeV/c, model with π exchange, diffraction dissociation, and rho exchange for resonance production in, 23:36836 (UH-511-48-69)
interactions $\pi^- + p \rightarrow 2\pi^- + \pi^+ + p$ at 5.0 to 7.5 GeV/c in bubble chamber, coherence of isoscalar and isovector exchange amplitudes for A_2^- production in, (E), 25:9650 (COO-1195-202)
interactions $\pi^- + p \rightarrow 3\pi^- + 2\pi^+ + p + \pi^0$ at 3.2 GeV/c in hydrogen bubble chamber, mass distributions and cross sections for resonance production in, (E), 23:46622
interactions $\pi^- + p \rightarrow 3\pi^- + 2\pi^+ + p + \pi^0$ at 6 GeV/c in hydrogen bubble chamber, N(1688), $\Delta^{++}(1236)$, ω^0, and B$^-$(1380) production in, (E), 23: 42567
interactions $\pi^- + p \rightarrow 3\pi^- + 2\pi^+ + p + \pi^0$ at 6 GeV/c, cross sections and resonance production in, (E) , 24:24243
interactions $\pi^- + p \rightarrow 3\pi^- + 2\pi^+ + p + \pi^0$ at 7.0 GeV/c in bubble chamber, production of $\Delta^{++}(1236)$, N(1518), and meson resonances in, (E), 24:45432
interactions $\pi^- + p \rightarrow 3\pi^- + 2\pi^+ + p$ at 3.2 GeV/c in hydrogen bubble chamber, mass distributions and cross sections for resonance production in, (E), 23:46622
interactions $\pi^- + p \rightarrow 3\pi^- + 2\pi^+ + p$ at 3.9 GeV/c in hydrogen bubble chamber, A_1^-, rho°, and Δ^{++} production and cross sections for, (E), 24:45428 (UH-511-65-70)
interactions $\pi^- + p \rightarrow 3\pi^- + 2\pi^+ + p$ at 6 GeV/c in hydrogen bubble chamber, $\Delta^{++}(1236)$, rho° and A_1 production in, (E), 23:42567
interactions $\pi^- + p \rightarrow 3\pi^- + 2\pi^+ + p$ at 6 GeV/c, cross sections and resonance production in, (E), 24: 24243
interactions $\pi^- + p \rightarrow 3\pi^- + 2\pi^+ + p$ at 7.0 GeV/c in bubble chamber, rho (760) and $\Delta^{++}(1236)$ production and cross sections for, (E), 24:45432
interactions $\pi^- + p \rightarrow 3\pi^+ + 2\pi^- + \pi^0$ at 8 GeV/c, analysis by method of principal axis, (E/T), 21:44274 (INR-807/V1/PH)
interactions $\pi^- + p \rightarrow 3\pi^- + 3\pi^+ + n$ at 3.2 GeV/c in hydrogen bubble chamber, resonance production in, (E) , 23:46622
interactions $\pi^- + p \rightarrow 3\pi^- + 3\pi^+ + n$ at 5.48 GeV/c in hydrogen bubble chamber, 21:31529 (TID-23843)
interactions $\pi^- + p \rightarrow 3\pi^- + 3\pi^+ + n$ at 6 GeV/c, cross sections and resonance production, (E), 24: 24243
interactions $\pi^- + p \rightarrow 3\pi^- + 3\pi^+ + n$ interactions at 7.0 GeV/c in bubble chamber, cross sections for, (E), 24:45432
interactions $\pi^- + p \rightarrow 3\pi^- + p + 2\pi^+$ at 5.48 GeV/c in hydrogen bubble chamber, resonance production from, 21:31529 (TID-23843)
interactions $\pi^- + p \rightarrow A_1^0 + n$, t-channel helicity in, 25:47889
interactions $\pi^- + p \rightarrow A_2^- + p$ at 16 GeV/c, cross sections for, (E), 23:34540
interactions $\pi^- + p \rightarrow A_2^- + p$ at 5 to 25 GeV/c in hydrogen bubble chamber, cross sections and failure of s-channel helicity conservation in, (E), 25:43664 (COO-1195-204)
interactions $\pi^- + p \rightarrow A_2^- + p$ at 5 to 25 GeV/c, failure of s-channel helicity conservation in, (E), 25: 33563
interactions $\pi^- + p \rightarrow A_2^- + p$, sign of final-state proton polarization for distinction between rescattering and absorptive corrections to Pomeranchukon for, 23: 51945
interactions $\pi^- + p \rightarrow A_2 + n$, $A_1 \rightarrow K_1 + K_1$ mass spectra from, (T), 24:37763
interactions $\pi^- + p \rightarrow A_2 + p$, mixing formalism of scalar fields carrying SU(3) representations for second A_2 in A_1 mass distributions in, 23:44657 (IS-T-291)
interactions $\pi^- + p \rightarrow A_1^0 + n$ at 3.16 GeV, structure in A_1^0 mass spectrum in, (E), 25:3290
interactions $\pi^- + p \rightarrow A_2^- + p + (\pi^0)$ at 7 GeV/c, production and decay of A_2 in, (E), 25:7663
interactions $\pi^- + p \rightarrow A_2^- + p$ at 16 GeV/c, cross section for, (E), 23:34540
interactions $\pi^- + p \rightarrow A_1^- + p$ at 3.9 and 16 GeV/c in bubble chamber, A_1^- production mechanism in, (E), 25:59279
interactions $\pi^- + p \rightarrow A_1^- + p$ at 3.9 to 16 GeV/c in bubble chamber, production mechanism of A_1^-, 1$^-$ daughter production, and cross sections for, (E), 25: 5282 (COO-1195-200)
interactions $\pi^- + p \rightarrow A_2^- + p$ at 5 and 7 GeV, mass spectra of A_2^- in, (E), 25:40887
interactions $\pi^- + p \rightarrow A_2^- + p$ at 5 GeV/c in hydrogen bubble chamber, (E), 22:46334 (COO-1195-133)
interactions $\pi^- + p \rightarrow A_1^- + p$, $A_2^- \rightarrow \pi^-$ + neutrals near threshold energy, mass spectra of A_2 in, (E), 25: 56436
interactions $\pi^- + p \rightarrow A_1^- + p$, $A_1^- \rightarrow \pi^+ + \pi^- + \pi^-$ at threshold to 2.6 GeV/c, missing-mass spectrum from, (E), 25:50077
interactions $\pi^- + p \rightarrow A_2^- + p$, analysis of A_2 production in, (E/T), 25:30877
interactions $\pi^- + p \rightarrow A_2^- + p$, diffraction dissociation in, 25:47889
interactions $\pi^- + p \rightarrow$ all neutrals at 784 to 5290 MeV/c, spark chamber study of N* production from, (E), 22:3277
interactions $\pi^- + p \rightarrow$ anti p + d at 6 GeV/c, spark chamber study of upper limit for cross section for, (E), 22:3279
interactions $\pi^- + p \rightarrow \Delta(1236) + \gamma$, possible test of internal symmetries of electromagnetic current from, (E), 22:1406
interactions $\pi^- + p \rightarrow \Delta(1236) + \pi^- + \pi^-$ at 3.2 and 4.2 GeV/c, cross section for, 22:15690
interactions $\pi^- + p \rightarrow \Delta^0(1236) + \pi^0$ at 5 GeV/c in propane bubble chamber, cross sections from Monte Carlo generation of, (T), 25:20004 (JINR-P13-5516)
interactions $\pi^- + p \rightarrow \Delta^- + \pi^+$ at 1640 to 1760 MeV, partial-wave analysis of, (E/T), 25:27962
interactions $\pi^- + p \rightarrow \Delta^-(1236) + \pi^+$ at 900 to 1100 MeV/c, partial wave analysis of, (E/T), 23:14988
interactions $\pi^- + p \rightarrow \Delta^{++}(1236) + 2\pi^-$ at 4.45 GeV/c in hydrogen bubble chamber, $\pi^- + \pi^-$ interaction cross sections and virtual $\pi^- + \pi^-$ and $\pi^+ + p$ interaction angular distributions in, (E), 24:51975
interactions $\pi^- + p \rightarrow \Delta^{++}(1236) + \pi^- + \pi^-$ at 3.2 and 4.2 GeV/c, $\pi^-\pi^-$ phase shifts from Coulomb interference in, 24:30448 (CONF-690521-, pp 55-74)
interactions $\pi^- + p \rightarrow \Delta^{++}(1236) + \pi^- + \pi^-$ at 3.25 GeV/c, $\pi^-\pi^-$ interaction from, (E), 22:48227 (ITEF-590)
interactions $\pi^- + p \rightarrow \Delta^{++}(1236) + \pi^- + \pi^-$ at 3.25 GeV/c in bubble chamber, (E), 23:7100
interactions $\pi^- + p \rightarrow e^+ + e^+ + n$ at 1.65 GeV/c, ω—rho interference in absorptive peripheral model for, (T), 23:23482
interactions $\pi^- + p \rightarrow e^+ + e^- + n$ at 275 MeV, e^+ and e^- energy and emission angles and differential cross sections of, (E), 25:38672
interactions $\pi^- + p \rightarrow e^+ + e^- + n$ at 275 MeV, emission energies and angles for e^+ and e^- and differential cross sections for, (E), 25:12099 (JINR-P1-5398)
interactions $\pi^- + p \rightarrow e^+ + e^- + n$, general structure of matrix element and meson and proton electromagnetic form factor effects for, (E/T), 23:51829 (JINR-P2-4561)
interactions $\pi^- + p \rightarrow e^+ + e^- + n$, matrix element structure for $\pi + N \rightarrow N + \gamma$ interactions for angular distributions for, (T), 23:46719 (JINR-P2-4524)
interactions $\pi^- + p \rightarrow e^+(\mu^+) + e^-(\mu^-) + n$ near $\Delta(1236)$, isobar model with Born terms for differential and total cross sections for, (T), 25:25420
interactions $\pi^- + p \rightarrow$ eta + n and $\pi^- + p \rightarrow$ neutrals, eta decay branching ratio from, (E), 22:7425
interactions $\pi^- + p \rightarrow$ eta + n at 1.6 and 2.3 GeV/c, angular distribution predictions for, (T), 25:59477
interactions $\pi^- + p \rightarrow$ eta + n at 1.7 to 18.2 GeV/c, Regge analysis of (E/T), 25:56506
interactions $\pi^- + p \rightarrow$ eta + n at 10 GeV/c, homogeneous Lorentz group calculation of differential cross section for, 23:8835
interactions $\pi^- + p \rightarrow$ eta + n at 12 GeV/c, polarization in, 23:23478
interactions $\pi^- + p \rightarrow$ eta + n at 2.5 to 20 GeV/c, A_2 Regge trajectory in, (T), 25:25421
interactions $\pi^- + p \rightarrow$ eta + n at 2.9 to 18.2 GeV/c, heavy-plate spark chamber study of differential cross sections for, (E), 25:5279 (CEA-R-4037)
interactions $\pi^- + p \rightarrow$ eta + n at 3 to 18 GeV, Regge pole model for polarization and cross section for, 22: 9602
interactions $\pi^- + p \rightarrow$ eta + n at 3.20 to 5.00 GeV/c, polarization and F/D coupling ratio for N(2650) for, (T), 22:20258
interactions $\pi^- + p \rightarrow$ eta + n at 3.72 and 18.2 GeV/c, comparison of quark model and experimental cross sections for, 23:36928 (INR-P-1047)
interactions $\pi^- + p \rightarrow$ eta + n at 5.9 and 11.2 GeV/c, polarization parameter in, 24:49347
interactions $\pi^- + p \rightarrow$ eta + n at 561 to 1300 MeV, partial wave amplitudes for, (T), 22:17961
interactions $\pi^- + p \rightarrow$ eta + n at 592 to 1300 MeV, production and decay of eta in, (E), 24:24242
interactions $\pi^- + p \rightarrow$ eta + n at 593 to 704 MeV, differential cross sections for eta production in, (T), 22:5587
interactions $\pi^- + p \rightarrow$ eta + n at 670 to 805 MeV/c, differential cross sections for π charge-exchange and eta production in, (E), 22:15689
interactions $\pi^- + p \rightarrow$ eta + n at 718 to 1050 MeV/c, differential and total cross sections for, (E), 23:36841
interactions $\pi^- + p \rightarrow$ eta + n at 763 MeV/c, branching ratios for eta decay modes from, 23:23339
interactions $\pi^- + p \rightarrow$ eta + n at 763 MeV/c, missing-mass spectrometer study of eta decays from, 22:5493
interactions $\pi^- + p \rightarrow$ eta + n at 780 MeV/c, eta neutral decays from, (E), 21:17027
interactions $\pi^- + p \rightarrow$ eta + n at high energies, exchange of N and Δ Regge trajectories in, 23:27815
interactions $\pi^- + p \rightarrow$ eta + n at high energies, Regge theory and SU(3) representation mixing for, 23:44657 (IS-T-291)
interactions $\pi^- + p \rightarrow$ eta + n below 2 GeV, pole—resonance model with A_2 exchange in, 24:8649
interactions $\pi^- + p \rightarrow$ eta + n differential cross section from Veneziano amplitude for, 25:30884
interactions $\pi^- + p \rightarrow$ eta + n in nuclei at 7.82 GeV/c, differential cross sections for, (E), 25:56432
interactions $\pi^- + p \rightarrow$ eta + n near threshold, cross sections and eta width from, (E), 21:5357
interactions $\pi^- + p \rightarrow$ eta + n with A_2 exchange, K-matrix absorption model in U(6,6) x O(3,1) for, 25: 56513

interactions $\pi^- + p \rightarrow$ eta + n, ambiguities in determination of Regge-pole parameters for R-exchange, 21:37822
interactions $\pi^- + p \rightarrow$ eta + n, at high energies, Regge pole model for polarization prediction for, 21:42359
interactions $\pi^- + p \rightarrow$ eta + n, complex A_2 Regge trajectory for analyzing, (T), 25:59479
interactions $\pi^- + p \rightarrow$ eta + n, consistency condition for, 22:46428
interactions $\pi^- + p \rightarrow$ eta + n, continuous-moment sum rules and absorption Regge cuts, 23:42680
interactions $\pi^- + p \rightarrow$ eta + n, differential cross sections using SU(3) symmetry and Regge poles for, (T), 23:5626
interactions $\pi^- + p \rightarrow$ eta + n, double-pole characteristics of A_2 and n polarization in, 22:50398
interactions $\pi^- + p \rightarrow$ eta + n, double-pole model for A_2 exchange in, (T), 25:17482
interactions $\pi^- + p \rightarrow$ eta + n, duality concept for imaginary part of Regge trajectories for, 25:28036
interactions $\pi^- + p \rightarrow$ eta + n, eta $\rightarrow 2\gamma$ at 4 GeV/c in small transfer range, spark chamber and Cherenkov spectrometer study of cross sections for, (E), 24:26378
interactions $\pi^- + p \rightarrow$ eta + n, generalized interference model for eta production in, 24:15586
interactions $\pi^- + p \rightarrow$ eta + n, generalized interference model of, 24:49509
interactions $\pi^- + p \rightarrow$ eta + n, low-energy resonance parameters from, 23:18913
interactions $\pi^- + p \rightarrow$ eta + N, N* resonant states and decay modes from, 22:9601
interactions $\pi^- + p \rightarrow$ eta + n, partial-wave analysis in terms of homogeneous Lorentz group for, 22:7516
interactions $\pi^- + p \rightarrow$ eta + n, partial-wave analysis of, 23:32742
interactions $\pi^- + p \rightarrow$ eta + n, quark model predictions for, (E/T), 24:1595
interactions $\pi^- + p \rightarrow$ eta + n, Regge cuts for polarization in, 23:44666
interactions $\pi^- + p \rightarrow$ eta + n, Regge dipole model of A_2 for differential cross sections and duality in, (T), 25:14704
interactions $\pi^- + p \rightarrow$ eta + n, Regge pole model with flat trajectories for, 24:49493
interactions $\pi^- + p \rightarrow$ eta + n, Regge poles and SU(3) symmetry for, 22:1439
interactions $\pi^- + p \rightarrow$ eta + n, Regge-dipole model of A_2 for, 23:36941
interactions $\pi^- + p \rightarrow$ eta + n, Regge-pole analysis of, 22:46433
interactions $\pi^- + p \rightarrow$ eta + n, Regge-pole model with absorptive corrections for, 23:23490
interactions $\pi^- + p \rightarrow$ eta + n, Regge-pole model with cuts for, (T), 24:49501
interactions $\pi^- + p \rightarrow$ eta + n, Regge-pole model with L—S coupling for, 22:20264
interactions $\pi^- + p \rightarrow$ eta + n, scattering length for, (T), 22:22401
interactions $\pi^- + p \rightarrow$ eta + n, secondary Regge contributions in, 25:56508
interactions $\pi^- + p \rightarrow$ eta + n, separability and unitarity concepts for differential cross sections for, 21:44382
interactions $\pi^- + p \rightarrow$ eta + n, SU(3) predictions for, 22:46490
interactions $\pi^- + p \rightarrow$ eta + n, sum rules based on Regge pole model for, 21:17130
interactions $\pi^- + p \rightarrow$ eta + n, use of SU(3) in coherent-droplet model for differential cross section for, 21:42429
interactions $\pi^- + p \rightarrow$ eta + n, Veneziano model for, 24:40406
interactions $\pi^- + p \rightarrow$ eta + n, Veneziano model for intimate connection between resonance parameters and residue functions for forward and backward differential cross sections for, 24:10760 (SU-1206-215)
interactions $\pi^- + p \rightarrow$ eta° + n at 1.71 to 2.46 GeV/c, Regge pole model for, (E/T), 23:18816
interactions $\pi^- + p \rightarrow$ eta° + n at 10 GeV/c, differential cross section for, (E), 22:26566
interactions $\pi^- + p \rightarrow$ eta° + n at 3.2 to 5.0 GeV/c, polarization in, (E), 22:13667
interactions $\pi^- + p \rightarrow$ eta° + n at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions $\pi^- + p \rightarrow$ eta° + n at 720 MeV in hydrogen bubble chamber, contribution to $\pi^- + \pi^+ \rightarrow n + \pi^0$ final state and upper limit for, (E), 22:15687
interactions $\pi^- + p \rightarrow$ eta° + n at high energies, analysis of inelastic, (E), 21:9805
interactions $\pi^- + p \rightarrow$ eta° + n at high energies, Regge pole theory for, 21:29541
interactions $\pi^- + p \rightarrow$ eta° + n, A_2' Regge pole in, 24:49525
interactions $\pi^- + p \rightarrow$ eta° + n, eta° $\rightarrow \mu^- + \mu^+$, cross section and branching ratio for, (E), 23:27753
interactions $\pi^- + p \rightarrow$ eta° + n, eta° production and decay from, (E), 24:37604
interactions $\pi^- + p \rightarrow$ eta° + n, interference model for cross sections and polarization in, 25:47869
interactions $\pi^- + p \rightarrow$ eta° + n, moving branch points in complex momenta method for, (E/T), 24:24382
interactions $\pi^- + p \rightarrow$ eta° + n, Regge A_2 and rho trajectories from, 21:40218 (NP-16952)
interactions $\pi^- + p \rightarrow$ eta° + n, Regge pole amplitudes with absorptive corrections for, 24:13102
interactions $\pi^- + p \rightarrow$ eta° + n, Regge-pole analysis of, 21:27376
interactions $\pi^- + p \rightarrow$ eta° + n, scintillation counter study of, (E), 24:49326 (UCRL-20039)
interactions $\pi^- + p \rightarrow$ eta° + p at 860 MeV/c, scintillation counter and spark chamber study of, (E), 23:51832 (NEVIS-174)
interactions $\pi^- + p \rightarrow$ eta$_2$ + n, real to imaginary ratio of forward amplitude of, 22:29707
interactions $\pi^- + p \rightarrow f^0$ + n at 15 and 16 GeV/c in heavy liquid bubble chamber, cross sections for, (E), 25:30741
interactions $\pi^- + p \rightarrow f^0$ + n in meson (π^-) reactions with nuclei at 2 to 6 GeV/c, $f^0 \rightarrow \pi^+ + \pi^-$ in, (E), 22:13666
interactions $\pi^- + p \rightarrow f^0$ + n, Regge-pole-exchange predictions for, 21:25301
interactions $\pi^- + p \rightarrow f^0(1250)$ + n $\rightarrow \pi^+ + \pi^- +$ n at 4.16 GeV/c, (E), 22:39293
interactions $\pi^- + p \rightarrow g^0$ + n, $g^0 \rightarrow \pi^+ + \pi^- + \pi^+ + \pi^-$ at 4.7 and 5.74 GeV/c in hydrogen bubble chamber, (E), 23:30714
interactions $\pi^- + p \rightarrow \gamma + \gamma +$ n at 54 MeV, scintillation counter study of charge exchange and radiative capture differential cross sections for, 21:29453 (UCRL-11697)
interactions $\pi^- + p \rightarrow \gamma + \gamma +$ n at rest, angular correlations in, (E), 23:23373
interactions $\pi^- + p \rightarrow \gamma + \gamma +$ n at rest, scintillation and gas-counter hodoscope study of γ angular correlation from, 21:31527 (JINR-P1-3285)
interactions $\pi^- + p \rightarrow \gamma +$ n and $\pi^- + p \rightarrow \pi^0 +$ n $\rightarrow$ n + $\gamma + \gamma$ at 40 MeV, gamma spectra for, (E), 25:3550
interactions $\pi^- + p \rightarrow \gamma +$ n at 1245 and 1337 MeV, spark chamber and neutron counter study of angular distributions and differential cross sections for, (T), 25:14567
interactions $\pi^- + p \rightarrow \gamma +$ n at 1245 to 1363 MeV, test of ΔI less than or equal to 1 rule and time reversal invariance in angular distributions and differential cross sections for, (E), 25:14566
interactions $\pi^- + p \rightarrow \gamma +$ n at 220 to 380 MeV/c, differential cross sections for, (E), 24:28492
interactions $\pi^- + p \rightarrow \gamma +$ n at 4.0 GeV/c, absorptive peripheral model for cross sections for, 21:15344
interactions $\pi^- + p \rightarrow \gamma +$ n at 490 MeV/c, Roper resonance production in $\gamma + n \rightarrow \pi^-$ + p interactions from differential cross sections for, (E), 23:49027 (UCLA-34-P-106-42)
interactions $\pi^- + p \rightarrow \gamma +$ n at 54 MeV, scintillation counter study of charge exchange and radiative capture differential cross sections for, 21:29453 (UCRL-11697)
interactions $\pi^- + p \rightarrow \gamma +$ n at 54 MeV, total-absorption counter study of differential cross sections for, (E), 22:29636
interactions $\pi^- + p \rightarrow \gamma +$ n, electromagnetic couplings of N*° resonances from, (T), 22:35007
interactions $\pi^- + p \rightarrow \gamma +$ n, electromagnetic couplings of baryon resonances from, (T), 22:1405 (TH-210)
interactions $\pi^- + p \rightarrow \gamma + \pi^- +$ p, γ spectrum in, 22:46421 (JINR-P2-3931)
interactions $\pi^- + p \rightarrow$ hyperons + antihyperons at 25 GeV/c, cross sections for, (E), 24:20078
interactions $\pi^- + p \rightarrow$ K + anti K + N + mπ at 4.0 GeV/c, longitudinal and transverse momentum of secondary particles from, (E/T), 23:32634
interactions $\pi^- + p \rightarrow K^0$ + anti K + N + mπ at 20 GeV in hydrogen bubble chamber, cross sections for, (E), 24:45445
interactions $\pi^- + p \rightarrow K^0$ + anti K^0 + n at 12 GeV/c, generalized Veneziano model for, (T), 25:59492
interactions $\pi^- + p \rightarrow K^0$ + anti K^0 + n at 4 and 6.2 GeV/c, spark chamber study of S^0, f^0, A_2, and (1420) enhancement production in, (E), 25:17385
interactions $\pi^- + p \rightarrow K^0$ + anti K^0 + n at 5, 7, and 12 GeV/c in spark chamber, cross sections, branching ratios, and resonance parameters for $S^*(1070)$, f^0, and A_2 production in, (E), 21:44284
interactions $\pi^- + p \rightarrow K^0$ + ANTI K^0 + n, double Regge model for anticornering effect in Dalitz plot for, 23:23483
interactions $\pi^- + p \rightarrow K^0 + K^-$ + p at 2.5 to 13 GeV in Veneziano model, crossing-symmetric description of, 24:52091
interactions $\pi^- + p \rightarrow K^0 + \Lambda$ at 0.90 to 1.95 GeV/c, phase shift analysis of, 25:14727
interactions $\pi^- + p \rightarrow K^0 + \Lambda$ at 1.17 and 1.32 GeV/c, A polarization in, (E), 21:5359
interactions $\pi^- + p \rightarrow K^0 + \Lambda$ at 1.400 to 2.000 GeV in bubble chamber, cross sections, polarization, and exchange degeneracy test in, (E), 25:47741 (SLAC-131)
interactions $\pi^- + p \rightarrow K^0 + \Lambda$ at 2 to 10 GeV/c, energy dependence of cross sections for, 23:39732
interactions $\pi^- + p \rightarrow K^0 + \Lambda$ at 2.5 GeV/c in hydrogen bubble chamber, strange particle production from, 21:35266 (COO-1195-94)
interactions $\pi^- + p \rightarrow K^0 + \Lambda$ at 3.9 GeV/c, differential cross sections and polarizations for, (E/T), 25:25335
interactions $\pi^- + p \rightarrow K^0 + \Lambda$ at low energies, resonance model for, 21:33713
interactions $\pi^- + p \rightarrow K^0 + \Lambda$ in nuclei, tests of unitary symmetry by, 21:33750
interactions $\pi^- + p \rightarrow K^0 + \Lambda$, cross section maximum at 1690 MeV in, 23:21094
interactions $\pi^- + p \rightarrow K^0 + \Lambda$, generalized Veneziano model for, (E/T), 25:1537
interactions $\pi^- + p \rightarrow K^0 + \Lambda$, partial-wave analysis for test of Harari—Freund hypothesis from, 25:53179 (UCRL-20655, pp 169-75)
interactions $\pi^- + p \rightarrow K^0 + \Lambda$, Reggeized baryon exchange model for Λ polarization and angular distribution for backward, 23:27806
interactions $\pi^- + p \rightarrow K^0 + \Lambda$, test of empirical rule for cuts and line reversal relations in absorption model prediction for Λ polarization in, (T), 25:36502 (CALT-68-300)
interactions $\pi^- + p \rightarrow K^0 + \Lambda(\Sigma^0)$ at 6 to 11.2 GeV/c, spark chamber study of differential cross sections and Λ/Σ^0 ratio at 11.2 GeV/c for associated production in, (E), 23:39616
interactions $\pi^- + p \rightarrow K^0 + \Lambda(\Sigma^0)$, differential cross sections for, (E), 23:10817
interactions $\pi^- + p \rightarrow K^0 + \Lambda(\Sigma^0)$, Regge-pole analysis of, 22:46433
interactions $\pi^- + p \rightarrow K^0 + \Lambda(\Sigma^0)$, Reggeized U(6) X U(6) X O(3) absorptive peripheral model for, 25:1536
interactions $\pi^- + p \rightarrow K^0 + \Lambda^0(\Sigma^0)$ at 6 to 11.2 GeV/c spark chamber study of differential cross sections for, (E), 22:39277 (CERN-68-7(Vol.2), pp 190-207)
interactions $\pi^- + p \rightarrow K^0 + \Lambda^0$ at 6 to 11.2 GeV/c, spark-chamber study of associated production in, (E), 23:23374
interactions $\pi^- + p \rightarrow K^0 + \Lambda^0$ at high energies, cross sections for, (E/T), 24:24378
interactions $\pi^- + p \rightarrow K^0 + \Lambda^0$ at high energies, double Regge pole model and O(3,1) symmetry for, 23:27816
interactions $\pi^- + p \rightarrow K^0 + \Lambda^0$, N^0 production in, 23:10766
interactions $\pi^- + p \rightarrow K^0 + \Lambda^0$, Regge pole model for, 22:15797
interactions $\pi^- + p \rightarrow K^0 + \Lambda^0$, Regge pole theory for, 21:29541
interactions $\pi^- + p \rightarrow K^0 + \Lambda^0(\Sigma^0)$ at 4 GeV/c, spark chamber spectrometer study of forward and backward, (E), 22:7448
interactions $\pi^- + p \rightarrow K^0 + \Sigma^0$ at 1.17 and 1.32 GeV/c, Σ^0 polarization in, (E), 21:5359
interactions $\pi^- + p \rightarrow K^0 + \Sigma^0$ at 1200 to 1400 MeV/c in spark chamber, Σ^0 angular distribution and polarization from, (E), 21:25243
interactions $\pi^- + p \rightarrow K^0 + \Sigma^0$ at 2.5 GeV/c in hydrogen bubble chamber, strange particle production from, 21:35266 (COO-1195-94)
interactions $\pi^- + p \rightarrow K^0 + \Sigma^0$ at 3.9 GeV/c, differential cross sections and polarizations for, (E/T), 25:25335
interactions $\pi^- + p \rightarrow K^0 + \Sigma^0$ at 6 to 11.2 GeV/c, spark-chamber study of associated production in, (E), 23:23374
interactions $\pi^- + p \rightarrow K^0 + \Sigma^0$ at high energies, cross sections for, (E/T), 24:24378
interactions $\pi^- + p \rightarrow K^0 + \Sigma^0$ at high energies, double Regge pole model and O(3,1) symmetry for, 23:27816
interactions $\pi^- + p \rightarrow K^0 + \Sigma^0$, Regge pole model for, 22:15797
interactions $\pi^- + p \rightarrow K^0 + \Sigma^0$, Regge pole theory for, 21:29541
interactions $\pi^- + p \rightarrow K^0 + Y^0$ in Regge-pole model, laboratory momentum dependence of total cross section for, 24:15583
interactions $\pi^- + p \rightarrow K_1 + K_1$ + N, evidence of I = 0, J = 0, K^0antiK° bound state from, (E/T), 23:27756
interactions $\pi^- + p \rightarrow K_1^0 + K_1^0 + m\pi$ at 25 GeV/c, cross sections for, (E), 24:20078
interactions $\pi^- + p \rightarrow K_1^0 + K_1^0$ + n at 12 GeV/c, analysis of resonance parameters for $S^*(1070)$ production in, (T), 23:7150
interactions $\pi^- + p \rightarrow K_1^0 + K_1^0$ + n at 12 GeV/c, double Regge analysis of, 21:46543
interactions $\pi^- + p \rightarrow K_1^0 + K_1^0$ + n at 4 and 5 GeV/c, $K_1^0K_1^0$ threshold enhancement in, (E), 22:41745
interactions $\pi^- + p \rightarrow K_1^0 + K_1^0$ + n at 4 GeV/c, $K_1^0K_1^0$ threshold enhancement in, (E), 23:8752
interactions $\pi^- + p \rightarrow K_1^0 + K_1^0$ + n at 4- and 5-GeV/c threshold $K_1^0K_1^0$ enhancement in, (E), 24:3528
interactions $\pi^- + p \rightarrow K_1^0 + K_1^0$ + n at 6 and 12 GeV/c, cross sections for $\pi^- + \pi^+ \rightarrow K_1^0 + K_1^0$ interactions from, (E), 24:42880 (UH-511-74-70)
interactions $\pi^- + p \rightarrow K_1^0 + K_1^0$ + n, crossing-symmetric description of, 25:50141
interactions $\pi^- + p \rightarrow K_1^0 + K_1^0$ + n, $K_1^0K_1^0$ mass spectrum for, (T), 21:42366
interactions $\pi^- + p \rightarrow K_1^0 + \Lambda(\Sigma^0) + m\pi$ at 25 GeV/c, cross sections for, (E), 24:20078
interactions $\pi^- + p \rightarrow K_1^0 + \Sigma^+(\Sigma^-) + m\pi$ at 25 GeV/c, cross sections for, (E), 24:20078
interactions $\pi^- + p \rightarrow K_1^0 + K^- +$ p at 4.5 GeV/c, production and decay of A_2^- from, (E), 25:36409
interactions $\pi^- + p \rightarrow K^- + K_1^0$ + p at 17.2 GeV/c, A_2^- mass spectrum in, (E), 25:22691
interactions $\pi^- + p \rightarrow K^- + K_1^0$ + p at 20.3 GeV/c, magnetic spectrometer study of A_2 and $K^0K^-(1425)$ enhancement production in forward, (E), 25:17394
interactions $\pi^- + p \rightarrow K^- + K_1^0$ + p at 6 GeV/c, production of K anti K(1640) enhancement in, (E), 23:5536
interactions $\pi^- + p \rightarrow K^+ + K^-$ + n at 11 GeV/c, cross sections for $\pi^- + \pi^+ \rightarrow K^+ + K^-$ interactions from, (E), 24:42880 (UH-511-74-70)
interactions $\pi^- + p \rightarrow K^+ + K^-$ + n at 11 GeV/c, $K^+K^-(1018)$ and $K^+K^-(1063)$ enhancements in, (E), 24:30458 (CONF-690521-, pp 529-32)
interactions $\pi^- + p \rightarrow K^+ + K^-$ + n at 11.04 GeV/c, mass and width of phi from optical spark chamber study of, (E), 25:59301
interactions $\pi^- + p \rightarrow K^+ + K^-$ + n at 2.10 GeV/c in bubble chamber, cross section for phi production in, (E), 22:24566
interactions $\pi^- + p \rightarrow K^+ + \pi^- + \Lambda$ at 1.8 to 4.2 GeV/c in bubble chamber, single-meson exchange in forward peaks in differential cross sections for $\Sigma^-(1385)$ production in, (E), 23:42573
interactions $\pi^- + p \rightarrow K^+ + \Sigma(1385)$ at 2.75 to 14.0 GeV/c, cross sections for, (E), 25:28038
interactions $\pi^- + p \rightarrow K^+ + \Sigma^-$ at 2 to 16 GeV/c, Regge cut model for near-forward differential cross sections for, 25:59483
interactions $\pi^- + p \rightarrow K^+ + \Sigma^-$ at 2.5 GeV/c in hydrogen bubble chamber, strange particle production from, 21:35266 (COO-1195-94)
interactions $\pi^- + p \rightarrow K^+ + \Sigma^-$ at 2.75 to 14.0 GeV/c, cross sections for, (E), 25:28038
interactions $\pi^- + p \rightarrow K^+ + \Sigma^-$ at 2.75 to 3.50 GeV/c, forward cross sections for, (E), 25:47750
interactions $\pi^- + p \rightarrow K^+ + \Sigma^-$ at high energies, cross sections for, (E/T), 24:24378
interactions $\pi^- + p \rightarrow K^+ + \Sigma^-$ at high energies, estimations of double scattering contributions for Regge cuts and secondary trajectories in, 23:51961
interactions $\pi^- + p \rightarrow K^+ + \Sigma^-$, cross section relations in quark model for forward, 21:35313

interactions $\pi^- + p \to K^+ + \Sigma^-$, quark model and multiple-scattering formalism for, 22:52985
interactions $\pi^- + p \to K^+ + \Sigma^-$, Regge cut in, 22:3426
interactions $\pi^- + p \to K^+ + \Sigma^-$, relativistic extensions of SU(6) for, 23:16982
interactions $\pi^- + p \to K^+ + \Sigma^-$, resonances in partial-wave projection of Regge pole fit to, 22:44430
interactions $\pi^- + p \to K^+ + \Sigma^-$, spark chamber study of π^-, K^+, and Σ^- decay products in, (E), 25:55048
interactions $\pi^- + p \to K^+ + \Sigma^-$, $\Sigma^- \to n + \pi^-$, spark chamber study of, (E), 25:55049
interactions $\pi^- + p \to K^+ + \Sigma^-(1385)$ at 4.5 and 6 GeV/c, production mechanism for forward, (E/T), 25: 43558
interactions $\pi^- + p \to K^+ + \Xi^-$ at 8 and 16 GeV/c, upper limits for Σ^{*-} production in, (E), 24:18079
interactions $\pi^- + p \to K^+ + Y^{*-}$ at high energies, cross sections for, (E/T), 24:24378
interactions $\pi^- + p \to K^+ + Y^-$ at 1.0 to 2.75 GeV/c, spark chamber study of Y^* production from, (E), 22: 13658
interactions $\pi^- + p \to K^- + Z^*$ at 6 and 8 GeV/c, upper limit for production of strangeness +1 baryons in, (E), 23:27752
interactions $\pi^- + p \to l^+ + l^- + n$, radiative corrections for vector meson production and decay in, (T), 22: 32070
interactions $\pi^- + p \to \Lambda$ + anti Λ + n at 12 GeV/c, asymmetries in angular distribution and Λ(anti Λ) polarization from, (E/T), 23:34611
interactions $\pi^- + p \to \Lambda$ + anti Λ + n at 7 and 12 GeV/c, cross sections, angular distributions, and Λ(anti Λ) polarizations in, (E), 23:7095
interactions $\pi^- + p \to \Lambda + \gamma$ at 5.1 GeV/c in propane bubble chamber, cross section for $\Lambda(1327)$ production in, (E), 24:3537
interactions $\pi^- + p \to \Lambda + K + m\pi$ (m greater than 2) at 7.5 and 8 GeV, $\pi\pi$ angular correlations and asymmetry coefficients for, (E), 24:52088
interactions $\pi^- + p \to \Lambda + K + \pi + \pi + \pi + \pi$ at 7 GeV/c, $K\pi\pi(1256)$ enhancement in, (E), 24:49344
interactions $\pi^- + p \to \Lambda + K + \pi + \pi$ at 6 GeV/c in hydrogen bubble chamber, resonance production from, 21:31530
interactions $\pi^- + p \to \Lambda + K^{*0}$ at 1.6 to 4.2 GeV/c, (E), 21:42273
interactions $\pi^- + p \to \Lambda + K^0 + \gamma$, magnetic moment of Σ^0 - Λ transition from cross section for, (T), 22: 29705
interactions $\pi^- + p \to \Lambda + K^0$ and $K^- + N \to \Lambda + \pi$, test of ($K^*$,$K^{**}$) exchange degeneracy in (E/T), 24: 51966
interactions $\pi^- + p \to \Lambda + K^0$ at 1.03 and 1.06 GeV/c, spark chamber study of Λ polarization from, (E), 22: 9504
interactions $\pi^- + p \to \Lambda + K^0$ at 1.05 GeV/c, Λ magnetic moment from, (E), 25:33518
interactions $\pi^- + p \to \Lambda + K^0$ at 1.5 GeV/c, cross sections and angular distributions for, (E), 22:24561
interactions $\pi^- + p \to \Lambda + K^0$ at 1.5 to 4.2 GeV/c in hydrogen bubble chamber, cross sections for, (E), 22: 5510
interactions $\pi^- + p \to \Lambda + K^0$ at 1030 and 1170 MeV/c, K^0 + p and anti K^0 + p interactions from, (E), 25:38666
interactions $\pi^- + p \to \Lambda + K^0$ at 4 and 6.2 GeV/c, differential cross sections and Λ polarization in backward, (E), 24:51982
interactions $\pi^- + p \to \Lambda + K^0$ at 5 to 12 GeV/c, spark chamber study of backward peak in associated production from, (E), 22:9515
interactions $\pi^- + p \to \Lambda + K^0$ at 788 to 913 MeV, cross sections for, (E), 24:10679
interactions $\pi^- + p \to \Lambda + K^0$ at 790 to 1060 MeV, spark chamber study of (893) enhancement in, (E), 23:34543
interactions $\pi^- + p \to \Lambda + K^0$ at 790 to 1060 MeV, spark chamber study of narrow (893) enhancement in, (E), 23:34535 (PPAR-12)
interactions $\pi^- + p \to \Lambda + K^0$ at 944 to 1170 MeV/c in hydrogen bubble chamber, differential and total cross sections, polarization, and partial-wave analysis for, (E), 24:18077 (UCRL-18139)
interactions $\pi^- + p \to \Lambda + K^0$ at 944 to 1170 MeV/c in hydrogen bubble chamber, differential and total cross sections, polarizations, and partial-wave analysis for, (E/T), 25:12109
interactions $\pi^- + p \to \Lambda + K^0$ at threshold to 1.13 GeV/c, total cross sections for, (E), 25:33562
interactions $\pi^- + p \to \Lambda + K^0$ at threshold to 1200 MeV, pole-resonance model for parameters of, 22: 50400
interactions $\pi^- + p \to \Lambda + K^0$ in spark chamber, time-dependence of K^0 decays from, (E), 21:25227
interactions $\pi^- + p \to \Lambda + K^0$ near threshold, phenomenological model for, 22:13762
interactions $\pi^- + p \to \Lambda + K^0$, duality diagrams with exotic t-channel exchanges for, 25:47859 (COO-2009-25)
interactions $\pi^- + p \to \Lambda + K^0$, mixing parameters for K^0antiK^0 system from, (T), 21:18990 (UCRL-16475(Rev.))
interactions $\pi^- + p \to \Lambda + K^0$, Regge fermion exchange in, 22:46453
interactions $\pi^- + p \to \Lambda + K_1^0 + \pi^0$ at 6 GeV/c in hydrogen bubble chamber, AK(1700) enhancement in, (E), 22:3273
interactions $\pi^- + p \to \Lambda + K^+ + \pi^-$ at 6 GeV/c in hydrogen bubble chamber, AK(1700) enhancement in, (E), 22:3273
interactions $\pi^- + p \to \Lambda + K^+ + \pi^-$, five-point Veneziano amplitude for cross sections and effective-mass and angular distributions for, (T), 25:3378 (ITF-70-77)
interactions $\pi^- + p \to \Lambda + K^+(K^0) + \pi^-(\pi^0)$ at 5.0 GeV/c in hydrogen bubble chamber, (E), 22:41735 (COO-1428-72)
interactions $\pi^- + p \to \Lambda + \pi^0 + K^0$ at 1.508 GeV/c, spark chamber study of $\Sigma(1385)$ production from, (E), 22:13674
interactions $\pi^- + p \to \Lambda$ + THETA + $m\pi$ at 0.9 to 16.0 GeV/c, Λ angular distributions from, (E/T), 21: 17119
interactions $\pi^- + p \to \Lambda(N) + K (+K^0) + m\pi$ at 7.5 and 20 GeV/c in propane bubble chamber, behavior of average transverse momentum of secondaries in, (E), 25:50068
interactions $\pi^- + p \to \Lambda^0 + K + m\pi$ at 4.0 GeV/c, longitudinal and transverse momentum of secondary particles from, (E/T), 23:32634
interactions $\pi^- + p \to \Lambda^0 + K^0$ at 0.89 to 1.13 GeV/c, spark-chamber study of, (E), 24:18085
interactions $\pi^- + p \to \Lambda^0 + K^0$ at 1 GeV/c, K_2^0 3-body decay rate from, (E), 21:15259
interactions $\pi^- + p \to \Lambda^0 + K^0$ at 1.12 to 1.32 GeV/c, total cross sections, angular distributions, and polarization distributions for, (E), 23:46618
interactions $\pi^- + p \to \Lambda^0 + K^0$ at 1128 to 1326 MeV/c, angular distributions, cross sections, and polarizations for, (E), 21:3989
interactions $\pi^- + p \to \Lambda^0 + K^0$ at 6 GeV/c, backward peak in Λ^0 K^0 final state in, (E), 21:9715
interactions $\pi^- + p \to \Lambda^0 + K^0$ at 895 MeV, spark chamber study of cross sections for, 21:33620
interactions $\pi^- + p \to \Lambda^0 + K^0$ at 900 to 1050 MeV/c, angular distribution, lifetime, and polarization of Λ^0 from, (E), 21:11741
interactions $\pi^- + p \to \Lambda^0 + K^0$ at high energies, exchange processes in, (T), 23:1641
interactions $\pi^- + p \to \Lambda^0 + K^0$, data tabulation of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $\pi^- + p \to \Lambda^0 + K^0$, interference model for backward, 24:3677
interactions $\pi^- + p \to \Lambda^0 + K^0$, $\Lambda^0 \to p + \pi^-$ at 1.07 GeV/c, Λ^0 magnetic moment from, (E), 25:59294
interactions $\pi^- + p \to \Lambda^0 + K^0$, spark chamber momentum spectrometer for studying, (E), 23:7798
interactions $\pi^- + p \to \Lambda^0(\Sigma^0) + K^0(890)$ at 4 GeV/c, production and decay of $K^0(890)$ and cross sections for, (E), 23:1593 (JINR-P1-4049)
interactions $\pi^- + p \to \Lambda^0(\Sigma^0) + K^{*0}(890)$ at 4.0 GeV/c, total and differential cross sections of, (E), 23: 27749
interactions $\pi^- + p \to \Lambda^0(\Sigma^0) + K^0$ at 4.0 GeV/c, total and differential cross sections of, (E), 23:27749
interactions $\pi^- + p \to m\pi + p$, Monte-Carlo method for generation of, 25:45750
interactions $\pi^- + p \to \mu^+ + \mu^-$ + n at 11.1 GeV/c, 24:28489 (NP-18205)
interactions $\pi^- + p \to \mu^+ + \mu^-$ + n, cross sections for μ^+ - μ^- atom production in, (T), 23:46643(T) (SLAC-Trans-97)
interactions $\pi^- + p \to n + (2,3,4,5)\pi^0$ at 1.4 to 4.0 GeV/c, cross sections for, (E), 22:48238
interactions $\pi^- + p \to N + (n-1)\ \pi$ (n = 3 to 7) at 11 GeV/c, Reggeized multiperipheral model for, 24: 15592
interactions $\pi^- + p \to n + 2\gamma$ at 2 to 6 GeV/c, spark chamber study of cross sections for eta^0 and π^0 production in, (E), 25:12113
interactions $\pi^- + p \to n + 2\gamma$ at 3.65 GeV/c, spark chamber and scintillation counter study of eta' production in, (E), 25:9651 (COO-1764-111)
interactions $\pi^- + p \to n + 2\pi^0$ at 1.53 and 1.27 GeV/c, S-wave $\pi\pi$ enhancement in, (E), 24:18091
interactions $\pi^- + p \to n + 2\pi^+ + 2\pi^- + \pi^0(2\pi^0)$ at 4 GeV/c in propane bubble chamber, cross sections and π^+ and π^- angular and momentum parameters for, (E), 24:42887
interactions $\pi^- + p \to n + 3\gamma$ at 2.8 GeV/c, meson resonance (1300) with $\pi^0\gamma$ decay mode from, (E), 21: 17049
interactions $\pi^- + p \to n + 3\pi^0$ at 895 MeV, spark chamber study of cross sections for, 21:33620
interactions $\pi^- + p \to n + 3\pi^+ + 3\pi^-$ interactions at 16 GeV/c in hydrogen bubble chamber, cross sections for, (E), 22:22312 (INR-837/VI/PH)
interactions $\pi^- + p \to n + 4\gamma$ at 4 GeV/c, upper limit on eta $\to \pi^0 + \gamma + \gamma$ decay from spark-chamber study of, (E), 23:23376
interactions $\pi^- + p \to N$ + anti K + K + $m\pi$ (m greater than 2) at 7.5 and 8 GeV, angular correlations, asymmetry coefficients, and Goldhaber effect in, (E), 24:52088
interactions $\pi^- + p \to n + e^+ + e^-$ at rest, π form-factor slope from, (E), 24:3499
interactions $\pi^- + p \to n + e^+ + e^-$ at rest, π^- form factor slope from, (E), 23:27736 (NP-17880)
interactions $\pi^- + p \to n + e^+ + e^-$, CP-noninvariant polarization in, 21:17123
interactions $\pi^- + p \to n + e^+ + e^-$, effect of electromagnetic structure of proton on cross sections for, 24:24361 (JINR-P2-4970)
interactions $\pi^- + p \to n + e^+ + e^-$, T invariance violation in, (E), 23:25676 (NEVIS-167)
interactions $\pi^- + p \to n$ + eta at 2 to 6 GeV/c, cross sections for backward, (E), 24:10686
interactions $\pi^- + p \to n$ + eta at 5.9 GeV/c, spark chamber and scintillation counter study of differential and total cross sections for backward, (E), 25:43563
interactions $\pi^- + p \to n$ + eta at 707 MeV/c, spark chamber study of eta decay branching ratios from, 21: 29428
interactions $\pi^- + p \to n$ + eta at 780 MeV/c, eta neutral decays from, (E), 21:17022 (NEVIS-156)
interactions $\pi^- + p \to n$ + eta at 895 MeV, spark chamber study of cross sections for, 21:33620
interactions $\pi^- + p \to n$ + eta near threshold, phenomenological model for, 22:13762
interactions $\pi^- + p \to n$ + eta, eta $\to 2\gamma$ at 5 GeV/c in propane bubble chamber, cross sections from Monte Carlo generation of, (T), 25:20004 (JINR-P13-5516)
interactions $\pi^- + p \to n$ + eta, eta $\to \pi^+ + \pi^- + \pi^0$, C nonconservation and charge asymmetry in, 22: 50392
interactions $\pi^- + p \to n$ + eta, use of poles and resonances for chi^2 fits to, 22:15811
interactions $\pi^- + p \to n$ + eta^0 at 1.4 to 4.0 GeV/c, cross sections for, (E), 22:48238
interactions $\pi^- + p \to n$ + eta^0 at 654 to 1247 MeV/c, angular distributions and total cross sections for, (E), 24:12957
interactions $\pi^- + p \to n$ + eta^0, eta$^0 \to 2\gamma$ at 5 GeV/c in propane bubble chamber, incident momentum dependence of cross sections for, 25:25313
interactions $\pi^- + p \to n$ + eta$^0(\omega^0)$ at 1.5 GeV/c, spark chamber study of photon cascade shower energy estimation for cross sections of, (E), 22:34851
interactions $\pi^- + p \to n + f^0$, $f^0 \to 2\pi^0$ at 5 GeV/c in propane bubble chamber, incident momentum dependence of cross sections for, (E), 25:25313
interactions $\pi^- + p \to n + f^0$, $f^0 \to 2\pi^0$ at 5 GeV/c in propane bubble chamber, cross sections from Monte Carlo generation of, (T), 25:20004 (JINR-P13-5516)
interactions $\pi^- + p \to n + \gamma + \gamma$ and $\pi^- + p \to n + \pi^+ + \pi^-$ at 2 to 6 GeV/c, spark chamber system for studying, 23:13031 (COO-1764-21)
interactions $\pi^- + p \to n + \gamma + \gamma$, method using Lorentz factor for meson resonance identification in, 22:5593
interactions $\pi^- + p \to n + \gamma$ at 0 to 40 MeV, energy dependence of differential cross section for, (E), 21: 37653(R) (UCLA-34-P-106-1)
interactions $\pi^- + p \to n + \gamma$ at 1.5 to 3.8 GeV/c in u channel, spark chamber study of energy dependence of cross section for, (E), 24:51970
interactions $\pi^- + p \to n + \gamma$ at 200 to 340 MeV, preliminary results on, (E), 22:44297(R) (UCLA-34-P-106-27)
interactions $\pi^- + p \to n + \gamma$ at 310 to 479 MeV/c, scintillation and spark chamber study of differential cross sections for, (E), 23:44642(R) (UCLA-34-P-106-38)
interactions $\pi^- + p \to n + \gamma$ at 490 MeV/c, differential cross sections for, (E), 24:18081
interactions $\pi^- + p \to n + \gamma$ at high energies, translation of symmetry properties of helicity amplitudes for polarization in, (E/T), 23:46656
interactions $\pi^- + p \to n + \gamma$, liquid scintillation detector array for differential cross section measurement of, 24:21018
interactions $\pi^- + p \to N$ + K + anti K + $\pi + \pi + \pi$ at 7 GeV/c, production of $K\pi\pi(1256)$ enhancement in, (E), 24:49344
interactions $\pi^- + p \to n + K^0 + K^+ + \pi^-$ at 2.0 to 4.0 GeV/c in hydrogen bubble chamber, D(1285) production from, (E), 21:42274
interactions $\pi^- + p \to n + K^0 + K^{*-} + \pi^{*+}$ at 2.0 to 4.0 GeV/c in hydrogen bubble chamber, E(1425) production from, (E), 21:42274
interactions $\pi^- + p \to n + K^+ + K^-$ at 2.13 GeV/c, scintillation counter and neutron detector study of phi production in, (E), 23:23382
interactions $\pi^- + p \to n + K^+ + K^-$ at 50 and 100 GeV/c, spectrometer study of, (E), 24:37639 (COO-1428-210)
interactions $\pi^- + p \to n + k\pi$ (k = 2 to 8) at 16.2 GeV/c, four-momentum transfer distributions for, (E/T), 25:50074
interactions $\pi^- + p \to N + m\pi$ at 1 to 16 GeV, statistical isospin model for final-charge-state cross section ratios for, (T), 25:14700 (JINR-P1-5471)
interactions $\pi^- + p \to N + m\pi$ at 11 GeV/c in hydrogen bubble chamber, modified multi-Regge model for one-particle momentum distributions and invariant mass distributions for, (E/T), 24:3521 (DESY-69/37)
interactions $\pi^- + p \to n + m\pi^0$ at 5 GeV/c in propane bubble chamber, cross sections from Monte Carlo generation of, (T), 25:20004 (JINR-P13-5516)
interactions $\pi^- + p \to n + m\pi^0$ at 654 to 1247 MeV/c, angular distribution and total cross sections for, (E), 24:12957
interactions $\pi^- + p \to n$ + neutral particles at 0.78 to 5.3 GeV/c, cross sections for, (E), 21:33612
interactions $\pi^- + p \to n$ + neutral vector meson, quark model for, 23:18877 (ITF-68-36)
interactions $\pi^- + p \to N + n\pi$ (n = 1, 2,...) at 650 MeV in hydrogen bubble chamber, cross sections for, (E), 22:7446
interactions $\pi^- + p \to N + n\pi$ at 10 GeV/c, cross sections and multiplicity distribution for, (T), 22:29706
interactions $\pi^- + p \to n + n\pi^0$ at 5 GeV/c in propane bubble chamber, incident momentum dependence of cross sections for, (E), 25:25313
interactions $\pi^- + p \to n$ + omega, omega $\to e^+ + e^-$ at 1.67 GeV/c, cross section, decay width, and omega—phi mixing from, (E), 22:48234
interactions $\pi^- + p \to n + \omega + \pi^0$ at 4 GeV/c in propane bubble chamber, cross sections for, (E), 23: 34533 (JINR-P1-4412)
interactions $\pi^- + p \to n + \omega^0$ at 1.51 GeV/c, spectrometer, spark chamber, and scintillation counter study of meson (ω^0) production in, (E), 24:3649
interactions $\pi^- + p \to n$ + phi at 1.93 GeV/c, cross section for, (E), 22:46457
interactions $\pi^- + p \to n$ + phi at 2.0 to 4.0 GeV/c in hydrogen bubble chamber, (E), 21:42274
interactions $\pi^- + p \to n + \pi^0 + \gamma$ at 2.8 GeV/c, resonance in $\pi^0\gamma$ system from, (E), 21:44279
interactions $\pi^- + p \to n + \pi^0 + \pi^0$ at 1 to 10 GeV/c, generalized Veneziano model for total and differential cross sections, angular distributions, and f^0 and $\Delta^0(1236)$ production cross sections for, (T), 25:50137 (JINR-P2-5943)
interactions $\pi^- + p \to n + \pi^0 + \pi^0$ at 1.5 GeV/c, spark chamber study of photon cascade shower energy estimation for cross sections of, (E), 22:34851

interactions $\pi^- + p \rightarrow n + \pi^0 + \pi^0$ at 1.53 and 1.27 GeV/c, neutron counter and spark chamber study of di-pion production in, (E), 23:14982
interactions $\pi^- + p \rightarrow n + \pi^0 + \pi^0$ at 1.77 GeV/c, very broad s-wave $\pi\pi$ resonance in cross sections for $\pi^- + \pi^+ \rightarrow 2\pi^0$ interactions from differential cross sections for, (E), 24:3534
interactions $\pi^- + p \rightarrow n + \pi^0 + \pi^0$, cross sections for, 21:7502
interactions $\pi^- + p \rightarrow n + \pi^0 + \pi^+ + \pi^-$ at 4 GeV/c in propane bubble chamber, cross sections for, (E), 23:34533 (JINR-P1-4412)
interactions $\pi^- + p \rightarrow n + \pi^0$ at 1.4 to 4.0 GeV/c, cross sections for, (E), 22:48238
interactions $\pi^- + p \rightarrow n + \pi^0$ at 1.4 to 4.0 GeV/c, differential cross sections for, (E), 22:48239
interactions $\pi^- + p \rightarrow n + \pi^0$ at 190 to 600 MeV, evidence for N'(1470) from differential cross sections for, (E), 25:33571
interactions $\pi^- + p \rightarrow n + \pi^0$ at 2 to 5 GeV/c, absorptive Regge cut models for phenomenology of amplitudes for backward, (T), 23:51941
interactions $\pi^- + p \rightarrow n + \pi^0$ at 2 to 6 GeV/c using optical spark chambers, differential cross sections for, (E), 24:20080
interactions $\pi^- + p \rightarrow n + \pi^0$ at 2 to 6 GeV/c, scintillation counter study of differential cross sections for, (E), 23:30715
interactions $\pi^- + p \rightarrow n + \pi^0$ at 3, 4, and 5 GeV/c, differential cross sections for backward, (E), 23:13031 (COO-1764-21)
interactions $\pi^- + p \rightarrow n + \pi^0$ at 5.9 to 13.8 GeV/c, spark chamber study of cross sections for backward, (E), 25:47745
interactions $\pi^- + p \rightarrow n + \pi^0$ at 6 GeV/c, spark chamber study of angular distributions and cross sections for backward, (E), 24:26373
interactions $\pi^- + p \rightarrow n + \pi^0$ at 654 to 1247 MeV/c, angular distributions and total cross sections for, (E), 24:12957
interactions $\pi^- + p \rightarrow n + \pi^0$ at 895 MeV, spark chamber study of differential cross sections for, 21:33620
interactions $\pi^- + p \rightarrow n + \pi^0$ on bound hydrogen nuclei, mesic molecule model from, 21:44373
interactions $\pi^- + p \rightarrow n + \pi^0$, absorption Regge-cut model for cross sections and polarization in, 25:53206
interactions $\pi^- + p \rightarrow n + \pi^0$, N(1525) Regge trajectory contribution to backward, (T), 25:1548
interactions $\pi^- + p \rightarrow n + \pi^0$, Regge poles with kinematic cuts for, 24:35663
interactions $\pi^- + p \rightarrow n + \pi^- + 3\pi^+ + 2\pi^-$, Satz additive quark model sum rules for cross section for, 22:22308
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^- + 2\pi^0$ at 4 GeV/c in propane bubble chamber, cross sections for, (E), 23:34533 (JINR-P1-4412)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^- + 3\pi^0$ at 4 GeV/c in propane bubble chamber, cross sections for, (E), 23:34533 (JINR-P1-4412)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^- + \gamma$ at 713 MeV/c, scintillation counter and spark chamber study of eta production from, (E), 22:17846
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^- + \gamma$, upper limit for cross sections of eta production in, (E), 24:21937(T) (NP-tr-1877)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^- + m\pi^0$ at 4 GeV in propane bubble chamber, angular and momentum distributions for π^- and π^+ and cross sections for, (E), 24:21937(T) (NP-tr-1877)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^- + m\pi^0$ at 4 GeV, cross sections for, (E), 24:15489
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^- + n\pi^0$ at 7 and 17 GeV/c in nuclear emulsion, angular distributions for, (E), 22:50309
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^- + \pi^0 + \pi^0$, $\pi^0 \rightarrow \gamma + \gamma$, $\pi^+\pi^-\pi^0$ mass spectrum from cascade kinematics of, (T), 25:7657 (JINR-P1-4926)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^+ + \pi^- + \pi^- + m\pi^0$ (m greater than or equal to 0), baryon and meson resonance production in, (E), 21:7461 (JINR-P1-2963)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^+ + \pi^- + \pi^- + m\pi^0$ (m greater than or equal to 0) at 7.5 GeV, cross sections for, (E), 21:7461 (JINR-P1-2963)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^+ + \pi^- + \pi^- + n\pi^0$ at 7.5 GeV in propane bubble chamber, cross sections, angular distributions, and resonance production in, (E), 21:33614
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^+ + \pi^- + \pi^-$ at 16 GeV/c in hydrogen bubble chamber, resonance production from, (E), 21:44277 (SLAC-PUB-334)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^+ + \pi^- + \pi^-$ at 3.2 and 4.2 GeV/c, cross section for, (E), 22:15690
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^+ + \pi^- + \pi^-$ at 5 and 7.5 GeV/c, 3π mass spectrum from, (E), 22:48225 (COO-1195-132)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^- + \pi^- + \pi^+$ at 5 GeV/c, mass spectrum for $\pi^-\pi^+\pi^-$ from, (E), 22:37085
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^+ + \pi^- + \pi^-$ at 8 GeV/c, resonance parameters and cross sections for rho, N^{*++}, ω, eta, and β production in, 24:28496
interactions $\pi^- + p \rightarrow n + \pi^- + \pi^+ + \pi^+$, $N_3(1470)$ production and decay in, (E), 23:34623
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 1.89 to 3.2 GeV/c, determination of $I = 0$ $\pi\pi$ phase shift from, (E/T), 24:30520 (CONF-690521-, pp 27-54)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 11 GeV/c in hydrogen bubble chamber, total cross section and cross sections for rho^0, f^0, and g^0 production in, (E), 23:39615
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 11 GeV/c, total cross section for $\pi^+ + \pi^-$ interactions from, (E/T), 25:36509
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 2 to 6 GeV/c, spark chamber study of differential cross sections for rho^0 and f^0 production in, (E), 25:12113
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 2 to 6 GeV/c, spark chamber study of differential cross sections and density matrix elements for rho and f^0 production in backward, (E), 25:9654 (COO-1764-114)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 2.05 to 3.22 GeV/c, resonance production and decay in, (E), 21:7467 (UCRL-16877)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 2.05 to 3.22 GeV/c in hydrogen bubble chamber, resonance production from, (E), 22:3285
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 2.7 to 11.2 GeV/c, forward structure of cross sections for, (E/T), 24:15481
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 3.1 to 3.6 GeV/c, resonances in, (E), 22:35285(R) (AERE-PR/NP-13)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 50 and 100 GeV/c, spectrometer study of, (E), 24:37639 (COO-1428-210)
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 7 GeV/c, production of $g^0(1670)$ in, (E), 25:59288
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 7 GeV/c, Regge analysis of rho^0 production in, (E/T), 25:56431
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 8 GeV/c, double-Regge-model analysis of, (T), 25:14713
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 8 GeV/c, structure in f^0 and g^0 dipion mass region from, (E), 24:42881
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 8 GeV/c, total π-π cross sections for 2-GeV dipion mass region from, (E/T), 21:15356
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$ at 8.09 GeV/c in hydrogen bubble chamber, rho^0 and f^0 production in, 21:18912
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$, cross sections for, 21:7502
interactions $\pi^- + p \rightarrow n + \pi^+ + \pi^-$, isobar model interpretation in partial wave analysis of, (E/T), 24:1597
interactions $\pi^- + p \rightarrow n + \pi^- + \pi^+$, nucleon exchange and Treiman-Yang angle frequency distribution for, 21:5390
interactions $\pi^- + p \rightarrow n + \pi^-$, Regge exchange driving force in N/D partial-wave analysis of direct-channel resonances in, 24:3664
interactions $\pi^- + p \rightarrow n + \pi^+(2\pi^+) + \pi^-(2\pi^-) + m\pi^0$ at 4 GeV, statistical and anisotropic models for, (T), 25:12204 (JINR-P1-5431)
interactions $\pi^- + p \rightarrow n + rho^0$, Reggeized pion-exchange model for single π production in, (T), 25:47882
interactions $\pi^- + p \rightarrow n + X^0$ at 1.50 and 1.52 GeV/c, scintillation counter and spark chamber study of, (E), 23:42655
interactions $\pi^- + p \rightarrow n + X^0$ at 1.93 GeV/c, cross section for, (E), 23:5539
interactions $\pi^- + p \rightarrow n + X^0$, $X^0 \rightarrow \gamma + \gamma$ at 1.6 GeV/c, (E), 25:59290
interactions $\pi^- + p \rightarrow N^*(1236) + \pi^+ + \pi^-$ at 8 GeV/c, total π-π cross sections for 2-GeV dipion mass region from, (E/T), 21:15356
interactions $\pi^- + p \rightarrow N^{*+} + \pi^-$, PCAC constraint for, 22:32160
interactions $\pi^- + p \rightarrow N^{*-} + \pi^+$, test of consistency condition for, 23:5624
interactions $\pi^- + p \rightarrow N^{*++} + \pi^- + \pi^-$ at 11 GeV/c, $\pi^- + \pi^- \rightarrow \pi^- + \pi^-$ interactions in, (T), 22:34978 (DESY-68/18)
interactions $\pi^- + p \rightarrow N^{*++} + \pi^- + \pi^-$ at 11 GeV/c, angular distribution and cross sections for $\pi^- + \pi^-$ interactions from, (E), 23:1601
interactions $\pi^- + p \rightarrow$ neutral particle + n at rest, angular correlations in, (E), 23:23373
interactions $\pi^- + p \rightarrow$ neutral particles at 550 to 1150 MeV, $2\pi^0$, $3\pi^0$, and eta^0 production from, (E), 22:13637
interactions $\pi^- + p \rightarrow$ neutrals at 650 MeV in hydrogen bubble chamber, cross sections for, (E), 22:7446
interactions $\pi^- + p \rightarrow$ neutrals at 720 MeV in hydrogen bubble chamber, cross sections for, (E), 22:15687
interactions $\pi^- + p \rightarrow \omega + n$ at 1.2 GeV/c, counter study of $\omega \rightarrow \pi^0 + \gamma$ decay branching ratio from, (E), 21:37707
interactions $\pi^- + p \rightarrow \omega + n$ at 2.10 GeV/c in bubble chamber, cross section for, (E), 22:20149
interactions $\pi^- + p \rightarrow \omega + n$, $\omega \rightarrow e^+ + e^-$, at 4.0 GeV/c, spark chamber—Cherenkov spectrometer study of cross sections and widths for, (E), 22:1389
interactions $\pi^- + p \rightarrow \omega^0 + n$ at 15 and 16 GeV/c in heavy liquid bubble chamber, cross sections for, (E), 25:30741
interactions $\pi^- + p \rightarrow \omega^0 + n$ at 3.65 to 5.5 GeV/c, scintillation counter and spark chamber study of ω^0 spin density matrix elements from, (E), 25:40878 (COO-1195-214)
interactions $\pi^- + p \rightarrow \omega^0 + n$, Regge pole theory for, 21:29541
interactions $\pi^- + p \rightarrow p + (n-1)\pi$ ($3 < n < 9$) at 5 to 16 GeV/c, Reggeized multipheral model for, 22:46427
interactions $\pi^- + p \rightarrow p + (\pi rho)^-$ in double-Regge-pole model, πrho mass enhancement in backward, (T), 24:37789
interactions $\pi^- + p \rightarrow p + 2\pi + \pi^+ + \pi^0$ at high energies, quark model for, 21:37800 (DESY-67/19)
interactions $\pi^- + p \rightarrow p + 2\pi^0$ at high energies, hypothesis of limiting fragmentation for, (T), 24:52089
interactions $\pi^- + p \rightarrow p + 2\pi^+ + 3\pi^- + \pi^0$ at 12 GeV/c in hydrogen bubble chamber, (E), 24:6691(R) (UH-511-60-69)
interactions $\pi^- + p \rightarrow p + 2\pi^+ + 3\pi^- + \pi^0$ at 16 GeV/c in hydrogen bubble chamber, $\Delta^{++}(1236)$, ω^0, and rho^0 production in, (E), 22:22312 (INR-837/VI/PH)
interactions $\pi^- + p \rightarrow p + 2\pi^+ + 3\pi^-$ at 12 GeV/c in hydrogen bubble chamber, Δ^{++} production in, (E), 24:6691(R) (UH-511-60-69)
interactions $\pi^- + p \rightarrow p + 2\pi^- + \pi^+ + \pi^0$ at 3.9 GeV/c in hydrogen bubble chamber, resonance production from, (E), 22:15791 (UH-511-18)
interactions $\pi^- + p \rightarrow p + 2\pi^- + \pi^+$ at 100 GeV/c in hydrogen bubble chamber, diffraction dissociation in, (E), 24:37640 (COO-1428-213)
interactions $\pi^- + p \rightarrow p + 2\pi^- + \pi^+$ at 5 and 7.5 GeV/c, partial-wave analysis for spin and parity and polarization for upper and lower halves of A_3 in 3π states in, (T), 25:17486
interactions $\pi^- + p \rightarrow p + 2\pi^- + \pi^+$ at 5 to 25 GeV/c, partial-wave analysis for 3π system in mass region 1.0 to 2.0 GeV, (T), 25:56482 (COO-1195-224)
interactions $\pi^- + p \rightarrow p + 3\pi^- + 2\pi^+ + \pi^0$ at 5.48 GeV/c in hydrogen bubble chamber, resonance production from, 21:31529 (TID-23843)
interactions $\pi^- + p \rightarrow p + 3\pi^- + 2\pi^+ (+\pi^0)$, Satz additive quark model for cross section relations for, 22:29699 (INR-P-881/VI/PH)
interactions $\pi^- + p \rightarrow p + 3\pi^- + 2\pi^+$ at 100 GeV/c in hydrogen bubble chamber, diffraction dissociation in, (E), 24:37640 (COO-1428-213)
interactions $\pi^- + p \rightarrow p + 3\pi^+ + 2\pi^-$ at 8 GeV/c, Chan—Loskiewicz—Allison model for, (E/T), 24:20084
interactions $\pi^- + p \rightarrow p + A_1(A_2)$ at 7 GeV/c, differential cross sections for, (E), 24:1516
interactions $\pi^- + p \rightarrow p + A_1^-$ at 16 GeV/c, t-channel helicity conservation in diffractive, (E), 25:19921
interactions $\pi^- + p \rightarrow p + A_2$ at 3.25 GeV/c, cross sections for, (E), 23:32635
interactions $\pi^- + p \rightarrow p + A_2$ at 7 GeV/c, spin-parity analysis of $A_2 \rightarrow 3\pi$ decays from, (E), 23:14983
interactions $\pi^- + p \rightarrow p + A_3^-$ at 3.25 GeV/c in hydrogen bubble chamber, Regge pole model for cross sections of, (E/T), 22:48241
interactions $\pi^- + p \rightarrow p + A_3^-$ at 5 and 7.5 GeV/c in bubble chamber, partial-wave analysis of $A_3^- \rightarrow \pi^+ + 2\pi^-$ decay in, (E/T), 24:49472
interactions $\pi^- + p \rightarrow p + A^-$, existence of $A(\pi rho)$ near 1300 MeV with 2^- or 1^+ spin—parity assignment from, (E/T), 21:42375
interactions $\pi^- + p \rightarrow p +$ anti p + n at 8 GeV/c, cross section for, (E), 22:5515
interactions $\pi^- + p \rightarrow p +$ bosons at 16 GeV/c, production of higher-mass bosons in, (E), 23:34540
interactions $\pi^- + p \rightarrow p + eta^0$ at 2.72 to 2.84 GeV/c in propane—xenon bubble chamber, (E), 21:42263 (ITEF-470)
interactions $\pi^- + p \rightarrow p + \gamma$ at 4 GeV/c, analysis of, (E), 21:9709 (JINR-P1-3088)
interactions $\pi^- + p \rightarrow p + K +$ anti K at 2.0 to 4.0 GeV/c in hydrogen bubble chamber, A_2^0 production from, (E), 21:42274
interactions $\pi^- + p \rightarrow p + K_1^0 + K^-$ at 7 GeV/c, spark chamber and spectrometer study of A_3^- mass splitting in, (E), 24:24241
interactions $\pi^- + p \rightarrow p + k\pi$ ($k = 2$ to 8) at 16.2 GeV/c, four-momentum transfer distributions for, (E/T), 25:50074
interactions $\pi^- + p \rightarrow p + k\pi$, proton momentum spectra from duality diagrams for, 25:53193
interactions $\pi^- + p \rightarrow p + m\gamma$ (m greater than or equal to 1) at 4 GeV/c, analysis of, (E), 21:9709 (JINR-P1-3088)
interactions $\pi^- + p \rightarrow p +$ missing mass, multi-Regge peripheral model for, (T), 24:40405
interactions $\pi^- + p \rightarrow p +$ MM at 12 GeV/c in hydrogen bubble chamber, missing-mass spectra from, (E), 24:6691(R) (UH-511-60-69)
interactions $\pi^- + p \rightarrow p + MM^-$ at 3.25 GeV/c with high momentum transfer, differential cross sections for rho^- production in, (E), 25:59312
interactions $\pi^- + p \rightarrow p + MM^-$, magnetic missing mass spectrometer for studying, 25:39757 (ITEF-808)
interactions $\pi^- + p \rightarrow p + n\pi$ at 11 GeV/c in hydrogen bubble chamber, preliminary results for, (E), 22:39278 (CERN-68-7(Vol.2), pp 226-43)
interactions $\pi^- + p \rightarrow p + O^*(3200)$ at 17 GeV in nuclear emulsions, search for, (E), 23:18810
interactions $\pi^- + p \rightarrow p + \pi +$ rho at 3.25 GeV/c method for determining spin and parity of A_2 in, (T), 22:44411 (ITEF-557)
interactions $\pi^- + p \rightarrow p + \pi +$ rho, determination of spin and parity of A_3 meson produced in, (E), 23:3650
interactions $\pi^- + p \rightarrow p + \pi^0 + \pi^+ + \pi^- + \pi^-$ at 5 and 7.5 GeV/c, 3π mass spectrum from, (E), 22:48225 (COO-1195-132)
interactions $\pi^- + p \rightarrow p + \pi^0 + \pi^- + \pi^+ + \pi^-$ at 5 GeV/c, mass spectrum for $\pi^-\pi^+\pi^-$ from, (E), 22:37085
interactions $\pi^- + p \rightarrow p + \pi^0 + \pi^-$ at 2.05 to 3.22 GeV/c, resonance production and decay in, (E), 21:7467 (UCRL-16877)
interactions $\pi^- + p \rightarrow p + \pi^0 + \pi^-$ at high energies, test of center-of-mass helicity conservation in diffractive, (T), 24:51986
interactions $\pi^- + p \rightarrow p + \pi^0$, method from statistical model for branching ratio calculation for, 21:33711
interactions $\pi^- + p \rightarrow p + \pi^- + 2\pi^+ + 2\pi^- + \pi^0$, Satz additive quark model sum rules for cross section of, 22:22308
interactions $\pi^- + p \rightarrow p + \pi^+ + 2\pi^-$ at 4.45 GeV/c in hydrogen bubble chamber, effective mass distribution for N(1460) and N(1690) production in $p\pi^+\pi^-$ system in, (E), 25:45677
interactions $\pi^- + p \rightarrow p + \pi^+ + 2\pi^-$ at 4.47 GeV/c in hydrogen bubble chamber $\Delta^{++}(1236)$ production and $\pi^+ + p$ virtual scattering and $\pi^+ + \pi^-$ scattering cross sections and angular distributions in, (E), 25:9655 (ITEF-767)
interactions $\pi^- + p \rightarrow p + \pi^+ + 2\pi^-$ at 5 and 7.5 GeV/c, partial-wave analysis for $A_3(1305)$ production in 3π enhancement in, (T), 25:1408 (COO-1195-197)
interactions $\pi^- + p \rightarrow p + \pi^+ + 2\pi^-$ at 5 and 7.5 GeV/c, partial wave analysis of $A_3^- \rightarrow \pi^+ + 2\pi^-$ decay in, (E/T), 24:45422 (COO-1195-193)

interactions $\pi^- + p \to p + \pi^+ + 2\pi^-$ at 5 and 7.5 GeV/c, production and polarization of A_1(1305) from partial-wave analysis of 3π enhancement in, (T), 25: 47868
interactions $\pi^- + p \to p + \pi^+ + 2\pi^-$ at 5 GeV/c in bubble chamber, cross sections and resonance production in, (E), 24:10680
interactions $\pi^- + p \to p + \pi^+ + 2\pi^-$ at 6 GeV/c in hydrogen bubble chamber, threshold enhancements in rho^0-π^- and f$^0\pi^-$ systems in, (E), 24:24232
interactions $\pi^- + p \to p + \pi^+ + 2\pi^-$ at 7 GeV/c, spectrometer study of spin and parity of two peaks of split A_1 in, (E), 24:24245
interactions $\pi^- + p \to p + \pi^-$ + eta at 3.2 and 4.2 GeV/c, cross section for, (E), 22:15690
interactions $\pi^- + p \to p + \pi^-$ + neutral boson state at 8 GeV/c, search for higher-mass resonances in, (E), 25:9676
interactions $\pi^- + p \to p + \pi^- + n\pi$ at 7 and 17 GeV/c in nuclear emulsion, angular distributions for, (E), 22:50309
interactions $\pi^- + p \to p + \pi^- + \omega$ at 3.2 and 4.2 GeV/c, cross section for, (E), 22:15690
interactions $\pi^- + p \to p + \pi^- + \omega^0$ at 5.0 and 7.5 GeV/c in hydrogen bubble chamber, B production in, (E), 24:40259 (COO-1195-188)
interactions $\pi^- + p \to p + \pi^+ + \pi^0 + 2\pi^-$ at 16 GeV/c, resonances at 1250 and 1700 MeV in, (E), 22: 50294 (SLAC-PUB-480)
interactions $\pi^- + p \to p + \pi^+ + \pi^0 + \pi^- + \pi^-$ at 3.2 and 4.2 GeV/c, cross section for, (E), 22:15690
interactions $\pi^- + p \to p + \pi^- + \pi^0$ at 2.77 GeV/c, $\pi\pi$ phase shifts from Chew—Low extrapolation of, (E/T), 24:30449 (CONF-690521-, pp 131-48)
interactions $\pi^- + p \to p + \pi^- + \pi^0$ at 4.2 GeV/c in hydrogen bubble chamber, vector meson exchange contribution to rho$^-$ production from, 21:29455
interactions $\pi^- + p \to p + \pi^- + \pi^0$ at 8 GeV/c, total π-π cross sections for 2-GeV dipion mass region from, (E/T), 21:15356
interactions $\pi^- + p \to p + \pi^- + \pi^0$ at 8.09 GeV/c in hydrogen bubble chambers, rho$^-$ production in, 21: 18912
interactions $\pi^- + p \to p + \pi^- + \pi^0$ at GeV/c, double-Regge-model analysis of, (T), 25:14713
interactions $\pi^- + p \to p + \pi^- + \pi^0$ isobar model interpretation in partial wave analysis of, (E/T), 24: 1597
interactions $\pi^- + p \to p + \pi^- + \pi^0$, cross sections for, 21:7502
interactions $\pi^- + p \to p + \pi^- + \pi^0$, nucleon exchange and Treiman—Yang frequency distribution for, 21: 5390
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ + neutral boson state at 8 GeV/c, search for higher-mass resonances in, (E), 25:9676
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^- + \pi^0$ at 13 and 20 GeV/c, multi-Regge model for, (E/T), 25: 59300
interactions $\pi^- + p \to p + \pi^- + \pi^+ + \pi^- + \pi^0$ at 16 GeV/c in hydrogen bubble chamber, resonance production from, (E), 21:44277 (SLAC-PUB-334)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^- + \pi^0$ at 2.96 GeV/c in hydrogen bubble chamber, production of ω^0, Δ^{++}(1236), rho$^-$, rho^0, and Δ^+(1236) in, (E), 22: 20145
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^- + \pi^0$ at 20 GeV/c in hydrogen bubble chamber, N* resonance production in, (E), 23:14968 (HUX-2752-44)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^- + \pi^0$ at 3.25 GeV/c, $A_1 \to \pi$ + eta decay from, (E), 21:7471
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^- + \pi^0$ at 3.25 GeV/c in hydrogen bubble chamber, A_1 production from, (E), 22:5516
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^- + \pi^0$ at 3.25 GeV/c in hydrogen bubble chamber, A_1 production and decay from, (E), 22:7441 (ITEF-497)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^- + \pi^0$ at 8 GeV/c, resonance parameters and cross sections for rho, N^{0*}, ω, eta, and β production in, (E), 24:28496
interactions $\pi^- + p \to p + \pi^- + \pi^- + \pi^+ + \pi^0$ at high energies, quark model with additivity assumption for, 21:42374
interactions $\pi^- + p \to p + \pi^+ + \pi^+ + \pi^- + \pi^- + \pi^-$ at 16 GeV/c, longitudinal momentum distributions and average transverse momenta in, (E), 23:13040
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 11 GeV/c in hydrogen bubble chamber, validity of OPE model for, (E), 23:30711 (CEA-R-3468)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 11.2 GeV/c, helicity conservation in, (E/T), 25:53032
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 13 and 20 GeV/c in hydrogen bubble chamber, baryon resonance production in, (E), 23:14968 (HUX-2752-44)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 13 and 20 GeV/c, OPE model for baryon and meson resonance production in, (E/T), 24:49346
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 13 and 20 GeV/c, double-Regge-pole model for, (E/T), 24: 49522
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 13 to 20 GeV/c in bubble chamber, 3π mass spectrum in, (E), 22:52948
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 16 GeV/c, production and decay of A_1 and A_2 in, (E), 22:48235
interactions $\pi^- + p \to p + \pi^- + \pi^+ + \pi^-$ at 16 GeV/c in hydrogen bubble chamber, resonance production from, (E), 21:44277 (SLAC-PUB-334)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 2.1 to 20 GeV/c, one-pion-exchange model for, 23:42683
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 2.75 GeV/c in hydrogen bubble chamber, N*(1236) production and π^- + π^- interaction in isospin-2 state from, (E), 21:29451 (CEA-R-3035)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 2.96 GeV/c in bubble chamber, Δ^{++}(1236), rho^0, and A_1^- production in, (E), 22:20145
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 3.2 and 4.2 GeV/c, cross section for, (E), 22:15690
interactions $\pi^- + p \to p + \pi^- + \pi^+ + \pi^-$ at 3.25 GeV/c in hydrogen bubble chamber, A_1 production from, (E), 22:7441 (ITEF-497)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 3.25 GeV/c in hydrogen bubble chamber, A_1 production from, (E), 22:5516
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 3.25 GeV/c, spin-parity determination of A_1 from, (E), 21: 7471
interactions $\pi^- + p \to p + \pi^- + \pi^+ + \pi^-$ at 3.9 GeV/c, spin—parity analysis of 3π system in, (E), 25: 3276
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 3.9 GeV/c in hydrogen bubble chamber, resonance production from, (E), 22:15790 (UH-511-17)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 5 and 7.5 GeV/c, 3π mass spectrum from, (E), 22:48225 (COO-1195-132)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 5 GeV/c in bubble chamber, A_1 production in, (E), 23:18805 (COO-1195-158)
interactions $\pi^- + p \to p + \pi^+ + \pi^- + \pi^-$ at 5 GeV/c in bubble chamber, cross section and mass spectra for, (E), 23:18804 (COO-1195-157)
interactions $\pi^- + p \to p + \pi^- + \pi^+ + \pi^-$ at 5 GeV/c, mass spectrum for $\pi^-\pi^+\pi^-$ from, (E), 22: 37085
interactions $\pi^- + p \to p + \pi^- + \pi^+ + \pi^-$ at 5.0 to 20 GeV/c in hydrogen bubble chamber, cross sections and s-channel helicity for A_1 production in, (E/T), 25: 7552 (COO-1195-201)
interactions $\pi^- + p \to p + \pi^-$ + rho^0 at 3.2 and 4.2 GeV/c, cross section for, 22:15690
interactions $\pi^- + p \to p + \pi^-$ at 2.0 to 2.5 GeV/c, resonance production in, (E), 21:7467 (UCRL-16877)
interactions $\pi^- + p \to p + \pi^-$, absorption Regge-cut model for cross sections and polarization in, 25:53206
interactions $\pi^- + p \to p + \pi^-$, N(1525) Regge trajectory contribution to backward, (T), 25:1548
interactions $\pi^- + p \to p + \pi^-$, polarization in, 22: 46453
interactions $\pi^- + p \to p + \pi^-$, Regge poles with kinematic cuts for, 24:35663
interactions $\pi^- + p \to p + \pi^-$, spark chamber study of $\pi^- + p \to \pi^0 + p$ interactions at 4 to 11 GeV/c for study of backward, (E), 25:33553 (NP-18840)
interactions $\pi^- + p \to p + \pi^-$(rho$^-$) at 6.9 to 16 GeV/c, absorptive Regge cut models for phenomenology of amplitude of backward, (T), 23: 51941
interactions $\pi^- + p \to p + R^-$ at 11.5 GeV/c using missing-mass spectrometer, structure of R(1700) from, 22:3258
interactions $\pi^- + p \to p$ + rho at 4.0 and 8.0 GeV/c, Regge pole model for, 22:9588 (RLO-2041-1)
interactions $\pi^- + p \to p$ + rho^0(f^0) + π^-, double-Regge-pole model for, (E/T), 24:49522
interactions $\pi^- + p \to p + \text{rho}^-$ + rho^0 at 8 GeV/c, production of rho$^-$rho^0 (1710) enhancement in, (E), 22:37089
interactions $\pi^- + p \to p$ + rho$^-$ at 8 and 16 GeV/c, differential cross sections for rho$^-$ production in backward, (E), 23:10763
interactions $\pi^- + p \to p$ + rho$^-$ at high energies, Regge-pole analysis of backward rho$^-$ production in, (T), 23:10824
interactions $\pi^- + p \to p$ + rho$^-$, correlation of π^0 and π^+ photoproduction with, (E/T), 24:37690
interactions $\pi^- + p \to p + X^-$ at 1.8 GeV/c, missing mass spectrometer search for delta$^-$(960) resonance in, (E), 21:44289
interactions $\pi^- + p \to p + X^-$ at 16 GeV/c, review of U(2370) production in, (E), 25:17390
interactions $\pi^- + p \to p + X^-$ at 6 and 7 GeV/c, two-peak structure at A_1 meson from, (E), 21:37718
interactions $\pi^- + p \to p + X^-$ at 8.9 to 10.2 GeV/C, mass spectra of nonstrange bosons from, (E), 23:49059
interactions $\pi^- + p \to p + X^-$ at high energies, spectrometer study of 2.62-to-3.535-GeV-mass nonstrange bosons in, (E), 25:17391
interactions $\pi^- + p \to p(n) + K^0 + K^- + \pi^0$ (π^+) at 3.25 GeV/c, S = 1 NKπ resonance production in, (E) , 22:48240
interactions $\pi^- + p \to p(n) + K^0 + K^- + \pi^0(\pi^+)$ at 3.25 GeV/c, resonance production in, (E), 22:37079 (ITEF-584)
interactions $\pi^- + p \to p(n) + K^0 + K^- + \pi^0(\pi^+)$ at 3.25 GeV/c, resonance production in, (E), 23:8737(T) (NP-tr-1721)
interactions $\pi^- + p \to p(n) + K^0 + K^-$(anti K^0) at 1.5 to 8 GeV/c, generalized Veneziano model for total and differential cross sections, effective-mass and angular distributions for, (T), 25:50138 (JINR-P2-5961)
interactions $\pi^- + p \to p(n) + K^0 + K^-$(anti K^0), five-point Veneziano amplitude for cross sections and effective-mass and angular distributions for, (T), 25: 3378 (ITF-70-77)
interactions $\pi^- + p \to p(n) + K^+ + K^-$ (anti K^0) + π^-, at 3.25 GeV/c, S = 1 NKπ resonance production in, 22:48240
interactions $\pi^- + p \to p(n) + K^+ + K^-$(anti K^0) + π^- at 3.25 GeV/c, resonance production in, (E), 22:37079 (ITEF-584)
interactions $\pi^- + p \to p(n) + K^+ + K^-$(anti K^0) + π^- at 3.25 GeV/c, resonance production in, (E), 23: 8737(T) (NP-tr-1721)
interactions $\pi^- + p \to p(n) + n\pi$ at 3.9 and 4.16 GeV/c, resonance production from, (E), 22:13657
interactions $\pi^- + p \to$ phi + n at 2.10 GeV/c in bubble chamber, cross section for, (E), 22:20149
interactions $\pi^- + p \to$ phi + n at 4.0 GeV/c, spark chamber and Cherenkov gamma spectrometer study of, (E), 22:22280 (JINR-E1-3770)
interactions $\pi^- + p \to$ phi + n, partial width for phi $\to e^+ + e^-$ decay from, (E), 22:34860
interactions $\pi^- + p \to$ phi + n, phi $\to e^+ + e^-$, at 4.0 GeV/c, spark chamber—Cherenkov spectrometer study of cross sections and widths for, (E), 22:1389
interactions $\pi^- + p \to \pi$ + N, method from statistical model for branching ratio calculation for, 21:33711
interactions $\pi^- + p \to \pi + \pi + N$ at 2.14 GeV/c, rho production and decay angular distributions from, (E), 21:9713
interactions $\pi^- + p \to \pi + \pi + N$ at 2.26 GeV/c, cross sections for rho and N* production in, (E), 24: 3530
interactions $\pi^- + p \to \pi + \pi + N$ at 2.77 GeV/c, differential cross sections for, 25:1426
interactions $\pi^- + p \to \pi + \pi + N$ at 2.77 GeV/c, $\pi\pi$ phase shifts from, (E/T), 25:9670
interactions $\pi^- + p \to \pi + \pi + N$ at 456 to 552 MeV/c, isobar analysis of, (E), 25:3282
interactions $\pi^- + p \to \pi + \pi + N$ at 500 to 700 MeV, D_{13} particle-wave amplitude of, (T), 24:49504
interactions $\pi^- + p \to \pi + \pi + N$ below 700 MeV, phenomenological analysis of, 21:18989 (TID-22415)
interactions $\pi^- + p \to \pi + \pi + N$, $\pi\pi$ phase shifts from, (T), 23:3711 (NYO-2171-250)
interactions $\pi^- + p \to \pi^0 + \Delta^0(1236)$, $\Delta^0(1236) \to n + \pi^0$ at 5 GeV/c in propane bubble chamber, incident momentum dependence of cross sections for, (E), 25: 25313
interactions $\pi^- + p \to \pi^0 + \gamma + n$ at 1.71 to 2.46 GeV/c, Regge pole model for, (E/T), 23:18816
interactions $\pi^- + p \to \pi^0 + K^0 + \Lambda^0$ at 7 GeV/c, mass spectrum for, (E), 25:40898
interactions $\pi^- + p \to \pi^0 + n \to 2\gamma n$ at 200, 320, and 360 MeV, performance of lead—plastic sandwiched scintillation detectors for studying, 23:35468 (UCLA-34-P-106-33(Rev.))
interactions $\pi^- + p \to \pi^0 + n \to \gamma + \gamma + n$ at 54 MeV, total-absorption counter study of differential cross sections for, (E), 22:29636
interactions $\pi^- + p \to \pi^0 + n + \gamma$, cross sections for, 21:17124
interactions $\pi^- + p \to \pi^0 + n + \gamma$, Low theorem for soft photon emission from, 21:27388
interactions $\pi^- + p \to \pi^0 + n$ above 30 GeV, effects of constant behavior of total cross section on differential cross sections for, (T), 25:25416 (IFVE-STF-70-3)
interactions $\pi^- + p \to \pi^0 + n$ above 5 GeV/c, Regge pole model for, 22:20210 (CERN-67-24(Vol.2))
interactions $\pi^- + p \to \pi^0 + n$ above 6 GeV/c, neutron polarization from, (T), 21:21248
interactions $\pi^- + p \to \pi^0 + n$ and $\pi^- + p \to \omega^0 + n$ in quark model, relation between cross sections for, 21:25311
interactions $\pi^- + p \to \pi^0 + n$ at 0.575 to 2.085 GeV/c, differential cross sections for, (E), 21:18926
interactions $\pi^- + p \to \pi^0 + n$ at 1.0 to 5.5 GeV/c, differential cross sections for backward, (T), 25:1541
interactions $\pi^- + p \to \pi^0 + n$ at 1.5 to 3.8 GeV/c in bubble chamber, differential cross sections for backward π^0 production in, (E), 23:32632
interactions $\pi^- + p \to \pi^0 + n$ at 1.55 to 3.8 GeV/c, backward scattering cross sections for, (E), 23:7093
interactions $\pi^- + p \to \pi^0 + n$ at 1.71 to 2.46 GeV/c, Regge pole model for, (E/T), 23:18816
interactions $\pi^- + p \to \pi^0 + n$ at 1.8 to 5.0 GeV/c, energy dependence of cross section at 180° for, 23: 21056
interactions $\pi^- + p \to \pi^0 + n$ at 1.8 to 6.0 GeV/c, momentum dependence of differential cross sections for, (E), 25:36412
interactions $\pi^- + p \to \pi^0 + n$ at 11.2 GeV, rho' exchange in, (T), 21:15357
interactions $\pi^- + p \to \pi^0 + n$ at 2 GeV/c, resonance production from, (T), 22:3414
interactions $\pi^- + p \to \pi^0 + n$ at 2 to 5 GeV/c, interference model for polarization in, (E/T), 22: 15801
interactions $\pi^- + p \to \pi^0 + n$ at 2 to 5 GeV/c, partial wave amplitudes for, (E/T), 25:59304
interactions $\pi^- + p \to \pi^0 + n$ at 2 to 5 GeV/c, Reggeized baryon exchange model predictions for, 22: 44429
interactions $\pi^- + p \to \pi^0 + n$ at 2 to 6 GeV/c, differential cross sections, isospin, u- and s-channel amplitudes and phase for backward, (E), 25:9653 (COO-1764-113)
interactions $\pi^- + p \to \pi^0 + n$ at 2 to 6 GeV/c, differential cross sections for backward, (E), 25:9674
interactions $\pi^- + p \to \pi^0 + n$ at 2.0 to 2.6 GeV/c, total and differential cross sections and Δ and high-spin resonance production in, (E), 24:3527
interactions $\pi^- + p \to \pi^0 + n$ at 2.0 to 5.0 GeV/c, polarization in, (E), 22:13667
interactions $\pi^- + p \to \pi^0 + n$ at 2.07 GeV/c, Regge prediction for N(2190) in, (E/T), 21:37814
interactions $\pi^- + p \to \pi^0 + n$ at 2.4 to 3.8, 6, and 10 GeV/c, differential cross sections for, (E), 22:26566
interactions $\pi^- + p \to \pi^0 + n$ at 2.5 to 6 GeV/c, Regge-pole and resonant amplitudes for, (T), 21:46542
interactions $\pi^- + p \to \pi^0 + n$ at 2.8 GeV/c, cross sections for, (E), 21:2381
interactions $\pi^- + p \to \pi^0 + n$ at 3 to 18 GeV, optical model for amplitude of, 22:13755
interactions $\pi^- + p \to \pi^0 + n$ at 3.67 and 18.2 GeV/c, comparison of quark model and experimental cross sections for, 23:36928 (INR-P-1047)
interactions $\pi^- + p \to \pi^0 + n$ at 3.67 and 4.83 GeV/c, Regge trajectory and isospin invariance in, (E), 25: 59289
interactions $\pi^- + p \to \pi^0 + n$ at 3.67 and 4.83 GeV/c at large momentum transfers, differential cross sections of, (E), 25:19911

interactions $\pi^- + p \rightarrow \pi^0 + n$ at 30 to 70 GeV/c, prediction of Reggeized U(6) x U(6) x O(3) absorption model for, 24:40400
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 310 MeV, neutron polarization in, (E), 24:49328
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 310 MeV, phase shift analysis using recoil neutron polarization data for, 21: 40217 (JINR-P1-3416)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 4 to 11 GeV/c, differential cross sections for, (E), 24:1519
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 4 to 11 GeV/c, spark chamber study of differential cross sections for backward, (E), 25:33553 (NP-18840)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 4.0 GeV/c, spark chamber study of cross sections of, (E), 23:27751
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5 to 18 GeV/c, polarization in, (E), 23:23375
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5.2 to 13.3 GeV, isotopic spin bounds on polarization in, 25:53209
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5.9 and 11.2 GeV/c, polarization parameter in, (E), 21:2375
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5.9 and 11.2 GeV/c, effect of Regge cut on polarization in, 22:50396
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5.9 and 11.2 GeV/c, polarization parameter in, (E), 24:49347
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5.9 GeV/c, model for, 22:50391
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5.9 to 11.2 GeV/c, design and performance of triggering device for heavy-plate spark chamber for polarization parameter measurement for, 22:21348 (CEA-R-3357)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5.9 to 18.2 GeV, heavy-plate spark chamber study of differential cross sections for, (E), 22:20135 (CEA-R-3209)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5.9 to 18.2 GeV/c, negative-mass-squared resonance interpretation of angular distribution for, (T), 25:56499 (ORO-3992-8)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 5.9 to 18.2 GeV/c, absorption model calculations of differential cross sections for, 23:44662
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 500 to 1300 MeV, spark chamber study of differential cross sections for, 21:29458
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 561 and 2106 MeV/c, spark chamber study of forward differential cross sections for, (E), 22:22318
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 6 to 18 GeV/c, overlap function analysis for, 22:7522
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 6 to 25 GeV/c, overlap function analysis of polarization in, 22:48319
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 90 to 290 MeV, P-wave phase shift from total cross sections for, (E/T), 25:19915
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 96.6 MeV, lead converter and counter telescope study of differential cross section for, (E), 22:9511
interactions $\pi^- + p \rightarrow \pi^0 + n$ at 97.1 MeV, telescope counter study of phase shifts and total cross sections for, (E), 22:9510
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, analysis of inelastic, (E), 21:9805
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, composite model for energy dependence of, 23:39736
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, differential cross sections, polarization, and amplitudes for small- and large-angle, 23:36929 (JINR-E2-4479)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, differential cross sections and polarization predictions for, 23:3750
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, exchange of N and Δ Regge trajectories in, 23:27815
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, phenomenological analysis of, 22:17962
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, possibility of second rho from polarization in, (T), 21: 23335 (AD-644646)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, real to imaginary amplitude ratio for, (T), 22:20251
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Regge pole model for polarization prediction for, 21:42359
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Regge pole model for, 22:3417
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Regge pole model for polarization in, 23:5630
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Regge cuts and secondary trajectories in, 23:51961
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Reggeized absorption model including effects of diffraction dissociation for, 23:8854
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Regge pole—cut model for analysis of, 25:56505
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Reggeized generalized optical model for multiple and diffraction scattering and dips in, (T), 25:12205
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Regge pole theory for, 21:29541
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Regge poles and SU(3) for forward, 22:15796
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, Regge trajectory linearity in Veneziano representation for exchange quasipotential for differential cross sections of, (T), 25:1527 (JINR-E2-5226)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, review of Regge poles in, 22:13750 (CALT-68-145)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, review of experiments for, 22:13756
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, single rho Regge-pole exchange model for, 22:50393
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, tachyon resonance exchange for differential cross sections for, (T), 25:47935 (ORO-3992-52)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at high energies, two Regge trajectories for, 23:34600
interactions $\pi^- + p \rightarrow \pi^0 + n$ at rest, angular correlations in, (E), 23:23373
interactions $\pi^- + p \rightarrow \pi^0 + n$ at rest, Cherenkov counter study of, 21:37654 (BMwF-FBK-67-52)
interactions $\pi^- + p \rightarrow \pi^0 + n$ at very high energies, polarization in, 25:56509
interactions $\pi^- + p \rightarrow \pi^0 + n$ below 2 GeV, cross sections for, (E), 23:25526(T) (ORNL-tr-1926)
interactions $\pi^- + p \rightarrow \pi^0 + n$ in hydrogenous substances, (E), 22:15679 (JINR-P13-3653)
interactions $\pi^- + p \rightarrow \pi^0 + n$ in nuclei at 7.82 GeV/c, differential cross sections for, (E), 25:56432
interactions $\pi^- + p \rightarrow \pi^0 + n$ in Regge-pole model, momentum dependence of amplitude for, 22:17869
interactions $\pi^- + p \rightarrow \pi^0 + n$ in Regge-pole model, laboratory momentum dependence of total cross section for, 24:15583
interactions $\pi^- + p \rightarrow \pi^0 + n$ in Veneziano model, polarization in, 25:9793
interactions $\pi^- + p \rightarrow \pi^0 + n$, A_2' Regge pole in, 24: 49525
interactions $\pi^- + p \rightarrow \pi^0 + n$, absorption model with Regge-pole exchange for rho exchange in, 22:48323
interactions $\pi^- + p \rightarrow \pi^0 + n$, absorptive optical model for scattering at all angles in, (T), 24:40393
interactions $\pi^- + p \rightarrow \pi^0 + n$, ambiguities in determination of Regge-pole parameters for rho-exchange, 21:37822
interactions $\pi^- + p \rightarrow \pi^0 + n$, amplitude with Regge poles only for, 23:23487
interactions $\pi^- + p \rightarrow \pi^0 + n$, Argand analysis of Regge amplitudes for resonances in, 22:39399 (IC-68/51)
interactions $\pi^- + p \rightarrow \pi^0 + n$, asymptotic theorems and SU(2) symmetry for asymptotic relation for, 23: 21144
interactions $\pi^- + p \rightarrow \pi^0 + n$, axial-vector coupling-constant renormalization for, 21:9765
interactions $\pi^- + p \rightarrow \pi^0 + n$, backward, 24:18188 (CONF-690330-, pp 217-24)
interactions $\pi^- + p \rightarrow \pi^0 + n$, bound on helicity flip amplitude for absorptive part of, 25:53215
interactions $\pi^- + p \rightarrow \pi^0 + n$, complex-angular-momenta method with moving branch points and Regge cuts for, 24:10767
interactions $\pi^- + p \rightarrow \pi^0 + n$, complex-angular-momentum method with branch points in j-plane for, 24:8647 (ITEF-699)
interactions $\pi^- + p \rightarrow \pi^0 + n$, conspiracy and Regge cut models for differential cross sections and polarization in, 25:33742
interactions $\pi^- + p \rightarrow \pi^0 + n$, convergence of finite-energy sum rules in nonforward directions in, 24: 40389
interactions $\pi^- + p \rightarrow \pi^0 + n$, cross section from Regge analysis of $\pi + p$ backward elastic scattering, 22:7508
interactions $\pi^- + p \rightarrow \pi^0 + n$, cross sections for, (E), 23:10817
interactions $\pi^- + p \rightarrow \pi^0 + n$, determination of trajectories and residues of rho and rho' Regge poles in, 22:48325
interactions $\pi^- + p \rightarrow \pi^0 + n$, differential cross section for, (E/T), 22:9518
interactions $\pi^- + p \rightarrow \pi^0 + n$, differential cross sections using SU(3) symmetry and Regge poles for, (T), 23:5626
interactions $\pi^- + p \rightarrow \pi^0 + n$, differential cross sections for, (T), 22:46430
interactions $\pi^- + p \rightarrow \pi^0 + n$, discrepancies between forward amplitude data and dispersion relation prediction for, (E/T), 25:12209
interactions $\pi^- + p \rightarrow \pi^0 + n$, doubled rho trajectory for, 24:42968
interactions $\pi^- + p \rightarrow \pi^0 + n$, duality diagrams with exotic t-channel exchanges for, 25:47859 (COO-2009-25)
interactions $\pi^- + p \rightarrow \pi^0 + n$, effects of angular-momentum cuts on polarization in charge-exchange, 21:11775
interactions $\pi^- + p \rightarrow \pi^0 + n$, generalized superconvergence sum rule for modified interference model for near forward, (E/T), 24:35656
interactions $\pi^- + p \rightarrow \pi^0 + n$, interference model and duality principle from dispersion sum rules for, 23: 36942
interactions $\pi^- + p \rightarrow \pi^0 + n$, interference of Regge rho exchange in, (T), 21:5393
interactions $\pi^- + p \rightarrow \pi^0 + n$, model for Regge cut contributions to, 23:42778
interactions $\pi^- + p \rightarrow \pi^0 + n$, model of exchange-degenerate Regge trajectories for, 24:18221
interactions $\pi^- + p \rightarrow \pi^0 + n$, modified Lorentz pole analysis of amplitude for, 23:27813
interactions $\pi^- + p \rightarrow \pi^0 + n$, multiple quark scattering analysis for polarization effect and energy and momentum transfer square dependencies of differential cross sections for, (E), 25:43615
interactions $\pi^- + p \rightarrow \pi^0 + n$, observation of branch points connected with p and p' poles for, 21:42357
interactions $\pi^- + p \rightarrow \pi^0 + n$, optical potential for absorptive corrections to rho Regge pole for, 21:15417
interactions $\pi^- + p \rightarrow \pi^0 + n$, partial-wave analysis for test of Harari—Freund hypothesis from, 25:53179 (UCRL-20655, pp 169-75)
interactions $\pi^- + p \rightarrow \pi^0 + n$, phase problem for double rho exchange in, (T), 23:51943
interactions $\pi^- + p \rightarrow \pi^0 + n$, polarization associated with Regge cuts in, 21:21238
interactions $\pi^- + p \rightarrow \pi^0 + n$, quark model for backward, 21:4050
interactions $\pi^- + p \rightarrow \pi^0 + n$, quark model predictions for, (E/T), 24:1595
interactions $\pi^- + p \rightarrow \pi^0 + n$, random phase approximation in absorption and multiple-scattering models for, 23:49170
interactions $\pi^- + p \rightarrow \pi^0 + n$, random-phase approximation and absorption model for, 23:51940
interactions $\pi^- + p \rightarrow \pi^0 + n$, real to imaginary rates of forward amplitude of, 22:29707
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge A_2 and rho trajectories from, 21:40218 (NP-16952)
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge cuts for polarization in, 23:44666
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge cuts in absorption model for polarization in, 23:3749
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge cuts in Van Hove model for differential cross sections and polarization in forward, (T), 25:41001 (RLO-2041-57)
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge models for, (E/T), 25:33736
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge pole amplitudes with absorptive corrections for, 24:13102
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge pole analysis for $13/2^-$ N(2530) production in, 22:39412
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge pole model for invariant functions for, 23:51939
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge pole model with absorptive corrections for, 22:44443
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge pole model with flat trajectories for, 24:49493
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge poles and SU(3) symmetry for, 22:1439
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge quark model for, (T), 25:25450
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge—quark model analysis of differential cross sections for, 23:1644
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge-pole analysis of, 22:46433
interactions $\pi^- + p \rightarrow \pi^0 + N$, Regge-pole model with absorptive corrections for, 22:15787 (DESY-68/1)
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge-pole model with L—S coupling for, 22:20264
interactions $\pi^- + p \rightarrow \pi^0 + n$, Regge-pole model with cuts for, (T), 24:49501
interactions $\pi^- + p \rightarrow \pi^0 + n$, resonances in partial-wave projection of Regge pole fit to, 22:44430
interactions $\pi^- + p \rightarrow \pi^0 + n$, review of Regge pole theory for, 23:18823 (CONF-671217-, pp 370-588)
interactions $\pi^- + p \rightarrow \pi^0 + n$, review of Regge pole theory for, 22:7489 (UCSD-10-P-10-29)
interactions $\pi^- + p \rightarrow \pi^0 + n$, secondary Regge contributions to forward, 22:39421
interactions $\pi^- + p \rightarrow \pi^0 + n$, secondary Regge contributions in, 25:56508
interactions $\pi^- + p \rightarrow \pi^0 + n$, separability and unitarity concepts for differential cross sections for, 21:44382
interactions $\pi^- + p \rightarrow \pi^0 + n$, spin-flip amplitudes from polarization in, (T), 21:44374
interactions $\pi^- + p \rightarrow \pi^0 + n$, SU(3) predictions for, 22:46490
interactions $\pi^- + p \rightarrow \pi^0 + n$, sum rules based on Regge pole model for, 21:17130
interactions $\pi^- + p \rightarrow \pi^0 + n$, test of violation of Pomeranchuk theorem from polarization in, (E/T), 25: 45764
interactions $\pi^- + p \rightarrow \pi^0 + n$, Veneziano model for, 24:18190
interactions $\pi^- + p \rightarrow \pi^0 + p$ at 150 to 600 MeV at 60 to 170°, scintillation counter study of differential cross sections for, (E), 25:43564
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$ at 1.71 to 2.46 GeV/c, Regge pole model for, (E/T), 23:18816
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$ at 1.715 to 2.460 GeV/c, s-wave $\pi\pi$ interaction from, (E/T), 21:29459
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$ at 2 GeV/c, design of spark chamber for studying, 23:47818
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$ at 2.00 GeV/c, kinematic analysis of two meson (π^0) final states from, 21:25238 (RHEL/R-104)
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$ at 378 MeV in isobar model, S-wave $\pi\pi$ phase shift from, 25:3392
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$ at 378 MeV, S-wave $\pi + \pi$ scattering length from, (E), 25:9668
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$, Chew—Low extrapolation of s-wave $\pi\pi$ scattering from, 24:52093
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$, forward structure in, 25:7664
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + N$, model for resonance production from, 21:42360
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$, partial-wave amplitudes for, 21:18995
interactions $\pi^- + p \rightarrow \pi^0 + \pi^0 + n$, s-wave $\pi\pi$ scattering amplitude from, 22:37151
interactions $\pi^- + p \rightarrow \pi^0 + \pi^- + p$ at 4 GeV/c, rho$^-$ and Δ^-(1236) production in, (E), 23:14976
interactions $\pi^- + p \rightarrow \pi^0 + \pi^- + p$ at 500 to 700 MeV, isobar model for partial-wave analysis of, 22: 20261
interactions $\pi^- + p \rightarrow \pi^0 + \pi^- + p$ at 6 GeV/c in hydrogen bubble chamber, N(1400) production in, (E), 22:11588
interactions $\pi^- + p \rightarrow \pi^0$ (eta) + n at 2 to 20 GeV/c, Regge model with four poles for, (E/T), 25:5371 (CEA-N-1373)
interactions $\pi^- + p \rightarrow \pi^0$ (eta°) + n at high energies, Regge pole models for differential cross sections and polarization predictions for, 23:39730
interactions $\pi^- + p \rightarrow \pi^0$(eta°) + n at 3.0 to 6.0 GeV/c, proposed experiment for spark chamber study of, 22:41740 (COO-1749-2 and Add.)
interactions $\pi^- + p \rightarrow \pi^0$(eta°) + n at 50 and 100 GeV/c at small angles, proposed experiment for optical spark chamber study of, 24:51955 (TID-25473(Vol.4), pp 71-5)
interactions $\pi^- + p \rightarrow \pi^0$(eta°) + n below 20 GeV/c, rho' Regge trajectory for, 22:39413
interactions $\pi^- + p \rightarrow \pi^0(\pi^0) + p(n)$ at 4.65 GeV/c in hydrogen bubble chamber, study of nuclear forces from resonance production in, (E), 22:29638
interactions $\pi^- + p \rightarrow \pi^0 + 2\pi^- + n$ interactions at 6.0 GeV/c in hydrogen bubble chamber, (E), 24:3525

interactions $\pi^- + p \to \pi^+ + 2\pi^- + p$ at 4.45 GeV/c, cross sections for A_1^- and A_3^+ production in, (E), 25: 38674
interactions $\pi^- + p \to \pi^+ + 2\pi^- + p$ at 5 GeV/c, multi-Regge model for, (T), 25:43602
interactions $\pi^- + p \to \pi^+ + 2\pi^- + p$ at 6.0 GeV/c in hydrogen bubble chamber, $\Delta^{++}(1236)$, rho°(765), and f°(1260) production in, (E), 24:3525
interactions $\pi^- + p \to \pi^+ + 2\pi^- + p$ at high energies, test of center-of-mass helicity conservation in diffractive, (T), 24:51986
interactions $\pi^- + p \to \pi^+ + 2\pi^- + \pi^0 + p$ at 6 GeV/c in hydrogen bubble chamber, resonance production and cross sections for, (E), 25:12101
interactions $\pi^- + p \to \pi^+ + 2\pi^- + \pi^0 + p$ at 6.0 GeV/c in hydrogen bubble chamber, resonance production in, (E), 24:3525
interactions $\pi^- + p \to \pi^+ + 2\pi^- + \pi^0$ at 11 GeV/c in hydrogen bubble chamber, modified multi-Regge model for duality in Δ^{++} production in, (E/T), 24:3521 (DESY-69/37)
interactions $\pi^- + p \to \pi^+$ + anything at 8 to 24.8 GeV/c in bubble chamber, cross sections for, (E), 25: 59319
interactions $\pi^- + p \to \pi^+ + \Delta(1236)^-$ at 2.15 to 6 GeV/c, optical-spark-chamber study of cross sections and missing-mass spectra from, (E), 25:50070
interactions $\pi^- + p \to \pi^+ + \Delta^+$ at high energies, magnetic dipole couplings at Regge vertices for, 23: 23486
interactions $\pi^- + p \to \pi^+ + \Delta^-$, modified two-pion-exchange model for, 22:37153
interactions $\pi^- + p \to \pi^+ + \Delta^+$, Regge pole model with Veneziano residues for, (T), 25:3384 (TPJU-3/70)
interactions $\pi^- + p \to \pi^+ + \Delta^+$, Regge pole model with Veneziano residues for, (T), 24:52110
interactions $\pi^- + p \to \pi^+ + \Delta^-(1236)$ at 1.5 to 1.8 GeV, evidence for duality from amplitudes of, 24:5307
interactions $\pi^- + p \to \pi^+ + \Delta^+(1236)$, rescattering model for, 23:42688
interactions $\pi^- + p \to \pi^+ + K^0 + \Sigma^+$, final-state interaction effects in, 24:37786
interactions $\pi^- + p \to \pi^+ + K^0 + \Sigma^+$, isobar and rescattering models for Dalitz plot analysis of final-state, 24:10768
interactions $\pi^- + p \to \pi^+ + K^+ + \Lambda$, exotic exchange and kinematical reflection in, (T), 24:3663
interactions $\pi^- + p \to \pi^+ + K^+ + A^0$ at 7 GeV/c, K*(890) and K*(1420) production in, (E), 25:40898
interactions $\pi^- + p \to \pi^+$ + missing mass, duality and triple Pomeron vertex for diffraction dissociation, 25: 38726
interactions $\pi^- + p \to \pi^+ + m\pi^0 + N', N' \to p + \gamma$ at 5 GeV/c in propane bubble chamber, upper limit for N' production in, (E), 25:50058 (JINR-P1-5916)
interactions $\pi^- + p \to \pi^+ + N + \pi^- + n\pi$ at 10 GeV/c in hydrogen bubble chamber, angular and momentum properties, meson asymmetry coefficients and resonance production in, (E), 24:10812
interactions $\pi^- + p \to \pi^+ + n$ at high energies, sum rule for Regge pole model for cross section of, 22: 37159
interactions $\pi^- + p \to \pi^- + N^0$ at 8 and 16 GeV/c, spectrometer study of differential cross sections for, (E) , 24:45442
interactions $\pi^- + p \to \pi^+ + N^{0-}$ at 8 and 16 GeV/c, upper limits for, (E), 24:18079
interactions $\pi^- + p \to \pi^- + N^{0*}(1236)$ and $\pi^- + p \to \pi^+ + N^{0*-}(1236)$ at 2.15 GeV/c, differential cross section for, (E), 23:5541
interactions $\pi^- + p \to \pi^- + N^*(1710)$ at 6 GeV/c in hydrogen bubble chamber, properties of N(1710) in, (E), 24:37631
interactions $\pi^- + p \to \pi^- + p + 2\gamma$ at 2.72 to 2.84 GeV/c in propane—xenon bubble chamber, resonance production in, (E), 21:42263 (ITEF-470)
interactions $\pi^- + p \to \pi^- + p + 2\gamma$ at high energies, bremsstrahlung amplitude for, (T), 23:39644 (ITF-69-38)
interactions $\pi^- + p \to \pi^- + p + 2\gamma(3\gamma)$ at 5 GeV/c in propane bubble chamber, $\pi^-\gamma(270)$ production in, (E), 25:53026
interactions $\pi^- + p \to \pi^- + p + 2\gamma(3\gamma)$ at 5 GeV/c in propane bubble chamber, production of $\pi^-\gamma(270)$ in, (E), 25:50065 (JINR-P1-5874)
interactions $\pi^- + p \to \pi^- + p + 2\pi^0$ at 2.72 to 2.84 GeV/c in propane—xenon bubble chamber, (E), 21: 42263 (ITEF-470)
interactions $\pi^- + p \to \pi^- + p + D^0, D^0 \to \pi^+ + \pi^- + \pi^- + \pi^-$ at 16 GeV/c, cross section for, (E), 25: 27964
interactions $\pi^- + p \to \pi^+ + p +$ eta at 1050 to 1170 MeV/c, cross sections and angular distributions for eta production in, (E), 23:23387
interactions $\pi^- + p \to \pi^- + p +$ eta at 1170 MeV/c in hydrogen bubble chamber, (E), 22:26565 (UCRL-18141)
interactions $\pi^- + p \to \pi^- + p +$ eta at 2.26 GeV/c, π/sub N/(1016) and $A_2(1270)$ production in, (E), 23: 7098
interactions $\pi^- + p \to \pi^- + p +$ eta° at 5.0 GeV/c, A_2 production and decay branching ratios from, (E), 22: 32072
interactions $\pi^- + p \to \pi^- + p + \gamma$ at 340 MeV, gamma spectrum and cross sections from, (E), 23: 13018
interactions $\pi^- + p \to \pi^- + p + \gamma$ at 720 MeV in hydrogen bubble chamber, cross sections for, (E), 22: 15687
interactions $\pi^- + p \to \pi^- + p + \gamma$ at high energies, method for determining properties of effective space—time regions of, (E), 23:39644 (ITF-69-38)
interactions $\pi^- + p \to \pi^- + p + \gamma$, $\gamma 3\pi$ vertex and final-state interaction in, (T), 22:24651
interactions $\pi^- + p \to \pi^- + p + m\gamma$ at 4 GeV/c in propane bubble chamber, 21:40151
interactions $\pi^- + p \to \pi^- + p +$ missing mass at 2.05 to 3.22 GeV/c in hydrogen bubble chamber, A_2^- production from, (E), 22:3285
interactions $\pi^- + p \to \pi^- + p +$ neutral particles at 7 GeV/c in propane bubble chamber, small momentum transfer in, (E), 22:9514
interactions $\pi^- + p \to \pi^- + p +$ neutral vector meson, quark model for, 23:18877 (ITF-68-36)
interactions $\pi^- + p \to \pi^- + p + \omega$ at 5 GeV/c in bubble chamber, N*° and B production in, (E), 23: 21054 (COO-1195-159)
interactions $\pi^- + p \to \pi^- + p + \omega$ at 7 GeV/c, interpretations for $p\omega(1750)$ resonance from, (E/T), 24:49345
interactions $\pi^- + p \to \pi^- + p + \omega$, use of Veneziano model for calculation of one-pion-exchange contribution to, 23:46738
interactions $\pi^- + p \to \pi^- + p + \pi^0 + \pi^0$ at 720 MeV in hydrogen bubble chamber, cross sections for, (E), 22:15687
interactions $\pi^- + p \to \pi^- + p + \pi^0$ at 1.7 GeV/c in hydrogen bubble chamber, test of Ferrari—Selleri form factor for elastic $\pi + \pi$ interactions from, (E/T), 22: 3275
interactions $\pi^- + p \to \pi^- + p + \pi^0$ at 2.72 to 2.84 GeV/c in propane—xenon bubble chamber, (E), 21: 42263 (ITEF-470)
interactions $\pi^- + p \to \pi^- + p + \pi^0$, determination of cross sections from OPE model and N° production for, (E/T), 23:14966
interactions $\pi^- + p \to \pi^- + p + \pi^+ + \pi^- + (\pi^0)$ at 3.9 GeV/c, evidence for rho—ω constructive interference effect in, (E), 24:51980
interactions $\pi^- + p \to \pi^- + p + \pi^+ + \pi^- + \pi^0$ at 11 GeV/c in hydrogen bubble chamber, A_1 and A_2 production from, 21:42266
interactions $\pi^- + p \to \pi^- + p + \pi^+ + \pi^- + \pi^0$ at 11 GeV/c, analysis of 4π enhancement from, (E), 22: 29628
interactions $\pi^- + p \to \pi^- + p + \pi^+ + \pi^- + \pi^0$ at 5 GeV/c in hydrogen bubble chamber, B resonance production in, (E), 22:20136 (COO-1195-110)
interactions $\pi^- + p \to \pi^- + p + \pi^+ + \pi^- + X$ at 50 GeV/c, performance of proposed 25-foot bubble chamber for study of simulated, 24:50591 (TID-25473(Vol.2), pp 69-81)
interactions $\pi^- + p \to \pi^- + p + \pi^+ + \pi^-$ at 11 GeV/c, analysis of 3π enhancement from, (E), 22: 29628
interactions $\pi^- + p \to \pi^- + p + \pi^+ + \pi^-$ at 11 GeV/c in hydrogen bubble chamber, A_1 and A_2 production from, 21:42266
interactions $\pi^- + p \to \pi^- + p + \pi^+ + \pi^-$ at 3.25 GeV/c, quantum numbers of light and heavy A_2^- in, (E), 24:51969
interactions $\pi^- + p \to \pi^- + p + \pi^- + \pi^+$ at 4.7 GeV/c in hydrogen bubble chamber, 3-particle resonance production from, 21:21143
interactions $\pi^- + p \to \pi^- + p + \pi^- + \pi^+$ at 6 GeV/c, $N^{0*-}(1700)$ production and decay in, (E), 22: 39283
interactions $\pi^- + p \to \pi^- + p + x + \pi^0$ at 11 GeV/c in hydrogen bubble chamber, A_1 and A_2 production from, 21:42266
interactions $\pi^- + p \to \pi^-$ + p and $\pi^- + p \to \pi^0 + n$ interactions at low energies, mass difference and Coulomb effects in, 25:43645
interactions $\pi^- + p \to \pi^-$ + p at 0 to 2 GeV/c, compilation of amplitudes and parameters from partial-wave analyses for, (T), 25:36506 (TID-25726)
interactions $\pi^- + p \to \pi^-$ + p at 0.050 to 200 GeV, real part of amplitude of, (T), 22:39403 (JINR-P2-3850)
interactions $\pi^- + p \to \pi^-$ + p at 0.55 to 1.3 GeV/c, resonance and diffraction parameters in model for, (T), 25:43643
interactions $\pi^- + p \to \pi^-$ + p at 0.6 to 3.3 MeV/c, measurement of polarization parameter in elastic, (E), 21:17045 (UCRL-17263)
interactions $\pi^- + p \to \pi^-$ + p at 0.893 to 1.06 GeV/c, spark chamber study of differential cross sections for statistical fluctuations for, (E), 23:39620
interactions $\pi^- + p \to \pi^-$ + p at 1.0 to 5.5 GeV/c, differential cross sections for backward, (T), 25:1541
interactions $\pi^- + p \to \pi^-$ + p at 1.400 to 2.000 GeV in bubble chamber, cross sections and angular distributions for, (E), 25:47741 (SLAC-131)
interactions $\pi^- + p \to \pi^-$ + p at 1.48 to 2.93 GeV/c, magnetostrictive wire spark chamber study of cross sections for, (E), 22:20152
interactions $\pi^- + p \to \pi^-$ + p at 1.59 to 4.16 GeV/c in hydrogen bubble chamber, review and phenomenological analysis for angular distributions and diffraction peak shrinkage in, (E), 24:10690
interactions $\pi^- + p \to \pi^-$ + p at 1.6 to 5.3 GeV/c, N*(3245) production from, (E), 22:3282
interactions $\pi^- + p \to \pi^-$ + p at 1.7 GeV/c, cross sections for, (E), 23:7101
interactions $\pi^- + p \to \pi^-$ + p at 1.7 GeV/c, models for differential cross sections of, 22:37150
interactions $\pi^- + p \to \pi^-$ + p at 1.71 to 3.01 GeV/c, evidence for existence of N(2210) and N(2220) from, (E/T), 25:3281
interactions $\pi^- + p \to \pi^-$ + p at 1.71 to 5.53 GeV/c, differential cross sections for, (E), 25:3280
interactions $\pi^- + p \to \pi^-$ + p at 1.71 to 5.53 GeV/c, scintillation counter spectrometer study of (2290) enhancement in differential cross sections for, (E), 25: 9652 (COO-1764-112)
interactions $\pi^- + p \to \pi^-$ + p at 1.89 and 2.10 GeV/c in bubble chamber, differential cross sections for, (E), 22:24566
interactions $\pi^- + p \to \pi^-$ + p at 12 to 18.6 GeV/c at small angles, model with multiple Pomeranchukon exchange corrections to amplitude of, (E/T), 23:51946
interactions $\pi^- + p \to \pi^-$ + p at 16 GeV/c, cross sections for, (E), 23:34540
interactions $\pi^- + p \to \pi^-$ + p at 2.05 to 3.22 GeV/c in hydrogen bubble chamber, resonance production from, (E), 22:3285
interactions $\pi^- + p \to \pi^-$ + p at 2.15 GeV/c, differential cross section for backward, (E), 23:5541
interactions $\pi^- + p \to \pi^-$ + p at 2.15 to 6.00 GeV/c, spark chamber and spectrometer study of differential cross sections for backward, (E), 25:45676
interactions $\pi^- + p \to \pi^-$ + p at 2.26 GeV/c, differential cross sections for elastic, (E), 21:18918
interactions $\pi^- + p \to \pi^-$ + p at 2.3 and 6.0 GeV/c, spark chamber study of differential cross sections for backward, (E), 22:3281
interactions $\pi^- + p \to \pi^-$ + p at 2.38 to 3.00 GeV/c, differential cross sections and angular distributions for backward, (E), 25:27965
interactions $\pi^- + p \to \pi^-$ + p at 2.38 to 3.00 GeV/c, differential cross sections for, (E), 24:49324 (COO-2009-14)
interactions $\pi^- + p \to \pi^-$ + p at 2.5 to 6.0 GeV/c, differential cross section for elastic, (E), 21:35265 (COO-1112-108)
interactions $\pi^- + p \to \pi^-$ + p at 2.5 to 6.0 GeV/c, differential cross sections for, (E), 21:35263 (COO-1112-106)
interactions $\pi^- + p \to \pi^-$ + p at 2.5 to 6.0 GeV/c, differential cross sections for, 21:35262 (COO-1112-103)
interactions $\pi^- + p \to \pi^-$ + p at 2.77 GeV/c, differential cross sections for, (E), 25:1426
interactions $\pi^- + p \to \pi^-$ + p at 2.85 to 6.9 GeV/c, spark chamber study of angular distributions for, (E), 25:9684
interactions $\pi^- + p \to \pi^-$ + p at 229 to 390 MeV, polarization parameter measurements in, (E), 21:3988 (UCRL-17153)
interactions $\pi^- + p \to \pi^-$ + p at 3 to 18 GeV, optical model for amplitude of, 22:13755
interactions $\pi^- + p \to \pi^-$ + p at 3.0 to 5.0 GeV/c and 55 to 130°, scintillation counter and spark chamber study of differential cross sections for, (E), 25:47931 (COO-2009-21)
interactions $\pi^- + p \to \pi^-$ + p at 3.0 to 5.0 GeV/c and 55 to 130°, scintillation counter and spark chamber study of angular distributions for, (E), 25:59285
interactions $\pi^- + p \to \pi^-$ + p at 3.5 GeV/c, mechanism for, (E/T), 21:46535(T) (ANL-Trans-497)
interactions $\pi^- + p \to \pi^-$ + p at 310 MeV, SPDF phase shift analysis of, (E), 21:877 (JINR-P-2898)
interactions $\pi^- + p \to \pi^-$ + p at 318 and 337 MeV, phase shift analysis of, (E), 21:3988 (UCRL-17153)
interactions $\pi^- + p \to \pi^-$ + p at 4 to 8 GeV/c, differential cross section for elastic, (E), 21:11739 (NYO-2171-219)
interactions $\pi^- + p \to \pi^-$ + p at 4.65 GeV/c in hydrogen bubble chamber, study of nuclear forces from cross sections for, (E), 22:29638
interactions $\pi^- + p \to \pi^-$ + p at 410 and 490 MeV, missing-mass spark chamber spectrometer study of differential cross sections for forward elastic, 21:37715
interactions $\pi^- + p \to \pi^-$ + p at 410 and 490 MeV, missing-mass spectrometer study of differential cross sections of forward, (E), 22:22310 (CEA-R-3146)
interactions $\pi^- + p \to \pi^-$ + p at 5 to 18 GeV/c, polarization in, (E), 23:23375
interactions $\pi^- + p \to \pi^-$ + p at 5.0 GeV/c, spark-chamber study of cross sections for, (E), 25:47747
interactions $\pi^- + p \to \pi^-$ + p at 5.9 to 14 GeV/c, scintillation counter telescope and optical spark chamber study of cross sections for, (E), 22:39271 (CERN-68-7(Vol.1), pp 571-9)
interactions $\pi^- + p \to \pi^-$ + p at 50 to 150 GeV/c, design of apparatus for, (E), 24:51954 (TID-25473(Vol.4), pp 67-70)
interactions $\pi^- + p \to \pi^-$ + p at 6 and 16 GeV/c, A and R polarization parameters for, (E), 25:36406 (NP-18873)
interactions $\pi^- + p \to \pi^-$ + p at 6 GeV/c, Cherenkov counter study of polarization parameter for, (E), 24: 24227
interactions $\pi^- + p \to \pi^-$ + p at 6 to 14 GeV/c, scintillation counter and optical spark chamber study of, (E), 23:46621
interactions $\pi^- + p \to \pi^-$ + p at 6 to 16 GeV/c scintillation counter and spark chamber study of angular distributions and cross sections of backward, (E), 24:18095
interactions $\pi^- + p \to \pi^-$ + p at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions $\pi^- + p \to \pi^-$ + p at 6 to 18 GeV/c, overlap function analysis for, 22:7522
interactions $\pi^- + p \to \pi^-$ + p at 6 to 25 GeV/c, overlap function analysis of polarization in, 22:48319
interactions $\pi^- + p \to \pi^-$ + p at 600 to 1280 MeV/c, scintillation-counter study of differential cross sections and excitation functions for, (E), 25:47746
interactions $\pi^- + p \to \pi^-$ + p at 600 to 3300 MeV/c, counter hodoscope study of polarization parameter from, (E), 22:11600
interactions $\pi^- + p \to \pi^-$ + p at 650 MeV in hydrogen bubble chamber, cross sections for, (E), 22:7446
interactions $\pi^- + p \to \pi^-$ + p at 670 to 3750 MeV/c, polarization from, (E), 21:880
interactions $\pi^- + p \to \pi^-$ + p at 7.0 GeV/c in hydrogen bubble chamber, cross sections for, (E), 23: 34537
interactions $\pi^- + p \to \pi^-$ + p at 720 MeV in hydrogen bubble chamber, cross sections for, (E), 22:15687
interactions $\pi^- + p \to \pi^-$ + p at 8 GeV/c at 0 to 180°, angular distributions for, (T), 24:18198
interactions $\pi^- + p \to \pi^-$ + p at 875 to 1580 MeV/c, spark chamber study of differential cross sections for backward, (T), 24:49349
interactions $\pi^- + p \to \pi^-$ + p at 898 MeV/c, differential cross section for, (E), 23:14980
interactions $\pi^- + p \to \pi^-$ + p at 9.85 GeV/c, angular distributions for, (T), 25:36534

interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies and large momentum transfers, Regge trajectories for recurring minima in, 22:20221
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, compilation of polarization data and Regge pole model for, (E/T), 25:53186
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, differential cross sections, polarization, and amplitudes for small- and large-angle, (T), 23:36929 (JINR-E2-4479)
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, eikonal model for, (T), 25:30893 (INR-P-1233)
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, eikonal model for total cross sections and slope of differential cross sections for, (T), 25:47881
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, optical model for wide-angle, (T), 22:9589(T) (LA-tr-67-111)
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, phenomenological analysis of, 22:17962
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, phenomenological methods and correlations for, 23:30768
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, Pomeron hypothesis for form of real-to-imaginary parts for amplitude of, (T), 25:14656 (SU-1206-237)
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, predictions of quark model for large-angle, 23:21096
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, Regge poles and SU(3) for backward, 22:15796
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, Regge pole—cut model for analysis of, 25:56505
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, review of Regge poles in, 22:13750 (CALT-68-145)
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, SU(3) inequalities for amplitude differences for, 21:21287
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, sum rule for Regge pole model for cross section of, 22:37159
interactions $\pi^- + p \rightarrow \pi^- + p$ at high energies, upper limit on spin flip amplitude in, (T), 22:17958
interactions $\pi^- + p \rightarrow \pi^- + p$ at large finite energies, relations between particle and antiparticle total cross sections and phases for, (T), 24:28559
interactions $\pi^- + p \rightarrow \pi^- + p$ below 2 GeV, differential cross sections for, (E), 23:25526(T) (ORNL-tr-1926)
interactions $\pi^- + p \rightarrow \pi^- + p$ below 2 GeV, polarization of recoil proton in, (E), 23:25526(T) (ORNL-tr-1926)
interactions $\pi^- + p \rightarrow \pi^- + p$, amplitudes and πNN coupling constant from model-independent analysis of forward, (T), 25:20003 (JINR-E2-5561)
interactions $\pi^- + p \rightarrow \pi^- + p$, asymptotic theorems and SU(2) symmetry for asymptotic relation for, 23:21144
interactions $\pi^- + p \rightarrow \pi^- + p$, at high energies, unitarity conditions for imaginary part of amplitude for large-angle, 22:13743
interactions $\pi^- + p \rightarrow \pi^- + p$, backward, (T), 24:18188 (CONF-690330-, pp 217-24)
interactions $\pi^- + p \rightarrow \pi^- + p$, compilation of differential and total cross sections, polarization, and effective Regge trajectories for, (E), 25:38663 (UCRL-20001)
interactions $\pi^- + p \rightarrow \pi^- + p$, complex-angular-momentum method with branch points in j-plane for, 24:8647 (ITEF-699)
interactions $\pi^- + p \rightarrow \pi^- + p$, data tabulation of kinematics for, 22:48314 (CERN/ECFA-67/16(Vol.3))
interactions $\pi^- + p \rightarrow \pi^- + p$, determination of cross sections from OPE model and N^* production for, (E/T), 23:14966
interactions $\pi^- + p \rightarrow \pi^- + p$, eta—n bound state for scattering length and phase shift of s-wave, (T), 22:22401
interactions $\pi^- + p \rightarrow \pi^- + p$, exchange degeneracy for oscillating cross sections for, (T), 25:38745
interactions $\pi^- + p \rightarrow \pi^- + p$, generalized superconvergence sum rule for modified interference model for backward, 24:35656
interactions $\pi^- + p \rightarrow \pi^- + p$, modulus above threshold for determination of amplitude of, 22:20242
interactions $\pi^- + p \rightarrow \pi^- + p$, phase of surface reactions for polarization in, (T), 25:22826
interactions $\pi^- + p \rightarrow \pi^- + p$, Pomeranchukon exchange plus direct-channel resonances as model for forward diffraction peak in, 23:21107
interactions $\pi^- + p \rightarrow \pi^- + p$, quark model for backward, 21:4050
interactions $\pi^- + p \rightarrow \pi^- + p$, random phase K-matrix for absorption in, 21:33712
interactions $\pi^- + p \rightarrow \pi^- + p$, Regge cut corrections to Regge pole exchange for crossover between differential cross sections for $\pi^+ + p \rightarrow \pi^+ + p$ interactions and differential cross sections for, 24:18230
interactions $\pi^- + p \rightarrow \pi^- + p$, Regge pole model for invariant functions for, 23:51939
interactions $\pi^- + p \rightarrow \pi^- + p$, Regge quark model for, (T), 25:25450
interactions $\pi^- + p \rightarrow \pi^- + p$, spin amplitudes for, (T), 25:59471 (CEA-N-1456)
interactions $\pi^- + p \rightarrow \pi^- + p$, spin-flip amplitudes from polarization in, (T), 21:44374
interactions $\pi^- + p \rightarrow \pi^- + p$, survey of backward, (E), 25:45676
interactions $\pi^- + p \rightarrow \pi^- + p(\Delta^{++}) + rho^0(\pi^-)$, Cherenkov mechanism for cross section behavior of, (T), 25:56498 (IFA-HE-76)
interactions $\pi^- + p \rightarrow \pi^- + p(n) + \pi^0(\pi^+)$ at 7.0 GeV/c in hydrogen bubble chamber, angular distribution and cross sections for peripheral, (E), 23:34537
interactions $\pi^- + p \rightarrow \pi^- + p(n) + \pi^+ + \pi^-(\pi^+) + \pi^0(\pi^-)$ near threshold, cross sections for, (E), 24:3536
interactions $\pi^- + p \rightarrow \pi^- +$ particles, analysis of background in resonance-production region of, 25:47834
interactions $\pi^- + p \rightarrow \pi^- + \pi + N$, Cherenkov mechanism for analysis of cross section behavior of, (E/T), 25:41016
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ and $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 1.89 to 3 GeV/c, study of $\pi\pi$ elastic scattering using Chew—Low extrapolation method in, (E/T), 23:5613
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 1.4 to 1.5 GeV in bubble chamber, partial waves and validity of isobaric model for high-inelasticity resonance relation with three-body production in, (E/T), 24:15476 (CEA-R-3928)
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 1.7 GeV/c, cross sections for, (E), 23:7101
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 2.0 GeV/c in hydrogen bubble chamber, $\pi + \pi$ scattering in, (E), 23:25533
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 2.1 to 3.2 GeV/c, $\pi\pi$ phase shift analysis from 600 to 1000 MeV for, 22:1444
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 2.15 GeV/c in hydrogen bubble chamber, rho$^-$ production from, (E), 22:3265 (CEA-R-3291)
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 2.36 GeV/c, epsilon^0 and rho production in, (E), 23:8743
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 2.77 GeV/c in hydrogen bubble chamber, Chew—Low extrapolation for $\pi^-\pi^0$ elastic cross section from, (E/T), 21:46486
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 2.77 GeV/c in hydrogen bubble chamber, π^- + π^0 elastic scattering study from, (E), 22:3272
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 2.77 GeV/c in hydrogen bubble chamber, low-momentum transfer to proton in, (E), 23:46609 (CEA-R-3543)
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 2.77 GeV/c, production and decay of rho$^-$ in, 22:20141
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 2.77 GeV/c, $\pi\pi$ elastic cross sections and rho$^-$ production from, (E), 23:14971
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 3.63 GeV/c in hydrogen bubble chamber, rho production cross section and decay angular distributions from, 21:37704
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 5.0 GeV/c in bubble chamber, resonance production in, (E), 22:41734 (COO-1428-71)
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 552 MeV/c, $\pi\pi$ enhancement in, (E), 24:30453 (CONF-690521-, pp 316-25)
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 6 GeV/c, I = 1 di-pion resonance at 1.63 GeV from, (E), 21:15270
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 6 GeV/c, spin of g$^-$(1640) from, (E), 23:5536
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 650 MeV in hydrogen bubble chamber, cross sections for, (E), 22:7446
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 7 GeV/c, $\pi^-\pi^0$ phase shifts and mass enhancement from, (E), 23:42562
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 7 GeV/c, $\pi^-\pi^0$ phase shifts in 1.0 to 1.2 GeV region from, (E/T), 24:30521 (CONF-690521-, pp 75-92)
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 7 GeV/c, $\pi\pi$ phase shifts to 1.4 GeV from, (E/T), 24:37661
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ at 8 GeV/c, production of rho- and g- in, (E), 24:3533
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$ in bubble chamber, rho production from, 21:42267
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$, characteristics of diffraction dissociation for, 24:8657
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$, chiral-dynamics calculation of cross sections for, (E/T), 24:35654
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$, partial-wave amplitudes for, 21:18995
interactions $\pi^- + p \rightarrow \pi^- + \pi^0 + p$, relativistic many-channel resonance formula for rho resonance parameters from, 23:21104
interactions $\pi^- + p \rightarrow \pi^- + \pi^0(\pi^+) + p(n)$ at 1.400 to 2.000 GeV in bubble chamber, mass and angular distributions for, (E), 25:47741 (SLAC-131)
interactions $\pi^- + p \rightarrow \pi^- + \pi^0(\pi^+) + p(n)$ at 7.0 and 25 GeV in hydrogen bubble chamber, (E), 22:9512
interactions $\pi^- + p \rightarrow \pi^- + \pi^0(\pi^+) + p(n)$ at 720 MeV in hydrogen bubble chamber, cross sections for, (E), 22:15687
interactions $\pi^- + p \rightarrow \pi^- + \pi^0(\pi^-) + \pi^0(\pi^+) + p$ at 7.0 GeV/c in hydrogen bubble chamber, rho, A_1, A_2, A(1230), N(1490), N(1680), and N(1710) production in, (E), 25:7561
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + 2\pi^0 + n$ at 4 GeV/c, π^0 production cross sections for, (E), 21:876 (JINR-P-2885)
interactions $\pi^- + p \rightarrow \pi^- + \pi^- + \Delta^{++}$ at 11.2 GeV/c in hydrogen bubble chamber, double Regge-pole model for quasi-three-body states in, (E/T), 24:32969
interactions $\pi^- + p \rightarrow \pi^- + \pi^- + \Delta^{++}$ at 2.7 to 4.2 GeV/c, cross sections for elastic π^- + π^- interactions from, (E), 25:33557
interactions $\pi^- + p \rightarrow \pi^- + \pi^- + \Delta^{++}$ at 6 GeV, double-Regge-pole model analysis of, (E/T), 24:49330
interactions $\pi^- + p \rightarrow \pi^- + \pi^- + \Delta^{++}$ at 6 GeV/c, double-Regge-pole analysis of, (E), 24:15486
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + m\pi^0 + n$ at 4 GeV/c in propane bubble chamber, analysis of, (E), 21:31535
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n + 2\pi^0$ at 4 GeV/c in propane bubble chamber, $N^*(>2000)$ production from, (E), 22:17866 (JINR-P1-3677)
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ + neutrals at 1.45 to 1.52 GeV/c, spark chamber and scintillation counter study of X^0 production from, (E), 22:17876
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 1.085 GeV, spark chamber study of $\pi^+\pi^-$ system from, (E), 22:15685
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 1.245 GeV/c, search for $\omega \rightarrow \pi^+ + \pi^-$ decay in, (E), 24:40265 (NEVIS-182)
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 1.3 GeV/c, π—π elastic cross section from, (E/T), 21:33615
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 1.38 to 3.00 GeV/c, rho^0 production and decay angular distributions from, (E/T), 22:3437
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 1.4 to 1.5 GeV in bubble chamber, analysis of three-body production in, (E), 24:15476 (CEA-R-3928)
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 1.400 to 2.000 GeV in bubble chamber, $\Delta(1236)$ production in, (E), 25:47741 (SLAC-131)
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 1.5 BeV/c, dipion mass spectrum from, (E), 21:23314 (BNL-994, pp 70-102)
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 1.59 to 3.22 GeV/c, $\pi^+\pi^-(480)$ resonance structure in, (E), 23:42576
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 11 GeV/c, double Regge model for anticornering effect in Dalitz plot for, 23:23483
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 11.2 GeV/c, $\pi^+\pi^+(946)$ enhancement in, (E), 22:48232
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 15 GeV/c, absorptive OPE model for, (E/T), 25:40902
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 15 GeV/c, differential cross section, $\pi\pi$ mass distributions, and density-matrix elements for, (E), 25:33568
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 16 GeV/c in hydrogen bubble chamber, production cross sections for rho^0 and f^0 and total cross sections for, (E), 24:26376
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 17.2 GeV/c, spin and parity of g resonance from, (E), 25:45681
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 2.1 to 3.2 GeV/c, $\pi\pi$ phase shift analysis from 600 to 1000 MeV for, 22:1444
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 2.10 GeV/c in bubble chamber, cross section for ω production in, (E), 22:24566
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 2.15 GeV/c, sign of $\pi\pi$ phase shift from, (E/T), 24:48216
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 2.26 and 2.36 GeV/c, I = 0 $\pi^-\pi^+(1070)$ enhancement in, (E), 25:1421
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 2.3 GeV/c in hydrogen bubble chamber, rho—ω interference in π^- + π^+ mode in, (E), 24:51963
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 2.3 GeV/c in hydrogen bubble chamber, rho^0—ω constructive interference in π^- + π^+ decay mode in, (E), 24:51952 (NYO-2171-319)
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 2.3 GeV/c in bubble chamber, rho—ω interference in, (E), 25:17384
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 2.3 GeV/c, rho^0 decay angular distribution from backward production in, (E), 24:35612
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 2.36 GeV/c in hydrogen bubble chamber, asymmetry for rho^0 production from, (E), 22:13668
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 2.36 GeV/c, angular distribution of $\Delta^-(1236)$ production in, (E/T), 22:24557
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 2.36 GeV/c, N^{0*} and rho production from, (E), 21:17050
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 2.36 GeV/c, $\pi^+\pi^-$ and $\pi\pi^-$ effective mass distributions from, (E), 21:17058
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 2.7 and 4 GeV/c in bubble chamber, breakdown of vector dominance relation in rho^0 and ω production in, (E/T), 23:14993
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 2.7 and 4.2 GeV/c, $\pi\pi$ s-wave elastic scattering phase (E), 22:24562
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 2.7 GeV/c, production of I = 0, $\pi^-\pi^+(1050)$ enhancement in, (E), 23:3644
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 2.7 GeV/c, $\pi\pi$ S-wave phase shift in rho region for, (E/T), 21:11774
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 2.77 GeV/c, elastic cross section for $\pi^+ + \pi^-$ interactions from, (E/T), 25:9669
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 247 MeV, total cross sections for, (E), 24:45429
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 290 MeV, π^+ + π^- elastic scattering cross sections from, 21:31536
interactions $\pi^- + p \rightarrow \pi^- + \pi^+ + n$ at 3 to 5 GeV/c, counter—spark chamber study of $\pi + \pi$ interactions and $\pi\pi(645)$, $\pi\pi(936)$, and $\pi\pi(1029)$ enhancements in, (E), 25:43555
interactions $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ at 3 to 5 GeV/c, counter—spark chamber study of dipion production in, (E), 25:47742 (UCRL-19464)
